## OIL PROSPECTS AT ANCHO

Country Located For Several Miles in all directions. Claims Taken Under the Placer Laws.

## BLOCK RANCH CATTLE SHIPMENTS.

Regular Correspondence:

Your correspondent visited the oil field at Ancho or the Comrey well and find they are down 326 feet in a black slate with good oil indications. The country is about all taken up with placer locations for two miles around the well.

The Rock Island Cement and Plaster Co., with J. A. Bush as manager, are building a mill for the treatment of the gyp, which is 70 by 40 feet in the clear and four stories or 56 feet high, which will supply plaster for the market. It is of a good grade, hardens very fine and makes a house of good appearance. They also have a store, saw mill and post office, situated on their grounds.

C. F. Goddard who lives one mile above the station has a fine ranch and a lot of the finest plymouth rock and wyandott chickens in the territory. With good luck he has a fortune in chickens alone, but he is some what in the farming business and has ten acres sowed in oats part of them look very fine, and a rain now will make good green feed for the winter, he also has some gyp claims located which may prove very valuable in the near future.

Mr. Walters who is located about one mile to the northeast of Goddard, has a very fine horse ranch with plenty of water and grass.

Messrs. Hightower and Hyde have a well of water that will water 5,000 head of cattle, this shows very good for a dry country.

The Block company shipped 12 cars of beef cattle from here on the night of 6. This is an ideal shipping point, as good pens as the country can afford. Will give a more full and detailed description of this part of the Jicarilla and Ancho Gulch in the near future.

## ITEMS OF COMMUNITY INTEREST.

Regular Correspondence.

J. E. Morrison, who has been living on the school section close to Picacho, has bought 80 acres from the Analla ranch; price \$800.

Solomon Luna bought 2500 head of sheep from the Lincoln Trading Co., at \$2.40 per head. He is taking them to the Rio Grande.

We are sorry to record the death of James Simpson, of Aroyo Springs, Mo. Mr. Simpson was a resident of Hope, Eddy county, N. M., where he was employed as clerk by Messrs. Whitaker & Gage. He died while on a visit to Mr. Clement's family. The remains are interred at Picacho.

The Hondo seems to be a popular place, judging from new arrivals. We note with pleasure the following: Geo. Clements, Junction City, Tex., and Jas. Lindley, Hope, N. M. They are in search of ranches and we hope they will secure what they want in this neighborhood as they are the kind of people every community needs.

Mr. Smith Lee, of Roswell, is visiting Mr. and Mrs. Lumbley. He is bringing about 5000 head of sheep this way to graze in this vicinity.

Messrs. J. H. Clements, Geo. Clements and Carl Adamson have gone to Eddy county to look after their interests in the sheep business.

The public school at Picacho opened up last Monday, Sept. 1st with a fairly good attendance, there being 47 children present the first day, the number gradually increasing during the week. The enrollment is expected to reach 70 during this month. A large per cent of the children being Americans.

The Mexican dance, Saturday night, at Cuba, broke up in a row. Whiskey, of course. Nobody hurt. Where were the officers???

The Arkansas state election is democratic by a majority of 45,000 votes.

## THE PYTHIANS WILL ENTERTAIN.

Regular Correspondence.

There seems to be an intimacy existing between our burg and your town judging from the familiar faces from the Oaks that are seen on our streets.

And not only do we see familiar faces, but each day brings strangers, seeking for homes in our midst. Therefore, we will give you a few items as it may be of interest to your many readers.

From early morn till night the sound of the hammer and saw are heard. We now have new restaurants, blacksmith shops, butcher shops, drug stores, etc., and many dwellings are receiving repairs or additions.

Uncle Tom Henley is quite sick. He has been brought home from the A. M. & M. Co., where he had charge of the mercantile department. Anton Hogval is now filling his place there.

Lula Lightfoot and Mrs. A. T. Roberts have been on the sick list for the past week. We hope for a speedy recovery.

J. H. Canning, of the Nogal Mercantile Co., is in Chicago, making the winter purchases for the company. We understand the company is going to put in a special dry goods department.

We have received at Walnut, this week, a car each of flour, corn, and lumber which means more bread, fatter horses and better houses.

Clark Hust, wife and mother, accompanied by Mrs. Charles Henley, will start in a few days for the Palomas hot springs.

A. T. Roberts is trying to count the children of this school district, but from the present increase—I mean in population—he will have to use the multiplication table.

Rev. Dodson, Baptist minister, is conducting an interesting meeting this week.

W. A. McIvers and wife have just returned from a visit to Albuquerque. They report a pleasant trip.

Mc. says he has arranged for

every Lincoln county man to have a free ride on the hobby horse during the coming fair. We should stand by Mc., when he says we should have exhibits there of our mining and agricultural products. Nothing like showing goods to sell 'em.

The Pfingsten Bros. are delivering more machinery for the American Co. This company is placing some of the very best machinery and are building large and substantial buildings to protect it.

To a one-eyed man it would look like some one had confidence in Lincoln county and her resources.

The K. P's are going to have a ball on the 26th. and a very pleasant time is anticipated. Say, get your folks ready and come over.

I will close for my first effort. Kindest regards from the boss to to the devil.

I. O. PINE.

## LOCAL and PERSONAL NEWS.

Miss Nettie Lee is reported very sick.

A. Schinzing left Wednesday night for an extended trip east.

M. H. Koch is building a house for F. M. F. Hunt at Carrizozo.

E. W. Hulbert, republican candidate for treasurer and collector, came up from Lincoln yesterday.

Capt. P. L. Krouse, republican nominee for Commissioner 3rd district, was among the voters here yesterday.

Miss Agnes Leonard, Parkston, South Dakota, sister of Mrs. F. M. Lund, came in Wednesday. She will spend the winter here.

Jones Taliaferro returned yesterday from Las Cruces, where he went to place his son, Richard Taliaferro, at school in the Agricultural College.

T. B. Wilson and Neil Lykke, Chicago, Chicago real estate and investment brokers, were here with J. M. Rice, looking at the mining resources of the White Oaks district. They were highly pleased with White Oaks mining properties and will invest here.

Dr. Thurman Willaims, dentist, brother in law of Dr. M. G. Paden, intends leaving Saturday, returning home to Chickasha, Ind. Ty. He has been visiting here some weeks. He is so thoroughly in love with our summer climate that he intends building a cottage here and bringing his family out next year with him.

**A Clubbing Offer.**

The EAGLE has just effected a clubbing agreement with the Daily Mining Record, Denver and Cripple Creek, Colo., whereby we can give new subscribers or those renewing their subscription, the EAGLE and the Saturday issue of the Daily Mining Record one year for \$2.00. The regular subscription of the Record's Saturday edition is \$2.00; that of the EAGLE \$1.50; price of the two papers \$3.50; by taking advantage of the clubbing offer \$1.50 may be saved.

The Saturday edition of the Record is a compendium of mining information and makes a summary of the matter published in the daily during the week. The Record is the only daily mining paper in the world and the Saturday is 7 columns and 20 to 30 pages, containing, besides valuable editorials on mining and metallurgy, mining news from all over the world, and is devoted especially to the mining enterprises of the Rocky mountain region. Stock quotations are given and all substantial mining concerns listed, while all wild cat schemes and black leg companies are exposed.

If you are interested in mining you can't afford not to take advantage of this offer.

**Alaska Gold**

There is a considerable falling off in the gold production of Alaska this year on account of the bad weather experienced in the mining regions. The production last year was more than \$24,000,000 while this year it will reach little more than \$14,000,000, nearly one half. No new discoveries of consequence have been reported.

**Gold From Desert Sands.**

The latest scheme for extracting the fine gold from the desert sands of Arizona is the invention of an eastern man which will be operated in the next few months in the southwest. It is backed by Philadelphia capitalists who are getting ready for business.

### OIL INDICATIONS.

Considerable excitement has been manifested here this week over the reported discovery of oil in the well being put down by Comrey Bros., near Ancho station. A party composed of Messrs. Jones Taliaferro, Chas. Spence, H. C. Crary, Stanley Taliaferro and others went out to see Comrey Bros. last week and brought in a small quantity of the sands which when examined show quite strong evidences of crude petroleum. In fact the drillings coming from the well smell strongly of oil.

Comrey Bros. have had several years' experience in the oil regions of Pennsylvania, and they are very certain of a good paying strike, and think it only a question of depth until oil may be had in paying quantities.

Work is being rapidly pushed and those interested hope to soon know the results. Comrey Bros. have been strong advocates of the oil theory for this section for several years, and there is no question that they now have positive proof that it is here in limited quantities, if not in abundance.

John Brotherton, who is considered the best authority we have

in this locality, on oil conditions, offers some very convincing arguments that oil is here. "The old theory, says Brotherton, that oil comes from coal has long since been exploded in the oil regions; oil is formed from salt water and iron and is continually making as time goes on, and furthermore, in the 20 years, or more, I have been engaged in the oil business, I have never seen anything in the geological formation of a district that I considered a safe criterion to go by, but oil, as my experience has taught me, is generally found to exist in a subterranean stream, bearing a northeast and southwest trend, and as a verification of this statement, if a rule is placed on the map touching Cheyenne, Wyo., Boulder and Florence, Colo., and Tamazula, in the state of Durango, Mexico, all oil producing sections, the force of the argument will be readily seen. And so far as this effects White Oaks and the vicinity in which Comrey Bros. are now sinking, they are near the line of this trend and White Oaks is exactly on the line with the foregoing mentioned places. It was this condition that led to our sinking the well at this place, and not from the existence of geological formations which we considered indicative of oil. We are reasonably certain that we will get oil in this well, but expect to have to go two to three thousand feet, however, if we fail in this we will yet put down other wells here, as we feel sure that we are in the right locality."

This information from Mr. Brotherton makes White Oaks people feel a deep interest in the matter and every body is anxious for the well here to go down with the greatest dispatch possible. The new machinery, which is the best the markets offer for this purpose has been secured and the derrick is being raised in preparation to install it. The money is in hand to do the work and the next few months promise a great deal for White Oaks.

### ROSWELL JOURNAL.

C. C. Emerson, of the Carlsbad Current, is launching a newspaper enterprise at Roswell that promises a great deal for democratic Journalism in New Mexico. A few of our territorial craftsmen are throwing barbed wire boquets at his boldness, as they term it, in entering a field already so ably represented by the Roswell Record and Register. They have, perhaps, forgotten that there is always room at the top in Journalism, as in other professions or avocations, and our acquaintance with Mr. Emerson, which dates back to school boy days, gives us reason to believe him equal to the undertaking of establishing a democratic newspaper at Roswell that the democ-

If those who are, apparently, so solicitous about the life and prosperity of the Roswell Journal, think Emerson does not understand the conditions confronting him, there is a genuine surprise awaiting them. This paper will be a success, or we miss our guess. Any way, Emerson, here's hopin' you 20-years' good business.

### PROSPERITY.

According to statistics published Chaves county has about 2,000 acres in apple orchards, containing 150,000 bearing trees and 50,000 two and three year olds. It is calculated that another 1,000 acres will be planted by the end of next spring. The lowest price received per acre, this season was \$50 net per acre.—Portales Herald.

A special session of the Pennsylvania legislature is being demanded for the passage of laws giving the states greater control over foreign corporations doing business in the state, fixing an eight hour day for all employes under 21 years of age in the coal mines and prohibiting common carriers from being interested in the production of any industry, or rather to enforce the state constitution which provides for the taking away of charters when common carriers violate this provision.

### ARIZONA'S CANDIDATE.

Tucson, Arizona, Sept. 2.—J. Frank Wilson, of Yavapai county, will probably be nominated by the democratic territorial convention that convenes in this city tomorrow, for delegate to congress. Charles Shannon, Wilson's leading opponent, withdrew last night and threw his forces to Wilson.

The platform will demand an eight hour law, a law providing for a mine inspector, for a tax on bullion, and will declare for statehood and national irrigation.

Ex-Gov. and U. S. Senator McMillan of Michigan died at Manchester, Mass. of heart failure.

The bubonic plague has again made its appearance. Texas authorities are taking precautions to keep it out of the state.

A big fire in the business center of San Angelo, Texas, destroyed the Landon hotel and burned to death several people.

E. H. Talbert was in from Jicarilla.

Miss Hickman returned to Alamogordo Sunday.

Leslie Ellis and family came up from Lincoln Saturday.

Chas. and Will Smith visited Carrizozo ranch Sunday.

Frank Lesnet is employed by the Taliaferro M. & T. Co.

J. E. Wharton went to Tularosa Sunday night on legal business.

Judge M. H. Bellomy is painting roofs of his avenue property.

Jose Serrano and wife, Puerto De Luna, are visiting friends in the city.

Bud Smith has returned from Oklahoma. He was looking for a ranch.

Elbert Collier lost five head of fine Angoras last week. A lion did the work.

The public school opened here Monday with 100 pupils in attendance.

John M. Keith has gone to Texas to visit his parents. Mr. Keith will be away a month.

Ray Miller has been appointed deputy post master under John A. Brown.

Col. and Mrs. Prichard will occupy the handsome Stewart residence on the south side.

Ed Coe, democratic candidate for Supt. of Schools, sold a wagon load of apples here Saturday.

Thomas H. Walsh will attend the Grand Lodge Knights of Pythias, at Santa Fe next week.

John H. Canning, of the Nogal Mercantile Co., was among the Nogal quota of visitors here Saturday.

Col. Geo. W. Prichard is preparing to begin development work on his Lone Mountain properties.

Richard Hamilton, Jno. Lane and Richard Taliaferro went to Las Cruces to attend school at the A. & M. A. College.

A. D. Pankey made a trip to the Jicarilla country Saturday and Sunday with G. W. Grove. They are looking for a ranch location.

Charles Henley and Wm. Henley, Jr., Nogal, stayed here Friday night, en route home from a few days visit to the Jicarilla mining district.

Dr. H. G. Miller, Justice of the Peace, and J. P. C. Langston, Constable, have received official notice of their appointments, and are now ready for business.

L. H. Rudisille and P. Smith went to Jicarilla Monday morning. Mr. Smith has mining interests in that camp and is doing a limited amount of prospecting.

Geo. W. Harbin, of the Rico Mining Co., passed through Monday, going to Jicarilla to look after his company's mining interests in that camp.

Geo. Kimbrell, Picacho, sold a wagon load of pears here Monday. The pears were fine ones and were grown on his Picacho orchard. This is truly a great fruit country.

Dr. M. G. Paden went to Roswell last week to again place his son, Brent Paden, in the New Mexico Military Institute. This will be Brent's fourth year at Roswell and he is making a splendid record. Dr. Paden returned Sunday.

That Lincoln is a fruit county equal any thing known to man, may be proven, here at White Oaks, in a few minutes, by going to Dr. M. G. Paden's orchard, where apples, peaches and other varieties of perfect fruits are now growing.

Alice McMains has accepted a position in the Tucumcari public school and left White Oaks on the north bound El Paso-Rock Island train Friday night for Tucumcari and began her work Monday, the 8th. The EAGLE wishes Miss McMains a successful year in this new field.

Wallace and John Gumm came in from Roswell with fruit and vegetables. This section of New Mexico needs more people engaged in the production of fruit and agricultural products. Splendid profits may be made in these lines in Lincoln county and the time will probably never come when the home production can supply home demands.

J. P. C. Langston, road supervisor, has put our roads, leading into White Oaks, in fine condition. Good roads are a positive necessity, and a stranger coming into a town or community is always impressed one way or another by the condition of the public roads. Good roads indicate a prosperous community and an active people, who look as well to the interest of their town and the general prosperity of the community as to their individual profits.

Stanley Taliaferro, well known in Lincoln county and many years a citizen of White Oaks and member of the firm of Taliaferro Mercantile & Trading Co., and brother, of our fellow-townsmen Jones Taliaferro, has spent a couple of weeks here visiting his mother, and his brother and family. Mr. Taliaferro is now engaged in the mercantile business at Watseka, Ill., and has a flourishing business in that city. He has a host of friends here who are glad to see him and who are pleasantly reminded of old times by meeting him on the streets of White Oaks.

**Serious Runaway.**

Mrs. H. C. Crary and Mrs. Jno. A. Brothers were driving, Sunday afternoon, near the Gallacher ranch. The team became frightened, and in making a short turn upset the buggy throwing both of them out, piling buggy and occupants all in a heap together. Mrs. Crary sustains many painful bruises and Mrs. Brother's face and hands cut in many places and her right arm broken between the shoulder and elbow.

After the catastrophe Mrs. Crary with difficulty made her way to Dr. A. G. Lane's, a distance of nearly a mile, and reported the accident. Mrs. Brothers was found lying on the road side some distance from the buggy, unconscious. She had managed to pull herself out of the wreck and had started home, but overcome by pain from her wounds had fallen helpless on the road side. She was removed to the residence of Mr. and Mrs. Crary and Dr. Lane summoned to dress the wounds and set the arm.

Mrs. Crary is reported to be rapidly recovering and is able to be out, while Mrs. Brothers is still suffering a great deal of pain.

**Camping In Carrizo.**

Messrs. L. W. Stewart and Frank J. Sager and their families are camping in Water Canyon, Carrizo mountains, this week. This is a sensible outing. It is only an hour's drive from town and there is not a more beautiful place in New Mexico; while they swing in their hammocks at an altitude of 8 or 9 thousand feet above sea level and enjoy the cool breezes under the mountain pines they may look away for many miles over a beautiful and picturesque country or down upon their homes in White Oaks below them. More people will adopt this plan for summer outings as time goes on instead of making a three week's trip to old Blanco which is attended with more or less expense besides a great deal of unavoidable hard work to get to a desirable camping place, and often when you have reach it, it is so thickly populated with camper's tents that one would almost as well be in town.

**Let us Produce More at Home.**

There are many thousands of dollars worth of stuff shipped into Lincoln county every year, most of which could as well be produced at home. There is not half the acreage of corn, oats, wheat and barley that should be. Prices are always good and it has been demonstrated that profitable crops may be grown without irrigation. Fred Pfingsten whose farm is on the mesa south of Nogal made more than \$1,500 profit out of corn alone, besides his fruit and vegetable crop, last year.

**Carrizozo Shocked.**

The train crew running between Capitan and Carrizozo, who put the night in at the latter place on coming in told of a horrifying experience Tuesday night. According to their story Carrizozo was visited by a series of seismic shocks Sunday night, which greatly alarmed the residents of that place. Three distinct shocks were felt, which lasted for from fifteen to thirty seconds. Fortunately they were very light, no damage whatever resulting.—X.

A prominent man of White Oaks was at Carrizozo on the night of the reported earthquake shock and states that the only disturbance he heard was a man snoring in the next room.

## Mining guano.

A large company has been organized to work the guano beds at Lava, Socorro county, New Mexico. The chief promoter of the enterprise is Dr. S. M. Woodbridge of Pasadena Cal.

Articles of incorporation have been filed in Santa Fe county, New Mexico. The name of the company is the Los Angeles Chemical works and the share holders are California capitalists.

In speaking of the new enterprise the Albuquerque Democrat says:

“The object of the company is to buy, manufacture, sell and deal in oils, fertilizers and mineral products of every nature. The term of existence is fifty years. The capital stock is \$20,000, divided into 200 shares of \$100 each. The headquarters of the company is in Los Angeles and the principal place of business in New Mexico will be Lava, Socorro county, with S. M. Woodbridge as its New Mexican agent.

The guano veins around Lava are believed to be among the most extensive in the world and the phosphates mined there are ready for use as fertilizers without chemical treatment, requiring only the crushing.

Dr. Woodbridge has already installed a complete plant at Lava and has been operating there for some time with great success. It is understood that the chief purpose of the new company will be the mining and marketing of this natural fertilizer.”

Uncle Sam is now accused of being a buyer of job lot islands and marine curios.

**Thrice-a-Week World.**

Time has demonstrated that the Thrice-a-Week World stands alone in its class. Other papers have imitated its form but not its success. This is because it tells all the news all the time and tells it impartially, whether that news be political or otherwise. It is in fact almost a daily at the price of a weekly and you cannot afford to be without it.

In addition to news, it publishes first-class serial stories and other features suited to the home and fireside.

The Thrice-a-Week World's regular subscription price is only \$1.00 per year and this pays for 156 papers. We offer this unequalled newspaper and **WHITE OAKS EAGLE** one year for \$2.00.

**Pecos Valley Stock Trains.**

Beginning on last Monday, July 28, 1902, and continuing every Monday thereafter up to and including November 24, 1902, we will run a weekly stock train for Kansas City, St. Joseph and Chicago markets, on the following schedule:

Where connection will be made with train No. 428 on the A. T. & S. F. Ry. We shall make every endeavor to run this train promptly on above schedule, but this notice is not a guarantee that we will do so. Shippers should file orders for cars at least three days before the date on which they expect to load.

The Fort Worth & Denver City Co. will run a similar train to connect with our train at Washburn at midnight Monday.

We will continue to handle trainload shipments, with proper notice, on any day of the week, as suits shipper.

**Litigation Ended.**

In the District Court of Socorro county, New Mexico, August 2nd, an important mining suit, which has been pending for years, was decided in favor of Rolla Wells, the World's fair mayor of St. Louis. The suit involved in ownership of an important interest in the Helen Rae group of gold mines in Nogal, New Mexico, property valued at \$1,000,000. Ten years ago Watson of White Oaks commenced the suit and obtained judgment. The case has been bitterly fought ever since. Preparations are now making to work the mines on a very large scale.—Socorro Chieftain.

In regard to what is said concerning the working of the Helen Rae mine in the foregoing paragraph, the **EAGLE** will add that the group of which the Helen Rae is the most developed, is now being extensively worked, and a stamp mill and other machinery being installed.

He states that the ore carries 68 per cent of iron, which makes it the best ore he ever analyzed. The theoretical percentage of iron for this class of ore is 70. Prof. Jones makes the unqualified statement that these deposits surpass any other west of the Mississippi river.
