Whole No. 176

National banks are chartered by the United States government and their affairs are closely looked after, not only by the officers of the banks, but by the government as well. Frequent examinations, stringent regulations and wise precautions more than doubly safeguard your funds. This is a National Bank and is conducted in a way that merits your confidence. The government keeps an account here.

Let OUR BANK be YOUR Bank

**The Brady National Bank**  
OF BRADY

#### OPENING NEW HOUSE.

McCully Co. Open Monster Fort Worth Establishment.

McCully Co. have opened in Fort Worth what is said to be the largest hide and wool house in the world. They have secured a splendid location near the T. & P. depot, the building being two-story and basement. The Fort Worth branch will be state headquarters for this big concern, and after the 1st of the year H. K. McCully will have charge of the branch and all north and east Texas territory, while H. P. Roddie will manage the west Texas houses from the Brady branch. This big firm has made remarkable progress in the past few years and ranks as one of the biggest concerns in this part of Texas.

#### SELLING OUT EVERYTHING.

Stock and all fixtures must go by January 1st. Come and buy your fall bill and save money.

The best stock of ladies and children's shoes in Brady. The best line of boys' clothing. A good assortment of young men's clothing, sizes 33 to 38.

TIPTON & STRIEGLER.

The Mexican, who was so dangerously wounded in a quarrel with another Mexican a few weeks ago, is said to be on the high road to recovery, having successfully undergone an operation for the removal of his left arm at the shoulder. The recovery is all the more remarkable from the fact that the man is 67 years old, and that he had nearly bled to death before medical aid was summoned and in addition gangrene had set in.

## BRADY FOLKS ASSIST STREET CARNIVAL HERE

### HELP OUT ON HOWARD PAYNE FUND.

People Rally Around College in Loyal Manner—But \$500 Yet to be Raised.

Pastor L. M. Mims of the First Baptist church went to Brady on Friday last and remained over until Monday in an effort to raise money for Howard Payne college dormitory. He was very successful in his undertaking, and as a result there remains but \$500 to be raised to complete the dormitory fund. The people of Brady have contributed liberally when the depressed conditions are considered, and their loyalty is the source of much pleasure to the friends and patrons of the school. During the four days' stay in Brady Pastor Mims secured \$509.10, which leaves but \$500 more to be raised on the dormitory fund. This he is confident will be raised within the next few days.

Mr. Mims says he believes the Brady collection is the best that has yet been made outside of Brownwood at any one time, and he is gratified to know that the work of raising funds is almost over.—Brownwood Bulletin.

Joe Matthews was over from the ranch the first of the week wearing a happy smile. It certainly does Joe lots of good to get back to bully old beautiful Brady, after having to spend several days in the fastness of this unloved county of magnified Menard. Joe reports that he and Jim are doing some good work at improving their ranch, and still believes he can make a paradise out of at least this portion of Menard county.

Boy Crothers and Ernest Noble have returned from A. & M. and will spend the holidays at home. Since the burning of the mess hall at College Station, the students have been entirely without accommodations in this line, and as a result the college has suspended until January 4, by which time it is hoped to have arrangements completed for the care of the students.

The handsome new residence on the north side under construction for Dr. G. P. Callan and family, is fast nearing completion, and will be an added improvement to the residence district. The house will be occupied by the doctor and his family as soon as completed.

The ladies of the Methodist church will serve chili and coffee at the Bazaar of the Zones Saturday noon in the Masonic building on Blackburn street. Everybody invited.

Don't delay the purchase of your Christmas suit any longer. Order now. Nuff sed. Kirk. "The old reliable."

### ATTRACTION IN BRADY NEXT WEEK.

Said to be the Best Carnival Company Going—Fire Department Benefit.

Harry S. Shields and E. E. Montgomery, representing the Woods' Great Alamo Show and Carnival Company, are in the city arranging for the coming of this attraction next week. At its meeting last Tuesday night the City Council gave permission for the company to use the south, west and north sides of the square for the placing of their attraction.

Woods' Alamo Show and Carnival Company has featured in Texas for the past nine years, and is everywhere regarded as one of the best, cleanest and most classy attractions in the state today. The directors of the San Angelo Fair paid \$700 to secure this attraction for their fair, and Brady citizens who saw the attractions in that city are unanimous in declaring it the best they ever saw.

The company comes here from Coleman where it is showing this week, and will arrive in time to open the week's engagement on Monday the 11th. The show includes attractions in the way of wild animals, vaudeville, minstrels, Ferris wheel, merry-go-round, etc., and has a splendid band which will give free open air concerts every day in the week. The shows will be open every day and night.

An additional feature of interest in connection with the coming of the show, is that the local fire department will derive a per cent of the profits. This feature in itself commends the show, and Brady citizens could wish for no better opportunity to assist the boys.

#### Selling Cars.

Brady Auto Co. report the sale of four cars last week, one to Lee McShan, a Whiting, a Cadillac to J. L. Latham of Fredonia, an E-M-F 1912 roadster to A. Reissner, and a 4-passenger E-M-F to Dr. J. E. McKnight. This firm has made a remarkable record for selling cars this year, having to their credit 50 cars since the present management took charge a year ago last May. Since the middle of September they have sold an even dozen cars—a record of which they are justly proud.

#### Wells Fargo Office.

The Wells-Fargo Express office was this week moved to the Scott Grocery Co. building, where an office room has been provided in the east end of the building.

Suits that are guaranteed all wool for \$12.50, made to fit—write, at Baker & Callihan.

"WHERE THE PEOPLE TRADE"

#### ABOUT BROOM CORN.

Information from a Broom Corn Grower.

Our friend C. E. Korff, living 9 miles south-west of town, just couldn't stand it any longer—he had to take our advice and subscribe for The Standard. Incidentally he stated that he was interested in G. W. Vineyard's statement last week concerning broom corn growing and broom corn machinery, which shows that he does read The Standard.

Mr. Korff has had some 14 years experience in the raising and marketing of broom corn, and stated that he would gladly furnish Mr. Vineyard with any information he may desire. He further stated that it was entirely unnecessary to purchase expensive machinery, as it could be made just as well at home. That broom corn is a much more profitable crop than cotton, was the emphatic statement of Mr. Korff, but it takes a large number of hands to handle. When the corn gets ripe, it must be gathered immediately, and the seeds must be threshed before the corn dries. In this country it is not necessary to dry in houses, as it will dry in the field in three days. However, no rain, or even dew must touch it. Mr. Korff at one time planted 40 acres, putting in ten acres at a time at intervals of about ten days. In spite of this precaution he says some of the corn ripened before he could gather it and was lost. He expects to plant a small patch this

year, and will be glad to cooperate with other farmers in the matter.

Our good friend, Johnson McDonald, of the Melvin community was here last Saturday and dropped in long enough to let fall a few interesting items. Mr. McDonald stated that he, together with Mrs. McDonald and their daughter, were at Georgetown at the time that Cal P. Rodgers passed over the city in his airship. Mr. McDonald said the incident was one never to be forgotten. Rodgers was flying at so high an altitude that he resembled more a big buzzard than anything else, and he was flying at so rapid a rate that it was scarce seven minutes from the time he was first sighted until he had been lost to view. Mr. McDonald saw the craft and the rider very distinctly, although he said the planes, which were 35 feet across look no larger than six feet at the most. Mr. McDonald made the trip to Georgetown in his Cadillac, and says he never enjoyed a trip greater, more especially since not the slightest accident marred the journey, and the entire cost of the trip was \$1.65 worth of gasoline.

Nothing left from last year to show you in Christmas goods, but all new at the Penny Store.

#### Some Turkeys.

McCully Company report having marketed some 3,700 turkeys during the Thanksgiving season, which exceeds by far any previous record made.

## HOLD COTTON IN BRADY

### A CITIZEN STATES PLANS AND BENEFITS.

**Holding Cotton in Brady at Six Per Cent, and What it Means to the Farmer.**

The following article concerning the proposed cotton holding movement in Brady has been prepared by one of the promoters of the plan, and should prove interesting reading to those concerned or who may be benefited by such a movement.

"We want to help you, and think we are on the right track, until something better turns up. Never in the history of farming has such an effort been made as at present. You first had England and France with \$400,000,000.00 for you, advising you to hold; next the Governors of all the South put you on the back, saying we are your friends first, last, and all the time, and will at least try and devise means for your betterment. They no sooner sounded their key note than New York bankers came down with her \$50,000,000.00 and want you to hold your cotton; and every leading newspaper in America is supporting you.

**Why Hold.**  
"Taking the market today, right in the face of the National Ginners report, is unsteady, and not safe. Every buyer you meet has had the best pull they have ever had, and just as long as they can persuade you that 7c cotton is in sight, then you will sell. It has been their slogan for months, and when you do sell, you are feeding the fat bears.

"In holding cotton away from home, we get suspicious, and every day new suspicions pile up, and some from spite persuade you your cotton is sold, etc., as soon as it arrives in Galveston (this is a malicious lie as far as H. Kempner is concerned). Your cotton is safe and in sight, always on demand. Anyone doubting this can have their expenses paid there and back, if it is not the case.

"However, we think any of them are too far away, and besides any difference we might have in grades and weights, etc., we have no recourse but to have them corrected. The time it takes to do so, often makes you neglect it—if it was at home it would be different.

"It would be folly to ship and sell on arrival as the spot market in Brady today ought to be equal to any port in America, less freight.

"We are holding cotton for a better price only, and would be fools if we did not. From the president of the Farmers Union and the best posted men on cotton (outside of any speculator) efforts have been made to persuade you that conditions justify you in holding. There are very few who think there will be over 14 million bales and if 12 3-4 million bales last year justified 16c, surely 1 1-4 million over last year does not justify an 8c basis.

"Understand, when you have sold at any time during the season, you have gotten what your cotton is worth on that day's market.

**Why Hold in Brady.**  
"It is one of the best located railroad points, and the best suited for concentration, and as a center it stands in the middle of 35,000 to 40,000 bales, this year's crop, and fed from four railroad points. Supposing that Brady at any time has 15,000 bales, don't you think she would attract buyers? And what is there to stop her? Nothing, but a howling bear. Tell me any better collateral on earth than a bale of cotton—it's as good as gold. It is as good in Japan as it is here. Its face value is never disputed, and why abuse the pretty thing?

"To hold it we have the endorsement of every bank in the city, every merchant and private citizen whose rating is A1. What better do you want? All cotton shipped in to Brady will have the local freight charges refunded, and it never exceeds your charge direct to Galveston or any other point of export.

"We advance you the same as we do in Galveston, at 6 per cent interest until cotton is ordered sold by you. The commission charges cover storage, weighing, sampling, insurance, selling, delivering, loading.

"We want your business and we need it, and any holding

move that helps you, helps us. Your interests are ours. The more we get, the better market we can make, and every feature that we are putting forth for your interest is favorable. We will place this proposition in all surrounding counties for their benefit, and ought to attract every local and county union in Texas. So, you Chairmen and Officials, it is time you were scratching your head a little, and letting us know through the columns of your paper if we are right or suggest some move that will improve it and help it along. We know our hearts are right, but we don't claim all the wisdom there is on the cotton situation."

It matters not what prices others make you, see us before buying for we will save you money. Wm. Connolly & Co.

If you are from Missouri we can show you in prices and quality. Baker & Calliham.

We exchange or refund your money on any unsatisfactory purchase made of us during our Great Clearance Sale. Wm. Connolly & Co.

The ladies of the Methodist church will hold a bazaar of the Zones Saturday, December 9th. The ladies have been working several months, and will have a good selection of Christmas gifts for sale.

**SPECIAL AUCTION SALE FOR LADIES EVERY AFTERNOON AT 2:30. C. B. WATTERS' REASONABLE SALE.**

**Electrical Toys.**  
The Brady Water & Light Co. have arranged a show window that is attracting attention from the old folks no less than the little folks. The display is made up of mechanical toys, the motive power of which is electricity. There is an electric street railway, with tracks, side tracks, trolley wires, electric light poles and all complete, the engine being furnished with an electric headlight and being as realistic as any big mogul that ever left a machine shop. Besides this there are a number of other toys also operated by electricity. The display is novel as well as interesting and instructive.

Best calico 3c per yard at Wm. Connolly & Co.'s Great Clearance Sale.

**Organize Dramatic Club.**  
The young people of the First Christian Church Endeavor have organized themselves into a Dramatic club. The purpose is to encourage the young people toward a higher plane of development and entertainment. They have been working on their plans for several months, and are at present thoroughly organized and are studying on the different features of entertainment which they propose to give.

In connection with platform work they will devote time to expression, study and comparison of classics, higher criticism, and metaphysics.

The club is composed of thoroughly responsible young people and much of the best talent in the town. They hope and expect much good as a result of their united efforts.

RUTH WOOD,  
Press Reporter.

## WHAT TO GIVE

What to give? This question comes to everyone in christendom once each year. May we suggest that you give sensible, serviceable presents? The giver is judged by his or her gifts. Our name on a package insures the quality of what is inside. We have built our reputation by selling only good goods and by charging prices never higher than the quality of our merchandise. Your friends will be pleased to receive presents bought at our store.

### Some Gift Suggestions for Christmas

Set of Furs, Silk Dress, Sweater, Warm Felt Slippers, Tailored Suit, Muff, Gloves, Heavy Caracul Coat, Corset, Black Underskirt, Hosiery, Handkerchiefs, Hair Comb, Parasol, Negligee Coat, Perfume, Shawl, Hand Bag, Sweater Coat, Lace Yoke, Hat Pin, Silk Stockings, Silk Petticoat, Silk Ribbon, Garters, Hair Pins, Muffler, Silk Socks, Slippers, Cuff Links, Collars, Shirts, Shoes, Necktie, Underwear.

The Shoe Man **BENHAM** BRADY, TEX.

**CHILDREN'S CORNER**

A Mississippi Girl.  
Brady, Texas, Dec. 7th.  
Dear Editor and Cousins:  
Will you admit another stranger into your happy band? I am going to school at East Sweden. I like to go to school very much and I sure do like my teacher. I am from Mississippi. I have been gone from home for five months the 29th of last month, but I haven't thought about wanting to go back. I sure do love old McCulloch county. We were talking about going back Christmas, but don't think I will be ready to go, ha, ha!

How many of you cousins ever went down on Brady creek? I went down there two weeks ago last Sunday. Sure did have a nice time climbing up and down those pretty cliffs. We carried our kodak and had several pictures made, but they weren't much good.  
Now, if the waste basket don't catch me this time I will come again soon and tell you a little about where I came from.  
Well, I will close with best wishes to the editor and all the dear cousins.  
With love,  
MYRTLE BROCK.

Mortgages, deeds, vendors lien notes, notes, deeds of trust, release of vendors lien, and other Texas standard form legal blanks for sale at The Standard The Brady Standard, \$1.00.

**Fighting The Boll Weevil.**  
Uncle Sam has been spending years in the Texas cotton field studying the habits and characteristics of the boll weevil and he is rapidly becoming acquainted with this little Mexican pest which strikes terror to the heart of the Texas farmer and sends the cotton bears scampering from the market places:—  
Bulletin, No. 111, just issued by the Federal Bureau of Census on cotton productions, announces that cotton growers have become more and more successful in subduing the ravages of the boll weevil. They have proved that the cotton plant can be bred to have low fruit limbs and to throw most of its life force into its lower and middle portions and that by better methods of cultivation and fertilization the maturity of these parts of the plant can be so hastened that a large percentage of the crop may be so far advanced that the boll weevil will not have multiplied early enough to do much damage.  
It is estimated that Texas has 120,000,000 acres of land suitable for growing cotton. At the present there are 10,088,000 acres in cotton.

**TEXAS INDUSTRIAL NOTES.**

Only by contrasting the Texas of today with the Texas of twenty-five years ago can one get a viewpoint from which to study the progress that has been made and to forecast the future. Marvelous things have been achieved. Still more marvelous achievements are to be made. Much has been done, but there are limitless resources to be developed; limitless opportunities to be utilized.

It takes the man with the hoe and the man with the dough combined to make civilization and one is inter-dependent upon the other.

Formerly the town man was taught to believe that public roads were for the exclusive use and benefit of the people living in the rural districts, and that this class alone should be held responsible for their construction, care and maintenance. On the other hand, the rural resident, when the question of good roads was broached to him, he knowingly shook his head and said: "No extra taxes on my property for the town dude and his automobile." Either position is erroneous and has had its effect in retarding good road work in many localities. As a matter of fact, the city and county should co-operate in connecting all county roads to the nearest city pavement, and the city should obligate itself to bear all future maintenance charges for that portion within the city limits, and the county, which includes the city, should be burdened correspondingly with all roads outside of the city limits.

The Standard has completed a neat booklet of the minutes of the last Baptist Association held at Eden. Rev. E. M. Francis has charge of the distribution, and a copy of the minutes will be placed in the hands of every member of the Baptist church.

There is \$100,000,000 invested in the oil industry in Texas and there are 1250 miles of pipe line in the state.

During the past thirty years 29,962,000,000 feet of timber were cut in Texas.

**Wanted.**  
Mules from 4 to 8 years old, from 14 1-2 to 16 hands high, good flesh, broke to harness. Will be in Brady, Texas, until Saturday, December 9th, at Bumgardner's stable.  
C. B. WHITE.

**GWINN HENRY.**  
Picked For All American Track Team.

Gwinn Henry, of Eden, Texas, who won the championship 220-yard event at New Orleans last year and who lowered the world's record, which had stood for twenty years, in the 125-yard run at New York this summer, is named by a New York expert as being qualified for the all-American track team. The following clipping is from the New York Times:  
"Some sport followers will probably think that Craig of Michigan, who is made the all-American selection for the 220-yard event, also should get preference for the 100-yard event. 1911 Henry looks to have the call on Craig."

in 9 4-5 seconds this season. Gwinn Henry also turned the same trick. Henry, however, also ran 125 yards in the great time of 12 1-5 seconds, which would have made him run about three yards inside events for the "100." Henry also competed against some of the greatest A. U. sprinters in the country, and never had his flag lowered at 100 yards. Taking all things into consideration, it seems that Henry is slightly better qualified than Craig for the 100-yard selection, though no one questions Craig's furlong ability; in fact, Craig is undoubtedly the greatest all round sprinter America has produced since the days of Bernie Wefers. For straight work at 100 yards in 1911 Henry looks to have the call on Craig."

## TEXAS NEEDS GREAT MEN

### X. EDUCATION.

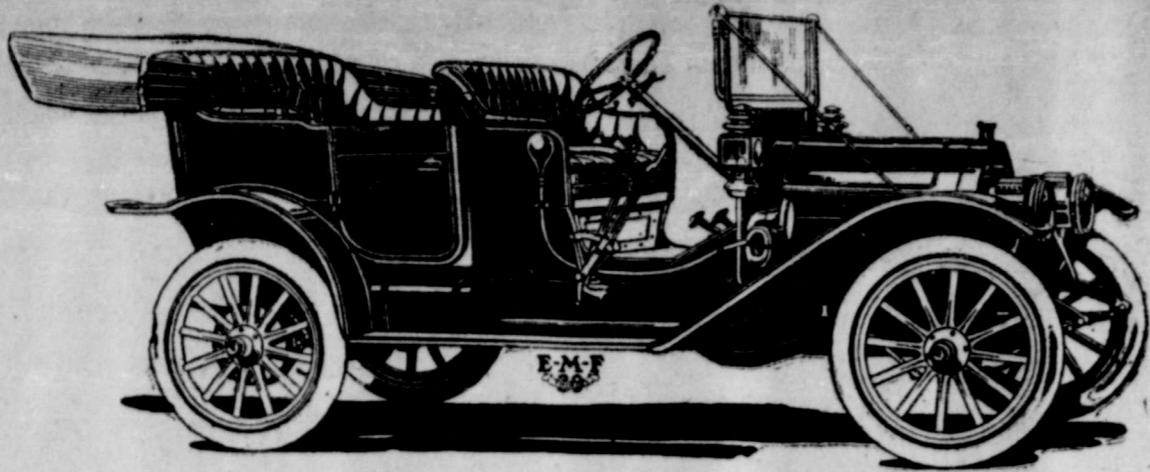

THE Chinese made the first paper and the Germans made the first type and brought education within the reach of every citizen on the globe. These achievements, together with the printing press, were the crowning glory of civilization. The Texas press is a great industrial educator. To read our newspapers makes the farmer want to start another plow, the miner shoulder his pick, the manufacturer enlarge his plant and the banker increase his investments. Our marvelous progress is due largely to our inspired writers who sweetly sing the praises of Texas.

THE FIRST PRINTING PRESS.

The vigor of youth is upon Texas. The dew of prosperity falls upon it by night and the rays of a glorious sun nurture it by day. Our soil—warm from creation—is as fertile as the Valley of the Nile. Our land—the factory site of the Universe—invites the merry hum of industry and our minerals—nature's treasury box—await the prospector's pick. Texas opportunities light the universe like the blaze of a mighty fire, inviting whosoever will to come to a land as beautiful as the shores of Paradise and as full of possibilities as the Garden of Eden. Let every-

## E-M-F "30"

**73,000 Miles!** A Record by An E-M-F "30" and Still Running. "Bullet," the Ninth E-M-F "30" Built; Fifteen Years of Service; Two Years of Actual Life.

You are a thoughtful man, about to select a motor car. You're bottling away in your brain an array of questions that must be satisfactorily answered by the representative of the manufacturer whose product you are going to buy. The most important of these questions is this one: How long will it last?

You will experience some trouble, my friend, in securing satisfactory answers to questions that concern the life of a motor car.

The lives of some motor cars, handsome and apparently capable, are exceedingly short. The men who sell them are clever enough to the fact as best they can. On the other hand, the salesman who has a car of quality—a car like the E-M-F "30"—is flatly unable to tell you how long this car will live. No E-M-F "30" has ever been worn out, and we can prove it.

But the E-M-F "30" salesman can give you some very interesting information, nevertheless.

He will tell you that the average motorist asks his car for 5,000 miles each year, and that his rate of speed approximates eighteen miles per hour—a fact of which you are probably aware. He will add the engineering axiom that 200 miles at extreme speed causes a car to deteriorate as much as a season of normal use. If you understand mechanics, you will admit this fact.

Then the salesman will tell you that an E-M-F "30" has traveled over 73,000 miles, covering more than half this distance at a rate of from 50 to 70 miles an hour.

To condense into two calendar years the wear and tear incident to 15 seasons in the hands of the average motorist is the singular fortune to which the "Bullet"—E-M-F "30" No. 9—fell heir. A member of the first day's output of the E-M-F Company, "Bullet" became, December 8, 1908, the demonstrator of the E-M-F Atlanta Company. Every day's work included a round trip at speed over the 86 miles between the garage and the home of the Company's manager. Demonstration, pathfinding, pioneer work and racing rounded out the program and "Bullet" knew no rest. The car became the sole medium of the most successful band of cup-hunters in Georgia. The season lasted the year round.

In such conditions, "Bullet's" mileage ascended by leaps and bounds. The first speedometer rolled off its limit—9999.9 miles—and a second speedometer lasted no longer. Then an instrument with a capacity of 100,000 miles was installed. That one now registers more than 53,000 miles. The public was interested in "Bullet," and non-partisan observers checked her mileage so often that there can be no disputing the records. "Bullet's" trophies, won on road, track, hill and speedway, are as eloquent as her speedometers.

"Bullet" will be on view this winter, all around the circuit of the big automobile shows. The E-M-F Company is entering no claim for a mythical car nor making a statement that cannot be proven. It's the same Old "Bullet" that left the factory more than two years ago. The red paint that featured the first consignments of the E-M-F "30" still clings to body, hood, frame and wheels. The same mechanical equipment is still in position. And "Bullet" is ready now, as ever, for the racing body and a

profile of 65 miles an hour.

Beside "Bullet"—E-M-F "30" No. 9—stands, in the E-M-F Company's show space, a motor car which represents the last word in 1911 design, materials and workmanship. It is E-M-F "30" No. 19811. These two cars afford an excellent chance for comparison.

Look them over. You will find the process enlightening. Eliminate the refinements in detail, possessed by the new car; straighten out its graceful lines into "Bullet's" more severe contours. Get down to essentials. What do you find?

The new car—the thousand dollar beauty—is only "Bullet" over again.

Yes, the mold that made "Bullet" is still in use. It is merely a bigger mold, a better mold, and it is making better "Bullets." There has been but one model of the E-M-F "30" from the first. To build that one model well, and then to build it better has been the sole endeavor of the E-M-F Company. Refinements, perfections, improvements—term them what you will—have changed that model much in appearance, but not one particle in essentials. Friction eliminating devices have increased speed and endurance. Heat-treatment of steels and systematic advance in manufacturing science have added strength. The E-M-F "30" No. 19811 is merely an idealization of E-M-F "30" No. 9—Good Old "Bullet."

"Bullet's" old selling price was \$1250. But "Bullet" and her kind have enabled the E-M-F Company to pay for its plants. Lowered cost of raw material and tires has further decreased the expense of production. Now, you can buy the 1911 E-M-F "30" for \$1000—the Quality Car at the Low Record Price—a far better car than "Bullet," the automobile that has lived for fifteen years of service and is still young.

When "Bullet" was new, the 90-day guarantee was considered liberal. With most manufacturers it remains in vogue today. But the firm that builds a car to stand up for fifteen years of service, can do better. Every 1911 E-M-F "30" is guaranteed for a year and the guarantee bond includes equipment as well, tires only excepted.

It will be impossible in 1911 for competitors to evade E-M-F Company arguments. By no means the least of these is the undisputed fact that an E-M-F "30" stands alone, at the head of cars of its type with an endurance record of more than 73,000 miles.

We have proved to you that the E-M-F "30" is built to last, and at a price that will save you anywhere from \$500 to \$1000. Over 20,000 owners stand out on this car. This is the "Why" you should "Buy" an E-M-F "30".

A detailed record of "Bullet's" life has been compiled in interesting form. Write the E-M-F Company, Detroit, Mich., and ask for the "Autobiography of an Automobile."

**The Strongest Guarantee Ever Placed on an Automobile is Given With the Purchase of Every E-M-F "30" or Flanders "20"—Twelve Months**

# BRADY AUTO COMPANY

BRADY, TEXAS

**Made the Dream True.**  
A Blackburn (Eng.) man has proved himself a strong believer in dreams. A few nights ago his young son dreamt that he saw his father run over by a motor wagon, and next day the man, after writing on a piece of paper, "My child's dream," threw himself in front of a motor wagon and was killed.

**The Sleep of Children.**  
There is no physiological reason for concluding that either the night or the morning sleep is the more healthful. Children are, generally, night-sleepers, nevertheless there are children who, after they reach their third year, sleep in the morning. If a child sleeps late, there is no reason for anxiety as long as his sleep is calm and of adequate length.

**Austrian Red Tape.**  
At Kopist, near Bruex, in January last a miner named Brzek risked his life in saving a boy from drowning. His heroic action cost him a severe cold, resulting in a long sickness. On the advice of friends, he appealed to the authorities for some assistance. After a delay of several weeks he received an answer informing him that he had been fined one crown because he had omitted to place the proper stamp on his petition for help. Austrian red tape could scarcely go farther.—Prague correspondence Fall Mail Gazette.

**Action of Drainage Waters.**  
Recent experiments in Germany indicate that drainage waters do not take any more plant food away from fertilized soils than from unfertilized.

**Forgiveness of Children.**  
It is the sweet and entire forgiveness of children, who ask pity for their sorrows from those who have caused them, who do not perceive that they are wronged, who never dream that they are forgiving, and who make no bargain for apologies—it is this that men and women are urged to learn of a child.—Alice Meynell.

**Needs of the Church.**  
"What is the greatest evil to be remedied in the modern church?" is a question which a Topeka minister asked a lot of business men. One replied: "Make the women take off their hats and fix the seats so that men can sleep in greater comfort."—Kansas City Journal.

**Inquisitive Tommy.**  
An infirm old gentleman was visiting Tommy's family, and Tommy unfortunately had heard mention of one of the guest's peculiarities. Planting himself directly in front of his unhappy elder he sweetly inquired: "Which is your glass eye, Mr. Blankton? The one that moves, or the one that stands still?"

**Easily Ahead.**  
An Irishman who was fond of the liquor came home one night all in, the St. Louis Post-Dispatch says. Four or five of his friends carried him out to a graveyard, dug a hole and put him down there to sleep off his jag. When he woke in the morning he climbed out of the hole and looked all around the cemetery. "By gorra," he said, "I'm the first one up, anyway."

### Production and Consumption.

The Federal Census reports enable us to estimate with reasonable accuracy our annual production which approximates as follows:

Agriculture	\$561,231,000
Manufacturing	150,000,000
Mining	20,000,000
Total	\$731,231,000

The item of consumption is far more difficult to estimate, although reliable data on the cost of living per capita is of record. The following table represents property consumed and destroyed by the natural and artificial processes of civilization. Three classifications are used, "The People" which includes cost of living and burial expenses, "The Animals" which includes the keep of live stock and loss by natural and accidental deaths, "The Property" which includes destruction by fire, decay, wear, etc., as well as destruction of seed by processes of germination.

The table follows:

The People	\$330,000,000
The Animals	200,000,000
The Property	120,000,000
Total	\$650,000,000

By deducting consumption from production, we have \$81,131,000 per annum left, which is equal to 11 per cent of gross production and is approximately correct. This volume of money is entirely too small to make much headway in development. We need Ten Billion dollars to open up new farms, build cities, construct railroads and public highways and we must get money from outside the state for our large development enterprises.

### Sun Never Sets on Texas Press

The Texas press circulates in every state in the Union and some of our papers cross the ocean. It can be truly said that the sun never sets on the Texas press.

With a quarter of a million copies of Texas newspapers singing the praises of Texas in every clime and country, we are able to account for the marvelous influx of men and money into our state. There is no more effective way of advertising Texas than for our citizens to subscribe for the local paper and have it mailed to persons outside the state and no better service can be rendered our friends in other states than by giving them an opportunity of learning about Texas through the columns of our local papers.

### Our Cotton Money.

Our cotton crop last year sold for approximately \$320,000,000 and many of our citizens are under the impression that this money is available for building railroads, factories, opening mines, etc. It is true we exchange our cotton for gold but while producing the cotton, we consume all our cereals and ship in \$75,000,000 worth of feed stuff from other states. The Texas Grain Dealer's Association conducted especially for this article, an exhaustive investigation into our cereal consumption. The production column is taken from the Federal Agricultural Department reports and the figures in the consumed column were furnished by the Grain Dealer's Association:

Grain	Pro. Bu.	Cons. Bu.
Corn	181,280,000	250,000,000
Wheat	18,780,000	25,000,000
Oats	24,325,000	25,000,000
Hay—Tons	711,000	3,000,000

The average price of corn is sixty-five cents; wheat one dollar; oats forty-six cents and hay twelve dollars. When these extensions are made to the figures in the consumption column, we find our cotton crop has entirely disappeared.

Of course all these products are not consumed on the farms as our cities are composed of exclusive consumers but, as a whole, we are an agricultural State and in its last analysis, the banker and the merchant is as much a farm laborer as the hired hand that follows the plow and to get our net gain, we must deduct total consumption from total production. The money to develop Texas cannot be found by searching our cotton fields. We must get it from other sources and our principal supply must come from outside the State.

### Experimental Farms.

One of the wisest laws enacted by the 32nd, or any other legislature, was the one which authorized the Commissioner's Court of any county to make an appropriation of not to exceed a thousand dollars per annum to be used in farm experiment and demonstration work.

The Commissioner's Court can make no better investment than to appropriate the entire sum and place it in the hands of a competent demonstrator. A number of our commissioners have joined hands with the Federal Government, thereby securing expert supervision without cost.

### KEEP THE KIDNEYS WELL

Health is Worth Saving, and Some Brady People Know How to Save It.

Many Brady people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health—the slightest delay is dangerous. Use Doan's Kidney Pills—a remedy that has cured thousands of kidney sufferers. Here is a Brady citizen's recommendation.

W. D. Smith, Brady, Texas, says: "Just lately I have had a sharp catch in my hips that was very painful when moving about and at night I could not get any rest. My kidneys also bothered me and the kidney secretion was unnatural. At times the passages were painful. I read an advertisement about Doan's Kidney Pills and began their use. They worked like magic and relieved my trouble at once. I tried lots of remedies, but nothing has ever done me as much good as Doan's Kidney Pills. I consider them an excellent remedy for kidney complaint." Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

### Foreign Health Resorts.

According to the latest statistics about \$40,045,000 is expended each year by visitors from foreign countries who take the "cure" at the natural mineral spring resorts in western Bohemia, along the Erzgebirge (Ore mountains).

### Getting Out of It.

Constable, the English painter, attended an exhibition of landscapes and sea views which was the work of another eminent artist whom he detested. "Like putty," he growled as he scanned them over. It happened that a friend of the painter's was present and was so stupid as to repeat Constable's remark. When, later, Constable, meeting the gentleman whom he had condemned, congratulated him upon one of his works, the latter said, "Why, I'm told you say my pictures are putty." "What of that?" replied Constable. "I like putty."

All obituaries, resolutions of respect and similar communications will be charged for at the rate of 5c per line by The Standard.

BRADY, TEXAS, DEC. 8, 1911.

## COUNTING HIS CHICKENS.

Without a thought of tormenting him, we inform Editor Schwenger of brown, bilious old Brady that we have perfected arrangements whereby a sixteen ounce goblet of egg-nog is waiting for us every morning this winter when we throw the snow-white steamer blanket from off our stately frame and commence preparations for our breakfast of hot biscuits, country ham, brown gravy and poached eggs.—Menard Messenger.

Without thought of discouragement, we merely remark that there is many a slip twixt the cup and the lip—and many a slip after the cup touches the lip.

## YOU PAY YOUR MONEY.

Offer a hog ear corn, shelled corn and cormeal at the same time and he will choose the ear corn. We believe nature is a better guide than any college professor when deciding what is good for a hog.—Bryan Eagle.

Yes, and offer a man water, milk and red liquor at the same time, and he will choose the liquor. How about nature here?—Athens Review.

Local capital at Brady, McCulloch county, Texas, is taking steps to organize a plan for financing the cotton problem. They think that whatever profit there may be in assisting the farmer to hold his cotton for a better price should be kept at home. This is a sensible view, and if carried out in each town in Texas, will leave many thousands of dollars in Texas, where it rightly belongs instead of going to the east. Whenever the eastern capitalist proposes to let out a dollar, you can safely bet he sees where and how he can get two dollars back. This being true—and there can be no doubt about it—Texas financiers should have the first whack. We are decidedly in favor of keeping Texas money in Texas. A general organization of banks throughout the state of Texas can be effected and a fund raised sufficiently large to finance the cotton problem in Texas with all ease. Texas can, if she will, act independent of the whole world—she is indeed an empire within herself.—Clarendon News.

We are putting a Red Cross Seal on every letter that goes out from The Standard office during the holiday period. It is one time that we feel we are doing the proper thing—are making no mistake. The little red seals have a mission. They may help to soothe the pain and suffering, perhaps aid in restoring to health and happiness some unfortunate victim of tuberculosis. If every merchant in McCulloch county, and every citizen as well will adopt our plan, what a large fund would be derived. Purchase and use the little seals—they are for the good of all.

Now that Brady electric railway is in operation, we are expecting the arrival of our free pass most any day. Of course, we understand the pass is to be non-transferable, but we had no intention whatever of allowing Claude Callan to use it anyway. Tie passes are much more suited to one of his flowery elegance.

San Saba has four candidates already out for the assessor's office. It's an old saying that "the early bird catches the worm," but in this instance we can't see where all the worms are to come from.

## OUR SENTIMENTS.

The Chronicle is impressed with the belief, and believes the public is likewise impressed, that Mr. Clarence S. Darrow, leading counsel for the defense in the McNamara case, has come out of the trial without anything to his credit, because he transcended the uttermost limits of professional duty and propriety.

How far a lawyer is justified in going in defense of a client he knows to be guilty has been debated almost since there was a lawyer, and it is, as a technical question, as far from settlement as it was at the beginning.

Apart from every question relating to professional ethics and professional duty, the general mass of the laity have an instinctive conception, and a correct one, concerning the subject.

No man expects a lawyer to betray the confidence of his client, and "give him away," nor is it expected that he will go out and hunt up or point out evidence against him; but when outside of the statements of his clients and by reason of the legal testimony against him, he is convinced of his guilt, the lawyer has no moral to suppress evidence, or corrupt a jury, or summons testimony, or arouse a sentiment against conviction by appeals to popular or class prejudice.

Mr. Darrow has been for weeks asserting that his clients were victims of a capitalistic conspiracy, and that he would prove beyond a doubt that the building was destroyed by an explosion of gas, and that his clients had no connection with it; but when the state of California had built up an impregnable wall, over which there was no right to try to get a biased jury and after law-abiding laboring men and union men all over this great nation had poured thousands if not hundreds of thousands of dollars into his pocket, he rises, before the state has introduced a word of testimony, and even before a jury has been impaneled, and confesses that his clients are guilty of the atrocious acts charged against them and by the perpetration of which they have done the cause of organized labor almost an irreparable harm. Furthermore, he says there was no criminal intent, but it was meant only to give the Times a scare.

He further says that for a week, or at least for several days, he has been expecting a confession (evidently a public confession is meant, because he says his clients had told him the whole story), yet all the time he has fought to get a jury that would acquit deliberately, double-dyed murderers.

When Mr. Darrow was seeking to get a fair jury and to see that the case was legally proved, he was within the limits of professional duty and propriety. When he sought to inflame the public mind by appeals to labor, against capital, and to keep up strife so as to acquit men who in the name of union labor had committed a crime against every laboring man and betrayed every confidence, just so Mr. Darrow abused it and profited by the abuse.

When a lawyer sees that the charge against his client is legally proved; that no evidence is extorted against him or improper evidence is used against him; that he has had the benefit of all legal testimony, and that he has a fair and impartial trial and is given the benefit of every reasonable doubt of his guilt, he has done his fullest duty; and when he transcends these limits the lawyer trenches on the rights of society and is an enemy to the highest interests.—Houston Chronicle.

The Standard has secured the services of Firman Jackson, as collector of subscriptions in and around Brady. The Kateemy list has been placed in the hands of Dr. Hicks Martin, while the rest of the county and adjacent territory will be looked after by the old reliable J. Walker Green. In this connection we wish to thank all who have already responded to our request for a settlement, and the words of commendation upon our adoption of the pay-in-advance and stop-when-your-time-is-out plan convinces us that the step is in the right direction. We desire to state further that if there is any doubt as to the correctness

# Some Ad

The Beaumont Journal of last Sunday carried one advertisement that filled sixteen pages. The advertiser is a department store man, and he didn't put the ad in as an experiment or "to help the editor." On the contrary, the advertisement was in the regular course of business and for the sole and creditable purpose of selling goods. He advertises every day and is a big merchant who has risen from small beginnings. And he is not one of those who doubts if advertising pays.

## "It Pays"

of our figures on any subscription we will be found not only willing but anxious to make correction. We appreciate every subscriber on our list and want, if possible, to retain every reader for the coming year. We believe we can give you full measure and some over for your investment.

This week we are publishing several good, helpful articles written by our farmer friends, and we appreciate them. We desire to state that helpful suggestions from any of our readers will always find space in our columns. We boost for McCulloch county citizens and we believe that by mutual co-operation untold good may be accomplished both for the county and for the individual citizens.

## FREE REMEDY HELPS CHILDREN

Many a mother has learned of a way of avoiding sickness in her family, especially among the children, by the use of a free sample bottle of the famous laxative, Dr. Caldwell's Syrup Pepsin. This offer of the doctor's to send a free sample bottle has been responded to by thousands of women in all parts of America.

Dr. Caldwell's Syrup Pepsin is a truly wonderful laxative and especially adapted to the needs of babies and children because it is pleasant to taste and no child will refuse it. Then, it is mild and never gripes. It is all that a child's remedy should be, though it is a good laxative for the whole family because it is effective at all ages. It is not dynamic like salts, pills and powerful cathartics, which should not be given to children under any circumstances.

Cotton Seed Meal a Horse Feed. Rochelle, Texas, Dec. 5. Editor Brady Standard:

For four years I have fed cotton seed meal to horses and believe it to be a cheap, healthy feed, as corn and oats feed are too high to depend on. I thought possibly some would appreciate my experience.

Corn chops, 2-3 gallon; cotton meal, 1-2 gallon—or 1 gallon of oats and 1-2 gallon of meal; the above proportion construes a feed for 3 horses.

To teach a horse to eat the cotton meal, sprinkle a little in your feed trough, feed as usual. Gradually increase the meal and decrease the grain. It is best to feed the meal with some grain feed. Sometimes a horse will quit or refuse to eat the compound; in that case you will have to discontinue the cotton meal for a few days, then feed a little less of the meal for a few feed.

Cotton meal will become musty with age. Always feed fresh meal. Keep dry, also feed dry. Give plenty of hay for a balance feed. Your colicky horse or mule will lose his trouble when they eat the cotton meal.

G. W. ANDERSON, Rochelle, Texas.

Here is a woman who speaks from personal knowledge and long experience, viz., Mrs. P. H. Brogan, of Wilson, Pa., who says, "I know from experience that Chamberlain's Cough Remedy is far superior to any other. For croup there is nothing that exceeds it." For sale by Jones Drug Co.

Toys, Toys, and for less at the Penny Store.

H. A. Martin has moved his family to Brady from Stacy, in order to give his children the advantage of the Brady school.

Will do it. Sure—Dorr's Kidney drops. Cures Lame Back and Kidney Diseases.

Your Christmas suit! Order it today and have it here for the holiday season. Kirk, the tailor—the old reliable. Nuf sed.

## TEXAS NEEDS GREAT MEN

### IX. DISCOVERIES.

COLUMBUS discovered America and Galileo discovered solar systems and planets and throughout all ages, civilization has been indebted to wise men who could think beyond the age in which they lived. We need in State government men who can see across two continents and look into the horizon of Twentieth Century civilization and discover new zones of trade, new worlds of industry and new planets of prosperity.

COLUMBUS DISCOVERING AMERICA.

We are standing on the edge of the ocean of discovery in Texas. Our mountains are the mineral vaults of the universe; artesian lakes of boundless area lie underneath our surface; our agricultural domain awaits men who can work inspiration into the soil and give a powerful impulse to progress. We need a Columbus to sail the high seas of our magnificent possibilities, to discover new continents in agriculture, to explore our mineral kingdoms, colonize our industrial opportunities and give us a new world to live in. Texas needs great men.

For the free sample address him, Dr. W. B. Caldwell, 402 Caldwell building, Monticello, Ill.

# CONNOLLY'S GREAT SEMI-ANNUAL CLEARANCE SALE

Is proving an unbounded success. We are making good. We are backing our advertising up. We are making prices others dare not attempt, and the price is what is selling the goods. We have no leaders, but are making reductions on every article in every department, including our grocery department. Note the following prices, and let us convince you.

## Best Grade Calico 3c Per Yard

### CLOTHING

We have used the knife freely in our Clothing Department, and the tag on every suit will tell the story of price-cutting and value-giving never before known in this section. We offer clothing values that cannot be equalled in the state. We have over 500 Men's and Youth's 3-piece Suits to select from—fit, style and wear guaranteed. This clothing is marked very close at the regular price, and now, with these great reductions, it makes a proposition you cannot afford to overlook.

THANKSGIVING BALL.

The Annual Thanksgiving  
ball was given Thursday eve-  
ning at the Fitzgerald building.  
The colored string orchestra  
furnished music for twenty  
numbers. Those who enjoyed  
this most pleasant feature were  
Misses Wolf, White, Elliott,  
Glenn, Crothers, Coopender,  
Yeager, Schuler, Gay, Cook,  
Bradley, Muller, Macy, Ander-  
son, Sayles, Elliott, Spiller;  
Messrs. Tipton, Walker, White,  
Scharff, Goodson, Lang, Baker,  
Yeager, Walker, Lindley, Glenn,  
Yeager, Quicksall, Brewster,  
Ogden, Madison; Mr. and Mrs.  
Jack Coe, Mr. and Mrs. Tom  
Elliott.

COMPLIMENTARY EVENT.

The initial event of last week  
was a dinner party given by

Mrs. F. W. Henderson at her  
home on Friday evening, hono-  
ring her friend, Mrs. W. F.  
Davidson, of Madison, Ill. Cov-  
ers were laid for Dr. and Mrs.  
W. F. Davidson, Mr. and Mrs. W.  
D. Crothers, Mr. and Mrs. G. R.  
White, Mr. and Mrs. Wm. Dav-  
idson.

MRS. ALLEN GIVES PARTY.

Mrs. Charlie Allen entertain-  
ed the Social Club with a pretty  
session at her home Saturday  
afternoon. She invited as  
guests Mesdames Frank Lock-  
hart, J. E. Shropshire, C. A.  
Trigg, W. P. Yeary, Carl Gansel,  
of Kansas City, and Misses  
Helen Latham, Laura Lee  
White, Marie Crothers. Ref-  
reshments were olive sand-  
wiches, fruit salad, coffee and  
candy.

clothing, sizes 33 to 38.

TIPTON & STRIEGLER.

We make prices others dare  
not attempt. Wm. Connolly &  
Co.

Injurious to Sight.

Looking into the fire, particularly a  
coal fire, is very injurious to the eyes.  
Looking at molten iron will soon de-  
stroy the sight. Reading in the twi-  
light is injurious to the eyes, as they  
are obliged to make great exertion.  
Reading or sewing with a side light  
injures both eyes. Both eyes should be  
exposed to an equal degree of light.  
The reason is that the sympathy be-  
tween the eyes is so great that if the  
pupil of one is dilated by being kept  
partially in the shade the one that is  
exposed cannot contract itself suffi-  
ciently for protection.

When Fish Was Scarce.

The scarcity of fish in old times in  
England made it difficult for the poor  
to keep Lent. Peppy remarks, "The  
talk of the town now is whether Lent  
shall be kept with the strictness of  
the king's proclamation, which is  
thought cannot be, because of the  
poor who cannot buy fish." He also  
says, "Notwithstanding my resolution,  
yet for want of other victuals, I did  
eat flesh this Lent," and again, "Our  
dinner was only sugar sopp and fish,  
the only time we have had a Lenten  
dinner all this Lent."

A Warm Ad.

It must have been a corking hot day  
that prompted the following ad., which  
appeared in the New York Tribune on  
Aug. 7, 1861:

"Hot, Hotter, Hottest.—The dog star  
rages. The sun pours a flood of burn-  
ing rays. Music pours its melting  
strains, and the people, sweating at  
every pore, are pouring into Nos. 4  
and 6 Burling slip to purchase ice  
pitchers of Lucius Hart."

Every article marked sale  
price in plain figures. No price  
juggling or substitution at our  
Great Clearance Sale. Wm.  
Connolly & Co.

THIS LADY'S  
GOOD APPETITE

Mrs. Hansen, in a Letter From  
Mobile, Tells How She Gained It.

Mobile, Ala.—"I suffered for seven  
years, with womanly trouble," writes  
Mrs. Sigurd Hansen in a letter from  
this city. "I felt weak and always had  
a headache and was always going to  
the doctor. At last I was operated on,  
and felt better, but soon I had the  
same trouble.

My husband asked me to try Cardul.  
I felt better after the first bottle, and  
now, I have a good appetite and sleep  
well. I feel fine, and the doctor tells  
me I am looking better than he ever  
saw me."

If you are sick and miserable, and  
suffer from any of the pains due to  
womanly trouble—try Cardul.  
Cardul is successful because it is  
composed of ingredients that have been  
found to act curatively on the womanly  
constitution.

For more than fifty years, it has been  
used by women of all ages, with great  
success. Try it. Your druggist sells it.  
N. B.—Write to: Ladies' Advisory Dept., Chatta-  
nooga Medicine Co., Chattanooga, Tenn., for Special  
Instructions, and 64-page book, "Home Treatment  
of Women," sent in plain wrapper, on request.

The dollar, taken  
from the bowels  
of the earth, is the most honest dol-  
lar in circulation and has more  
prosperity in it than any other  
form of legal tender. It spends the  
week days at the markets and goes  
to church on Sunday and has few  
bad habits. It builds our homes,  
churches and school houses and when  
these tasks are completed its love for  
the fire-side leads it to prefer do-  
ing chores for the family rather than  
embark in the gigantic enterprises  
of the 20th century civilization.

It takes special delight in buying  
the baby a new dress; providing  
ease and comfort for the home and  
taking the family on a summer vaca-  
tion. It is timid and clannish.  
It will shy at a railroad or a fac-  
tory like a young colt at a loco-  
motive. As a rule it avoids foreign  
company and seeks select compan-  
ions; it travels only in well trodden  
paths and when it wanders in new  
fields it soon becomes frightened at  
the strange sights and goes scamper-  
ing to the land of its birth.

Along with the noble traits of  
character, it has inherited some of  
the frailties of human nature, and  
one of the most pronounced is idlen-  
ess. We have \$279,000,000 on de-  
posit in our banks, some of our specie  
hides in tin cans buried in the back  
yards and occasionally a roll of bills  
is snugly tucked away in the hosie-  
ry of the family; the idle dollar  
seldom moves except to run from the  
tax assessor. Then we have dol-  
lars which are inclined to wander;  
probably \$100,000 per day leaves  
the State seeking foreign invest-  
ments, but like the prodigal son, they  
usually return after having sown  
their wild oats and they come home  
to us broken in spirit, subdued in  
courage and other evidences of a  
miss-spent life and in some instances  
bring with them a severe case of hook  
worm. In any event they are too  
cautious to step outside the bank  
vault. Many a dollar is now chain-  
ed to foreign investments that is  
sadly singing home, sweet home.

The Texas dollar can never de-  
velop Texas. The volume is en-  
tirely too small and it lacks courage.  
But with all its faults we love it  
still and the Texas dollar is a wel-  
comed guest wherever and whenever  
it appears.

The Foreign Dollar.

The foreign dollar is the biggest  
dollar on the financial horizon. It is  
the most powerful factor in the  
world's progress and it moves the  
star of civilization at will. It fol-  
lows the line of least resistance and  
prosperity waits in attendance upon  
it. It is the most voluminous and  
congenial of our currency. The  
foreign dollar is a cautious, leisurely  
investor, loves good company, is  
seldom found alone and is quickly  
woven into the industrial fibre of  
the State. It soon learns to speak  
our language, play our games and  
drink our drinks, and when its pre-  
sence is no longer desired, it quickly  
departs. Only gigantic enterprises  
appeal to it and wherever it goes, it  
builds empires. It is the develop-  
ment dollar.

The essential element to our pro-  
gress is the volume of money avail-  
able for investment. To develop our  
agricultural, industrial and mineral  
resources will require an investment  
of ten billion dollars. Our produc-  
tion will not exceed consumption  
more than fifty million dollars per  
annum, which is hardly sufficient to  
run our errands and to no percep-  
tible extent can it take part in the  
development of the State's resources.  
This is a work that must be done by  
the foreign dollar. We do not in-  
crease our wealth when we borrow  
from each other but when we nego-  
tiate a loan on the outside of the  
State, we bring money into Texas,  
or when foreign capital moves to  
Texas, we have increased our wealth.  
It is the foreign dollar that must de-  
velop Texas.

The Need of Cheap Money.

An illustration of the importance  
of cheap money to our prosperity may  
be obtained when we consider that  
of the total value of all farms which  
is \$1,822,713,000, only \$583,268,-  
160 is owned in fee simple by the  
farmers operating the farms and the  
balance of \$1,239,444,840, is mort-  
gaged or operated by tenant farmers.  
Reduce the rate of interest one cent  
per annum on this enormous sum  
and we have a saving of \$12,000,000.  
Of course the tenant farmer does not  
owe for the farms, but it is his am-  
bition to acquire the property and he  
is, as a rule, a waiting customer for  
money to buy a home and cheap  
money will improve his opportunity  
for buying a farm and lighten his  
burden. The Texas farmer needs  
cheap money.

THE ROAD BONDS.

Some Interesting Points Con-  
cerning Issue.

Brady, Texas, Nov. 29th.  
Hon. Seb. F. Caldwell,  
Austin, Texas.

Will McCulloch County Road  
bonds be approved if printed  
and presented in due form?  
Answer collect.

HARVEY WALKER.

Austin, Dec. 1st.

Mr. Harvey Walker,  
Brady, Texas.

Dear Sir:  
Replying to your telegram of  
the 29th ult., you are advised  
that a definite answer cannot  
be given to the matter of the  
question you propounded for  
some days yet.

In this connection, I beg to  
state that one of your tax-pay-  
ing citizens was in this office a  
day or two ago and stated that  
he, together with some other  
taxpayers would file a protest  
against the approval of these  
bonds. At all events he inquired  
if such a matter would be en-  
tertained by this Department,  
and was advised that it would  
be.

Yours very truly,  
SEB. F. CALDWELL,  
Assistant Attorney-General.

Brady, Texas, Dec. 7.  
Hon. Seb. F. Caldwell,  
Asst. Atty-Gen.,  
Austin, Texas.

Dear Sir:  
I have your letter of Dec. 1st,  
in answer to my telegram of  
Nov. 29.

I note that you say in para-  
graph 1 of your letter that you  
will not give me a definite  
answer as to approval of our  
Road Dist. No. 1 Bonds, even  
though they were printed and  
presented in due form, and in  
paragraph 2 you state that a  
tax-paying citizen has given  
notice that he and others would  
file a protest and further that  
you would entertain such pro-  
test from citizens.

Now, sir, I have always bow-  
ed obedience to the rulings of  
every public official when acting  
clearly within his authority, and  
though I have different opinions  
I utter no protest or complaint,  
but in this instance I feel that  
you are not within the bounds  
of reason or of law.

If certain taxpayers desired  
to contest this bond issue they  
had their remedy by contest of  
election, which they did not at-  
tempt to exercise, and I deny  
that you can rightly prevent the  
issuance because of mere pro-  
test by citizens who can show no  
irregularity in the election.

I further assert that you have  
no right to thwart the will of  
the majority of the qualified  
voters by such sumptuary ac-  
tion as it seems you are about  
to take.

I shall take the liberty to  
publish your letter, in order that  
the people are correctly apprised  
as to why the bonds do not is-  
sue.

Yours very truly,  
HARVEY WALKER,  
County Judge.

There's a Reason. C. B. Wat-  
ters & Co's Sale.

**Notice of Share Holders' Meeting.**

The regular annual meeting of the share holders of the Brady National Bank, for the purpose of electing directors for the ensuing year and the transaction of such other business as may properly become before it, will be held at its banking house at 2:30 p. m. on second Tuesday in January, 1912, same being 9th day of January, A. D. 1912.

Very respectfully,  
J. F. MONTGOMERY,  
Cashier.

Sick headache is caused by a disordered stomach. Take Chamberlain's Tablets and correct that and the headaches will disappear. For sale by Jones Drug Co.

**Do You Want a Bargain?**

I have a nice little home in the south part of Brady and will make you a reasonable deal on same. Nice bungalow, barn, and other out buildings, well of good water and wind mill with own water works, garden, small orchard, all fenced with pailing fence and crossed fenced. Also four lots on the south, well fenced with net wire for chicken raising, and two lots on the north of the house that are fenced the same way. If you want to get out in the south part of town where you can run a small dairy and chicken farm, this will suit you. Come and see me for price, terms, etc.

JEFF MEERS.

**THINK THIS OVER.**

**This Offer Should Gain the Confidence of the Most Skeptical.**

We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. That's a mighty broad statement, but we mean every word of it. Could anything be more fair to you?

A most scientific, common-sense treatment is Rexall Orderlies, which are eaten like candy. Their active principle is a recent scientific discovery that is odorless, colorless and tasteless; very pronounced, gentle and pleasant in action, and particularly agreeable in every way. This ingredient does not cause diarrhoea, nausea, flatulence, griping, or other inconvenience. Rexall Orderlies are particularly good for children, aged and delicate persons.

If you suffer from chronic or habitual constipation, or the associate or dependent chronic ailments, we urge you to try Rexall Orderlies at our risk. Remember you can get them in Brady only at our store. 12 tablets, 10 cents; 36 tablets, 25c; 80 tablets, 50 cents. Sold only at our store—The Rexall Store. The Jones Drug Co.

**COMING TO BROWNWOOD UNITED DOCTORS SPECIALISTS**

AN ASSOCIATION OF PROMINENT PHYSICIANS GIVING FREE MEDICAL SERVICES TO THE SICK AND MEDICINES AT COST.

At Crown Hotel, Thursday and Friday, Dec. 21st and 22nd Two Days Only

The United Doctors, largest doctor specialists in the United States, practicing in Minnesota, Michigan, Iowa, Nebraska, Wisconsin, North and South Dakota, organized and licensed by the states for the purpose of treating diseases, deformities and all curable ailments without surgical operation. All that is asked in return for these valuable services is that every person treated will state the result to their friends, and thus prove to the sick and afflicted that at last treatments have been discovered that are absolutely sure and certain in their effect.

By their developed system no more operations for appendicitis, gall stones, kidney stones, tumors, goiter, piles or cancer. They were among the first in America to do away with the knife, blood and pain in the successful treatment and cure of these dangerous diseases.

Diseases of the stomach, intestines, liver, skin, nerves, heart, spleen, kidneys and bladder, rheumatism, sciatica, diabetes, bedwetting, leg ulcers, epilepsy, or fits, etc., all treated with gratifying success.

Selected cases of consumption, asthma, bronchitis and catarrhal diseases absolutely cured with combination of medicine, hygiene, diet, exercise and the important uses and advantages of clothes, occupation, etc.

Many cases of deafness are frequently cured in sixty days. Loss of sight, cataract, granulated lids and old weak, watery, sore eyes treated after a plan that knows no fail. In long standing, deep-seated, chronic diseases of men and women, and slow growths and undeveloped children's diseases, a treatment that is absolutely certain in its effects can be had and depended on.

Eczema, salt rheum, eruptions, liver spots and chronic diseases of the skin quickly cured. An absolute guarantee in every case accepted for treatment.

Patients with cancer, tumor and tubercular glands not larger than one to two inches usually cured with their hypodermic injection method, with one treatment, and this without pain.

Patients with growths larger than two inches are not invited to call.

No matter what your ailment may be, no matter what others have told you, no matter what experience you have had with other physicians, it will be to your advantage to treat with the United Doctors Specialists. Even if your case is incurable they will give you such advice that will relieve you and stay the disease.

Do not put off this duty you owe yourself, your friends, and your relatives, it may save your life.

If you have kidney or bladder trouble, bring a two-ounce bottle of your urine for analysis.

This free offer is for this trip only. Hours 9 A. M. to 5 P. M. Married ladies must come with their husbands and minors with their parents.

L. W. St. Clair returned Tuesday from Mason where he spent several days looking after his photo gallery there. He reports a splendid business.

Plenty of meals and hulls on hand at the Brady (Bencini) Oil Mill. No use to let old Pide go hungry.

There's a Reason. C. B. Waters & Co's Auction Sale.

**FOR YOUR HAIR.**

Here Are Facts We Want You to Prove at Our Risk.

When the roots of the hair are entirely dead and the pores of the scalp are glazed over, we do not believe that anything can restore hair growth.

But when the hair roots retain any life, we believe there is nothing that will so surely promote hair growth as will Rexall "93" Hair Tonic. To prove that statement, we promise to promptly return all the money you pay us for Rexall "93" Hair Tonic, should it not please you. Rexall "93" Hair Tonic destroys the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and, by promoting circulation, nourishing them.

Rexall "93" Hair Tonic helps to relieve scalp irritation, to remove dandruff, to prevent the hair from falling out, and to promote an increased growth of hair. It comes in two sizes, prices 50 cents and \$1.00. Remember you can obtain it only at our store—The Rexall Store, The Jones Drug Co.

**Shareholders' Meeting.**

The regular annual meeting of the shareholders of the Commercial National Bank, of Brady, will be held at their bank at 10 a. m. the second Tuesday in January, being January 9th, 1912, for the purpose of electing directors for the ensuing year, and such other business as may come before it.

W. D. CROTHERS,  
Cashier.

**Catarrh Cannot Be Cured**

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by Druggists, price 75c. Take Hall's Family Fair for constipation.

**Medical Society Meets.**

The McCulloch County Medical society met in regular monthly session Monday afternoon and elected officers for the ensuing year, the following members being named: Dr. A. S. Holley, pres.; Dr. Wm. Land, vice-pres.; Dr. J. B. Granville, sec.-treas.; Dr. J. B. McKnight was named as delegate to the state convention at Waco next June, with Dr. O. C. Jackson, of Voca, as alternate. Dr. J. S. Anderson was appointed to represent McCulloch county at the Tri-County meeting at Brownwood on December 12th, being on the program for a paper entitled "Congenital Lymphatic Cysts Involving the Neck and Shoulder."

Among the honors accorded McCulloch County society at the recent District meeting at Coleman was the election of Dr. J. B. McKnight as president of the District association.

The next meeting of the County society will be held in Brady on the 1st Monday in January. An interesting program has been arranged for the ensuing year, involving health matters in general. The public is invited to attend all meetings.

The Brady Standard and the Brady Sentinel have been named the official organs of the society.

The Brady Standard, \$1.00.
