

District Music Program Saturday

The music program of District No. 3 will be held in Spur at the Charles A. Jones Memorial Stadium next Saturday afternoon, May 2 at 1:00 o'clock. The stadium is the most beautiful of its kind in Texas. It is a natural amphitheatre built into the side of a hill.

District 3 is composed of Kent, Stonewall, King, Haskell, Throckmorton, Knox, Baylor, Foard, Childress, Cottle, Motley and Dickens above listed counties. There will be counties. Ten thousand visitors are expected on this occasion from the many buses coming from these various counties transporting the children. Many of their parents, school trustees and others will attend.

Ample provisions have been made for the meeting and arrangements are practically completed. The stadium will be zoned, ushers to seat the crowd, a committee to direct the parking of cars, everything that is possible to be done for the comfort of the visitors, and above all, every one will be given a most cordial and sincere welcome.

This is the most momentous affair this part of Texas has ever undertaken. This is something new under the sun because never before Texas have thousands of school children in the history of this part of West Texas assembled in a mass chorus, singing the same songs with somewhat similar training.

Mrs. Madge D. Twaddell, Dickens County School Superintendent is district chairman of this program. Mrs. Violet McKnight, voice teacher in the Spur schools, is district song director.

Spur Girls Win Honors at State Rally

Competing with 1300 other high school boys and girls from 225 Texas high schools, Spur Home Ec girls won honors at the State Home Economics Rally held in San Angelo April 23-25.

Spur High School competed in Group A Schools competing against such schools as Abilene, Lubbock, Amarillo and Austin.

Lorene McArthur won 4th place in the posture and clothing contest in which she wore a tailored dress that she made in clothing class.

Nelta Pritchett won 3rd place in the selection of kitchen equipment most desirable from the standpoint of money's worth, durability and ease of cleaning.

Those attending the Rally from Spur were Billie Burke Hisey, Joyce Koon, Lorene McArthur, Nelta Pritchett and Mrs. O. C. Thomas, Teacher of Homemaking.

Subsoil Moisture Totals 2.99 Inches

The subsoil moisture at the Texas Agricultural Experiment Station, Spur on April 20th, that was available for plant use was 2.99 inches which is slightly below the normal for the same date of 3.16 inches.

The amount of available moisture stored in the soil on April 20th over a period of years:

April 20, 1931	4.24
April 20, 1932	3.68
April 20, 1933	4.68
April 20, 1934	1.70
April 20, 1935	1.71
April 20, 1936	2.99

There is suitable moisture for planting on the sandy and sandy loam soil but there is a slight deficiency of moisture on the clay soils at planting depth for the best germination of seeds.

Farmers are in no special hurry to plant as normal planting does not start until the first or second week in May.

R. E. Dickson.
Since the above article was prepared by Mr. Dickson the Station has recorded another inch rain. Although the rain was spotted, it fell over many sections of the territory that will give them plenty of moisture to plant.

Attention Homemakers

There will be an adult class offered during the week of May 25-29 for Spur women. The class will be on "Easy Guest Meals." This class will give opportunity to discuss food management, good meals at low cost and time saving ideas.

The class will meet at a time convenient for the greatest number, perhaps, 2-4 p. m. daily, in the High School Home Economics department. The class will be taught by Mrs. O. C. Thomas. There will be no fee.

If you desire to attend the class, will you call Mrs. Thomas at the High School between 1:00-1:45 p. m. on any school day?

Judges on the street corner seem to have more assurance than those on the bench.—Gilmer Mirror.

WEATHER

The following is the record of weather as compiled by the Spur Experiment Station from April 21 through April 27:

Tuesday, April 21: high 76, low 51, cloudy, .45 rain.
Wednesday, April 22: high 63, low 38, clear.

Thursday, April 23: high 74, low 38, clear.
Friday, April 24: high 82, low 42, clear.

Saturday, April 25: high 88, low 48, clear.
Sunday, April 26: high 85, low 55 .90 inches rain.
Monday, April 27: high 79, low 56, cloudy, .08 rain.

OPENING GAME OF SOFT BALL LEAGUE FRIDAY AFTERNOON

The Texas Spur Soft Ball League will start play Friday afternoon, May 1. The season has been split into two divisions, the first running from May 1 to July 1 and the second from July 1 to September 1. Winners of each half will play a three game series for the championship.

M. C. Golding, manager of E. Schwarz & Son at Spur has put up a cup to be known as the Golding Trophy. This trophy cup will be given permanently to the team that wins the championship two years. The cup has already been ordered and will be placed on exhibit on arrival. Space has been left for engraving the names of the winning teams each year.

In addition to the trophy cup, members of the winning team each year will be given individual awards.

A tentative schedule has been prepared. A meeting of all team managers is called for Thursday evening, April 30, at which time the schedule will be submitted and suggested changes made. The meeting will be held at the Texas Spur office at eight o'clock. Teams that have definitely entered are the Independents, managed by Dr. Bob Alexander of Spur; Bryant-Link Co. of Spur, managed by Joe Giddens; Kinney of Spur, managed by Bill Kinney; Girard, Leon Henderson, manager; Dickens; Jayton, managed by Bill Alexander.

County Conventions To Be Held Tuesday

The Democratic County Convention will be held at ten o'clock a. m. next Tuesday May 5, at the court house, Dickens. County Chairman Robt. Nickels of McAdoo, will preside over the meeting. Delegates to the State Convention at San Antonio, May 26, will be elected. The State Convention will select the delegates to the National Convention at Philadelphia, at which time the 1936 nominees for president and vice president will be selected.

Precinct committeemen in each voting precinct of the county are to hold precinct conventions Saturday and select delegates to the county convention. Mr. Nickels urges every precinct committeeman, who make up the county executive committee, to be present for the convention.

Several names have been suggested as delegates to the State Convention. The first choice of the convention will probably be the County Chairman. Other names suggested are Alton B. Chapman, District Attorney, delegate four years ago to both State and National conventions; Dr. M. H. Brannen, East Spur Committeeman and Allred leader; H. A. C. Brummett, former county judge and lawyer of Dickens; and O. C. Arthur, postmaster of Spur and former secretary of the County Executive Committee.

The Republican County Convention will be held at Spur May 5 and delegates elected to the State convention at Fort Worth, May 26. L. H. Perry is County Chairman.

Fred C. Crabtree of Dickens Dies Tuesday

Fred C. Crabtree of Dickens, died suddenly at the home of his father, L. G. Crabtree, at Dickens Tuesday afternoon. Funeral services were held at the Dickens Baptist Church Wednesday afternoon at 3:00. Rev. A. P. Stokes, former pastor and life long family friend, and Rev. J. J. Terry, present pastor, conducted the services. Interment followed in the Dickens cemetery with Bill Kinney in charge.

Mr. Crabtree was survived by his wife, father, three sisters, and one brother, Rev. Victor Crabtree of Arizona. In ill health for a number of years he had been in better health the past year and death was unexpected. A member of the Baptist Church for a number of years, Mr. Crabtree was active in its work and last year served as Clerk of the Dickens County Association.

Born March 1, 1909 at Dickens Mr. Crabtree had spent most of his life in this county and had a large circle of friends.
Pallbearers were: Johnnie Koonsman, Fred Arrington, Jack Gipson, Wayland A. Lee, Kasey Odell, and Vance Hughes, all life long friends of the deceased, some of whom were old school mates.

Tim Meddler says: "Sum times we tell tentashun to git behind us, but take its telephone number."—Marshall News.

Boys and Girls Week sponsored by the Spur Rotary Club reaches the climax today (Thursday) when a full line up of city offices will be taken over by high school students.

The high school held an election Tuesday and when the count was completed Max McClure was the leading candidate for Mayor. Bill Caraway and Winifred Bell were elected as City Commissioners.

Pershing Lee was high in the race for Police Judge and will sit in the seat of judgment. Lawrence Purcell was elected Chief of Police. W. T. Ince and Sylvan Golding were selected as Rotary Club President and Secretary respectively. W. P. Foster will be Secretary of the Chamber of Commerce for the day.

School trustees elected were: Billie Burke Hisey, Isabelle Campbell, Billie D. Bell, Bill Tackett, Jno. A. Moore, Helen Hale, Julia Jo Reed.

Sound Unit Secured For District Singing

A \$10,000 portable sound reproduction unit, capable of making the human voice clearly audible to audiences of 50,000 or more, has been secured for the District Music Meet to be held here Saturday, May 2.

This equipment is being brought to Spur at the request of the local committee in charge of arrangements for the big song festival. Without such equipment as this, the problem of leading a massed chorus of the size that will sing here May 2nd, is a real one. This is particularly true since the chorus is to sing outdoors.

The equipment includes a powerful amplification unit, a bank of the latest type public address horns, and complete microphone hook-up. It is in charge of an expert technician who is also a trained announcer.

Mrs. Violet McKnight, who will lead the massed chorus, will be enabled to issue instructions to her singers through a microphone. Through other microphones, which will be set so as to pick up the voices of the school children, the music will be carried back through the amplification equipment and blended into a mass harmony suitable for radio pick-up if that should be desired.

This equipment is being brought to Spur through the cooperation of H. A. Boothe, Gulf representative, and at the request of L. A. Woods, Texas State Superintendent of Public Instruction. It is provided gratis to the committee by Gulf Oil Corporation.

It is the same equipment which is being used at the 24 District Music Meets now being organized by the State Department of Education in preparation for the great 50,000 voice school children chorus which is to be assembled at the Texas Centennial Central Exposition in Dallas for a national radio broadcast June 13. This massed chorus will gather in the Exposition Stadium and the children's voices will be broadcast to the Chains through the Gulf Radio Studios on the Exposition Grounds.

When in need of high class, well printed, commercial printing let the Texas Spur do the work. Satisfaction guaranteed.

First Matches in Golf League Sun.

The Cap Rock Golf League will play the first matches of the 1936 season Sunday. Four teams have entered this year: Floydada, Matador, Crosbyton and Spur. Last year there were two teams from Spur but only one team was entered this year.

The Spur team has been practicing regularly the past two weeks since the completion of the new course.

The complete schedule is being made up and will be released in a few days.

Memorable occasions in the history of Texas will be shown in dioramas now being prepared by the Humble Oil Co., and which will be on exhibit at the Centennial Central Exposition in Dallas. Following the Central exposition the dioramas will be donated to the University of Texas for the Texas Memorial Museum.

Soil Conservation Sheets Held Up

On orders from the District Agent O. G. Tumlinson, work sheets for putting the new soil conservation act into effect were held up and not turned over to committeemen as had been announced. County Agent G. J. Lane received a letter Thursday from Mr. Tumlinson stating that another district meeting would be held in the near future and work sheets would be delivered then.

The local office had received a number of calls for the sheets. The agent's office advises that farmers can plan their farm program for the year without work sheets and go ahead and plant, filling out the sheets later. Each farmer must have a work sheet though to receive payment from the government for co-operating in the soil conservation program.

**ARTICLE I.
HISTORY OF UNICAMERAL
LEGISLATURE**

The Unicameral Legislature simply means One House. The question in Texas is not whether we shall abolish the House of Representatives or the Senate, retaining the other, but shall we abolish both of such houses and create one new house of a given number of men and women as Representatives of the people, elected from the various districts of Texas in proportion to the population within each such district.

The one house Legislature is not a new idea. The nations of Switzerland, Australia, Ireland, Finland and the Philippine Islands operate under a one house representative body. The Philippine Islands, the most recent nation to embark its ship of State afloat upon the sea of democracy was directed by the United States and set up under a one house government. Each province of Canada, with the exception of one, has a Unicameral Legislature. Nebraska because of their senior United States Senator, and progressive statesman, Geo. W. Norris, will convene their first one house Legislature in January 1937, the same having been adopted by constitutional amendment by an overwhelming majority of the people of that State in 1934.

England, the mother country from which we of America took our ideas in formulating our democracy, does, in fact, have a one house system of legislation. In the year 1911 the House of Lords were shorn of all their representative power, and today have even no veto power which extends beyond two years.

In the second called session of the Legislature I introduced in the Senate of Texas a resolution calling for the adoption of such a system in this state. The resolution received six votes in the Senate and failed to receive a majority in the House of Representatives by only two votes.

On one or two occasions prior to the introduction of my resolution, there had been introduced in the House of Representatives resolutions, in more or less general terms calling for such a system.

In recent months, bills for establishment of the Unicameral Legislature have been introduced in seventeen States other than Texas, the most recent of which has come from the Legislature of Massachusetts, to whom Governor Curley of that, the most conservative of the States in the Union, urged the adoption of such a system modeled after that which Senator Norris of Nebraska succeeded in having the voters of his State put into effect.

In 1642 in England the masses of the people demanded of their ruler that they be given some recognition

in the carrying on of their Governmental affairs. The King, recognizing such demand, but at the same time desiring to safeguard his coveted powers, selected of his own choosing, representatives from various sections of his nation to counsel with him. Of course, it was a matter of only a short time until the people realized that they were being given no real participation in their Government such as we now recognize under our democracy. Soon thereafter greater demands were made upon the King, and they, the common people, were permitted to elect men of their own choice to serve as legislators. Thus came into being the first representative body—and this under a one house system. In that day in England there were those known as Lords and Piers, they being the property taxpayers and landed estate owners of the nation. This class soon recognized that too much power had been placed in the hands of the common people, and that if some action were not taken on their part, their interests would not be safeguarded. Hence, they too went to the King and demanded of him that they be allowed representatives who would safeguard their rights under the Government. Thus came into being what was, and is today, known in England as the House of Lords. This is where we got our idea of two houses when our Democracy was established.

It will be observed that the members of these two houses were selected from different classes of people to serve the best interests of a particular group of people, to wit, the masses on the one hand and the land owners on the other; the members of the House of Commons were elected for a short term whereas the Lords were appointed for life; they received different compensation for their services; they had different functions to perform; they were required to have different qualifications for membership in their respective assemblies.

Today in Texas, both houses are elected by direct vote of the people; they are elected for identical purposes and to perform identical functions; they are paid exactly the same salary; and both the members of the House of Representatives and of the Senate are elected for the purpose of serving the best interests not of a particular class, but of all the people of this State.

We do not recognize the different classes in Texas, hence, we should elect our Representatives in the house to represent the one class and admit that the Senate is to represent wealth, power, special interests, and the aristocracy of this State if there be such or we should abolish both of such houses and form one, the members of which can be forced by the people of this State

**FUNERAL SERVICES HELD
THURSDAY FOR MRS. ELKINS**

Mrs. W. M. Elkins, resident of Spur the past six years and pioneer citizen of Palo Pinto County died at the family home on East Fifth Street at 6:15 Wednesday afternoon. Funeral services were conducted at the residence Thursday afternoon by Rev. E. L. Yeats, pastor of the Methodist Church. Interment followed in the Spur cemetery with Weber Williams in charge.

Katherine Leblue Elkins, wife of W. M. Elkins, was born in Cham-

bers County, Texas, September 11, 1856. She was married to Mr. Elkins in Hill County, January 29, 1873. To this union was born eight children, three having passed on in early childhood. Surviving are her husband, two sons and three daughters: J. D. Elkins, W. T. Elkins, Mrs. Mattie Ince of Spur, Mrs. Minerva Chesnut of Strawn, and Mrs. Josephine Tucker of Pampa. There were 52 grandchildren, 61 great grandchildren and three great great grandchildren. There were five generations present at the funeral services.

Mrs. Elkins moved with her family to Spur from Palo Pinto county about six years ago. They had resided in that county 35 years, moving there from Hill County. She affiliated with the Methodist church as a young girl and was an active member for over fifty years.

WHEN you allow Headache, Neuralgia, Muscular, Rheumatic, Sciatic or Periodic Pains to keep you from work or pleasure. You can't go places and do things when you are suffering—and the work or good times won't wait for you.

Why allow Pain to rob you of Health, Friends, Happiness, Money?

DR. MILES ANTI-PAIN PILLS have been used for the relief of pain for more than forty years. They taste good, act quickly, do not upset the stomach, nor cause constipation, leave no dull, depressed feeling.

Thousands have used them for twenty, thirty, forty years, and still find that nothing else relieves pain so promptly and effectively.

Why don't you try them? Once you know how pleasant they are to take, how quickly and effectively they relieve, you won't want to go back to disagreeable, slow acting medicines.

You too may find quick relief. Why wait forty minutes for relief when Dr. Miles Anti-Pain Pills will relieve you in ten to twenty minutes?

Death At Night

During the normal hours of daylight last year, from 6 a.m. to 6 p.m., according to statistics of the Travelers Insurance Company, there were 14,620 persons killed in automobile accidents, while in the normal hours of darkness, from 6 p.m. to 6 a.m., there were 21,480 deaths. This record raises the question, "Shouldn't drivers and pedestrians be afraid of the dark?"

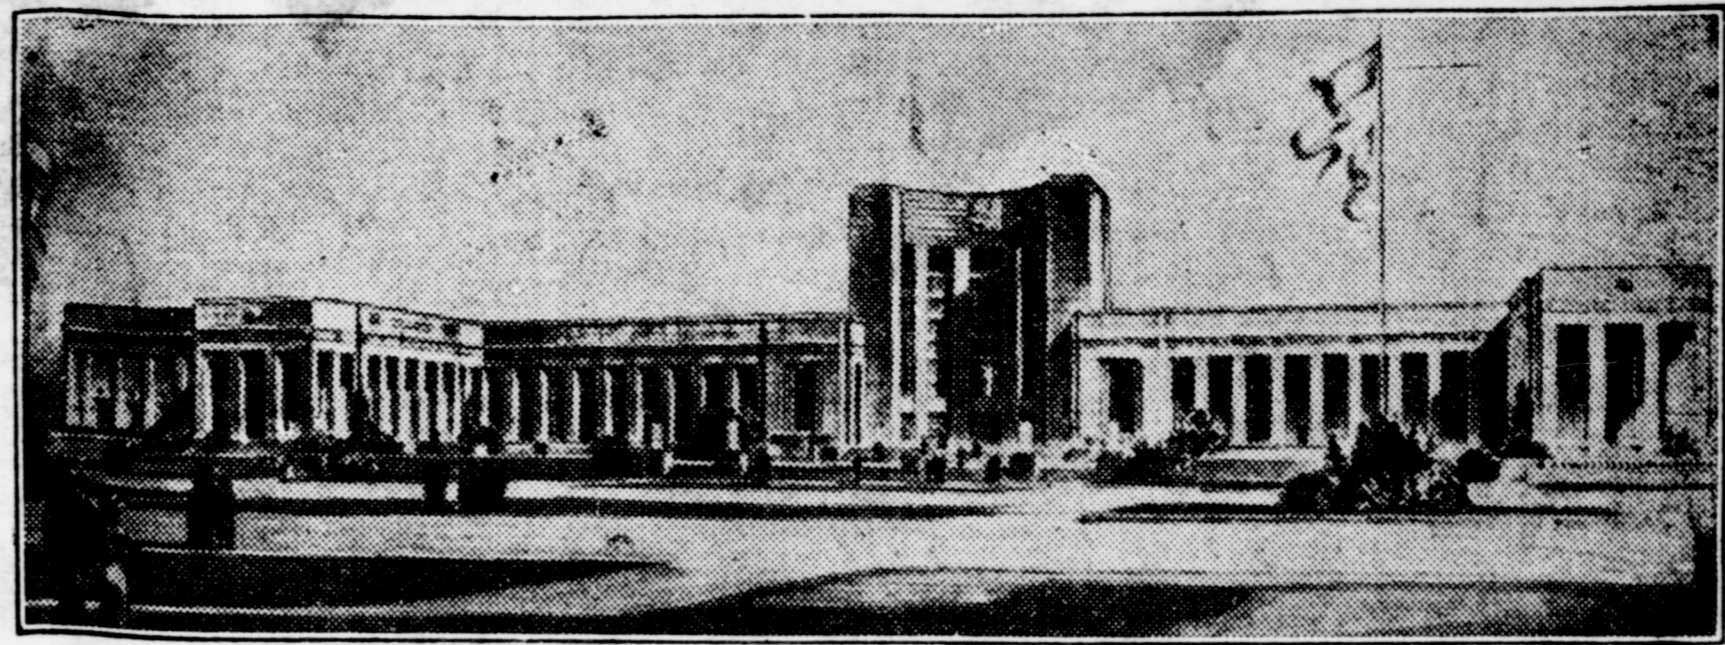

The exceedingly high rate of death per accident for the normal hours of darkness puts the spotlight on the conditions and conduct of drivers and pedestrians responsible for such a record of fatalities after sun down. At night drivers can't easily avoid what they can't see. This is something that pedestrians need to remember.

DICKENS COUNTY SINGING CONVENTION SUNDAY

THE Masterpiece OF TIRE CONSTRUCTION

RACING drivers will not take chances on any tire except a Firestone Gum-Dipped Tire in the grueling Indianapolis 500-Mile Race, where its greater blowout protection has been repeatedly demonstrated.

Ab Jenkins, the famous driver, used Firestone Gum-Dipped Tires on his 3000-mile run over the Salt Beds of Utah, which he covered in 23½ hours—a record of 127 miles per hour. He has driven more than a million miles on Firestone Tires, in every state in the union, on all kinds of roads, in all kinds of traffic, without tire failure or accident of any kind. What a tribute to safe, dependable, economical tire equipment.

When you drive at today's higher speeds, your life and the lives of others are largely dependent upon the degree of safety built into the tires of your car. Take no chances—equip your car with new Firestone High Speed Tires today and be sure of the safest driving equipment money can buy.

The body of the New Firestone High Speed Tire is made from selected long-staple cotton dipped in liquid rubber, absorbing eight pounds of rubber in every hundred pounds of cotton. This patented Gum-Dipping process insulates every fiber in every cotton cord, preventing internal friction which creates the heat so destructive to tire life, and giving to the tire added strength.

This heavy, broad, traction and non-skid tread is held to the cord body of the tire with Two Extra Layers of Gum-Dipped Cords, a patented construction, making the cord body and tread an inseparable unit.

A leading university in 2350 tire tests has found that the new, scientifically designed Firestone High Speed tread stops a car up to 25% quicker. Its super-traction and non-skid efficiency have also been proved in the famous Pike's Peak Race where for eight consecutive years it has been used on the winning cars.

The SEASONS DIFFER TODAY

"At Christmas I no more desire a rose Than wish a snow in May's new-fangled mirth; But like of each thing that in season grows."

THESE lines tend to remind us that we've been slipping some since Shakespeare's day. We've contracted a very bad habit of wanting our roses at Christmas, and our eskimo-pie on May-day.

Luckily, however, we can have them without too much fuss—thanks to florists and ice-cream makers. Lucky too, since we have fallen so low as to desire peaches at Christmas, along with our roses, and cranberry sauce in May, along with our snow, that canners have stepped up progress to the point that we can have foods out of season also.

Pass the June Salad, Please Seasons in menus have little to differentiate them today. Spring and summer are blithely tossed into our winter meals by means of fresh luscious fruits and vegetable salads, and frozen dishes are a very essential part of our summer meals.

Have you a good selection of spring and summer salads to brighten up these gray, blustery days? Jellied salads more colorful with fruits and served in deep cups of crisp lettuce do things for meals which feature meat roasts, and the heavier courses. Canned fruits, since they are the choicest of fruits of the orchard, are tempting in form and color as well as flavor, and add that beauty as well as zest, which the hostess desires for her feast.

Try these delicious salads and then look at your calendar to see if it's really winter.

Jellied Pineapple and Peach Salad: Dissolve one package of lemon flavored gelatin in one cup boiling water and add one cup of canned peach and pineapple syrup. When cold and ready to set, add one cup of diced canned peaches, one cup drained crushed pineapple, one-half cup chopped nuts and one-half cup chopped dates. Mold as desired. Serve cold on crisp lettuce with mayonnaise. This serves eight persons.

Ginger Ale and Grapefruit Salad: Soak two tablespoons of gelatin in four tablespoons cold water, then dissolve it in one-half cup boiling water. Add one-fourth cup sugar and one-fourth cup lemon juice. Stir until the sugar is dissolved. When cold, add one cup ginger ale and the syrup from one No. 2 can of grapefruit. When about to set, add the grapefruit pulp and eight maraschino cherries. Pour into a flat pan or into molds, and let chill until stiff. Serve garnished at the side with sprigs of fresh mint, and top with cream mayonnaise. This serves eight persons.

Pear and Tomato Salad: Slice chilled ripe tomatoes and place one slice of tomato in each of eight individual nests of lettuce. Place half of a canned pear on top of each, with the cut side of the pear up. Mix one cream cheese with three tablespoons of chili sauce and pile in the pear cavities. Garnish with strips of canned pimiento and serve with either mayonnaise or French dressing. This serves eight persons.*

Two Held In Liquor Dealer Slaying At Guthrie, Texas

San Bernardino, Calif. April 22.—Sheriff's deputies held Cobb Pettijohn, 25, and Bob Pettijohn, 21, today at the request of the Paducah, Texas, sheriff for questioning in the fatal shooting of B. E. Pettijohn, Guthrie liquor store proprietor. Both men denied any knowledge

of the crime. Officers said Cobb is the brother and Bob the nephew of the liquor store proprietor. They were arrested at Mentone, near Red lands.

COUNCIL SETS DATE FOR CLOTHING EXHIBIT

June 20, was the date set for the clothing exhibit in the council Saturday afternoon.

The exhibit will be held in the basement of the First Baptist church. Each club will bring lunch. The Commissioners' Court and the business men will be invited guests.

Mrs. Floyd Barnett, council chairman read the program for the Short Course to be held in Canyon May 7.

Those present were: Mmes. Floyd Barnett, Jno. Bachman, I. E. Abernathy, Soldier Mound; Mmes. J. R. McArthur, Matt Howell, Red Top; Mrs. O. S. Harvey, McAdoo; Mrs. Roy Johnson, Mrs. F. B. Crockett, Espuela; Mrs. J. L. Hagins, Duck Creek; Mrs. L. B. McMeans was a visitor.—Council Reporter

SHRUBS AND TREES ARE SET

A check of the yard improvement work in the county done by home demonstration club women shows that 516 shrubs and 612 trees have been set this past winter and spring. One of the goals in this year's program is to set at least ten foundation shrubs and a group of three or five trees.

About fifty per cent of the shrubs are native shrubs, beargrass, wild currant, agarita and sage being used most extensively. All of the trees are Chinese Elms.

The problem for the remainder of the year will be the care of the things set. Frequent cultivation will take the place of many waterings. A light mulch of well decayed manure will help to hold the moisture even better than cultivation.

COOPERATOR IMPROVES YARD

A new yard fence, two stepping stone walks, six foundation shrubs, eight trees, and a partly sodded lawn are Mrs. Price Brownlow's achievements in yard improvement work this year. Mrs. Brownlow is a yard improvement cooperator in the McAdoo home demonstration club.

The lawn was partly set with native female buffalo grass roots in the demonstration this month. She and the children will complete the work right away.

A check of the work of the other members of the club shows that they have set 136 shrubs and 195 trees.

TWIN WELLS H. D. CLUB HAS STUDY OF LAWN

The program of the Twin Wells Home Demonstration Club at the home of Mrs. L. B. McMeans, April 16, was opened with the reading, "The House with Nobody In It" by Gladys McMeans.

The best time to start the lawn or repair it is during the cool weather of early Spring for that is when the grass grows most successfully and gets its strength to withstand the hot dry weather that comes later. Why not plan to have a lawn of Bermuda or Buffalo grass that will add to the beauty of the home? All that needs to be done as Miss Pratt demonstrated, is to deeply prepare the soil, mixing in fertilizer, if neces-

sary and level. Before setting the grass lay the rows off about six inches apart, then set the grass and water well, covering the roots with dirt. When the lawn looks bare and ragged loosen the soil with a steel rake and one will be wonderfully repaired for the labor.

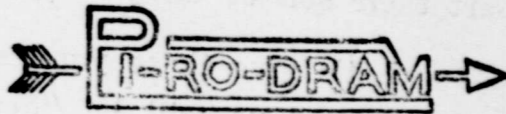

Those present were: Mmes. Della Merriman, Don Merriman, Tom Gilmore, L. B. McMeans, Missa Pratt, Elizabeth Williams, Gladys McMeans.

CITIZENS OF TOMORROW

Today Spur will be governed by the citizens of tomorrow. The boys and girls of high school age have elected a full ticket of city officials and will rule and exercise their judgment in matters ordinarily controlled by their elders. We forecast that they will do a good job of it and every parent will be justly proud of the part their son or daughter plays.

Let's give these youngsters a glad hand and hope that not too many of us will be "arrested" and locked up for offenses against the law that we are all guilty of every day.

MORE PUBLICITY FOR SPUR

The Spur Experiment Station is in receipt of a new Soil Atlas that is the result of 50 years of study by the United States Department of Agriculture. In a discussion of crops grown on various soils the Atlas gives pictures of crops grown on different soils. A picture made at the Station in 1933 was reprinted showing cotton grown on Abilene Clay loam, which is the name of most of the soil for this section. Another picture is of the cotton yard at Spur several years ago.

The Atlas lists Dickens County as one of the few counties of West Texas where detailed tests have been made of the soil all over the county. The book is of great value to soil students in that it is the only one of its kind ever printed and is a summation of material that could be found only by studying hundreds of books and pamphlets.

Some of the map makers down east that continue to picture this country as it was in the days of the Indians could find every reason for changing their maps and bringing them up to date by a little study of this book, if nothing more than by looking at the pictures.

MORE RAILROAD LEGISLATION

The Texas Spur is in receipt of a folder pertaining to the Wheeler-Crosser Bill now in Congress. The bill gives the Interstate Commerce Commission further regulation of railroad operation. We own no stock in any railroad nor do we have any particular interest in any railroad other than the Wichita Valley that serves this territory, but we think the railroads are being regulated to death.

It is well and good to regulate interstate commerce and provide rate restrictions, but with the constant changing economic conditions it appears to us that the railroads need good management and not so many regulations.

SPUR AGAIN HOST CITY

Spur, if the weather is favorable, will be host to the largest number of people to ever assemble here at one time Saturday afternoon when 5,000 school children will sing together at the stadium. The school people of Dickens County, headed by the Superintendent Mrs. Madge D. Twaddell have done a great deal of work preparing for the visitors short stay here.

Spur welcomes these school children with their teachers and parents, and although their stay may be short, may it be pleasant and profitable and make them want to come back again.

YOUTH

I would sing a song of Youth,
Beating wings and eager heart;
Age has known the weight of truth,
Age has done its destined part.
Let the banners now be flung
By the courage of the young.

I would crown the brow of Youth,
Lifted to the morning sun;
Age has had its day, in sooth,
Gladly knows the race is run;
Find the leaders now among
Swifter sinews of the young.

I would own the right of Youth,
Eyes that see and soul that lifts;
Age has tested all the truth,
Known its chances, had its gifts.
Now the conquerer's song is sung
By the red lips of the young.

CHARLIE POWELL RETURNS FROM CHEVROLET TRIP

Charlie Powell of Spur Motor Co. has just returned from a combined business and pleasure trip from various points in and around Detroit, Michigan.

Leaving Spur Mr. Powell went to Dallas where he was the guest of Chevrolet Motor Company at a banquet honoring Chevrolets super sales men of the 100 Car Club Men, at the Adolphus Hotel last Monday. Tuesday morning all members who had earned membership in the 100 Car Club left Dallas on a special train for a five day trip to Detroit.

In Milford, Michigan, the Chevrolet 100 Car Club Men were guests of General Motors Corporation at the proving grounds where all General Motors' cars are tested and proven before being manufactured. Leaving Milford, the party visited Flint, Michigan, where they saw the manufacturing of Chevrolet motors and its assembly plants.

From Flint the party next visited Detroit, where they made a trip through the gear and axle plants and were honored at a banquet given them by the officials of Chevrolet Motor Company.

Mr. Powell reports business exceptionally good all along the trip. Chevrolet officials are very optimistic as all records were broken by Chevrolet during the month of March for any single month when they sold 126,119 units.

During the trip, Chevrolet men took occasion to boost for the Texas Centennial, as all men were given ten gallon hats before leaving. Special invitations were extended to the mayors of St. Louis and Detroit to attend the Exposition this summer.

Charlie took time off to see the World's Champion Detroit Tigers play the Chicago White Sox in Detroit and the St. Louis Browns play the Cleveland Indians in St. Louis. Members of the Texas delegation made both Rogers Hornsby, manager of the St. Louis Browns, and Mickey Cochran, manager of the Detroit Tigers, Texas ambassadors of good will, and they, too, were invited to attend the Texas Centennial Celebration this summer.

"JAUNTY JIMMIE"

Political campaigns must have slogans. One opponent has tagged the present governor "Jaunty Jimmie". Such an appellation is not entirely without merit. It takes a jaunty spirit and an inexhaustible store of energy to get the things done that Allred accomplishes. He wears down those around him to a nub, while he himself keeps up with unbelievable drive. He receives and answers more mail than any other Governor of Texas ever did. He sees more people than any Governor in recent times. A famed Washington newspaper correspondent recently told a Texan that the Texas Governor worked harder and longer than did the President himself.

A review of the record of Jaunty Jimmie convinces thinking Texans that his accomplishments have exceeded those of any Governor this State has had in two decades. He proposes to pay the old people with cash instead of promises.

Demagoguery won't help the old people. It will take the cash and that is what this Jaunty Texas Governor who is a credit to the State, particularly in this Centennial year, proposes to give Grandma and Grandpa. Texas could use more kindred jaunty spirits, such as Allred, in public life.

At the same time, we can see no point at all in calling forth the stumbling, groping, feeble services of such as may be typified by "Three-Time Tottering Tom".

DICKENS COUNTY FARMERS MAKE BIG INTEREST SAVING

Refinancing debts through the Farm Credit Administration has saved Dickens County farmers more

than \$13,200 a year on interest alone, according to figures from the central office of the Farm Credit Administration in Washington.

Over \$558,000 of farm debts with interest rates that averaged 7 per cent a year have been refinanced with long term mortgage loans carrying interest rates of 5 per cent a year or less.

The figures show that the local National Farm Loan Association has been a big factor in making these long term mortgages available at low interest rates. The Association guarantees loans to the Federal Land Bank.

From May 1933, when the Farm Credit Administration was organized, to the end of last year, 190 Dickens County farmers obtained \$533,000 for the specific purpose of refinancing old debts.

The Federal Land Bank made 87 first mortgage loans and the Land Commissioner 178 loans. Many of the Commissioners loans were made on second mortgage security to farmers who also obtained first

mortgage loans. Most land bank loans are endorsed by associations, and advanced from funds obtained by selling farm loan bonds. The commissioner lends from funds provided by the Federal government.

CLARA ROBINSON'S LIFE AS OTHERS SAW IT

Clara Pruitt Robinson was born at Hastings, Oklahoma on March 15, 1905. She was married to Elton Robinson in 1920. To this union two girls and three boys were born.

She moved with her husband and family to Texas in 1926 where she lived until her death at the age of 31.

Clara could be called a model mother and wife. She was never too busy to answer her children's childish questions or give them a kind word when they were in trouble. She planned outings and often played with her children as one of them. The Bible was taught to her children and on Sunday mornings Clara was always found at her church with them.

One of her greatest characteristics was her patience. She made me think of Job of long ago. With all the trouble, hardships, and ill health there was never a murmur.

There was always time for her to speak a kind word to those in trouble. She never spoke an unkind word of a person. One of her greatest and most accomplished aims was to be

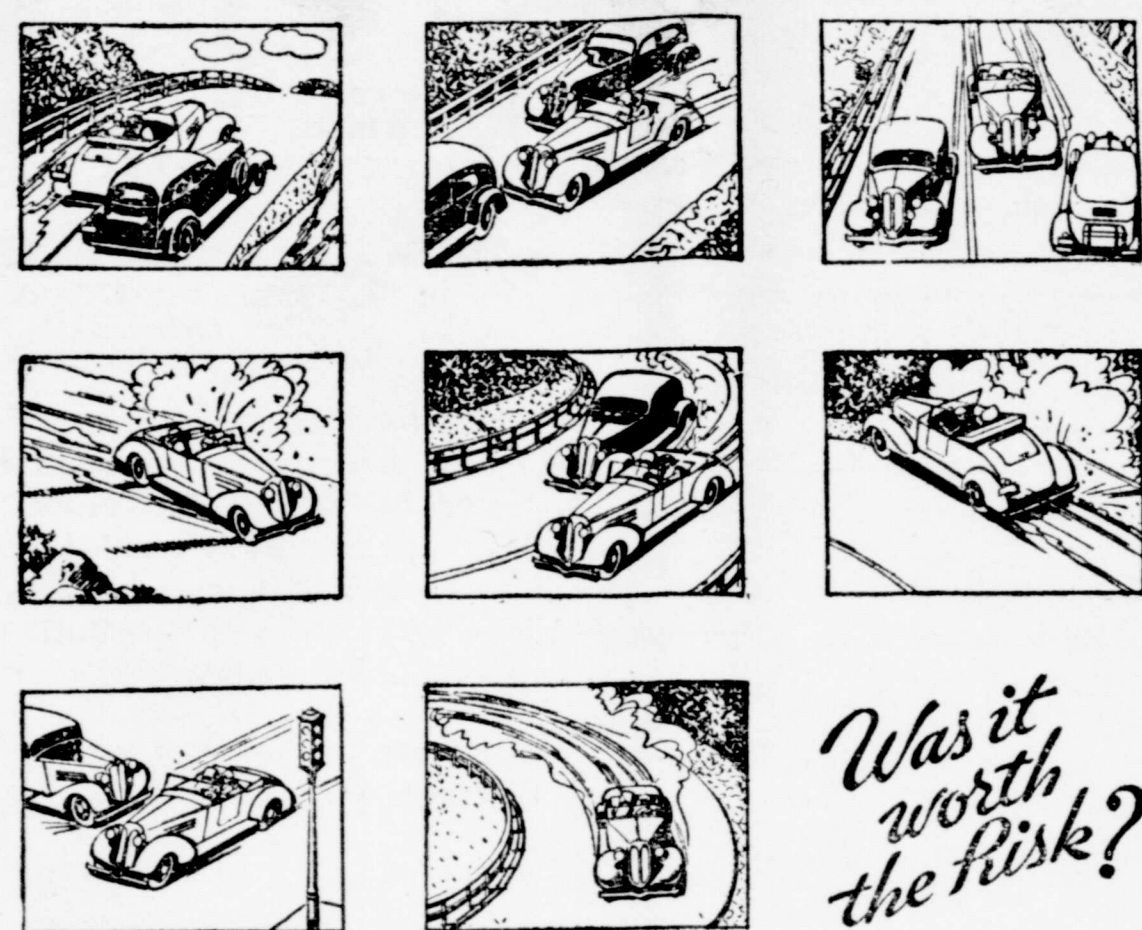

ing played at Dickens Wednesday with the score being 7 to 1 in favor of the Spur boys.

County Judge Jim Cloud had charge of taking up the collection Thursday and reports the total of over \$4.00 was collected and with a previous donation of \$2.50 made a total of near \$7.00 to add to the fund.

What's the Big Hurry?

..and here are some of the things he DID on the way up!

Was it worth the Risk?

Travelers Ins. Co. Safety Service.

Between 1925 and 1934, inclusive, the rate of death from automobile accidents increased 17 per cent in urban territory of the United States. But while this change was taking place, the rate of death increased almost 100 per cent in rural territory. (Urban territory includes all towns and cities more than 10,000 population, and rural territory the remainder.)

Last year there were nearly 160,000 automobile accidents which happened on rural highways which resulted in close to 14,000 deaths.

Many of these deaths happened because drivers took chances and drove too fast for conditions, as illustrated above. That speed is a more serious factor in deaths on highways than on city streets is indicated by the fact that at city street intersections last year deaths from almost 300,000 accidents numbered only 6,000, less than half the fatalities from accidents on highways. This information shrieks a warning about the danger of driving too fast, no matter how good a driver a person regards himself.

Rub Gently Upward Toward the Heart as Blood in Veins Flows That Way

If you or any relative or friend is worried because of varicose veins, or bunches, the best advice for home treatment that anyone in this world can give, is to get a prescription known as Moore's Emerald Oil.

eral Oil (full strength) and apply night and morning to the swollen, enlarged veins. Soon you should notice that they are growing smaller and the treatment should be continued until the veins are no longer troublesome. So penetrating and powerful is Emerald Oil that old chronic sores and ulcers are often entirely healed.
