

The Bronte Weekly Enterprise

VOLUME 21.

BRONTE, COKE COUNTY, FRIDAY, JUNE 9, 1939.

NUMBER 22.

Club Dispenses With Entertainment For Summer Months

On the decision and recommendation of the board of directors, the Community Service Club dispensed with its lunch and entertainment hour Wednesday. The club has been meeting twice a month, the first and third Wednesday. The first Wednesday was for lunch and entertainment and the third Wednesday for lunch and business.

It was decided that for the summer, as so many will be out and away from home it would be best to drop the entertainment hour and meet only once a month for business; on the regular hour for business, which is the third Wednesday. Therefore, the club will hold its regular monthly meeting for lunch and business Wednesday, June 23.

Let everybody take notice and be governed accordingly.

HER MOTHER DIES

Mrs. Bennie Gilbert and son, Bennie, went to Dallas last week where Mrs. Gilbert was called on account of the serious illness of her mother. Her mother died Saturday night, at Saint Paul's sanitarium. The body was carried to the old home at Duncan, Oklahoma, where the mother of deceased yet survives, and interred in the old family lot.

Deceased was a gracious, gentle woman. She visited here last year and made many friends who will sorrow over her passing.

Mrs. Gilbert will return home Saturday. Her friends will sympathize deeply with Mrs. Gilbert in her sorrow, in which The Enterprise joins.

Little Bennie Gilbert will stay at Duncan and spend the summer there with his great grandmother.

Sunset Motor Lines Serve All West Texas

There is no business or industry in West Texas that indicates the advancing march of West Texas more than does the truck lines that are in operation.

Only a few years ago there was no motor transportation in West Texas, while today, with the recent developments in motor truck transportation, the whole country is a network of motor truck lines, reaching every city and town and village almost from San Antonio on the south to Sweetwater on the north, and from Houston on the east to El Paso on the West.

The man who envisioned this wonderful modern mode of freight transportation was C. B. Whitehead of Brady, who is now president of the whole motor truck organization throughout all this part of West Texas. Starting almost from "scratch" a few years ago, the culmination recently of the deal by which the bus lines involved were merged into one vast system, Mr. Whitehead became president of the outstanding motor truck system of all this part of the West. W. D. Bradley of San Angelo is secretary-treasurer and Gene Whitehead is vice-president of the system and is in charge of operations, who resides in San Angelo.

These three men are the directing geniuses of the new Sunset Motor Lines, which is one of the most extensive and efficient

Masons Hold Their Annual Election Of Officers

The Bronte Masonic lodge met Monday night, in regular meeting for the annual election of officers for the ensuing year. District Deputy Worshipful Master R. B. Brooks was present, with other prominent masons from other towns and communities throughout this section.

The following were elected to the respective offices:

H. O. Whitt, Worshipful Master.

Geo. Thomas Senior Warden. Homer Cornelius, Junior Warden.

R. J. Epperson, Senior Deacon. Bob B. Covey, Junior Deacon. Frank Keeney, Treasurer.

E. A. Bell, Secretary. C. N. Baker, Tyler.

A joint public installation of the officers of the Robert Lee Lodge and the Bronte Lodge will be held in the Bronte Masonic Hall, at some date not later than June 24, which is the regular date for installation of officers.

But, the 24th of June comes this year on Saturday and it is thought by the leaders that the date will be changed so as not to fall on Saturday night.

Fred McMullan is attending Abilene Christian College this summer. Fred will receive his diploma the latter part of August.

R. G. Rosser, C. E. Moreland and R. H. Brooks of San Angelo were in Bronte Monday night, attending the meeting of the local Masonic lodge. Mr. Brooks is district deputy Worshipful-master of this the 77th Masonic district and was here on his official duties, visiting the lodge.

TO DENTON TO SCHOOL

A party departed from Bronte Saturday most of whom were bound for Denton to attend summer school.

In the group that were going to school were Mrs. Marie Wilson, Miss Nell Lowry, Miss Goldie Gray, Mrs. D. Hull, and Miss Clementa Parker. Miss Darline Brunson went as far as Mineral Wells where she will visit for awhile. Jack Chapman also was in the party, who went to Denton to visit his brother, LaMarr who is attending school there.

motor freight lines throughout the Southwest.

"Service" is the slogan of this vast transportation system. The system is fully financed and therefore has rolling stock sufficient and more to establish a schedule, maintain it and meet every demand made upon it as a transportation system. It is remarkable the quick service this motor freight system gives. With terminals all over the country, and a system of transportation that is equal to the best, and with every man associated with the system from the president to the mechanics that keep the motor trucks in A-1 condition, there is no reason why this motor freight line cannot give service that will please the most exacting. Every transaction of this motor line is on the strictest business scale and everything must thus be maintained. Therefore when freight is entrusted to the Sunset Motor Lines it is transported swiftly, carefully and courteously.

The Sunset Motor Lines has an announcement of their new arrangement and new enlarged system in this issue of The Enterprise. Read it.

WEST FAMILY HOLDS REUNION AT GLEN ROSE

The children, grandchildren and great grandchildren of the N. H. West family met in a family reunion at Glen Rose Sunday, June 4. It was the first time some who were present had seen each other in about thirty years. There were 28 present.

Those present came from Hamlin, Abilene, Bronte, Cleburne, Fort Worth and Glen Rose. The reunion was held in the beautiful Fairyland park at Glen Rose, which is a veritable beauty spot of nature—Glen Rose is known far and wide for its natural beauty. It nestles on the banks of the Paluxy river which runs through the town, with the steep mountains on either side of the stream. Fairyland park is on the south bank of the stream, with its shades and artesian water in abundance.

The day was cloudy and a bit dismal and the rain fell part of the day—but the unfavorable weather conditions did not dampen the happy spirits of the brothers and sisters and their descendants as they gathered. "The long yester-years" were lived over again by the brothers and sisters present, as they were privileged to become better acquainted with the younger folks who were present. The day was spent in happy conversation, mostly about the days of childhood at the old home, "back in the old state." In the afternoon the brothers and sisters, with some of their children visited the graves of their parents in "the old country graveyard," some four miles out from Glen Rose.

It was decided to make the occasion an annual affair and to meet at Glen Rose next year the first Sunday in June.

WILL TEACH AT MERETA

Miss Lora Jackson who has taught in the Wilmeth school in Rannels county for several years will teach next year at Mereta in Tom Green county. Miss Jackson is a successful teacher and Mereta is to be congratulated on securing her as a teacher in their school next year.

Miss Katherine Whitt went to Lubbock Thursday morning for a visit with friends.

A. J. Calloway of Odessa was a Bronte visitor over the weekend.

A. R. Calloway, son of A. J. Calloway of Odessa, and a former Bronte boy, is attending Sul Ross college at Alpine. A. R. is editor of The Skyline, Sul Ross paper.

R. R. Ash went to Lubbock Thursday morning, to be with his brother, Will Ash of Happy, who underwent surgery at Lubbock Monday. The ill man is not doing very well and grave fears are entertained as to his recovery.

Bronte Takes Game From Lakeview By Score Of 6-1

Pitching shut-out ball M. Corley Bronte pitcher had the Lakeview nine under his control for the entire game played Sunday afternoon on the home field. Lakeview got their only score in the ninth inning due an error. With no outs and three men on base in the first inning Corley struck out the next three men up to retire Lakeview and break up their chance of taking an early lead in the game.

Due credit for Sunday's win goes to Dan Scott Bronte catcher, whose quick thinking and good judgment went a long way in winning the game.

Although D. W. Williams and several more of the Bronte boys were in a batting slump they collected 12 hits for 6 runs from J. Probst, Lakeview's ace hurler.

J. Black Is First In Mis-spelled Word Contest

The interest deepens in The Enterprise mis-spelled word contest which has been running for three weeks. Then answers came in Saturday from all directions—and so close were some of them that it was hard to decide who really were the winners.

This week J. Black of Marie wins first place, thus entitling him to the \$1.50 cash prize. Let Mr. Black call at The Enterprise office when in town and the money is his.

The winners of show tickets last week were: Maxine Pruitt, Mrs. Theron Tidwell, W. R. Hester, Pauline Sanders, Monroe Sanders. Each of these is entitled to a ticket to the Texas theatre at Bronte. The Texas theatre, the Wojtek brothers owners, is always ready to aid everything that will boost Bronte's business interests. The Enterprise holds five tickets, one for each of the above. Let them call and get their tickets and enjoy a good show.

This is the last week the mis-spelled word contest will be inserted. Try your hand on this last opportunity, at your ability to find the mis-spelled words in the ads in the Mis-spelled Word Contest and then try your hand at spelling them correctly. Give the name of each advertiser, the mis-spelled words in his ad and then spell the words correctly, sign your name and get your answer to The Enterprise office not before 8 o'clock tomorrow (Saturday) morning and not later than 6 o'clock that after-

Stagner Laundry Occupies Its Own New Home

E. E. Stagner, owner and manager of the Stagner Help Yourself Maytag Laundry, has been a very busy man for the past several weeks.

Mr. Stagner's big rush has been in carrying on his regular laundry work and in getting moved into his new place of business on the south side of Main street, east of The Enterprise block.

Mr. Stagner has spent quite a sum of money building. He has not only built him a new home for his laundry, but he also constructed him a new residence on the same lots, next to his laundry. The two buildings Mr. Stagner has erected has made quite a development in the business part of town, east of The Enterprise on Main street.

Mr. Stagner has put up substantial structures. His laundry office is a wooden structure, frame and weather boarded, making it not only an elegant structure but also a substantial building. His residence is a four-room, frame, weather-boarded structure, with windows in abundance to make the living quarters cool and comfortable.

Mr. Stagner said that he wanted to give those who patronize his laundry the very best possible in service. Therefore he has spared no expense to make his laundry strictly modern in every particular so that those who patronize him will get the very best service.

The two buildings have cost Mr. Stagner quite a sum of money. But he and Mrs. Stagner are proud not only of their place of business for their laundry but of their home also.

Mr. Stagner has an announcement as to his new place of business, with an invitation to everybody to visit his new place and see for themselves the first class service he can now render those who patronize his laundry.

FRIENDS, THANK YOU

One does not know until illness or other misfortune overtakes one, just how thoughtful real friends are. Therefore, I want in this personal way to thank each and everyone for every kindness shown me since I became ill some six weeks ago. The flowers so fragrant with friendship and good wishes, the "Get Well Cards" and other remembrances by friends are sweet as the joy bells of the skies. So, thank you, dear friends, for every remembrance and good wish and good cheer you have given me. I am delighted, of course, that I now feel improved and am hopeful of my final recovery. Especially do I thank Dr. Leonard for his faithful kindness in ministering to me, day and night, and also Mrs. Knierim who was with me so much of the time. In all my feelings of gratitude, of course Bro. West joins.

Mrs. D. M. West

METHODISTS HAVE BARBECUE

Friday evening the Methodist congregation enjoyed an outdoors barbecue on the lawn of the church. Some 200 attended and the barbecue was delicious, cooked by N. M. McKinney. The other accessories of the barbecue lunch were abundant and delicious. Pastor Hardy and his helpers are happy over the success of the affair.

Dairy Cattle Royalty to Grace World's Fair

This young lady and her pure-bred companion were photographed while attending ground-breaking ceremonies for the "Dairy World of Tomorrow" on the World's Fair grounds at New York.

The "Dairy World of Tomorrow" is to be one of the striking exhibits at the 1939 Fair. Here 150 dairy cows, each a queen on the basis of her type and performance, will be on exhibit. These cows will be selected by the Breed Association representing the following breeds, Jerseys, Guernseys, Holstein - Friesians, Brown - Swiss, and Ayrshires. These cows will be milked three times daily on a rotolactor equipped with magnetic milkers—giving the public a chance to observe the most modern methods in handling milk. In addition to the cows mentioned, calves and a bull of each breed will be on display.

The "Dairy World of Tomorrow" is being staged by the five breed associations mentioned above in co-operation with The Borden Company for the purpose of showing the place of the pure-bred cow in the economics of dairying.

Queens for the Fair

When the World's Fair opens in New York in the spring of 1939, the dairy industry will be well represented. Five breeds of dairy cattle—Ayrshire, Brown-Swiss, Holstein, Guernsey and Jersey—will each have thirty outstanding cows in the "Dairy World of Tomorrow." These 150 cows will be milked in the Borden Building on the Central Mall, using a rotolactor equipped with magnetic milkers to do the job. Calves and bulls representative of each breed will also be on exhibit.

The animals are chosen by a special committee from each Breed Association, and will come from all parts of the United States and Canada as representatives of the best that the breed can produce. The Ayrshire cow shown above is one of the animals chosen.

In this exhibit not only the production of milk will be demonstrated, but the handling, bottling and sale of it will go forward under the eyes of the public. About one-third of the milk produced by the cows of this country is used as fluid milk. The rest is sold as butter, cheese, ice-cream, casein for paint, billiard balls, paper sizing, milk sugar for medicines, and in literally hundreds of others forms. The Borden exhibit will tell much of this story and give a better understanding of the place the dairy cow, as exemplified by these pure-breeds, and the milk distributor play in the scheme of things.

J. BLACK FIRST (Continued from page 1) noon. Here goes folks for the last run.

In this connection we wish to thank the advertisers of San Angelo, Ballinger and Winters for their placing their ads in this unique contest. We say to them truthfully that your ads have been read as the many answers received will verify. And let our readers, when you go to Winters, Ballinger, or San Angelo, and need anything carried or any service rendered by any of the advertisers in this contest or other advertisers of The Enterprise, call on them and give them a chance to supply you your needs in either merchandise or their service.

Mr. and Mrs. Wade Rees and Mesdames Robert Knierim and Charley Luttrell returned Sunday night from a week's visit that carried them to see relatives at Center Point, San Antonio, and Austin. They report much rain in that section.

Mr. and Mrs. Wade Rees left Wednesday for Lubbock where Mr. Rees will attend school this summer at Texas Tech. coll.ge.

Stagner Laundry Service Announcement . . .

To all our patrons and the people generally of Bronte and the Bronte Country:

We are pleased to announce in this formal way that we are now in our own new place of business and are ready to serve you with the very best there is in laundry service.

Our New Location

Our new location, as the most of you know by this time, is on the south side of Main street, just east of The Enterprise block. At much expense we have built our place of business and installed our laundry plant so that we can give you

The Very Best Service

Possible. We want to give our patrons the very best and to that end we have built our laundry home and installed our laundry plant.

Our Constant Aim

Is to please each patron we have. Therefore, if you have not yet given us a trial we will appreciate your trying us one time and see the service we can render in our new place.

We Thank You

Each and everyone for any patronage given us in the past or that you may give us in the future. We will do our best in each instance to merit your patronage.

Thanking you again.

BLACKWELL NEWS

MRS. CHARLES RAGSDALE

Louise Evans and Lou Emma Oden are attending an Epworth League convention at McMurray college at Abilene this week.

Methodist Ladies Meet With Mrs. Henry Raney

The Methodist Missionary Society met in the home of Mrs. Henry Raney Monday afternoon. Mrs. W. W. Youngblood and Mrs. J. W. Leach gave the fifth chapter on the book of India.

Delicious refreshments were served to Mrs. T. A. Carlisle, Mrs. Austin Jordan, Mrs. Roy Sanderson, Mrs. George Hartin, Mrs. Chas Ragsdale, Mrs. P. G. Dabney, Mrs. A. J. Oden, Mrs. W. W. Youngblood, Mrs. J. W. Leach, Mrs. R. B. Kirk, Mrs. Frank Youree, Mrs. Delos Alsop and the hostess.

Mr. and Mrs. E. C. Roper visited relatives and friends in Blackwell last week-end.

Miss Emma Jane Wililams of Cross Plains is visiting her sister, Miss William Burdette.

Mrs. Laura Jackson and children of Roscoe visited her sister Miss Florence Coleman.

Mr. and Mrs. T. A. Carlisle are visiting their son T. G. and wife at Yoakum. They will attend the Tomato tom-tom.

Mr. and Mrs. Ellis Foust of Littlefield visited Mr. and Mrs. Perry Vest last week.

Mrs. C. H. Bolin and daughter, Ernestine, have returned to Blackwell for the summer.

Young Folks Home From College

The young people that have returned home from college for the summer are: David Ellis and Edwin from the State University at Austin, Maurine Robin from Denton, Jeraldine Jordan and Geraldine Youngblood from Tech at Lubbock.

Equine Encephalomyelitis Or Sleeping Sickness In Horses

(Continued from last week)
Accordingly, through the efforts of Dr. G. W. Cronen, we obtained a few of the dead birds and examined their brains for the presence of sleeping sickness virus. Although no virus was recovered, our pathological studies of the brains revealed alterations somewhat suggestive of those of a virus disease. It is unfortunate that the disease terminated shortly after we began our studies and further specimen material was not available. The symptoms, seasonal occurrence in a sleeping sickness area, and our pathological findings certainly are suggestive of those of encephalomyelitis. The study of this bird disease should be followed up whenever other outbreaks occur.

Measures for the control of the disease are directed along two lines, (1) the prevention of the introduction of the causative agent into a susceptible animal and (2) the raising of the resistance of the animal's body to the infection by vaccination procedures.

Since it is generally accepted that the disease is transmitted to susceptible animals by biting insects, particularly mosquitoes, much can be accomplished by protecting animals from insects. During the past two years striking examples have been report-

ed of value of this method of attack in preventing losses from the disease, both in civilian establishments and the U. S. Army. Stabling horses at night in screened stables, the use of sprays, both for the destruction and repelling of insects, the use of fly nets, hoods and other measures cannot be emphasized too strongly as first line defensive measures against the disease.

Your Secretary, Mr. Dinmorse, has issued a number of notices containing valuable, practical information on spray formulas with instructions for their use. It is strongly recommended that all horse owners familiarize themselves with the contents of these notices.

Gratifying progress has been made in raising the resistance of animals to infection by vaccine therapy. This year a new type of vaccine, the so-called "chick" vaccine has developed and has had extensive use in the field. Experimentally the chick vac-

cine, so called because it is prepared from 9-to-12-day chick embryos that have been inoculated with the virus which is then destroyed by formalin, has been found to be much superior to the original feormolized brain tissue vaccine. The virus of encephalomyelitis, which is contained in the brains of animals that succumb to the disease, is rendered germ-free by passage through filters which retain bacteria, so that the resulting filtrate is sterile and no organisms are there but the virus. It is in a pure form. This is inoculated through the egg shell. The egg is cracked and with a hypodermic needle the virus is deposited on the membranes surrounding the chick embryo. The virus multiply very quickly in this chick embryo and destroy the embryo in from eighteen to twenty-four hours. It has been found that a tremendous amount of virus is found in the embryo, many, many times more (Continued on last page)

been estimated in some cases that there are ten million times more virus in the chick embryo than in the horse's brain.

Experimentally both in laboratory animals and horses, the immunity produced by the chick vaccine can withstand very severe doses of experimental massive infection. A recent test conducted by the Bureau on horses indicated a high degree of immunity in the animals 6 months after vaccination with the chick vaccine. This test has just recently been completed. Six months ago we immunized three horses—this was a commercial vaccine, by the way, a commercial chick vaccine—two injections seven days apart, six months ago.

Two weeks ago those animals were exposed to the virus of the disease by a direct inoculation into the brain, which is the most severe method of exposure possible. At the same time three normal horses promptly showed a rise in temperature and all the symptoms of encephalomyelitis within four days, became prostrated and died, whereas the vaccinated horses showed no rise in temperature and remained perfectly normal right through.

This was a very, very outstanding case and has a considerable increase over the old brain tissue vaccine. That was one of the disadvantages of that particular product. It did produce some immunity, but the immunity was not as long lived as it was thought desirable. With a six-month protection possible, we also have animals on test now which we will expose perhaps three months later, which will be nine months after they have been vaccinated, or possibly a year, and we may get further information to indicate that protection may be afforded beyond the six months period; but a six months' period would be ample from a practical standpoint to protect animals during the time of the season when the insects would be prevalent.

A large number of horses were subjected to vaccination procedures, both before and during this year's epizootic. For example, data now available indicate that of about 2,000 horses vaccinated with the original formalized brain tissue vaccine two weeks before the outbreak, less than 1 per cent developed the disease. Of about the same number of horses vaccinated at the same time with the new formalized chick embryo tissue vaccine, only about 0.1 per cent contracted sleeping sickness. Again of about 6,000 horses vaccinated with the brain tissue vaccine during the epizootic, about 1.5 per cent developed the disease; while of over 30,000 horses vaccinated at the same time with the new chick vaccine, less than 0.5 per cent developed the disease. These figures clearly indicate the value of vaccination, both before and during an outbreak, and the superiority of the new chick vaccine can be expected when animals are vaccinated several weeks in advance of the time when disease might
