STATE-COUNTY HEALTH OFFICIALS CONCERNED ABOUT BRONTE

According to a letter addressed to County Health Officer Dr. J. K. Grif- For Sheriff: fith of Robert Lee from State Health Officer George W. Cox, the latter is concerned about insanitary conditions in Bronte. Dr. Griffith recently advised Dr. Cox "of the action . . . taken regarding insanitary conditions at Bronte.

Dr. Cox noted that he was "pleased to observe that between you and Dr. J. D. Leonard the situation will be improved.

Dr. Leonard has continued his inspections of insanitary conditions in Bronte, and reports that a number of business firms and individuals are taking necessary steps to comply with sanitary laws.

At a meeting of the City Council on Wednesday, June 19th, a San Angelo lawyer advised Council members that the City statutes on sanitation were air-tight, and could be enforced with no trouble at all. According to accounts of the meeting from those who attended, it was pointed out that enforcement of the sanitary code would esult in making somebody mad.

The attorney reportedly noted that notices could be sent to violators requesting their cooperation in cleaning up their premises within a certain time, and at the end of that time. daily fine could be assessed with each day constituting a separate offense.

It is not known whether the Council contemplates such action, but it is known that such action is entirely legal and permissable.

On the other hand, if such action is not taken, Bronte may then be faced with a corps of State health officials, who will enter the town with no timidity about enforcing laws already on the books. According to the letter from State health officials, it would seem that if Bronte takes no action, then action will be taken for Bronte
