A BRIGHT OUTLOOK.

The season for the campaign in 1901 for farmers is now at hand. To make the campaign a victorious one it is necessary to use brains as well as brawn. In every community farmers can be found who have made money and at the same time improved their land while others, under the same conditions, have seen both themselves and their lands become poorer and poorer. This is not always due to the difference in the amount of labor expended, for often the hardest working are the most unsuccessful farmers. In the case of the successful farmer the labor is extended after a careful survey of the surroundings and a study of the crop conditions in the county at large. Then he goes to work to produce what his knowledge teaches him is the best crop crops at the time. In many sections undoubtedly cotton will be the principal crop, in others small grains, in others the raising of cattle, sheep and hogs. The important thing is to find out what will produce the best results from a given amount of land and labor and to go to work with a determination to bring about the best results not only by hard labor but by intelligent foresight and skill.

The time-worn idea that cotton can be made to pay has misled many an industrious farmer to find that his land, which he had banked, refuses to respond to the call from exhaustion after continued drafts upon it. The important thing to do with his mind and body in order to insure success is to so plan that every acre planted and cultivated shall be able to produce to its full capacity. If fertilizers will cause the crops to more than equal the cost, certainly, when possible, they should be used. But no one should go blindly into the use of fertilizers without knowing what the land and the crops need. The prospects before the South farmer were never so bright, intelligent labor bids fair to receive great rewards, as the world grows more and more what the fields of the South can give, and its farmers who so bravely borne the burden of the lean years may well with hope to the result of years work, which should be a long series of fat years and ranch.

Kind's Farm Implements at

J. A. Green,

Notice of Special Meeting of the Stockholders of the Panhandle & Gulf Railway Company

Public notice is hereby given that a Special Meeting of the Stockholders of the Panhandle & Gulf Railway Company has been and is hereby called, by order of the Board of Directors, to be convened and held at the office of the Company, in the Banking-house of Thomas Trammell & Company, in Sweetwater, Nolan Co., Texas, on the 25th day of April, 1901, at the hour of ten o'clock in the forenoon, for the purpose of considering and acting upon the following propositions:

- 1st. To authorize the Directors of the Company to apply to the hands of the Company Railroad Commission of the State of Texas for authority to issue the bonds of the Company in an amount not exceeding, in the aggregate, \$16,000.00 per mile for each mile of railroad of this Company built and to be built.
- 2nd. To authorize the execution, issuance and disposition of the bonds of the Company, in such sum as may be deemed advisable and the Railroad Commission may authorize not exceeding \$16,000.00 per mile of the railroad built and to be built, the date, rate of interest, time of maturity and other provisions of the bonds to be fixed and determined at the meeting.
- 3rd. To authorize the execution and delivery of a mortgage to some trustee or trustees, conveying all of the property, assets and franchises of the Company, in trust to secure the payment of the principal and interest of said bonds.
- 4th. To do any and all things germane to the above matters.

A. E. Stilwell, Pres.
J. P. Trammell, Sec.

Why Not Jump It?

To the farmers of East Texas: Why pay \$40 or \$50 an acre for land when you can get good land in West Texas at from \$1.50 to \$2.50 per acre? Besides, you have to take quinine and carmel nine months in the year down there in order to keep going, while out here you will enjoy perfect health, as we have no malaria.—Ex.

Young men think old men fools; but old men know young men are fools.—George Chapman.

How poor, how rich, how abject, how august, how complicated, how wonderful is man!—Young.

Certainly the greatest scholars

WATER SUPPLY.

Water is the most important substance in nature. Neither animal nor vegetable life can exist without it; it forms a large part of all material substances in their natural condition. Water is as necessary to health as to existence. It is also the vehicle of more disease and death than any other substance. Water for domestic use may be healthful or it may carry into the system many dangerous diseases. Let us, therefore, consider the ordinary sources of water supply for family use—springs, dug wells, cisterns and bored wells. Springs that bubble up through sand afford a fairly sanitary supply, if protected against surface contamination, and are not overcharged with salt, lime, gypsum, sulphurated hydrogen, etc. Absolutely pure water does not exist in nature, because it is the greatest known solvent of both solid and gaseous substances, and a considerable amount of mineral matter does not render the water unsanitary. Shallow springs are not safe as a water supply. Water coming from river banks are generally bad, being contaminated by surface seepage and the large amount of organic matter contained in the alluvial formations, through which it flows. Dug wells, protected by the sand box and notched wood curbing, are to say the least, as bad as pond water. There can be no estimate made of the amount of sickness and death caused by these cess-pools. They are open to surface pollution, to rats, insects, frogs and snakes, and the wide open mouth stands ready to receive any sort of contamination that comes that way. Once contaminated, it is very difficult to disinfect them, for the body of water is so large, ranging from 50 to 300 cubic feet, that no matter how much may be drawn out, some water will remain that was there when the process began. Cistern water without filtering is bad, and bad only, and especially so in cities where the filthy and contaminated dust of the streets find lodgment on the roofs, where no amount of rain will wash them clean. Unfiltered cistern water should never be used for drinking purposes without first being boiled. On farms, however, where there is little dust, and that rarely contaminated, unfiltered rain water is not necessarily bad. Bored wells are by far the safest sources of supply for water for domestic use. If properly made, they are free from all the sources of contamination to which dug wells are liable. The water from bored wells is thoroughly filtered and is not so heavily charged with mineral matter, is entirely sanitary. The bored well is easily protected from foreign matters and easily emptied and cleaned, by using the valved bucket and common snail pump. Bored wells are also cheaper than others, and with the improved machines, one of ordinary depth can be put down in a day or two days, and any sort of formation can be penetrated with ease and certainty. In many cases it would pay to fill up the dug well and bore one.—Farm

WE CLUB WITH

THE LEADING FARM WEEKLY OF THE WEST.

Eight pages, fifty-six columns of the choicest reading for old or young. Founded and ably edited by JAMES F. BALLARD, a veteran corps of carefully assembled, paid Western contributors. The JOURNAL OF AGRICULTURE, above all others, is PRACTICAL, and recognized authority and guide in all the varied interests of the farmer. No farmer, dairyman, stock or poultry raiser, or fruit grower, who intends to succeed in his business should be without it. It is the BEST INVESTMENT, and its practical teaching is the MOST VALUABLE of any farm and home weekly in the world. (Every subscriber gets one new and wonderful popular journal of 32 pages, 320 words, 33 pages, monthly 2009 original, competitive cash price for only 25 cents. The most complete, practical and economical of all farm papers.)

OUR GREAT COMBINATION OFFER!

The Journal of Agriculture Being \$2.00, the Two Papers, Singly, Would Be \$2.00. JOURNAL OF AGRICULTURE and THIS PAPER, TOGETHER, FOR \$1.75. OR, THE TWO PAPERS ONE YEAR and THE NEW COOK BOOK, 52 PAGES. Do not delay! Remember our arrangement covers 12 months time on \$1.75. N. B.—The JOURNAL OF AGRICULTURE only consents to the above arrangement for one not now taking that paper, and to such it will send sample copies free on application. ALL SUBSCRIBERS TO THE JOURNAL OF AGRICULTURE WILL RECEIVE ONE COPY OF THE COOK BOOK.

Coke County Rustler

J. C. NEWTON, Proprietor.

ROBERT LEE, - - - TEXAS.

The Best Herb Tea.
Garfield Tea is made from HERBS; there are no harmful drugs in its composition. It is the best blood purifier known to medical science.

The late Prof. Marsh of Yale bequeathed his house and grounds for a botanical garden. They are to be made the home of the newly created school of forestry.

Berlin now contains 1,000 donkeys, which have been imported in the last eighteen months to take the place of dogs as beasts of draught. The change is due to the agitation of the S. P. C. A.

There are upward of 22,000 insane in custody in the state of New York today, involving an outlay of \$20,000,000 for hospital plants and equipments and an annual expenditure of \$5,000,000 for maintenance, repairs and improvements.

Honrik Ibsen has been living for half a year in great seclusion at Sandefjord, Norway, preparing the material for a new work. Asked if he intended to remain in Norway, he said: "Yes, in all probability. My correspondence is so extensive that this alone would make it inconvenient to change my address."

Prof. C. H. Eigenmann has discovered a new type of cave salamander, an active creature about four inches long, with protruding eyes and a tail longer than its body, speckled brown and yellow, and the peculiar formation of its feet enables it to climb vertical walls of glass and even move like a fly across the ceiling.

All over the country land is being reclaimed. In Louisiana engineers are busy with plans for draining swamps, which form practically three entire parishes. A system of canals will be dug which will be eighty-five miles long. The land to be cleared will have the richest alluvial soil and will be cultivated in cotton, rice and sugar.

It is believed by many that the dry climate of southern Oklahoma and the southern district of Indian Territory, is going to make all that section the home of the finest grades of cotton. During the season it has developed that the cotton grown in the Choctaw Nation was of an extra good fibre, grading above the average and in great demand for export.

The Southern Cross (Buenos Ayres) states that the existence of a lake of natural asphalt in the province of Jujuy determined the Argentine minister of agriculture to have an analysis made of the material, which has turned out to be of excellent quality. The Jujuy asphalt in its natural state is said to be just as good as that used in the paving of Argentine streets.

A London paper sums up the nineteenth century in a nutshell: "We received the goosequill, we bequeath the typewriter." The steel pen is not mentioned. It is said that the sale of pens has steadily decreased of late, and that more than one manufacturer has been driven out of business. In "one that excels the quirks of blazoning pens," Cassio unmistakably foreshadowed the reign of the typewriter.

A cup of hot coffee is an unerring barometer. If you allow a lump of sugar to drop to the bottom of the cup and watch the air bubbles arise without disturbing the coffee. If the bubbles collect in the middle the weather will be fine; if they adhere to the cup, forming a ring, it will either rain or snow; and if the bubbles separate without assuming any fixed position, changeable weather may be expected.

It is reported at the navy department that the battleship Illinois, now nearing completion at the Newport News shipyard, will be in readiness for her trial trip about the middle of February. The trial would have been made at an earlier date, but there was some delay on account of the armor plate for the vessel. Considerable interest is attached to the trial of this ship, as it is intimated that she will exceed in speed the records made by the Kearsarge and the Kentucky.

Unimaginative exactness—so the Century dictionary defines literalism—may not always be the highest form of truth, but commercially it has compensations. Some American manufacturers recently sent to their German agent ten thousand show-cards in which their agricultural machines were drawn by tigers, driven by an airily attired goddess of liberty. The agent returned the cards with the criticism that neither in Germany were tigers available nor adapted for draft purposes, nor could such women as work in the fields afford to dress as seems to be the fashion in wonderful America.

DEFEAT OF DEWET

Is Reported in Cablegrams Received at London.

A DESPERATE ENGAGEMENT HAD

Between the Boers and the British, Says the Dispatches, Causing the Former to Leave the Field.

London, Feb. 25.—The war office has received the following dispatch from Lord Kitchener:

Middleburg, Transvaal, Feb. 24.—French's representatives from Piet Retief of Feb. 22 say that the result of the columns sweeping the country east so that the Boers are retreating in scattered and disorganized parties to the number of some 5000 in front of him.

Amsterdam and Piet Retief have been occupied and troops are protecting the Swazi frontier. French will push, but is much hampered by the continuous heavy rains.

Summary of total losses inflicted upon enemy up to Feb. 16, 292 Boers known to have been killed and wounded in action, 56 taken prisoners, 183 surrendered, one fifteen-pounder gun, 462 rifles, 160,000 rounds of small ammunition, 5500 horses, seventy mules, 3530 trek oxen, 18,700 cattle, 150,400 sheep and 1070 agows and carts captured.

Our casualties: Five officers and forty-one men killed and four officers and 108 men wounded. I regret to say that Maj. Howard, a very gallant officer of the Canadian scouts, was killed Feb. 17.

Plumer reports that Col. Owen captured DeWet's fifteen pounder and pompon Feb. 23, as well as fifty-three prisoners and a quantity of ammunition. We had no casualties. Enemy in full retreat and dispersing, being vigorously pursued.

DeWet's attempt to invade Cape Colony has evidently completely failed.

The Dall Telegraph publishes the following from De Aar Feb. 24:

President Steyn addressed the Boers and told them they must all shift for themselves, returning to Orange River Colony as best they could. He and Gen. DeWet took 300 of the best horses with which to escape.

A Cape Town dispatch says Col. Plumer engaged DeWet Saturday near Disselfontein, on the south bank of the Orange river, capturing a gun and pompon and taking fifty prisoners. The Boers were scattered and are being pursued by Col. Plumer.

It is reported that Gen. DeWet escape to the opposite bank in a boat and is now fleeing with a handful of followers. It is reported from a Boer source at Zeerust that Gen. Delary has been captured.

Drowned Her Children.

Colfax, Wash., Feb. 25.—Mrs. Rose Wurser, a widow, in a fit of insanity, drowned her six children, aged from 4 to 12 years, at Uniontown Sunday. Two were boys and four girls. She threw them into a well thirty feet deep, containing two feet of water, and then jumped in herself and held the heads of the children beneath the surface until all were drowned. Mrs. Wurser was found alive in the well with her six murdered children by the neighbors, who pulled her out with a rope.

Will Meet Charges.

Kansas City, Mo., Feb. 25.—A special from Chihuahua, Mexico, says:

Grant Gillette, the Kansas City cattleman whose intention to return to Kansas City was announced two or three days ago, left Chihuahua two days ago for Vera Cruz. From there he will go to New York, after which he will immediately go to Kansas City and meet the charges against him. Gillette says he will account for cattle mortgages he left unprotected when he went to Mexico.

Germans Victorious.

Tien Tsin, Feb. 25.—Several hundred imperial Chinese troops attacked fifty Germans west of Peking, Feb. 21. The Germans were hard pressed, fought a rear guard action and eventually drove the Chinese back. The Germans had one man killed and seven wounded. It is estimated that the Chinese lost 200 in killed and wounded.

GALA DAY.

The Independence of Cuba Was Daily Observed at Havana.

Havana, Feb. 25.—Independence day was celebrated with processions, mass meetings and general demonstrations of rejoicing. In morning there was a parade of 10,000 children bearing Cuban flags. They were received by prominent politicians. General and Mrs. Wood were showered with flowers as they passed. The Republican party held a mass meeting in the Tacon theater.

Senor Capote, who presided, said there was never more need than now to be quiet. The United States was the only country that had helped Cuba in her time of trouble and he did not believe that the Washington government was now deceiving the Cubans. The work of intervention was long and difficult, but, in his opinion, everything would be settled satisfactorily to the people of the island.

Senor Sayas gave a revolutionary tone to his remarks by asserting that the present Cuban leaders would imitate the martyrs of the past. He declared that the "trick which the Americans have been playing upon the Cubans is the cause of the non development of the island." He predicted that the end of all would be dissatisfaction, adding that independence could only be obtained by fighting for it.

"Cuba," he exclaimed, "should preserve for itself the glories of the Latin race."

Senor Juan Gualberto Gomez arraigned the advocates of annexation as traitors to the cause of Cuba. He said he had more faith in independence than he had in 1895, and that the United States could not rob Cuba of independence until aided by a force of 500,000 men. In speaking of the future relations between Cuba and the United States, he said that this matter was only a mere detail; that all the independent principles were embodied in the constitution and that in spite of recent declarations to the contrary, he believed everything would be settled in conformity with Cuba's demand for independence in the near future.

At the meeting of the National party the speakers were Senor Bravo, Senor Lauret and Senor Alfredo Zayas, the last named opposing the proposal to grant the United States naval stations in Cuba.

Demands Her Release.

Topeka, Kan., Feb. 25.—Mrs. Carrie Nation while in jail last week wrote to Judge Hazen a letter demanding her release.

"I want you to quit your fooling," she writes, "and let me out of here. If you cause me to miss my engagements I won't feel like a ministering angel unto you. It is time for you to recover yourself before the devil, your master, makes a clean sweep with you into hell."

"You know you are persecuting one of God's chosen who loves you for Jesus' sake. Let me out that I may go about my business of saving such poor devils as you. Write, or come to see me right off."

Judge Hazen has ignored the letter, placing it in the waste basket with dozens of others received on the same subject from different parts of the country. Some of these letters threaten the judge. One from Bunker Hill Kan., says a committee of fifteen will administer a coat of tar and feathers to the officials if Mrs. Nation is not released by Feb. 27 and another from a woman in Douglas, Mich.

Philippine Plans.

Washington, Feb. 25.—Secretary Root has practically perfected preparations for establishing civil government in the Philippines as soon as the necessary legislation is enacted by congress.

Careful consideration has been given to the plans to be adopted, and the secretary has been in communication with Judge Taft and his associates on the subject. One of the schemes of government suggested was to divide the archipelago into civil departments, over which a member of the Philippine commission should preside, all to report to Judge Taft, who would occupy the office of governor general and be stationed in Manila. The latest, and the plan that will probably be adopted, is to keep the commission intact but to make Judge Taft governor general and his associates members of his cabinet, and the head of the supreme court. It is possible that some influential and intelligent natives may be admitted to membership in the cabinet.

STEAMSHIP SINKS

The Rio de Janeiro Strikes a Hidden Rock.

AND SOON GOES DOWN IN DEEP

With the Great Bulk of Her Passengers and Crew, the Loss of Life, it is Feared, Being Enormous.

San Francisco, Cal., Feb. 23.—The Pacific Mail steamer City of Rio de Janeiro ran on a hidden rock while entering the Golden Gate early Friday morning in a dense fog, and sank in a few minutes. It is thought that nearly 150 persons were drowned, but it is impossible to ascertain the exact number, owing to the fact that Purser John Rooney, who had the passenger list and roster of the crew, is among the missing. At 5 p. m. ten bodies had been recovered, two white women, one white man and seven Chinese. The most prominent passenger was Rounsaville Wildman, United States consul at Hong Kong, who was accompanied by his wife and two children. It is thought all were drowned. The ship was in command of Pilot Frederick Jordan, when she struck. He was rescued. Capt. William Ward went down with his vessel.

As nearly as can be learned there were 234 people on the Rio de Janeiro, as follows: Cabin passengers 29, second cabin 7, steerage (Chinese and Japanese) 58, officers and crew 140; total, 234.

The following have been accounted for: Rescued 79, bodies at the morgue 10; total, 89; missing, 145.

The City of Rio de Janeiro was three days overdue from Hong Kong via Honolulu when she arrived off the Heads Thursday night and the dense fog prevailing at the time Pilot Jordan decided to bring her to anchor until he could see his way clear through the gateway.

She laid to until about 4:30 o'clock when the atmosphere cleared and she was started under a slow bell toward Point Bonita. All went well until 5:40 o'clock, when she struck. Most of the passengers were below at the time and it is believed many of them were drowned in their berths. The first news of the disaster reached here at 7:30 a. m. and soon afterward a boatload of rescued passengers and petty officers arrived at the mail dock. Tugs were immediately dispatched to render any service that might be needed, but no living persons were afloat when the tugs reached the wreck.

A number of drowning persons were rescued by Italian fishermen and the bodies of two white women, three Chinese and a Japanese were brought in by the tugs. The search for bodies continued all day.

The South Side Life Saving crew's captain thinks all the wreckage points to the fact that the Rio blew up after sinking. All the woodwork is splintered and other details known to seafaring men too numerous to mention support this theory. The Rio is not the first ship that has come to grief on Mile Rock. About ten years ago the Frank Jones, an American deep-water ship struck it and went down. She was standing in half short blindly feeling her way through the fog and those who recall the disaster say that the circumstances attending it were about the same as the Rio's with, however, far fewer casualties.

Were Passed.

Washington, Feb. 23.—Two of the great supply bills of the government, the postoffice and the diplomatic and consular appropriation bills, were passed by the senate. During the session a proposition to discontinue the appropriations for fast mail facilities from New York to New Orleans via Atlanta and from Kansas City to Newton, Kan., was under discussion. By a decisive vote the senate continued the appropriations.

Postal Cable.

Texarkana, Tex., Feb. 23.—The Postal Telegraph company has completed its line of wires along the Arkansas and Louisiana railroad from Stamps, Ark., to Ashland, La., 100 miles, and opened its office at latter place. This road has Natchez, Miss., for its southern objective point and will be pushed thither at once. The Southern Express company has obtained control of this line. The president and most of the principal stockholders live here.

SENATOR PATTERSON

Speaks in Opposition to the Industrial Educational Measure.

Austin, Tex., Feb. 23.—The industrial school bill was taken up in the senate Friday as pending business. The immediate matter under consideration was Senator Savage's amendment to reduce the appropriation from \$50,000 to \$40,000.

Senator Patterson continued his remarks begun Thursday afternoon, beginning with a statement that he meant no discourtesy whatever to the senator from Hunt (Harris).

He yielded to Ma. Harris of Bexar, who desired to make a motion to take up senate bill No. 13. The motion was lost, and Senator Patterson resumed his remarks in opposition to the girls' industrial school.

He inadvertently commented upon the fact that the senate was desecrating the anniversary of George Washington's birthday; to say a few nice things about the Father of the Country, among others that "Washington made a name for himself almost as great as that of Mrs. Natlon." He said the people of North Texas were greatly blessed in being able to bow down and worship Jo Bailey every morning and set their clocks according to what he should telegraph them from Washington. That, he thought, should be enough for them without having other gods. Senator Patterson said that doubtless some of the senators thought he was making a fool of himself, but he would not be such a fool as to vote for the bill. In speaking of the "higher educational institutions" of the state, he said it looked as if the time was coming when the constitution would be so amended that no one would be eligible for office unless he be a graduate of the State university and says "eye-ther" and "nither."

The senator had gotten off onto his reappointment bill when Mr. Davidson of DeWitt moved to adjourn until Tuesday out of respect to the memory of the Father of the Country. The motion was defeated, and the senator from Bell went on with his remarks. He talked chiefly about a pair of yarn "galluses" he had when a boy, now and then saying something about the bill.

At 12:45 o'clock Mr. Paterson yielded the floor of Mr. Davidson of DeWitt to make a motion to adjourn till 9:05 Tuesday morning. Senator Miller, in the chair, declared the same adjourned without putting the negative proposition.

The house held no session.

Waco Got It.

Hillsboro, Tex., Feb. 23.—On account of the threatening condition of the weather, quite a number of the veterans of Tom Green's brigade went home on the early morning trains Friday, but about seventy-five remained and had another enjoyable session Friday.

The association was called to order at 1 a. m., and its deliberations were presided over by Hon. W. A. Shaw of Dallas.

The following officers were elected for the ensuing year: Thos. P. Collins, president; W. A. Shaw, first vice president; J. N. Browning, second vice president; Fitz Roerber, third vice president; John W. Squires, fourth vice president. J. G. Rankin was elected secretary and G. W. Capps chaplain.

John W. Squires, "the old Beaugard" of the brigade, made a ringing speech.

Has Been Signed.

Austin, Tex., Feb. 23.—The governor has approved the bill to regulate the practice of medicine in Texas.

There seems to be a general impression over the state that this act will take effect at once. Such seems to have been the impression among the members of the legislature, for it was urged that the bill be promptly passed to head off the diploma and certificate "mills." The act, however, will not take effect until ninety days after the adjournment of this legislature. It contained an emergency clause, providing that the constitutional rule, requiring that bills be read on three separate days be suspended. This had the effect of hastening the passage of the bill. It did not provide, however, that the act "take effect from and after" its passage, and it will be May 10, 1903, before the examining board can be appointed.

Constable Ray's infant son was burned to death near Mineola.

It is always said if the operation had been performed earlier the patient's life might have been saved.

It is a peculiar man who does not love his own offspring.

Some people are real saucy when they appear quite sad.

The Trust Problem.

To a thoughtful mind, the trust problem is one of serious import. It must be firmly grasped with, for it creeps upon society before you are aware of its existence. In this respect much resembling the various disorders which attack the stomach, such as constipation, indigestion, dyspepsia and biliousness, Hostetter's Stomach Bitters will cure all such ailments, and prevent la grippe, malarial fever and ague. Be sure to give it a trial.

Crazy Snake is not the only mortal who raises disturbances.

TO CURE A COLD IN ONE DAY. Take LAXATIVE BROMO QUININE TABLETS. All druggists refund the money if it fails to cure. E. W. Grove's signature is on the box. 50c.

Promises are useful in one way: They keep some people in a good humor.

Friends Jubilant.

The friends of the new woman movement in France are jubilant over the fact that Jeanne Chauvin, the first woman lawyer of France, after battling for her rights for years, has at last been admitted to the bar.

"Coquetry," she says, "is an excellent thing; it is important that men in all countries should learn to appreciate and admire the women of 'superior education,' but these in turn should, I believe, be as graceful and charming and as well dressed as possible."

Her first case attracted a large court attendance.

New Consumption Cure.

A new cure for consumption, the patient undergoing a 15,000-candle-power electric light bath daily, is being tried for the first time in America by a Brooklyn doctor. The results are marvelous, the doctor says. A patient who went to him six weeks ago in the last stages of consumption is now at work. The cure is known as a "decomposed light" treatment. A 15,000-candle-power arc light is turned on and three rays, violet, blue and light violet, are allowed to reach the patient. Blue grass deflects the other rays, and thereby assists.

Fruit is a necessary article of diet. Its prime essences are in Primley's California Fruit Gum.

Absence makes the absentee more appreciated when we meet him or her.

Have you tried Ruse's Bleaching Blue, the famous bag blue that delights the laundress? All grocers sell it.

Babies are no respecters of persons. All are equal with them.

I am sure Piso's Cure for Consumption saved my life three years ago.—Mrs. THOS. ROBBINS, Maple Street, Norwich, N. Y., Feb. 17, 1900.

Happy is the man whose wife regards him as her hero.

It requires no experience to dye with PUTNAM FADELESS DYES. Simply boiling your goods in the dye is all that's necessary.

Sincerity is a virtue to which no one can take exception.

Edibles for Epileptics.

With strawberries at \$1.50 a basket and watermelons at \$5 apiece, to say nothing of soft shell crabs at \$3 a dozen, no New York man need go hungry these days, if he has the price. The markets contain some delicacies which are well worth their weight in gold, and yet they are eagerly sought after by buyers for rich families. For instance, hot-house asparagus is \$2 a bunch, six stalks to the bunch, and spring lamb \$1 a pound. The soft shell crabs are as large as a half dollar. North Carolina shad sells at \$2 each right along.

Did you ever go to a land full of optimists?

Some angel cake does not give one an angel's disposition.

La Grippe conquers life—Wizard Oil conquers La Grippe. Your druggist sells Wizard Oil.

Our good qualities are never made known until after death.

PLEASE TRY VELVET STARCH once and you will use no other. All good grocers sell it. Nearly everybody uses it. 10c.

Some people are unfit to govern their own household.

You Need Toning Up

you have let yourself run down. The best tonic is Wolfe's Aromatic Sclerodam Schnapps, unexcelled in all cases of Malaria, Fever and Ague, Torpid Liver, general debility, etc. It is the most suitable medicine for Texas, as in addition to above complaints physicians highly recommend it for Kidney and Bladder troubles, Chronic Rheumatism, Dropsy, Cramps, Colic and all kinds of female diseases. It gives tone to the entire system. Sold by druggists.

A white feather in a woman's bonnet is no sign she is a coward.

HELP FOR WOMEN

WHO ARE ALWAYS TIRED.

"I do not feel very well, I am so tired all the time. I do not know what is the matter with me."

You hear these words every day; as often as you meet your friends just so often are these words repeated. More than likely you speak the same significant words yourself, and no doubt you do feel far from well most of the time.

Mrs. Ella Rice, of Chelsea, Wis., whose portrait we publish, writes that she suffered for two years with bearing-down pains, headache, backache and had all kinds of miserable feelings, all of which was caused by falling and inflammation of the womb, and after doctoring with physicians and numerous medicines she was entirely cured by

MRS. ELLA RICE

Lydia E. Pinkham's Vegetable Compound.

If you are troubled with pains, fainting spells, depression of spirits, reluctance to go anywhere, headache, backache, and always tired, please remember that there is an absolute remedy which will relieve you of your suffering as it did Mrs. Rice. Proof is monumental that Lydia E. Pinkham's Vegetable Compound is the greatest medicine for suffering women. No other medicine has made the cures that it has, and no other woman has helped so many women by direct advice as has Mrs. Pinkham; her experience is greater than that of any living person. If you are sick, write and get her advice; her address is Lynn, Mass.

FIELD AND FLOCK.

Farmers are sowing oats.

Grayson county wheat looks fine. Markets are supplied with turnips. Much rice will be sown this year.

Stocks are wintering well in Texas. Ellis county expects a large grain crop.

Corn planting is under way around Kyle.

Buffalo gnats are reported numerous in Smith county.

A. F. Schultze bought a carload of cows at San Antonio.

Texas is sending eggs to St. Louis and Chicago in carload lots.

San Angelo county expects to market 70,000 sheep this spring.

Four thousand acres will be put in rice around Sealy this season.

One day last week Dallas received a carload of beets, turnips and radishes.

The egg production of the United States yearly aggregates 10,800,000,000.

There is said to be considerable northern corn being shipped into Navarro county.

In five days 5000 rabbits were shipped from Bonham to northern and eastern cities.

The average of all sorts of grain, except corn, in Grayson county will be greater than last year.

Caldwell & Houston of Gonzales bought of H. B. Holmes of Luling 362 head of fine steers, paying \$30 per head.

Stockmen in Kinney and adjoining counties waged a war of extermination against coyotes and dispatched 207.

It is estimated that this country has sold to England over 100,000 head of horses and mules for the war in South Africa.

A Lamar county farmer has gathered 250 bushels of peanuts from three acres of land, and sold three tons of the vines as hay.

Southwest Texas has 1946 acres in cabbage, 985 acres prepared for watermelons, 240 acres for cantaloupes and five acres in figs.

The acreage of potatoes, turnips and beans will be nearly doubled in the Panhandle this season. Land has been prepared for these crops.

A truck farmer at Edna has cut 13,000 pounds of cabbage and sold it at a cent per pound. He will get about 25,000 pounds from his acre and a half.

Tinkle & Wilson of Corsicana shipped eight cars of beef cattle to St. Louis and Kansas City. Charles Walton also shipped seven cars to St. Louis.

Reports are coming in of an extensive acreage being placed in oats throughout Ellis county the last several days. The sowing has been delayed on account of lack of grain.

A 22-months' old Aberdeen-Angus steer, which has been exhibited at the Scottish National Fat Stock shows at Edinburgh and Smithfield has carried off \$1500 in premiums for his owner, George Bruce of Tochiual.

No more horse meat is being canned at Linnton, Ore. Two years ago this industry was launched with a view to utilizing the then almost worthless herds of common range horses in the northwestern states.

The orange season for the present year in California will be the heaviest in its history. It is estimated that the output will amount to 18,400 carloads, and about 2500 carloads of lemons. The season extends through the winter.

The Kansas Experiment Station has demonstrated it is more profitable to feed pure bred hogs than mixed breeds. The reports says it takes 10 and 20 per cent more of food to make 100 pounds gain on the mixed breeds than on pure.

W. E. Welsh of Chicago has organized a stock company of farmers in the vicinity of Sealy, and as a result a creamery will be established in that city. The creamery will begin operations about April 15 or 20.

An Idaho sheepman, Frank R. Gooding of Shoshone, has just imported from Canada eighteen cars of pure-bred Lincoln ewes, which he will use as a foundation for the largest flock of Lincoln sheep owned by any one in the United States.

The Gray & Co. of Encinal took eighteen Shorthorn premiums amounting to \$318 at the Fort Worth Fat Stock show. The number of premiums and amounts of money was larger than was obtained by any other breeder and are justly proud.

TEXANETTES.

The Burt gin at Itaska burned.

Beaumont is receiving much piping. Hillsboro is to have an independent telephone exchange.

Millard Price died at Denison from morphine poisoning.

While plowing near Corsicana M. C. Floven dropped dead.

Three brick stores burned at Thornton, entailing a loss of \$12,000.

A. J. Coshaw, aged 86 years, a prominent Dallas county farmer, is dead.

George Spitz suicided by strychnine at Hearne. He leaves three children.

The boiler of Kurth's mill at Lufkin exploded. George Brittain was killed.

J. L. Woolson, a Dallasite, was run over by a train and literally cut to pieces.

The 4-year-old daughter of Turner Nash, colored, was burned to death near Clarksville.

Sergt. Frank Lillard of Van Alstyne, who was a soldier in the Philippines, has returned home badly disabled.

A Fort Worth wholesale house purchased 4190 barrels of whiskey from a Kentucky distillery. The consideration was \$400,000.

Hon. Travis Henderson, representative from Lamar county, went to Mobile, Ala., last week on account of the illness of his daughter.

J. H. Sparks of St. Joseph, Mo., will build a bridge across the Brazos at Waco. Including approaches it will be 400 feet long and cost \$90,500.

In the Peters cartridge tournament at New Orleans, Faurote of Dallas made the highest average, his score being 154 out of a possible 155.

The International and Great Northern Railway company paid the controller \$2324.66 tax on \$282,446.18 of passenger earnings for the quarter ending Dec. 31.

Near Palestine a hog attacked a 1-year-old child and dragged it 200 yards before the agonized mother could effect a rescue. The child was badly lacerated.

Congressman Ball has sent a large map of Texas to each of the state senators and representatives, evidently for the purpose of facilitating the work or reappointment.

Maj. M. H. Harris of San Antonio has been appointed special deputy collector of United States internal revenue, to succeed Dr. Fred Terrell of San Antonio, resigned.

The jury at San Antonio in the case of Pedro Lopez, charged with the murder of Julean Perles at Elmendorf in 1900, failed to agree, standing six to six, and were discharged.

A colored man about 45 years of age, by the name of Dave Hall, was run over and instantly killed by a train on the Calvert, Waco and Brazos Valley near the depot at Marlin.

Jim Colline and Jordan Sorrel, colored boys, were playing at Leesville with a revolver and thought it was unloaded. Jim snapped it at Jordan and it fired, taking effect in the chest. Jordan died an hour later.

Alonzo Beto, late chief engineer of the Spanish steamer Oleta, was killed at sea Dec. 22 while the steamer was en route from Genoa to Las Palmas, on her way to Galveston. The steamer reached Las Palmas, Jan. 1.

Bankruptcy proceedings in McNeil Chapman case from Nacogdoches have been concluded at Tyler before Referee White, who ordered that Chapman pay over to the trustee \$6125, or property to that value. Chapman was forced into voluntary bankruptcy last November, having failed for \$28,000.

The safe of Brannon & French was blown open at Santo and some money and stamps in addition to the money order book of the postmaster were taken. The postoffice is in the rear of Brannon & French's store.

James Abbott of Hillsboro has a letter from his brother, Leut. Gee Abbott, with the volunteer army in the Philippines, stating that he had been promoted to first lieutenant. He has been acting as first lieutenant since July, 1890.

At a meeting of the Shain Packing company at McKinney last week it was decided to build an additional cold storage room 50x32 feet, three stories, with a capacity of 2000 hogs. Work will begin at once and be pushed to completion.

Rather than suffer the pangs of poverty an old man about 85 years old, known only to his intimates as Phillip, committed suicide at Galveston by taking strychnine. He lost his property in the storm and since has constantly brooded.

It's all in the Quality

When you buy a piece of Wetmore's Best Tobacco you get your value in good tobacco. The best Burley leaf grown, the purest flavoring known, carefully prepared and skillfully blended. District Court.

The following are the proceedings of the February term of district court of Coke county.

State of Texas vs. John Moore continued.

Mrs. F. A. Green vs. C. R. Crofghten, continued.

S. J. and D. C. Walker vs. J. H. McClanahan, continued.

Y. Rooser vs. B. F. Montgomery, continued by agreement.

Lee Hunt vs. N. B. Stepp and Mary F. Stepp, continued by agreement.

L. H. Pruitt vs. E. O. H. McGary and George Williamson continued.

Lucy E. Austin vs. J. J. Austin continued.

State of Texas vs. J. M. Allen, continued.

State of Texas vs. Cy Price, Jury failed to give a verdict.

F. L. and R. H. Harris vs. M. M. Lock, continued.

G. W. Martin vs. E. Cartledge, et al, continued.

Edith Etchings.

DEAR RUSTLER:

I will give you some of the happenings of our little city

Our people are busy turning mother earth preparing for another big crop.

Born on Feb. 13, to Mr. and Mrs. Joe Lambert a girl, and to Mr. and Mrs. Fayette Youngblood, a boy.

J. D. Hallmark and family loaded their wagons and started north west last Monday was a week ago, in search of a ranch.

J. M. Adkison, who rented part of the J. C. Newton place, let Mr. Newton have the land back, and moved across the river to the Menelle place this week.

J. M. Adkison, who rented part of the J. C. Newton place, let Mr. Newton have the land back, and moved across the river to the Menelle place this week.

Grandma Collier is still suffering with her arm and shoulder.

The Pecan School is doing all O. K. with Edgar Savage as teacher.

Lee Martin, who has been in San Angelo for four weeks under treatment of Dr. Marberry, returned home Tuesday.

JACK.

The best accommodations are to be had at the O. K. Wagon Yard
J. C. HILL, Proprietor.

When man can make a machine that will run forever without wearing out, it will be time for scientists to attack the problem of the immortality of the human body. But we are afraid it will be too late.

Minutes of Institute.

Coke county Teachers Institute met at Robert Lee, February 15-16 1901.

Institute called to order by W. T. Savage, Friday Feb. 15, 4 P. M. few teachers being present the institute adjourned to meet 8:30 P. M. same date.

8:30 P. M. Feb. 15, 1901 Institute called to order by W. T. Savage.

Welcome address by Judge Gid Graham which heartily expressed the sentiment of all patrons and teachers of Robert Lee. Response, L. S. Bird. Mr. Bird being absent, Mr. W. C. Shamblin ably responded.

Institute then went into business session. Chairman elected for ensuing year, F. E. Thomas, Secretary, Miss Alvia Ingram.

The following program was then carried out.

1. An able address by G. W. Perryman, Subject: Our Free School.

2. Number of Rescitations and time allotted to each for a school of one teacher to the seventh grade inclusive. N. C. Brown ably laid out a daily program which would be well for all teachers to adopt.

Saturday 10 A. M., Feb. 16, 1901 Institute called to order.

1. Professional Courtesy on which Mr. J. L. Ross read a very enjoyable paper.

2. Number work, which was nicely illustrated by Miss Nelms and a few of her primary pupils.

3. A lively discussion on, How to teach Fractions by Messrs W. T. Savage F. E. Thomas and Misses Amelia Caraway and Alvia Ingram.

Saturday 2 P. M.

Institute called to order by chairman, with the following members present.

Misses Amelia Caraway Alvia Ingram, Emma Hall, Ana Nelms Messrs N. C. Brown, W. E. Shamblin, W. T. Savage, Edgar Savage, W. C. Merchant, J. C. Hall, J. D. Jowers, S. B. Williams F. E. Thomas.

Program carried out as follows.

1. How to manage an unruly boy? Subject followed by a few humorous experiences related by Prof. J. D. Jowers W. C. Merchant, N. C. Brown, W. T. Savage.

How can teachers get the greatest benefit from our institutes? Mr. Savage made a very pleasant talk in which profitable means were given but am sorry to state none were adopted.

Next in order.

1. Business Program committee appointed by chairman. Prof. J. D. Jowers, N. G. Brown, W. T. Savage.

2. Resolution by W. T. Savage Be it resolved that this institute be called The Teachers Directors and patrons institute of Coke county adopted by institute. After which Institute adjourned to meet at Bronte, Feb. 22-23, 1901
F. E. Thomas Chair.

Miss Alvia Ingram Sec'y.

P. S. The lady teachers are very much indebted to W. C. Merchant, for his continual cry "More Fire."

H. H. Hayley, of Hayrick, was in town this week, and said he was invited home with J. W. Barnett to see his three weeks old boy, which he, Mr. Barnett said would weigh 50 pounds, but H. H. said he didn't think the gentleman weigh over 30 pounds any way.

A. J. Taylor came in this week from a trip to Nolan county, and reports good success.

No one knows the unbearable torture one undergoes from piles unless they are so afflicted. Tabler's Buckeye Pile Ointment is a quick, safe and painless cure. Price 50 cents in bottles, Tubes, 75 cents. For sale at H. H. Pearce's Drug Store.

B. F. Tubb, a former citizen of this county, but now of Leon county; was here this week; and informed us that he had bought the stock of Merchandise of W. Scarborough, of Sanco, and would return in April and take charge of the business and put in a good stock. Mr. Tubb is a substantial citizen and we welcome him among us.

VALLEY VIEW Editor RUSTLER:—

This section of Coke Co. is right side up with a fine prospect of wheat, oats, grass and future voters for the U. S. President in 1920.

Matafos, our P. O. burg is on the quiver for more population and metropolitan progression, as well as its merchant, Mr. Hugh Kendall looks out for all the loose change that may be on the wing.

It seems strange that as mail day is Saturday; the RUSTLER printed on Thursday never comes untill next week and often not at all. Why is this?

Mr. W. H. Phillips, our hustling agriculturist and stockman, took a visit last fall to the Pecos country in search of a ranch and came back to old Coke better satisfied than ever to stay here. Henry is a wise man.

A. Hux and Jack Caudle swapped places and both are laughing in their sleeves at each others fine trade.

Bob Blair takes the world easy and he should as he would not trade his fine mountain home for a pair of wings and gold crown.

Hicks Phillips bought the Cox farm and is now heeled for the ifs and ands and buts of life as he is blessed with a good wife and a bouncing baby boy.

Milt Havens has enlarged his house and has a comfortable home. Milt is a dandy good farmer and citizen.

Prof. Brown, our teacher, is a sho nuff instructor and proving a Godsend to this community. Would more such teachers blessed West Texas.

Rah for the RUSTLER, hit 'em again about the R. R. If Robert Lee wants the rail road, it ought to select three of its best citizens as a committee and send them to see the R. R. authorities and know about the demands that will bring the R. R., then go to work and raise the required amount.

Judge Graham has done all he can do and has proven a friend to Lee and Coke county, but he can't do more without help, financially and other wise the road is not coming by Robert Lee unless a right of way and bonus is given, and Robert Lee can raise enough to get the road rather than lose it and the town.

Mr. Casey ginned several hundred bales of cotton and is fixed for grinding corn. Mr. Casey is a fine citizen and one we are proud of.

Prof. Carter has a pair of elephants to plow and he is plowing deep to hold rain. He is a corn and cotton farmer and only claims to be the eleventh Cousin to the Carter that raised so many oats as to last him his life time.

Hugh Walton has a fine ranch and raised thirty bales cotton last year and will risk another big crop of cotton.

An Observer.

Robert Lee, Texas
Feb. 16, 1901.

It is ordered by the Court that a contract be let to the lowest responsible bidder to cover, with best grade of shingles, all part of the Court House now covered with tin, and to make all necessary repairs on Cornice and tower. Said bids to be left with Gid Graham, County Judge, on or by the 13th day of April 1901.

SOMETHING NEW

A UNITED STATES SENATOR

SAYS THAT PE-RU-NA, THE CATARRH CURE, GIVES STRENGTH AND APPETITE.

Hon. W. N. Roach, United States Senator from North Dakota.

Hon. W. N. Roach, United States Senator from North Dakota, personally endorses Peruna, the great catarrh cure and tonic. In a recent letter to The Peruna Medicine Company, at Columbus, Ohio, written from Washington, D. C., Senator Roach says:

"Persuaded by a friend I have used Peruna as a tonic, and I am glad to testify that it has greatly helped me in strength, vigor and appetite. I have been advised by friends that it is remarkably efficacious as a cure for the almost universal complaint of catarrh."—W. N. Roach, Larimore, North Dakota.

No other remedy can take the place of Peruna.

Mr. Ed J. Makinson, contractor and builder, 619 Grand Block, Wash street, St. Paul, Minn., says:

"Many doctor bills can be saved by the use of Peruna. I have all my friends taking Peruna, and I have heard nothing but praise from them. Last fall I had a bad cough. I took four bottles of Peruna and it cured me. I am inclined towards consumption, as all my family have died with it. I weight 185 pounds, and I believe it is Peruna that has given me such good health."—J. Makinson.

As a result of the changeable climate, catarrh has become one of the most prevalent and universal diseases known to man. Nearly one-third of the people of the United States are afflicted with catarrh in some of its many phases and stages. Add to this the fact that catarrh rapidly tends to become fixed or chronic, also the further fact that it is capable of producing a great many other diseases, and we begin to realize the true nature of this dread disease.

So formidable has catarrh become that in every city or town of any size numerous doctors are to be found who make the treatment of catarrh a specialty. Of course a great deal of good is accomplished in this way, but as yet a comparatively small number of the people can avail themselves of this treatment because of the great expense necessarily attached to it.

To all such people Dr. Hartman's remedy, Peruna, comes as a great boon. Not only is it more successful in curing catarrh than the treatment of the catarrh specialists, but it is within the reach of every person in this land. Peruna can be bought at any drug store, and is a remedy without equal for catarrh in all forms, coughs, colds, bronchitis, consumption, and all climatic diseases of winter.

Peruna is not a guess, nor an experiment; it is an absolute, scientific certainty. Peruna cures catarrh wherever located. Peruna has no substitutes—no rivals. Insist upon having Peruna. Let no one persuade you that some other remedy will do nearly as well. There is no other systemic remedy for catarrh but Peruna.

Mr. Byron J. Kirkhuff, attorney-at-law writes from 691 Gates ave., Brooklyn, N. Y., the following:

"I have used your Peruna for catarrh and find its curative powers all you recommend. It cured me of a very bad attack and though I suffered for years I feel entirely relieved, and if it will benefit others, I gladly give it my endorsement."—B. J. Kirkhuff.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, president of the Hartman Sanitarium, Columbus, Ohio.

Mr. E. J. Makinson, Contractor and Builder.

Byron J. Kirkhuff, Attorney and Counselor at Law.

LARGE CAPITAL.

A Five-Million Dollar Company is to Do Business in West.

Beaumont, Tex., Feb. 25.—The oil situation at the close of the week was devoid of anything of particular interest. Drilling in the fields south of this city has made some progress, but nothing new has been developed. Sturm Bros., contractors for the Southwestern Oil company, on the Adams tract, have suspended drilling to await the arrival of more pipe from New Orleans. These contractors after drilling a considerable depth with eight-inch pipe, have concluded to sink the ten-inch pipe as much further as possible and for this will have to secure more of the larger casing. J. B. Duffy has been drilling during the last few days on the tract of land leased by the Spindle Top Heights Oil company, and has met with no serious difficulty so far.

Mr. J. A. Paulhamus of this city has received information that his brother W. H. Paulhamus, of Seattle, has completed the organization of the Paulhamus Oil company, with a capital stock of \$5,000,000. This is the California oil district and has ample capital to push developments even beyond the amount of the capital stock.

Real estate transactions have practically ceased, at least as far as oil lands are concerned. There has not been a lease filed for record for two days.

Mr. W. H. Aldridge, a large rice farmer, who owns a number of farms near Sour Lake, has found that the freight rates on oil from this place are so high as to make it almost prohibitive. Mr. Aldridge operates a number of pumps for irrigation purposes and was so well pleased with the oil here as fuel, that he decided to use it in his furnaces there and to do this, contracted with the J. M. Guffy company for a quantity of the crude oil to be delivered on board cars here, but when he endeavored to get rates on the fluid from here to Sour Lake, he found that the freight amounted to nearly as much as the first cost of the oil and makes it very doubtful whether he can use the oil to advantage. Mr. Aldridge is talking of bringing this rate to the attention of railway commission and asking for an adjustment. When it becomes necessary and possible to offer large shipments of oil to the interior trade, it is very probable that this rate on the railroads will be material, or the oil as a fuel will not be very successful.

Conferred at Houston.

Houston, Tex., Feb. 25.—Saturday night there was a conference here of several prominent business men. They came to meet Hon. J. W. Riggins, mayor of Waco, and president of the Texas Real Estate and Industrial association, and vice president of the Southern Industrial association. Galveston was represented by Hon. J. H. Hawley. The object of the conference was to take steps toward holding a meeting in May of the former, joined by another real estate association in Texas, not long since started in Austin. In other words, to unite them in an effort to secure a great representation for Texas at the meeting of the Southern Industrial association, to be held in Philadelphia the first week in June. The conference was of the opinion that it would be a golden opportunity to make known the advantages of Texas as a growing state industrially, commercially and agriculturally. The sentiment was in favor strongly of the proposition, but owing to the rather limited attendance the matter will have to be taken up later and pushed ahead.

Does Not Control.

New Orleans, La., Feb. 25.—President Charles M. Hays of the Southern Pacific, accompanied by Vice President and General Manager Julius Kruttschnitt of San Francisco, General Manager Van Vleck of Houston, with several others, got away on the president's special train Sunday morning.

Before the departure Mr. Hays submitted to a pointed interview on the recent sensational turn of Southern Pacific affairs, which is about the first expression he has given to the press. In the first place, he denied that there had been any consolidation of the Southern Pacific and the Union Pacific.

"The use of the word 'consolidation,'" said he, "is totally without foundation, the truth of the whole being that the Harriman syndicate, as it is commonly known, recently acquired a large block of Southern Pacific securities. That is all there is to the story."

What we do not understand we should proceed to find out.

CURES BLOOD DISEASES. TREATMENT FREE.
Have you eating, festering sores, mucous patches, sore throat or gums, ulcers, pimples, itching skin, aches in bones or joints, falling hair, boils, cancer, scrofula, offensive catarrh or old rheumatism? ITCHING Burning Scaly HUMORS Complete External and Internal Treatment CUTICURA THE SET \$1.25

Consisting of CUTICURA SOAP to cleanse the skin of crusts and scales, and soften the thickened cuticle, CUTICURA OINTMENT to instantly allay itching, irritation, and inflammation, and soothe and heal, and CUTICURA RESOLVENT to cool and cleanse the blood, and expel humor germs. A SINGLE SET is often sufficient to cure the most torturing, disfiguring skin, scalp, and blood humors, rashes, itchings, and irritations, with loss of hair, when the best physicians, and all other remedies fail.

WONDERFUL CURE OF PSORIASIS.

As a sufferer for thirty years from the worst form of Psoriasis, finally cured by Cuticura Soap and Cuticura Ointment, I wish to tell you my experience, that others may benefit by it. I was so grievously afflicted that the matter that exuded from my pores after the scales had peeled off, would cause my underclothing to actually gum to my body. After remaining in one position, sitting or lying down, for an hour or two, the flesh on my elbows and knees would split, so thick and hard would the crusty scales become. The humiliation I experienced, to say nothing of physical agony, was something frightful. The detached scales would fairly rain from my coat sleeves. I have read none of your testimonials that appear to represent a case so bad as mine. But as to the cure. I commenced bathing in hot Cuticura Soap suds night and morning, applied the Cuticura Ointment, and then wrapped myself in a sheet. In two weeks my skin was almost blood red in color, but smooth and without scales. Patches of natural colored skin began to appear, and in less than a month I was cured. I am now passed forty years of age and have skin as soft and smooth as a baby's. Hoping that others may benefit by my experience, and regretting that sensitiveness forbids me from disclosing my name,
I am yours gratefully,
J. H. M., Boston, Mass., Sept. 30, 1900.

Millions of People Use Cuticura Soap

Assisted by Cuticura Ointment, the great skin cure, for preserving, purifying, and softening the skin, for cleansing the scalp of crusts, scales, and dandruff, and the removal of itching humors, for relieving, soothing, and healing red, raw, and sore hands, for baby rashes, itching, and chafing, and for all the purposes of the toilet, bath, and nursery. Millions of Women use CUTICURA SOAP in the form of baths for eradicating irritations, inflammations, and excoriations, or for free or offensive perspiration, in the form of washes for ulcerative weak sores, and for many sensitive antiseptic purposes which readily suggest themselves to women, and especially mothers. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients, and the most refreshing of flower odors. No amount of persuasion can induce those who have once used these great skin purifiers and beautifiers to use any others, especially for preserving and purifying the skin, scalp, and hair of infants and children. No other medicinal soap is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in ONE SOAP the best skin and complexion soap, and the best toilet and baby soap in the world. Sold by all druggists.

WAS ENGROSSED.

By Four Majority the Hogg Amendment Took This Course.

Austin, Tex., Feb. 21.—Quite a discussion occurred in the senate Wednesday over Mr. Yet's bill, changing Burnet county from the Thirty-fifth to the Thirty-third district. It passed.

The senate finally passed the corrected house bill, providing for the construction of buildings at Abilene for the epileptic asylum.

Mr. Lipscomb moved the suspension of regular order and consideration of committee substitute appropriating \$10,000 to have a geological survey made of the state under the direction of the board of regents of the state university.

Mr. Savage offered an amendment striking out of the bill the following section: "The geological and scientific equipment, collections, specimens and publications, now in charge of the commissioner of insurance, statistics and history, are hereby transferred to said board and their removal to the University of Texas is hereby authorized." Adopted.

Mr. Hill of Denton offered in the house a resolution providing for the appointment of a committee of five to visit the North Texas Normal school at Denton, which was adopted.

Mr. Kennedy of Limestone offered a resolution providing (1) for the payment of a stenographer for service rendered the committee which visited the agricultural and mechanical college, and (2) for the payment of the traveling expenses of the state revenue agent, Joe Lee Jameson, who accompanied the committee. The total amount is \$27.55. The committee on contingent expenses had declined to approve the expense, because the resolution authorizing the appointment of the visiting committees did not authorize the employment of clerks. The resolution was adopted in its entirety.

The discussion of the "Hogg amendment" was resumed at 10:20 a. m., Mr. Stollenwerck of Hill taking the floor in opposition. He said the proposed amendments were urged to further the interests of certain politicians. No Democratic convention could force him to vote for a measure he believed to be detrimental to the interests of the state. At the conclusion of Mr. Stollenwerck's speech the speaker announced that he would recognize some friends of the amendment. There were loud cries of "Vote! Vote!" from the opposition.

The friends of the resolution held a short conference, after which Mr. McAnnally of Milam took the floor in favor of the pending resolution. He contended that the party mandate was binding upon the members of the house. His speech was devoted almost exclusively to this phase of the question.

Mr. Kennedy of Limestone followed in opposition to the amendment. He said he had always been ex-Gov. Hogg's friend and had lost money editing a newspaper in his interest, but he opposed him on this question. He said he desired to speak for the small corporations all over Texas, the cotton mills, gins, alliance stores and local corporate enterprises that would suffer if this amendment was adopted.

Other speeches pro and con were made, Mr. Groer announced that an agreement had been reached to shut off debate at this point and to take a vote on engrossment.

The joint resolution was engrossed—yeas 54, nays 50.

There is no remedy that can equal Garfield Tea for the cure of all derangements of the liver; it has for years been the standard by which other remedies are judged.

Austin, Tex., Feb. 21.—House committee on internal improvements has acted favorably on Mr. Greer's bill providing that lines not exceeding 100 miles in length, wholly within the state and connecting at the state line with interstate roads, may be leased to such interstate lines for a period not exceeding ten years, subject to approval of the railroad commission. The committee amended the bill so as to make the limit 115 miles.

Insurance Reports.

Austin, Tex., Feb. 21.—The state department of insurance on Wednesday received the annual statements of the following insurance companies, doing business in Texas:

United States Fire Insurance company of New York, which paid \$15.09 tax; \$22 office fees and 70 agents' certificates.

Standard Life and Accident Insurance company, of Detroit, Mich., which paid \$58.67 tax; \$23 office fees and 23 agents' certificates.

Wonderful Increase.

In 1870 there was one woman architect; now there are 50. Women painters and sculptors have grown from 412 to 16,000, literary and scientific writers from 109 to 3,161, preachers from 67 to 201, dentists from 34 to 417, engineers from 67 to 201, journalists from 35 to 472, lawyers from 5 to 471, musicians from 5763 to 47,309, doctors from 527 to 6882, accountants from 0 to 43,071, copyist and secretaries from 8016 to 92,824, and stenographers and typists from 7 to 50,633. This has truly been a wonderful increase, taking it all in all.

Vermont Epitaph.

Victor Smith is indebted to ex-Judge Wheeler of Vermont for the following epitaph, which, in the course of historical research, he found in an old graveyard in Vernon, Vt., some few years ago:

Here lies, cut down like unripe fruit The son of Mr. Amos Tute, Behold the amazing alternation Effected by inoculation. The means improved his life to save Hurred him heading to the grave. Son of Jemima How, taken captive by Indians, and her 3d husband, Amos Tute, born in 1763 and died in 1780.

Measures Necessary.

The medical society of Paris has expressed the opinion that it is necessary to adopt some measures against spread of petroleum drinking. At first it was thought that this habit had sprung up from the increased taxation on alcohol, imposed by the French government, but an investigation showed that this was not the case; the habit had been prevalent some time previously in certain districts, and had spread with great rapidity. The victim of the petroleum habit does not become brutal, only morose.—From the Science Siftings.

Some Don'ts.

Don't try to show people how gracefully you can jump on or off trains. Don't try to save three-quarters of a second by running in front of a trolley car. Don't go downstairs in the dark to hunt burglars. Don't stay to find out whether the other fool's gun is really loaded or not. Don't slap a large person on the shoulder and yell "Hello, Bill!" until you are sure it isn't a case of mistaken identity. His vaccination may be working.

Size of Waist.

Years ago, before girls engaged in open-air recreations, a tiny, slim waist was considered the correct thing, and children, at quite an early age, began to wear corsets which were laced quite tightly. A girl of 17 or 18 would sometimes endure agonies, in order to reduce her waist to a size consonant with the opinions of the time. Now avon change their cells. It is now considered very bourgeois to tight lace, and the waist of a full-grown girl should not be smaller than twenty-four inches. Fashions, of course, will never cease to change.

If you desire harmony keep the peace yourself.

The Making of Good Coffee

Begins in the growing. Anywhere between the plantation and the coffee pot the flavor may be changed, the quality spoiled by carelessness, inexperience, or unscrupulous methods. From the time Arbuckles' Coffee leaves the hands of the grower until it reaches the user in a sealed packet, it is handled with the same watchful care, the same thought for cleanliness, that you would give any article of food that goes on your table. That's the reason it costs the grocer a cent a pound more than its cheap imitations. The extra cent you pay for

ARBUCKLES' Roasted Coffee

buys much more than a cent's worth of quality and strength. A pound of Arbuckles' Coffee will give you more cupfuls of better coffee than you would get from other package coffees.

Be sure you get Arbuckles' Roasted Coffee. Other package coffees are but imitations of Arbuckles'.

In each pound package of Arbuckles' Roasted Coffee there is a list of articles. With each package in which the list is found the purchaser has bought a definite part of some article to be selected by him or her from the list, subject only to the condition that the signature on the package is to be cut out and returned to our Notion Dept. You should see this list. Address all communications to

Sour Stomach?

Back up a sewer, and you poison the whole neighborhood. Clog up liver and bowels, and your stomach is full of undigested food, which sours and ferments, like garbage in a swill-barrel. That's the first step to untold misery—indigestion, foul gases, headache, furred tongue, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. CASCARETS quietly, positively stop fermentation in the stomach, make the liver lively, tone up the bowels, set the whole machinery going and keep it in order.

Don't hesitate! Take CASCARETS to-day and be saved from suffering!

THIS IS

THE TABLET

GUARANTEED TO CURE all bowel troubles, appendicitis, biliousness, flatulence, indigestion, piles, hemorrhoids, constipation, liver trouble, yellow complexion and cholera. When your bowels don't move regularly you are suffering. Cascarets will cure you. It is a standard for the chronic ailments and long years of suffering that come afterwards. No matter what ails you, start taking Cascarets today, for you will never get well and be well all the time until you get your bowels straight. Take our advice! Start with CASCARETS today, under an absolute guarantee to cure or money refunded.

GUARANTEED TO CURE: Five years ago the first box of CASCARETS was sold. Now it is over six million boxes a year, greater than any similar medicine in the world. This is because Cascarets is a standard, and our best testimonials. We have faith, and will sell Cascarets absolutely guaranteed to cure or money refunded. On buy today, two 50c boxes, give them a fair, honest trial, as per simple directions, and if you are not satisfied after using one 50c box, return the unused 50c box and the empty box to us. A mail, or the druggist from whom you purchased it, and get your money back for both boxes. It takes our advice—no matter what ails you—start today. Health will quickly follow and you will bless the day you first started the use of CASCARETS. Book free by mail. Add: SCHEIDT & BOND, 100 York Street.

GETTING NO SETTLERS.

People are already wondering why it is that no emigrants are coming to Frio county since the Crouch ranch has been put on the market. Perhaps the school land that was sold several years ago has something to do with this. Every body knows that those were hard years in all Southwest Texas, but now that the country is in good shape, we do not hesitate in saying to farmers abroad who are looking for a location, to come to Frio county. And we believe that every industrious and energetic farmer who does come will find it as good as any in the State.—Ex.

Grandma Green and Mrs. Meek are still quite sick. The others about Cedar Hill are up.

Singing at J. I. Westfall's last Sunday night. Brother and sister Lamb, Docie, Anna and Malissa Lamb, Lela Strickland, and Messrs J. D. Wiley, Albert Richardson, J. E. Tabb, Arthur Lawson, Geo. Strickland, and Albert Lamb were there besides Mr. Westfall's own family. Mr. A. Lamb led the singing with Mr. A. Lawson as chief organist. Every body enjoyed himself.

Born, Feb. 14 to Mr. and Mrs. S. C. Wiley, a girl.

There has been quite a lot of visiting the past week. Too many names to mention.

Silas Conner passed through town Saturday.

Johnnie Meek took dinner at the Hotel, De Nanhattie Saturday.

Mr. Harve Martin paid his family a flying visit last week.

Master Clarence Martin was seen riding through town the other day.

Mrs. Westfall has returned home from Sterling Co. So J. E. is no longer a widower.

New Comer.

Infinite is the help man can yield to man.—Carlyle.

All men command patience, though few be willing to practice it.—Thomas Kempis.

Texas is the biggest state in the Union and her men are just like her. So also are her women. Her resources of wealth, developed and undeveloped, are unlimited. She has timber for lumber and manufacture in abundance. Her arable lands cover wide areas, and produce millions annually. Her minerals are abundant and varied. She possesses coal, oil, cotton, wheat, corn, beef, pork and the Lord only knows what she does not possess or can produce. She is an empire, the queer of the South, the biggest star in the galaxy of states, a diamond in the rough and the time is not far off when all the world will bow in great respect to grand old Texas. Ex.

No man knows any one except himself, whom he judges fit to set free from the coercion of laws and to be abandoned entirely to his own choice.—Johnson.

CENTRAL WAGON YARD.

Completely overhauled, remodeled and repaired. Good stalls and corals all in first-class shape, the most convenient in the city, special accommodations for families. Plenty of upstairs sleeping rooms, with electric lights and Telephone for patrons. All kind of feed for sale.

D. E. Cochran.
San Angelo, Texas.
