RAILROADS.

Railroad Talk in the Air—It Is Up to Portales to Have Railroads If She Will.

Railroad building in Eastern New Mexico is not all done yet if the current week's street talk is to have any credence, for it is upon the lips of many interested citizens that we have more than one chance for another railroad at Portales and railroads that will be built not of pencils and newspaper gush but of long lines of road bed, cold steel and rolling stock.

The impression has existed in the minds of some people outside of our town that Fortune holds no more favors in her hand for Portales. We are not concerned about the caprice of fortune, if by that you mean the unreasonable edict of fate, but we are concerned about getting for the Portales valley the railroad facilities her natural resources will justify and demand.

Because of their confidence in the future of this peculiarly rich scope of country local confidence has never wavered and our far-sighted business men have energetically pushed along to keep pace with the development they had every reason to expect.

At this time there are two and

possibly three prospective railroads for Portales. Mr. M. C. Vaughan of the Vaughan Land Company has the offer of some railroad promoters to build between Portales and Virginia City, Texas, and other points east if proper bonuses are offered by the two points. Virginia City is asked for \$150,000 and Portales is asked to furnish a right-of-way to the Texas line, twenty acres at the edge of town for depot grounds and a fifty thousand dollar bonus. This is represented to be a bona fide proposition and one that will be materialized without delay if we meet the terms contained therein.

There is another offer from altogether a different direction for a road to be built through Portales and pointing east into Texas. These interests are represented by a gentleman well known here and interested in Portales, but who for the present withholds his name. He will have a party of men here not later than June 15th to look over the route suggested by himself and of which they have spoken very favorably to him. The gentleman referred to is not a wind-jammer nor a grafting promoter but a safe and dependable business man. And he is authority for the statement that his people mean business.

Meantime it has transpired that the location of the Brown-wood extension of the Santa Fe is yet undetermined after being several times fixed by both Clovis and Texico. Officials of high rank in that system have indicated that we may get the aforesaid plum at Portales.

Building railroads to this point is simply recognizing the advantages of certain natural conditions here. It should be remembered, however, that a community without enterprise is a condition railroad people generally avoid and any failure on our part to get up and hustle when an opportunity like this presents itself will likely be paid for dearly by heavy and continuous losses. This is our opportunity. Let us look into it and then get up and do the thing.

Harris-Gibbons.

Mr. John C. Harris of this county and Miss Laura Gibbons, of Washington were married Tuesday, May fourth at the home of the groom's brother, Mr. O. V. Harris, in this city, Rev. W. L. Heck officiating. After congratulations and a little pleasantries they departed for their claim some fifteen miles south of Portales.

Private School.

Begins May 17, 1909. Half day sessions. Terms reasonable. Patronage solicited. Lula Anderson, Vera Gilliam. 24th.

A Pleasant Outing.

A group of the weary and over-worked went out to the H-ranch Sunday for a draught of fresh air and a season of rustic outing. They report the day well spent and lots of fun to be remembered during the succeeding days of weary toil. The party consisted of Mr. and Mrs. Bascom Howard as chaperons, Misses Elizabeth Johnson, Pearl Stone, Prue Harris and Mott and Mrs. Oscar Hill and Messrs. Max Tabner, Ernest Troutt, Attorney Cunningham, Percy Jones, and Billie Nesbitt. The day's achievement were crowned by Bascom Howard and Billie Nesbitt who "dared" each other to take a plunge into the surface tank on the picnic grounds and then both, game as they were, jumped in bodily.

T. E. Mears, Lawyer.

We have this week placed in our column of professionals, the card of T. E. Mears. We do so with a sense of pleasure for we feel that he is a gentleman of the highest type, a thoroughly competent lawyer and a good citizen. Mr. Mears makes no denial of the fact that he is a native of Arkansas, in which state he was brought up and educated. He received his college training in Ouachita College at Arkadelphia, and his law training under specialists in Little Rock and Washington City. He was admitted to general practice in 1899 and to practice before the supreme court in 1901. During the intervening years he has been engaged at his profession without intermission.

As a safe and competent lawyer Attorney Mears will take high rank and as a hightoned and substantial citizen he will stand always for the country's material development and its intellectual and moral uplift.

Landers & McCown will clean and press your clothes. 20th.

Seven Years.

We are approaching the 7th milestone of our existence as a Bank in Portales.

1902

In the year of our birth and we can truthfully say "We have grown up with the Country" thus far. Since our organization we have paid dividends to stockholders every six months and have built up a business second to none in Eastern New Mexico.

At this time our Capital, Surplus and Undivided profits **\$ 70,000.00**

Deposits **225,000.00**

Cash and Exchange **115,000.00**

We do not owe a dollar of borrowed money. This shows confidence in our stability as well as a very prosperous condition of the Bank.

We thank our friends for their patronage in the years gone by and if we merit it we hope to make the New Year

1909

the best in our history—in the meantime we wish to aid our customers towards making it the best for them. Remember we CAN and WILL handle your business, be it large or small, if you will permit us.

The result of the bond election is now regarded as certain, the proposition having greatly grown in public favor as the people have come to understand it. Let us roll up a large majority and then form a solid line to build a greater Portales. We have the territory and the resources. There is good promise of another line of railroad which would mean much to this town and the country around it. Some public spirited and enterprising citizens are proposing a gigantic irrigation scheme for the whole Portales valley to be backed by the Government. We will discuss that in detail next week.

The School Tax.

Next Tuesday this school district will vote on a ten mill tax for its schools. This is a matter that ought not to escape the attention of citizens and tax payers. It is the opportunity to say whether our schools shall be come an object of public pride, meeting in an adequate way our needs or whether they shall continue with disgracefully short terms, inadequate equipment and poorly paid teachers. Seven months, the length of this year's term, is too short a period for any force of teachers to accomplish the work commonly designated for modern public schools. This is especially true of the work laid out for grammar and high school grades. We must have longer terms or confess that our schools belong to the third rate class.

Our teachers are poorly paid. Besides the two men engaged in the school here in Portales there are nine teachers employed in this district all of whom work at the pitably small salary of fifty dollars per month. This year these young ladies have been forced to do their own janitor work to save the common treasury. They protest loudly against such poor pay and overwork and their protest is a just one. It is a question not to be overlooked whether we can at all hope to retain the services of such competent teachers at this low rate of pay.

The tax will put about \$3500 into the funds of the district and this amount will give us a term of nine or ten months and will put our teachers on decent pay.

Better pay always means better work, even our teachers not being an exception, and longer terms will mean more work. A proper concern for our public schools together with an understanding of their crying needs ought to impel every qualified voter to register himself in favor of the ten mill tax.

Clovis and the Bond Issue.

We are just closing up the deal for the Clovis bonds, and expect to have the money in a few days.

Of course in regard to decrease of rates in fire insurance we cannot say definitely what that will be, until we have our water system installed. As to property valuation, it is conservative to say, I think, that all real estate in Clovis has advanced from 25 per cent to 50 per cent since the bonds were voted in February, and in some cases the gain has to my personal knowledge been as

much as 100 per cent. I mention this simply to show that the fact that a town has issued bonds does not scare capital away from that town, and keep the value of real estate down.

At the time the bonds were voted in Clovis there were 110 for and 12 against, and I think were the vote taken again to day there would be less opposition than before. We expect to be able to make our public improvements pay their own way, and can see no reason why, if they would be profitable to private individuals, they cannot be made profitable to the town. Yours truly, E. R. HART, Mayor.

ences, though necessarily smaller, have been thoroughly delighted with his unique early morning Bible readings and the illustrated sermons to the children in the afternoon. There have been many professions of conversion at the services in the afternoon and all the meetings have been profoundly solemn. The services will continue each day through the week.

On the Hustle.

Mr. L. W. Fiscus, the genial local transportation manager for the Vaughan Land Company, and his competent force of operators brought out their cars Tuesday afternoon and had H. E. Moore, the photographer, take pictures of them at the station and on main street. From these photographs cuts will be made which the company will use in its advertising in the North. The Vaughan Land Company, of which M. C. Vaughan is the head, is doing a good work in the development of the Virginia City country and incidentally is interested in Portales. After the photographer was done, Mr. Fiscus and his men took their cars full of passengers and went out for a short but pleasant drive.

Here are five ways in which you get fooled in buying paint.

1. The paint is stuffed out with chalk or something like that.
 2. With barytes; better than chalk; doesn't "cover"; you don't know it's there.
 3. Benzine, or water, in the oil.
 4. Too much liquid, whatever it is, for the solid; paint too thin.
 5. Short measure.
- Here's one way you can be sure of quality:
Devoe Lead and Zinc Paint is all paint, full measure; lead, zinc, linseed oil, color and turpentine dryer, and nothing else.—Riply-Jordan Lumber Co.

Mrs. R. W. O'Neal returned last Friday from her visit among relatives in Texas. She brings with her sad news, the death of her father, who died while she was at her father's home. We sympathize with her, at the same time rejoice that she had the pleasure of being present to bid her dear aged father good-bye.

If this enterprise is landed in Portales, we should give our editor the praise, that is not all, let us express ourselves to him, to show our appreciation and what we want and are willing to do to support the undertaking. We think he is bending all his energies to bring out and to develop the country's resources.
