### A CONVENTION IS TO SELECT 3 DELEGATES.

#### Executive Committee Goes on Record as Favoring Convention Method of Nominating Delegates to Constitutional Convention—A Fight to the Last Ditch.

After a long and bitter fight in which the blind-fold and the buck-and-gag rule was applied on every hand, the meeting of the democratic precinct chairmen decided for the convention method of nominating delegates for the constitutional convention, Wednesday 6th (yesterday). The vote stood fifteen for a convention and twelve for primary and had not two men gone home, it would certainly have been a tie. In other words, the vote would have been even had it come in the afternoon instead of being postponed till night, and this in spite of the fact that eight men were appointed only in the last hour or two before the committee met or else their names were deliberately withheld from the public. These men were as follows: J. W. Frantz of Red Lake; B. W. Kinsolving of Spring; G. W. Vaughn of Plateau; E. A. Herndon of Minco; H. J. Campbell of Upton; J. S. Pruitt of Fairview; A. J. Burkett of Cromer (who did not come); W. R. Dillard of Macy. Now although these men were appointed in the last hour or two before the committee met, they were all present but Mr. Burkett of Cromer and all voted for the convention, except the proxy from Cromer and J. S. Pruitt who did not vote at all. So that here are six men run in at the last hour or two and voted for the convention. Were they asked to come in and then appointed when they agreed to vote for a convention? To an outsider, it certainly seems so;

and we would like for the county chairman to explain this matter to the public. Who voted to take the nomination of our delegates out of the hands of the 1600 hundred and more voters and put this important duty (which means election no doubt) into the hands of less than a hundred men who will come to Portales the first Saturday in August and engage in what promises to be the most unscrupulous, machine-dominated convention the county has ever seen? The men who voted to install convention rule with all the dirty, corrupt methods on the people of Roosevelt county were as follows: J. M. Frantz, Red Lake; E. A. Herndon, Minco; B. W. Kinsolving, Spring; J. J. Vaughn, Plateau; Sam J. Nixon, Portales; T. D. Cain, Elida; Simon Lain, Floyd; (C. M. Comp-ton Jr); W. R. Dillard, Macy; Nathan Cook, Ingram. Another part of the program of the buck and gag rule applied in a committee meeting yesterday was the vote to install the present county committee on the people for two years and that without consent of the people whom they are supposed to represent. Everyone understood that we are to have a primary and that at this primary each precinct should elect a committee-

men for two years. But after voting down the primary the gentleman who voted for the convention as indicated, voted to install themselves as owners and managers of the democratic party in the county for the next two years—and that without the knowledge or consent of their people. We ask our readers to look up their names and take notice that these gentlemen propose to lord it over this county whether or no for the next two years, not giving the people of their precincts a chance to say whether they want them or not. Here are the names of the men who tried to save this county from machine rule and put the authority into the hands of the people in a primary in which every candidate would have an equal show and in which every free white man would have an equal chance to vote: E. E. Eastwood (McGill), Tol- lar; W. M. Wilson (E. P. Al- dredge), Tolbar; J. O. Wood, La Lande; J. O. Wood (proxy) Pear- son; J. M. Grisso, Carter; G. W. Jones (B. Johnson) Causey; O. F. Chaney, Rogers; Henry Town- land, Arch; R. A. Cromer (Reese), Cromer; H. Hawkins, Painter; E. P. Williams, Inez; Mr. Steel, Perry School House.

#### LACY ITEMS.

Lacy was visited last week with a good rain and farmers are busy cultivating their crops. J. P. Long of Lacy is building a new house which is quite an addition to this community. The Children's Day at Hawkins Chappel June 26th, was attended by a large crowd while at the noon hour a good dinner was spread on the ground. Rev. Geo. Tinker and family were visitors of Mr. Neel and family one day last week, their visit being made specially to see the well pumped but were disappointed. We invite them to come again. Miss Florence Hopper is visiting her brother, Will Hopper, for a few days. Bob Crenshaw, who has been carrying the mail on the Lacy route for the past six or seven years, has turned the job to John George. The Lacy people spent the Fourth of July celebration under those large trees at the Lang ranch. Bro's. George, Tinkers Madison for us during the day. There were no fire works, no one hurt and we thank the ladies of Blackwater Draw for the excellent dinner they furnished. We were visited by another nice rain Sunday. The irrigation people were around some of the wells at Lacy this week. Joe Haffstutler is preparing to leave for, Green County, Okla. W. L. Neel has pruned his shade trees, also those of his orchard, which adds much to the beauty of his home, and surrounding country as well. He is a thorough believer in beautiful homes and is one of the leading citizens in these parts for such. Sand and gravel for sale—Good for all building purposes. Reasonable prices with a shut haul. Apply to Coward & Gardenhire, Tolar, N. M. Go to Smith and Russell for your seed corn and maize. 21ft

#### SO THE PEOPLE MAY KNOW

The passage of the enabling act which is to make New Mexico a state of the union has resulted in an immediate and tremendous increase of interest throughout the country, in New Mexico and her resources. Statehood will lift this territory at once from comparative obscurity into the national limelight. It has done so already, as witness the deluge of inquiries received by the territorial secretary and the New Mexico bureau of immigration. It is of vast importance to take advantage of this country-wide demand for information in the quickest and most effective way. The bureau has evolved a plan, approved by the governor and leading business men and developing concerns of the territory, and a plan which immediately appeals to the public by reason of its practical business sense. The bureau would organize all the leading commercial organizations, land agencies, promotion concerns and all corporations and individuals interested in the territory's development, into the New Mexico Publicity Association, of which the bureau shall be the executive body. Through the bureau the association is to conduct an effective advertising campaign for New Mexico in all the leading newspapers periodicals and farm journals in the country. Such advertising is to be general in nature. All inquiries received are to be listed, published in a bulletin and thus referred weekly in a classified form to the individual members of the association who may furnish the inquirer with such specified information as is mutually desired. It is a splendid plan to stimulate the growing demand for data in New Mexico's resources, and to bring every seeker after information into direct touch with the man or company which can tell him what he wants to know. One dollar a week, payable in advance, is the nominal fee from each subscriber to the association. This in the aggregate will furnish plenty of money to carry on the advertising campaign on the necessary scale. The enterprise could not be undertaken by the bureau with its limited appropriation without the co-operation plan suggested. The scheme is simple, effective economical and result getting, and merits the instantaneous support which it has elicited. It is a big, broad, business-like plan and no better could be devised for disseminating information on the new state, telling the nation what we have to offer, and bringing homeseekers and health-seekers and investors, farmers and business men and useful citizens into New Mexico.

### 33 WELLS DELIV- ERING WATER.

#### Thirty-three of the Irrigation Wells Have Been Tested and Accepted and Are Now Running All Hours of Day.

Thirty three of the irrigation wells have been tested and accepted and are now running all hours of the day. Of these 33 wells, only four of them will have to be jetted in order to be developed. These have been drilled some time and the sand in the water flow has drifted around and in the perforated casing and largely obstructs the water flow. The Stone, Burke, Baker and Gregg wells are troubled with the sand in this way and will have to be jetted at once. The others are developing splendidly of themselves. Mr. Carr is having trouble with his well. He can't keep ditches for it. The flow is so great that it bursts all bounds and runs wild over the field. Judge Lindsey is all smiles on account of his new well doing so splendidly. Ed Neer's well has also delivered as much or more water than any undeveloped well pumped heretofore. Some of the farmers are not ready for the water and the great stream is pouring out over the prairie sod. But most of the others are making the moisture serve well the needy and growing crops. Mr. Mollinari has some sugar beet seed for free distribution to farmers who will make a careful experiment with them under the irrigation plant. Sixty-three of the wells are now done and ready for the power and will be tested and developed and pumped as needed. It is understood, however, that Mr. Fuller is called away tomorrow and the irrigation committee will have to secure the services of some other engineer to oversee the

work of developing the [other wells.

#### METHODIST SERVICES

The pastor will discuss at the morning hour "What the Jeffries-Johnson prize fight has done for our nation." At 8:30 p. m. the subject will be "The opportunity which escaped." This will be the fourth sermon in the series of sermons. Missionary Day will be observed in the Sunday School.

#### TO THE VOTERS.

Having made up my mind to offer the people of Roosevelt county my service in the capacity of one of the three delegates that this Roosevelt county is entitled to, and having learned that some parties have circulated the report that should I be a delegate in said convention that possibly I would favor the cutting of a part of the Territory now embraced in this county for the purpose of creating a new county, I now want to give my views on this subject. In the first place, owing to the drought that has prevailed in this section of the country, and the conditions are practically the same over the entire Territory, I believe it would be bad policy for the convention to create a new county anywhere in the State, and especially does it apply to the section of the country that would be in the new county, should one be formed. There is not sufficient taxable values in said territory to support a county administration, and I now want to announce that if I am honored with your support and election, that I will do all in my power by my vote and influence to keep the convention from creating any new counties, changing any county lines or county seats, and that in no way shall the boundaries of Roosevelt county be in any way changed or altered if it is in my power to prevent it. I shall in the near future prepare and submit to the press my views on many other questions of interest that will come up in said Convention, desiring that the people may know what I stand for; besides I will meet the people and discuss the live issues of this campaign. Respectfully submitted, W. R. McGill.

Upon return of the warrant and the trial of the cause upon such complaint the Justice of the Peace or Police Judge shall determine the cause as provided by this ordinance and according to law and shall, when such liquor is seized upon such warrant, if he finds upon trial of the cause that such liquors were kept upon such premises as charged in the information or complaint, order that the same be destroyed.

## ELECTION DATE IS FIXED.

The governor has issued his proclamation calling for an election for delegates to the constitutional convention. The election will be on Tuesday, September 6.

This will make it impossible for the constitutional convention to assemble before October 3rd at noon.

Almost a month's time was lost in the convention time as formed by the Republicans. This undoubtedly knocks out the last vestige of a chance to get into the union at the short session of congress. Had the board of registration been called forty days before election, giving it the 30 days required by law, the convention could have met almost a month earlier than it will. Under the provisions of the act, the election of delegates could have been held August 20. On the fourth Monday following, or September 12th, the convention could have met. Counting all Sundays, the convention could remain in session for 29 days—and New Mexico conventions have always stayed the limit. The Oklahoma convention stayed in session for 115 days and it was non-partisan. With the proclamation issued at once the election to ratify the constitution could have been held on Jan. 18th. The votes could be canvassed by February 5th and allowing a week for the result to go to Washington, we could have been admitted before the adjournment of the short session on March 4th.

## APPORTIONMENT FIXED.

The apportionment of delegates to the constitutional convention has been decided upon by the governor, chief justice and the secretary of the territory in accordance with the provisions of the enabling act, a certified copy of which has been received by Secretary Jaffa. The apportionment is as follows:

Bernalillo	8	Chaves	4
Colfax	6	Curry	2
Dona Ana	4	Eddy	2
Grant	4	Guadalupe	4
Lincoln	3	Luna	1
McKinley	1	Mora	5

Sandoval	2	San Juan	2
San Miguel	9	Santa Fe	5
Sierra	2	Socorro	5

## THE FOURTH DULY CELEBRATED.

Without making any previous arrangement, Portales people enjoyed a good celebration of the Fourth. Some went away to Clovis where a big program was had; some took the day off and went out to the country, still others dined out and enjoyed a good hour with friends, &c. The majority of our people, however, worked through the forenoon; but discussed the Jeffries Johnson fight at every leisure moment. In the afternoon two absorbing events were on—viz hearing of the big fight and an improvised game of baseball between the "fats" and the "leans" of the town.

The fight was in the air, one could feel it. Finally two sets of boxing gloves were purchased and brought out and "Champion" O. B. Olson and Otho McMinn; Walter Crow and Willis Large; Olson and Jim Mays; and others put on the gloves. Olson came away with the honors.

At three o'clock, the "Fats" and the "Leans" lined up on the Portales Baseball park for a six inning contest. The line up was as follows:

THE FATS.  
Captain..... A. T. Monroe

Pitcher..... Geo. Twigg  
Catcher..... Will Green  
1st base..... Feeke  
2nd base..... Ben Smith  
3rd base..... Rockefeller  
Rt. field..... W. I. Luikart  
Center field..... Sam J. Nixon  
Left field..... Jeff Hightower  
Shortstop..... Frank Smith

## THE LEANS

Captain..... E. P. Alldredge  
Pitcher..... Geo. Tharp  
Catcher..... Tom Hall  
1st base..... Claude Anderson  
2nd base..... Rev. G. W. Dunlap  
3rd base..... E. P. Alldredge  
Rt. field..... Chas. Duncan  
Center field..... Rev. E. L. Young  
Left field..... Jim May  
Shortstop..... Jim Turner  
Langdon Gregg umpired the game.

The "Leans" won by a score of 7 to 6 with an inning at the bat due them.

Following the baseball game a bronco busting was indulged in. Clem Mason rode one supposed bronco which contented itself by humping up its back and hiking around on a sharp run. The other was a splendid wild sorrel which was both scared and mean. It had no tricks, however, and by holding the horn of the saddle, Mr.

The crowd came back to hear whether they had won or lost on the big fight; and, as is always the case, most of them lost. Thus ended the day with Portales people, who propose to have their big water show of their irrigation plant about the first of August when they intend to have a three days celebration of a high order.

Miss Ona Little is out again among the young folks after a short illness.

Will some kind friend suggest an effective remedy for the blues? Some of our kind neighbors are sorely afflicted with that loathsome, happiness destroying malady. My remedy is, "Take it to the Lord in prayer."

The Rev. H. G. Barnett and wife of Monument, N. M. left here this a. m. for that place after conducting a soul stirring revival at Causey school house.

Rev. E. D. Fortner of Carter filled his appointment here Sunday at 11 a. m. leaving in the afternoon for Longs where he was slated to fill an engagement.

Nothing of interest transpired at this place towards celebrating the 4th except that quite a crowd gathered at the postoffice in the afternoon and were in excellent spirits. Dr. J. M. Manes was called upon and delivered us a noble and patriotic address.

**THE CLUB MEETS WITH MRS. NIXON**

The Woman's Club held their regular meeting at the home of Mrs. Sam J. Nixon, Wednesday July 6th. The lesson was from the Bay View Course with Mrs. Bascom Howard as leader. Mrs. Jones gave the reign of Louis XIV of France, and the paper on International Commerce which was read by Mrs. Howard showed an intimate knowledge of the subject. Mrs. Jim Stone gave in brief the reign of Louis XV.

The visitors present were: Mesdames A. W. Rockefeller, W. H. McDonald, Coe Howard, A. L. Carson, Wagener, Monroe and Sewell.

After an elaborate two-course luncheon, the club adjourned to meet with Mrs. W. O. Oldham Wednesday, July 13. The subject for next week will be "The Kindergarten" with Mrs. Arthur Jones as Leader.

Mrs. Arthur Jones, Sec'y.

**THE BIG FIGHT—SOME LESSONS**

The big fight is over. The negro Jack Johnson knocked out Jim Jeffries in the 15th, round. What lessons may we gather from it?

1. The negro is naturally a better and stronger savage than a white man; and a white man that puts himself on a level with him deserves a sound whipping.

2. The negro was the younger and better trained man, more supple, more used to the game, did not have to "come back" into form and outclassed Jeffries from the first.

3. Booze destroys the best of one's physical make-up within a few years. Jeffries practically gave out after the 10th, round. If Johnson keeps after booze for five years he will be in the same condition as the man he so easily pumelled.

5. As is always the case, most of the gamblers lost. Only in this instance more money was lost than ever before on a single fight.

5. It is all a brutish, hellish piece of business which ought to and will be wiped off the earth; only it is more scientific and not half so brutal and fatal as football which ought to be prohibited like any other mob violence.

Inda Humphrey and family, F. G. Calloway and family, W. W. Horney, Mrs. Mollie Horney and daughter, Gertie, celebrated the Fourth with Leslie L. Smith and wife who live five miles south-east of Portales. Mr. Smith has had some fine rains and prospects for a crop is good. He has forty acres of millet which is up to a good stand and looking fine.

Waiting doesn't pay. If you neglect the aching back. Urinary troubles, diabetes, surely follow.

Doan's Kidney Pills relieve backache, Cure every kidney ill.

Many people in this locality recommend Doan's Kidney Pills. Here's one case.

Albino Ortega, College Street, Santa Fe, N. Mex., says: "I am very grateful for the benefit I have received from Doan's Kidney Pills. For several years I had trouble from my back and kidneys. It was hard for me to work on account of pains across my loins and any quick movement aggravated my trouble. My rest was disturbed by a too frequent desire to void the kidney secretions and the passages were scanty and painful. Public statements given by local people who had used Doan's Kidney Pills with benefit, induced me to try them. I found relief right away and by the time I had used one box, my back was free from pain. My kidneys are now normal and I feel better in every respect. I have great faith in the curative powers of Doan's Kidney Pills."

Remember the name—Doan's—and take no other.

# THE BIG SEMI-ANNUAL CLEARING SALE OF Miller & Luikart Company

At the end of each season, or twice a year, we inaugurate a Special Clearing Sale. Our reason for this sale is to clean up all of our Spring and Summer Merchandise. At the close of this Big Sale our buyer will start for the Eastern Markets to buy our large stock of Fall Goods. Everything in the house will be cut to the very limit, as we positively will not carry any spring goods over. We had rather lose a little money on our spring and summer goods than to carry them over. In some departments we are overloaded and there is where the big knife will cut the deepest. We have \$10,000.00 worth of Men's and Boy's Clothing that we are going to sell on this sale, regardless of cost. If you have bought your spring suit, it will pay you to buy another at these prices and put it away and keep it until next spring.

## \$25 Rug Free

On Saturday Afternoon, July 23, at 3:30 O'clock, we will give away

### A Beautiful 9x12 Axminster Rug

This is a straight, bona fide gift; no money consideration, in any manner whatever, is connected with this gift; you don't need to buy a penny's worth of anything to get this beautiful rug!

This will undoubtedly be the biggest price cutting and clearing sale Portales and Roosevelt county people have ever heard of. We are not considering profits, it is the money and the room we are after. So remember the date, sale starts Saturday morning, July 9, promptly at 6 o'clock, and closes Saturday, July 23, at 12 o'clock, thirteen days of record breaking selling and merciless price slashing. Nothing is reserved, everything goes. Tell your friends and neighbors.

We want you to examine this Rug which we propose to give away. It will be on display in our east window. Come in and look at the rug, and let us explain the matter to you.

**This Big Clearing Sale Commences Saturday, July 9th, and Ends Saturday Night, July 23.**

#### DOES ADVERTISING PAY?

A few days ago a stranger dropped into the Dobb's confectionary and cold drink parlors near the post office and called for one of those lemonades which had been advertised "as being out of the ordinary." The stranger said that he had noticed the advertisement in the Herald while looking over the paper and the fact that the gentleman was at his home in Chicago, Ill., and chanced to read a Portales paper and to respond to an advertisement in its columns of a confectionary store adds interest to the incident. It developed that the stranger was one of the irrigation officials who makes Chicago headquarters and was naturally interested in happenings about Portales. This incident offers an excellent illustration of the results of advertising and could well be made the text of a long exhortation to the skeptical-minded. There has never been any doubt of the efficiency of printer's ink by the successful business man, though many are yet trying to figure out whether success is attained by advertising or whether the successful man is an advertiser. We believe it was Mr. Roosevelt who said that "greatness consisted in doing the common-place things of life just a little better than the ordinary method," and this is where the successful business man scores a point. Take for example the large mail order houses: In all of their advertising literature there is imparted that irresistible conviction that the articles which they propose to sell are just a little better than the average—not the old ordinary kind. No matter whether the article in question is a ten-penny nail or a two-carat diamond there is always that noticeable characteristic of superiority and the charm of it all is that the argument is usually convincing. It would seem that Brother Dobb's has acquired this accomplishment along with his many other good qualities. He believes that he serves his wares in just a little bit better manner than the

ordinary way and he takes the impression stick with his customers too. Two little boys once informed their mother that they wished to play store. The mother at first refused to grant the request with the remark that she feared they would make too much noise. "Oh, no," said they, "we don't mean to advertise." Moral—If you wish to have people know that you are playing the game of commerce make a noise like advertising.

#### JUDGE TO SPEAK AT ALBUQUERQUE.

Albuquerque, N. M., June 24, 1910.

Hon. W. R. McGill, La Lande, N. M.  
Honorable Sir and Fellow Democrat.—The Young Men's Democratic Club of Bernalillo county extend to you a cordial invitation to address that body at a "Statehood" rally to be held on Tuesday evening, July 12th.

We are going to make this meeting the opening gun of our Constitutional Convention campaign, and your presence and one of your good speeches would do much to strengthen us and draw our party together. We hope to have many of the prominent Democrats of the state at this meeting.

Let us know at an early date whether we may expect you.

Yours for Democracy,  
S. L. Burton, M. D.

Chairman Speakers' Com.—La Lande Leader.

#### USE PLENTY OF WATER.

Many new irrigators and for that matter some of the older ones make the mistake of not irrigating thoroughly enough. It takes time to get water into these soils to supply a crop and prevent drying out so quickly as to cause burning of the crops. When corrugations or furrows are used, it is often necessary to let the water run from twenty-four to forty-eight hours to sufficiently soak the ground. Salt sedge land is usually easier to bring into good state of tilth than is the heavier greasewood soil and adobe is the worst of all because it contains so much tenacious clay.—Field & Farm.

#### TRIBUNE-CITIZEN REPRESENTATIVE HERE.

Hugh M. Bryan, representing the Tribune Citizen of Albuquerque, was in the city parts of Tuesday and Wednesday. Mr. Bryan graduated from the University in May and in September will leave for England, as New Mexico's representative to Oxford under the Cecil Rhodes Foundation.

When approached by a Herald representative on the subject of his "Alma Mater" Mr. Bryan had the following to say: "We are looking forward to a pleasant opening of the fall term. From all that can be gathered at this time, the enrollment for the coming year will eclipse all others and students are our greatest necessity. In the matter of a Science Hall, preparation will be made to continue all courses in temporary quarters until the new building for which the plans are now being prepared is completed. Announcement has just been made of the resignation as president of Dr. E. McQueen Gray who has so ably served the University during the past year. California doctors have forbidden Mrs. Gray to return to a high altitude and the University would ask too much to separate the Dr. and Mrs. Gray. In his place will very probably be secured the president of Montana University, Dr. Oscar J. Craig, one of the foremost educators of the Northwest.

"Under his direction the most prosperous year in the history of the University is expected. Last year's record of victorious football and baseball teams will fall before a record year in every branch of activity."

Dr. W. H. Montgomery came in Friday from other parts of Roosevelt county. The doctor says he is beaten for Tax Collector of the county; but it took the President and Congress of the United States to do it.

Loyd Canfil went to work for Pearce and Patterson, Saturday taking the place of Ray Maxwell who is away at Lubbock.

Job Printing—The Herald.

#### MANY WANT TO KNOW ABOUT NEW STATE.

According to Secretary Henning of the immigration commission, there have been more inquiries regarding this territory since the enabling act was passed than in any similar time before regardless of the amount of advertising done then. "During the week since the bill was signed by the president there has been an increase in the number of inquiries from genuine bona fide interested parties who want to locate here of 25% over the number received in any previous week. We have not done one cent's worth of advertising in that time, or at any time sufficiently near to affect the inquiries of that period. We attribute the increase to the general interest aroused in the country at large by the passage of the bill," said the immigration officer.

"Since the first of the year we have had about 1,600 inquiries. We will soon start an advertising campaign in the eastern and central states that should be of great benefit. We believe that this is the right time to advertise, while people are interested. If we are able to carry out the campaign as we wish, good results will be got.

"The land and irrigation exposition at Chicago will also be of great benefit to us. I have received replies from practically all of the districts of New Mexico, and the men that I have already begun work on the exhibits that we will take to Chicago with us for placing in the exposition. In only one instance have I met with anything but the most hearty co-operation. All of the big irrigation companies are coming in on the exhibit, and I expect to be able to arrange a very fine display of native products.—Tribune Citizen.
