**Boys Hold Meeting at Armory and Elect Officers, Assign Parts and Order Part of Equipment.**

An organization styled as above has been organized within the past week, which insures Portales against a dearth of good music in the future, if the boys receive the proper encouragement and appreciation upon the part of the citizenship. The direction of the band has been placed in the hands of L. W. Fiscus as president-manager; Frank Tompkins, Sec. Treas.; Dr. L. R. Hough, Cor. Sec'y.; G. H. Beaty, Leader. The performers together with the parts and instruments assigned are as follows:—Cornet, J. M. Twiggs, Dr. L. R. Hough, L. B. Gregg, Fred Kennedy and G. H. Beaty; Clarionets, Frank Tompkins and Louis Kohl; Altos, Dr. N. F. Wollard, Geo. Monroe and Frank Smith; Tenors, Fred Crosby, Earl Williams and J. B. Detweiler; Baritone, Geo. Dean and Boyd Atherton; Tubas, A. N. Freeman and Roy Epperson; Drums, snare, L. W. Fiscus; bass, M. B. Jones; Drum Major, T. J. Molinari. The band will meet Monday and Wednesday nights of each week at the Armory for rehearsal, this building being donated on these nights to the boys by D. Hardy. Members are required to give these nights to band work and

make no other engagements which will interfere with this program for practice. A new set of instruments have already been ordered. The boys are starting out along well defined plans of business management and it will not be long until this organization will be one of the proudest assets of the life of the town.

**WOMAN'S CLUB MET YESTERDAY.**

Wednesday the Woman's Club met with Mrs. Floyd Stone and elected officers for the year as follows:—Mrs. Lindsey, president; Mrs. Monroe, 1st vice-president; Mrs. Hightower, 2nd vice-president; Mrs. Arthur Jones, secretary; Mrs. Nixon, treasurer. This was the last meeting for this year, but next Wednesday Mrs. Hightower will entertain the club at her home at which time Mesdames Lindsey and Culberson will give talks on their trips to Santa Fe. Mrs. Staples will give lectures every two weeks to the ladies at a place not yet decided upon, on the subject of Domestic Science.

**IRRIGATION PLANT WILL BE OPERATED SOON.**

It is understood that the fires will be kindled in the gas producers at the irrigation plant about the first of December and it is now expected that the plant will be running about the 8th following. This will give the farmers an opportunity to do some winter irrigating, an excellent season in which it may be done.

Mrs. Bascom Howard returned home Tuesday from a visit in Dalhart, Texas.

J. E. Henderson was down from Hereford over Thanksgiving with his parents, Mr. and Mrs. J. P. Henderson. "Eagle" is a valued employee of the Hereford Brand.

**The Dairying Business.**

As the Herald has often said before, there is nothing of more importance to Portales Valley than the development of the dairying business and kindred industries, for on its development depends the dense and prosperous settlement of our country with happy and beautiful homes. Outside of the present irrigated area, as well as within the district now provided with means of irrigation, each holder of a farm should have a windmill or gasoline plant with a small reservoir to irrigate from five to ten acres each, about two acres in alfalfa to give early and late pasturage to the calves, pigs, colts and poultry; about one acre to grow plenty of vegetables for farm use, etc.; a small orchard, some beautiful flowers and nice shrubbery and some ornamental trees. They should combine with dairying, horse and mule breeding and developing, hog growing, sheep raising and poultry producing. This would give them a weekly income by selling butter fat, which is now commanding 25c per pound. It gives them some calves to sell, hogs to sell, poultry and eggs to sell as well as to eat, including milk and vegetables on the farm, and would give them skim milk on which to feed their pigs and chickens successfully. These are never failing crops. Then by scientific dry farming in a practical way, they could raise plenty of milo maize, Kafir corn and sorghum for their stock and thrash and sell their milo maize and Kafir corn the same as they would wheat.

We have the most desirable country for the aforesaid industries because of our altitude and being above the tick fever line and this character of climate and these industries are naturally attractive to a high class of citizenship. This combination of industries and citizenship have made the Central Western States of the United States great. Come to Portales Valley.

**Land-Grabbers Indicted.**

A case of unusual interest is being aired in Nebraska, which shows that other western states than New Mexico is enduring the passing of the range with the blood and thunder methods. This is a case where the cattle kings of the western half of the state are charged with resorting to high-handed methods to retain pastures, it being alleged the homesteaders of the section have been driven from their claims by bands of armed cow boys. The federal grand jury of that state has taken a hand in the matter, returning indictments against nine ranchmen who are said to have driven the homesteaders away from their claims at the point of guns. According to the charges made in the indictments, the ranchmen have carried their efforts so far as to secure the incarceration in the insane asylum at Hastings, Neb. of one of their alleged victims, a homesteader who had taken up some of the semi-arid land under the Kinkaid homestead law in the disputed section.

When the Kinkaid homestead law was passed, many persons went to Banner, Grant, Garden, Cherry and other western Nebraska counties and took up quarter sections. The land is

in the sand hills country but contains many fertile valleys. Several big ranchers, among them Yeast and his associates, heretofore depended on this valley land for their hay for winter feeding and the settling of the homesteaders was resented.

The indictments charge that a band of about thirty persons, headed by Yeast, went to the homes of many of these homesteaders and by intimidation and threats of taking their lives and those of their families, forced them to leave their claims.

The specific case of Davasher is mentioned in detail. It is charged that Yeast and the other defendants, accompanied by a band of cowboys, visited Davasher's home and, after threatening himself and family with death if they did not leave the country, destroyed his home, broke up his machinery, cut his harness to pieces and in other ways mistreated him. Later, according to the indictment, Yeast conspired with members of the county insanity board and secured Davasher's incarceration in the asylum. This latter act, according to the indictment, was committed in a high handed manner. The insanity commissioners, it is alleged, went through a mock examination, declared Davasher insane and issued a warrant for his arrest. This was served on the spot and within an hour he was rushed off to the asylum without being permitted to have the advice of counsel.

Davasher's case was brought to the attention of the superintendent of the institution, who conducted an examination into the case. He at once decided Davasher was not insane and the latter was released by habeas corpus proceedings.

According to an official of the interior department, the present indictments cover one of the most remarkable attempts at land grabbing which has recently been brought to the attention of the department. A letter written by one of the victims to President Taft is said to have caused the investigation which resulted in the indictments. A special grand jury was summoned to consider the evidence.

**JUDGE MCGILL ON THE CONSTITUTION.**

Judge Wm. R. McGill of La Lande was a visitor in the town Saturday and Sunday and in discussing the features of the new proposed constitution he very emphatically placed himself on record as being against the document, defining his objections along the lines which Democrats throughout the territory are taking issue. The Judge said that evidently the six men who wrote the constitution (or dictated its terms, which means the same thing) take unto themselves all the knowledge of the new state for 25 years to come, as they fixed it so amendments would come few and far between in that time. That the constitution does not contain the initiative, a referendum worthy the name, direct primary, an efficient corporation commission, an election law for honesty, or any other measure for the people, and none of the evils of taxation now complained of are cured. The Judge said we had as well trust to the referendum now in force under territorial government as to trust to the measure as provided for in the document, as it was practically inoperative.

Judge McGill said that those who had taken the time already to study the different provisions of the constitution seem to have found a very serious objection to it in the salary list and the judiciary provisions, claiming that under the constitution as it is written, their tax burdens will be largely increased and no adequate return given them for this increase of taxes to be paid. Many of them insist that even if a return could be shown, that the tax burden is now all they

can carry. The constitution provides for \$5,000.00 salary for the governor and it is pointed out that Nebraska, rich and populous far beyond New Mexico, pays but \$2,500, and there is no movement to raise it. Texas, with its millions of people and billions of taxable property, immense area and diversified interests, pays but \$4,000 and its public men are satisfied.

The constitution provides other salaries in proportion, and there is much objection to the large salaries to be paid the supreme and district judges; three supreme judges at \$6,000 a year each; eight district judges at \$4,500 a year each, and all the other costs of clerks, court expenses, etc., looks rather too much. This same work is now being done by seven men working part of the time, in addition to which the government will provide a federal judge to take even part of the work now being done.

But to make it worse, the constitution provides that the legislature may increase the number of judges.

Besides the high state salaries and the judicial snags, the constitution provides for three corporation commissioners, at \$3,000 a year each, a clerk for their court, and other expenses, and then fails to give them powers under which they can hope to make any return to the people for the expense. In addition to these, there will be a mine inspector and all the minor state and county officials now established, and probably others.

It is understood that the only plan suggested for raising the additional revenue (and no other plan is provided other than this) is to simply increase all kinds of property (except railroads, express, sleeping car and other carrying corporations which are protected by the board of equalization clause) until the required amount is raised, and this very suggestion is raising a storm of protest in almost every county.

Furthermore the Judge says it will be infinitely better for the people to reject the handiwork of these six men and reassemble the convention according to the provisions for same in case of rejection, and he thinks this action would have some elements of hope for a better organic act. That if the people resort to this method of protecting themselves against the vicious provisions of the document as it stands, that we will get statehood just as soon as if we were to go ahead and swallow the first dose and that certainly the second effort would be an improvement over the first.

**GREAT CLEARANCE SALE.**

(Published by Request.) Our lease with Uncle Sam having practically expired and having decided to retire to private life, we the undersigners will offer at public sale at our residence, National Capital at Washington, D. C., Monday, December, 5, 1910, all of the following described property, to wit:  
One Elephant about forty nine years old.  
One set of injunctions and high cost of living. Old enough to wean, sired by Gold Bugs and damned by everybody.  
One Republican Platform, good as new; only been used for campaign purposes. (A large number of planks from the Democratic platform have got mixed in, but as they cannot be distinguished, they will go with the lot.)  
One Big Stick, somewhat worn from over use.  
One Republican Machine somewhat out of repair.  
One Financial System, well supplied with Clearing House Certificates and a little cash.  
A large quantity of Old Dinner Pails, Grandpa Hats, Coon Skins, Teddy Bears, Taft Smiles, and other things too numerous to mention. There will also be dis-

posed of at this time a great lot of old junk belonging to the democratic and other parties.

This sale will positively take place on above date regardless of weather, and everything must be cleared out before 1912, as the Socialists will then take entire charge of Uncle Sam's business.

Roast Crow will be served by the Old Boys' Republican Club. Everybody, regardless of past political servitude invited. This stuff must be cleared away.

Joe Cannon, Auctioneer; Colonels Rockefeller, Morgan and Vanderbilt, G. O. P. Managers. Teddie Roosevelt, Clerk.—Creal Springs, Ill. Tribune.

**EDITORS MUST MAKE SUBSCRIBERS PAY.**

A matter of great importance to the newspaper reading public is the intimation that the post-office department is no longer going to wait for the enforcement of the ruling providing that all papers sent through the mail shall be paid for in advance or cut off at the end of ninety days. The penalty for this is the exclusion of the offending newspaper from the mails.

It is explained that the post-office department has been extremely lenient since the ruling was announced two years ago. It recognized the long standing practice of extending credit to subscribers and desired to avoid action that would constitute a hardship either on the newspapers or the subscribers.—Publishers Auxiliary for November.

Engraved cards and monogram and initial stationery ordered at Herald Ptg. Office.

**JUDGE LINDSEY ADDRESSES CITIZENS.**

Judge W. E. Lindsey addressed a good sized audience Monday night at the court house, the theme of his remarks being the new proposed constitution, in the drafting of which he had a hand. This was the first of a series of addresses which the Woman's Club of Portales have arranged, in which the returning delegates will have an opportunity to express their views on the document. In addition to those provided for by the ladies, the Herald hopes that Judge H. F. Jones will seek an opportunity to address his townsmen on the salient features of the proposed organic act, as well as others in the town whom we know could give a clear cut digest of the provisions of the document, albeit these persons whom we have in mind did not participate in the framing of it. This is a matter upon which all the people should be as conversant as a school boy with the multiplication table.

### GOOD NEWS.

**MANY PORTALES READERS HAVE HEARD IT AND PROFITED THEREBY.** "Good news travels fast," and the thousand of bad back sufferers in Portales are glad to learn that prompt relief is within their reach. Many a lame, weak and aching back is had no more, thanks to Doan's Kidney Pills. Thousands upon thousands of people are telling the good news of their experience with the Old Quaker Remedy. Here is an example worth reading:

J. S. Sandoval, 115 Ortiz St. Santa Fe, N. Mex. says: "I have used Doan's Kidney Pills off and on for two years and they have done me a world of good. A dull pain in the small of my back sometimes extending into my bladder caused me a great deal of suffering, particularly when I took cold. I was bothered mostly in the winter and in addition to the pain in my back, there were symptoms of inflammation of the bladder. The kidney secretions were highly colored and when passed were attended with a scalding pain. I never used another remedy that acted as satisfactory as Doan's Kidney Pills. They proved to be just the medicine my case required and the complete cure they brought has led me to recommend them on more than one occasion."
