PORTALES, NEW MEXICO, THURSDAY, OCTOBER 9, 1919

Volume XVII, Number 49

CITY COUNCIL MEETS

Portales, New Mexico, October 7th, 1919.
The Town Council met in regular session and upon roll call the following members were present Mayor E. B. Hawkins, Trustees S. A. Morrison, Geo. M. Williamson, Jack Wilcox and C. J. Whitcomb.

The following certificate was made and filed with the County Commissioners:

To the Honorable Board of County Commissioners of Roosevelt County, New Mexico:
The Town of Portales, New Mexico, through its Board of Trustees, hereby certify that the following rate for an assessment on the taxable property within the said town have been made by the said Town of Portales, for the year 1919, as follows, to-wit:

To pay interest on bonds for water, sewer, lights and improvements, Nine (9) mills; for general expense for city government, three (3) mills; and to create a sinking fund to pay water, light and sewer bonds, six (6) mills is hereby levied upon the taxable property within the corporate limits of said town of Portales.
And a special sewer tax is hereby levied as provided in ordinance No. 49, of the Town of Portales, for the purpose of defraying the expenses of maintaining and the operating and keeping in repair the sewer system of said town, an assessment as follows, to-wit: Ten cents (10c) per front foot upon improved lots and lands, and three cents (3c) per front upon unimproved lots and lands adjoining streets and alleys through which sewer pipes are laid; and ten cents (10c) per front foot upon improved lots or lands otherwise situated but having sewer connections for the purpose of defraying the expenses of maintaining, operating and keeping in repair the sewer system of said town.

In Witness Whereof, the said Town of Portales has caused this certificate to be executed by its Mayor and attested by its Clerk, this 7th day of October, A. D., 1919.

E. B. Hawkins, Mayor.

Motion was made by Wilcox and seconded by Whitecomb that the above claims be paid. Those voting "aye," Wilcox, Williamson, Whitecomb and Morrison.

Resignation of Jess McCormack as town marshal was presented and the same was accepted to take effect at once.

Dr. D. B. Williams was duly appointed as city health officer.

Motion was made by Whitecomb and seconded by Wilcox that the light and water rate be changed to take effect November first, reading covering October, and that the rates be as follows:

Minimum for lights in residence district, per month, \$2.00.
Minimum for lights in business of commercial, per month, \$2.50.
The rate per k. w. on lights to be as follows: For the first 20 k. w., 20c per k. w.; for each k. w. from 20 k. w. up to 50 k. w., 15c per k. w.; for all over 50 k. w., 10c per k. w.

The water minimum is also changed from \$1.50 to \$2.00 per month, and said minimum is to cover a maximum of 10,000 gallons of water and all over 10,000 gallons is to be charged for at a rate of 15c per thousand gallons.

Those voting "aye" on the above motion were Morrison, Whitecomb, Williamson and Wilcox.

A service charge of \$5.00 will be charged all light users for making service connections.

C. I. Kugler, manager at the plant, was instructed to call at the office of the town clerk each month on the morning of the 11th day of said month and secure a list of all water and light users who have failed to pay their bills on the 10th and proceed at once to either collect said bills or cut off the service and when such service is cut off not to cut it back on until all past bills have been paid and to charge a fee of \$1.00 for light and \$1.00 for water connections for cutting the service back on.

There being no further business the council adjourned.

E. B. Hawkins, Mayor.
Attest: W. H. Braley, Clerk.

OZARK TRAILS MEETING

Just how much good was accomplished at the Ozark Trails meeting at Roswell cannot be reasonably estimated, as yet.

However, the delegates from Portales and other points this way succeeded in bringing the delegation back this way and all expressed themselves as surprised at finding such good roads in this part. The party arrived in Portales last Friday afternoon and a mass meeting was held on the courtyard lawn where the jazz band from Benton County, Ark., played a few pieces to the delight of all present. Judge Reese made a few remarks after which he introduced Col. W. H. Harvey, president of the association, who gave a splendid talk on the matter of good roads. He didn't make any promises, but left the impression on his hearers that Portales would be on the route of this great highway.

Owing to the fact that a banquet was awaiting them at Clovis they remained only about thirty minutes.
As we stated at first we don't know just what the outcome will be, but we have reason to believe that it will be located this way and if it does, will be one of the greatest things for the country that has ever happened.

A. L. Jones, of Roswell, has been here this week helping manager Hamilton put some more additions to the telephone system. The local telephone service is getting to be A-No. 1 under the efficient management of Mr. Gail Hamilton, who has recently been transferred here from Artesia, and the telephone users appreciate his efforts.

LOST—31x37.5, Goodrich casing. Reward for the return to Jewel Grinstead.

REGISTRATION OF BIRTHS AND DEATHS

The regulations recently passed by the State Board of Health for the registration of births and deaths, and the disposal of the dead, are now in effect. Blank forms and instruction have been placed in the hands of the local health officers, from whom they may be obtained by the Public.

The salient points of the regulations are as follows:

Deaths—From now on, no dead body shall be buried or otherwise disposed of unless a permit therefor has been issued by the local health officer or his representative.

To obtain this permit, a death certificate must first be filed with the local health officer by the undertaker or person in charge of the body, which certificate must be made upon the form supplied by the State Commissioner of Health through the local health officers, and must give all the facts as to the death, the cause of death being stated by the attending physician, if there was one, and if not, by the health officer, justice of the peace or other proper official acting as a coroner.

Births—Births must be registered with the local health officer or his representative within ten days by the physician, or midwife, and if there be neither, then by the parent, upon the form supplied by the State Commissioner of Health through the local health officer.

Stillbirths must be registered both as births and deaths, and burial permits must be obtained.

The local health officer must make and retain a copy of each birth and death certificate, and on the tenth of each month must forward all original birth and death certificates to the State Commissioner of Health, who will permanently bind, index and preserve these records. The permanent local record will be filed with the city or county clerk.

Foot Ball Game at Clovis

The Portales High School boys played at Clovis last Friday afternoon, leaving here in cars at 2:30. A good crowd of rooters accompanied the boys. The game was called at about 4:15 and splendid school spirit was manifested by both sides. The score was 12 to 0 in favor of Clovis.

This was a clean game throughout and the Portales boys received splendid treatment from the Clovis bunch. The Portales team, with one exception, is composed absolutely of new material. The Clovis team had four men who had played previously, we are told.

The Clovis boys had greater success with their end runs while Portales made most of her gains with forward passes. When the Clovis team plays here on October 31st, the Portales team will do their best to show them every kindness, in return for the splendid treatment accorded them.

The battle in the heart of a farmer boy, who longs for the attractions of the great city, and how he found his greatest contentment in rural scenes is told in "The Shepherd of the Hills," the ten-reel super-film of Harold Bell Wright's great story. At the Cosy Theater, Tuesday, October 14th. Admission 25c and 50c, war tax included.

A detachment of the 82nd Field Artillery, stationed at Fort Bliss, are in Portales today recruiting for the service of Uncle Sam. Anyone interested in this service may call at their tent on the southeast corner of the square.

Mr. and Mrs. Dave Shapcott and Miss Juanita Ryther returned this morning from a three week's visit at Wichita, Kansas.

The county commissioners met in regular session Monday of this week and adjourned Wednesday. All members were present.

CLOCKS WILL BE SET BACK AN HOUR, SUNDAY, OCTOBER TWENTY-SIXTH

The clocks will be moved back an hour at two o'clock on the morning of October 26, when the daylight saving law passes into history. The daylight saving law has been repealed by congress.

The bill was passed by congress March 19, 1918, and became effective the last Sunday in March in 1918. The period extended to the last Sunday in October of that year.

The first Sunday in March, 1919 the clocks were again set ahead an hour and will be set back the last Sunday of this month.

COMMUNITY SERVANTS

From bankers for local, state and general government, the banks became bankers for the people over the war period.

They helped float the liberty loans, helped the people buy them and now are helping them collect their interest from the government. Many holders of liberty bonds are not collecting the interest when it falls due, perhaps it does not seem to the holder worth bothering with, and the banks attend to it for him, however small the amount. Some bondholders fail to clip the coupons with the idea that by letting the Government keep the interest money they were helping pay the war debt.

But when interest falls due the treasurer must hold in readiness a sum sufficient to pay it all. The banks attend to these matters cheerfully, accommodatingly and without charge merely as part of modern banking methods.

Legitimate competition and progressive methods in banking bring benefits to the banker and the public just as much as in any business. That is why American banks lead the world in the matter of courtesy and accommodation to customers.

If you haven't the "oil" fever, call at the office of the Mesa Oil & Gas Company and read the oil and gas journals, written by men who know the game and are actively engaged in development work. You can't get interested in a thing unless you read about it. They have plenty of fresh dope on hand. You can't read these articles without becoming "infected."

Mrs. Nellie McClasky, of Los Angeles, California, arrived Wednesday and will make Portales her home. Mrs. McClasky has considerable land southeast of town and the oil excitement has induced her to come and look after her interests.

M. E. CHURCH SOUTH APPOINTS MINISTERS

The New Mexico Methodist conference which was held at Tucumcari, this state, last week appointed preachers for the different churches. Following is the appointments for the Roswell district:

J. B. Cochran, presiding elder; Artesia, R. F. Davis; Boaz circuit, J. H. S. Webb; Carlsbad, George H. Givan; Clovis, R. B. Freeman; Clovis circuit, W. A. Belcher; Dexter circuit, W. B. Gilliam; Elida circuit, J. I. Kelley; Hagerman, H. W. Carter; Hope, W. L. Jenkins; Loving circuit, to be supplied; Lovington circuit, to be supplied; Odessa and Barstow, J. S. Rice; Pecos, Fred B. Faust; Portales, J. W. Stuckey; Rogers circuit, to be supplied; Roswell, S. E. Allison; Sacramento circuit, to be supplied; Tatum circuit, A. J. Brown; Texico and Farwell, L. L. Thurston.

DISTRICT COURT MONDAY

The regular October, 1919, term of the District Court will convene at Portales next Monday morning, with Judge Brice of Roswell, presiding. Judge Bratton is holding court at Carlsbad.

DELPHOS ITEMS

It has been such bad, dreary weather the last few days, the people have not been out much, therefore, Delphos is not as merry as usual.

Our school started Monday, October 6th, with a good attendance. Mrs. Williams, the teacher is one of the most efficient teachers Delphos has ever had, and we have had some of the best. Mrs. Williams was one of the teachers last year and gave perfect satisfaction, so we are looking forward to a fine school this year.

A bunch of the Delphos young folks went over to the Morgan crop of apples. Who says we can't raise most anything here, with or without irrigation?

G. A. Chumbley is dipping his cattle this week. I believe he is the last of the Delphos people to have a dip.

Mrs. M. V. Cummings is in Portales this week on account of the bad weather, the High school pupils have to stay in town when the roads are so bad.

Miss Mae Morris is carrying the mail again from Delphos to Redlake, since school opened.

Walter Anderson has returned home from a business trip to Kansas.

It was reported there was to be preaching here Sunday and quite a few came regardless of the bad weather, but the preacher failed to be on hand. Suppose it was on account of the threatening weather.

One of the largest hail storms we have ever seen struck Portales last Sunday afternoon and played havoc with window lights, gardens, crops, birds, and in fact most everything else that was in the road. However, it did not cover a very large scope of country and the big crops of the county were not damaged, but all gardens and small crops close to town were demolished.

S. E. Johnson, of the Redlake community, returned Wednesday from an extended visit in Missouri and Wichita Falls, Texas, where he has been "dabbling" in oil stocks and leases. Mr. Johnson says that things have begun to look lively for this county and he just came back to get in on the ground floor.

T. A. Bell left Sunday morning for Gans, Oklahoma, having been called there by the death of his son-in-law.

Joe Howard returned Wednesday from a business trip to Hobart, Okla., at which place he has considerable holdings.

TEN COMMANDMENTS FOR THE CONTROL OF INFLUENZA

1. Keep away from the sick.
2. Avoid crowds.
3. Do not use cups, glasses or towels that anyone else use.
4. Get all of the fresh air, good food and exercise you can.
5. Wash your hands frequently.
6. Avoid the use of sprays, drugs, etc., for preventive purposes. They do no good and may do harm.
7. To protect your neighbor, cover your nose and mouth when you cough and sneeze. Cough and sneeze toward the floor or ground.
8. If you feel sick when influenza is prevalent, go to bed and send for a doctor.
9. If you have the disease, stay in bed until entirely well. Pneumonia may result from getting up too soon.
10. Help your health officer fight the disease.

PORTALES SCHOOL NOTES

The Portales school enrollment at the close of the first month was 453. There were 105 enrolled in the High School and 348 in the grades. The enrollment for the first month last year was 477, there being at that time 109 in High school and 368 in the grades. School began later last year.

At a meeting of the school board last Monday, it was decided not to admit any more pupils who are just five years old until January, and only then on condition that they were five in September. There will be two weeks time given them to enter when school starts on the second semester and after that time no more five year old pupils will be admitted for the present school year. This is a regulation that is practiced by practically all the well regulated schools. Pupils just beginning school cannot be classified who drop in to school in the primary grade just any month in the year. It takes about as much of the teacher's time for that one pupil as for a whole class. It is hardy justice to the rest of the room.

The foot ball team played at Clovis last Friday, score 12 to 0 in favor of Clovis. This was one of the cleanest games of football ever played. Clovis treated our boys splendidly. The best of feeling prevailed at all times.

School pupils and teachers will be glad to see some dry weather. The foot ball team plays at Canyon Saturday.

The County Teachers' Association will convene at Portales the last Friday and Saturday in October.

The State Teachers Association will be held at Albuquerque in November.

An evening of home talent will be given next week for the benefit of the High School Library. A splendid evening of readings, solos, duets, etc. Come help the school library fund. Two hundred dollars was added last year. Lets do some more this year.

The Woman's Home Missiounary Society of the M. E. Church met with Mrs. Stone October 2nd, with an attendance of 7 members and 3 visitors. The subject, "Medical Missions in China." Mrs. Dennison was the leader. The next meeting will be at the home of Mrs. McDonald, October 16th. A day set apart for fasting and prayer for a great revival and salvation of souls. A social good time was spent. Refreshments of ice cream and wafers were served by the hostess.

Quite a force has been busy the past week dipping cattle at the vat three miles northeast of town and to date something like 2,500 cattle have gone through. Sunday was the day for the town people to have their cows dipped and all got busy and finished.

TROOPS SUPPRESS OMAHA RIOTERS

AFTER ATTEMPT WAS MADE TO STRING UP THE MAOR OF THE CITY

ONE NEGRO LYNCHER BY MOB

Total of Two Dead and 39 Injured, With Damage of Quarter Million To the Douglas County Court House Is Riot Toll

Omaha.—Regular soldiers of the United States army, patrolling the streets with fixed bayonets and machine guns placed at strategic points have restored order in Omaha after a night of terror, during which a mob took William Brown, a negro, from the county jail and hanged him, attempted to lynch Mayor Ed. P. Smith and threatened to precipitate a serious race war.

Mayor Smith is reported much improved and his physicians say they believe him out of danger. He was unconscious for several hours. An immediate grand jury investigation of the riot is to take place.

Two Dead, Thirty-nine Injured. The grim reckoning shows two dead, thirty-nine persons injured and hundreds of thousands of dollars loss, including \$250,000 damage to Douglas county's \$1,250,000 courthouse.

When the mob gained entrance to the jail and a fire in the building became menacing to 100 prisoners in jail on the top floor, Sheriff Clark sent all the prisoners, including Brown, to the roof. He was there in the custody of other prisoners. The sheriff and his deputies were guarding the entrance to the jail and were able to keep back the mob for several hours. However, as the heat became intense, the negro prisoners themselves took action and delivered the negro to the mob.

The crowd that began to gather early in the evening was augmented from time to time until it was numbered by the thousands. It was during this time that the mayor came so nearly being himself a victim of the mob.

Mayor Smith was seized by the mob on Seventeenth street, near the court house at 10 o'clock and was threatened with lynching. He was hustled to Harney street and stopped at the foot of a trolley pole on the cross-arm of which was a coil of rope.

"Give us the key to the jail." "If we can't get the nigger we'll lynch you." "He's no better than the nigger." "He's a negro lover," were cries heard in the mob.

A Few To His Rescue. "Get the rope," someone shouted. It was pulled down by a loose end, but was not long enough to reach. A man climbed the pole and with a knife cut the rope. It was brought down and placed around the neck of the mayor.

"Throw it up over the pole and string the mayor up," yelled a dozen voices. The mob surged to and fro. The mayor was the center of a crush so great that it almost overthrew an automobile standing near.

The rope was then placed around the mayor's neck. Appalled at the possibility of murdering the city's chief executive, protests began to be heard. "We won't stand for hanging the mayor." "That won't get us the nigger; let him go." "Tell him to get out of here." The police rescued him but the patrol wagon in which the police came to aid him was overturned and burned. Later a second attempt to lynch the mayor was made but he was saved by the police and taken to a hospital.

Under orders from Major-General Leonard Wood, commanding the central department of the army, a guard of federal troops was thrown around the courthouse and other buildings in the downtown section. Troops also were sent to the negro section of the town where mobs were reported preparing to kill negroes and burn their homes.

Douglas county's new courthouse recalls shell-battered buildings of the war zone. Windows are shattered on every floor of the building.

Safeguard the Family. If there is a bottle of poison in the house, says the Philadelphia Record, insert three pins in opposite directions in the cork. This will make it impossible to remove the cork without being reminded that there is something unusual about its contents. It is a safety device that cannot be improved upon.

Smallest Bird. The smallest known bird is a Central American hummingbird that is about as large as a blue bottle fly.

Congenial Employment. "I understand you have hired a discharged soldier as a farmhand?" "Yes," replied Mr. Cobble. "He was in the tank corps." "What sort of service is he giving?" "The best ever. I told him just to consider my little old tractor a tank, and the way he goes over a field is a caution."

ADELINA PATTI DIES IN WALES MOST FAMOUS OF ALL PUBLIC SINGERS

Held Position of Leadership On the World's Concert Stage for Forty Years

London.—Adelina Patti, the prima donna, died at Craigy Nos Castle, Pencoed, South Wales.

Mme. Adelina Patti reigned for 40 years as queen of singers.

Her marvelous voice thrilled the greatest contemporaries of her day. The elder Dumas, the French dramatist, once said to her:

"Being a man and a Christian, I love to listen to your singing; but if I were a bird I would die of envy."

Patti was the daughter of two Italian opera singers, and was born at Madrid in 1842.

Dwindling finances sent the Patti family to New York when Adelina, whose birth name was Adela Jpana Maria Patti, was a baby. When she was 7 years old, her parents suddenly became destitute.

The child made her debut at Tripler Hall, in New York, singing arias from the "Barber" in 1850. She was the juvenile prodigy of the day and nearly ruined her voice by overwork. She appeared again at the age of 13. After a tour through the West Indies, she withdrew to prepare for a greater career.

At the age of 16 she appeared in the Academy of Music, New York, in her first opera role, "Lucia di Lammermoor." Her wonderful soprano roused the audience to the wildest enthusiasm, and her fame swept the country. At this time she was earning \$100 a week.

She repeated her conquest as Amina in "La Sonnambula" in Covent Garden, London, in 1861. Her salary had increased to \$750 a month.

It was the beginning of a dazzling conquest of all Europe. Royalty entertained her and courted her favors. The populace besieged her hotels and theaters.

Her first American tour began in 1881—her last in 1903. She was greeted by a magnificent ovation when she made her first appearance in opera in the New York Academy of Music, the scene of her girlish triumph of 20 years before. The following year she sang at the newly opened Metropolitan Opera House. Her guaranteed salary was \$5,000 a night, and it was paid, for Mme. Patti invariably refused to appear until the money was in her possession.

Mme. Patti held the record as a box office star in operatic circles. When she appeared at a matinee concert in Mechanics Hall in Boston in 1888, she faced an audience which had paid \$18,900 to hear her. During a single tour through South America she received in salary and bonuses more than \$300,000. It has been estimated that she earned more than \$5,000,000 during her singing career.

She was married three times and left a fortune of \$3,000,000.

SEVEN OUT FOR CONGRESS

Ross and Lillard Throw Hat into the Ring After Call for Election.

Oklahoma City.—Fifth district congressional politics began to develop rapidly following Governor Robertson's proclamation calling the special primary and elections for October 13 and November 8, respectively.

James S. Ross, of Oklahoma City and Ross N. Lillard, city attorney announced for the democratic nomination; John H. Wright of Oklahoma City and Ed Boyle, state mine inspector.

This already makes five avowed candidates, Roy E. Stafford, former owner of the Daily Oklahoman, who was the first to announce, Lillard and Ross, with two others likely to get in to the going. Postmaster Weaver, formerly congressman is also announced.

A. L. Wilson of Oklahoma City who ran independent against John Fields and R. L. Williams in 1914, has filed as a republican.

He Admits Blowing Bridge. Jersey City, N. J.—Werner Van Horn admitted in federal court here that he blew up the Canadian Pacific railroad bridge over the St. Croix river, in New Brunswick, Canada, Feb. 2, 1915. Horn has been held as an alien enemy since his arrest and was brought here with a batch of Germans being sent back to Germany.

Murdered His Daughter. Bonham, Tex.—T. L. Walton, charged with the murder of his daughter at Paris, Tex., in December, 1915, was found guilty when the jury returned its verdict. He was sentenced to 10

1920 Vote Estimate Thirty-six Million Atlantic City, N. J.—Estimates by the executive committee of the democratic national committee, which were given out recently, make the total vote at the next presidential election about 36,000,000, as against 14,000,000 in 1916.

RAILROAD SERVICE BETTER IN ENGLAND

MORE STRIKERS RETURN TO SUBSTITUTES FOR BUS WORKERS

GOVERNMENT TROOPS USED

Increasing Number Put On Duty; Another Attempt at Derailment Is Reported in British Walkout.

London.—Railway service continues to improve and more strikers have returned to work, the government announced in its official strike communiqué.

The government has made full arrangements to secure substitutes for bus workers who join the strike in this city.

With both sides standing firm there is no sign of a decisive break in the national railway strike.

Government officials claim that railway traffic is improving steadily and that the number of trains being run is increasing.

The vigorous action taken in forming a motor lorry transport system with 15,000 cars for distribution of provisions is staying off an actual danger of suffering for want of food.

Troops are being used in increasing numbers. Heavy bodies of soldiers were stationed at strategic points along all of the railway lines in Scotland with orders to take effective measures to prevent any interference with train service by strikers.

The tunnels are under guard and cordons of soldiers are stationed around the principal railway stations.

Another attempt at derailment was reported from Glasgow in a dispatch to the Daily Mail. A six-inch bolt was found wedged between two connecting rails just before a locomotive passed. At Southampton someone cut the air-brake mechanism on trains.

Miners' Idles. Already 250,000 coal miners in South Wales have been thrown into idleness by the paralysis of the rail traffic.

A canvass in this city by the press shows that great numbers of persons of all classes are determined to back up the government.

The strike has caused considerable dislocation of business in London. Selfridges, one of the biggest department stores in the city, reports that business has fallen off 75 per cent.

Major Raphael Jackson, acting divisional food controller for London, who is in charge of the distribution of foodstuffs, issued a reassuring statement to the public.

SUSPENSION OF MAGAZINES

When Lockout and Strike Paralyze N. Y. Printing Industry.

New York.—Two hundred and fifty New York printing plants employing 10,000 men and publishing nearly all of the magazines and trade journals, issued in New York, as well as a large percentage of the books printed here, were closed by a simultaneous lockout and strike. The lockout ordered by the association of Employing Printers, is supported by the International Printing Pressmen and Assistants' Union of North America, the American Federation of Labor body, which is waging a battle for supremacy over outlaw local unions.

The local unions involved are Pressmen's union No. 51, Franklin union No. 2 (feeders), Paper Handlers, No. 1, and Job Press Feeders union No. 1.

The men affected by the lockout order assert that they will win their demands, which include a 44-hour week and a \$15 weekly increase in wages.

The employers have issued orders that their plants are to remain closed until such time as they can be reopened with forces composed exclusively of members of the international union.

Mayor George L. Berry, president of the International, issued a statement declaring the real issue at stake was Americanism and that the international "would give no quarter to the acknowledged bolsheviks and make no compromise with those that follow the course of anarchy and industrial disruption."

Jack Johnson is Champion Again. Mexico City.—Jack Johnson is champion again. He is the Mexican champion. He met Charles Kid Cutler for the title here and knocked him out in the sixth round. The former champion of the world was never in danger.

Harrison, Ark.—Declaring his conscience would no longer permit him to withhold his secret, James Brown, a Boone county farmer, confined in jail on suspicion of having assassinated Bill Jones at Bergman, July 2, confessed, according to Sheriff Silby Johnson, not only to killing of Jones, but also to a double murder committed in Lonoke county 14 years ago.

Harrison, Ark.—Declaring his conscience would no longer permit him to withhold his secret, James Brown, a Boone county farmer, confined in jail on suspicion of having assassinated Bill Jones at Bergman, July 2, confessed, according to Sheriff Silby Johnson, not only to killing of Jones, but also to a double murder committed in Lonoke county 14 years ago.

THE STEEL STRIKE

Steel strike summary: Substantial gains appear to have been made by the steel interlocks over the week-end.

The gains principally were made through the western Pennsylvania district, where several mills in Donora, New Castle, McKeesport and Pittsburg proper, which had been forced to close last week, resumed operations.

At other points in the district, notably in the steel cities of Homestead, Duquesne, Braddock, Breckridge and others, where operations never have ceased, the mills reported greatly increased forces with production equalling its pre-strike rate.

The strike was extended to the Bethlehem plants. Reports indicate that numbers of the employees went out at the principal plants of the company, but that sufficient employees remained to continue operations in all departments.

Outside of Pennsylvania there was little change in the strike situation. Youngstown remained closed down.

Baltimore.—According to officials of the corporation and steel workers at Sparrow's Point not a man went out at the Bethlehem Company's plant there in answer to the strike call issued by the national committee of the steel workers. A vote showed that only a few men cast their ballots in favor of striking. These men have been working on only half time recently. In normal times the steel and tin plate mills, which would be affected by a strike, employ about 6,000 men. It is said at present about five thousand men are employed at the plant.

OKLA. CITY PAPERS MISS

Printer's Strike Causes Temporary Suspension of Oklahoman and News.

Oklahoma City.—For the first time since its founding, The Daily Oklahoman did not appear Tuesday, Sept. 30, and all the papers in the city, the Oklahoman, the Times and the News are temporarily suspended.

The plants are all strictly union and had contracts with the International Typographical Union which run for a year yet. The papers have been paying extra wages and bonuses voluntarily for many months, but in spite of this the radical element in the union Sunday repudiated the existing contract, claiming the payment of extra wages and bonuses automatically abrogated it, and demanded a new wage scale of one dollar an hour, which they later reduced to \$42.50.

The publishers countered with an offer of \$40 for night work and \$37 for day work and the men walked out. The job shops are not affected yet but probably will be in a few days.

SERBIA CLOSES ITS BORDER

Report Troops Are Massing Is Declared Confirmed.

Rome.—Serbia has ordered the frontier bordering Dalmatia closed for 15 days, the Trieste correspondent of the Tempo reported.

The rumor that Serbia has begun to move troops is said by the Trieste correspondent to have been confirmed.

The siege of Fiume by the Italians has become more rigorous. It is now learned that the steamer Neve, with 150 tons of flour on board consigned to points on the Istria Peninsula, carried concealed Italian soldiers who compelled the captain to change his course and put into Fiume. The soldiers were members of the famous Arditti, many of whom are with Capt. Gabriele d'Annunzio.

RACE RIOTING IN ARKANSAS

Nine Men Dead After Battle Near Helena.

Helena, Ark.—Two white men, Clinton Lee and J. A. Tappan of Helena, and seven negroes are dead, as the result of clashes at Elaine, near here, between a crowd of negroes and a posse searching for the persons who from ambush fired upon and killed W. D. Adkins, railroad special agent. A third man, Ira Proctor, and a number of negroes were wounded. Troops from Camp Pike, at Little Rock, armed with machine guns are at Elaine.

More than a hundred negroes and a white man who had in his possession a quantity of questionable literature have been arrested by posses operating in Elaine and vicinity.

Women and children of Elaine and vicinity are being brought to Helena, on a special train for safety.

COMING EVENTS

Arizona State Fair—Nov. 3 to 8, 1918. Archie Middleton, prominent grocer of Prescott, Ariz., dropped dead of heart failure as he was reaching for a high driven ball in a tennis game recently in that city.

Dr. J. J. Shuler, mayor of Raton, most popular executive in New Mexico and mayor of that city for 31 years, died in the Santa Fé hospital at Topeka, Kan., following an operation for appendicitis.

Administration of the Grand Cañon in Arizona has been taken over by the national parks service of the Department of the Interior, according to an announcement by the district office of the forestry service.

A large section of the La Majada grant, a 54,000-acre tract in the north-central part of New Mexico, has been leased for grazing purposes to J. B. Okie, an extensive cattle and sheep raiser of Wyoming.

Governor Thomas E. Campbell has accepted an invitation to ride with the winner of the Los Angeles to Phoenix airplane race, which will be one of the outstanding attractions of the Arizona State Fair to be held in Phoenix Nov. 3-8, inclusive.

The much advertised elk hunt in the Sitgreaves national forest in Arizona which was to have been conducted from Oct. 17 to 31, has been called off until next season by State Game Warden Prochaska on account of inability to get the hunting district posted.

One bearing rich samples of cuprite and azurite and which will run between 30 and 40 per cent, was struck on the 850-foot level in the Night Hawk mine, near Don Luis, Cochise county, Arizona, according to word reaching Lowell from Don Luis recently.

The New Mexico highway department has received notice that the secretary of agriculture has approved the statement for federal aid project No. 34 in Rio Arriba county. This will now be surveyed and plans and specifications prepared. This road is twenty miles from Chama to Tierra Amarilla.

Arizona public school teachers last year received the highest average wage, with one exception, of any state in the Union. The average salary, according to reports on file with the superintendent of public instruction, C. O. Case, for men was \$131.07 per month and for women \$97.16. This year salaries have been increased to such an extent that a 10 per cent increase will be shown.

The road up Santa Fe Cañon is being further improved. The New Mexico highway commission has loaned trucks and supplied the culverts to repair the section of this road from the Santa Fé city limits to the boundary of the national forest. A dozen convicts are employed in the work. The repair work is under the direction of N. H. Thorpe, county road superintendent. The forest and the county have co-operated in improving the section in the national forest.

In the Holbrook, Ariz., field it is stated that four rigs are actually drilling and two more wells will be under way at an early date. The Wind River company has taken up the drilling operations on the Hop Wind river well and is down about 2,500 feet. The Holbrook Oil Company is drilling and is in what is called the Coconino sandstone. The Adamana Oil and Land Company is down about 1,500 feet. The Black Cañon syndicate is said to be making good progress with an O'Keefe core drill.

The State Fair commission announced another superb attraction for the coming session to be held in Phoenix, Nov. 3 to 8, inclusive, in the arrangements which have been entered into with El Paso and Phoenix auto dealers for the staging of a \$10,000 road race between the metropolises of the Southwest.

The Yuma, Ariz., Indian school won \$45 in prizes at the California State Fair. The Yuma school won the \$20 first prize for having the finest school exhibit at the fair, the first prize of \$20 for the best display of farm produce, and Tom Osborn, a day pupil at the Yuma school, won the first prize of \$5 for the best written exercise displayed in the school department.

The mill of the Grant County Copper Company in the Santa Rita district, New Mexico, whose mining operations are in charge of B. T. Link, is nearing completion. There is a large quantity of ore on the dump, ready for milling, while vast quantities have been blocked out for mining. An immense concrete tank for water to supply the mill recently was completed on the property.

The State Highway Commission of New Mexico has called upon State Treasurer C. U. Strong to offer for sale a block of \$300,000 of state highway debentures. The original amount of state highway debentures authorized to be sold to anticipate the return from tax levies for road purposes was \$1,000,000. Of this amount authorized the sum of \$600,000 already has been sold, and brought a substantial premium. The debentures run two years from date of issue and bear interest at the rate of 6 per cent.

CHILLS, COLDS, FEVERISHNESS

Black-Draught Is Used by Virginia Lady for Colds, Fever and Other Troubles With Fine Results.

Rocky Mount, Va.—Miss Mae Chitwood, of this place, recently stated: "I have used Black-Draught for colds and stomach trouble and certainly have found it very satisfactory."

When I would feel bad and feverish, as though I was taking a fresh cold, I would make a good cup of Black-Draught tea and it would soon set me all right.

I can recommend it as a splendid laxative and gladly do so. You may publish my statement."

When you feel chilly, tired, feverish, headachy and fear that you are taking cold, take a good dose of the old, reliable, liver medicine you have heard so much about—Theodore's Black-Draught. It is made from purely vegetable ingredients, acts in a gentle, natural way, and by helping to drive out poisonous waste matter from your system, it will often, if taken in time, prevent a chill from developing into a cold.

Thousands of people, during the past 70 years, have found Black-Draught of benefit in such cases.

Try it, the next time you chill or sneeze.—Adv.

Spoiling Her Case.

Teacher was warning to her subject, and, laying down her book, said: "Now you all understand that the trunk is the middle part of the body, don't you?"

"Yes, ma'am," chorused the class, with one exception.

"You understand it, too?" asked the teacher of the boy who had not answered.

"No, ma'am, because it isn't so." "Why, my dear boy, what do you mean?"

"Well," replied the boy, "you ought to go to the circus and see the elephant."

"CARRY ON!"

If Constipated, Bilious or Headachy, take "Cascarets"

Feel grand! Be efficient! Don't stay sick, bilious, headachy, constipated. Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your breath bad, your stomach sour. Why not get a small box of Cascarets and enjoy the nicest, gentlest laxative-cathartic you ever experienced? Cascarets never grip, sicken or inconvenience one like Salts, Oil, Calomel or harsh pills. Cascarets bring sunshine to cloudy minds and half-sick bodies. They work while you sleep. Adv.

Sling Gives Relief.

Great relief from pain in neuritis of the arm has been gained from the use of a sling described by Dr. R. T. Williamson in the British Medical Journal. The sling passes over the shoulder of the unaffected arm and under the elbow of the painful arm in such a way that it slightly raises it. This, by raising the shoulder and collar bone, takes off the pressure upon the nerve roots and prevents the weight of the arm from dragging on these nerves.

Watch Cuticura Improve Your Skin. On rising and retiring gently smear the face with Cuticura Ointment. Wash off Ointment in five minutes with Cuticura Soap and hot water. It is wonderful sometimes what Cuticura will do for poor complexions, dandruff, itching and red rough hands.—Adv.

Not Right Kind of Laughter. One is tempted sometimes to laugh at another's mishap or disappointment, but the laughter that leaves a sting in someone's heart is not the sort of laughter that helps anyone.

To Drive Out Malaria And Build Up The System. Take the Old Standard GLOVES' TASTE-LESS CHILL TONIC. You know what you are taking, as the formula is printed on every label, showing it is QUININE and IRON in tasteless form. The Quinine drives out the malarial, the Iron builds up the system. \$75,000,000 TO BE RAISED IN SOUTH

BAPTISTS ANNOUNCE PURPOSE TO WHICH VAST SUM THEY SEEK WILL BE GIVEN.

STRENGTHEN CHURCH WORK

Special Effort of Denomination Along General Lines Will Be Enlarged And Made Stronger As Result Of This Campaign.

Every general interest fostered by Southern Baptists will be strengthened and enlarged through the success of the Baptist 75 Million Campaign which is now well under way, and which will reach its climax in the final drive to secure this sum in cash and subscriptions during the eight days of November 30 to December 7. A period of five years will be provided for the final payment of these subscriptions—but for the campaign to succeed, the sum of \$75,000,000 must be subscribed within the eight days! Many have expressed the belief that the subscriptions will run to \$100,000,000.

At a meeting of the Executive Committee of the Southern Baptist Convention the \$75,000,000 to be raised was apportioned among the general inter-

J. H. Anderson, Wealthy Kentucky Merchant, Who is Chairman of the Campaign in the Baptist 75 Million Campaign.

ests fostered by the Convention, as follows: Foreign missions, \$20,000,000; home missions, \$12,000,000; Christian education, \$20,000,000; state missions, \$11,000,000; ministerial relief, \$3,500,000; orphanages, \$4,700,000; and hospitals, \$4,125,000.

The apportionment of this sum among the several states within the territory of the Convention has been announced as follows: Alabama, \$4,000,000; Arkansas, \$2,200,000; District of Columbia, \$200,000; Florida, \$1,000,000; Georgia, \$7,500,000; Southern Illinois, \$1,200,000; Kentucky, \$4,500,000; Louisiana, \$3,325,000; Maryland, \$750,000; Mississippi, \$3,300,000; Missouri, \$2,925,000; New Mexico, \$250,000; North Carolina, \$6,000,000; Oklahoma, \$2,250,000; South Carolina, \$5,500,000; Tennessee, \$4,560,000; Texas, \$16,000,000; and Virginia, \$7,000,000.

Here is what this big sum of money will help Southern Baptists do for the Master, as set forth by the Campaign Commission:

"It will equip more adequately and multiply manifold the 1,099 missionary workers of the Foreign Mission Board, and the more than 2,000 Home and State Board Missionaries.

"It will enlarge and raise to a better efficiency the 132 Baptist schools in the South.

"It will go far towards meeting the expanding needs of the Southern Baptist Theological Seminary and the Women's Missionary Training School in Louisville, Ky., the Southwestern Baptist Theological Seminary and Women's Training School in Fort Worth, the Baptist Bible School in New Orleans, La., a Theological Seminary for the Negroes, and will provide a first-class college for boys and girls of the mountain region.

"It will increase greatly our hospital service to the sick, open wider our arms to the orphans and provide a strong support for our aged ministers of the gospel.

"It will put Southern Baptists in position to assume a considerable share in the reconstruction of war-torn Europe, and embrace many of the marvelous opportunities for service which thrust themselves upon us from all parts of the world, at home and abroad."

While \$20,000,000 of this sum will go to foreign missions and thus be expended in carrying the gospel and its blessings to other lands, the remaining \$55,000,000 will be expended at home in building up home missionary, educational and benevolent institutions and projects, of which there are a number in every state within the boundaries of the convention.

Life Was a Misery
Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood... I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse... Nothing seemed to help me until, one day, I decided to

AT AGE OF SEVENTY SHE GAINS 25 POUNDS

Since Taking Tanlac Mrs. Rollins Feels Better Than in Twenty Years.
"I am seventy years old and have been in poor health for a good many years, but since taking Tanlac I feel better in every way than I have in twenty years," said Mrs. M. B. Rollins, of 110 West 39th street, Seattle, Wash., recently.
"For twelve years," she continued, "I suffered constantly from stomach trouble and what I ate caused me so much misery that I dreaded to see meal time come. I suffered terribly from rheumatism and sometimes my feet and legs were so badly swollen that I couldn't walk and my arms would get so stiff and sore that I couldn't use them at all. My nerves were in such an awful condition that the slightest noise would upset me and I could never get a good night's sleep. I became so weak and rundown that I gave up and went to bed where I lay for five long weeks."
"I heard so much about Tanlac that I asked my son to get me a bottle and after taking a course of the medicine I am perfectly well again. I feel twenty years younger and am strong enough to do all my housework without any trouble. My appetite is fine, I eat anything I want and never suffer any pain afterwards. The rheumatism has entirely gone, my nerves are alright and I sleep like a baby every night. The way Tanlac has overcome my trouble will me up is like a miracle and any medicine that will do that much for a person of my age is worth its weight in gold."
Tanlac is sold in Portales by Ed J. Neer.

Moral—Don't Borrow
A man that was too stingy to subscribe for his home paper sent his little boy to borrow the copy taken by a neighbor. In his haste the boy ran over a \$4 stand of bees and in ten minutes looked like a warty summer squash. His father ran to his assistance, and failing to notice the barb wire fence, ran into that, cutting a hole in his anatomy and ruining a \$5 pair of trousers. The old cow took advantage of the gap in the fence and got into the corn field and killed herself eating green corn. Hearing a racket, the wife ran out, upset a four-gallon churn full of cream into a basket of little chickens, drowning the entire hatch. In her haste, she dropped a \$35 set of false teeth. The baby having been left alone, crawled through the milk into the parlor, ruining a brand-new \$25 carpet. During the excitement he oldest daughter ran away with the hired man, the dog broke up 11 setting hens and the calves got out and chewed the tails off four fine shirts on the clothes line.—Seabee (Ky) Banner.

The real moonshiners of the Ozarks, without the false touch of modern fiction, are shown in Harold Bell Wright's own film version of his great novel, "The Shepherd of the Hills." CHAPTER XX—Continued.

We emerged through the companion, and I stepped aside as the others rushed by. There was no shout, no cheer, the fellows seeming to realize the desperate nature of their work...

vance so swift and unexpected the big negro had not even time to throw up an arm in defense.

CHAPTER XXI.

In Full Possession.

A roar of delight went up. I knew sailors and felt they would welcome a fight like this and their immediate sympathy would be with me for starting it.

I know not whether Cochose lunged forward of his own volition, or was pressed on from behind, yet suddenly he was within reach of me, and the battle was on, his object evidently being to crush me in his giant grip.

"What's going on below?" I asked. "Curse mostly," answered Carter, peering down through a slight uptilting of the scuttle.

"Stand back there lads," I said sternly. "I'll explain all that has happened presently, but first I am going to lick that black within an inch of his life."

"You mean me, sah? You all think yer kin lick me?" "Yes, I think so; I'll try it anyway. Here Carlson, take this pistol and sheath knife. If anyone interferes shoot him."

"How about it, you?" I asked. "Are there any more of you fellows who take a chance with us? This is my last offer."

"What's the game?" asked a sullen voice in English, and a bearded fellow, burned black, pushed his way to the front.

"I am an English seaman," I answered shortly, "and how I came aboard makes no difference. Right now I am the only navigator on the Namur. Estada is dead—knifed last night by one of the buccaneers."

"Exactly that; now where are you lads? With Manuel and his bunch of pirates? Or with us?"

"I had not decided that even in my own mind, but the answer came promptly enough."

"I am going to leave that to the crew. As soon as we have all secure, I'll have every man on deck, and then we'll talk it over."

"It looks fair. Come on, mates; I'm for the Englishman."

Only one followed him, however, a sheep-faced boy; the others remained sullen and defiant.

"Carter, pass these men up and take them forward with the others. Turn them over to Watkins. Then come back here, and report to me."

"Very well; stand by to help. Now you lads, lift this black and shove him up to where they can get hold above."

I went to the main hatch, and had the sailor slipped to one side, the armed sailors gathering close about the edge, as I peered down. It was a scene of pandemonium, revealed in the yellow flame of slush lanterns.

"I admit that I made a botch job of it at the finish, but you'll have to give me credit for fooling them for a while."

"The whole thing started in Milwaukee. I didn't have a dime in my pocket and my clothes were almost in rags."

"One day a fellow stopped me on the street and told me I resembled the missing heir to a fortune. He said the heir's name was Tolman. We talked it over, schemed and planned and before the end of the week I had made my decision."

"I was tried, convicted and here I am."

"I was tried, convicted and here I am."

SUNDAY SCHOOL LESSON

By REV. P. B. FITZWATER, D. D., Teacher of English Bible in the Moody Bible Institute of Chicago.

LESSON FOR OCTOBER 12 FISHERS OF MEN.

GOLDEN TEXT—Mark 1:14-20. GOLDEN TEXT—Jesus said unto them, come ye after me, and I will make you to become fishers of men.—Mark 1:17.

ADDITIONAL MATERIAL—Matt. 4:18; Luke 5:1-11; 14:15-34; James 3:19, 20.

PRIMARY TOPIC—Helping others to know Jesus.

JUNIOR TOPIC—Peter and John become workers for Jesus.

INTERMEDIATE TOPIC—The work of a disciple.

SENIOR AND ADULT TOPIC—Ways of winning men to Christ.

1. Jesus Preaching in Galilee (vv. 14, 15).

The reason why he changed from Judea to Galilee was the growing opposition to him. The fate of John the Baptist he accepted as foreshadowing his own death.

2. How he preached (v. 15). (1) "The time is fulfilled, and the Kingdom of God is at hand."

(2) "Repent." This meant that the people should turn around, change their minds and attitude toward Christ the King and accept him as their King.

(3) "Believe the gospel." Then, as now, men need to believe the gospel of Christ's death for their sins and resurrection for justification.

3. Jesus Calling Disciples to Become Fishers of Men (vv. 16-20).

1. Who were called (vv. 16, 19). Simon and Andrew, John and James, two pairs of brothers.

2. To what they were called (v. 17). To be "fishers of men."

3. Their call to obedience (vv. 18, 20). To obey meant sacrifice, painful separation, to give up all business interests and leave their father behind.

4. Their reward (v. 17). These four men have wielded wondrous influence in the world.

5. Their reward (v. 17). These four men have wielded wondrous influence in the world.

6. Their reward (v. 17). These four men have wielded wondrous influence in the world.

7. Their reward (v. 17). These four men have wielded wondrous influence in the world.

8. Their reward (v. 17). These four men have wielded wondrous influence in the world.

9. Their reward (v. 17). These four men have wielded wondrous influence in the world.

10. Their reward (v. 17). These four men have wielded wondrous influence in the world.

11. Their reward (v. 17). These four men have wielded wondrous influence in the world.

12. Their reward (v. 17). These four men have wielded wondrous influence in the world.

13. Their reward (v. 17). These four men have wielded wondrous influence in the world.

14. Their reward (v. 17). These four men have wielded wondrous influence in the world.

15. Their reward (v. 17). These four men have wielded wondrous influence in the world.

16. Their reward (v. 17). These four men have wielded wondrous influence in the world.

FOUND "MISSING HEIR" IN JAIL

Long Search of United States Naval Authorities Comes to an End.

WAS HELD AS FORGER

Eighteen-Year-Old Youth Boasts of Shrewd Trick Which, as He Said, "Fooled Them All for Awhile."

Green Bay, Wis.—In the state reformatory a pasty-faced, hollow-cheeked lad of eighteen paces back and forth in his cell.

He is ashamed to look his countrymen in the face because he is a deserter from the United States navy. His name is Adolphe Gerds, alias Daniel H. Tolman.

He is the boy who tricked the authorities at the Great Lakes Naval Training station into believing he was the missing heir to the \$4,000,000 estate of the late Daniel H. Tolman of Philadelphia.

The whereabouts of this youth, who had played tag with military and police officials throughout the United States for seven months, did not become known until a short time ago. Then it was his tongue that told his whereabouts to the world.

Confides in Cellmates. "Yep, I'm the bird you read about in the papers," he had told his cellmates. "I almost had them believing that I was the missing heir to an estate of \$4,000,000 left by a loan shark in Philadelphia named Tolman. But keep it quiet."

But his mates couldn't let the story rest. The guard heard it. From the lad he forced a confession. Then authorities at the reformatory communicated with the Great Lakes Naval Training station. Naval and civil intelligence officers were sent to the institution. Then the identity was established.

Prisoner's Story. He told the officers the following story: "I admit that I made a botch job of it at the finish, but you'll have to give me credit for fooling them for a while."

The whole thing started in Milwaukee. I didn't have a dime in my pocket and my clothes were almost in rags. My poor old mother, who lives at 1458 Spring street, was just about living, and even though I tried hard, I couldn't help her along.

One day a fellow stopped me on the street and told me I resembled the missing heir to a fortune. He said the heir's name was Tolman. We talked it over, schemed and planned and before the end of the week I had made my decision.

Don't let that bad back make you old! Get back your health and keep it. You can detect kidney weakness in its early stages, from the morning lameness, dull headache, dizzy spells, nervousness and kidney irregularities.

Take early, a short treatment with Doan's Kidney Pills will usually correct it. Neglect may lead to more serious trouble, gravel, dropsy or Bright's disease. Doan's have helped thousands.

An Oklahoma Case. J. H. Hayes, a pastor, Hildenville, Okla., says: "I suffered from a constant dull ache in my back, which was so severe at times that I could hardly get around."

The kidney secretions were irregular and too frequent in passage, as is a highly colored urine. My kidneys were completely ruined, and I was unable to regulate the passage of the kidney secretions."

You Do More Work. You are more ambitious and you get more enjoyment out of everything when your blood is in good condition.

Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood.

When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it.

The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic.

The formula is just the same today, and you can get it from any drug store. 60c per bottle.

Acid-Stomach Makes 9 Out of 10 People Suffer

Doctors declare that more than 75 non-organic diseases can be traced to Acid-Stomach. Starting with indigestion, heartburn, belching, food-repeating, bloating, sour, gassy stomach, the entire system eventually becomes affected.

Every vital organ suffering in some degree or other. You see these victims of Acid-Stomach everywhere—people who are subject to nervousness, headache, insomnia, biliousness—people who suffer from rheumatism, lumbago, sciatica and aches and pains all over the body.

That about 9 people out of 10 suffer to some extent from Acid-Stomach.

If you suffer from stomach trouble or, even if you do not feel any stomach distress, yet are weak and ailing, feel tired and dragged out, lack "zip" and enthusiasm and know that something is wrong although you cannot locate the exact cause of your trouble—you naturally want to get better your grip on health as quickly as possible.

WORLD PEACE AND INDUSTRIES

Earliest possible ratification of the Peace Treaty and Covenant of League of Nations is of utmost importance for the stabilizing of industries and extension of American Commerce.

Pending the battle in the Senate, unnecessarily prolonged by a small handful of ambitious men, under the leadership of western radical progressives, industries are not expanding and business drags.

Taking Oregon as a guide, where Senators are elected by a direct vote of the people since ten years, both Senators, one a Democrat and one a Republican, both prominent on committees, are supporters of the Treaty.

With European nations needing peace and reconstruction, with Great Britain under the stress and strain of industrial revolution, with our own country breaking up in mobs and strikes, it is time to act.

The early ratification of the Treaty and League of Nations will mean a great international steady hand placed on the shoulder of discontent, and a club to use against bolshevism and anarchy.

Ask the most radical socialist or most vicious labor agitator what he thinks of the Peace Treaty and League of Nations—he will tell you it is the one thing to be defeated if the world is to be Russianized.

In the name of peaceful development of our great nation, for the resumption of world commerce on normal bases, the highest patriotic duty before Americans is to lay aside partisanship for world peace.

THE LEAGUE OF NATIONS

We have been asked by several different parties as to what we thought of the League of Nations and we have always been very prompt in answering that we were for it. However, we confess that there are men who are better posted on the question than we are.

"We find by investigation that the variation between the different denominations is beyond expectation. The agitation among the different nations and occupations is beyond expectation, and is sure to cause a sensation among the rising generation and bring ruination and starvation on the population of this nation and lead to an extermination unless we adopt the League of Nations."

URGE SENATE TO HASTEN PEACE

LEADERS IN FORTY STATES REGARDLESS OF PARTY SIGN APPEAL

TREATY WITHOUT AMENDMENT

Say Every Day of Delay Puts World in Imminent Peril of New War—Point to National Unrest as Result of Delay

New York. (Special)—Two hundred and fifty leading Americans, republicans and democrats, representing forty different states and every prominent activity, have joined in a non-partisan effort to bring about the ratification of the peace treaty "without amendment and without delay."

The signers almost without exception are men and women of national reputation. They include such prominent citizens as ex-President William Howard Taft, George W. Wickersham, attorney general in the last republican administration; A. Lawrence Lowell, president of Harvard; Charles C. Moore, of San Francisco, president of the Panama Exposition; Judge Geo. Gray, of Wilmington, Del.; President Samuel Gompers, of the American Federation of Labor; Harry A. Wheeler, of Chicago, retiring president of the chamber of commerce of the United States; Mrs. Carrie Chapman Catt, president of the National American Woman Suffrage Association; Cyrus H. K. Curtis, the Philadelphia publisher; President Heber J. Grant, of the Mormon church, and John Spargo, leader of the socialists who supported the war.

The signers declare that every day of delay in ratifying the treaty puts the world in imminent peril of new war. Their statement follows: In the senate at Washington, now that the committee on foreign relations has reported the treaty, the lines are sharply drawn between the immediate ratification of the treaty of peace with Germany and its amendment, with a reopening of negotiations that would bring great delay and prolonged uncertainty in settling the great issues of the peace. No partisan plea can be made. Party lines are already broken. Standing at a distance from the conflict in the senate chamber, we plead for immediate ratification without delay.

Our land requires it. A state of nervous strain, tension and unrest exists manifesting itself in disturbances which in some cases have no self-evident connection with the war, but which are in fact its aftermath. The world is put in imminent peril of new wars by the lapse of each day. Disensions between us and our former allies are being sown. We firmly believe and solemnly declare that the states and cities in which we dwell desire immediate peace.

The waging of war steadied and united the American people. Peace will bring prosperity, and prosperity content. Delay in the senate postponing ratification in this uncertain period of neither peace nor war has resulted in indecision and doubt, bred strife and quickened the cupidity of those who sell the daily necessities of life and the fears of those whose daily wage no longer fills the daily market basket. We beseech the senate to give the land peace and certainty by a ratification which will not keep us longer in the shadows of possible wars but give the whole world the light of peace. Reservations in the nature of clarifications in the meaning of the treaty not inconsistent with its terms will not require the reopening of the negotiations with Germany and with our associates in the war, which we all and each united to win, but there is no possibility of doubt that the amendment of the treaty, as is now proposed in the senate committee on foreign relations, would require negotiations and a reopening of all the questions decided at Paris. Months of delay would follow.

The perils of the present would become the deadly dangers of the near future. All the doubt engendered would aid the plots for violent revolution in this and other lands. The issues here and elsewhere between capital and labor, the conspiracy of speculator and profiteer would all grow and become more perilous.

This cannot be. The American people cannot after a victorious war permit its government to petition Germany, which has accepted the treaty, for its consent to changes in it. Yet, if the United States should amend the treaty for its own purpose and policy, Germany would have full right to ask for concessions. Germany has agreed to make no claim in regard to enemy property seized in this country to an amount of seven hundred million dollars. Our recent foe could ask for a reopening of this issue and of the Lusitania claims. It could raise every question open before hostilities in regard to submarine warfare and the treatment of its nationals in this country. All the provisions for our trade in Germany raised by the economic clauses of the treaty, many of them vital to our industries and our

farm, as in dye patents, dye supplies and fertilizers, the working of the reparation commission which superintends the trade of all with Germany, could all be brought up by Berlin for readjustment by our negotiators acting for the United States States alone and no longer associated with other victorious powers nor supported by a victorious American army on the German border.

Peace itself, the peace of the world, is delayed until ratification comes, and any amendment postpones peace. Germany and England alone of the principal powers have ratified. The other principals necessarily await our action, influential and powerful as we are today in the world's affairs. The ravages of war on more than a score of fighting fronts are continued by any needless delay. Let the senate give the world peace, by ratification without amendment.

Even the amendment for which most can be said, the provision in regard to Shantung, will secure nothing which cannot be gained if China, backed by the powerful advocacy of the United States addressed itself to the machinery for righting international wrongs and meeting just claims created by the league between nations. China, after eighty years oppressive treaties and despoiled rights by which all the greater powers have profited directly or indirectly, has for the first time in this covenant and treaty the means and method to secure justice and the removal of the oppressive economic interference of stronger nations whose citizens are within her gates protected by a long succession of international agreements. Moreover, it should be remembered that the clause regarding Shantung is made upon the statement by Japan that she will return the territory to China and therefore upon that condition, compliance with which promise the league of nations can require. The peace of the present and the righteousness of the future can be best served by the ratification of the covenant and treaty without amendment. Let the senate take no action that will give any party to the treaty, and especially Germany, ground for maintaining that the ratification of the United States is not complete and that changes requiring a resumption of conference and negotiation have been made in it.

BIG LOSS OF FRUITS AND VEGETABLES IN REFRIGERATOR CARS MAY BE DECREASED

Thousands of Carloads of Perishable Foods Are Crushed and Lost Through Improper Loading.

(Prepared by the United States Department of Agriculture.)

For every thousand persons in the United States there is at least one refrigerator car, loaded with food products, rolling along the rails. These cars carry billions of pounds, and more than three-fourths of them haul fruits and vegetables. Much of this produce is highly perishable, and must be moved quickly, while temperatures are kept down by the use of ice.

Unless one is given to traveling, his breakfast fruit or dinner salad is likely to have covered more miles in a trip of days than he has in as many months, and all the way from field to table perishable fruits and vegetables must be watched over and cared for by a group of workers who are as busy as a mother traveling with a baby in her arms.

Sometimes refrigerator cars arrive at markets with their fruit or vegetables damaged by heat or shifting of loads through faulty containers, or diseases and rots developing during transit. This means not only a loss of foodstuffs, but increased prices for the sound produce that arrives on the market—losses that in the long run must be borne by wholesaler, retailer, producer and consumer. This itself is serious enough, but, according to the bureau of markets of the United States department of agriculture there is a present shortage of refrigerator cars in this country, and the more cars that bring damaged produce to market the fewer available cars there are to carry perishable food to the cities.

What Can Be Done About It?

If, and this is where science steps in, the present equipment of refrigerator cars should be modernized, and if more care were taken in loading, bracing and hauling perishables in these modernized cars, losses of food would be reduced and our scanty supply of refrigerator cars made to carry more actual food to market.

At one large market last July 127 cars of peaches were inspected by the bureau of markets. Most of these cars were "in trouble," as the inspectors say, and they represented 31 per cent of the total July arrivals at that market. Although brown rot was bad this year among peaches, and accounted for much loss and sales of as low as ten cents a crate for rotted fruit, it is pointed out by refrigerator carmen that some of this loss is due to poor refrigeration which could be avoided by proper construction of cars and better loading and handling methods.

Big Losses Recorded.

Estimates based on reports of carlot shipments of fruit and vegetables, compiled by the bureau of markets, show about 400,000 shipments moving under refrigeration. From reports of inspectors at Chicago, Cincinnati and Pittsburgh from May 15 to July 15, covering 180 shipments under refrigeration, it was found that the average decay of all commodities was 11.8 per cent. In 147 of these shipments the temperature of the load on arrival was found to vary from 40 to 75 degrees Fahrenheit, averaging 53 degrees. These shipments, including 90 cars of peaches with average decay on arrival of 9.8 per cent; 30 cars of cabbage, average decay 18.8 per cent; 9 cars of tomatoes, average decay 25.8 per cent; 5 cars of cantaloupes, average decay 8.4 per cent; and 6 cars of strawberries, average decay 88 per cent.

Decay on arrival does not include all the deterioration, according to investigators, because many shipments showing a small percentage of decay arrive overripe and soft, owing to imperfect refrigeration, and these shipments deteriorate rapidly while in the hands of dealers and consumers. But without considering the decay that occurs after the cars are unloaded, the percentage of decay in the total number of cars of fruit and vegetables arriving under refrigeration shows an enormous loss of food. If the average of 11.8 per cent decay shown on shipments at Chicago, Cincinnati and Pittsburgh last year held at other markets, it would mean an annual loss of about 47,200 carloads destroyed in transit, or about 1,180,000,000 pounds of fruit and vegetables. This loss is only in shipments moving under refrigeration. There is heavy loss also in shipments under ventilation.

Better Cars, Less Loss.

Experiments on shipping perishables in refrigerator cars have located causes of loss and shown that change in car construction will reduce the losses. In each end of a refrigerator car are compartments running from the roof to the floor and known as "bunkers,"

which are filled with ice before the car is loaded. There is a passage under and around this ice bunker and its insulated wall out to the floor of the car. Air, cooled by the ice, is heavier than warm air, and travels downward and out along the floor of the car, displacing the warm air above it and thus cooling the load. Raising the load on open floor racks helps distribute the cold air from the ice bunkers and increases air circulation, which is necessary to protect the produce from damage. The question of insulation for the floor ends and sides of the car is also important and air spaces must be provided between the rows of containers so that all the load will be kept cool. All these problems and a standard type of refrigerator car has been designed by the department of agriculture. Some of these improved cars have been built by the railroad administration and are giving satisfactory results.

How Others Can Help.

Improvement of refrigerator cars cannot be depended upon to eliminate all of the present enormous loss in handling fruits and vegetables, according to the bureau of markets. Farmers can help by more careful picking, grading and packing, and shippers and dealers by more attention to loading and handling fruits and vegetables.

PREFER LONG, SMOOTH CORN

Nebraska Farmers Believe That Kind of Ear Will Stand More Grief Than Other Types.

Over a large part of Nebraska they have come to the conclusion that corn with long, smooth ear will ordinarily stand more grief and yield more than corn of the so-called show type. The Nebraska station has four years of experimenting which indicates that the large, rough type of ear yields an average of 51 bushels to the acre; the short, rough, 57 bushels; the long, slim, smooth, 59 bushels. For some reason corn with long, s/z, smooth ears that partake slightly of flint characteristics, stands trouble better than the more fancy-looking corn of central Iowa and Illinois.

(Prepared by the United States Department of Agriculture.)

In the improvement of beef cattle care has been taken to develop to the greatest extent those portions of the body from which are secured the high-priced cuts of beef. These points should be kept in mind when selecting breeding animals.

WAY TO SAVE FOOD

(Prepared by the United States Department of Agriculture.)

About 400,000 carloads of fruit and vegetables are shipped to market every year in refrigerator cars.

The average loss on these shipments from decay is estimated at 11.8 per cent, or a total of 47,200 carloads—about 1,180,000,000 pounds of food.

These figures do not include losses on cars shipped without ice or with insufficient ventilation, among which there is also a heavy loss of fruits and vegetables.

Improved refrigerator cars, packing, loading, and bracing would reduce these losses, according to United States department of agriculture investigation.

LIFE'S MOST DREADED HOUR

Modern Science Has Utterly Failed to Do Away With Man's Fear of the Dentist's Chair.

Monday at 9 a. m. is zero hour for us. At that time we are to go over the top in the dentist's office. He will be there with his machine guns and poison gas and bayonets to receive us, and all our cries of "kamerad" will avail us naught.

He will talk in the language of the diplomat, as he always does. He will tell us the marvelous advances made in the profession of dentistry during the last few years, and explain with words of wisdom the new knowledge which has conquered pain.

We shall hear how teeth can be extracted from one side of the jaw while the patient calmly goes on chewing with the other. Science, so he will say, in these modern days can remove a tooth from the head and the man will not know it until the dentist hands it to him to take home and show the children.

We are strong for these scientific talks our dentist gives us between checks. Nothing is so soothing to us when we are sitting in his chair as his professional information about all that has been done to make dentistry easy. Marvellous feats of oral surgery can now be performed while the patient is still winking at the dentist's pretty nurse and wondering when the operation is to begin. Things have advanced so that the dentist now has to tell his patients when it is time to go home. He picks teeth out of a man's head as a pickpocket picks his purse. The patient never misses them until he gets home and tries to use them.

But with all that science has done for painless dentistry it has left one great field untouched. Science has never made one step towards lightening the dread of going to a dentist. Men still suffer as much as they ever did, anticipating the hour when they must go to the torture chamber.

They may not suffer when they arrive, but all the throes of agony are theirs when they are on the way. Nobody yet has found a way to approach the dentist's zero hour calmly and undisturbed. Having a tooth yanked may not be painful, but thinking about having one pulled is as full of misery as ever it was.—Detroit Free Press.

Apt Reminder.

"Come upstairs and let me wash your hands," said Winnie's mother. "I don't want to go up!" wailed Winnie, aged three. "Let her wash them down here," called grandmamma; "she can do it just as well." "No," her mother said firmly, "I want her to come up with me!" Winnie came upstairs as slowly as possible. "Oh," she said, turning a wrathfully tearful face to her mother, "why don't you obey your mother?"

Some Charming Street Shapes

Hats for street wear vary all the way from the plain, business-like banded sailor, in leathers, plush or silk beaver, and similar hats in tricorne and four-cornered shapes, to those with rolling and curved brims as new and original as those shown in the group above. The demand for variety in hats is insistent, as it is in other matters of dress. Starting with the banded sailor for example, even this plain model is shown in many variations. The crowns are sometimes high and sometimes low. They are either round or square and straight or belled. Brims are more or less wide, and they may be straight or curve upward. These hats are favorites with business women.

The shapes shown in the group are less severe and equally popular. They are cunningly thought out to suit the various types of faces. Among them soft crowns are almost universal, and the brims fashioned to prove becoming, no matter what may be the peculiarities of the wearer. Velvet, beaver, duvety, leather and other fabrics are used for making these shapes and often two colors or two materials in the same color, make a contrast between brim and crown. Innumerable small, chic feather ornaments have

been made for trimming hats of this character, and those who have an imagination for ribbons conceive many tailored ribbon ornaments for them. Fancy ornamental pins, with large heads and composition ornaments, in imitation ivory, jet and other things—as tortoise shell for one—make a variety of simple trims possible.

The shape at the upper left of the group has a rolling brim that curves and is thrust out to the front in a way that proves becoming to mature faces. Just below it at the lower left is an opposite. In this shape the back of the hat is extended and the front shortened, with brim turned back. This gives the "feeling profile," becoming to youthful faces and regular features. The shape at the upper right hand is a familiar favorite that almost any one can wear, and that at the lower right is one of those smart tricornes that delight the heart of the matron.

Holding the center of the group is one interpretation of the perennial French sailor, with brim rolling upward and a soft crown made of sections of velvet in a contrasting color. The shape's the thing to consider first in selecting millinery and there is one for every face.

Dividing Honors With Street Suits

The "all-day dress" appears to have come to stay, and is dividing honors with the tailored suit for street, traveling and business wear. It is defined by its name and is a garment for morning or afternoon wear, which made its appearance after the war began to curtail the supply of tailors, and a substitute for suits that could be made by dressmakers had to be promoted.

An example of a draped all-day dress is shown in the picture. It is made of brown in tricotine, with a fascinating cascade of folds formed by draping the material at the right side, and a long row of round covered buttons leading interest to the left side of the skirt. The very simple, surplice bodice is gathered in at the waistline and joined to the skirt with a piping of the goods. The dress opens at the right side and a long narrow sash of the material ties here, in the simplest of loops and the most casual manner. A piping at the neck opening would make a severe finish if it were not for flat silk braid, put up in points, that gives a pretty and original finish to the bodice, and appears on the sleeves from elbow to wrist.

"The Shepherd of the Hills"

A very amusing story is being told about George McDaniel, who plays the part of "Young Matt" in the picturization of Harold Bell Wright's famous story, "The Shepherd of the Hills," to be presented at the Cosy Theater, on Tuesday, October 14th, as the first big feature of the Harold Bell Wright Story-Picture Corporation.

It seems that McDaniel bought himself a new bungalow a short distance outside of Los Angeles and the night after he moved into it he returned home late to find the house securely locked and no answer made to his repeated efforts to arouse his wife, whom he expected to find at home.

Being in a new neighborhood and fearing arrest if he tried to break in, McDaniel finally sought repose in a hammock on the veranda and soon fell asleep to be awakened by the rising sun. A kindly neighbor who recognized him by daylight as the owner of the house hunted up a bunch of keys and with one of them they managed to unlock the front door. On the table inside the house was a note which read:

"Dear Hubby: I am going to Los Angeles to spend the night with mother. You will find the front door key under the door mat outside. Wifey." It

For those who are in need of a remedy for kidney troubles and backache, it is a good plan to try Doan's Kidney Pills. They are strongly recommended by Portales people.

Mrs. J. D. McRae, Portales, says: "When a person has kidney trouble, they don't forget it in a hurry. About fifteen years ago I suffered with my kidneys. My back was weak and ached so badly, I could hardly go. Every time I tried to bend over, sharp pains caught me in my back and I had awful dizzy spells when I tried to straighten up. Doan's Kidney Pills were always highly recommended, so I tried them. One box of Doan's cured me of the complaint."

FORD!

We expect to receive TWO CARLOADS FORDS during the week, and they will be delivered to parties who have orders on file, as promptly as they can be assembled.

FORD is the only car on the market that has not advanced in price during the past six months. The price is expected to advance any time. The demand exceeds the supply. Place your order at once and accept early delivery. Better be prompt and save money and disappointment.

ENCLOSED FORDS—Sedans or Coupelet—are ideal cars for New Mexico weather. They are coming fully equipped with Starter, Lights, and Demountable Rims. An invalid can drive them. Order now!
