PAUL ZIMMERMAN SAYS—

Hello, Neighbor

You will certainly be welcome at the Castro County Fair this coming Saturday. Let's make this a day of visitation. We might even learn a few things about our county—what can be raised here, and is being raised here. There are many opportunities for this section of the state—all we need to do to make progress is to take advantage of the opportunities.

There is one thing about this fair that will be interesting—if you can take stock in advertising by word of mouth. Stub Jones will ride a steer down main street. We have not discovered just what strings were tied to this promise, but he may have nerve enough to do just that. Anyway, here's hoping the steer is broken to riding so we will not have to run.

D. Neumayer and Ernest Harman have had their hands full this week cleaning up the down-town section of town and vacant buildings in preparation for the exhibits for the Castro County Fair. We would venture to say these gentlemen would contribute heavily sometime before next year on the purchasing of a plot of ground and buildings suitable for holding a fair, singing conventions, watermelon feeds, old-timers reunions, conventions and the like. It is really a problem to find places for a gathering as big as the Fair. Every county should have a plot of ground set aside and buildings constructed for such gatherings. No doubt, this could not be done in one year, but in the interest of progress and development, it should be done.

One more good public building will be added to Castro County in the near future. The Defense Work Shop building, school board members state, will be a tile structure. It is said the cost will not too much more than buying an old building and putting it on the school property. The work is making fast progress. Site and plans are about complete and the work will go along rapidly. All money is not yet collected, and contributions may still be turned in to John Logsdon, Leroy Waters or at The News office. Perhaps some of the farmers who come to the Fair would like to help on this Defense Work Shop building, and any and all contributions will be accepted with pleasure.

The Bobcats did not win their first game, but it was a tough one for a small team so early in the year. They are not discouraged, however, and we should not let the first defeat keep us from the game played here with Dumas tomorrow afternoon (Friday afternoon at 2:00).

No one knows exactly what the air show Saturday will consist of but it is a known fact that airplanes will be present. And airplanes landing and taking off is something most people in this section like to see. That is not saying that the aviators will not do anything, but reports come from R. R. Millsap of Dallas, chief aviator that permission must be secured from Uncle Sam before any type of stunts will be pulled. Anyway, we are not at all discouraged about the air show, but just don't know for sure what it will consist of.

BOOSTERS, BAND MAKE NOISE FOR COUNTY FAIR

The Dimmitt Lions Club helped to advertise the Castro County Fair Wednesday when they joined the Fair Association members in putting over a booster trip to neighboring towns. Sunnyside, Muleshoe, Farwell, Olton, Friona, Hereford, Nazareth, and Hart were covered and advertising by word of mouth, loud speakers and printed matter were scattered.

The Dimmitt High School Band was carried in the 8-car caravan which braved the mud to tell the news of the Castro County Fair next Saturday. The Fair Association took care of the band boys and girls, who did themselves honor with performance of a musical nature when opportunity presented itself.

CASTRO FAIR IS FREE AFFAIR

The Castro County Fair is a Free Fair—The Fair Association wishes to emphasize. Of course, if persons in this territory wish to buy drinks from the Boy Scouts at the Air Show southwest of the high school, or from the Demonstration Club women or anyone else in Dimmitt—they are at liberty to do so. The Fair is a free, educational program interspersed with entertainment.

Sam H. Webb Was Buried in Palestine

Sam H. Webb of Palestine, who is known to many local people and who has several relatives in Castro County, succumbed to typhus fever at Palestine September 9, 1941.

He was born in Arkansas, coming to Texas with his parents at an early age. Being the oldest son of a family of nine children, his life was not an easy one. No matter how hard he tried, his family reports, disappointment and failure to accomplish his desires seemed to meet him on every hand. But he took it with a smile and never complained, but seemed to "try, try again."

Sam H. Webb had many friends. His sense of humor was above the average. He never got so downhearted but that he met his friends with a cheerful greeting. He had within him a heart of gold. No one ever called on him for help but that he responded to the extent of his ability, even in the hours of midnight. His greatest joy was in singing gospel songs, having at one time been a member of the Stamps Quartet.

For a long time he was a Woodman organizer in New Mexico, his team winning first in state in 1936.

At the time of his death he was working at an oil mill in Palestine. He is survived by his wife, Mrs. Sam H. Webb, and five children: Com. Kenneth M. Webb and Arthur H. Webb of the U. S. S. Saratoga, Mrs. A. H. Linne of Salem, Ill., Mrs. J. H. Preslar of San Angelo and Tommie Webb of Palestine.

Those attending the funeral of Sam Webb at Palestine last week were: Mrs. C. H. Webb, Mrs. J. W. Hawkins, Mrs. Cordy Birdwell and Novelle, G. H. Webb, Mrs. Glenn Hickman, Bill Webb, Jim Webb and wife of Berino, New Mexico, Mrs. J. H. Pool of Anthony, New Mexico.

Panhandle South Plains Fair Oct. 6

Lubbock's Panhandle South Plains Fair will be held October 6 to 11. Beckman & Gerety Shows will provide the entertainment—26 thrilling rides and 20 attractive tented theatres being in store for Fair attendants.

Other attractions will include the Midget Village, Wilson's Expedition Show, the London Glass House and Royal Ice Palace Skating Revue.

New attractions will be the Casa Rumba Show, 38 talented Gay Old New Orleans Negroes, Hollywood Monkey Circus, Shumway's Thrill Show and Globe of Death, Illusion House of Magic, Kortess circus side show and the "Monsters" Show.

Mr. and Mrs. Houston Fowlkes visited Saturday with their son, Tommie Fowlkes, at Texas Tech.

FANCY WORK AT FAIR AGAIN WILL BE A FEATURE

How about a ribbon as a testimonial that you do excellent fancy work?

Last year 30 ribbons were given in the Textile and Fine Arts Division of the County Fair for handwork of superior quality. Mrs. Edgar Ramey was head of this Division in 1940. She is the 1941 head also.

Last year's winners were: (the awarded places in order named) Piece Quilts—Mrs. A. C. Grant, Mrs. Marion Davis, and Mrs. Hardy Borden.

Crocheted Tablecloths—Mrs. Ward Golden and Mrs. Noel Gollehon.

Any woman in Castro County may enter articles in the Castro County Fair September 20. It is expected that even more entries than last year will be made. You will want to give the 1940 winners a run for their ribbon. Don't hide your talents in a drawer in your home, bring it to the Fair where others may enjoy it too and perhaps to be inspired "to go and do likewise."

The rules and regulations for the Textile or Fine Arts Division are few and simple:

1.—Entries will be received 10 a. m. to 6 p. m. Thursday, Sept. 19, at the Ramey Implement store.

2.—Judging will be done Friday afternoon so that ribbons will be in place all day Saturday.

3.—You cannot enter more than 10 articles in this Division, nor more than one of any one kind.

4.—Place a card on your articles giving: Name of article, your name, name of club if any, and your address.

5.—Entries may be taken home at 6 p. m. Saturday night.

Mrs. L. A. Hudson is to be Mrs. Ramey's assistant. Judges will come from out of the county. First, second and third place ribbons will be awarded.

In addition to the articles named in listing last year's winners, these articles may be entered too: Crewel embroidery, pillow slips, and a dress for a child.

GOVERNORS TO OPEN AND CLOSE TRI-STATE FAIR

Gov. Cobe Stevenson of Texas will be in Amarillo for the opening of the Tri-State Fair and Gov. John E. Miles of New Mexico will be there for the closing.

Among distinguished visitors during the week will be Capt. Charles E. Rosendahl, noted naval aviator and lighter-than-air craft expert.

Welcome Extended County Citizens to Castro Fair

Planes Will Wing Their Way Here From Dallas

R. R. Millsap of Dallas, chief aviator of the group due here for the Fair, had not definitely itemized what would be in store for the public at the Fair Saturday, but no there will be plenty of airplanes with experienced men at the controls. These aviators will be coming a long ways and let's turn out en masse to see them and show our interest in aviation. Mr. Millsap will take up passengers to help defray expenses of the trip, and will provide an opportunity for many to take rides in the air for \$1.00 each.

Many Thanks, Neighbor!

The "Loud Noise" made on the rear of Harvey Youts' automobile was made by a \$1000 set of loud speakers "loaned" by Chunn's Inter-Communication Systems, 916 Tyler, Amarillo. Castro County Fair Association says—"Many Thanks, Chunn!"

Boys Will Be Boys, They Say

It seems boys will be boys, no matter what the age. Boys will exaggerate and bodeacious bragg. There is the case of Monroe May on the County Fair Booster trip, who began the mike announcements of some five or six airplanes to be flown at the Fair, and in the last town in which his count was enumerated, the number had increased to 11. Case No. 2—Stub Jones made the "bodeacious bragg" in Friona and Hereford that he was going to ride a steer down the middle of the street of Dimmitt on the day of the Fair. Boys, here's hoping that there will really be that much excitement. Think of what good advertisement that will be for next year's Fair.

May Be Able To Buy Saving Bonds, Stamps at Fair

Those who attend the Castro County Fair may have the opportunity to buy U. S. Savings bonds and stamps while in Dimmitt, if plans of the committee materialize. A booth will be placed in the Commercial Exhibits building in the vacant building on the west side of the square.

Miss Lena Frances Sweatt left Monday to enter Abilene Christian College. Miss Lilla Mae Thompson accompanied her and then visited with her parents at Colorado City.

The Fair Association and Dimmitt business men welcome people of this trade territory to come to Dimmitt Saturday to the Castro County Fair.

Expert judging will be carried out by competent men from A&M College and neighboring sections. Judging will start at 9:00 o'clock Saturday. Exhibits will be in store windows and vacant buildings over Dimmitt, livestock and poultry in buildings in the vicinity of the Ramey-Harman Implement Co., and the air show will be held near the high school building.

At night boxing matches are to be held at the square and the air show will be in progress during the day.

Some 40 head of fine cattle will be shown. County Agent Monroe May reports, and the poultry show will be a new feature of the Fair.

The Flower Show to be staged by the women of the county will be a feature attraction. The entire Fair, in fact, will be the results of cooperative effort of the citizens of the county to show their products and the fruits of their labors.

Next Saturday, Sept. 20th, you are invited to be at the Castro County Fair in Dimmitt to spend a day of visitation and making yourself acquainted with your county, your neighbors, and your opportunities at hand.

THIS WEEK IN DEFENSE

British Foreign Minister Eden informed the United States all materials received by Great Britain under the Lend-Lease Act were used exclusively for war purposes and that none is being diverted to private channels. Secretary of State Hull said there had been some misunderstanding about British exports and the message explained what the two Governments are undertaking to do cooperatively.

Federal Security Administrator McNutt said the U. S. Employment Service plans to seek several thousand American specialists between 18 and 50 for employment by the British Civilian Technical Corps as radio and automobile mechanics, electrical wiremen, instrument repairers, metal workers and other technical tradesmen, for service in England repairing vital equipment used by the British armed forces. Mr. McNutt said men needed for national defense jobs in this country will not be accepted but selective service headquarters have authorized local draft boards to grant deferment in Class II-B for men joining the C. T. C.

The Commodity Credit Corporation made available for Lend-Lease operations in the past two weeks 10,130 bales of cotton and 1,345,000 bushels of corn. The Red Cross announced it will send a delegation to Russia to study and report on most urgent needs in that country and how to meet them.

What 360,000,000 People Believe

In every nook and corner of the world there are Roman Catholics—360,000,000 all told—all holding the same religious beliefs—all practicing the same Faith—all willingly under the religious guidance of the same leader, the Pope. These people form a cross-section of every country of the world—the poor, the rich, the humble, the proud, the ignorant, the wise—each one satisfying his soul's demands through the Roman Catholic Church.

Wouldn't it be interesting for you to know what these people really do, and do not believe?—this vast world army, nearly twice as large as all other Christian sects combined. What you have heard about the Catholic Church, since your school days up to the latest magazine you have bought, very likely comes from sources, either ignorant of Catholic belief, or anti-Catholic in sentiment. It is only just to hear both sides of any story and it is with the thought that you will read our brief statements on Catholic beliefs and actions, that we publish these little articles.

Will you do us the courtesy of reading them as they appear in "The News"? And will you write us concerning things Catholic which seem to you to be against our country, against yourself, or against common-sense itself? We assure you that our reply will be brief, courteous and to the point. Write to: HOLY FAMILY CHURCH NAZARETH, TEXAS

New oil lasted 5,683 miles longer than the runner-up in Death Valley Death-Test... CERTIFIED

Your own engine gauge-stick can tell you best about Conoco Nth motor oil. Next best is to buttonhole the most frugal car owners you know around town. Some have never yet added a quart since changing to Conoco Nth. And you can see why right here—by the mileage figures from the Certified Death-Test of Conoco Nth oil vs. five other big brands.

The whole big success of Conoco Nth started down in Death Valley—so hot you can't sweat. Here 6 new stock cars, strictly alike, each got one 5-quart fill of some one oil being tested. Then the Official Referee clamped on the locks; never a drop of oil could be added.

End by impartial officials every instant, the cars all reeled off their 57 miles hourly. Here and there on the desert a carcass lay bleaching—and desert death await those car engines, too. For home could finish till its oil hit bottom—finishing the engine beyond repair.

One of these—man-made under the famed Germ Processed oil patent—will keep your engine OIL-PLATING with lubricant that can't all quickly drain off of inner surfaces. So OIL-PLATING is on guard against wear in advance!

And the latest Conoco synthetic—man-made under U.S. Pat. 2,218,132—will check "fettering" of oil that's encouraged by foul leftovers from every engine's normal firing. This common oil trouble is now checked or inhibited by the new man-made Conoco life-giver—Thiathene inhibitor.

5 BIG-NAME OILS bought retail by Referee. One 5-quart fill per car. Not another drop throughout the hot desert Death-Test.

CASTRO COUNTY FAIR

September 20th DIMMITT TEXAS

The 1941 CASTRO COUNTY FAIR will be the best put on in years. Two new features will be the Poultry Show and the Air Show. Poultry is the coming year-around income for farmers of this section, and nothing is on the mind of Americans more now than air maneuvers. But other divisions of the Fair are scheduled to be bigger and better. Some 40 head of livestock, and sheep will be shown. Agricultural exhibits will be numerous. In the Women's Division, there will be exhibits on relics, curios, and hobbies, foods exhibits, 4-H club exhibits, art display, and flower show. And the Maverick boys will put on a tumbling act . . . and there will be boxing. Come to your county seat and see what is produced, and have a good time!

EXHIBITS ENTERTAINMENT EDUCATION AIR SHOW

New at the Fair The AIR SHOW Some 10 or more airplanes and ace fliers of Dallas will be here flying and take up passengers during the FAIR.

Flower Show

All County women are invited to take part in the Flower Show. Dimmitt Garden Club will sponsor the show. It will be held at the Witt Hotel.

Know Your County

DO YOU COME, LEARN!

Educational Exhibits

There will be many educational booths at the Castro County Fair Saturday week, September 20th. Among them will be the Home Demonstrational Women exhibits, the 4-H Club girls' exhibits, the 4-H boys exhibits, the Future Farmers of America exhibits, and others.

This is one part of the County Fair we should see. We should know what is being done in the county in the educational line. We also may get ideas for personal betterment. The Cave Man never knew what his neighbor was doing, but the modern civilized man wants to know what his neighbor does, wants to learn from him, and wants to teach him new trick.

The ENTIRE FAIR should be of an educational value to everyone, even the entertainments. Many have never seen air stunts, for instance, or tumbling acts. Bring yourself, your family and your friends to the Castro County Fair Saturday week, September 20.

Welcome TO THE FAIR

NEIGHBOR HELLO

It is a wonderful thing for a town the size of Dimmitt to have a well-equipped Hospital and competent medical men to "man" it. John S. Horner, now druggist with Dimmitt Drug told us that in the town in which he formerly lived there was neither a hospital nor a physician. "You may be sure," Horner stated, "that these are missed and that there is not that spirit of well-being and security which goes with competent medical care."

We would venture to guess that aviators in the last few years have not seen as much beautiful grain below them than they see this year. If the army boys could be directed to harvest the grain, that would be something! And it seems that with the bumper feed crop on hand, it is hard to secure the machinery and labor to bring in the crop. If it is not one thing, it is another—such is life on the High Plains!

The Tri-State Fair will see some of the Castro County Show animals at its session Sept. 29 to Oct. 4. And very likely some of the same show animals will be found at the Lubbock South Plains Exposition a little later on.

THIS WEEK IN DEFENSE

vers this fall, there will be a considerably lower accident and death rate for the 752,000 troops participating than for a corresponding number of civilians. The estimate predicted 236 deaths and 40,000 admission to hospitals for disease and injury.

AIR

Assistant War Secretary for Air Loett told the press Army war games will provide a preview of the "world's finest" military aircraft but "in point of quantity, we still have a long way to go" although production is now beginning to roll and should enable us to equip combat units, one squadron every other day.

The Air Corps announced it is testing a new four-engine flying fortress which is bigger and has more fire power than models now in use by the U. S. and Great Britain.

NEW PLANTS

The Defense Plant Corporation and the War Department authorized and awarded contracts for construction of six aluminum, magnesium and ordnance plants, totaling \$94,579,000. OPM recommended to the War Department construction of an aluminum plant at Troutdale, Ore., to produce 90,000,000 pounds annually.

AGRICULTURE

Agriculture Secretary Wickard announced the 1942 farm program, calling for all-time record production—especially of hogs, eggs, evaporated milk, dry skim milk, cheese and chickens—to improve nutrition in this country and to aid other nations.

RAILROAD LABOR BOARD

President Roosevelt set up a five-man board to investigate the disputes between unions and railroads and to report its findings within 30 days. Wayne Lyman Morse, dean of the University of Oregon Law School, heads the Board.
