VOLUME VIII

SUDAN, LAMB COUNTY, TEXAS, THURSDAY, APRIL 13, 1933

NO. 35

**C. A. DANIEL, OUR**  
(Conservative, this word means a man with plenty and won't spend it.)

**COMMISSIONER PRACT. 2**

Dear Sir:  
Your letter of last week does not in any way comply with your agreement in my office on April 5th., and I feel free to reply. (I cannot understand why you made the visit.)

My questions of March 30 are pertinent of interest to every Taxpayer, Doctor and Citizen of Lamb County.

Your answer was evasive, irrelevant, nonsensical and to the average minded man or woman really laughable. It might be better if YOU would try to answer them individually, any way, I insist that you do.

By what right or authority do you transfer (charity) patients from this Lamb County?

How much of the Taxpayers money have you paid Lamb County Physicians for service to charity patients?

How much of the Taxpayers money have you paid to Physicians and Hospitals out of Lamb county since January 1st, 1933?

Do you know this money is lost to our schools, merchants, doctors, taxpayers and citizens of Lamb county?

What bond or security has the County for the Taxpayers money, or County Funds?

Some of Lamb County's pleases are politically defunct (dead, dead, dead) but don't know it.

Please answer pertinently for the Taxpayers' League, Voters, Citizens and Doctors of Lamb County will know the FACTS ere long.

Yours for Right and Justice to All.

## THE LOCAL DOCTOR

### BIBLE CLASS

The Ladies Bible class of the Church of Christ met at the church on Tuesday afternoon with eighteen present. A very interesting lesson was conducted by Mrs. Matheny. We are very glad to see our class increasing in number and are always glad to have new members.

Next Lord's day we will have preaching by Bro. Garner of Amherst. In the afternoon we will have singing, and would be very glad for every one who can to come.

Bible class meets at the church next Tuesday at 3:30.

## STATE OF AIRSHIP

### BUILDING RESTS IN CONGRESS HANDS

America's \$20,000,000 experiment with airships is to be studied this week by a joint congressional committee including members of both house and senate, and the verdict will likely decide whether the United States will build anymore dirigibles like the Akron.

## FARMING EXTENSIVELY

Harris Brantley, formerly a merchant of Wellington, is now engaged in farming on an extensive scale a few miles south of Amherst. There are ten tenants on the place, and about 500 acres are being farmed, including 500 acres of wheat.

## SUDAN SCHOOL WILL

### CLOSE APRIL 28

According to information reaching this office the Sudan Schools will close for the '32-'33 term on April 28. The board had under consideration the closing of school for some time, but not until Monday night did they decide to set the closing date. It is our understanding that work is being pushed by the teachers and pupils, so that the shortening of the term will not in anyway interfere with the pupils making grades.

## ANOTHER BLOCK OF PAVING COMPLETED

The second block of paving on Main street was completed the first of the week. This is the second block of caliche paving and curbing to be completed with the RFC money relief work in Sudan.

The two blocks of paving on Main street have improved the appearance and has made traffic much safer. It is hoped that another block will be paved in the near future.

This work has provided for the employment of many men, and has been a great help to the community at large.

## FINAL DATE FOR GOVERNMENT CROP LOAN APPLICATIONS APRIL 30TH.

Hilliard Smith, field supervisor for Bailey, Castro, Lamb and Parmer counties, was a pleasant visitor at the News office Tuesday of this week. He asked the News to state that April 30th would be the last day for making applications for Crop Loans and that he was anxious to have all applications in as soon as possible to avoid the last minute rush. No applications will be received after the above date.

Applications and checks received by the four counties are as follows:

Bailey, 190 applications, 92 checks received.

Castro, 54 applications, 25 checks received.

Lamb, 153 applications, 89 checks received.

Parmer, 72 applications, 25 checks received.

Mr. Smith is anxious that everyone needing this financial help get their applications in as soon as possible as there is a heavy demand for the funds and the fund will be exhausted before the application period is over.

The administration is desirous of helping all those who are in need, and to get this help you should not wait until the last minute to make application. April 30th is the final date for making application.

## IN CITY COURT

A case came up in Justice Court here Tuesday in which a prominent man of Sudan was charged with violating the City Traffic Ordinance. The case occupied the greater part of the day, and created much interest. City Attorney Hazel prosecuted the case; while Judge Dryden pleaded for the defendant. A jury was chosen and after the case had been turned over to the jury and after much deliberation the jury found that the vote stood three to three and were hopelessly tied. The case will come up for trial sometime in the near future.

From what this writer can gather the case grew out of a misunderstanding of both the officers and the defendant. As the streets have been fenced off for sometime during the improvement and neither the officer or the defendant had had time to get back to the customary regulations of traffic.

## SUDAN FIRE BOYS TO FISH

The Sudan Fire Boys will leave Sunday for their annual fishing trip to South Texas. The boys are making big arrangements for a great time and have engaged as their Camp Physician, Dr. W. H. Ford. The Doctor says that he is in need of an outing and also an airing and the boys promise to give his full measure of both.

W. W. Carpenter, of Plainview was attending to business in Sudan Wednesday.

Misses Leona Slaughter and Gertrude Ford spent the week-end visiting home folks in Sudan.

## CHAMBER OF COMMERCE MET WEDNESDAY NIGHT

The Sudan Chamber of Commerce met in its regular monthly meeting last night to discuss arrangements for Sales-Trades Day, also other business matters. The subject of supplying tickets for cash prizes was also discussed and it was decided, that the News continue to furnish these tickets, but, will not sell any more to merchants individually, these tickets may be secured from Saunders Variety Store, where all who use these tickets be required to register when buying same.

It was also decided to give a free picture show on Trades-Sales Day; further announcements of the entertainment for that day will be given later.

## SUDAN MEETS LUBBOCK DIRECT SHIPPER PRICES ON CREAM

Herbert Teal, manager of the Sudan Produce, informs the News this morning that he has arranged to pay Lubbock prices for cream and can now pay the same price at Sudan as the direct shipper can get at Lubbock. This is one of the improvements in buying cream, that Mr. Teal has been working on since coming to Sudan, and we are mighty glad that he has succeeded.

Mr. Teal uses the columns of the News to tell the people of their ercive and has rendered a service to the producer, second to none, since coming here.

Cream today is 14 cents at the Sudan Produce.

## BLUEBONNET NEWS

Homer Hall of Sudan and sister, Mrs. W. P. Davis went to Memphis March 26 to a basket lunch celebrating their fathers 70th birthday.

There were 142 guests present. The local pastor gave an address on "Milestones of Life."

G. B. Counts, father of Mrs. W. I. Attaway, has been real sick but is better at this time.

Mrs. Harris Brantley went to Lubbock Wednesday with Miss Mashburn shopping.

On last Thursday thirty of the neighbors and friends of Grandpa Counts and Mr. Henry Fisher celebrated their birthdays with a surprise dinner in the home of Mr. Fisher. Owing to the illness of Mr. Counts he was unable to attend but a large platter filled with all the good eats was carried to him. Two large tables were filled with turkey, chicken, ham and all the fixings. The afternoon was spent in games of 42, working Jig-saw puzzles and music. Messrs. Counts and Fisher received several nice gifts.—Reporter.

The Bluebonnet Club met April 6th in the home of Mrs. Walter Brantley. There were fifteen members and two visitors present. Most everyone responded with their part on the program which was on the subject of county money and its expenditure. After the lesson everyone enjoyed our recreation period very much, which was sponsored by Mrs. Henry Meyer. We learned that several of the ladies are not very good spellers; but they surely can "sing." Delicious ice cream and cake was served by the hostess.

Our next meeting will be with Mrs. Harris Brantley on April 20th.

## A STUART RESIGNS AS CITY COMMISSIONER

At a meeting of the City Commission, on Monday night of this week, the resignation of A. Stuart was accepted, and E. Lam was appointed to fill his unexpired term. Business matters prompted Mr. Stuart to resign.

Mrs. C. E. Cole and Myrtle McLarty were in Lubbock Tuesday.

## SCHOOL TRUSTEE ELECTION

On April 1st at the School Board election two new members were elected and have been sworn in as officers of the board.

T. Fife and Wm. H. Walker were chosen by the people at the election. These men are farmers of the highest type and will be a great help in carrying on school matters during the next two years.

At a meeting of the board on Monday of this week, M. A. Smith was elected Superintendent and Sam H. Branch was elected Principle. These men have been at the head of the faculty since January 1st., and have given satisfaction.

T. W. Alderson who has been a member of the board for the past two years, resigned at the meeting held Monday night. We are not informed who will be appointed to fill the vacancy caused by Mr. Alderson's resignation.

## TEXAS ALMANAC

Many new features are contained in the Texas Almanac and State Industrial Guide for 1933, which has just been issued by The Dallas News. There are more than 1,000 articles, statistical tables, illustrations and maps, answering between 50,000 and 100,000 questions about Texas, economic, political and civic development is covered, including farming and live stock, manufacturing, wholesale and retail trade, population, railroads, aviation, highways and automobiles, motor transportation, inland waterways, minerals and mining, government and names of State, district and county officials, education, conservation and numerous other subjects.

A large folded sheet between the leaves of the volume carries political and railroad map on one side and highway map on the other. These maps were made especially for the Texas Almanac and are up to date and accurate. As one runs thru the leaves of the volume one comes across such interesting miscellaneous articles as Historical Landmarks of Texas, Archeological Research in Texas, noteworthy Texa Caves, the Program for State Parks, Health Resorts and Places of Recreation, Arts and Artists, Libraries, Old Cattle Trails, Boundary Disputes, Kinds of Salt and Fresh Water Fish Found in Texas, Home Canning and Farm Terracing and Home Tennyant.

If one wishes to know where the principal lakes of Texas are found of Texas, how to fly the Texas flag, the depth of the deepest oil well, the amount of oil and gas in Texas reserves where the McDonald Observatory is to be built, how much is collected from the gasoline tax or the amount of the payroll of Texas railroads, he will find it in the Texas Almanac.

While many new articles have been included, the chapters of information that have become standard in the Texas Almanac are retained, completely revised and enlarged. There are more than 7,000 names of individuals in the book. Especial attention is given to historical features, particularly those of importance in connection with the tentative plans for a centennial celebration. The volume this year lives fully up to its reputation of being the "Encyclopedia of Texas." Incidentally, a review of its contents reveals a marvelous amount of development in the Lone Star State, even during the last few years of business stagnation.

Price, 50c at news stands, 60c by mail.

The many friends of Mrs. Paul Dill will be glad to learn that she is improving and will soon be able to return to her home in Sudan.

## To Be Shown In Chicago

Austin, Texas.—In all the color of its romantic history in the vast variety of its basic industries and activities, in the magnitude of its physical extent and resources, in the charm of its natural beauty, in the wide latitude of its potentialities—will be presented to the world, through the medium of the millions of visitors attending the Century of Progress World's Fair at Chicago this year. The plans for the Texas exhibit which have been in process of formulation for months, have been announced by L. E. Snavely of Harlingen, recently named state chairman of the committee on arrangement for this state's representation.

The plan for the Texas exhibit, which is to be housed in the States Exhibit Building in Chicago, was submitted by Ivan H. Riley and Walter T. Rolfe, associated architects for the design and execution of the exhibit. Riley is the head of an architecture firm at Harlingen, while Rolfe is professor of architecture at the University of Texas.

## Valley Has Garden

The shape of the space assigned to Texas was fixed by the general conditions of the State Building. The area lies exactly between the court of honor of the States Building and the boat landing from the municipal pier. This makes the site strategically important from the viewpoint of position. Facing the boat landing will be the garden of Texas—a garden of the Rio Grande Valley, enclosed by a white plaster wall with hand hewn timbers reminiscent of early Texas structures. Within the enclosure is the garden, showing the rich warmth of Texas life in the native shrubbery, its pools, its pottery, and its simple architectural background.

## History Carefully Portrayed

Around the second story balcony is a running mural in which the history of Texas will be colorfully portrayed. This frieze is approximately 180 feet long and is over six feet in height. It is to be so executed that it will be equal interest to the spectator from the first floor or from the second floor balcony. In this pictorial portrayed will live the characters and events that have made Texas.

The exhibit has been so designed that its growth upward from the first floor is chronologically correct. On the first floor are the basic industries and activities of Texas life. In the main salon are the dioramas of cotton, commerce, ranching, manufacturing, petroleum, and comparative geography. In the small salons on the first floor are the minerals display and the agricultural and livestock displays. In the center first floor salon will be housed the fruit and vegetable dioramas or displays. All of these are fundamentally the support of the state.

West Texas is to be well represented in the Texas exhibit.

## MARVIN JONES HOLDS AN UNDEFEATED RECORD

Behind the scenes of the political show in Washington there is usually an unsung hero. In the case of the consolidation of federal loaning agencies, and in the undertaking to refinance farm mortgage indebtedness, the hero is Representative Marvin Jones, of Amarillo, Texas, chairman of the House Committee on Agriculture.

Chairman Jones' bill to take care of both of these financial functions was introduced during the last session of Congress and according to the result of a thoro search of the records, his measure was the first to suggest the consolidation that has resulted in the abolishment of the federal farm board and the reorganization of farm loaning agencies.

## Aid To Morgenthau

He has been working with Chairman Henry Morgenthau, Jr. for several weeks, perfecting the plan, and his suggestions have been carried out to a large degree.

It has been Chairman Jones' contention that if farmers were freed of the restrictive burden of short term credits, and excessive interest charges, a great part of his battle would be won.

He believes that the heavy mortgage indebtedness of the farmer retards his endeavors. He does not feel that the farmers' credit should flow to him freely and without the application of sound protection for the government.

## Believes in "Free Farmers"

Mr. Jones is one of those who believe in the doctrine of the "free farmer." He contends that debts bind debtors, and that it naturally follows that farmers relieved of the threat of foreclosure and the overpowering load of debt, would be free farmers, entitled to the pursuit of happiness.

Mr. Jones says: "If it were possible for every farmer in America to be free from debt so that he could plant his crops in proper season and grow them in independence, he would advance toward prosperity. If there could be linked with his freedom from debts the removal of the discrimination against him thru trade barriers and excessive freight rates, he would have a chance for success on the same dead level with the other fellow, and a large portion of his problems would be solved."

Mr. Jones enjoys a record in the House of never having been defeated on any bill which he has brought to the floor from his committee and of the House, and they have habitually followed his suggestions on farm legislation.

—Wichita (Kansas) Beacon.

Mrs. Dolph Smith and baby have returned from a visit in Oklahoma.

Mrs. C. H. Nichols spent Wednesday in Lubbock.

Mr. and Mrs. Ed Aryain and children spent Sunday in Lubbock. They visited Mrs. Paul Dill who is in the Lubbock Sanitarium.

## CANTATA PAGEANT

Reading Notices, Obituaries, Card of Thanks, Resolutions of Respect, Etc., 10c per line.

**DANGER IN COLDS**

How unfortunate it is that scientists who have been searching for the cause and cure of common cold did not succeed before spring brought another open season for colds. More colds are contracted in the spring than in any other time of the year and it is popularly believed the late-spring variety of cold is the most difficult to cure.

Spring rains, sudden changes in temperature and balmy days that cause one to discard winter's raiment with reckless abandon will keep half the population sneezing and blowing until warm weather decides to put in the summer here.

Science and mothers have evolved many preparations and methods of treatment that afford some relief for a "mean cold" and sometimes stop them on the way, but they have been slow to find an infallible preventive. Some panaceas succeed with one patient and fail with the next.

One promising discovery was made through experiments conducted during the winter. It was found that among persons given baths twice a week in the ultra-violet rays of a mercury vapor lamp there is 50 per cent greater freedom from colds. The rays, it is believed, increase the resistance of the blood to the germs that cause colds and strengthen the delicate tissues through which bacteria enters the body.

A preventative and sure-cure for the cold must be found to reduce the misery of humanity, for a person with a cold is miserable, and to save thousands of lives. Neglected colds result in countless deaths every year.

The knocker is the fellow who pays little taxes and does nothing for the good of the community. The only thing he is interested in is his own little nest, and he goes out of his way to knock on his neighbor.

**CONSTIPATED 30 YEARS AIDED BY OLD REMEDY**

"For thirty years I had constipation. Souring food from stomach choked me. Since taking Adlerika I am a new person. Constipation is a thing of the past."—Alice Burns. Ramby's Pharmacy.

Practice in all Courts in Lamb Bailey and surrounding counties.

**TEXANS STILL LEAD IN CAVERN VISITORS**

According to Thomas Boles, superintendent of the Carlsbad National Park, Texas led all other states in the number of visitors to the cavern in March. Twenty-one per cent of the 1,495 persons who visited the cave were Texans. The number of visitors fell off 34 per cent and was the smallest since March 1927.

Thirty-five states, the District Columbia, Territory of Hawaii and nine foreign nations were included in the list of visitors.

New Mexico was second with 245 people, while Texas was 1st with 315. California with 165 people was third; Colorado was fourth with 1144 people.

**GARNER FAVORS BEER IN TEXAS**

Austin—Maury Hughes, chairman of the state Democratic executive committee, that Vice-President John N. Garner had given "implied endorsement" to a bill to legalize manufacture and sale of 3.2 beer in Texas. The "implied endorsement," said Hughes, was in response to a communication sent Mr. Garner.

"As you know, I am in thorough sympathy with the platform demands, as well as the promises made by President Roosevelt," Vice-President Garner replied. "I wish you luck."

**Resolution of the Lamb County Home Demonstration Club Women to the Texas Legislature:**

We the above women sincerely request that we be given a hearing before action is taken by your body with reference to the proposed cut of forty-one per cent in the appropriations for the State Institutions of higher learning.

Where-by we know that such a measure will not only be a very serious handicap to our higher institutions of learning but will also cripple the efficiency of our County Farm and Home Demonstration work.

Therefore we request this hearing that we may present to you our interest in the County Farm and Home Demonstration work.

Signed by the Resolution Committee,  
Mrs. I. V. Fent  
Mrs. Geo. E. Bohner  
Mrs. Violet M. Hones.

**DELIGATES ELECTED**

The following delegates were elected at a call meeting of the Lamb County Council of the Home Demonstration Clubs Saturday April 8, 1933, to appear before the Legislature in Austin in the near future.

Mrs. H. A. Sheffield, Spade Club.  
Mrs. W. C. Squires, Harts Camp Club.  
Mrs. I. V. Fent, Sandhill Club.  
Mrs. B. J. McGee, Amherst Club.

**TRAINING SCHOOL FOR SECRETARIES REPORTERS**

Eight secretaries and reporters of part of the H. D. Clubs in the County Meet in a called session in the dining room of the Amherst Hotel Saturday afternoon, April 9, 1933, with Miss Ruby Mashburn, C. H. D. A presiding.

Correctly and incorrectly written minutes and reports were discussed, then a "mock" club meeting and Pork Canning demonstration were carried out, and the various members wrote out minutes and reports of same. These were then read, compared and criticised, thereby getting before our minds the essential things to be found in each, since this was the object of the school.

Correctly written minutes are necessary, for the secretaries' books are judged, with other entries of each club, at the fair. Our reports need be as concise, interesting and educational as possible in order to keep before the public the things being accomplished by the club women throughout the county. In order to learn these things, this school was conducted.

Maude Pepper  
(One of the reporters.)

**MIDGET AUTO**

A home-made automobile weighing only 300 pounds, 900 pounds less than an Austin was registered in Lubbock county last week. The tiny car was built by G. V. Rice of Slaton.

Four bicycle wheels, a one-cylinder Shaw washing machine motor, and other parts purchased from mail order houses were used in making the car.

**FRIENDSHIP NEWS**

The Friendship, Home Demonstration club held its regular meeting Friday, April 7. There were eight members present and two visitors, also one new member. We had a very interesting lesson. Miss Mashburn will meet with us our next meeting day. Let's all be on time so that we may start at 2 o'clock.

Kenneth Allen is down with measles this week.

Mr. and Mrs. McQuary and children of Enoch, visited Mrs. W. R. Boyd and family and remained over until after B. Y. P. U. and singing, Sunday night.

Mr. H. Ford is building a nice home on his farm.

Monroe and Henry Fowler, Lonnie Horn, Walter Roberts, Spencer McName, Melvin Scoggin, Mr. Cook and sons have gone to Raymondville, Texas where they have work.

Mr. T. J. Stanley received a message stating his only sister, had dropped dead. They left immediately for San Antonio to attend the funeral.

There will be an all day singing at Friendship Sunday, April 16. Every one is invited to come and bring your basket well filled and enjoy the day.

Mr. and Mrs. Marvin Thomas are the proud parents of a baby girl born March 26.

Mr. and Mrs. Vernon announce the birth of a baby on April 6.

Mr. and Mrs. W. F. Foust and children are visiting in Amarillo this week.—Reporter.

## EDITORIAL

At last we have reached the "homeward stretch", and we have a feeling of sorrow.

We have fought for old Sudan High School this year and have made a success through cooperation.

There are a number of students, seniors and others, who will leave S. H. S. this year, and they will not return again as pupils. However their places will be filled next year by a new group as capable and as willing as this year's "bunch" has been. The pupils who are leaving S. H. S. this year will still be willing to help in any way possible.

**The Biggest Hit of the Season!**  
 The Seniors are sponsoring the play "Closed Lips" the biggest hit of the season.

Folks you must support this play in every way you can. If you fail to see this heart breaking play you will miss the biggest "Sensation" of the season. Do you folks really realize that this will be the last performance you will see these Seniors of '33 stage for you? Why if you miss the best play ever presented in S. H. S. The play is full of fun, pep, laughs and tears for all. We have a little wif, "Star" from "Cinderella"; a "Convict." "The deposed cook," the hero—Bart, and he is a hero? Well! come and see for yourself—The fat, good-natured Willie who is married and glad of it even if Pat, his wife does make him hustle. He's scream! Terry, the heroine, a happy courageous girl deeply in love with Bart, is a knock out! This play has a mystery—"Who is the real Criminal?" John Clay the man who served fifteen years in prison. Barts father? Whats this about Georgia, what does it have to do with the Criminals? Listen folks there's something fishy about this "Closed Lips," Closed Lips. Why? Come and see for yourself—You will have a grand laughing, crying time together if you see the Biggest Hit of the Season—"Closed Lips" to be staged May 2, 1933 at 8 o'clock sharp at S. H. S. the place that stages such clever plays. Watch for further announcements.

## WHO'S WHO OF THE SENIORS

**Myrtle McLarty**—  
 The charming, blue eyed, blond is no other than Myrtle McLarty of the Senior class. Myrtle even has the president of Senior class eating out of the palm of her hand. Myrtle is noted for her shy blue eyes and the grace and poise she has at all times. It is enough to capture any young man. She is the "Pride" of S. H. S..

**Winford Wells**—  
 What, Ho! We have a very brilliant and dignified young man in the Senior class who is no other than Winford Wells. Winford is our ideal gentleman and we are proud to have him as one of our prominent Seniors. If we didn't have Winford we wouldn't have the charming old gentleman we always have in our clever high school plays. Winford is noted for his ability to act, as well as his friendliness toward all.

**Lela Burnham**—  
 Lela is noted for her beautiful voice and talent of playing the piano. We often wonder what we would do without her. Lela is one of these dignified Seniors that we love to see. If you students ever hear a popping sound in some of your class rooms or study hall—

## ACID STOMACH BIG FACTOR IN CAUSING ULCERS

Don't let too much acid ruin your stomach. Take Dr. Emil's Adia Tablets and quickly overcome acid conditions, heartburn, sour stomach, indigestion. Ramby's Pharmacy.

don't be alarmed for it is only Lela chewing her gum—and Eldon keeps her well supplied so we hear.

**Eldon Nichols**—  
 We have heard that Eldon is worth Nichols and he certainly has been worth something to S. H. S. Eldon will always be remembered in S. H. S. for his good athletic work, especially in basket ball. He will also be remembered by his many friends that he has won by his kind personality while in high school. He is secretary of the Senior class and has helped us out of many tight places—Are we proud of him? I'll say!

**Bonnie Belle Lyle**—  
 Bonnie Belle Lyle is that fascinating brunette of the Senior class. Bonnie Belle is well liked by all and for her lovable ways. We will always remember Bonnie Belle as the lovable Gypsy maiden in "Chonita". We all know Bonnie Belle is madly in love with a Junior and we think she should have picked the "best" A Senior.

**Charles Cartwright**—  
 Charles is a very brilliant member of the Senior class also. We will all remember Charley for his bright remarks and his active tennis playing. He too was an excellent basket-ball player although he did not play all season. Charley is a boy who is willing to do his part in everything. He is the clown of S. H. S.

## News Items From Sudan Grammar School

We are very sorry to hear of much illness in school. Frances Luttrell and Lorene Morley of the high seventh have both been out several days due to illness. But in spite of sickness there were 524 pupils present in grade school Monday. Report cards were issued Wednesday for the last time until school closes.

In Mr. McElreath's room I saw a beautiful bouquet of flowers which he said was the compliments of another room because the low seventh lent them

Beautiful  
 Hartz Mountain

Mrs. H. H. Weimhold

their dust mop.

The members of the high sixth grade are doing a very interesting study of current events on the different European countries which deal with Dictators and also articles which deal with Preparation for war. Miss Branch, their teacher, gave a very interesting report to the class on the play entitled "Rasputin and the Empress." She saw this play on the screen and then read the biography of the writer.

The high seventh are also planning a picnic for Saturday. James Adams of the high sixth fell from a horse Sunday afternoon and was hurt, but we are glad to note at the present he is much better and will soon be able to return to school.

The high fifth report 100 per cent attendance four days last week which is very good. This class is beginning a study of Africa in Geography and Pictures to illustrate the lessons are being used which makes the study much more interesting.

Sarah Belle Markham of the high fifth spent the week-end in Lubbock.

Miss Foote says the high fourth are taking extra work so as to have everything completed by the time school is out. The regular health election was held with Quata Little as Governor and Lena Holland, Curtis Pike, Evelyn Parrott, Goldie Kidd, and Jackie Reece as Representatives.

The low fifth regrets that Beulah Beauchamp is absent from school due to illness.

Miss Love's section of the high third are rejoicing because Wanda Dill who was injured in a car wreck last week is able to attend school. Jenny Mae Foust of this class is out

of school on a visit.

Mrs. Dodgen's section of the high third are proud of the new pupil, Gerald Boone from Riviera, Texas. This class is planning an Easter hunt Friday afternoon. Ray Young of this class is visiting in Haskell this week.

In spite of illness attendance has been extremely good in some rooms this week. Miss Shaffer reports 100 per cent attendance several days in the low third. We are proud of the attitude this class is taking toward extra work which is being forced upon all classes. They usually are dismissed at three

## How to train BABY'S BOWELS

Babies, bottle-fed or breast-fed, with any tendency to be constipated, would thrive if they received daily half a teaspoonful of this old family doctor's prescription for the bowels.

That is one sure way to train tiny bowels to healthy regularity. To avoid the fretfulness, vomiting, crying, failure to gain, and other ills of constipated babies.

Dr. Caldwell's Syrup Pepsin is good for any baby. For this, you have the word of a famous doctor. Forty-seven years of practice taught him just what babies need to keep their little bowels active, regular; keep little bodies plump and healthy. For Dr. Caldwell specialized in the treatment of women and little ones. He attended over 3500 births without loss of one mother or baby.

DR. W. B. CALDWELL'S  
**SYRUP PEPSIN**  
 A Doctor's Family Laxative

fifteen, but are now remaining until four o'clock in order to complete their work on schedule time. They have completed the bird posters which they enjoyed making very much.

The high second is looking forward to an Easter egg hunt which two of the children's mothers will give them Friday. The low second are also planning an Easter egg hunt for Friday afternoon.

The high first are very interested in doubling up the work in order to get through quickly.

They are having an Easter egg hunt Friday, also.

Several are absent from the low first due to illness which is most regrettable. This class will have an Easter party, Friday afternoon.

As a culmination of the J. R. Newman, of Lubbock, was a business visitor in Sudan Wednesday of this week.

Mr. and Mrs. Ed Aryain and children spent Sunday in Lubbock. They visited Mrs. Paul Dill, who is in the Lubbock Sanitarium.

## TEAM WORK COUNT BIG---

Hard Times may be HELPFUL, after all, for we are then all dumped together in one boat. All of us having our different and various troubles, we are more helpful to one another.

We learn that when our competitors prosper, we also may prosper. We learn that success comes through team work. Cooperation takes the place of competition very largely, for it is often a case of "all hang together or else be hung separately," as Benjamin Franklin one time said. During these times of economical exigency it is a case of all of us having to buckle down and pull our share of the load.

This bank, now as always, is trying to do its share—and the more patrons we secure, the better we can serve you and the public generally.

LETS ALL WORK TOGETHER. IT'S TO OUR MUTUAL INTEREST!

## First National Bank

"There is no substitute for safety"

**TIPS ON TAXES**

Austin—It is known that the costs of the State government for the next two years will be substantially lower than for the past two years. The single uncertainty is what may be done with reference to appropriations for support of the public schools. Other major appropriation bills have been finally passed by both houses of the Legislature. They represent reductions varying from 25 to 40 per cent. The aggregate reductions will probably be from 30 to 33 per cent. However, the possibility of upsetting the results of the start toward economy—and it is only a start notwithstanding the impressive savings made—is by no means remote. There are two very pressing influences that may supply the necessary support to bring about the enactment of laws that will open new sources of revenue, which would eventually neutralize the progress already made. These are the insistent demand of public schools for liberal appropriations and the desire to balance the State budget and wipe out the existing deficit during the next year, or two at most. Thus far, no general new taxes have been levied. The sales tax, which was the most important means suggested for raising new revenues, has been killed again. This time, its death is supposed to be final, but it is known that plans are being made to revive the idea, dress it up in a fresh Spring outfit, bring it out as the angel of public school education and the Santa Claus for sadly depleted county and city treasuries, through an ingenious proposal to split the proceeds between the schools, counties and cities. Basically, this is the familiar "aid" method of increasing taxes, which has been a prolific cause of the increase in the cost of government in this country for the past ten years. Those who oppose new taxes will need to be alert during the closing days of the session of the Legislature. It is also well to bear in mind that up to the present time the fundamental causes of high taxes have not been removed. Nothing has yet been done that will provide effective barriers against a return of extravagance, once the present emergency is passed. Changes have been proposed, which, if finally adopted, will give some degree of permanence to measures of economy. The fate of these really constructive changes is still uncertain and there seems to be possibility that some of them will fail. The amendment in the Senate proposing to the State ad valorem tax for general revenue purposes from 35 to 15 cents has been engrossed in the Senate but apparently lacks the required two-thirds support to submit it as a constitutional amendment. The amendment placing an arbitrary limit on total expenditures of the State government has been finally passed by the Senate by the necessary two-thirds vote. It is yet to go through the House. The judiciary reorganization amendment making drastic changes in the set-up of the courts and promising important economies, which passed the House sometime ago, awaits an uncertain fate in the Senate. Amendments proposing reorganization of costly county government are yet to be acted on. This is also true of a bill which proposes county unit system of public school administration. These latter two subjects are vital, because local taxes are much more burdensome than State taxes. The Senate has passed unanimously a bill limiting the amount of compensation which would be allowed county and precinct officials. The reductions will radically affect official incomes in counties of populations above 25,000. The top compensation allowed any county official in Texas would be possible only in counties above 150,000 population. The following maximums have been set. Counties under 10,000 population, \$3,000; between 10,000 and 25,000, \$3,250; between 25,000 and 37,000, \$3,500; between 37,500 and 75,000, \$4,250. be-

tween 75,000 and 150,000, \$4,750, above 150,000, \$5,000. The rates do not apply to all fee officers alike. The maximums are for more important county offices. Lower figures are fixed for justices of the peace, constables, etc.

Mr. and Mrs. Carl C. Reynolds of Dimmitt, were guests the first of the week of Rev. and Mrs. Sam A. Thomas and family.

Mr. and Mrs. Herbert Teal had as dinner guests Sunday, Mr. and Mrs. J. R. Teal and two sons, Talma and Buford, of Enochs; Miss Virginia Teal, who is attending school in Littlefield; Bill Teal, of Lubbock and Mr. and Mrs. Ovie Teal.

R. E. Doss spent Monday and Tuesday in Ralls attending to business matters and visiting his mother, who has been ill, but is able to be up now.

A. Massey of the Massey Second Hand Store, spent Wednesday in Lubbock attending to business matters.

J. J. Carrol of Chickasha, Oklahoma, spent Thursday and Friday in Sudan.

W. A. Long of Hereford is visiting his daughter, Mrs. Dewey Stevens and family this week.

J. O. Barnett is attending to business matters in Estelline this week.

Carol Ann McLarty is ill with pneumonia. She was taken to the Lubbock Sanitarium Tuesday evening.

J. H. Furneaux and son William, of Dallas, were attending to business matters in Sudan this week.

J. R. Dean and son Kirk returned from a business trip to Dallas and parts of Oklahoma.

Mrs. W. J. Chesher of Littlefield was visiting with relatives and friends in Sudan Sunday.

Mr. and Mrs. B. R. Haney and Mrs. Ara Earnest left for Hot Springs New Mexico the latter part of last week.

Mr. and Mrs. W. V. Terry spent Saturday in Lubbock.

T. Wade Potter of Littlefield, was attending to business matters in Sudan Monday.

Mrs. Joe Covington and son are in Dalhart this week.

Dr. W. D. Ford was in Olton on business Tuesday.

Mesdames Duffy, LaGrange, Willitte and Luce of Amherst were party guests at the Furneaux home Friday.

**If you have RHEUMATISM do this**

Get some genuine tablets of Bayer Aspirin and take them freely until you are entirely free from pain.

The tablets of Bayer manufacture cannot hurt you. They do not depress the heart. And they have been proven twice as effective as salicylates in relief of rheumatic pain at any stage.

Don't go through another season of suffering from rheumatism, or any neuritic pain. And never suffer needlessly from neuralgia, neuritis, or other conditions which Bayer Aspirin will relieve so surely and so swiftly.

VOLUME VIII

SUDAN, LAMB COUNTY, TEXAS, THURSDAY, APRIL 13, 1933

NO. 35

**C. A. DANIEL, OUR**  
(Conservative, this word means a man with plenty and won't spend it.)

**COMMISSIONER PRACT. 2**

Dear Sir:  
Your letter of last week does in any way comply with your agreement in my office on April 5th., and I feel free to reply. (I cannot understand why you made the visit.)

My questions of March 30 are pertinent of interest to every Taxpayer, Doctor and Citizen of Lamb County.

Your answer was evasive, irrelevant, nonsensical and to the average minded man or woman really laughable. It might be better if YOU would try to answer them individually, any way, I insist that you do.

By what right or authority do you transfer (charity) patients from this Lamb County?

How much of the Taxpayers money have you paid Lamb County Physicians for service to charity patients?

How much of the Taxpayers money have you paid to Physicians and Hospitals out of Lamb county since January 1st, 1933?

Do you know this money is lost to our schools, merchants, doctors, taxpayers and citizens of Lamb county?

What bond or security has the County for the Taxpayers money, or County Funds?

Some of Lamb County's plebocites are politically defunct (dead, dead, dead) but don't know it.

Please answer pertinantly for the Taxpayers' League, Voters, Citizens and Doctors of Lamb County will know the FACTS ere long.

Yours for Right and Justice to All.

## THE LOCAL DOCTOR

### BIBLE CLASS

The Ladies Bible class of the Church of Christ, met at the church on Tuesday afternoon with eighteen present. A very interesting lesson was conducted by Mrs. Matheny. We are very glad to see our class increasing in number and are always glad to have new members.

Next Lord's day we will have preaching by Bro. Garner of Amherst. In the afternoon we will have singing, and would be very glad for every one who can come.

Bible class meets at the church next Tuesday at 3:30.

## FATE OF AIRSHIP BUILDING RESTS IN CONGRESS HANDS

America's \$20,000,000 experiment with airships is to be studied this week by a joint congressional committee including members of both house and senate, and the verdict will likely decide whether the United States will build anymore dirigibles like the Akron.

## FARMING EXTENSIVELY

Harris Brantley, formerly a merchant of Wellington, is now engaged in farming on an extensive scale a few miles south of Amherst. There are ten tenants on the place, and about 1,500 acres are being farmed, including 500 acres of wheat.

## SUDAN SCHOOL WILL CLOSE APRIL 28

According to information, reaching this office the Sudan Schools will close for the '32-'33 term on April 28. The board has had under consideration the closing of school for some time, but not until Monday night did they decide to set the closing date. It is our understanding that work is being pushed by the teachers and pupils so that the shortening of the term will not in anyway interfere with the pupils making their grades.

## ANOTHER BLOCK OF PAVING COMPLETED

The second block of paving on Main street was completed the first of the week. This is the second block of caliche paving and curbing to be completed with the RFC money relief work in Sudan.

The two blocks of paving on Main street have improved the appearance and has made traffic much safer. It is hoped that another block will be paved in the near future.

This work has provided for the employment of many men, and has been a great help to the community at large.

## FINAL DATE FOR GOVERNMENT CROP LOAN APPLICATIONS APRIL 30TH.

Hilliard Smith, field supervisor for Bailey, Castro, Lamb and Parmer counties, was a pleasant visitor at the News office Tuesday of this week. He asked the News to state that April 30th would be the last day for making applications for Crop Loans and that he was anxious to have all applications in as soon as possible to avoid the last minute rush. No applications will be received after the above date.

Applications and checks received by the four counties are as follows:

Bailey, 190 applications, 92 checks received.
Castro, 54 applications, 25 checks received.
Lamb, 153 applications, 89 checks received.
Parmer, 72 applications, 25 checks received.

Mr. Smith is anxious that everyone needing this financial help get their applications in as soon as possible as there is a heavy demand for the funds and the fund will be exhausted before the application period is over.

The administration is desirous of helping all those who are in need, and to get this help you should not wait until the last minute to make application. April 30th is the final date for making application.

## IN CITY COURT

A case came up in Justice Court here Tuesday in which a prominent man of Sudan was charged with violating the City Traffic Ordinance. The case occupied the greater part of the day, and created much interest. City Attorney Hazel prosecuted the case; while Judge Dryden pleaded for the defendant. A jury was chosen and after the case had been turned over to the jury and after much deliberation the jury found that the vote stood three to three and were hopelessly tied. The case will come up for trial sometime in the near future.

From what this writer can gather the case grew out of a misunderstanding of both the officers and the defendant. As the streets have been fenced off for sometime during the improvement and neither the officer or the defendant had had time to get back to the customary regulations of traffic.

## SUDAN FIRE BOYS TO FISH

The Sudan Fire Boys will leave Sunday for their annual fishing trip to South Texas. The boys are making big arrangements for a great time and have engaged as their Camp Physician, Dr. W. H. Ford. The Doctor says that he is in need of an outing and also an airing and the boys promise to give his full measure of both.

W. W. Carpenter, of Plainview was attending to business in Sudan Wednesday.

Misses Leona Slaughter and Gertrude Ford spent the weekend visiting home folks in Sudan.

## CHAMBER OF COMMERCE MET WEDNESDAY NIGHT

The Sudan Chamber of Commerce met in its regular monthly meeting last night to discuss arrangements for Sales-Trades Day, also other business matters. The subject of supplying tickets for cash prizes was also discussed and it was decided, that the News continue to furnish these tickets, but, will not sell any more to merchants individually, these tickets may be secured from Saunders Variety Store, where all who use these tickets be required to register when buying same.

It was also decided to give a free picture show on Trades-Sales Day; further announcements of the entertainment for that day will be given later.

## SUDAN MEETS LUBBOCK DIRECT SHIPPER PRICES ON CREAM

Herbert Teal, manager of the Sudan Produce, informs the News this morning that he has arranged to pay Lubbock prices for cream and can now pay the same price at Sudan as the direct shipper can get at Lubbock. This is one of the improvements in buying cream, that Mr. Teal has been working on since coming to Sudan, and we are mighty glad that he has succeeded. Mr. Teal uses the columns of the News to tell the people of their service and has rendered a service to the producer, second to none, since coming here. Cream today is 14 cents at the Sudan Produce.

## BLUEBONNET NEWS

Homer Hall of Sudan and sister, Mrs. W. P. Davis went to Memphis March 26 to a basket lunch celebrating their fathers 70th birthday.

There were 142 guests present. The local pastor gave an address on "Milestones of Life." G. B. Counts, father of Mrs. W. I. Attaway, has been real sick but is better at this time.

Mrs. Harris Brantley went to Lubbock Wednesday with Miss Mashburn shopping.

On last Thursday thirty of the neighbors and friends of Grandpa Counts and Mr. Henry Fisher celebrated their birthdays with a surprise dinner in the home of Mr. Fisher. Owing to the illness of Mr. Counts he was unable to attend but a large platter filled with all the good eats was carried to him. Two large tables were filled with turkey, chicken, ham and all the fixings. The afternoon was spent in games of 42, working Jig-saw puzzles and music. Messrs. Counts and Fisher received several nice gifts.—Reporter.

The Bluebonnet Club met April 6th in the home of Mrs. Walter Brantley. There were fifteen members and two visitors present. Most everyone responded with their part on the program which was on the subject of county money and its expenditure. After the lesson everyone enjoyed our recreation period very much, which was sponsored by Mrs. Henry Meyer. We learned that several of the ladies are not very good spellers; but they surely can "sing." Delicious ice cream and cake was served by the hostess.

Our next meeting will be with Mrs. Harris Brantley on April 20th.

## A STUART RESIGNS AS CITY COMMISSIONER

At a meeting of the City Commission, on Monday night of this week, the resignation of A. Stuart was accepted, and E. Lam was appointed to fill his unexpired term. Business matters prompted Mr. Stuart to resign.

Mrs. C. E. Cole and Myrtle McLarty were in Lubbock Tuesday.

## SCHOOL TRUSTEE ELECTION

On April 1st at the School Board election two new members were elected and have been sworn in as officers of the board.

T. Fife and Wm. H. Walker were chosen by the people at the election. These men are farmers of the highest type and will be a great help in carrying on school matters during the next two years.

At a meeting of the board on Monday of this week, M. A. Smith was elected Superintendent and Sam H. Branch was elected Principle. These men have been at the head of the faculty since January 1st., and have given satisfaction.

T. W. Alderson who has been a member of the board for the past two years, resigned at the meeting held Monday night. We are not informed who will be appointed to fill the vacancy caused by Mr. Alderson's resignation.

## TEXAS ALMANAC

Many new features are contained in the Texas Almanac and State Industrial Guide for 1933, which has just been issued by The Dallas News. There are more than 1,000 articles, statistical tables, illustrations and maps, answering between 50,000 and 100,000 questions about Texas, economic, political and civic development is covered, including farming and live stock, manufacturing, wholesale and retail trade, population, railroads, aviation, highways and automobiles, motor transportation, inland waterways, minerals and mining, government and names of State, district and county officials, education, conservation and numerous other subjects.

A large folded sheet between the leaves of the volume carries political and railroad map on one side and highway map on the other. These maps were made especially for the Texas Almanac and are up to date and accurate. As one runs thru the leaves of the volume one comes across such interesting miscellaneous articles as Historical Landmarks of Texas, Archeological Research in Texas, noteworthy Texas Caves, the Program for State Parks, Health Resorts and Places of Recreation, Arts and Artists, Libraries, Old Cattle Trails, Boundary Disputes, Kinds of Salt, and Fresh Water Fish Found in Texas, Home Canning and Farm Terracing and Home Tennyantary.

If one wishes to know where the principal lakes of Texas are found of Texas, how to fly the Texas flag, the depth of the deepest oil well, the amount of oil and gas in Texas reserves where the McDonald Observatory is to be built, how much is collected from the gasoline tax or the amount of the payroll of Texas railroads, he will find it in the Texas Almanac.

While many new articles have been included, the chapters of information that have become standard in the Texas Almanac are retained, completely revised and enlarged. There are more than 7,000 names of individuals in the book. Especial attention is given to historical features, particularly those of importance in connection with the tentative plans for a centennial celebration. The volume this year lives fully up to its reputation of being the "Encyclopedia of Texas." Incidentally, a review of its contents reveals a marvelous amount of development in the Lone Star State, even during he last few years of business stagnation.

Price, 50c at news stands, 60c by mail.

The many friends of Mrs. Paul Dill will be glad to learn that she is improving and will soon be able to return to her home in Sudan.

## To Be Shown In Chicago

Austin, Texas.—In all the color of its romantic history in the vast variety of its basic industries and activities, in the magnitude of its physical extent and resources, in the charm of its natural beauty, in the wide latitude of its potentialities—will be presented to the world, through the medium of the millions of visitors attending the Century of Progress World's Fair at Chicago this year. The plans for the Texas exhibit which have been in process of formulation for months, have been announced by L. E. Snavely of Harlingen, recently named state chairman of the committee on arrangement for this state's representation.

The plan for the Texas exhibit, which is to be housed in the States Exhibit Building in Chicago, was submitted by Ivan H. Riley and Walter T. Rolfe, associated architects for the design and execution of the exhibit. Riley is the head of an architecture firm at Harlingen, while Rolfe is professor of architecture at the University of Texas.

## Valley Has Garden

The shape of the space assigned to Texas was fixed by the general conditions of the State Building. The area lies exactly between the court of honor of the States Building and the boat landing from the municipal pier. This makes the site strategically important from the viewpoint of position. Facing the boat landing will be the garden of Texas—a garden of the Rio Grande Valley, enclosed by a white plaster wall with hand hewn timbers reminiscent of early Texas structures. With in the enclosure is the garden, showing the rich warmth of Texas life in the native shrubbery, its pools, its pottery, and its simple architectural background.

## History Carefully Portrayed

Around the second story balcony is a running mural in which the history of Texas will be colorfully portrayed. This frieze is approximately 180 feet long and is over six feet in height. It is to be so executed that it will be equal interest to the spectator from the first floor or from the second floor balcony. In this pictorial portrayed will live the characters and events that have made Texas.

The exhibit has been so designed that its growth upward from the first floor is chronologically correct. On the first floor are the basic industries and activities of Texas life. In the main salon are the dioramas of cotton, commerce, ranching, manufacturing, petroleum, and comparative geography. In the small salons on the first floor are the minerals display and the agricultural and livestock displays. In the center first floor salon will be housed the fruit and vegetables dioramas or displays. All of these are fundamentally the support of the state.

West Texas is to be well represented in the Texas exhibit.

## MARVIN JONES HOLDS AN UNDEFEATED RECORD

Behind the scenes of the political show in Washington there is usually an unsung hero. In the case of the consolidation of federal loaning agencies, and in the undertaking to refinance farm mortgage indebtedness, the hero is Representative Marvin Jones, of Amarillo, Texas, chairman of the House Committee on Agriculture.

Chairman Jones' bill to take care of both of these financial functions was introduced during the last session of Congress and according to the result of a thoro search of the records, his measure was the first to suggest the consolidation that has resulted in the abolishment of the federal farm board and the reorganization of farm loaning agencies.

## Aid To Morgenthau

He has been working with Chairman Henry Morgenthau, Jr. for several weeks, perfecting the plan, and his suggestions have been carried out to a large degree.

It has been Chairman Jones' contention that if farmers were freed of the restrictive burden of short term credits, and excessive interest charges, a great part of his battle would be won. He believes that the heavy mortgage indebtedness of the farmer retards his endeavors. He does not feel that the farmers' credit should flow to him freely and without the application of sound protection for the government.

## Believes in "Free Farmers"

Mr. Jones is one of those who believe in the doctrine of the "free farmer." He contends that debts bind debtors, and that it naturally follows that farmers relieved of the threat of foreclosure and the overpowering load of debt, would be free farmers, entitled to the pursuit of happiness.

Mr. Jones says: "If it were possible for every farmer in America to be free from debt so that he could plant his crops in proper season and grow them in independence, he would advance toward prosperity. If there could be linked with his freedom from debts the removal of the discrimination against him thru trade barriers and excessive freight rates, he would have a chance for success on the same dead level with the other fellow, and a large portion of his problems would be solved."

Mr. Jones enjoys a record in the House of never having been defeated on any bill which he has brought to the floor from his committee and of the House, and they have habitually followed his suggestions on farm legislation.

—Wichita (Kansas) Beacon.

H. H. Weimhold . . . . . Editor

**\$2.00 PER YEAR, IN ADVANCE**

Reading Notices, Obituaries, Card of Thanks, Resolutions of Respect, Etc., 10c per line.

**DANGER IN COLDS**

How unfortunate it is that scientists who have been searching for the cause and cure of common cold did not succeed before spring brought another open season for colds. More colds are contracted in the spring than in any other time of the year and it is popularly believed the late-spring variety of cold is the most difficult to cure.

Spring rains, sudden changes in temperature and balmy days that cause one to discard winter's raiment with reckless abandon will keep half the population sneezing and blowing until warm weather decides to put in the summer here.

Science and mothers have evolved many preparations and methods of treatment that afford some relief for a "mean cold" and sometimes stop them on the way, but they have been slow to find an infallible preventive. Some panaceas succeed with one patient and fail with the next.

One promising discovery was made through experiments conducted during the winter. It was found that among persons given baths twice a week in the ultra-violet rays of a mercury vapor lamp there is 50 per cent greater freedom from colds. The rays, it is believed, increase the resistance of the blood to the germs that cause colds and strengthen the delicate tissues through which bacteria enters the body.

A preventative and sure-cure for the cold must be found to reduce the misery of humanity, for a person with a cold is miserable, and to save thousands of lives. Neglected colds result in countless deaths every year.

The knocker is the fellow who pays little taxes and does nothing for the good of the community. The only thing he is interested in is his own little nest, and he goes out of his way to knock on his neighbor.

**CONSTIPATED 30 YEARS AIDED BY OLD REMEDY**

"For thirty years I had constipation. Sourcing food from stomach choked me. Since taking Adlerika I am a new person. Constipation is a thing of the past."—Alice Burns. Ramby's Pharmacy.

**J. E. DRYDEN**  
LAWYER

Practice in all Courts in Lamb Bailey and surrounding counties.

**TEXANS STILL LEAD IN CAVEEN VISITORS**

According to Thomas Boles, superintendent of the Carlsbad National Park, Texas led all other states in the number of visitors to the cavern in March. Twenty-one per cent of the 1,495 persons who visited the cave were Texans. The number of visitors fell off 34 per cent and was the smallest since March 1927.

Thirty-five states, the District Columbia, Territory of Hawaii and nine foreign nations were included in the list of visitors.

New Mexico was second with 245 people, while Texas was 1st with 315. California with 165 people was third; Colorado was fourth with 1144 people.

**GARNER FAVORS BEER IN TEXAS**

Austin—Maury Hughes, chairman of the state Democratic executive committee, that Vice-President John N. Garner had given "implied endorsement" to a bill to legalize manufacture and sale of 3.2 beer in Texas.

The "implied endorsement," said Hughes, was in response to a communication sent Mr. Garner.

"As you know, I am in thorough sympathy with the platform demands, as well as the promises made by President Roosevelt," Vice-President Garner replied. "I wish you luck."

**Resolution of the Lamb County Home Demonstration Club Women to the Texas Legislature:**

We the above women sincerely request that we be given a hearing before action is taken by your body with reference to the proposed cut of forty-one per cent in the appropriations for the State Institutions of higher learning.

Where-by we know that such a measure will not only be a very serious handicap to our higher institutions of learning but will also cripple the efficiency of our County Farm and Home Demonstration work.

Therefore we request this hearing that we may present to you our interest in the County Farm and Home Demonstration work.

Signed by the Resolution Committee,  
Mrs. I. V. Fent  
Mrs. Geo. E. Bohner  
Mrs. Violet M. Hones.

**DELIGATES ELECTED**

The following delegates were elected at a call meeting of the Lamb County Council of the Home Demonstration Clubs Saturday April 8, 1933, to appear before the Legislature in Austin in the near future.

Mrs. H. A. Sheffield, Spade Club.  
Mrs. W. C. Squires, Harts Camp Club.  
Mrs. I. V. Fent, Sandhill Club.  
Mrs. B. J. McGee, Amherst Club.

**TRAINING SCHOOL FOR SECRETARIES REPORTERS**

Eight secretaries and reporters of part of the H. D. Clubs in the County Meet in a called session in the dining room of the Amherst Hotel Saturday afternoon, April 9, 1933, with Miss Ruby Mashburn, C. H. D. A. presiding.

Correctly and incorrectly written minutes and reports were discussed, then a "mock" club meeting and Pork Canning demonstration were carried out, and the various members wrote out minutes and reports of same. These were then read, compared and criticised, thereby getting before our minds the essential things to be found in each, since this was the object of the school.

Correctly written minutes are necessary, for the secretaries' books are judged, with other entries of each club, at the fair. Our reports need be as concise, interesting and educational as possible in order to keep before the public the things being accomplished by the club women throughout the county. In order to learn these things, this school was conducted.

Maude Pepper  
(One of the reporters.)

**MIDGET AUTO**

A home-made automobile weighing only 300 pounds, 900 pounds less than an Austin was registered in Lubbock county last week. The tiny car was built by G. V. Rice of Slaton.

Four bicycle wheels, a one-cylinder Shaw washing machine motor, and other parts purchased from mail order houses were used in making the car.

## EDITORIAL

At last we have reached the "homeward stretch", and we have a feeling of sorrow.

We have fought for old Sudan High School this year and have made a success through cooperation.

There are a number of students, seniors and others, who will leave S. H. S. this year, and they will not return again as pupils. However their places will be filled next year by a new group as capable and as willing as this year's "bunch" has been.

The pupils who are leaving S. H. S. this year will still be willing to help in any way possible.

**The Biggest Hit of the Season!** The Seniors are sponsoring the play "Closed Lips" the biggest of the season.

Folks you must support this play in every way you can. If you fail to see this heart breaking play you will miss the biggest "Sensation" of the season. Do you folks really realize that this will be the last performance you will see these Seniors of '33 stage for you? Why if you miss the best play ever presented in S. H. S. The play is full of fun, pep, laughs and tears for all. We have a little waif, "Star" from "Cinderella"; a "Convict," "The devoted cook," the hero—Bart, and is he a hero? Well! come and see for yourself—The fat, good-natured Willie who is married and glad of it even if Pat, his wife does make him hustle, He's scream! Terry, the heroine, a happy courageous girl deeply in love with Bart, is a knock out! This play has a mystery—"Who is the real Criminal?" John Clay The man who served fifteen years in prison. Barts father? Whats this about Georgia, what does it have to do with the Criminals? Listen folks there's something fishy about this "Closed Lips," Closed Lips. Why? Come and see for yourself—You will have a grand laughing, crying time together if you see the Biggest Hit of the Season—"Closed Lips" to be staged May 2, 1933 at 8 o'clock sharp at S. H. S. the place that stages such clever plays. Watch for further announcements.

## WHO'S WHO OF THE SENIORS

Myrtle McLarty—

The charming, blue eyed, blond is no other than Myrtle McLarty of the Senior class. Myrtle even has the president of Senior class eating out of the palm of her hand. Myrtle is noted for her shy blue eyes and the grace and poise she has at all times. It is enough to capture any young man. She is the "Pride" of S. H. S.

Winford Wells—

What, Ho! We have a very brilliant and dignified young man in the Senior class who is no other than Winford Wells. Winford is our ideal gentleman and we are proud to have him as one of our prominent Seniors. If we didn't have Winford we wouldn't have the charming old gentleman we always have in our clever high school plays. Winford is noted for his ability to act, as well as his friendliness toward all.

Lela Burnham—

Lela is noted for her beautiful voice and talent of playing the piano. We often wonder what we would do without her. Lela is one of these dignified Seniors that we love to see. If you students ever hear a popping sound in some of your class rooms or study hall—

## ACID STOMACH BIG FACTOR IN CAUSING ULCERS

Don't let too much acid ruin your stomach. Take Dr. Emil's Adia Tablets and quickly overcome acid conditions, heartburn, sour stomach, indigestion. Ramby's Pharmacy.

don't be alarmed for it is only Lela chewing her gum—and Eldon keeps her well supplied so we hear.

Eldon Nichols—  
 We have heard that Eldon is worth Nichols and he certainly has been worth something to S. H. S. Eldon will always be remembered in S. H. S. for his good athletic work, especially in basket ball. He will also be remembered by his many friends that he has won by his kind personality while in high school. He is secretary of the Senior class and has helped us out of many tight places—Are we proud of him? I'll say! Bonnie Belle Lyle—

Bonnie Belle Lyle is that fascinating brunette of the Senior class. Bonnie Belle is well liked by all and for her lovable ways. We will always remember Bonnie Belle as the lovable Gypsy maiden in "Chonita". We all know Bonnie Belle is madly in love with a Junior and we think she should have picked the "best" A Senior.

Charles Cartwright—

Charles is a very brilliant member of the Senior class also. We will all remember Charley for his bright remarks and his active tennis playing. He too was an excellent basket-ball player although he did not play all season. Charley is a boy who is willing to do his part in everything. He is the clown of S. H. S.

## News Items From Sudan Grammar School

We are very sorry to hear of much illness in school. Frances Luttrell and Lorene Morley of the high seventh have both been out several days due to illness. But in spite of sickness there were 524 pupils present in grade school Monday. Report cards were issued Wednesday for the last time until school closes.

In Mr. McElreath's room I saw a beautiful bouquet of flowers which he said was the compliments of another room because the low seventh lent them

their dust mop.

The members of the high sixth grade are doing a very interesting study of current events on the different European countries which deal with Dictators and also articles which deal with Preparation for war. Miss Branch, their teacher, gave a very interesting report to the class on the play entitled "Rasputin and the Empress." She saw this play on the screen and then read the biography of the writer.

The high seventh are also planning a picnic for Saturday. James Adams of the high sixth fell from a horse Sunday afternoon and was hurt, but we are glad to note at the present he is much better and will soon be able to return to school.

The high fifth report 100 per cent attendance four days last week which is very good. This class is beginning a study of Africa in Geography and Pictures to illustrate the lessons are being used which makes the study much more interesting.

Sarah Belle Markham of the high fifth spent the week-end in Lubbock.

Miss Foote says the high fourth are taking extra work so as to have everything completed by the time school is out. The regular health election was held with Quata Little as Governor and Lena Holland, Curtis Pike, Evelyn Parrott, Goldie Kidd, and Jackie Reece as Representatives.

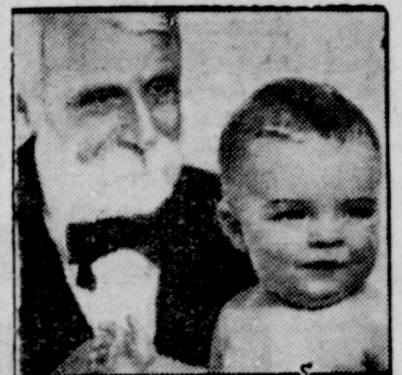

The low fifth regrets that Beulah Beauchamp is absent from school due to illness.

Miss Love's section of the high third are rejoicing because Wanda Dill who was injured in a car wreck last week is able to attend school. Jenny Mae Foust of this class is out

of school on a visit.

Mrs. Dodgen's section of the high third are proud of the new pupil, Gerald Boone from Reviera, Texas. This class is planning an Easter hunt Friday afternoon. Ray Young of this class is visiting in Haskell this week.

In spite of illness attendance has been extremely good in some rooms this week. Miss Shaffer reports 100 per cent attendance several days in the low third. We are proud of the attitude this class is taking toward extra work which is being forced upon all classes. They usually are dismissed at three

## How to train BABY'S BOWELS

Babies, bottle-fed or breast-fed, with any tendency to be constipated, would thrive if they received daily half a teaspoonful of this old family doctor's prescription for the bowels.

That is one sure way to train tiny bowels to healthy regularity. To avoid the fretfulness, vomiting, crying, failure to gain, and other ills of constipated babies.

Dr. Caldwell's Syrup Pepsin is good for any baby. For this, you have the word of a famous doctor. Forty-seven years of practice taught him just what babies need to keep their little bowels active, regular; keep little bodies plump and healthy. For Dr. Caldwell specialized in the treatment of women and little ones. He attended over 3500 births without loss of one mother or baby.

## TEAM WORK COUNT BIG---

Hard Times may be HELPFUL, after all, for we are then all dumped together in one boat. All of us having our different and various troubles, we are more helpful to one another.

We learn that when our competitors prosper, we also may prosper. We learn that success comes through team work. Cooperation takes the place of competition very largely, for it is often a case of "all hang together or else be hung separately," as Benjamin Franklin one time said. During these times of economical exigency it is a case of all of us having to buckle down and pull our share of the load.

This bank, now as always, is trying to do its share—and the more patrons we secure, the better we can serve you and the public generally.

LETS ALL WORK TOGETHER. IT'S TO OUR MUTUAL INTEREST!

## First National Bank

"There is no substitute for safety"

fifteen, but are now remaining until four o'clock in order to complete their work on schedule time. They have completed the bird posters which they enjoyed making very much.

The high second is looking forward to an Easter egg hunt which two of the children's mothers will give them Friday. The low second are also planning an Easter egg hunt for Friday afternoon.

The high first are very interested in doubling up the work in order to get through quickly.

They are having an Easter egg hunt Friday, also.

Several are absent from the low first due to illness which is most regrettable. This class will have an Easter party, Friday afternoon.

As a culmination of the J. R. Newman, of Lubbock, was a business visitor in Sudan Wednesday of this week.

Mr. and Mrs. Ed Aryain and children spent Sunday in Lubbock. They visited Mrs. Paul Dill, who is in the Lubbock Sanitarium.

**TIPS ON TAXES**

Austin—It is known that the costs of the State government for the next two years will be substantially lower than for the past two years. The single uncertainty is what may be done with reference to appropriations for support of the public schools. Other major appropriation bills have been finally passed by both houses of the Legislature. They represent reductions varying from 25 to 40 per cent. The aggregate reductions will probably be from 30 to 33 per cent.

However, the possibility of upsetting the results of the start toward economy—and it is only a start notwithstanding the impressive savings made—is by no means remote. There are two very pressing influences that may supply the necessary support to bring about the enactment of laws that will open new sources of revenue, which would eventually neutralize the progress already made. These are the insistent demand of public schools for liberal appropriations and the desire to balance the State budget and wipe out the existing deficit during the next year, or two at most.

Thus far, no general new taxes have been levied. The sales tax, which was the most important means suggested for raising new revenues, has been killed again. This time, its death is supposed to be final, but it is known that plans are being made to revive the idea, dress it up in a fresh Spring outfit, bring it out as the angel of public school education and the Santa Claus for sadly depleted county and city treasuries. Through an ingenious proposal to split the proceeds between the schools, counties and cities, basically, this is the familiar "aid" method of increasing taxes, which has been a prolific cause of the increase in the cost of government in this country for the past ten years.

Those who oppose new taxes will need to be alert during the closing days of the session of the Legislature. It is also well to bear in mind that up to the present time the fundamental causes of high taxes have not been removed. Nothing has yet been done that will provide effective barriers against a return of extravagance, once the present emergency is passed. Changes have been proposed, which, if finally adopted, will give some degree of permanence to measures of economy. The fate of these really constructive changes is still uncertain and there seems to be possibility that some of them will fall.

The amendment in the Senate proposing to the State ad valorem tax for general revenue purposes from 35 to 15 cents has been engrossed in the Senate but apparently lacks the required two-thirds support to submit it as a constitutional amendment.

The amendment placing an arbitrary limit on total expenditures of the State government has been finally passed by the Senate by the necessary two-thirds vote. It is yet to go through the House. The judiciary reorganization amendment making drastic changes in the set-up of the courts and promising important economies, which passed the House sometime ago, awaits an uncertain fate in the Senate.

Amendments proposing reorganization of costly county government are yet to be acted on. This is also true of a bill which proposes county unit system of public school administration. These latter two subjects are vital, because local taxes are much more burdensome than State taxes.

The Senate has passed unanimously a bill limiting the amount of compensation which would be allowed county and precinct officials. The reductions will radically affect official incomes in counties of populations above 25,000. The top compensation allowed any county official in Texas would be possible only in counties above 150,000 population. The following maximums have been set. Counties under 10,000 population, \$3,000; between 10,000 and 25,000, \$3,250; between 25,000 and 37,000, \$3,500; between 37,500 and 75,000, \$4,250. be-

tween 75,000 and 150,000, \$4,750, above 150,000, \$5,000. The rates do not apply to all fee officers alike. The maximums are for more important county offices. Lower figures are fixed for justices of the peace, constables, etc.

Mr. and Mrs. Carl C. Reynolds of Dimmitt, were guests the first of the week of Rev. and Mrs. Sam A. Thomas and family.

Mr. and Mrs. Herbert Teal had as dinner guests Sunday, Mr. and Mrs. J. R. Teal and two sons, Talma and Buford, of Enochs; Miss Virginia Teal, who is attending school in Littlefield; Bill Teal, of Lubbock and Mr. and Mrs. Ovie Teal.

*If you have*  
**RHEUMATISM**  
*do this*

Get some genuine tablets of Bayer Aspirin and take them freely until you are entirely free from pain.

The tablets of Bayer manufacture cannot hurt you. They do not depress the heart. And they have been proven twice as effective as salicylates in relief of rheumatic pain at any stage.

Don't go through another season of suffering from rheumatism, or any neuritic pain. And never suffer needlessly from neuralgia, neuritis, or other conditions which Bayer Aspirin will relieve so surely and so swiftly.

Gus Shaw of Littlefield spent last week in Sudan.

Mr. McLusky of Kansas City visited in Sudan Friday. He has been attending to business matters on the Halsell ranch.

Mr. and Mrs. L. L. Price and children of Morton visited with friends in Sudan Tuesday. Mr. Price will be remembered as a former Superintendent of the school.

L. E. Slate attended to business matters in Amherst Wednesday.

Pete Caldwell spent Sunday with homefolks in Lubbock.

Mrs. Herman Lyle is recovering from an operation. She is in the Lubbock Sanitarium. Her many friends wish for her a speedy recovery.

**Why Get Up Nights?**

**Make This 25c Test**  
This easy bladder physic is needed to drive out impurities and excess acids which cause irritation that results in leg pains, backache, burning and getting up nights. BU-KETS, the bladder physic, containing buchu, juniper oil etc., works on the bladder pleasantly and effectively as castor oil on the bowels. Get a 25c box (5 grain size) from your druggist. After four days, if not relieved of getting up nights go back and get your money. You are bound to feel better after this cleansing and you get your regular sleep.
