ROAMING THRU RANGER WITH RON...

By Ronald Waters

BIRTHDAYS—come and go. And—invariably—with each one, we get a little older.

Today marks another anniversary. In other words—I'm a year older!

Am lighting 21 candles on my cake. In about five more years—will light that 22nd candle. Jack Benny and I never tell our age!

JULY FOURTH CELEBRATION brought a cloud of dust on roads to and from Lake Leon. Surely this caused local and area people to realize the pressing need for a paved road across the dam. Perhaps we'll get that road. In the meantime, we mustn't be content to sit back with our fingers crossed.

OUR MENTION OF FIGS in a recent column brought about a good response from Rangers. It's always encouraging to know that people are reading my column.

Well, anyway, Mrs. W. W. (Bill) Paschall called and we had a nice chat about figs. She said to tell Virgil Moore of the Eastland Telegram that . . . "We have figs over here, almost ripe, and we'll show them (Eastland) up!" That's the spirit, Mrs. Paschall, and I'm sure we will. In case Virgil reads this—he should note that this is not Ranger's final report (because we're still waiting to be last).

But Mrs. Ruby Springer brought in several figs easily as big as pears, with one measuring nine inches in diameter. T. C. Wylie brought us a juicy fig, larger than average, and Mrs. Paschall reported that her figs are already as big as eggs. Well—let's have more figs—and no fibs!

LOOK FOR some photos taken of Ranger Guardsmen to come in several issues of the Times.

These will not be ready until Guardsmen return from camp, and this is as it should be, because they should enjoy seeing themselves at work—after it's all over with.

SCORE - KEEPERS are still needed in Teen-Age League baseball. I suppose it's a little late to enter a plea for more score-keepers, but here's hoping that some brave soul will volunteer!

SUNDAY IS JIMMY ARRENDALE DAY—and from all indications, sufficient funds will be raised to pay hospital expenses.

Response to the appeal has been good, according to all reports.

MENTION OF any type of lottery is illegal in a newspaper that goes thru the U. S. Mails. It's amazing how few people know this.

That's why you will not find any mention of lotteries—here—no matter how worthy the cause.

EXPLORER POST 16 plans a trip to Dyess Air Force Base near Abilene this Saturday morning.

They will return, following church services Sunday. Give me a call—if you plan to go. Or, better still, attend Post meeting this Thursday at 6:30 p.m.

Well, must be roaming along.

H. L. Shipp Services Held

H. L. (Leroy) Shipp, of Kilgore, a cousin to Mrs. Lettia Smith of Ranger, died of a heart attack last week.

Funeral services were held in Kilgore.

Survivors include his wife, Bess of Kilgore; one daughter, Mrs. B. Langley of Kilgore; one son, H. L. Jr., of Kilgore; his mother, Mrs. E. C. Shipp of Gladewater; three brothers, O. T. of Leuders, Homer and Phil of Gladewater; two sisters, Mrs. E. E. Paxton of Eldorado, Ark., and Mrs. Glen Simons of Abilene; and one grandchild.

NO HOME FOR US CHICKENS—Hundreds of chickens find themselves homeless after a tornado ripped down their coop in Lacosta, Tex. The twister tore across the south Texas town, doing approximately \$65,000 damage.

Peanut Growers Hear Glowing Crop Report

Members of the Southwestern Peanut Growers Association Wednesday re-elected three directors, heard a glowing report of 1938 crop prospects and listened to a U. S. senator and state official holder at their annual meeting held in the Majestic theatre in Eastland.

J. E. Britte of Pleasanton was re-elected director of Texas District 1, polling 66 votes to 56 for Clyde Vaughn Jr. of Pearsall.

Barton Scott of Binger, Okla., was re-elected Oklahoma District 1 director and T. G. Hedley of Wewoka won re-election as director of Oklahoma District 2.

Crop reports from all sections of the Southwest were "excellent." Rain still holds the answer, experts said, however. Too little or too much rain should still damage a hat looks like the best crop in years.

Yarborough Speaks—The number one problem facing Southwest peanut growers and the nation's farmers as a whole, Agricultural Secretary Ezra Taft Benson, according to Sen. Yarborough, who made the principal address of the meeting.

Sen. Yarborough, who left little doubt that he was in the middle of a political campaign for re-election, decided that Benson is "dedicated to destroy the farm program started 25 years ago." He said, "For the first time we

have a secretary who is against farmers."

The speaker accused Benson of "doing everything in his power to turn city folks against the farmer. Yarborough declared farm income has dropped from 14 billion dollars in 1952 to 11 1/2 billion dollars in 1957 under the Republican administration.

"Farmers cost go up and up and the price the farmer is paid goes down and down," the Senator stated.

He charged that while the farmer's income has dropped, the price of food sold to the consumer continues to increase.

"Who profits?" he asked. That he pointed his finger at "the big food distributing chains."

He accused the Republican Party of doing "their best to force down the price of peanuts," and he said Benson turned a deaf ear to pleas of "your peanut officials" program.

Yarborough pointed out that this price support on peanuts was lowered \$10 to \$12 a ton last year, and he charged Benson in now again trying to lower supports.

Hits Opponent—Pointing a finger at his senatorial opponent, without calling him by name, Yarborough said price supports on peanuts cost \$6,800 in the last six years. Then he said that Braniff airlines in that same period was subsidized \$10,000,000.

"Why is it creeping socialism," he asked, "to pay out six million dollars to thousands and thousands of peanut growers and a good sound program to give out 10 million dollars to one airline!" he implored.

"It is time to melt down all of the Ike buttons and turn them into loud Democratic donkeys," he stated.

SCS DISTRICT NEWS 'Cooperation' Need Stressed By Group

(Editor's Note: The following article was prepared by members of the Upper Soil Conservation work unit).

Maximum conservation is achieved when all programs, agencies, and each level of government is cooperating fully with local people and groups of people. Full team work is of vital necessity in getting planned soil and water conservation programs on all farms and ranches.

Team members in this immediate area include the Upper Leon and the Palo Pinto Soil Conservation Districts and the district supervisors, the Agricultural Conservation Program Service and the Eastland County ASC Committee, the local Soil Conservation Service work unit, and local conservation contractors who are so ably assisting in the application of permanent type conservation practices.

The two Soil Conservation Districts in this area were created by local people as local units of government created under State law. They were voted in by the people as a means of carrying out local conservation program, and have a memorandum of understanding with the soil conservation service where by the SCS furnishes technical assistance to district contractors.

The Agricultural Conservation Program Service furnishes federal cost share help to land owners in applying approved county conservation practices. The Soil Conservation Service furnishes technical assistance on permanent type conservation practices to farmers participating in the ACP program.

District Supervisors and Committee members of the ASC committee are all local farmers and ranchers elected to their terms of office by their local landowner neighbors. These men work closely with respective agricultural agencies and other agricultural workers in this area to stop.

A two-car collision east on Highway 80 Monday morning resulted when Gayle L. Doyle of Fort Worth swerved in his path, driving a '36 Chevrolet, and collided with William H. Jackson of Ranger according to a report received Wednesday.

In an earlier account of the accident, information was incorrect. Jackson slowed down to make a left hand turn, while driving a '50 Ford. Doyle approached from behind, going in the same direction, but failed to see the other car in time to stop.

Sen. Bradshaw Endorses Ramsey

Senator Floyd Bradshaw of Weatherford (District 21), who was in the Times office Tuesday, announced his support of Ben Ramsey of San Augustine for re-election as Lieutenant Governor.

This is the first candidate endorsed by Sen. Bradshaw in 10 years.

SEN. FLOYD BRADSHAW endorses Ben Ramsey

"I am personally supporting Ben Ramsey for re-election as Lieutenant Governor because I think I can do my job best for you under the experienced leadership of Ben Ramsey as presiding officer of the Senate in which I serve," Bradshaw stated.

In his statement endorsing Ramsey, Sen. Bradshaw said that Ramsey has contributed considerably to the success of constructive legislation in this district. He believes that Ramsey is a man of integrity and fair-mindedness.

Pirates Beat Cubs 11-10

Pirates slipped by the Cubs 11-10 in a close game in Minor League play Tuesday night, before a good crowd of fans.

Pitching for the Pirates was David Whitefield, who made two runs and David Dunson. Cubs pitchers were Dwight Dunn and Johnny Williams.

Running for the Pirates were Don and Dowell Hartfield, outstanding players with three runs each. Scoring two runs were Rudy Mendoza, David and Joe Whitefield. Dunson made an outstanding hit for the Cubs, scoring three runs. Rocky Spuyers made two runs. Other scoring were Dunn, Milton Kennedy, L. R. Pearson, Betty Elder and Wayne Bennett.

Pirates made 11 runs and eight hits. Cubs made 10 runs and 10 hits.

Baird Downs Ranger 8-3

Baird Rodgers downed Ranger Junior leaguers 8-3 in Teen-Age play at Baird Tuesday night.

Charlie De Los Santos, Ranger pitcher, hit a home run in the fourth inning to make the score 5-3 at that point. Other runners for Ranger were Joe Barker and Teddy Noleby.

Baird gained eight runs on five hits, limiting Ranger to three runs and two hits.

Pound Population From 154 to 8 Dogs

By El Diablo

Editor's Note: Our little pound dog wandered back into the office Wednesday morning—He's the one who has come thru with two previous dog stories for us.

This time, we discovered that he is half hound and half dachshund—that makes him all hound.

After considering names, such as ag Gitano, Nero, and Othello—we finally decided upon Diablo.

Now let him speak—or rather type—for himself!

Also! Alack! I'm beginning to wonder how much good my previous story—on dog tags—has done. Also—I'm beginning to lose faith in humans.

Last week, I wandered over to the dog pound to count noses. Judging from the number of barks and growls, there must have been at least 154 dogs imprisoned.

Wednesday I returned to find only eight dogs and three puppies. I shudder to think of what happened to some of the rest. Oh yes, in one corner of the dog pound is a black mother spaniel with three babies. I surely hope the master will rush down and bail them out.

I can only blame the present situation on masters who do not know the city ordinances of Ranger on the matter.

All dogs must be vaccinated

Drennon Daves Resigns Here As RHS Coach

Drennon Daves, assistant high school coach for the last year and one-half, is resigning to accept a position at Kermit—according to an announcement made by Harold Barrett, head coach, at Rotary Club Wednesday.

Daves' resignation is subject to approval by the school board which will hold a meeting this Friday night.

Barrett said that no definite replacement has been selected, but Daves successor would be selected by a joint group—consisting of the superintendent, principal, himself, and school board members.

Daves coaching, here, was summarized as "A fine job . . ." by Barrett. He married Melba Creager of Ranger, and lived at 112 1/2 Rusk.

Daves will coach baseball and the "B" team at Kermit next fall. No official announcement has been made, because G. B. Rusb, superintendent, was out of town this week.

Billy Nichols Joins Army

Billy Mack Nichols, 321 Mesquite, enlisted for three years in the U. S. Army.

He left Thursday for Abilene where he will be sworn into service. From there he will go to Ft. Carson, Colo., for basic training. Nichols is the son of Mr. and Mrs. W. C. Nichols and a graduate of Ranger High School.

Sunday is Jimmy Arrendale Day.

Local churches will observe the day set aside to raise funds for hospital expenses incurred by Jimmy Arrendale, grandson of Mr. and Mrs. Frank Arrendale, who injured his back while visiting here.

According to a late report, hospital expenses for Jimmy will total over \$1,000, including doctor bills and other medical expenses. Over \$300 has been raised to date.

At the present time, Arrendale is in a cast down to his hip. He is resting at his home, located at 339 Rae St.

Calls will be taken at the First Baptist Church Sunday from 2 to 5 p.m. About six volunteer workers will go by the homes of donors at that time.

Ranger and area residents may contribute to the fund Sunday by calling 179.

Sponsored by the Ministerial Alliance, and headed by Rev. Ralph Perkins, of the First Baptist Church, the hospital fund drive will continue indefinitely—until the fund is raised.

Rev. Perkins expressed his hope that the drive would be completed Sunday, however.

Churches will not pass collection plates Sunday, according to Rev. Perkins, but appeals will be made and containers will be placed in participating churches. Clubs and lodges that want to contribute can mail their contributions to Mrs. Sandford Pearsall II or to Rev. Perkins.

Jimmy was not on the job when he received his back injury, and does not draw any compensation from Gulf Oil Co., his employer, while off duty. He was working on an automobile which toppled from a jack at the time of the accident.

Arrendale is a relief employe and not a regular employe of Gulf Oil Co. of Midland. It is a policy of Gulf to work students during the vacation period in order to help them further their education.

He is a student at Southwest Texas State Teachers College in San Marcos.

Firemen Rush To Blazing Pit

A caterpillar tractor rolled down into a pit at Featherlite Corp. Tuesday, plunging into a fiery pit where it was heavily damaged.

Three trucks of Ranger volunteer firemen rushed to the scene to pull out the caterpillar. After calling Brookridge for a wrench truck, they recovered the vehicle heavily damaged.

Volunteer firemen found no water supply readily available at the scene. They used the booster pump and later refilled it.

According to one report, the caterpillar was left in gear, but it threw out the clutch.

Revival Set At Merriman Baptist

Merriman Baptist Church will hold a revival, starting this Sunday, with Dr. L. T. Grantham of the Highland Park Baptist Church of Abilene conducting services.

George Falls will direct the singing, and Miss Jan Falls will be the pianist.

Jack Walker, pastor, invites the public to attend.

All unclaimed dogs will be—ugh!exterminated at the end of that period. Should anyone care for an unclaimed pet, they may pick it up at the pound by agreeing to vaccinate the dog.

Dog owners—for whom we hunt and trap, for whom we would gladly die—may recover their impounded pups and dogs for \$1 pound fee.

Now—isn't that simple? That's all there is to it. So—please—vaccinate your dog today. And if you find him missing—bail him out of the pound!

Heard that 100 dogs have coaxed their masters into buying tags since June 1. Surely there are more hounds, mongrels, thoroughbreds, poodles—and the like in Ranger.

Dogs—unite—and drag your humans out to the veterinary clinic!

SPORTS CORNER

By James Germany

This being the second week of my "Sports Corner" column, I'll try summarizing the skiing tournament, Minor League baseball, Little League baseball, junior league baseball, and last but not least—senior league.

As for the skiing tournament, Mr. Weather was real nice to the contestants and the crowds which attended the Fourth of July celebration.

A total of 58 contestants entered in the skiing contests. First prize went to Richard Dalton from Austin, best all-around skier.

Hundreds of spectators watched as skiers from all over the state put on a fine skiing show which included the skiing contests, professional skiing and trick skiing. The skiers, as well as the spectators enjoyed every moment of the celebration.

The Lake Patrol, as well as the Game Wardens, had a Holiday, because no major accidents occurred. Just minor ones.

I would like to thank JIM TOWNZEN for his courtesy in pulling the skiers in the contests. I'm sure all the contestants, as well as people from surrounding towns, appreciate him, too.

Minor League boys played Tuesday night, and a good crowd was on hand. The winning team was the Pirates, the losing team being the Cubs. The score was 11-10.

I talked to the Minor League coaches, and they said all the players are playing fine baseball and showing improvement. So—let's keep attending the games, and giving these boys our support!

Two games were played Monday night in the Little League. The first game was between the Yankees and the Giants, the

Spot Treat Johnson Grass

COLLEGE STATION — The newest, easiest cheapest and most effective way to control Johnson grass in row crops is to spot treat with naptha or dalapon, according to Fred Elliott, extension cotton work specialist.

Many naptha oils and oil mixtures are satisfactory for the crown treatment of established Johnson grass, while dalapon and other proven fortifiers can be added to diesel fuel oil or kerosene according to the manufacturers' directions to increase the effectiveness of these oils. Diesel fuel oil or kerosene fortified with one percent pentachlorophenol by volume is usually as effective in killing Johnson grass as the naptha-type oils used alone.

Several kinds of sprayers may be used to apply these oils, points out Elliott. The Texas gravity sprayer is best suited for crown-treatment of six-inch Johnson grass sprouts in crops when a free flowing oil is used. The Texas slidegun is for coarse work such as the non-selective spraying of thick stands of Johnsongrass in spots sparse enough for the "crop in the spot" to be sacrificed.

The Texas jetgun permits efficient, economical and selective treatment of sprouts in row crops with either oil or water sprays. It is a squirt gun and works like a water pistol. It can be used to hit a target varying in size from a dime to a dinner plate.

County agents have full information on spot-ciling Johnson grass, the materials and equipment to use and where they can be obtained.

grower gets less than half a cent out of every sale of a five cent bag of peanuts.

The Senator praised the Peanut Growers Association for their efforts to increase the use of peanuts, and said that in the last year eight percent more peanuts were used.

He said farm income is down 19 percent since 1952, and is now the lowest it has been since 1943. He also said farm population is down 12 percent and quoted figures showing the average farmer makes 69¢ an hour compared to \$2.07 an hour for industrial workers.

White's Comments
State Agricultural Commission

John White said farmers had been the "whipping boy" too long. He said that agriculture is a crossroads and must go forward or backward.

"All the farmer asks, he said, is action when they are right and an explanation when they are wrong." He accused Republicans of trying to make the farmer appear to be a beggar.

He urged putting farm to market road construction in front of super highway work, but later said, "every tourist that comes into the state is worth as much as a bale of cotton and he is about twice as easy to pick."

"The farmer is the only fellow I know who sells wholesale and buys retail," he concluded.

The Majestic Theatre was almost full and hundreds of persons went to Eastland City Park following the meeting for barbecue.

Murray Cox broadcast his farm program during the noon hour from the Majestic stage.

NEWS FROM DESDEMONA

Miss Loveda Carr of Midland was here for the holiday weekend. A sister, Linda, who has been visiting for two weeks came home and her mother, Mrs. Carr, with her on Sunday for a visit with Loveda and another daughter, Mrs. LaKue Campbell and family of Odessa.

Clayton Williams who was released from the Gorman Hospital on Monday of last week, re-entered the hospital again on Friday. He is quite improved and expected to be released again some time this week.

Mr. and Mrs. Kenneth Wittie of Kermit spent the weekend here enroute home from a vacation trip through Colorado and other points of interest.

Mr. and Mrs. Floyd Redwine of Fort Worth spent the holiday weekend with her parents, Mr. and Mrs. Willie Jacobs, and his parents, the Redwines.

Mr. and Mrs. Grisham of Abilene spent the past weekend there with her parents, the Benny Belyeys.

Mrs. Bill Norris of Dublin spent the past weekend with her mother, Mrs. Ida White.

each year.

By being in the conservation construction business contractors are able to use special heavy machinery for the most efficient building of conservation structures. Without contractors few farmers would be able to use heavy machinery.

To most contractors the job is more than a livelihood. The need for conservation is apparent to them and they take pride in doing a job of lasting benefit to the country. Structures built by local contractors usually exceed specifications, and they all take pride in seeing their work stand up under severe tests such as flood producing rainfall.

Contractors lend a frequent helping hand to SCS technicians in staking and checking structures for compliance. Many landowners have been prompted to do needed conservation by the fine knowledge and understanding of our local conservation contractors.

Wednesday night here with his parents, Rev. and Mrs. Buel Bryan. Mrs. Bryan and Jimmy left Thursday for Odessa where Mrs. Bryan will assist Jimmy in moving to a new location.

Mr. Ed Williams and her daughter, Mrs. Merlene Wisdom and children of Fort Worth and Mr. and Mrs. Wayne Baker and children attended the Woods reunion in Lamesa the past weekend. Fifty-eight were present on the Fourth of July.

Mr. and Mrs. Earl Stewart and daughter, Sandra Lynn, are here on vacation with her parents, Mr. and Mrs. J. M. Wilcoxson. L. and Mrs. Carson Loving arrived here from Washington late last week. L. Loving is being transferred to California. Mrs. Loving is the daughter of Mr. and Mrs. Aaron Henslee.

The Richard Krapfs of Fort Worth were here for the weekend. Visitors in the H. C. Abernathy home during the weekend were a niece, Mrs. J. B. Hamilton and children of Morgan and a nephew, Mr. and Mrs. Arlie Fuqua and children of Leaders.

Mrs. Effie Rouse had three of her four sisters with her last Wednesday. They are Mrs. Nettie Overby of Jacksonville, Mrs. Ellis Curtis of Goldthwaite and Mrs. Winnie McNeely of Hamlin. The other sister who lives in California was unable to come.

The new operators of the "Cofe Cup" Cafe here are Mr. and Mrs. Bill Wood. They cordially invite everyone in to visit and see what they offer. Mr. and Mrs. B. E. Belyeu were former operators.

Salad Platter Easy-On-The-Cook

What could be better on a hot summer day than a one-platter super-salad served with tall glasses of sparkling iced tea? Make Apple Sauce Salad early in the day, or the day before if you wish, and unroll it just before serving time. It boasts an unusual and exceptionally good flavor blend, and a cool delicate green color.

Chill a can of tuna or salmon and put in a nest of crisp greens. Slices of canned luncheon meat or ham and cheese, with a mound of ripe olives complete the platter food. With generous glasses of iced tea, crackers, and layer cake from the bakery, your meal is complete.

Apple Sauce Salad
 1 pkg lime flavored gelatin
 1 cup hot water
 1 can (16 oz.) apple sauce
 1/2 cup chopped nuts
 1/2 cup sliced stuffed olives
 3 tablespoons mayonnaise

Dissolve gelatin in water; add apple sauce, nuts, olives and mayonnaise. Pour into ring mold or pan and chill until firm. Unmold and garnish with crisp salad greens. Serve additional mayonnaise if desired. Six servings.

ISSUES STATEMENT

JUVENILE DELINQUENCY

I will co-operate with parents, law-enforcing officers, ministers, church and civic groups in an effort to reduce juvenile delinquency to the minimum.

FARM TO MARKET ROADS

I will work diligently to obtain the maximum appropriation of funds to construct Farm to Market roads—I would rather see every farmer and rancher have easy access to a good road than to have a half dozen super highways in the county.

FARMERS AND STOCKMEN

I will cooperate in all programs (in so far as funds will permit) having for their purpose the betterment of our farmers and the promotion and protection of the interests of our ranchers and stockmen.

OUR OLD PEOPLE

My concern for and interest in our old people is a matter of record. As a Member of Congress, I voted to give our old people a Federal Pension of \$100.00 per month—I was the only one out of twenty-one Members of Congress from Texas to vote for such bill.

Regardless of rumor to the contrary, I favor continuing the distribution of surplus commodities (furnished by the Government) to our old people. However, I am opposed to the program being used for political purposes.

PENSIONS

Representations that the County Judge has authority to either lower, raise or stop one's pension, whether it be a state or veteran's pension are not true and are made in order to try to obtain votes.

Our county's business is a big business. Since it operates solely on our taxpayer's money, I believe strictest economy should be practiced to protect our financial interests and at the same time provide the services needed to our citizens.

I earnestly solicit your vote and influence on the basis of my past record and qualifications.

Now... enjoy a new ultimate in hearing— with PRESCRIPTION HEARING GLASSES

This announcement of these new glasses comes after many months of intensive study, testing and training.

As optical craftsmen for many years, we realize the importance of hearing glasses designed to allow proper fitting, offer maximum concealment and provide finest hearing fidelity.

We sincerely believe that PRESCRIPTION HEARING GLASSES—distributed only through professional ophthalmic channels and dispensed only by optical specialists—satisfy these requirements.

Notice these outstanding features:

- smallest, neatest temple for maximum concealment
- completely-adjustable temples for greater comfort
- new engineering features for greater fidelity

Compare the trim, sleek, tapered silhouette of these temples—the smallest soft-contained hearing temple ever manufactured! Smart, slim design eliminates all unnecessary bulk and provides greater beauty, more comfort.

The very latest electronic developments are incorporated—including transistors and other "miracle" sub-miniature components. Design features enable you to enjoy full, adequate power without fear of "feedback" or "feed-back." Units are completely adaptable to care for any special hearing requirements.

AS IT LOOKS FROM HERE

By OMAR BURLESON
17th District

WASHINGTON, D. C. —Since recorded history, riots have occurred among people all over the world. In many countries today it is a national expression. Particularly in countries where people are of high emotional nature, it is an expression of political discontent. Especially is this true of student groups.

It is difficult for us to understand the influence of university students in this respect in Latin America. Student riots many times become the forerunner of revolution in one form or another. Riots which have occurred in this country have been of a different nature. Largely, and almost without exception, they have been race riots spontaneously erupting.

called political demonstrations, which could easily develop into political riots. In fact, a large group of Hungarian refugees demonstrating in front of the Soviet Embassy in New York, in an attempt to destroy or damage the Embassy property, resulted in the injury of a number of policemen.

In the past few years it has not been uncommon to see marchers parading up and down the streets outside the White House grounds. One look at the usual demonstrators immediately identifies the individual. It is not being the usual American type, but rather some imported type. They are the ones who would injure American property and destroy American property or that for which the United States is responsible.

It makes no difference as to who they are or for what purpose they are demonstrating, it is not the American way of doing things and would not occur, were we not opening the doors to a lot of people who should not be permitted in this country.

in any way they see fit, but not by force and violence. The American remedy against what they believe to be wrongful actions on the part of government officials or government police is by voice and pen; by public or private conversation, and by petition.

Mob action and the spirit of force and violence resulting in riot, is about as un-American as can be. It violates the total concept of our system of government and gives reason for false propaganda to our enemies.

A Senate Committee is now investigating the Mafia, an Italian criminal society originating on the island of Sicily. The inquiry particularly is directed as to this criminal organization is infiltrating respectable organizations in the United States. By reports, it seems some Senators are astounded that these alien gangsters have not been deported. As mentioned in this column some weeks ago, it is seemingly impossible to deport an alien as long as he has money enough to stay in the courts. Furthermore, it seems he can get political help to remain here and

END OF THE 'EMPRESS BAY'—With the Brooklyn Bridge in the background, the bow of the gasoline tanker "Empress Bay" slowly slides beneath the waters of the East River. The tanker was rammed by the Swedish freighter "Nebraska," which was towed to port still afloat. Two crewmen aboard the tanker were killed but 49 were carried off the doomed ship by fire-fighting craft. The fire and explosion on the tanker after the collision spread to both ships and the Manhattan Bridge overhead. A warning buoy is in the foreground.

engage in crime, which is costing the American taxpayer almost \$12 billion annually.

At the same time, there are those who continue to promote government programs to admit people we call "refugees" and "escapees" who congregate in ghettos in the great cities to con-

tribute to this unhealthy condition which is manifesting itself more and more.

UNSOLVED PROBLEMS

For centuries men wanted perfect laws. For them, change was sacrifice.

For example, the Romans enjoyed the fiction that their law merely interpreted their first, changeless, Ten Tables.

Today we know that no lawgivers can foresee how their laws may fail, and so we provide for basic changes in our Constitution, and by two methods:

1. By a two-thirds vote of each House, Congress may send a proposed amendment to the state legislature for ratification.

2. As yet unused, the second method would allow Congress "on the application of the legislatures of two-thirds of the several states" to call a convention for proposing amendments.

Trying to follow the second method, the lawmakers of 32 states — or two-thirds of them — have approved resolutions for a constitutional amendment to limit income taxes. You might think that Congress would have to call the convention to amend the Constitution.

But meantime, eleven states have turned around and rescinded their approval; and governors of two other states have vetoed the legislative acts.

Query: Have two-thirds of the legislatures applied to "all a convention"? Are all the state resolutions now in force? And if so, how does one make Congress call the convention? No Founding Father, it seems, had foreseen such a problem.

Even the U. S. Supreme Court in 1939 found such questions "political" and not "subject to judicial guidance."

Maybe each age should have such problems to think through. They might teach that even our best laws can stand study and improvement.

(This column, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

SAFEWAY

A DITCH YOU CAN CARRY!

How many farmers have watched their crops die under a blazing sun and wished they could produce rain by waving a magic wand? Nobody has invented a "rain wand," of course, but scientists have produced the next best thing—a movable irrigation "ditch." Produced from Enjay Butyl rubber, irrigation tubing is manufactured in 50 and 100 foot lengths and 8 or 10 inch diameters. A 50-foot length weighs about a pound a foot. That's less than a bushel of corn! Easy to assemble, butyl irrigation tubing delivers as much as 3,500 gallons of clear water per minute exactly where a farmer wants it—and when he wants it. No magic wand will ever do that.

I GIVE YOU TEXAS

By BOYCE HOUSE

Signs of the times in New York: One sign said, "Join the YWCA—I tried but they wouldn't let me. Saw an establishment with a big sign, "Ho-Ho" so I said, "This should be a good place for laughs," entered—and found myself in a Chinese restaurant. A sign at the entrance to Herald Square reads: "No bicycle riding, no roller skating, no ball playing, no dogs at large, no peddling." In short, manners don't allow no piano-playin' round here. An apartment house near Broadway displayed a sign, "Vacancy"—which was hardly surprising as the first floor was occupied by a school for drummers.

And seen at a distance of a block—a sign on a theatre, "At last, a hit!" But I found the showhouse closed and a sign on the door, "Refunds at Belasco Theatre." Truly, there's no business like show business—heart-

aches as well as glory. Just a few signs seen in New York.

It has been told innumerable times but it's worth telling again because it is a human story.

Many years ago, a man died in New York and friends were arranging for the service. One of them mentioned that the man had been on the stage. At once, the pastor of the big church said, "We will not conduct the funeral of an actor!" Joe Jefferson, most beloved of American actors, asked, "Then where can we go?" The minister replied, "There's a little church around the corner." Jefferson said, "Then thank God for the little church around the corner." So the service was held there. And that is how the most famous church in America received its name.

Do you belong to any organization of any type? Most homemakers belong to at least one church organization, maybe a civil club, and perhaps a home demonstration club. If you belong to any of these things, then you realize the importance of parliamentary procedure which is good and simple. Parliamentary procedure is the etiquette of organization. Its purpose is to enable groups of people to reach conclusions and to plan work in a short time and without confusion. Its first rule is the first rule of etiquette which many of us learned as a school exercise.

"Politeness is to do and say. The kindest thing in the kindest way."

When one wishes to make or discuss a motion or to ask a question or give information related to the subject under discussion, he should rise and address the chair by saying, "Madam" or "Mr. President" or "Chairman", or by calling his special title if he has one. Of course, one should never try to obtain the floor when someone else is speaking unless the speaker is out of order or there is a real emergency.

In very small informal groups the member need not rise to address the chair. In large groups where the members do not know each other well, the person wishing to obtain the floor will give his name and perhaps add some identifying remark to the chair, the secretary, and the other members of the group may know who is speaking. The correct form is, "Mr. President, Mrs. Richard Roe of Pike County". The chair then repeats the name. This recognition gives permission to speak.

Good members make good clubs—a good club fills a definite need in a community and is worth working for.

Try these suggestions for making your club a good one:
Be at the meeting place and seated at the time the meeting starts.

Pay close attention to both the business meeting and the program. Take part in the discussion and give your ideas to the club.

Accept your share of the responsibility for the work of the club. Tell the president what your interests are so you can be put on committees where you can serve best. Accept offices when you are asked to serve. It is an honor to be asked to take an office. Do the "home work" your club promotes.

Show your appreciation to officers, committee chairman and people who have a part on the program. Don't complain.

Be friendly and get to know the members of your club. Friends work well together.

These extra pounds may add up to added discomfort during the hot weather months ahead. Some careful planning now plus lots of will power will lighten the load a bit.

There is no safe way to get rid of excess weight overnight. There are some important factors to consider in starting a weight reducing campaign. First, check with your doctor before starting any plan to lose weight. Many factors play a part in whether a person should reduce and how fast he should lose weight.

Studies have shown that the most effective weight reduction diets are low calorie, high protein, and low carbohydrate. However, a variety and balance of essential foods is still needed by the body. Nutritionists point out also that it's easier for a person to stay on a reducing diet which includes a variety of foods as well as foods which are familiar to the individual.

A good breakfast is always important, even in a reducing diet. Each day's food intake should include two to three cups of milk (may be skim milk), one, or more servings of meat, fish, or poultry, one egg (or at least four or five a week), two servings of vegetable (one dark green or yellow), to or a reducing diet which includes one citrus, at least one tablespoon of butter and two or three servings of bread or cereal.

If you're really concerned about losing weight, get a calorie chart and start counting your calories. Remember that you can reduce the number of calories amazingly by omitting rich desserts—like pie, cake, and doughnuts.

It's commonplace nowadays to have a long life. Proper food can help to make those extra years

happier and healthier. Complaints of a chronic tired feeling, gloomy outlook on life, anxiety over small things, and loss of sleep often are caused from being poorly nourished. The right food helps the body to be at its best, and if illness strikes, a well-nourished body responds better to treatment than one in a run-down condition.

Age doesn't change the kinds of

food needed by the body for proper functioning. Some adjustments may be needed to take care of special problems. For instance, overweight may become a problem as activities decrease unless the amount of food is decreased too. A good plan is to cut down on the amount of food eaten, but not to cut out any food as long as it does not cause discomfort.

The Texas Food Standard is a reliable basic guide for planning meals for any age.

Panthers come to Ranger to play, DAVID LOCKWOOD is expected to start as pitcher. A good crowd is expected to be on hand.
Coach DICK MAXWELL said he believed that the larger the crowd, the better the boys played ball. I agree, so let's all turn out for all the baseball games—if possible.
Last but not least—a summary of the senior league club. A game was scheduled with Eastland Monday night at Eastland. The Ranger Rangers won the game on a forfeit from Eastland, because Eastland couldn't produce enough players for the game on that night.
After Eastland's forfeit, Ranger and Eastland played a practice game.
Tonight, Ranger plays Albany—here at Pony League Park. Ranger's lineup will be Richard Robie, catcher; Jerry Anderson, pitcher; Ronnie Dakevich, and Homer Montgomery, splitting duties at first base and right field; Edward Mendez, second base; Bert Young, third base; Tommy Ford, short stop; Jim Robinson, center field and Gene White, left field.
All senior league players have been playing "top notch" baseball including the outstanding player I mentioned in my last column.
I would like to point out to all the baseball players the outstanding player awards to be presented.
Let's be sure to keep hustling, to keep coming to practice, and to keep up the fine baseball spirit.
This is your "Sports Corner" friend, James Germany, reminding all who participate in every sport, "Practice makes perfect."

Fontier News
The receipts of cotton since 1st of September as far as ascertained in all United States ports, up to the end of last week, exceed the amount of the corresponding period of last year to the extent of ninety thousand bales. Of this increase two thirds, or sixty thousand bales, are from Texas.
Anecdote of Henry Clay.—The great statesman and orator was traveling somewhere "out West," and put up for the night at a country tavern. Mine host in looking over the register discovered the name of Henry Clay. There was but one Clay. Could it be possible that he had this distinguished man under his roof? He was astounded, delighted, and the admirable Boniface bustled forward, and made his rude bow.
Mr. Clay, I believe sir? said he.
That is my name, said the gentleman in his affable tone.
Mr. Clay the Congressman?
Yes, sir.
Well, sir, I've heered of you, and I thought I'd ask you if you wouldn't give me and my old woman a little speech before you go?
Mr. J. Studor, Horticulturist in this neighborhood, presented us on Saturday last, a fine lot of English and delicious grapes of other varieties, also some fine, soft and sweetish peaches—all specimens which show how much industry and science united, can contribute to the comfort and luxuries of this climate. Mr. Studor has set a fine example to our citizens.

Taking a bird's eye view of the crops in most of the Southern States, we are now prepared to say that in no state are there so promising crops as in Texas. We have never seen anything to surpass the crops upon the lower Brazos and Colorado, and we understand that these rich harvests are little more than an average in the whole State.
