

Let's Look At Ranger

A town without support from its leaders is a town without progress. An organization without support is an organization without progress.

A Chamber of Commerce committee without support is a committee without progress. A committee's support comes from its members.

If a committee is appointed for a certain project, each member of the committee should have that project's interest in mind.

Many times a committee that is doing good work will suddenly become inactive because one of its members is confronted with a problem that he can't cope with.

The Ranger Chamber of Commerce has fourteen standing committees. These committees have been appointed to work on fourteen phases of the Chamber of Commerce work.

Through these committees, their chairmen and member, the Ranger Chamber of Commerce will either be progressive or dormant.

The new year is well into its second month. How many of these committees have met and outlined a plan for work to be done this year?

For the next several weeks this column will highlight a committee of the Chamber of Commerce.

The town needs to know what the committees are doing. The Chamber of Commerce will stand a better chance of getting the support of the town if they know what they are supporting.

NOTE: To all committee chairmen of the Chamber of Commerce... Make your plans now for a progressive report from your committee.

AS IT LOOKS FROM HERE

WASHINGTON, D. C. — Almost without exception Federal "programs" start modestly. Almost without exception they take root and flourish into proportions not mentioned or advocated in the beginning. As Federal programs expand, they, of course, become increasingly expensive.

In the last session of Congress the United States Senate passed a measure to create a Youth Conservation Corps, modeled on the old CCC of depression days. The House never considered it. Thus far in this Session no sentiment to revive this proposal has been manifested.

However, bills have now been introduced in both the House and the Senate to set up an agency for a program to be called "Youth Peace Corps."

The general idea seems to be a sort of Foreign Legion of young people armed with good intentions to promote better understanding in under-developed areas of Asia, Africa and Latin America.

President Kennedy has received a report from a "Task Force" which recommends such a program under certain conditions. Evidently the proposal is receiving heavy support from a number of educators and students.

To the romantic and generous-hearted, distant misery is more attractive than misery in our own back yard. A ten minute walk from our Nation's Capitol will take one into the black ghettos of Northwest Washington. It is likely that those who wish to remake new nations and judge them by standards derived by our American experience have never set foot in the slums which exist in every city of the United States.

To attract young people for the sort of mission which it is understood they are to perform, would require a considerable degree of romanticism and zeal. (This latter quality might better be described as "eager beaver" as we used to say in the Navy.) At the same time, reports and advisors to President Kennedy warn against this type.

Be this as it may, one informed writer on the subject suggests that the young American idealists will be in for a severe shock to find that most of his counterparts in these "faraway places," to be completely indifferent to the conditions of suffering of their own countrymen. They are interested in freedom and all the good things we talk about, but the freedom they value is not that of the individual. The freedom they understand is that of political reshuffle which will give them authority over someone else, the best jobs in government, big houses, their own servants, and an automobile.

It would seem evident that if the trained diplomat could not present a clear and favorable image of America in the foreign nation to which he is assigned, it could hardly be expected that the inexperienced youth could better succeed.

DRIVERS SEAT

Did you ever wonder why . . . The person who politely steps aside to let you pass when you meet in a crowded church aisle ruthlessly cuts in front of you on the highway when you both are behind the wheels of your cars . . . You never have to change a flat tire when you are dressed in work clothes, but are sure to have a flat when you're all dressed up for a special occasion . . . Kids who ride bicycles on the highway at night don't realize you can't see them until you're almost on top of them . . .

As Time Goes Marching on—

. . . more and more land titles become involved in an endless chain of normal, every-day events precipitated by marriage, divorce, lunacy, illegitimacy, birth, death, the hidden heir and many other natural and unnatural happenings within the family circle. Thanks to time it has a tendency to cure some titles with possession a controlling influence, but wrecks and changes the status of many others. Your abstract is a safeguard—keep it up to date.

Foreigners do things differently than we, and especially in backward, ingrown, semi-primitive lands. It takes years in many places for an individual to be accepted and years to accomplish anything. Any experienced missionary will so testify. Our foreign representatives could perhaps do a much better job if they were not weighted down with directions from Washington to develop projects of doubtful value on which to spend American dollars.

As an alternative to the youth peace corps idea, it would seem much more wise to create a Foreign Service Academy, similar to our three Military Schools, to prepare those who wish to make a career in the foreign service. Just in passing: "The man who is never strong against anything is seldom strong for anything."

calling out of town?

Here's the fastest and easiest way

FIRST, give the operator the name of the city you are calling and the Area Code for that city.
NEXT, tell her the telephone number you're calling.
LAST, when the operator asks, give her the number you're calling from.

It's easy and fast. For example, just say, "Dallas, Area Code 214, RI 2-1432," and then when the operator asks your number, say, "KL 5-2368." You'll not only save time yourself, but help speed along your call as well.
