VOLUME 3

WICHITA FALLS, TEXAS, WEDNESDAY, SEPTEMBER 8, 1909

NUMBER 101

CASES AGAINST FLAT HABITUES DISMISSED

COMPLAINTS WERE INCORRECTLY
DRAWN AND ARE QUASH-
ED IN COURT.

TO MAKE NEW CHARGES

Prosecution Will Not Cease—Use of
Word "Owner" Proved Fa-
tal Error.

The work of cleaning out the "Flat,"
as the red light district of this city is
known, was given a set back this
morning, when the complaints against
five of the alleged offenders were
quashed in the county court. The com-
plaints were thrown out on a technical-
ity. The complaint contained the
allegation that the defendant was the
"owner, tenant and lessee" of the
property in question. It was contended
by the defendant's attorney, L. H.
Mathis, that one cannot be both owner
and tenant of the same property and
that the use of these words constituted
a repugnancy. This contention was
sustained by County Judge Yeager.
The complaints were drawn by Dis-
trict Attorney Martin.

The State contended that the word
"owner" did not necessarily mean an
owner in fee simple and contended fur-
ther that the tenants, being in control
of the property, were in reality its
owners. The judge held for the de-
fense. New complaints will be filed
shortly and the matter will not be al-
lowed to rest as it stands. It is claimed
by the county authorities that the de-
fendants are the owners of the houses
they occupy. This is the second time
that complaints against defendants of
this character have resulted in their
discharge.

TAYLOR-FOLLOWELL WEDDING.

"Forgive Us and We'll Not Do It
Anymore," They Wired.

Concerning the Taylor-Followell
wedding in this city Monday, mention
of which was made in yesterday's is-
sue of the Times, the Star-Telegram
prints the following:

"Mrs. Followell: I hate to take your
daughter and skiddoo, but I want
Viola and will try to make her a good
husband.—Albert."

This was the brief note received
Monday by Mrs. Lizzie Followell from
Albert L. Taylor just before his de-
parture for Wichita Falls, where it
was his avowed intention to make
Miss Viola Followell his wife.

Mrs. Followell is proprietress of the
Rosen Inn, having assumed charge of
the hotel three weeks ago. Albert
Taylor owned and conducted the Rosen
Inn Barber Shop. When the new man-
ager took charge of the hotel, young
Taylor at once fell in love with her
wonderful daughter, aged about 18, and
his affections were as promptly re-
ciprocated.

Fearing that there would be some
objections to the match on the part
of the intended bride's mother, an
elopement was planned. Miss Follow-
ell's clothing was smuggled out Sun-
day night, and left with a friend of
the prospective groom in the city.
Monday they eluded the watchful eyes
of the bride-to-be's mother and board-
ed a Fort Worth and Denver train for
Wichita Falls.

Tuesday morning Mrs. Followell re-
ceived a message from Wichita Falls,
which read:

"We're married. Forgive us and
we'll not do it any more.—Albert and
Viola."

W. H. H. Thatcher of this city, was
seriously injured this morning at 12th
and Broad streets, falling from the gal-
lery on the second story to the ground.
He sustained a severe scalp wound,
and several bruises, which, owing to
his advanced age, make the accident
quite a serious one.

It is not known how he came to fall,
as there were no eye witnesses to the
accident, but the sound of the body
striking the ground attracted the at-
tention of those nearby.

He had only partially regained con-
sciousness this afternoon and was un-
able to explain his fall. It is believed
that the ladder upon which he was
standing slipped, precipitating his body
to the ground.

He struck on his head and shoulder
landing on several brick which lay on
the grounds, which made his injuries
more painful. He was at once taken
to his home and is reported to be rest-
ing easily this afternoon.

Texas News Service Special.
Shreveport, La., Sept. 8.—Henry Hill,
a negro, lies at the bottom of a creek
near Rayville, as the result of his al-
leged attempt upon Miss Nettie Jones,
who resides at that point.

It seems that the negro attacked
Miss Jones on the bank of a creek,
she fighting him desperately. Her
screams frightened him away and she
gave the alarm. A posse was quickly
formed and captured the black before
he had gone far.

He was thrown into the creek within a
few yards of the scene of his at-
tempted crime and sank, struggling, to
his death. His efforts to save himself
by swimming were frustrated by the
mob. Some were in favor of hanging
or burning him, but the more original
method was decided upon. Quiet pre-

WICHITA LOSES FINAL GAME TO BONHAM TEAM

Bonham 6, Wichita Falls 3.

In what was probably the wind-up
of the baseball season locally, Wichita
Falls was defeated yesterday afternoon,
dropping four out of six games to the
Fannin County lads. The game was a
dull one, neither side showing much
steam and the crowd was glad when it
was over.

Platt pitched for the winners' and
was very effective with men on bases,
and he kept the hits well scattered up
to the eighth inning, when Wichita
managed to get a few in a row. Col-
lier for the locals, was accorded the
usual rugged support and also allowed
hits at critical points in the contest.

The game was devoid of any fea-
tures at all and was just the sort of
contest to wind up a season with.

The score:— R H E

Wichita 000 109 020-3 4 6

MAYBE THE CARS WILL START TODAY, PERHAPS

"Not yet, but soon" is still the
time set for the beginning of the street
car operations and the officials of the
Traction Company have ceased making
prophecies, probably remembering the
old saying about prophets in their own
country.

The Times was informed this morn-
ing that the running of the cars late this
afternoon is among the dim possibili-
ties. This is not published as a pre-
diction, however. The cars must be
running by Saturday and there does
not seem to be any certainty that the
wheels will turn before that date.
The work of installing the machinery
at the plant is now finished.

SKULL IS CRUSHED BY KICK OF HORSE

FIVE-YEAR-OLD JACK CHANDLER
NEARLY KILLED BY BLOW
FROM HEELS.

PART OF BONE REMOVED

Very Delicate Operation Performed and
Child May Survive the Ac-
cident.

Jack Chandler, the five-year-old son
of Mr. and Mrs. J. R. Chandler of 303
Travis, lies at the Wichita Sanitarium
this morning in a very serious condi-
tion as the result of being kicked by a
horse yesterday afternoon. A piece
of his skull two inches in length has
been removed, but he is conscious to-
day, and, in the opinion of the physi-
cians, has an excellent chance for re-
covery.

Mrs. Chandler had just returned
from a drive and had sent the child
into the horse lot after it had been un-
hitched. One of the neighbors called
to her a moment later that the boy
had been hurt and she found him lying
near the stall entrance with his head
lid open by the blow. As she took him
in her arms, the horse kicked viciously
at her and his heels narrowly missed
her head. Dr. DuVal was summoned
and the child was removed to the
sanitarium, where the operation was
performed last night. Dr. DuVal being
assisted by Drs. Walker and Burnside.

A silver of the skull was driven into
the brain and several fragments of the
bone had been broken by the blow. It
was necessary to remove a piece about
two inches square, some of the brain
tissue also being removed. The child
soon regained consciousness and was
taking a lively interest in his sur-
roundings this morning.

The horse has been used by Mr. and
Mrs. Chandler for some years and has
always been as gentle and safe as a
lamb, so that Mrs. Chandler had no
thought of danger when she allowed
the child to go and feed him.

NOTHING PERFECT THAT IS HUMAN

EVANGELIST HAMLIN PREACHES
A STRONG DOCTRINAL SER-
MON AT TABERNACLE.

PERFECTION IS WITH GOD

Man Made Creeds Cause Sad and Dis-
astrous Divisions and Wrangling.

The speaker said in part:
"In looking for human perfection we are sadly disappointed in not finding it in our family or among our friends. So in looking for a model church you will not find it here nor across the street nor anywhere on earth. There is nothing perfect that is human. Perfection is with God and we, like the stars that shine by the reflection of the sun, are only imitators of God's perfect ideals. Jesus promised to build a church, Matt. 16:15-19. He promised to start his work at Jerusalem, Luke 24:47. He trained His disciples and taught them all they should know. Then with a fresh baptism of the Holy Ghost they were equipped to preach the gospel. Peter had been promised the keys of the kingdom, and whatsoever he bound on earth, should be bound in Heaven, and whatsoever he loosed on earth should be loosed in Heaven. So Peter was the spokesman for Christ on Pentecost.

"Let us look at this model church: First, it had a model creed. Peter had confessed, Matt. 16:16. 'Thou art the Christ, the Son of the living God.' Jesus said to him, Matt. 16:17-18, 'Upon This Rock (This Truth), I will Build My Church.' So this became the creed of the church. Short and simple as it is, till the creed the world ever needed. See the sad failure and the disastrous divisions caused by wrangling over man-made creeds. Here is one we all can and do accept. Nothing else ought ever to have been made a test of fellowship. See again what a model preacher Peter was. He proved that Jesus was the Christ from the Scripture. He convinced the hearers that they were sinners. When under conviction of sin they cried out, 'What Must We Do?' He gave an inspired answer, 'Repent and be Baptized Every One of You, in the Name of Jesus Christ for the Remission of Sins, and Thou Shalt Receive the Gift of the Holy Ghost.' Acts 2:37-39. Again, see that this was a model meeting in that all were soundly converted and fully obeyed Jesus Christ, being baptized the same day. See, also, the model religious life as taught by the apostles. 'They Continued Steadfast in the Apostles' Doctrine in Fellowship, in Breaking of Bread and Prayers.' Acts 2:42. They were taught liberality and sold some choice corner lots and gave the price to the apostles for the Lord's work.

"We must not claim today to be models, but we ought to imitate this model church of Jesus Christ, organized nearly two thousand years ago. 'The nearer we come to be like it the more we are in harmony with the teaching of God's Word.'"

At the close of the sermon there was one who came forward to confess Christ.

The subject for tonight will be, 'Fooling Around.' It doesn't fit Wichita Falls in a material way, but it may in a moral and spiritual way.

BASEBALL TEAM CLOSES A SUCCESSFUL SEASON

The Wichita ball team closed its season yesterday, acknowledging supremacy to but two teams, Bonham and Minco. All others were overcome during the season and there nothing but these two teams between the championship of North Texas and Oklahoma. Minco defeated Wichita Falls two out of three, and Bonham four out of six.

During the season just closed, Wichita Falls has established its supremacy over the following teams.

Henrietta, Bowie, Chillicothe, Quanah, Olney, Gainesville, Stamford, Ardmore, Ryan, Farmersville, and two teams from Fort Worth.

About seventy games have been played, the local being victorious in more than two-thirds of the contests.

Some exceptionally fast and clever games have been witnessed on the local lot, and, on the whole, the season has been a very enjoyable one from the standpoint of the fans. The team has changed considerably and at the end had hardly a single one of the boys who began. Probably as many as twenty-five different players held down positions during the season, it being the rule of the management to get good players and pay for them.

It is believed that this season is the last Wichita Falls will see as a semi-professional team. If signs count for anything, a league team will entertain the fans in 1910.

'FLY-LOO' IS PLAYED.

Filipino Game Furnishes Fun For a Party of Notables.

Spokane, Wash., Sept. 8.—'Fly-loo,' a game popularized by the Chinese long before the advent of Confucius and since then the pastime of the Filipinos, served to while away several hours for three members of the United States Senate, the head of a trans-continental railroad, his assistant and chief of its legal department in the west at headquarters of the government irrigation project in Tieton canyon, near North Yakima, Wash., the other day. Howard Elliott, president of the Northern Pacific Railway Company, who 'butted in' with coin borrowed from other players, after losing his own, swept the boards and thus again added support to the superstition generally accepted by the sporting fraternity.

Senator Carter of Montana started the game by placing lumps of sugar on the seat of a camp chair. Each deposited a dime under the cube and waited for the flies to pounce upon the sweets, the argument being that the first fly alighting on a cube declares its owner the winner of the pot. Carter was trimming Elliott to a frazzle, when Thomas Cooper, assistant to the railway man, joined, still Carter continued to win. Elliott offered to bet big red apples, but the Montana Senator declined.

Sensors Paynter of Kentucky and Chamberlain of Oregon then took hands and the former cleaned up \$1.50. Judge Reed of Tacoma, also played in his loose change without as much as a look-in, when Elliott came back. Borrowing 30 cents from Senator Paynter, he won from the start and ended by taking all the money in sight.

It is hinted that the secret of Elliott's success was due to soaking his cube in clover honey, also that he daubed his opponents' lumps with ammonia; but that's another story.

—Tonight and Thursday, generally fair.

SENATOR CULBERSON.

Hon. Robert L. Taylor, the singing minstrel senator of Tennessee, has named Hon. Charles A. Culberson for president in 1912, and the Denton Record and Chronicle remarks that "Texas will second Senator Taylor's nomination of Charles A. Culberson for the democratic presidential nomination."

"Senator Culberson has been the minority leader of the senate for several years now; he has the support of practically his entire party. He would have the solid south, the conservative east can support the Texan and the feeling of the West against the alleged republican tariff revision ought to aid him."

"The party has ignored the South for these many years now, even when the only electoral votes it has received come from south of Mason and Dixon's line. The nomination of such a man as Culberson would stop the threatened disintegration of solidarity of the South and would bring back into the democratic fold some of those near-southern states that have fallen into bad habits politically for the past several years."

The South nominated Mr. Bryan in 1896; it nominated him again in 1900 and it gave him a third nomination in 1908. Should the Nebraskan call for a fourth nomination in the year 1912 there is no telling where the Southern politicians will land. They know that Mr. Bryan cannot be elected president of the United States, but he is such a willing sacrifice it may suit their desires and fit in with their program to stage him again. Like the babbling brook, the Bryan candidacy may go on forever, or until death relieves the donkey of its load.—Dallas Times-Herald.

Oklahoma can brag about her resources till she gets tired, but it will be noticed that when Oklahoma City wanted some shade trees she sent a Texas nursery for them.—Wichita Times.

Oklahoma, like West Texas, has many good things, if she is short of trees, and she has made it pay to be continually advertising her resources by continually bragging on 'em.—Bonham News.

Better to build and boost in a good town than to dry up and blow away as a dead one. The Times isn't ashamed to boast.

The "dry farmers" of Texas held a convention recently. Where were the "wet farmers?"—Wichita Times.

Maybe the "wet farmers" were lying around loose waiting for the rain to come, and helping the merchants who do not advertise to growl about hard times.—Star-Telegram.

The only bad thing about a month with 'R' in it, is that it usually finds watermelons as much out of date as oysters are in it.

It seems that the Times was in error yesterday as to the size of the anti majority given by the two voting boxes in Wichita Falls at the local option election held on Nov. 30th, 1907. Instead of 4 being 72, as stated, the anti majority was 130. The error was unintentional and was not intended to mislead.

Commander Peary only lacked 15 days of being twelve months behind Dr. Cook in discovering the North Pole, and yet it begins to look as if there is a disposition on the part of some to give the honor to him alone.

If Tom Flinty were not such a model man personally, his familiarity with the interiors of all the penitentiaries would make him liable to some very painful suspicions.

"The pole is ours, thank you," wires Peary. You're welcome; don't mention it.

An Apology?

A London Journal says that a lively discussion once took place in a town council in the north of England. One thing led to another till one of the disputants gave another the lie direct. The insulted party rushed forward, and the pair clinched. At that moment the first man exclaimed, "I reiterate that you are a liar!" To the astonishment of every one, the aggrieved party let go his hold. "Oh, well," he said, "in that case I accept the apology. If a man says he reiterates, that is all any gentleman can ask." He did not understand why the bystanders laughed, but the fight was off.

Anything to Oblige.

While crossing the ocean the two sprightly children of very seafaring parents were scampering around the deck. "Tom, dear," said the mother in a weary voice, "the children are too near the railing." But he was too ill to notice, and in sheer desperation his wife nudged him on the arm. "Speak to them, Tom," she said faintly. With a wan smile he lifted his head and said, "Eh—how do you do?"—Ladies' Home Journal.

MALARIAL DISEASES.

How to Avoid Them and the Serious Consequences of Neglect.

"Fix me up something to knock the malaria, doctor," remarked a sallow-faced, sickly looking man, entering a prominent physician's office the other day.

The doctor stepped to his medicine case, took down a couple of bottles, mixed a preparation which he handed to the patient with the customary advice to "shake well and follow directions," and resumed his seat.

"Such cases are frequent," replied the doctor in answer to a question. "The warm days and damp, chilly nights are certain malaria breeders and are most serious in those who have neglected to keep their stomach, liver and bowels in good condition. Such persons are full of the impurities on which the malarial germ thrives, and it is from this class that typhoid fever, pneumonia, Bright's Disease, small pox and yellow fever claim most of their victims whenever these diseases are prevalent.

The proper way to guard against the malarial germ and the serious diseases which follow it is to get into good condition by taking a reliable remedy that will keep the bowels clear and the liver healthy, and to continue with it at frequent intervals during the sickly season.

A dose of Prickly Ash Bitters three or four times a week will do all of this, besides stimulating the digestion, improving the appetite and keeping the bodily energy at the highest pitch.

Prickly Ash Bitters is known everywhere as a system tonic and bowel regulator. It not only removes all traces of malarial poison from the system, but tones up the vital organs, gives new strength and vigor, makes the body strong and the brain active.

"Prickly Ash Bitters is the best all-around medicine for the family I ever used. During the last ten years I have always kept it in my house. Whenever any of my family show signs of malaria, kidney trouble, indigestion or constipation a few doses is all that is needed to make them well and hearty again."—W. H. McWilliams, Pickering, La.

Allendale Items.

Allendale, Tex., Sept. 8.—Messrs. J. N. Gates and Joe Whitten returned Sunday from New Hope, where they went as delegates to the Baptist Association, which met at that place.

Ralph, the fifteen-year-old son of Mr. and Mrs. J. B. Sisk, after being confined to his bed fifty-four days with typhoid fever, is now up, but his little brother, Paul, now has the fever.

Mr. Swearingen returned home last week from a visit of a week to his father in Jones county.

Mr. Reese Scott of Chillicothe, spent Sunday and Monday with the family of Mr. A. E. Gulna.

Miss Vile Smith, granddaughter of Mr. and Mrs. Teague, is able to sit up after an illness of eight weeks with typhoid fever.

Mr. Adam Coker and sisters, Misses Johnnie and Lucy, of Wichita Falls, were the guests of Misses Cora and Olive Guinn Sunday.

Miss Claudia Teague is on the sick list this week with typhoid fever.

Mrs. J. E. Derrick and little daughter, Vivian, who have been visiting Mrs. Derrick's sister in Sterrett, Oklahoma, returned home last Wednesday.

Mr. W. H. Gulna is remodeling and making additions to his house.

Order of Owls Proves Popular.

Dr. W. F. Larimer, who is stopping at 806 Scott Avenue, is organizing an order which is proving a great hit among those devoted to lodges. He is organizing a lodge in Wichita Falls to be known as the Order of Owls, an order full of fun and mystery.

Recruits are being obtained, and an abundance of pleasure is in store for all who look into the mysteries of Owlism.

If you get caught in the Owl trap there is but one way to get a release and that is to become a member of the order.

Dr. Larimer will be glad to explain all details as to the O. O. O. It would be a good idea to be one of the large class going in as charter members.

The election in New York next November will be the most important one in the country. It is the only election in which the whole country is interested, the outcome of which seems doubtful. The only other important contests are in Massachusetts, Rhode Island and Virginia, where governors are to be elected. In the first the Republicans are expected to hold their own; in the second the Democrats will do their best to win their usual off year victory, and in Virginia the Democrats see no reason to fear that their past record of victories will be reversed.

Back Numbers.

"William," said Mrs. Van Gelder to the man of all work, "I want you to clean out that large closet in the hall just outside the parlor. Burn all the old newspapers, waste paper and any other rubbish you may find there." After a short time she met William in the hall carrying in his arms a huge pile of sheet music, the property of her eldest daughter.

"What are you going to do with Mabel's music?" she asked. "Why, burn it, sure, as you told me to. It was in the closet there with the other rubbish." "But I didn't mean the music. Put it back at once."

Noting his mistress' displeasure, William inquired in surprise: "Why, hasn't she played it all?"

Wouldn't Hang the Jury.

An old negro named Ephraim, having been sworn on the jury in a murder trial, for some time resisted a verdict of guilty for no other apparent reason than his strong aversion to capital punishment in general. Finally the foreman explained to him that it was a question either of hanging the prisoner or hanging the jury and that it all depended on him. "Fo' gracious, sah," replied Uncle Ephraim, "on dem reasonments de pris'ner am sho' guilty."

Perhaps.

"My wife is getting so she can cook." "You are prejudiced in her favor." "No, I am not. She gave a tramp a piece of pie last week, and he has been back for more three times." "Perhaps he is after a hero medal."—Houston Post.

THE CENSUS FORCE.

The Number, Classes and Salaries to be Paid.

Washington, D. C., Sept. 8.—Approximately three thousand temporary clerks will be appointed in the Census Bureau of the Thirteenth Decennial United States Census, and the date of the first examination will be October 23, next, throughout the United States, at various cities, according to a circular announcement, relative to the examinations and appointments, which will be issued jointly by the Department of Commerce and Labor and the United States Civil Service Commission. Blank application forms and the circular of instructions may be obtained after September 10th, by addressing the Civil Service Commission, Washington, D. C., the Bureau of Census, Washington, D. C., or the Secretary of the Board of Examiners at the following named places: Postoffice, Boston, Mass., Philadelphia, Pa.; Atlanta, Ga.; Cincinnati, Ohio; Chicago, Ill.; St. Paul, Minn.; Denver, Colo.; San Francisco, Cal.; Custom House, New York, New Orleans, La.; Old Custom House, St. Louis, Mo.

Very few appointments from the October examination will be made before January 1st, next, and not many will be made until April, 1910. The maximum force will be drawn August, next year.

These three hundred thousand appointees will be given salaries of \$600 per annum at the beginning, but promotion to \$900 per annum, at least, will be reasonably rapid for those who render satisfactory service. All appointments will be on probation, subject to termination at one month or any later period if the appointee does not come up to the requirements. In every case the appointments will be temporary and subject to termination as the exigencies of the service may require. All expire by operation of law on June 30th, 1912. The average tenure of office will probably be about one year, but the general duration will range from six months to two years. Not one of these clerks will be eligible for transfer into the classified service.

The temporary positions with salaries of \$1,200 and above, provided by the Thirteenth Census law, will be filled for the most part by the transfer of persons already in the permanent census office, it being expected that the latter organization will supply all other classes of clerks except those mentioned below.

The work required of the three thousand temporary employees is, according to the circular, to consist of four classes: The operation of card punching and card tabulating machines; operation of typewriters, adding machines, and combined typewriter-adding machines; manuscript tabulation and other clerical work; sub-clerical work, such as that of messengers, messenger-boys, watchmen, and laborers. No one will be appointed who is unwilling to work at punching cards or tabulating cards; or to be compensated on a piece price basis. The salaries of subclerical employees will be at the rate customarily paid in the government service.

Appointments to the permanent Census force will be made as heretofore by transfer from other Government departments or by certification from the existing register of the Civil Service Commission.

The conditions governing the formal application and the special test examination require that the applicant must be citizens of the United States between the ages of 18 and 50 years, except persons entitled to preference under Section 1754 of the Revised Statutes may be examined without regard to age, and except boys over 16 and under 18, who if passed, will be eligible for appointment as messenger boys only.

Exclusions from examination comprise people who are habitually addicted to the use of intoxicants or guilty of infamous or notoriously disgraceful conduct, or who are physically or mentally disqualified. Excluded also are persons affected as follows: Insanity, tuberculosis, paralysis, epilepsy, blindness, loss of both arms or legs, badly crippled hands, arms, feet or legs; heart disease, locomotor ataxia, cancer, Bright's disease, and diabetes.

Deaf mutes will be admitted to the examination, and if their names are reached on the register, will be offered employment wherever their action is possible.

We are Going to Give Twenty-six People an Opportunity to Own Their Own Homes by Paying a Small Cash Payment Down and Payments Monthly Without Interest

The Wichita Development Company owns twenty six modern bungalows on Burnett, Bluff and Austin Sts., between Third and Sixth Sts., which we have induced them to allow us to sell on easy terms, *Without Interest or Taxes*, and on which they will carry the insurance until forty-eight monthly payments have been made.

These houses are well built; have concrete foundations; all chimneys built from the ground, and are all pleasing in appearance. They are close in, the property beginning six blocks from the First National Bank. The ground is the highest of any portion of Wichita Falls which lies in the valley, as shown by the statement of City Engineer, Hinckley, which appears in this advertisement. Cement sidewalks are laid over nearly all the property, and every house has a sewer running down alley in rear. The Gas Company has laid its mains down the streets. Each house is connected with city water. Free mail delivery and a school house within two blocks of the farthest house are among the advantages. The soil is deep and fertile and trees and lawns can be grown better than in most parts of the city. When these houses have been sold, as they will be, under these extraordinary terms, and the property is occupied by owners, who will be interested in its development, property values will double.

These houses are practically new, and rent from \$15 to \$20 per month, and at that, are the cheapest rentals in the city. On a house renting for \$15 you double the rent for 48 months and own the house without payment of interest, taxes or insurance, by paying a cash payment down of but \$100.00. On a house renting for \$20 per month you pay a larger cash payment but add only \$10 per month to your rental.

A buys the first house listed, he pays, in cash,..... \$100.00
 He pays 48 payments of \$27 each 1,296.00
 Total cost.....\$1,396.00

48 month's rent saved at \$15 per month..... \$720.00
 Net cost of house..... \$676.00

It is reasonable to suppose that with the growth of Wichita Falls the value of the property will have increased to \$3000.00, in which event the purchaser will have made a net profit of \$1324.00 on his investment.

The Wichita Development Co.,
 Wichita Falls, Texas.
 Gentlemen:

This is to certify that the property owned by your company, Blocks Numbers 121, 122, 123, 144, 145, 220, and 241 has an altitude of from 958 to 960 feet. The altitude of that portion of the city lying between Seventh St. and the Wichita Valley Ry., from North to South and between Lamar St. and Michigan Ave., from East to West, ranges from 951 to 957 feet; in other words, the property owned by your Company is from one to eight feet higher than any portion of the city, excepting such as is on the hill. For example, the altitude of Burnett and Third St. on your property is 960 feet. On the corner of 12th and Scott, which is in a good residence section of town, the altitude is 951 ft; consequently, should the city ever be inundated, the water would be 9 ft. in depth at the corner of Scott and 12th before it would begin to cover your property at Burnett and Third.

(Signed) L. C. Hinckley, City Engineer.

the commission so decides. Each applicant must furnish a medical certificate as set forth in the application form, and, if appointed, may be subjected to a physical examination when he reports for duty. It is announced that few, if any of the 60-day emergency appointments will be made, and none will

Only one kind of examination will be given for the temporary force, and it will consist of the following subjects and weights:

Spelling (20 words of average difficulty in common use), 10 arithmetic (consisting of vertical and cross addition, percentages, and a simple exercise in tabulation), 20; letter writing (a letter of not less than 125 words on some subject of general interest; competitors may select either of two subjects given), 20; penmanship (the handwriting of the competitor in the subject of copying from plain copy will be considered with special reference to the elements of legibility, rapidity, neatness, general appearance, etc.), 15; copying from plain copy (a simple test in copying accurately in the competitor's handwriting a few printed lines, including tabular matter), 15; time (consumed in examination), 20.

The time for this examination is 4 1/2 hours, and in rating it a credit of 70 will be given those who finish inside the time limit. Other minor credits are described in the circular. Upon completing the examination, competitors will be given an optional test in typewriting, consisting of an exercise in tabulation. The intention to submit to the latter examination must be stated in application, and the applicant must bring his own typewriter to the examination room. Those rated at 70 or more will be made eligible.

As a result of the examination outlined above, 5 registers of eligibles will be prepared, and on each register the names of the successful competitors will be arranged in the order of rating. The general register will contain those of 18 years of age and over, who pass. From this, another will be made up of the names of all who have had previous experience in operating card punching, card tabulating, or card sorting machines in Census work. The third register will show those who make an average of 70 in the test in typewriter tabulation. The fourth will contain the names of those male eligibles who are willing to be watchmen, messengers, assistant messengers, and unskilled laborers. The last will contain the names of boys over 16 and under 18 years of age eligible as messenger boys. Separate registers for men and women will be maintained. Persons desiring to become enumerators, supervisor's clerks, or interpreters, should apply to the supervisor of the district in which employment is sought. The special agents' examination will be announced later.

BE DEAD IN FLOOD**

Texas News Service Special.
El Paso, Tex., Sept. 8.—Seven hundred people dead, and the town totally destroyed, is the appalling condition of affairs said to exist at Soto La Marina, Mexico.

If reports are to be believed, the town was engulfed in an immense tidal wave and wiped out almost in the twinkling of an eye. The fact that there have been no refugees from the town strengthens the supposition that the entire population met death in the flood.

Water is said to cover the entire town, not even a housetop being visible above the flood's surface.

Our Own Roast, Mocha and Java Coffee

Sixty per cent Best, Old Government Java, forty per cent BEST Arabian Mocha, not a single grain of anything else. The very best of the World's markets, well aged, roasted fresh by natural gas heat in electrically driven roasters. Other roasters may be able to roast better coffee, but doubtless no roaster ever did.
