This column is published as a daily feature and may not be construed as representing the editorial views of this paper. What follows is merely what the writer has thought at the time it was written, and the writer reserves the right to change his mind concerning subject, without notice, explanation or apology.

Well, there's the first line written. That's a line the reader never sees. It is called a guide line to let the printers know what it's all about. I usually give them a guide line and call it "aches and pains," but the office manager in his yen for economy said for me to change the guide line and make it "gripings" to save wear and tear on the typewriter ribbon. That's paragraph one. Now what shall we write about?

Over there's the politics. Well the one is not warming up so fast as you might think. One guy horns in on another man's thunder and even a smart politician can't make heads nor tails of it.

Some of the candidates probably thought that the county tax payers league meetings would give them a chance to make plenty of speeches and get themselves put down. But the same people attend the meetings every time and the same speakers speak and, taken all in all, it's pretty much like playing phonograph record.

Where is the "Where is it?" did you say? Joe Cole went to Albany to hunt for it. Several of the merchants are going out after what's here. Others are getting by and griping because they aren't doing what they think they ought to.

See where a congressional committee is going to investigate the short selling on the stock market. They think probably there are several times as many shares offered for sale as are actually in existence. I wouldn't be surprised. But never having been an extensive dealer in stocks and bonds in any other way except a few acres of friendship and whatever inherent balance composes my stock-in-trade, I do not fear the investigation. In fact I welcome it. Among other things.

O yes. There's the price of ice. If there's anything that interests me the absolute minimum it is the price of ice. I've conducted a little shopping campaign and tried to find out a few rumors, but all I can find out is that it used to be one price and now it's another price and the other price is approximately 25 per cent higher than the one that was used to be. Now it seems to know or care why.

Being an ice man of more than average experience, I might say that the increase in price was justified. But I won't say it. This is the time for a few acres of spin for sale to whoever has a message to give its readers concerning the reasons for the increase in the price of everything. If the ice company thinks it's any business as to whether or not the increase in price is justified or not, it's their business to tell you about it and not mine.

### Prosperity Drive

#### Benefits Are Seen

Effects of the "Save and Spend" campaign with allied anti-bonding drive, in bringing cash into circulation, have been felt this week among local stores.

Ward & Co., thru Montgomery Ward & Co., thru general manager, Mr. Barham, reported the heaviest buying for the first day of Ward Week since the Christmas season. "I can read that people are coming to the store," Mr. Barham said, "that hoarded dollars cannot be taken from today's bargains," he commented the local manager.

Ward Week, known as the Montgomery Ward low-price prosperity drive, will be continued until Tuesday night, explained Mr. Barham.

The local manager continued, "Ward Week will accomplish its purpose by Saturday night—that is, the grade merchandise at the low prices will be exchanged for hoarded dollars that would otherwise miss the values of 1932, and men out of work."

An interesting sidelight was recalled by Mr. Barham, who stated that during the day, this money, apparently hoarded, had been occasionally secured the past two years.

### COUNTY JUDGE PUZZLES OVER ANIMALS' CARE

Brother of Crash Victim Is Found In New York By Authorities.

Solly Abraham, age about 55, lies in the morgue at Hammes Undertaking company in Eastland and two trained sea lions valued at \$1,500 each are stranded here without a custodian as the result of a wreck inside the Eastland city limits on West Commerce Friday afternoon.

Abraham was fatally injured when a truck he was driving and behind which he was trailing a roadster overturned. The wreck was caused by too sudden application of brakes. He regained consciousness and identified himself and told officers the name and address of a brother in New York city. He died in the Payne hospital in Eastland about 4 o'clock Saturday morning.

Papers found in his possession indicated that he was a trainer and owner of sea lions and had been playing show houses along the Bankhead highway en route from Hollywood. He told officers he was on his way to Kansas City where he expected to join a troupe on his arrival. An adequate amount of money to cover his expenses was found on his person.

Before his death and during his consciousness he was deeply concerned over the welfare of his trained sea lions and cautioned about their being kept in plenty of fresh water and not over-fed.

County Judge Clyde Garrett wired his brother in New York of the tragedy but no definite arrangements had been completed late Saturday afternoon. In the meantime Judge Garrett was looking for someone who was familiar with the care and keeping of sea lions.

"We are going to do our best," said Garrett, "to take good and proper care of the animals and deliver them to the proper parties in good condition if possible. We will probably call on the keeper of the zoo in one of the Fort Worth parks to give us information as to their care and feeding."

### Eastland Will Play At Ranger On November 11

Two changes affecting Eastland high school have been made in the 1932 football schedule, according to Coach Joe Gibson.

The Armistice day game with Ranger has been definitely scheduled to be played on the Ranger gridiron. The game with Brownwood has been changed so that Eastland and Brownwood will play in Eastland on Oct. 21 and Brownwood will play Abilene at Brownwood on Oct. 28. This change was made because the Brownwood Lions will have that day at home without competition in the way of college games being played there.

### Tim Ingram Gets Five Year Term On Guilty Plea

Tim Ingram of Cisco entered a plea of guilty to a charge of assault with intent to murder in the 91st district court Saturday morning and accepted a sentence of five years in the penitentiary. He pleaded guilty at the same time to a theft charge and received a like sentence to run concurrently. He was represented by J. Lee Cearley of Cisco.

Although he waived a jury and a hearing of evidence it is mentioned in the indictment that he attempted to kill G. W. Weathers of Cisco on March 25 last.

### Freight Rate To Have New Hearing

WASHINGTON, April 9.—The interstate commerce commission has agreed to hear complaints that freight rates in 11 states are unfair to interstate shippers. The cases will be heard and the states include Austin, Texas, May 15.

### Cleanest Baby, And Likes It

You can't dispute the fact that little Antonia Morales, shown here, scored a "clean victory" in a contest with numerous other children in the infant schools of Barcelona, Spain, for she was awarded the prize as "the cleanest and best child." The contest was in connection with a campaign for personal hygiene.

### BONUS FIGHT COMES UP IN LOWER HOUSE

WASHINGTON, April 9.—Opposing forces in the cash bonus bill clashed in the house today as preparations were being made for hearings Monday on the \$2,000,000,000 Patman bill. Sharp differences of opinion were disclosed in the debate.

Representative Dyer, republican, Missouri, criticized France, declaring the French were no longer the friends of America. He said the cost of paying the bonus was only one of the many expenses brought on by the war.

Dyer was answered by numerous advocates of the Patman bill under which the treasury would offer \$2,000,000,000 in new money for veterans' payments.

Representative Wright Patman, democrat, Texas, author of the measure, took the floor to declare issuance of the money would bring about inflation beneficial to the whole nation. Representative Rankin of Mississippi, another leader in the cash bonus fight, also declared that inflation was needed to revive commodity values.

Leading advocates of the bonus confidently predicted to the house a triumphant passage of the bill through congress. They said they had sufficient strength to override the predicted presidential veto.

At the same time, however, opponents of payments were lining up forces in an effort to halt a possible stampede. A confidential poll of the ways and means committee revealed a slender majority are at the present opposed to reporting out bonus legislation.

### 'Pretty Boy' Sought After Slaying of Oklahoma Officer

BIXBY, Okla., April 9.—An undercover agent of the state police was slain today in a battle with Charles Arthur "Pretty Boy" Floyd, notorious Oklahoma outlaw.

The slaying brought a general alarm for a renewed manhunt for Floyd, accused in a score of bank robberies and six slayings.

Mrs. Kelly, former McIntosh county sheriff, who has been working on the Floyd case for three months for the state bureau of criminal investigation was shot down by two men who escaped in a green Chevrolet sedan. Before he died he pumped 22 rounds at his assailant.

A. E. Cooper, Burns detective, on the raiding party, said one of the men who escaped was without a doubt Floyd. The other was identified as George Birdwell, Floyd's lieutenant.

### 'Honor Slayers' To Depend on Jury

HONOLULU, April 9.—Mrs. Grace Hubbard Fortescue, socially prominent American and her three naval co-defendants will admit killing Joe Kahi, Hawaii, strapping young native, when their trial is resumed Monday and will "depend upon the jury and island customers for vindications," the United Press learned today.

### CHILD IS NOT BACK AT HOME WITH PARENTS

Think "Chisellers" May Have Money and Do Not Have Baby.

By United Press.

HOPEWELL, N. J., April 9.—Ransom money has been paid to unnamed persons toward the return of the kidnapped son of Col. and Mrs. Charles A. Lindbergh but the baby has not been returned, the United Press learned late today.

While the precise sum of money that changed hands was not learned, it was understood it approximated the \$50,000 demanded by the kidnapers in their original ransom note.

Confirmation or denial that the money had been paid could not be obtained at the Lindbergh home or at state police headquarters in Trenton.

The United Press, however, obtained assurance that the money was free of pretext and prosecution and that so far these persons have failed to return the baby.

There is a possibility the kidnapers are waiting to see if they are free of pretext and prosecution before they return the infant. There is, however, a possibility the receivers have pocketed the funds and that they are now intending to try for ransom money or that they are simply "chisellers" who represented themselves as able to return the baby without being able to do so.

It was understood that Colonel Lindbergh received two or more communications from purported kidnapers and that these communications appeared genuine in view of the resemblance to the writing of the original ransom note and the use of a code arranged therein.

### Commissioners Waiting Word of Tax Committee

The county commissioners court has been waiting for the past week for the committee appointed at a meeting of the County Tax Payers League last Saturday to ask the court for certain information concerning the operation of the county's affairs.

The committee was composed of R. F. Holloway of Ranger and M. C. Franklin and J. A. Beard of Eastland.

The commissioners were invited to meet with the tax payers league last Saturday and give those present information. It seemed that the league was rather indefinite as to exactly what information was wanted and the commissioners suggested that a committee be appointed to decide what information the league would like to have and present the request to the commissioners court.

### Ranger Shooters To Visit Breck

Members of the American Legion Rifle club of Ranger will go to Breckenridge today to take part in a shoot to be held in that city. Pistol matches between Ranger and Breckenridge teams will be featured at the above mentioned event.

Arrangements have been made to hold a tri-city shoot in Ranger each month between the Breckenridge, Eastland and Ranger clubs and a large number of shooters from the three towns are expected to take part in the matches. Dates for which will be announced later.

Next Sunday the Ranger club will shoot over its home course.

### Journalists Elect President For 1933

BELTON, Texas, April 9.—The Southwestern Journalism Congress today elected Cecil Horne, director of journalism at Texas Technological college, as president for 1933. Lubbeck was automatically chosen for next year's meeting place.

### A CORRECTION.

An advertisement appearing in Friday's Ranger Times to the effect that the Oakwood Jersey Dairy handles pasteurized sweet milk—this was incorrect. The Oakwood Jersey Dairy handles sweet cream, sweet milk, sweet cream, and manufactures a milk chocolate drink. The Times is glad to make this correction.

### Copless Town

Entirely copless for a day was Colingswood, N. J., when Mayor Joseph H. Van Meter suspended the entire police force. Sergeant Alben MacCollin, above, led about the streets with the rest of the 22 of the force, lost, without official status. A mass meeting of 1000 alarmed citizens secured their reinstatement after 24 hours.

### LONE BANDIT ROBS PROCTOR STATE BANK

PROCTOR, April 9.—A lone, unmasked bandit this afternoon held up the Proctor State Bank, locked Cashier R. R. Evans in the vault and escaped with \$600, just as the bank was closing for the day.

Evans was the only official in the bank at the time. Three customers came in but the armed bandit, a sandy haired white man of about 30 years, crouched behind the counter and ordered the cashier to wait on the customers.

Evans escaped from the vault 10 minutes later, freeing himself with a screwdriver and gave the alarm.

Investigators believed the bandit had no confederates. It was the first robbery of the bank in 25 years of its history. The bandit overlooked about as much money as he took.

### Ranger, Eastland Golfers To Play Away From Home

Eastland and Ranger golfers will play matches away from home this afternoon, the Eastland club playing at Mineral Wells and the Ranger club at Jacksboro, which is a new member of the Oil Belt Golf association.

Other teams in the association will play scheduled matches on the various golf courses of the association.

### Estes Collects Coins For Humble Oil Co.

TYLER, Texas, April 9.—Half-gallon jars with coin slots lids were distributed throughout the East Texas oil area today by Carl Estes, Tyler editor.

The jars bore labels explaining they were to receive the pennies of independent oil men, royalty owners and business men for the "poor" Humble Oil company, which has stated it was not making enough money to justify meeting the 68-cent oil price.

The labels quoted from the Bible in regard to casting bread on the waters and carried a note over Estes' signature that every penny put into the jars would be sent direct to the Humble president.

### PROHIBITION AGENTS HELD IN SLAYING

DALLAS, April 9.—United States District Attorney Norman Dodge of Fort Worth came here tonight to investigate the murder charges filed today against prohibition Agents L. C. Smith and N. D. Heaton.

If the two are indicted by the grand jury next week District Attorney Dodge or one of his assistants will defend them in a federal court trial.

Two charges of murder and two of assault to murder were filed against Prohibition Agents N. D. Heaton and L. C. Smith at noon today in connection with the killing of Marion McEwen.

### Aged Man Found Dead In Bed At Eastland Sat.

H. R. Wheeler, age 62, was found dead in bed Saturday morning at the home of his sister, Mrs. Annie Hutton near the Texas & Pacific depot, Eastland.

Wheeler was in Eastland yesterday and complained to his friends about feeling badly. He went home and went to bed and passed away silently sometime during the night.

He was well known in Eastland, having been a carpenter here for a number of years. He has children in Waco who have been notified and were expected to arrive in Eastland Saturday afternoon to complete funeral arrangements.

### Hoover Urges "Stagger" Plan Of Employment

WASHINGTON, April 9.—President Hoover recommended a "stagger" employment system and a five-day week for certain categories of government employees today at the initial conference with the national Democratic officials, economy, called to cut the cost of government and balance the budget.

The five-day week was recommended by the president for a period of one year to apply only to persons employed from day to day. Regular employees would be given furloughs from time to time rather than pay cuts.

Chairman McDuffin of the house committee, extended the committee's plan of pay cuts would be better and would do less harm to the workers.

### Ranger, Eastland Golfers To Play Away From Home

Eastland and Ranger golfers will play matches away from home this afternoon, the Eastland club playing at Mineral Wells and the Ranger club at Jacksboro, which is a new member of the Oil Belt Golf association.

Other teams in the association will play scheduled matches on the various golf courses of the association.

### Estes Collects Coins For Humble Oil Co.

TYLER, Texas, April 9.—Half-gallon jars with coin slots lids were distributed throughout the East Texas oil area today by Carl Estes, Tyler editor.

### Blue-Eyed Blond Leads Red Army

Galen Blucher, above, man of mystery and supposed to know all about the Orient, is the commander-in-chief of the Russian Red army now defending the Manchurian-Mongolian border. Less than 40, Galen Blucher organized the Chinese Nationalist army and has seen much service. His ancestry is unknown, although he is believed to be of German-Russian parentage.

### BIDA TRIAL MAY NOT BE ON MONDAY

Due to the absence of Judge Elze Beem from the county, the trial of Frank Bida on a charge of arson in connection with the explosion and burning of the Bida Service station in Eastland a few weeks ago will probably not be held Monday.

The case was scheduled for trial Monday, according to information from the prosecuting attorney's office. Judge Beem was appointed to go to Longview and hold court in the trial of some oil litigation cases and due to the conflict in dates, the Bida trial probably be postponed until Judge Beem returns.

### Love Mandamus Denied By Court

DALLAS, April 9.—District Judge R. B. Allen this afternoon refused the mandamus suit of Thomas H. Love, seeking to restrain local Democratic officials from enforcing the party loyalty pledge in precinct and county conventions.

The suit will be appealed to the local court of civil appeals and from there to the state supreme court, Love said after the decision.

In sustaining the demurrer of the defendants, Judge Allen held that the precinct and county pledge to support the nominees of the party for President and Vice President is not illegal.

Judge Allen said the pledge relates solely to the good faith of the voter and that the Democratic state executive committee has the right to prescribe the pledge.

### Football Star Dies of Burns At Class Fight

SAN BENITO, Texas, April 9. Hogan Billeu, 17, captain of the San Benito high school football team, died today from burns received in a class fight between juniors and seniors at the school a week ago.

Five others burned at the time when a gasoline nail caught from a blow torch, were reported recovering.

In the class fight Billeu led several companions in a charge on a pole where the senior flag was flying. He carried a pall of gasoline and another youth carried a blow torch to be used in bringing down the senior colors. In the scuffle, the gasoline was ignited, covering the youth with blazing fluid.

### ONE MAN WINS SECOND PLACE FOR GRAFORD

Ranger Finishes Third; Breck Fourth and Cisco Fifth.

Eastland took first place in the district track and field meet held in Ranger Saturday afternoon, easily defeating their closest rival by seven points.

The surprise of the meet came when Graford took second place with only one man, winning points for the school. Perkins of Graford accounted for the 19 points won by his school and won second place against Class A schools single-handed.

SOVIET RUSSIA CLAIMS SECOND PLACE

Soviet Russia is ranked by the Economic Review of the Soviet Union, published by the Amtorg Trading Corporation, second only to the United States in volume of industrial output and national income. On the basis of data issued by the German economic research institute the magazine says: "The Soviet Union has advanced since 1927 from fifth place among the nations in industrial output to second place, passing Germany, France and Great Britain."

Macco Stewart, a widely known Texan, has been fed up on Russia. He issued a pamphlet not long since in which he said that Russia was the principal competitor of the United States in the lumber industry, the wheat industry, the oil industry, and the Lord knows how many more industries. He predicted that in the days to come Soviet Russia would be the principal competitor of the United States in the cotton markets of the world.

SPEAKER GARNER PUTS OVER BILLION DOLLAR BILL

Speaker Garner demonstrated his ability as a leader when the showdown came on the billion dollar revenue bill. It was a three weeks' battle and its outstanding feature was the revolt of the rough riders who voted the manufacture sales tax out of the bill prepared by the house ways and means committee.

Now the measure will go to the senate where Senator Joseph Taylor Robinson predicts that it will meet with a warm welcome. There are six and perhaps eight progressive republican senators who may join hands with the democratic minority to put it over, send it to the President without delay and thus preserve "the credit of the nation" by a balanced budget.

Leading members of the New York stock exchange, in the wake of the passage of the billion dollar revenue measure, took prompt action toward organizing all their forces against the transfer tax on securities already approved by the house of representatives.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

LEWIS H. DAY, Editor of the Crowley (La.) Signal, says: "The easiest thing in the world to do is to quit. And the hardest thing in the world is to carry a project through to a conclusion—where it ends in success or failure."

"Regardless of the project, the hope, or ambition of an individual or a group of people, there are times, or periods, during the process of accomplishment when the end seems too far away to merit further effort. When these periods arrive, as they will do in any endeavor, many humans will take the easiest way. They quit."

"Call it lack of courage or what you will. The fact is still there that when the going is a trifle hard, the easiest thing to do is to quit. It is easy to persuade yourself that the ambition, or hope, or project was, after all, not as worthwhile as you first thought."

"In matter of civic importance it is easy to let the other fellow do the work. It is easy to stand idly by and applaud when something worthwhile is accomplished and it is a matter of much satisfaction for people, when some project fails, to say, 'I knew it wouldn't work when they started.'"

"It is particularly easy to slide out of a civic endeavor when the first enthusiasm has died down. It is easy to say to yourself, 'Let George do it.' And when the project has failed it is easy to think like that. 'I did my best, but I can't be bothered with things like that.'"

"Yet you never face the fact that if you, and others like you, had kept working on the project it probably would not have failed. Your community would have been better and you, as an individual, would have profited from the work done for the civic good."

"Trumbull Cheer, in his poem, 'The Quitter,' said, 'It's dead easy to die. It's the keeping-on-living that's hard.'"

"SO IT IS WITH COMMUNITY WORK. IT IS DEAD EASY TO QUIT, IT'S THE KEEPING-ON-LIVING THAT'S HARD."

BEHIND THE SCENES IN WASHINGTON WITH RODNEY DUTCHER

BY RODNEY DUTCHER NEA Service Writer WASHINGTON.—Amusing or deplorable as the fact may be, it appears that the elements in the Democratic party which most hate Tammany Hall may have to depend on Tammany to put over their candidate at the Chicago convention.

It is possible that Governor Roosevelt of New York can win a nomination without the 94 votes of New York state, which will be in the pocket of John F. Curry, the boss of Tammany. And it is possible that those 94 delegates will never be in the Roosevelt column.

Curry May Decide It "THE Roosevelt forces may or may not need it for the big push, but I find it increasingly hard to see how the die-hard Roosevelt elements can possibly stop the governor without it."

Strength in West and South "THE most bizarre feature of the situation is that the vast bulk of the Roosevelt strength is in the west and south, sections which have abhorred and fought Tammany for many decades, and that the backbone of the Roosevelt opposition is among powers for being nominated this year."

Prohibition Agents (Continued from page 1) Glothlin, 451-year-old grocer, and the wounding of his wife after a fruitless effort to buy liquor from a neighbor of the grocer at midnight.

"My investigation discloses that an honest, sober, law-abiding citizen has been ruthlessly murdered without justification or mitigation," District Attorney William McCraw said as the complaints were filed. "I will not agree to a bond for less than \$10,000 for either of the men on the murder charges."

Heaton and Smith in a statement to officers said they went to Irving, 10 miles north of town, last night with a search warrant for the home of Lester Cox as part of a series of county-wide raids. The agents said they found Cox and attempted to buy whisky from him. They said he asked them to come to the neighboring grocery store, where there was better light. Fearing hijackers, Mrs. Cox took a pistol and accompanied them.

OIL COMPANIES MEETING CRUDE PRICE ADVANCE

CHICAGO, April 9.—The Standard Oil Company of Indiana today announced an advance of 15 cents a barrel in its crude oil prices in Kansas, Oklahoma and North and Central Texas, effective Monday, and warned that gasoline prices may have to be boosted to maintain the higher price for crude oil.

HOUSTON, April 9.—Advised that the Standard Oil Company of Indiana had announced a 15-cent per barrel price increase for crude oil in several mid-continent fields, W. S. Farish, president of the Humble Oil & Refining company, a Standard subsidiary, today said Humble did not plan to follow suit.

Other than asserting Humble would adhere to its present price schedule, he would make no statement. FORT WORTH, April 9.—Collapse of the \$1 crude oil price level in mid-continent areas was predicted by Charles F. Roesser, president of the Texas Oil & Gas Conservation association, unless the Humble oil company agrees to demands to boost its prices.

"The situation will reach a climax by the middle of next week," Roesser predicted. "Either other companies will go down to Humble's prices of Humble will come up to theirs. Humble's prices always have been too low."

TULSA, Okla., April 9.—Carter Oil company, Standard Oil of New Jersey subsidiary, has not determined whether it will meet the 15-cent barrel oil price advance in the mid-continent area, the company advised the United Press today.

Says Silver Lining Can Be Seen in Depression Cloud

By HAROLD E. RAINVILLE, United Press Staff Correspondent. CHICAGO.—Carl D. Thompson, secretary of the Public Ownership League of America, believes there is a "silver lining" inside the depression clouds that overhang the business world.

Thompson believes the depression has provided the country a valuable lesson by proving that "the only hope of tax-burdened people lies in public ownership of utilities, gas, electric, transportation and power."

As proof that privately owned utilities have suffered, Thompson pointed to numerous applications by such concerns to state commissions for permission to raise rates. "On the other hand," he said, "municipally owned utilities throughout the country not only are weathering the depression, but are actually, in many cases, carrying the additional burdens of unemployment and heavy taxes created or made necessary by unsettled conditions."

"The more," said the secretary, "seven thousand municipally owned water works in this country and 2,000 power plants. They have not suffered from the depression." In 65 towns, Thompson said, taxes have been eliminated because of revenue from municipally owned utilities. Among these are Ponca City, Okla., population 16,136, and Chanute, Kan., population 9,829.

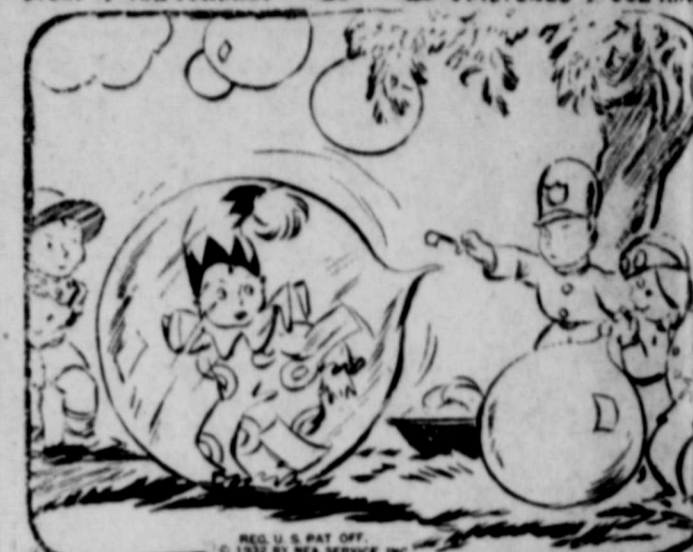

Individuals profit as much, correspondingly, as do towns and cities, from municipal ownership, Thompson said. From the citizen's standpoint, the first advantage is not in the total profits, but in the saving for himself, said the secretary.

One reason, he said, why municipally owned utilities can provide cheaper rates than those privately owned, is they are operated at cost, with no intention of making a profit. Also, cities can borrow money for less than private organizations.

Earth Tremors Felt In Texas MEXIA, Texas, April 9.—Residents here and at surrounding towns were aroused at 4:13 a. m. today by an earth tremor which rattled windows and shook houses but apparently did no damage.

Telephone operators at Teague, 15 miles east, and Wortham, 19 miles north, also felt the shock at the time. DENVER, April 9.—Father A. W. Forstall, seismologist at Regis college, said today that his instruments recorded a disturbance between 3 and 4 a. m. He said his instrument reading led him to believe there had been a "settling of a fault." He said the disturbance was slight.

"Oh, goodness! See what you have done," cried Scooty. "You have spotted our fun. Why did you stick that pin into the big fat bubble man?"

"Just when he was in proper trim you let the air right out of him. Why do you have to do such things? Please tell us, if you can." Poor Duncy! He just hung his head. But, in a moment, Copsy said, "Why, I think Duncy did just right. The man said we'd be soaked."

"A spanking doesn't feel so good and Duncy did just what I would. Instead of trying to call him down, I think he should be thanked." "We still can have a lot of fun, despite the thing that Duncy's done. Let's blow some more big bubbles. They are pretty as can be."

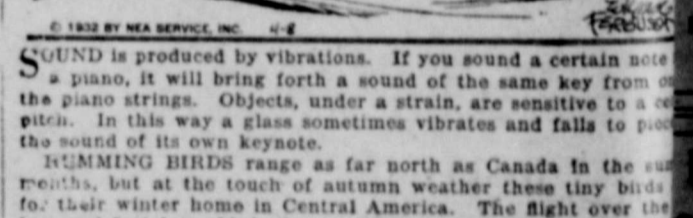

"I'll try to blow a little one that's long and skinny. 'Twill be fun. We'll all take turns, but right now, Inds, just keep your eyes on me." Then Copsy dipped the pipe in soap as Duncy shouted, "Well, I hope you blow the biggest bubbles come out since Scooty took my part and was so dumb. Gee! Even if you turn my turn at blowing, I won't mind."

"The soap suds seemed so real thick, which made Copsy blow some little ones, then a big one came." "Oh! Keep it up!" one cried. "That is the finest I've spied. If that one goes like all the rest, 'twill be shame."

The bubble seemed to grow fast. While wondering how 'twould last, the Tinxles were surprised to see it leave the pipe. Right over Duncy's head it dropped. "Course he was start when it stopped. 'Why, lo exclaimed brave Scooty. 'Duncy is inside."

(Duncy floats away in the story.)

THIS CURIOUS WORLD

A GLASS MAY SOMETIMES BE SHATTERED BY STRIKING A LOUD SOUND OF ITS OWN KEYNOTE NEARBY. THE BAMBOO PLANT HAS BEEN KNOWN TO GROW SIXTEEN INCHES IN ONE DAY. IT REACHES A HEIGHT OF 165 FEET. HUMMING BIRDS MAKE THE FLIGHT OVER THE GULF OF MEXICO IN A SINGLE NIGHT.

SOUND is produced by vibrations. If you sound a certain note on a piano, it will bring forth a sound of the same key from the piano strings. Objects, under a strain, are sensitive to a certain note. In this way a glass sometimes vibrates and falls to pieces.

REMNANT BIRDS range as far north as Canada in the summer months, but at the touch of autumn weather these tiny birds go to their winter home in Central America. The flight over the sea is a real feat for a bird whose entire length is less than four inches.

Wheat Goes Up On Board of Trade CHICAGO, April 9.—Wheat rose 2 1/2 to 2 3/4 cents higher on the Chicago board of trade today. The government report of a winter wheat shortage of 319,000,000 bushels was the principal factor.

### WASHINGTON CIRCUS

BY DAVID WRIGHT

Washington, April 9.—Fifteen senators and 22 representatives have signed a statement declaring that the power question is a major issue in the presidential campaign and that "power trust" is seeking to induce selection of candidates.

The statement is contained in a booklet just issued by the National Popular Government League, a purports to "place" the candidates of all parties. On the republican side President Hoover is put down as a "power trust" and with him are classified two potential democratic candidates, Newton D. Baker and Governor Ritchie of Maryland. Alfred E. Smith is described as a "middle ground," while Charles McNary and Governor Hoover are said to be on "the interest side."

According to the legislators' statement, the power question is of great significance "cannot be estimated and must challenge the attention of those interested in any progressive movement or measure." Concluding, the legislators state: "The reason is plain. The combined utility and banking interests, headed by the power trust, have the most powerful and widely organized political machine ever known in our history. It is strenuously working to control the nomination of candidates for the presidency and the congress of both dominant political parties."

## ONE POUND BABY'S TITLE AS SMALLEST DISPUTED

No sooner had the one-pound son of Mr. and Mrs. William St. John of Kansas City apparently clinched the flyweight championship of the world than Mrs. Carl Kaut, also of Kansas City, rose to challenge his rights. The tiny infant, only 14 inches long, with three-inch long arms, is fed by an eye-dropper and apparently is getting along all right. Top picture shows the father and Mrs. St. John's sister, Miss Margaret Hammer, looking at incubator in which the one-pound baby lives. Below is Mrs. Kaut and her son, James Irwin Kaut, 8, who weighed only three-quarters of a pound at birth. She thinks he was the smallest baby on record to survive.

interests, headed by the power trust, have the most powerful and widely organized political machine ever known in our history. It is strenuously working to control the nomination of candidates for the presidency and the congress of both dominant political parties. These comments are significant. They indicate clearly that the signers of the manifesto (for manifesto it certainly is) do not intend to support in the November election any candidate classified as leaning toward the "power interests."

There are political prognosticators here in Washington who profess to see in all this the possibility of a third party movement similar to the La Follette-Wheeler independent ticket of 1924.

Speaking of the progressives, particularly those on the senate side of the bill, there is every probability as this is being written that they will jump the traces on the tax bill. They are against the sales tax, and it is probable that considerable dickering will have to be done before the bill goes through—as go through it will, so far as one can observe at this early stage.

A situation that calls for comment is the position of the democrats on this purely republican measure. Passage of the bill with the sales tax feature is what Secretary Mills welcomes to help him in his fight to reduce the yawning treasury deficit. He could scarcely believe his ears when he heard that so many democrats favored what he himself wanted but didn't dare suggest early in the present session.

The democrats, led by conservatives who are playing to the Wall Street gallery, are trying valiantly to assure Big Business that they can be trusted with the presidency. In order to prove it, they are playing into the hands of the administration, and whatever benefits may accrue will be chalked up to the credit of the G. O. P. By the time election rolls around, the country will have forgotten that the democrats had anything to do with pushing the measure through.

Nothing has developed to make many observers change their opinion that Roosevelt is going to have a hard time to get the nomination at Chicago. States which will send delegations are the ones to be watched. Tammany claims that New York will send an unpledged slate—which means that the votes won't be for Roosevelt because the delegation will be Tammany-controlled.

In Massachusetts there is a beautiful fight on. The Smith slate is led by Senator David I. Walsh, Governor Joe Ely and former Secretary of State Frank J. Donahue, while Mayor James M. Curley of Boston is engineering the campaign of a Roosevelt slate.

Curley is admittedly a clever strategist. He has picked delegates representing all the racial elements that have any strength as voting units in the party—Irish-American, French-Italian, old-line Yankee, Jew. This on the theory that a voter, let us say, of Italian ancestry wishing to vote for a good old Italian name would swing the entire slate along.

I wouldn't venture to predict what the outcome will be but I am informed that the Walsh-Ely-Donahue slate has the edge on its opponents. Still, it is said by other political crystal-gazers that the Curley ticket has an excellent chance.

In Pennsylvania we have an ex-

in the democratic convention, and the defeat of Roosevelt will strengthen Mr. Hoover. The Hoover boys in the Keystone state are all for the democrats sending a Smith delegation.

The wisecracks at democratic national headquarters are expecting to see a Garner delegation from California. Between Hearst, Mr. Adoo and the estate John H. Elliott, the last a Los Angeles banker who is managing the Garner campaign, it looks as though the combination is unbeatable.

But then I cannot see that a Garner delegation from California will be much help for Garner at Chicago if Al Smith controls any considerable block of votes, as is likely to be the case. Any candidate acceptable to Mr. Hearst will be blackballed by Al. Mr. Smith still has an old score to settle with the Sage of San Simeon. I am sure the milk war which these two gentlemen staged when Al was governor of New York, and the episode at the Syracuse convention when Al flatly refused to permit Hearst to run on the same ticket with him, will not be forgotten.

For another thing, I cannot imagine Smith's throwing any votes he may control to a candidate from a state which repudiated Smith in 1928. Can you?

Representative Edwin L. Davis of Tennessee is still leading the fight in the house against radio monopoly. Several times he has spoken of what he says is a danger—power in the hands of a centralized organization backed by billions of dollars, such as the National Broadcasting company.

A large number of radio stations with high power and with cleared wavelengths are on what is known as the National Broadcasting chain," he says. "I will state I do not think they should be. I have said that it is not right for one group to have the cream of the broadcasting facilities. I have said it before, and I say it again, that there is no reason why a station, because it is a chain station, should be on a cleared wavelength or should have high power, because the two leading companies which furnish chain programs have networks extending all over the country."

### Poultry Producers To Meeting April 14

By United Press. SAN ANTONIO, April 9.—Dairy and poultry representatives from the Federal Farm Board will address the annual meeting of the Poultry Producers association of Texas here April 14 and 15.

Farm board activities include more than wheat and cotton. E. Harpin of Victoria, president of the association pointed out.

Farm Board has aided 920 dairy co-operatives with a combined membership of 266,000 producers, he said.

A little herb garden will be a valuable addition. Plant half a dozen sage plants and sow a packet of sweet marjoram and you will have seasoning for fowls better than the older dried materials you buy.

### Dry Cleaners Cut Prices In Ranger

Prices of dry cleaning and pressing were reduced in Ranger Saturday when several of the tailoring shops of the city announced reductions in prices.

Operators of the shops that reduced prices on cleaning and pressing work said Saturday that the reduction was being tried out for the present and if it was found advisable they would remain on this lower level.

Other towns have been experiencing with the lower prices and the local cleaners are trying to keep abreast of the times in this matter.

LIFTING THE SHADOW OF DREAD

The discovery of Anti-Toxins, Serums and Vaccines is one of the accomplishments of Medical Science, of which all Doctors are proud, and for which they are profoundly thankful. These have helped to lift some of the dread, which parents endure during the infancy and early childhood of their youngsters.

It is almost criminal these days, for children to be left to the mercy of common but deadly diseases, such as diphtheria, smallpox and lock-jaw, with preventive serums easily available. Many deaths, grave illnesses and life-long after effects can be avoided by proper attention and timely immunization.

Consult your Doctor and protect your children against these drains on growth and development.

You owe it to your family to pay your doctor first!

Every case of Diphtheria is unnecessary. Every case of Smallpox is unnecessary. YOUR DOCTOR WANTS TO KEEP YOU WELL

Announcing An Added Service For Automobile Owners

Realizing that many cars have run two years or more and knowing that their owners would prefer putting the old car in good shape rather than buying a new one, we have added additional equipment to our shop which enables us to do the work at low cost.

This new combination band saw, rip saw, planer and jointer will permit us to cut the cost to you where woodwork is concerned. With it we can turn out woodwork that is the equal of the original factory construction... and do it at a reasonable cost. Come in and see it.

We Can do Woodwork of all Kinds

Automobile Woodwork Custom Mill Work

Woodwork in an automobile is subject to rotting. Then, too, a wreck often breaks the woodwork and makes extensive replacements necessary. In any case, we can do the work like it should be done and at a reasonable cost. Bring us your car and we'll gladly make an estimate.

Auto Painting... Axle Straightening... Tops... Seat Covers... Curtains... Glass

This is a complete auto rebuilding shop. We can start at the radiator and repaint and rebuild and renew any part of it clear through to the tire cover. If your car is in good enough mechanical condition to run another year, we will take pride in giving it a refinishing that will make it look good another year or longer... and the cost is surprisingly low.

Let Us Make Your Car Like New! Our Price Will Really Please You!

SOCIETY and CLUB NEWS ARRITTA DAVENPORT

Officers Are Elected for Child Study Club No. 2 The Child Study association No. 2 met Thursday afternoon at the home of Mrs. V. W. Wetter with Mrs. John Pevhouse as co-hostess.

Continuation of Formal Opening Entertains Many Guests For the past three days there has been a busy hum and all society's ears have been open to the complimentary comments on the gorgeous formal opening of the new Killingsworth, Cox & Co. furniture home.

As one motorist walks down the street, we really should say, when we take a closer peek at the windows revealing the attractive light blending from the palest tint to a warmer color note, immediately invite you in.

Flowers and music are essential to the perfect home. The exquisite flowers adorning tables and attractively used in many ways were furnished by the Ranger Floral company, owned by Mr. and Mrs. Charles Surbrook.

Guests were served with fruited punch Friday and Saturday evenings, with Mrs. K. C. Edmonds and Mrs. John Tom Tibbels presiding.

Souvenirs encased in red were presented each lady attending the occasion accompanied by her husband.

The desk of this writer was made decidedly pretty and cheerful yesterday by the presentation of an immense cluster of vari-colored sweetpeas, reflecting colors of the rainbow, given through a delightful personal visit of Mrs. Charles Surbrook.

Lovely Prizes Are Awarded At Close Of Cooking School Drawing to a close an unusually eventful week, Miss Zella Allen, who conducted a highly interesting cooking school, presented a very entertaining program at the Masonic hall auditorium, Friday afternoon.

Apple Pudding Four to six apples, peeled and sliced thin, add 1 teaspoon cinnamon, 1 cup of sugar, 3/4 cup of flour, 4 tablespoons butter.

Paradise Pie Half cup of sugar, 1 cup of bread crumbs, 1-3 cup of melted butter, 1/2 teaspoon cinnamon, 2 tablespoons water.

Banana Birds Cut 4 bananas in halves and wrap each in stripe of bacon, holding in place with toothpick.

The beautiful lamp presented as a special gift by Killingsworth, Cox & Co. was won by Mrs. Terry, South Commerce street.

The contest prize, a lovely peniculator from Texas Electric Service company was won by Mrs. J. C. Avant.

Ladies rendering pleasing service and assisting to a large degree, were Mrs. E. M. Glasser, Mrs. C. G. King and Miss Kate Kramer.

During the four days of the school some 1500 guests attended.

Plans Are Made At Royal Neighbor Meeting Just before the business discussion was drawn to a close Friday evening when the Royal Neighbors met for their regular session.

Home Demonstration Club To Meet For Quilting Demonstration Mrs. Hayden Neal will entertain the Home Co-Workers demonstration on Tuesday afternoon at 2:30.

Eastern Star To Hold Practice Meet The Eastern Star chapter will hold a practice meet at the hall on Wednesday evening at 7:30.

Columbia Study Club To Observe Lesson Tuesday The Columbia Study club will meet Tuesday morning, at 9:30, at the home of Mrs. Pete Jensen.

The above sketch shows better than words can tell the value of an attractive rear yard. Surely there is something fundamental in the satisfaction one finds in the planted home and garden.

Country Club To Entertain With Chicken Barbecue and Dance Thursday Evening, April 21 Members of the Ranger Country club will be entertained with a chicken barbecue and dance on the evening of Thursday, April 21.

Supper Birthday Party Honors Miss Sally Ringold At Home One of the most delightful affairs of the week complimented Miss Sally Ringold at her home.

Gleaners Class Is Entertained With Old-Fashioned Party The pretty home of Mrs. Walter Jackson was transformed into a picture of many years past, with an imported mantle scarf arranged on the fireplace where one viewed a family group picture.

Blue Bonnet friends were revealed and gifts were exchanged. Refreshments of home-made ice cream and cake were served to Misses J. B. Ferris, H. G. Adams, C. G. Russell, Murrell, R. O. Bunkick, J. Q. Byers, R. E. Barker, Judy, Smith, J. F. Byers, D. S. Evans, Thelma Adams, Lester, S. W. Taft, T. D. Shaffer, John Tibbels, Ross Hodges, H. C. Kelley, J. R. McDougal, Nannie Walker, W. Haynie and W.
