NO SIGN OF STRIKE END FORESEEN

By United Press

DETROIT, Feb. 6.—Gov. Frank Murphy maintained contact with the General Motors workers in the General Motors strike today as no signs of breaking a deadlock on recognition of union as sole bargaining agent were shown.

The governor replied "no comment" when asked to confirm a report that William Knudsen, General Motors Vice President, had met with the workers.

United Press learned the meeting positions were held by the workers.

Automobile Workers' Union has suggested tentatively that it be recognized as sole bargaining agent of the workers in wage and working conditions conferences with General Motors in Detroit where it claims to hold 40 per cent of the work force.

General Motors—the corporation which has 20 plants. It is possible that a considerable membership of between six and 10 plants.

2,000 ARE EXPECTED AT OIL BELT TEACHERS MEET IN RANGER MARCH 19-20

L. A. Woodruff, superintendent of the Roscoe Public Schools and Nat Williams, superintendent of the Cross Plains Public Schools, were in Ranger Saturday, conferring with O. G. Lanier on plans for the spring meeting of the Oil Belt Teachers Association, which will be held in Ranger Friday and Saturday, March 19, and 20. Between 1,500 and 2,000 teachers are expected for the meeting.

The program has not been completed, it was stated Saturday, but it is known definitely that a banquet would be held Friday night and that the morning and afternoon sessions Saturday, March 20, would be general sessions of the convention.

"It is not known, as yet, who will be the principal speakers," Lanier stated Saturday at noon. "But we are in touch with several prominent men of the state and more than likely one from this group will be the speaker."

Although the meeting will be a two-day affair and nearly 2,000 teachers are expected, only two

A Family Addition for Il Duce

A place in Italy's First Family was one wedding gift Orsola Buvoli, above, of Milan, was sure of in her wedding to Vittorio Mussolini, son of Benito Mussolini, the nation's dictator. Vittorio, who has followed the military career patterned by his father, was considered one of Italy's best matrimonial catches.

CONGRESS VIEWING THE JUDICIARY REFORM MOVE WITH MIXED EMOTIONS

WASHINGTON, Feb. 6.—Congressional sources indicated today that views of members of the Supreme Court would be sought as one of the first moves in the impending battle over President Roosevelt's judiciary reform program.

With a rebellious block of democrats and republican senators preparing for combat, members of the judiciary committee revealed extensive testimony was expected before the bill, creating the power to boost membership of the Supreme Court from nine to 15 reached congress for debate.

Sen. Frederick Van Nuys, Dem., Ind., member of the judiciary committee, announced he would insist the committee invite members of the court to testify.

Sen. Edward Burke, Dem., Neb., outspoken for the plan, said he wished to invite the justices before the committee.

Chairman Henry Ashurst advised members to attend a meeting Monday and pencilled on the announcement it was an "important" meeting.

Whether the justices would consent to testify was doubtful.

SOLONS ARE DIVIDED ON MANY ACTS

AUSTIN, Feb. 6.—A review of early events of the Texas Legislature's session indicated administration forces were in control of the House, but were weak in the Senate.

A majority of senators back Governor Allred in the main, but the margin is so slim that the administration cannot spare the votes that are drawn from it on some issues.

The administration's greatest danger in the House lies in the sales tax movement. An enthusiastic sales tax advocate unwittingly played into the administration's hands by ballyhoo for a sales tax.

Experienced members have planted a sales tax bill in committee and were letting it rest there until the legislature had piled up enough appropriations to make the sales tax appear the only way to pay them.

The administration's House strength was reflected this week in prompt quieting of an attack on Old Age Assistance Director Orville Carpenter for saying pensioners' political power could be curbed by depriving them of votes.

The test will come when a liberalized pension bill comes out of committee. Members elected on promises of liberality will have to choose between their campaign talks and the Governor's recommendations.

Official List of Jurors Is Released

Names of the following petit jurors summoned for the week beginning Monday in 91st court released Saturday by officials of the announcement. "Any list released other than this one is incorrect and should be disregarded."

J. Weiser, Rising Star; John Harrison, Eastland; Dwight Barnhill, Cisco; Joe Niver, Eastland; D. C. Weeks, Ranger; Route 2, E. C. Eakin, Ranger; H. O. Eakin, Eastland.

C. Niver, Ranger; R. H. Harrison, Ranger; J. H. Goodrum, Ranger; F. C. Williamson, Eastland; U. Johnson, Eastland; W. J. Hammon, Eastland; Walter Owen, Eastland; John D. Eastland; F. L. Drago, Eastland; Robert E. Eastland; R. E. Barker, Eastland; J. F. Dreinhof, Ranger; Dean, Ranger.

C. Satterwhite, Eastland; R. Reed, Eastland; W. T. Young, Eastland; J. M. Wilcox, Eastland; Barnhill, Cisco; Carl Baird, Charles Hartman, Cisco.

Rasmussen, Cisco; Edgar Cisco; H. Pence, Cisco; Erwin Nimrod; Ray Land; Rising Star; R. W. Manchillo; E. F. Bender, Cisco; J. E. Nimrod; P. P. Yarger; Henry Kunkell, Cisco; J. Noble, Cisco Route 2; Harry Reed, Eastland.

Prebyterians to Meet at Abilene All Day On Friday

Announcement was made here today of the 11th annual convention of the Presbyterian Men of the Synod of Texas, to be held in Abilene at the Central Presbyterian Church on Friday, Feb. 12. The theme of the convention will be "Pioneering."

The convention will begin at 9:30 Friday morning, with luncheon at 12:15. The afternoon session will begin at 2 o'clock and will end with a dinner at 5:30.

J. Y. Wheeler of Sherman, will be speaker at the noon luncheon, while George Sergeant, mayor of Dallas, will be the principal speaker at the dinner in the evening. Special music will be featured at both the morning and afternoon sessions.

PRODUCTION OF WELL IS INCREASED

Production of Roy K. Ashburn and R. S. Luke No. 1 O. E. Scott, A. Tharler & A. Popejoy survey, was increased by shooting from 1/2 to 8 barrels daily, a report filed with the Railroad Commission at Eastland showed Saturday.

The test, about five miles southwest of Ranger, was shot with 2012 quarts in the pay area from 3,012 and 3,056 feet.

J. Y. Wheeler of Sherman, will be speaker at the noon luncheon, while George Sergeant, mayor of Dallas, will be the principal speaker at the dinner in the evening. Special music will be featured at both the morning and afternoon sessions.

Body of Missing Girl Is Located

By United Press

BUFFALO, N. Y., Feb. 6.—The body of Mary Ellen Babecek, 18, missing from her home since Friday night, when she left to attend a wake with a girl companion, was found today in a field on the outskirts of Buffalo.

Police said Miss Babecek's head was crushed and a dozen stab wounds were in her body. They said she apparently had been criminally assaulted.

Mrs. J. M. Hart, 81, Funeral Is Today

Funeral services for Mrs. James McClellan Hart, 81, who died Friday night after several months' illness, will be conducted this afternoon at 2:30 at the family residence, 1316 South Seaman street, in Eastland. Rev. W. A. Richardson, pastor of the First Christian church, will officiate.

Burial will be in Eastland cemetery, under direction of Hamner Undertaking Company.

Mrs. Hart had lived in Eastland with her husband since 1925, when they moved from Calwell, Ohio, where she was reared. Her maiden name was Martha Jane Cox.

Survivors are her husband, four brothers, T. C. and Oscar Cox of Yukon, Okla., L. D. and F. E. Cox of Oklahoma City, Okla.; a son, L. W. and J. H. Hart of Eastland, and one daughter, Miss Mabel Hart, Eastland. Five grandchildren also survive.

Honorary and active pall bearers were named as follows: Dave Flensy, Eastland; C. W. Hoffmann, Eastland; Joe Tablman, Cisco; F. W. Cheatham, north of Eastland; George Cross, Eastland; Ed Graham, Graham; Ross Cook, Graham; H. L. Young, Eastland; Leonard Hightower, Eastland; Johnny Hart, Eastland, and C. D. Knight, Jr., Abilene.

Agents to Attend School in Abilene

Miss Ruth Ramey, county home demonstration agent, and Elmo V. Cook, county agent, and their assistants will attend Monday a new writing school at Abilene.

The school, one of three to be held in extension district 7, will be conducted by Mrs. Minnie Fisher Cunningham, extension editor, of College Station.

Cook's and Miss Ramey's assistants are Hugh F. Barnhart and Miss Cornelia Faye Stewart, respectively.

Track Practice to Start Here Monday

Coach Baker Wright announced Saturday that track practice for the Ranger High School would be started Monday afternoon at the new Bulldog Stadium, where the track has been put in excellent shape for the practice sessions, and which will be used for the county track meet to be held here in March.

The dates for the county meet have not definitely been set as yet, it was stated.

"I expect to have about 20 to 25 boys out for track," Wright said Saturday, "because considerable interest is being shown in track work already. There are one or two who have been working out a little, and some on the basketball team will come out for track."

"Track competition is being recognized more and more as good preliminary training for football," he continued, "and a number of the football players will likely be out for the track and field events, not only for the competition in this line of sport, but because they want to keep in shape for football and know that the track work will be of benefit to them."

Commerce Group To Select Site For Travel Sign

Committees from the Ranger, Cisco and Eastland Chambers of Commerce are scheduled this week to go to Weatherford for the selection of a site for an advertising sign urging tourists to travel through this section. The date for the trip had not been set Saturday, said H. J. Tanner, Eastland Chamber of Commerce secretary.

E. A. RINGOLD ANNOUNCES HIS CANDIDACY FOR A PLACE ON THE COMMISSION OF CITY OF RANGER

E. A. Ringold, school tax assessor and collector, Saturday announced his candidacy for the position of Police Commissioner of the City of Ranger, in the city election to be held in April of this year.

Ringold, who has been in Ranger since December, 1918, and who has had considerable experience working on the city tax rolls, is so well known in Ranger that he needs no introduction to the voters.

His announcement for the position reads as follows:

"I hereby announce as a candidate for a member of the City Commission at the city election to be held in April, 1937, for the place vacated by W. S. Adamson and known as Police Commissioner of the City of Ranger."

"Platform:

"1. I favor a reduction and readjustment of Ranger's bonded debt. We can never pay the full amount of this debt and it is holding back the progress of the city as it now stands.

"2. I favor a lower tax rate on city property in order that salaried people can afford to own and maintain a home.

"3. I favor a lower water rate in order that every family can afford to use city water and also have the use of city water for their gardens and beautifying their yards.

"4. I am in favor of the City Commission insisting on a lower rate for Gas, Lights and Telephone.

"5. I favor the enforcement of the City Ordinances. If an ordinance is bad, repeal it if it is good, enforce it. I believe Ranger's fire insurance rates can be reduced by a strict regulation and enforcement of the City Ordinances.

"6. I fully realize that public officials and all employees are paid by the citizens of a community and should be accountable to the people for their conduct in office. If elected, I will give to the people of Ranger my best efforts to bring about an improvement in our town.

"Signed: E. A. Ringold."

Investigator to Be Here Monday To Assist Aged

Mrs. Lulu Riddell, investigator for the Old Age Assistance Commission, stated Saturday that she would be at the Commercial State Bank in Ranger all day Monday, Feb. 8, for the purpose of assisting those who have been dropped from the relief rolls. Mrs. Riddell will be here two days of last week and will be here again Monday to assist those who have not applied for reinstatement.

Tuesday she will be at Deadmans, where she will assist those in that part of the county who have been removed from the rolls. She has asked that only those who have been dropped from the rolls apply for an interview at this time.

Mississippi River Flood Crest Is Moving Slowly

By United Press

MEMPHIS, Tenn., Feb. 6.—A rise in the upper Mississippi river caused by heavy rains, is retarding the fall of water at Cairo, where the river meets the Ohio, U. S. engineers said today.

The report said that in 60 hours the fall at Cairo had amounted to only .26 of a foot.

Weather forecasters said a low pressure area was moving south toward the lower Mississippi valley, bringing a threat of rain.

Cairo seemed safe behind its 63-foot seawall. The Ohio began a rapid drop near Paducah, Ky. The Mississippi crest moved near Caruthersville, Mo. It is expected to reach Memphis Sunday or Monday.

STATE CLAIMS TONY JOHNSON 'THREE TIMER'

Conviction of Tony Johnson on a charge of car theft for which he will go on trial Monday in 91st district court would result in infliction of a penalty under the habitual criminal act, District Attorney Earl Conner, Jr., said Saturday.

Conner stated Johnson had previously been assessed two-year terms in Wise and Stephens counties upon convictions for car theft.

Johnson was indicted by a district court grand jury Dec. 11, 1936, for the Jan. 21 theft that year of an automobile owned by Miss Beulah Stark, Comanche woman, who was a teacher in the Triumph school, Eastland county.

Deputy Sheriff Tug Underwood stated Johnson was brought to Eastland from Pees.

Maximum penalty under the habitual criminal act is 99 years.

Royal Family to Support Edward

LONDON, Feb. 6.—The British royal family is prepared to finance the future of the Duke of Windsor, who abdicated the throne, it was understood tonight.

The Princess Royal, sister of the former king, left for Vienna to visit Edward. Informed sources predicted the ex-king's finances would be made purely a family matter.

It was understood a proposed state allowance was dropped when it became obvious it would be opposed by a majority of parliament.

Herman Rogers, who with his wife is host to Mrs. Simpson, at Cannes, reported by telephone today that Mrs. Simpson had made no plans for her marriage to the Duke of Windsor.

Reports that April 27 had been set for the wedding, Rogers said, "the reports are wrong. No plans have been made yet."

Trial Is Sought In Murder Case

By United Press

ORANGE, Texas, Feb. 6.—District Attorney Hollis Kinard said today he would seek an early trial for H. Y. Broussard, 45-year-old "boss" trapper of Port Arthur, charged with murder in the slaying of Etaine Richard, 40, and Albert Theriot, 33.

Officers brought the bodies of the two men by boat from the marshland of the Neches river, where they had made their living trapping small animals on Broussard's property on shares. The slaying occurred in their camp, 13 miles west of Orange.

Childress Back at Appeal Court Work

Dan Childress, injured eight weeks ago in an automobile accident, has resumed his work as clerk of the Eleventh Court of Civil Appeals at Eastland.

Three Injured As Truck Strikes Car

MIAMI BEACH, Fla., Feb. 6.—Frank Gannett, New York newspaper publisher, said today a national drive will be launched to mobilize public opinion against President Roosevelt's proposed judiciary reform.

WASHINGTON, Feb. 6.—Resignation of several Supreme Court justices was regarded today as a highly possible outcome of the most serious crisis centering around the court since the days of the Dred Scott decision.

The resignations are likely, it was believed, if congress approves President Roosevelt's proposal to enlarge the court membership.

Louisville Blast Victims Are Found

LOUISVILLE, Ky., Feb. 6.—The bodies of six victims of a gas explosion that wrecked a brick building here Friday, have been recovered, police said today.

The bodies were mangled and could not be identified immediately.

Forty wreckers continued to search the debris for additional bodies. It was thought two or three others might have been killed.

Amount of Donation To Fund Omitted In The Original List

Attention was called Saturday to a mistake that was made in listing the organizations in Ranger which contributed to the Red Cross flood relief fund.

In making out the list of organizations, the name of the Spanish American War Veterans was included, but the amount of the donation was left off. The Spanish American Veterans' donation to the fund amounted to \$5, which amount should have appeared in the list as originally made out.

Ranger Boy Given Promotion by Bank

Jim Campbell, son of Mr. and Mrs. Ray Campbell of Ranger, who has been working in the Security National Bank at Hugo, Oklahoma, has been named assistant Cashier of that institution according to word received yesterday.

Young Campbell is a graduate of the Ranger High School and Junior College and has many friends here who are glad of his promotion.

Woman Questioned In Brady Slaying

BRADY, Feb. 6.—McCullough County officers today questioned a young woman in an attempt to establish a motive for the death, Jan. 22, of Mrs. Fred Parker, 43, former Fort Worth school teacher.

Parker, 26, has been charged with murder and was held today in an unnamed jail. Examining trial will be held early next week.

Special Meeting Of Presbytery to Be In Eastland

A special meeting of the Abilene Presbytery has been called for Monday, Feb. 15, at 2 p. m., at Eastland for the discussion of the future program of the church, Rev. Charles W. Estes, pastor, announced Saturday.

All ministers and elders of this section are expected to attend. Members of the congregation have been invited to participate in the meeting.

At the same time it was announced the annual laymen's convention of the Synod of Texas will be held in the Central Presbyterian church at Abilene, Friday, Feb. 12.

Amount of Donation To Fund Omitted In The Original List

Attention was called Saturday to a mistake that was made in listing the organizations in Ranger which contributed to the Red Cross flood relief fund.

In making out the list of organizations, the name of the Spanish American War Veterans was included, but the amount of the donation was left off. The Spanish American Veterans' donation to the fund amounted to \$5, which amount should have appeared in the list as originally made out.

That 'Next War' May Already Have Begun

It is hard to pick up a magazine or a newspaper these days without finding in it a forecast about the outbreak of that "next war" in Europe.

Reading such forecasts, a nervous man is bound to shiver. He would probably shiver a good deal more if he realized that this war may already be under way.

For the science of war has been changes lies in the fact that modern wars are not formally declared any more. They just begin.

Furthermore, they are not always fought in the old style, with invading armies and navies. It is simpler to stir up trouble in your enemy's back yard and let his own people do your fighting.

Spain of course, is the greatest laboratory where this sort of thing is being worked out. And when you look at the experiments, you get a horrible glimpse of a world which is going to have neither war nor peace for the next generation, but a dreadful compound of both.

It is not so much nations which are clashing nowadays as it is rival concepts of government. The idea of dictatorship is colliding with the idea of government by and for the common man—democracy.

But the clash is not head-on. It is a devious affair of plots and counter-plots, of subterranean devices masked by outward expressions of amity.

These two ideas are fighting bitterly in Spain. But is here any war on between the nations which support the rival parties? Far from it. Every effort is being made to prevent it. Nevertheless, the struggle goes on, as deadly and destructive as anything a real war could show, with both sides deeply involved—by proxy.

Austria has had a taste of it. The revolts, attempted coups-d'etat, and so on which have plunged that unhappy and in recent years have been part of the struggle. Tomorrow it will be some other nation's turn.

Suppose, for example, that Hitler decides to extend his influence over such a country as Rumania (to pick a nation at random). He would not dream of marching in with his troops, declaring war, and fighting it out in the old style.

Instead, money and organizers would slip into Rumania, a Fascist revolt would be set to fighting the other half—with Germany surreptitiously aiding one side, Russia or someone else aiding the other, and a great international conflict being fought out on the soil of Rumania with the bodies of the Rumanians.

That is what war is nowadays. It has no clear-cut beginning and no clear-cut ending. It is fought under the surface, with trickery and deceit. Never was international politics more dark and confusing.

Dictatorship fights democracy today in Spain, and all Europe is involved. Yet the great dictatorships and the great democracies remain at peace. Is this the sort of thing we are going to have, on a steadily increasing scale, for the next decade or so? If it is, the future is indeed terrifying.

MARVELOUS!

'Take Profit Out of War' Is Planned by Sen. Tom Connally

WASHINGTON. — "Take the Profit Out of War" is the aim of legislation introduced by Senator Tom Connally in Congress. Through taxation, the Connally measure drafts industry and wealth and effectively prevents wartime profiteering. Should the United States become engaged in war, increased tax rates and reduced exemptions for individuals would automatically become effective. Personal exemptions would be lowered to \$800 and \$1,600 for single and married persons, respectively, and the rate of tax would be 10 per cent, with a surtax beginning with 6 per cent on the first thousand dollars in excess of the exemption and reaching a maximum of 80 per cent. Corporation taxation would multiply in like manner.

Disturbing economic and social conditions, particularly in the European areas, lend impetus and need for the enactment of war revenue legislation at this session of Congress; such action will be

sought by Senator Connally, who made the following statement:

"The war profits bill provides for the drafting of industrial plants and factories and munitions and supplies. It musters money as well as men. It calls to the colors the manhood of America. It announces the policy that dollars shall not be more sacred than human life. It enunciates the doctrine that in time of war and crisis, every resource and every instrumentality to secure victory and the triumph of American arms shall be at the command of the Government of the United States."

The measure effectively carries out the policy of the American Legion to draft industry and wealth as well as individuals in the prime of their life. Senator Connally believes that with profits from war removed, one of the major causes of war will be removed.

Working under its chairman, Senator Connally, the Senate finance subcommittee has spent months in conjunction with tax experts from joint committee on internal revenue and taxation and from the Treasury working out the tax plan. The bill was unanimously adopted by the subcommittee and reported favorably by

the finance committee to the Senate late last session. Action was not taken, due to adjournment. The measure carries out the anti-war-profits plank in the Democratic platform adopted in Philadelphia last June, a plank which was placed in the platform upon the insistence of Senator Connally.

Woman Has Lived Under Six Flags

By United Press SARNIA, Ont.—Mrs. Elizabeth Ward, who has lived under six British kings, is tired of living.

Interviewed on her 101st birthday, she said she was "waiting for the Lord to take me," and refused to give a recipe for longevity.

Ranger Woman to Be Buried Today

Mrs. Mackie Lee Williams, 53, of Ranger, who died in a Ranger hospital Saturday, will be buried from the Church of Christ in Ranger this afternoon at 3.30 with D. W. Nichol, former minister of the church, conducting the services, assisted by Rev. T. E. Bowman, pastor of the First Methodist church of Ranger.

The decedent was born Oct. 5, 1884, and had been a resident of Ranger for 40 years. She was a member of the Church of Christ.

Surviving relatives include her husband, Aaron Williams; one son, William Williams; five daughters, Mrs. J. G. Wheat, Big Spring; Mrs. Roy Booth, Breckenridge, and Misses Velma, Ruby and Macbie Williams of Ranger; two brothers, Lee Ames of Ranger and J. C. Ames of Knox City, and her father, A. A. Ames.

Interment will be in Evergreen cemetery, following the services at the church.

Cooperation In Stopping Theft of Junk Asked

Cooperation of sellers of junk to aid police in halting oil field and other thefts was requested Saturday by H. Pullman, proprietor of the Eastland Iron & Metal Company.

Pullman said that sellers of junk who buy metal should be positive of its owners before accepting the material.

Officers are investigating a series of thefts in which metal was taken from oil leases and sold as junk.

Names of Students Cover Wide Range

FORT WORTH.—The Smiths are not keeping up with the Jones' at T. C. U.

The Jones name leads all others in the student body, and the Smiths, long accustomed to first place, have to be content with second honors.

For a color scheme there is a Black, Brown, Rose and White. But no purple to combine with the White to make the University's colors.

Horned Frogs can go West, Riding in a Bus. They'll go down a Lane, over a Hill, past Brooks and a Woods with a Maple.

There is a Barnes for the Wolf, Eagle, Fox, Coon and Roach. Frog-land is even supplied with Hay for

Jesus THE GOOD SHEPHERD

Text: John 10:1-16

BY WM. E. GILROY, D. D. Editor of Advance

COMING in the month of February, this lesson on Jesus, the good shepherd, has an appropriateness that was not in the minds of the compilers of the lessons at the time they were planned.

This is the fact that the centenary of the birth of the great evangelist, Dwight L. Moody, is being celebrated throughout the world. Moody was born on Feb. 5, 1827. Associated with him in his evangelistic work was Sankey, the singer; and the song of hymns that was most typical of Moody's evangelism was the beautiful "The Ninety-and-Nine," based on the Parable of the Lost Sheep.

In our lesson the aspect of the shepherd is somewhat different, but it is the same essential fact that is emphasized, namely, the shepherd's care for his sheep, and his willingness to lay down even his life, if necessary, to defend and care for them.

The references that Jesus makes to Himself as the "door" are not easily understood, but the emphasis that Jesus puts upon the character of the shepherd, his care for his own, his patience, his love and his courage are unmistakable.

WE are told that the figure of the shepherd as the "door" is taken from the sheepfold of the East, to which there is a very narrow entrance. The shepherd stands in that entrance,

closing the fold, or he stands to one side, leaving an opening for the sheep to come in or go out. So it is that Jesus is the "door."

He symbolizes the protection of the sheep, and the exclusion from the fold of all that is dangerous and harmful. The character of the good shepherd is contrasted with that of the hireling, the man who has no sense of responsibility or of devotion.

The figure of the good shepherd, as he tenderly carries the lamb on his arm, while his staff or crook symbolizes his protective care for the older sheep, has been enshrined in art. But there is something even deeper than that symbolism. It is the willingness of the shepherd to sacrifice his own life, and that is what Jesus did for humanity.

THE reference to sheep that are not of His particular fold is somewhat obscure, like the earlier portion of the parable, but the one thing that is clear and sure is that all who are living in the spirit of Christ belong to Him.

Paul said, "If any man have not the spirit of Christ, he is none of his." The converse of that statement is that if any man have the spirit of Christ, he does belong to the true fold. Regardless of what his place or connection may be, if he has attained his life to goodness and righteousness and love, his place is in the one fold where the Master is the door, the true shepherd of all sincere souls.

The Golden Text is: "We will with open face beholding as in a glass the glory of the Lord, and be changed into the same image from glory to glory, even as by the spirit of the Lord" (II Corinthians 3:18).

Among the citations which comprise the lesson-sermon is the following from the Bible: "Am I God at hand, saith the Lord, as not a God far off? . . . Do not fill Heaven and earth," saith the Lord" (Jeremiah 23: 23, 24).

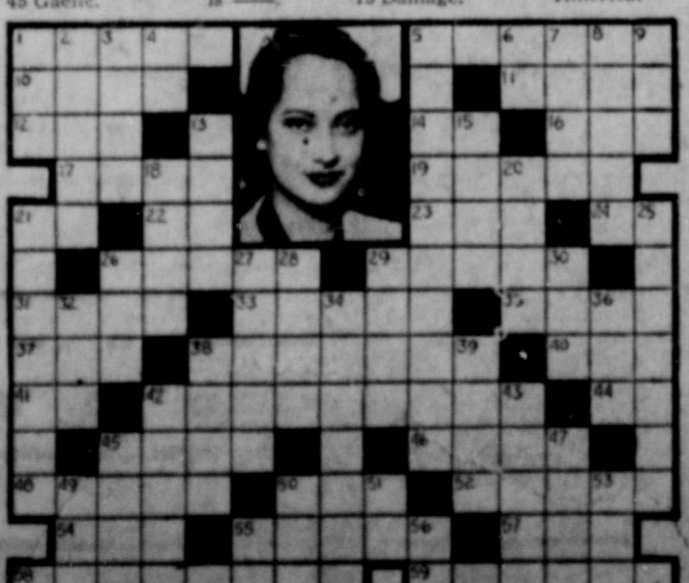

The lesson-sermon includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The three great verities of Spirit, omnipotence, omnipresence, omniscience. — Spirit possessing power, filling all space, constituting all Science. — contradict every belief that matter can actual. These eternal verities reveal primeval existence as the radiant reality of God's creation, which all that He has made is pronounced by His wisdom" (page 109-110).

'This is a request for your wholehearted cooperation in stopping junk stealing in this locality, which has been causing trouble of late. Caution on your part will go a long way toward checking these thefts. Hundreds of tons of junk are bought by us daily, our yard is crowded all the time and one load of questionable junk halts and disrupts every thing and costs us many times its value. We ask that you know correct ownership before bringing anything to our place. We don't want stolen goods and we are cooperating to the fullest extent with the officers in running down thefts. May we have your co-operation?' 'Eastland Iron & Metal Co.' 'H. PULLMAN, Prop.' 'EASTLAND, TEXAS'

Carbon Black, Oil And Sulphur Are Richest Resources

AUSTIN, Texas—Oil, sulphur, and carbon black proved to be the most lucrative mineral production industries in Texas during 1935, it is revealed in statistics obtained by the University of Texas Bureau of Economic Geology, in cooperation with the United States Bureau of Mines. Aggregate value of all minerals produced in the State was \$444,447,019.

A total of 391,997,000 barrels of oil was produced and sold, at a value of \$371,664,170; allied minerals, natural gas and gasoline, had a total value of \$30,838,941. There were 612,360,000 million cubic feet of natural gas metered through pipe lines, valued at \$14,073,000, and 574,159,000 gallons of natural gas gasoline were sold, at a total value of \$16,838,944. Based on the average price for the United States of 3.34 cents per gallon.

Sulphur production totaled 1,354,101 long tons, with a total value of \$24,373,818. Carbon black was produced totaling 275,000,000 pounds, at a value of \$11,000,000.

Other mineral production was as follows: 74,594 tons of asphaltic limestone, valued at \$241,442; 3,715,300 barrels of cement, \$6,422,807; clay products valued at \$1,500,000; 35,971 tons of coal, \$57,000; 28,000 pounds of copper, \$2,321; 40,925 tons of Fuller's earth, \$391,641; 618 troy ounces of gold, \$18,130.

Granite, 22,040 tons, \$47,413; 179,783 tons of gypsum, \$1,812,605; 16,218,480 cubic feet of helium produced from July, 1934 to June, 1935, \$114,216; 1,943,600 pounds of lead, \$41,720; 721,558 tons of lignite, \$567,000; 38,863 tons of lime, \$862,636; 1,

000,400 tons of limestone, \$1,188,752.

Mercury, 4,000 76-pound flasks, \$268,000; 192,410 tons of miscellaneous stone, \$133,341; \$66,869 tons of sand and gravel, \$2,859,510; 35,120 tons of sandstone, \$84,248; 1,009,930 troy ounces of silver, \$719,400; miscellaneous minerals, including basalt and natural sodium compounds, valued at \$164,345.

State Department Expense Increases At a Fast Rate

AUSTIN, Texas—New activities of state departments have a mushroom growth, once started, Sen. Clud C. Westerfield of Dallas is convinced.

"Let a state department start some kind of work with one man, and first thing you know they have a whole staff at work on it and ask more money for still more employees," Westerfield said.

"Why, there isn't any business in the country that could survive if it was run the way state departments are operated. They do not use ordinary business sense. Take the liquor board. There seem to be 16 employees for every liquor dealer and yet they can't enforce the law."

Westerfield's outburst resulted from attempts to get a \$15,000 emergency appropriation to continue checking scholastic rolls upon which the state pays its aid to school districts at the rate of \$19 for each enrolled scholastic. An appropriation for checking the rolls was made at the last regular session. This was exhausted and \$10,000 more was granted by Gov. James V. Alfred as a deficiency appropriation. Senators thought that ought to finish the

job, but Sen. Grady Woodruff said the checking force would quit at the end of the week for lack of money if an emergency appropriation were not made.

"Good," said Westerfield, "Then, maybe we will get rid of some of them."

While in an economy mood, the Senate questioned some of its own expenditures and their benefits to state. One doubted if the state investigating committee that tolled for two years, investigating alleged frauds in school rolls, fee abuses and other matters, really saved the state anything.

Appealed to for an opinion, Finance Chairman John Reddit, agreed that the committee's cost probably was as great as its savings.

The state auditor has estimated that the substitution of salaries for fees has cost the state \$706,000 a year, rather than decreasing expense.

Narcotic Farm to Open On Feb. 13

FORT WORTH, Texas—Formal dedication of the federal government's new narcotic farm, located a few miles southeast of Fort Worth, will be held Feb. 13.

Officials recently announced that Dr. Thomas Parran, surgeon general of the U. S. Public Health Service, and Miss Josephine Roche, assistant secretary of the treasury, had accepted invitations to appear on the dedication program.

Work now is under way on the farm's administration building, nurses' home, clinical building and custody ward. When completed the institution will cost \$4,000,000 and house 1,200 narcotic addicts.

Bids will be opened Feb. 19 on a second group of buildings including a dining hall, kitchen, power house, auditorium, warehouse and two maintenance buildings.

Science's Eyes See Sextillion Miles Up Into the Sky

PASADENA, Cal.—The discovery of a whole new family of at least 200 island universes has been announced by the astronomers of Mount Wilson observatory here.

Estimates of the astronomers are that the new family universes are at a distance of some 2,000,000,000,000,000,000 miles from the earth and they constitute the most distant object that the eye of man has ever seen.

However, they admit that it was not so much the eye or man as the lens of the telescope and the camera that were able to make a record of the discovery.

The new family of universes has been christened "Hydra No. 1." Any one of the 20 members of the family, it is said, is comparable to our own Milky Way.

Only the most exacting observation of the outer fringe of space, led to the important discovery, according to Dr. Edwin P. Hubble, who directed the work of pointing the 100-inch Mount Wilson telescope toward the Bootis nebulae, previously the most distant object seen by astronomers. The taking long-time exposures of photographic plates of that region of the skies, experts found the new family of some 200 nebulae far beyond the Bootis series.

But what is odd about the new discovery is the fact that at the present moment no one knows just where the new family of universes is. In fact, the family has moved and has had considerable time in which to move.

In the first place the light which made the impression on the photographic plates possible, left its distant sources some 325,000,000 years ago. It took all that time for the light to travel the tremendous distance to the earth, even though it raced at the first speed of 186,000 miles a second.

In the meantime, the new family of 200 universes has been moving. From the time it first was caused by the photographic lens, it has been flying away from our own Milky Way, outward into space at the estimated speed of more than 125,000 miles a second.

During the 325,000,000 years that it took for the light that made possible their picture taking here on earth, coupled with the 325,000 miles per second that these new universes have been moving toward the outward rim of space, it is calculated they have traveled considerable distance in the meantime. Just where they are now, no one knows, but the photograph shows that they really do exist and are flying around somewhere.

One other discovery made by the Mount Wilson observers was that of a white dwarf star, which is believed to be the heaviest mass of any object in the skies. The dwarf is called "Ross 67," and is known that a cubic inch of material on the surface of such a star would weigh tons, because matter, which is stripped down to its bare nuclei gives the highest concentration of weight possible.

GOOD SAMARITAN PAYS PORTLAND, Ore.—L. M. Moberg, 45, is a little soured on the good Samaritan role. He volunteered to help two men push a stalled truck. While pushing he ran into a passing car and suffered a broken jaw.

Joseph Secures General Electric Agency for Ranger

White Is a Color of Texas Wash Industry

for extracting the utmost commercial values from this triple sulphate of pure calcium, magnesium and potassium.

So far as is known, polyhalite in this pure form exists nowhere else in the world but in this vast bed blocked out in Midland, Crane and Upton counties, Agress said.

Economies in production arising therefrom would give Texas a strikingly important place in the world potash market now dominated by Germany, from which more than 50 per cent of United States potash consumption is imported.

The Schoch process, tested for several months at Austin in 500-ton-a-day model plant operation, produces sulphate of potash (most costly form of potash) magnesium carbonate (desirable for insulating), and a "very superior" hard plaster, with "not a pound" of the mined material wasted.

Operation of this plant has shown that the polyhalite can be

mined, shipped to tidewater and refined into these commodities at a cost which, when aligned with market prices for them as produced elsewhere, indicates polyhalite could become one of Texas' most important contributions to the nation's agriculture and industry.

Chief factors affecting development of this, as one of many other prospective and existent natural resource industries in the state, officials of the All-South Development Council pointed out, are potentialities of consumer demand, adjustment of freight rates, and assurance that enterprises will not be penalized by too-restrictive legislation and punitive taxation. A more definite state policy in place of the traditional and constant threat of increased levies, said Horace Loomis, executive secretary of the council, would be a prime factor in encouraging new industries.

Although the current import sit-

Neck's Like Father's, Not Mother's

What most folks want to know about the baby son of Mu Swai is whether he has a long neck like his mother, one of the Burmese giraffe-necked women from the Tautshan states featured at the Olympia Circus in London. But, as you can see, the bouncing boy's head is coupled close like anyone else's. Mother, however, has gone to great lengths to stretch her neck to the limit of Burmese beauty.

uation is greatly improved over that in the years 1923-28, when 88 per cent of American potash consumption was imported, the "balance of trade" could be swung much more strongly in favor of the United States with develop-

Many Solons' Wives Attend Sessions of Texas Legislature

By United Press

AUSTIN—Officially, the 45th is a "womanless legislature," for no woman occupies a senate or house of representatives seat.

Unofficially, the legislative chamber look a good deal like women's clubs on Husband's Day.

Sitting in at the sessions is a widely prerogative and favorite indoor diversion in Austin, where social life involves no exacting round of formal parties, and the members' wives dearly love to watch the "wheels of government of the floor" to extend this session to members' families brought on a storm of indignant protest and was quickly voted down.

"Why, the very idea!" a feminine voice exclaimed above the hub-bub.

New social life in the Capital City is divided by common interests into three well-defined circles—the governmental, the University of Texas and the Old Guard—and the three converge pleasantly but not frequently. Hence the wives who come to Austin for the Long sessions are entertained at several traditional functions and then flock together for their own fun.

No. 1 pleasure is following senate or house debate, the expectation of fireworks being the same lure that draws outsiders to the galleries day after day.

Although her husband is dean of the senate and the couple have been in Austin for many a session, Mrs. T. J. Holbrook of Galveston is one who never finds the story old. "There's always something new going on, and I love it," she explained at the side of her husband's desk.

Some of the wives bring their knitting along, and have never been known to drop a stitch no matter what explosion occurs. Mrs. George Moffett of Chilloithe and Mrs. Emmett Morse of Houston are among the interverate knit-and-pearl-two brigade in the house.

With inaugural ball over and everyone settling down to routine, the big legislative clubs—the Senate Ladies and the House Ladies—have been organized for their luncheon meetings, which are often followed by bridge. Mrs. Holbrook is the hold-over president of the Senate ladies, while Mrs. Homer Leonard of McAllen has just been named head of the latter group, succeeding Mrs. Albert G. Walker of Vernon, who in turn had become acting president when Mrs. Hugh Jones of Center failed to return.

The big reception at which the governor and his wife welcome new legislators has been postponed until Spring, but in the meantime there will be a series of the customary parties arranged by University of Texas women and Austin clubs.

Boy Earl to Take Part in Crowning

Although but 14 years old, the Earl of Gainsboro will take his place with other peers of Great Britain at the coronation of King George VI next May. The boy is pictured in a costume of 1840, reproducing a family portrait.

ALL LINES OF COMPANY WILL BE IN STOCK

Announcement was made here Saturday by D. Joseph that he had secured the General Electric agency for the furniture department of Joseph's, Dry Goods, Furniture, of which he is the owner.

The furniture department will have in stock the famous General Electric refrigerators, radios, washing machines, ironers and vacuum cleaners, which will be put on display in the store as soon as shipments have been received. The refrigerators and washing machines had been received Saturday and other shipments were expected soon.

And, since he has secured the new agency, he has a quantity of booklets, "How to Buy Meats for Home Consumption," and "Dictionary of Food," which can be secured by all interested adults who fill out coupons on advertising matter and drop them in the box provided at the Arcadia Theatre while the picture, "Pennies from Heaven," is being shown.

"Pennies from Heaven" can apply, too, to the General Electric refrigerator, it was explained, because the pennies you save by using the G-E are truly Pennies from Heaven.

With the announcement it was stated that one of the General Electric refrigerators would be on display in the lobby of the Arcadia Theatre during the showing of the picture, where it could be inspected by those who attend the showing of the picture Sunday and Monday.

PENNIES FROM HEAVEN

HOW TO BUY MEATS

These are the pennies you save. It is surprising how quickly the pennies mount into dollars and the dollars into hundreds. Food costs average so rapidly that the average housewife has a real problem today providing appetizing meals in accordance with her budget.

The book, "HOW TO BUY MEATS FOR HOME CONSUMPTION," is General Electric's Thrift Gift to the American housewife. It shows her how to select meats... how to buy them... suitable methods of preparing each cut and the correct procedure of serving and carving—in other words, how to serve better meals for less money.

This valuable book is yours FREE. All that you are required to do is attend the showing of Bing Crosby's

latest and best picture, "PENNIES FROM HEAVEN," make out a coupon and deposit it in a box at the theatre where this super production is playing.

COLUMBIA'S Romance and Rhythm-m-m Show

PENNIES FROM HEAVEN

with Bing Crosby Madge Evans Edith Fellows

GENERAL ELECTRIC POINTS THE WAY TO THRIFT

The new General Electric Refrigerator Thrift Unit solves the problem of rising food costs. You can take advantage of quantity buys and week-end prices, and thus make phenomenal savings in your food bills. These foodstuffs may be safely preserved with the General Electric Thrift Unit. Left-overs may be kept many days and prepared into delicious combination dishes.

This is real thrift. Through the Refrigerator Thrift Unit you will get a shower of Pennies from Heaven. The pennies make enough dollars to pay for your new Thrift Unit.

Jazz Age Is Still Here Faculty Says

FORT WORTH—The Jazz Age has not ended. We have simply incorporated many of its features into our thinking, and no longer antagonized by it.

That is the opinion of many faculty members and students at Texas Christian University, voiced in response to a survey made by the Skiff, student newspaper, on the question, "Has the Jazz Age ended?"

"I believe the Jazz Age is still with us, but modified," says Dr. M. D. Clubb, professor of English. "We are becoming used to it and are not so prejudiced against it as formerly."

"I see no immediate hope for the end of the Jazz Age. Cynicism, doubt and restlessness are still with us," comments Dr. Allen True, professor of history. "Students still are not thinking."

On the other hand, Dr. Rebecca Smith, professor of English, remarks: "Students now have more sanity, dignity and poise. There has been a return to manners."

"Jazz Age" to one student suggested music. And music brought to his mind Paul Whiteman. He commented:

"Mr. P. W. was once known as the 'King of Jazz'; now he is referred to as the 'Dean of Modern American Music.' The Jazz Age has not disappeared; we've simply accepted it!"

High School And Junior College News

BY MARGARET SMITH

Basketball

Tuesday evening the boys' basketball team played the boys from Alameda. For awhile we thought the game was going to be turned into a free-for-all, because the boys were "a little rough." If the Ranger boys had held their heads and done a little thinking the score wouldn't have been 31 to 17 for Alameda.

Wednesday evening the boys played Colony and the girls played Caddo. Then the Ranger faculty and outsiders played the Colony faculty and outsiders three pretty good games and in the last game

the men did some grand "interference" playing.

Correction

Last week two names were left off the high honor roll: Chloe Jean Harris and Alice Louise Henry.

The Ranger's Diary

Feb. 1—Mr. Riehm ill today. Freshman meeting and discussed coming Fresh-Soph entertainment. President Preslar appointed Margaret Smith, J. W. Brown and Orvil Harrell to serve as the finance committee, and Maurice Croom, Scott Neal and Arlino Brown as the general plans committee.

Sophomores met and planned a Valentine party and invited the freshmen. Practiced for "The Neighbors" at seven. Paul Hodge and Ralph Byrd of S. M. U. were visiting in Ranger. Paul is a graduate of E. J. C. and Ralph comes from Wisconsin.

Feb. 2—Mr. Riehm back in school at noon. Nearly everyone went to see "Romeo and Juliet."

In our opinion Miss Shearer and Mr. Howard were better than we have ever seen them before. Mr. Howard was the "Romeo" we have pictured always and Miss Shearer made the boys sigh more than once. College basketball game with the Weatherford junior college. A very good game, even tho the Coyotes scored 32 more points than the Rangers. Line-up for Weatherford was Auten and Shepherd, forwards; Jenkins, center; Hudson and Buchanan, guards; and Green, Armstrong, Mims and Roberts, subs. Line-up for Ranger was Hart and Wood, forwards; Coalson, center; Holliday and

Wright, guards, and Sneed and Hague, subs. Coaches were Field of Weatherford and LaMance for Ranger.

Feb. 3—Mr. Walton ill today so Mr. Riehm made a few announcements and dismissed us. Practiced "The Neighbors" and saw midnight show.

Feb. 4—Freshman committees reported to Mrs. Healer that plans were "getting along fair" for the program to be presented in the near future for the purpose of making money for the banquet to be held May 14. Orvil Harrell and Stephen Preslar went to Abilene to A. C. C. to debate. Practiced for "The Neighbors" at 4 o'clock.

Feb. 5—Birthday of Arlino Brown and Margaret Smith, both same age. Mattie Byrel Montgomery and Avis McKelva went to A. C. C. today to debate. Mr. Riehm thinks he "gonna" take the mumps.

The ABC's of the Unemployment Act

Since the Texas Unemployment Compensation Act and the Old Age Benefits section of the Federal Social Security Act went into effect about the same time, many people have confused the provisions of these two laws.

The Texas Unemployment Compensation Act should be studied by itself, forgetting for the moment the Federal Social Security law, if you really wish to understand it. To try to clear up some of the most frequently asked questions about the Texas Unemployment Compensation Act, we present herewith in simple question and answer form the essential information.

Political Announcement

The Times is authorized to announce the following candidate for position on the City Commission of Ranger, subject to the vote of the people in the City Election, to be held in April, 1937.

FOR MAYOR: DR. HARRY A. LOGSDON, HALL WALKER

FOR POLICE COMMISSIONER: HAL H. HUNTER, E. A. RINGOLD

FOR STREET COMMISSIONER: COLONEL BRASHIER

FOR FINANCE AND FIRE COMMISSIONER: L. H. FLEWELLEN

FOR WATER COMMISSIONER: E. H. MILLS

Red Cross Relief Forces Active in 10 States

Left: Red Cross Chairman, Cary T. Grayson, leaves White House after conferring with President Roosevelt on flood relief. Right: Red Cross supply station at Cincinnati rushes blankets and bedding to flood sufferers.

WITH 800 nurses and 200 trained disaster workers in the field the American Red Cross is easing the plight of flood sufferers in 10 inundated states in the Ohio and Mississippi Valleys. The Red Cross reports that 625,000 persons have been driven from their homes and need urgent assistance. Admiral Grayson, chairman of the Red Cross, has been ap-

pointed by President Roosevelt to coordinate all relief effort and has instructed Red Cross chapters and personnel to spare no expense in meeting needs. Contributing \$1,000,000 from their disaster reserve and asking the public to contribute without delay to a \$11,000,000 relief fund, the Red Cross is concentrating on allaying the acute health situation. Red

Cross nurses and doctors work feverishly, immunization centers have been set up, refugee camps established to minimize the dangers of exposure, food, clothing and bedding rushed to key points. More than 39 Red Cross emergency hospitals have been established to prevent epidemic and treat sickness, and serums and anti-toxins have been sped to points where the situation is grave.

Winter Months Are Busy Ones for the C.C.C. Enrollees

FORT WORTH. — The winter months are busy months for the Civilian Conservation Corps enrollees. It is during these months in Texas that a large portion of all planting of vegetation must be done. Winter is the only time

trees can be planted successfully. The CCC camps doing erosion control work must plant much grass and many trees during the winter. In the same connection CCC boys run the lines upon which the cooperating farmers will plant close growing crops for strip crop protection against soil erosion.

The methods of planting vegetation of any sort are of a varied nature according to the type of plant used. The CCC enrollee working with the farmer in establishing all phases of the methods for erosion control is necessarily working in a wide scope of activities. The work in sodding varies with the use to which the grass is to be put. CCC labor is used in all sodding operations necessary in the establishment of new pastures upon sodded and steep land, in the preparation of sodded outlets for the safe removal of excess terrace water, and in the renewing of old pastures or the establishing of meadows.

In any of the Soil Conservation Service areas in Texas in which

CCC camps and farmers are cooperating in a co-ordinated erosion control program, the enrollees may be seen daily as they push forward the planting work so necessary in erosion control. A group may be seen today setting chunks of sod over a piece of ground which last year was under the plow but of low production. Yesterday the same group was probably engaged in preparing the land for the grass and cutting the sod from some already well covered spot on the same farm. Tomorrow the boys will perhaps be found setting out seedling trees in a badly gulched place or on a steep slope of the farm.

Another day will be spent in running lines on the contour in the cultivated fields where the farmer may then sow oats or such other strip crops as he may plan to use. The bands of vegetation may be all that will occupy the lines. Again the lines may be the basis upon which later the farmer will construct his terraces, to be planted in strips.

Thus the CCC enrollee of the Soil Conservation Service spends his winter months. His labor must be very efficient. The time is short and spring and summer have to be devoted to further operations adapted better to those seasons. Fall will usher in more sodding. Natural drains through which it is planned to carry off excess terrace water must be well covered with grasses before water is emptied into these outlets. The drains can be used either as a meadow or for pasture. The CCC boys straighten out the bad berds of the draw, slope the sides more uniformly for the better support of vegetation. After that, sod is placed and seed planted. Not alone is there danger from the future terrace water. These meadow outlets are wide and must protect themselves also from run-off of rain falling directly upon them. Therefore, there is still need for much work as early in the winter as possible that the grass roots will have a good chance to grow rapidly with the first part of spring.

During the month of December, 1936, Soil Conservation Camps in Texas planted 4,140 trees, prepared 33 acres of meadow for terrace outlet purposes, sodded 55,

Flood Service Will Be Held Tonight at Methodist Church

The churches and pastors of Ranger are cooperating in a joint service, to be held tonight at the First Methodist Church, for the benefit of the flood sufferers along the Ohio and Mississippi Rivers.

The meeting was planned early this week by the Ranger Ministerial Alliance, of which Rev. Geo. W. Thomas, pastor of the First Baptist Church of Ranger, is chairman. Rev. Thomas will have charge of the meeting tonight, with other pastors of the city having a part on the program.

Everyone who attends has been urged to bring a bundle of old or new clothing, which can be sent to the Red Cross flood headquarters, where it will be distributed to flood refugees who are in need of clothing.

The cooperation of the congregations of all churches and the general public has been urged by the ministers.

Now is the time to capitalize for the Kingdom of Christ the calamities that befall us. The terrible flood situation is the voice of God saying to each of us, "I have some things for you to do." The spirit of the Master is seen in the ready response every factor of society is making to this call of need. "Inasmuch as ye have done it unto the least of these," and the worship of God in the sanctuary is the principal source of this general inspiration.

THE CHURCH OF GOD
Roy J. Young, Pastor.
Sunday School, 9:45 a. m.
Subject, 11 a. m.—"Life."
Special service Sunday night, Y. P. E., 6:30 p. m.
Regular service Sunday night at 7:15 p. m.
Our revival was extended until Feb. 7th, this will close our meeting. Prayer meeting Wednesday night, 7:15.
Young People's meeting Friday night at 7:15 p. m.
Everybody is welcome to come and enjoy this good blessing of the Lord.
Sister Cuba Morris, Sunday School Superintendent.

A CORRECTION
In the notice of the death and burial of R. H. Dunlop it was stated that among the survivors was John Dunlop when it should have been Henry Dunlop, a son.

CHURCHES

FIRST BAPTIST CHURCH
Walnut and Marston
G. W. Thomas, Pastor.
Sunday School 9:45 a. m., T. S. Hill, Superintendent.
11 a. m., morning worship. The pastor expects to occupy the pulpit this morning. There will be no night service, in order that every one may be permitted to attend the flood relief service at the Methodist church.
Regular B. T. U. program will be rendered at 6:15 p. m.
W. M. U. Circle meetings Monday 2:30 p. m.
G. A., 4 p. m., at the church.
Y. W. A., Tuesday, 7:30 p. m.
Business meeting of the church Wednesday night at 7:30 o'clock.

FIRST CHRISTIAN CHURCH
H. B. Johnson, pastor
Sunday school, 10 a. m., with Lawrence Bryan, supt.
Let every member of the church and Sunday school be on time this morning.
Preaching by the pastor at 11 a. m. Subject, "The Temptation of Christ." This will be one of two sermons to be preached pertaining to Lent.
Communion just before morning sermon.
There will be no evening service in this church, as all churches are going to have a union service at the Methodist church in the interest of the flood sufferers. Every citizen of the community over, they are on opposite sides of the fence, hence complications. Things manage to work out for the best along toward the end of the picture, after merriment, romance and music takes turns with the entertainment.
Crosby is said to sing some of the best songs of his career in "Pennies from Heaven." The numbers—"Let's Call a Heart a Heart," "Pennies from Heaven," "So Do I," "One Two Button Your Shoe" and "Skeleton in the Closet"—were fashioned by Arthur Johnston and John Burke. Johnston wrote the music for two of Crosby's biggest successes, "College Harmony" and "Too Much Harmony." He has such songs as "Please Listen to My Pleas," "Just One More Chance," "Thanks a Million," "Sittin' High on a Hilltop," "Cocktails for Two," "Moonstruck" and many others to his credit.
Burke won fame for writing "The Beat of My Heart," "Annie Doesn't Live Here Anymore" and others.
Norman McLeod directed, from the screen play by Jo Swearing.

For Commissioner

E. A. Ringold, who Saturday announced his candidacy for the position of Police Commissioner of the City of Ranger.

10 cents will be asked. That evening the same performance will be repeated for the benefit of the general public, and the time is set for 7:30 o'clock. At this program the charge will be 10 and 15 cents. All proceeds goes toward buying new uniforms for members of the Ranger band.

This program of magic gives promise as being one of the best entertainments the club has offered in their series of programs.

Second Graders Are Guests at a Picture Show Made by First Grade

As a culminating feature of the work done by the class of first graders of Cooper school, they entertained the second grade by showing two picture reels they had made on Ekimoko.

Pictures, which they had colored or cut from magazines were pasted on long strips of paper, with descriptive printing below. The strips were fastened to sticks upon which they were rolled. A large cardboard box was converted into a miniature stage screen, with a light bulb serving as a spot light, and curtains were drawn across the front of the box.

The rows and desks were numbered. Rolls of tickets were made and perforated. Three boys acted as ushers to assist the guests to their seats.

Several articles made of bones were on display in the room. Included were a sled, scraping tools, knives, a spear and sacks of small bones to tell ages.

Ekimoko land was depicted on the sand table.

Pictures and booklets made by the children were on the walls.

The children and teachers who saw the pictures expressed themselves as having enjoyed the visit and the shows.

Bible Study

Bible Study will be the featured topics at all circles of the Women's Missionary Society of First Baptist church, when each group study in respective circles Monday afternoon at 2:30 o'clock. Hostesses will be announced at this morning's service.

Moving to Monahans

Mr. and Mrs. J. L. Reed and family left today for Monahans, where they have planned to make their future home. Having lived in Ranger for the past twelve years, they have a host of friends. The Reeds have taken active part and at all times manifested interest in the better things for the place in which they lived. Mrs. Reed has been one of the most wide-awake members of the Central Baptist church, and for some time has been a teacher in various departments. Last week brought a splendid courtesy when Mrs. Johnny Boyd and Mrs. S. A. Young named her honoree for a pretty au revoir affair.

At Monahans they will be in the grocery business. Their Ranger home was bought by the W. W. Mitchell family.

Parliamentary Drill Affords Interesting Program for 1920 Club

Thursday afternoon brought a meeting for the 1920 club, which proved very interesting interwoven about the annual business and parliamentary drill.

Mrs. C. E. Maddocks served as Better Speech leader, and Mrs. C. E. May, leader. Fitting topics were given by Mrs. Walter Jackson and Mrs. B. A. Tunnell.

Mrs. O. L. Phillips contributed the high point on program when she conducted the parliamentary drill. The attendance was good, and the program for next session, February 18th, will be "The Stratford-on-Avon Country," with Mrs. J. S. McDowell, better speech leader.

To Become Bride On February 14th

Miss Iona Prock, the daughter of Mr. and Mrs. H. B. Prock, 112 1/2 South Austin street, will become the bride of Mr. Gail Towne of Flaxton, North Dakota, on February 14th, with the ceremony read at the home of Dr. and Mrs. L. B. Gray.

The bride-elect was honored with a miscellaneous shower recently given at the home of her aunt, Mrs. F. M. Prock, Jr.

The hour was climaxed with the serving of dainty refreshments to guests: Misses. Eleck Carlyle, T. A. Arterburn, Nathan Burnett, Warren Moore, Doc Dial, Con Hazard, Dave Mace, Cox, A. G. Langley, H. B. Prock, and Misses Louise Newman, Annetta Faye Huffman, and honoree, Miss Prock.

Program On Cooperation To Bring Fitting Topics

Thursday afternoon at 2:30 o'clock, Child Study Club No. 2 will meet in the home of Mrs. H. C. Clark, with Mrs. L. E. White as co-hostess.

Founders Day topic will be handled by Mrs. C. E. Maddocks, and Mrs. J. E. Ogg will lead the program on "Cooperation." Mrs. Bill Barnett will have for her subject, "Parents, Children and Schools." Mrs. Carl Heinlin will discuss, "The Family's Part in the Community Recreation."

Valentine Motif Used At Birthday Party

Mrs. H. S. Packwood paid honor to the fifteenth birthday of her daughter, Eloise, when she entertained with a delightful party at the home of Mrs. Dan Neville, who shared honors as co-hostess. Tables were appointed in the

BING CROSBY, MADGE EVANS, EDITH FELLOWS IN "PENNIES FROM HEAVEN"

There's happiness ahead at the Arcadia Theatre, where Bing Crosby's latest picture, Columbia's "Pennies from Heaven," is on. A cast that includes Madge Evans, Edith Fellows, Donald Meek and Louis Armstrong, famed king of swing, works along with Bing in the film.

Crosby's latest picture was "Rhythm on the Range," in which he scored a hit. Madge Evans was last seen in "Piccadilly Jim," and little Edith follows, thirteen-year-old starlet, will be remembered for her performances in "She Married Her Boss" and "And So They Were Married" and other films. Armstrong's celebrated swing band appears with him in "Pennies from Heaven."

The story concerns a vagabond troubador who falls in with a little girl and her improvident grandfather and proceeds to take them under his somewhat patched-up wing. The child is about to be sent to an orphanage and the elderly man to an Old People's Home when the troubador hits upon a plan to make enough money for all three of them to live on.

The county welfare worker who is responsible for the child, happens to be just the type of girl the troubador can love, and he finds himself doing it thoroughly. How-

WASHING TIME Cut 1/3 by the new Spiralator EASY WASHER

EASY

Low Down Payment Terms as Low as **\$1.00** weekly

Gleaming white porcelain and ducal finish—new streamline design—new time and labor saving advantages—crown this remarkable new EASY "King of all washers."

Try the new features.

1. **THE SPIRALATOR.** Exclusive EASY washing action that actually saves 1/3 to 1/2 washing time—1/2 to 1 1/2 wash on clothes—1/2 soap and hot water.

2. **THE DAMP-DRYER.** Exclusive EASY water remover that while the water from clothes without squeezing in a wringer. Patented safety—25% more water removal—breaks oil buttons.
