### CLEAN FASTER AND BETT

if you'll empty the Dust Bag more often

In these days when time is precious, you can save your time and help your electric cleaner do a faster and better job simply by emptying the dust bag of your cleaner more often. A good plan is to empty the bag immediately after each use, for accumulated dust slows up the air flow and reduces the suction of the cleaner.

Other Tips on How to Get Better Service from Your Electric Cleaner

- · Oil the motor regularly with the type of oil recommended by the cleaner manufacturer.
- Take care of the electric cord. Don't let it become frayed or kinked, if possible, and when wear does occur, use black friction tape to wrap the worn places.
- · Pick up hard objects, such as hair pins, buttops or other things that might damage the cleaner mechanism or clog

When your cleaner doesn't work properly, be sure to take it to a reliable electric repair shop.

## **HOW TO STORE FOODS PROPERLY**

IN YOUR GAS REFRIGERATOR

Different kinds of tood need different kinds of cold to protect their freshness and flavor. But you don't need to worry about this with your modern Servel Electrolux. It's all been worked out for you, Just place your foods as directed below and be sure of safe, dependable, low-cost food protection.

FROZEN FOODS, FROZEN DESSERTS-Put these right in the freezer-in the frozen foods compartment if you have one.

FRESH MEAT AND FISH-Directly under the freezer-in the Dry-Moist Meat Storage Tray-or defrosting tray.

MILK, CREAM AND BEVERAGES-At either side of freezer.

YEAST CAKES, COD LIVER OIL-On half shelves at right and left of freezer.

LEFTOVERS, FOODS PREPARED AHEAD, BUTTER, EGGS-These go in middle section-also custards, puddings, salads, tomatoes, berries and fruits with protective coverings, such as oranges, grapes, melons.

VEGETABLES, MOST FRUITS-These should be placed in the Dew-Action Fresheners or crisper drawers.

Bread, coffee, shelled nuts and chocolate all keep better in your refrigerator. But never put bananas in your refrigerators-even moderate cold will ruin them.

## To plow my farm in peace once more

It is not much to ask. To plow my little farm in peace. In spring, when the fierce rains stop, to break the steaming earth and plant my crops.

In summer . . . to watch through sunny days the great fields spring to life.

In fall ... to gather in the harvest against the long winter days to come.

And no man to say me "nay". No plundering hand of an aggressor to take from me the fruits of my labor.

It is not much to ask . . . but oh, how much it is to enjoy.

This is our way of life . . . the American way. Freedom to have and to hold the things that are our own. Freedom to worship according to our beliefs . . . to educate our children in schools of our choosing ... to think what we please, say what we please, do what we please.

These freedoms are in danger. To protect them and preserve them, American men are fighting on all the seas and on every continent. These fighting men look to us to back them up ... to every man, woman and child who has a stake in victory. The job is a big one - and mighty urgent. Are you doing your share-today, every day-to contribute to winning this war?

Examine the list on the right. Study it. Check it against your own performance and that of your friends and neighbors. See how your job on the home front measures up to the job our boys are doing on the far-flung battlefronts of this war.

Our job at National Distillers is to devote 100% of our production facilities to the manufacture of alcohol for war purposes. We, like the rest of the distilling industry, are making no whiskey today. The alcohol we produce is going into munitions, rubber, chemicals, medicines and other essential

Check this list. It will help you decide -WHAT CAN I DO

### TO HELP WIN THE WAR? I regularly buy War Stamps and Bonds-at least 16% of

- my income. I avoid unnecessary expen-ditures in order to help pre-
- vent inflation. · I cheerfully observe all rationing regulations and do
- not hoard. • I budget my ration points carefully and don't waste
- I work where I can do the most good for the war effort.
- · I get to work on time and am never avoidably absent. · I do my best to stay healthy.
- · I do my best to avoid accidents, especially if I work in a war plant.
- · I watch what I say and spread no rumors. I conserve tires and gaso-
- · I share my car with others. · I travel only when absolutely necessary.
- I carry my own bundles when shopping to save man-power, gas and tires. I contribute to the Red Cross and all War Relief
- · I save and turn in scrap met-
- al, used cooking fats and other needed materials.
- · I do Civilian Defense work. · I work with the Red Cross or other volunteer groups.
- · I am a regular blood donor. · I volunteer for Nurse's Aide work.
- I pay my taxes on time and in full.
- · I do community social serv-
- ice work. I am prepared to quietly co-operate with the F.B.I. in apprehending suspicious
- I am planting a Victory
- I contribute books to the
- men in the service. I write to friends and rela-
- tives in the service. I observe dimout and black-out regulations to the letter.

This list, of course, is not complete. Every man, woman and child will find many other ways to help. Check this list with your neighbors and find out what they are doing. But get going! Do all you can! And do it now! Consult your local Civilian Defense Council for further information.
