Senator Introduces Rent Hike Legislation

Well . . . I Dunno, But . . .

A number of people have expressed the wish to us that the main streets in Ranger could be washed off periodically. No doubt, such an idea is becoming general as a result of the high winds that are carrying a swirl of dirt and debris around the town. It might help some. At least it could be tried as a "noble experiment."

City officials have repeatedly appealed to merchants to provide adequate facilities for protecting the streets from the trash that is carried out of business places and have made generous offers about hauling the trash away. We'd like to see sufficient civic pride aroused to prompt every individual to take his share of the responsibility of keeping Ranger clean.

During one of the high winds last week, walking down Main street virtually amounted to fighting your way through wind swept papers, etc.

January rode in on one of the most terrific blizzards that this country has ever witnessed and went out on the same note, though not so bad. February came in with a gust and cold weather and sure enough, the groundhog says his shadow Sunday. So don't pack away the winter wear yet.

Work on the livestock show barn at the Round-Up grounds is progressing and the walls of native stone are getting up high enough to look like walls. The pattern of the stone is going to make a very attractive building. They tell us that it won't be long before the cornerstone which was dedicated sometime back, will be placed in the southeast corner of the building. Two drive ways will run through the building, making loading and unloading of livestock for the shows, much easier.

The grounds are looking mighty fine, too, with a fresh covering of green grass and it won't be too long before the trees recently planted on the grounds by the Lions Club will begin to add their bit of beauty to the spot. The barn is being built through the efforts of the Junior Chamber of Commerce, Lions Club and Rotary Club and will be used to sponsor shows for the 4-H Club boys and Future Farmers of America boys in this area. This is a commendable effort, too. It's much better to encourage the boys in scientific procedures, keep them busy and interested in something worthwhile. It used to be that when a guy wanted to start farming all he did was go out and get him a piece of land and start plowing. But it's different today. Farming and livestock raising are done on a scientific basis and a fellow has to study and work to make a success of his "profession" in these lines. These boys will some day be the leading livestock raisers of this country and fostering their interests now will make better citizens of them later on.

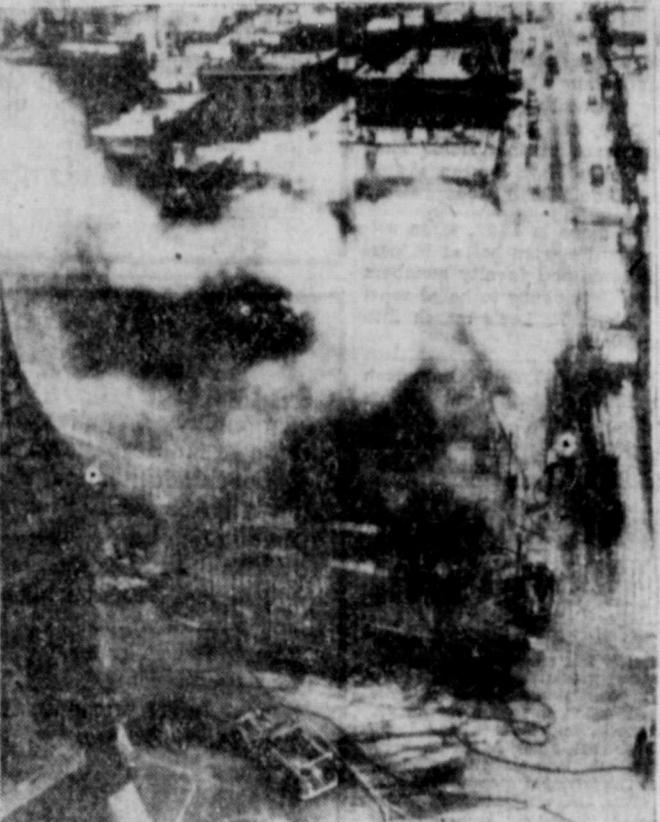

Some of the boys from the Ranger Airport went to Gordon Sunday afternoon and staged a small air show and did a little barnstorming.

They were granted permission by Lucien Owen to use his property as a landing field and the boys took down three planes. They took up approximately 25 passengers and gathered a considerable audience for their show.

Those that were in on the deal and had a lot of fun out of it were Charlie Strong, Tommie Strong, Bob Robertson, Crawford Buttrill, Howard Oliver and Howard Oliver, Jr.

FORT WORTH LIVESTOCK
Cattle 2300. Moderately active. Medium and low good slaughter steers and heifers 15.00-20.00. Calves 14.00. Opened strong, closed about steady. Good and choice fat calves 16.00-19.00. Hogs 2500. Active and steady. Top 24.00 paid for good and choice 180-200 lbs. Sheep 2500. Slaughter lambs steady to weak, ewes and feeder lambs steady. Medium to good slaughter lambs 18.00-20.50.

\$75,000 Fire Damage

Smoke pours from the top floors of the Gardner Building in Utica, New York, during a spectacular early-morning blaze which caused an estimated damage of \$75,000. This picture, taken at the height of the fire, shows firemen battling the flames from ladders on all sides of the building. (NEA Telephoto).

ORCHARD FIELD DAY TO BE HELD ON FEBRUARY 13

Plans are complete for the annual Eastland County Orchard Field Day to be held at the J. E. Spencer orchard in the Long Branch community on February 13, according to J. M. Cooper, County Agricultural Agent. Beginning at 10 o'clock that morning and lasting until mid-afternoon, with time out for a picnic lunch, the field day will be devoted to talks and demonstrations on orchard management. Topics to be discussed at the meeting will be varieties for home and commercial orchards, best orchard soil types, winter cover crops for orchards, importance of fruit on the diet, pruning, thinning and control of diseases and insect pests. Where feasible, demonstrations will follow the talks. Orchard men from Eastland and adjoining counties are invited to the meeting, Cooper said.

Those on the program include: C. R. Heaton, Horticulturist, and Paul Gregg, Entomologist from the A&M College Extension Service; Helen Marquardt, Home Demonstration Agent, Eastland; Mrs. Ita Parrish, Farmers Home Adm. Eastland, John Simpson, Soil Conservation Service, Rising Star; George I. Lane, Farmers Home Ad. Eastland, and T. E. Denman, Agricultural Experiment Station, Stephenville. Those who attend are asked to bring a picnic lunch. Coffee will be served on the ground.

Rhubarb was first cultivated for its stalk as food in England about 1820. Those on the program include: C. R. Heaton, Horticulturist, and Paul Gregg, Entomologist from the A&M College Extension Service; Helen Marquardt, Home Demonstration Agent, Eastland; Mrs. Ita Parrish, Farmers Home Adm. Eastland, John Simpson, Soil Conservation Service, Rising Star; George I. Lane, Farmers Home Ad. Eastland, and T. E. Denman, Agricultural Experiment Station, Stephenville. Those who attend are asked to bring a picnic lunch. Coffee will be served on the ground.

SIX WEEKS MORE WINTER WEATHER

ATOMIC LEAKS DISTURBING BARUCH SAYS

WASHINGTON — Elder Statesman Bernard M. Baruch told a Senate committee today that he is "deeply disturbed" by leaks of atomic secrets. He suggested that Russia is obtaining atomic information from Canada.

Baruch until recently was the U. S. member of the United Nations atomic energy commission. He reminded senators that the Soviets had obtained some atomic secrets from Canadian "leaks" exposed in the Canadian spy investigation. Then he expressed concern at a news report today revealing that Canada is producing plutonium—a bomb ingredient more powerful than uranium.

At the same time Baruch told members of the congressional atomic energy committee that Army "brass hats" have to often been criticized. He declared that the atomic program was primarily one of military applications.

Oklahoma Cracks Down On Free Farming Land

OKLAHOMA CITY (UP) — Gov. Robert S. Kerr told the Oklahoma legislature the lessees of 213,000 acres of state school land in the Oklahoma panhandle had, in effect got it rent free for five years through a quirk in federal laws.

The state leased the land for eight cents an acre and the government paid lessees at least eight cents an acre for compliance with soil conservation practices. However, the outgoing governor said, the state had appraised the land for re-leasing at a figure which will bring 45 cents an acre, or an increase in annual rentals from \$17,400 to \$100,000 per year.

Veteran Church Clerk Outlasts 45 Ministers

SHOPIERE, Wis. (UP) — Frank J. Dole, Shopiere bachelor, has come to know the activities of the Congregational Church here pretty well. He should, for recently he was re-elected clerk for the church for the 62nd consecutive year.

The 94-year-old resident has seen 45 pastors come and go. Dole's first recollection of a church pastor came when he met the Rev. H. H. Pullen in 1868. Dole was then only 15 years old. Regarding his recent election, Dole admitted that "perhaps the members have become so used to me they won't vote for anyone else."

Employers Must Negotiate On Worker Insurance

WASHINGTON — An examiner for the National Labor Relations Board ruled today that employers must negotiate with certified bargaining representatives on employee insurance plans.

The finding, subject to NLRB review and appeal to the courts, is of major significance in current negotiations in the steel, auto, electrical manufacturing, coal and other industries where unions are seeking insurance and health and welfare plans.

Eleven To Die For War Camp Atrocities
HAMBURG — Eleven of 15 men and women convicted of atrocities at the Ravensbruck concentration camp today were sentenced to death on the gallows. A military court found the 15 guilty of war criminality at Ravensbruck, the notorious Nazi camp for women near Berlin which became known as the biggest women's prison in history.

District Legion Meeting Housing Needs Arranged

Adequate provisions are being made in Stephenville to meet the housing requirements of Legionnaires and Auxiliary members when they convene in that city for the 17th District American Legion convention Saturday and Sunday, February 15 and 16. R. N. Pittman is chairman of the committee in charge of making these arrangements.

W. J. Oxford, commander of the Ammon G. Turnbow Post No. 240, Stephenville, and A. D. Braden, commander of the Wm. E. Dyeas Post at John Tarleton College, are assisting with the plans.

The convention will open on Saturday afternoon with a social hour at the Legion hall, followed that night with a dance in the Municipal Auditorium. Sunday morning the program will start at 9 a. m. when joint memorial services will be held by the Legionnaires and Auxiliary members.

A full program of entertainment has been worked out for the convention and several hundred delegates are expected from the thirty-one posts that make up the district.

Weather Changes Reported To Be Crime Barometer

DETROIT (UP) — The weather has a lot to do with the rate and types of crime, according to Gerald K. O'Brien, Wayne County prosecuting attorney. O'Brien says a recent analysis by his staff disclosed that crimes against persons—murder, rape, assault, etc.—are more prevalent in summer than in any other season of the year.

This, he says, could be due to the fact that in summer people tend to gather more in groups, enlarging the opportunity for violent disagreement. In winter, on the other hand, the trend leans towards crimes against property such as larceny, armed robbery and burglary because of the urge to fill economic needs, O'Brien says.

Texas, French Schools Form An Alliance

DALLAS, Tex. (UP) — An alliance has been formed between Texas Country Day School and College Moderne in Bavay, France to promote international understanding, Kenneth M. Bouve, headmaster of the Dallas school, has announced.

Bouve said the affiliation may some day lead to an exchange of students. Each student at Texas Country Day has written a letter in English, to a pupil at College Moderne, a school for boys of 10 to 17. The local youths expect replies written in French.

Machine Cleans Poultry With Flick Of Wrist

WORCESTER, Mass. (UP) — A new machine exhibited at the Union Agricultural meeting cleans poultry with a flick of the wrist.

Turn the handle one way, and the bird's head and feet come off. Turn it the other way and out comes all viscera, including the lungs and egg cluster, without breaking the gall, injuring the liver or damaging the carcass. Exhibitors of the machine said it not only shortened a disagreeable job, but resulted in cleaner poultry.

Texas Extension Service Will Add New Posts

COLLEGE STATION, Tex. (UP) — The Texas Extension Service announces it will open three new district field offices at Denton, San Angelo and Stephenville soon. On Feb. 1 the service intends to open its San Angelo and Stephenville offices, while the Denton office is scheduled to begin operation March 4.

TRUMAN ASKS EXTENSION OF POWERS

WASHINGTON — President Truman today asked Congress to continue his sugar rationing authority and some other war powers for another year.

He requested extension of his powers to allocate scarce food and materials, and to control the export and import of certain critical items. Sugar is the only thing on which individual consumers are rationed directly.

Mr. Truman also asked authority for the Maritime Commission to continue operation of certain shipping lines until the commission can settle with these companies whose vessels were taken over during the war.

The powers the President wanted renewed will expire automatically March 31 unless extended by Congress.

Rep. Collie Placed On Four Committee

Turner Collie of Eastland, representative of the 16th Legislative District, has been named to four committees by W. O. Reed, speaker of the Texas House of Representatives. Collie was placed on the criminal jurisprudence committee; the federal relations committee; insurance committee and committee on revenue and taxation.

Asks Inquiry Into Newsprint Monopoly Report

WASHINGTON — Sen. James E. Murray, D. Mont., today urged Congress to inquire into an alleged monopoly in the newsprint industry which he said was "driving small papers to the wall."

Murray's proposal was made in a six-point "action program" for smaller newspapers in which he recommended postage rate revision.

Officers For C. of C. To Be Elected Tonight

The election of officers for the Chamber of Commerce will be held at the secretary's office tonight at 7:30 o'clock.

Model In Miniature

Little Karen Keiler, 4, modeled an all wool "Ducky Robe" at the wool fashion show which closed the 82nd National Wool Growers Convention in San Francisco. Karen was scooped up by admiring spectators and invited to parade down the center of their table. (NEA Telephoto).

4-H Clubs To Have Entries In County Show

Eastland County 4-H Club boys will have their share of livestock entries at the annual Eastland County Livestock Show at Cisco on February 21 and 22, reports J. M. Cooper, County Agricultural Agent.

Among the exhibitors will be Jerry, Joe Don and James Ed Buckley, Desdemona; Charles McDaniel, Carbon; Bob Richardson, Carbon; Bob McMin, Ranger; Don Jobe Clinton, Scranton; Guy Warden, Charles Mackey and Buddy Craven of Eastland; Edwin Robinson, Carbon; Charles Pat Moseley of Olden, Joe Ben Koonce of Desdemona and Franklin Dunlap of Morton Valley and others.

Billy Weston, Carbon 4-H Club girl, will enlist the aid of her father and twin brothers to show her four lambs in the fat lamb classes. Entries will include fat calves, fat lambs, fat pigs, besides several entries in the breeding classes it was announced.

Several of the entries will be sold at the auction at 4 o'clock on Saturday afternoon, February 22nd.

Adm. Mitscher Of Naval Fame Dies Suddenly

NORFOLK, Va. — Adm. Marc A. Mitscher, 60, who won immortal naval fame in leading his fighting carriers of task force 58 to brilliant Pacific victories over the Japanese, died early today in the Norfolk Naval Hospital. Death was attributed to coronary thrombosis.

Mitscher was admitted to the hospital last Monday following a heart attack, but the navy had not reported his condition as serious. In a bulletin last night, only a few hours before he died in his sleep, he was reported to be "resting comfortably."

Workers To Keep On Job During Negotiations

A U. S. Chamber of Commerce spokesman earlier urged quick congressional action to limit portal pay suits lest the courts go so far as to rule that a man must be paid from the moment he drives on a company parking lot.

WASHINGTON — CIO glass, ceramic and silica sand workers have agreed to extend their old contract for the flat glass industry on a day-to-day basis while negotiations continue here towards a new contract, it was learned today.

The old contract expired Feb. 1. The union, following current CIO policy, abandoned its "no contract, no work" tradition and agreed to the day-to-day extension.

Say Gas May Make Inroads On Coal Markets

WASHINGTON — The natural gas industry may offer competition to the coal industry which will "affect coal markets considerably" in the near future, Secretary of Interior J. A. Krug reported today. The oil industry, Krug said, also "may occasionally be a disruptive influence on the coal industry, but not on a national scale."

WASHINGTON COLUMN

BY PETER EDGON

NEA Washington Correspondent

WASHINGTON, D. C.—(NEA)—It there is one thing which everybody hopes to get out of the new Congress more than anything else it is a cut in taxes.

Proposals by both President Truman and Secretary of the Treasury John W. Snyder up to the end of the year were all in favor of keeping taxes up. Their idea has been that while prosperity is here tax rates should be kept high, to reduce the national debt.

Republican majorities in Congress have other ideas. They have a campaign promise to cut taxes fast, 20 per cent across the board. Holy-poly Congressman Harold S. Knutson, the Wadena, Minn., newspaper publisher who is chairman of the House Ways and Means Committee, has given every assurance he will have a "quickie" tax-cut bill on the floor, ready for a vote by Monday, Jan 27. His intention is to cut only individual income taxes. Corporations got their cut last year and won't get another cut till next year, he says.

Knutson says he will run his committee in the same nonpartisan way that the Democrats ran it under Chairman "Muley" Bob Doughton of North Carolina. Which means it won't be nonpartisan at all.

When individual income taxes now bringing in \$18 billion a year, a 20 per cent cut would mean \$3.6 billion. But it is the GOP here that this rate cut will stimulate business that incomes will go still higher and revenues would fall off a bit.

The national debt now stands at \$269 billion, however, and even the Democrats are willing to appropriate \$4 or \$5 billion a year to cut it down. Also, the Republicans will have to meet this year's deficit of \$1.4 billion, to balance the budget—another ear-splitting promise.

Total tax receipts are now about \$40 billion a year. Subtract from that the \$3.6 billion tax cut. It leaves \$36.4 billion for all government expenses.

While Representative John Taber of New York, chairman of the House Appropriations Committee, talks about holding expenses to \$29 billion, other Republicans say the total must go to \$32 billion. If they hold to either figure, there will be room for further tax cuts.

AFTER the quickie tax bill is out of the way, Congress can go into a longer-range tax program. By April 1, Knutson believes an adjustment can be made on pay-as-you-go income taxes withheld from pay checks and pay envelopes.

Knutson doesn't want to go into graduating the quickie tax cut to benefit the lower-income groups, if he can avoid it. He feels that a straight, across-the-board cut is easiest to handle at this time.

Practical structural changes in the income tax law that have been proposed in recent months, are three:

- 1. Elimination of double taxation on corporation dividends.
2. Permitting people like actors, writers and athletes having high income in one year to average that income over years of lower income.
3. The Surry tax plan, which would permit husbands and wives family income for tax purposes.

POP'S WINE-SOAKED CIGAR KNOCKS SON OUT

CHICAGO (UP)—At the ripe age of 14, Robert Fleming thought all time to prove to the world that he was a man.

He was found unconscious on a street corner. It took physicians two hours to revive him. He told police a marijuana cigarette had

knocked him out. A day's stay at the juvenile home changed his story, however.

YEE SIR—we do have some very good white Broadcloth Shirts for men and also some Print, also a Gray Chambray that is very popular. Don't miss this chance. Gordon Dry Goods Co. Gordon, Texas.

Pontiac for 1947 features the tasteful use of chrome, new front end styling, and other appearance changes. Now in production, the new Pontiac is offered in two series and ten distinctive body types. All are available with either six or eight cylinder engines.

SCIENCE AT WORK

By Paul F. Ellis United Press Science Writer

NEW YORK (UP)—A new experiment in medical science shows that large doses of penicillin or sulfadiazine will prevent or control pneumonia after an injury to the chest.

Results of the experiment were reported by Dr. Edward Phillips, of Oakland, Cal., in the Journal of the American Medical Association.

Tests were conducted on 73 patients, of whom 43 had fractured ribs, one a fractured shoulder blade and another a fractured breast bone.

Dr. Phillips found that 54 of the patients developed pneumonia only on the same side as the injury that a majority had a mild type of pneumonia; that more than 92 per cent of the cases occurred within six days of injury, and that 50 per cent of the patients recovered within one week.

Three of the patients died, but 26 consecutive patients with severe chest and lung injuries, who were treated with the large doses of penicillin or sulfadiazine, did not contract pneumonia or other complicating infections.

Dr. P. Morgan, reporting in the Chemical and Engineering News, discloses that more than one-third of the \$900,000,000 chemical plant expansion now

under way is centered in the Gulf Coast area, chiefly in Texas. He believes that the Gulf Coast's chemical boom is particularly striking in view of the fact that post-war expansion programs in other areas are only half the size of war-time programs.

Morgan further believes that the industry's growing interest in the Gulf Coast results in part from the availability in Texas and Louisiana of abundant quantities of such essential raw materials as natural gas, petroleum, salt, lime and sulphur. Cheap fuel in the form of natural gas also is a factor, he believes.

Rubber hose for a noseless riveting hammer has been announced by the United States Rubber Company, and is now in production at Passaic, N. J. The hose carries hydraulic fluid under enough pressure to flatten a cold steel rivet into place with one stroke.

The new device is built of oil-resisting synthetic rubber reinforced by steel wire and it transmits pressure of several thousand pounds per square inch from generating equipment to the silent riveter.

The riveter was designed for automobile factories and other manufacturing plants. It is too large for us in building construction.

It Took Robert E. Lee To Upset Bucknell

LEWISBURG, Pa. (UP)—Bucknell University's historian Dr. Lewis E. Theiss, has revealed that it took an invasion to interrupt the university's classroom schedule.

Dr. Theiss said the only interruption in scheduled classes at

Bucknell came in 1863, when college activities were halted to permit students and faculty members to go to Gettysburg to help repel Gen. Robert E. Lee's march into Pennsylvania.

Mother, This Home-Mixed Cough Relief Is Wonderful

Saves Real Money. No Cooking. Quick Results. To get the most surprising relief from coughs due to colds, you can easily prepare a medicine, right in your own kitchen. It's very easy—needs no cooking, and tastes so good that children take it willingly. But you'll say it's hard to beat for results.

First, make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. Or you can use corn syrup or liquid honey, instead of sugar syrup. Then get 2 1/2 ounces of Pinex in every way.

Pinex is a special compound of proven ingredients, in concentrated form, well known for quick action in coughs and bronchial irritations. Money refunded if it doesn't please you.

from any drugstore, and pour it into a pint bottle. Fill up with your syrup. This gives you a full pint of really splendid cough syrup—about four times as much for your money. It never spoils, and lasts a long time. And for real, quick relief, it's very effective. It loosens the phlegm, soothes the irritated membranes, and helps clear the air passages.

Pinex is a special compound of proven ingredients, in concentrated form, well known for quick action in coughs and bronchial irritations. Money refunded if it doesn't please you.

American Artists Glorify New York City

NEW YORK (UP)—More than 60 paintings, water colors and drawings of ten outstanding American artists, depicting "New York, Wonder City of the World," have been shown, in the presence of Mayor William F. O'Dwyer, to representatives of the press.

The collection is the property of Nathan M. Ohrbach, New York philanthropist and merchant, who commissioned the pictures, his aim having been "to present a dramatic and permanent record of a great city . . . from the creative artist's point of view."

The artists who contributed to the collection have specialized mostly in painting the American scene and are known for their achievements in this field. They are: Thomas Hart Benton, Aaron Bohrod, Adolf Dehn, George Grosz

Tornado Damage

Tornadoes have a habit of creating the spectacular. This photo, taken after the recent tornado in Salem, Arkansas, will prove the point. Mr. J. O. Benton was sitting behind the wheel of his car when the storm struck. A piece of 4 by 6 hurtled right through the windshield and two other pieces forced their way into his radiator. Mr. Benton was unimpaired. (NEA Photo).

I GIVE YOU TEXAS
 By Boyce House
 Why don't they put sage in sausage, any more?
 I reckon you could call that a "sage" remark.

And, come to think of it, all the sausage I've seen lately could stand a little more sausage in it, too.

The Republicans have backed down on their original intention of reducing the luxury taxes. The folks back home protested against

the tax being lowered on fancy baggage, perfumes, furs and whiskey before the income tax on all of us is reduced.

Last summer Grover Sellers introduced himself to man who asked

HELPS KIDNEYS
 Remove Harmful Impurities
 Backache, loss of the old pep, getting up nights, and headache are often caused by nothing more than improper kidney action due to excess acid in the urine. The kidneys are one of Nature's ways of removing impurities from the blood. And when these impurities back up, trouble may start.

So if you have these troubles, give your kidneys and bladder a good flushing out by taking Dr. Kilmer's Swamp-Root. It works on the kidneys to flush them out, increasing the flow of urine to help relieve that excess acidity and ease that burning sensation when you pass water. For free trial supply, send to Dept. X, Kilmer & Co., Inc., Box 1155, Stamford, Conn. Or—get full-sized bottle of Swamp-Root today at your druggist.

ed, "What business are you in, Mr. Sellers?"
 After Sellers said that he was attorney general, the citizen asked, "Are you a candidate for something?" and was given the reply, "Yes, I am running for governor."

The voter who did not call his own name during the brief conversation, was Bill McCraw, himself former attorney general and once a candidate for governor.

(This is bound to be just the way it happened because Bill told me about it himself).

File under heading, "What killed vaudeville?"

"And now friends I'm gonna sing that little ditty entitled, 'Peppin' through a Knothole in Father's Wooden Leg.'"

Chal Harry, witty Texas paragrapher, remarks:

"Yes, it takes a heap o' livin' to make a house a home—and it also takes a house."

"The test of your personality is which you had first—friends or money."

Dance Fete Planned At Jacob's Pillow

LEE, MAS. (UP)—A peak in the Berkshire here, Jacob's Pillow, will be the scene this year of experiments in ultra-modern and international ballet dancing.

Arthur Mahoney and Thalia Mara, directors of the Jacob's Pillow University of the dance, founded by Ted Shawn, announced that the coming season will see the opening of what they plan to be an annual "international dance Olympics."

Dancers from many parts of the world, including Japan and Germany will compete in universal dance forms.

A new American ballet is now being choreographed by Mahoney and Mara. It will be the opening event of the season starting July 5. The score is by Earl Wild and costumes and decor by Alfred Stern.

After this nationalistic bow, the competing dancers will weave a United Nations pattern, with the theme of "One World" emphasized in all the competitive events.

BLANKETS of all kinds at Special prices. Bath Towels, Shag Rugs, Luggage. We are here to serve your needs. Gordon Dry Goods Co. Gordon, Texas.

 Every Saturday Night,
 Music by Daffern and his musical Ramblers. At the Country Club, Cisco, Texas.

Why Does the Baby Ask, Why . . .
 . . . is explained with reason by the psychologist, but when a grown person, mature in years and probably business experience, rushes into an abstract office and asks the abstractor "Why didn't I get an abstract when I bought the place?" is one the psychologist doesn't care to explain, and we have never tried. It's a man's privilege to err and blunder which may explain in part why only a small per cent. of the persons reaching 65 years of age are self-supporting. What a tragedy!

SOCIETY

Mrs. Heatly To Leave Tuesday

Mrs. Homer Heatly will leave Tuesday for New Orleans where she will enter Tulane University. Mrs. Heatly plans to take a masters degree in social science. She holds the Bachelor and Masters of Arts degrees from NTSC at Denton and is a member of Kappa Delta Pi, national honorary fraternity, Delta Kappa Gamma and the American Association of University women. She is a former voice student of Madam Elizabeth Bowman of New York and for the past four years has been head of the voice department of Ranger Junior College. She completed her fourth year here the first of this month.

Founders Day Tea To Be Wednesday

The City Council of Parents and Teachers will entertain with the annual Founders Day tea at the Recreation building Wednesday afternoon at 3:00 o'clock.

A program will be presented by the various public schools in Ranger and the Child Study Association. No admission will be charged and the public is invited to attend.

Breakfast Honors Mrs. Fred Yonker

Complimenting Mrs. Fred Yonker on her birthday, the personnel of Hamill's Inc., entertained Monday morning at 8:00 o'clock in the Paramount Coffee Shop with a breakfast.

PERSONALS

Mrs. W. J. Ham of Petrolia, Texas, is the guest of Mr. and Mrs. G. E. Lassater. The Lassaters had as their guests last week, Mr. P. F. Lassater, of Artesia, Colorado, Mr. D. K. Ham of National City, California and Mr. George Stewart, Chula Vista, California.

Mr. and Mrs. Clyde Anderson and son Jerry left Sunday for Odessa where they will make their home. Mr. Anderson has been transferred there by the T. P. Geal and Oil Company.

Mr. and Mrs. Harry Wheelon of Amarillo were visitors in Ranger Sunday. Mr. Wheelon was to take a plane from Ranger for a business trip in Houston and Mrs. Wheelon was to go to Dallas today.

Mrs. W. C. Gorman was expected to arrive today for a visit with her sister, Mrs. Ven White and other relatives.

George Campbell and A. N. Larson transacted business in Breckenridge today.

Word has been received of the birth of a baby girl to Mr. and Mrs. William Rawland of Cleburne. The baby who was born Monday morning, February 3, is the granddaughter of Mrs. Blanche Murray of Ranger and Walter Murray of Mineral Wells.

Common mustard seeds remain alive in the soil for many years. They usually will not grow if buried more than two inches deep.

A & P SETS UP ADVERTISING PROGRAM

JACKSONVILLE, Fla. Feb. 3—An experimental plan of placing company advertising in at least one newspaper in every community in which it has a store has been put into effect by A & P Food Stores, R. M. Smith, president of the food chains Southern Division, announced here today.

"The new advertising will appear every other week in 229 papers in this Division and in a total of 900 newspapers throughout the country," Mr. Smith declared. "The campaign is entitled 'Marketing with Marjorie' and is newsworthy and chatty in form. It will tell consumers about the famous quality brands to be found in local A & P Stores.

"A & P has always believed strongly in the selling power of newspaper advertising. The best proof is that we have been using approximately 2,900 newspapers regularly to carry our messages to the public; with these additions our advertising list will total nearly 3,000."

Some of the copy will describe the quality of the products and other 'ads' will give hints on how to use these foods to make more tempting and tastier dishes, the Division president pointed out. The 'ads' are aimed at the housewife although the quality angle is expected to interest men, shoppers, whose number has increased greatly since the start of World War II.

"Prices won't be included in the 'Marketing with Marjorie' ads since these vary in different communities, but to different shipping and handling costs," Mr. Smith said. "Until now retail food advertising has been devoted for the most part to listing prices of the various foods. As a result, this column is a marked departure from the actual practice of most food companies.

"Since it is new and different, 'Marketing with Marjorie' is being tried on an experimental basis. Its continuance will depend fully on whether there is sufficient reader interest to warrant running it regularly. We would be interested in hearing what consumers think about it."

Wonderful Expedition In 1773 Traveling

BOSTON (UP)—In his diary, Josiah Quincy describes as follows a trip he made in 1773 from Boston to New York: "I set out from Boston in the line of stages of an enterprising Yankee, Pease by name, considered a method of transportation of wonderful expedition. The journey to New York (250 miles) took up a week. We reached our resting place for the night, if no accident intervened, at 10 o'clock, and after a frugal supper, went to bed with a notice that we should be called at three, which generally proved to be half past two, and then, whether it snowed or rained, the traveler must rise and make

Tells Of Rape

In a Long Island hotel, radio commentator Max Hill and his bride, Phoebe, 25, tell police how she was raped and robbed by four men who overpowered him. Mrs. Hill said the men drove her from Manhattan to a point 60 miles out on the Island and repeatedly attacked her. They released her when their car ran out of gas. (NEA Telephoto).

ready, and proceed on his way over bad roads, sometimes getting out to help the coachman lift the coach out of a quagmire or rut, and arriving in New York after a week's hard traveling, wondering at the ease, as well as the expedition with which our journey was effected."

Gloucester Leads Again In Fishing

—This 23-year-old picturesque port of the shores of granite-strewn Cape Ann paced the nation's fishing industry in 1946 for the fourth successive year.

Total fresh fish unloaded here in 4,507 trips by 265 vessels was 207,390,600 pounds, only 2 per cent less than the all-time record set by this city's fishermen in 1945.

Gloucester easily bested Boston which reported catches totaling 165,914,000 pounds.

Redfish was king here with a new high of 135,391,000 pounds that overloaded freezers and resulted in a warning to fisherfolk to stop catching that variety until some of the backlog can be sold.

The industry paid out some \$14,000,000 to 35,000 fishermen and wharf workers.

Information, Please
BOSTON (UP)—Among the queries received by the weather bureau this year was one from a Bostonian who wanted to know "how to set the new barometer I got for Christmas."

UNDERWEAR for men and boys. Union Suits, in cotton and undershirts. Shorts in briefs and cotton prints. All very good quality and an special price. Gordon Dry Goods Co. Gordon, Texas.

Original Lincoln Manuscript Found In An Old Book

SPRINGFIELD, Ill. (UP)—An original Abraham Lincoln manuscript has been found folded between the pages of an old book by King V. Hostick, Lincoln author and collector of rare documents.

Hostick made the find while rummaging in an old book store in Chicago. He sent the manuscript to the Library of Congress in Washington, where it was authenticated.

The document, written entirely by Lincoln, is a legal opinion which Lincoln drafted and submitted for the approval of his close friend, David Davis, who Davis was a circuit court jurist in Bloomington, Ill.

The bold signature of Davis stands in marked contrast to the fine penmanship of Lincoln. Hostick said, adding that Judge Davis' acceptance of Lincoln's legal opinion demonstrated the high regard, in which the future president's legal knowledge was held.

Davis later was an associate justice of the United States Supreme Court by appointment of President Lincoln, and was named administrator of Lincoln's estate upon the president's death.

Fireman Gets All Wet In Baptism

HOUSTON, Tex. (UP)—Fire Inspector R. L. McNalley was baptized 25 years ago. He has just been baptized again this time without benefit of clerics.

McNalley was inspecting the wiring in the First Baptist church when he noticed a closed door. "What's in there?" he asked the building superintendent. "That's the baptistry," the superintendent replied. "But it's

A Real Beauty

Thousands of British people will soon be handling a lovely Texas Grapefruit with the same loving care as Capt. A. G. Jones, Capt. Jones, skipper of the British ship Chirripo, is a Welshman from Mold-North-Wales, and was very much pleased after sampling his first Texas grapefruit. The Chirripo is carrying a full cargo of citrus fruit from Brownsville Texas to England. The fruit was purchased by the British Purchasing Commission and will be most welcome when it arrives on the breakfast tables of the citrus hungry British. (NEA Telephoto).
