

## \$120,000 In Damages Filed For

Two separate law suits, filed by Ranger residents, asks almost \$120,000 in damages.

Named defendants are T&P Railway and a Ranger woman.

A damage suit asking almost \$70,000 has been filed in 71st District Court as a result of an auto-train wreck in Ranger in January in which Mrs. Grayson Townzen and her 15-year-old son, Robert, were killed.

Filed by Grayson A. Townzen, widower, his son, Billy Ernest, and daughter, Mary Louise Townzen Samford, the suit alleges that the Texas & Pacific Railway Co.'s railroad crossing in Ranger is "hazardous and dangerous."

T&P is being sued for \$50,000 for the loss of the wife; \$15,000 for the son; \$2,000 for loss of automobile; and \$2,041.15 for funeral expenses.

A similar suit against the railway company is also on record in the court, as the result of the death of Jodie Robertson of Eastland. The Eastland fatality followed the Ranger dual fatality by a few days.

The Abilene law firm of Scarborough, Black and Tarylepy represent the Townzen family in the Ranger suit.

The Ranger crash occurred Jan. 18th, 1962.

A \$50,000 damage suit has been filed in District Court against a Ranger woman who has already been indicted by the same court's grand jury.

Filed this week in 91st District Court, Mrs. Ira V. (Nancy Lee) Pennington names Mrs. John T. (Junita) Robertson.

Mrs. Pennington alleges in the suit that on Feb. 8th, she was traveling on a Ranger Street, the suit alleges, Mrs. Robertson was driving her car in the opposite direction along the same highway, following her husband, who was in a pickup truck.

As the vehicle driven by Mrs. Pennington and the vehicle driven by Mrs. Robertson approached each other, the suit claims, Mrs. Robertson suddenly and without warning drove her car in such a manner that it hit the left rear portion of the Pennington auto, whereupon both vehicles stopped.

## RHS English Poems Published in Book

(Editor's note: The following poems were written by Mrs. Lillie Robinson's English Class and were selected to be published in the National High School Poetry Association "Young America Songs.")

**Brotherhood**  
by Teddie Neesley

Bring out thy voice, oh shining youth  
And cast light upon thy surroundings;  
Let not one soul fall by thy side,  
Lest ye stop and cure his wound.

Fill not the weak one's cup with evil  
But replenish his heart with good;  
Give him faith to plan for tomorrow  
With the spirit of brotherhood.

**Life**  
by Edwena Edmonds

In the morning when I get out of bed,  
And night seems far away  
Many dreams come into my head,  
And I forget the troubles of the day.

What if there were no troubles at all,  
Life just peacefully went on its way  
What if our dreams never had to fall  
And night didn't turn into day.

Life we know must have some trouble,  
Face each day we must  
It does no good to fret and grumble;  
Just continue with faith and trust.

**God's Promises**  
by Barbara Ford

You sunrise is a promise  
Of the evening we may see,  
The sunset is a promise  
Of the things tomorrow may be.

The North Star is a promise  
That Christ ascended there,  
His cross is a promise  
That life with Him we'll share.

Life here is a promise  
So many things it holds  
Each minute is a promise  
Of the life He gave to mold.

**Youth**  
by Tommy Joyner

Youth to me is beauty  
A time to learn and grow  
A time of happiness and sorrow  
As only youth can grow.

Youth is a wondrous experience  
An experience of setting one's goal  
An experience of life and living  
As only youth can know.

**Miraculous Wonderment**  
by Pat Baumgartner

In the sea of billowing clouds

I observe the magical wonderment of heaven  
I see the mystic moon peering behind a silvery sheath  
And the chattering waves of the heaving clouds.

The beguiling winds, once tranquil, now exert their power  
And sweep across the mountainous horizon  
Bringing the black rumbling of a monstrous tower  
And streams of pounding rain.

He will enter the Air Force Academy in Colorado Springs, Colo., the later part of June.

His father, J. W. Daskevich, now resides in Albuquerque, N. M. His grandmother, Mrs. J. W. Gideon and grandparents, Mr. and Mrs. Joe Daskevich are long time residents of Ranger.

## Alfred Hutchins Accidentally Shot Sunday

Alfred Hutchins of 1216 Young Street, Ranger, is recovering satisfactorily after being accidentally shot Sunday afternoon while killing a rattlesnake.

Hutchins was with Cecil Stewart of Ranger at his place of business on Highway 80 near Olden Sunday afternoon when they discovered a rattlesnake. Stewart shot the snake with a .22 pistol and handed the gun to Hutchins, while he cut off the rattlers on the snake.

Reports indicate Hutchins accidentally aimed the gun, shooting himself in the lower left leg. The bullet passed through his leg and came out his heel.

The snake had 10 rattlers.

R. E. Wilson, 80, retired Gorman dairy farmer, died at 12:30 p.m. Monday at a Harkwell Hospital following an illness of three months.

A native of Little Rock, Ark., he moved to Gorman in 1918, and operated a dairy farm for 25 years. He retired in 1945.

Funeral services were held at 2 p.m. Tuesday in the Gorman First Methodist Church with the Rev. John Dowd, pastor, and the Rev. Marion Dennis, pastor of the Congregational Methodist Church officiating.

Barial was in the Gorman Cemetery with Higginbotham Funeral home in charge.

Survivors are his wife; one daughter, Mrs. Gail Bennett; one grandson, Herman Bennett; and two great-grandchildren, all of Gorman.

## New RJC Track Valuable Asset To Community

Since the conclusion of the Texas Junior College Athletic Conference track meet held on the campus of Ranger Junior College Apr. 30-May 1 the question has arisen as to the possible influence the new track will have on sports in the future at the college. Opinions of several teachers and students indicate a favorable influence.

Couch Larry Parker: The new track should be very beneficial to the college and to the city of Ranger. It will attract prestige among possible students for RJC and go hand in hand with building winning track and football teams.

Ranger golfer Gary Bradshaw: The new track will add to the prestige of the school and should attract more students.

Jimmy Purdy, Victoria: The track provides for excellent recreational activities and adds to the appearance of the school.

As the track was built by H. C. Vandever of Strawn, it is undoubtedly the best one in Texas. It will bring in more students for the college.

Paul Free, Colorado City: It will encourage more students to (Cont used on page 5)

## Macedonia Baptist To Serve Dinner

### Letters To The Editor

513 Brooks Hall  
Baylor University  
Waco, Texas  
May 15, 1962

To the Editor:

Today a frier slipped a major city newspaper in front of me and quipped, "Isn't this your home town?" The headline read RANGER SLATES WET DRY VOTE. Although the story appeared somewhat as a shock, I was not really unprepared because I had been told on my trip home Easter that such a move was being proposed by some of Ranger's citizens. I am certain that this group is definitely in the minority and does not really have the welfare of the community in mind. The statement which I heard most often in favor of the proposal was that beer traffic was just what Ranger needed to bring it alive. Indeed it will bring the town alive in the same sense that other beer towns are alive with activity: drunkenness, excessive automobile accidents, illicit sex, street fighting, ad infinitum. Will the sale of beer and wine restore Ranger to its past glory? NO. If beer and wine traffic is to have any effect whatsoever on the town's future, it will be to deal it the death blow.

Ranger is primarily suffering from a lack of young families. For the past several years Ranger's youth has steadily moved to other cities without any substantial number moving to Ranger. Will a thriving beer city attract young families who are trying to build a sound home? NO.

Some say that certain members of the citizenry will drink anyway so why not profit thereby. How foolish can one be? Does condoning or ignoring evil make it right? He can anyone dare to try to profit by another's wrong doings? Is he not

leading him to do wrong? If you wish to look at the question from the purely economical side, what will become of our little towns below the hill. Their whole existence for years depended on beer and wine traffic. Will they not dry up and blow away when Ranger citizens (who are afraid to drink) no longer need to get there because they may pick up their bottle on Main Street or Highway 80?

Parents think of what temptations are being laid at the door of your homes and schools. Is this sort of thing what you want before your children? Christians think of what this proposal may do to your church community. If the Ranger church has stand solidly exposed to the proposal, it will not pass. For Ranger, for your family, for yourself—on June 9 vote against it. My only regret is that I am not already twenty-one nor will I be in Ranger to actively campaign against this measure. PLEASE DO NOT BE APATHETIC. Nothing will aid its passage quicker than an indifferent citizenry. VOTE.

Michael Herrington  
Baylor University

Dear Editor:

We have lived in Ranger over forty years. We have loved Ranger and her people. Our church means much to our lives. We do not believe we could lift our eyes to the Lord in prayer daily, thanking him for our many blessings, and not lift our voices in Protest in Legalizing Beer and Wine in Ranger. We could never vote except against it. We have seen the devastating results on young and old people drinking beer and wine. We certainly will vote against it.

Anything that can wreck homes and families like the sale of these two things is asking for trouble. What about the influence, on the people wanting to locate in our town? We know of people that came to Ranger because we did not sell beer or wine.

Let's not let this happen in Ranger. Mr. and Mrs. J. B. Houghton, Sr.

### Brucellosis Control Is Planned

The Eastland County Livestock Raisers' Association is currently engaged in an all-out campaign which will result in making Eastland County a certified Brucellosis clean area. Funds have been available in various communities of the county for some time on which producers can sign petitions to the Livestock Sanitary Commission of Texas to take the necessary steps to realize this objective.

D. S. Buchanan, owner and operator of the Eastland Auction Company, has recently been notified officially by the Texas Animal Health Council that all breeding animals that are eight months old and over and "dirty" counties, which include Eastland, Erath, Palo Pinto and Comanche, that will go to the farms from the auctioning have to be tested for Brucellosis.

When this order goes into effect on June 15, it will mean the following inconveniences to the sellers of cattle. First, it will cost livestock producers several hundred dollars per month in test fees. Secondly, checks for cattle cannot be issued until the results of tests are known. Third, delayed loadings of cattle resulting from delays testing will cause buyers to stay away from markets in those counties that are "unclean". Fourth, many buyers now hesitate to buy cattle that have to be tested because when they finish their buying, they desire to finish their transactions and go home. The Livestock Raisers' Association is currently in the process of compiling eligible lists of livestock producers residing in the various communities of the county. As soon as these lists have been completed the Association will meet and formulate specific plans for petitioning the Livestock Sanitary Commission to carry out their testing program in the county and to follow through with other necessary procedures in making this a clean county.

Livestock producers are urged to cooperate in this program. It is obvious from the above facts that unless the county follows through with this program in the near future, livestock markets will suffer and livestock producers in the county will suffer financially.

All producers of livestock should make sure that they sign a petition which will be made available to them within the next three or four weeks. In the event that a petition is not made available to you, you are asked to contact J. M. Cropper, County Agricultural Agent, Ross Wilson, Gorman, or your local Vocational Agriculture Teacher who will see that a petition is available for your signature.

### Lone Star Prints Vacation Folder, Map

The Lone Star Gas Company has started a campaign among its employees to encourage tourist and sightseeing in Texas and Oklahoma, where the company has extensive holdings.

The company has distributed among its 6000 employees a four-page color folder describing the many attractions in Texas and Oklahoma. On the inside pages of the folder are found a map of Texas and Oklahoma with the points of interest marked clearly.

Lone Star is making an effort through the folder to call attention to the pleasant and interesting places where company people might spend their annual vacations or make a week-end side trip.

Lone Star says that each employee probably has one or more friends outside the two states who might be influenced, as a result of the folder, to vacation in Texas or Oklahoma.

Ever add up what you could LOSE?

You have perhaps often added up what you are worth.

Ever add up what you COULD LOSE? It might perhaps be several times what you are worth.

Example: you may injure somebody, and the law may take all your worth and attach your future income for years to come.

Example: your house may burn and it may cost you twice its original price to replace it.

Sometime add up all the losses you MIGHT have and you'll see that you are underinsured at many points — against theft, fires, lawsuits, embezzlement, interruption of business, etc.

Gloomy? Well, the purpose of the American Fore insurance policies we write is to end this kind of gloomy thinking.

## Longtime Piano Teacher Succumbs; Rites Tuesday

Funeral services were held Tuesday at 3 p.m. in the Eastland Methodist Church for Mrs. A. F. Taylor, 71, a piano teacher for 36 years in Eastland. Mrs. Taylor of 709 S. Seaman died Sunday at 3:00 p.m. in the Eastland Memorial Hospital following a lengthy illness.

Rev. W. S. Fisher, pastor of Methodist Church, officiated the services with interment in the Eastland Cemetery under the direction of Hamner Funeral Home.

A resident of Eastland since 1919, Mrs. Taylor was born Fannie Belle Weatherby on Nov. 3, 1890 in Mills County, Tex. She was the daughter of the late Mr. and Mrs. Jim Septimes Weatherby of Goldthwaite.

She started piano study in Goldthwaite at the age of 12. She continued her studies at Howard Payne College in 1908, taking voice and piano. She taught piano one year at Blanket and one year at Goldthwaite before marrying Austin F. Taylor in 1912. Mr. Taylor was also a native of Goldthwaite, but a resident of Balinger at the time of their marriage. He preceded his wife in death in the year 1945.

MRS. A. F. TAYLOR

Mrs. Taylor founded both the Beethoven and the Scale-runners Junior Music Clubs here. The Beethoven Club, oldest junior club in Texas, was organized in 1920. The Scale-runners Club was organized in 1931.

Her classes have ranged from 20 to 63 students and she has at times directed choral clubs and choirs in the schools and churches of Eastland. She retired from the teaching profession in 1960.

Piano teaching did not take all of Mrs. Taylor's time. She had been an active member of the Methodist Church since 1904. She was the first teacher of the Martha Dorena Sunday School Class of the First Methodist Church here in 1919 and has been a member of the church choir since that time.

Mrs. Taylor had served as president of the Eastland Music Study Club and recording secretary for the past two years. She was an active officer and committee chairman for the Sixth District, Texas Federation of Music Clubs and was also a charter member of the National Guild of Piano Teachers. She had also been presented with life membership in the Music Study Club and the State and National Federations of Music Clubs.

Survivors include two daughters, Mrs. M. H. (Ann) Perry of Eastland and Mrs. J. P. (Lorraine) Kilgore of Albuquerque, N. M.; four grandchildren; and four brothers, E. J. Weatherby of Brownwood, M. R. Weatherby of Fort Worth and Walter and Jim Weatherby of Goldthwaite.

Nephews served as pallbearers for the services.

### State Pays Out Big Money For School Purpose

Texas State Government in the fiscal year ending in June last paid out the nation's fifth largest amount of money for educational purposes, the Dallas Field Office of the U. S. Department of Commerce reported.

During the fiscal year, the State's government expended approximately \$506,446,000 for the education of its students, an amount exceeded only in the States of California, New York, Michigan and Pennsylvania. In doing so, however, Texas dropped from third place in rank among the states in 1951 to fifth place in 1961. Texas' per capita expenditures last year of \$51.74 took it from 12th position among all States in 1951 to twenty-sixth place last year.

During the decade, the State dropped behind such other states in per capita payments as Arizona, Alabama, Montana, Mississippi, North Carolina, Colorado, Oklahoma, North Dakota, West Virginia, New York, Georgia, Indiana, Vermont, and Florida.

Harry C. Meyers, manager of the Commerce Department's Dallas Field Office said, an analysis of a report just released by the Bureau of the Census on State Government finances revealed that Texas more than doubled its 'out-go' of funds for education in the past decade.

## Turkey Growers Urged To Vote In Referendum

All turkey producers eligible to vote in the upcoming referendum on the national turkey marketing order were urged today to file at the proper ASCS office as soon as possible their certification of turkeys marketed in 1961.

Elmer E. Blackwell, Chairman, Agricultural Stabilization and Conservation Eastland County Committee, points out that this is particularly important since June 8 is the deadline for "contract-producers" and cooperatives to file such certifications.

"There are few questions about 'producer-growers,'" the Chairman declared, "but a good deal of misunderstanding about 'contract-producers' who are eligible to vote in the referendum if they have a 'proprietary interest' in the turkeys produced. Apparently, there is a trouble arises because people don't understand just what 'proprietary interest' means under the turkey marketing order."

The "producer-grower", the Chairman explained, who is eligible to vote in the turkey referendum is a person who (1) operates production facilities in a proprietary capacity, (2) produces in excess of 3,600 pounds of turkeys on such production facilities in a year, and (3) whose turkeys are handled by handlers.

The "contract-producer" who is eligible to vote is a person who participates in the production of turkeys with the risk of loss.

If the person who finances the grower by way of credit for feed, poult, or other supplies, has a contract with the grower which stipulates that the producer-grower must repay the amount advanced, the financing party does not share the risk of loss and so would not be eligible to vote in the turkey order referendum.

However, if the arrangements provide that the financing party's advances are to be locally satisfied by the returns from the sale of the turkeys whether or not such returns are more or less than the amount advanced, then there would be a proprietary interest because the financing party would participate in the risk of loss.

"In all cases," Mr. Blackwell emphasized, "the key point is that the contract-producer who is eligible to vote in the turkey marketing order referendum must participate in the risk of loss. If the contract he has with the producer-grower does not provide for such participation, there is no proprietary interest."

A bona fide cooperative of turkey producers is likewise eligible to vote for its producer-members.

The national turkey marketing order is designed to provide the industry with a means of

adjusting turkey marketings in order to assure fair returns to producers and reasonable prices to consumers. To become effective the order must be approved by at least two-thirds of the growers voting in the referendum—either by number or by volume of production. Ballots may be cast either in person or by mail from June 18 through June 22.

Contract-producers should file their certification of producers and volume at the ASCS State office for the State in which the principal place of business is located, or at the local ASCS county office if the contract-producer operates in only one county. This certification by contract-producers and by cooperatives must be filed no later than June 8.

## Connally Rally To Be Held In Brownwood

More than 1,500 Central and West Texans are expected to jam into Coggin Park in Brownwood Friday at 6 p.m. for the Heart of Texas Association Chili Dog Rally.

A large contingent from Ranger and Eastland County is expected to attend the hot dog feast, according to Sam Aills, Don Pierson, Mike Collins and Van Field Hopper, county coordinators.

Highlight of the rally will be a major address by John Connally, Democratic candidate for Governor of Texas. He is expected to arrive there around 5:30 p.m. Friday.

Free food and entertainment also will be available at the big rally, which is the biggest event of its kind staged here in the last decade.

Residents from 20 counties—Brown, Comanche, Coleman, Erath, Eastland, Mills, McCulloch, Concho, Mason, Gillespie, Tom Green, Callahan, Taylor, Runnels, Lampasas, San Saba, Hamilton, Burnet, Menard and Llano—are expected to be on hand.

No personal invitations are being extended for the rally. Instead, all interested persons in the 20-county area are cordially invited to attend the rally, and there will be no charge of any kind.

Car stickers and banners are being quickly picked up from Connally campaign chairmen from throughout this area as persons prepare to welcome Connally to Central-West Texas.

Working for Texas

Meet a fellow Texan: Preston Smith.

Preston Smith's story is in the best Texas and American tradition—a farm boy who worked his own way to an education and a place of honor in his business and community life.

Born in the heart of Texas, at Georgetown, he moved with his family to Dawson County in 1923 when he was 10 years old. He went to school at Sunset, Lamesa, and Texas Tech. In his adopted home town of Lubbock, with his wife Ima and their two children, he now carries out the full responsibilities of a typical Texas business and civic leader.

A steward at St. John's Methodist Church—member of the Salvation Army Board, the Kiwanis Club, the Chamber of Commerce, the Texas Farm Bureau—these are some of the activities close to the heart of Preston Smith, citizen.

He did not stop there. In his daily pursuits Preston Smith came to realize that business and government are closely related in the American system—and that without good government we cannot have a favorable climate for good business. A man of direct action, Preston Smith went into the business of government. He served six years in the Texas House of Representatives and six in the Senate.

Senator Smith has supported sound statewide legislation for better schools, roads, welfare and conservation. He took the lead in establishing a permanent building program for state colleges. He had the integrity to support necessary state spending and the courage to oppose extravagance and waste. In government, as in business and at home, Preston Smith believes in meeting our obligations and paying our bills.

Having proved himself as one of the best-rounded, best-equipped, best-informed and most highly respected Texans in both his private and public careers, Preston Smith was a logical candidate to succeed Ben Ramsey as Lieutenant Governor of Texas.

Voters in 102 counties gave Preston the lead over four opponents in the First Democratic Primary. Now he is in the runoff. He got there without the support of any self-serving group or power bloc. His opponent has the endorsement of labor leaders and other special interests who want to dominate our state government.

Preston Smith asks only for the votes of individual Texans who want a Lieutenant Governor without any strings attached. He is depending on independent-minded Texans everywhere to vote for him on June 2.

Elect your independent candidate for Lieutenant Governor—

# PROFIT OR LOSS

## WHO WILL PROFIT IN A 'WET' TOWN?

### 1. THE LIQUOR INDUSTRY

Most of the money spent on beer and wine in Ranger will go to outside interest—the wineries and breweries. This will be money that could well be spent on constructive projects.

### 2. LOCAL BEER AND WINE RETAILERS

Any profit made locally will remain in the hands of the few who sell beer and wine. This will be money that will rarely find its way into the building of a better community.

## WHO WILL LOSE IN A 'WET' TOWN?

### 1. THE MAN WHO DRINKS

The Yale University of Alcohol studies estimates near 5,000,000 alcoholics in the U. S. A. and increasing at the rate of 250,000 per year, one fourth of them are women. Remember ONLY THOSE WHO DRINK BECOME ALCOHOLICS.

### 2. THE FAMILY OF THE MAN WHO DRINKS

Records indicate that drinking alcohol as a beverage is a major factor in the disintegration of the home in the U. S. A. and is a contributing factor in the wave of juvenile delinquency.

### 3. LEGITIMATE BUSINESSES

Roger Babson, a syndicated columnist says, "The man who drinks buys less groceries, clothes, shoes, automobiles, real estate, and is a greater insurance risk."

### 4. THE YOUTH OF THE COMMUNITY

REVIEW, the official publication of the Texas Liquor Control Board, reports for the month of March, 1962, indicate 81 cases of possessing alcoholic beverages in public place by minors in "dry" territory while there were 228 cases in "wet" territory.

### 5. THE CITY OF RANGER

According to information received from the State Liquor Control Board the following are true statements:

- The city of Ranger will receive **NONE** of the excise tax which is collected by the state on the sale of beer and wine.
- The city of Ranger **CANNOT** legally levy any kind of tax on the sale of beer and wine.
- The only monetary benefit Ranger will receive is an amount equal to one half the amount paid to the state for a license to distribute or sell beer and wine. In the case of a permit to retail beer and wine the amount would be **ONLY \$15.00** per year.
- The city of Ranger would have **NO CONTROL** over the outlets for the sale of beer and wine.

### 6. RANGER JUNIOR COLLEGE

We have just voted some bonds to make capital improvements at the college. Now, what thoughtful parent will send a child to a junior college in a small, "WET" town?

### 7. THE PEOPLE WHO SELL BEER AND WINE

While a retailer may profit monetarily from the sale of beer and wine, he stands a mighty good chance of **LOSING** the respect of the community where he lives. **IS IT REALLY WORTH THE PROFITS TO LOSE THE GOOD WILL OF THE COMMUNITY?**

**REMEMBER: A VOTE "AGAINST THE SALE OF BEER AND WINE IN THE CITY OF RANGER IS A VOTE "FOR" THE CITIZENS OF RANGER.**

**VOTE 'AGAINST' THE SALE OF BEER AND WINE ON JUNE 9 FOR THE SAKE OF OUR COMMUNITY.**

**DRY HOLE DRILLED AT SIX FLAGS**

Motorists driving along the Dallas-Fort Worth Turnpike may have been wondering about the old time wooden oil derrick that has just been constructed in the 110-acre tourist attraction... SIX FLAGS Over Texas.

Master plans in the projected expansion of SIX FLAGS included the construction of an oil boom town, and the oil derrick is the initial structure. Following its policy of striving to attain authenticity in the Park, scouts from SIX FLAGS boarded the SIX FLAGS helicopter and headed for Breckenridge, Texas. They had heard that an old wooden derrick, complete with rigging was located somewhere in the area.

About four miles North of Breckenridge the old wooden structure was spotted and pilot Clifford Place settled the whirlybird down nearby.

The owner of the property on which the well located came out to investigate and purchase. The supplier, G. T. McNallen, was asked if he had any old rig "iron," or a complete old unit that was for sale. McNallen replied by asking if the Six Flags group had seen the old Crowley Number One well, out North of town. Day answered by saying, "Yes, we just came from there, and bought the thing," McNallen replied, "Oh, yeah." Day explained that he had just made a deal with the man that owns the property. McNallen, quipped, "That's funny, I thought I owned it."

It seems that when the property was sold McNallen had retained rights to the well, of which the current owner was unaware. After some complicated dealing, the derrick finally became the property of SIX FLAGS Over Texas, along with a complete 1920 vintage "cable tool" rig. When SIX FLAGS construction supervisors and mechanics trekked to Breckenridge to move

the installation, they found the derrick was too old and rotten to either tear down and re-assemble, or to move intact.

Then, the Park hired Charlie Fox, an old-time oil rigging expert who had built many wooden derricks in the past. As a consultant, Fox took measurements of the old derrick and secured a quantity of number two rough pine, and began building the replica in the SIX FLAGS Park. The floor of the old derrick was good enough to use in the new 68' high derrick, and was moved complete from Breckenridge, along with all the drilling equipment. This included gears, a walk-side reel, a backside reel, a bull wheel, sand reel, calf wheel, hand wheel and pitman.

The original Crowley Number One well was a producing oil well in the Breckenridge area, and was constructed and drilled in the year 1920. It was 3,500 feet in depth—an extremely deep well for those days.

At SIX FLAGS Over Texas the "cable-tool" rig will actually operate, as wheels turn and cables roll over pulleys.

The derrick and its rig in operation can be seen at SIX FLAGS from two rides that were popular modes of transportation during the days that Crowley Number One was pumping its 250 barrels a day. One is the Chaparral Antique Car ride, where guests drive 3 scale models of 1911 antique cars. Another is the narrow-gauge steam engine train that encircles the Park. Drivers of miniature sports cars on the Humble Happy Motoring Freeway will also be able to view the derrick, which had become obsolete before the day of the sports car. And, of course, the rig and derrick will be seen by every rider of the "Astroliff" cars that soar 50 feet in the air over the great Park.

It took searching, ingenuity, hard work and time to get it, but now SIX FLAGS Over Texas has its own dry hole, complete with a derrick and equipment that most oilmen quit using some 40 years ago.
