## JRB Buys County's 3 Food Marts

J. R. Beadel and Company of Brownwood announced Saturday the purchase of three Worth Food Mart stores in Cisco, Eastland and Ranger, and effective Monday, May 17, the three grocery stores will be under the management of the JRB Supermarket chain which operates in several towns in Central West Texas.

All local managers and store personnel in the three stores will be retained, according to J. R. Beadel, who was in Eastland County last week to complete details of the transaction.

"We plan to make no personnel changes in any of the stores in the immediate future," Mr. Beadel said, "as we are very proud of the fine group of employees we find in the stores. We plan only to increase the stores' efficiency and service to the food buying public, in keeping with the policy and reputation of our stores in other places."

JRB Supermarkets operate in Brownwood, Banas, Cross Plains, Coleman, Abilene, and Lampasas.

"Our policy of stocking our stores with complete stocks of nationally advertised foods, including Shurfine and Always Fresh lines, has made the

JRB Supermarkets the leading stores in their localities, and we plan to continue this policy," Mr. Beadel said. "Our high quality meat markets, in which we carry only the best quality graded meats, and our produce departments in which we offer only the finest fruits and vegetables, have contributed considerably to our success in the supermarket field. In addition, an added bonus, we give SAH Green Stamps, the nation's leading redemption stamp."

J. R. Beadel and Company is owned by J. R. Beadel and Allen Beadel, both of Brownwood. The Beadel brothers have been in the retail grocery business for twenty years and previous to that time were engaged for many years in the wholesale grocery business. Their entire career has been spent in Central and West Texas and both men are firm believers in the future growth and development of this section of Texas.

Worth Food Mart had operated the three stores since their purchase of the Pipkin chain some six years ago. Managers of the three stores are Jimmy Long, Cisco; Carey Hightower, Eastland; and Hal Boggus, Ranger.

### C.C. BANQUET

(Continued from page 1)  
 one of the most fabulous and highly publicized in the history of the petroleum industry. Among the out-of-towners present was Earl E. Koeppe, Fort Worth architect, who, with Charles L. Fox, executive director of the museum project and also a Fort Worth resident, conceived the architectural design of the proposed structure. Accompanying Koeppe to the banquet was James Van Gorder, also of Fort Worth, project engineer for the museum which, according to preliminary plans, will cost between \$500,000 and \$750,000 pending consideration of tentative construction details by leaders of the oil industry.

The "Ranger Progress Award," a new plan of recognition initiated at Wednesday evening's banquet, were presented by F. P. (Pete) Brashier, Jr., Ranger merchant and vice president of the chamber. The progress award certificates were presented to Mr. and Mrs. A. E. Robbins of the Ben Franklin Store, Dr. and Mrs. W. P. Watkins of the Western Manor Nursing and Convalescent Home, and Bill Harrison and Sig Faircloth of Ranger. Livestock Auction. Faircloth was unable to attend and Harrison accepted the award on behalf of the partnership. The certificates bore the names of the recipients and were in frames. "The officers, directors and members of the Ranger Chamber of Commerce," and word-

ing on the certificate reads, "proudly present this award to ..... in recognition of outstanding effort and initiative in contributing to civic improvement and progress of our community."

The three certificates bore the signatures of President Marsjender and Vice President Brashier. Progress was the keynote of each of the five committee reports made by the respective heads of the chamber's key groups to function through the remainder of the year.

These included brief three-minute summaries by Dr. Ted Nicksick, who briefly reviewed latest developments relating to the proposed oil museum, and other progress reports by Dr. John Foster of the agriculture and livestock committee; John Wylie of the merchants' activities committee, Dr. W. P. Watkins of the health committee and Bill Collins of the civic improvement committee.

The featured speaker of the evening, a retired insurance company vice president, was introduced by Glyn Gilliam, president of Commercial State Bank and a director of the Ranger chamber.

Throgmorton lauded the proposed Texas Oil Museum and appealed to the Rangerites to accept the challenge for future growth with enthusiasm and determination.

He accepted the importance of the individual in contributing to progress and in working for community betterment. He cited a number of advantages, headed by transportation facilities and strategic locations, which should aid in Ranger's future growth.

The annual Sub-Deb Mothers Day Tea was held Sunday in the home of Jan Watkins, daughter of Dr. and Mrs. W. P. Watkins. The club received guests from 3 o'clock until 5 o'clock. The Mother's Day Tea has been a yearly function of the Sub-Debs since the 1930's.

**WHAT YOU DON'T KNOW**

**Church of Christ**  
Mesquite & Rusk Street  
Minister: Gary R. Beauchamp

**THERE** is a saying: "What you don't know can't hurt you." This is a false and dangerous concept. Not long ago, in a southwestern city, the newspaper carried a startling story that illustrates this fact. A rattlesnake was found in a house, curled around the leg of a chair. A guest had earlier been sitting in the chair completely unaware of the danger he was in.

Undoubtedly, the visitor would be the first to acknowledge that what he did not know could have hurt or even killed him!

And yet, in matters of religion there are those who would have us believe "ignorance is bliss." The Apostle Paul clearly pointed out this error when he said:

"And the times of this ignorance God winked at; but now commandeth all men everywhere to repent: Because he hath appointed a day in the which he will judge the world in righteousness by that man (Christ) whom he hath ordained..." (Acts 17:30-31).

And again,  
"Study to show thyself approved unto God..." (1 Timothy 2:15).

We invite you to join us in our study of God's Truth this week.

**Large Crowd Enjoys  
Concert by RJC Choir**

The concert given by the Ranger Junior College Choir Thursday night in the Fine Arts Building was well received by the large audience attending.

The varied program, which was divided into seven parts, revealed the versatility of the group. Besides three groups of numbers sung by the full choir, part acapella and part with piano accompaniment, there were impressive selections done by the men's chorus.

A quartet and a quintet of boys sang several selections. The Barber Shoppe Quartet, made up of Howard Starling, Roy Mize, Mike Schultz, and Harvey Chaney of Houston, and the Moonshiners, a quintet composed of Guinn Cook, James K. Eaton, Jr., Glenn Penny, Johnny Preston, and Martin Barrow of Andrews delighted the audience, as did

**SPOTLIGHT  
On the RJC Faculty**

The spotlight this week is on Mrs. Rowena Butler, wife of Coach Ron Butler.

Mrs. Butler graduated from high school in Ville Platte, Louisiana, where she won state honors in feature twirling in 1953. Her fine twirling enabled her to attend McNeese College on a scholarship as a feature twirler.

Her college days led her to the University of Southwestern in Lafayette, Louisiana, and later to Stephen F. Austin College in Nacogdoches, where she finished her major in business.

Mrs. Butler enjoys golf but has had little time to play recently with Ron, five, and Michele two, to watch and care for.

She has conducted classes in twirling and dancing this year and plans to continue teaching these classes next year, attracting twirlers from age 3 to 17.

Mrs. Butler likes the college and likes Ranger, and she hopes the college enjoys a fine season next year in every respect.

Ann Landers. Here one gains all sorts of knowledge, for instance, what to do if your husband is trying to date the babysitter. And every one who reads can even come across some very important information, like how to housebreak one's children.

No matter how one looks at it, everyone reads the paper the same way, word by word, sentence by sentence.

Over 100 varieties of grapes are grown for wine-making in France.

**THE LAST LAP**

Old man winter has come and gone; the grass is green, and bathing suits have replaced raincoats. In short, spring has arrived, and scarce is the person who doesn't appreciate a beautiful spring day.

This is also the time of year when finals are fast approaching, and a choice must often be made as to whether to take that swim in the lake or to go over those English notes in preparation for examination time. It is this writer's opinion that it is beneficial from every standpoint for the student to persevere these last weeks and not have to spend his summer worrying about a poor grade in a particular subject.

Personal achievement is a great reward, and that swim will seem even more fun when one has really earned it.

Too many students ruin a long year's work by letting down and doing poorly on final examinations. The last lap has arrived, and the winner will cross the finish line under full steam, while many will lag behind and finish poorly.

Sad to say, there are some who will not cross that line at all, because they fail to realize that the end is in sight, and it's time to pay the piper.

Will you be a winner, or will you run in the second division? The choice is yours, and your summer, like your life, will be exactly what you make it. Decisions are a part of life. Why not start making the right ones today?

**DAUGHTER VISITS**

Mrs. Etura Glenn had as visitors her daughter and family, Mr. and Mrs. Edward Boatman and Alan from Liberty. Mrs. Boatman also visited with her sister and her husband, Mr. and Mrs. Raymond Hart.

**HOW I READ THE NEWSPAPER**

By DONALD RAY DANIEL

There is only one sure way of reading the newspaper, and that is word by word. I generally start by reading the words on the funny paper. The funny paper is generally the soundest place to start since it contains fewer big words than the rest of the paper.

After reading Dick Tracy, Dondi, and several comic strips, I usually turn to the sports page. Here I read all the interesting articles as well as the scores and feature articles.

Next is the most important thing of all, the astrology section. Here I learn what things to do or not to do on the following day. Sometimes I read the weather report, but that only if I'm going skiing and I need to know the wind velocity.

Next is one of the most exciting things in the paper,
