NUMBER 62.

THE WORK OF THE DEMOCRATIC STATE CONVENTION AT GAL-VESTON CONCLUDED.

SHARP ENCOUNTER

DISPUTE OVER BRYAN STUDENTS TAKING STRIKERS' PLACES.

MR. BAILEY'S PROWESS

He Whipped Hogg on Every Inch of the Ground Contested-Unanimous Opposition to Children Under Twelve in Factories.

Galveston, Tex., July 17.—(Special.) The closing scenes of the Democratic convention saw a fight over the platform. Contrary to the usual order the nominees of the party were officially named before the declaration of principles was made, which in this instance caused no difference, there be-

ing no contests. There was a sharp encounter between labor advocates and T. N. Jones of Tyler over a reprimand to the Bryan college for meddling in the International and Great Northern machinists' strike by sending students to Palestine to take strikers' places.

Ed P. Curtis, a recent candidate for railroad commissioner, urged the adoption of a resolution condemning the principle of state institutions boosting for a railroad company. Jones sought to arouse sentiment in favor of a man seeking employment as he chose, but the convention accepted the views that a principle was involved and adopted the resolution practically

unanimously. The adoption of the plank prohibiting the employment of children under 12 in factories was unanimous.

THE LEADERS OF THE NEW DEMOCRACY

Ex-President Grover Cleveland and David B. Hill, Forgetting Old Scores, Firm New Alliance to Fight for Democratic Victory in 1904.

EX-PRESIDENT CLEVELAND.

DAVID B. HILL.

To concentrate, organize, harmonize and lead to victory the Democratic party of 1904, is the avowed purpose of the new alliance formed between ex-President Grover Cleveland and David B. Hill, of New York. There are strong indications that Hill will make a strong bid for the Democratic presidential nomination and Cleveland is said to have pledged him his hearty support. Stories that the ex-president himself is a possible candidate for a third term are emphatically denied. Mr. Cleveland, however, promises to take an energetic part in the campaign.

WENT THROUGH A BRIDGE

Texas and Pacific Cannon Ball Passenger Train Has Accident Near Mineola.

A report came in this afternoon that the Texas and Pacific passenger train, No. 6, the cannon ball, which leaves here at 7:45 a. m., went through a bridge at or near Mineola at about 11 o'clock this morning.

All efforts to obtain facts from the railway people were futile. One railway official verified the report by saying that all save the sleeper went through. With this his information

ceased. Another says: "I can't say a word, it is too horrible to talk about," and then added: "It was not as bad as it might have been.'

It is reported that doctors and a wrecking train were sent to the scene. At 3 p. m. the officials at the city ticket office had not heard of the accident.

A Mail-Telegram reporter learned from the general office at Dallas that the train all went through except the sleeper, but further details could not be had. Conductor Fred Richards of Fort

Worth was in charge of the train, but the engine crew's names could not be learned.

The train is due to arrive at Mincola at 11:02 a. m. The trainmen here say the train was

well filled out of Fort Worth. City

three passengers out of Fort Worth getting tickets through his office, and they were strangers to nim.

There are evidently a number of fatalities, for it is hardly possible for an entire train to go down without loss

Judge L. N. Cooper wired his brother, Dr. J. L. Cooper, as follows: "Wreck near Mineola, I escaped with slight injury, am all right."

A friend wired Mr. A. L. Skinner, "I Aside from this no other information

TO ASSIST THE SUGAR INDUSTRY

Great Britain Proposes to Help the Planters in Jamaica But Like Everywhere Else they are Hard to Please.

Kingston, Jamaica, July 17.-The acting governor has received an intimation that Joseph Chamberlain, Brit-Ish colonial secretary, subject to the approval of parliament, is prepared to recommend to the imperial government that it place at the disposal of the government of Jamaica the sum of £10,-000 to assist the sugar industry in order that the sugar estates may not go out of cultivation, and secondly, to insure the maintenance of an adequate

rate of wages. The offer is hampered with conditions which it is believed will nullify its intention and planters generally are not satisfied with its terms.

THE CUBANS TOOK OFFENSE.

They do not Like the Way Consul

Bragg Referred to Them. Washington, July 17 .- The attention of the state department has been called by Minister Squiers at Havana to the language used by Consul General Bragg in a letter home to which the Cubans have taken offense. The case will be determined by the president.

JENNINGS OIL WELL CONTINUES TO BURN

Great Preparations Are Being Made to Snuff Out the Flames With Steam and Sal Ammoniac.

New Orleans, July 17.-The fire at the Jennings, La., oil well continues to burn fiercely. No attempt will be made to snuff out the fire with steam until 20 boilers have been connected around the weil. Boilers from Beaumont are arriving. Sixty thousand pounds of sal ammoniac have been ordered and will be used with the

of life.

escaped without a scratch. could be received up to 4 p. m.

(Special.) The Texas and Pacific passenger train, eastbound, due at Mincola at 11 a. m., went through a bridge over Sabine river at 11:30 a. m. The baggage and mail cars and two coaches. went down. The chair car, sleeper and enginen and tender remained on the track. The scene of the wreck is five miles west of Mineola.

shall was killed outright. About 30 passengers were injured, more or less seriously. No other fatalities. All the passengers are here at this hour, and the wounded are receiving attention.

Pass, Monday, have been surrounded

in Box canyon. Assistance has been sent from all towns in the vicinity."

Frank Smiley Arrested on Charge of

A QUICK CAPTURE.

Stealing \$300. At 3 o'clock this afternoon a little excitement was caused on lower Main street by a bold robbery and the prompt capture of the accused party. W. S. Taylor had \$301.50 in a drawer in his room at the corner of the Hotel Rosen block. He saw Frank Smiley enter the room and come out again. Taylor immediately went in and found the money gone.

Officer Temes was at the foot of the stairway talking with Nat Kramen On hearing Taylor's story Temes started in chase of Smiley and after a hard run overhauled him on Front street beyond the Annex saloon. He was searched in the presence of Nat Kramer and others and \$286.50 was found on him. It is supposed that the other \$15 was dropped somewhere in the flight. Smiley was taken to the city hall calaboose and will be transferred to the county jail on the charge preferred against him.

It was quick work on the part of Officer Temes and a good capture.

UNITED MINE WORKERS MEET. Sentiment Seems Opposed to a Gen-

eral Strike. Indianapolis, July 17.-The convention of United Mine Workers began in Tomlinson hall with an attendance of about 900 delegates. The aspect of the convention when it opened this morning was adverse to a general strike.

Locating Smokeless Guns.

The English war office has many schemes for training their soldiers, and which are generally followed up by practical demonstration. The latest is a device for locating guns firing smokeless powder, and its success will mark a new era in military progress. It is also interesting to consider the wonderful advancement in medicine during the past 50 years. It was about that time that Hostetter's Stomach Bitters was first introduced, and during those years has made such a wonderful record of cures of such ailments as indigestion, heartburn, dyspepsia, belching, constipation and liver and kidney troubles, that today it occupies the foremost position as a family medicine. Don't fail to try it. Our Private Stamp is over the neck of the bot-

Comforting.

"Does the fact that I have money make any difference to you, dearest?" she asked.

"Of course it does, my own," he answered. "It is such a comfort to know that if I should die you would be provided for."

"But suppose I should die?" "Then I would be provided for."

The Biggest of Tips. "I tell you what," grumbled the pessi-

mistic waiter, "people ain't giving tips like they used to in the old days." "That's right," replied the good natured waiter facetiously. "There was Esau, for iustance, who gave his birthright for a mess of pottage."-Phila-

St. Helena.

delphia Press.

St. Helena is a great place for caves and hills. Geologically speaking the island is largely if not wholly volcanic, and a lot of extinct craters are apparent. Some of the pinnacles have gueer names, such as Lot's Wife, the Man and Horse, the Asses' Ears and Holdfast Tom.

WANTED-For U. S. Army, able bodied unmarried men between ages of 21 and 35; citizens of United States of good character and temperate habits, who can speak, read and write English. HOLES IN THE AIR.

Invisible Pitfalls With Which Airships May Have to Contend.

Some very terrible accidents may be expected to befall aerial navigators should airships ever become sufficiently perfected to make this species of travel at all common owing to the fact, well known to all aeronauts, that there exist in the earth's atmosphere at certain places and under certain conditions veritable holes or pits of vast depth. An airship sailing unwittingly into one of these aerial craters would sink with far more certainty and far greater swiftness than would a leaden ship of the same size and shape in an ocean of water.

Accidents of this nature have actually happened to aeronauts in the past, but of course the ordinary balloon is not nearly much affected by the sudden descent as an airship would be. Nevertheless, an experience of the kind is sufficiently disconcerting even to the stoutest hearts and strongest nerves.

M. Tissandier, ballooning with two friends above the town of Vincennes, some years ago, happened on one of these invisible air holes, which proved to be over a mile in depth, the balloon falling that distance with such incredible rapidity that the earth appeared to be rushing up to meet them with the speed of an express train, and the bags of ballast thrown out by the alarmed travelers fell not downward, as might have been expected, but upward. Luckily a denser stratum of air, answering to the bottom of the pit in question, was encountered when they were a few hundred feet from the ground, and the downward rush of the balloon was checked as if by contact with a pneumatic cushion .- Pearson's Weekly.

A Sudden Marriage.

"Let me tell you," says a Missouri correspondent of the Kansas City Journal, "about a marriage that happened in Saline county in 1856. The ceremony was performed by Elder Mc-Garvey. The groom was a man named Johnson-I forget his first name-and, being mighty nervous about the approaching ceremony, he went to Mc-Garvey and requested that he make it as short as possible and received the minister's assurance that he would do so. Mr. Johnson never forgot that night as he marched down with his bride on his arm and was met by the minister at the foot of the stairs. As soon as they reached the bottom step McGarvey stretched out his hands and said 'You're married' The suddenness of it took the groom's breath away. and he turned to his best man and shouted, 'Henry, am I married?' This marriage ceremony didn't take over ten seconds."

The Sensitive Tortoise.

Few animals seem more impassive than the tortoise, but those who have ever watched its movements know that the creature is really very sensitive. A few drops of rain will send it home with all speed. Even the distant approach of a shower makes it uneasy. Hence Gilbert White remarked that his tortoise showed "as much solicitude about the rain as a lady dressed in all her best attire."

The bright light of the sun seems especially grateful to tortoises. They rarely stir out at night, and the approach of winter drives them into their retreats. This physical sensitiveness shows their temperament to be less sluggish than is commonly supposed.

The animal also learns to recognize persons and remembers those who feed it, instantly distinguishing them from strangers.

A Final Decision.

It was while Judge Celora E. Martin was on the New York supreme court bench that a self important young lawyer was arguing a motion before him. Tiring of the attorney's grandiloquence, Justice Martin interrupted him and started to render an adverse decision.

"But your honor does not understand the case," still urged the attorney, who saw that things were not coming his way. "Permit me to explain the law. I have here some of the latest decisions of the court of appeals, in which it is held"-

"Motion is denied, with costs," again interrupted the justice. "Have you any later decision than that?"-New York Times.

Provoking a Husband.

A Mohammedan woman cannot of herself separate from ber husband without his consent. He may divorce her with a few words spoken by himself. If she is clever, sowever, she will take him by surprise at an unguarded moment and contrive to do or say something which will make him so angry that before he can exercise sufficient self control to stop himself he has uttered the wished for words.

He Whistled. Old Lady (to grocer's boy)-Don't you know that it is very rude to whistle

when dealing with a lady? Boy-That's what the guv'nor told me to do, mum.

"Told you to whistle?" "Yes'm. He said if we ever sold you anything we'd have to whistle for the

money." Cause and Effect. The honeymoon was waning. "I can't help thinking," she re-

marked, "that the clergyman looked solemn when he was marrying us." "Well," he answered, "he's a married man himself."-Chicago Post.

Half honesty won't answer. You

THEMANOFTHEHOUR

LORD KITCHENER THE MILITARY IDOL OF GREAT BRITAIN.

Likely to Become Commander In Chief of the Army-John Bull Feels That the War Office Needs Shaking Up-Task Too Much For Roberts.

With the return of Lord Kitchener to England as the conqueror of the Boers he becomes the man of the hour throughout the British empire. Indeed there are many who think that Herbert Kitchener is the strongest and most prominent man in all the British dominions. Mixed with the hurrah of the populace over his return there is an element of dread in the British war office. The dry bones there fear a shaking up if Kitchener is made commander in chief, and this is extremely likely to happen.

The dread of him felt by the military organization is due to the refusal of Lord Kitchener to allow any political or partisan consideration to affect him in any military problem he may have to solve. Men of this type are not acceptable to the governing class in Britain. Mr. Chamberlain in the civilian and Lord Kitchener in the military arena are the most conspicuous illustrations. Both reach their ends by methods quite alarming to bureaucracy and the red tape regime.

On top of a campaign that was brought to a close by sheer hard grinding, without anything spectacular and without much help from luck, he got a sudden piece of good fortune that came in the guise of a grievance.

Instead of the grant of \$500,000 that everybody expected he was going to get, parliament was invited to appropriate only half that sum for him, although Lord Roberts had received \$500,000. Instead of the earldom bestowed on Lord Roberts, Kitchener got only a beggarly viscounty:

All of which was one of the best bits of luck this extraordinary man ever had, because for once the taxpayer actually objected to the smallness of the grant, and the public had a feeling that it was still under a considerable obligation. In consequence Lord Kitchener returns to England more of a hero if possible than he otherwise would have been,

This man, who in six years has risen more rapidly in the British army than any one ever did before except Wellington, seems likely to be an active storm center in the immediate future. It has been said repeatedly in parlia-

LORD KITCHENER.

ment that the reason, he received just half the reward given to Lord Roberts was that the nation had some big work cut out for him to do and wanted to save some prizes for him to try for. It comes pretty straight from parliamentary lobbies that the "big work" is nothing less than a job that proved too much for Kitchener's predecessors as national military idols, Lord Wolseley and Earl Roberts.

Here at last is the man, all England believes, who can clean out the war office regardless of the personal considerations that have proved an insurmountable obstacle to Wolseley and Roberts, a man who can knock the heads of fussy civilian officials together without compunction and who doesn't care a rap how many society ladies are offended by rough treatment for their proteges.

There is no doubt that it is the wish of the king and his cabinet to make the Duke of Connaught, the king's only brother, commander in chief of the army on the retirement of Lord Roberts, whose resignation is expected

to come any day. Kitchener, it is understood, is slated for the post of commander in chief of the forces in India. But the public has to be reckoned with. If the powers that be think that John Bull will stand it, the royal duke will be made commander in chief. If, on the other hand, the temper of the public demands Lord Kitchener, into the war office he will

go forthwith. That Kitchener would be an ideal man at the war office is freely admitted by those who have not always appreciated his methods of warfare. Even those who described him as "the butcher of Omdurman" see in him the only possible man for commander in chief, for he combines three great essential qualities-he has proved himself to be a soldier, a statesman and a business man-and if he were put in control of the war office he would turn the place

ACCIDENT GAVE IT ORIGIN. Confetti Was Concett of Frenchman With a Yankee Genius.

Some things that fall under one's observation every day and are regarded as commonplace are really somewhat extraordinary. Among these confetti may be meritioned. The history of confetti is rather curious. Several years ago a large printing works in Paris was turning out immense quantities of calendars, through which a small round hole had been punched to receive an eyelet for holding the sheets together. A heap of the little circular scraps of paper cut out by the punch accumulated on a table and one of the machine men amused himself by scattering a handful of them over a working girl's hair. She immediately snatched up a handful and threw them in his face. Other girls followed her example, and

the first confetti battle began. The head of the establishment came in when it was at its height, and being what the Americans call a "smart man," he at once realized that there was "money in it." He ordered special machinery, placed large quantities of the new article on the market, made a fortune and created a new industry. Paris now supplies nearly every part of the civilized world with confetti and single orders for fifty tons are not uncommon.

Uncle Sam's Slot Machine.

A business man who wanted a bookkeeper stated his need in an advertisement. The notice was seen by a young woman who was out of work and who had searched for employment day after day without success. She had just a cent left. This she spent for a postal card on which she wrote a reply to the advertisement and dropped the card in

a street letter box. Her application impressed the business man favorably, and he wrote to her, asking her to call at his office. She did so and secured the position.

Her modesty and worth, no less than her capability, so won upon her employer that before many months had passed he offered her his heart and hand, and she accepted and became his wife.

"And to think," he said one day during the honeymoon, "that it all came from your spending your last cent for a postal card and mailing it at a street

"Yes," she replied, with a smile and a blush. "I dropped a penny in the slot and got a husband."-Youth's Compan-

The Cause of His Fame.

The Boston Journal tells a story of an actor who was accustomed to spend his summers in Wilton, Me. There he noted when, as the custom was, a farmer "killed a critter" the liver, sweetbreads, kidneys, etc., were thrown away. He offered to purchase these delicacies; but, though he got the goods, the "sturdy farmer scorned his proffered gold." Not long after he observed as he walked through the village that he was the cynosure of all eyes and was followed by a wondering if not admiring crowd, chiefly of the young. "Aha," thought he, "I cannot escape my fame. My glory as an actor has followed me even to this obscure hamlet." And he was mightily puffed up till he overheard one yokel shout to another, "Bill, there goes the feller what eats innards!"

Traveling In Japan.

A writer describing scenes on Japanese railways says when a native lady enters the car she slips her feet from her tiny shoes, stands upon the seat and then sits demurely with her feet doubled beneath her. A moment later she lights a cigarette or her little pipe, which holds just tobacco enough to produce two good whiffs of smoke. All Japanese people sit with their feet upon the seat of the car and not as Europeans do. When the ticket collector, attired in a blue uniform, enters the car, he removes his cap and twice bows politely. He repeats the bows as he comes to each passenger to collect the tickets from them.

Not to Be Sat On.

During a football match in Belfast between Ireland and Scotland an enthusiastic supporter of the Irish team kept crying out, "Sit on them, Ireland!" There was an old Scotchman beside him who endured this for a time, but at length, unable to stand it any longer, he turned round and impressively remarked:

"Ye can sit on the leek, mon, and mebbe ye can sit on the rose, but I tell you, mon, ye canna' sit on the thistle." -Pearson's.

Great Water Pumpers.

An acre of grass land, according to experiments, gives off not less than 6,400 quarts of water in twenty-four hours, and an acre of sunflowers would give a relatively greater quantity. In fact, swamps have been reclaimed and malarial marshes rendered innocuous by planting sunflowers or eucalyptus trees, which are great pumpers of water and also exert other influences counteracting baneful conditions of air, earth and water.

A Changed Opinion. Mrs. Gunning-Oh, Harry! Surely you weren't cruel enough to shoot this

poor little bird? Mr. Gunning-Why, yes; I thought you might have it stuffed and put on a bonnet.

Mrs. Gunning-Oh, how kind- and

thoughtful of you!-Philadelphia Record. Evolution.

"This is the church where you hold your services, I suppose." "We used to call it a church, but we have outgrown all that. It is a temple

of progressive thought now."-Chicago

Tribune,

MARKET CONDITIONS IN THE IRON TR

The Uncertainty of Supplies of Material Makes the Immediate ture a Problem for Furnaces

and Foundries.

Cleveland, O., July 17 .- The Trade Review in its current issue

this to say of market conditions:

There has been heavy buying of iron in the Chicago district in the week, a total of 100,000 tons be ported, including two transaction 1903 delivery, one for malleable the other for foundry iron, which gether amounted to over 50,000 ine Alabama coal miners strike been settled, the men voting to n to work on Monday on the basis o old scale, which provided for a 55 maximum. The day wages of workmen are increased however. the 30 Alabama furnaces on the list 13 were banked because o strike, and some of these will r sume until toward the end of month. Many of the miners have yet returned to work and it w next week before the mines are ning as before. The pig iron pi tion of July in Alabama it is estim will fall off about 30 per cent or tons from that of June. Sa southern iron for 1903 delivery tinue to be made, but some prod in that section are not yet ready business for next year. Cincinna po s forty thousand tons closed nace prices ranging from \$16.5 \$17.00 for No. 2 foundry. At Pitt sales of 20,000 tons of foundry have been made in the week for year. The troubles of the no furnaces banked because of strikes continue, and in the west some stacks that have been ated daily are in doubt as to how they can keep going. With all the drances the production of iron keep at a surprising rate, the active naces July 1 having a reported ca ty of 352,590 tons which is the record. The uncertainty of suppl raw material makes the immedia ture a problem both for furnaces foundries. The latter are having creasing difficulties in getting iron der contract and it is certain that

The College Man Must Start At the Bottom

By CHARLES M. SCHWAB, President of the United States Steel Corporation

HE college man must start at the bottom. One reason why practical men are at the head of organizations is because the college man depends too much on his

THE COLLEGE MAN WHO WILL NOT START AT THE BOTTOM WILL BE OUTSTRIPPED BY THOSE HE FINDS FAULT WITH.

The worst thing a college man can do is to start in life with influence. Nothing will do him so much injury. Never ask your friends to help you. Get a position yourself, for if you accomplish anything they will receive all the credit. Be energetic. Make mistakes if you must, but keep working. People will respect you for it. Act, and act first. Be interested in your work. Be assured that success is not won by chance.

You never saw a man out of whose record you could not pick the incident that made him successful. BE ORIGINAL. DO NOT FOLLOW THE BEATEN PATH. YOU WILL THERE-BY ATTRACT ATTENTION AND WIN PROMOTION.

THE BUSINESS OF THE COUNTRY MUST BE CONTINUED UN-DER ORGANIZATION. TRUSTS CANNOT BE STOPPED. ONE THING THAT STANDS IN THE WAY OF THEIR SUCCESS IS COMPETENT MEN TO MANAGE THEM. HERE IS A CHANCE FOR TRAINED

Ability is now sought everywhere. Capitalists bemoan the lack of it. Be honest. Don't find fault. Work where you are placed. Be thorough. Be original.

THE TRUTH ABOUT THE "THIRD DEGREE"

By ROBERT J. LINDEN, Ex-Superintendent of Philadelphia's Police

N order that the law may claim its own when a murder has been committed the only probable eyewitness of the crime, THE MURDERER HIM-SELF, MUST BE INDUCED TO THROW, LIGHT UPON IT. The penalty being death, the task of making a murderer convict himself is no easy

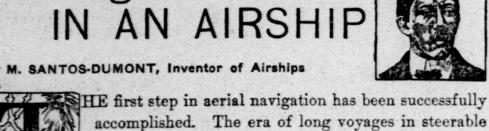

one. To the uncommon measures that have been adopted to force the murderer to tell his story the newspapers have given the name of the third degree. Since the name came to be familiar to newspaper readers the most astounding stories have been told concerning the methods employed by the police in bringing the so called third degree to bear on a case.

THE SIMPLE TRUTH REGARDING THE THIRD DEGREE IS THAT IT USUALLY IS MERELY A PITILESS, LONG CONTINUED, RAPID RAIN OF QUESTIONS, DELIVERED WITH A VIEW TO MAK-ING A MURDERER WHO IS DEPENDENT UPON HIS STUBBORN NERVE ALONE FOR HIS DEFENSE YIELD IN DESPERATION AS HIS SELF WILL FAILS AND ADMIT THE TRUTH OF THE CHARGES

The police official who administers the third degree must know his man. SOME CRIMINALS WILL SUCCUMB ONLY TO DAYS AND NIGHTS OF QUICK FIRE QUESTIONING UNTIL THEIR NERVES ARE WORN THREADBARE AND THEIR RAMPARTS OF STUBBORNNESS CARRIED. Others will withstand weeks of this sort of bombardment, but will surrender to a single shot rightly directed.

Crossing the Atlantic IN AN AIRSHIP

By M. SANTOS-DUMONT, Inventor of Airships

accomplished. The era of long voyages in steerable balloons is now beginning, and the crossing of the Atlantic is only one of the vast designs which will be realized sooner than most people imagine. I am persuaded it is possible, and I hope to try it.

WHAT WOULD FULTON HAVE SAID IF HE HAD BEEN TOLD STEAMERS WOULD BE BUILT OF 40,000 HORSEPOWER? MY DIR-IGIBLE BALLOON, THE SANTOS-DUMONT VI., HAS AN EIGHTEEN HORSEPOWER MOTOR. WHO CAN SAY HOW MANY HORSEPOW-ER THE NAVIGABLE BALLOON OF THE FUTURE WILL POSSESS?

For a long journey, like that between Europe and America, one would require a powerful balloon, capable of resisting a certain amount of rough weather and able to rise and fall easily, so that the peronaut could seek his own currents. If you rise to a height of 5,000 yards from the ground, you are almost certain to find currents going in any direction you wish, and A SKILLFUL BAL-LOONIST, ONCE HE HAD FOUND THE CURRENT HE WANTED, WOULD SIMPLY TRAVEL WITH IT AND UTILIZE IT TO HELP HIM ON HIS WAY.

I would not attempt a transatlantic voyage with less than half a dozen men. That number would be necessary to work the apparatus and to allow of them sleeping in turn. It is not easy to say before one has made the attempt how long the trip would take, but with powerful machinery the speed would be great, and the time taken at present between Europe and America would certainly be considerably shortened.

I DO NOT REGARD IT AS IMPOSSIBLE THAT WITH A STRONG AND STEADY WIND BEHIND HIM, SUCH AS FREQUENTLY SWEEPS ACROSS THE ATLANTIC, AN AERONAUT SHOULD DO THE JOUR-NEY BETWEEN PARIS AND NEW YORK IN TWO DAYS.

The difficulty of carrying sufficient petroleum is the biggest problem in connection with such a project. But that will be overcome just as engineers have solved the question of carrying enough coal to stoke Atlantic liners.

HE FAILED TO OBEY **SUMMONS AS WITNESS**

SUIT FILED AGAINST DR. R. CHAM. BERS, CITY PHYSICIAN.

County Attorney After Violators of the Law-Interesting Communication on Insurance Matters-District Court not Grinding.

As an evidence of just how sincere was Judge Dunklin in assessing a fine of \$500 against Dr. R. Chambers, city physician, recently, for failing to respond to a summons to appear as a witness in the case of the state vs. Henry Moore, charged with double murder, a suit was yesterday filed in the district clerk's office, styled "The state of Texas vs. R. Chambers, defaulting witness.'

It will be remembered that on a certain date last year Henry Moore killed his wife and a man named Russell, in the wine room of a downtown saloon, the two having been found in said wine room together. Dr. Chambers was the physician called to view the remains, and was, of course, an important state witness. He was served with a summons to appear on a certain date upon which the case was set for trial in Judge Dunklin's court. He failed to appear, but, instead, departed for New York city to take a post graduate course in one of the medical institutes there. By reason of his absence, being an important witness, the case went over for a term.

Judge Dunklin at the time assessed a fine of \$500 against Dr. Chambers, and by the filing of the document yesterday another chapter is opened up,

Rounding up Gamblers.

Messrs. R. H. Buck and Jordan Cummings from the county attorney's office yesterday afternoon at 5:30 o'clock caused to be filed in Justice Terrell's court a number of cases against men for gambling. Messrs. Buck and Cummings indulged in a personally conducted tour to places where they had reason to believe gambling was being carried on, with the result that proprietors and those who indulge in betting on cards and dice were caught in the act. One of the places visited was near the corner of Thirteenth street and Jenning's avenue, and was run by a man named Hy Stegol. Mr. Buck sald this morning that they met with no resistance, though a pistol was taken from Stegol. The house was closed and a number of arrests followed.

These same officers only a few weeks ago made a round of the saloons one Sunday night and closed a number of places open in violation of the Sunday selling law.

Messrs. Buck and Cummings claimed they are doing this work in person because of their inability to induce the sheriff, constable or chief of police to properly perform it, and further say they propose to make raids of this kind whenever in their judgment an emergency demands it.

Mutual Insurance Companies.

That there is needed a law regulating a certain class of mutual fire companies and companies of this character insuring policies against storm. lightning, tornadoes, etc., there can be

Recently some citizens from the Smithville neighborhood waited on the county attorney to investigate a certain alleged mutual insurance agency that had been doing quite a land office business among the farmers. They had reason to suspect that there might possibly be something irregular in the proposition, and explained in detail

their reasons for so thinking. Assistant County Attorney Buck took the matter up with the Hon. Jefferson Johnson at the head of the department of insurance at Austin, setting forth fully names and particulars of operation. To Mr. Buck's communication the following reply was made, signed by A. S. Thweatt, chief clerk and acting commissioner, dated July 16:

"Mr. R. H. Buck, Dear Sir-Under separate cover I send you a copy of the insurance laws of this state, and on page 40 of this pamphlet you will find the law under which mutual fire insurance companies organize in this state. Any set of men who will make affidavit that they are residents of this state and who will pay the charter fee, can, under this law, obtain charter to operate a mutual fire insurance company. Such concerns have no capital stock, and nothing with which to pay losses except as they collect premium from the insured; and there is not even any provision in the law requiring the management of such company to set aside any part of their receipts. They may use all for expenses, or they may pocket the money and get out of the state, as was done by a concern in San Antonio and Dallas. This concern collected during the short time it was in business \$134,000, and when it was investigated by the attorney general it could never be shown that it had spent more than \$14,000 of this amount in the payment of losses.

"Every fire insurance company organized in this state is operating under this mutual law, and not a single one of them has any capital stock. If any of them state that they are stock companies they are misrepresenting the

"This office tried to get the legislature to pass a law regulating these mutual concerns, but so far no good law has been enacted. It is to be hoped that the representatives and senators will be posted as to the importance of this matter, and that the next legislature will pass a law throwing some safeguards around policy holders in mutual fire companies.

"These companies make no report to any department of state. They receive no permit from this office, and are not in any way under state superDON'T GET IN A SWEAT

Perspiration-"sweat" is what the Bible and we common people call it-is a way nature has of driving out of the body refuse that has no business there. We sweat more in summer, because, in the overheated bowels, undigested food ferments more quickly than in winter and produces irritating acids and gases. The bowels. overworked, try to relieve themselves by violent convulsions. causing terrible gripes and colics, and diarrhoeal discharges so acid as to make you sore, and leaving the intestines weak and worn out. Nature assists body-cleaning by sending the filth out through the pores of the skin. It is not safe to stop perspiring altogether but most of the impure matter should be sent out by natural movements of the bowels, and the offensive, ill-smelling, linen-staining sweat done away with. Keep your bowels strong all summer with the pleasant, candy cathartic CASCARETS, that clean the system and don't allow the excrement to be sweated out through the pores. Take a tablet every night, before going to bed. They work while you sleep and make you feel fine and cool all day.

Best for the Bowels. All druggists, 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C. C. C. Guaranteed to cure or your money back. Sample and booklet free. Address Sterling Remedy Co., Chicago or New York. 545

vision. If the management is honest, and if they collect sufficient premium, they may pay losses, but there is nothing in the law compelling them to do

Two Pleas of Guilty.

There were two pleas of guilty before County Judge Harris this morning-Phillips Wood and George Foote, two white boys, were fined \$5 and costs each for unlawfully stealing a ride on a train. These are the boys chased to Arlington a few nights ago by Police Officer Speight and captured there by Arlington officials. The officer chased them out of the Texas and Pacific yards here, suspecting them of having participated in robbing a man who was found asleep. He followed the boys to Sycamore creek, where they boarded an eastbound train and rode into Arlington.

In Corporation Court. There was the usual heavy grind in the corporation court this morning, the unfortunates being drunks, vags and

petty thieves. Among others were two cases made, one against Louis Lee, colored, arrested at Douglass park last night by Special Deputy Dick Burns, colored, charged with carrying a pistol. The other was an arrest by Policemen Moore and Holley on a charge of impersonating an officer, the victim gave his name as

Minnie Strauss, colored, of six-shooter fame, was tried before a jury on a charge of being a vagrant. The jury returned a verdict of guilty.

There's Nothing Doing.

Both Judge Dunklin and Judge Smith of the Forty-eighth and Seventeenth district courts, respectively, are in the city, and were at the court house at intervals today, but there was no business to occupy their attention.

MARRIAGE LICENSES.

Only one marriage license had been issued up to noon, that to W. A. Massey and Miss C. F. Fitzgerald.

Real Estate Transfers. The following deeds have been filed

William Rounds to J. D. Collett; lots 10 and 11, block 5, Texas and Pacific addition, \$2000.

TROLLEY WIRE BROKE.

Electric Light Wire Also in the Mixup at Ninth Street.

At 2 o'clock this afternoon the east trolley wire on Main street broke just below Ninth street, causing the line to be dead for a time. The cause of the accident was the trolley wheel on a northbound car. The wheel is nearly worn out, having a deep groove cut into it. This channel is narrow, so that when it struck a splice in the wire where guy wires are attached the splice evidently stuck in the groove and the welding of the wire gave way under the strain. When the trolley wire broke the jar on a pole standing at the corner of the Rock Island general offices was so great that it broke a heavy electric light wire running down Ninth street to a pole at the corner of the alley half a block away. This wire curled along the street and caused dismay among drivers until it was removed. Fortunately no

damage was done to anybody, although the streets were filled with numerous passing people and teams, and passengers on the cars had to take to the

AN ANGRY MUSICIAN.

Amusing and Pathetic Story of Constant's Picture, "Too Late!"

An amusing and pathetic story is told of Benjamin Constant's first picture to attract attention. It was called "Too Late!" and represented Fortune and Glory visiting an artist just as he had breathed his last. The artist was lying on the bed. The figure of Death stood near the door, through which Fortune, carrying a box of money, and Glory, bearing laurels, had just entered.

The artist received many letters from those who had seen the painting. One was written by a professor of music, an old man, who expressed in touching words the emotion he had felt at the sight of the artist's work. He asked Constant to visit and talk to him about "Too Late!"

The invitation was accepted, but as soon as the old professor saw the artist he uttered an ejaculation of surprise and anger. "Why, you are quite a youth!" he exclaimed. "I thought you were old and, like myself, had spent your life in vain endeavor to obtain recognition of your abilities. I conceived that picture to be the last despairing cry of a man as unfortunate as I am. I find you are quite young, and your eyes are full of hope. You are a humbug, sir, and I request that you leave this house immediately!"

Got the Fish In.

On the occasion of the opening of parliament during one of the years when Pitt was prime minister the lords and commons were greatly perplexed by a reference to the goldfish at Windsor castle which was introduced into the king's speech and read by Pitt. It was not until after both Pitt and King George were de d that the explanation came out. .The prime minister, it is related, had come to the king at the palace with the speech from the throne fully prepared. He found the king seated at the edge of the basin of a fountain earnestly regarding his goldfish sporting about in the water. Pitt read the speech. "Does your majesty approve the discourse?" asked the minister. "I will approve it, but only on one condition," said the king, "and that is that you introduce in it some reference to these fishes." The king was obdurate and refused his authorization of the royal speech until Mr. Pitt had promised faithfully to say something in it about the royal gold-

Where the Joke Was. A belated wayfarer was passing an

English public house late at night when a foreigner was ejected therefrom who bore all the signs of extremely rough usage, but nevertheless was laughing immoderately. "What is the joke?" the gentleman

asked. "Why," said the other, "a man came

up to me in the bar just now, gale me a fearful punch on the nose and said, "Take that, you blooming Norwegian," and he fell to laughing again.

"But," the gentleman said, "there's nothing very funny in that."

"No," the man answered, "but then he hit me a crack in the eyes and afterward knocked out my teeth, saying, 'And take that, too, you blooming Norwegian."

"But still I can't see anything fun-

"Ho, ho, ho!" the other yelled. "The joke is that I'm a Swede!"

The Coloring Qualities of Pepper. Canaries when fed with cayenne pepper gradually change their color, passing from yellow to red. Cayenne pepper contains a tinctorial substance, an irritative principle and an oil. When the last two substances are extracted by steeping in alcohol, pepper loses its coloring properties, but an addition of olive oil restores them. From this fact the conclusion is drawn that the oily

principle of pepper is the necessary vehicle of color. Experiments made with white hens gave similar results. These hens have also the quality of being able to indicate changes of temperature by a marked change of plumage. The yolk of their egg is bright

Salad Plants.

The chief value and advantage of salad plants are derived from their saline matters. In these they are comparatively rich, especially in potash salts. Cooking generally extracts these from vegetables, and consequently such vegetables as can be eaten in an uncooked state present these unchanged and in a most agreeable form in the crisp, cool and succulent leaves, which also serve to introduce a large amount of water into the system.

Look Out for a Chill. However slight, at this time of year and climate, it is a forerunner of A disposition to yawn and an all tired in this out feeling comes even before very first stages, or cures the disease at any stage. There are no narcotic poisons in it-a purely natural remedy and absolutely harmless. At druggists, 50 cents per bottle.

Cuba is having trouble over the race question, but then Cuba seems to have been born for trouble.

It is not strange that lightning never strikes twice in the same place. There is nothing left to strike.

The French Fourth of July comes on July 14, but it did not come to Fort Worth. The event celebrated is the fall of the bastile. The celebration in some of the Northern cities is quite

Talk about this being a free country is nonsense when a set of men can get together and decide who can buy a certain kind of goods. This is precisely what the Saddlery Men's association did in Cleveland yesterday.

The people in their primaries really named the state ticket. All the delegates had to do was to ratify the choice of the sovereign voter. In Texas a nomination on the Democratic ticket is equivalent to an election. The Democrats have been in uninterrupted control of the state's affairs for 30 years. The platform adopted reaffirms the Kansas City platform in a perfunctory way. As a whole it is a strong, safe declaration of principles. Dead issues are not galvanized to life nor dread bugaboos conjured up to frighten the weak kneed.

The Texas state Democratic convention nominated the following ticket: S. W. T. Lanham of Parker, governor; George D. Neale of Grimes, lieutenant governor; C. K. Bell of Tarrant, attorney general; R. M. Lowe of Limestone, comptroller; J. W. Robbins of Wilbarger, treasurer; J. J. Terrell of Wise. commissioner general land office; Arthur Lefevre of Victoria, superintendent of education; O. B. Colquitt of Kaufman, railroad commissioner; F. A. Williams of Houston, associate justice supreme court, and W. L. Davidson of Williamson, judge court of criminal appeals.

TEA GROWING IN TEXAS.

Active preparations are being made for experimenting in tea culture in the Port Lavaca section. The conditions of soil and climate in that vicinity are believed to be well adapted for tea raising, better in fact than that in South Carolina, where the cultivation of the plant has passed the experimental stage and is now being grown for the market. The Carolina coast has the advantage of a more plentiful rainfall, but this difficulty can be overcome here through the medium of irrigation works already constructed.

The experiment will be watched with close interest over the state, for its success will mean a new and highly profitable crop added to the list and a big increase in the land values of the coast, country.

TEXAS STATE SIFTINGS.

Capt. V. W. Hale is dead at Paris, Gurley's Brigade reunion will be held at Waco July 23.

M. G. Saunders has sold the Canton Enterprise to Hardy Valentine. Wind wrecked a schoolhouse at Cen-

ter, fatally injuring four pupils. W. B. Fogle of Lamasco cleared \$470 off three acres of blackberries. Chris Travina was killed at Victoria

If You Have Pain in Your Back

Do Not Be Deceived. You Have Kidney Trouble, and You Do Not Need a Physician to Tell You So.

Let us give you a piece of advice: Pain in the back is an almost infallible sign of kidney disease; a sure sign is the condition of your urine. If you have a pain in the back then look to the condition of your urine. It is easily done. Take a glass tumbler and fill it with urine, after it has stood 24 hours, if it has a sediment, if it is milky or cloudy, if it is pale or discolored, stringy or ropy, your kidneys and blad der are in a dangerous condition and need immediate attention, or the consequences may prove fatal.

Dr. David Kennedy's Favorite Remedy is the one medicine that really cures all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, and it will take you but a short trial to convince yourself of its wonderful curative

G. F. Sammer of No. 409 Tioga street, Syracuse, N. Y., in a recent letter says: "I was afflicted for years with severe pains in my back and kidneys. I tried many doctors and many medicines, but got no relief; for over two years I scarcely had a good night's rest on account of backache in a most distressing form. I bought a bottle of Dr. David Kennedy's Favorite Remedy and commenced to use it, and I must say I never imagined I should find such a wonderful cure. Why I feel like a young man again in spite of my 59

Poisoning the System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dulness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress. Smallwood & Anderson, and Anderson & Smallwood.

SPECIAL RATES

WHEAT'S ROOF GARDEN.

Local Taient Again Entertained With Vocal, Violin and Saxaphone Solos

-Male Quartet. The patrons of the roof garden last night listened to a very entertaining program prepared by local talent. Prof. Ault and his little daughter, Miss Lucy, rendered some classical music on a variety of instruments. Miss Lucy gives promise of becoming a master of the violin, her performance being especially creditable.

Miss Georgia Redeker delighted the audience with her singing. She has a voice of good depth and compass, the tones being full, round and sweet and showing the culture of good training. She is already a favorite with Fort Worth audiences. Last night, however she did not do herself full justice, the open air work being less favorable to success than other conditions, but that can be overcome somewhat. Miss Redeker is under engagement with the Southern Lyceum bureau for the next two seasons, so that those who enjoy her singing must avail themselves of the opportunity before she leaves for the concert stage.

One of the most pleasing features of the evenings' entertainment was the singing of the Golden Nuggett quartet, each appearance receiving an encore

to which gracious response was made Mrs. Ducker was unable to appear on account of illness, greatly to the regret and disappointment of her admirers. Miss Lucy Ault, with her violin substituted an ably executed medley

of Irish airs. Especially enjoyable was a beautifully modulated rendition of the Traumerei on the Saxaphone by Prof. Ault The entertainment will be repeated tonight, with some changes. Friday (tomorrow) night there will be a special program by local amateurs. Those desirous of taking part will please acquaint Mrs. Ducker or Prof. Ault with the fact, or word may be left at the

cigar stand. A new attraction is to be announced for next week.

NO FALSE CLAIMS. The proprietors of Foley's Honey and Tar do not advertise this as a "sure cure for consumption." They do not claim it will cure this dread complaint in advanced cases, but do positively assert that it will cure in the earlier stages and never fails to give comfort and relief in the worst cases. Foley's Honey and Tar is without doubt the greatest throat and lung remedy. Refuse substitutes. Sold by Reeves' Pharmacy, Ward's Pharmacy Arlington Drug Company.

SUMMER VACATIONS.

Should be arranged for with the view of securing a maximum of pleasure and diversion. This can be done by the exercise of judgment in selecting the

route you use. HOUSTON AND TEXAS CENTRAL are selling round trip summer excursion tickets to points in the Northeast and Southeast. Through standard Pullman Sleepers to Colorado points as well as to summer excursion points reached via Houston, Sunset Route and New Orleans.

Try Cloudcroft, 9000 feet above sea level, in the heart of the Sacramento mountains. It's delightfully cool.

Mrs. E. J. White and daughter, Miss Bessie, have gone to Trinidad, Colo. for a visit of some length with Mr. and Mrs. Everett Bell.

Senator Joe Bailey passed through the city this morning on his way home to Gainesville after attending the state convention at Galveston.

There will be a meeting of the Y branch of the W. C. T. U. tomorrow afternoon at 5 o'clock at St. Paul's M. E. church. A large attendance is desired. Rev. C. R. Hyde, pastor of the First Presbyterian church, has been called out of the city on business connected with the Board of Home Missions, but will return before Sunday.

The United Moderns will give a lawn party at Mrs. Price's residence, corner Seventh and Lamar streets, Friday night, July 18. Everybody invited. Music and refreshments.

Major J. J. Jarvis has gone to Thorp Springs, in Hood county to attend the Hood county old settlers' reunion. Major Jarvis will deliver an address on the subject of education. Paul Douglass, wife and son, are

spending a few days at Mineral Wells. Mr. Douglass is an engineer in the service of the Texas and Pacific railroad company, engaged in the west end yards.

Superintendent Scoble of the water works department reports all the dams on Clear Fork, and at the intersection of the two streams as being pretty well filled with water as a result of the recent rains.

The ladies of St. Paul's M. E. church will give a watermelon social tonight at the residence of Mrs. J. B. Zearing. 1422 Hemphill street. All members and friends of the church who wish to attend are requested to meet at the church at 7:30 o'clock and go in a body on the cars. Take city belt cars south on Main street.

Work on the construction of the new Polytechnic college building is to begin next Monday, a contract having been let requiring the completion of the building by February 1 next. The excavations for the building have been already made. Present indications are for a large attendance when the next term opens in September.

The officers of Fort Worth Lodge No. 1, United Benevolent association are anxious for the members to make a note of the fact that No. 1 has changed its place of meeting, and will meet this evening at the new hall, second floor of the Knights of Pythias building, corner Third and Main streets. The hall is new, airy, has fans, and is elegantly equipped.

J. H. Barwise, attorney at lay, Wichita Falls, has moved his office to Fort Worth and will shortly bring his family. Mr. Barwise is assistant attorney for the Denver Road and will have of-

fices in the Denver Road building. Mr. Barwise has been a prominent practicing attorney for years at Wichita Falls and he will be a welcome addition to the bar here.

AN EARLY MORNING RUN.

Fire Boys Aroused From Peaceful Slumbers by Call to Action.

The fire boys were called to action this morning at 4:45 by an alarm from box 43, Texas and Lamar streets. The alarm was caused by fire in a frame structure situated in Charles Williams yard, corner of Jackson and Cherry streets. The fire was burning fiercely in the interior and had burst through the roof when the fire companies covering that territory arrived, but quick action and a good water pressure soon quieted all fears of a spread, and made dark the roaring, seething furnace of inflammable stuff which had ignited.

The house was occupied by a negro woman, but she happened to not be at home. Hence the origin of the fire is unknown, but the incendiary theory is suggested.

Mr. Williams and family were aroused by the clatter of the unceremonious work of the fire boys, and when he appeared upon the scene he good naturedly protested against being aroused at so unseasonable an hour, but assured the boys he appreciated the visit.

The damage was nominal, and is covered by the "unfortunate" insurance

GETTING IN SHAPE FOR SOLDIER BOYS

Officers and Equipment Being Located at Camp Mabry for the State Encampment—An Election

Announced.

Major C. O. Elliott of the Texas Volunteer Guards has been advised that Captain L. P. Ricker, quartermaster of the Frontier battalion, has taken up his headquarters at Camp Mabry and will remain there unto the close of the state drill. He will have charge of all state property at the encampment. The statement is made that over 200,000 pounds of camp equipment was taken to the camp yesterday to be used during the drill. This includes the tents and other state property.

Adjutant-General Scurry announces that an election will be held at Camp Mabry on July 22 by convention, to fill the vacancy caused by the election or promotion of Lieutenant-Colonel Hearne to the colonelcy of the Second regiment. Any other vacanices that may exist at the time will also be fused on that date in that regiment.

First Lieutenant W. I. Westervelt of the artillery corps at Fort Sam Houston, has been ordered to report to Adjutant General Scurry for duty during the encampment.

The new uniforms of the Fort Worth Fencibles, including the hats, leggings and shirts have been received at the armory and were distributed to the members of the company last night. The khaki uniforms and the new rifles will not be given to the company until it reaches Austin next week.

STENOGRAPHERS ACTIVE FOR BIG STATE MEET

Various Committees Consulted Last Night — Twenty New Members Were Enrolled—From Labor to Refreshment.

The local stenographers are daily in receipt of evidences of a large attendance of stenographers from all over the state during the Stenographers' State convention to be held here on August 8 and 9.

Another meeting of the various local committees was held last night, and satisfactory progress in arrangements was reported.

Twenty new members were enrolled at last night's meeting.

After the business features of the meeting had been disposed of the management of the Draughon Business College entertained the committees with a delightful spread.

SEVENTH DAY ADVENTISTS TO GATHER AT HANDLEY

An Official Announcement of the Twenty-Fifth Annual Conference to Be Held There.

The official announcement is made that the twenty-fitth annual conference and state camp meeting of the Seventh Day Adventists of Texas will be held at Handley, July 24 to August 3. The large 25-acre grove with its 150 or 200 tents orderly arranged will be an inviting place for meeting goers. Children's and young people's meeting will be conducted by competent workers in this line daily. There will also be daily services in German. Cheap rates from Dallas and Fort Worth and intermediate points on the interurban electric line have been promised.

USE TELEPHONE 177

Foley's Kidney Cure makes kidneys and bladder right.

ROCK ISLAND AND THE MALLORY LINE

RUMORS OF A CONTEMPLATED MERGER TO BE FORMED.

Would Place the Rock Island on Equal Footing With Southern Pacific for Atlantic Coast Traffic. Changes in Official Family—General Railroad News.

New York advices say that indications there are that the Rock Island will either secure control of the Mallory steamship line, or else form a very close alliance with that line. This condition would give the Rock Island equal water facilities and connection with New York and other Atlantic ports with the Southern Pacific, with which it is evidently preparing to compete for transcontinental business.

President W. B. Leeds of the Chicago, Rock Island and Pacific, was asked as to the truth of the proposed merger, and also whether the line would build westward to Los Angeles. He replied that he preferred not to answer those questions at this time.

ENTHUSIASTIC MEETING.

President Galbreath's Report of National Association of Stock Agents.

W. V. Galbreath, general live stock agent of the Missouri, Kansas and Texas system, returned last night from Denver where he has been attending the meeting of the National Association of Railway Stock agents. This was the first annual meeting of the association, of which Mr. Galbreath is president. He says that there were about forty members in attendance, and the sessions were harmonious and profitable. Much of the time of the two days' sessions was occupied with perfecting organization and discussing details of work. "The purpose of the organization," said Mr. Galbreath, "is to facilitate the transaction of business, to devise systematic methods of handling stock and to bring the stock shippers and the railroads into harmony-to act in concert-so that the best interests of both may be subserved."

John W. Springer, president of tae National Live Stock association made an address and took part in the discussions, expressing his hearty approval of the purposes of the organization and promising his co-operation to aid in bringing about the creditable designs of the stock agents. He said they are working in the right direction and believed it would result in great benefit to the live stock interests as well as those of the railroads. It would tend to smooth the differences that arise between the shippers and the railroads at times, and by co-operation and systematic methods business

would be greatly benefited.

The association adjourned after its enthusiastic sessions to meet next at Kansas City at the same time that the National Live Stock association convenes.

Mr. Galbreath says it is hot, even in Denver, the thermometer standing at 100 in the shade.

DRAYAGE WAR.

Free Collection and Delivery of Freight at Memphis by Illinois Central.

Free delivery and collection of freight is convulsing railroad circles in Memphis. The first road to inaugurate the system was the Illinois Central and it is understood that the Louisville and Nashvine will do the same as soon as the order can be issued. while all roads entering the city will be compelled to follow suit or fight for business under a handicap. This is not a rate war; rates and switching charges remain the same. But the proposition is to deliver to the customer's door all freight received and collect all consignments for shipments free of charge to the commercial public.

At Louisville the drayage war Is well on, the Illinois Central and the Louisville and Nashville on one side and the Southern railway on the other. Now drayage rates were promulgated by the former roads which the latter refuses to follow.

BIG MONEY FOR BETTERMENTS.

The Baltimore and Ohio to Spend Millions on its Line.

New York, July 17.-In connection with the announcement that the Baltimore and Ohio railroad will spend \$25,000,000 in improvements during the next two years, says a Philadelphia special to the Times, it is stated that much of the work already has been contracted for. The yards in this city, Baltimore, Glenwood, Pittsburg and other points will be greatly enlarged. A third and fourth track will be laid between Washington Junction and Cumberland, and on the Pittsburg-Connellsville line, where the freight traffic is greatly congested, many other improvements will be inaugurated. More than \$7,000,000 will be spent for New England cars.

SOUTHERN PACIFIC STRIKE.

More Trouble at San Antonio—Houston Trouble to be Arbitrated.

The strike fever in South Texas is spreading. It is expected that at San Antonio between 60 and 70 men in the mechanical department of the Southern Pacific, including machinists, apprentices, handy men and helpers will walk out today. Their demand is an increase of 10 per cent in wages. B. F. Cooley was sent to Houston as their representative and last evening they received a telegram from him stating that he had been refused recognition.

that he had been refused recognition.

The demands of the boilermakers, blacksmiths, tinsmiths and coppersmiths are before the Southern Pacific management at Houston and should

they be refused they also will probably join in the strike.

Advices from Houston are to the effect that indications appear to be favorable to a settlement of the trouble. The strikers' committee was in conference with Manager Van Vleck yesterday, and an agreement to arbitrate the differences was agreed to; the manner of selecting the three proposed arbitrators was not finally settled, however, and will probably be determined today. Both parties are bound to abide by the action of the arbitrators.

The troubles at San Antonio and El Paso, it was suggested, might be settled at the same time, but Manager Van Vleck was of the opinion that it would be better to discuss and dispose of one difficulty at a time and the others could be taken up after the Houston difficulties had been settled.

One personal encounter was reported growing out of the strike, in which James Layuca, a guard on railway property was cut on the arm.

ROCK ISLAND CHANGES.

Berths Made for Officials of Lines That Have Been Absorbed.

Several officials of the two roads, the Choctaw and the Burlington, Cedar Rapids and Northern, which have been absorbed by the Rock Island will be taken care of by the latter road, which shows a generous disposition towards them. Appointments so far made are as follows:

R. A. Jackson, formerly of the legal staff of the Choctaw, general attorney for the Rock Island, vice Robert Mather, made general counsel for the system.

H. F. White, formerly chief engineer of the Burlington, Cedar Rapids and Northern, to be engineer of maintenance of way for the Rock Island.

F. J. Spaford, formerly superintendent of telegraph for the Burlington, Cedar Rapids and Northern, to be assistant superintendent of telegraph for the Rock Island.

Other appointments are expected to follow, one of which is a successor to General Passenger Agent John Sebastian, who has been made passenger traffic manager.

Notes and Personals.
The Southwestern Tariff committee

is holding a full week's conference in Chicago.

Memphis is petitioning the Rock Isl-

Memphis is petitioning the Rock Island for enlarged terminal facilities for the Choctaw in that city.

A. A. Robinson, president of the Mexican Central, has gone to London

for a conference with English stockholders.

J. E. Clarke, claim agent of the Houston and Texas Central, is in the

City today from his headquarters at Houston.

R. B. Ayres, superintendent of the Transcontinental division of the Texas and Pacific is in the city today from his headquarters at Texarkana.

L. S. Thorne, vice-president and general superintendent of the Texas and Pacific went west last evening in his special car on his way to visit Cloud-croft.

Conductor C. W. Milliken whose run

is on the eastern division of the Texas and Pacific, has returned from Missouri where he was called by the serious illness of his mother.

The Baltimore and Ohio is securing options on all available water front in Baltimore, a movement that is causing the Pennsylvania uneasiness, and the

the Pennsylvania uneasiness, and the latter road is trying to block the deal.

Port Arthur is now doing a big business that is constantly increasing.

Crude oil is the principal article of export, but yellow pine and cotton are also passing through in large quantities.

General Superintendent W. E. Green of the Cotton Belt, was here this morning and went north over the line, accompanied by Superintendent W. M. Neff and General Passenger Agent W. H. Weeks.

Troubles between the railroads entering Omaha and the freight handlers are reaching a critical stage and unless an agreement is reached soon the prospects are that a general strike will be inaugurated.

Ben L. Winchell, Jr., and a party of young friends of St. Louis, are in the city on a pleasure trip. The boys are touring in a caboose, roughing it and camping as suits their purpose, and propose to have all the fun going.

A reduction in class rates from Kan-

sas City to Indian Territory points north of the Choctaw, Oklahoma and Gulf has gone into effect on the Missouri Pacific, Missouri, Kansas and Texas and Kansas City Southern. The earnings of the Frisco system

The earnings of the Frisco system for the first week of July were \$340,-247.01; for the same week last year, \$308,021.97; an increase of \$32,225.04. The mileage in 1891 was 2886.03; in 1892 it has increased to 3414.48 miles.

The general offices of the Kansas City Southern at Kansas City will be moved this week from their present location at Missouri avenue and Walnut street to Ninth and Broadway, the building formerly occupied by the Kansas City, Fort Scott and Memphis general offices.

The rumor that the freight division of the Cotton Belt is to be removed from Tyler is not regarded here as having any foundation, the divisions as now constituted being evenly balanced, though a little long. The one to Waco is 129 miles long and the one to Texarkana 130 miles.

The office of general manager of the Choctaw being abolished H. G. Clarke is out. He resigned the position of general superintendent of the Missouri Pacific and Iron Mountain last February to accept this position on a 3-year contract, and it is thought that a lawsuit will be the result of his retirement.

The engineers surveying the temporary line for the extension of the Rock Island to Corsicana have not completed their work yet, but satisfactory progress is being made and the work is well under way. The work on the extension from Jacksboro to Graham is being pushed, the grade being nearly completed, and tracking will begin about July 21.

Dyspensia Cure

Dyspepsia Cure

The agony you suffer after eating, that feeling of fullness, flatulence (wind on the stomach) and belching is caused by decay of undigested food which forms a gas that distends the walls of the stomach and exerts a pressure against all the internal organs. The eating of more food forces out part of this gas and causes belching. Just take a little

food forces out part of this gas and causes belching. Just take a little Kodol Dyspersia Cure. It will relieve you at once. It never fails to permanently cure the worst cases of indigestion and dyspersia. "I suffered untold pains from indigestion which were always worse after eating. Two bottles of Kodol Dyspersia Cure made me a well man and life now seems worth living. Peter Sherman, No. Stratford, N. H."

Prepared by E. C. DeWitt & Co., Chicago. The \$1. bottle contains 2½ times the 50c. size.

The favorite household remedy for coughs, colds, croup, bronchitis, grippe, throat and lung troubles is ONE MINUTE Cough Cure. It cures quickly.

A BIG DINNER

J. PIERPONT MORGAN TO BE EN-TERTAINED IN LONDON BY A MEMBER OF PARLIAMENT.

BALFOUR INVITED

THE NEW PREMIER AND SEVERAL MINISTERS TO ATTEND.

NEWS FROM LONDON

Movements of Senator Kearns-The Royal Yacht-Situation in South Africa-The Pope Orders Repairs-Changes in Political Circles.

London, July 17 .- A big dinner will be given in honor of J. P. Morgan next. Tuesday in the house of commons. A W. Maconochie, M. P., is to be the host. The guests will include Premier Balfour and several ministers as well as a number of representative English-

Senator Kearns' Engagements.

Senator Kearns of Utah and Mrs. Kearns, who have been in England a week or more, have been entertained by Sir Thomas Lipton on the Erin, Sir Thomas hoisted the stars and stripes when his guests went aboard and the flag floated over the vessel during their whole stay.

Mr. and Mrs. Kearns breakfasted with the American ambassador on Tuesday and have left for Scotland.

The King Quite Comfortable.

The royal yacht will, it is understood, remain off Cowes about a fortnight if the weather continues fine and the king may then take a trip down the channel. The doctors are anxious that their patient shall not be occasioned the slightest discomfort or inconvenience, and instructions have been issued to skippers and pilots navigating vessels through the Solent to slow down when passing the Victoria and Albert, in order to prevent unnecessary oscillation.

The North German Lloyd steamer Koenig Wilhelm, crowded with emigrants, passed Monday afternoon so slowly that comments were evoked · from onlookers ashore.

Situation in South Africa.

Some uneasiness is felt in official circles with regard to the situation in South Africa. It is evident the day of complete racial reconciliation in the Transvaal is still far distant. The smouldering animosity between the Boers who joined the national scouts toward the end of the campaign and the other burghers is reported to be bursting into flame.

Repairs Ordered by the Pope. According to the Rome correspondent of the Daily Express the rich wooden ceiling of the Church of St. John Laterran is cracked in several parts and a papal commission has reported that repairs costing £4000 are necessary to prevent it falling. The correspondent says that the pope alarmed by the fall of the Campanile in Venice has ordered that a fund be started to defray the cost of repairing the ceiling.

Changes in Political Circles.

The Times this morning says it regards it as practically certain that Sir R. B. Finlay, the attorney general, will succeed Earl Halsbury as lord high chancellor; that Hon. Alfred Lytellton will enter the government and that Lord Curzon, the viceroy of India, will take the earliest opportunity of returning to London.

Reports regarding King Edward's health continue most satisfactory. He will remain on the royal yacht off Cowes, Isle of Wight, until August 8 and will return to Roadstead after the coronation.

Premier Balfour presided this morning at the first cabinet meeting of the new administration. Colonial Secretary Chamberlain was sufficiently recovered from the effects of the cab accident to be able to attend.

BETWEEN A FOREST AND A RAGING LAKE

The Unpleasant Predicament of a Party of Campers in the far Northwest-The Worst Windstorm in History.

Spokane, Wash., July 17 .- Dispatches from all sections of Eastern Washington and Northern Idaho show that the recent windstorm was the worst in the history of this section. While there was no loss of life, a number of buildings were blown down, roofs lifted and trees uprooted and twisted off. Much damage was wrought in the orchards and grainfields. In the timbered regions railroads are blocked by fallen trees. Campers on the shores of a mountain lake passed a night of terror. The waves ran so high that they dared not seek refuge on the water from the

Crops Destroyed in Oregon. Walla Walla, Wash., July 17.-Reports from the surrounding country are to the effect that high winds have de-

falling trees around the camp.

growing grain in the north and west part of Umatilla county, Oregon. Many, warehouses were blown down in the Eureka flat country.

ZEAL IN CABINET MAKING.

Amateur Politicians Are Moved to Ac-

tivity by the London Changes. London, July 17.—Events are not moving with sufficient rapidity to suit the amateur politicians. They have not been deterred by the inclement heat from excessive zeal in cabinet making. There is the hum of industry in the lobbies of parliament and smoking rooms of the clubs. Lord Curzon and other distinguished Englishmen abroad are brought back to London and there is a reshuffling of cards all around. Meanwhile Premier Balfour has taken the office of privy seal and has provided himself with the place of honor and an appropriate costume for the first scene in the coronation ceremonial and is proceeding with the routine of business and the education bill as if nothing had happened.

Immediate changes in the cabinet are not expected by the government officials and well informed politicians. There are two reasons for delay: First that the king's restoration to health must not be impeded by political complications, and second, that Colonial Secretary Chamberlain, who will naturally be consulted by Premier Balfour is still disabled and has the imperial conference on his hands as soon as he can return to active business.

The reconstruction of the cabinet is unlikely until the coronation is over and Mr. Chamberlain's wishes respecting the treasury are made known.

Mr. Chamberlain has strengthened his grip upon the coalition party by the loyalty with which he has supported Mr. Balfour. His warmest admirers credit him for greater devotion to principles and policies than regard for his own political ambitions. They contend that he will be satisfied if allowed to remain in the colonial office with a colleague in the treasury who is not thwarting his plans and heading an opposition to him. Mr. Chamberlain like other fathers is proud of his son and anxious to have him get promotion. Austen Chamberlain would probably reconcile the secretary of the colonies

to many personal sacrifices. Among the sheaf of speculative rumors, the most likely one is that which carries Austen Chamberlain and George Wyndham into the reconstructed cabinet.

AN EXTRAORDINARY SCENE IN COURT

A Woman Who had Butchered Her

Husband With a Potato Knife, Acquitted by a Jury-Recorder Goff's Remarks.

New York, July 17.-An extraordinary scene was witnessed in the court room of Recorder Goff when a jury acquitted Mrs. Lizzie Madaus of killing her husband, an engineer, with a potato knife. The recorder had charged the jury strongly for conviction and few believed the defense could hope for anything better than a disagreement. Even the prisoner, who had been stoical throughout the trial cried as the recorder finished his charge.

Mrs. Madaus' five children, including her prison-born infant, were in the court room and the nearby corridor. When the jury returned and the foreman announced the verdict, Recorder Goff said to the prisoner:

"The ancients had a law whereby in the case of a very outrageous crime they would sometimes permit the criminal to live that he might suffer the shame of his crime which they considered a severer punishment than any they could inflict and something like this must have been in this jury's mind that they let you live and look upon the faces of your children, the children whom you have made orphans.

"The result of this verdict, most extraordinary as it is, even in the face of your own testimony gives you your freedom, but you will carry with you the knowledge that you have murdered your husband and orphaned your children. You may go.'

The recorder refused to order the restoration to the mother of two children who have been placed in the care of a charitable society.

A BROOKLYN POLITICIAN DEAD.

Isaac P. S. Brant Has Joined the Silent Majority.

New York, July 17.-Isaac P. S. Brant, Brooklyn's first tax collector and who 50 years ago, took a leading part in New York Republican politics, is dead from apoplexy. He was for eight years cashier in the state treasurer's office at Albany. His grandfather, Capt. Smith, was one of Washington's famous body guards.

Need More Help.

HORTICULTURISTS HAVING BIG MEETING

Over 600 Are Now in Session at College Station-Thirteen Bodies Are Represented.

All the various organizations composing the Farmers' Federated Congress of Texas are now in joint session at College Station. J. B. Baker, of Fort Worth, president of the Texas State Horticultural Society is presiding. Every department of agriculture is said to be represented. The discussions are said to be of a most interesting nature

Among other things done yesterday, the session passed resolutions to be presented to the state Democratic convention, concerning the establishment of additional experiment stations.

Col. E. S. Peters of Calvert and Col. F. P. Holland of Dallas were appointed a committee to advise the state Democratic convention and the legislature of the adoption of the above resolutions, which are:

"Resolved, by the Texas Farmers' congress in convention assembled. That we earnestly invite the attention of the state legislature to the large benefits to be derived from the establishment and proper conduct of four addihional state experiment stations for Texas, which will increase the property of our farming interests and the commercial prosperity of our state.

"Resolved, That a copy of this resolution be transmitted to the state Democratic convention now in session at Galveston, and that said convention be urged to embody these resolutions in the state Democratic platform as an industrial plank of the platform."

An amendment to the present public school laws was urged in the following manner:

"Whereas, agriculture is the foundation of the wealth and prosperity of our state, therefore be it resolved by the Texas Farmers' congress, That we respectfully demand that the present public school laws be so amended as to provide for suitable instruction in our common schools relating to agri-

"Resolved, That this resolution be communicated at once to the state Democratic convention now in session: and it is respectfully urged to adopt a plank in the platform carrying out the provisions of this resolution; and that a committee be appointed by the chair to transmit these resolutions to the state Democratic convention and to the legislature.

"Be it further resolved, That we cordially invite the co-operation of the Southern States Industrial association and the State Teachers' association."

Acts Immediately.

Colds are sometimes more troublesome in summer than in winter, it's so hard to keep from adding to them while cooling off after exercise. One Minute Cough Cure cures at once. Absolutely safe. Acts immediately. Sure cure for coughs, colds, croup, throat lung troubles. Smallwood & Anderson, and Anderson & Smallwood.

ATTEMPTED HOLD-UP ON ROCK ISLAND

Obstructions on the Track Near Saginaw, Stopped the Train But Robbers Fled When Fired on by Fireman.

A southbound passenger train on the Rock Island had a narrow escape from a holdup last night. Between Newark and Saginaw an obstruction was discovered on the track and the engineer immediately reversed his engine and applied the brakes. The pilot struck the telegraph poles that had been piled on the track with sufficient force, however, to throw them a distance of 50 feet on each side, without doing injury to the train. The object was apparently either to wreck the train or cause it

to stop to give robbers a chance to

board it. The trainmen saw two men approach from the woods to board the engine, but the fireman had his nerve and a revolver with him and when this battery opened up the knights of the road, beat a hasty retreat.

Saves A Woman's Life.

To have given up would have meant death for Mrs. Lois Cragg, of Dorchester. Mass. For years she had endured untold misery from a severe lung trouble and obstinate cough. "Often", she writes, "I could scarcely breathe and metimes could not speak. tors and remedies failed till I used Dr. King's New Discovery for Consumption and was completely cured." Sufferers from Coughs, Colds, Threat and Lung Trouble need this grand remedy, for it never disappoints. Cure is guaranteed by Guthrie & Guthrie, 502 Main street. Price 50c and \$1:00. Trial bottles free.

A MEETING CALLED FOR THIS EVENING

Owners and Lovers of Good Horses to Discuss a Race Meet This Afternoon-All Are Invited.

Members and friends of the Prospect Driving club announce a meeting for this afternoon at 5 o'clock at the Board of Trade rooms, Hoxie basement. At this meeting general matters with reference to the North Side track will be discussed, and, if possible, a date set for the first contest for the \$100 cup offered by W. T. Campbell, the builder of the course. Rules governing the future cup races will in all proba-

bility be decided upon. It is anticipated that quite a number of horses will be quartered at the course this fall, or at stables in the city in order to train over the course, and it is proposed to have in addition to the trotting and pacing contests, some running. Already a number of local horses are being worked out daily at the track, and the promoters think that the time and conditions are favorable for the arrangement of some interesting events.

All who are interested are urged to attend the meeting this afternoon.

TEACHER OF AGRICULTURE.

Examination to Be Held for Assignment to Indian Service.

In addition to the other examina-tions to be held here and elsewhere on August 12, the United States Civil Service commission announces that an examination will be held for the position of teacher of agriculture in the Indian service, the age limit being 20

years or over. From the eligibles resulting from this examination it is expected that certification will be made to the position of teacher of agriculture in the Indian service, at a salary of \$900 to \$1000 per annum, and to other similar vacancies as they may occur..

FIRE FIGHTERS OF THE UNITED STATES

THEY WILL GATHER IN CONVEN-TION IN NEW YORK CITY.

September 16 to 19, Inclusive, the Time Set-Something of What Will Be Seen, Heard and Learned-Talk With Chief Maddox of Fort Worth.

Fire Chief James H. Maddox is daily in receipt of mail announcing the big fire chiefs' convention to be held in New York city in September, 16 to 19, inclusive. Besides these letters and announcements of the program to be carried out, fire chiefs in Texas and adjoining states west of the Mississippl are in correspondence with each other in an effort to go in a body to this, the biggest convention of fire

fighters ever held in the United States. Chief Maddox said yesterday in discussing this convention, that all over the country, north, south, east and west, firemen are looking forward to this convention with the greatest interest. The scope of entertainment, he says, arranged by the citizens' committee of New York city is such as to leave no stone unturned to make convention week a red letter one in the annals of the fire service of the world. Commissioner Sturgis and Chief Croker are giving the committee every encouragement, and this has extended to every member of the department. All are ready to receive the great fire fighters who will assemble in the

Grand Central Palace in September. In more than one respect, says Chief Maddox, will the convention be a record breaker. Papers on the most important topics of interest to firemen all over the world will be read by men who know well their subject. New York's department has been requested to tell the fire chiefs something about wire glass, and also the best method of instructing recruits for the fire ser-

Chief Croker will tell the chiefs what they wish to know about the new wire glass which is making its appearance in other cities. Chief Croker, as a fire fighter, has become a by-word in every department, and this will be the first time that the New York chief will give to the assembled fire officials his views upon the subject of fire protection.

Chief Instructor McAdams has been requested to give his ideas on the subject of the fire school of instruction. Certainly Chief McAdams knows this subject for he has instructed more firemen than any dozen chiefs in the Unit. ed States. Many of the leading cities have discussed the matter of establishing schools of instruction, and the opinion and facts given by Chief Mc-Adams is likely to have an important bearing upon the establishment of such

schools. But the crowning feature of the convention will be the exhibition of all the apparatus, machines and devices that go to make the efficiency of the fire fighting system. The exhibition will be a monument to the convention. and will be of permanent benefit to property owners, as well as firemen.

"A man can learn more on the best methods of fighting fire in three days at a meeting of this kind than he can in a lifetime in the routine of home work," declared Chief Maddox, "and the time and money spent in going and seeing is well spent.'

A Cure for Summer Complaint. Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic. Cholera and Diarrhoea Remedy-one of the best patent medicines manufactured and which is always kept on hand at the home of ye scribe. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer-time,-Lansing, Iowa, Journal. For sale by N. E. Grammer, druggist.

PETITIONS COUNCIL FOR FIRE DAMAGES

John Bates Wants \$4,000 for His Home Recently Destroyed by Fire-Lack of Water Alleged.

John Bates, whose house was destroyed by fire recently at the corner. of Laurel avenue and Lipscomb street, at the same time the N. A. Cunningham new residence burned, has filed with the city secretary a petition to the council for \$4000.

Mr. Bates claims this amount from the city by reason of inadequate water pressure, in fact, a total absence of water for a sufficient time to allow his house to burn.

It will be remembered that the statement was made at the time that it was necessary to partially refill the standpipe with water before a stream sufficient to cope with the flame could be secured, and then it was too late. The petition will come before the

council at its Friday night's meeting. Why Suffer With Backache.

I have suffered several years with backache, and after taking one bottle of Smith's Sure Kidney Cure, I have been cured. Since then I have not been troubled with my back. Too much cannot be said in its praise.

Y. M. C. A. NOTES.

Ping Pong and Tennis-Bible Study

Department. Ping pong is one of the new games that have added to the recreation at the Y. M. C. A. Its popularity can hardly be called a fad, because it is an ideal indoor amusement.

A tennis court is being arranged on the west side of the building. The ground available will only admit of a single court. This will be ready for use in a few days.

Never in the history of the association was the Bible study department so encouraging. Three classes are now in progress; one meeting at 8:30 Tuesday evening; another at 8:15 Saturday evening, and the third meeting at 5 p. m. Sunday. The enrollment in each of these classes has about reached the limit. But other classes are to be organized for those who are now enrolling.

The committee with Jacob Tudor at the head reports splendid results at

the calaboose meetings. The baths are now in order and the members are enjoying the greatest luxury of a summer day.

Used By Millions of Mothers. Mrs. Winslow's Soothing Syrup for cildren teething, sooths the child, softens the gums, reduces inflammation, allays pain, cures wind coilc. 200 bottle.

GOING TO HENRIETTA TO NOMINATE A JUDGE

Tarrant County's Delegation will Make a Fight tomorrow to Return Judge Sam Hunter to Office.

Tomorrow afternoon at 4 o'clock there will convene in Henrietta a convention of the Second supreme judicial district, the purpose being to select a man for associate justice of the civil court of appeals, a judicial body whose sessions are held in this city. Sam J. Hunter of Fort Worth is the present incumbent, and there are three candidates announced-Sam J. Hunter, for re-election; Ocie Speer of Montague county, and J. T. Montgomery of Wichita county. Judge Speer at present has the lead in instructed votes, having, he claims, 115 pledged out of a possible 200. However, the Fort Worth delegation, and those who have been instructed for the Fort Worth man will go prepared to make a fight to return Judge Hunter. The latter was appointed to the position he now holds, and for which he is a candidate for reelection by the governor in 1896 to fill out the unexpired term of Judge Head, who resigned to take up the practice of law at Sherman. Judge Hunter was re-elected and is now serv-

ing on the bench for the eighth year. The Tarrant county delegates to this convention are: R. M. Wynne, R. L. Carlock, S. W. Stewart, W. P. McLean, Wm. Capps, S. B. Cantey, Ben M. Terrell, C. R. Bowlin, Theodore Mack, F. E. Dyeus, A. L. Matlock, M. E. Smith. Irby Dunklin, Leroy Smith, R. F. Milam, O. S. Lattimore, Jeff D. McLean, W. J. Bailey, W. R. Parker, W. C. Strong, Frank Mullins, O. W. Gillespie, D. W. Humphreys, W. D. Harris, Robert McCart, Q. T. Moreland, I. H. Burney, R. H. McNatt, F. E. Albright, W. A. Hanger, Morgan Bryan, T. J. Powell, W. D. Williams, Sterling P. Clark, G. W. Armstrong, W. J. Berne, Jr., B. L. Waggoman, N. H. Lassiter, Joe Henderson, J. H. Thrasher, A. G. McClung, W. P. McLean, Jr., C. T. Prewitt, Joe Burney, W. D. House, J. H. Maddox, John W. Wray, L. L. Hudson, A. M. Quayle, Clarence Stewart, A. G. Dawson, Ray Hunter.

This delegation will go up to Henrietta on tomorrow morning's train, many of them now being in Galveston. but will return from the Island city tonight.

The Same Old Story.

J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by N. E. Grammer, druggist.

WEATHER CONDITIONS.

The low area of yesterday has moved from South Dakota to Michigan. A moderate storm development is central in the southwestern portion of Kansas, which controls the conditions over the greater portion of the southwest. Light showers have fallen in the

extreme western portion of Texas, at El Paso and in Colorado, South Dakota and Michigan.

It is cooler in Montana, South and North Dakota, where the temperature has again dropped into the 50s; elsewhere the temperature is about the seasonal normal.

Foley's Honey and Tar for children, safe, sure. No opiates.

AN EVENING OF REAL PLEASURE

Formal Opening of Stock Yards Inn Park Attended by Thousands of Fort Worth Citizens Last Night.

Were you one of the 4000 people at the Stock Yards Inn park last night? No? Then you missed a most enjoyable trip and evening of pleasure.

After numerous postponements on account of the much appreciated rains, the people had become impatient to attend the formal opening of this delightful park and to participate in the festivities announced by Manager Will Stewart and those assisting him in the arrangement and carryng out of the program. Last night was in every way an ideal time for pulling off the fete, and it was done in a highly creditable manner. As early as 6 p. m. the stock yards car service was taxed in carrying out the hundreds of people and while the service was admirable, the company had its hands full up to a late hour.

It is estimated that between 4000 and 5000 people were at the Inn and park during the evening.

A local band furnished music, and those who desired indulged in dancing in the pavilion recently built; many others enjoyed looking on while being fanned by the delightful breeze that prevailed, being provided with seats on the first and second galleries of this popular hostelry.

In the park barbecued meats were served, with sufficient side issues to make them palatable.

A display of pyrotechnics was a feature of the evening much enjoyed.

ONE MORE CHANCE

For Getting Free Services by Calling on the British Doctors at rooms 2 and 3 Dundee Bldg., Before July 27.

A staff of eminent physicians and surgeons from the British Medical Institute have, at the urgent solicitation of a large number of patients under their care in this country, established a permanent branch of the Institute in this city, at rooms 2 and 3. Dundee block, corner Seventh and Houston streets.

These eminent gentlemen have decided to give their services entirely free for three months (medicines excepted) to all invalids who call upon them for treatment between now and July 27. Their services will consist not only of consultation, examination and advice, but also of all minor surgical operations.

The object in pursuing this course is to become rapidly and personally acquainted with the sick and afflicted, and under no conditions will any charge whatever be made for any services rendered for three months, to all who call before July 27.

The doctors treat all forms of disease and deformities, and guarantee a cure in every case they undertake. At the first interview a thorough examination is made, and, if incurable, you are frankly and kindly told so; also advised against spending your money for useless treatment. shear & Hill's.

Male and female weakness, catarrh, and catarrhal deafness, also varicocele, rupture, goitre, cancer, and all diseases of the rectum, are positively cured by their new treatment.

The chief associate surgeon of the Institute is in personal charge. Hours 9 to 8. Sundays 10 to 1.

WATER STRINGENCY RELIEVED.

Recent Rains Have Filled Three Dams. No. 1 Is Half Full and Rising.

The recent rains have not only broken the drouth from which the country has been suffering, but it has relieved the anxiety felt in regard to the city's water supply. Water has been coming down the Clear Fork until now all the dams are full and running over except dam No. 1, which is half full and slowly rising. While there had been no actual suffering for lack of water the supply was getting so low that the dictates of prudence demanded that it should be used conservatively until the supply was replenished. Even now no wastefulness should obtain, for the summer is not yet over. and it cannot be foreteld what rains will fall before autumn days come.

The new 'phone of the Houston and Texas Central's city ticket and commercial office is 488.
