"I had a terrible sore on my ankle and had not walked any for eleven months. I tried nearly everything without any benefit and had a doctor, but he didn't seem to do any good. He said I would have to have my leg taken off, and that I would never walk again. I suffered awful, and at night I could not sleep at all. I thought there was no rest for me, but as soon as I began to use Cuticura Soap and Ointment it commenced healing nicely. I bathed the ankle with warm water and Cuticura Soap and then applied Cuticura Ointment to the affected part, and laid a cloth over the sore to hold it in place. After two weeks I could walk around in my room real good, and in six weeks' time my ankle was entirely cured and I was walking around out of doors. I am enjoying perfect health and have gone to work and feel as well as I ever did in my life, so I know that the Cuticura Remedies are the best in the world.

If Mrs. Tolla, who is to hang in New Jersey, on Jan. 12, had been a so-clety's shining star, she might have nurdered man's faith, woman's purity nd childhood's innocence, and never aused a ripple.

It has remained for the women of America to blazon to the world their estimate of womanly honor and virue in their tacit acceptance of the fate in store for this sister woman who held honor above all price. If Mrs. Tolla had been versed in the ethics of modern society, she would still have continued to "borrow" of "friend," paying the devil's rate of interest, and her husband could have plastered his wounded affections to the tune of the "friend's" dollars. But she was only an ignorant peasant, who wanted to live a clean, honest life, true to husband and children and her God; and who saw in the human wolf but a beast of prey threatto death, she goes—not as a guilty voman or a criminal deserving death—lits purchaser in the social market.

THE GALVESTON-HOUSTON DIFFERENTIAL

Mr. W. D. Williams' conception of the duties of a railroad commissioner is that he should decide first and investigate afterward. That may be good politics, but it isn't good sense or justice.-Houston Post.

And the Houston idea of the duties of a railroad commissioner is that he should subscribe to the theory that a place without natural advantages as a cotton market should be protected and built up at the expense of other points more favorably situated .-Fort Worth Telegram.

The Post said nothing to warrant The Telegram's conclusion. The Post knows that it speaks by the card when it assures The Telegram that Houston asks for nothing but a square deal. The Post's criticism of Mr. Williams is that he decides, off-hand, a case before he has heard the evidence. It must be remembered that the decisions of the railway commis- means better laws for all Texas. sion are made after hearing evidence under oath, as in a court of law. And it is well to bear in mind the very material difference between interested newspaper assertions and testimony delivered under the solemnity of an oath. Does not The Telegram know that if any such discriminating conditions really existed as has been charged by the Galveston-Dallas News, and reiterated by Mr. Williams, it would be a very easy thing to correct them in the courts? That is what the courts are for, and if the contestants in this matter believed their cause just, into the courts they would have gone instead of surreptitiously spending money with newspapers to scandalize the railway commission and attempt to arouse popular prejudice with already established. which to terrorize candidates and politicians -- Hous-

Because Judge Williams has seen fit to express an opinion concerning the injustice of the cotton differential, which places Houston upon the same basis as Galveston as a cotton market, the esteemed Post charges him with pre-judging the case, and seeks to disparage his candidacy for railroad commissioner. While the Pest did not say just exactly what The Telegram suggested as the Houston idea, it is too palpable to admit of any form of argument.

It Houston wants nothing but a square deal, why not make up in business enterprise and alertness what is obtained under preferential treatment? It is true Galveston has great natural advantages over Houston as a cotton market, which she is deprived is spending money in subsidizing the press, as charged by the Post, then that fact is but additional evidence against Houston. AMONG THE EXCHANGES

The attorney general has rendered an opinion that merchants cannot agree not to give credit, without violating the law. The Post now asks the attorney general if Texas theaters can agree not to permit Mme. Bernhardt to give performances, if a special committee can sit in St. Louis and fix the prices at which Texas lumber must be sold.-Houston Post.

Opinions from the attorney general's office do not correct abuses in the matter of alleged violations of the anti-trust law in Texas. If the law is being violated the people have a right to demand that its provisions be enforced, and vigorous action in the competent courts should take the place of long range opinions.

* * * * There should be more interest taken in the selection of men who go to the Texas legislature than has been taken in recent years. The legislature, no matter what may be the public opinion of it, is one of the most important bodies that meets. Upon it depends the welfare, the prosperity and the happiness of the people of Texas. It is not enough to satisfy the people of Texas that their laws are as good as the laws of other states. They should insist that their laws be better, and they should send men to the legislature who are capable of making them better.-Sherman

That is the kind of doctrine that should be preached in every legislative district in Texas until the people thoroughly awaken to the importance of adopting that policy. Better men in the state legislature

Representative Chalk Beeson of Kansas is at the head of the forestry station that gives trees to farmers.

In an address to a woman's congress Mr. Beeson

"Trees are like children. In the beginning they give us a great deal of trouble and worry, but in the end we are very proud of them.

"Young trees are vexatious. Young children are vexatious. I know a man who sat in his study the other afternoon writing a speech when his little son called shrilly from the garden:

"'Papa, papa, look out of the window." "'What a nuisance children are,' grumbled the man, but nevertheless he put down his pen and with a half smile he advanced to the window promptly and stuck forth his head.

"'Well, what is it?' said he. "The boy, from a group of youngsters, called up: "'Jimmy Smith wouldn't believe you had no hair on the top of your head. That's all."

Old Hi Rivers, the veteran driver of the water wagon, kept his eye on Clearwater, and when the latter waved his hand for the start Hi cracked his whip fiercely, his horses plunged forward and the procession was on. After passing through the principal downtown streets, the procession moved to the waterworks, where the annual entertainment was given. Everything was carried out according to program and the parade was the most successful in years. There were a few disappointments. No word was received from John L. CHRISTMAS DANCE HELD

Yule Log Blazes at Country Club Annual Event

The Country Club entertained Friday night with a Christmas dance at the club house, which was one of the most successful events of the season, notwithstanding the heavy rain storm which lasted until almost the close. The attendance was not as large as would have been, rain keeping a large number away, but the parlors of the club were comfortably filled. About one hundred persons were present. A program of twelve numbers and five extras was danced.

The club house was decorated artistically. In the center of the main hall rung a large Christmas bell and leading up to this bell from the corners of the room were long red and green paper streamers. The large mantel blazed merrily in the grate. The walls other Christmas greens, while red pa- past year. per bells hung here and there over the warmth to the gay scenes.

With the high price of export corn, which has taken out all the surplus corn in the state, it became impossible for hog feeders to hold, so the result was the hogs were sold with a resultant scarcity of marketable stuff. From this time on we

will have to depend upon the territories for our supplies of fat hogs. 'The market for sheep is good, but the supply nothing like equals the demand for fat muttons. A few are being fed at or near the yards. To indicate what the market for sheep is, we sold to packers muttons weighing eighty pounds for \$5.50, and they were hardly packers' grade either. It is very probable that as soon as the weather settles there will be a brisk market and this may draw out some hidden stuff that is unknown at pres-
