What Was This Call Worth?

"Mommy, can I stay at grandmother's tonight?" That was little Carol's very first telephone call—a real thrill that can hardly be measured in dollars and cents. Yet, Mrs. Caroline Niemeier, Carol's grandmother, can tell you what that call cost. She is one of a group of customers who kept day-by-day records of calls made for a week—a total of 30 calls covering 133 miles. Then she broke her telephone bill down into the actual cost per call. "I was amazed," she reported, "at how little my telephone service cost for all the convenience and happiness it delivers." SOUTHWESTERN BELL TELEPHONE COMPANY... SOUTHWESTERNER OF THE YEAR in 1953, Coach DeWitt Weaver sends his Texas Tech Red Raiders against a rugged schedule that will make it difficult for them to repeat last season's accomplishments. Tech loses seven starters from the team that won the Border Conference title, led the nation in scoring, and beat Auburn 35-13 in the Gator Bowl.

Tubbs Asks For Votes In Run-Off

Since it is impossible to see all of you between the two primaries, I take this method of appealing to you for your vote in my race for County Judge of Floyd County in the run off primary of August 28.

Since our economy in Floyd County is based on agriculture and the farmers income has been cut some 20%, it is going to be necessary that we begin to find ways and means of reducing our tax load in the county. This can be done through economy and as the county judge is the budget officer of the county he will have a large part in recommending to the County Commissioner about measures to bring this about. This of course, requires much work and study on the part of the county judge.

I am for more and more farm-to-market roads for Floyd County and will exert my best efforts to get them. If you will examine the record you will find that while I was your county judge previously we were very successful in getting this type of road for Floyd County and that more miles of farm-to-market roads were built than at any other comparable time.

The July 24th primary gives us a vivid example of the importance of each vote cast. We may not think our vote amounts to much and that it will not affect the outcome of the race, but two or more votes could have made a lot of difference, especially in the county judges race.

The very flower of our youth sacrificed their lives, including my only son, in two world wars and Korea, to preserve in us the right to vote as we please. Please let's not let their sacrifice be in vain by failing to do the thing for which they gave their lives. To me the right to vote is sacred and not to be thought of lightly, or uselessly thrown away. Let's make every vote count for something on August 28th and I assure you that I will appreciate your vote.

Your friend,
G. C. TUBBS,
(Political Ad.)

Library Notes

We call to your attention a recent library purchase, a beautiful book about a horse. It was first published in 1877 and for the ensuing three quarters of a century it has been among the beloved books of every child who had a chance to read it. We ordered this because we did not have a copy of the classic and because one of our young borrowers had heard of the book from his grandfather. The book has lost none of its charm in the new printing and the beautiful illustrations still show the ladies mounted on side saddles—Name of the book? Oh yes, it is "Black Beauty".

Mrs. Kenneth Bain came in to visit the library and to show it to her out-of-town guests, Mrs. Dean Allard, Mrs. Annie Stevenson and Mrs. A. F. Stevenson, all of Silverton.

On Saturday morning a very small and unidentified voice stated by telephone "Is the library still going on?" On inquiry we found that our caller wanted to be sure if we still had story hour. We are glad to report that we still do and that story hour goes right on. It will not meet on August the 28 since the election will be in session in the courthouse, but with that exception the story hour continues.

to meet regularly. On the last occasion there were thirty-four in attendance. Mrs. E. L. Norman brought the stories and Mrs. B. C. Henry brought the refreshments. The Junior G. A.'s of First Baptist Church presented a book in memory of Mr. Sam Phillips. These young people are sponsored by Mrs. Lee Gollightly and Mrs. Clarence Guffee. The book they chose was "A Plain Man Looks at the Cross" by Leslie Weatherhead.

We appreciate a donation of book jackets in cellophane from Dr. R. E. Allen.

We are returning five hundred juvenile books to the Texas State Library. We have used these books for a year and it was with a sense of personal loss that we packed them for the return, however the staff agrees that it was a nice loan and we are indeed glad to have had the chance to use these books which came to us ready to check out. We still have the major portion of the books loaned us and will be able to keep them for a longer period of time. Our Extension Division of the Texas State Library attempts to lend books to young libraries until they are established.

Mrs. Fay Whitaker of Phoenix, Arizona is spending this week with her aunt, Mrs. T. D. H. Whitaker.

The L, or "fishhook," is a favorite setting of decoys ducks for Joe Godfrey, famous hunting authority. The decoys are strung out in a hook shape, as shown in the drawing, with the blind near the point of the hook. A couple of hen decoys are placed in the bend of the hook. Another good setting is the double triangle set, which is a diamond-shaped spread of decoys with an open lane down the center.

Farm And Business Progress Review

Connor Mathes Co. Outstanding Parts Concern

One of the most essential businesses in any community is the automotive parts jobber. Garages, service stations, implement dealers and many others depend upon them to supply needed parts quickly. They must carry a large and complete stock of automobile, truck and tractor parts and keep a perpetual inventory of what they have on hand so that they can reorder from their source of supply before that specific item becomes "out of stock" and causes inconvenience to their customers.

Connor Mathes Company, 617 Austin in Plainview is "Your Jobber Who Handles Only First Quality Replacement Parts." Their stock is most complete with nationally known parts, accessories and equipment — they have "Everything Automotive" for your car, truck, tractor or irrigation plant and take great pride in furnishing quick service to their long list of customers.

The trade throughout the South Plains have learned that they can depend on Connor Mathes Co. in Plainview to supply their requirements and give speedy service. It has always been their policy to put "Complete Customer Satisfaction" above all else and in so doing have built a most enviable business, becoming leaders throughout this territory. Their phone number is 4-2741 in Plainview and when you call them you can be assured of quality and service at a fair price.

H. & S. Butane Co. Leaders In Their Field

With the ever-increasing demand for butane and propane gas for home, agriculture and industrial use H. and S. Butane whose plant is located west of the "Y" in Floydada has become a leader in its field. They have kept abreast with the increased demand and have equipped themselves with the very latest type trucks for safe, speedy delivery anywhere in this territory. The percentage of users of butane and propane gases for agriculture and irrigation served by H. & S. Butane Co. is probably the highest in the district because of the fact they can be depended upon to "put their quality gas where you want it—when you want it."

H. & S. Butane Co. will be glad

to make a survey of your home, farm or business building and furnish cost estimates on a complete butane system, including tank, etc. Their wide experience is your assurance of an efficient installation at a reasonable cost. A telephone call to them (make it collect) at 89, nights 850 in Floydada will give you prompt delivery service or make an appointment to discuss the installation of a complete butane system.

Quality products, good service and fair prices has been the watch word of H. & S. Butane Co. since they started in business. This policy has made them leaders in their field and they merit the goodwill and patronage of butane users throughout this trade area.

Ute Drilling Co. Serves South Plains Well

Specializing in the drilling of Pier Holes, Post Holes, Basements, Septic Tanks, Cesspools, Foundations, Storm Cellars and general drilling the Ute Drilling Co., located at 1311 Milwaukee in Plainview has gained favor throughout the South Plains for their efficient work, good service and reasonable charges.

Many of the general building contractors and utilities throughout this area depend upon him for their drilling requirements because they know that they will get a first-class job at a price that is lower than they can do the work themselves.

Should any of our readers be in need of any of the work that is done by Ute Drilling Co. a telephone call to A. C. Stanley at 4-4260 in Plainview will make an appointment. You will find that Mr. Stanley will go into detail with you regarding the required work, give you the benefit of his wide experience and furnish cost estimates without obligation on your part.

We take pleasure in this review edition of our paper, in calling to the attention of our friends and readers the services performed by Ute Drilling Co. in Plainview and recommend them to those who may have this type of work to be done.

Cotton insects last year destroyed more than \$62 million worth of lint and cottonseed in Texas. The total for the nation was approximately \$261 million. There's no profit in feeding the cotton bugs. Kill 'em.

Panhandle Comp. & Whse. Co. Merits Praise

No review of the agricultural interests of the South Plains would be complete without mention of Panhandle Compress & Warehouse Co. in Plainview which is under the management of Sam Langford and their warehouse in Lockney which is managed by Frank R. Hawkins.

With the South Plains one of the leading cotton producing sections in the nation Panhandle Compress & Warehouse Co. has admirably met the demand in helping to handle the mammoth cotton crops. At all times during the heavy cotton movement this outstanding concern has been able to render the very best of service, due to their modern equipment and efficient organization.

With the increase in irrigation throughout the entire South Plains area and the subsequent increase in cotton production, this reliable and progressive firm again stands ready to serve their many friends and customers when this year's crop is ready.

In this review edition of our paper it is with pleasure that we single out Panhandle Compress & Warehouse Co. for public mention and compliment Sam Langford and Frank R. Hawkins for the splendid service they give the public. They have played an important part in the development of the South Plains and are always ready to respond to calls made upon them for any movement that will help the territory they serve and make the South Plains a better place in which to live.

Highway Patrol Seeks Applications

Austin. — Homer Garrison Jr., Director of the Texas Department of Public Safety, announced today that the Texas Highway Patrol will accept applications between now and August 25th for young Texans for appointment to the Texas Highway Patrol.

Garrison said that examinations for appointment to the Patrol recruit training school will be given at various points in the state early in September. Some thirty vacancies due to registrations, deaths and transfers will be filled from the roster of those qualified.

The Public Safety Director invites all young men who are interested in a career of law enforcement to make application as early as possible. He pointed out that they must be between 21 and 35 years of age, inclusive, have a high school education, be at least 5 feet 8 inches in height and weigh not less than two nor more than three and one-half pounds per inch of height.

Garrison emphasized, too, that applicants must have been citizens of Texas for at least a year and they must be of good moral character and in perfect physical condition and able to withstand a rigid character investigation. Application forms, Garrison said, may be obtained from all Texas Highway Patrol District Offices or by writing directly to W. J. Elliott, Chief, Texas Highway Patrol, at Austin.

KEEP LEATHER CLEAN

Leather or plastic belts, watch straps, and wallets are 100 per cent better looking when clean. It takes only soapy warm water to keep such accessories free of dirt and stains. Smooth on a thick soap lather, rub hard, and let the suds stay on for a few minutes to dissolve oil or grease spots. Wipe with a sponge wrung out of clear water and polish with a soft dry cloth.

TRY THESE FOOD TIPS

Here are some flavor tricks: add a drop or two of almond flavoring to canned cherries; add dry mustard to the cheese sauce for macaroni; sprinkle freshly ground black pepper over a tossed green salad; add chopped almonds to a clear soup just before serving; use radishes sliced fine as garnish for almost anything.

The schools continue to produce better boys and girls every year, despite the dire predictions of some members of the older generations.

Will Farming Be Dominated By Labor Bosses?

The time has come when we must seriously consider the effect of a labor-dominated State government in regard to the agriculture of this area.

The experience we gained with regard to school age farm workers was a minor difficulty compared to what other states have experienced when labor bosses get control on a state level.

Experience of other states has shown labor dominated State government has meant this:

1. FREQUENT STRIKES OF FIELD WORKERS DURING HARVEST TIME RESULT IN SUCH GREAT LOSSES THAT MANY FARMS ARE LOST.
2. WAGES AND HOURS ARE FIXED BY CONTRACT WITH LABOR BOSSES.
3. UNION MEMBERS ALONE CAN WORK IN THE FIELDS. WHEN NON-UNION BOLL-PULLERS, HOE HANDS AND OTHER WORKERS ARE HIRED, THEY ARE RUN OUT OF THE FIELDS BY UNION GOON SQUADS.
4. FIRING OF INEFFICIENT UNION WORKERS CANNOT BE DONE EXCEPT WITH CONSENT OF LABOR BOSSES.

In 1950 a Plains County wrote and sponsored a resolution declaring against changes in our labor laws and endorsing our present "Right To Work" labor law.

Under the leadership of Allan Shivers this "Right To Work" resolution was passed by the Texas Democratic Convention in Mineral Wells.

Despite the strenuous efforts of the CIO-PAC labor bosses, this "Right To Work" law has remained unchanged until now.

This year for the first time in Texas history union labor bosses have played a decisive role in a Texas election.

Union labor bosses openly boasted that they would defeat Allan Shivers. Labor bosses openly endorsed the opponent of Allan Shivers — and that opponent has welcomed their money and their votes.

If you want to prevent the unionization of farm labor and if you want our present "Right To Work" labor law to remain unchanged, then

VOTE FOR ALLAN SHIVERS ON AUGUST 28

WHY COMMUNISM MAKES PROGRESS

Recently a Communist group in New York purchased a church building that a local Protestant community could not keep up. The minister in that area questioned one of the Communists after the sale was completed. Here is what he said:

"The Gospel is a much more powerful weapon for the renewal of society than is our Marxist philosophy, but all the same we shall beat you. We are only a handful and you Christians are numbered by the millions. But if you remember the story of Gideon and his three hundred companions, you will understand why I am right. We Communists do not play with words. We are realists and are determined to achieve our objectives. We know how to obtain the means. Of our salaries and wages we keep only what is strictly necessary, and we give up the rest for propaganda purposes. To this propaganda we also consecrate our free time and a part of our holidays.

"You, however, only give a little time and hardly any money for the spreading of the Gospel of Christ. How can anyone believe in the supreme value of this Gospel if you do not practice it, if you do not spread it, and if you do not sacrifice time nor talent for it? Believe me, we shall win, for we believe in our Communist's message and we are ready to sacrifice everything . . . even our lives . . . in order that social justice shall triumph. But you people are afraid of soiling your hands."

It is not unusual to find sinful men more zealous for sin, than some Christians are for righteousness. This brief article should cause Christians to take inventory. How much of our time do we spend in actual service to God? What percent of our income do we invest in spiritual matters? What sacrifices have we made to follow Christ? Do we really love Him, or do we merely pretend?

SENATE JOINT RESOLUTION NO. 10

proposing an amendment to the Constitution of the State of Texas, creating the State Building Commission and determining the membership thereof; creating the State Building Fund; providing for the surplus in the Confederate Pension Fund to be transferred annually to the State Building Fund; providing for the expenditure of such fund under the direction of the Legislature; providing for the expenditure of a limited amount of the building fund for the erection of memorials under certain conditions and limitations; providing for an election thereon, the proclamation of such election, and the form of ballot.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. Article III of the Constitution of the State of Texas shall be hereby amended by adding thereto a new section to be known as Section 51-b and reading as follows:

"Section 51-b. (a) The State Building Commission is hereby created. Its membership shall consist of the Governor, the Attorney General and the Chairman of the Board of Control. The Legislature may provide by law for some other State official to be a member of this Commission in lieu of the Chairman of the Board of Control and in the event said State official has not already been confirmed by the Senate as such State official he shall be so confirmed as a member of the State Building Commission in the same manner that other State officials are confirmed.

"(b) The State Building Fund is hereby created. On or before the first day of January following the adoption of this amendment, and each year thereafter, the Comptroller of Public Accounts shall certify to the State Treasurer the amount of money necessary to pay Confederate pensions for the ensuing calendar year as provided by the constitution and laws of this State. Thereupon each year the State Treasurer shall transfer forthwith from the Confederate Pension Fund to the State

Building Fund all money except that needed to pay the Confederate pensions as certified by the Comptroller. This provision is self-enacting. The State Building Fund shall be expended by the Commission upon appropriation by the Legislature for the uses and purposes set forth in subdivisions (c) hereof.

"(c) Under such terms and conditions as are now or may be hereafter provided by law, the Commission may acquire necessary real and personal property, salvage and dispose of property unsuitable for State purposes, modernize, remodel, build and equip buildings for State purposes, and negotiate and make contracts necessary to carry out and effectuate the purposes herein mentioned.

"The first major structure erected from the State Building Fund shall be known and designated as a memorial to the Texans who served in the Armed Forces of the Confederate States and shall be devoted to the use and occupancy of the Supreme Court and such other courts and State agencies as may be provided by law. The second major structure erected from the State Building Fund shall be used by whatever State agencies as may be provided by law.

"Under such terms and conditions as are now or may hereafter be provided by law, the State Building Commission may expend not exceeding five (5%) percent of the moneys available to it in any one year, for the purpose of erecting memorials to the Texans who served in the Armed Forces of the Confederate States of America. Said memorials may be upon battlefields or other suitable places within or without the boundaries of this State. The authorization for expenditures for memorials herein mentioned shall cease as of December 31, 1965.

"Under such terms and conditions as are now or may hereafter be permitted by law, the State Building Commission may expend not exceeding Thirty Thousand (\$30,000) Dollars in the aggregate for the purpose of erecting memorials to the Texans who served in the Armed Forces of the Republic in the Texas War for Independence. Said memorials may be erected

upon battlefields, in cemeteries, or other suitable places within or without the boundaries of this State. The authorization for expenditures for memorials herein mentioned shall cease as of December 31, 1965.

"(d) The State ad valorem tax on property of Two (2) Cents on the One Hundred (\$100.00) Dollars valuation now levied under Section 51 of Article III of the Constitution as amended by Section 17, of Article VII adopted in 1947, is hereby specifically levied for the purpose of continuing the payment of Confederate pensions as provided under Article III, Section 51, and continued maintenance of the State Building Fund hereby created.

"(e) Should the 53rd Legislature enact a law or laws in anticipation of the adoption of this amendment, such shall not be invalid by reason of their anticipatory character."

Sec. 2. The foregoing amendment shall be submitted to a vote of the qualified electors of Texas as the general election to be held throughout the State on the first Tuesday after the first Monday in November, 1954, at which election those favoring such amendment shall have printed or written on their ballot the following:

"FOR THE AMENDMENT transferring that portion of the Confederate Pension Fund not needed for the payment of Confederate pensions to the State Building Fund to be used for State building purposes as may be provided by law, and also permitting not more than six (6%) percent of such fund to be used for memorials for Texans who served in the Texas Revolution and in the armed forces of the Confederate States."

Those opposing such amendment shall have printed or written on their ballot the following:

"AGAINST the amendment transferring that portion of the Confederate Pension Fund not needed for the payment of Confederate pensions to the State Building Fund to be used for State building purposes as may be provided by law, and also permitting not more than six (6%) percent of such fund to be used for memorials for Texans who served in the Texas Revolution and in the armed forces of the Confederate States."

Sec. 3. The Governor shall issue the necessary proclamation for such election, and shall have the amendment published as required by the Constitution and laws of the State of Texas.

HOUSE JOINT RESOLUTION NO. 10

proposing an amendment to the Constitution of the State of Texas by repealing Section 2a of Article VI and by amending Sections 1 and 2 of Article VI so as to confer the privilege to vote upon members of the regular establishment of the United States Army, Navy, Marine Corps, or Air Force, or component branches thereof who are otherwise qualified electors, and so as to limit voting by persons in the military service of the United States to the county in which the voter resided at the time of entering such service; providing for submission of the proposed amendment to the qualified electors; providing for proclamation and publication by the Governor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 2a of Article VI of the Constitution of the State of Texas be repealed and that Sections 1 and 2 of Article VI of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Second: Idiots and lunatics.

"Third: All paupers supported by any county.

"Fourth: All persons convicted of any felony, subject to such exceptions as the Legislature may make.

Section 2. Every person subject to none of the foregoing disqualifications who shall have attained the age of twenty-one (21) years and who shall be a citizen of the United States and who shall have resided in this State one (1) year next preceding an election and the last six (6) months within the district or county in which such person offers to vote, shall be deemed a qualified elector; and provided further, that any voter who a

subject to pay a poll tax under the laws of the State of Texas shall have paid said tax before offering to vote at any election in this State and hold a receipt showing that said poll tax was paid before the first day of February next preceding such election. Or if said voter shall have lost or misplaced said tax receipt, he or she, as the case may be, shall be entitled to vote upon making affidavit before any officer authorized to administer oaths that such tax receipt has been lost. Such affidavit shall be made in writing and left with the judge of the election. The husband may pay the poll tax of his wife and receive the receipt therefor. In like manner, the wife may pay the poll tax of her husband and receive the receipt therefor. The Legislature may authorize absentee voting. And this provision of the Constitution shall be self-enacting without the necessity of further legislation. Any member of the Armed Forces of the United States, or component branches thereof, or in the military service of the United States, may vote only in the county in which he or she resided at the time of entering such service so long as he or she is a member of the Armed Forces."

Sec. 2. The foregoing Constitutional amendments shall be submitted to a vote of the qualified electors of this State at the General Election to be held on the first Tuesday after the first Monday in November, A. D. 1954, at which all ballots shall have printed thereon the following:

time of war."

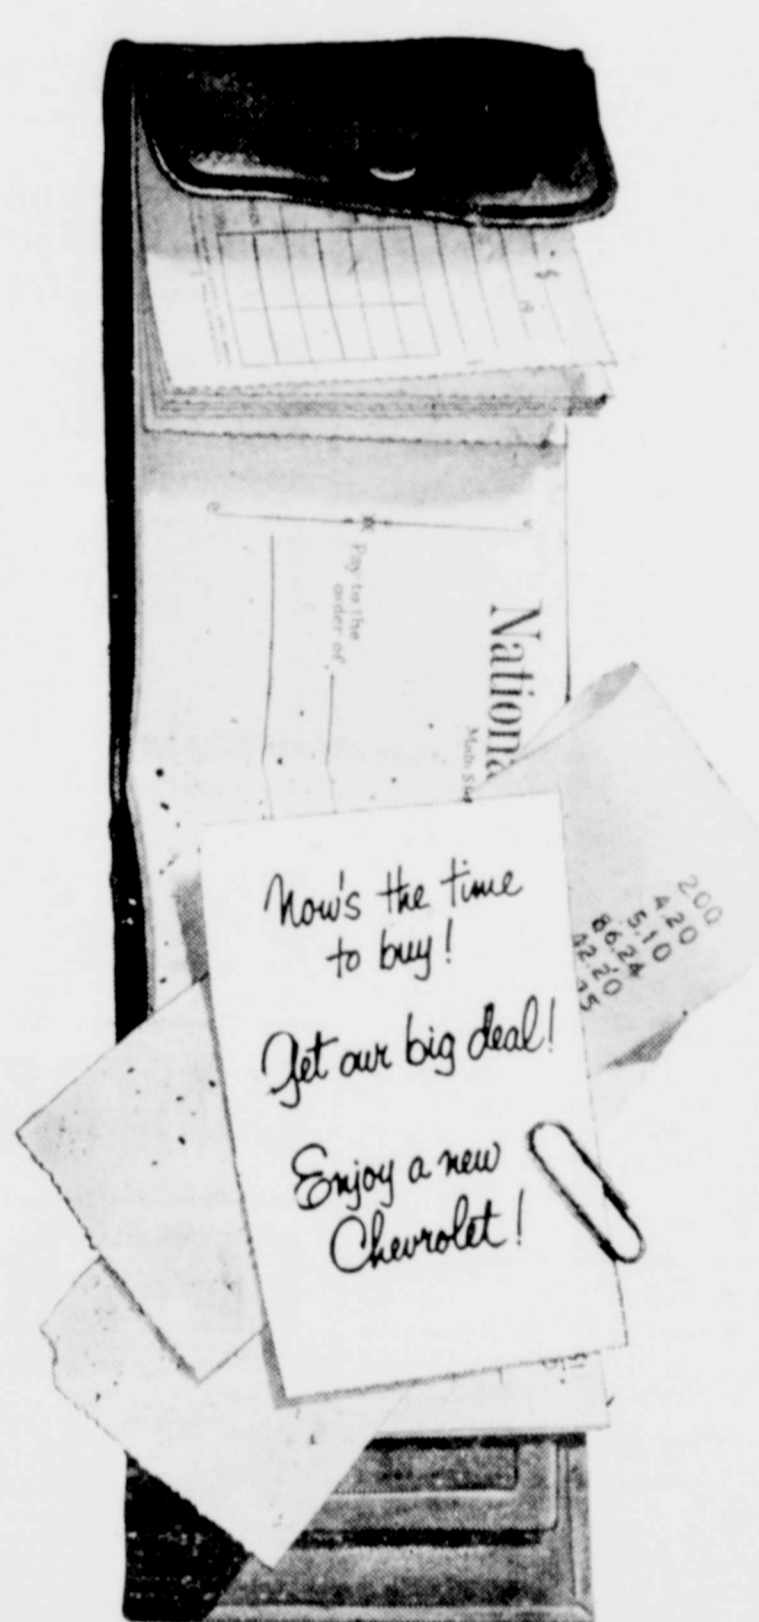

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State.

Formby Frowns On Highway Promises

Marshall Formby of Plainview, member of the Texas Highway Commission, today expressed deep concern that Ralph Yarborough, candidate for Governor, is reported promising roads and bridges in parts of Texas, in an effort to garner votes.

Formby is a Plainview attorney and owns interest in several West Texas Radio stations. He was appointed to the Commission by Governor Allan Shivers in February 1953.

Formby said that Yarborough's recent promise to build a \$5,000,000 highway and bridge in Galveston county and along the Gulf Coast, if he were elected Governor, is an example of political promises that would eventually harm the fine highway department in Texas. His full statement follows:

"I am deeply disturbed when I hear of the dozens of promises that Mr. Yarborough is making to the people offering to build new roads and bridges in various parts of the state."

"For more than a quarter of a century the Highway Department has been completely free of political road and bridge building. The Texas Highway Department has built roads and bridges based strictly on merit and need."

"Texans everywhere take great pride in the Highway Department, stressing the fact that there are no politics in it, and for the good of all Texas I sincerely hope they can continue to have that pride."

"The present Commission has not spent one dime on a political road or bridge since I have been a member, and I know that the three members would never vote 15 cents to fulfill any political obligation."

"I have been a member of the Commission for 18 months and during this year and a half Governor Shivers has never once requested me to spend one dime on any particular road or bridge, but has insisted to me that every expenditure be based strictly on need and merit as far as the money would go."

"To my mind, that is the only way a highway department can be run. Texans must see that this condition continues to prevail."

Mrs. Douglas Degge, Olin and Mary Leslie of Austin arrived Monday afternoon for a two weeks visit with Mrs. Degge's mother, Mrs. Floyd Huff.

Nation's 4-H'ers Seek to Cut Death Toll of Farm Folk on Rural Highways

Look out, young feller!

CHICAGO—(Special)—"Make Safety Your Number One Crop," the slogan of several million rural boys and girls throughout the nation since its introduction in 1945, continues to be fostered by more than 615,000 4-H Club members. They are taking part in the 1954 National 4-H Safety Program being conducted in 46 states for the tenth consecutive year. Participants receive training in farm accident and fire prevention, which includes checking and removing hazards of every conceivable nature.

These surveys are credited by safety experts as being a valuable contribution to the nationwide campaign to reduce the tragic annual toll of 15,000 lives and 1,225,000 disabling injuries to farm folk.

In conducting their surveys, the 4-H'ers look for such safety hazards as loose or floppy clothing worn about moving farm machinery, cluttered stairways, oily rags, frayed electric cords, broken ladder rungs and sharp tools.

What is becoming an increasingly serious problem is that ac-

cidents to farm people caused by motor vehicles now account for nearly one-fourth of all deaths and injuries that occur on rural highways. Also, 700 of the fatal farm accidents reported last year involved wheel tractors. One-third of the fatal tractor accidents reported involve persons under 20 years of age. One case in ten was a child under 5.

To help correct this problem, the 4-H'ers are giving highway safety demonstrations before farm groups and over local radio stations, as well as putting window displays in town stores and booths at county fairs.

The 1954 National 4-H Safety Program is conducted by the Co-operative Extension Service. As incentives for outstanding records in the program, General Motors provides medals of honor which are presented to four county winners, and an all-expense trip to the National 4-H Club Congress in Chicago to the state winner. Eight of the latter will be selected as national winners, each receiving a \$300.00 college scholarship.

Attend Funeral Of Accident Victim

Funeral services for Jon Pyeatt, 14-year-old son of Mr. and Mrs. Roy Pyeatt of Hart, Texas, were held Saturday afternoon at 3 o'clock at the First Baptist Church in Hart. Rev. J. Keith, pastor, and Mrs. A. A. Starnes, church of Christ minister officiated.

Young Pyeatt was accidentally struck in the head with a ricochet bullet Thursday evening about 9:30 while shooting rats at the farm of his father. He was rushed to a Tulsa hospital where he died shortly after 7 p. m. The bullet had penetrated his brain.

The victim is survived by his parents and one sister, Royce Lynn Pyeatt, 16 years of age. The Pyeatt family were special friends of the Hershel Carthel family here. They had visited here numerous times and had many friends in this section.

Jon was active in the Hart Baptist Church where he had a 4-year perfect attendance record in Sunday School. He had attained the rank of Explorer Scout and was ready for a promotion to an Eagle Scout as soon as he was old enough. He was Den Chief for the Cub Scouts and was also active in 4-H club work.

Local people attending the funeral included Mr. and Mrs. Hershel Carthel, Teddy and Barbara, Larry McCormick, Warren Mathis, Mr. and Mrs. France Carthel.

Quality Eggs Can Be Marketed During Summer Months

College Station.—The egg is a perishable product. It cannot stand rough treatment nor maintain the high quality and grade it possessed when laid if given improper care. Frequent gathering and rapid cooling are two practices which will pay off, says F. Z. Beanblossom, extension poultry marketing specialist.

Gathering eggs at least three and preferably five times each day. If they are left in the poultry house all day, their quality is affected. The temperature of an egg when laid is about 100 degrees Fahrenheit and if the quality is to be maintained, rapid and thorough cooling is a must, says the specialist. Eggs only three days old held at a temperature of 99 plus degrees will drop to B grade; held at 77 degrees F. they will hold up for about eight days; at 45 degrees F. they will hold their quality for 65 days while at 37 degrees they are still A quality eggs after 100 days.

Humidity in the egg holding room is of equal importance with temperature. Quality drops with the humidity and Beanblossom points out that the ideal situation for holding is a temperature of around 55 degrees F. and humidity at about 80 percent. Eggs, after they have been cooled, should not be placed in warm cases. Pre-cool the cases and always case the eggs with the little end down. Then take them to market at least twice each week.

Dirty eggs are penalized. It's up to the flock owner, says the specialist, to provide surroundings which make clean egg production possible. A nest for each four to five hens or community nests containing plenty of clean absorbent material such as straw, peanut hulls or shavings is a must. The floor of the laying house should be kept dry and the house well ventilated. If the eggs must be cleaned, an abrasive such as emery cloth or a buffer should be used and only the soiled spot removed. Giving the egg proper environment, says Beanblossom, is good management and will pay off at the market.

Bernard Jaffee Is Army Captain

Okinawa.—Bernard Jaffee, whose wife, Lynna, lives in Lockney, Texas, recently was promoted to Army captain while serving with the 98th Military Police Battalion on Okinawa.

A strong U. S. outpost in the Far East, Okinawa is located off the coast of China between Formosa and the southern tip of Japan.

Captain Jaffee, in the Army since 1943, arrived on Okinawa last February.

Mrs. O. E. Durham has spent the past week visiting her parents, Mr. and Mrs. E. T. Wood in Fort Worth. Mr. Durham accompanied Joe and Page Durham to Lubbock Tuesday night to board a train for Fort Worth and they plan to join their mother for a weeks visit with their grandparents.

If hydrogen power is as potential as they say, perhaps some of it could be used to penetrate some of the thick skulls that plague mankind.

Mrs. Harold Davis's sister, Mrs. J. L. Green, Mr. Green and Wanda of Dallas, left Sunday after visiting the Davis family here for several days.

Farm Income Is Up 9 Per Cent

Austin.—Texas farmers' cash income exceeded \$703.5 million during the first six months of 1954, a rise of \$58,129 or 9 per cent from the \$645.4 million total for the same period last year.

The University of Texas Bureau of Business Research said increased revenue from cotton and cattle were primarily responsible for the overall increase. Cotton income showed a 35 per cent gain, from \$111.4 million in January-June, 1953, to \$150.8 million during the first six months of this year. Cattle income rose 22 per cent, from \$161.5 million to \$196.7 million.

Other commodities showing considerable increases in the year-to-year comparison included peanuts, up 115 per cent (the largest percentage gain reported) and grain sorghum, up 42 per cent.

Several products were below their 1953 totals for the first six months, but only one registered a decrease of more than 20 per cent — cottonseed, down 39 per cent. Fruit and vegetable income fell 20 per cent below last year, while milk and milk products were 17 per cent lower.

The Bureau reported a sharp decline in prices received by Texas farmers during June. Prices dropped to a level 6 per cent below May and 3 per cent below June, 1953. Crop prices were down 4 per cent for the month, with vegetables showing the largest decline, down 25 per cent from May. Other significant price decreases included food grains, down 12 per cent; feed grains, down 8 per cent; and potatoes and sweet potatoes, down 3 per cent.

Mr. and Mrs. Bob Bolding and family returned last Thursday from a week's vacation trip to Galveston.

Minute Editorials

And thou shalt love the Lord thy God all thy heart, and with all thy soul and with all thy mind, and with thy strength; and this is the first commandment. — Mark 12:30.

WHY DOES THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS need an additional \$20 million dollars? Simply because they set up their budget this year for \$75 million and the March of Dimes drive in January raised only \$55 million. The \$55 million was \$4 million more than raised in 1953 but still was far short of the need because of the National Foundation's vaccine trials and the manufacture and distribution of gamma globulin this year, neither of which had been included in previous year's programs. The National Foundation's March of Dimes drives have increased in amounts each year since the beginning, the total amount raised being 60% more in 1954 than it was in 1950. So there is no reason why the organization needs additional funds except that it set up a vastly greater program for this year in an effort to find a polio vaccine and at the same time furnish gamma globulin to stricken areas. Although funds for these extra efforts to curtail polio were included in the March of Dimes goal for January the actual drive fell short of the goal and for that reason an emergency drive is necessary.

MR. RALPH YARBOROUGH'S promises have about got him in a jackpot. First the candidate for governor of Texas promised to give the veterans of Texas a bonus and to build numbers of dams on the rivers of the state

Be Safe
Many times, the expression is heard, "It is better to be safe than sorry."
So it is with health. Be prudent. Don't over-indulge. Avoid dissipation. Be safe. One important safety measure is to take care of your spine.

Remember that the spine runs through the spinal cord, the source of supply of nerve impulses for millions of nerve fibres radiating to every part of the body.
Remember that a displaced vertebra in the spine, causing pressure on the spinal cord, may interfere with the free flow of these essential nerve impulses.
Accidents and falls should be followed by a visit to your chiropractor to assure yourself the spine is in perfect alignment.
Don't wait because many illnesses can and do result from a fall or accident.
If you are not enjoying good health and can't make up your mind what troubles you, see your chiropractor.
Be safe. Be sure with chiropractic treatment. Phone Dr. A. E. Hewitt, dial 3389, Lockney, today for an appointment.

all without raising taxes. He proposed raising money for these projects with a gas pipeline tax, but such a tax was passed by the legislature some two years ago only to be declared unconstitutional by the Supreme Court. Now he comes and says that he will build a \$5 million dollar highway and bridge in Galveston County and members of the Highway Commission are up in arms. It has always been the duty of the Highway Commission to select highways and bridges to build solely upon the merits of the proposition and without advice from the governor. They say, and they don't like the idea of the governor taking over the State Highway Department and paying his political debts with roads and bridges. Mr. Yarbrough is having a hard time finding some feasible program which is not already under way or in the planning stage.

SUMMER IS ABOUT gone and school will be starting soon. That is good news to some but we know a few prospective students who don't look upon it as such. As we heard one high school student say, they're mostly glad that school is starting but hate to see lessons begin if you can reconcile such an attitude. Most out-of-school people will welcome cooler weather, the harvest season and the hustle and bustle of fall. Anyway if you're ever going to take that vacation you better take it soon.

THE EXPERTS are stumped. Normally in the summer the number of unemployed persons increase, which means of course that more people are out of work and fewer people have money to spend. But this was not the case this summer. Nationally the number of unemployed remained about the same all summer, 5.1 percent of the total force, while employment in July alone rose 50,000 to a total of 62.1 million people employed in gainful operations. That will be good news to all since the national employment level will eventually and indirectly affect us all.

YOU WILL NEVER have a friend if you must have one without fault.

PLEASE!

A LOT OF US MAY NOT GET ANY MORE HELP BECAUSE THERE'S NO MORE MONEY LEFT IN THE MARCH OF DIMES!

YEAH—THAT'S BECAUSE THOUSANDS OF US GOT VACCINE AND GAMMA GLOBULIN SHOTS THIS YEAR

With Our EXCHANGES

FEDERAL TAX BILL TO BE MORE PALATABLE NEXT YEAR

There won't be any wholesale reduction in rates, but you as an "average" taxpaying American are likely to obtain substantial reductions in your federal tax returns next year.
This glad news will be a result of the re-writing of the federal tax laws — a process now underway in congress. It is almost a certainty that more liberal treatment will be given deductions. Some of them that will affect most of the people in this area are:
1. As a parent, you don't have to worry about your offspring making over \$600 to entitle you to a deduction. If he (or she) is under 19 or in school, and you still support him, you get the

deduction.
2. As a widow, you can deduct the cost of hiring someone to take care of your children while you're on the job. Limited to \$600.
3. Working mothers get the same treatment, unless the combined family income exceeds \$4500. Allowances decline as income rises.
4. You can now deduct all medical expenses over 3 percent.
5. As a farmer, you can knock off each year your expenses for soil and water conservation.
6. As a businessman, you get more liberal treatment of depreciation allowances, permitting you to "write off" investments in shorter periods of time.
There are many, many other changes that are important to smaller groups of people, but these probably are the ones that are most outstanding for the readers of this newspaper. You, like we, probably will be delighted to join in with a conservation

"hooray!" — State Line Tribune, Farwell.

ONLY SHE OR ONLY ME

Melvin Dow of The Wink Bulletin declares in his "Yours Truly" column that the little word "only" has been called the most misplaced word in the English language. The following sentence is suggested:
"She told me that she loved me."

Try putting "only" in the eight possible places in the sentence and see how the different versions can change the entire meaning. — Getting Out On A Limb in Post Dispatch.

YOU ARE OR YOU AREN'T

Let us suppose that you are asked a simple, direct question—which can be answered with a simple, direct "Yes" or "No."

The question is this: "Are you a Communist?" If you are not—and if you are a loyal American — your answer would be a resounding "No!"

But suppose you say, "I refuse to answer that question on the grounds that it might incriminate me. I invoke the fifth amendment."

Are you a Red traitor to America, or are you not? It is as simple as that. If you are not, why shouldn't you say so?

By executive order, President Eisenhower has directed that any government employee who invokes the fifth amendment before a congressional investigating committee runs the risk of losing his job. It would seem that he wants the Communist question answered by a straight "Yes" or "No." — Hamlin Herald.

JUST FOR THE RECORD

Just for the record, Judge Yarbrough has raised the issue of old-age pensions. That is controlled by the Constitution of the State of Texas. (You will have your chance to vote on that in November.) He has raised the issue of teacher's salaries. They are controlled by the Legislature. He plans to increase the expenditures by \$5,000,000 without increasing taxes. Try that on your business and let us know how you come out. We will still take Allan Shivers. — Happy Herald.

Mr. and Mrs. Z. C. Cummings and Zach arrived home this past Thursday from their vacation trip which took them through Washington, Oregon and California and many of the western states. They came home by way of Denver, Colorado where they spent the night with their daughter, Mr. and Mrs. Robt. Rose Sunday morning a brother, Aubrey Cummings and wife from Wiley, Texas visited the Cummings.

Mr. and Mrs. Rufus Young and family are planning to move to Lockney this week. They have bought the Guy Sams home and they will make their future home in Lockney. Deral is due home from the army in November and Don Shurbet will get home in October. The boys and their families intend to take over the farm work. Mrs. Don Shurbet from Lubbock was home with her parents over the week end and Mr. and Mrs. Deral Young from Camp Hood were here Monday.

The Facts About Governor Shivers' Big Real Estate Deal

1. May 21, 1946, Lloyd Bentsen, prominent Hidalgo County politician, bought for \$10,000 an option (right to purchase) 13,500 odd acres of wildcat Hidalgo County land at \$75.00 per acre, the option to expire December 15, 1946 at 12 noon.

2. May 31, 1946, Shivers, then State Senator and candidate for Lieutenant Governor, signs an agreement to pay Bentsen Development Co. \$25,000 for the option, giving his note for that amount.

3. November 5, 1946, Shivers was elected Lieutenant Governor.

4. December 15, 1946, at 12 noon, the option expired and became legally worthless.

5. December 16, 1946, Shivers sold the expired and worthless option to Texas Realty Company, a thousand-dollar corporation organized by the Bentsens, for \$450,000, nothing having been done to the land in the meantime.

6. The \$450,000 was paid in installments AFTER Shivers took office as Lieutenant Governor in January 1947.

7. In 1949, less than one month after Shivers became Governor, the Board of Water Engineers, after refusing for 20 years to grant further Rio Grande water permits for the reason that no surplus water was available, reversed itself and granted a permit for the benefit of the 13,500 odd acres, limited to surplus waters and for practical purposes worthless.

8. On the strength of the phony water permit, Texas Realty Company unloaded the land at an average price of \$500 per acre, as citrus land with water rights, to victims all over the country, including a number here in the Panhandle. 163 of such victims were foreclosed upon, and 20 of them brought suits for fraud, all of which were settled out of court without trial.

9. Why were these facts not publicized sooner? Because the facts as to Shivers' connection with the transaction were not known until he was compelled to give his deposition in the fraud suits in 1952, and because such facts were not available to the general public until Shivers' deposition was published, over his frantic protests, only a few months ago.

10. What did Shivers sell for \$450,000? Not the land, for he never owned it; not the option, for it had expired. Where did the \$450,000 come from — not Texas Realty Company, for it had only a thousand dollars capital. Ask the Governor — maybe he can tell you.

11. For fuller details, tune in on KCBT-TV, Channel 11, Thursday night, August 19, from 10 to 10:30 p. m., for the address of Garland S. Smith, one of the attorneys for claimants in the fraud cases — it will be worth your while.

With Those In West Texas Who Know Shivers Best, It's Yarborough 4 To 0!

Yes, all four West Texas Senators, Willis of Fort Worth, Wagonseller of Bowie, Rogers of Childress, and Corbin of Lubbock are actively supporting Judge Yarborough. These are the men who have been in a position to know better than anyone else that it is time to break the vicious Shivers machine.

Allan Shivers is the man who never deserted Parr — until Parr quit him.

Allan Shivers' appointed insurance commission has permitted the defrauding of thousands of Texas policy holders in the famous insurance mess in Austin.

When Benson announced his flexible price support program, Shivers said "It sounds like a good program to me and I'll be for it."

Shivers now claims all credit for tidelands, but Yarborough, as Assistant Attorney General, wrote the first opinion asserting Texas' claim, before Shivers knew what tidelands were. And look what Shivers got for us, along with Eisenhower and the tidelands — destruction of our farm program, higher interest rates, lower prices for what we sell, higher prices for what we buy, crippling of R. E. A., and a pledge to do away with segregation.

Shivers, without any proof whatever, accuses Judge Yarborough of being a captive of the C. I. O. and accepting donations from them. It is a violation of law for a labor union to contribute to a political campaign, and Shivers knows there is no truth in his statement.

A vote for Allan Shivers and his millionaire friends is a vote for low parity and peonage for the farmer.

A vote for Judge Yarborough is a vote for the great mass of people — the farmer, the small business man, the school teacher, and the worker. The vested interests will be treated with the same fairness but will have no more special privileges than you and I.

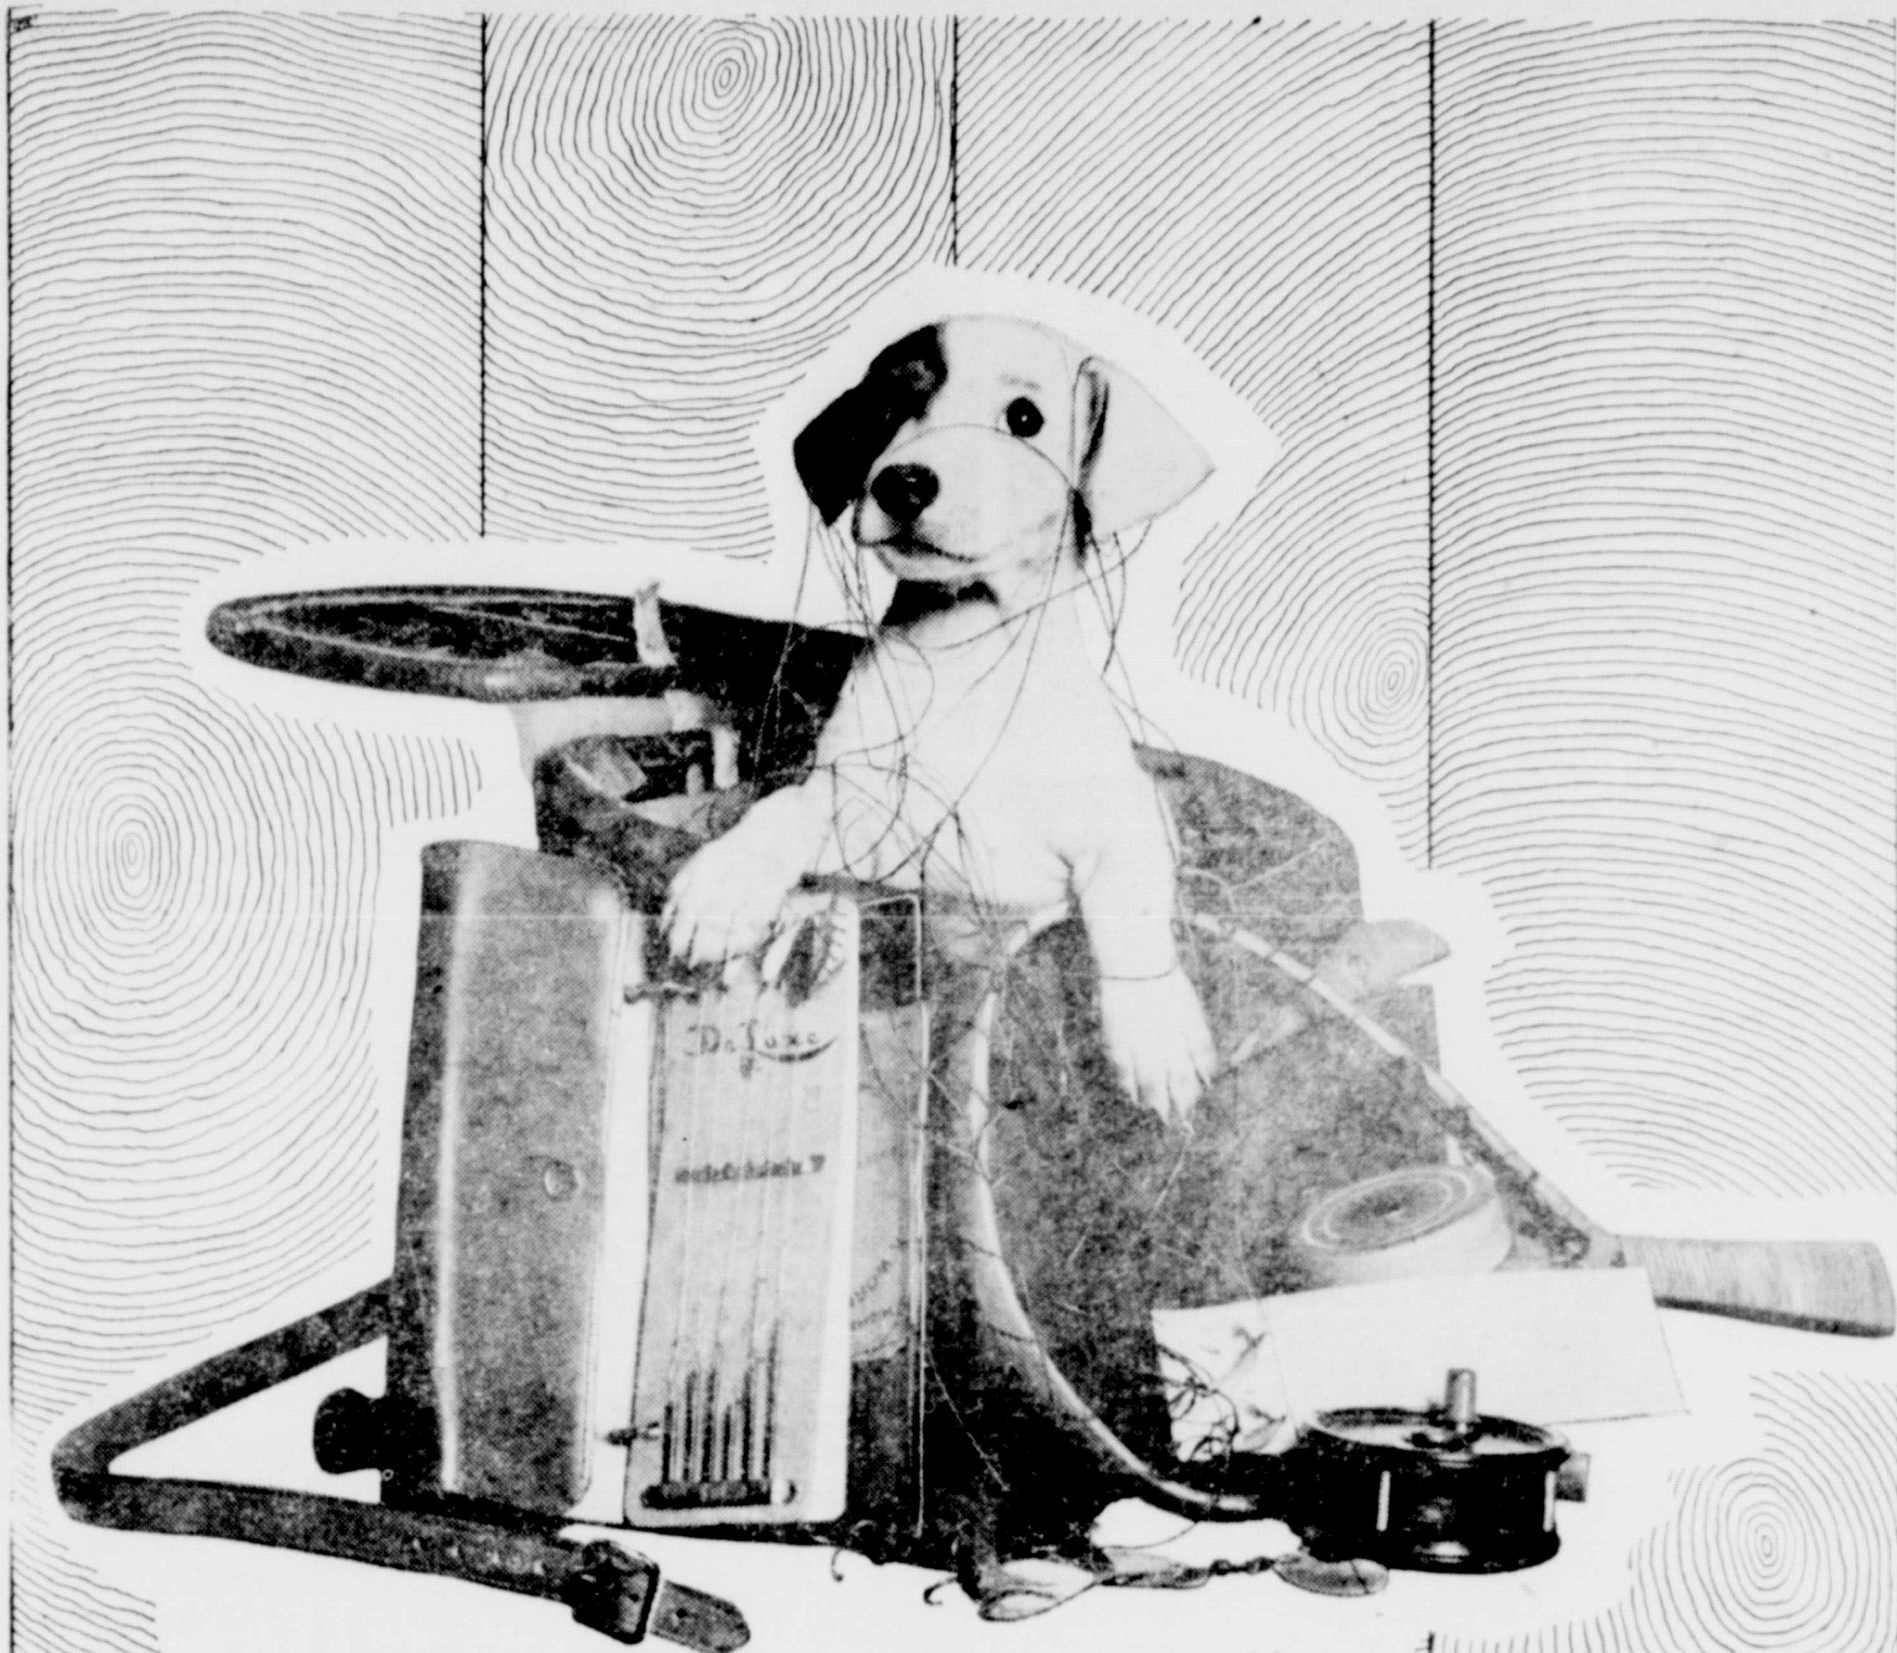

The issue in this race is whether the Governor's office can be bought with gold. Every time you see Allan Shivers on TV, in the newspapers, and on billboards, and every time you hear him on the radio — and you are going to see and hear him constantly from now until election day — remember that it is an effort to crucify Judge Yarborough on a cross of gold.

You can't go wrong by following the advice of Tom Connally and John Nance Garner, who were good Democrats when Allan Shivers was in political diapers—

VOTE FOR RALPH YARBOROUGH A DEMOCRAT FOR GOVERNOR

Lawyer—Educator—Former District Judge—Combat Veteran

THINK IT OVER!

This little fellow has gotten himself all tangled up—just romping around—but he's not so dumb. He has sense enough to sit down and think things over. Chances are someone will come along and give him a hand. Alone he might have worked himself into a panic.

Isn't that the way with our daily problems? Some have simple solutions; some require the help of true friends, and oftentimes divine guidance. So often our problems have moral implications, for there is a "right" and a "wrong" way to accomplish almost every task. That is why it is so very important that each little problem be solved correctly.

The tightest snarls of life can be untangled and our difficulties overcome if we sit down quietly and consider each in the light of God's wisdom. Why should we be confused when we have the Bible and the Church as our unfailing guides?

HOLY BIBLE

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake (2) For his children's sake (3) For the sake of his community and nation (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Court Rules For Write-In Votes

Austin—Texas Supreme Court Wednesday entered a formal opinion backing up a previous ruling that write-in votes must be counted in a primary election.

The case concerned a contest in El Paso county where a candidate for county commissioner successfully opposed an attempt by the county Democratic Executive committee to throw out five write-in votes.

The chief justice pointed out that Texas election laws are clear on the point that write-in votes must be counted where voting machines are used.

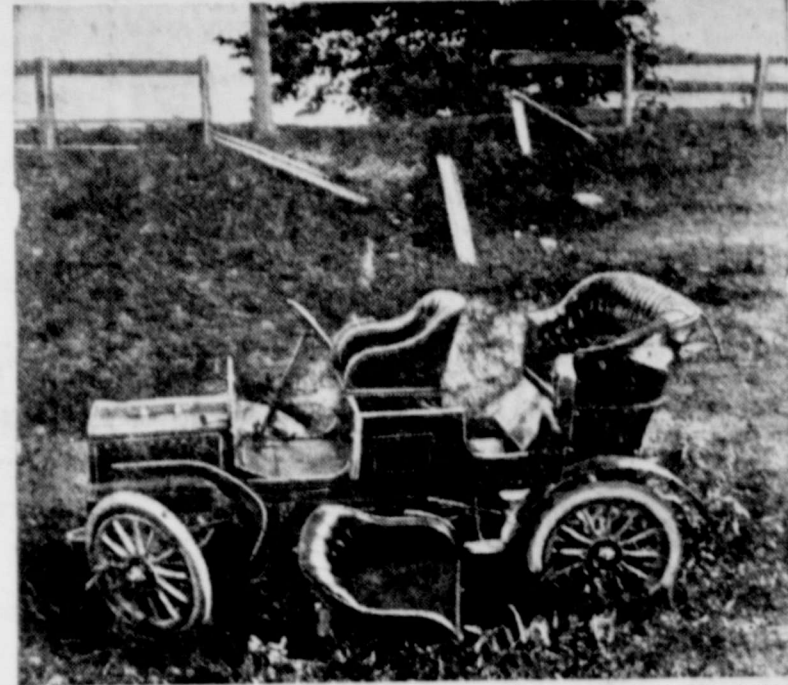

"We cannot ascribe to the Legislature the intent to provide that write-in votes are to be counted when voting machines are used, but not counted when such machines are not used," he said.

Voting machines are not used in El Paso county.

HOLIDAY ACCIDENT: 1905 vs. 1954!

Horses trembled, bushes shook and handle-bar mustaches bristled when this 15-mile-an-hour juggernaut in 1905 careened off the road to crash through a rail fence. The week-end driver of this vintage hot-rod suffered a severe injury to his dignity, but that was the only loss, other than the driver's goggles.

The operator of this modern automobile traveling probably four times as fast, lost his life. If you're sitting in the driver's seat on that coming Labor Day trip, the accident prevention department of Employers Mutuals of Wausau reminds you that excessive speed and sudden death go hand-in-hand. You should observe not only the legal speed limit, but the limit set by road, traffic and weather conditions... because any speed can be a killing speed, depending upon the circumstances. —Photos courtesy Employers Mutuals of Wausau

IT'S THE LAW
in Texas
A public service feature of the State Bar of Texas

RULES FOR JUROR CONDUCT EXPLAINED

Thousands of Texans are called each year as prospective jurors in our many state and federal courts. When chosen to serve very few of these violate their oath with intentional misconduct. But honest mistakes have all too frequently brought the sincerity and ethics of an individual juror into question. Usually such errors arise from his misunderstanding of his function as a juror— for the jury is judge of the facts in the case before it.

Like Caesar's wife, the juror must not only avoid wrong, but must also avoid any appearance of wrong. Otherwise, his integrity and honor may be brought into question by actions which are actually innocent but appear censurable to those who view them. By observing the following simple suggestions, the juror may be sure he is maintaining the highest of ethics in which no possible fault may be found by others.

Hold yourself aloof from all persons (except other jurors) in any way connected with the trial of the case. That means that you should not mingle with nor talk to the lawyers, witnesses, parties, nor the judge, even though the discussion is wholly unrelated to the trial.

Do not discuss the case nor permit others to mention it to you or in your presence during the trial. If anyone insists upon talking about the case after you have explained to him that you are a juror and must not listen, report the matter to the judge immediately.

Do not commence your deliberations until you have heard all the evidence from both sides, the argument of the lawyers, and the court's charge. You should not mention the case except in the jury room when all

other jurors are present.

Do not become a private investigator. All properly admissible evidence will be brought before you. Do not try to search out additional facts you believe to have been omitted. Do not even guess or speculate about facts not in evidence.

Be attentive to the evidence as it is presented. If you are to properly aid the other jurors in settling the fact questions, it will be necessary to listen carefully to all evidence presented.

Do not guess at the judge's opinion of the facts. You are the judge of the facts. He is not allowed and will not try to invade your province. His rulings on admissibility of evidence reflect no ideas or opinions on any fact question.

You should not mention or discuss your own personal experiences, or any knowledge that you may have of similar transactions. If you should disclose such information to others serving on a jury, the court would have to grant a new trial.

Accept no favors from and bestow no favors upon any person interested in the trial. However innocent the conduct may be, it will raise doubts in other wise undoubting minds, and may even be subject to more serious insinuations and charges.

When in doubt ask the judge.

If you are in doubt about your rights or duties as a juror, you should not ask anyone but the judge for information.

This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.

BUY-LINE

"Will it machine-wash?" Let that be your buy-line. If a blouse is made with strong seams and is of washable material (even though it's as frilly and shiny as can be), it's machine-washable, with the protection of a mesh bag. And remember all washable clothes benefit if the water is just the right temperature.

Results of a five year study on drying and storing sorghum grain in South Texas are available in Progress Report 1685 from the Agricultural Information Office, College Station. Producers storing grain on the farm will find much available information in the report.

The nation's farmers are about to see whether flexible price supports increase the economic squeeze or lessen it.
