A GOOD THING German syrup is the special prescription of Dr. A. Boschee, a celebrated German physician, and is acknowl edged to be one of the most fortunate discoveries in medicine. It quickly cures coughs, colds and all lung troubles of the severest nature, removing as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its increasing sale every season confirms. Boschee's German syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. NOTICE TO SHIPPERS. Amarillo, Texas, August 29, 1901.— We have arranged to start a Weekly Stock Train for Kansas City, begin-ning on next Sunday night, September 1st, 1901. It is expected that this train will leave:

12.30 A. M. Monday Carlsbad. Roswell 8.30 Portales. Bovina 12.30 P. M. Hereford. Canyon City 4.00 Amarillo ... Washburn 5.35 Panhandle Miami. 8.35 Canadian 9.50 Higgins.. 10.45 Gage ... Woodward.

Where it will connect with a train on the Atchison line that it is hoped will put cattle into Kansas City for Wednesday's market, BUT IT MUST BE UNDERSTOOD THAT WE DO NOT GUAR-ANTEE TO MAKE THIS MARKET, AS WE are liable to be delayed in gathering shipments all along the line, as this train contemplates, and may have to unload for feed and rest, in order to comply with the law. We have selected Wednesday's market for the reason that we are assured that the market on the following day, Thursday, is equally good, and our pat-rons are therefore protected as far as we can protect them against loss on account of possible delay as above suggested.

We will still continue to handle train load shipments, with proper notice, on any day of the week as suits shipper. This weekly stock train is simply intended to take care of shipments that would otherwise have to be handled by way freight trains and neccessarily suffer considerable delay.

German syrup is the special prescription of Dr. A. Boschee, a celebrated German physician, and is acknowl edged to be one of the most fortunate discoveries in medicine. It quickly cures coughs, colds and all lung troubles of the severest nature, removing as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its increasing sale every season confirms. Two million bottles sold annually. Boschee's German syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. The low price at which Arbuckles' famous roasted coffee can be sold is made possible by its enormous sale. It should not be classed with the inferior imitations sold at a cent a pound less than Arbuckles'. It has a quality greatly superior to these imitations and makes many more cupfuls to the pound. No other firm in the world can buy coffee to so good advantage as the producers of Arbuckles' Coffee. No other coffee is cleaned, roasted or blended with such great care and skill. When you buy Arbuckles' you get better quality and greater value than you can get in any other coffee at anywhere near the same price.
