SENATOR BAILEY AD-DRESSES THE PEOPLE

TEXT OF ADDRESS AT RANDALL COUNTY FAIR IN THIS CITY LAST WEEK.

Favors Local Option But is Against State-Wide Prohibition—Stand on Tariff Matters.

Since our last week's issue we have had so many inquiries as to whether we would publish the address made by United States Senator Joseph W. Bailey and so many desire that we publish a more extended report of the whole matter.

When the time came for the address from Senator Bailey there was an immense crowd of people from all over the Panhandle present to greet him and when he stepped from the auto loud cheers broke from the crowd. Judge J. C. Hunt, in a well worded, ten minute talk, introduced the speaker who at once was accorded the close attention of the entire crowd. He said:

"Ladies and gentlemen: I have traveled a long way in order to be with you on this occasion but I have been more than repaid for the journey. I have found here a country of surpassing beauty and fertility excelling anything about which I ever dreamed that you possessed, and I have found here a much better people, people who deserve even a better land than this great country. You have excellent people here and I know I can count many of them, at least, as my friends for they are from the old "Fifth" congressional district. I knew that district had given you many of the best of her sons and daughters but I did not know that so many had taken up their abode here. I have been a long time coming to see you but I will come again soon. Your Senator is a very busy man and if he has done right he will come to you as often as possible and tell you of his actions and if he does not come as often as he can do so he is ashamed of what he has done. This applies to every public official. The man who does his duty loves to come and tell his constituents what he has done if he is blameless. I believe that the old custom prevailing before the war which you are celebrating is a beautiful and a good one. The steward who does not love to account for what he does, has done something for which he is ashamed.

"I expected to eschew politics and dwell upon the Confederate soldier, the great battles which he fought, the victories won because the bloodiest battle fields on earth were those won by the valor of Confederate soldiers. True, the cause was lost through no lack of courage on the part of the boys in grey but by force of overwhelming majority. Man for man no conquering of the southern forces would have been possible. If the forces had been equal in number there would have been a different story to tell this day. They had the world to draw from and the established credit of a nation with which to pay hirelings. During that great period of conflicts the Confederates captured whole regiments of soldiers who could not speak English.

"But the war is over and I do not come to teach bitterness of spirit. If I were to choose from the history that they made and the history of the Confederate, I'd take your defeat rather than the triumph of the larger forces. I do not underestimate the courage of the Union forces. The American Federal soldier was brave and true and patriotic. There were many men in the

North who believed that the South was right and there were many in the South who thought that the principles of the north were correct. It was not a battle over the freedom of slaves but one over the rights of states to secede, and they forgot their differences over secession. General Lee, the knightliest soldier that ever rode to battle, said that he'd give, if they were his, every slave in the South to avert the war but he would not draw his sword against his state of Virginia.

"I believe in the man who has principles. If my father and myself were on opposite sides of a question as we have been, for the first time I was in a political convention I was elected as a delegate over my own father. I would take my stand and stick to it, but if I saw my father in a fight I would immediately go to his relief and do everything in my power to assist him. Thus the truth of history and the justice of the quarrel was with the Confederates. It was not a question of slavery for the people of the South were not responsible for the slavery condition. The negroes were largely brought to that section of the country by men from the North and East for profit. New England imported more slaves than any other portion of the entire country and tried to use them upon their sterile land but could not make a profit out of them. New England doesn't keep anything out which she cannot make a profit and therefore sold these slaves to the South. After they were paid for in good gold New England repented and fought for their freedom. I don't believe in their repentance for they never gave back to the south a single dollar of the gold which they got from it. New England sold the slaves for money and then took them for fear of God.

"I believe that if the South could have been free from the "free" negro it would have willingly given up every slave without bloodshed and would have eagerly done so but they, these people of the South who knew and understood the negro's disposition, knew that it would be a mistake and events since the war have proven the wisdom of their convictions. The "free" negro of the south is different from the old-time slave negro, the negro, God bless him, who took care of us while father and brothers were at the front and did it faithfully and well. We have no trouble with the old negroes for we could live with them in peace forever. But the modern "Maud" and "Claude" are the "free" negroes who give us the trouble.

I have no patience with those who believe in social equality with the colored man. I wish that every negro who seeks social equality would go to New England. It is the only way to teach those New England people the real conditions. But then it is only a matter of taste—and not altogether a matter of taste either for it is also largely a matter of "smell."

There is but one condition under which the negro can live in the Southern states and that is that those who live here shall live in recognition of their inferiority. Never since the dawn of Creation have two races lived under the same flag and the same laws. Thomas Jefferson said so and further said, years before it happened that the negro would at some time be freed but that he could not live here in peace. Half of this has come true and as for as myself I do hope that they can live here in peace but I predict that they will be utterly wiped out by a war if the negro attempts to as-

CANYON CITY GETS WEST TEXAS STATE NORMAL.

ANNOUNCEMENT MADE YESTERDAY THAT CANYON WOULD GET STATE SCHOOL.

Canyon City Rejoices at Her Good Fortune and Great Celebration is Planned for Tonight. All Adjoining Towns are Invited to be Represented.

Associated Press Special.

Austin, Texas, Sept. 2.—Canyon City was unanimously chosen as the site for the West Texas State Normal college. Canyon City offers \$100,000 in improvements and an additional site for the buildings.

Special to The News.

Austin, Texas, Sept. 2.—Your city is selected as the location for Normal school. R. B. COUSINS.

Special to The News.

Austin, Texas, Sept. 2.—Committee has selected Canyon City for location of Normal. See official letter which follows. A. B. DAVIDSON, Chairman.

The above three telegrams explain the reason for the many broad smiles that illumine the faces of the citizens of this good little city. The decision comes to us after much anxiety for the people here were unanimous in wanting this school and the fact that the locating board had selected our town as the location is very gratifying to every citizen of this entire Panhandle country for it is a fact that there was never a more united people or any one proposition than the people of this great Plains country in trying to secure its location on some section of that Plains which is now so famous.

Canyon City made a noble effort for the school and presented to the board the best proposition that was presented to them at Fort Worth when it came to the financial end of the proposition and every effort possible was put forth to show that our city was the ideal location for a school—the people of the great

state of Texas see the results.

All yesterday afternoon telegrams of congratulation came in to the committee of citizens of this city who had charge of the work here. Competitive towns were the first to congratulate us and the people here feel very kindly toward all Texas.

BIG CELEBRATION TONIGHT.

At a meeting of citizens held at the district court room last evening arrangements were hurriedly made for a big celebration and ratification to be held tonight on the public square. Invitations were sent out yesterday afternoon to all the surrounding counties asking them to come and join us. Noted speakers were invited and special trains will be run to bring the people, at least from Amarillo as that arrangement had been completed at the time of going to press and the committees were trying to make arrangements for a train from Hereford and Plainview.

COMPLETING BANK BUILDING.

Contractors are Rushing Work on Roof and Finishing Outside—Soon to be Occupied.

The contractors have completed all the outside brick work on the new First National Bank building and the Lair building on the northwest corner of the square and workmen are busy cleaning down the walls and pointing up the joints, while the roofing gang is putting down the roof as rapidly as a large force can do the work and they hope to have the roof completed by Saturday night.

The inside work is to be the order of the day next week and the men in charge of the work say that every available man will be used until both the buildings are finished. A large portion of the concrete base for the floors in the bank building has already been completed and the main portion of the building will be the first to be completed after which the other parts of the two buildings will be finished up. The contractors do not know exactly how long it will take them to finish up the bank portion, but they rather think that they will have it ready for the fixtures within two weeks time.

The two buildings are indeed handsome and present an imposing appearance. They would be credits to even a much larger town than any in the Panhandle of Texas. The trimmings are of Carthage marble and terra cotta while the outside brick are of grey-color making a most pleasing combination.

CONGRESSMAN STEPHENS SPEAKS.

Interesting Address by Congressional Representative From This District.

The people of the Plains country have heard Congressman John H. Stephens several times in discussing matters of National importance but they have never seen him in such a happy frame of mind and speak so strongly his convictions as they did in this city last week when he came here to address the old soldiers and to give to his constituents in this section of the district some account of his official actions in Congress. The crowd which greeted him was a large one and he held their attention throughout the two hours which he used in speaking to them.

After being introduced Mr. Stephens devoted considerable time to an address to the Ex-Confederates who were there in large numbers to listen to him and after that he devoted his time to the discussion of political matters.

The speaker stated that it always gave him a great deal of pleasure to meet with these men who had fought for principles in which they believed and for which they were willing, not only to lose their material wealth, but also to give up their life blood in defense of their principles, but that when he was called upon to make an address to them he felt that he was unable to pay a proper tribute by words to their valor and courage. That these veterans deserve the praise and have won the admiration of the entire world and that the sons

and daughters of Confederacy are largely responsible for the change of setiment as between the North and South.

"The hostility of the North against the South is fast becoming a thing of the past," said the speaker, "and in evidence of it we need merely to point to the magnificent statue of General

Lee which now adorns the great Statuary Hall in Washington, by the burial of Confederate veteran soldiers at Arlington and by the reunions of both the Blue and Gray in both North and South. Indeed, it is no uncommon sight at these reunions to see the Blue and Grey in their uniforms chatting and eating together thus showing that all feeling of enmity has passed away." The speaker became very tender in some of his tributes to the "grand old soldiers" who had helped to make this country as great as it is and whose memory would be forever engraved upon the minds of the world irrespective of political beliefs and social affiliations.

The speaker then dwelt at length upon the marvelous development of the Panhandle, the necessity for a normal school on the Plains on account of the excellent climate and resources and its rapid development, the necessity for the nationalization of the Palo Duro canyon into a park. He also spoke of the necessity of training the young men of the south in industrial schools so that they might become their own engineers, run their own factories and teach the southern people how to manufacture everything possible at home thus bringing the factory to the farmer and build up our own states instead of paying tribute to the factories and rich of New England.

In discussing the tariff measures in Congress Mr. Stephens stated that the new law is nearly two per cent higher than the old Dingley bill with a provision that will raise it twenty-five per cent higher on the first of April next year. The new bill clearly discriminates against the South by putting cotton bagging on the high tariff list and binding twine for small grain on the free list as no bagging is used in the northern states while twine is used a great deal more there than in the south where the principal product is cotton. Also by putting hides on the free list and taxing wool products very highly and by changing many of the tariff schedules from the ad valorem duty to a specific duty so that a yard of cloth of a low or shoddy grade worn by the poor people will pay as much duty as the highest priced yard of cloth worn by the rich, the poorly made, cheap, brogan shoe as much as the highest priced show worn by the rich, continuing reciting various items of like nature which tended toward the interests of the big rich of the north and against the poor and working man who inhabit the Southern portion of the country.

The remedy for the trust iniquity is to put all articles on the free list that find their basis in a trust as was done in putting coal on the free list several years ago which resulted in forcing down the price of coal within sixty days of from three to five dollars per ton. This is the doctrine of the Democratic party and it is the Democratic remedy.

Lumber and wood pulp are in the hands of the trusts and should, under this many-times announced Democratic doctrine, be put on the free list as demanded by the last democratic convention in Denver. "I voted for free lumber and free wood pulp and would do so again," said the speaker.

The voice of the speaker was in excellent condition and those on the outskirts of the large crowd were enabled to hear and appreciate his every remark and when the address was closed his many friends crowded around to congratulate him upon his actions in Congress.

SUNDAY SCHOOL WORKERS TO MEET.

CONVENTION OF SABBATH SCHOOL PEOPLE MEETS HERE DURING THIS MONTH.

Arrangements for Entertainment and Program Being Made—Noted Speakers to Come.

The State Sunday School convention has become such a stupendous affair that the state board has decided that district work should be undertaken and to that end the Sunday school workers will hold a convention in this city beginning Friday, September 17th and ending with the Sunday following. Some of the most prominent speakers in the work will be assigned to the convention in this city and it is now thought that a large number of delegates will be present. The Panhandle district includes all the Panhandle from Childress west and from the northern line of the state south to the foot of the Plains.

The pastors of the local churches and the superintendents of the various Sunday schools met at the Presbyterian church in this city at eight o'clock yesterday morning and appointed various committees, or rather appointed the chairmen of committees from this city who will have charge of the work. The chairmen of the committees will have power to select his assistants. Judge Eakman presided over this preliminary meeting and the following committee chairmen were appointed:

W. J. Fleisher appointed general chairman for the meeting. Finance Committee, Travis Shaw.

Entertainment Committee, G. C. Foster, chairman, with H. J. Cavet, John A. Wallace, I. W. McClure and J. Frank Smith as assistants.

Publicity Committee, R. A. Terrill. Music Committee, Mrs. S. L. Ingham.

The conventional meetings are to be held in the Methodist church on the corner of Evelyn and West Sixth streets, that being the most commodious church building in the city.

According to the leaders in the movement arrangements will be made for the entertainment of all delegates for supper, lodging and breakfast and it is thought that some of the ladies' organizations would serve dinner at 25 cents each thereby obviating the necessity of returning to the homes for the noon meal. This feature however has not as yet been definitely determined but it has been suggested by the state board and it is likely that it will be carried out.

JUVENILE COURT MEETS.

County Judge Henson Presides Over Proceedings Against Youngsters Wednesday.

County Judge A. N. Henson and his juvenile court had a little round Wednesday when several lads of tender age were brought before him for instruction and correction on account of an alleged disturbance on Tuesday night. Judge Henson read the law to the boys after he had heard the testimony and gave them to understand that he was lenient when it was clearly shown that the mischief was done innocently but that they might expect him to take strict measures if the case demanded such a step.

The boys were discharged with a sharp reprimand and told to "go and sin no more" but that they might not get off so easily the next time the judge had to look after them.

COUNTY COURT HAS VERY LIGHT DOCKET

ONLY ONE CASE APPEARS ON CRIMINAL DOCKET OF JUDGE HENSON'S COURT.

Fewest Civil Actions in Years Marks the Term—Injunction Proceedings Dismissed.

It has been a long time since the court business in Judge Henson's court has been as light as it has been for the current term. There was only one case upon the criminal docket in this county court while the civil proceedings are the smallest for many terms. Probate matters, too, are nothing, there having been no probate orders up to yesterday noon recorded in the minutes although one probate matter was set for that day.

The lonesome criminal case is set for tomorrow and it is thought that it can be disposed of almost immediately as it is of minor importance.

The minutes show the following orders of a permanent nature are as follows:

E. A. Hunt, No. 307 vs. Bybee and Newberry. Set for Thursday of third week at the instance of the court.

J. D. Gamble, et als., No. 318 vs. Roy Cullum, et al., Thursday August 26, 1909. Now on this day came to be heard a motion to commit for contempt in above styled and numbered cause and, after hearing the motion read and the answer of the defendants and the evidence, the Court is of the opinion that the Defendant, R. L. Williams, is in contempt of court and his punishment is assessed at confinement in the county jail of Randall county, Texas, for a period of six hours or until such time as he shall purge himself of contempt, but it is the opinion of the court that this sentence shall be and is hereby suspended during such time as said defendant shall obey the writ of injunction issued herein on August 25, 1909. The court is further of the opinion that Roy Cullum and Jasper N. Haney are not in contempt of court and they are discharged.

J. D. Gamble, et als., No. 318, vs. Roy Cullum, et als., Friday, August 27, 1909. Now comes the Plaintiff and states that he will no further prosecute this cause and asks that the court dismiss same at cost of plaintiff, which motion is granted and this cause dismissed with costs thereof adjudged against the plaintiffs.

R. R. Hazlewood No. 315, vs. I. Mantz, et al. Trial by jury and judgment for defendant I. Mantz against Plaintiff, and judgment for plaintiff against defendants Woodford and Roach for the sum of \$390.00 and costs.

John A. Wallace No. 292, vs. P. & N. T. Ry. Co., et al. Trial by jury and judgment for Plaintiff for \$145.00 against the P. & N. T. Ry. Co., and for \$145.00 against the Fort Worth and Denver City Railway, with costs of suit. Defendants afterwards each make motion for new trial which was overruled and defendants give notice of appeal to court of Civil Appeals at Fort Worth.

Canyon Coal Company No. 312, vs. P. & N. T. Ry. Co. Judgment for Plaintiff for \$55 by agreement of all parties.

S. M. Downing, No. 311, vs. P. & N. T. Ry. Co. Judgment for plaintiff for \$30 and costs by agreement of all parties.

Henry J. Fink, No. 314, vs. R. L. Greer, moves to make G. A. Stratton of Swisher county a party to the suit and motion granted. Cause continued to next term of court for service on G. A. Stratton.

King Robinson, a prominent attorney of Anadarko, Oklahoma, visited his relatives, Mr. and Mrs. Oscar Hunt, in this city during the reunion.

Mr. Shelnut is moving here from Hico and will occupy the residence which he bought as soon as Mr. Chistian is able secure another house into which he can move.

Thomas Hibdon of Ragland, N. M., brother of John Hibdon of the News office, together with his wife and Isaac and Walter Wood, all of the same place, passed through the city this week on their way to Oklahoma where they go to visit relatives. They claim it is dry in their section but no worse than parts of the country passed through on their trip here.

Reports to this city this week state that Mr. Woods would at once begin the erection of a modern cottage at Umbarger. It is to be modern in design if the present plans are carried out and will make a valuable addition to the residences of this county not to speak of that hustling little town. J. W. Turner is the contractor. It is also stated that material is being placed upon the grounds there for a hotel building which is to be erected at once.

R. E. Baird of Umbarger, was in town Wednesday.

COMING INTERNATIONAL FAIR.

Annual Entertainment to be Held at San Antonio This Year in November.

From the announcement by President Brown of the attractions already arranged for and the preparations already made or being made there appears to be ample promise of a great San Antonio International Fair and Exposition next autumn.

All the buildings on the grounds will have been remodeled and freshly painted before the Fair opens, the grounds are to be beautified with plants and shrubs and walks made hard and smooth and everything put in fine shape before the exhibits are installed.

Greater efforts than ever before are being made for a splendid agriculture and live stock display and the merchants and business men of the city have promised a more active and generous cooperation in making the Exposition Hall an attractive resort. The Mexican government is having a comprehensive exhibit of Mexican industries and resources assembled for the coming Fair, and will in addition send one of the best military bands with the compliments of the President.

There will be, according to official announcement, a better line of amusements than ever before, and these have already been contracted for. Of course the main idea of the Fair is to educate the people as to the progress and development along agricultural, live stock and industrial lines and to stimulate efforts for better things by force of example. Seeing what others have done in the field or workshop, on the farm or in the city, farmers, stockmen, artisans—everybody, in fact, with a speck of ambition or desire for progress—may obtain new ideas and new encouragement for going ahead with a purpose to emulate, if not to excel.

But people like to be amused as well as instructed, and when they go to the Fair they look for some sort of novelty, something that will entertain them, something they are not likely to see elsewhere. So there will be horse races, automobile races on the track, sideshows in great profusion and of the best class, free attractions in open space and—best of all—airship ascensions daily, thus giving visitors to the Fair an opportunity to see the modern dirigible air craft circle overhead and come back to the starting to land.—San Antonio Express.

About the Panhandle.

E. A. (Paf) Paffrath, one of Fort Worth's best known and most patriotic citizens, is a warm advocate of Kaffir corn, milo maize and alfalfa as food for hogs and live stock generally. He has recently made a tour of the Panhandle section and while there had a good chance to see and did see what great good there was in the three products which yield so abundantly in the Panhandle country.

Mr. Paffrath talked about the Panhandle generally when he came back, telling of the fine crops he saw there, of the great live stock industry and of the giant strides forward that country is making, but no matter what he would begin talking about he would wind up with Kaffir corn, milo maize, alfalfa and hogs and what a great state Texas was going to become through the combination of those four products.

"Why," said he, enthusiastically, "one acre in garden truck, two acres in orchard and seven acres in alfalfa, which, together with some milo maize and Kaffir corn, would furnish every year plenty of feed to every farmer to successfully carry on his dairying and his cows, his hogs, his poultry, his sheep and his horses, which would make that the most prosperous country in the United States.—Tex. Stockman-Journal.

YOUNG LADY HURT.

Horse Becomes Frightened Overturning Buggy and Throws Lady Into Fence.

While returning from the reunion grounds to her home west of this city with friends last Thursday night, Miss Kate Wansley, daughter of Mr. and Mrs. John Wansley living about eight miles out from this city, was badly injured in a runaway. Just in the edge of the city the

horse hitched to the buggy in which Miss Wansley was riding became frightened and ran away overturning the buggy and throwing her into a wire fence. Her collar bone was broken and several long cuts were made upon her lower limbs and it was necessary for the attending physician to sew the wounds up. Miss Wansley was immediately taken to the home of friends in this city and medical attention summoned and everything possible was done for her relief.

According to last reports the young lady was doing nicely and is on the road to recovery.

Senator Veale Could Not Come.

Quite a number of people of this city have been enquiring as to why State Senator John W. Veale was not present at our recent reunion to make an address as it had been announced that he would be present and that it might be understood we publish a portion of a letter from Senator Veale to the editor, dated August 23, as follows:

"I am in receipt of your invitation to be with you on the occasion of your coming reunion to be held on the 24th, 25th and 26th of this month and after thanking you, and through you, the good people of your city for the compliment, I must say that I fear I will not be allowed the pleasure of being with you since I am now engaged in a suit in which, it seems, will keep me here for a day or so more. If, however, I can get away I shall avail myself of the pleasure and honor of being with you."

Holiness Protracted Services.

The Holiness meeting being held at the tabernacle just east of the old court house is still going on and gaining interest and power. Several were at the altar Wednesday night for prayer. We still extend the invitation to all professed christians who desire to see souls saved to come and lend us a helping hand. Workers are dropping in and we are still expecting others from different parts of Texas and New Mexico to help us in this great work of leading irreligious people to Christ and believers into the precious experience of entire Sanctification or perfect love.

W. E. BATES.

Vegetable of Good Size.

You have heard of vegetables that were "some pumpkins" and many other great stories of immense cabbages, beets and other such like articles, raised in the Panhandle and we are not surprised at them but the News force is bound to acknowledge that there was something of a surprise coming to them Tuesday when the Nickson brothers of this city brought into the office a cucumber which capped anything of the kind that any of the force had ever seen or read about. It measured sixteen inches long and was ten and three quarter inches in circumference and weighed three pounds and nine ounces. If there are any larger ones in this county we wish the raiser would put it in his wagon and bring it in so that we may add it to our exhibit.

Oscar Gamble is spending his annual vacation at his old home near Wetmore, Tennessee, having left yesterday for that place. He will be gone about two weeks.

Attorney A. S. Rollins of this city went to Tulsa Monday to attend court and look after some legal matters there.

Mr. and Mrs. N. J. Merchant of Panhandle visited with Sheriff R. H. Sanford during reunion week.

H. J. Pipkin and son, Ernest, of Ellis county, has been here this week visiting with Mr. Pipkin's brother, J. C. Pipkin.

Misses Ada and Amanda Hawkins of this city and Prof. Peterson of Amarillo constituted a party which spent Monday evening at the home of Dr. and Mrs. C. L. Daniels at the Danfair ranch northwest of this city.

ONE OF THE RESULTS.

We who live in Randall county each year see the results of the advertising given the county by the reunion and county fair and this year the results will be even greater than ever before because of the fact that even our local people were surprised at the agricultural exhibits which the farmers and others of the county were enabled to make in the face of adverse conditions. People from other states and from other portions of our own state were free in their expressions of surprise and delight at what they had to see.

But there is another result which we have never had before and it came from the high class of speakers which the committee provided for the occasion. Never in the history of the west have there been so many noted speakers to address the audience for three days as were here during the time and the result is that the people of this section of the state are taking a much greater interest in political matters. While the News is not taking stock in any political matter as a newspaper still the editor cannot but feel gratified in knowing that the people of this city and county are interested in the discussion of affairs of the state. By this means only can the entire people see that their elective officers are men who should and will do the best thing for the interests of the locality in which our people live. In a free discussion of the principles of a political nature there is elicited that understanding which would not otherwise be obtained. On the streets of this city may be heard more political discussion since the reunion than ever before in our history, and it has the right tendency too, for the discussion is not of the "cussing" kind but merely among friends that the propositions presented might be thoroughly understood. East Texas had better look out for her politicians as well as her farmers because they know by experience that when the people of the Plains become interested in any matter they go to the bottom of it before they get through. We may have some strong politicians out here before many years.

WATCH YOUR BOY.

The editor doesn't care if he is alone in what he is going to say but he wants to compliment County Judge A. N. Henison on his stand which he took Wednesday

with reference to the boys of this city in the juvenile court. It is very probable that many of the people of this city do not know that the county court of this county has jurisdiction in a juvenile court and that the judge thereof is the county judge. Boys under sixteen years of age arrested are brought into this court for correction and it is within the province of this judge to sentence such boys, if he deem it proper, to a term of from two to five years in the State Juvenile school which is now located at Gatesville. It gives the court jurisdiction over all offenses committed by those under sixteen years of age and the judge can use his discretion as to whether he shall send them to the school or not. The law makes it a penalty for the boy under 16 to loaf on the streets after night without any business and Judge Henison and the other county officials have come to the conclusion that something will have to be done to stop some of the loafing around after night and therefore are going to pay special attention to the matter. These officers will find many people of this city who will be willing to back them up in this decision. Better look after YOUR boy if he is out at night. The county judge told those whom he had before him Wednesday what to expect and our county judge doesn't threaten without a purpose.

"LEAVE US ALONE."

In his speech in this city last week Hon. Cone Johnson strongly urged upon our people to let the farmers of his section alone and quit trying to bring them into the Plains country to locate. He said that altogether too many of the Eastern Texas farmers had already come here for the good of east Texas, and wanted the Panhandle to direct its influences toward northern states for immigrants. We don't blame Mr. Johnson for wanting his section of the state left alone but it can never be so. As long as there is so much a better country as we have, there will be people from that section who will come among us and make live, prosperous citizens. You never hear of an East Texas real estate man coming into the Panhandle trying to induce the Panhandle farmer to go to East Texas because that real estate man knows that his efforts would prove futile. But time and again you hear a howl raised from those "down-state" newspapers against the tendency of their farmers to better their conditions. This country is open to every good man who wants to come—and these good men are coming here more rapidly than into any other given section of the United States.

ABOUT THE HOGS.

It surprises the editor to look at the farm journals and especially in the department devoted to swine, and see the large number of inquiries in those departments relative to diseases among the hogs. Another thing the editor finds and that is that while he gets a large number of the best farm and stock journals published he has yet to find a case where a man from the Plains of Texas is asking for a cure for any disease among his hogs. If there was anything wrong with our hogs you can bet that these progressive farmers out here would certainly undertake to cure and prevent it but their hogs don't get sick. During the editor's experience in the Plains country he has yet to hear of a single hog to die from disease. Pretty broad statement, isn't it. It's true however.

The editor of the Herald acknowledges the receipt of an invitation from Editor Terrill, of the Randall County News, to attend the Confederate Reunion and Randall County Fair at Can-

yon, August 24, 25 and 26. We would like very much to accept the invitation, for Canyon is a "live wire" and it is a great thing to be in the midst of a bunch of boosters such as are there, and aside from that, such speakers as the Hon. Joseph W. Bailey, Governor Campbell, Lieutenant Governor, A. B. Davidson, Congressman J. W. Stephens and others were there to spill their oratory, and a big time is reported.—Wildorado Herald.

The editor acknowledges receipt of an invitation and an annual pass to the International Fair to be held at San Antonio November 6 to 17 inclusive. According to press notices sent out the management propose to make this year's exposition the biggest and best that they have ever held and if they do they will have something very attractive for the people who visit the [city] during their fair time to see and think about.

Editor R. A. Terrill of the Randall County News of Canyon City, in company with a fellow-townsmen, "hiked it" into Amarillo afoot, a distance so long that it took them several hours to do the stunt. The "fellowtownsman" in the case made \$15 out of the job, but Editor Terrill having gone along merely to see that the job was well done, got nothing out of it but a little notoriety and material for a splendid descriptive of the great west Texas Panhandle country. The Panhandle newspapermen always work up something interesting to write about.—Denton County News.

We don't see why Editor Terrill didn't get \$15 out of the job as well as the man who hiked with him. But Editor Terrill will beat that \$15 by his splendid descriptive article of the great West Texas Panhandle country.—Ft. Worth Star-Telegram.

FEDERATION TO MEET.

Fall Meeting of Commercial Clubs and Newspaper Men to be Held at Tulia.

The fall meeting of the Federation of Commercial Secretaries, and Newspaper Men of the Panhandle, Plains and South Plains country which was organized at Lubbock early this year, will meet at Tulia Tuesday morning, September 9, at 9 o'clock and it is to be strictly a business meeting for the purpose of devising plans to better advertise the country and plans for co-operation in any way to better the general conditions.

Invitations from the Tulia Commercial Club have been sent out and announcement is made that the club there would entertain the delegates and that they would leave nothing undone to make the visit of the people to that city a pleasant one. Tulia has that reputation and it is expected that a great time will be had by those who attend as delegates.

No Band Concert Tonight.

On account of the absence of a number of the members of the band there will be no band concert on the square tonight as has been the regular custom on Fridays. These concerts have become an established pleasure to the music loving people of this city and they will miss this week's entertainment.

To Play at Amarillo.

Announcement was made yesterday afternoon that the baseball team of this city had arranged to play at Amarillo on Labor Day which is next Monday, September 6th. The opposing team will be the strong Pecos Valley team which has made quite an enviable record during the past season.

Jim Foster went to Hereford yesterday to see what was going on.

WOULD ADVERTISE PANHANDLE.

State Department of Agriculture Wants Statistics About Panhandle Section of State.

The Agricultural Department of the state government is interesting itself about this section of the state and to that end is having Frederick W. Malley make a tour of the Panhandle with a view of classifying the soil and gathering statistics about the products of the country. Prof. Malley was for fourteen years state entomologist and is an expert in agricultural matters particularly in fruits of all kinds and when the new department of agriculture was made he was assigned work under the direction of the department.

In his recent tour of the Plains country Judge Kone, Commissioner of Agriculture, was so greatly impressed with the possibilities of this country that he decided that full information should be had by this department. The department has about thirty bulletins about other sections of the state but not a single one about the Panhandle. People from the northern and eastern states are continually asking for information and this information is what is being now gathered.

Prof. Malley was in the city Monday and while here made arrangements for the inspection of this county and for statistics relative to the products. He went from here to Plainview and will return to Tulia after he gets through in Hale county, and from Tulia he is to come to Randall county. Prominent citizens of the county have become interested in the matter and are placing themselves at the disposal of Prof. Malley when he comes.

Prof. Malley expressed himself as being greatly surprised at the crops which he found growing in Randall county and thinks that particular attention should be paid by the alfalfa raisers to the curing of seed as he thinks that the seed could be matured here with better results than in any other portion of the entire country on account of the peculiar weather conditions which prevail. When he returns he will make a special study of some of these matters and will make his report to the department.

CITY SCHOOLS TO OPEN.

Monday Will Mark Beginning of Years' Work in City Schools—Corps of Teachers.

Next Monday morning will mark the beginning of the school term for 1909-10 in the city public schools and the boys and girls, young men and young ladies are beginning to prepare for the work. School books are being gathered up and the school board is having the entire building thoroughly renovated and cleaned.

The school board and the superintendent desires that every pupil that can possibly do so be present on the first morning as it will facilitate the organization for the work and the classification of the various students. Those who attended last year are expected to bring their promotion cards if they received any.

The corps of teachers are as follows: Tenth grade, Prof. J. L. Redus; Ninth, Bowen Pope; Eighth, Miss McDonald; Sixth and Seventh, C. E. Coss; Fifth, Miss Bryson; Fourth, Miss Gilliam; Second and Third, Miss Cund; and First, Miss Neal.

Progressive "42" Party.

The home of Mr. and Mrs. O. E. Cannon was the scene of a very enjoyable entertainment last Tuesday evening when they entertained about thirty young people in honor of Misses Earl and Wilbur Shook of Hillsboro, with a progressive Forty-two party. There were seven tables arranged for the occasion and they were all filled. Music, too, was enjoyed at intervals throughout the evening and everything passed off most happily. The house was elegantly decorated with ferns, honeysuckle and clematis and punch was served in the hallway while later in the evening an ice course was served.

Miss Carrie Quirk of Gainesville has arrived in this city and will be in charge of the millinery department of one of the local dry goods stores.

Miss Wilson Dies.

Wednesday morning in this city there could be heard upon all sides words of regret and consolation when it was announced that Miriam Morris, the fourteen year old daughter of Mr. and Mrs. F. M. Wilson, had died at the family residence in this city at 8:45 o'clock the evening before. Miriam had just recently been operated upon for appendicitis and while it had been announced that her condition was very serious, still the people who knew her and the estimable family could not realize that the Grim Reaper had come and made the final call. Funeral services were held at the Methodist church at 3 o'clock Wednesday afternoon, Rev. M. E. Hawkins, officiating, after which interment was had at Dreamland cemetery.

Miriam was just budding into young ladyhood and was one of the brightest girls in the city. She had friends by the hundreds and her untimely death causes regret all over the city.

Hitchcock-Marks.

Leaving Canyon Wednesday ostensibly for the purpose of attending the picnic at Hereford, Miss Winston Hitchcock of this city and Mr. Harry W. Marks of Gulfport, Mississippi, went to Clovis where Rev. Young, pastor of the Methodist church in that city, joined the young couple in wedlock in the presence of a few friends. The couple returned to this city yesterday and are at the home of the bride's mother, Mrs. C. H. Hitchcock. Miss Hitchcock is a member of one of the oldest families in this Panhandle country and is well and favorably known to almost every citizen of our town while Mr. Marks is a young business man of his home town. We join the friends in good wishes.

Vaughn Bell of Plainview was in this city yesterday renewing his acquaintances. He was with the famous Cowboy Baseball team of this city two years ago.

LADIES BOOK CLUB.

First Session of New Year to be Held Wednesday—Will Study Shakespeare Again.

This office has just recently delivered some very handsome programs for the Ladies' Book Club of this city covering the next winter's work in their study. During the first part of the season they are to study Shakespeare's play, "As You Like It" and the latter part is to be devoted to his "King Lear."

The first meeting is to be with Mrs. D. M. Stewart on West Houston street next Wednesday afternoon the meeting being called for four o'clock. Every member is urgently requested to be present so that the work may be started under proper conditions. The programs which have been arranged are very exhaustive in the research of these two plays and when the winter's work is done it is thought that a much deeper interest in the great master's works will have been inculcated.

Stoker-Friemel.

At Amarillo on Tuesday of last week the Rev. Father Dunne of Dallas performed a marriage ceremony between Leo Stokes and Miss Sabina Friemel, both young people being from Umbarger in this county. Mr. Stokes is one of the most progressive German farmers of that community while Miss Friemel is the daughter of Mr. and Mrs. Pius Friemel of that place. They both have a host of friends in this city and these friends are unanimous in good wishes for a happy wedded life. They will make their home near Umbarger where the groom is now erecting a good home.

W. P. Neville of Clovis, stopped off in this city yesterday to take a look at our city.

S. A. Shotwell went to Hereford yesterday to take in the show there for a couple of day.

Mr. Martin of Dallas was among those who were looking after business in this city yesterday.

J. R. Blanton, a former resident of this city, was here from his home at Wildorado Thursday.

Dr. F. Q. McElroy of Happy, was in the city Wednesday visiting with M. F. Slover, and old friend.

Misses Earl and Wilbur Shook of Hillsboro are visiting at the home of Mr. and Mrs. O. E. Cannon on West Houston street this week.

D. C. Cassles, who has been visiting with his son, H. H. Cassles, left Tuesday for his home at Greenville. He was greatly impressed with this section of the state and it is possible that he may become a resident of our city.

sert a political and social equality in this country. The Indian could not live with whites in peace and you know the history. Resisting, he was driven further and further back until now we can readily read the doom of a rapidly vanishing race. The remnants are dispersed and now are almost no more. The Indian's fate will be the negro's fate if he persists in forcing an equality upon the whites.

I have been told since I reached your city that I am to talk to you also about the issues of the living present, about the tariff bill, and I am in the habit of doing what the people say when they are right. Therefore I will detain you while I tell you something about the recent session of Congress.

Before discussing the tariff question we must agree on the elementary principles. What is a tariff? You know and I know that it is a tax. The Republicans used to deny it. Some admitted it but said that the foreigners pay the tax. If that is the fact I do not care how high the tax is made. I have no prejudice against the foreigners so long as he behaves himself. But the foreigner does not pay this tax but it is the American consumer who is compelled to pay it and I will show you how.

I can buy a Stetson hat made in this country and shipped to foreign points, in England, Germany or France for \$2.75 while the people in this country where the hat is made have to pay from \$4.50 to \$5.00 for the same kind of a hat. Hats are made here in this country for less than in the foreign countries. Here is why the price is so high here. The merchant buys this hat in the foreign markets at \$2.50. He must pay the

freight and insurance of at least 25 cents on each hat making a cost of \$2.75. The American merchant pays a duty of 80 per cent on wool hats which equals \$2.20. Now this American merchant must add to his original cost in the market the freight, insurance and duty. This becomes a part of the cost and the man who buys and uses it must pay this cost with a reasonable profit added. The duty goes into the United States treasury for the expenses of the government.

I do not believe in a tariff taxation and if the constitution of the United States would permit a direct tax I would be opposed to any collection on a tariff basis. Under the present system the State of New York pays only six times as much into the United States Treasury as does the State of Arkansas while New York has thirty-six times as much with which to pay it. In other words there is thirty-six times as much wealth in New York as in Arkansas. New York thus pays only one-sixth as much as compared with Arkansas as she should pay according to what she is worth. So the poor man in Arkansas foots the bills.

But we are compelled to raise expense money and always will be compelled to raise it by tariff duties. I believe in taxing people on what they have and not on what they want. I believe in taking people according to what they keep and not according to what they eat.

I am not perfect and there never was but one perfect man and they crucified him between two thieves. I am not a candidate for the cross. Neither is the tariff duty perfect. Some claim that it is but we know better. Here is the curse of protection. Nine-tenths of the hats sold in the United States are not imported consequently they never pay a farthing towards the support of the government. The

manufacturer simply raises the price of his hats as high as he can do it and still keep out foreign products. The \$2.00 which the tariff added goes to the manufacturer and not to the support of the government. It simply enriches the manufacturers and I therefore make a protest on behalf of the laborer and the poor men of our great country. To relieve this I devised the income tax. Some say that I introduced that measure in order to help the radicals pass the tariff bill. Let's see. Twelve years ago when they passed the bill to raise money to carry on the Spanish war I tried to get the income tax measure passed then. We now have on our hands the Philippines, Cuba, great navies and armies and they cost millions of dollars. We cannot escape the burden and our children won't escape the burden until they escape into the Great Beyond. The Republican party are responsible for this condition.

I drew the income tax bill and every Democratic senator endorsed the measure and asked me to present it. And I did. It is the correct principle and the time will come when it will be adopted in its entirety.

I have almost quit talking about the Dallas News. It has been very bitter in some respects in its fight against me and I have quit talking about the disciples of the News. I have no bitter things to say now. I hope and pray that the Lord will forgive them—but I fear it might bankrupt the whole plan of salvation if all were saved.

Now as to the purpose of the income tax. I wanted to lift the burden of a hundred million of dollars from the shoulders of the laboring people of the Republic and we could only do so by taxing the rich. I have no prejudice against the rich if he got his money honestly. I don't judge according to what he has but as

to how he behaves. The poor and rich are alike if they behave right. I despise the man who wants to engender prejudices and to influence people by such means. The rich are better able to support the government but I find that the poor fight the battles. There are many good rich people who help to fight these battles but the poor rich ones hire a substitute and these substitute-hiring rich are the people who deserve to have the attention of the people in raising the expenses of government. They should pay in accordance with their means. Property ought to pay the taxes because it is able to pay. In my bill incomes up to \$5,000 per year were exempted from the income tax. I wanted all the reasonable needs of man to be exempt. But the income tax provided for two per cent upon all incomes above \$5,000, thus the man who had an income of \$6,000 per year would pay \$20 into the National treasury. He certainly ought to be willing to pay that much and if not he hardly deserves the support and protection of the government. The hundred millions of dollars which would have been raised by the income tax would have relieved the tariff from five or six million people. But they say that the income tax will be avoided by false statements. No honest man will swear a lie to escape such a tax and if he does we have laws to attend to his case. His would be a dark and gloomy future.

(Concluded next week.)

Among the out-of-town people who visited here during the reunion was Mesdames J. A. White-side and J. M. Sanford of Panhandle, and Mrs. O'Neal of Guyman, Oklahoma, who were the guests of Sheriff Sanford.

Good Building Material

is usually hard to get but we are plentifully supplied with the best lumber that is now cut and we bought it in time to get the low prices which we offer to you.

Another feature of the matter is that every customer is a satisfied customer just because we have the lowest price and deal fairly in everything. Let us figure on your building material anyhow. No harm done if we can't sell the goods to you.

Made specially for the Majestic Set. TWO MAJESTIC Patent Never-burn Wired Dripping Pans.—Size of pan 9 in. x 12 in. Made specially for the Majestic Set.

If you will call at our store during our Majestic Demonstration Week and allow us to show you the many advantages and superior qualities of the Great and Grand Majestic Range, and will purchase one at the regular price, we will give you FREE the beautiful and useful Souvenir Set of Ware illustrated in this advertisement. This ware is made to match the quality of the Majestic Ranges, and we know all ladies will see the beauty and utility of this set, especially the first three pieces, which are entirely new and cannot be had alone by purchase, except at a very high price. The prices of Majestic Ranges are the same, but we give the set FREE with each Majestic Range bought during demonstration week only.

Reasons Why the Great Majestic You Should Buy.

- 1st. It has the reputation of being the best range money can buy.
- 2nd. It not only has the reputation, but is the best range made, and we will prove this to you if you will let us.
- 3rd. It is constructed of malleable iron (material you can't beat) and of Charcoal Iron (material that resists rust 300 per cent greater than steel), is riveted together air-tight. No heat escapes or cold air enters range, thus uses very little fuel to do perfect work.

4th. The reservoir alone is worth the price of the range over any other reservoir made. It boils 15 gallons of water; is heated like a tea kettle, with pocket against left-hand lining, and is movable, and sets on a frame, hence cannot wear out. When water gets too hot it can be moved away from fire.

MAJESTIC RANGES use less fuel; heat more water—and heat it hotter; costs practically nothing for repairs; last three times as long; bake better, easier to keep clean and give better satisfaction than any other range on the market. If you knew positively that the above statements were true, wouldn't you buy a Majestic AT ONCE? Come in during Demonstration Week and we will prove it to you.

Colic Quickly Cured.
Colic is one of the most severe and painful diseases. It is quite common, too. Almost everyone has an occasional attack. Fortunately there is a remedy that always affords quick relief and that has never been known to fail in any case. It is called Chamberlain's Colic, Cholera and Diarrhoea Remedy. Mr. Tod Robinson, a prominent merchant of Point Blank, Texas, says, "I have had several attacks of colic and in every instance one dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy relieved me, and I never had to take more than two doses to effect a cure." For sale by the City Pharmacy.

A Burglar in Town
his name is "bad cough." He doesn't care for gold or silver but he will steal your health away. If he appears in your house arrest him at once with Ballard's Horehound Syrup, it may mean consumption if you don't. A cure of all coughs, colds and chest troubles.

A Sprained Ankle.
As usually treated a sprained ankle will disable the injured person for a month or more; but by applying Chamberlain's Liniment and observing the directions with each bottle faithfully, a cure may, in most cases, be effected in less than one week's time. This liniment is a most remarkable preparation: try it for a sprain or a bruise, or when laid up with chronic or muscular rheumatism, and you are certain to be delighted with the prompt relief which it affords. Gambling
your life against 25 cents is just exactly what you are doing if you neglect a cough or cold on the chest instead of treating it with Ballard's Horehound Syrup. A 25 cent bottle of this splendid remedy will cure all ordinary cough, heal the lungs and act as a tonic for your entire system. For sale by A. H. Thompson Drug Co., Leading Druggists.

Why?
From a small beginning the sale and use of Chamberlain's Cough Remedy has extended to all parts of the United States and to many foreign countries. Why? Because it has proved especially valuable for coughs and colds. For sale by the City Pharmacy.

Manhood.
Manhood is one of the essential elements upon which nations must depend for advancement. If men are not coached in the higher meaning of independence they will never attain to manhood's full report. From childhood the boy should be made to feel that manhood stands for something. A lot of pigmies will prove of little worth in the battle of life.

In America it is absolute rot to impress class relationship upon the minds of youths. We should teach equality among the white or Anglo-American race. Teach the boy that Americanism means manhood. In our present movement toward a centralization of wealth, all that will keep off abject slavery is an implanting of the principles of manhood in the rising generation. If a boy develops with this principle thoroughly instilled he will never bend the knee to the scions of wealth nor fawn at the feet of an assumed aristocracy. Independence is a quality to cultivation. Poverty should be no bar to progress. One great trouble arising from poverty stricken people is that they fall into a condition of apathy that is imparted to their offsprings and it means cowardice and defeat. It matters not if one be as poor as Job's turkey they might at least face life's duties with a clear eye and head erect. Make of your boy a manly man. Do not send him out to make his way with the handicap of an obscure insight into the intents and purposes of his citizenship. Manhood counts for more than gold. Manhood is a priceless gem. Teach it, preach it. Let's have a nation that will endure.—Ex.

Why Druggists Recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. Frank C. Hanrahan, a prominent druggist of Portsmouth, Va., says: "For the past six years I have sold and recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is a great remedy and one of the best patent medicines on the market. I handle some others for the same purposes that pay me a larger profit, but this remedy is so sure to effect a cure, and my customer so certain to appreciate my recommending it to him, that I give it the preference." To Be Happy
You must have good health. You can't have good health if your liver is not doing its duty—slow but sure poisoning is going on all the time under such circumstances. Ballard's Herbine makes a perfectly healthy liver—keeps the stomach and bowels right and acts as a tonic for the entire system. Sold by A. H. Thompson Drug Co., The Leading Druggist.
