

LOCAL LABOR BUREAU ORGANIZED THIS WEEK

CAPT. J. D. DICKSON ASSISTS IN ORGANIZATION AND EXPLAINS ITS PURPOSE

A mass meeting was called and met in the court house Tuesday afternoon at the instigation of District Labor Examiner J. D. Dickson...

Grady Oldham, as county chairman called the meeting to order and introduced the speaker, Mr. Dickson, who gave a complete summary of the purpose and working plans of the organization...

Whereas: The U. S. Government has established in Amarillo an employment service as a central clearance office for the employers and employees of the entire Panhandle...

Whereas: This U. S. Employment service is absolutely free to employer and employee alike.

And whereas: The U. S. Government desires that every employer and employee make use of this service instead of getting their needs haphazardly, or from a private concern charging a fee.

Therefore, be it resolved: First, that we, the citizens of Canyon, in a mass meeting assembled, heartily endorse this service and pledge it our loyal support...

Second, that we urgently recommend that this service be made the medium between every employer and every employee.

Third, that we discourage openly the practice of patronizing any employment agency charging a fee, such as an agency running counter to the government's activities...

And resolved further, that we urge that this U. S. Employment Service be bulwarked and strengthened by every element in this city, county and Panhandle district.

Following this a Randall county labor board was formed with the following directors appointed:

S. B. McClure, manager; John T. Wiley, Grady Oldham, Mrs. D. M. Stewart and Mrs. R. A. Terrill. It will be the duty of this board to keep in touch with returning soldiers and sailors and report any without work to the district office...

Delphian Club to Meet. The Delphian Club will meet Monday afternoon February 3rd at three o'clock at the rest room. The lesson will be found in the first two chapters of the 10th book. Miss McMillon leader.

Notice. Friday, January 31, is the last day to pay your street tax and independent school tax without penalty. J. E. Rogers, Collector.

ARMENIAN RELIEF CAMPAIGN POSTPONED

DALLAS, Texas, Jan. 30.—"The answer to the appeal for funds in the Armenian-Syrian Relief Campaign throughout the Southwest will be as usual prompt and generous, to judge from reports received from districts which have already raised, and in many cases, oversubscribed their quotas," said C. P. Sites, campaign director for the North Texas district, in a public statement yesterday.

"The dates for the campaign in the 153 counties of the North Texas district have been postponed to February 17-24, and I have received assurance that, tho last in time, North Texas will not be least in results. We are determined that the returns from certain New Mexico and Arkansas counties shall not stand as the record for the Southwest."

Announcements of dates for the campaign in the six Southwestern states as received at headquarters are as follows:

- North Texas—February 17-24. South Texas—February 3-10, except counties where postponement is necessary. Oklahoma—February 3-10. Arkansas—February 3-10. Some counties conducted campaign January 12-19. New Mexico—February 3-10, except counties which put on drive January 12-19. Arizona—February 10-17. Combined with Jewish Relief Campaign. Louisiana—February 3-10.

Congress to Ban Immigration. WASHINGTON, Jan. 28.—Prohibition of immigration for four years after the war except for Cuba, Mexico, Canada and New Foundland, was agreed upon unanimously today by the house immigration committee.

Chairman Burnett announced that he would ask for a special rule to permit early consideration of the measure.

"If the bill is not passed by the present congress, its purpose will be partially defeated," Mr. Burnett said. "It is intended to prevent a great flood of immigrants coming here as soon as peace is signed and drive our own people out of work and also to keep out the Bolsheviks. Delay in passing the bill will be harmful to the best interests of the country."

Considerable discussion arose in the committee in regard to whether the bill should be effective for two or four years but the longer period was decided upon by a vote of seven to two.

A number of amendments accepted permit the admission of relatives of aliens already in this country and of persons skilled in certain occupations professions.

Stewart-Owen. Yesterday at 12 o'clock, a marriage was solemnized at the H. M. Taylor home in south Canyon in which Miss Amy Francis Stewart became the bride of Mr. Thomas B. Owen. The marriage ceremony was performed by Rev. McClurkin, pastor of the Baptist church at Hereford in the presence of a few friends and relatives, after which a dinner was served the guests.

The bride is a sister of Mrs. H. M. Taylor and W. J. Stewart, manager of the local telephone exchange, with whom she has been making her home. The groom is a soldier boy of Hereford who has just been discharged from the army. They left this morning for Hereford where they will make their home. The best wishes of their many Canyon friends go with them.

Shooting Scrape on Train. Passengers on Sundays southbound Santa Fe train were given an exciting time as the train went into Sweetwater, by a shooting scrape between Monroe Leverett and W. R. Nicholson, two employees of the cotton mills at Post City, in which Leverett was shot four times with a 38 pistol but will recover. Mrs. Nicholson was also on the train. Glenn H. White, a soldier of Huntsville, was slightly wounded, and J. D. Padgett of Melrose, N. M., got an arm broken by stray bullets. Nicholson is in jail at Sweetwater. Plainview News.

B. Y. P. U. Program. Leader—Miss Nannie Johnson. The Successful Life Must Be One of Co-operation—Miss Mary Bohmer. The one place for the christians to cooperate—Miss Lillie Mae Fogerty. A Question After Asked—Miss Minnie Shults. Discipline is Necessary—Miss Elva Fronabarger. An old Excuse—Miss Anna Lee Anderson. We are either for or against our Lord—Miss Pearl Bomer. In line with New Testament Christians—Mr. Bureson Atkins.

SHIP CARRYING CANYON BOY ATTACKED BY SUB

Guy Ballard Said It Was Most Exciting Time—Had the Mumps

Loir et Cher, France, Nov. 24, 1918.

Dear Father: It is a cold rainy night, but we are fortunate, have a tent, fire, lights etc. But for days and days we only had one blanket frozen ground and rainy weather, unpleasant visitors "huns" with shells bursting all around us. Many times have I driven dark nights, no lights on car, shell holes every where and occasionally run off in them, leave my car not knowing exactly where I was and thinking I might get under our own shell fire.

None of this frightened me much, for one sees so many falling he becomes accustomed to it. The nearest thing I could compare it to would be a good fast foot ball game. For it is exciting every minute.

Coming over we were attacked by three submarines. Four days out from France our submarine-chaser had not yet showed up and didn't untill the following morning. We sunk two and one escaped.

I think I was the most excited, then, than I have been since that time for I had the mumps and you know what that would have meant had we been forced to abandon ship. However, a number of life boats were let down, ready for the command to be given. Early in the morning we had received news over the Radio, there were a number of subs some 75 miles in front of us and had sunk a Spanish Merchant Ship we were only making about 2 1-2 miles an hour waiting for help.

I shall relate some interesting happenings when I return. Romorantin is an interesting old town. There being a large French Garrison located there. This place is also located near the A. E. F. supply base.

I have had one furlough had an enjoyable trip. visited many historic places and also passed a little while in Italy. Have been on the Swiss Border.

How is mother and every one? just fine I hope, and I am expecting to leave for the States soon. However, it might be two or three months.

Tell mother she must not get offended for the 24th of November has been designated throughout the A. E. F. as Dad's Days.

Good bye and Love to all. Your son GUY S. BALLARD

Secretary of the Treasury Ceter Glass has officially announced from Washington that the name of the next (Fifth) War Loan will be the "Victory Liberty Loan."

The honor flag of the "Victory Liberty Loan" will bear a blue "V" on a white field, surrounded by a red border, the "V" denoting "five" (Fifth Loan) and "Victory."

INTEREST IN LOCAL OIL TEST WELL IS GROWING

Is Probably that Company Will Soon Be Organized in Canyon

Last week we published an article on the oil situation and it seems that there are many believers in the possibility of an oil field in and about Canyon. Almost every man we have talked with is of the opinion that there is oil beneath Canyon and would be glad to go in on an oil well drilling proposition. Quite a few believe the indications of oil are quite pronounced on the creeks about Canyon. To the south there is a swell in the land which generally indicates gas. A geologist here not long ago doing survey work for the government stated that without a doubt there was oil to be had for the drilling.

All seem willing to invest in a company for drilling here and are anxious that someone should take the initiative in organizing a company to raise funds. A company organized for \$20,000 and divided, say into 2,000 shares at \$10 each, would furnish an amount sufficient to put down a test well 5,000 feet and shares at this price would enable everyone to get in on the proposition. If this was pushed the amount would soon be raised and the well started.

Several local men are busy gathering information with drilling a test well in mind and we hope to be able to give out some substantial information in a short while.

At the next meeting of the Tullia Young Men's Business League the matter of sinking a test well for oil will be taken up.

Twenty miles north of Amarillo a large quantity of gas has been discovered and pipe lines will be laid to Amarillo and other Plains towns at an early date.

Many acres of land are being leased in Hale county for the purpose of sinking test wells, work to start immediately.

It is stated here on reliable information that a well drilling rig is on its way to Happy, where a test well will be put down for oil and gas.

The people of Clovis are worked up to feverish heat over the prospects for oil at that place. A drill is in the oil sand and it is expected that a well will be brought in soon. Clovis has an altitude of 4,200 feet. This is nearly 700 feet higher than Canyon.

A. D. Dooley has returned from Ardmore, Oklahoma, to make arrangements to move his family and household goods to that place. The Dooley family have lived in Canyon for many years, Mr. Dooley being associated in many different business enterprises at this place and The News regrets to see this much-esteemed family leave, but we don't believe they will want to stay away from the Plains long.

LOCAL RED CROSS IS COMPLIMENTED

The Red Cross is issuing Awards to those who have done as much as 800 hours work. Each chapter was to appoint a committee of 3 men and 2 women outside of the Executive committee who had done 800 hours work, whose duty it would be to decide who were entitled to the award.

It was impossible for us to form this committee so the responsibility was left with the directors of work. After giving the matter that and careful consideration we decided to write the Division Chairman on awards, that the work in our County had been done with no thought of measuring or comparing with the unity of purpose to accomplish all we could and the willingness and effort to do had been too general to spoil now by giving a few individuals awards. We have a number of workers whom we are sure are entitled to the 800 award. There is a larger number who maybe, even if we cared for awards would decline the responsibility of drawing that line.

The following letter was received in answer to the above.

My Dear Mrs. Park: It has become my pleasant duty to express through you the appreciation of the Division Office for the great effort and the excellent results achieved by the Randall County Chapter.

It would be presumptuous on the part of any Officers of the Red Cross to thank Red Cross Workers for their service but the Division Office cannot refrain from expressing to your Chapter its appreciation of the true Red Cross spirit which has so constantly been displayed by your workers.

The Division Office takes great pride in the achievement of the Southwestern Division but realizes fully that these achievements have been made possible only thru the records of such Chapters as yours.

It is generally conceded that the Peace Program of the Red Cross will be as important and as far reaching as has been its War Program. To carry on its ever increasing work the Division Office will hope always to be able to count upon the same loyalty and co-operation that it has received from your Chapter in the past.

Very sincerely yours, CHARLOTTE E. LAUSSIG, Chairman, Division Committee on Awards. Randall County Chapter, American Red Cross, Canyon Texas.

President Hill Goes To Austin

President Hill left this morning for Austin, Texas, where he will attend a meeting of the college president of the state. Mr. Hill had just returned from Austin, where he went to appear before the legislators with a budget for the expenses of the West Texas State Normal college for the coming year. Two representatives recently inspected this school and carried with them to Austin an excellent report. Mr. Hill's expense estimate was accepted without further investigation. He states that the chances are excellent for an appropriation to cover needed improvements in this school. Already he is laying plans for a very heavy attendance at the Summer Normal and the bulletin covering the course at the Summer Normal will soon be issued.

Recital At Normal Auditorium

On Wednesday evening February 5 at eight o'clock in the Auditorium of the West Texas State Normal College there will be given a musical recital by Miss Pauline Brigham pianist, Miss Mary Clark violinist and Miss Marguerete Guenther soprano, to which the public is invited. Remember the day and the hour as the program will begin promptly at 8 o'clock.

Miss Evelyn Watson will leave in the morning for St. Louis to purchase the spring millinery goods for the Canyon Supply Co.

YANK ARTILLERY FELS LARGE WOODS IN DAY

EASTON ALLEN WAS IN HEAVY FIGHTING WHEN OUR BOYS CAPTURED CANTIGNY

Hohr, Germany, Dec. 21, 1918.

Dear Brother, You ask me to tell some of my experiences, and now that practically all restrictions are off, I'll see what I can do for you. The First Division has been as active as any other division in France, to say the very least.

The division spent a month in the trenches over a year ago at which time I did not go, only parts of the division going in. Since then I have been with them on every front. Next they were northwest of Toul for almost three months. Picardy was the next place, then in the Marne counter-attack at the Sossons end of the line. The next on our program was St. Mihiel. The place where I crossed the front trench was less than two hundred yards from where I spent my first few days at the front last winter as a platoon first aid man. Twice at the Argonne concludes the show, being relieved just a day or two before the armistice.

Strange as it may seem the most intense shell fire to which I was ever subjected at Cantigny. This is due to the fact that they could bring a proportionately larger force of artillery on that small section of the front. The American bombardment was so intense that one day there was a woods hiding Cantigny from us and the next day the woods was gone. Cantigny was itself considerably shot up. The houses being built of rough rock and wooded slats covered with clay and plaster, it didn't take much shelling to convert it into a pile of debris. The attack was made by one regiment and the new line connecting its end to the old line was Major Roosevelt's battalion of another regiment. Cantigny was on a high hill making an excellent observation post for either side, but we could see more of the Germans than they could of us when they held it. I was acting as stretcher bearer for the regiment that went over. As ill luck would have it the only convenient road to Cantigny was under severe shell fire. But I didn't make more than one or two trips when I learned the more dangerous spots and when they were most liable to shell fire.

It was very seldom that I ever let a shell burst any closer than fifty yards, although once in a while I would misfigure. However, figuring them out won't always do. There was one stretcher bearer some distance ahead of me who left the path and cut thru the valley to avoid the shells falling on the trench a little to the left. However, a defective shell fell short and got him. "Bumped him off" is the term we use.

We got relieved in Picardy early in July. All of a sudden on the twelfth of that month we commenced a forced march which every body will remember. Then it was hike, hike, hike, every night until the counter attack. Usually we were not able to get to our day's destination until about noon. Then the last night arriving in the trenches from ten minutes to an hour before zero.

From the little I saw of the different fights I believe this was the best planned and best executed of all the drives, not even excepting St. Mihiel. General Foch is sure some guy. Our drive on the salient worked out smoother, but we had them very much out numbered in men and guns.

Enough for the present. with love, EASTON.

Mrs. Ab Thompson of Hereford returned home Friday morning after a visit with relatives.

We Request Your Attention Please. The FINAL payment on subscriptions for bonds of the FOURTH LIBERTY LOAN will be due January 30th

The Successful Farmer

(By Geo. A. Smith, District Agent
Extension Service A. and M. College
of Texas.)
The successful business man makes
plans for the future. He has a
definite business policy which is ad-
hered to and with this as a basis he
charts his course in advance, prepar-
ing as near as maybe for all unfor-
seen eventualities. The result is
that business so run is usually pros-
perous and grows with the years.
Farming is a business and to be suc-
cessful the farmer must apply busi-
ness methods, yet how few farms are
run by preconceived plan.

It is true that the business of
farming is complicated by conditions
which confront few other lines in
that while others can compute the
exact cost and selling price of their
products and the probable demand
for them and make their plans ac-
cordingly, the farmer does not know
what his yield will be and has but
a vague idea of what the cost will be
and thus he is handicapped both in
planning his work and in approaching
the labor market, but this is all the
more reason the farmer should have
a definite plan of work.

In every community there will be
found some farms with a definite aim
and invariably these will be found
to be the most prosperous. In the
minds of many, such farmers are
merely "lucky," but this does not ex-
plain the situation. Luck does not
account for the fact that such farm-
ers are progressing from year to year
to goals set ahead. It is the busi-
ness sense of the farmer and the
plans he has evolved; his aptitude in
turning a bad situation or a bad sea-
son to such an account that he pre-
vents immense losses and his con-
stant looking ahead to a certain goal
which he has set for himself that
makes him conspicuous among his
fellows.

A certain farmer, an Englishman
who had come to this country to bet-
ter his condition, once explained why
he was more prosperous than his
neighbors residing on similar farms
thus: "I always keep a few more cat-
tle than I can feed from the produce
raised on my farm and nearly every
year I buy some feed, but this pro-
duces a little more manure to make
fertile a little more land, to grow a
little more feed, to keep a few more
cattle, to produce a little more ma-
nure, and thus the thing just keeps
rolling up like a snowball. This man
had a fixed and definite plan and
was never swayed from it. From
year to year as his plan developed,
his barns grew larger and his silos
more numerous, his home surround-
ings more congenial until he posses-
ed the show place of the country.

The average farmer, whether he
realizes it or not, is a plunger; he
gambles on the market, usually stak-
ing his all on a single crop and in-
variably plays the other fellows game.
He may occasionally have a good
season and come out away ahead,
then for years he will try to repeat
this without success and with large
loss. This is well illustrated by the
farmers in a certain semi-arid coun-
try who were told by experts that
corn was not a safe crop with them.
They came back with the answer,
"But we raised a bumper corn crop
here seven years ago." It was true.
Eight years before some farmers
made a fair corn crop and the next
year everyone plunged on corn and
with a profligate season made a bum-
per crop. They have been trying to
repeat this each year since and have
scored six complete failures. How
much did their one year crop pay
them?

With the plunger there is a maxim,
"Easy come and easy go" and the
farmer plunger usually lives up to
this maxim. Not having a fixed and
definite plan the easy money of a
good season is unwisely spent and the
farmer finds himself in no better
position to make money steadily. On
the other hand the farmer with the
fixed purpose and plan may not have
so much money at one time, but
knowing just what he wants to do
he uses his money judiciously to sup-
ply those needs and conveniences
that will further the success of his
plan and thus, makes more money for
him and he soon finds himself in the
possession of a sure and steady in-
come and may still further develop
his plan or may take life easier as is
his inclination.

There can be no one plan adopted
to fit all farms; none to fit all sec-
tions, not to fit the temperament of
all farmers, but aplan can be found
to fit any condition and no farm
and no farmer should be without a fixed
plan and a goal for which he is striv-
ing. Such a plan should take into
consideration locality, climate, mar-
kets, the general crops of the com-
munity and the personal element as
represented in the farmer and his
family; it should be one which will
enable the family to live at home in-
sofar as maybe and one which will
make the home congenial to the en-
tire family; it should consider the
labor problem and distribute the la-
bor of men and animals as equally
as possible throughout the year; it

should assure as near as possible a
fixed and definite income and should
each year provide for spending a part
of this income for improvements that
will enhance the income either
through saving or increased earn-
ing power of men and animals and
not the least of all it should embrace
intelligent cooperation in the com-
munity in may things that will make
for better earning power for all.

Farming may be greatly advanced
through intelligent cooperation, prof-
its may be increased and the great
losses now coming every few years
in nearly all parts of Texas may be
reduced. A negro farmer in Texas
last winter, in speaking to his fellows
hit the key note when he said "We
don't know as much as they did three
thousand years ago. Joseph filled his
bins with grain for seven lean
years; Texas has had one lean year
and we are done blown up." The
ancient Hebrews were great agricul-
turalists through cooperative effort.

There are some things that any
farm plan to be successful must em-
brace and these apply in all localities.
There is no soil so rich as to stand
the constant drain of cropping year
after year without a replenishment of
its fertility; there is no soil so well
supplied with humus that this will
not eventually be exhausted by con-
stant cropping, if it is not supplied
and there is no soil that will stand
the same crops year after year with-
out rotation. Thus it is that the ac-
cumulation and saving of all the ma-
nures and fertilizing elements of the
farm and their intelligent use is one
of the first essentials of a successful
farm plan. Next to this comes the
growing and turning under of le-
guminous crops to supply nitrogen
and humus which must be embraced
in the plan and finally a systematic
rotation of all field crops so that the
same crops will not occupy the land
two successive years and if possible
a rotation that will bring a given crop
back to the same land not oftener
than once in four or five years. One
of these crops should be a legume and
where possible one should be a grass
crop to be turned under for its humus
and for the mechanical action of its
roots on the soil.

These things are vitally necessary
to successful farming.

The saving of manure presupposes
the presence of livestock upon the
farm and without cattle or sheep to
conserve the waste and by-products,
to enhance the farm income and to
furnish manure for replenishing the
soil no farm can for long be success-
ful. Texas soils are new yet on many
Texas farms their deterioration is in
evidence, while in European coun-
tries, where the need for livestock
for soil replenishment is generally
recognized and adopted as good farm
practice, may be found many farms
which are more fertile today than
they were a hundred years ago.

Met With Serious Accident

Dr. F. E. Rowe of Hereford was
brought to the city Thursday morning
for medical treatment, after suffering
a severe and painful accident on a
ranch, 16 miles from Endee, N. M.,
where has been wintering some
cattle.

No Worms in a Healthy Child

All children troubled with worms have an un-
healthy color, which indicates poor blood, and as a
rule, there is more or less stomach disturbance.
GROVE'S TASTELESS chill TONIC given regularly
for two or three weeks will enrich the blood, im-
prove the digestion, and act as a General Strength-
ening Tonic to the whole system. Nature will then
throw off or dispel the worms, and the Child will be
in perfect health. Pleasant to take. 6c per bottle.

PUBLIC AUCTION OF REGISTERED HEREFORDS

Feb. 26th Two Big Days at Amarillo Feb. 27th
During Buyers and Sellers Convention

45 bulls and 35 females first day. Over 200 second day. Under the auspices of Panhandle Hereford Breeders' Association.

On February 26th, 80 head of especially selected Herefords will be sold at public auction in the big tent east of Hotel Amarillo, beginning promptly at one o'clock.

45 BULLS---35 COWS

These cattle are the cream of over 30 good herds and will be offered in high condition; but not over-loaded with fat. Just in the shape that breeders like to secure good breeding stock.

Several good herd bulls will sell and a line of very high class cows and heifers will be in evidence.

On February 27th we will sell good registered Hereford cattle in lots from one to 25. Many of these cattle are equally as good as the first day's offering, while others will not be in such high condition.

Come and buy some of the many bargains that will be sold.

For catalogue, apply to W. E. BENNETT, Secretary, AMARILLO, TEXAS.

AN EASY WAY TO INCREASE THE FRUIT SUPPLY

DALLAS, Texas, Jan. 18.—After fifty years of effort to increase the Nation's supply of fruit by the ordinary methods of tree-selling as practiced by the nurseries, there is still a great deficiency of fruits and nuts for general consumption, according to E. W. Kirkpatrick (President of the Texas Industrial Congress).

"Sixty per cent of Texas homes are without fruit trees," said Col. Kirkpatrick, "and the remaining forty per cent are but poorly supplied. By general adoption of the propagation of fruits, berries and nuts by the seed and scion method which consists of planting the seed and cuttings, the shortage of these food products can be quickly overcome.

"In response to the appeal of the Government millions of bushels of peach seed were collected last fall to be used in making charcoal for gas masks, but since the war is over, these seed remain on hand in large quantities. They should be planted about the homes and farms, and will in a few years produce many valuable fruit trees. Certain strains of fruits reproduce from seed and cutting to a very valuable extent.

"More than thirty year ago I planted seed from a late Health Cling peach tree that had been cross-fertilized by a nearby early peach, and the result was the Early Wheeler or Red Bird peach, as it is called in some sections of the country. The early Wheeler ripens in May and is the best peach for shipping that we have. Millions of these trees are now scattered over the United States, and their fruit commands the highest market prices.

"If the people of Texas had generally followed the excellent advice given them by the late Gov. Hogg and Col. Exall with reference to tree planting, thousands of people in town and country who have to do without fruit, would now have a bountiful supply grown at home.

"Fruit and nut trees will yield products of much greater value than any farm crop that can be produced on the same area, because they penetrate to greater depths in the earth and extend to greater heights in the air, enduring thru a long series of years, and becoming more valuable each year.

"Millions of valuable seeds from peach, plum, and other fruit and nut

GALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile, it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

trees, and the cutting of grape and berry vines are wasting in our orchards, which if planted early in the fall or winter in the waste places about the homes, where no useful thing now grows, would within a few years produce an immense amount of wholesome human food."

The seven cereal crops of this country this year amounted to \$7,400,000,000. That shows how the farmers responded to the call of the government.

Students' Loan Funds
Students of the University of Texas who are unable to pay their own way through school may receive assistance through the various loan funds which exist for this purpose. The requirements of those seeking aid by means of loans are that they must be needy, of excellent character, be faithful students of general promise and efficiency, and that the loans must be returned as quickly as possible, the interest of four to six per cent being paid annually. The Reagan Fund lends money to women students for educational purposes, the maximum amount being \$50. Sidney Lanier Literary Society has raised a fund greatly from donations of alumnae of the Society for the use of women. The maximum amount is \$100. George W. Brackenridge of San Antonio has created a fund for women students desiring to take up

the study of architecture, law and medicine. The maximum amount allowed to a student in medicine is \$240 to an architect or law student is \$200. Not more than twenty students may be given aid at one time. The Bugbee donation, which now amounts to more than six hundred dollars, is another fund established for the benefit of students. The Charles Durand Oldright Loan fund, provided by Mrs. Julia Oldright, was established with a view to aiding men above freshmen standing. Cullen F. Thomas of Dallas has contributed \$1,250 to be used as a loan fund for University students. A fund which at the present time is open only to juniors and seniors upon good security, has been organized by members of the Engineering department. Another fund for the use of boys and girls of Texas who under no other condition would be able to attend the University is the Ex-Students' Association Loan Fund. Students from Jones county or adjacent counties may avail themselves of a fund of \$300. This fund was founded in memory of George W. Allen of the law class of 1891. It may be obtained by applying before the first of March of each year to the committee in charge of the fund. R. E. Vinson is chairman. Students residing in Jim Hogg county or adjacent counties may apply for a loan of \$300 from the John H. Houghton Memorial fund. Dr. Vinson is also chairman of the trustees for this amount. The Law Department Loan Fund Society gives financial assistance to worthy members of the middle and senior law classes; \$100 apiece to be loaned to middle law men and \$200 to seniors.

**Cheap, quick
way to stop
rheumatism**

Try toning your digestive
and eliminative organs
with NR. Free your body
from poisonous waste
and relief is quick.

One Day's Test Proves NR Best

Are you willing to be convinced that sore, stiff, aching joints or muscles can be relieved and rheumatism greatly benighted if not entirely conquered, for the insignificant sum of 25c.
Sounds too good to be true, doesn't it, yet thousands of people who had rheumatism have found that it can be done, and thousands more are doing it today.
You've tried the high priced and expensive things, found that they failed, you still have your trouble, why not try this simple, economical, yet sensible plan, and let results speak for themselves?
Just get a 25c box of Nature's Remedy (NR Tablets) and begin taking it tonight. It acts on the digestive and eliminative organs, improving digestion and assimilation and cleansing the body of accumulated waste, impurities and poisons. With good digestion and assimilation, the body is nourished and vitality and natural

power of resistance against disease greatly increased. With the kidneys and bowels acting vigorously and regularly and the body freed from irritating poisons, relief must come.
Nature's Remedy (NR Tablets) works thoroughly and quickly. There is nothing harmful in it, nothing to upset the stomach, and no griping, pain or any discomfort. The only result is pleasant, glorious, welcome relief and benefit.
Try it—you take no risk in doing so for Nature's Remedy costs only 25c (enough to last twenty-five days), and is sold with the distinct understanding that it must relieve and benefit or money back.
More than one million people in this country are using Nature's Remedy today. Five million boxes are used every year. What better proof of its great merit could be offered? It is sold, guaranteed and recommended by your druggist?

Holland Drug Co., Canyon, Texas.

**WARNING IS GIVEN
GREEDY COUNTRIES**

SHARP NOTICE ISSUED THAT
CONFERENCE WILL APPOR-
TION TERRITORY.

Paris.—The allied and associated powers have agreed to send a wireless message throughout the world warning all concerned that parties using armed force to gain possession of territory they claim to which the peace conference would be asked to determine would seriously prejudice the claims to those who used such force.

The supreme council of peace congress at its second session Friday, decided to appoint a committee to inquire into the strength of the forces to be maintained by the allied and associated powers on the western front during the period of the armistice.

The committee will be composed of Marshal Foch, General Tasker H. Bliss, General Diaz, Winston Spencer Churchill, the British minister of war, and M. Loucheur, French minister of reconstruction.

The council conferred with Marshal Foch and the other military experts as to the strength of the forces to be maintained by the allied and associated powers on the western front during the period of the armistice.

It was decided to set up a special committee composed of Mr. Churchill, Marshal Foch, General Bliss and General Diaz, to examine the question.

The supreme war council also agreed to recommend for the approval of the governments concerned the issue of an identic medal and ribbon to all the forces of the allied and associated powers who have taken part in the war.

**WOMEN OF EUROPE DEMAND
SHARE IN RECONSTRUCTION**

Positions of Women Workers in Future Receives Much Thought Abroad
Women in different parts of the world have been seriously considering the problems directly affecting them in the period of reconstruction.

In England, early in October, a conference of the National Union of Women Workers took place. This group represents itself with work among women. It was decided that every effort should be made to have women with a practical knowledge of engineering sit on all Government reconstruction committees dealing with the engineering industries.

Trade Equality Demanded
The removal of all restrictions which debar women from becoming members of professional corporations or trade-unions was advocated. A resolution demanding equality of opportunity in training and equal remuneration for equal work was carried without a dissenting vote.

In England, arranged by the National Alliance of Employers and Employed, another important conference has just been held. This represented the leading trade-union women and their employes. They considered the general position of women workers after the war. This conference stood for a minimum living wage and part-time work during demobilization if necessary to prevent unemployment.

Italian Women Active
Earlier in the winter before the "first streak of the dawn of peace" was discerned, Italian Convention of Women. The resolution was passed that "in the composition of the royal commissions for the study of conditions after the war an equal share be granted to women."

At a recent joint meeting in England of the parliamentary committee of the Trade-Union Congress and the National executive committee of the Labor Party it was resolved that organized labor be represented at the Peace-Conference by a special representative and that at the same time and place as the Peace Conference, there shall be held a representative international conference of labor and Socialist organizations, four delegates from each nation, "for the purpose of urging an international agreement for the enforcement in all countries of the legislation on factory conditions, a maximum eight-hour day, the prevention of "sweating" and unhealthy trades, and the prohibition of night-work by women and children.

**SAYS LEMON JUICE
WILL REMOVE FRECKLES**

Girls! Make this cheap beauty lotion to clear and whiten your skin.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage with sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is hermalis.

**FORMATION OF PEACE
LEAGUE IS FIRST STEP**

PRESIDENT WILSON'S PLAN FOR
LEAGUE OF NATIONS UNAN-
IMOUSLY ADOPTED.

"SATISFY THE PLAIN PEOPLE"

Says the World Must Be Emancipat-
ed From the Rule of Small
Bodies of Men.

Paris.—The conference has unan-
imously adopted the league of nations
project. President Wilson and Col.
House are the American members of
the commission thereon.

The peace conference opened in
the La Salle De La Paix of the for-
eign office with the same imposing
sitting as the first session, but with
little ceremony and the manifest
purpose of business.

M. Clemenceau was again in the
chair, with President Wilson and
the full American delegation at his right,
and Premier Lloyd George and the
British delegation at his left.

President Wilson addressed the
peace conference in part as follows:
"Mr. Chairman: I consider it a
distinguished privilege to be per-
mitted to open the discussion in this
conference on the league of nations.
We have assembled for two purposes
—to make the present settlements
which have been rendered necessary
by this war and also to secure the
peace of the world. We are bidden
by these people to see to it that this
strain does not come upon them
again. It is a solemn obligation on
our part, therefore, to make arrange-
ments that justice shall be rendered
and peace maintained. This is the
central object of our meeting. Set-
tlements may be temporary but the
action of the nations in the interest
of peace and justice must be perma-
nent. We can set up permanent
processes. We may not be able to
set up a permanent decision.

"In coming into this war the United
States never for a moment
thought that she was intervening in
the politics of Europe or the politics
of Asia or the politics of any part
of the world. Her thought was that
all the world had become conscious
that there was a single cause of
justice and of liberty for men of every
kind and place.
"Therefore the United States
should feel that this part in this
war should be played in vain if there
ensued upon it abortive European
settlements. It would feel that it
could not take part in guaranteeing
these European settlements unless
that guarantee involved the contin-
uous peace of the world by the asso-
ciated nations of the world."

Starving, But Sunning Themselves

The News failed last week to report
death of an unknown man who was
killed January 12, in the local switch-
yards just about dark. The man was
dressed in two suits of overalls and
appeared to have been a "lunger."

The accident occurred near the R.
R. crossing while switching a string
of box cars. It could have been suicide
or perhaps the man thought he
was catching a train out of town. He
had been seen by several on Sunday
but no person could identify him as
to his name or place of residence. He
never had a mark or letter, not one
thing by which the authorities could
have any hopes of finding his people.
He was a man about 35 or 40 years
old, had light hair, spare build. His
head and body were badly mangled
making it hard to give much descrip-
tion of the dead man. His remains
were buried at Sunnyside cemetery.—
Tucumcari (N. M.) News.

acid and died Saturday night. He is
survived by eight children. A son,
Charley, was in New Mexico, at the
time of his father's death.—Snyder
(Okla.) Signal-Star.

A Homicide Near Slaton

Sunlight is about the only necessity of life left to the starving peoples
of Armenia, Syria, and other Eastern countries which have been ravaged by
the Hun and the Turk.

Here are some Syrian children, emaciated, on the point of death from
starvation, sitting out in the sun, trying to keep body and soul together with
the pitifully small rations allowed them by insufficient relief funds. Addi-
tional funds for relieving these victims of war and famine will be raised in
America by the American Committee for Relief in the Near East, a mini-
mum of \$30,000,000 having been pledged to this work.

The week of February 3-10 has been set by Southwestern campaign di-
rectors for raising their quota of the \$30,000,000.

Randall County News

Subscription, \$1.50 PER YEAR

The Government is making every effort to care for the soldiers when they leave army life. The employment service is being strongly organized in every part of the country to find a job waiting for every man who leaves army life. A ruling has been made that no man need leave army against his will until he is fully and has located himself a job. In previous years there has been much suffering in certain communities on account of unemployment. In other sections there has been shortage of labor, and the poor man had no money to go where there was work. Private employment agencies often collected the last cent of a man to carry them to where they were supposed to be work and men arrived to find that things had been misrepresented. The Government employment agency is so organized as to do away with this trouble. It makes sure of the character of both the employee and employer and then adjusts matters so that labor is shifted from where work is light to where hands are in demand and prevents the congestion of employment in any certain city. It is a movement the people should support by listing all their labor wants with them. It will undoubtedly prevent much labor trouble in the future and will be very instrumental in working the soldier and sailor boys back into civilian positions without causing hardship.

For the last two years the street law has been in effect but it has not been dealt with lightly and in few instances enforced. It provides that every male citizen between the age of 14 and 45 years in Texas shall pay a tax of \$3 per year with an added penalty of \$2 for delay in payment beyond February 1, and a final penalty for non-payment of five days' work each year on the streets or roads. This is a good law. Everyone derives benefit from the use of the public highways and all should share in their upkeep. The city marshals this year, to the very letter and dignity of position will not keep a man from shouldering pick and shovel and clipping smooth the wrinkles out of the Main Stem if the \$3 is not forthcoming. Unless you want the outdoor exercise, better pay up.

Of the two hundred and some-odd counties in the state of Texas the Congressional ones have their oil wells going after them. This is Randall county's opportunity to be or not to be—a county with a future. It will only take a small part of the sum which will probably be sent out of the county never to return, on central Texas oil schemes, to make this county the oil field of West Texas, we believe. This is one idea we don't intend to let get cold. Wake up, Randall. This is no dream.

It is interesting to note that at least one of the ex-Kaiser's sons seems to be taking a practical view of the present situation, it being reported that former Prince August William has gone to work in a German automobile factory.

If the present plans of the army officials are carried out, every last man of our army will be home in six months and the Allies' will be left to clean their own house after their four years' roughhouse.

Lee Satterwhite, editor of the Panhandle Herald and representative, from the legislative district to the north, went down to his duties at Austin and registered as a farmer.

Read the extraordinary offer The News is making on page seven. The Southwest Plainsman is sent free with every subscription to The News of \$1.50, new or old.

Not Fit To Print

If the Armenian and S Sian Relief Campaign is a failure in the Southwest this reason might possibly be offered: The people were not told all the facts regarding the war sufferings of the Armenians, Syrians, and Persians at the hands of the Turks.

The truth of the matter is a book or news paper would be debarred from the United States mails, if it undertook to publish the whole story of Turkish atrocities in the Near East.

The tortures and mutilations and butcheries, the rapes and a thousand other indecencies perpetrated upon Armenian women and girls constitute the most unprintable narrative in the history of barbarism. The make the invaders of Belgium look like a

Sunday School picnic party. And—they are facts coming straight from trustworthy witnesses.—United States consuls, missionaries, relief workers, and escaped refugees.

But without making known the details of the whole hideous story, one fact alone should be sufficient to get a response from the great heart of America: Right now, four million shelterless men, women, and children are dying a slow death from starvation, and will assuredly perish unless we come to their aid.

"Armenia looks to America for her salvation," says a recent cablegram. What will you do about it February 3-10?

European Rulers May Visit America.

It now appears that, as one of the results of President Wilson's trip to Europe, America will have the privilege of entertaining the heads of the Governments of England, France, and possibly Italy. In this connection President Poincare of France has just announced the fact that he will probably make a trip to America next June or July. There is also a reason to believe that King George of England will visit this country in the near future; and while there has as yet been no definite announcement regarding the matter, there seems to be taking a practical view Victor Emmanuel of Italy will also return the President's visit to Italy by making a trip to the United States.

Successful Begging

The United States Civil Service Commission is sending out a circular letter stating that the Government found it necessary, during the nineteen months of American participation in the war, to advertise to recruit the civil service to meet war needs—found it necessary, in fact, to advertise extensively to recruit the workers.

The letter goes on to state the vast extent of its publicity work and winds up by saying:

"The only cost to the Government for millions of dollars worth of advertising was for the printing of posters and circulars and for the making of lantern slides."

With all due deference to the fact that the government officials in charge of this work have been duly elected by the people, we must advise to remark that the statement quoted above is nothing to brag about.

The officials of the Government admit that beggary and glory in its success. They didn't beg for munitions of war, or for ships, or for equipment, or for thousands of other things that were needed to perfect our great war machine. They paid for all these things, and paid well.

But as to publicity, the newspapers publishers' stock in trade, whether it was wanted for the Civil Service Bureau or for the selling of Liberty Bonds, that must be begged for, not paid for.

We state again, that it is not a record to be proud of.—The Fourth Estate.

The Texas Judiciary

If you are a Texan and have had occasion to appeal a case to the supreme court of the state, it will not be necessary for anyone to tell you that you may get an opinion in a few months or it may be several years.

And this state of affairs is not the fault of the officers of the court. It is merely the result of "too much business." The state of Texas is so large that it is impossible to get a supreme court large enough to attend to the cases that are appealed and this condition is growing worse each year, instead of better. As matters now stand it will be a physical impossibility for the court ever to catch up with its work since each session of the lower courts but add to the accumulation of appeals, many of which the supreme court will not even have time to read over, much less adjudicate with anything like the amount of consideration that it should give to them.

Many of the most eminent lawyers of the state consider this the most urgent argument for a division of Texas. Citizens whose cases are carried up to the higher courts are subjected to great inconvenience if not pecuniary loss by the delay in securing a decision, whereas, if there were four or five states, instead of one, it would be possible for the courts to consider cases and render decisions much more promptly and with less liability to overlook minor points because of the pre-sure of business.—The Southwest Plainsman.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarrh Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Medicine is what produces such wonderful results in catarrhal conditions. Send for testimonials, free.

Hall's Family Pills for constipation.

Counties and Towns Honored

Mrs. Woodrow Wilson was accorded the privilege of naming the ships built by the United States Shipping Board, which are being turned out in such huge quantities notwithstanding that submarine warfare has ended.

The wife of the President thought it would be a suitable action to give every Federal Reserve District the privilege of naming ten ships after those counties showing the greatest over-subscription of their quota to the Fourth Liberty Loan combined with the greatest number of individual subscribers. The awards in the Eleventh Federal District have been made very carefully and the combined percentages of over-subscriptions with percentage of population buying Bonds is shown against the ten counties naming ships. The ships will be christened at an early date and the County Chairman in each case will be asked to name a sponsor who will probably be a lady in each case. It was arranged with the War Department that ten tanks should be named by the incorporated cities of the Federal District showing the greatest over-subscription together with the greatest number of subscribers. In view of the fact that tanks are not now being built and will never go into actual warfare, a request has been made of Mrs. Wilson, that she allow the authorities to name ten more ships in place of tanks. The decision will be made at an early date and the cities interested will be immediately advised.

Then ten counties to name ships and the combined percentage of over-subscription and percentage of population buying Bonds are as follows: Culberson, 790; Potter, 187; Wichita, 166; San Augustine, 162; Dallas, 161; Oldham, 158; Jeff Davis, La., 157; Harris, 150; Galveston, 146; Ward, 146.

The ten counties to name ships: Lordsburg, New Mexico, 257; Atlanta, Texas, 186; Fort Worth, 182; Freeport, 181; Rockport, 180; Rayville, La., 178; Dalhart, 178; Sherman, 174; Vernon, 138; Weatherford, 134.

To Learn Value of Cactus

One of the most complete collections of prickly pear cactus species ever assembled has been gathered for testing at the plant introduction gardens of the United States Department of Agriculture at Chico, Cal. The collection consists of about 2,500 forms and varieties, which are being studied to determine their uses. Many species are of value for ornamental purposes, others furnish food for man while probably the most important use, economically is as forage for stock in arid sections. Spineless forms, of which there are about 30 now growing in the gardens, are suitable for this purpose. For five years in the past about 20 tons of spineless forms per annum have been distributed to applicants in the warmer sections of the country. Distributions have now been discontinued, as the plants are well established in the trade.—Fort Worth Livestock Reporter.

A Chance for Eastern Feature Writers

At the poultry meeting last Saturday, at the close, County Agent J. E. Petersen spoke of the coming rabbit drive and mentioned of hearing of a cow choking to death on a jackrabbit. Said the owner of the cow had skinned the carcass and later a neighbor told him he had seen the cow chewing on a rabbit; so the owner went back and investigated and sure enough found a rabbit in the cow's throat. Probably the scarcity of feed was the cause of the cow's unnatural appetite, but what a chance for some eastern feature writer to announce to his readers that New Mexico cows are living on jackrabbits.—Portales (N. M.) Valley News.

made a permanent investment. The Randall County News and The Southwest Plainsman, both for \$1.50

Those American buyers of German bonds will soon realize they have

The Whisper That Comes in the Night

The Glorious Knowledge Women Gain When a Wonderful Thought Steals Over Them.

Happiness in its most thrilling degree comes to woman with the thought of possessing a baby. Every woman in the joy of coming motherhood should prepare her system for the unusual strain. Three generations have found the tried and reliable preparation, Mother's Friend, of the greatest help at such a time, by its daily use throughout the period, the skin of the abdomen is made soft and elastic, expanding muscles relax easily when baby arrives, and pain at the crisis is in this way avoided. The inflammation of breast glands is soothed. Obtain from your druggist, by all means, this great preparation which science has offered for so many years to expectant mothers. Write the Bradford Regulator Company, Dept. D, Lamar Building, Atlanta, Georgia, for their helpful and interesting Motherhood Book, and begin the use of Mother's Friend. It is for external use, is absolutely safe and wonderfully effective. And remember, there is nothing to take the place of MOTHER'S FRIEND.

PERSONAL MENTION

If you have guests in your home, please phone the News. If you are going away on a visit, call No. 41.

Miss Margaret Goode has returned to her school at Dumas.

Mr. Ed Pear and family spent Sunday with A. J. Dodsons family.

Mr. Miller and family spent Sunday visiting with Mrs. Edmonds and family.

Vince Reeves is moving to Amarillo today where he will make his future home.

Mrs. Elmer Prichard and Miss Alice Prichard were Amarillo visitors Tuesday.

C. V. Wooley, claim agent for the Santa Fe railroad is in town today on business.

Sanford Black has returned home from Camp Travis, being discharged from the army.

Jeff Wallace made a business trip to Ft. Sumner, N. M., on business the first of the week.

Ed the W. O. W. oyster and fish supper at the W. O. W. Hall in Happy last Saturday night.

Mr. J. H. Messimer's brother and sister are up from Lockney visiting with him this week.

T. C. Thompson returned Saturday night from Dallas where he attended a very busy session of the Texas Hardware Men's convention.

L. E. Thompson and wife of Amarillo, will spend Sunday here with Mrs. Thompson's parents, Mr. and Mrs. J. E. Rogers.

Mr. and Mrs. C. O. Keiser have returned from a trip to points in the north. Mr. Keiser attended the National Western Stock Show at Denver.

N. A. Croson left last week for Alabama on account of his health. He has been in poor health for the last year. We hope he will soon recover his health and return to Canyon again.

Mr. and Mrs. Homer Richards left Sunday for Illinois to make their future home. Mr. Richards has been in Canyon for the last ten years being connected with the Thompson Hardware Co., but the last year he has lived on a farm.

Prof. H. P. Webb superintendent of the Plainview Public Schools was here last week planning with officials at the Normal for the program of the Panhandle Teachers' Association which will meet here the 1st Friday and Saturday in March. The program in full will be published in The News as soon as it is completed.

Guy Conner and Edgar Roberts returned last Saturday night from New Orleans, where they have been stationed in the Navy. Edgar Roberts left this week for Neosho, Mo., where he will visit his parents for a while. Later he will return to resume his former position at the First National Bank.

COUNTY CORRESPONDENCE

HAPPY HAPPENINGS

A. P. Thornton of Hereford was visiting old friends here last week.

E. A. Patterson has bought the Boon place in the south part of town the consideration being \$1,400. He moved his family down from near Ralph last Wednesday.

George Cook returned Friday from Van Coover Washington where he has been stationed for the past year. He has received his discharge and is home to stay. He will have charge of the Imis farm this year.

Quite a number of the young folks enjoyed the evening last Friday at the home of Misses Alta and Paulene Boon where the time was pleasantly spent playing forty two. All report a nice time.

Ben Jones returned Saturday from Lockney and Plainview where he has been to buy feed. He bought ten cars of baled feed. They are kept busy unloading.

Rev. Walts the new Methodist pastor filled his appointment last Sunday the first time he has had to preach this year on account of the bad weather and flu. He was accompanied by his wife. He made a real interesting talk Sunday morning, no services at night on account of the bad weather. He will preach again next fourth Sunday. Lets all go and do our part and make this the best year-spiritually, Happy has ever known.

Miss Alice Mulky was visiting her sister Mrs. Joe Waite the past week. Mrs. Lester Dillon received a letter this week from Lester. They had not heard from him in three months and were quite anxious. He was well and busy with on his way to Berlin, with in only a few miles of there.

Misses Viola and Eula Knox were shopping in Amarillo Saturday.

What came near being a serious accident happened Sunday afternoon. Ervin McManigal picking up a piece of wire lying in the street to throw it to one side it caught in his glove and went back over his head striking Claude James in the eye injuring it. Dr. McElroy dressed the eye and it was thought at first that he would be blind but at present it is doing nicely and he can see a little it is thought that it will probably heal.

Mr. and Mrs. Charles Dison of Canyon were visiting their cousin Mr. and Mrs. E. A. Patterson Sunday and Monday. They are thinking some of locating in Happy. We hope they will decide to do so.

E. A. Logan was a business caller in Amarillo Tuesday.

Charles Waite late of the A. E. F. France is home after receiving his discharge. He was in the light Artillery. He can relate some interesting experiences having been over the top five times.

Miss Leach the music teacher and the school will have a program Saturday night at the school Auditorium every one come and encourage the children to come.

Cecil Pirble of near Arney died Tuesday evening at five o'clock of pneumonia following the flu. He was a young man only about 20 years of age. He leaves a wife and baby besides other relatives one brother who was with his at the time of his death. He is a son-in-law of Mr. Hutson.

WAYSIDE WARBLINGS

Traveling about 115 miles to reach an appointment 30 miles distant Rev. Zora Pirble of Silverton reached Wayside Sunday morning an two good services during the day and night. Being the first time he had filled his appointment with us since Conference. The conditions and inclement weather the cause of failure to reach us.

Mrs. L. J. McGehee still confined to her bed the greater part of the time. She is improving some in health and strength. She is still at her sons W. C. McGehee.

Great complaint of muddy roads. Main car to Happy has much trouble making the trips. Wind and sunshine of a few bright days has done much for travel, but still bad enough in places. A few trips over the regular route have been made, much to the satisfaction of the citizens on the way.

Messrs. Service and Bishops of Canyon resumed work on Jim Sluders house last week. Getting along

"A Woman's Shop"

with a comfortable atmosphere where you will not be urged to purchase. We take pleasure in showing specialties in Dresses, Coats, Suits, Waists, Silk underwear, Lingerie.

Groceries of Quality at Reasonable prices is our Endeavor

We are continually adding to our stock of confectionary and now have on hand a comprehensive line of sweets that will suit the most exacting taste.

We have just received a fresh line of garden seeds. This line is complete.

A. W. BLOUGH,

The Sanitary Grocery.

with the building very well. They were welcomed visitors at Wayside Sunday.

W. C. Hambley who has been in the Government employ in the N. W. reached home last Saturday. He with his family moved back home last Monday.

Floyd B. Adams was granted a discharge from Kelley Field, Aviation Corps reaching home the 27th. It is needless to say a warm welcome awaits all our soldier boys.

At a meeting of the board of trustees of Plemons school, Hutchinson county, Texas, a few days since Miss Estella Clarke of Cisco, Texas tendered her resignation, as Principle It was accepted and Miss Grace Sluder of Wayside was appointed Principal with Miss Kate Hedgecock of Plemons as Primary.

Wm. Payne wife and baby Doyle made a trip to Canyon Friday morning. Mr. Payne returned Sunday he left his wife and baby with relatives a few days longer.

Mrs. W. K. Franklin has been on the sick list but is better.
Mrs. J. T. Berry received a telegram announcing the death of her brother John H. Newton, in Toule France with Bronchial pneumonia the 6th of January.

Gus Lawson of Happy was a Canyon visitor Wednesday and made this office a substantial call.

JOWELL ITEMS

Mr. John Sims and family have moved to their new home near Snyder Texas we regret very much to lose these good people out of our community.

Mr. Ben Cupell and Miss May Dodson were married in Canyon Sunday and are making their home on the L. T. Lester ranch we wish them a long and happy life.

Mr. T. W. Scott has moved his cattle near Hereford on the Tom Bland ranch where he got plenty of feed for them.

Mr. Jim Leviett has shipped his cattle to Midland Texas to grass and feed. Mr. Willie Dodson went with the cattle.

Mr. J. H. Messimer has been in Lockney for the last few days on business.

J. H. Asher was in Amarillo Wednesday on business.

Miss Tenie Thompson of Canyon came in Monday to reopen her school.

Mr. Bert Wills has just come in from St. Louis from a business trip to that city. He reports weather conditions nice and favorable there.

J. H. Asher and John Fry made a business trip to Canyon the middle of the week.

Dick Meyres has been on the sick list the last week.

Mrs. J. H. Messimer visited Mrs. Sandrum Sunday.
Quite a few of our boys attend-

Grove's Tasteless Chill Tonic
destroys the malarial germs which are transmitted to the blood by the Malaria Mosquito. Price 60c.

UMBARGER NEWS

The snow is now melting very fast and if we have no more snow storm, we will soon be able to gaze upon real soil once more.

Mrs. W. E. Johnson visited her sister, Marie Kehmier Saturday, who is now attending the normal.

Messrs. Leo Stocker and E. Friel were business visitors to Canyon Friday.

Among business visitors to Canyon Saturday were, W. E. Johnson E. H. Cole, John-Bedink, N. C. Williams, Minrod Hollenstien and Clarence Williams.

John Batenhorst, Sr. left Monday for an extended visit with his sons in Nebraska.

The Junior League met in regular session Friday afternoon and rendered a short program, concluding with a debate, Resolved; The auto is a ruin to the Social life of a small community. affirmative Virgil Cole and Kathlyn Jackson negative, Clifford Gandy and Billy Brodie. The Judges decision was given in favor of the affirmative.

Those absent from school Monday on account of sickness were, Bonnie Bader and George Gady.

Hess Bros. are expecting a car of cake this week with which to feed their cattle.

Minrod Hollenstien and family spent Sunday in the John Bedink home.

Mrs. Hutson received a car of cotton seed hulls Monday and Joe Friel is now busily hauling it out to the Ranch.

Kathlyn Jackson was sick the latter part of the week, but was able to resume teaching Monday.

Henry Beckman went to Hereford on business Monday.

Mr. Ben Hess had the misfortune of losing one of his best horses the first part of the week. It slipped on the ice killing itself instantly.

George Persfield and family were guests in the Sanders home Sunday.

A Coated Tongue? What it Means

A bad breath, coated tongue, bad taste in the mouth, languor and debility, are usually signs that the liver is out of order. PROF. HEMMETER says: "The liver is an organ secondary in importance only to the heart."

We can manufacture poisons within our own bodies which are as deadly as a snake's venom.

The liver acts as a guard over our well-being, sifting out the cinders and ashes from the general circulation.

A blockade in the intestines piles a heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from headache, yellow-coated tongue, bad taste in mouth, nausea, or gas, acid dyspepsia, languor, debility, yellow skin or eyes. At such times one should take a pleasant laxative. Such a one is made of May-apple, leaves of aloe, jalap, put into ready-to-use form by Doctor Pierce, nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Pleasant Pellets.

STROCKTON, CALIF.—"For constipation, sick headache, an inactive liver, indigestion and biliousness there is nothing so equal as Dr. Pierce's Pleasant Pellets. I have tried other things but like the 'Pellets' best of any."—Mrs. F. CAMPBELL, 229 S. Grand Street.

SAFE FARMING CAMPAIGN FOR FOOD PRODUCTION

The date for the opening of the State Food Production Campaign was January 13th according to an announcement sent out by acting Director T. O. Walton Extension Service A. & M. College of Texas.

A complete program covering important activities for the year 1919 has been placed in the hands of the County Agents, which they are to use as a basis for bringing this important matter to the attention of the farmers in the respective counties.

The best agricultural talent in Texas as well as the United States has been employed in formulating this program, which is designed to increase food and feed for Texas, while at the same time yielding the most profitable returns to the producers.

Careful preparations have been made for the staging of this campaign. During the last agents meeting held at College station Mr. Walton instructed the agents to organize their farmers in such a manner that the U. S. Department of Agriculture and College Program for Food Production would be brought to the attention of the citizenship of every community in the State.

The program is too lengthy for reproduction, but a copy may be found in the hands of each County Agent. The campaign will be conducted along the same intensive line which has been followed in other war activities, with the exception that formerly we appealed to the patriotism of our people to spur them to action, whereas now their self-interest will be appealed to, since the program as outlined is the safest course for the farmers to pursue either in time of peace or in time of war. If Texas farmers will heed these suggestions, it is believed by those who have made this matter a life-time study that their condition will be one hundred per cent better in two years than it is at this time, and it is confidently expected that all of the cooperating agencies, as well as those interested in the welfare of the farmers and increased food and feed, will put forth every possible effort to have this program brought to the attention of the farmers for their consideration.

It is not the purpose of this program to insist that Texas farmers relieve that better results will be secured by stressing the importance of a safe-farming program, that is such a program as will insure an adequate supply of food and feed stuff for the family and farm livestock. If the farmers of Texas will follow this program there is no danger of an over-production.

The guiding principles of this program are:

1. A cropping system which will maintain and build up soil fertility.
2. Make the farm, as near as possible, self-supporting, by producing the food for the family and the feed for the livestock.
3. When the necessities of life have been provided for, produce a money crop as a source of cash for the farm.
4. For safety's sake we should not pin our faith entirely to one product. The cash income of the farm should be derived from a number of well-selected products.

The spring program contemplates as far as possible a home garden for every family, with special emphasis upon storing, canning and drying of fruits and vegetables for winter use. The production of sweet sorghums and sugar cane for syrup is advocated. The corn acreage should be increased only in the eastern section of the State and on land where corn produced good seed corn in 1918. West of the meridian of Ft. Worth more dependable grain sorghums should be substituted for corn. The acreage in grain sorghums should be increased. Special attention should be devoted to the production of hay and forage and the acreage should be ample to supply the livestock for the coming year. The peanut acreage should be extended to meet the increased production of hogs, as well as for commercial sale where marketing facilities are reasonably certain. Velvet beans may be planted in the coastal and eastern sections of the State. The cowpea acreage may be increased in the eastern section of the State. The livestock program is a difficult one. The increase in beef cattle will depend largely upon the developments of the season, and it is felt that the re-establishment of the beef cattle industry will take its normal course. Attention will be given to the increased production of beef cattle and hogs in the eastern section of the state, while poultry should be increased in every community.

Trapping Is Good

Jim Page was up from his camp in the breaks Wednesday and dropped in to see us. He says he is enjoying life down there and having pretty good success trapping. He shipped 15 furs about two weeks ago and got very satisfactory returns on them.—Silverton Star.

Backache is a Warning

Canyon People Should Not Neglect Their Kidneys.

Backache is often nature's most frequent signal of weakened kidneys. To cure the pains and aches, to remove the lameness when it arises from weakened kidneys, you must reach the cause—the kidneys. If you have pain through the small of your back, urinary disorders, headaches, dizzy spells, or are nervous and depressed, start treating the kidneys with a tested kidney remedy.

Doan's Kidney Pills have been proved good and are especially for weak kidneys. Doan's have been used in kidney trouble for over 50 years. Read Canyon testimony.

Mrs. A. R. Crank, W. Evelyn St., says: "At times my back was weak and ached constantly and my kidneys were disordered. I was bothered this way terribly until I began using Doan's Kidney Pills. Now it is very seldom I have any of these symptoms and when I do, I use Doan's and always get good results."
Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Crank had. Foster-Milburn Co., Mfgs., Buffalo, N. Y. 26-2t

Man Found Dead in Bed

Dave Dills, about 65 years of age, was found dead in his bed by a neighbor, late Friday afternoon. Dills had been living on the W. G. Ogle place for about nine months, the last time anyone in the city saw him alive was about two days before Christmas when he came into town and bought some groceries. He complained of feeling badly then, but returned to his place.

The Ogle place is about nine miles from the city and was formerly the Naeglin ranch.—Las Vegas (N. M.) Optic.

FAVORS RUSSIAN GROUPS

PEACE COUNCIL WILL SEND DELEGATION TO MEET REPRESENTATIVES OF FACTIONS.

Paris.—Led by President Wilson, the supreme council of the great powers moved to unite the factions of distracted Russia and bring them into the peace conference congress.

They unanimously adopted a proposition brought forward by President Wilson asking all the Russian factions, including the Bolsheviks, to meet the allied and associated governments at Prince's islands, in the Marmora sea, on Feb. 15, the contending factions meantime declaring a truce and suspending all military operations.

The joint commission of the associated governments will be announced as soon as the Russian factions accept the proposal.

General John J. Pershing, the American commander in chief, has been called to Paris, and it is said that he will be the military member of the American representation on the joint commission.

Sergius Sazonoff, foreign minister of the government at Yekaterinodar, headed by General Denikint, and who is now in Paris, said he will not go to Prince's islands. M. Sazonoff added that neither Admiral Kolchak, head of the Omsk government, nor the heads of the Caucasus or Ural governments will send envoys to the conference.

Martial Law in Portugal

Madrid.—Martial law has been proclaimed throughout Portugal, according to reports reaching here. Rumors were being circulated here of possible intervention by Spain. Warships have been sent to Oporto.

Over 50,000 Men Are on Strike Seattle, Wash.—With thirty thousand shipyard workers on strike in Seattle and 12,000 in Tacoma, the greatest industrial battle in the history of the northwest has begun.

Giant Telescope Installed in Canada.

Has Reflector Six Feet in Diameter. The second largest telescope in the world, recently installed in the Dominion Astrophysical Observatory of Canada, is regarded by scientists as field of astronomy. In design and construction this instrument is a product of the highest order of engineering and optical skill.

In choosing a site many places in Canada were thoroughly investigated. It was finally decided that Observatory Hill, eight miles from Victoria, B. C., with an altitude of 730 feet, was the most favorable location, and there a building entirely of steel, was erected to house this giant telescope.

A number of the leading astronomers of the United States and Can-

ada were present at the dedication of this observatory and it is reported that observations have been carried on, without interruption, since that time.

OVER-EATING

is the root of nearly all digestive evils. If your digestion is weak or out of kilter, better eat less and use

KI-MOIDS

the new aid to better digestion. Pleasant to take—effective. Let Ki-Moids help straighten out your digestive troubles.

MADE BY SCOTT & BOWNE, MAKERS OF SCOTT'S EMULSION

The Sole Survivor

A mother before her sons' dead bodies in the woods of Etchmiadzin, Russian Caucasus, one of the regions of the Near East, where the Germans and Turks have converted a rich country into a land of famine and misery. America will be asked to give \$30,000,000 for the relief of these war-stricken peoples, a campaign for that purpose having been planned by the American Committee for Relief in the Near East. The drive in the Southwest will take place February 3-10.

Two Papers for the Price of One

To the Farmers of this section and other interested Parties

We are looking out for your best interests as well as our own. We recognize the fact that a farmer paper dealing with the problems of this section and adapted to the agricultural needs is a needed factor in the developing of the agricultural interests of the Plains.

Such a farm paper has been established and during the years of the war has stood the test. We are going to offer this farm paper as a gift to the farmers of this section and all others who desire it with every subscription paid in to the Randall County News, new or renewal. This offer is good until further notice. We want every family in Randall county to take the Randall County News and feel that we are offering them the greatest value in news and educational matter that they buy. The Home Ec. Club will meet next Saturday at 1:00 p. m. in the Auditor-

To Liberty Bond Holders

It has been reported that many holders of small denomination Liberty Bonds in need of ready money are selling these securities at anywhere up to 20 per cent discount.

Perhaps these patriotic investors do not know that these bonds are bought and sold daily on the N. Y. Stock Exchange and that they can always be sold at close their face value.

Do not part with your bonds unless you positively must. If money needs be raised use them as collateral for a loan. If you are obliged to sell see that you get full market value for them--- sharpers are at work.

ASKS FOR \$750,000,000

DIRECTOR GENERAL HINES SAYS
\$196,000,000 OF THIS IS LOSS
TO GOVERNMENT.

Washington.—The railroad administration needs \$750,000,000 more for its revolving fund to supplement the \$500,000,000 originally provided and now practically exhausted. In preparing this estimate for congress the director General Hines explained that \$196,000,000 of this sum represents loss to the government, incurred in operations last year, and the remainder represents advances to railroad companies to be repaid eventually with interest.

Congress will be asked immediately to appropriate this amount, which Mr. Hines declared, would be necessary regardless of whether the railroads were returned to private management within a few months or retained longer.

The director general estimated that \$368,193,000 would be required this year to finance capital enterprises, such as improvements and purchase of cars and locomotives. This figure also includes \$12,840,000 for contemplated expenditures on inland waterways and \$20,000,000 to finance reorganization of the Boston & Maine.

Hobby Asks Aid for Education

Austin, Texas.—Appropriations amounting to \$3,500,000 out of the general revenues and funds of the state for the purpose of affording money to raise teachers' salaries and to improve conditions in rural schools are recommended by Governor Hobby in a special message submitted to the legislature.

Proposes Better Paid Rural Teachers

Austin, Texas.—In the second of her series of articles urging improvements in Texas schools, the Hon. Annie Webb Blanton, state superintendent of public instruction, urges better salaries for rural teachers and continuity of management, by lengthening the terms of both county and district trustees.

Senate Passes Food Relief Bill.

Washington.—After a week of spirited debate, the senate, by a vote of 53 to 13, has passed the administration bill appropriating \$100,000,000 for food relief in Europe and the Near East.

Delegates to Attend Peace Meet.

Dallas, Texas.—Texas delegates are expected to attend the conference of the state branches of the League to Enforce Peace, which will be held at St. Louis Feb. 25 and 26.

Half Rate Will Continue to March 1st

Congressman Marvin Jones, who has been working for the continuance of the half rate on feed for the benefit of the Panhandle farmers and ranchmen, telegraphed the Amarillo Board of City Development, last week, that he had succeeded in securing a continuance of the rate until the first of March.

This will be good news to the Panhandle stockmen as the unusual conditions have necessitated so much more feeding than usual this year that many, who thought that they had made ample provision for the needs of their stock, are being obliged to buy more feed and will probably have to continue their purchases throughout this month.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.
