

TRADES DAY IN CANYON MONDAY

Next Monday, July 14th, will be the regular monthly Trades Day in Canyon.

At a meeting of the Canyon Business Men's Association held Monday night at the News office, it was decided to run the regular Trade excursion into the west part of the county. O. N. Gamble and S. B. McClure will plan the trip and see all the members about starting early Friday morning.

Chas. Harter, W. J. Stewart and J. C. Black constitute a committee to provide entertainment for next Monday. They will have some bronco busting which will excell anything yet pulled off in Canyon. J. B. Gamble has a horse which will be offered to riders. The committee is looking for more bad horses and want to see the men interested in taking a go at the riding.

Band music will be procured for the afternoon. The regular auction sale will be one of the events of the afternoon.

Come to Canyon next Monday for the big bargain feast which is being offered by the business houses of Canyon.

FIRST OF THRESHING OATS MAKES 75 BU

T. A. Dowlen Reports 75 Bushel Oats and 45 Bushel Barley—Many Machines Starting.

T. A. Dowlen completed threshing his oats and barley yesterday and is starting his wheat today. The yield of his oats is 75 bushels per acre. His barley turned out 45 bushels to the acre.

A large number of machines are starting this week in the county. Jack Ricks and J. A. Wilson are getting their machines started. Reports indicate that by next week a large number of machines will be running in the county.

The News will appreciate hearing from the farmers as to the yields they make on their grain.

ELECTION NEXT MONDAY FOR STATE SENATOR

A special election will be held next Monday in this senatorial district to elect a successor for Senator Bell who was killed two weeks ago. There are two candidates for the position.

W. H. Bledsoe of Lubbock is a candidate. He is at present serving in the house from Lubbock district and has the approval of a large body of the men in the legislature from this section. He is one of the outstanding strong men of the house, and if elected could go right into the senate knowing the conditions of this district so well and being upon the most friendly terms with the leading men of the senate.

R. L. Templeton of Wellington is the other candidate. He is remembered as having taught in the Canyon schools a few years ago. He served formerly in the house but was defeated by Senator Bell in the campaign for the senate.

The voters of Randall county should make a special effort to go to the polls next Monday and vote.

Will Start Store in Happy.

Holland Drug Store will start a new drug store in Happy by the middle of August. John Tolles will be the manager.

A new building is being constructed, 25 by 60 with a 15x30 basement.

The firm now has a store in Canyon with J. Grady Holland manager, one in Amarillo with Lyle Holland manager.

Pipkin Buys McAfee Building.

R. S. Pipkin has bought the C. R. McAfee building on the west side of the square, next to the postoffice.

He stated yesterday it was not his intention of moving into the building.

Dr. Oliver of Dumas was in the city Monday on business.

URGES FARMERS TO HAVE WHEAT TESTED

County Agent Will Do Work—Getting Ready Now for Big Exhibits This Fall.

County Agent C. F. Walker was in the city Monday night attending the meeting of the Canyon Business Men's Association. He stated that he is prepared to make a test of the quality of the wheat for the farmer, or the farmer may send a sample to the Chief Grain Inspector, care of the Board of Trade, Ft. Worth, and have the test made. In either case it is necessary to send as much as three quarts for the tests.

All wheat growers are urged to have this test made as they will then be able to determine how profitable their crop has been this year.

Mr. Walker called attention to the fact that \$10,000 was being offered in hay and grain prizes at the Land Congress to be held in Kansas City in September, and October and hopes that Randall county will send an exhibit to that show. He states that an attempt is also being made to get a large premium list for kafir and fetteria.

Mr. Walker urges that samples be saved now for this big show this fall and that Randall county also prepare for the Dallas Fair and the Childress Fair. At the Dallas fair \$15,000 will be offered in the Hereford cattle class. Childress will have a great hog show, and Randall county swine breeders are going to exhibit there, together with members of the boys club.

The Commissioners Court will be asked to designate a room in the court house where samples may be brought to take to these fairs. S. B. McClure, D. A. Park and C. W. Warwick will see the court at the next meeting.

All farmers are urged to begin now getting together samples of their crops. Randall county has always made a great showing wherever an exhibit has been sent, and this year the county ought to surpass any effort made in the past.

B. F. Stice Dead.

B. F. Stice died Saturday after an illness of four weeks with the flu and its complications.

The funeral was held Sunday afternoon from the undertaking rooms, conducted by Rev. B. F. Fronabarger.

Mr. Stice has been living for the past year on the Evans place east of town. He was 58 years of age and leaves his wife, one son and three daughters to mourn his death.

FOURTH OF JULY CELEBRATION FINE

Good Number of Service Men in the City to Enjoy Festivities of the Red Cross.

The Fourth of July was a perfect day so far as the weather was concerned, and everything planned by the Red Cross for the entertainment of the men who had returned from service was in keeping with the delightful weather.

The Tucumcari band arrived on the morning train and at 10:30 gave a concert. The band is composed of members of the Boy Scout and put up a very fine program during the day which highly pleased the people of Randall county.

At eleven o'clock the men who had been in the service were lined up on Houston street on the north side of the court house, a line being on either side of the street, to review the parade. Headed by Mayor J. D. Gamble a very pretty parade passed along this side of the square, turning south to Evelyn street and then doubled back to Houston and passed through the reviewing party once more. All of the floats in the parade were very beautifully decorated and characteristically represented the various phases of war activities. The cars following were bedecked with national colors.

After the parade all gathered on the court house lawn where Rev. A. B. Haynes made an address of welcome, extending the best wishes of all Randall county citizens to the guests of the day.

Dinner was served on the lawn at 12:30. There was a bountiful feast for all present.

After a social hour R. A. Terrill took charge of the stunt program in which there was a large variety of races and contests which were very exciting and interesting.

J. W. Reid made a short address at 3 o'clock in which he explained the plans for the memorial which will be erected for the Randall County boys.

At 4:30 the crowd gathered on the Normal baseball ground where the Canyon team, was trounced by the White Sox from Happy to the tune of 8 to 7. The Sox hammered the ball all over the lot, and together with some bad errors on the part of Canyon maintained a big lead up to the 7th inning when the Canyon gang got together and almost evened things up.

At night a reception was held for the men at Huntleigh Hall after which a short program and refreshments were served.

During the day a free canteen was

MONUMENT FOR MEN LOST IN WAR

The citizens of Randall County will erect a monument in honor of the ten men who gave their lives for their country during the great war.

J. W. Reid presented this matter to the people of the country last Friday at the Fourth of July celebration and the idea has met with unanimous praise among the citizens.

The monument decided upon is a beautiful marble fountain, standing 6 feet high, which will be placed in the Court House. On the side of it in bronze raised letters will appear the names of the ten men who gave their lives to their country.

It has been further decided to place upon the wall of the court house a bronze Hero Tablet, containing the names of the 210 men who went into the service from Randall County.

The total cost of both these memorials will be one thousand dollars. The amount each person gives will be left up to him to decide. Each person is requested to make a check payable to the Memorial Fund and leave it at one of the banks. From time to time lists of subscribers will be published in the News.

From the hearty response given the appeal by Mr. Reid it is certain that only a very short time will be required to raise the money which will be so wisely invested in a lasting memorial for the boys.

run for the men. A big box of candy was presented each man when he registered at the Red Cross room.

The Red Cross had bought a gold knife for each man, but these did not arrive in time for distribution on the Fourth.

The men appreciated the delightful program extending throughout the day and extend to the Red Cross thanks for the pleasures which were extended by the Chapter and all of the citizens.

Mule Smashes Finger

Grover Utz had the little finger of his left hand badly smashed and the other fingers of that hand more or less bruised Monday when a mule pushed him into the fence and caught his hand on a post.

Come to Canyon to live.

T. C. THOMPSON UNDERGOES OPERATION FOR APPENDICITIS

T. C. Thompson was taken ill Friday and Monday night was operated upon with an advanced case of appendicitis.

Word from his bedside this morning indicates that he is doing very nicely.

Mr. Thompson's many friends in Randall county wish for him a most speedy recovery.

PRESIDENT J. A. HILL IN AUSTIN REGARDING BILL

The educational appropriation bill is before the legislature, and President J. A. Hill of the Normal was called to Austin once more on Tuesday morning.

The bill as recommended by both the senate and house finance committees carries the appropriation of \$150,000 for the new dormitory.

The total recommended by the senate committee for the first year of the Normal carries \$320,845, while \$138,220 is approved for the second year.

Campfire Rally.

The Polka Campfire girls were entertained Tuesday evening by Miss Ruth Knight, in her home. Games story telling, music and contests made the hours pass quickly until eleven o'clock when lunch was served which all enjoyed heartily.

The guests of the club were Misses Phyllis Keiser and Beatrice Booth.

Singing Club Organized.

A part singing club has been organized in the city under the direction of Prof. Wallace R. Clark of the Normal. The club has twenty members, five on each part. Meetings are held weekly at the homes of the members.

Returned From France.

Raymond Glass returned yesterday from the army. He was in France, returning a few days ago and being discharged in Ft. Worth on July 1st.

Methodist Church.

Sunday School—9:45.
Preaching—11:00. Subject, "The New Heaven and the New Earth."
Epworth League—7:30.
Evening Service—8:30. At the evening hour, Brother C. W. Warwick will speak to us of his experiences and observations over in France.
Everybody cordially invited to all these services.

R. A. STEWART, Pastor.

Millennium Limited is still stalled.—Wall Street Journal.

"BAYER CROSS" ON ASPIRIN

Always Ask for Genuine "Bayer Tablets of Aspirin"

Only Aspirin Tablets with the safety "Bayer Cross" on them are genuine "Bayer Tablets of Aspirin," owned and made by Americans and proved safe by millions of people. Unknown quantities of fraudulent Aspirin Tablets were sold recently by a Brooklyn dealer which proved to be composed mostly of Talcum Powder.

"Bayer Tablets of Aspirin" should always be asked for. Then look for the safety "Bayer Cross" on the package and on each tablet. Accept nothing else! Proper directions and dosage in each Bayer package.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

 W. H. HICKS.

NO TRUE TEACHER WILL UNIONIZE, DR. GARTH SAYS

It seems as though the Teacher's Union as a movement is about to take the country. In many communities, about "one hundred," says the School Board Journal, the local associations have joined a larger association which is allied with the American Federation of Labor.

Though it may be true the teacher is receiving an inadequate compensation, though other lines are paying better, as, for instance, the calling of the railroad section hand, the ideal teacher will not unionize. He can not. No true teacher ever taught for money or ever will, because he can not. And when he unionizes for material advantage he ceases to be a teacher in the true sense of the word. No man or woman claiming to be in the profession can afford to make this moral sacrifice any more than can the preacher.

It is high time the teachers came to their senses. There are now too many of the "Unionist"-type in the school room, and to whose rather unassuming ideals the little child is exposed. This is not to say that the true teacher may not retire from the profession because of economic pressure due to high cost of living, but there should be nothing of the idea of coercion of the school board about it, for it is just this thing that contravenes true professional ethics. He may modestly retire, but not to unionize for advantage to himself.

To believe the situation is a very sad and serious one. This social service is in a bad way because the society he serves does not realize his needs. The task in hand is to convince the social representatives and the people back of them that the situation must be relieved, else the school rooms will be empty because of inadequate support by them.

Some four or five years ago this union movement was in its infancy in New York City. New York teachers were joining a union to look after their interests. But one needs to stop only to see that Texas teachers do not need to resort to such measures. They do not have to allow themselves to become afflicted with this new form of New Yorkitis—teachers' unionism.

Not so long ago a young Texas teacher with experience and preparation was taking under advisement applying for a position to teach science in a high school. The salary was small and his attention was called to the fact, but he replied that teaching was his work and he was going to stay with it. By the way, the salary was \$1,000 for nine months.

If the people from whom our schools spring do not want to pay a living wage to the men and women doing the work in the schools they should not be forced to do it by teacher unions and strikes. The doctor never struck, neither did the lawyer. No more should the teacher.

THOMAS R. GARTH,
 Department of Education, West Texas State Normal College.

An Educated Girl.

A girl's education is incomplete unless she has learned—

- To sew.
- To cook.
- To mend.
- To be gentle.
- To dress neatly.
- To keep a secret.
- To avoid idleness.
- To be self-reliant.
- To darn stockings.
- To respect old age.
- To make a good bread.
- To keep a home tidy.
- To make home happy.
- To control her temper.
- To be above gossiping.
- To take care of the sick.
- To take care of the baby.
- To sweep down the cobwebs.
- To be a womanly woman under all circumstances.

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply **IRON** and **QUININE** suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and **IRON** to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of **GROVE'S TASTELESS CHILL TONIC** has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get **GROVE'S TASTELESS CHILL TONIC** when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

PAIGE

The Most Beautiful Car in America

Supply and Demand

If you have found it impossible to secure prompt delivery of a Paige car, please remember that we share your disappointment and keenly regret our inability to have served you.

Our plants are now working at capacity with a very large production schedule, but, despite our best efforts, it has been impossible to keep step with the public demand. Once more—and for the tenth successive year—we are facing an alarming shortage of cars, and must ask our friends to bear with us for the time being.

In a very short time a greatly enlarged Paige plant will be in operation and we shall be

able to more than double our output. An army of men is now at work installing the equipment that will make this one of the great manufacturing establishments of the nation. It will cover more than fifteen acres of floor space and include practically every labor-saving device known to modern shop practice.

Until that plant is completed we must ask you to be lenient in regard to the delivery of Paige cars. Be patient with us for just a little while and rest assured that we are conserving your interests as a future owner of "The Most Beautiful Car in America."

MACHINERY ARRIVES FOR TEST ON CANYON SITE

Amarillo, July 7.—Although many new locations have been announced in this locality during the past month, interest is now centered on the new location made by the Palo Duro people. While the location was made several weeks ago, nothing has been done in the way of making drilling arrangements until recently.

This well is to be drilled at the bottom of the famous Palo Duro canyon, about fifteen miles south of Amarillo. All machinery and other equipment is now on the ground and the well will be spudded in Monday afternoon. This well will be a deep test and the people who are promoting it have arranged to drill 3,000 feet if necessary.

The Haggood No. 2, south of the famous Haggood gasser, is drilling at about 400 feet. Work on this test is being rushed.

Another test will be spudded in in Randall county at an early date. A Wichita Falls company has leased a large tract of land in this section and have made plans to thoroughly test their holdings.

The Glen Rio No. 1, in Oldham county, will be spudded in some time in July. Machinery has been received and with no delays this well will be well under way in a short time.

Capt. S. E. Burnett of Fort Worth has been in Amarillo for several days, looking over the field and inspecting his holdings in Carson county, where it is said a test will soon be begun. Geologists have shown this section much favor, and acreage in this section is rapidly advancing in price.

The Alaska-Amarillo Oil Company officials announced this week that they will begin drilling a new test on the Smith ranch some time next week. The derrick has been erected and at this time all machinery is on the ground. Local men are watching this test with much interest.

The Empire Oil and Gas Company will begin drilling on their holdings, north of this city, early in September. Their first test will be located east of the Haggood gasser. A contract for drilling has been let and the rig has been shipped.

The Amarillo Oil Company Jones No. 1, now about 1,000 feet deep, is waiting for casing. It has been planned to complete this well at an early date, but on account of several cave-ins, it was necessary to reduce the

hole, and as a result new casing was ordered.

Oil promoters from Ponca City, Okla., have secured several thousand acres of land in this section and will begin work on a test as soon as machinery is secured.

Jones No. 3 is drilling at 700 feet.

The Mid-West Refining Company is making arrangement to drill two wells near the Palo Duro test in Randall county. This company controls about 60,000 acres of land and several tests will be drilled later in the year.

KILLING THE GOOSE.

Some one is always killing the goose that lays the golden egg.

The poor bird has been slaughtered so often that it has become a commonplace event in the life, and death, of the creature.

Just now the bird is being offered as a sacrifice on the altar of human greed and profiteering. We refer to the retail profiteering in dressed beef. It can be easily proven that retail profits in handling dressed beef range from 70 to 100 per cent gross, and dressed beef prices are being kept on a parity with pork prices by the retail butchers of the country, and people are rebelling, that is the consumer is rebelling. He retaliates by cutting down the consumption of beef. He was taught, during the war period, how to get along without beef. His system was all run down as a result. Influenza hit the country while it was in the throes of beefless days, and people, on the verge of mal-nutrition because of the continued use of meat substitutes, died like rats in a trap.

But war times are past. We are on the verge of formal peace. There is meat aplenty. Producers are supplying beef cattle at a loss. They have them to sell for they bought them to finish for the use of a soldier that was fighting the battles of liberty. The war came to an end and now the producer has to offer to the civilian what the producer fitted for the soldier, and the civilian can not stand the graft, even if the producer has to.

The retailer is waxing fat on profits. Hogs are selling higher than cattle, and pork is attractive to the American public, particularly pork chops and cured bacon which are easily and quickly cooked in hot weather. The result of the whole situation is that the retail butcher has the chance of his happy young life to take such profits as he never dreamed possible in the days when the parity between beef and pork was about the same as exists at this time between pork and beef.

Congress is holding other profiteers in check. Why not handle the retail meat dealer? Why does the livestock association not buy space, if necessary, in city newspapers to expose retail profiteering in beef? Why not put a stop to the ruinous practice of the retailers?

The laboring men of the cities are the big meat eaters when they can afford to buy meat. They refuse to

recognize the fact that even at present prices, beef is the cheapest and best food known. Their wages are being advanced and their beef prices reduced, yet they continue to assail the producing farmer, instead of hitting at the retailer.

The reflex of the situation is that the laboring man is going to be even harder hit. The losses being sustained by the beef producers of the country are going to automatically reduce the supply of beef. As it becomes more scarce it will become even higher. The retailer will continue to take his profits as long as he is permitted to do so through the non-enforcement of public opinion's punishment for profiteers.

While the present situation is fraught with great danger for the beef producer, and great profit for the retail butcher, yet it is fraught with even greater potential danger to a nation that will sooner or later be forced to return to its beef diet, for the simple reason that beef is an American essential of rationing and diet.—Kansas City Drovers' Telegram.

PENALIZING THE EDUCATED.

Readers of the advertising pages of magazines are doubtless familiar with the typical display of the correspondence school. It generally contains illustration and text, and the latter is often embellished with mottoes and catchwords. "Get out of the Dinner Rail Class" is one of them. Another is "You can make more money with your collar on."

The picture often shows a rejoicing mechanic being greeted by his wife on his return from work, after being appointed superintendent. Or a cordial employer shakes hands with an overalled toiler, and tells him that he has been made an executive, as a result of taking a technical correspondence course.

But the argument begins to lose force. There are sign painters' helper drawing \$6 per day (scale), and draftsmen getting \$18 a week. There are executives at \$25-a week, and milk wagon drivers at \$35.

It begins to look as though a man is penalized for educating himself.—Electra News.

Have you bought your Thrift Stamp today?

Train Passes Over Small Boy.

"Rip" Davidson, the 5-year-old son of Mrs. Davidson of Roysse City, who is visiting her brother, George Canup, near Ford City, had a very narrow escape from death Saturday when the engine, mail car and the baggage car of the southbound passenger passed over his body at Ford City. The accident happened when young Davidson and one of Mr. Canup's boys of about 6 years of age, were riding a horse along the track while the train was approaching, the horse becoming frightened and dashed in front of the moving train. As the horse went over the track the boy fell from his back directly in front of the train. Eye witnesses say the cow catcher first picked the boy up and then dropped him between the ties, that portion

of the train passing over his body, as above stated, before the train could be stopped.

Fortunately the child suffered no injuries. It seems that he was lying in a place low enough between the ties to allow the engine and the cars to pass over his body without touching it. The child was very badly frightened when he was drawn from his place of safety. The horse ran into the mesquite with the Canup boy and it is said he received some scratches when the horse threw him.—Crowell News.

Booze lost caste because it interfered with business. Why not a little of the same propoganda concerning war?—Greenville (S. C.) Piedmont.

intelligently.

Do not accuse and condemn yourself hastily even as you should not be ever excusing and justifying yourself. Judge yourself as fairly and as charitably as you judge others.

Do not torture yourself for mistakes you have made. Forget them. Look forward, not back.

If you have any workable idea of God, use it to clean yourself, your conscience, every day, by unreserved confession. The spirit bath is as necessary to health as the body bath.

Speak cheerfully and encouragingly to yourself. No one can endure an atmosphere of continual criticism; and to be ever finding fault with yourself will loosen your courage and keep your nerves in a jangle.

Cultivate the acquaintance of yourself. Learn to be often alone. Be not afraid of solitude. Converse freely with yourself. Appreciate your own inspirations.

Treat your own opinions with respect. Follow your own convictions. Trust your own conclusions. Heed your own inclinations.

Every one knows his faults, sins, and limitations; but not every one knows his ability to withstand his evil inner impulses. Each of us has a sovereign Will. No one, not even ourself, can make us do what we do not will to do. Rejoice in this. Praise, magnify, and esteem your Will.

No one sinks to a low level except he loses heart; that is, except he gets into the way of despising himself. All degenerates, perverts, and down-and-outers are full of bitterness and self-hate. Do not slump into that state.

There is no joy of life for a normal person except in efficiency, and there is no efficiency without self-confidence.

Any sort of belief that leads you to trample on yourself, to be always degrading and abusing yourself, is morbid. It will grow on you, like picking a sore. Better be a cheerful unbeliever than have a sour creed.

Obstinacy, self-sufficiency, pride, self-indulgence, and silly egotism are bad. So are he opposites, indecisions, self-doubt, self-torture and self-contempt. Keep in the middle of the road.

Be a friend to yourself.

Current Carries Man Over Dam.
While bathing on the west side of the Carlsbad Light & Power Company dam, Lorene Harrington, had a very narrow escape from death Monday evening. The young man, with his parents and several auto loads of peo-

LONG & BAKER

A Friend To Myself.

By Dr. Frank Crane.

You ask what I have gained," wrote Seneca to his friend. "I have become a friend of myself. Such a man, to be sure, is the friend of all men."

Let me prescribe this thought to you as a spiritual pill. Take it three of four times a day. Say over yourself that phrase, "A Friend to Myself," until its meaning, its connotations, its overtones, echoes, and implications saturate you. It will pick you up wonderfully.

Respect yourself. Self-respect is consistent with genuine humility

Egotism goes with self-contempt.

Yourself is the one person you can not escape from; hence be on good terms with yourself. It's as hard to live with a nagging self as with a nagging wife.

To underestimate yourself is as bad as to overestimate yourself.

Avoid speaking of yourself in a disparaging way. To fall into the habit of saying, "I'm no good," "I know I am awkward," "I do nothing well," and the like, brings on a sort of spiritual auto-intoxication. And it is as disagreeable to your friends as boasting.

To love others as yourself is of not much value unless you love yourself

ple from Carlsbad, had gone to the river in the evening and a few went in swimming. Among them was young Harrington. After swimming a while he thought he would go out and sit on the dam, not realizing the depth of the water or swiftness of the current. He was washed over the dam by the force of the water and struck on his hip as he fell below the dam. Fortunately the water at that place was much deeper than is ordinarily the case and the depth of the water saved him from being beaten on the rocks which abound below the falls. No one was able to go to his assistance and to on-lookers it seemed as though the young man would surely drown. He finally managed to swim out, although he says he hardly knows how he did it. —Carlsbad (N. M.), Current.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 50c per bottle.

THE BOOSTING SPIRIT.

A lot of boosters breaking in on a town certainly does make a quiet spot lively for a few minutes. Tho we would rather see the parade from the shady side of the street than hoof it along in the hot sun, even if the band is playing and the dogs are barking and the ladies are smiling and the small boys are following the procession happy as larks. Trade excursions are far better than placing an ad on a fence post and getting in touch with people in a friendly way beats sitting on the street bench in the shade cussing the town and the government. The way to get business is to go after it and the town that goes after things in earnest, has no time to grow moss on its back and become a has been instead of an is-er. And another thing. If trade is not gotten on a trade excursion trip, the enthusiasm that is brought forth by the extra effort, the working together, the fellow feeling that is created, will end in an era of better business at home and after all that is the main thing. No bunch of men and women can set out to whoop'er up for their town and not be benefited by the effort, because the battle is half won when the better business is slated to be staged for the benefit of other parts of the country. When folks get to boosting in

the right spirit and with understanding, backing up their town by making it worth while for those who are in the trade center, then something has been accomplished. After the boosters are gone and the town visited has settled down once more to its old time quiet, the spirit of the good natured visitors still linger and the souvenirs scattered about remind folks that somebody has called. —Higgins News.

PROGRESSIVE WEST TEXAS

West Texas, like all other sections of the state, is looking for oil to burst out at a thousand points, but West Texas people have not got so oil wild as to lose sight of the intrinsic worth of West Texas farm land. They know that with fair seasons, the land will grow anything that trade and commerce may need and they are going right along to

produce crops. West Texas people are not dreamers. They are workers. They do not expect to get rich over night, but they do know that with industry and economy they will find themselves in good living circumstances and in line with the idea they are acquiring homes, supporting the schools, and churches, building roads and proceeding to surround their families with social, moral and intellectual comforts.

Certainly we want new people to come in and help develop our limitless resources and such new people will find welcome and have opportunity to buy homes. Now is the time to buy here. Land will never be cheaper. It is the history of all old settled countries, that land values increase with population and development and it is so here.—Snyder Signal.

"Meats in Storage"

Every working day of the year 75,000,000 pounds of meat are required to supply home and export needs—and only 10 per cent of this is exported.

These facts must be kept in mind when considering the U. S. Bureau of Markets report that on June 1, 1919, there were 1,348,000,000 pounds of meats in cold storage. If the meat in storage was placed on the market it would only be 20 days' supply.

This meat is not artificially withheld from trade channels to maintain or advance prices.

Meats in storage consist of—

- 65 per cent (approximate) hams, bacon, etc., in process of curing. It takes 30 to 90 days in pickle or salt to complete the process.
- 10 per cent is frozen pork that is to be cured later in the year.
- 6 per cent is lard. This is only four-fifths of a pound per capita, and much of it will have to go to supply European needs.
- 19 per cent is frozen beef and lamb, part of which is owned by the Government and was intended chiefly for over-seas shipment. If this were all diverted to domestic trade channels, it would be only 1 1/2 lbs. per capita—a 3 days' supply.

From this it will be seen that "meats in storage" represent merely unfinished goods in process of curing and the working supply necessary to assure the consumer a steady flow of finished product.

Let us send you a Swift "Dollar". It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.

Swift & Company, U. S. A.

It is believed that the Bolsheviks or the I. W. W. or some other thief of lower regions, is operating in the Vigo country. In addition to shooting Lee Klay a few months ago, Mr. Anderson's fence has been cut down

and the phone wire above it, and last Friday night Mr. Watson, who lives north of Vigo Park, lost all of his bacon, middlings, ham, shoulders and all, not leaving him enough for breakfast. —Vigo Park correspondent in

Case Tractors Lead All Others

Case outfits are the most dependable. The Case is made for every sized farm, made in five different sizes. On account of the scarcity of farm labor this year it will be necessary for every farmer to own a tractor in order to keep up the production that the government expects from Randall county. I have the Case Tractor and Separator agency in Randall county and ask you to call upon me for further information and demonstration of this tractor before buying.

L. T. LESTER
CANTON, TEXAS

WHY SOCKS HAVE "CLOCKS"

They Were Originally Made, It is Asserted, to Hold the Seams in Hosiery.

It is surprising how much of the past still remains, more especially in regard to the clothes we wear.

On the backs of most gloves will be found three thin strips. These marks correspond to the fourchette pieces between the fingers. In earlier times gloves were not made so neatly as they are today, and the stitching of the fingers was carried down part of the way on to the back of the glove, braid being used to conceal the seams.

To a practically similar reason does the clock on a sock owe its origin, says London Answers. In the days when stockings were made of cloth the seams occurred where the clocks are now displayed, the decoration being utilized to hide the seams.

The little bow which will invariably be found in the leather band inside a man's hat is a survival of the time when a hat was made by taking a piece of leather, boring two holes through it and drawing it together with a piece of string.

Handkerchiefs were not always square. At one time they were shaped to the user's fancy. It chanced that this irregularly displeased Queen Marie Antoinette, who suggested one winter evening at Versailles that a uniform shape would be an indication of good taste. The result was a decree by Louis XVI, issued in the early days of 1785, enacting that all pocket handkerchiefs should have right-angled edges henceforward.

IN HEART OF MOORISH CITIES

Houses to Which Few Visitors Penetrate Are Frequently Luxurious in Their Appointments.

Through the narrow lanes of Moorish cities the water carrier, who has filled his goat-skins at the nearest fountain, plies his trade from house to house. The town of Morocco does not extend open, smiling arms to the stranger. The houses present cold, forbidding fronts. The winding, irregular streets twist and turn in a bewildering fashion, and the low arches, often linking house with house, convert the streets into a series of high-walled, semiopen courtyards, still more confusing to the uninitiated. But if one is privileged to enter through the massive gates formidably re-enforced with heavy iron bars and heavily bolted, one may step into courtyards inlaid with mosaics and ornamented with laced arabesques, surrounded with arched passageways, richly carved and covered with luxuriant hangings; into a melancholy garden flagged with ancient white stones, where a marble fountain plays softly and great orange trees are outlined voluptuously against the white walls and the unclouded sky. Who knows how many wistful harem ladies have languished there, what fantastic tragedies have been spun on curiously fatalistic silken threads?—From "Through the Gates of the Moghreb," by Elsie F. Well, in Asia Magazine.

Sport in Haiti.

"Roosters that crow night and day and have no sense of proportion at all," is the way William Almon Wolff describes Haiti's only fowl of any importance, in an article in Colliers. In addition he accuses them of not being educated, "like the mass of the population," and of being ignorant of the fact "that a cock's business is to let an unobtrusive world which wouldn't notice the phenomenon itself, know that the sun has risen." "When it comes to cock fighting in Haiti," Mr. Wolff writes, "the rooster plays a very important role. Sunday afternoon is the great time for that," he says, "and all day Sunday you may see sporting Haitians going about with a gamecock or two under their arms. There are two rings in Port au Prince; thousands of men gather there every Sunday afternoon and bet on their favorites. Haitian cockfighting is not a very brutal affair; the birds aren't spurred. It is the custom for the owner of the losing rooster to cry quits before much damage is done."

Human Fraillies.

Our structure, both external and internal, is full of imperfection; yet there is nothing in nature but what is of use, not even inutility itself. There is nothing in this universe which has not some proper place to it. Our being is cemented with certain mean qualities; ambition, jealousy, envy, revenge, superstition, despair, have so natural a lodgment in us that the image of them is discerned in the brute beasts; nay cruelty itself, a vice so much out of nature; for even in the midst of compassion we feel within us an unaccountable bitter-sweet titillation of ill-natured pleasure in seeing another suffer; and even children are sensible of it.—Montaigne.

Did More Than Come Back.

Jane's mamma left Jane home alone for a few moments while she ran around to the store. Before going she told Jane that she positively must not let the cat in before she returned. Jane assured her mother that she would do as she was told and not let him in. Ten minutes later Jane's mamma returned and Jane sat where she left her, petting the cat.

"Jane," said mamma, "I think I told you not to let Kitty in until I came back."

"You did, mamma," replied Jane. "'I didn't let him in. He opened the door himself and walked in."

Wheat Guarantee Not A Bonus.

People in towns and cities should not get the idea in their heads that the Government guarantee of \$2.26 operates a bonus to the farmers. As a matter of fact, Government price fixing has so far operated in the other direction. The price of wheat now is far above the guarantee, and it may continue to be even after the new crop is harvested, although no one can say positively as to that.

When the Government fixed a price of \$2.26 for the 1919 for the 1919 wheat crop its purposes was not to give the farmer a bonus but to protect him against loss as a consequence of increasing his acreage to a point which would ordinarily be unwise.

The farmer has not been the pet of the government during the war. He has taken the short end of many a deal. The law of supply and demand has been repeatedly to his disadvantage.

Guarantees in other countries of wheat prices are as follows:

In Australia the government guarantee is .95 cents. Roumania \$1.61. British Isles \$1.64. These are minimum prices below which the price of wheat shall not go. The price promised in Brazil is \$2.16. Switzerland \$3.18. Holland \$3.30. Italy \$4.44 a bushel for hard wheat and \$3.96 for soft wheat, so we can see that Uncle Sam is not alone in the matter of guaranteeing the price of wheat. —Charles F. Walker, Emergency Demonstration Agent, Amarillo, Texas.

Carranza declares that he is out of the Mexican Presidential race. Perhaps his troops haven't enough ammunition to elect him.—New York Morning Telegraph.

It is hard, in a way, to blame the Germans for looking forward to the next war when they have nothing but the last one to look back upon.—Kansas City Star.

SATISFY!

—what the deuce does that mean?

It means that NEW thing in a cigarette, that does for your smoke-hunger exactly what a drink of cold water does for your thirst!

To satisfy, a cigarette must do more than please the taste—it must "touch the smoke-spot."

That's what Chesterfields do. They let you know you are smoking—they SATISFY.

And here's why—Chesterfields have body. The finer, silkier leaves of TURKISH have been properly blended with several varieties of the best DOMESTIC tobaccos, famous for their full-bodied flavor.

SATISFY is something that no cigarette, except Chesterfields, can give you—regardless of price. Because no cigarette maker can copy the Chesterfield blend.

Say "Chesterfield" to your dealer.

Lightly by the Tobacco Co.

Chesterfield CIGARETTES

—of Turkish and Domestic tobaccos—blended

This is the package with the moisture-proof jacket that keeps Chesterfield's original freshness and flavor intact.

THE EXPLANATION

Nature placed the growth-promoting "vitamins" in the oil of the cod-fish—this explains why

Scott's Emulsion

is so definite in its help to a child of any age. Latter-day science reveals that the "vitamins" are needful for normal growth.

Scott's Emulsion will help any child grow.

Scott & Bowne, Bloomfield, N. J. 19-2

REP. LEE SATTERWHITE EXPLAINS HIS POSITION

The following letter is published as an explanation of the recent article appearing in the Dallas News wherein it was stated Representative Lee Satterwhite had said Amarillo would move the Normal from Canyon:

Austin, June 30, 1919.
Mr. Ben F. Smith,
Lockney, Texas.

My Dear Ben:—

I have just read your editorial appearing in the "Beacon" of June 27, in which you make comment upon an editorial paragraph taken from the "Randall County News", concerning the West Texas State Normal, and in which you have used my name freely.

In this editorial you have made statements that are absolutely false and without reason. I have not said here or anywhere else that I favored moving the Normal from Canyon to Amarillo. I have not even made any kind of an assertion that could be construed that such a thought was even in my mind. Neither have I ever talked to any Amarillo citizen about the matter, and neither has the matter even been mentioned to me by any citizen of Amarillo.

I have always regarded you as a close personal friend, and just how you could make up your mind to make the attack on me that you have is

beyond my comprehension. I have always been friendly to Canyon, and the fact that the Appropriation Bill, reported out of the committee, carries an appropriation of \$150,000.00 to build a dormitory at Canyon, I think will be admitted by all the members of the committee, is due to the earnest plea I made for the appropriation, showing as I did the great need for it. If we succeed in keeping this appropriation in the bill through the House, it will be the first Normal in the State to be given a dormitory. I am very sorry, indeed, that such a charge as you and the "Canyon News" have made should have gotten into public prints. Such an article not only does me an injustice, but is an injustice to the citizens of Amarillo, who have made no such proposition as charged in your article.

Another think: Your charge that "the legislature has been niggardly in appropriations for this school every since it was established", is no more true of the Canyon Normal than of any other State Normal. As a matter of fact, the State has been more liberal toward Canyon than any other Normal, in that it has the most magnificent Administration Building than any other State institution.

As for the remark that Canyon paid \$100,000 for the Normal, it was made in connection with an argument I was making in opposition to the State selling its institutions to the highest bidder, which was only in line with my position on that question twenty-years ago. I stated that such a policy had forced a hardship on a number of Canyon citizens, and the State owed it to the school to build a dormitory, and aid the school in taking care of the boarding situation now existing at Canyon. In that statement I said that no higher class of people lived anywhere than the citizenship of Canyon.

Yours very truly,
LEE SATTERWHITE.

Come to Canyon to live.

Wheat Stocks Three Times Larger.

Commercial stocks of wheat reported in a survey made by the Department of Agriculture for June 1, 1919, amounted to 51,892,898 bushels. These holdings reported by 8,684 firms, comprising elevators, warehouses, grain and flour mills, and wholesale dealers, and represented nearly three times the stocks held by the same firms on June 1, 1918, the actual percentage being 274.5 per cent of the 1918 stocks. The figures refer to stocks actually reported and do not represent the total commercial stocks of the country nor do they include stocks on farms.

The commercial visible supply figures, as published by the Chicago Board of Trade for May 31, 1919, show 23,702,000 bushels of wheat, as against 1,146,000 a year earlier. The corresponding Bradstreet figures show 27,626,000 bushels, as against 4,379,000 for 1918. As compared with the same date last year, these figures, as well as those obtained by the more extensive survey, show a very great relative increase in commercial stocks of wheat on June 1, 1919.

A Bank At Booker.

The First National Bank of Booker, Texas, will open its doors for business about July 15, 1919, with a capital stock of \$25,000.00. The officers, stockholders and directors of this new institution are as follows: E. J. Thayer, president; C. E. Winder, cashier; C. Q. Chandler, F. L. Carson, Adolph Bissantz, H. E. Hoover, and Dorothy Thayer.

Booker is located on the new railroad, building from Shattuck to Spearman, in the northwest corner of Lipscomb county, 45 miles west of Shattuck and 40 miles each of Spearman. It is only three miles from the Oklahoma line.—Hansford Headlight.

A special machine will take care of your auto top repairing at Thompson Hardware Co. 13-1f

GAMBLE WITH THE GIANT

You may think you are not a gambler, but you are. Life is all a gamble. It's a game of chance from before you are born to after you are dead. You gamble every time you cross a crowded street—every time you ride in your automobile. Now, we ask you to gamble with us on an oil well. We'll drill it right there in the Panhandle, close to your home, as near the center of the district as we possibly can.

100 Percent Guaranteed

In order to facilitate the work of drilling by getting subscriptions on record in a hurry we're going to give you **100 per cent as a dividend** if you are in on the first allotment. This means you'll have to hurry. **Don't neglect this chance!** Buy today—**NOW!** Now, honest, the first ones to come in just naturally get a bonus of one additional share free for each one bought and they get **double profit** if we win.

We'll Drill You a Well

Everybody is buying oil stocks and some of them are fine buys. All that we are agreeing to do is to drill you a well right in your home territory. We'll drill it soon, too. If we get oil your share will be worth a fortune and you will be made rich by the increased value of your farms and ranches. If we don't get oil you lose what you invest. It's a gambling chance. But, remember, you are **betting** on your own home property. Every place in the Panhandle will be affected if we get a well.

Speed Counts

The first man on the subscription books is entitled to twice as much as the last man in. That's logical, isn't it? The books on this allotment will be open Aug. 2 to 5. But the time for you to buy is **right now.**

Millions Will Be Made

We're going to plunge right into it with the same sort of pep that we're putting into the campaign to sell this stock. And we **won't let you be fooled.** We won't even let you take a big risk. The least you can buy is **ten shares for one dollar** or **one thousand shares for \$100.** We won't let any one person invest any bigger sum. We know we might not get oil and you'd lose your money, so we're playing the game safe with everybody.

The Oil is There

Judge J. M. Elliott, of Memphis, writes to E. C. Nobles, president of the Giant Company, on this point. You know both of these men. Mr. Elliott quotes figures on a well drilled in the direction of Newlin and near old Saulsbury. Elliott says this well passed through **five oil sands**, at least one of which was "**pay stuff.**" But the well as never completed. The hole caved in and they ran out of money, or something of that sort.

THOMPSON HARDWARE CO.

Oh! Such Pain!
dizzy—
dragged—
down?
With dull
headache,

backache—racking with pain here or there—poor woman, she's one of many. On those days each month, when in other circumstances she would go to bed, she must still be at the desk or counter, or struggle through the day as best she may with her housework or her family cares. Usually she who feels those dragging-down or dizzy symptoms, and other pains caused by womanly disease, can be cured by Dr. Pierce's Favorite Prescription. It cures the cause of these pains. Faded, jaded, tired, overworked, weak, nervous, delicate women are helped to strength and health by Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. In liquid or tablets.

MEMPHIS, TENN.—For many years I have depended on Dr. Pierce's Medicines to keep me well and healthy. I was once restored to health by the use of the 'Favorite Prescription' and the 'Golden Medical Discovery' when other medicines and doctors had failed to give me any help. The 'Favorite Prescription' has no equal as a woman's medicine.—Mrs. E. C. WILSON, 629 N. 6th Street.

Notice No. 95.
THE STATE OF TEXAS.

To the Sheriff or Constable of Randall county, Greeting:

You are hereby commanded to cause the following to be published in a news paper of general circulation, which has been continuously and regularly published for a period of not less than one year next preceding the date of this Notice in the County of Randall, State of Texas, and you will cause said Notice to be printed at least once each week for the period of one week, exclusive of the first day of publication before the return day thereof:

Notice of Application for Guarlian to make an Oil, Gas and Mineral Lease.

THE STATE OF TEXAS,
To all persons interested in the estate of John Schramm et al Minors.

Romona Schramm Lee, has filed in the County Court of Randall County, Texas, an application for authority to make an Oil, Gas and Mineral Lease on the Real Estate belonging to John Schramm, Alfa Schramm, Edna Schramm and Olive Schramm, all Minors, which will be heard on Friday, July 11th, A. D. 1919, at the Court house of said Randall County, Texas, at which time all persons interested in the welfare of said Minors will appear and contest such application, should they see proper to do so.

Herein fail not, but have you then and there before said Court this Writ, with your return thereon endorsed showing how you have executed the same.

GIVEN under my hand and the Seal of said Court, this 3rd day of July, A. D. 1919.

(SEAL) O. W. GANO,
Clerk, County Court, Randall County, Texas. 14-12

A true copy I certify.
WORTH A. JENNINGS,
Sheriff, Randall County, Texas.

New Postmaster at Seminole.
Judson Roach last week received notice from the Postoffice Department stating that he had been appointed postmaster at this place. He expects to enter upon his duties as same in a few days.—Seminole Sentinel.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

BLUE RIDGE REPORT FINALLY ADOPTED

GOVERNOR HOBBY THEN SUBMITS THREE SUBJECTS RECOMMENDED BY COMMITTEE.

Austin, Texas.—The senate adopted without discussion the report of the Blue Ridge farm investigation committee, with an amendment by Senator Suiter, chairman of the committee, substituting the word "associate" for "partner" in referring to the relation of Governor Hobby and Walter J. Crawford. The report was also adopted in the house without opposition.

Acting upon suggestions of the committee which investigated the Blue Ridge farm transaction, Governor Hobby submitted the following subjects to the legislature:

First. The subject of making any and all changes necessary in the present law to assist the state in enforcing its rights in compelling compliance with and specific performance of the original lease contract and option to buy the Blue Ridge farm.

Second. The subject of the parole laws of Texas.

Third. The subject of amending or changing the present laws so as to provide such method of management of the prison system as in "your judgment may be deemed best."

The house bill as finally passed gives superintendents of all state eleemosynary institutions, with certain exceptions, an annual salary of \$2,500 per year, with an added allowance of \$500 for provisions and their housing, laundry, fuel and light. The exceptions are the superintendents of the confederate home and the confederate women's home, who each receive \$2,000 per year, and superintendents of the deaf, dumb and blind school for negroes and the girls' training school, who receive \$1,800 each. All the latter also receive the \$500 provision allowance and housing, laundry, fuel and light.

The bill authorizing the prison commission to erect a cement plant, the product to be used for road building, and appropriating \$150,000, aroused considerable opposition.

The Hopkins pool hall resolution was adopted after a refusal to table by a vote of 19 to 11. The resolution asks county and district attorneys to investigate operations of pool halls after May 1, 1919, so as to be able to prosecute in case the federal injunction against the state law is dissolved.

Two bills embodying water conservation recommendations of the governor were favorably reported by the senate committee on mining and irrigation with amendments.

The committee of civil jurisprudence reported favorably a bill enabling a person who has held title to land 25 years or more to remove defects to title and another providing that suits to be filed against a corporation be not abated by the dissolving of the corporation with the consent of the stockholders and that pending suits be continued and new suits filed.

A resolution asking the governor to submit legislation amending the state highway law so as to give counties not less than 75 per cent of the automobile registration fees, instead of 50 per cent, was tabled.

A current resolution to name a joint committee of two senators and three representatives to confer with the prison commission, the board of pardon advisors and the governor on recommendations made by the Blue Ridge farm report for the betterment of prison conditions, and especially the amending of the parole law, was adopted.

Austin, Texas.—A message under which a bill proposing to legalize boxing exhibitions in Texas has been submitted to the legislature by the governor.

A second message submits laws governing the practice of veterinary surgery, medicine and dentistry, for amendments.

The senate took up, as special order of business, a house resolution urging the United States senate to ratify the treaty of peace.

Only four representatives refused to sign the resolution when it was introduced in the house.

District and county attorneys over the state are requested to procure evidence against all pool hall operators in Texas who have enjoined the attorney general from enforcing the act, so that prosecutions may be instituted in the event the federal court holds the state-wide pool hall law constitutional, in a resolution introduced in the senate.

With a preamble setting out that the national comptroller has ruled that the carrying of cotton acceptances for one name in excess of 10 per cent of their capital by national banks is a violation of section 5200 of the national banking laws, a resolution urging Texas congressmen to work for a modification of the law so that the financial handling of cotton will remain as it was in the past, was adopted by the house.

Canadian Wheat is Commandeered.
Toronto.—Wheat in all Canadian elevators has been commandeered by the board of grain supervisors in order to provide Greece with 15,000,000 bushels within the next twelve months.

State Banks Can Not Buy Stock.
Austin, Texas.—For state banks to purchase stock in the International Cotton Export Finance corporation would be in violation of the state banking laws is the opinion of the attorney general's department.

Mr. Terrell succeeded in having adopted an amendment which provides that each claim for payment must be accompanied by an affidavit from the person to whom the scrip was issued, showing the amount of money he received for the scrip, if it has been sold, and that the present holder shall not be paid more than the original holder received. It was declared that much of this scrip has been bought up, and this amendment was adopted to prevent such purchasers, who bought it at a heavy discount in most cases, receiving more for it than they paid the original payees. After the adoption of this amendment the bill was engrossed, 55 to 32, with four present and not voting.

The agricultural committee reported favorably the resolution urging county commissioners' courts to provide seed pecans and require county road hands to plant them along the public highways throughout the state.

The house adopted a resolution requesting the Texas delegation in congress to seek an amendment to the national banking act so as to permit banks to lend in excess of 10 per cent of their capital and surplus on cotton.

The senate bill making an appropriation of \$1,483 for additional clerical help in the land office up to Aug. 31, on account of the rush of work occasioned by the oil boom, was passed finally.

A resolution was adopted in the house urging upon the Texas delegation in congress to use their efforts to bring about a reimbursement to the wool growers of Texas estimated at thirteen cents a pound on wool purchased by the government by "an unfair appraisal."

Inauguration of a civil service system for Texas is urged by the governor in a message transmitted to the legislature. The governor proposes that a law shall be passed placing all employees of the state "upon a basis of competency and individual merit."

The senate has begun the consideration of the judiciary appropriation bill carrying an appropriation of \$2,832,756 for the support of the judiciary for the next two fiscal years.

A petition was sent up urging upon the legislature to pass a law requiring oil companies to file sworn statements of their assets.

Austin, Texas.—The national equal suffrage amendment was ratified by the senate when it finally passed the house joint resolution by a viva voce vote. The final vote was taken so quietly that the few spectators hardly realized what had occurred. Seven senators were absent when the vote was taken. They were Senators McNeal, Johnston, Woods, Parr, Carlock, Clark and Strickland.

While it is not necessary for the governor to sign the resolution, it will be sent to him for his approval.

Suffrage leaders who had been in Austin working for the resolution are rejoicing over the victory and the especially elated that Texas is the first southern state to ratify.

President Wilson was invited to visit Austin and address the legislature on his tour of the country in the interest of the league of nations by the adoption of a resolution by Senators Smith, Cousins and Caldwell.

Austin, Texas.—Governor Hobby has sent a number of additional subjects to the special session of state-wide interest. Among the matters tendered was that proposing a bill levying a state ad valorem school tax of 35c on each \$100 of assessed valuation for 1919 and annually thereafter and authorizing the state board of education to use sufficient funds therefrom for the purchase and distribution of free textbooks as authorized under the free textbook amendment to the constitution. The present state school tax rate is 20c.

An amendment to the state depository law was submitted which would enlarge the method of remitting to state depositories so as to include cash, registered letter, postoffice money order, express order, or by check or draft on any bank, provided, that the liability of the remitter shall not cease until the state actually gets the money. At this time drafts and checks can not be accepted under the law.

The governor submitted the subject of a bill vetoed at the regular session. The act offered provides for the sale, development and patenting of mineral deposits, places, veins, lodes or any rock or aqueous solutions carrying metallic or nonmetallic substances of value excepting oil, natural gas, coal and lignite that may be in any of the land of the public free school fund, university fund, the several asylum funds, that may have been heretofore sold or disposed or which may hereafter be sold with the reservation of minerals therein and all of said lands as were purchased with a relinquishment of the minerals therein, and all lands of which the mineral rights therein have or shall have reverted to the state of Texas, and the said mineral substances that may be in any fresh water lake, salt water lake, inlets, marshes, reefs, islands and river beds and channels which belong to the state.

Interurban Survey Nearing Denton.
Denton, Texas.—Preliminary survey for the Dallas-Wichita Falls interurban has been made to Denton and the actual survey has progressed as far as Lewisville.

610 Miles in 4 Hours and 32 Minutes.
San Francisco, Cal.—Captain Lowell Smith and Lieutenant J. W. Sharpnack, army aviators, made a non-stop flight from San Diego to San Francisco, a distance of 610 miles in 4 hours and 32 minutes.

I. W. W.s At Work.

At the beginning of the week there were some complaints registered as to the I. W. W.s trying to get next to the harvest hands who were showing up in Hooker for harvest, and getting some of them to hold out for wages that were out of the question. In one instance they drug hands off the farms where the farmer had been holding and boarding the hands for

the past week, and getting these fellows to join them for higher wages. Some of them were asking \$10.00 a day for stacking, and wanting to know the whole history of the family affairs before they would accept, and then would not the chances were, take the job.

This is one of the classes of labor that will not be tolerated in and around Hooker, and it looks like

there will be another tarring and feathering of a bunch if the citizens get hold of them. The farmers are willing to pay a reasonable wage but the citizens and farmers will not tolerate the I. W. W. class for five minutes. Keep your eyes and ears open and notify the citizens of Hooker if you have this element in your midst and we will guarantee that you will not have them long.—Hooker (Okla.)

LIVE IN PRIMITIVE STATE

Tribes in Interior of Venezuela Have Had Little Contact With Civilization.

Almost every tribe and race has found the secret of fire, even though civilization has not come near them. Needless to say, matches are unknown except as they have been carried into distant lands by white men, and fire is made by rubbing sticks together, with a sort of flint and tinder or, as in the case of the Macaos, with a drill.

These "people of the mist," as the explorers into the interior of Venezuela call them, keep their fires burning steadily from one year's end to another, but if a new one is needed it is started by drilling into wood until it bursts into flame.

The Macaos share the Indians' love of painting their faces and, like them, use bow and arrow for hunting, but go about swathed in heavy clothing, much like that of the Arabs, because of the cold of the region in which they live.

The homes of the Macaos are all built on hilltops, and the average altitude of the settlement is 3,000 feet. They cultivate sweet potatoes, bananas and maize, out of a combination of which they make a very strong fermented drink for use at feasts, and they are also exceedingly clever at basketry and other weaving, but are among the most uncleanly of all tribes and never, so it is said, take a bath unless unexpectedly caught out in a rain.

GOOD HEALTH RULES FOR ALL

English People Have Many Ideas Which It Would Be Well for Americans to Copy.

One of the most popular forms of food in England is cheese. This supplies a highly concentrated protein food which, when properly ripened and masticated, is usually well assimilated. Not only does this food contain a large percentage of protein, but it also contains fat and mineral salts. When combined with bread, which is a carbohydrate food, cheese makes an ideal combination, supplying as it does all the elements necessary for nourishment—protein, fat, carbohydrate and mineral salts.

Cheese and bread is a very popular form of food in England and it is eaten by all classes. Being an economical food, it is eaten to a larger extent by the laboring classes, who, owing to the sort of work they do, require a good tissue builder at a moderate price.

It is well to remember that part of the health of the English race is due to the fact that the English life is an outdoor life, and it is a very good thing for us to profit by this and cultivate at all times, in ourselves and in our children, the habit of getting outdoors as much as possible.

Where "Loot" Originated.

The word "loot" came into the English language by way of India, and is supposed to be derived from the Sanscrit "lotra," signifying booty. Originally all booty taken from the enemy in war pertained to the crown of the victorious nation; the title thereto being regarded as indisputable. The crown was supposed to dispose of these spoils of war according to its pleasure, bearing in mind the services of the captors of the matter. This was, indeed, the basis of prize law at sea. But at every international congress at which the laws of war and of mutual relations came under discussion it was agreed to exempt from seizure private property on land and to restrict confiscation to the national property of the foe.

Art for Many.

"I do not want art for a few," said William Morris, "any more than education for a few, or freedom for a few"—and civic art is essentially public art. It has been likened to "a fire built upon the market place, where every one may light his torch; while private art is a fire built upon a hearthstone which will blaze and die out with the rise and fall of fortunes."

"Beauty in art is truth bathed in the impression, the emotion that is received from nature. Seek truth and exactitude, but with the envelope of sentiment which you felt at first, if you have been sincere in your emotion you will be able to pass it on to others."—Industrial Arts Magazine.

Consistency.

A foolish consistency is the hobgoblin of little minds, adored by little statesmen and philosophers and divines. With consistency a great soul has simply nothing to do. He may as well concern himself with his shadow on the wall. Speak what you think today, in words as hard as cannon balls, and tomorrow speak what tomorrow thinks, in hard words again, though it contradict everything you said today. Ah, then, exclaim the aged ladies, you will be sure to be misunderstood. To be great is to be misunderstood.—Ralph Waldo Emerson.

The Higher Learning.

The schoolmaster was calling on an indignant mother. "For my part," babbled the good woman, "I can't deceive what on earth eddification is comin' to! When I was young, if a gal only understood the elements of distraction, provision, replenishing, an' the common dominator, an' knew all about the rivers an' their obituaries, the currants, an' the dormitories, the provinces an' umpires, they had eddification enough!"—Success.

Cattle—Beef cattle steady to strong she stock steady to weak; canners steady; bulls strong to higher; stockers strong; vealers strong to 25c higher. Beef steers, prime heavy-weight \$14.10 @ 15.35; choice light weight \$12.85 @ 15.40. Butcher cattle, common heifers \$7.50 @ 13.50; bologna and beef bulls \$6.75 @ 9.75. Veal calves, \$14.25 @ 16.25. Feeder steers, \$9.90 @ 13.15. Stocker steers, \$7.60 @ 12.40. Stocker cows and heifers, \$6.85 @ 10.35.

Sheep—Market steady to 25c higher; lambs \$13.50 @ 16.75; yearling wethers \$9.50 @ 12.50; ewes \$4.50 @ 7.25.

Chicago, July 8.—Fresh strength became manifest in the corn market today, chiefly owing to scarcity of supplies and to continued record breaking advances in the value of hogs. The corn market closed nervous 1-8c to 4 1-8c net higher with September 192 38 to 182 58 and December 161 5-8 to 161 7-8. Oats finished 1-2c to 7-8c to 1c higher, and provisions varying from unchanged figures to 17 cents gain.

Vim, Vigor, Victory.

Do it—go to it,
Pitch in and get through it.
The road to your goal is in plain sight, pursue it,
pursue it,
The ruts and the rocks in the way will diminish.
In number, as you press yourself to the finish.
Hesitation won't shorten and doubt won't reduce
The distance or effort, so what is the use
Of hemming and hawing and watching the clock.
Each life has just so many hours in stock.
Today is the time—do it now—do it now!
Experience can only teach a man how to handle his problems and learn to prevail;
You timid, unconfident folks always fall.
Success is a habit of mind; if you dare
And persist long enough, you'll arrive anywhere.

SWAT THE FLY

(By Mary Eleanor Kramer.)

"Oh, every fly that skips our swatters, Will have five million sons and daughters, And countless first and second cousins; Of aunts and uncles, scores and dozens, And fifty-seven billion nieces; So knock the blamed thing all to pieces." —Walt Mason.

Vitalized Agriculture teaches the rural school boy and girl the necessity of eradicating the fly. This is a part of the rotation plan. Charts, leaflets, booklets, and plans for the making of fly-traps are help furnished teachers to aid in this most

A female fly lays about 120 eggs at a time. She lays two, three, or four batches of eggs. In one day the eggs hatch into little white maggots. After five days each Maggot goes into the pupa stage. Five days later the

fly emerges full grown from the pupa. Fourteen days later the female flies lay eggs and start other big families on their way. Swarms of flies during July and August mean that we have not been busy swatting flies during the early spring months.

Let us make up our minds that we will not have flies in the house. Every member of the family should know that flies carry filth and disease germs, that they are dangerous, that they are now more disgraceful than bedbugs. Don't let mother do all the fly swatting. Every member of the family should help.

- 1.—Screen porches, doors and windows.
- 2.—Tray the flies—Swat the flies.
- 3.—Clean up our back yards and alleys.
- 4.—Haul out the manure.
- 5.—Keep garbage covered.
- 6.—Kill the winter flies.
- 7.—Make all privies fly-proof.
- 8.—Join with your neighbor to get rid of flies in your community.

Each community breeds its own flies. Flies do not travel more than 100 yards from their breeding places. We should prevent breeding of flies. Watch the fly as it is born on the manure heap. See it walk over the slop and garbage, wallow in the disease-laden privy vault, bath in the consumptive's cuspidore, and then wing its blithesome way to the house.

Follow it through unscreened window or door and notice it cleansing its filthy body in the milk pitcher, dropping its specks on the baby's lips, or gathering with its companions on the nipple of the child's nursing bottle. Fresh from the act of eating the most disgusting filth, how often has it crawled over your face, drinking the perspiration and irritating you with its persistent, hateful touch?

The fly that creeps over the face of a tubercular patient in the palatial home, in the cottage, or hospital, may deposit a deadly germ on the lips of a healthy person in your house, making another victim for the great white plague.

Manure: Clean daily from milking sheds and horse barns.

Treatment for manure: 10 oz. of Borax to 8 bu. fresh manure. Sift borax over manure daily. Sprinkle with 2 or 3 gallons of water. Easy, economical, effective. Cost about 1c per horse per day.

Pig pen: Keep dry and clean.

Garbage: Keep it covered.

Trap the fly before he gets into the house. There are several traps which can be made easily. Hang the trap about ten feet from the back door or put it near the stables or out houses. Protect it from the wind. Bait it with banana peeling, sugar and vinegar, or a piece of meat.

Some people think they can keep their home sanitary by cleaning up their yard and dumping the trash on the other side of the fence. But the height of the fence does not bother the fly.

Filth always attracts flies, and carelessness about leaving garbage about, or throwing refuse or slops in the back yard, soon advertises itself to the flies.

If you want to know about a family look at their back yard. It is an insight to their character, their health and their citizenship.

Finally, keep everlastingly at it. That is the only way to succeed in anything, and it is especially true in combating a pest, such as the fly, which multiplies with such alarming rapidity.

LIST YOUR LAND NOW

I am now lining up a large list of prospective buyers of Plains land. I can turn your property if the price and terms are right.

Eight years experience selling land in Randall County.

S. B. McCLURE

Office Phone 275 West Side of Square
Residence Phone 229 Canyon, Texas

Sheriff's Sale.
THE STATE OF TEXAS,
County of Randall.

By virtue of a certain Execution issued out of the Honorable County Court of Randall County, on the 12th day of May 1919, by O. W. Gano, Clerk of said Court against J. D. Bybee, for the sum of Two Hundred Ten and 50-100 (\$210.50) Dollars and costs of suit, in cause No. 537 in said Court, styled Grover C. Utz vs. J. D. Bybee and placed in my hands for service, I, Worth A. Jennings as Sheriff of Randall County, Texas, did, on the 8th day of July 1919, levy on certain Real Estate, situated in Randall County, described as follows, to-wit:

All of the Southeast 1-4 of Block 10 in Heller Addition, to Canyon, Texas, and levied upon as the property of said J. D. Bybee and on Tuesday, the 5th day of August, 1919, at the Court House door of Randall County, in the city of Canyon, Texas, between the hours of ten A. M. and four P. M. I will sell said property at public vendue, for cash, to the highest bidder, as the property of said J. D. Bybee by virtue of said levy and said execution.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Randall County News, a newspaper published in Randall County.

WITNESS my hand this 8th day of July 1919.
WORTH A. JENNINGS,
Sheriff Randall County, Texas. 15-43

CALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate. Children and grown folks can take Dodson's Liver Tone because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

New Patent Saves Oklahoma Wheat.
Eighty-five per cent of the Grady county, Okla., wheat crop which was beaten to the ground several days ago by hail, is being harvested.

The wheat is being saved by use of "extension guards" on the binders. This guard is an implement attached to the binder directly in front of the sickle; it raises the wheat stalk and thus places it in a position to be cut by the sickle.

S. A. Anderson, a blacksmith of Snyder is the patentee of the extension guard. It is said that Mr. Anderson has been offered \$50,000 for his patent but declined the offer, stating that he intended to organize a company and manufacture them. The guards are being used in all sections of southwestern Oklahoma, where the hail beat the wheat to the ground.

The Railroad Is Coming!
The railroad is coming, even the most "Doubting Thomas" has to admit that there no longer any doubt about it. They will have passed Booker, this week which puts them within 15 to 18 miles of Perryton, and in 30 days if no serious mishaps they will be at Perryton. The long look-

Taking the "If" Out of SUMMER SUITS

Most Summer Suits are made with an "if" in them—There is something "left out" to make up for what is "put in."

The kind of Summer Suits we sell are tailored—they fit right—they look right—they wear right.

Following out our business policy, we are giving you the very best values in summer suits, as well as any other merchandise that money can buy, at a small ordinary margin of profit.

Look around a bit—Come in and See us—Then see for Yourself.

No More—No Less Values, \$20.00	Mohair Suits, Very Fine \$12.50 and \$15.00 Palm Beach Suits

ed for has arrived after years of waiting, and within short time this county will pass from a sparsely settled country to a well settled country prosperous farming country. This season has prospect for the most bountiful crop the country has ever had. Hundreds of farmers will come to this county in the next few months, and sure enough we are going to get on the map.—Ochiltree Herald.

Contract For School Building Let.
We are very much pleased to announce this week that the contract for the erection of our new school building has been let. The trustees were closeted with John L. Scott, a

well known architect and contractor almost all day Tuesday, and building was finally awarded to the above gentleman for a consideration of the sum of \$24,000.00, the contractor to wreck the old school building and use as much of the material in it as possible.—Brownfield Herald.

As a flight captain. Villa is a success.—Philadelphia Public Leader.

In spite of the fact that out men are being drafted for Sunday work in the harvest fields, the Sunday school attendance on last Sunday was fairly good. The reports from the different churches are as follows:
Methodist—Girls 92, boys 0.
Presbyterian—Girls 21, boys 13.
Baptist—Girls 60, boys 11.
Church of Christ—Girls 25, boys 1.
Christian—Girls 19, boys 2.
Episcopal—Girls 9, boys 3.

Miss Golda Gruver a training school teacher was taken home Saturday on account of sickness. We have not had any late reports but hope she will be able to return to her work soon. Ernest Graves of Lieb, Texas, spent the Fourth with his sister, Miss Hazel Graves.

Miss Florence Scott of Tulia visited friends in Canyon Friday. Mr. Hill was called to Austin Tuesday on business.

Mrs. Hill entertained the faculty and their families with a lawn party Tuesday evening at her home.

Miss Saxche Simms of Panhandle spent last week-end with friends in Canyon.

Misses Mary Meadow and Eris Gustavus of Amarillo spent last week-end with friends in Canyon.

Misses Fay Morris, Vada Waldin, and Mary Eunice Durham spent the Fourth with friends at Post.

Misses White, Cousins, Beard and Rimmers were Amarillo callers Monday.

Mrs. Bob Mims, who is going to Colorado, spent Sunday night with her daughter, Miss Robbie Mims.

Mr. W. B. Mahan made a week-end visit to Tulia.

Misses Florence Elkins left for home last Sunday.

Misses Mae Parks, Lena McCormick Kate Hedgecock and Hazel Groves spent the week-end in Wayside.

Miss Mattie Kirk who has been visiting relatives in Dallas the past few months, returned home Friday.

Mr. Jim Keffer of Miami spent the Fourth with his brother, Chas. Keffer.

Miss Viola Rushing spent last week at her home near Floydada.

Miss Virginia Lower, a former student visited friends in Canyon Tuesday.

Delbert Bivins, Will Word, Lola Mae and Pauline Lindley of Brownwood spent Sunday in Canyon visiting Miss Bertha Bell McClendon.

Dawsey and Opal Daniel of Abernathy spent the Fourth in Canyon visiting their sister, Ruby.

Mr. Savage and President Hill were Amarillo callers last Monday.

Mrs. Foster, a student in the Normal was called away Tuesday because of the death of her niece.

John Payne of Hale Center spent Sunday and Monday with friends in Canyon.

There was a reception given at the Huntleigh Hall Friday night for the soldierboys of Randall county and their friends. In addition to a musical program by Mr. Clark, Lieut. Charles H. Keffer, Capt. Wm. Younger and C. W. Warwick gave addresses.

Miss Ruby Daniels spent Saturday and Sunday at her home in Abernathy. John Jones of Abernathy visited his daughter, Miss Thelma this week.

The Fourth was really a big day in Canyon. Music by the Boy Scouts' band of Tucumcari was one of the enjoyable features. The ball game between Canyon and Happy resulted in a score of 8 to 7 in favor of Happy.

Recently the students from Lubbock county, 38 in number, met and organized a Club. The following officers were elected:

Katie Bell Crump President
Edwin Martin Vice President
Girard Lochey Secretary

The club is planning a picnic for next Monday.

Pleasant View Items.

The row crops are needing rain pretty badly at present. Most every one are done cultivating.

Mr. Lovet Nobles had the misfortune to stumble and cut his foot on the cycle guard last week.

Mrs. Jacob Dinkel who has been sick the past month is slowly recovering.

Mrs. Frank Brown's mother is visiting at Frank Brown's home this month.

Mrs. Ed. Harris of Oklahoma is visiting her folks at the Schramm home this summer.

W. E. Tucker is harvesting his wheat this week. He reports it pretty good.

Roy Gibson is helping harvest near Happy.

Quite a number of this vicinity went to Canyon to celebrate the
