RANDALL COUNTY NEWS, CANYON, TEXAS, THURSDAY, SEPTEMBER 4, 1919.

NUMBER 23

TRADES NEXT MONDAY SEPTEMBER 8 IN CANYON

NEXT MONDAY, SEPTEMBER 8th, WILL BE A BIG DAY IN CANYON—ALL OF CITIZENS INVITED

Next Monday will be the regular monthly Trades Day in Canyon.

At the meeting of the Canyon Business Men's Association Friday night at the News office, it was decided to make the September Trades Day the biggest one that has been pulled off in Canyon far this year.

The Trade Excursion Trip will be run Friday of this week, going out to the west part of the county. O. N. Gamble, H. W. Gouley and W. J. Stewart are looking after the trip and will outline the trip. Each business house in Canyon is expected to have a representative in the Trade Excursion. The cars will start promptly at nine o'clock.

A committee composed of C. H. Jarrett, C. D. Lester and R. A. Terrill will look after the entertainment for the day.

The auction sale will be held during the afternoon, with J. W. McCreary of Wayside auctioneering. All farmers are urged to bring in anything they wish to dispose of at this sale. The sale has been a great success during the past and by putting up articles not needed around the farm or home, it will continue to grow each month.

A finance committee composed of T. C. Thompson, C. H. Jarrett, S. B. McClure and Wilford Taylor, was appointed to increase the membership of the Association.

A committee composed of D. A. Park, Wilford Taylor and C. W. Warwick was appointed to investigate the possibilities of adding the Wayside territory to Randall County.

City Property Sales.

Dr. T. R. Garth has bought the house south of the mill and will move it to lots in the east part of town.

N. C. Browning has sold his property in the west part of town to W. D. Boland of Erath county.

L. G. Allen has sold half of the block he recently bought from L. G. Conner to R. C. O'Keefe of Panhandle.

Wilford Taylor has bought the Dr. Stewart house south of the D. A. Park residence.

Mrs. A. M. Jones of Abernathy has bought the J. A. Wallace residence.

Dr. D. M. Stewart has bought the Stewart Brown residence of Burroughs & Jarrett.

C. W. Warwick has sold his residence to Lloyd Ackerman who has been elected to the Normal faculty, taking the position recently resigned by Dr. Buchholz.

Edgar Money has bought W. G. Baker's residence.

John T. Holland has sold to John Toles the residence he bought last week on Chestnut Street.

John Toles has traded the house he bought this week from John T. Holland to W. J. Wotten for a house in Happy.

Reception for Dr. and Mrs. Buchholz

President and Mrs. J. A. Hill gave a reception Thursday night at their home in honor of Dr. and Mrs. John T. Buchholz who left Friday for their new home at Fayetteville, Ark. A last number of guests from the Normal faculty and citizens of the town were present to extend to Dr. and Mrs. Buchholz their very best wishes in their new field of labor.

Refreshments of punch and cake were served by the hostess.

Asking for Y. M. C. A. Funds.

Merrill E. Brown, representing the Y. M. C. A. central committee of Texas, was in the city Thursday in the interest of the association, which is seeking funds to carry on the work in Texas.

A committee composed of C. R. Burrow, L. F. Sheffy and C. W. Warwick will take this matter up with the people of the county during the coming month.

Come to Canyon to live.

Building Notes.

Work on the L. F. Sheffy home is progressing nicely. The finishing work will be started within the coming week.

J. C. Barnett has started a new house on the land he recently bought east of town. The house will be on the location of the Younger house which was moved to lots near the Normal.

L. G. Allen has started a new house on the block he recently bought east of the Bradford home. He has sold the west half of the block to R. C. O'Keefe of Panhandle, who will build a new house there.

The driveway on the Black Bros. Filling Station is about completed. The building will be completed within a short time.

Family Reunion.

Fred Gilmer and family of Tulia were guests at the home of his sister, Mrs. W. H. Boehning last week. Other relatives and friends present Monday and Tuesday were Mrs. Boyl of Tulia, Miss Hayes of Ft. Worth, Mr. and Mrs. Tom Schaeffer and children of Plainview, Mr. and Mrs. Gunke and son, Oscar, of Tulia, and their daughter, Mrs. Geo. Vaughn, Mr. and Mrs. Fink, son and daughter of Tulia, Mrs. Schaeffer of Plainview, Mrs. Bingaman and daughter, Mrs. Kramer of Canyon.

Shotwell-Carr Wedding.

W. H. Carr of Silverton and Miss Beulah Shotwell of this city were married Sunday afternoon at the parsonage by Rev. R. A. Stewart.

The bride is the daughter of Mr. and Mrs. S. A. Shotwell of this city, and is well known and highly respected by a large number of friends of friends in Canyon. The groom is a prominent young man of Silverton, who is also well known in Canyon.

Their many friends are extending hearty congratulations.

Former Student Dead.

Superintendent C. L. Sone was called to Tulia this morning owing to the death of Jack Stringer. He was a pupil under Mr. Sone in the Tulia and was a student in the S. A. T. C. of the Normal during last year.

DISTRICT COURT OPENED MONDAY

Very Little Business This Week—The Grand Jury Adjourns Until Fourth Week of Court

The grand jury was chosen when district court opened Monday morning and after deliberating until Wednesday night adjourned until September 22. No bills were presented to the court. The following men are on the grand jury:

G. G. Foster, foreman, Emil Schaeffer, I. W. Scott, J. B. Younger, J. T. Service, T. V. Slack, R. G. Oldham, J. M. Craig, J. B. Hensley, A. N. Bergan, Otto Rahlfs, C. D. Coffee.

The petit jury which appeared on Monday was set over until Monday, Sept. 15.

A jury will appear next Monday. The criminal docket has been set for that time by Judge Henry Bishop. The most important criminal cases for trial are against Ben Faulkner for theft of a mule. He was indicted at the last term of court. And the case against Dick Fitzgerald of Amarillo who is charged of highway robbery. He is now under sentence under previous convictions in other cases.

The disabilities of John Menke, a minor, were removed.

The case of Viola Virginia Alexander vs. Henry Alexander, divorce, was heard, but no verdict has been handed in by the Judge.

The case W. H. Ground vs. E. Van Metre et al., was tried, resulting in a verdict for the plaintiff.

Buys New Tractor.

Geo. Frank has bought a new 15-30 Hart-Parr tractor. He is using it to pull 2 D-3 Oliver plows. He bought the tractor from the Southern Border Motor Company of Amarillo.

Land Sales Made.

J. B. Gamble has sold a section southeast of town to Sloan and Smeiser of Amarillo.

Dr. S. L. Ingham yesterday sold his farm east of town to Will Foster.

The J. A. Hazelwood farm northwest of Canyon was sold this week to D. E. Covington of Lockney for \$32.50 per acre.

Ball-Barnett Wedding.

Miss Ida Barnett and Richard E. Ball of Krum, Texas, were married Thursday afternoon at the J. C. Barnett ranch east of the city at 2:30 o'clock, Rev. A. B. Haynes of the Presbyterian church officiating.

Miss Barnett is the daughter of Mr. and Mrs. J. C. Barnett. She is a very successful teacher and was a student in the Normal. Mr. Ball is a farmer, but before going to the army last year was a student in the Normal. Both of the young people are well known in Canyon and have a large number of friends who extend best wishes for a long and happy wedded life.

MR. AND MRS. ELLERD, PARENTS SEVENTEEN CHILDREN

James T. Ellerd of near Abernathy was in to see the editor of the News Saturday. He remarked that he and his wife were the parents of possibly the largest family on the Plains. To them have been born seventeen children, eleven boys and six girls. Of these two have died. All the others are living near Abernathy. Four sons are married, H. C., R. J., J. T., and Arthur Ellerd, and one girl, Mrs. J. H. Benefield. They own their farms and the Ellerd family in that community is this year cultivating nine hundred acres of row crops.

The youngest child is eight years of age and the oldest is thirty-two. There were two sets of twins. Not a child is in any way deformed. Mr. and Mrs. Ellerd are healthy and robust. He is 54 years of age. There are ten grand-children. Very often the entire clan gathers at the Ellerd home, and there is quite a gathering. Seven of the boys registered in the army draft; three were in the army, and one went to France, and is back home with an honorable discharge.—Plainview News.

350 TEACHERS IN JOINT INSTITUTE

Sixteen Counties Present, and Vote to Return for Institute Work the Coming Year.

The teachers from sixteen counties, numbering 350 are in attendance at the Teachers' Institute at the Normal this week.

The teachers of Carson and Hansford counties came after the announcement was made that only fourteen counties would be present.

A vote was taken and the agreement was unanimous to return to Canyon next year. An effort will be made to bring in a much larger number of counties next year.

The program is being carried out in full as published in the News. The teachers are highly pleased at the efforts the Normal is making to have a strong program and only praise has been heard for all of the arrangements that have been made.

CANYON SCHOOL WILL NOT OPEN UNTIL TUESDAY AS BOOKS WERE SLOW COMING

Superintendent C. L. Sone announced this morning that owing to the slowness of the books coming, the pupils will not come to the school building on Monday as formerly announced, but all will be present on Tuesday morning at 9 o'clock.

Tuesday morning the work of classifying and issuing the free text books will be looked after.

Class work will start Wednesday morning.

West Texas Exhibit in North.

Chester T. Crowell, Publicity Manager of the West Texas Chamber of Commerce, will have charge of the large and carefully selected West Texas agricultural exhibits to be shown at the great national exposition in the Middle West this fall. These exhibits represent not only staple crops such as the grains and cotton, but fruits, melons and other perishables, and a comprehensive oil and mineral exhibit. The exhibit will be renewed from week to week and kept up to the highest standards for each great fair.

In addition to the exhibits Mr. Crowell takes with him a large assortment of photographs, some of which are fourteen feet long, showing scenes in West Texas. These will be part of the exhibit. He also takes several reels of motion pictures showing harvest scenes, cities and towns, and some of the oil fields. It is expected that these will prove very popular on account of the national interest in the West Texas oil development.

The exhibits will be shown first at the Indiana State Fair in Indianapolis Sept. 1-6. This fair has an attendance of 600,000, and is held in an interurban center, accessible to thousands of expert dairy farmers, who can be interested in West Texas.

From Indianapolis the exhibits will be taken to Louisville to the Kentucky State Fair, which has an annual attendance of 500,000. The dates for this fair are Sept. 8-13.

The Tennessee State Fair at Nashville Sept. 15-19 is the next to be visited. Its attendance averages over 500,000. It is the second largest fair held in the South, and Tennessee has given to Texas many progressive farmers and business men.

The closing exposition to be visited is the International Soil Products Exposition at Kansas City September 24-October 4. This exposition has always been very popular with West Texas exhibitors. Its annual attendance is 1,500,000 people from all parts of the Middle West, Northwest and southwest. The International Dry Farming Congress is held in connection with this exposition.

Will Have Panhandle Day.

The management of the Dallas State Fair has designated October 15, as Panhandle Day and if previous Panhandle days may be taken as a criterion, the one this year will be a "humdinger".

A building has been reserved for the Panhandle exhibits and it is safe to say that the display will be one to make the Panhandle heart swell with pride and all other folks to take notice.

There's a great deal of good that can be done in the world if we are not too careful as to who gets the credit.—Talcott Williams.

CURB LINES SET BY CITY COUNCIL

24 Feet from Property Line on 80 Foot Street and 16 Feet on all 60 Foot Streets.

At the meeting of the city council Monday night the distance that curbs are to be placed from the sidewalks was taken up and settled.

On all streets 80 feet wide the curb line is fixed at 24 feet from the property line.

On all streets 60 feet wide the curb line is 16 feet from the property line. On the public square it was ordered that a 16 foot sidewalk be built. The building of the walk will be a part of the paving contract when the contract is let.

It was voted to repeal the present fire ordinance, and to have a fire committee consisting of two councilmen and the fire marshal from whom a permit must be obtained before any kind of a building, repair work, or moving any building can be done. Like ordinances are found in all good towns.

The resignation of J. C. Rogers as marshal and tax collector was accepted and Bill Black was appointed in his place.

An auditor is expected to arrive in the city soon to make a careful check of all city books.

Revival at Methodist Church.

The meeting in progress at the Methodist church is starting well and bids to become a genuine revival of religion in the community. Rev. M. M. Beavers of Canadian, who is doing the preaching is a consecrated man of unusual pulpit power. His sermons the past few days have been searching and the people are taking hold of the meeting, congregations are good and have increased every service. There is nothing the town needs quite so much as a real revival of old fashioned religion. Even some of the noted economists of America are saying that a revival of religion is only that will save our country from this crisis. The Christian people should rally to the meeting in progress here.

R. A. STEWART.

ARCHITECT ENDRESS ARRIVED YESTERDAY TO MAKE PLANS

Architect Geo. A. Endress arrived in the city yesterday to begin work on the plans for the new boiler and engine house and the dormitory for girls.

Mr. Endress drew the plans for the main building which is the finest school building owned by the state of Texas.

Who Said Building Material is High?

Four years ago a farmer built a house costing \$2,900.00. In order to pay for it he sold 150 hogs averaging 350 lbs each at \$5.50 per cwt. or \$2,900.00. A few weeks ago his neighbor, who is going to build the same house, called at our office and after quoting him on the job, summed up his figures and said the house would cost him \$4,025.00 or 39 percent more than the house his neighbor built four years ago. That seems like quite an increase, but now just stop to compare the present price of hogs with the increased cost of the house. This farmer also had 150 hogs averaging 350 lbs. each. He sold them at \$17.50 per cwt. or for \$9,375.00. In other words it took only 64 hogs to pay for his house, leaving a balance of \$5,387.90, for which he could build another house and still have enough left to buy a good sized Victory bond.

Canyon Lumber Company.

A public sale will be held at the Bigman place Saturday, Sept. 13th. Horses, Milch Cows, farm machinery will be offered. Full list published next week. W. J. Flesher, Administrator.

Building Implement Shed.

Nick Hollenstein has been hauling lumber out during the past week to build an implement shed on his farm northwest of the city.

Learning without thought is labor lost—thought without learning is perilous.—Confucius.

I will not be afflicted at men's not knowing me; I will be afflicted that I do not know men.—Confucius. To see what is right and not to do it is want of courage.—Confucius.

REORGANIZE BUSINESS MEN'S ASSOCIATION— WANT MORE MEMBERS

ASSOCIATION NOT FOR BUSINESS MEN ALONE—ALL PROGRESSIVE CITIZENS ARE INVITED TO JOIN

At the meeting of the Canyon Business Men's Association at the News office Friday night, it was decided to reorganize the association in order to bring in more people in Canyon, not only the men actually engaged in business but all professional men, and others who are interested in seeing Canyon made a better town in which to live.

A committee was appointed consisting of T. C. Thompson, C. H. Jarrett, S. B. McClure and Wilford Taylor who will have charge of a drive for a bigger membership among all of the men of Canyon. The committee met Saturday morning and decided upon a scale of membership dues which will be collected monthly from each man or business house of Canyon during the coming year. The dues are within reach of all, the highest from any man or business firm being \$5 per month, and grading down according to the usefulness the organization will be the individual or business firm.

Wilford Taylor will start out during the next few days to make a canvass of the town for members. He will also look after the collection of the dues either monthly or quarterly, just as the different members prefer paying the dues.

The committee has made the suggestion that the name of the organization be changed. Many of our citizens have thought that the Canyon Business Men's Association stood only for men actually engaged in the retail business of the town. The organization has always had in mind all phases of work that is associated with a Chamber of Commerce or kindred organization, but since the name is so misleading to various individuals, it is thought best to make a change and take a name that cannot be confused by any person.

No name has yet been adopted and suggestions will certainly be appreciated by members of the committee. Any person in town who has heard of a catchy name for a commercial organization which takes into its membership professional, business men, farmers and all citizens who are interested in the progress and development of their town should see Mr. Thompson or any member of the committee at once. A special meeting of the organization will probably be called to decide upon a name if a majority of the present members deem it advisable to make a change.

The scope of the organization will be greatly broadened after the reorganization has been perfected. A larger body of men working together for the common good of their town can accomplish untold good. And the same number of men standing apart knitting each other upon every available occasion can ruin a good town.

Canyon has all the possibilities of a great growth during the coming year if the people will get together and work for the common good of the town.

Every town has a bunch of knockers and men who are asleep, and would not for anything help a neighbor in need, but the progressive men of Canyon cannot afford to let this undesirable element rule or in any measure run the affairs of the town. The best way to dispose of these fellows is to make it so progressive in Canyon that they will become ashamed of their uselessness to the community to join the band of progressive citizens, or else move to a dead town.

Everything points to a great year ahead of Canyon. The progressive citizens should get ready for the occasion by having strong organization ready to assist everything that will be helpful to the town, and fight anything that might retard progress.

Join the organization when Mr. Taylor comes around. You will feel good by having joined in with a bunch of men who are trying to help Canyon grow.

Stork Special.

A son was born to Mr. and Mrs. O. Baker on the 28th.

COMMITTEE VOTES SHANTUNG TO CHINA

AMENDMENT TO PEACE TREATY
IS ADOPTED BY A VOTE OF
9 TO 8.

Washington—By a vote of 9 to 8, the senate foreign relations committee has adopted an amendment to the peace treaty by which German rights in Shantung province, China, would go to China instead of Japan.

All the democratic members and Senator McCumber (Rep.) of North Dakota voted against the amendment.

Chairman Lodge offered the amendment under which the word "Japan" would be stricken from the Shantung sections of the treaty and the word "China" substituted.

The committee also instructed Chairman Lodge to request President Wilson to send the senate the treaty between the United States and Poland, signed June 28 at Versailles, and such information as he has regarding the treaties now under negotiation with Austria, Bulgaria and Turkey, without taking up any other proposed amendments to the treaty with Germany.

The committee, the chairman said, was making every effort to reach a report as soon as practicable, but had been hampered because it had been compelled to get information here and there which should have been in its hands officially weeks ago.

DISTRICT OF MALMEDY IS RESTORED TO BELGIUM

Territory Taken From Belgium and
Given to Prussia Over 100
Years Ago.

Paris.—Belgium authorities have taken official possession of the district of Malmédy, which was ceded to Belgium by Germany under Art. 34 of the peace treaty.

The Malmédy district is a small strip of territory near the southern end of the boundary between Belgium and Rhenish Prussia, with its western extremity forming an indentation in the Belgium province of Liège. The territories of Malmédy and Eupen were separated from Belgium in 1814-15 and were assigned to Prussia.

HOUSTON WINS OUT IN PRE-WAR PHONE RATES

Judge Jack at Shreveport Denies Injunction Asked by Telephone Company.

Shreveport, La.—A temporary injunction restraining the city of Houston, Texas, from enforcing its ordinance retaining prewar telephone rates was refused the Southwestern Telegraph and Telephone company in an opinion rendered by Judge G. W. Jack in the United States district court here following the conclusion of argument for and against the issuance of the writ. The effect of the decision is to maintain the status between Houston and the telephone company as it was, and rates prescribed in a city ordinance were effective before the government assumed control of the telephones are operative.

AMMUNITION BEING SHIPPED TO MEXICAN PORTS

Detectives Claim Ten Trunks of Contraband From New York on Way.

New York.—Ten trunks containing arms and ammunition were shipped from this city to Mexico on the steamship Morro Castle, which sailed last week for Havana, Progreso and Vera Cruz, according to information obtained by detectives attached to the bomb squad. The trunks were shipped from a Broadway hotel. The department of justice and navy department have been notified and it is expected gunboats will be sent out to intercept the steamship.

Boats Needed to Move Texas Wheat.

Fort Worth, Texas.—Shipping facilities provided by the United States shipping board are only adequate to remove about half of the Texas wheat crop, according to E. P. Byars, traffic manager of the Fort Worth freight bureau. Mr. Byars said that there are 2,000 cars tied up in Galveston which must be returned to west Texas at once if the grain crop is handled to any degree of satisfaction.

Barry Miller's Name Before Palmer.

Washington.—Attorney General Palmer has received the recommendations of Senators Sheppard and Culberson for the appointment of Barry Miller of Dallas as a member of the federal court of appeals for the fifth district in place of Judge R. L. Yantis.

Ebert Germany's President.

Weimar.—Frederich Ebert has taken the oath as imperial president.

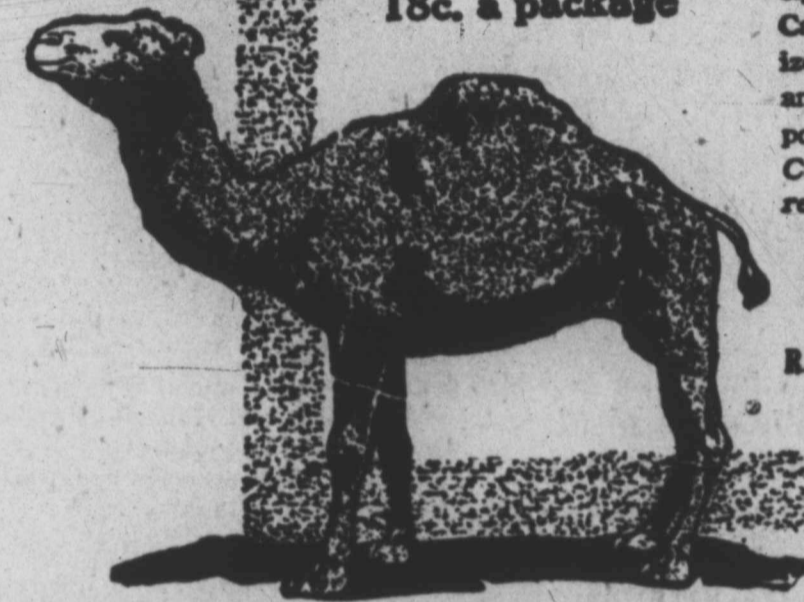

Ukrainian Troops Capture Odessa.

London.—Ukrainian troops have captured Odessa, it is announced by the Ukrainian mission. The capture was effected after severe fighting north of the city.

Fire Destroys Part of Glacier Park.

Helena, Mont.—The Two Medicine Lake region in Glacier national park has been closed to tourists because of forest fires that are destroying some of the most beautiful country in the park.

Camel CIGARETTES

18c. a package

CAMELS supply cigarette contentment beyond anything you ever experienced! You never tasted such full-bodied mellow-mildness; such refreshing, appetizing flavor and coolness. The more Camels you smoke the greater becomes your delight—Camels are such a cigarette revelation!

Everything about Camels you find so fascinating is due to their quality—to the expert blend of choice Turkish and choice Domestic tobaccos.

You'll say Camels are in a class by themselves—they seem made to meet your own personal taste in so many ways! Freedom from any unpleasant cigarette after-taste or unpleasant cigarette odor makes Camels particularly desirable to the most fastidious smokers. And, you smoke Camels as liberally as meets your own wishes, for they never tire your

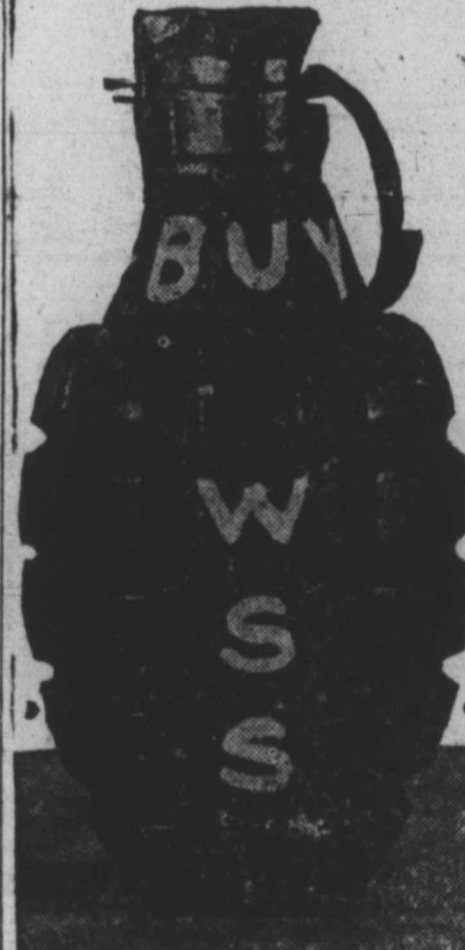

taste! You are always keen for the cigarette satisfaction that makes Camels so attractive. Smokers realize that the value is in the cigarettes and do not expect premiums or coupons!

Compare Camels with any cigarette in the world at any price!

Camels are sold everywhere in scientifically sealed packages of 25 cigarettes or ten packages (500 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

Winston-Salem, N. C.

Got a Hand Grenade; Buy Largest Souvenir of Great World War

Hammering the Hun line until it bent and broke, bearing the Kaiser and his clans down to inglorious defeat the American soldiers used one weapon in greater numbers than any other. It was a weapon they had never used before, one that had been obsolete for centuries—the hand-grenade—but when the brawny lads from the U. S. A. sent the old "eggs," as they were called, spinning into dugout and pill-box, the only Boches remaining on the ground were those ready to be buried.

Grenades were known to have been used five centuries ago. In 1427, at the siege of the Fortress of Casaglia on the River Po in Italy, the defenders used a primitive grenade, made of a glass bottle filled with powder. For a time, grenades were made out of heavy paper, then out of glass and then out of metal. With the close of the eighteenth century the grenade began to be discarded and little use had been made of it until the Russo-Japanese war in 1904.

It remained for the Great World War to see the grenade developed into its present efficiency. The grenades used by the American soldiers were carefully manufactured by the American Ordnance Department. But the American Ordnance Department found a limited supply of these were turned over to the Ordnance Department, the explosives they have been made in the Ordnance Department.

boy or girl can secure a grenade by purchasing a \$5 War Savings Stamp; any adult by investing in three or more War Savings Stamps, but these must have been bought after July 15, 1919. These hand grenades will be distributed through local banks and by a few merchants.

If you want a grenade, get busy. Make arrangements with your banker immediately. Only a limited number of these rare and unique souvenirs of the World War could be secured and when they are gone there will be no chance of obtaining one. You don't have to wait until the grenade is received to begin saving. Do that now. Then when the grenade arrives you

will have that much of its credit toward owning it. Ask your banker about it today. Buy War Savings Stamps regularly. After you get your grenade, keep on buying. Don't let your "weapons of peace" remain idle.

It is idle talk of coining seven-cent pieces for street car fares. It would be only another year before we would have to discontinue them and begin to coin fourteen-cent pieces. — New World.

Come to Canyon to live.

SHOPMEN'S STRIKE DEFERRED 90 DAYS

GOVERNMENT IS GIVEN THIS TIME TO BRING DOWN HIGH COST OF LIVING.

Washington.—Industrial peace in the United States, according to the legislative council of the railroad shop crafts, depends on the results the government can show in next 90 days in its campaign to reduce the cost of living.

That time limit as tacitly set by the council in suggesting to union locals throughout the country that President Wilson's compromise offer in response to their demand for higher wages should be accepted pending the outcome of the effort to restore a normal price level.

If the cost of living does not come down the 500,000 members of the shop crafts would reserve the right to strike for more money, and with them probably would be associated the remainder of the 2,500,000 railroad employees.

Washington.—Railroad shopmen throughout the United States will begin voting immediately on whether they will accept the wage proposals made by President Wilson and Director Hines or go out on strike to enforce their demand for a general advance in pay.

On the outcome of the balloting hinges industrial peace of the government-controlled railroads. If the 500,000 shopmen decide to accede to President Wilson's decision that there shall be no general wage advance until the government shows what can be done to control the rising cost of living sufficient time to effect some change in the price levels probably will elapse before other unions press their demands for more money.

GARY HAS REFUSED UNION REPRESENTATIVES A HEARING

Head of United States Steel Says His Corporation Will Not Deal With Unions.

New York.—Elbert H. Gary, chairman of the board of the United States Steel corporation, made public a communication sent by him to a committee of the American Federation of Labor which is organizing workers in the iron and steel industry, asserting that his corporation would decline to discuss business relations with trade unions as such.

Before receiving the reply of Mr. Gary members of the committee intimated that they would make an appeal to President Wilson if they failed to get a hearing from officials of the steel corporation.

Mr. Fitzpatrick declared that no strike date had been set. Other members of the committee asserted that they would not discuss a strike until all efforts to adjust differences amicably had failed.

AMMUNITION VESSEL BLOWS UP AT SEA

Rescued Crew Says Ship, Owned at Orange, Texas, Ignited From Lamp.

Yarmouth, N. S.—Twelve members of the crew of the four-masted auxiliary schooner Elmer Roberts have arrived here and report that their ship loaded with ammunition, caught fire and blew up at sea.

The schooner, a vessel of 695 tons net, was owned in Orange, Texas, and was returning from Bordeaux to New York on her maiden trip. A lamp exploded in the engine room and the flames spread so rapidly the crew had only time to escape in one of the boats, losing all their effects.

WILL URGE GUARDSMEN RECEIVE FEDERAL PAY

Ask That Requirement Concerning Supervision Be Waived.

Dallas.—Federal pay for the enlisted men of the national guard of Texas will be asked for by Brig. Gen. R. H. McDill, commanding general of the second brigade, cavalry, national guard of Texas. General McDill has just returned from a conference of national guard officers at Austin, where it was agreed that the different units would not have time to prepare payrolls. The money in the state treasury cannot be used after Sept. 1.

General McDill said that federal pay can be established as soon as it is cleared up whether the enlisted men shall be paid for drills held while their officers were attending training camp at Camp Stanley, Leon Springs.

2,203,715 Head of Cattle Dipped.
Washington.—Cattle dipped in Texas during the month of July have reached a total of 2,203,715, according to reports to the bureau of animal industry, which is co-operating with state and local officials.

Roumania Refuses to Accept Decision.
Paris.—The Roumanian cabinet has refused to accept the decision of the peace conference relative to the division of Banat and Tmesvar between Roumania and Serbia.

Wheat Embargo Against Galveston.
Dallas.—The United States railroad administration has advised that permits to load wheat destined for Galveston will not be issued until further notice.

Farmers Perfect Organization.

The temporary organization of the Texline Equity Union Exchange met in Texline last Saturday, August 9, and perfected the organization by adopting a set of by-laws and a constitution under which they will do business. A board of five directors or trustees were elected, out of which will come the officers of the Union. The following were elected: W. R. Snoeberger and L. P. Temple of Sedan, N. M., Chas. Adams of Thomas, N. M., J. M. McDaniel and Geo. N. Reed of Delfin, Okla.

Fifty-two members were secured during the meeting. At the rally to be held on Saturday, Aug. 23, it is believed the membership will go to 100. It is thought by the organizers and others, that a membership of 300 or more can be secured for the Texline Union. The object of the organization is to build an elevator and warehouse, and for the farmers of this part of the country to trade with themselves, both in selling and buying where they can handle commodities by the car lot and by wholesale.

The organization was capitalized for \$50,000 and a charter will be secured for that amount.

The first business of the new organization will be that of ordering a car of binder twine, pledges for almost half a car taken last Saturday.

The trustees organized by electing the following officers: L. P. Temple president, Chas. Adams vice-president, W. R. Snoeberger secretary.—Texline Enterprise.

Bees Must Have Higher Wages.
Had you noticed that the bees in and around Colorado are having a

There's a certain type of man—you know him—usually with a trim figure, who demands his clothes styled in the prevailing mode, but "different."

For such men we're always showing catchy models. One of this Fall season's smart examples is a real live one

much harder time producing honey than they once had? Evidence: they have raised the price of their product until only the elite and the exclusive and the money borrons can eat it. Honey at \$1.00 per quart or \$4.00 per gallon is some high for sweet. But what puzzles this writer is why it costs a bee more to make honey now than it did before the war. What new fangled method is the bee using?

PRINCE ALBERT

the national joy smoke

NEVER was such right-handed-two-fisted smokejoy as you puff out of a jimmy pipe packed with Prince Albert! That's because P. A. has the quality!

You can't fool your taste apparatus any more than you can get five aces out of a family deck! So, when you hit Prince Albert, coming and going, and get up half an hour earlier just to start stoking your pipe or rolling cigarettes, you know you've got the big prize on the end of your line!

Prince Albert's quality alone puts it in a class of its own, but when you figure that P. A. is made by our exclusive patented process that cuts out bite and parch—well—you feel like getting a flock of dictionaries to find enough words to express your happy days sentiments!

Tippy red bags, tidy red tins, handsome pound and half-pound tin humidors—and their classy, practical pound crystal glass humidors with sponge moistener top that keeps the tobacco in such perfect condition.

The Randall County News

Incorporated under the laws of Texas

C. W. WARWICK, Managing Editor

Entered at postoffice at Canyon, Texas, as second class matter. Office of publication, West Houston St.

SUBSCRIPTION, \$1.50 PER YEAR

Preaching at the Methodist Church Sunday morning Rev. A. B. Haynes stated the necessity of church union in order to do the best work. The News has been of the opinion for a number of years that the Church will never realize its full scope of usefulness until two thirds of the existing denominations are united into a strong church that will run its church on a business basis. A man made the statement a few years ago that if there was so much brotherly love among the followers of Christ, he could see no sense of so many churches trying to exist. A difference of opinion will make a horse race or a poker game any time with certain

"BAYER CROSS" ON ASPIRIN

'Always Ask for Genuine Bayer Tablets of Aspirin'

Only Aspirin Tablets with the safety "Bayer Cross" on them are genuine "Bayer Tablets of Aspirin," owned and made by Americans and proved safe by millions of people. Unknown qualities of fraudulent Aspirin Tablets were sold recently by a Brooklyn dealer which proved to be composed mostly of Talcum Powder.

"Bayer Tablets of Aspirin" should always be asked for. Then look for the safety "Bayer Cross" on the package and on each tablet. Accept nothing else! Proper directions and dosage in each Bayer package.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

There were 779 students enrolled in the West Texas State Normal College during the summer term. Of this number 752 were residents of the state of Texas and came from 195 counties. There were only six counties west of Fort Worth and north of the Texas & Pacific Railroad which did not have a representative in the school during this summer's session. Twenty-seven students came from other states than Texas. Many students came from the central part of the state, coming to the Plains on account of the superior climate and the excellency of the school. The West Texas State Normal College is the educational center of West Texas and will make phenomenal growth as the plant is enlarged to care for the student body.

The News believes that a hard surface road should be built between Canyon and Amarillo. As pointed out in last week's issue, the county can well afford to issue sufficient bonds to do this. However, before this is done, the commissioners should see that good roads are established leading out to the southeast and the southwest corners of the county. Canyon is losing thousands of dollars worth of business every month simply because the people in these sections cannot get here. Build these roads first, and then give us the hard surfaced road to Amarillo.

Congressman Marvin Jones was one of the four men who voted against giving Pershing the permanent rank of General. He said he did not believe in special favors. True enough, every dough boy who went through the hell of the front deserves much from the hands of their country, but the man who furnished the brains to run the greatest enterprise also deserves recognition, and America is only doing her duty in extending General Pershing this honor.

Word comes in that a bunch of young boys are making a practice of catching on the back of automobiles as they pass down the street and riding on the back of the cars, sometimes for several blocks. It is a very dangerous practice, and if allowed to continue long will result in the death of a boy. The lads have no means of telling, where they are going to land when they jump off, and when the car is going at any rate of speed, the boy is likely to get a sufficient fall to kill him.

A county fair in Canyon this fall will do much toward getting together a fine exhibit for the Dallas Fair. But the Dallas Fair begins Oct. 9, and if Randall county is to have any kind of an exhibit there some fast work must be done.

France has bought all U. S. war property in that country for \$400,000,000. The original cost was probably several times that amount, but much of the property is useless except as salvage.

A public sale will be held at the Bigman place Saturday, Sept. 13th. Horses, Milch Cows, farm machinery will be offered. Full list published next week. W. J. Flesher, Administrator.

Praises Visit to Texas.

Editor Randall County News: Great is Texas. Great is the Panhandle. Great are the Texans. I find here that true hospitality is supremely lavished. All the people seem to vie with each other in welcoming a stranger in this country of such great possibilities. I never before set foot on Texas. Such beautiful scenery. The great level plateau stretching out as far as the eye can see gives an enchanting view of this great country. One can see for miles and miles the growing and harvested crops. One can also see mules and horses, and great herds of Herefords grazing on her vast expansive pastures. The wave of prosperity is certainly rolling over this country. Here in Canyon and vicinity I have met some of my Georgian friends of years ago, and friends of today. You have never known a Holland, to discard or go back on a friend.

I find the Hollands imbued with the same spirit of energy and industry as they were in Georgia, and their prosperity interwoven and linked with the prosperity of your great county.

My good friend John T. Holland has a little incidental history in Georgia which perhaps is not known to you Texans. He and several others were candidates for the office of tax receiver of Chattoogo County, Georgia. All of his opponents went before the people with their pleas; some of them said they were in financial straits, while others claimed they were infirm and not able to work and did

THE NEW

HART-PARR

The tractor that is winning official horse-power and fuel-economy tests throughout the county "makes good" in Rock Rapids.

The Final Test of a Tractor is on the Farm

Dear Sirs:

Here are my reasons why a farmer should own a tractor:

- 1-The number of horses can be cut in half.
- 2-The tractor does not need care or feed when not in use, but a horse needs both.
- 3-The time of letting your horses eat and the grooming, harnessing and hitching can be put in work with a tractor.
- 4-The tractor is a more steady worker than a horse and steady work is what counts.
- 5-Several days have been spent in hardening in a horse, but a tractor is always ready for hard work.
- 6-In an all-day load a tractor can pull a much heavier load than horses.
- 7-A tractor can be used more directly in more kinds of work than horses.
- 8-You can put in longer hours with a tractor.

WALDO R. HANSEN,
Rock Rapids, Iowa

May 2, 1919

HERE'S AN OWNER OF A HART-PARR 30 WHO GIVES NINE REASONS WHY A FARMER SHOULD OWN A TRACTOR

not want to become objects of charity. John Holland went before the people and told them he was plenty able to work, and if they did not believe it to look at him, and to verify it he jumped off his horse and helped split rails. He said he wanted the office for the money that was in it, and the people believed he was about the only one telling the truth, and elected him. Also elected him to a second term. He was offered other positions of trust in the county but declined the offers. He turned to the great west and here he has reared a noble family. His broad shouldered and broad minded sons are genial, affable and clever and all on the road to prosperity.

D. M. WHITE,
Summerville, Ga.

GIRLS! LEMON JUICE IS A SKIN WHITENER

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

Some Results of Seed Selection
J. D. Roberts of the Farmers Valley country is a great believer in field selection of seed. The Farmers Valley man has 20 acres of corn which he thinks will make forty bushels to the acre and he attributes the large yield to the fact that he took unusual care in selecting the seed.

Mr. Roberts has already selected his seed for next season's planting, having been assisted in the work by

Nature and the Indian

The Indian never liked work but he wanted his squaw to get well as soon as possible so that she could do the work and let him hunt, therefore he dug papoose root for her, for that was their great remedy for female weaknesses.

Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription" skillfully combined with other agents that make it more effective.

Women who are worn out, who suffer from pain at regular or irregular intervals, who are nervous or dizzy at times, should take that reliable, temperance, herbal tonic which a doctor in active practice prescribed many years ago. Now sold by druggists, in tablets and liquid, as Dr. Pierce's Favorite Prescription.

Send 10c. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.

JACKSON, Miss.—"Dr. Pierce's Favorite Prescription is a good medicine and I have recommended it many times to women who suffer. This medicine was a great comfort to me after motherhood. The doctor seemed unable to give me any relief or help, but I had very prompt relief as soon as I started to take the Prescription. It cured me of my trouble and restored me to a perfect state of health, and that is why I do not hesitate to speak a good word for Doctor Pierce's Favorite Prescription whenever I have an opportunity."—Mrs. K. G. SUTHERLAND, 239 Fuldexter Street.

County Agent N. R. Tisdal. Mr. Tisdal urges that the seed should be selected in the field and while the stalks are still green in order that inferior stalks may be avoided. Furthermore, corn grown close to inferior stalks should be avoided because of the likelihood of its being crossed with the inferior pollen. Care should be taken, the county agent asserts, in picking ears that are well formed and well rounded over the ends. Experiments have shown, that corn grown from seed selected in this manner will raise eighteen bushels more to the acre than from seed selected otherwise.

Mr. Tisdal maintains that the farmers in this county generally, are too careless in the selection of seed, not only corn, but every crop, should the seed be picked. As an instance of the proper selection of seed wheat, he pointed to the case of Hurd Ross of Doans, who has been growing carefully selected Mediterranean wheat. Mr. Ross is making thirty-five and forty bushels to the acre from this seed this year.—Vernon Record.

The Quinine That Does Not Affect the Head
Because of its tonic and laxative effect, LAKATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE, 30c.

Will Have Hereford Sale.

We are in receipt of a letter from Secretary Stephens of The Panhandle Hereford Breeders Association, announcing its annual fall sale of registered Hereford cattle, at McKnight's Stables in Amarillo, on September 29th. Mr. Stephens says: "We are, as you know making an effort to make each of our sales better both in the quality and condition of the cattle offered. These fall sale cattle are coming from the best herds in the country, and are the best young cattle in these herds. They will be classed before, thus assuring the buying public an offering of strictly good cattle, of the very best blood lines to be found anywhere." Col. P. M. Gross will be the auctioneer. For catalogues and information, address R. M. Stephens, Channing, Texas.

It's beginning to look as hto the Philippines don't want a divorce, but only separate maintenance.—Manila Bulletin.

Offers Stockmen Barbed Wire.

The War Department is offering for sale under sealed proposals 1,930.2 tons of black painted barbed wire and 1,464.5 tons of galvanized barbed wire, bids on which will be opened at 10 o'clock the morning of Sept. 3 in the office of the chief, surplus-property division, Munitions Building, Washington, D. C.

This wire, purchased by the War Department for fencing purposes and the construction of barbed-wire entanglements, is a standard commercial heavy barbed wire. It is twelve-gauge wire with four thirteen-gauge barbs located three inches apart and each one-half inch in length. Both the black and the galvanized wire weighs approximately one tenth of a pound to the running foot.

This wire is particularly adapted to the needs of stockmen, and, to make it available to such consumers, the minimum quantity on which bids will be accepted has been fixed at two tons. The wire is stored in government warehouses at Columbus, O., and is offered f. o. b. location. A certified check, bond or post-office money order equal to 10 per cent of the amount bid must accompany each bid.

The wire may be inspected before sale at the storage point. Information concerning it and bid forms can be obtained by communicating with the surplus-property division, or the surplus-property officer at the zone supply office in the following cities: Boston, New York, Philadelphia, Baltimore, New Port News, Atlanta, Jeffersonville, Ind., Chicago, St. Louis, Omaha, New Orleans, El Paso, San Antonio and San Francisco. —American Hereford Journal.

Tats At Eighty-Four.

Her eighty-four years do not keep Mrs. Fannie M. Jones from taking an active interest in things. Last week she made a little piece of tatting from a shuttle which had been carved from a piece of wood taken from an apple tree near where Robert E. Lee surrendered in 1865.—Vernon Record.

City Ordinance.

An ordinance providing for out-door closets, not on sewer, and on sewer where water is not accessible, and providing for care and maintenance of

As I have decided to quit farming, and have rented my farm, I will sell at Public Auction, at my farm, four miles northwest of Happy, Texas, on

Thurs., Sept. 11

commencing at Ten o'clock a. m., the following described property:

same, and providing for penalty for violation of the provisions hereof.

Section No. One:

Be it ordained by the City Council of the City of Canyon City, Texas, that hereafter, all out-door toilets or closets not on or accessible to sewer and when on sewer and not accessible to water, shall be made to conform to the following specification:

Said closet must be made fly proof, and made over a pit not less than six feet deep, two and one-half feet wide, and one foot shorter than the length of the closet. Said closet is to be provided with hinged, self closing lids, and a ventilated stack, four by six inches in size extending through the roof; said seat must be provided with two screened openings, said openings to be six inches square; and in the front part of said seat.

Section No. Two:

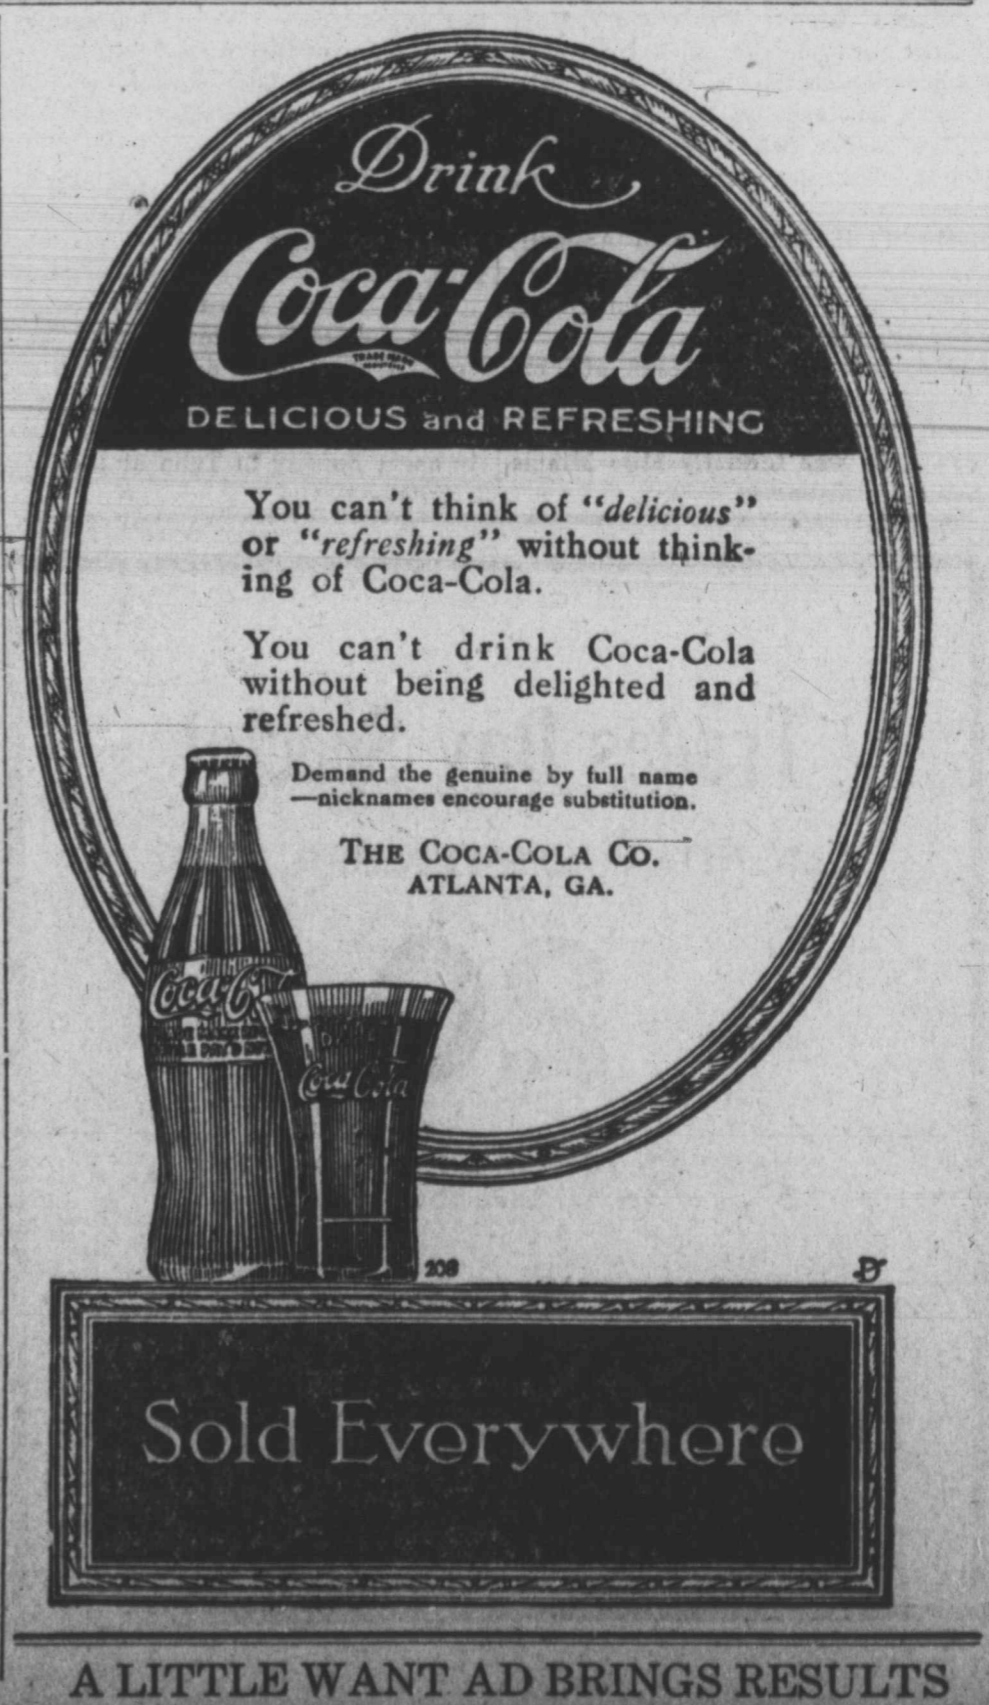

Each and every person using and operating an out door closet as prescribed above shall use a sufficient amount of lime each day to disinfect said pit. And when the pit becomes filled to within eighteen inches of the top, the said pit shall be filled up with earth and said closet moved over a new pit.

Section No. Three:

Any person not complying with Section No. One hereof, after having been notified for ten days to comply with same and any person violating section No. Two hereof, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined in any sum not less than Five Dollars and not more than Twenty-five Dollars, and each and every day's failure to comply with the provisions hereof, shall be deemed a separate offense.

Passed in open Council Meeting at a regular meeting, held by the City Council of the City of Canyon, on August 7th, A. D. 1919.

CALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

The Neglected Farmer.

If any intelligent reader will study the appropriation acts of the legislature, not only of Texas but of other states, for thirty or even fifty years back, he will come to the conclusion that the farmer is considered valuable as an asset only biennially—in election years.

It will be safe to say that of all the bureaus and departments of the state government the agricultural department will get the smallest appro-

priation at the hands of the legislature, yet but for the farmer none of the other institutions of the state now, not even the state itself, could exist.

There are pages devoted to banking, insurance, railroads and the other agencies of finance and commerce, but only a small part of the statutes of Texas is devoted to those things which directly relate to the farmer.

This is most surprising when we consider that the whole economic, commercial and financial structure rests on and depends on the farmers.

The familiar expression, "The farmer needs them all," is something more than a trite alliterative adage—it is the statement of a profound truth, the importance of which it seems impossible to impress as deeply as should be on the public mind.

Suppose universal failure of crops should fall simultaneously upon the fields of wheat and corn and rye and oats and potatoes, so that none were raised in all the United States. What would be the result? The answer is distress, suffering and financial disaster without precedent in all history.

Not a car wheel or ship propeller turns which is not dependent upon the tiller of the soil. But for him not a bank would open its door, not a paper issue from the press, not a loop whirr, not a spindle hum, and all the agencies and activities of industrial life would suspend and ruin brood over the land.

While this is true, as all men know there is not an appropriation made for the Agricultural Department of Texas that is not grudgingly made, as if it were a mere gratuity and not a right, indeed, a necessity, as it is.

Not only should the department be better supplied with funds, but its powers of sphere of official and authoritative activities should be enlarged.

THE EXPLANATION

Nature placed the growth-promoting "vitamins" in the oil of the cod-fish—this explains why

Scott's Emulsion

is so definite in its help to a child of any age. Later-day science reveals that the "vitamins" are needful for normal growth.

Scott's Emulsion will help any child grow.

Scott & Bowne, Bloomfield, N. J. 19-2

The farmers pay a large part of the taxes, and they are entitled to the benefit of what they pay in the ratio which their contribution bears to the total appropriations.

The day of slipshod, careless, un-systematic, wasteful farming has passed, but much has been the result of ignorance and the following of harmful methods and customs, and the time has come when the state must, out of its treasury pay for educating farmers along those lines the following of which experience has proved will bring success and produce profit.

To do so will not be demagoguery but statesmanship, not paternalism, but common sense and even-headed justice to the most important factor in all the fabric of human society.—The Houston Daily Chronicle.

BUYING your shirts is important enough to do with discrimination.

We feature EAGLE SHIRTS because the man who wears them is always pleased with his taste and judgment.

The makers design their own fabrics; experiment with them till they make good; dye their own yarns with fast colors; and then put the results of fifty years' experience into the cut and tailoring.

No wonder you admire the fineness of texture in EAGLE SHIRTS, the cleverness and exclusiveness of design. These, with superiority of fit and finish, make unnecessary the absolute guarantee nevertheless given by the maker and by us.

Our Fall assortment is large and varied enough—now—to show you what we mean by individuality of pattern, richness of color, expertness of weave and refinement of craftsmanship.

EAGLE SHIRT

Canyon Supply Co.

A Successful Plains Farmer.

The editor and family enjoyed a watermelon feast last Sunday afternoon at the home of Mr. and Mrs. H. Gerles, 8 miles southeast of town. Mr. Gerles has a splendid farm well stocked with the best in hogs and cattle, having the finest dairy herd of Holsteins in the county. He is a firm believer in the future of this country as a dairying proposition when properly equipped for the business. He is now engaged in digging his third 100-ton silo, and has now on hand about 150 tons of excellent ensilage left over from last year.

He has about 240 acres of fine crop besides the usual acreage of truck. His house and outbuildings are considerably above the average on the best of farms and the family enjoys many of the modern conveniences to be had in town.

This farm was improved about three years ago and is known as the Brooks farm. Mr. Gerles rented it about two years ago, moving here from South Texas. After one year of farming on the Plains he was so favorably impressed with the possibilities here that he bought the place and is not only making the farm pay for itself but is making money besides. There is probably no happier or contented people in the State than farmer Gerles and family.—Farwell State-Line Tribune.

Straw Makes Humus.

A large part of the lands here in the west are lacking in humus, in fact some parts are starving for want of it. Straw spread on the ground and turned under makes humus. It is humus that makes poor soil fertile; sandy soil more compact and not so much given to blowing; adobe soil mellow and open, and every kind of soil better able to hold moisture and produce crops. Did you ever notice how rank wheat will grow around an old straw stack? It generally gets too rank because there is an excess of plant food there. That straw scattered over the whole field would produce a similar effect in a proportionate degree on the entire crop. Phosphorus and potash are present in the straw to a large extent, which the young plants of next season can use; the humus produced helps to make nitrogen and this is an important constituent of the gluten in the wheat kernel. Straw spread as a mulch on winter wheat increases the crop value many times more than the cost of spreading. The straw while on the surface prevents the rapid evaporation of water, but later in the season the humus which it forms serves as a wick to bring up moisture to the little rootlets. Humus formed by straw absorbs a large amount of water and gives it up readily to the growing crops on hot and windy days.—Field and Farm.

A LITTLE WANT AD BRINGS RESULTS

You'll Want This Combination

It is the Case 10-15 kerosene tractor and a two-bottom Grand Detour plow. It is an ideal plowing outfit for either small or large farms.

The tractor weighs about 3,500 lbs., just a trifle more than a big team of horses. It burns kerosene economically, developing full power on the same.

The tractor has a four-cylinder valve-in-head motor, mounted crosswise on a one-piece frame. A Case Siphon Thermostat controls the cooling system and insures complete combustion. The all-spur gears, with teeth cut and hardened, are enclosed and run in oil.

The Grand Detour 2-bottom Automatic Lift Rigid Beam Plow will fill the plowing requirements of the most particular farmer. Grand Detour plows are strictly quality plows. They are light in draft, yet so well constructed that they will give years of faithful service at a low cost of upkeep.

We would greatly appreciate the opportunity of telling you more about Case tractors. Drop in and let's talk it over.

Come to Canyon to Live.

Catarhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarhal, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Hall's Catarrh Medicine. Cures free. All Druggists, etc.

Happy Happenings.

Mr. and Mrs. Martin and son of Lubbock moved here last week. Mr. Martin will work on the section.

O. H. Rahlfs and family attended the show in Canyon Thursday night.

G. R. Stratton and family spent Sunday at the W. C. White home. Misses Mildred Zoellers and Helen Mann went to Canyon Sunday to attend institute this week.

Mr. and Mrs. Joe Waite and Harvey Likes and family were shopping in Tulia Saturday.

Mrs. Matlock left Monday for her home in Parker county she has been visiting her daughter, Mrs. J. B. Balew for some time.

Miss Docia Gassaway was shopping in Amarillo Saturday. Mrs. Lone of Lockney is visiting her cousin, Mrs. Delia Foster this week.

Dr. and Mrs. McElroy and Mr. and Mrs. H. James attended the show in Canyon Thursday night.

W. T. Townsend has a new Super. Dr. McElroy and C. R. Strong left Tuesday for Dallas where Mr. Strong will have an operation.

Mr. and Mrs. G. D. Walker and son, and Misses Mary Mayhew and Madie Whitley were shopping in Canyon on Friday.

Mrs. Rayburn has sold his place to Joe Evans. They give possession the first of November. Joe Evans will move to town next week and live in the Trebushhouse. Charlie Dison is going to move on the Evans place.

Mr. and Mrs. H. L. Holland and H. L. Jr., of Texhoma came in Saturday and visited over Sunday at the parental J. M. Evans home. Miss Dale Evans returned with them and resumed her place at Tom Bandy's.

The Baptist meeting closed Friday. There were seven additions to the church.

The Methodist meeting will begin next Sunday. Everybody come and let's have a good meeting.

The Farmers' Union has bought out the Townsend Elevator.

Mrs. W. B. Knox and son Johnnie left Thursday for their home in Canadian. They have been visiting here for some time.

Engine Explodes.

Thresher engine belonging to Chas. Poole of the Prairie Hill community, blew-up Wednesday morning, on the farm of Mr. N. B. Forrester. Both ends of the engine were blown out and the wreckage scattered far and wide; but fortunately there were no fatalities and only one young man seriously hurt, and his was only a flesh wound that was not necessarily dangerous. Several teams ran away in the excitement and there is a suspicion that they were not all that ran. Parrot Felty, the engineer, was on the engine at the time, but was only injured in his feelings. One wagon was blown to pieces, and other wreckage was abundant.—Olustee (Okla.) Democrat.

W. O. Dunlap, a ranchman of Dunlap, New Mexico, was here Thursday

for the purpose of expressing a buffalo back to his ranch. A party had leased the animal for the purpose of taking it on an exhibition tour but failed to secure a truck in which to convey the animal. He is four years old and was raised a pet. He attracted quite a bit of attention while here.—Iowa Park Herald.

Ernest Christian shipped two cars of cattle to Kansas City Saturday. Walter Ransom shipped a car of cattle to the Kansas City market on Saturday.—Claude News.
