

ENROLLMENT AT NORMAL IS 431

Expected that 500 Will be in Attendance by the End of Week—280 in Training School.

The total enrollment of the West Texas State Normal College up to last night was 431. It is expected that the enrollment will reach 500 before the end of the week.

The enrollment is a healthy increase over that of last year. The total enrollment of last year was 570, and it is expected that the enrollment of the first quarter will almost equal that number.

A very fine feature of the enrollment this year is the large number of boys in attendance. Figures were not available yesterday, but President Hill stated that fully one-third of the students in attendance are boys.

The first chapel exercises were held yesterday and class work started. All of the faculty, with but one exception, is in the city. Miss Graham, the new teacher of the mathematics department will not reach here until Sunday.

The popularity of the Training School has led to more than fifty pupils being turned away for lack of room to care for them. A large number of pupils are being sent here from surrounding towns to attend the Training School. There is an enrollment of 280. Of this number 97 are in the 8th and 9th grades, which has the work of the first two years of high school.

President Hill is highly pleased with the prospects for a fine year's work and stated that the prospects were fine for more than 600 being enrolled during the year's work.

W. R. CLARK REACHES HOME FROM CORPUS CHRISTI

Wallace R. Clark reached home Sunday from Corpus Christi where he went through the storm that almost wrecked that city and adjoining territory.

Mr. Clark and T. V. Reeves reached the home of Mr. Clark's uncle at Portland, just across from Corpus Christi, two hours before the storm broke. The land is higher at Portland and much of this part escaped the destruction of the water, but suffered more heavily from the winds which were blowing at 75 to 100 miles per hour.

Mr. Clark was in various parts of Corpus Christi the days following the storm assisting as he could to restore order and assisted in burying the dead. It is his opinion that the true figures concerning the number of dead will never be known. The tidal waves swept bodies upon the beach along the rivers, and before they could be rescued, the high waters from the rivers came down and swept them out to sea.

The destruction of property was terrible. Little of the business section escaped, and stocks of goods of all classes were lost, the lower parts of the big buildings being damaged by the water. The farmers are hit hard as they lost nearly all of their crops. On Mr. Clark's farm, two houses were destroyed. Two-thirds of his crop was destroyed.

Men who were well fixed in life before the storm are now dependent upon the Red Cross and Salvation Army for supplies. The food situation, according to Mr. Clark, has been very well cared for. When the high waters from the rivers came down and swept away the railroad bridges, the food situation was acute for several days.

Messrs. Clark and Reeves had to ship their car to San Antonio, getting out on the first possible freight.

NORMAL FOOTBALL GAME WITH PORTALES, N. M., SAT., NOV. 11

Coach Willy has a squad of forty-five men out on the football field at the Normal. The first practice was held Tuesday night, and from now until time for the first game on Saturday, Oct. 11, the men will be put through a hard training period.

Mr. Willy stated yesterday that he has a number of former Normal men in the squad and others with considerable football experience. He was well pleased with the way the men handled themselves the initial practice.

Portales, N. M., high school will be here on Oct. 11 for the opening of the season. D. A. Shirley is booking the games for the season and has a large number of games in view. It is likely that the Normal will play seven games during the season.

Red Cross Ask Address

When the Randall County Chapter of the American Red Cross undertook to give each one of the soldier boys from Randall County a token of appreciation the records at Austin were found to be very incomplete. The following boys were listed as having gone from Randall county, but so far the officers of Randall County Chapter have been unable to locate them. If any one reading this list knows the present address of any of them please advise us.

Peared-Toles Wedding.

Miss Audie Penrod and John E. Toles were married yesterday morning at nine o'clock at the home of the bride's parents, Mr. and Mrs. J. I. Penrod, Rev. A. B. Haynes officiating. Only the immediate family and a few close friends were present. The ring ceremony was used.

Miss Penrod is the daughter of Mr. and Mrs. J. I. Penrod and moved to this city a few years ago with her family from Wellington. She has been a student in the Normal where she was always a leader. The groom came to Canyon four years ago from Oklahoma. He has been connected with the Holland Drug Co. of this city and goes to Happy to become manager of the new store which this company is opening in that city.

The bride and groom left immediately after the ceremony for their new home in Happy.

Both the bride and groom have a very large circle of friends in Canyon who extend most hearty congratulations and best wishes for a long and happy wedded life.

City Property Sold.

T. W. Hart sold his residence this week to W. R. Piper of Denton, who recently bought the Price place west of town. J. A. Cheatham of Lockney, who will look after the ranch for him, will live in the residence bought from Mr. Hart.

T. W. Hart has bought the F. P. Guenther residence.

F. P. Guenther has bought lots by Hunteleigh Hall and will move the house he bought last week to this location rather than to the one he bought last week.

Mrs. Emma Foster has bought the house of J. A. Wallace south of the square.

Will Cage sold his house in the east part of town to John Moore yesterday.

It is evident that will never be satisfied in this country until everybody has more pay than everybody else.—Park City (Ky.) News.

WEST TEXAS STATE NORMAL COLLEGE OPENS THIS WEEK.

WILL COLLECT TAX OF \$77,224.89 FOR '19

Increased State Rate Adds Considerable to Total—Comparison With Other Years.

County Tax Assessor Wilford Taylor has completed the work on the tax rolls for this year, and yesterday Tax Collector Worth A. Jennings was able, under the law, to collect the first taxes of the year.

The total tax on the rolls this year is \$77,224.89. It is divided into the following funds:

- State tax, \$37,198.21.
- County, \$27,279.93.
- District school, \$11,719.50.
- State poll, \$880.50.
- County poll, \$146.75.

Mr. Jennings pointed out interesting facts regarding the taxes of Randall county.

The valuation this year is \$4,959,928. The valuation has been in the neighborhood of these figures since 1911. The total tax of 1911 was about \$50,000. The total amount on the tax rolls became smaller during the next three years, until the lowest amount of taxes for a number of years was collected in 1914. The total tax that year was \$36,289.

The tax rate in 1914 was 37 1-2c on the \$100 valuation for the state and 25c for the county. The valuation has remained practically the same since that time, but the tax rate has increased each year, until this year the state has a rate of 75c on the \$100 valuation and the county 55c.

While the state rate is the highest in the history of the state, the county rate is not high in comparison with many other counties.

NEW TEACHERS ELECTED AT THE NORMAL DURING WEEK

Miss Edna Graham of Cleburne was selected this week as a teacher in the Mathematics department of the Normal. Miss Graham is a graduate of the Sam Houston Normal and of Chicago University. She has been head of the Mathematics Department of the Cleburne high school for a number of years and is a highly successful teacher.

Mrs. Tommie Montfort was selected to fill the vacancy caused by the resignation of Miss May Cowling. She is a graduate of the Normal, where she made a very fine record as a student. She has been very successful as a teacher.

Prohibition is bringing a lot of sunshine into many homes. Also moonshine.—Atchison, Globe.

REDPATH LYCEUM AT THE OLYMPIC

Five Strong Numbers Will be Given During the Winter—First Number Comes October 9

The Olympic Theatre has contracted for the Redpath-Horner Lyceum Course, which is coming into this territory for the fall and winter 1919-20.

The course is one of the strongest that has ever been put out by the Redpath company, which leads in the lyceum work of this section.

The first number will be next week, Thursday, Oct. 9, when Jean S. McDonald, impersonator, will be here for an entertainment.

The second number comes Nov. 7, the Southern Musicians, Four Texas Girls.

On Nov. 22 will be the Wells Company.

The Sterling Entertainers come on January 24.

The last number will be a lecture by Marie Van Castell, a Belgian Red Cross Nurse on March 23.

The season tickets are now on sale at \$2.75 for adults at Holland Drug Store, the Olympic Theatre and East End Grocery.

COUNTY FAIR BRINGS IN A LARGE NUMBER SAMPLES

While the County Fair was not so big and the exhibits were not so numerous as had been expected and desired, yet there was a good lot of stuff brought in Saturday, which will be used as a basis for getting together an exhibit for the Dallas Fair.

County Agent C. F. Walker has the matter of the exhibit in hand and is gathering additional material to take to the fair. He will go to Dallas to look after the exhibit for Randall county.

Mr. Walker is now devoting all of his time to the demonstration work of Randall county. He will move to Canyon as soon as he returns from the Dallas Fair.

Buys Land Here.

Lewis Wieck of Cedar Rapids, Nebr. has bought the Bader section north of Umberger.

Bernard Hartmann, also of Cedar Rapids, Nebr., has bought the two section of C. N. Plaster.

Both families will move here about the first of January.

Commissioners in Session.

A special session of the Commissioners' Court was held Thursday at the court house to finally approve the tax rolls of Assessor Wilford Taylor.

CANYON EDUCATIONAL CENTER OF THE PLAINS

(By R. Kenneth Evans)

In the general scheme of things necessary to the proper development of the resources of a community one of the most important factors in the proper maintenance of a school system adequate to educate the families of those living in that community.

In Canyon to the sturdy pioneers who forsaking birthplace and family ties came west to build an inland empire goes the credit of establishing the foundation for one of the best school systems in any county the size of Randall in the Great Southwest. Canyon is today recognized as the educational center of the Panhandle country with its excellent public school facilities both in the country and city and the West Texas State Normal College, a state institution with an enrollment of more than 700.

The residents of Canyon realize that today it is absolutely necessary that the coming generation be equipped with an education to enable them to meet the many problems which will confront them in the future commercial and business world. Taxes are paid willingly and a great effort is always made to keep the school facilities up to the highest standard. The school facilities in many respects excel those of the more thickly settled eastern communities and it must be taken into consideration that the growth and development of all resources in the Panhandle country is practically in its infancy and in this state normal makes it possible for them to secure a much more efficient education work than in a high school. Under the regulations of the State Normal any white person, sixteen years of age or before January 1, of the current school year may enter the State Normal College at the opening of the session in September or any suitable time thereafter. Fuller details of the Normal work will be given in a later article of this series.

The arrangements of the country schools in Randall county is one of the most efficient. There are twenty districts in the county and so located that it is convenient to every farm and the students attending the county schools are not forced to make long hikes to attend school. This enables the farmers children to assist in minor duties of the farm and at the same time not neglect their advantages for the receiving of an education. There are twenty-two one teacher schools and the county boards of education are always exceptionally particular to engage the most proficient instructors available to handle the work. A salary as high as it is possible to pay is always paid these instructors in order to make the work of handling the schools of the county as attractive as is possible. In this connection also the class of buildings maintained in the county for school purposes are far above the ordinary and are as thoroughly equipped as is possible. Many of the county schools have been given state aid which means that the standard of buildings, and the courses of study taught, come up to the state law requirements which are stipulated providing that when a county school has acquired these requirements they are then entitled to state aid in maintenance of school facilities.

The grades taught in the county schools are from the first to the sev-

enth inclusive. The average term connection it can conscientiously be stated that the schools are in keeping with the rapid pace of development shown in the Panhandle country.

The West Texas State Normal College is the highest field of educational facilities which are offered in the Canyon country and graduation from this institution not only makes one qualified and efficient to follow the vocation of an instructor but places them in a position to enter the higher state institutions to finish their education. For this reason alone the State Normal School takes the place of the high school work which is usually carried out in cities of this size but the opportunity that is offered students in Randall county and this section of the Panhandle to finish from the common branches into the each year is seven and one-half months. The schools all have a state regulated course of study which includes mathematics, reading, writing, spelling, geography, United States History, Texas History, Physiology, Hygiene, Agriculture, Grammar, and composition. The scholastic census of the county schools as given for last year was 411. It is estimated however that the influx of immigration to this section of the Panhandle will increase the school enrollment this year with an indication of a much more materially increase next year. The county school tax for district Number One is 15 cents while the tax on districts Number Six, Two, and Eleven is twenty cents. The school tax of all other districts in the county is fifty cents. Randall county has the reputation of conducting one of the best regulated county school systems in the entire Panhandle country.

The West Texas State Normal College as stated in the leading paragraphs of this article has a wide influence on the maintenance of the city public school system. To begin with the schools of Canyon are conducted from the standpoint of equipping the students to enter the state normal school, business, college or other state institutions. The public schools system of Canyon is confined to one building containing twelve rooms. It is a two story brick structure well constructed and provided with every modern convenience for the benefit of the student. It is well lighted and ventilated which eliminates any possible contraction of a maldue due to unsanitary conditions. In fact the city board of education lays special stress upon the school building being maintained in such a manner as to provide all conveniences possible for the benefit of the students. Canyon is accredited with having one of the best city school buildings in this section.

The grades taught, under a state regulated course of study are up to and including the ninth grades. The recent abandonment of higher high school work eliminated the high percent of credits with state institutions this being offset by the opportunities afforded the students to enter the State Normal. The superintendent of the city schools is C. L. Sone, who is considered one of the most efficient instructors. The instructors are in the majority all Canyon people who are exceptionally proficient in their work.

The county superintendent of schools is Judge C. R. Flesher who is serving his second term. He is also county judge. He takes a deep interest in the school work and does everything in his power to make it the very best.

In fact considering the conditions of development of the Panhandle country there is not a city or county that can offer a wider diversified field for education than Canyon and Randall county.

The following are the teachers of the district schools of Randall County this year:

- District No. 1—Miss Ocie May.
- No. 2—Miss Irene Redfearn
- No. 3—Teacher not yet secured
- No. 4—Miss Denna Lancaster
- No. 5—Miss Irene Combs
- No. 6—Miss Rose Thurman
- No. 8—Miss Tennie Thompson
- No. 9—Miss Beulah Upfold
- No. 10—Mrs. John W. Bird
- No. 11—Miss Roxie McCann
- No. 12—Miss Emma Burch
- No. 14—Miss Alma Commas
- No. 16—Miss Sena Ashby
- No. 17—Miss Mildred Zoeller

THE CANYON CAFE

(By R. Kenneth Evans)

The hotels and cafes are the mediums through which the transient visitor gets his first impression of a city and as first impressions are usually lasting ones the responsibility of making people feel good upon coming into the city rests in a great measure upon these institutions. If upon entering the cafe or hotel the patron is accorded all the service possible and is made to feel welcome and if the house is clean and cheery then he feels satisfied with his beginning in that city and this is one of the things that the management of the Canyon Cafe is very particular about.

In the first place the Canyon Cafe has improved remarkably during the last two years and a half and in that time under the ownership of Mr. and Mrs. Condrey has been an influential factor in the upbuilding of the city's resources. When Mr. and Mrs. Condrey came to Canyon and purchased the Canyon Cafe it was in a dilapidated condition and not a very creditable institution to the city. Immediately the owners spent hundreds of dollars in putting it in shape and installed running water, electric lights and gave the building a thorough overhauling. The rooms, which are maintained in connection with the cafe, ten in number, were made habitable. A wash room with hot and cold running water was installed. One of the largest double ranges available was purchased and installed and is probably the only range of its kind to be found in the smaller cities of the entire Panhandle country.

The general overhauling that was given the cafe put it in a creditable shape and today it is really a credit to the city. In addition to maintaining up to date rooms, although the room capacity is rather small there being only ten, the cafe serves regular meals in an appetizing manner and can serve all classes of short orders including special dishes during the various seasons. Every thing is served well cooked and in an appetizing manner. The congeniality of the management makes it a pleasure to eat at the Canyon Cafe and this fact alone has established for this institution an enviable reputation in the commercial world of Canyon. The farmer who comes to the city to trade knows that he will be able to get a substantial lunch at popular prices.

The management of the cafe during the summer months is in the hands of C. L. Condrey, son of the owners. Mr. Condrey attends the West Texas State Normal during the school year. He is one of the younger-business men of the city and takes an active part in all the civic advancement of the city. Never is a plan inaugurated which has for its aim the future development of the Canyon country but that Mr. Condrey and his father both give it their unqualified support. Mr. Condrey the manager is congenial and pleasant and makes everyone feel that they are welcome the moment they step into this cafe.

Mr. Condrey announced to a representative of the News that the management of the cafe stands ready to add improvements and make their cafe in keeping with the growth and development of the city. They are in a position to increase the room and build up the institution as rapidly as the growth of the city and the advancement of their business demands. In fact the Canyon Cafe can truly be classed among the leading business institutions of Canyon and one which always stands ready to assist in Canyon's future development.

A LITTLE WANT AD BRINGS RESULTS

WILSON INVADES HOUSE OF FOES

CARRIES HIS BATTLE FOR LEAGUE OF NATIONS INTO HOME OF HIS ENEMIES.

GIVES COST OF GREAT WAR

Informs Them of Lives and Treasure Poured Out to Save Civilization.

(By Mt. Clemens News Bureau)

Aboard President Wilson's Special train—Carrying his war against those who oppose the adoption by the United States of the peace treaty and the covenant of the League of Nations into their households, President Wilson last week invaded California.

And there, where the question on which league opponents have hammered the hardest, that of Shan Tung—is of most interest, the president found the same enthusiasm among the people for peace and for insurance against future wars. The people want the long controversy ended. They want this country to be able to again turn its undivided attention to social, economic and industrial development. Their leaders may not feel this way, but judging from the expressions which met the president on every side. The leaders have overstepped the limits of the peoples patience in their stubborn determination to force a change in the great document.

Must Take This League.

"We must take this League of Nations," said the president, "for there is no way in which another can be obtained without compelling reconsideration by the powers. And it would sit very ill upon my stomach to take it back to Germany for consideration."

"All over the world people are looking to us with confidence our rivals along with the weaker nations. I pray God that the gentlemen who are delaying this thing may presently see it in a different light."

Germany, the president declared, is taking new courage from our delay in ratifying the treaty and her newspapers and public men were again becoming arrogantly outspoken.

Deeply impressive were the figures of the cost of the late war, in lives and dollars. It was the first time that the official statistics have been made public and the tremendous totals shocked the president's audiences.

Shows Cost of World War.

"The war," said President Wilson, cost Great Britain and her Dominions \$38,000,000,000; France \$26,000,000,000; the United States \$22,000,000,000; Russia \$18,000,000,000; Italy \$13,000,000,000 and a total, including the expenditures of Japan, Belgium and other small countries, of \$123,000,000,000.

"It cost the Central Powers as follows: Germany \$39,000,000,000; Austria-Hungary, \$21,000,000,000; Turkey and Bulgaria \$3,000,000,000.

"The United States," the president said, "spent one million dollars an hour night and day for two years in its struggle to save civilization. All this, however, fades into insignificance when the deaths by battle are considered, declared the president. Russia gave 1,700,000 men; Germany 1,600,000; France 1,380,000; Great Britain 900,000; Italy 364,000; the United States 50,300. In all, almost 7,500,000 men perished in the great struggle, or 1,500,000 more men than died in all of the wars of the previous 100 years.

Should Remember Recent Horrors.

"These are terrible facts, and we ought never to forget them. We went into this war to do a thing that was fundamental for the world and what I have come out on this journey for is to determine whether the country has forgotten or not. I have found out. The country has not forgotten and it will never permit any who stands in the way of the fulfillment of our great pledges, ever to forget the sorrowful day he made the attempt."

Arbitration and discussion, the president pointed out, must replace force of arms in the settlement of world controversies. Constantly he dwells upon the fact that all the nations in the League agree to do one of two things, first to submit their differences to arbitration, in which case they agree to abide by the decision rendered, or, if unwilling to arbitrate, to have their case discussed by the Council of the League, in which case six months is granted for discussion. Three months must elapse following the result of this last step in arbitration before the nation concerned can declare war.

Holds Out Hope For Ireland.

The president took advantage of questions propounded by the San Francisco Labor Council to give the inference that he believes Ireland can bring her case before the League of Nations for settlement when the League is actually in existence.

Shan Tung, he declared, will be returned to China. Japan, he said, had given her solemn pledge to that effect. And with the League of Nations in force, said the president, we can, if occasion arises, stand forth and say, "This shall be done."

ASPIRIN FOR HEADACHE

Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in a "Bayer package" containing proper directions for Headache, Colds, Pain, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for nineteen years. Handy tin boxes of 12 tablets cost few cents. Aspirin is trade mark of Bayer Manufacture of Monoacetic-acidester of Salicylicacid.

Where are the 75-Mile Guns From the Scientific American.

If we remember rightly, among the terms of the armistice was one demanding that the Germans hand over to the Allies the 75-mile guns with which they bombarded Paris.

So far as the public records go none of these pieces has, as yet, been delivered, and we are inclined to think that they shared the fate of the captured German flags, which, with characteristic want of good faith, were publicly burned by German officers on the Unter den Linden, Berlin. The so-called "Big Berthas," the dismantled foundations of which were found by our troops during the German debacle, are not these weapons, but were pieces of 15- or 16-inch caliber of considerably less range.

Closing The Silo.

Several methods of closing the silo until the feeding period begins are in use. The blanket that is to keep the top layer from soiling should be heavy and moist to shut out the air. Quirt often weeds are run through the cutter for the finishing layer, or the last few loads of corn stalks from which the ears have been jerked may be used. In the later case no grain would be lost. If spoiling is to be prevented entirely use tar paper. A single thickness cut to fit snugly over the top of the silage will exclude the air effectively and keep the silage in good condition for many months. At intervals of two or three days for a period of two weeks or more, it is advisable to tramp the silage around the edges. As the mass settles, it draws away from the sides. If the silo is not yet filled, this difficulty may be prevented to some extent by changing the form of the surface layer as the mass nears the top. When the surface is kept saucer-shaped at first, it should be gradually changed into an inverted saucer by the time the silo is full. The immediate use of silage is not recommended. If not allowed to stand for at least ten days, the mass is neither green corn nor ensilage and cattle do not relish it. A period longer than this is desirable for the stuff has to be cooked as it were.—Field and Farm.

They Win You On Quality!

Your enjoyment of Camels will be very great because their refreshing flavor and fragrance and mellowness is so enticingly different. You never tasted such a cigarette! Bite is eliminated and there is a cheerful absence of any unpleasant cigarette after-taste or any unpleasant cigarette odor!

Camels are made of an expert blend of choice Turkish and choice Domestic tobaccos and are smooth and mild, but have that desirable full-body and certainly hand out satisfaction in generous measure. You will prefer this Camel blend to either kind of tobacco smoked straight!

Give Camels the stiffest tryout, then compare them with any cigarette in the world at any price for quality, flavor, satisfaction. No matter how liberally you smoke Camels they will not tire your taste!

SUBSCRIPTION, \$1.50 PER YEAR

It is unfortunate that President Wilson was forced to abandon his speech-making tour on account of his breakdown in health, but from the statements he made during the last few days of the trip, it is certain he feels that the people of the west are for the treaty of peace as it was written in Paris. Johnson is again on the President's trail, which is another good sign that the opponents of the treaty have discovered that they lack some votes to defeat the League of Nations in the senate, and Johnson is going to try to get public opinion in the west behind the faction he represents.

A Kansas City banker was in Randall County during the past week investigating conditions. He states that Randall County is in the best condition of any section he has visited, and he is interested in cattle loans all over the southwest. Randall county cattle are in good condition. There is an abundance of grass for the fall and winter. There is the biggest feed crop in the history of the county. Even if the winter should compare in rigor with last year, there will be plenty of feed in the county to carry the cattle through. Peace and plenty smile upon Randall county.

We haven't been able to work up any sympathy for the steel strikers, and are hopeful that the steel corporation will shut down until the men are willing to go back to work and behave themselves. Strikes are becoming altogether too numerous in the world. The quickest way to end strikes in this country is for every industry to shut down when the strike is threatened. The men are not so much to blame as the union officials who feel that they must call strikes in order to earn their money.

Randall county is a recognized center of fine cattle. Randall county has made a name for herself with fine hogs. Just as the ranchman and the farmer years ago saw the necessity of getting better cattle instead of merely trying to raise more cattle, so are the hog raisers learning that fewer hogs and better hogs make the bigger bank account.

A certain oil company operating not far from Canyon has the habit of sending out telegrams to the newspapers of this section glowing telegrams just about press day. And some of the papers are falling for the stuff. Oh well, as long as Panhandle newspapers chose to give their space to such concerns, they can hardly expect to receive any paid advertising.

Mexicans are peeved at Governor Hobby and will not send an exhibit to the Dallas Fair. The Governor retorted that he didn't care whether they came or not, and suggested that if they did come to bring along pictures of the graves of Americans who have been murdered in Mexico. Hobby is for intervention in Mexico.

The feed crop being harvested will be the biggest in the history of Randall county. The price on the market is declining, but the farmers do not have to sell at this time, and may be able to get a much larger price before spring.

Villa has been chosen chief by the various outlaw bands of Mexico. He promises protection to Americans, but no one around these parts wants to take a joy ride through Mexico under promise of such protection.

The people of Ardmore believe in treating 'em rough when they come around fighting Wilson and the League of Nations. Senator Jim Reed got a taste of ancient eggs when he undertook to speak there last night.

One thing is certain—boys' shoes have got to cost less pretty soon or boys must be born with fewer feet.—Dallas News.

Join the Randall County Commercial League. Kick in today.

An Excellent Show. "The Only Girl" played to a full house here, Monday night, and gave Amarilloans the best evening's entertainment they have had in years. Each and every member of the company was an artist, the music was excellent and the songs catchy. Altogether it matched up well with what our people have come to expect from anything that Mr. Horner backs. —Southwest Plainsman.

Come to Canyon to live.

KANRED WHEAT LEADING WHEAT

By George Bishop, Associate Editor of The Oklahoma Farmer.

I have been asked about Kanred wheat a number of times during the last few weeks. Folks want to know "what about it." I believe the answer can be given best by printing the official history of how this wheat came to be, prepared by Prof. S. C. Salmon, of the Kansas State Agricultural college. This history is given somewhat in detail, more especially for the information of the members of the Oklahoma Seed Growers' association, as well as for those who simply wish to know if Kanred is a bonafide product with a real excuse for its existence.

"Kanred is the product of a single head of wheat selected in 1906 from a field of Crimean or, as it is more commonly known, Turkey Red winter wheat grown at Manhattan, Kans. This head and about 600 others were threshed and planted, each in a row by itself, in the fall of 1906. These were harvested in 1907 and most of them were sown again that fall. In 1908, 533 head were harvested, of which 122 were selected for increase and further trial. Eighty-nine of these were harvested the following season.

"In the years which followed, the poorer selections were gradually eliminated. Beginning with 1911, several of the more promising were distributed to farmers throughout the state. The information obtained in these tests, together with experiments in milling, has shown that the one which since has been named Kanred is distinctly superior to all others so far as yield is concerned, and at least equal in milling value.

"The creation of a really superior variety of wheat is no easy task. Many years of slow, careful, painstaking work are required. Mistakes in judgment or in carrying out the details of the work are easily made. There were many times during the progress of this work when it was doubtful which variety was best. It was not always easy to decide which variety or strains are poorest and should be dropped from the test. In fact at one time it was thought that another variety known as 'P 706' was better than Kanred. It was increased and distributed to some extent. Fortunately, a decision was not made until further test could be made. It was then discovered that 'P 706' was not only giving poorer results in other parts of the state but was highly susceptible to rust—while Kanred appeared to be resistant. Recent results have confirmed these earlier tests and at the present time the yield of Kanred is considerably higher than that of 'P 706'."

Professor Salmon concludes from the length of time and the amount of detailed work which it took to make sure they had something in the way of a harder and higher-yielding strain of hard wheat, that, "Few farmers or commercial growers can afford to undertake the improvement of our varieties of small grain."

In a seven-year test at the Kansas Experiment station, Kanred has produced an average yield of 4.5 bushels more than Turkey and 4.7 more than Kharkof, the two varieties of hard wheat most generally grown over the Southwestern Plains. The really remarkable thing about this test is the fact that it has outyielded both Turkey and Kharkof in every year but one, and in that year the yield was practically equal to the other varieties.

Similar results were obtained in tests at the branch experimental farms. The variety grown locally by farmers usually was included in the test. In about 90 per cent of the experiments Kanred produced better yields than either Turkey, Kharkof, or the farmers' own variety. The average yield in its favor for all tests was about 4 bushels.

Milling tests show that it is fully the equal of the best hard winter wheats. In some respects it appears to be better. In a three-year test, the protein content was 1.5 per cent higher than Turkey and 2.3 per cent higher than Kharkof. Similar differences were found in the protein content of the flour made from each variety. Careful tests of the baking qualities showed that it was fully equal to Turkey or Kharkof in that respect.

The First National Bank of Canyon now has a car load of this wheat on the track, which they are selling the farmers at \$3.05 per bushel. See Mr. Powell.

H. W. Morelock was in Hereford Tuesday in the interest of the plays which will be given at the Normal.

W. E. Bates was in Amarillo Monday.

Mrs. Bertha Thomas has moved her household goods to Amarillo where she recently bought a house.

No. 22—Miss Ruth Foster

There are two schools in both Districts No. 9 and 10, but so far only one teacher for each of the districts has been secured. These schools, together with the school in District No. 3 will open as soon as teachers are secured.

CANYON SCHOOL NEWS

Last week was a busy one for the school in rounding out the first month's work. Examinations will be given at the close of each month hereafter. Exemption on finals will be given those who have made excellent grades throughout the term.

Our pupils are learning anew how to study and the second month will show a decided move toward thoroughness.

Saturday beginning at 1:00 o'clock and until 2 o'clock the pupils were busily engaged in cutting the weeds and cleaning up the grounds about the school house. Not less than fifty hoes and rakes were in constant use and the results were most gratifying.

Tuesday morning at chapel the pupils expressed their appreciation of the First National Bank in remembering them with the nice serviceable book satchels. Fifteen rahs were given in the Bank's honor.

A few new pupils have come to us as a result of the crowded condition at the Training School. We welcome these young people to our school and will endeavor to show them a good and profitable time.

We would appreciate a little work being done on the street just in front of the school building. We don't know whether the City Council or the Commissioners Court will get to it first, but whichever does will receive some hearty cheers from our grateful boys, girls and teachers.

Beautiful weather is encouraging a full attendance at school, giving an average attendance of nearly three hundred.

Reports will be given out the last of the week. Visitations of primary grades finds very promising conditions for our little folks. Contentment and enthusiasm prevail.

C. L. SONE, Supt.

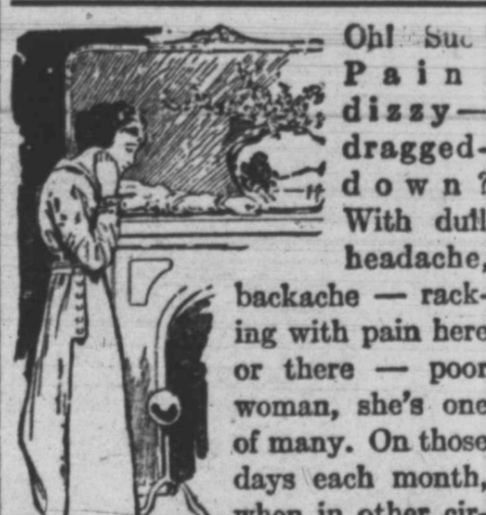

Bert Helscher left Sunday for his home in Sigourney, Iowa, after spending a few days in the city at the A. W. Hamill home.

FOR SALE—Registered Duroc Jersey boars. John Knight.

Mr. and Mrs. P. V. Winstead and daughter, and Mrs. Elmer Prichard drove to Amarillo Monday.

Rev. B. F. Fronsberger and son, Luther, went to New Mexico Monday to look after their claims.

Col. A. A. McNeil has been making the News office his headquarters the past two days getting printing done for his big sale on Oct. 16. "Honest Abe" is going to put on a real sale at that time, and one that no farmer or stockman in Randall County can afford to miss. And he invites one and all to come and enjoy the big day with him.

Oh! Such Pain—dragged down? With dull headache, backache—racking with pain here or there—poor woman, she's one of many. On those days each month, when in other circumstances she would go to bed, she must still be at the desk or counter, or struggle through the day as best she may with her housework or her family cares. Usually she who feels those dragging-down or dizzy symptoms, and other pains caused by womanly disease, can be cured by Dr. Pierce's Favorite Prescription. It cures the cause of these pains. Faded, jaded, tired, overworked, weak, nervous, delicate women are helped to strength and health by Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. In liquid or tablets.

MEMPHIS, TENN.—"For many years I have depended on Dr. Pierce's Medicines to keep me well and healthy. I was once restored to health by the use of the 'Favorite Prescription' and the 'Golden Medical Discovery' when other medicines and doctors had failed to give me any help. The 'Favorite Prescription' has no equal as a woman's medicine."—Mrs. E. C. Wilson, 609 N. 6th Street.

Prepare For WINTER

A THING OF BEAUTY AND THE COAL DEALERS' ENEMY

The Vortex and Cole's Hot Blast

TESTED, TRIED AND NEVER FAILED TO PLEASE. SAVES FUEL

Burns all the gases in coal which in soft coal amounts to more than half the fuel and which are wasted up the chimney with the ordinary under draft stove. The two top drafts discharge highly heated air into the combustion chamber with a rotary motion, which mixes it with the rising gases much more thoroughly than is possible with a single draft and these gases are thus oxidized and burned. The stove has a larger positive radiating surface than any other stove of the same diameter. Its handsome appearance with door surface milled air tight are additional points in its favor and are not found in any other hot blast.

THOMPSON HARDWARE CO.

DISTRICT COURT ADJOURNED SATURDAY—LIGHT BUSINESS

District Judge Henry Bishop was in the city Saturday to close up the business of the District Court.

The business was the highest the court has had for a number of years. Only one jury case was tried, that a criminal.

Only three non-jury cases were tried.

R. L. McMurtry, L. G. Conner and John A. Moore was the jury commission to select the jurors for the next term of court, next February.

HAD SERIOUS OPERATION IN AMARILLO THURSDAY

S. S. Coffee has been in the hospital in a critical condition from a case of appendicitis. He was operated upon Thursday. The appendix had broken before the operation could be made.

Word came last night that he is recovering as good as he could be expected after being in such a serious condition.

Julia Heinrich Killed.

Julia Heinrich, who sang at the Normal the night the new building was dedicated, was killed last week in Louisiana. She was at the depot when a train came in, hitting a baggage truck, which killed her instantly.

She highly pleased a very large audience at the time of her appearance in this city.

Pleasantview Items.

The farmers are all busy gathering their crops.

F. A. Crowley has moved his house on Mr. Lawrence's section north of J. A. C rowley's.

Rev. J. T. Burnett preached an interesting sermon at our school house Sunday afternoon.

Edgar Tucker has a new Ford.

Lofton Seeing Things in Calif.

Los Angeles, Calif., Sept. 26—Please send the Randall County News to me at 5832 Virginia Ave. I arrived in the city after an eight day drive both man and car in good shape. I will spend the winter at least here and must have The News to cheer up my spirits when the winter winds drive the girl bathers from the beach. Best wishes for all the Canyon people. S. B. LOFTON.

Hotel Guests.

Among the arrivals at the Palace Hotel last week were the following: C. H. Ball, Amarillo; C. S. Martin, Chicago; Mr. and Mrs. G. L. VanBuskirk, Amarillo; T. F. Richards, Plainview; R. G. James, Denver; Henry J. Loeb, St. Louis; W. W. Alexander, Wichita Falls; S. D. Ince, Amarillo; B. L. Logan, Dallas; W. F. Graham, Portales; C. W. Halcomb, Ft. Worth; J. H. Hill, Comanche; H. L. Shultz, Wichita Falls; D. M. Crawford, Westerville, Ohio; H. B. Sparks, Quanah; H. J. Henderson, Denver; J. P. Troinger, Amarillo; B. K. Barkeham, Amarillo; J. S. Greene, Amarillo; F. G. Lewis, Wichita Falls; W. W. Grass, Amarillo; S. B. North, El Dorado, Kans.; Phil. Weyer, El Dorado, Kans.; Mrs. A. J. Blackwell, Lockney; P. R. Huckleberry, Clarendon; and E. D. Garrett, St. Louis.

Awarded Road Contract.

Burgess and La Ree of Palestine, Texas have been awarded the contract by the state highway department for the construction of federal aid project No. 11 for \$42,861.08, although the bid considerably exceeded the estimate. It was the lowest of two bids and is for a difficult five miles or so on the Roswell-Carrizozo road, connecting the boundaries of the Sacramento forest and the Mesquite Indian reservation.

The Lea county construction company was awarded the contract for the road across the Mesquite sands project No. 16 in Lea county for \$39,517.24. The sand is to be covered with two or three feet of a combination of lime and earth forming "caliche" which will not sink in the sand.—Roswell (N. M.) Weekly Star.

the national joy smoke

PUT it flush up to Prince Albert to produce more smoke happiness than you ever before collected! P. A.'s built to fit your smokeappetite like kids fit your hands! It has the jimdandiest flavor and coolness and fragrance you ever ran against!

Just what a whale of joy Prince Albert really is you want to find out the double-quickest thing you do next. And, put it down how you could smoke P. A. for hours without tongue bite or parching. Our exclusive patented process cuts out bite and parch.

Realize what it would mean to get set with a joyous jimmy pipe or the papers every once and a while. And, puff to beat the cards! Without a comeback! Why, P. A. is so good you feel like you'd just have to eat that fragrant smokel

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

Notes of General Interest
 Washington D. C.—That the government has maintained a veritable "bone yard" for thousands of practically new army trucks, automobiles and ambulances has been developed in hearings before the war investigation sub-committee of which Representative Reavis of Nebraska is chairman. It was disclosed that new machines have been delivered since the signing of the armistice and that they were permitted to remain exposed to the elements for more than six months an attempt being made to sell them. Officials of the War Department testified that more than three thousand machines were arranged out-of-doors in February for the purpose of displaying them for sale, but that for some unaccountable reason the sale had never been conducted and the cars had remained exposed to the weather since that time.

Tokio—Thirty newspaper have been suppressed in Japan for discussing the high cost of rice, during the past few months according to the Yama-to, the leading newspaper of this city. In an editorial recently the Yama-to protests against this form of oppression and declares that it is a violation of the right of free speech.

Washington D. C.—Under the terms of a bill recently introduced to regulate the meat packing and other industries, newspapers that publish livestock quotation will be compelled to take out a government license. Practically every publication in the United States would be obliged to submit to that sort of government regulation.

Austin, Texas—The first revocation of permits to drug stores to sell whiskey for medicinal purposes occurred here recently when six drug

stores had their permits taken away by the United States internal revenue office. These were the first revocation to occur in the United States and in addition to revoking the permit, the collector ordered his department to seize the entire stock of whiskey held in the stores affected. Seventy-five barrels of whiskey were confiscated.

In Poor Man's Playground
 Vacationists who follow the advice of the Forest Service, United States Department of Agriculture, to partake of the recreational advantages to be found in National Forests are well pleased and appreciative of the work which is being done for them. Here is a letter recently received from one vacationist in Idaho:

"I want to express my appreciation for the work you are doing in providing conveniences for campers in this vicinity. The camping grounds are the poor man's paradise. We spend about six weeks in the Forest every year, and I am sure that this work will be appreciated and have the approval of everyone who knows about it. This place is new to me this year, and I came here because I heard of the work you are doing, and I am passing the good word along. In time the beautiful camp grounds of Idaho will be known far beyond the borders of our State.

"The natural camping resources are practically unlimited in this section, the scenery can scarcely be excelled anywhere, and it wouldn't surprise me to see, in a very few years, pleasure seekers from every State in the Union visiting the playgrounds of Idaho."

Come to Canyon to Live.

"Darling, I offer you my heart and my hand," said a local swain recently. "Where's your pocketbook?" inquired the practical maiden. No deal.

Time to begin saving your hundred dollar bills, William. Christmas is rushing right along again, and your girl will expect a trinket or two.

INSURANCE ON GRAIN ON THE FARM

Either in the stack or barn. We will insure your grain against fire and lightning any where on the farm at the following rates:

One month ---- \$4.30 per thousand
 Two months ---- \$6.45 per thousand
 Three months -- \$8.60 per thousand

A LEOPARD CANNOT CHANGE ITS SPOTS

Mr. Dodson, the "Liver Tone" Man, Tells the Treachery of Calomel.

Calomel loses you a day! You know what calomel is. It's mercury; quick-silver. Calomel is dangerous. It crabs into your bile like dynamite, clamping and choking you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't grip.

In one paper we read there's a great wave of public sentiment for the League sweeping over the land, and in another that an equal wave is setting in against it. Mr. Wilson's trip is expected to settle the problem what are the wild waves saying.—Philadelphia North American.

The Cubans That Does Not Affect the Head because of its toxic and sensitive effect. LAKATIVE BRONCO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of Dr. W. G. GAYNE, Inc.

The Hour of Fate

Victor Hudson, in Association Men:

What is the hour of fate in a young man's life? I should say 7 p. m.

That hour is the springboard from which most men leap to success or fall off to failure.

I am also convinced that 7 p. m. is the fork in the road, one which leads to character and the other to the lack of it.

There are twenty-three other hours in a day, but there no hour so potent as this 7 p. m.

Why? This is the answer: A man's waking hours are divided between industry and leisure. To a majority of mankind, 7 in the evening marks the end of work and the beginning of leisure. It is the hour when a man makes a choice of the kind of leisure he is to have. If he turns to the leisure that means improvement to his mind, his body and his soul, he wins; if he turns to the pleasure-feeding frivolities, he loses. It is a cold-blooded proposition, but it is true. Genius is 99 per cent hard work, and the best of leisure is a shift from one kind of work to another kind of work. Ninety nine out of every hundred men who win in this world do so the time, when they are not at work, in activities which look like work to the loser.

Notice of Application for Letters of Guardianship.

No. 130, The State of Texas: To the Sheriff or any Constable of Randall County—Greeting:

You are Hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Randall, State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of publication before the return day hereof:

Notice of Application for Letters of Guardianship.

The State of Texas, To all persons interested in the welfare of Lydia Kuehn, a person of unsound mind, Mrs. Augusta Kuehn, has filed in the County Court of Randall County, an application for Letters of Guardianship upon the Person and Estate of said person of unsound mind, which said application will be heard at the next term of said Court, commencing on the First Monday in October, A. D., 1919, the same being the 6th day of October, A. D., 1919, at the Court House thereof, in Canyon, Texas, at which time all persons interested in the welfare of said person of unsound mind may appear and contest said application, if they see proper to do so.

Herein fail not, but have before said Court on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Canyon, Texas, this 17th day of September, A. D., 1919.

O. W. GANO,

2612 Clerk County Court, Randall County, Texas

THE STATE OF TEXAS

To the Sheriff or any Constable of Randall County, Greeting:

YOU ARE HEREBY COMMANDED, to publish in Randall County, the first of which issues shall be published at least ten days before the return date of publication, and such return copy of this citation containing the following:

THE STATE OF TEXAS

To all persons interested in the estate of Levi Angel, Deceased;

Luella Angel has filed in the County Court of Randall County an application for the probate of the last will and testament of said Levi Angel, deceased, which will and testament has been filed with said application; and further applying for letters testamentary of the estate of said deceased, which will be heard at the next regular term of said court, commencing on the first Monday in October, 1919, the same being the 6th day of said month, at the Courthouse in Canyon, at which time all persons interested in said estate may appear and contest said application should they desire to do so.

Herein fail not but have you before said court on said first day of the next term thereof this will with your return thereon written, together with a copy of such publication thereof attached and only sworn to by the publisher of the law in such cases provides.

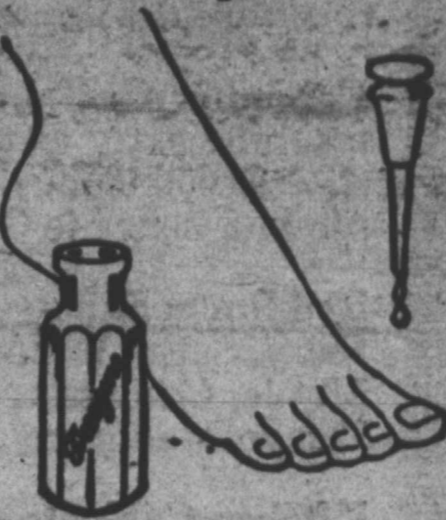

Given under my hand and seal of said court at my office in Canyon, Texas, this 23rd day of September, A. D. 1919.

(SEAL) O. W. GANO
Clerk County Court of Randall County, Texas.

A true copy I certify, Worth A. Jennings, Sheriff, Randall Co. Texas. By Myra Smith, Deputy.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Prozone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Prozone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without ointment or irritation. Prozone is the sensational discovery of a Cincinnati genius. It is wonderful.

THE STATE OF TEXAS

To the Sheriff or any Constable of Randall County, Greeting:

YOU ARE HEREBY COMMANDED, to cause to be published once each week for a period of ten days before the return hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Randall County, Texas, a copy of the following notice:

To all persons interested in the Estate of A. E. Burns, deceased, D. E. Burns, Administrator of said estate, has filed in the County Court of Randall County, Texas, an application to resign as administrator of said estate, which application is substantial as follows:

NO. 122

ESTATE OF D. E. BURNS. IN THE COUNTY COURT OF RANDALL COUNTY, TEXAS.

To the Hon. C. R. Fleisher, Judge of said Court:

Now comes, D. E. Burns, Administrator of said estate and states to the Court that he wishes to resign as such administrator, and he here now files with this application a full and complete exhibit of the condition of said estate, together with his administrators account, both verified by affidavit as requires by law.

D. E. Burns, Administrator which will be heard at the next term of said Court, commencing the first Monday in October, A. D. 1919, at the Court House in Canyon, Texas, at which time all persons interested in said estate are required to appear and show causes why such application should not be granted.

Herein fail not, but have you before said Court on the said 1st, day of the next term thereof this Writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of office in Canyon, Texas, this 25th, day of September, A. D. 1919.

(SEAL) O. W. GANO
Clerk County Court, Randall County, Texas.

A true copy I certify, WORTH A. JENNINGS
Sheriff, Randall Co. Texas. By Myra Smith, Deputy.

If you want a shirt cut with as much care as tho' costs were never worn, wear an EAGLE SHIRT. Notice the smoothness across the shoulders, the drape of the back, the hang of the sleeves and the trimness at the waist.

It fits you as you've always wanted a shirt to fit.

Welcome Normal Students

WE wish to take this opportunity of extending to each and every one of you a most cordial welcome to our little city.

If at any time we can be of any assistance to you in any way, do not hesitate to call upon us; we want you to feel that you are attending school at home and not among strangers. You are cordially invited to make our store your headquarters. Our salespeople are ready at all times to extend any favor that may be consistent with good business.

We are more than glad to see so many in attendance this year and feel that you have exercised wisdom in selecting the West Texas State Normal College for your School during the coming year.

We are handling a very large and complete line of Dry Goods and Clothing and at any time we can serve you, we shall be more than pleased to have you call upon us. We will appreciate any business you may give us.

Please remember us as your friends at all times.

Yours for a Successful School Year,

West Side of Square

Canyon, Texas

Get Ready for Trapping
 Careful preparation for trapping usually means more successful and hence more profitable trapping for the novice or the old-timer. After getting your outfit together—and by the way see that your traps are bought from a reputable, dependable house—there is a great deal of field work that ought to be done at least a week or two before the trapping season opens. Dens, feeding places, drinking holes, daily trails and the general stalking ground of the animals should be looked up, and to make matters simpler, charted, so that when furs are prime you can set your traps just as a general places his gun in a big drive without loss of time.

Any artificial lure, bridges, bait pen and dead falls (provided you use them) should be built several days before the trapping season opens and all trace of the human scent removed from them. The object of constructing them in advance is to make them familiar to the animals, so that by the time you are ready to trap the game will not be as suspicious of them as it would be if you put them up the same day you started trapping.

If you are a successful trapper you probably use animal bait, and in that case it would be wise to order this in advance, for to run short of bait in the height of the prime trapping season would be to lose money. It is also a good precautionary measure to get your smoker in good working order and to lay in a few more smoke cartridges than you think you will need. The smoker is a most important article in trapping animals that den up in numbers, for it gets them out without damage to fur, enables you to trap or shoot the grown animals and let the kits, females, and poorly furred animals escape until later.—Western Farm Life.

Mr. and Mrs. J. M. Sadler are moving to Amarillo this week.

Travis Shaw went to Chicago the first of the week to meet his family coming from Detroit.

What Are Sidebones?

There are still many men in the horse business who do not understand what sidebones are, and will tell you that they suppose them to be the bones of the side of the body or head. At least, we have heard such remarks, and recently when a fair judge turned down an imported stallion and was asked for his reason by the owner, and was told "sidebones," he asked, "What are they?" although his horse owned a pair of them visible to the eye without manual examination. It is evident, therefore, that all breeders, buyers and sellers should know what a sidebone is, and how it should be detected. Stand with the back to the horse's head, lift up the right forefoot with the left hand, and with the fingers and thumb of the right hand take hold of the side of the coronet, the hoofhead at the heel. At this part there is a ridge of elastic cartilage in sound horses, and it should be possible to bend it from one side to the other. This is called the lateral cartilage, and its purpose is to spread the heels apart and distribute concussion, so that the leg above is not jarred in a damaging way. When this cartilage becomes ossified it is termed a sidebone, which may be on one or both sides of one or both forefeet. Standing the other way and running the palm of the hand down over the coronet, a marked or large sidebone may be detected as the thumb on one side and the forefinger on the other side meet it at a hard, rigid, bony enlargement. Field and Farm.

Cattle Movements in Terry County

The train last Saturday was nearly six hours late getting into Lubbock on account of having to pick up so many cattle on the road. Among the shippers last Saturday, and the places from which they shipped, were from Seagraves: Theompson & Taylor, of Tokio, two loads, W. K. Dickinson of Lubbock, two loads; W. M. Stovall of Bovena, three loads; C. Shell, of Seminole, two loads. All were headed for market except the ranch near Bovena. Brownfield: O. Stovall cattle, and they go to his E. Adams, five loads, Pool & Goodman two loads all for the Ft. Worth market. R. O. Wilson also had one load at Seagraves for Fort Worth. Meadow: Brown & Herrington two and one half loads for market. Roper: C. K. Johnson, three loads for market.—Brownfield Herald.

First Shipment of Wyoming Cattle

The first shipment of Wyoming cattle, consisting of four hundred and eighty calves, and one thousand and eighty-two cows, reached Lubbock Sunday. These cattle we understand are owned by a Wyoming senator. They come from a portion of that state which has been struck with a drought this year. Part of the cattle will be shipped to the Seagraves country and part to Colorado.—Lubbock Avalanche.

You have to hand it to the Kaiser for one thing; he hasn't suggested a plan for control of our railroads.—Greenville (S. C.) Piedmont.

LOCALITY NOT WELL NAMED

Desert Island, Off Wains Coast, Has Many Attractions for Naturalist and Pleasure Seeker.

Mount Desert Island started its career with the handicap of a name that suggests a place of glaring, sun-baked sands and rocks. Yet it has overcome this disadvantage to the extent of now being put down as a national park. Moreover, it occupies a coveted position in Bar Harbor, one of the most popular and fashionable summer resorts of the Atlantic coast.

It was Champlain who named the island. He was sailing along the Maine coast when he sighted a patch of land with a backbone ridge of apparently treeless mountains. "Isle of Desert Mountains," Champlain called it, and sailed away. Later it was visited by more curious explorers, and while the original name stuck, Mount Desert island came to be known as a delightfully wooded island, with picturesque mountain trails, shadowy lakes and a remarkable variety of birds and plants.

As these reports spread, Mt. Desert acquired a population of nature enthusiasts, artists, poets and a steadily increasing representation from the world of fashionable society.

Bar Harbor, the best-known summer colony of Mt. Desert, lies on the east coast of the island overlooking Frenchman's bay and the blue Atlantic. There are gorgeous villas and extensively simple cottages in Bar Harbor, a country club, golf courses, beaches, and all the rest of the usual summer resort equipment.

But most people find the mountains and lakes of the island more interesting than the artificial atmosphere of the built-up resort. Birds from arctic regions as well as countless varieties from warmer latitudes find their way to the island, and brighten wood and shore with gay flashes of color. Mt. Desert's long standing as a bird refuge, its scenic beauty and its interesting geologic history—which shows that its mountains and valleys were cut out in an early glacial period—all combined to make it desirable as a national reservation. The idea was long considered, and at last, in 1917, part of Mt. Desert was set aside as a national playground and an official bird refuge.

FINDING HAPPINESS IN WORK

Matter Which is Largely Dependent on Attitude One Assumes Toward Necessary Labor.

Work is God's greatest blessing to man. Until you have learned to look upon your work, not as a curse, not as drudgery, not as a treadmill which you are compelled to tread laboriously every day, you cannot be really happy, you are missing the best that is in life, remarks Forbes Magazine.

No honest work need be drudgery, whether it be sweeping streets, making collars or painting famous pictures.

Art is nothing but doing a thing in the best way it can be done.

Each one of us can be an artist at his or her work. All we need to do is put our whole heart, our whole enthusiasm, our whole souls, our whole talent into doing it with the greatest care, the greatest skill and the greatest efficiency we can command.

Until we do this we can be neither successful nor contented, for Providence has ordained that, in order to be happy, we must do the best and the most we are capable of.

Loafers, whether rich or poor, do not know true happiness, do not know the sense of satisfaction which comes from work well done and done with a will.

Whether we find pleasure in our work or whether we find it a bore depends entirely upon our mental attitude toward it, not upon the task itself.

Seven Wise Men of Greece.

By the expression, "The Seven Wise Men of Greece," is meant a number of men among the Greeks of the sixth century before Christ, distinguished for their practical sagacity and their wise maxims or principles of life. Their names are variously given, but those most generally admitted to the honor are Solon, Chilo, Pittacus, Bias, Periander (in place of whom some give Epimenides), Cleobulus and Thales. They were the authors of the celebrated mottoes inscribed in later days in the Delphian temple. These mottoes, with the name of the author of each, were: "Know Thyself," by Solon; "Consider the end," by Chilo; "Know thy opportunity," by Pittacus; "Most men are bad," by Bias; "Nothing is impossible to industry," by Periander; "Avoid excess," by Cleobulus; and "Suretyship is the precursor of ruin," by Thales.

Lamb and Mutton.

The dividing line between lamb and mutton is not based wholly upon age; a well-bred and well-fed animal, 12 or 18 months old, may still belong to the lamb class, while a yearling of rangy stock, which has been poorly fed, yields meat of an inferior grade of mutton.

The best grade of mutton consists of fat, heavy meat. Light and flabby meat is not very palatable. Lamb rarely is an economical meat to serve. The relative difference in food value between lamb and mutton is the same as between veal and beef.

The meat should be of a deep red color and firm to the touch; the fat, creamy, white and solid. Mutton absorbs odors easily, so it must be kept in a cool place under proper conditions.

STATE FAIR POULTRY SHOW TO EXHIBIT 5,000 BIRDS

PLENTY OF POULTRY INFORMATION FOR ALL AT VICTORY FAIR AT DALLAS.

The Poultry Show will be greatly enlarged and improved at the Victory Fair in October. \$2,500.00 in cash premiums will be awarded. This includes numerous specials offered by the Texas Barred Rock Club. Two thousand new steel coops, sufficient to accommodate 5,000 birds, have just been purchased by Walter Burton, of Arlington, the Superintendent of the Poultry Department. These have been made necessary by the large number of entries already received. All coops will be modern and sanitary.

A new feature will be the complete educational department provided through the co-operation of the Extension Department, Texas A. & M. College. Prof. Kazmeier will be in charge. The care of poultry and other barnyard fowls will be outlined in detail. Oats sprouters, methods of proper feeding, hatching, incubators, their timing and temperature, the layout and arrangement of poultry houses, methods of getting rid of mites, lice, and other vermin, and many other vitally important subjects to poultrymen, will be explained by experts. No charge will be made for this information. It will be free to all, and will be found of great value not only to amateurs but also to experienced poultrymen.

The annual meeting of the Texas Barred Rock Club will be held at the Victory Fair. It will be a perfect Poultry Paradise.

Miss Lillian Hazel, Extension Department A. & M. College, Boys and Girls Club work, advises 1,000 birds will be entered from the boys and girls alone.

The judges for the contests will be E. C. Branch, Lee's Summit, Mo., who judged the recent state poultry show, James Tucker, Royal Oak, Mich., and G. D. McClaskey, Kansas City.

SPECIAL AGRICULTURAL PREMIUMS AT VICTORY FAIR

HUNDREDS OF DOLLARS OFFERED BY ENTERPRISING CONCERNS.

Special cash premiums aggregating \$300.00 are offered for the best agricultural displays by the Texas Land & Mortgage Company, Ltd., of Dallas, divided as follows:

For the best county exhibits, first premium \$75.00; second \$50.00; third \$40.00; fourth \$35.00.

For the best and most diversified exhibit of corn, cotton, small grains, and any other farm products from one individual farm of 80 acres, or less in Texas, crop of 1919, first premium \$30.00; second \$20.00. For best display from farm over 80 acres, first \$30.00; second \$20.00.

The Dallas Cotton Exchange offers \$500.00 for the best bale of cotton grown in Texas in 1919, grades from middling to good middling to be considered as follows: 1 1/2 inch staple \$250.00; 1 1/4 to 1 1/2 inch staple \$150.00; 1 1/8 inch staple \$100.00. Bales intended for this contest should be shipped to Shippers Compress & Warehouse Company, Dallas, Texas, to arrive not later than Oct. 4, 1919. Notice of shipment should be sent to N. W. Nollev, Secretary Dallas Cotton Exchange, Dallas, Texas.

These special premiums are all in addition to the \$10,000.00 appropriated by the State Fair at Dallas—\$5,000.00 for county displays and \$5,000.00 for individual farm displays.

Now is the time to prepare samples for these contests.

MUSIC, MIRTH, MAGIC AMONG VICTORY FAIR AMUSEMENTS

NO EXPENSE BEING SPARED TO SECURE HIGH GRADE ATTRACTIONS.

The spirit of Victory, in its highest sense, will prevail at the Victory Fair this fall.

Mirth, music, magic will reign. Regardless of individual taste, all will find something to amuse, to thrill, to instruct, to awe, and to startle at the Victory Fair at Dallas.

Military bands will be there to soothe or sway with their charming strains. There will be exhibitions of skill and digital dexterity to jar you out of your lassitude. Marvelous stunts, appearing to deliberately defy the laws of nature, will startle you. One of the world's greatest Magicians will appear—and disappear. \$1,000.00 is offered to any one who can find him. There will be legerdemain, illusions, mysticism that will baffle even the most perspicacious.

Headliners, only, attractions of highest grade, are being booked. Many of these are world-renowned artists, who are under contract to originate entirely new acts, new songs, new musical selections, new presentations of different character for the Victory Fair.

Daring auto drivers will compete for new laurels in high speed contests. The latest, most intricate terpsichorean attractions will be presented by illustrious fancy dancers in shimmering attire. There will be pyrotechnical, spectacular, scenic, productions, which for gorgeousness will eclipse anything ever shown before. Vaudeville stars will twinkle. Music of all instruments, and voices in many harmonious combinations will delight the ear and charm the mind with their beautiful interpretations of classical, standard, popular and jazz selections.

Wayside Notes.

Weather is cloudy and threatens rain. Wheat in the shock dries slow. Row crops are being cut. Threshers began work today but are making slow progress as it is too wet.

Mr. and Mrs. L. E. Rogers, Ira Jenkins, Mrs. S. J. McGehee and Miss Sallie McGehee from Canyon came to Wayside to visit relatives Tuesday.

Misses Mattie Loraine and Bernice McGehee have gone to Canyon to attend the Canyon Normal.

Mrs. Fannie Butler of Tuttle, Okla., came Friday to visit her brother W. J. Sluder and family. She moved from Armstrong county six years ago. She meets a warm welcome from relative and friends.

Mrs. W. R. Franklin who has been quite poorly in health, for some time is improving, we are glad to note.

Miss Ruth Franklin well known to Waysiders, late of near Plainview, was married Sept. 22, to Mr. Ralph Childress. They will reside near Curlew.

Roy Franklin has entered school at Wayside. He stays with his grandfather, W. J. Sluder.

Miss Grace Sluder has accepted a school in Hutchinson county, at \$90 per month. She will have three pupils. School to open Oct. 6.

Rev. Zero Pirtle came Friday and held services the following four nights. He announced Rev. A. L. Moore, P. E. of Plainview District, would preach for us Thursday night before 4th Sunday in October.

Mrs. Pirtle came Sunday morning, making her first visit to Wayside.

Mrs. Ola Meyers of Canyon came out Sunday with M. S. McGehee and

will spend a few days.

Dr. Warner of Claude proposes to come to Wayside in Oct., and bring some souvenirs from France and give us a lecture in the interest of the Red Cross Drive. Thank you Dr.

"The Only Girl"

There are ten principals in the "Only Girl," as follows:

Kimbrough and Miss Wilson who in the play are collaborating in the writing of an opera. Kimbrough has three fast friends. These three friends with Kimbrough and Saunders, the butler, are the men of the piece. Besides Miss Wilson, the prima donna, are the three ladies whom Kim's friends marry. Then there is Patsy, the sourette, and Renee, her friend. Along with Patsy are her friends, which, in most light operas or musical comedies, are passed over with the general title of a chorus. In the Hornet production a better class of artists were secured and it is scarcely fair to call them chorus girls because they are young women of splendid voices and good stage experience and appearance. Mr. Horner considered it a wise plan to pay more than ordinarily is paid for chorus girls, and to get people who could really sing.

Then, of course, we have the musical director in the person of Mr. Lucien Denni, a splendid orchestra, stage carpenter and master electrician, altogether making a personnel of nearly thirty people.—"The Only Girl" comes to Canyon at the Normal Auditorium, Monday, Oct. 10.

Come to Canyon to live.

Moving Store.

The Gouley Furniture and Undertaking Company is moving this week to the furniture building on the east side of the square.

Mr. Gouley stated yesterday that he has a large shipment of furniture coming and will increase his stock as rapidly as possible.

The Japanese artistic temperament seems to be manifesting itself these days in the collection of rare pieces of China.—Manila Bulletin.

You Do More Work.

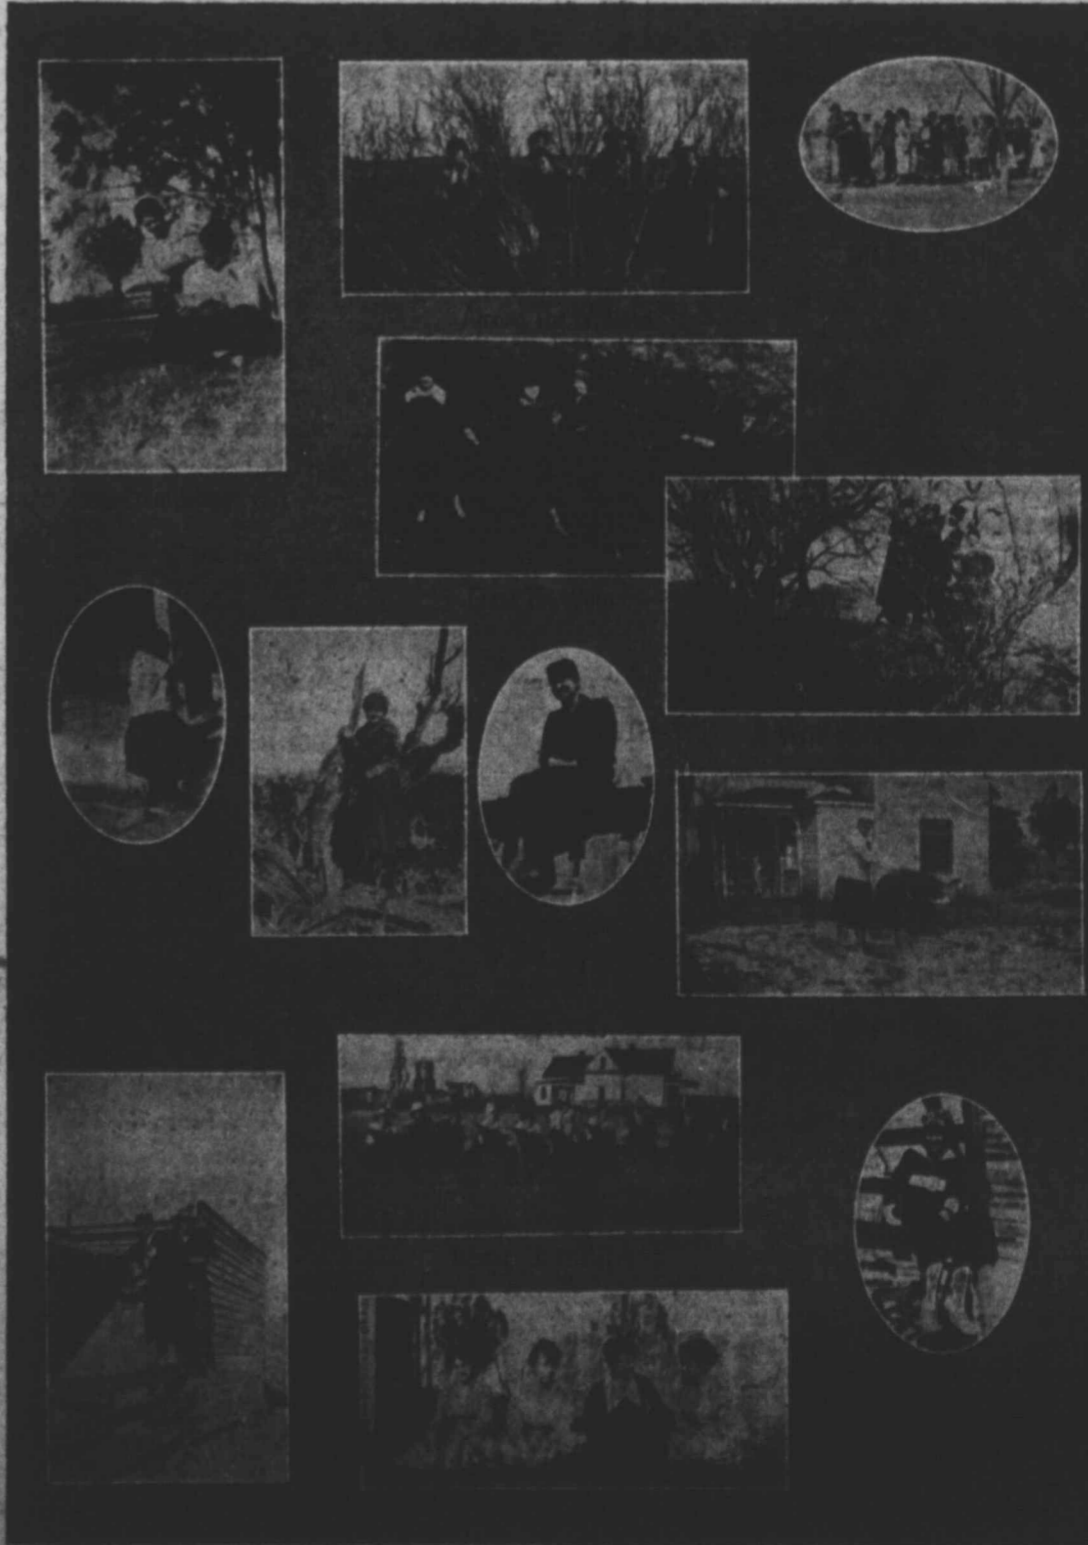

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel less strengthening, invigorating effect, how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

STRIKERS TIE UP BRITISH RAILROADS

COMPLETE STOPPAGE OF RAILWAY TRANSPORTATION PERFECTED.

London.—The greatest strike in England's history is now on with practically complete stoppage of railway transportation throughout the country.

A few trains, manned by nonunionists, pulled out of the London stations Saturday. Several trains which left for the north were stopped by pickets and the engines taken off. The passengers were left to camp in the cars. Trains of fish were left standing on sidings and the contents spoiled.

Liverpool's meat supply was held up. At Hartlepool the steel works closed and the iron works are dumping down.

Two great railway organizations, the National Union of Railwaymen and the Society of Engineers and Firemen, have stopped work. The miners and transport workers' union, the latter of which includes the dock workers, are expected to join them.

The English channel steamers and railway boats plying the Irish sea probably will be tied up, cutting off England's communication with the outer world to a large degree.

The effect on business already is disastrous. The system of food distribution and the mail service are disorganized.

MEXICAN EXHIBIT AT FAIR IS DISCUSSED BY HOBBY

Governor Issues Statement Regarding Refusal to Bring Display to Dallas.

Austin, Texas.—Before leaving on his speaking tour, Governor W. F. Hobby gave out a statement with reference to Mexico's refusal to send an exhibit to the Dallas fair.

"It is better for Texas and for the state fair that the present Mexican government will not make such a display. It might, however, make a display of a good many things which would be of considerable interest in Texas. One of them would be a disposition to treat Americans fairly and decently. There might be an American flag bespattered with the indignities cast upon it by the Mexican government through these many years and during the war with Germany, and photographs of the hundreds of American graves which are scattered throughout that country. There might be a facsimile of the heap of American gold which has been paid for the ransom of Americans held as prisoners.

"There might be a drawing of a huge border covering a thousand miles of our state's territory, through which there are frequent penetrations with results that are disastrous. There might be a tremendous canvas painting of the dead bodies at Columbus, New Mexico, and of the American citizens' show-down at Santa Isabel, at San Ignacio and at Carrizal."

SUFFRAGE CASE IS THROWN OUT OF COURT

Demurrer Sustained—Court Holds That the Plaintiff Has Remedy Only After Election

Waco, Texas.—In sustaining the general demurrer of the defendant in the case of Tom M. Hamilton vs. Lee R. Davis, tax collector of McLennan county, involving the validity of the woman's primary suffrage law, Judge R. I. Munroe said:

"This is a suit brought by Tom M. Hamilton against Lee R. Davis, tax collector, McLennan county, Texas, to enjoin him from issuing poll tax receipts to the women.

"In my opinion, he is not in a position to maintain this suit because if he is a candidate for the office of representative to the legislature next year and the women defeat him in the primary election, he has an adequate remedy to contest the election on the ground that women have no legal right to vote in primary elections.

"Consequently the general demurrer interposed by the defendant ought to be sustained. This being my view, it is unnecessary to pass on the question of whether or not women have the right to vote in the primary elections."

State's Fishing Industry Wiped Out

Austin, Texas.—The fishing industry of the state is completely wiped out as a result of the recent hurricane. A report to that effect was made to Governor Hobby in a telegram received from Brigadier General J. F. Wolters.

Courthouse Will Stay at Boston, Texarkana, Texas.—After one of the hottest elections held in 30 years, Bowie county voted that the courthouse shall remain at Boston.

Pension Checks Will be \$23

Austin, Texas.—Comptroller Henry B. Terrell has made the semi-annual apportionment of confederate pensions and each pensioner will receive \$23 for each of the two next quarters which commenced on Sept. 1. There are now about 15,700 confederate pensioners on the rolls. There was a balance of \$335,951 in the state treasury on Sept. 1 to the credit of the pension fund but \$370,000 was used to pay the remainder of the last quarter's apportionment.

PUBLIC SALE

I will sell at my place 4 miles south of Umbarger, 14 miles southwest of Canyon, 20 miles northeast of Hereford on

Saturday, Oct 11

commencing at 1 o'clock p. m., the following:

Locating the Profiteer
"Who are the profiteers?" asks the Vernon Record. Well, the producers know they are not guilty, the packers boldly maintain their innocence, the wholesalers say they are taking only a legitimate profit, the

retailers claim the fault is not theirs and the laborers insist that they are just getting by. Seems to us about the only folks on whom the blame can be laid are the preachers; they must be responsible.—Carthage Register.

Welcome!! Students

WE CORDIALLY INVITE YOU TO CALL AND SEE OUR LARGE FIRST CLASS STOCK OF GROCERIES.

REMEMBER, WE ARE ALWAYS AT YOUR SERVICE, AND WE INVITE YOU TO DO YOUR GROCERY BUSINESS WITH US.

Pipkin Grocery Company

—IT PAYS TO PAY CASH—

Announcement

Announcement is hereby made of the Opening of the IDEAL CAFE in the first building north of the Post Office.

It shall be the aim of the management to always maintain a strictly First Class Cafe, with lunches and short orders served at all hours. First Class service at all times. The very best food that the market affords.

All of our fixtures are new, our dining room attractive and everything kept in a strictly sanitary condition. Prompt and courteous treatment always.

If you appreciate our efforts to give Canyon a strictly first class eating house, we will be pleased to have your patronage.

IDEAL CAFE

M. A. HENSON, Prop.

Came to Wed but Took Girl's Purse.

Sheriff W. A. Ish tells a story of romance that culminated several days ago in the arrest of the would-be groom on a charge of having absconded with his fiancée's purse.

The young man and the young lady he chose as his life's help-mate journeyed to Vernon from a county further to the west for the purpose of having the ceremony performed. They arrived in the city Monday afternoon but the Romeo wished to defer the momentous step until the following day to give time for the arrival of his "Sunday-go-to-meeting" clothes from Wichita Falls. Like the Loch-invar he was, the would-be benedict gallantly offered to stand sponsor for the safe keeping of the lady's purse during the night, which offer was graciously accepted.

With the thoughts of a married life that would be "happy ever after" the bride-to-be departed for her room there to dream of her hero in a life and death struggle, if need be, to protect her property against burglars. The hero went to his room thoroughly convinced that he was getting a girl who would be entirely willing for him to manage the money of the family.

But, oh, the awakening! Tuesday morning the man was not to be found. Nor was the purse forgotten. Officers were notified and the man was arrested in Frederick within a few hours.

Mr. Ish notified the officers in Oklahoma that if the money was returned the matter would be dropped. The purse contained about \$26.—Vernon Record.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little Stomach, Liver and Bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs" and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of the little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

DARNALL'S CAFE

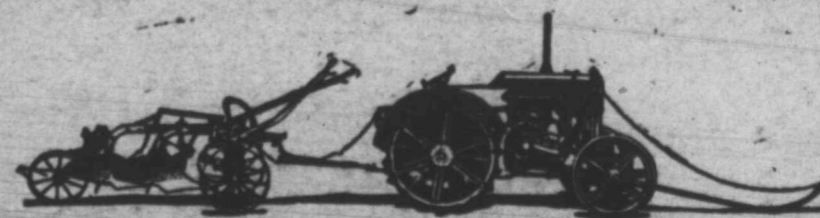

WHILE IN AMARILLO SHOPPING—

Call in and let us give you a good meal. Located on Polk Street, right in the heart of the business section; it is the most convenient place for you to stop. Prices right. Satisfaction guaranteed.

GOOD PLACE SPLENDID COOKING EXPERT SERVICE

DARNALL'S CAFE

411 Polk Street P. E. Darnall, Prop. Amarillo, Texas

You'll Want This Combination

It is the Case 10-18 kerosene tractor and a two-bottom Grand Detour plow. It is an ideal plowing outfit for either small or large farms.

The tractor weighs about 3,500 lbs., just a trifle more than a big team of horses. It burns kerosene economically, developing full power on the same.

The Tractor has a four-cylinder valve-in-head motor, mounted crosswise on a one-piece frame. A Case Siphon Thermostat controls the cooling system and insures complete combustion. The all-spur gears, with teeth cut and hardened, are enclosed and run in oil.

The Grand Detour 2-bottom Automatic Lift Rigid Beam Plow will fill the plowing requirements of the most particular farmer. Grand Detour plows are strictly quality plows. They are light in draft, yet so well constructed that they will give years of faithful service at a low cost of upkeep.

We would greatly appreciate the opportunity of calling you more about Case tractors. Drop in and let's talk it over.

L. T. LESTER

CANYON, TEXAS

NOTICE: We want the public to know that our plows are NOT the Case plows made by the J. I. Case Plow Works.

MOB HANGS MAYOR AND LYNCHES NEGRO

APPEAL FOR LAW AND ORDER BY MAYOR SMITH ANGERS CROWD.

COURTHOUSE IS SET ON FIRE

Numerous Negroes Beaten By Mob. Mayor Dragged Half Block Before Hanging.

Omaha, Neb.—Mayor Edward P. Smith, victim of two attempts at lynching Sunday, died Monday morning as a result of injuries received.

The attempt to lynch the mayor was made by a mob which later hanged William Brown, negro, to a light pole. A rope was thrown around the mayor's neck and he was pulled off the ground twice before two police officers succeeded in cutting the rope and getting him into an automobile and away from the mob.

The mayor had gone to the courthouse and held a consultation with Sheriff Clark. Emerging from the courthouse, he met the mob and began to make an appeal for law and order. Somebody shouted "lynch him" and a member of the mob threw a rope around his neck.

Half a dozen men dragged the mayor half a block and threw the loose end of the rope over a trolley pole. Twice they drew the mayor's body from the ground. Each time two police officers cut the rope. Following the second attempt, these officers succeeded in getting the mayor into a police motor car and rushed him to a surgeon's office near by. The mayor was bleeding from his mouth and nose and after a brief examination by physicians was taken to a hospital. His face and body were badly bruised by being dragged by the mob.

The riot centered about the magnificent new courthouse building, which was set on fire in the efforts to reach William Brown, a negro charged with criminally attacking Agnes Lobeck, a white girl, a few days ago.

With the flames mounting steadily from floor to floor, Sheriff Mike Clark and his deputies fought a battle of hours to save Brown, but with the cries of the 100 or more prisoners on the top floor—the jail floor—ringing in his ears, he was compelled to surrender the prisoner.

The latter was hurried to an electric light pole and hanged.

During the rioting a large number of negroes were badly beaten on the streets, some of them dangerously injured.

Firemen were already on the ground but members of the mob, upon whom they had turned streams of water, had cut the hose and it was useless.

With the dispersal of the mob after the lynching, firemen were able to get water on the flames, which, it was reported, were checked at the fourth floor, one story below the jail.

WOODMEN OF TEXAS DISCUSS SECESSION

Opposition to Higher Rates Expressed and Meeting Call at Waco Oct. 31.

Fort Worth, Texas.—Will the Texas Woodmen secede from the fraternal order of the Woodmen of the World and form a separate and distinct order to be known as the "Woodmen of Texas?"

This will be the vital question up for discussion at a union meeting of all camps of the state to be held at Waco, Texas, October 31, according to resolutions passed at the meeting of Woodmen delegates from various states and Texas held here.

Further resolutions were adopted to send W. A. Fraser, sovereign commander of the Woodmen of the World, a telegram asking him to resign from the order, as well as all other sovereign officers. These resolutions were unanimously adopted and the telegram will be signed by a sub-committee appointed by local officials of the order.

It was brought out in the resolution that one or more delegates from every camp in the state would be asked to attend and that a delegate would represent every one hundred members in the state.

RETURN OF STRIKERS EXPECTED AT MILLS

Operators Predict Radical Change in Their Favor, But Leaders Confident.

Both sides are determined to break the apparent deadlock in the steel strike, which developed at the close of the first week. Interest again is focused on strategic points along the industrial battle front, particularly in the Pennsylvania sector, where a walk-out of approximately 35,000 employees of the Bethlehem Steel company has been ordered.

Assurance that they would be protected, the company officials say, will lead thousands of men who quit a week ago to venture back to the mills.

British Ambassador Arrives.

New York—Arriving aboard the steamship Mauretania to assume his new post as British ambassador to the United States, Viscount Edward Grey, deplored his poor eyesight which compels him to make his mission in this country "comparatively short." He asserted he had not come to put forward any new proposals for treaties and alliances, but his object in accepting the post was to promote the existing good-will between American and British peoples.

All Worn Out

Does morning find you with a lame, stiff and aching back? Are you tired all the time—find work a burden? Have you suspected your kidneys? Canyon people endorse Doan's Kidney Pills. You can rely on their statements.

Mrs. Clouch, Canyon, says: "A short while ago, my back and kidneys began to cause me a lot of misery. There was just a dull, ache through the small of my back and it was also so sore and lame I could hardly bend over to do my work. When I did manage to stoop over, such a sharp, stinging pain would catch me, making it hard for me to straighten up. I was all worn out and could scarcely get around at times. I became dizzy and had headaches and my kidneys didn't act right at all. I saw Doan's Kidney Pills so highly advertised that I bought some and three boxes cured me entirely."

Child Badly Burned.

The little five year old child of Mr. John McDonald, living four miles south of Lockney, was seriously burned the first of the week. The child got hold of some matches, setting its clothes on fire. Mrs. McDonald was in the garden at the time, and hearing the child's screams ran to her and rolled her over on the ground. Seeing that she could not extinguish the flames in that manner she picked her up and ran to a barrel of water, into which she plunged the child and thus put out the flames. Mrs. McDonald's hands were seriously burned. The child is in a serious condition as result of her burns.—Lockney Beacon.

Driller Killed Near Spur.

Driller McIntyre died Wednesday night from wounds sustained last week at the 24 Ranch deep test well for oil.

The slush bucket was hung in the well. In pulling on it the pulley over head broke, falling through the roof and striking Mr. McIntyre on the shoulder and side, breaking bones and crushing flesh. He was doing as well as could be expected when he contracted pneumonia which caused death.—Spur Texas Spur.

One of the most annoying features of the high cost of living is the high cost of fivvering.—Seattle Times.

MISSIONS NEEDED ALSO IN HOMELAND

SECRETARY GRAY OF HOME BOARD SETS OUT SITUATION CONFRONTING SOUTHERN BAPTISTS THERE.

\$12,000,000 IS GOAL SOUGHT

This Sum Will Be Laid Aside From Baptist 75 Million Campaign For Work Among Negroes, Foreigners and Other Projects.

While \$20,000,000 of the \$75,000,000 to be raised in cash and five-year pledges by the Southern Baptists between now and December 7th will go to foreign missions, \$12,000,000 will be devoted to missions at home, it has been officially announced. Home missions is regarded by the Baptists as quite as essential as foreign missions, the larger sum being set aside for the latter cause by reason of the larger field to be covered—practically the entire world.

DR. B. D. GRAY, Of Atlanta, Ga., Secretary of Home Missions for the Southern Baptist Convention.

"Twelve million dollars is a large figure when compared with what we have been doing heretofore," Dr. B. D. Gray, corresponding secretary of the Home Mission Board at Atlanta, declares, "but it is very reasonable in comparison with our ability and small in comparison with the needs of the Home Mission fields."

Setting forth the particular obligation which confronts America since the war has transferred the center of education from Europe to this country, Dr. Gray says: "This brings a new day of opportunity and responsibility to our people. Our schools and colleges must be strengthened and endowed. They must be made thoroughly Christian in fact as well as in theory. In this way we are to counteract the vicious ideals of Germany and her allies in the world war. Our youth must be trained on proper lines as to religion and ethics. This can be done best in our denominational schools."

Some of the educational institutions fostered by the Home Mission Board are the forty mountain schools, serving 3,996,000 residents of the South living in mountainous territory where public high schools are lacking. Fully \$10,000,000 could be used to advantage in strengthening the equipment and teaching force of these schools, it is estimated, so great is the need.

Another demand of the home field is the 4,990 church organizations in the South which need assistance in the erection of suitable houses of worship while more pressing still is the problem created by the presence in the South of 10,000,000 negroes. Speaking of the negro problem, Dr. Gray says: "They are of more vital concern to us than any hundred millions of people anywhere else in the world. Socially, politically, economically and religiously they constitute our greatest task and we neglect them at our own peril as well as their infinite loss. Racial relations are tense and the situation calls upon Southern Baptists for a worthy program in behalf of the religious uplift of our brothers in black. We must lead them in sane missionary and evangelistic work and likewise in the development of their religious life on sane and helpful lines. We need a large company of the best, wisest and strongest negro evangelists and teachers who shall help us to lift up their race and make them worthy and worthy while as Christian citizens."

That work among the foreigners in the homeland offers the best and most economical opportunity for missionary labors among them anywhere, is the declaration of the Home Mission leaders. These foreigners are in the fields, mines and factories and are a vital part of our civilization. "This work among the foreigners not only gives them the Christian religion, but makes them more contented and better American citizens, it is pointed out.

Great hopes for the future of the churches in the South are held out in the enlarged program of evangelism and enlistment which the Baptist 75 Million Campaign will make possible. The Home Board hopes to win from 200,000 to 500,000 people in the South who are not Christians during the period of the campaign.

SALVATION ARMY PLANS NEW WORK

Training School to Develop More Officers for Tasks of Reconstruction.

TO HAVE LARGER BUILDING

College Gives Men and Women Severe Tests for Social Welfare Work—Students Trained With Care and Patience.

New York.—The Salvation Army, now that the war is over, is planning and preparing for its work of reconstruction. The active part that the army took in the war called many of its officers and men to France, many are still there and may be for some time, and since the army and its work has been growing and expanding there is at present a real need for more officers. A few days ago the army graduated a class of fifty-four officers, thirty-three of whom were women. When the next class is sent out it will be twice this number.

This institution trains its students with infinite care and patience. It has its training college at 333 West Twenty-second street, which is in charge of Colonel Charles Miles, who has been a member of the army for thirty-eight years. In the near future the army will either purchase or erect a larger and more commodious college building at an expense, if necessary, of between \$400,000 and \$500,000.

Many College Graduates.

Many officers today in the Salvation Army are college or university graduates, and others were just graduated from the world's school of hard knocks. They are all, however, men and women of more than average intelligence, and some have made really great sacrifices for the privilege of wearing the simple blue uniform of the organization. Of the class just graduated one young man won honors and a degree at Cornell university, and seventeen of them were in the country's service during the war, one of whom won the croix de guerre. Since the war many soldiers and sailors have expressed a desire to join the organization.

It is not an easy matter to become an officer in the Salvation Army because the organization is exceedingly particular about getting the right kind of men and women to guide its destinies, and, although many are called few are chosen, and a person before becoming an officer is put through a rather severe acid test. Some candidates are quickly disillusioned at the outset by the smallness of the pay, for lieutenants and captains receive but \$9 and \$12 a week, and must pay for their board and lodging out of this sum, and they also pledge themselves to remain with the army for life. They must devote all their energies to the organization, and are not permitted to labor outside of their work for remuneration. A major—and one must have worked long and faithfully to attain such a high rank—receives a salary of \$21 a week and a small allowance for house rent and for each child. Most of the higher and older officers in the army go out into the world and make a fat living without any difficulty, and they have been frequently offered lucrative positions, which they have refused because they have preferred to be faithful to their trust.

To become an officer in the organization a candidate must possess a certain degree of natural intelligence, must love the Lord and his neighbor, and must possess the indefinable something known as the Salvation Army spirit.

Must Prove Worth.

Before being admitted to the training college a candidate is first assigned to an army corps for a period of six months. He is there given an opportunity to prove that he is made of the right sort of stuff by showing his willingness to do cheerfully any kind of task assigned him. He is immediately sent out on the streets with the corps and often to a tough neighborhood in the city where he may encounter a decidedly unfriendly element. Almost at the start he must make his prayer or plea to the night crowd on the street corner. If at the end of his period he has shown the proper spirit he is then sent to the army training college. The course here is nine months. He pursues a course of Bible study, learns the customs and laws of the organization, and attends lectures. If he does not possess the sticking qualities demanded of Salvation Army officers, or shows that he is not fitted for the work, he is frankly told so, and is advised to return to his home town where he may nevertheless work for the organization, and take up for his life work some other line of endeavor for which he is better fitted. At the college the army exercises a weeding-out process so that it may make no mistake in its selection of officers. Many who aspire to attain rank are quick to realize that they are not intended for such rigorous social welfare work, and are frank to say so when they realize the sacrifice and hard work it entails.

At the outbreak of the war the Salvation Army pledged itself to serve and stand by the nation. Almost every member was engaged in some kind of war work, and a large percentage of the organization was in France.

RETURNS WITH FAME

Youth Out on Probation Redeems Himself.

San Francisco Boy Makes Good Serving in War as Army Captain.

San Francisco.—Three years ago Thomas J. Ford, a youth of 19 years, walked out of Superior Judge Franklin Griffin's courtroom, grateful for a chance and vowing he would make good.

Three charges of grand larceny were against his name. Judge Griffin placed the lad on probation on one charge and carried the other two on the reserve calendar.

Recently Captain Thomas J. Ford of the Canadian army walked into Judge Griffin's courtroom.

"I've made good," he told Griffin, simply, "and I came back just to thank you for having given me the chance."

Then he told his story: "After you permitted me to go I joined the Canadian forces as a private. I went to France and into action. It was real action, too. My regiment fought in some of the biggest engagements. I wanted to make good and to show you I could, and that carried me through some tight places. I rose in the ranks, surprising myself at the way I forged ahead. I even won distinction for bravery under fire."

"You have earned more praise than this court can bestow on you," said Griffin. "Besides doing our country an honor you are one of the many men that have convinced me that the probation law is successful."

Then Griffin directed that the two remaining charges against Ford be erased from the calendar.

Ford was arrested three years ago because of his practice of taking automobiles that did not belong to him to take women friends joyriding.

JAMES J. McCABE

Mr. James J. McCabe, composer of the American music for "My Country, 'Tis of Thee." This patriotic air was formerly sung to the tune of "God Save the King," and the American music was written in response to public feeling that our beautiful anthem should be sung to music composed by an American. Mr. McCabe hails from New York, where he is district superintendent of schools and prominent in community music work. He also bears a striking resemblance to President Wilson and has many times been taken for our chief executive.

Jersey Man Has Red, White, Blue Goldfish

Jersey City, N. J.—Introducing "Miss Liberty," a new red, white and blue goldfish, Frank Hedden, a member of the Hudson County Aquarium society, crossed a Chinese Moor-black goldfish with a fish that had a red-scaled Japanese and a brown transparent-scaled Japanese for parents. The result is a fish with a red body, white fins and sides, and a blue streak on its back.

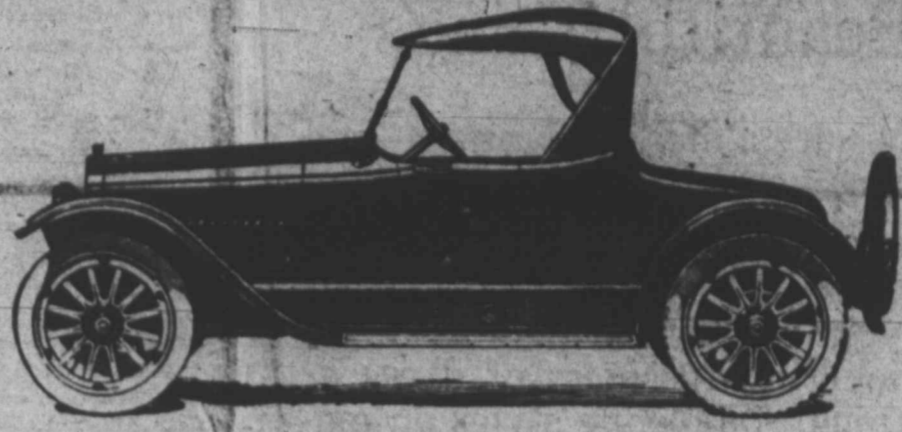

Pulmotor Saved Pigs.

Penn Yan, N. Y.—When Jacob brook overflowed, two pigs owned by Dr. H. J. McNaughton were swept away and to all appearances drowned. The physician recalled that when he was president of the village he had purchased a pulmotor to be used by the fire fighters, so he sent in a hurry call for the life-saving apparatus. Thinking human lives were at stake the village smoke enters made a record run to the doctor's home. Twenty minutes after the pulmotor was put in action the patients were able to sit up and take nourishment.

Bomb to Stop Rioting.

New York.—Frank A. Gierst has invented a bomb which he says will stop rioting. You mix it of ether, alcohol and things. He pointed out that the power of alcohol is well known.

New Mitchell Sixes

We have just received a car load of NEW VICTORY MITCHELL'S. Let us demonstrate to you the car with the quality at a reasonable price.

Call on us at at south side of the square.

May Motor Company

What Dragging Does.
The east side of Main Street is an example of what can be accomplished by a little dragging. Bob Crowder and Bland Burson volunteered their services and drag that side of the street one time—at the right time—and that is now the only part of the street which can be gotten over with any degree of comfort or safety with a car or even afoot. More dragging should be done.

When our roads are graded up and then kept dragged after the rains, we have fine roads. We are anxious to see all our roads graded up so they can be kept in shape by drags.—Silverton Star.

received by Mr. Connel from his wife Thursday morning.—Hereford Brand.

Family Lost At Corpus Christi.
The bodies of Hugh M. Stockton brother of Mrs. E. F. Connell, his wife, two children and Mrs. Stockton's mother, Mrs. White, victims of the storm at Corpus Christi, have never been recovered, according to a letter

First Fair A Success.
The First Annual Collingsworth County Fair opened yesterday with a good attendance, and with agricultural livestock, poultry, and domestic exhibits the like of which has never been exhibited in the county.—Wellington Leader.

I SAY:

TASTES DIFFER ON STYLE—NEVER ON QUALITY

SOME men want their clothes to be full of dash and action. Others prefer quiet styles. But all men want fabrics that are all-wool—tailoring that is painstaking and expert.

And these are exactly what they get in the Fall and Winter designs from the Kirschbaum Shops.

Sport models of all types for young men—smart single and double breasted for older men.

It's no effort to purchase Kirschbaum Clothes. You can pick no style but a correct one, no fabric but all-wool, no workmanship but the best.

All you need do is choose the most becoming model. Our courteous and experienced salesmen will keep you straight on that score.

FOUR PLAYS DIRECT FROM BROADWAY—CLEAN, NEW AND SNAPPY

The best opportunity Canyon will ever have to see real artists perform as they play in the big cities of the east.

FIRST NUMBER, MONDAY, OCTOBER 6

"The Only Girl"

Season tickets are now on sale. All four numbers for \$5.00 plus 80 cents war tax. All plays will be given at the Normal auditorium. A number of men are guaranteeing \$2000 to bring these plays to Canyon.

Reserved seats will be on sale Saturday at the City Pharmacy. Holders of season tickets will get seats reserved at that time. Tickets good for the one play next Monday will be on sale at \$2.20.

Students in the Public Schools will be sold Season Tickets for \$3 plus 40c war tax.

The Present Text Book Situation
While the present situation as to textbooks in Texas is far from satisfactory, Texas is faring better in this respect than are several other states. In the past whenever new adoptions of books have been made, difficulty has been experienced in securing a sufficient supply at the opening of school. This condition, therefore, is not a result of the free textbook law.

There are not now, a sufficient number of books in the United States to supply the schools for the fall term. This situation is partly due to war conditions. Publishers, generally, hoping for lower prices, have permitted their stock to run down during the last two years. Paper mills followed the same course, but instead the prices have soared. The book shortage has been made worse by the difficulty of securing trained workers. Most publishers have found it necessary to double their work-

ing forces, at about twice the wages paid a year ago. The supply of cloth for binding is insufficient and it has been found impossible to secure an adequate corps of workers for book-binding.

In Texas much of the delay has been due to the procrastination of certain trustees and school officers in the matter of requisition blanks and bonds. Frequent notices and appeals of the Department of Education have been disregarded. In consequence, it was impossible for the publishers to ascertain early the number of books that would be needed. The depositors have endeavored to supply first the schools which would open early. But in many cases, they were forced to ship only a partial order, because of having exhausted the supply of certain texts. There have been frequent delays in transit. Sometimes boxes of freight have been left at junctions for a week or more. At

times the congestion at the Dallas shipping offices causes delay of a number of days. The recent strike of New York Longshoremen greatly delayed freight shipments by boat.

It may be of small consolation to compare our situation with that of some of the other states. No books have as yet been shipped from Chicago to Oklahoma, Tennessee and Florida have made adoptions since those of Oklahoma, and in some cases cannot get a promise of their books before November or December. Kentucky made a late adoption and will have a longer delay than Texas, while Oregon is in a worse situation than Kentucky. None of these states have free textbooks. Texas with this additional tax on the book situation is faring, comparatively, well. The schools of Chicago opened about two weeks ago, and, as yet, have not been supplied with readers. In Arkansas the depository, with most of the fall supply of books, was burned about a week ago. Many publishers are refusing to take further contracts.

The prospects for relief of the Texas shortage are good. Investigations made this week indicate that most of our schools will be supplied with the majority of books by the first of October. At the first of the week the Texas School Book Depository and the Southern School Book Depository were practically empty, the supplies having been exhausted. But both of these depositories expect large shipments this week. Ginn & Company report a shortage in algebras only. Nearly all of the independent districts and most of the large common school districts have been supplied with the basal books. Six carloads of the Ashley Histories and the Civics are expected this week. Other shipments daily expected are the Mental Arithmetics, the algebras, and the American and Texas histories. Most of the schools have been supplied with spellers, readers, and geographies. The Language book may still be delayed several weeks. As this text has not been changed, the schools may manage for a short time, by permitting two or more children to use the same text, in turn. Reasonable allowance should be made for the unusual conditions this year, and for delays resulting from the fact that the textbook bill did not become a law until June, and, therefore, its provisions could not be rigidly enforced. If, after allowance for reasonable delay, the schools are not supplied with books, each school should avail itself of the recourse which the law gives.

ANNIE WEBB BLANTON

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 50c per bottle.

Shipping To Market Has Begun.
The Texas Panhandle is so favorably situated as regards feed that it is expected to send a larger proportion of its cattle to market this season and to contract fewer direct to feeders. With more flesh, a larger proportion of the cattle will be ready for sale direct to packers. The Panhandle movement, it may be said, has just started. The movement out of

New Mexico is just on, and will increase rapidly, as there is a desire among graziers in that state, it is reported to ship early. The western slope of Colorado, which must bring many cattle out on narrow-gauge railroads, also has just begun to ship. Receipts from Montana, Idaho, Oregon and other states in that section began arriving earlier than usual and continue on a large scale. — American Hereford Journal.

A Biblical Rule For Fruit Trees
How many orchardists are familiar with the rule given in Leviticus 19:23-24, as a basis treatment for fruit trees? That the fruit grown on trees and vines for the first three years after planting should not be used, but counted as unincircumised, that is unholly in the eyes of the Hebrews, was probably to consider all that they grew as a gift from God. There would be little of it for the first three years and if that which did set was pulled off while young it would be a

help to the trees and vines and give them a chance to get ready to bear well afterwards. The crop the fourth year, which would really be the first crop saved, was given as an offering to God, and was for the priests and maybe the poor. The old Hebrew laws were good for the people then, and many of them are suitable even now to be followed.—Field and Farm.

Congress is opposed to both daylight and moonshine.—St. Louis

HAPPY HAPPENINGS

Mrs. C. L. Gaten and daughter, Miss Vivian, went to Canyon Thursday where they will have rooms the coming year while Miss Vivian attends the Normal.

Mr. and Mrs. Money, Mr. and Mrs. Jeff McElroy, J. H. Stephenson and family were among those who attended the Swisher County fair at Tullia Saturday.

John Toles of Canyon is moving to Happy where he will have charge of the Holland Drug Company.

Rev. Watts of Kress filled his regular appointment at the Methodist church Sunday morning and night.

Mrs. J. M. Flesher and daughter, Miss Lorain and Miss Gladys Miller motored to Cayon Friday to attend the Randall County Fair. They returned Saturday evening.

Mrs. Hutchins and son Stanley, Miss Margarette Garrison, Marvin and Carl Garrison, were shopping in Amarillo Saturday.

Mrs. Ernest White now has a music class here.

E. F. Arnold and family attended the Swisher County Fair at Tullia on Friday.

Quite a number from here attended the party at Uncle Jim Wesley's Saturday night.

"The Reds" entertained the "Blues" Saturday night with an ice cream supper. Owing to everyone being so busy there was only about 75 present.

Winfield Miller took his registered pig to the Canyon Fair where he won first prize of \$15. He also won 2nd prize of \$25 at the Childress.

Miss Mary Wooten of Cordell, Okla. is visiting friends here this week. She has been in Canyon at her brother's, W. J. Wooten's, for some time.

Mr. Temple of Tullia District, President of the Epworth League, was up Sunday night and gave us an interesting talk at League. We were glad to have Mr. Temple with us and hope he will come again in the near future.

Miss Waller Lockett left Thursday for Floydada where she has accepted a position.

Rev. Atticus Webb of Ft. Worth, state president of the Anti-Saloon League, will lecture Sunday night at the Methodist church. Every one is invited to attend.

W. T. Townsend and family Mr. and Mrs. Lonnie Townsend were visiting relatives and attending the Fair at Tullia Saturday.

Mr. and Mrs. E. J. Smith went to Plainview Saturday to visit their daughter, Miss Oleta, who is attending school there.

Mrs. R. L. Dillon and children of

Canyon were business callers in Happy Monday.

Miss Mary Mayhew is spending the week with Miss Ethel Duff at her country home.

Mrs. H. M. Baggarty and son, H. M. Jr., Mrs. Roy Smith and daughter, Frances Russell, Mrs. Finley spent Thursday at the A. J. Garrison home.

Miss Nellie Franey left Sunday for Canyon where she will attend school the coming year.

Mr. and Mrs. N. W. Uselding and sons, George, Les, and Raymond, attended the Swisher County Fair at Tullia Saturday.

Mrs. Charlie Hage and daughters, Misses Lucile and Grace returned Friday from Washington where they have been visiting Mrs. Hage's mother for the past month.

Misses Fairy and Hazel Gassaway, Pearl Bohmer and Alton Gassaway spent Sunday visiting friends and relatives at Silverton.

Ludwig Irlbeck went to Amarillo Monday where he bought some registered cows. He returned Tuesday.

Mr. Wills closed his meat market Saturday.

Miss Gracie Myers took first prize on her canning and Miss Lorain Flesher second prize at the Canyon fair.

Peter Meyers and family attended the fair in Canyon Saturday.

S. T. and S. C. Whitman were business callers in Umbarger Sunday.

Glen Whitman had a painful accident Sunday afternoon when he sprained his knee.

Mr. and Mrs. S. T. Whitman and sons Otis and Lloyd attended the fair in Canyon Saturday.

The Civic League served lunch at the McGehee sale Tuesday. The proceeds were \$30.00.

H. James has sold his place and will leave soon for Arkansas.

Miss Mary Wooten left Tuesday for her home in Cordell, Okla.

Miss Fairy Gassaway left Monday for Canyon where she will attend school the coming year.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

Yank Surrenders Jerusalem to British

The City of Jerusalem was really surrendered to the British by a Yankee photographer, acting for the Arab mayor, according to an account of the affair told by Captain Wendell Cleland, a former resident of New Wilmington, Pa., who recently returned from Egypt, where he had served as a Red Cross worker.

After weeks of bombardment Captain Cleland said, the Turks had decided to surrender. The mayor hitched a sorry looking team of donkeys to a carriage, raised a white flag and started out of the city gates to find the British. On the way he encountered the American photographer and asked him to ride with him. Followed by many of the city's people, the procession continued until two British soldiers halted them, whereupon the American informed the Tommies that he had the honor of surrendering the keys of the city to the British government and asked the sentry to lead the way to the British general's camp.

The nearest British general rode into the city and posted a notice that it was under the protection of the British government. Two days later General Allenby rode triumphantly into Jerusalem and the news of the surrender was given to the world.

Are the window-cleaners wise in striking for a weekly wage of thirty-six dollars? If they're not careful college presidents will try to take their jobs away.—New York Evening Telegram.

For Farm Or City

Very few farmers have their ground ready for planting wheat. Those who have their ground ready are, almost without exception, owners of tractors. The tractor has demonstrated beyond question its ability to produce the goods when it comes to getting the wheat planted on time.

We have a number of tractors ready for immediate delivery, and more are coming. Every farmer should see us this week and get busy now for a big wheat crop next year. Yes, and cities have found it a paying proposition for dragging and working the streets. Listen what the Claude News said about the new FORDSON which was put to work in Claude last week:

CITY BUYS NEW FORDSON TRACTOR TO PULL GRADER

J. I. Mundell, manager of the Panhandle Tractor & Implement Co., agents for the Fordson Tractor, was in Claude Monday morning demonstrating the efficiency of the Fordson for grading the streets.

Officials were pleased with the way the little Fordson "stepped out" with a six-horse load and its economy in operation and bought it. Heretofore the city's expense for dragging and grading the streets has been somewhat a burden, owing to the amount of territory covered by the old horse-drawn implements, which cost \$7 to \$12 per day to operate. The Fordson will cover a great deal more ground than the old system and do better work at about half the expense. The Tractor cost \$810 and will pay for itself time and again with the proper care.

City Marshal W. E. William, who is superintendent of streets and bridges, takes particular pride in this new implement and promises the people some good streets from now on.

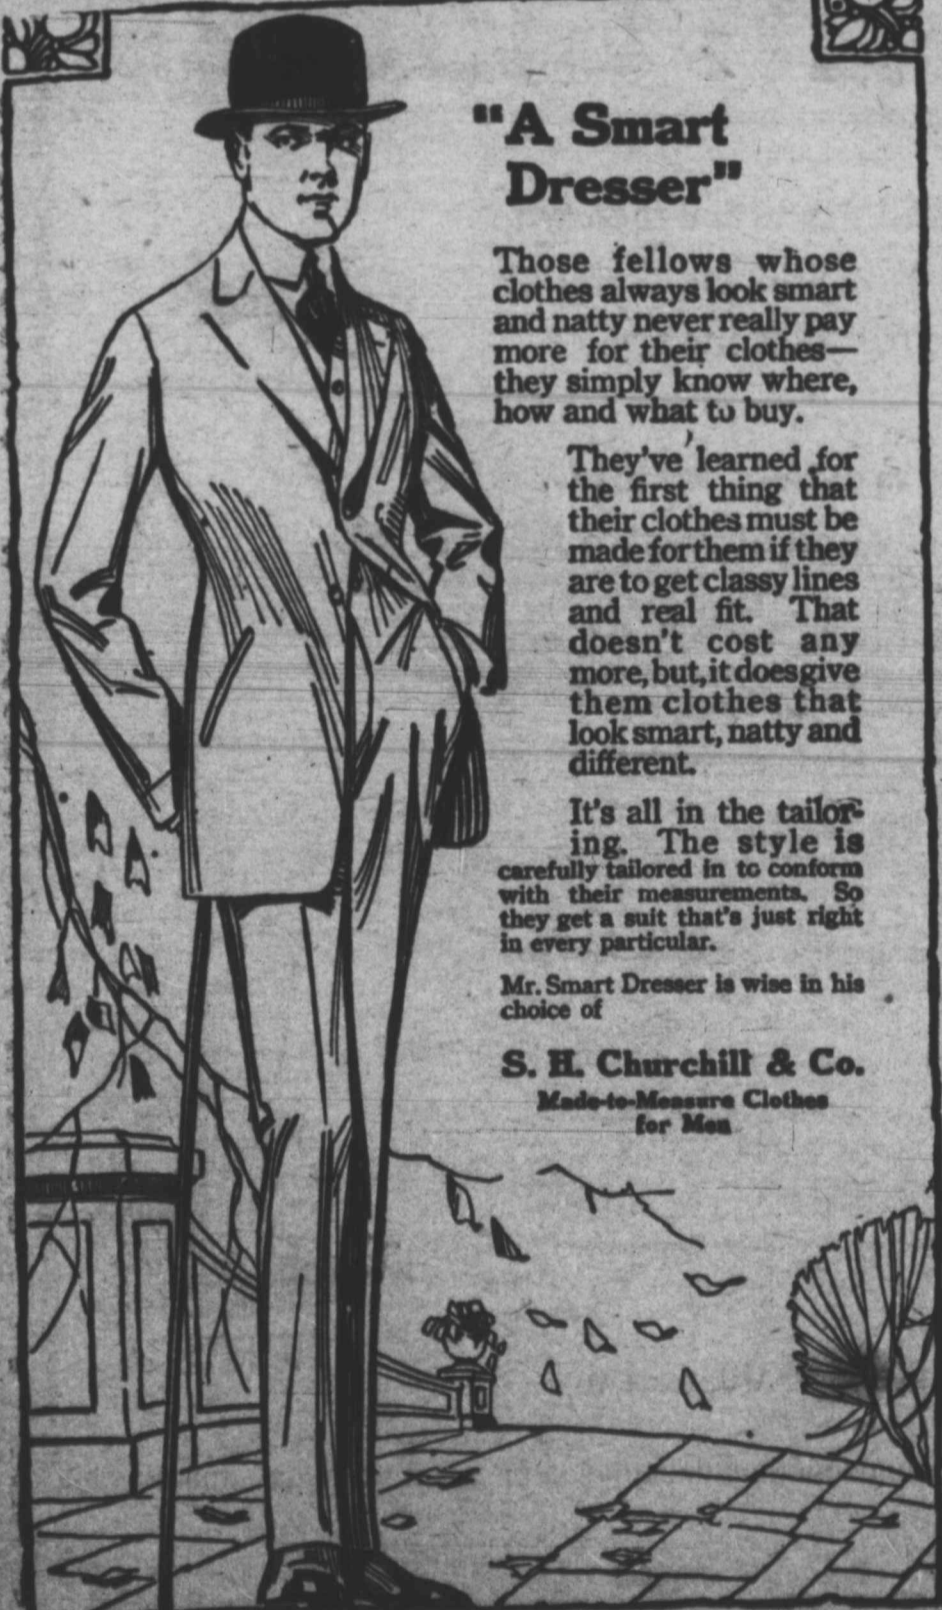

Attaboy, W. E.—Claude News.

Canyon needs street work. Other cities need street work very badly. Put the FORDSON on the job, and let it show you how it will deliver the goods.

YOU CANNOT BEAT THE FORDSON FOR EITHER COUNTRY OR CITY WORK

W. W. KUEHN GARAGE

A. E. WISE, Manager

"A Smart Dresser"

Those fellows whose clothes always look smart and natty never really pay more for their clothes—they simply know where, how and what to buy.

They've learned for the first thing that their clothes must be made for them if they are to get classy lines and real fit. That doesn't cost any more, but it does give them clothes that look smart, natty and different.

It's all in the tailoring. The style is carefully tailored in to conform with their measurements. So they get a suit that's just right in every particular.

Mr. Smart Dresser is wise in his choice of

A Tribute to Water
Colonel Bob Maxe was once called to respond to the toast, "Water," at an Arkansas banquet, and he thoroughly expressed his sentiments in the following:

"Water is the purest and best of all the things that God created. I have seen it glisten in tiny tear drops on the sleeping lids of infancy; I have seen it trickle down the blushing cheeks of youth, and go in rushing torrents down the wrinkled cheeks of age. I have seen it in tiny dewdrops on the blades of grass and leaves of trees, shining like polished diamonds when the sun bursts in resplendent glory o'er the eastern hills. I have seen it trickle down the mountain-sides in tiny rivulets with the music of liquid silver striking the beds of diamonds. I have seen it in the rushing river rippling over pebbly bottoms, purling about jutting stones, roaring over precipitous falls in its mad rush to join the mighty father of waters. I have seen it go on its slow and majestic sweep to join the ocean. And I have seen it in the mighty

ocean on whose broad bosom float the battle fleets of all nations, and the commerce of the world. But, gentlemen, I want to say to you now, that as a beverage, it is a damn failure."

Stamp Out Tuberculosis

Strenuous efforts are being made by a few men in certain localities to stamp out this dread disease.

If you knew that a part of your herd was affected, and that there was a possibility of the infected ones passing the disease on to the healthy ones; and even more than that, if you knew that a diseased cow could infect your children with the most dreaded of all diseases, would you not be in favor of cleaning up your own herd, and then advocate a nation wide clean-up?

Perhaps it is a foolish question, yet there are scores of men who are afraid to test their herds for fear they will find the disease. There are scores of other men who do not believe the disease will do any harm even though it does exist. Because of these beliefs the problem is a difficult one.

Waukesha county, Wis., is making a strenuous effort to clean up. They have five townships in which every herd has been tested and the health of the animals has been determined. There are men who refuse to test their herds, hence the county can not guarantee all of its cattle because of the possibility of the disease spreading from diseased to clean areas.

Kossuth county, Iowa, has begun a clean-up campaign. Sixty-three men have signed agreements to have their herds tested. The Federal Department of Agriculture will cooperate with the state and with the individual owners of dairy cattle, and tuberculous animals will be located.

This is a movement that ought to interest dairy cattle breeders in every county. It is a county proposition and the present plan of cleaning up definite areas is a good one. The clean area should be extended until it covers the entire country.

Tuberculosis must go if the raising of live-stock is to be a permanent business. Tuberculosis must go if we are to maintain a standard of health among people and depend upon live-stock products for food. Tuberculosis must go if we hope to continue that agricultural balance in which livestock feeds the soil and the soil feeds the livestock.—The Dairy Farmer.

Grove's Tasteless Chill Tonic

Complained Of His Profits.

Mr. Burgess left this morning for his home in Perry, Iowa. He lived here for four years until last spring. He has been down for four months helping harvest the crops on his farm nine miles northeast of Plainview. He recently sold the west half section to Clarence Cavener, of Grayson county and the east half section to Dave Thompson. He went away grumbling because he had made such small profits for his four years in Hale county. He said he had made only \$12,000 clear profit on the sale of this land, and only took \$15,000 worth of crops from his farm this year.—Plainview News.

Good Hunting This Winter.

There is going to be fine hunting on the Plains and along the brakes of the caprock this winter. The lakes are all full of water and ducks are numerous on them and in a few days will be here by the hundreds of thousands.

The crop of Bob Whites and Mexican Blue quail is larger than for several years, especially in the sand-hills west of Plainview. It is thought that there will be numerous prairie chickens.—Plainview News.

West Texas At Kansas City.

Word has been received from Publicity Director Chester A. Crowell, that the West Texas exhibit at the International Soils Products Exposition at Kansas City, is attracting a great deal of attention.

The exhibit covers 500 feet of floor space and is a mine of information concerning the possibilities of the Plains country.

Paid \$600 For Sow

The highest price ever paid in the southwest for a sow was given by John Knight, of Canyon City, for a young sow from the Will P. Jones

herd of Durocs at the Childress State Fair Friday.—Plainview Herald.

At this writing the wood-chopper of Amerongen is still at the wrong end of the ax.—Syracuse Herald.

SUMMER COLDS

Many have their worst colds during the warm months. A very little of

Scott's Emulsion

after meals, puts that quality into the blood that helps thwart that rundown condition that is so depressing. Build up your vitality—try Scott's.

Scott & Downe, Bloomfield, N. J.

Rubin's for quality—
