THANKSGIVING SERVICE AT METHODIST CHURCH

Held This Morning at 10 o'clock—
Music by Normal Orchestra—
Sermon by Rev. Shaw

Plans have been completed for the Thanksgiving services to be held at the Methodist church Thursday morning at 10 o'clock.

Rev. Simeon Shaw will preach the Thanksgiving sermon.
Music will be furnished by the Normal orchestra.

Praises Normal Students.

The Canyon students came to the game in a special train of four cars. They arrived at about ten-thirty in the morning and stayed until eight that night. There were about twenty Hale County boys and girls in the crowd. On the field they were led by three cheer leaders and the cheering that was produced was the best that has ever been heard in Plainview. After the game the time was spent visiting friends and seeing the town. One visitor from another town said that the crowd of Canyon Normal students was the most orderly bunch that he had ever seen away from the authorities of the school. The members of the victorious team give the rooters the bigger part of the credit for winning the game. — Plainview Herald.

The spirit that has been manifested among the students of the West Texas State Normal College this year is very fine. There has been a large crowd at each football game. There has been excellent attendance at the pep meetings. There has been fine cheering at each game under yellasser Chase Condrey. After the victory, there have been big times up town at night, but all done in a most orderly manner. It is the kind of spirit that makes a great school and a great student body.

No Politics Striving.

So far no candidates have announced for office in Randall County. In many of the counties, several candidates are already in the field. However, a few men are said to be "feeling out" the situation in Randall county with a view of soon coming into the field.

Services at Church of Christ.

Elder G. F. Mickey of Clovis will preach Saturday night and Sunday at the Church of Christ.

Notice.

My Studio will be open in afternoon Thanksgiving. No sittings after 4 o'clock.—Britain's Studio.

Stork Special.

A son was born to Mr. and Mrs. W. R. Howe Friday.

Automobiles Owned.

Austin, Texas.—The State Highway Department has just completed a list of registration of motor vehicles covering the period from Jan. 1 to Nov. 1, of this year and showing registration in each county. During the period covered the registrations totaled 315,365.

Dallas County leads with 20,660 registrations; Harris County second, 16,986; Bexar County third, 15,405, and Tarrant County fourth with 13,882. Loving and Upton counties were the only counties without any registrations. Willacy and Winkler Counties, each with fifteen, were next to the lowest.

Following is a list of a few Panhandle Counties.

We must ultimately have a government in this country that no man or class will dare hand an ultimatum to except through the ballot box.—Vinton Eagle.

SWINE BREEDERS WILL MEET IN CANYON DURING JANUARY

One of the big events of January will be the Northwest Texas Swine Breeders Association which will hold its meeting and sale in Canyon.

Plans are now being made for the entertainment of the large number of visitors who will attend this meeting, and especially the sale.

Next Tuesday night at the meeting of the Randall County Commercial League, E. E. Prewitt and other men especially interested in the event, are expected to lay before the League a plan for the association meeting.

Canyon will have to furnish rooms for fifty or more men, and to this, a committee will have to make solicitations in the town.

Arrangements and a place must be made for the sale, for a large number of the best hogs in Northwest Texas will be brought here for the big sale.

Arrangements must be made for a banquet or other means of entertaining the visitors.

Every man who wants to see this affair go over big should be at the meeting next Tuesday night at the News office.

ACCOUNTANT MAKES REPORT TO CITY COUNCIL FRIDAY

Accountant Robinson of Amarillo made his report to the City Council Friday night, showing that the city's books were in a splendid condition, only one or two small errors being found in the accounts.

Mr. Robinson made some very useful suggestions as to the new set of books which are to be opened by the city.

C. E. Burrow was sworn in as city treasurer, and Miss Pearl Jenkins as city secretary.

AFTER MEMBERS FOR RANDALL COUNTY COM'L LEAGUE

C. F. Walker and Wilford Taylor have been out this week lining up the members of the Randall County Commercial League. The work was started several weeks ago, but never completed. At this time they hope to get every man in Canyon who is interested in the welfare of the town and county to sign up for the coming year.

Kick in with your subscription when they come to see you.

Every man has a vital interest in the work of the League.

Book Club Meeting.

The following was the program of the Woman's Book Club meeting yesterday:

The Role of the Indians in American History.

Roll Call—Items of interest pertaining to the lesson.

Papers:

1. The Language, Manners, and Religion of the Red Man.
2. The Indian as a Factor in American Independence.
3. The Indian and the Westward Movement.

Leaders—Mesdames W. R. Clark, H. W. Morelock and T. C. Thompson.

Had Leg Broken Monday.

Mr. and Mrs. Tom Mattox were starting from the parental Joe Foster home Monday to the train intending to go to Amarillo when the horse they were driving became frightened. Mr. Mattox jumped out to get it by the head when his leg broke.

He had considerable trouble with the leg since an engine fell upon it several years ago. He is resting well at the Joe Foster home.

Had Operation Sunday.

Miss Lenna Foster had an operation week ago Sunday at the parental G. G. Foster home. She had suffered attacks of appendicitis and had the operation to remove the cause which had given her so much trouble.

She is recovering nicely and will soon be out.

City Property Sold.

S. F. Foster of Shamrock has bought the J. T. Holland place in the southeast part of town from T. F. Burk.

W. C. Archer of Pampa has bought the Mrs. Dale house in the east part of town.

After Delinquent Taxes.

There is a pretty big list of delinquent taxes in the city of Canyon, and City Collector W. C. Black is sending out notices to all who show delinquent.

Thanksgiving Proclamation

"By the President of the United States of America:

"A proclamation:

"The season of the year has again arrived when the people of the United States are accustomed to unite in giving thanks to Almighty God for the blessings which he has conferred upon our country during the twelve months that have passed. A year ago our people poured out their hearts in praise and thanksgiving that, through Divine aid the right was victorious and peace had come to the nations which had so courageously struggled in defense of human liberty and justice. Now that the stern task is ended and the fruits of achievement are ours we look forward with confidence to the dawn of an era where the sacrifices of the nation will find recompense in a world at peace.

"But to attain the consummation of the great work to which the American people devoted their manhood and the vast resources of their country, they should, as they give thanks to God, reconsecrate themselves to these principles of right which triumphed through His merciful goodness. Our gratitude can find no more perfect expression than to bulwark with loyalty and patriotism those principles for which the free peoples of the earth fought and died.

"During the past year we have had much to make us grateful. In spite of the confusion in our economical life, resulting from the war, we have prospered. Our harvests have been plentiful and of our abundance we have been able to render succor to less favored nations. Our democracy remains unshaken in a world torn with political and social unrest and our traditional ideals are still our guides in the path of progress and civilization.

"These great blessings vouchsafed to us, for which we devoutly give thanks, should arouse us to a fuller sense of our duty to ourselves and to mankind to see to it that nothing we may do shall mar the completeness of the victory which we helped to win. No selfish purpose animated us in becoming a participant in the world war, and with a like spirit of unselfishness we should strive to aid by our example and by our cooperation in realizing the enduring welfare of all peoples and in bringing into a world ruled by friendship and good will.

"Therefore, I, Woodrow Wilson, president of the United States of America, hereby designate Thursday, the 27th day of November, next, for observance as a day of Thanksgiving and prayer by my fellow countrymen, inviting them to cease on that day from their ordinary tasks and to unite their homes and in their several places of worship in ascribing praise and thanksgiving to God, the author of all blessings and the master of our destinies.

"In witness whereof, I have herunto set my hand and caused the seal of the United States to be affixed.

"Done in the District of Columbia, this fifth day of November, in the year of our Lord, one thousand, nine hundred and nineteen, and of the independence of the United States, the one hundred and forty-fourth year.

(Signed) "WOODROW WILSON,"

"Seal.

"By the President:

"Robert Lansing, Secretary of State."

NO FOOTBALL GAME IN CANYON THANKSGIVING DAY

There will be no football game in Canyon Thanksgiving day. Wayland has refused to come, after her defeat at the hands of the Normal last week, and stated that the Wayland team had disbanded after the last game.

The schedule for games was made early in the season. The Normal could have had other games here for that day, but relied upon Wayland fulfilling her promise. She failed, and no other game could be procured for Canyon. Trouble arising between Clarendon College and the New Mexico Military Institute gave the Normal a game for the closing day of the season, but out of town. The football fans of Canyon are greatly disappointed that they will not be able to see their team in action in the last game.

NORMAL TEAM PLAYS MILITARY INSTITUTE IN ROSWELL

The Normal football team goes to Roswell this morning to play the last game of the season with the New Mexico Military Institute. The institute always produces a very strong team and the Normal boys will have their hands full in the game today.

Price Wins Corn Contest.

C. A. Price was winner in the Indian corn contest with the six best ears of corn. He gets a year's subscription to the Randall County News this being prize offered in the contest.

There was mighty fine corn entered in the contest, and County Agent C. F. Walker, who acted as judge, of the contest, got some good ears for display in his office in the court house.

PRAISES TRADES DAY

Trades Day is a thoroughly established day in Canyon. The people of Randall county look forward to it. They are disappointed when the Trades Day is not up to standard.

Last Trades Day was a success. The people of Randall county said so. But not only has the fame of the Trades Day enthused the people of Randall county, but Canyon's fame has spread. Here is what the Plainview Herald has to say about the last Trades Day in Canyon:

"Yesterday was trades day in Canyon. A traveling man tells us that he has rarely seen so much business transacted in one day as was in the Randall County Seat on that day. There were auction sales of livestock and various farm necessities. Most of the merchants had special bargain sale for the people who were in town for the event. The crowd would have been much larger had not the farmers been so busy gathering their crops. At least one auto of Plainview people attended the sales."

The burden of Trades Day has been carried by a few merchants of Canyon. The rest of the business houses have held out, giving no support to the Trades Day, but reaping the benefits of the big crowd that the day brought. Only a few business men have been attending the meetings where the plans for the day have been discussed.

Mr. Business Man of Canyon: Do you think it is fair to the fellows who are boosting Trades Day in Canyon not to do your part? Would you consider it a good thing for all of the business houses in Canyon to pay taxes to support the city, and your institution escape free? Do you consider it fair to the few who meet and discuss ways and means of making a better town and community and you stay at home looking after business or enjoying an evening with your family? Consider these points.

The next Trades Day in Canyon will be December 8th.

The next meeting of the Randall County Commercial League will be at the News office December 2nd.

The next Trades Excursion will be December 5th.

Keep these three dates in mind. Let nothing get in the way to prohibit your attending the business meeting, of going on the Trade Excursion, and having some red hot specials for the people of Randall county when they come to Canyon on Trades Day, December 8th.

Canyon can be no better than the business interests of Canyon are willing to make the town.

The business interests are represented in the individual business man. When the individual business man refuses to do his duty toward his community, then the whole of the business interest of the town fail.

GOOD ROADS COMING IN RANDALL COUNTY

(By R. Kenneth Evans)

As we gradually emerge from primitive conditions to meet the requirements of our modern civilization we are confronted with problem after problem necessitating increased expenditures of treasure and mental and physical efforts constituting as it were the growing pains of a community but all emerging through accomplishments into a finished product of a developed commercial center with higher standards of living. And consequently an elimination of those hardships and trial which while they made hardy men in the old pioneer days were neither sought or enjoyed by those who had to undergo them. Who having once traveled over the smooth modern highways in a high powered auto will be willing to return to the labored travel in the old time pioneer prairie schooner whose motive power was a brace of oxen that later drew the plow to help evolve a bare existence from the virgin soil of the Panhandle country. None, we venture to say. Yet the modern conditions of our civilization cannot be met or enjoyed without effort and expenditures, and the march of progress is so fast about us that none can afford to lag behind. For while the installation of modern conveniences and comforts attract capital and contribute to our own personal pleasure, indifference or carelessness bring in their wake retrogression and decay. A certain pecuniary loss.

Without doubt the greatest contributory element to the development of a successful commercial center and the appreciation of rural land values and increase in population through the attraction of discriminating farmers is a modern highway. Reams of argument might be printed sustaining this position but we believe no necessity exists in Randall county today to instill this axiom in the minds of our citizen. The day is gone when there can be found in this or any other rural community a hard headed specimen who will set up the argument that it is not worth the small annual tax entailed to provide and maintain a highway that will enable one to transport 2,000 pounds comfortably over a road that previously constituted a serious problem when 500 pounds was in the wagon.

When it took three to six trips to transport the same quantity of farm products with wear and tear on vehicles and animals, which all but reduced the value of the cargo to zero because of injury and loss when it had reached its destination. When at time such misnamed highways were impassable and it took heroic effort to bring medical assistance to the loved ones at the point of death but susceptible to medical treatment or in good nursing. When because of its impassable conditions, wasting the precious years when learning can be absorbed were house bound for days and weeks because of their inability to reach schools. The time will come—and we hope it is not very far ahead—when we will look back with horror on the chances we took with the lives and happiness of those we swore to cherish and protect, when we dragged them away from the security of good roads, paved roads or streets to the wilderness of mud and hardship, with no thought but of the profit derivable from operating a low priced farm only to find alas that the question of good markets, and ease of access to those markets were of as much importance in farm economy as low priced lands and abundance of it.

In this respect Canyon and Randall county is far in advance of the average county in the Panhandle country. At this time state highway number nine is being built from Amarillo to Happy through Canyon. The Randall county part of this road is being constructed at a cost of \$14,500 per mile. And the drainage along this road is to be of concrete and when completed will be one of the best state highways.

The road running west from Canyon to the Deaf Smith county line has recently been declared a state highway and \$14,000 state aid has been secured for construction and improvement of this highway. The work of making this one of the best improved highways in the Panhandle country will be started as rapidly as it is possible to secure labor to do the work. It is expected that all this work will be carried out during this fall.

All lateral roads are to be graded and put in shape at the expense of the county as soon as labor can be secured which will give a system of roadways running into Canyon, and throughout the county which cannot be excelled by any county in the Panhandle country. There has only been one bond issue voted in the county for road work and that an issue of \$50,000.00.

The natural condition of the soil makes it comparatively easy to build good roads in this section and the citizenship of the county realizes the value of these roads as great activity is always being shown in the maintenance of a system of roads that will make traveling by roadway comparatively a pleasure throughout the county.

ASSIST KILL OFF PRAIRIE DOGS, GOPHERS AND RATS

County Agent C. F. Walker has received the following notice from the Department of Agriculture:

The Biological Survey is starting a campaign to assist the farmers and ranchmen of Texas to exterminate the rodent pests which cause them great losses each year. To do this we must have close cooperation with the Extension Service and the State A. & M. College of Texas.

I am asking you for the following information so that it will be possible to get in close touch with the work necessary in your county.

Prairie Dogs—Estimated acreage infested and general location. Degree of infestation, that is, holes per acre.—Value of crops and range destroyed.

Pocket Gophers—Amount of damage done and value of losses to the farmer. General location of infested areas in county.

Rats—Amount and value of losses by rats. Whether damage is in ware houses or in the field.

Also any damage done by rabbits or ground squirrels.

Mr. Walker has answered this request for information and will assist in every way possible to exterminate these pests.

Smith-Sullenger.

Miss Jewel Sullenger and Zane E. Smith were married Thursday afternoon at six o'clock, at the home of Rev. J. H. Clouse, 309 Jackson St.

The bride and groom repaired to the home of the brides' parents, Mr. and Mrs. R. D. Sullenger, in San Jacinto Heights, immediately after the ceremony where a crowd of friends awaited them.

Upon entering the house the bride was led to the dining room, where piled high were many gifts from the many loving friends. A most pleasant evening was spent and the bride's mother served delicious light refreshments.

Mrs. Smith is the daughter of Mr. and Mrs. R. D. Sullenger and is well known in Amarillo. Mr. Smith is well known as a highly respectable young man. They will make their home with the bride's parents temporarily.—Amarillo News.

The groom is the son of Mrs. Lucy M. Thomas of this city and is well known to the people of Canyon. Mrs. Thomas attended the wedding.

Dr. Oliver Returned to Dumas.

Dr. H. P. Oliver has moved his office back to Dumas and will practice medicine in that town. His practice was taken by a young doctor when Dr. Oliver moved to Canyon with his family a few months ago. Last Wednesday night while out on a call his car turned over with Dr. Curley, and killed him.

Dr. Oliver received such an earnest appeal from people of Dumas to come back, that he moved his office Friday. His family will continue to live in the McAfee house, which Dr. Oliver bought in the summer.

Entertained for Mrs. Stewart.

Mrs. Jno. T. Wiley entertained the ladies of the Methodist church Monday afternoon in honor of Mrs. R. A. Stewart who leaves this week with her husband, Rev. R. A. Stewart, for their new work in Miami. There was a very large number of the women of the church present, who greatly enjoyed the afternoon. In appreciation of the splendid work Mrs. Stewart had done while in the city, a purse was presented by the ladies of the church.

FEDERAL

DOUBLE CABLE BASE CORD TIRES

Besides the black non-skid Federal Cord Tire there are the white non-skid "Rugged" tread and the black "Tough" tread.

THE sole idea of Federal construction is to give "extra service" and that idea is of vital consequence to every tire user.

Note these exclusive Federal features—

Internal heat and friction, enemies of tires as of engines are minimized in Federal Cord Tires because the various layers of loose cords are impregnated with live rubber built up diagonally.

Instead of being cured in rigid metallic moulds with a tendency to produce uneven cord tension, every cord tire is vulcanized under internal air pressure.

The Double-Cable-Base holds the tire firmly to its rim, permitting the use of a soft bead filler instead of a hard filler, thus avoiding the possibility of side-wall chafing that often causes blow-outs above the rim. It will pay you to see a Federal dealer.

We still have a few Fordson Tractors on hand, ready for use. See us at once. If you expect to buy a Ford car, give us your order and we will deliver the car as quickly as any dealer.

We take a great pleasure in giving you the very best service in Gas, Oil, Automobile Accessories and Supplies.

BABY'S COMFORT

OUR CHIEF AIM

We have all of the pure, proven foods and remedies that go to build up and keep well the babies of today.

No matter what you may want in this line, no matter what Baby's need may be, 'twill pay you to come to see us.

We love babies and they love us for the comfort and health we have brought them.

A LITTLE WANT AD BRINGS RESULTS

Life.

(Eron Payne)

I sat by my window at the dawn of the day,
Watching the sun quickly making his way;
Never once did he vary in all his course,
But steadily and onward with radiant force,
Ever more rapidly, now presently high—
Nothing could keep him from climbing the sky.

I played with a child in the morning of life,
Watching the struggle 'twixt self and strife;
Occasionally 'twas laughing, more often 'twas crying,
Vaguely it seemed wondering if life were all sighing;
For always it seemed that the gloom of it's day
Was darker than any who trod the same way.

Again I glanced at the sun in the sky—
Oh, how swiftly the time seems to fly!
But how happy it has made earth, and how glad—
Soothing the faint-hearted, the weary, the sad,
Stealing in to the lonely child that plays
In darkest of hovels—sending its rays.

So, likewise, the child to manhood has grown—
Soon, all too soon, the years have flown;
But not in vain has this life been spent;
Upon missions of love his efforts he bent;
And, as the beautiful sun vanished from view,
The old life closed in beginning the new.

Truth About The Panhandle.

Ft. Worth Record: Texas has a Panhandle country. Texas has a plains country. Texas has millions of acres of virgin soil untouched by the hand of man or the implements of agriculture. Texas has 50,000,000 acres of land which should be reclaimed—land which would produce bumper crops to feed the world. Texas has uncultivated lands sufficient to make homes for 2,000,000 hardy farmers. Not long ago The Record told some of the truth about the South Plains country. This led to more talk. The editor of the Amarillo Daily News is proud of the South Plains country and this tribute to its people and its possibilities is from his pen:

Those of us who have lived in the West are pretty well satisfied with our country, but the easterner who knows nothing of the West has an idea that the country is just one great wilderness. He has never seen the country, but he has read a good many articles describing the country, and without a doubt believes everything that he sees in print.

A few weeks ago a small booklet describing the Panhandle and Plains of Texas was published. These booklets have gone to many states and will do much in setting the people right. The Fort Worth Record editor, after reading one of the booklets, made the following comment editorially:

"Creators of rattler and coyote literature for the metropolitan papers of the North and East are reminded by the authors of the little booklet, 'A Home for Every Man', that E. F. Arnold is a farmer near the town of Happy, in the Panhandle. They are reminded that he came to Texas in 1906 with \$200 in his pocket. He made a small payment on 160 acres of land. He now owns a farm adjoining the town of Happy valued at \$15,000. They are reminded that the first crop of wheat raised on 440 acres of this land sold for \$18,328.05. They are reminded that one thirty-acre field of summer fallow ground yielded an average of fifty bushels and twenty-five pounds of wheat per acre and was sold for more than twice the amount of money the land cost the wheat was grown on. Gotham newspapers love to print tales of Texas rattlers, Texas coyotes, Texas cowboys, Texas lynchings, Texas bad men, Texas movie heroes and Texas 'as it was' in the days when the Indian and the buffalo roamed the plains. They should be flooded with photographs of Panhandle wheat fields and Plains orchards and flower gardens. Tell it to them now."

The Record man is right. Texas has the goods and the right class of people. In the end Texas will win.

Hereford Breeder's Meet

The Red Deer Hereford Breeders Association held a call meeting in Miami Monday of this week and began work on the details of a big sale they are planning to have in March of next year. Around sixty head of Herefords are already promised, and there will likely be many more for the sale.—Miami Chief.

December 15—Last Day

Mack Stewart, wife and little daughter of Canyon spent Saturday and Sunday here visiting with their brother, Tom Stewart, and family. They were accompanied by Misses Shipley and Sanders, who visited here with Miss Sanders' parents. Mrs. Sanders accompanied them back to Canyon Sunday afternoon and spent until Wednesday visiting with her daughter.—Lockney Beacon.

W. L. Garner, of Canyon, father of Marvin and Flake, has sold his big ranch at Canyon for \$16,000. The sale was made to another party who lives at Canyon. It is probably that Mr. Garner will move here and build a home for his family. — Plainview Herald.

President J. A. Hill and Prof. L. G. Allen left Wednesday morning for Houston to attend the state teachers' association meeting.

Let me sell you a Paige Car—immediate delivery. E. Burroughs.

Rev. Simeon Shaw and family are expected to arrive in the city this week. Rev. Shaw will preach Sunday at the Methodist church where he will serve as pastor during the coming year.

MRS. M. S. PARK DIED SUNDAY MORNING AT THE PARK RANCH

The people of Canyon were saddened Sunday to hear of the death of Mrs. M. S. Park, one of the best known and loved women in the county. Mrs. Park was the mother of D. A. Park of this city and has spent much time in the city at the home of her son. She is well known by practically all of the citizens of Canyon. Mrs. Park's death came suddenly. She was known to have an ailment which might take her most any time, but her general health had been good and death came without warning. D. A. Park and family had gone to the Park ranch Saturday to spend the night. About three o'clock Mrs. Park was taken ill, and her husband called David, asking him to go for a doctor as the telephone line was down. Before David was able to get his car out, Mrs. Park had passed away.

The funeral services were held at the Polk Street Methodist church Tuesday afternoon at two o'clock, conducted by Rev. J. W. Story, an old friend of the family, and a former pastor. A large concourse of friends gather to pay their last respects to this noble woman, and to weep with those of the family who are left behind and whose hearts are heavy in grief.

Mrs. Park came to Randall county a number of years ago with her husband and children, and has lived nearly all of the time on the Park ranch in the northeast part of the county. She was a devoted mother, a loving wife, a loyal neighbor and friend to her large circle of friends, and a consecrated Christian. For a number of years Mr. and Mrs. Park drove the long distance to Amarillo where he was superintendent of the Sunday School and Mrs. Park was organist, never missing a service, no matter what the weather might be.

A fitting obituary for Mrs. Park could not be procured for this issue of the News owing to the telephone lines being down. This will be published next week.

The hearts of all the friends of this good woman are sad, and their sympathy goes out to the husband and father with his family who are in deep sadness today.

Rev. A. B. Haynes was in Amarillo Monday.

Let me save you 20 per cent on your auto tires. E. Burroughs.

C. M. Thomas left Tuesday morning for Lamesa where he will look after cattle interests.

Mrs. R. V. Fletcher and children left Tuesday for Wichita Falls where they will join Mr. Fletcher who went there three weeks ago. Miss Hazel accompanied her mother, but will probably return to Canyon in a few days.

WOMAN SPEAKER TELLS OF CONDITIONS IN SOUTH AMERICA

MRS. IDA CLYDE CLARKE, TRAVELER OF WIDE EXPERIENCE, FINDS EXCEPTIONAL FIELD FOR WORK AMONG WOMEN.

By Mary Corner Raymond

With contagious humor and in picturesque descriptive style, Mrs. Ida Clyde Clarke, newspaper woman, traveler, magazine writer, author and contributing editor to Pictorial Review, held a delighted audience in smiles and wrapt attention at the evening session of the Southwestern field conference of the Y. W. C. A. at Dallas while she related her experiences and observations during a six months' trip in South America. Her subject was "The Challenge of South America to the Y. W. C. A."

True to her newspaper training and the characteristic temperament of the newspaper writer—ready for any emergency, from a fire to a sudden trip to South America—Mrs. Clarke picked up her hat and handbags on short notice and went to South America last January with a commission of three other women sent by the national board of the Y. W. C. A. to study the conditions and needs of women and girls in the Southern continent. Many appeals had come to the national board to send Y. W. C. A. workers to South America. As it is the policy of the association never to send workers anywhere for permanent work without first making an investigation as to the practicability of the enterprise, Mrs. Clarke, because of her experience as a traveler, was asked to be a member of this survey commission.

On the principal that a newspaper woman may go anywhere or do anything within the law, no matter what the traditions or customs of a country may be, Mrs. Clarke met presidents and diplomats, women of high and low degrees; made trips into countries where she was told women travelers never went alone, and everywhere, she said, she was treated with characteristic Latin courtesy. In every country she was struck with the immense wealth and culture of the higher classes, a universal eagerness for the progressive methods of North America, a universal desire for social and welfare work among women, and with it all she marveled at the vast resources of the country—forests of mahogany untouched by the ax and territory visited by no commercial enterprise except packers.

Social work among girls and women is as undeveloped as many of the natural resources of the country, she said, and the much-abused packers are doing in some places for their girl and women employes Y. W. C. A. work—not in the name of the Y. W. C. A., to be sure, for there is no organization there; but the heads of packing industries are trying to meet some of the needs the Y. W. C. A. meets with employed girls in the United States. The Y. W. C. A., she said, is also doing as far as it can Y. W. C. A. work because there is so much need of work for women.

The efforts of the men to provide opportunities for girls such as they have in North America were humorously illustrated by an enterprise undertaken in Brazil. A young President of one of the States of Brazil visited the United States and was greatly impressed with advantages afforded girls here. Like a regular Ad Clubber or Rotarian, he went back to his home city, interested all the other progressive young business men and they built a school for girls. It was elaborately equipped for teaching domestic science, thinking that first of all girls should be trained to be homemakers. Courses were announced for "graduate wifehood and motherhood." The school, plenty of money to conduct it, pupils—everything but teachers were found. Again they turned to the United States and got a faculty of young women about 21 years of age to teach wifehood and motherhood. The school is now closed and the "faculty" have sought more suitable vocations.

At Rio Janeiro, a city of 1,000,000 population, she said, were 20,000 employed women and not a building where such a woman might have lunch, while every third door is a coffee house for men. "When eating in your scientific cafeterias and in the lunch-rooms provided by factories and department stores for women employes, think of the girls of Rio Janeiro, eating a sandwich and a banana wherever they can find a spot to stand or sit.

The one thing the matter with the woman movement in South America," Mrs. Clarke said, "is that it has no self-starter."

"If I were free to do so, I should go to South America tomorrow to help do the social and welfare work among girls and women that all classes of women are asking for."

Attending the conference were representative women from Texas, Oklahoma and New Mexico. Much interest was manifested in the conditions as described by Mrs. Clarke and the appeal made to extend the work of the Young Women's Christian Association in South America. Members of the Association and other interested women in the Southwest will cooperate with the National Y. W. C. A. in sending Y. W. C. A. secretaries to establish permanent work in new centers in the Southern Continent.

Defends Morals of French.

Star-Telegram: David Carb, former Fort Worth resident, now a propagandist in the French Foreign Legion with the rank of under-lieutenant, earned by four years of service with the French military, spoke at the First Christian Church Tuesday.

The question of morals was not put, but Carb said he would bring up the subject himself.

"I was in hopes someone would ask me," he said, "but as long as no one has, I'll tell you what I think about them."

W. B. Paddock, who acted as mentor at the meeting, interrupted with, "I haven't asked you and don't intend to. But from what I've heard, the French morals are not of a very high degree."

"You have been informed wrong," interjected Carb. "The French are a mortal people. We in America consider the 'ruined girl' the greatest social calamity that can happen. To the Frenchman the word 'ruined' is not applied until she becomes promiscuous. In other words, the greatest social and individual calamity in France is infidelity, because infidelity breaks the only real intimacy in the world. Their ideas of morality then is derived directly from that commandment which says, 'Thou shalt not commit adultery.' Their idea of morality suits them. Ours suits us. We don't want to imitate them. But what we really want is to understand their idea of morality."

I. H. Burney asked Carb if French morals were better than American.

"That is a matter of statistics," Carb replied. Burney pressed the point and Carb finally stopped the tilt by saying, "I am not an adding machine I am not interested in adding machines or statistics."

The question of prohibition was brought up. Carb had said the French couldn't understand why America had blotted out entirely the use of strong drink.

Mrs. Charles Scheuber asked why the present campaign in France to abolish alcoholics.

"The French make the distinction between alcoholics and light wines and beer. They don't regard the light wines and beer as strong drink," Carb answered. "The reason you seldom see a Frenchman drunk is, he takes his family with him when he goes to drink and drinks in moderation."

Carb contended that the average American soldier who was in France was not equipped intellectually to understand the French people and was not given the opportunity because they were in groups and saw only the high spots in French life.

"We pay too much attention to vocational work in the schools and not enough to books," he said.

It begins to look to us as though an American Bolshevik is a man who wants a 20 per cent increase in salary to meet the 80 per cent increase in the cost of living.—The Tribuneboozee (New York).

\$2,000.00 Salary for Rural Teachers. Teacher, are you ready for the \$2,000.00 position? West Texas Normal College has just completed an arrangement with the office of Vocational Education of the state and national governments whereby Vocational Education in Agriculture for Teacher Training can begin at once in this institution.

What does this mean? It means that a four year college course in Agriculture will be offered here, for the primary purpose of training teachers of Agriculture for our rural high schools. This curriculum includes a full quarter study of the following subjects: Farm Mechanics, Farm Repair Shop, Farm Management, Live Stock Judging, Live Stock Feeding, Poultry Production, Dairying, Irrigation, Gardening, Silos, Crop Production, Marketing Farm Products, Observation and Practice Teaching, Agricultural Chemistry, Administration of High School Agriculture, etc, etc, together with such other subjects as are required to give a well rounded college education. The practice teaching will be done in the Vocational Agriculture section of the training school, also supported by federal funds. This special section giving two to four years of agricultural study and practical experience in the Training School grades, followed by four years of college agriculture should be very attractive to the farm boy or girl who wishes to prepare for a successful life on the farm or rancho, or to do work leading to graduation from the State Agricultural College. No other state institution in any state within an average distance of five hundred miles offers its students college courses in Agriculture. This full course for teaching training will offer a college education in Agriculture for students, whether prospective teachers or not.

We now have on hands in this department over six thousand dollars worth of farm machinery for use in these classes. This equipment includes two tractors and every type of field machine needed on the average farm, including a threshing machine.

We also have a large flock of pure bred chickens, property housed, a coal fuel brooder and two incubators. We shall soon buy some pure bred hogs and high grade cattle, to complete our live stock equipment. A modern dairy barn with complete equipment, a pit silo, hog houses, pasture lots, and all other necessary appliances for good work with live stock will soon be built. Every problem of feeding, breeding, management and marketing, livestock will be given attention in these classes. We shall have one hundred thirty-five acres in different field crops and pasture this year, for class work and demonstration use.

For classes in Farm Repair Shop we shall have complete equipment of blacksmith forges and tools, carpenter tools, and equipment for farm concrete work, plumbing, soldering, and harness repair.

All kinds of practical farm problems will be worked out in these classes. The complete courses will give just such training as a prospective teacher of Agriculture, or a prospective farmer, would want and should have.

There are today in Texas ninety-two high schools in which federal aid is given for the teaching of Agriculture. Any school which meets the requirements can secure from the U. S. Government one half of the salary of the teacher of Agriculture. Usually this means that the salary offered for such a teacher is simply doubled, in order to secure a man who is qualified for the work. In many cases the teacher if employed for the full twelve months, is given a house to live in, and a salary of about \$2,000.00. The summer vacation period is used in supervision of the home project work of the Agricultural Club members.

The work of the Dept. of Agriculture here has been reorganized to suit these special requirements. Students who are interested can begin this course at the opening of the Winter Term, January 5th. The subjects offered for this term are Farm Machinery and Tractors, and Live Stock Feeding. Our course of study has been approved by the federal officials, and our graduates will be eligible for positions under the Smith-Hughes federal plan for vocational education.

from union railway men. It was said by one union official that many of the delegates who are now in Cleveland went there with the specific purpose of forcing the general committee to call the nation-wide strike.

The union officials in Chicago, from whom the information was obtained, stated that so far as they were aware the secret conference in Cleveland had not yet reached the point where resolutions or motions for the strike actually had been presented, but that the discussion concerning it today, according to their information, was favorable to the project and that the tie-up could be expected within three days.

A similar announcement was made late today at the convention of the newly organized labor party here.

REV. A. B. HAYNES ACCEPTS CALL TO TULIA CHURCH

Rev. A. B. Haynes has accepted a call from the Presbyterian church at Tulia and will move there within a short while.

The people of Canyon regret very much that Rev. Haynes and his estimable family will leave Canyon. Rev. Haynes has served the local church as pastor a number of years and has been highly successful in his work. During the past three years has served half time with the church, and conducted his farm south of the city. He is not selling out his interests in Randall county, and the people of the city expect to see him back here often to look after his interests.

The people of Tulia will find in Rev. Haynes an earnest and devoted Christian, a splendid preacher and pastor, and a live wire citizen and booster for the community in which he lives.

Army Takes Welfare Work
New York, October 31, 1919.—In
compliance with official orders from
the Government the War Work Coun-
cil of the Y. M. C. A. on Saturday
transferred its welfare work activi-
ties as conducted in the temporary
buildings erected during war times
within the camps in the continental
limits of the United States. The
War Work Council requested its 1-
800 secretaries, conducting activities
in 593 temporary Y. M. C. A. huts in
camps throughout the United States
to consider favorably the desire of the
Government that they continue as
welfare workers under the direction
of the War Department which has
officially established its own organi-
zation within the war plans divisions
of the general staff under the direc-
tion of Major General W. G. Haan.
The Y. M. C. A. also at the request
of the Government transferred with-
out reimbursement its 593 temporary
huts within the army camps together
with their complete equipment, valued
approximately at \$4,500,000 for con-
tinued use by officers and men.

This represents a small part of the
volume of war work that was being
carried on by the Y. M. C. A. at the
time of the signing of the Armistice
when it was operating in the United
States 1,171 huts with 5,717 secretar-
ies and other employees. In all the
Y. M. C. A. constructed 953 buildings
in the home camps during the period
of the world war at a cost of \$7,768,
984.00.

In a letter addressed to Dr. John
R. Mott, General Secretary of the
Y. M. C. A., Secretary of War, New-
ton D. Baker, has thanked the Asso-
ciation for the efficient and tireless
effort of the Y. M. C. A. in providing
for the comfort and well being of the
men in the Army. The secretary of
war also requests the Y. M. C. A. to
continue and enlarge its program in
permanent Y. M. C. A. buildings out-
side of the camps and to provide new
buildings as far as needed in commu-
nities and cities adjacent to camps for
the service of the men. The Y. M. C.
A. definitely plans to continue and ex-
tends its service to the country's
fighting forces.

As a result of its twenty years ex-
perience and service to army and navy
the Association has an effective or-
ganization and constituency, thus in-
suring an expanding and permanent
program as requested by the Secre-
tary of War. The Y. M. C. A. will
continue its service to the troops in
France, Germany, Siberia, the Pana-
ma Canal Zone, the Hawaiian Islands
and the Philippine Islands until the
army is in a position to undertake this
responsibility.

Action somewhat similar to the
war-department has been taken by the
Navy department. Secretary of the
Navy, Josephus Daniels, has request-
ed the Y. M. C. A. to continue its
work within the naval reservations at
home until the navy is ready to take
over the welfare work. Mr. Tiche-
nor, National Executive Secretary for
Y. M. C. A. war work in America,
states that this will probably be with-
in a few months. From the Navy
Department also has come warm re-
commendation for the extensive ser-
vice rendered by the Y. M. C. A. Sec-
retary of the Navy, Daniels, writes,
"The navy believes that a large share
of the credit of victory should be
given your organization for its work
in ministering to the men of the Navy
and feels that the greatest compli-
ment and the most sincere expression
of its regard lies in the decision to
perpetuate your good work by means
of a permanent organization within

the navy itself." He not only ex-
presses the hope that the Y. M. C. A.
program outside of the naval reserva-
tions should be continued and enlarg-
ed but also he desires to perpetuate
in the welfare work within the navy
the peculiar genius of the Y. M. C. A.
in its service to men and boys and
will order navy welfare and morale
officers to keep in touch with Y. M.
C. A. methods. Permanent build-
ings of the Army and Navy Y. M. C.
A. which will continue to operate in-
clude the following: Brooklyn, Navy
yard; New York; Newport, R. I.; Nor-
folk, Va.; Charleston Navy yard; Bos-
ton, Mass.; Vallejo, Calif.; at the
Presidia; San Francisco, Calif., at
Bremerton; Washington, at Forts
Monroe, Slocum, Jay Tilden Hamilton,
Hancock, Leavenworth and at Hono-
lulu, Hawaii and Fort William Mc-
Kinley, Philippine Islands. The Y.
M. C. A. will continue its tented build-
ings in Philadelphia, San Francisco,
and Shanghai, China. Other build-
ings will be provided at numerous
points in cities adjacent to army
camps and naval stations, according
to the new plans of the Y. M. C. A.

The extent of the Y. M. C. A. war
time service to men of the army and
navy within the continental limits of
the United States is indicated by the
following figures.

From the beginning of the war to
September 30, 1919, the aggregate at-
tendance at Y. M. C. A. huts was
383,332,900, free stationery was fur-
nished for 291,347,965, letters, motion

They Win You On Quality!

Your enjoyment of Camels will be very great
because their refreshing flavor and fragrance
and mellowness is so enticingly different. You
never tasted such a cigarette! Bite is elimi-
nated and there is a cheerful absence of any
unpleasant cigarette after-taste or any un-
pleasant cigarette odor!

Camels are made of an expert blend of choice
Turkish and choice Domestic tobaccos and are
smooth and mild, but have that desirable full-
body and certainly hand out satisfaction in
generous measure. You will prefer this Camel
blend to either kind of tobacco smoked straight!

Give Camels the stiffest tryout, then
compare them with any cigarette in
the world at any price for quality,
flavor, satisfaction. No matter
how liberally you smoke
Camels they will not tire
your taste!

Camels are sold everywhere in
scientifically sealed packages of 20
cigarettes; or ten packages (200
cigarettes) in a glass-paper-
covered carton. We strongly recom-
mend this carton for the home
or office supply or when you travel.

The defeat of the Peace Treaty is due to the work of a few men. Senator Lodge with their assistance was able to pass the reservations. After this was done, they voted against the ratification. These senators, about fourteen in number, are for the League of Nations, under certain conditions. If President Wilson had taken these senators into his confidence and adopted some of the mild reservations they represent, the treaty would have been ratified in spite of Senator Lodge and the bunch of radicals he is leading. Wilson displayed poor judgment during this fight, and when the treaty comes up December 1st in the new session, he certainly must take them into his confidence and bow to their will if the treaty is to succeed. The treaty is not dead. It will be passed sooner or later, but meanwhile the country is confronted with problems which ought to be settled while time is being spent with the treaty.

While the coal strike is officially ended, the fact remains that about half of the miners are still out and refuse to go to work. This is another thing going to prove that Lewis' statement that he could not fight the government is all bunk. He could send the men back to work, but he chooses differently.

Bolshevism went down in defeat in France. The Reds are destined to fail the world over. They may wreak destruction in the world for awhile, but always there have been more people with minds than the other brand. It may take time to irradiate these unfortunate leaders, but the sober minded people will eventually win.

Former Attorney General Ben F. Looney has announced his candidacy for Governor.

DAUGHTER OF FRENCH PREMIER IN AMERICA

She Says United States Soldiers Got Wrong Impression of French Life.

New York, Nov. 19.—Mme. Madeline Clemenceau-Jacquemaire, daughter of the Premier of France, comes to lecture in this country, arrived today on the steamship La France and is quartered at the Waldorf-Astoria Hotel. She said it was her intention to give talks on French life with a view of offsetting what she considers a disagreeable impression acquired by American soldiers in France, who, of necessity, saw only the dark side of French life. Mme. Clemenceau-Jacquemaire had little to say on French conditions, economic or political.

It is Mme. Clemenceau-Jacquemaire's first visit to the United States although her mother was an American, Miss Mary Plummer, whom George Clemenceau married here while he was teaching school in this country. His daughter speaks English fluently, and even some words of American slang which she learned from American soldiers she nursed in France. She served as a Red Cross nurse during the war, for a time at Verdun and Cantigny.

"They are fine boys," she said, "very fine boys. I have always wished to come to America, the birthplace of my mother, and am particularly anxious to see your famous City Hall, where my mother and father were married by the Mayor. My father has told me he spent four of the happiest years of his life in this city. I am eager to see New Orleans, too, which I am told is like a French city in some of its aspects."

Mme. Clemenceau-Jacquemaire said she thought her father would not remain in politics.

"He is thinking more of his liberty and books," she explained. She said the Tiger often had consulted her before deciding matters of state. For awhile she was his confidential secretary.

Mme. Clemenceau-Jacquemaire has devoted herself much to study, in which her distinguished father often joined her, and she has written much for the magazines and newspapers, recently publishing a book on her experiences as war nurse. She nursed Premier Clemenceau at the time he was wounded by the bullet of a would-be assassin.

She will lecture here under aus-

pieces of the Lee Keedick bureau. She will go to Washington before beginning her lecture tour, dates of which have not yet been announced.

The Premier's daughter is the widow of a French attorney, who died several years ago.

Growing Millet.

Millet are adapted to the same conditions as is sorghum. They do not require as long a growing season as does sorghum, but they also yield less. They are used chiefly as catch crops when the time is too short for other crops to mature. They are especially suitable for seeding where corn failed to make a stand or was destroyed by hail or flood. Seeding may be done between May 15 and July 15 (later in the Southwest). The most commonly grown and probably best suited varieties of millet are the Common, German, Hungarian and Siberian.

Millet hay is an unsatisfactory feed for horses because of its injurious effect upon their kidneys. The degree of this injuriousness seems to be somewhat proportional to the degree of maturity. No injurious effects follow, however, when fed to cattle and sheep. It should be cut before the seed is formed when intended for horses, but may be left until the seeds are in the milk stage for cattle and sheep.—Union County (N. M.) Farmer-Stockman Exchange Bulletin.

Best Known Poem.

Of the late Ella Wheeler Wilcox, contributed to the New York Sun of February 25, 1883.

Laugh, and the world laughs with you;
Weep, and you weep alone;
For the sad old earth must borrow its mirth,
But has troubles enough of its own.

Sing, and the hills will answer;
Sigh, it is lost on the air,
The echoes bound to a joyful sound,
But shrink from voicing care.

Rejoice, and men will seek you;
Grieve, and they turn and go;
They want full measure of all your pleasure,
But they do not need your woe.

Be glad, and your friends are many;
Be sad, and you lose them all.
There are none to decline your nectared wine,
But alone you must drink life's gall.

Feast, and your halls are crowded;
Fast, and the world goes by.
Succeed and give, and it helps you live,
But no man can help you die.

There is room in the halls of pleasure
For a large and lordly train,
But one by one we must all file on
Through the narrow aisles of pain.

THANKSGIVING FOR 1919

A year ago the heart of America went up in Thanksgiving for the deliverance of our country from the greatest conflagration the world has ever witnessed. The past year has been one of thanksgiving throughout, with our boys returning from their service to their country, and home being re-united. In spite of all the internal disturbances, America pours out today a true Thanksgiving that our nation is recovered from the terrible effects of war so rapidly.

THANKSGIVING AT OUR STORE

will be celebrated on account of the fact that we are thankful for the high grade of goods we are able to furnish our patrons and because our patrons realize that we are furnishing them the best goods on the market at the lowest prices.

Junior High School Notes.
The Junior High has set for its immediate goal excellent midterm grades on the part of the pupils and a thoroughness which will assure steady progress throughout the remainder of the year.

Six weeks are left to us in which we may work out this much desired plan. It is of vital interest to all to understand what a failure on the part of our pupils' means.

We have believed for many years that the industrious, ambitious students of a grade should not be held back and their honest efforts blocked by the persistently indifferent and careless pupils. Acting on this conviction it will be the policy of the management to demote pupils from the higher grades and place them where they can work, swinging loose the others for their best efforts.

We intend that the above paragraph shall be a warning to all and a call for the most complete cooperation, hoping that it will bring in line those pupils who have failed so far and save them to their grades.

For the next four weeks, parties should be left entirely out of the program and the picture show should not be patronized to the detriment of school work.

After the holidays two weeks will be used for reviews and tests and the pupils will thus prove their ability to continue.

The school will use every effort to furnish adequate relaxation in the form of organized play and games that the pupils may be able to study intensively.

Last week a sandwich sale was made by the 8th and 9th grades, the proceeds going toward paying for the Kipling, O'Henry and Riley books. The sale was a success.

The second grade under the supervision of Mrs. Warwick gave a very much appreciated entertainment in chapel Saturday. Songs and story telling filled the period to the delight of all.

The foot ball team made a visit to Tulia Monday, the same story to tell, outweighed, and beaten by a narrow margin. Next year it will be different.

The public school does not propose to enter the field in the role of a reformer but we believe that we would fail in our duty toward our boys and girls and to their parents if we do not use our best efforts against the encroachment of the childish evils, that are training them for the greater crimes of society.

Every parent opposes gambling. Does your boy gamble? We don't know. Many do. We advise strongly against allowing children to carry quantities of pennies in their pockets, for if they do the opportunity to gamble will not be wanting for it is most prevalent in Canyon at this time.

Our mothers have access to the hearts and the pockets of the boys. Will they not realize the seriousness of this matter and act? Our good business men can come in here by their influence as the little fellows ask for the pennies in change. The school is pledged to do its part.

White Face Pioneer Dies.
The best known breeder of purebred Hereford cattle in the Southwest passed away Monday morning in the death of Byron Crandall Rhome Sr., 81, at his residence, 1024 Penn Street. He died during an apoplectic attack, a recurrence of paralysis which he has during last winter. Rhome had been in apparently good health for several months and Monday morning he arose, feeling weak from a slight illness of Sunday. His oldest son, B. C. Rhome Jr., was with him when he died.

Funeral arrangements have not been made pending word from his daughter, Mrs. Charles L. Woody of New York City, and the return to Fort Worth of a son, R. J. Rhome, who is expected this afternoon.

The Rhome breed of Herefords were known throughout the cattle-raising industry in the United States and he introduced the Hereford to the Texas range. He had come to Wise County from Fort Worth to his ranch in the southern part of that county. An acquaintance with William Powell, a pioneer cattle scout, brought about his interest in the Hereford cattle and with Powell he brought whitefaces to his ranch.

In the development of his herd he faced many difficulties. The cattle, imported from the North, became tick-infested and died before they could be acclimated. Rhome has said that in the purchase of the fine stock he would buy two or three head, expecting one to survive. Finally he brought a herd through the acclimation process and they became tick-immune.

Harkaway was the name of his first herd bull and Rhome exhibited him at the State Fair of Texas in 1890. Harkaway was the grand champion bull of that year's exhibit and was the first grand champion whiteface Hereford bull in Texas. Today whiteface Herefords graze on thousands of ranges throughout Texas and Oklahoma.

The Rhome ranch in Wise County became known as the Hereford Park and it was famous as such. Rhome continued to breed show cattle and he won wherever he showed. In those days there was a stock show at San Antonio and he won there. Then came the Fort Worth Fat Stock Show and he was a leader in the movement for it and was prominently identified with it up to the time of his retirement seven years ago. His entries always took the grand championship, and Polson, one of his bulls, was one of the finest specimens of Herefords ever bred. Beau Lamplight, Percival and Longview, all grand champions and known in their time on the range, were his. Ridicule was another of his best known cattle. — Star-Telegram.

"Completely Discouraged"

Is the feeling and plaint of women who are "run-down" so low that work drags, head aches, back aches, dragging down feelings, dizziness, weakness, little things annoy and "everything goes wrong."

Look the other way just a minute and see what Dr. Pierce's Favorite Prescription has done for more than a million women in the last fifty years.

What it has done for others it can do for you. A helping hand to lift up weak, tired, over-taxed women—that's Prescription. It gives you just the help that you need. To be had in liquid or tablet form, 60 cents, at all drug stores.

It is a medicine that's made especially to build up women's strength and to cure women's ailments—an invigorating, restorative tonic, soothing cordial and healing nerve; purely vegetable, non-alcoholic, and perfectly harmless.

PADUCAH, KY.—After first becoming a mother, I was in miserable health. I developed a severe case of woman's trouble, and suffered with backaches and pains in my side. I got so bad that I was a complete nervous and physical wreck and had given up hopes of getting better when I began taking Dr. Pierce's Favorite Prescription. I soon started to improve and was convinced that I had found the right medicine for my trouble. I kept on taking the "Prescription" and my health was completely restored. I am always ready to speak a good word for this wonderful woman's medicine.

Farmers Must Quiet Unrest.

The farmers of the country must find the influence that is needed to bring order out of the disjointed times, declared Charles O. Barrett of the national farmers union, addressing the annual convention of that body at Memphis, Tennessee.

"Capital," he said, "is perturbed, even scared; labor is irritated almost to the boiling point. Between the contending elements the public is reduced to that condition of uncertainty which causes it to question where it is going to get its coal, its food, its clothing. Confronted with these tremendous problems and amidst the ocean of pent-up human passions now raging, the farmer is the only man who has his feet really on the ground."

Prominent Cattleman In Trouble.

James Callan, widely known ranchman, and for several years president of the Texas Cattle Raisers' association, was taken to the county jail at Menard last Saturday awaiting an examining trial in connection with the death of T. R. Billings, a young stockman of DeWitt county, who was shot and killed near the Callan ranch Wednesday. Callan, who telephoned to the sheriff, the coroner and an undertaker immediately after the shooting, refused to discuss the affair before the trial.

Foot And Mouth Disease Again.

The importation from England of cattle and all other cud-chewing animals and swine is being held up by the United States Department of Agriculture on account of an outbreak of foot-and-mouth disease in the Isle of Wight. The present ban will be in force until from 30 to 90 days have elapsed after all the animals exposed to the malady have been disposed of and the premises affected have been thoroughly disinfected.

Lightning Kills Stock.

J. R. Steele had the misfortune to lose a span of young mules and a mare by lightning the first of last week.

Lewis Grabbe had a cow killed, a hog badly crippled and himself severely shocked by lightning during one of the recent thunder storms. Silverton Star.

Now Is a Good Time To Drive Out Catarrh

The Trouble Is in the Blood. Summer catarrh, with its nauseous discharge, stuffed up glands, difficult breathing, and summer colds, is bad enough, but the worst of it is yet to come if you neglect to check the growth that is forming to attack you with ten-fold greater power during the winter. That's why it is so important to treat catarrh with S. S. S. during warm weather.

It is now an established fact that catarrh is in the blood and that lotions and salves do not give relief. The experience of others has proven that S. S. S. strikes at the root of the trouble. Waste no time in this matter, for it is of the utmost importance. Write to our Medical Advisor about your case. Address: Swift Specific Co., Dept. 53, Atlanta, Ga.

You'll Want This Combination

It is the Case 10-18 kerosene tractor and a two-bottom Grand Detour plow. It is an ideal plowing outfit for either small or large farms.

The tractor weighs about 3,500 lbs., just a trifle more than a big team of horses. It burns kerosene economically, developing full power on the same.

The tractor has a four-cylinder valve-in-head motor, mounted crosswise on a one-piece frame. A Case Siphon Thermostat controls the cooling system and insures complete combustion. The all-steel gears, with teeth cut and hardened, are enclosed and run in oil.

The Grand Detour 2-bottom Automatic Lift Rigid Beam Plow will fill the plowing requirements of the most particular farmer. Grand Detour plows are strictly quality plows. They are light in draft, yet so well constructed that they will give years of faithful service at a low cost of upkeep.

We would greatly appreciate the opportunity of telling you more about Case tractors. Drop in and let's talk it over.

PRINCE ALBERT

the national joy smoke makes a whale of a cigarette!

YOU certainly get yours when you lay your smokecards on the table, call for a tidy red tin or a toppy red bag of Prince Albert and roll a makin's cigarette! You'll want to hire a statistical bureau to keep count of your smokestunts! Why, you never dreamed of the sport that lies awaiting your call in a home rolled cigarette when it's P. A. for the packing!

Talk about flavor! Man, man, you haven't got the listen of half your smokecareer until you know what rolling 'em with P. A. can do for your contentment! And, back of P. A.'s flavor, and rare fragrance--proofs of Prince Albert's quality--stands our exclusive patented process that cuts out bite and parch! With P. A. your smokehoop in a makin's cigarette will outlast any phonograph record you ever heard! Prince Albert is a cinch to roll. It's crimp cut and stays put like a regular pal!

Prince Albert upsets any notion you ever had as to how delightful a jimmy pipe can be! It is the tobacco that has made three men smoke pipes where one was smoked before. It has won men all over the nation to the joys of smoking.

Miss Birdie Lee Fullbright and John Beck, former students of ours,

YOU WOULDN'T TRY TO TAME A WILD-CAT

Mr. Dodson Warns Against Use of Treacherous, Dangerous Calomel.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

were married at Pampa on Tuesday, November 8.

The following faculty members are attending the State Teachers' Association at Houston this week: Miss Rambo, Messrs. J. A. Hill, L. G. Allen, L. F. Sheffy and R. A. Terrill.

The Home Economics Club met Thursday, Nov. 13, when an interesting kitchen contest, in which prizes were offered, was held. Misses Leona Burns and Leola Cox received the prizes. Other interesting games were played. Then refreshments were served and the girls became better acquainted while in the dining room.

Troy Vance, a former student, spent Sunday in Canyon.

Miss Grace Evans of Abernathy spent last week visiting her sister, Helen and friends here.

The girls of Hunteleigh Hall gave a "Hen Dance" Saturday evening, Nov. 22. Each girl invited one guest and a large crowd was present. Cocoa and sandwiches were served as refreshments.

Mrs. Mathews of Crosbyton visited her daughter, Cassie, Saturday and Sunday.

Misses Ruby Shaw and Trevé Crawford were Amarillo visitors Monday.

Miss Mable Wilson, a former student, was a visitor here last Thursday. She was going to Floydada where she will teach.

The following program will be given by the Sesames on Tuesday, December 2: Roll call, answered by quotations from Longfellow; vocal solo, Miss Black; reading, Miss Mills; instrumental solo, Miss Croson; "Our First Thanksgiving", Miss Brian; vocal solo, Miss Pritchard.

Cousins Literary Society program for Nov. 28, follows: Debate—Resolved, that the United States should take over the government of Old Mexico until they are capable of self-government. Aff.—Grady Hazelwood, Lester Stricke. Neg.—Geo. Ritchie, Kenneth Burns. Reading, Mitchell Jones.

"The Headlights Club" was one of the first to be organized in the Normal this year. It is composed of over twenty red-haired students, and the number is increasing. Their purpose is to have a better time than any other group in school. The "Headlights" president, Jack Harrison, was elected joke editor for the annual. Their secretary, Miss Viola Vetek, is the good-looking "fiddler" in the normal orchestra. The "Headlight" party on Wednesday night before Thanksgiving shows how much life they have.

Last Wednesday morning at the usual chapel period, we were pleasantly surprised by the introduction and discussion of a subject entirely new to us, and one that is worthy of our most thoughtful consideration. The student's volunteer movement for better citizenship. This subject was cleverly introduced by C. L. Condrey, followed by able discussions by Miss A. Graham and Miss Mary E. Hudspeth. This conference is to meet at Des Moines, Iowa, beginning Dec. 31, 1919 and closing January 14, 1920. The student body was asked

to vote as to whether this Normal should send delegates to the conference at that time. The vote was unanimously carried.

On last Saturday the student body elected the officers for the 1919-1920 "Le Mirage", our college annual. Following are the officers elected:

Associate Editor (5th and 6th years)—Easton Allen.

Associate Editor (4th year)—Hillard Fatheree.

Literary Editor—Mary Clark. Joke Editor—Jack Harrison.

Art Editor—Hazel Park. Athletic Editor for boys—Gus Miller.

Athletic Editor for girls—Ruby Lattimore.

Social Editor—Eris Gustavus.

Train Time Changes.

Several changes in train service have been announced by the Santa Fe, effective Sunday, November 30.

Wayside Notes.

Delightfully pleasant autumn weather. But little wind and work goes merrily on.

Jim Poston of Oklahoma has recently purchased the 2 sections of land formerly owned by Mr. W. Hastings in Swisher county. As they formerly lived here we welcome them back in our midst again. They will not move in before the new year on account of not having their crops gathered in Okla.

Born to Ed and Anna Moore, a 7 1-2 pound son, Nov. 22. Both are doing well.

Mrs. Mary Elkins and little daughter Ura Dave are visiting relatives near Wayside. The mother, Aunt Mattie Rogers, is no better, not able to get about without assistance.

Mr. and Mrs. Bill Townsend of Iowa are visiting his sister, Mrs. Lizlie Schaeffer of Fairview community. They had not met for more than thirty years. They will make an extended visit.

The nine children of Mrs. S. J. McGehee gathered at the home of Miss S. L. McGehee of Canyon to celebrate the 82 birthday of their mother Saturday. Twenty-one grandchildren of two generations and other relatives were present. A bountiful dinner was spread at the noonday meal of which the large crowd did ample justice. Mother McGehee enjoys fairly good health and is able and enjoys

walking to the homes of her children living in Canyon.

No improvement in mother Bradford's condition.

The services at night conducted by Misses Pixler and Sweiger will continue this week. There will be morning services Thanksgiving day. Saturday night they will give way to the program and the box supper at the school building. The play "The Courtship of Miles Standish" will be rendered. If no other comes in they will preach Sunday morning.

Miss Grace Sluder of 130m, Texas is expected at Wayside Wednesday and will remain till Sunday.

Miss Birdie Lou Lane resumed her school work Monday, after two weeks' absence from sickness.

Mrs. D. H. Hamblen returned to Lubbock Tuesday for treatment.

A NASTY COLD

EASED AT ONCE

"Pape's Cold Compound" then breaks up a cold in a few hours

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all grippe misery.

The very first dose opens your clogged-up nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine—insist upon Pape's!

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

DAIRY COWS

A lucky buy of a car load Dairy Cows from the E. E. Mauldin herd at Amarillo, gives me a few more cows than I wish to keep, and will sell some of these at exceptional bargain prices.

Holstein, Jersey, Short Horn

These cows are the very best, no matter which of the three breeds you may wish. I have the cream tests to show purchaser of each cow, ranging from 4.2 to 5.4. Can you beat it?

It don't pay to keep a poor cow. That's why I bought this car load, and would not dispose of any could I take care of all of them.

KUEHN'S GARAGE.

(By R. Kenneth Evans)

With the advent of the automobile into the business world to the place where it is almost indispensable creates a demand for garages that are fully equipped and up to date and able to supply accessories, expert mechanics and other necessities for the upkeep of the automobile. In fact the maintenance of an up-to-date garage in a live business community is just as important as the upkeep of the machinery necessary to furnish lighting and power by electricity to that community.

In fact in this respect Canyon is abreast of the times with the Kuehn Garage which is a large and up-to-date institution that would be a credit to a city several times the size of Canyon. In fact there is not a garage in Amarillo that will excel the Kuehn garage either in size or equipment.

The building which houses this garage is a brick structure 60 by 140 feet and is located in the heart of the business district on one of the principle corners of the city. In the front of the building are the offices and display salesrooms. The building was especially erected for a garage in 1917 by J. A. Guthrie who operated it up until July 1 of this year when it was purchased by Mr. Kuehn. The garage is fireproof throughout and the large and commodious storage room gives ample room for about 80 cars. There is a competent man in charge of the garage at all times who pays especial attention to cars placed in storage.

In the mechanical department nothing but the very most competent help is employed. In fact Mr. Kuehn takes pride in the fact that at his garage there is no job too small or none too large to be handled in a satisfactory manner. The mechanics understand work on any make of cars but specialize in Ford repair work as this garage is the authorized agent for Randall county. Promptness in the repair department is another of the features which makes this garage attractive. Mr. Wise, as manager, has instructed all his men to make their service as prompt and satisfactory as it is possible. Especially is this true of tourist travel as much of this travel passes thru Canyon from the south and especially during the summer months when West Texas and South Texas people are traveling through to the mountains.

In the accessories department a full and complete line of Goodyear and Kelly Springfield, Federal and Hood tires are carried. The tire stock is one of the largest in this section of Texas and tires are carried in all sizes and the diversified line of tires makes it possible for the tire users to secure any line that he might want.

In addition to handling the Ford car in this territory the Kuehn garage also handles the Fordson tractor which is creating so much attention and favor among the tractor users in the Panhandle country. The garage is one of the most complete that is in operation in the Panhandle country and the line of accessories is complete throughout for all makes of cars.

Mr. Kuehn, who recently purchased the garage from Mr. Guthrie is a Texas man. He has spent twenty-nine years of his life in Texas and during that time has been one of the influential factors in the developing of the agricultural and stockraising resources of this section. He is strictly for Canyon and Randall county and always gives his assistance to any meritorious undertaking which promises for the upbuilding or development of this section. He is an active member of the local commercial association and operates his garage not alone from the standpoint of making it a financial success to him but from the standpoint of making it a credit to the city and county wherein it is located.

HAPPY

Thanksgiving Day

is here, and the holiday spirit of joy and thankfulness is rightfully prevalent everywhere. It is, therefore, meet that we should express ourselves with unbound thanks on Thanksgiving Day this year for what this country has accomplished during the past year.

In looking back on the year that is past, we give thanks for the business we have received, for the staunch friends we have made, and for the success we have enjoyed.

On November 27th, we will observe the legal holiday, and remain closed all day.

HOUSEMAIDS ARE PAID MORE THAN TEACHERS

New York, Nov. 22.—Housemaids of ordinary ability receive more than twice as much as the average salary of teachers throughout the country, \$500 more than the initial salary of teachers in this city and \$200 more than the compensation which half of the teachers in the city receive, is the startling statement made today by the National Education Association.

Comparing the salaries paid to teachers with that of laborers and other workers, the statement adds:

"It is worth, per year, \$394 more to carry bricks than the train children, \$363 more to mold dough for bread than to mold boys and girls into citizens, \$800 more to hammer not iron than to hammer ideals and \$1,025 more to build frameworks for buildings than frameworks for character.

"These are not irresponsible statements by self-seeking agitators nor exaggerated attempts by rank outside organizations to defame the fair name of our public schools," the statement continues. "They are contained in a study of teachers' salaries and salary schedules in the United States, 1918-1919, prepared by Dr. E. S. Evenden of Teachers College, Columbia University, for the commission on the emergency in education of the National Education Association, of which Dr. George Drayton Strayer is chairman."

"There are more than five million persons in the United States over 10 years of age who can neither read nor write," continues the statement. "There are many thousands of children attending schools in which not a word of English is spoken during the entire day.

"Of the 3,208,446 men examined by the draft boards of the United States, 949,419 were declared physically unfit for general military service. This would indicate that there are thirty million persons in this country who are to a greater or less degree physically inefficient.

"About four million children are taught by teachers under 21 years of age. The average number of years' attendance at public schools for each individual is less than the completion of the sixth grade for an average education for the citizens of the greatest democracy in the world."

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness. GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 50c per bottle.
