## PALO DURO POST AFTER 200 MEN

W. M. Willy Elected Post Commander Tuesday Night—Another Meeting Next Tuesday Night.

At the first called meeting of the Palo Duro Post of the American Legion Tuesday night, there were fifty-one present. The Post organized at once, and set into motion plans that will make this Post one of the leaders in the country.

W. M. Willy was elected temporary Post Commander and Jack Jones temporary Adjutant.

The Post is starting a campaign for 200 members. Men were appointed to make a canvass of the various parts of the county, and a strenuous effort will be made to get to the 200-mark by December 31. Every man who joins up to that date will be a charter member of the Post, and in years to come, this will become a peculiar honor. The following men are making this campaign for members: Lewis Lohn, Easton Allen, V. Dodson, Ersie Fort, Jay Prichard, Carl Pelt, Joseph Trowbridge, John Toles, George Schaefer, Rogers, Sherrell Williams, Ben Weller, Jack Jones, Luther Fronabarger, H. C. Gamble, Clyde Baird.

The dues are \$2.00, which pays the local, state and national dues, which gives the member a subscription to the weekly paper of the organization. Up to yesterday there had seventy-three men joined the Post.

At the meeting Tuesday night it was decided not to meet for two weeks, but owing to the coming holidays the officers decided yesterday to call a meeting for next Tuesday night at the Methodist church. Every member is urged to be present.

A plan was discussed last Tuesday night to build a home for the Post in Canyon. H. C. Gamble heads a committee which has in charge the investigation of the plan. The discussion, Tuesday night seems to have finally lead to the desirability of building a house which will not only serve as a home for the Post, but also serve as a Community House which has become so popular in the United States. Mr. Gamble will take the matter up with the Red Cross officers and the Randall County Commercial League, investigating the possibility of raising \$20,000 to \$25,000 for such a house.

The following is the list who have so far signed up:

Akers, Ackerman, Allen, Alexander, Boatright, Bishir, Bellas, Baird, Ball, Bates, Black Will, Black Sanford, Bentley, Battenfield, Carlton, Campbell Ray, Campbell Wilson, Donald, Davis, Dodson, Edwards, Edmonds, Elliston, Fronabarger, Fay, Farlow, Foot, Gamble, Griffin, Holland, Harrison, Harp, Harden, Jarrett, Jones, Jordan, Johnson, Kleinschmidt, Key, Keller, Lester, Leigh, Lohn, Lynch, Miller Herb, Miller H. H., Millerman, McMickin, McDade, Newberry, Oliver, Prichard A. H., Prichard W. J., Pelt, Price, Potter, Roberts, Shotwell, Stover, Sherer, Thompson, Taylor, Toles, Trowbridge, Upfold, Willy, Ward, Williams, Wilson, Weller, Whitman, Younger.

### Mail Going From Canyon.

All trains arriving in Canyon at all this week are from four to ten hours late and passenger and mail as well as express service is badly congested and delayed.

At the present time and by the arrangement existing now, mail from the local office is only dispatched once a day for Amarillo. The 10:10 train from Plainview is the only train from the south and the only train thru Canyon going north that has a mail clerk. The 3:37 train from the west has no mail clerk and only receives express mail for points north of Amarillo. The 4:30 train from Plainview in the afternoon has been discontinued as well as the branch train going south at 9:45 at night. Mail from points north of Slaton arrives in Canyon the next day from Amarillo, owing to the fact that there is no clerk on the 10:10 train from Plainview and letters must go by closed pouch via express mail to Amarillo and then back to Canyon the following morning.

Congestion of express and mail, at this season is congested more than ever before in the history of the service and great stress is laid on the importance of mailing your Christmas parcel early. Mail for Amarillo should be in the office by 9:00 a. m. so as to catch the 10:10 train, that being the only train from Canyon that carries mail direct to Amarillo.

## FUEL ORDER MAY COME TO CANYON

Government Rules Business Houses to Open at 9 a. m., and Close at 5 p. m.

Fuel Administrator C. R. Flesher is expecting notice any minute closing the business houses of Canyon, excepting from nine a. m. to five p. m., and otherwise regulating the use of fuel and light in Canyon.

Plainview was the first Panhandle town to go to the new regulation. The order went into effect there last Friday. Practically all Panhandle towns are expecting to be put under the new regulation within the coming few days.

Canyon still has coal to take care of present needs. Reports are that the railroads have plenty of coal in Amarillo ready of distribution and that it will take care of the situation in this territory for several weeks.

Drastic rules are being put into effect all over the country regarding the use of fuel.

### TWO TRAINS TAKEN OFF PLAINVIEW BRANCH LINE

Train service was cut Monday under instructions from the fuel administration. The service from this city was not materially changed except as regards the branch line to Plainview and Sweetwater, where two trains were discontinued.

The train which arrived from Amarillo at 9:30 p. m., going south to Plainview was discontinued, and the one which formerly arrived from the south at 4:30 was discontinued.

The only changes on the main line is the fact that the trains going west now only run to Albuquerque instead of going on to California.

The change makes a great difference in the mail service out of Canyon. Assistant Postmaster M. A. King gives these changes in another article in this issue. Look this up and it will save much confusion.

### NEW AUTOMOBILE LICENSE TAGS FOR 1920 ARE HERE

The new automobile license tags for 1920 have arrived and may be secured at the Sheriff's office by the presentation of the automobile taxes receipt or by making payment of the taxes. Every car is supposed to bear one of the seals by the first of January, 1920 and a fine and heavier tax will be imposed on all car owners whose car does not bear it.

The new tags are entirely new in design. They are rectangular in shape whereas the tags for the first three years have been round. There is one kind of tags for automobiles and one for motorcycles. Both are a dark blue color and are about three by six inches in size.

### CHICKEN SHOW JANUARY 12 WILL HAVE MANY EXHIBITORS

The poultry raisers of Randall County are interested in the Poultry Show which will be held in Canyon on January 12 in connection with the monthly Trades Day.

Fred H. Ives and C. F. Walker are looking after the show and will prepare a premium list for the show. All of the business houses will be asked to offer premiums for the show.

### COLD WAVE HITS CANYON GOOD AND HARD MONDAY

The coldest wave of the year is with us and is giving the people a real shiver.

Monday promised to be fair, but before noon the wind had changed to the north and was getting colder every minute. It tried to snow but the temperature dropped too fast. Tuesday morning the temperature was two above zero.

Indications are for warmer weather now.

### More Cholera Discovered.

More hog cholera was found this week west of Happy. County Agent C. F. Walker reports the following vaccination to have been made since his report in last week's issue:

W. H. Foster 5 hogs; J. A. Logan 7; G. D. Walker 8; O. H. Rahfs 7; R. B. Gist 50; Wm Laxon 1; John Knight 28; C. F. Walker 2.

Dr. G. F. Floherty, a federal quarantine agent, was here this week conferring with Mr. Walker about the situation. He gave out the information that unless hogs which had died were either buried four feet and covered with lime, or burned, the owner was subject to a fine.

## \$325 ASKED FOR SOLDIER HOSPITAL

Texas Will Build Tuberculosis Hospital for 4,000 Soldiers Who Have This Disease.

There are 4,000 returned soldiers in Texas who are suffering with tuberculosis. The men who served on the various Local Boards during the war have been asked to raise money to build a hospital at Calsbad for the treatment of these boys.

Randall County's quota is \$325.00. Collections were taken Sunday in the churches, and a few private subscriptions have raised \$200 of this amount. The Randall County Local Board has asked W. J. Flesher to act as Treasurer of this fund, and urges all of the people to see Mr. Flesher and make contributions as early as possible.

### Basketball Developing.

Coach W. M. Willy is now devoting his efforts to basketball, and has a number of teams working. No games are scheduled until after the Christmas Holidays.

## TRADES DAY IN CANYON DRAWS GOOD CROWD

There was a good crowd in Canyon Monday in spite of the bad day. All of the business houses report a very good day.

The chicken flight in the afternoon caused a great deal of excitement. C. L. Condry turned loose twenty chickens, which were eagerly scrambled after by the "kids" from six to sixty years of age.

### City Property Sold.

F. P. Luke sold his house near the public school building to Wm Schmitz. Geo. W. Roberts of Lubbock sold to J. H. Turner of Hopkins County, Block 31, Conner Addition to C. C. for \$950.00.

Henry Shinebarger sold to Blanche Croson lot 8 in block 22, for \$125.00. T. F. Reid sold the four room house and two lots, No. 8 and 9 in block 15 to C. C. to Robert Hutchinson for \$2,000.00.

Isiah Smith of Hale county bought the block house near the Normal of J. C. Bybee.

Bishop Temple of Amarillo was in the city Sunday, preaching at the Episcopal Church.

## CHRISTMAS SEAL SALE ONLY \$115

Executive Committee Hopes to Raise County's Quota of \$225 Before Next Week.

The sale of Christmas Red Cross Seals started in Randall County this week and up to yesterday there had been a total of \$115 of these Christmas Seals sold.

Randall County's quota is \$225.00. The sale has been very good in places and the Executive Committee is very hopeful that the full quota will be sold this week.

The Executive Committee is composed of the following: C. L. Condry, County Chairman, Rev. Simeon Shaw, C. L. Sone, J. L. Duffot, W. J. Wooten, G. B. Jordan, Misses Mary Bradford and Abbie Graham.

The training school of the Normal reported a sale of \$79.79 up to yesterday.

W. J. Wooten and G. B. Jordan sold \$42.00 worth of stamps to the business houses. The proceeds from the sale of the stamps is used exclusively for fighting tuberculosis.

## CHURCH STARTS NEW DORMITORY

Work to Begin Early in January; Three Buildings Will Be Built in Canyon By Church.

The dormitory idea of the Episcopal Church in Canyon, has reached the stage where location, plans, style and material, are under discussion.

The location has not been finally decided upon, and the authorities of the Episcopal church are hopeful of the city and people of Canyon being deeply enough interested in the dormitory to provide a suitable and well located site for the building. It is now planned that the dormitory shall consist of three buildings, closely adjacent, and connected by a vestibule, and forming a quadrangle, or the three sides of an open square.

Of these three buildings it is expected that preparation for the erection of the first or main structure will be made early in January; and that the remaining two additions will be built within the next few years, if the first part proves successful in filling the need for such an institution.

The structure is to be of good but economical material, probably brick, in the plain but attractive style, typical of English universities, and with its lawns and trees should add greatly to the appearance of the College end of town.

The first part of the dormitory to be built will contain the apartments of the Superintendent and family, the parlor, dining room and kitchen, and as many small but attractive bedrooms as the space left will contain, probably six, the other two buildings when completed will contain the balance of the bedroom accommodations.

It is needless to say that considerable thought has already been given to the kind of home life the Episcopal dormitory will cultivate—that this will be along the lines most pleasing to the College faculty, in developing the best social ideals, and gentle habits, goes without saying; but further it will be the purpose of those controlling the dormitory to strive for an atmosphere of cultivated, Christian American home life.

The whole plan of the dormitory will eventually cost \$40,000 and is one of the first fruits of the great movement in the Episcopal Church, known as the Nation Wide Campaign, which is enthralling and harnessing the latent energy of the Church; and is likely to well equip the church for its varied work.

### NEW TEACHER ADDED TO THE NORMAL EXPRESSION DEPT.

Miss Sadie O'Connell of Milford, Mass., has been selected assistant in the Expression Department of the Normal and will be here for the opening of the winter quarter which begins January 5th.

Miss O'Connell is a graduate of Emerson School of Oratory of Boston, has had work in Boston University and Harvard.

Miss Brown, head of the Expression Department of the Normal became acquainted with Miss O'Connell while at Emerson, and is highly pleased that she is to come as her assistant in this work. Miss O'Connell will have the first and second year work of the college and a part of the private students.

### PROGRAM EXPECTED SOON FOR SWINE BREEDERS SALE

The local committee in charge of entertainment for the Swine Breeders Association which meets in Canyon January 22-23, is in communication with the officers of the Association and expect to have a program soon for the meeting.

After the program is received the committee will be better able to judge the kind of an entertainment that will be appropriate.

### PUBLIC SCHOOL IN SESSION NEXT MONDAY; CLOSE FRIDAY

The Canyon public schools will have no holiday next Monday, but will be in session so as to close for the Christmas Holidays on Friday, Dec. 19.

### Dr. Beeson Not Coming.

Dr. Marvin F. Beeson, who was recently selected head of the Education Department of the Normal, has written President J. A. Hill declining the position.

Mr. Hill stated yesterday that he had made no choice for the position.

Come to Canyon to Live.

# HENRY J. WEBER, OWNER

McNEIL BROS., CANYON, AUCTIONEERS.

WILFORD TAYLOR, CLERK.

West Texase Stat Normal College

Canyon, Texas, December 8, 1919.

Dear Sir:-

I am sending this letter to a number of farmers in this section of the state in order to give them information concerning the new Vocational Agriculture section in our Normal High School.

Because of the small number of complete high schools in the Panhandle, hundreds of children here have no opportunity to secure a high school education while living at home. Many students desire to enter college but must complete their high school work first. The many advantages which the well educated farmer has over the man of limited education prove the value of special agricultural education. I am sure that every parent desires that his child has a better education than he has been able to secure, and make a greater success in life than he has made. The prospects for farming and ranching as a business are brighter now than ever before. These are the reasons why this kind of education is being offered here in our high school grades. Give your son the training that he needs for a successful farm business. This college is fully equipped with all land, farm machinery and livestock needed for such work.

This Vocational Agriculture section is established here by the assistance of the United States Government for the purpose of training students in practical farm management in the high school classes beginning with the eighth grade. There was a time when special study in agriculture could be had only in the college. These students will come from farm homes and will spend one half of all their time in agricultural work. The remainder of their time will be given to English, Mathematics, Science and other similar subjects. This will be the first Rural High School for the Panhandle. These students will all manage some home project work under the direct supervision of the instructor in agriculture. This project may be pig raising, beef feeding, dairying, crop production or any other line of practical work on a farm. The student will be given special attention in this work and will be visited regularly by the instructor, so that the best possible results may be secured. School credit will be given for this home work. The students will be encouraged to compete for prizes and to invest the money earned in their farm business.

In these classes the boy who can not enter college will get more practical training for farm business than in any ordinary high school. He will also be prepared to enter college and continue his agricultural course toward graduation with a degree.

The first class in this section will begin work at the opening of the Winter Term, January 5, 1920. Students who have not been in school this fall can enter at that time. The work for this year will be in Stock Management, Dairying, and Poultry.

Any further information desired will be gladly given.

Yours for better farming,

FRED H. IVES,  
Director of Agriculture.

MOTHERS OF TEXAS, PREPARE

When a girl becomes a woman, when a woman becomes a mother, and when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances. Many women in Texas would testify just as do the following:

HOUSTON, TEXAS.—"When I was a young girl I suffered from irregularity and pain. Dr. Pierce's Favorite Prescription relieved me of all pain and regulated me so that I was completely restored to health. Since I married, whenever I have needed a special tonic I have taken 'Favorite Prescription' and have been amply repaid for the comfort and strength it has given me."—MRS. M. FREEMAN, 414 Marie Street.

WACO, TEXAS.—"It is a pleasure to me to recommend a medicine that has been of such great benefit to me as Dr. Pierce's Favorite Prescription was while raising my family. I have taken this 'Prescription' as a tonic during expectancy and I know it helped me in every way. It is an ideal medicine for the mother to be."—MRS. BEULAH OWENS, 315 North 4th Street.

GALVESTON, TEXAS.—"When I was quite a young girl I had a terribly nervous spell. My stomach was affected so that I craved food all the time, and I could not sleep at night. My doctor advised me to take Doctor Pierce's Favorite Prescription (sold by druggists), and before half the bottle had been taken I lost all the abnormal appetite and was able to rest well at night. I have never had such a condition since that time so can honestly say that the 'Favorite Prescription' cured me of my nervous ailment."—MRS. ELLEN LAWELL, 1614 19th Street.

Tells Cow-Testing Story. There are many reasons why cows should be entered in a cow-testing association. These reasons are good reasons. But the real story—the story in which all are interested—is told on the balance side of the ledger. In other words, "does it pay," and here are some concrete examples furnished by the United States Dairy Division, from the South Chittenden Cow Testing Association, Vermont,

EASY TO PAY THE HOME STORE WAY

where cow testing did pay.

In one herd, the average production of milk per cow was raised from 4,487 pounds in the year 1917-18, to 5,331 pounds in 1918-19, and at the same time the income over cost of feed increased from \$44.95 to 86.47 per cow. Another herd made an equally good record. The production of 4,500 pounds of milk in the year 1917-18 was raised to 5,426 pounds in 1918-19, while the income over cost of feed

jumped from \$23.06 to \$67.20.

These were not the only herds to make good records as is shown by the fact that the total yearly average production of all the cows in the association increased from 4,900 pounds in 1917-18 to 5,215 pounds in 1918-19, and butterfat production increased from 196.2 pounds to 202.5 pounds. But here is the real story: The income over the cost of feed advanced from \$54.22 to \$89.68, an extra \$35 in

the dairyman's pockets for each cow that they owned.

No Worms in a Healthy Child

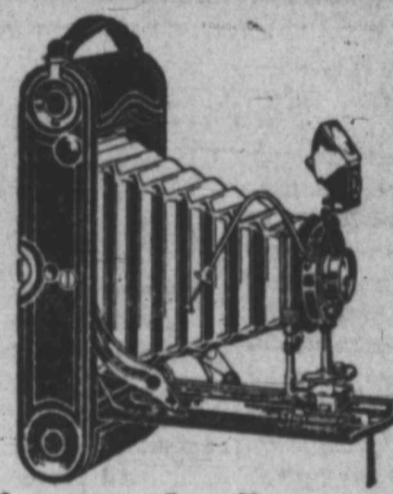

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or digest the worms, and the Child will be in perfect health. Pleasant to take. 50c per bottle.

### THE 14 POINTS THAT WILL HELP IN SELECTING HENS

When F. W. Kakemier, chicken expert from A. & M. College was here last week he said that the flock of every farmer should be closely culled in the fall of the year. He said that one-third or more of the birds could be culled from each flock without decreasing the egg yield, and thereby cut down the feed bills. The "four-

teen points of culling" are:

How to pick best layers:

1. Hens that molt late, and quickly, are the best layers. By this is meant that hens molting during the latter part of September, October and November are better layers than those molting earlier. It is poor judgment to keep those birds molting early and sell those molting late, although this is done on many farms. Experiments have repeatedly proved that 200-egg hens do not begin to molt until November.

2. Individual hens with pale and colored shanks, in such breeds as the Rock, Wyandottes, Reds and Leghorns, are considered better layers than those with bright and yellow shanks. This indication is true only when applied in the fall of the year, and among breeds with yellow shanks.

The above principle applies also to the color of ear lobes in breeds with yellow, creamy or white lobes. The many varieties of Leghorns can be divided by this indication. The Rocks, Wyandottes, and other American, Asiatic and English breeds have red ear lobes, hence this indication for these breeds is valueless. Experience has shown that Leghorn varieties with white ear lobes in the fall are better layers than those with yellow or creamy colored ear lobes.

4. A constitutionally strong bird, one that passes through the molt quickly and easily, is a better layer than one that develops all kinds of ailments during this period.

5. Hens that show the least broodiness are better layers than those that are broody a large part of the time.

6. A bird with closely worn toenails is considered a better layer than one with long nails.

7. A hen that goes into the molt with worn and ragged plumage is a better layer than the bird with no such marks that bespeak hard work during the preceding year.

8. A bird first off the roost in the morning and last to return to it at night is considered a better layer than the one that spends the major portion of her time on the roost, or stands around with a "humped-up" appearance in a corner of the pen or basks all day in the sun.

9. A singing and working individual is always a better layer than the quiet and lazy kind.

10. Hens that go to roost with a full crop are good layers, hence the saying, "A heavy eater is a good layer."

The Department of Agriculture of the West Texas State Normal College has been completely reorganized to meet the requirements of the federal Smith-Hughes plan for Vocational Training for Teachers of Agriculture. We now have a complete course in College Agriculture covering four years, approved by the State and Federal officials. Students graduating in this course receive the B. S. degree and are qualified for a position as teacher of Agriculture in those rural schools receiving financial aid from the United States and the State governments, and offering a salary for this work much higher than for ordinary teaching.

#### Teachers

There is now a big demand for teachers to fill such positions in Texas schools, and the demand will become continually greater as the advantages of the plan are realized. This course will give the training necessary for the person who desires to become a leader in any agricultural work, such as a County Demonstration Agent or a progressive rural teacher whose work is not to be confined to the school room.

#### Farmers

There is no state institution in any state, nearer than an average distance of five hundred miles, offering a college course in Agriculture for the young people of the Panhandle. Agriculture is the chief industry of this section. Students who wish to become successful farmers or ranchers should have opportunity to secure an agricultural education near home. This college offers this opportunity, leading to graduation from the State College of Agriculture if desired.

A detailed description of some of the different classes follows. Each of these classes continues through one quarter, three term hours per week.

#### Soils

A study of different types of soils, seed bed preparation, seasonal management, soil fertility and fertilizers, dry farming, prevention of blowing and washing, under conditions found in the Southwest. A soil survey of the college farm will be made, working out problems of alkali, drainage, washing and blowing, crop adaptation and soil management.

#### Field Crops

A study of the best methods of field work, seed selection, seed judging, seed testing, crop rotation, insect pests and diseases, harvesting, storage and marketing of all common crops of this section.

#### College Farm

The college has secured the use of one hundred thirty-five acres of land adjoining the campus, one hundred acres of which is in cultivation. This land will be used for the production of wheat, rye, barley, kafir, milo, feterita, sudan, sweet clover, beans, and possibly other crops in trial tests. Crops produced will be used as feed for our livestock, and to provide some pure seed for market. Experiments in seed bed preparation, crop adaptation and the use of fertilizers will be conducted. Students will do some work in these fields. It will be their problem to secure the most profitable returns from all crop land and pasture. Additional land will be secured soon.

#### Farm Mechanics

A study of types, construction, operation and care of all common farm machinery and tractors.

The college now has on hands about six thousand dollars worth of farm machinery. A partial list follows:

- Case 10-18 tractor.
- Allis-Chalmers 6-12 tractor.
- Cushman 4 H. P. gas engine.
- John Deere
  - wagon.
  - mower.
  - rake.
  - hay loader.
  - section harrow.
  - grain binder.
  - row binder.
  - manure spreader.
  - grain drill.

11. A fowl must carry a little fat in order to be in a laying condition. A poor or lean hen can ever be a laying hen.

12. Rather large comb and wattles for the breed is considered another characteristic of a good layer.

13. Some breeders insist that Leghorns with rather high tails are better layers than those with very low tails.

14. Pullets that commence laying early are considered better layers than those that mature late, hence the statement: "Keep the early laying pullets."

#### Smut Campaign Worth \$75,000.00.

Reports just tabulated by the executive committee and the county agent of the Curry County Farm Bureau indicate that the campaign for the control of smut in wheat, sorghums, broom corn and other non-saccharine sorghums grown in the county has been worth \$75,000 to the growers during the past year.

#### Corporation Character.

A corporation is an association of persons, but its powers and duties are in many respects what they would be if it were itself a person. It also partakes of many of these human

tractor disc plow.  
two row cultivator.  
wagon.

Iron Age two row cultivator.

Universal threshing-machine.

Letz feed grinder.

One Minute grain grinder.

Fairbanks wagon scales.

Little Whirlwind concrete mixer.

And many other small tools and implements. Many other machines and tractors are being secured from a number of other manufacturers. Our purpose is to have a complete equipment of different types and makes of machinery needed for the general farm.

Students will operate these tractors and machines in the field and learn to make necessary adjustments and repairs. This machinery is all in one big closed shed.

#### Farm Shop

A course including farm blacksmithing, forging and welding, machine repair, harness repair, concrete construction and plumbing as required for efficient equipment and labor saving conveniences for the farm and ranch.

For this work we will have complete blacksmith equipment including press drill, taps and dies, carpenter's tools for wood work, a power concrete mixer and all necessary hand tools.

#### Livestock Judging

Students will judge all common breeds of horses, cattle, sheep and hogs, learn to recognize all unsoundness, and select the best animals for breeding and exhibition purposes. This class will make frequent trips by automobile to nearby ranches and County Fairs for practice judging.

#### Livestock Feeding

A study of animal nutrition, food requirements, feed values, balanced rations and feeding management of all kinds of farm stock. Hogs, dairy cows and chickens will be fed on the college farm.

#### Livestock Diseases

A study of the symptoms, causes, prevention and treatment of all common diseases of farm stock. Contagious diseases, animal parasites, vaccination, etc., will all be given proper attention.

#### Livestock Breeding

A study of the rules and practice of animal breeding, selection of breeding stock, and mating for breed improvement for breeder and market sale.

#### Dairying

A study of farm dairy management, breeds and breeding, feeding, silo management, dairy equipment, milk and cream testing, butter making, handling and marketing of all dairy products.

#### College Livestock

Out livestock equipment will include ten to twenty pure bred hogs, about twelve high grade dairy cows and a registered bull. This stock will be kept for class use, to supply our dormitory with milk, cream, butter and meat, and for the production of stock for market. We shall have a modern dairy barn, pit silo, hay machinery, cream separators, Babcock test machines, churns, hog houses, concrete feeding floor, and concrete hog wallow. Farm feeding, breeding, castration, vaccination, marketing, butchering, and all other details of livestock work will be taught.

#### Poultry Husbandry

A study of farm poultry business, breeds and breeding, poultry judging, housing, incubation and brooding, feeding, diseases, caponizing, dry picking, egg candling, marketing of all poultry products.

We shall keep a flock of one hundred pure bred chickens in a model house. This flock will be used for class work, will supply the dormitory with eggs and meat, and provide some setting eggs and breeding stock for market.

#### We have

Old Trusty incubator.  
Safety Hatch incubator.  
Buckeye coal fuel brooder.

#### Gardening

A study of garden production, without irrigation as far as possible, of crops adapted to this section, including hot bed management, insect pests and diseases.

Two acres of land will be used for gardening.

#### Orchard Management

A study of varieties, planting, pruning, spraying, insects and diseases, irrigation of all fruits adapted to this section. Our present planting includes apple, peach, plum, cherry, grape, and many shade trees and ornamental shrubs. We have a Bean Co. spray outfit and a complete equipment of pruning tools.

#### Irrigation Farming

A study of water supply and development, distribution and management, all methods used in irrigation farming. The class will visit irrigation systems in nearby territory.

#### Farm Management

A study of types of farms, arrangement of fields, location of buildings, labor management, farm records and accounts, credit and finances, marketing methods.

#### Rural Education

Administration of High School Agriculture.

Special courses of study for prospective teachers preparing for efficient service to the people of a rural community. Rural school improvement, Agricultural Club work, school fairs and exhibitions, patron's clubs, extension work, methods of teaching under the Smith-Hughes plan, are given special attention.

#### Observation and Practice Teaching

Our Training School includes a special Vocational Agriculture section, in the High School grades, in which students spend one-half of their time in purely agricultural work under the Smith-Hughes plan, and the remainder in the usual academic subjects. The work for the present school year will be in the subjects of Livestock Management, Dairying and Poultry. These students live on a farm, and have some special project work at home such as pig feeding, chickens or garden work for which they are given school credit. A student who can get no High School education near home can come here for this work in our Normal High School, then continue in the college course in Agriculture toward the degree.

College students in the agriculture teacher training course will observe the teaching of this High School class and do some practice teaching, thereby preparing themselves for this work under the Smith-Hughes plan in a rural school.

The full college curriculum for this department includes the study of English, Botany, Zoology, Public Speaking, Agricultural Chemistry, Agricultural Bacteriology, Physics, Psychology, Manual Training, Pedagogy, and other subjects giving a well balanced education in science for the rural teacher or for the farmer.

There are now ninety two high schools in Texas for which a teacher of Agriculture is required under the Smith-Hughes plan. The annual salary for such a teacher is frequently \$2000.00 or more. This college will prepare you for such a position.

Students may enter on this course at the beginning of the Winter Quarter, January 5th, 1920, or at the beginning of any later quarter. The regular work of caring for our livestock and the general work in the fields and on the campus will give a number of students an opportunity to earn wages to pay their way through college. It is possible for any energetic student to get an education.

qualities that make up character in a natural person and upon which is built reputation.

The component members of a corporation, such as ours, are the stockholders, but its character is the composite of all its employees, from the office boys to the chief executive. The composite of the reputations of all the employees is the reputation of the company. The more human the individual employees are in their relations with the public, the more will human attributes be ascribed to the corporation.

Each of us most recognize the weight of individual responsibility. A single act of carelessness, indifference or arrogance that may affect any one patron of the company, makes a scar upon the company's reputation, and places an added burden upon those other members of our organization who are constantly striving to keep its good name free from blemish.—Southern Independent News.

#### Denver Wreck

Sixty-five persons were injured, sixteen of them seriously, when the third section of Fort Worth & Denver City passenger train No. 8 was wrecked by spreading rails, one-half mile south of Fruitland, Mont-

ague county, a little before 8 o'clock Wednesday morning. Four day coaches were overturned and three Pullman's left the track when the front truck of the engine jumped the

rails, carrying the rest of the train with it.—Quannah Tribune-Chief.

**THE CRACK O' DOOM FOR NASTY CALOMEL**

Folks Abandoning Old Drug for "Dodson's Liver Tone," Here in South.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you lose a day.

Calomel is mercury! When it comes into contact with your bile, it crashes into it, breaking it up. Then is when you feel that awful nausea and cramping. If you are sluggish, if liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous, go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it can't salivate or make you sick.

\$800 For 8 Month's Calf. One of Missouri's most progressive breeders, P. B. Eubank, owner of the Sweet Springs Stock Farm at Huntsville, Mo., has made a wise move in selecting for his future herd bull the eight-month-old Senator 2d by Senator, bred by H. S. Ferguson, Kansas City, Mo. This was picked by Mr. Eubank out of seven sons of Senator and the selection reflects credit upon the judgment of the new owner. The price was \$800. Many breeders select a calf simply because he is a good individual and do not give sufficient attention to the entire crop of the sire of the particular individual they may want. Senator, a son of Belle's Picture, has been siring a uniform lot of both bull and heifer calves, and Mr. Ferguson is more than pleased with the results he is obtaining along this line. The price paid for this young eighteen-month-old calf was \$800.—American Hereford Journal.

# The EMPTY STOCKING

There's an empty stocking hanging from many a little bed,  
Where a God-blown dream hangs over each sleeping curly head;  
And the vision gathers nightly of a day that's soon to come,  
Where little feet should patter to the music of the drum.

But out where splendor centers in the mansions of the great,  
No call will go unanswered, no lot will vainly wait;  
The Christmas horn will summon—the Christmas drum will roll  
The tide of joy in magic through the gateway of each soul.

There's an empty stocking hanging by many a wind-blown door,  
That must wait in vain for Christmas, in the gray haunts of the poor;  
And eyes that now shine brightly shall, through a rain of tears,  
See nothing there on Christmas but the sorrow of the years.

But where one gift would brighten the dark of weary days,  
No reindeer's hoof will thunder o'er Poverty's drear ways;  
And so, for God's white season—for some wee dreamer's cause—  
Don't you think that you might whisper just a word to Santa Claus?

### No Relief In Sight.

The national politicians have fallen down so completely in correcting the profiteering evils that we might as well give up this idea and strike out for ourselves. So long as there is nothing in the criminal code to serve as a scarce crow and the grand juries have flattened out without accomplishing anything the only redress left is to employ a lot of slyster lawyers and bring civil action, instead of criminal prosecution against the sharks who charge exorbitant prices. In this way dealers would be compelled to produce their books and invoices, showing wholesale costs as well as selling prices of merchandise handled by them. In criminal actions the defendants cannot be compelled to produce such evidence, due to a constitutional provision that no accused person is required to bear testimony against himself. This has been the chief stumbling block to successful prosecution of the profiteers who are squeezing the tar out of us. Only last week a Denver drygoods company was caught in the overt act of selling a pair of shoes for \$18 that had cost the firm only \$6.—Field and Farm.

### Comparing State Yields.

Oklahoma occupies the most enviable position of any state in the Union, standing 138 per cent in average yield per acre this year; Texas 124 per cent Nebraska, 114 per cent; Kansas 110 per cent, with other states trailing along some of them below the 100 per cent mark.

The ultra-red faction is feeling a trifle ultra-marine.—New York Tribune.

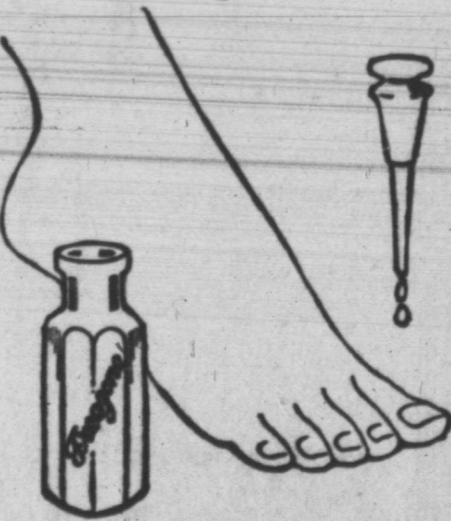

### To Save T. B. Victims.

Quick and generous response in the campaign for funds to construct hospital buildings at Carlsbad for housing Texas soldier boys who contracted tuberculosis while serving their country in the army may save many lives.

Things will never be hopeless if the union always bows to the Union.—Philadelphia North American.

### LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Frezzone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!  
A tiny bottle of Frezzone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Frezzone is the sensational discovery of a Cincinnati genius. It is wonderful.

An acre of corn put into the silo and an acre of alfalfa made into hay will support a cow 500 days. In other words it will require only 1.37 acres of land to support a cow a year on a ration composed of these crops.—Field and Farm.

Capital and Labor, let them continue to bargain. But they can't collect any more from the Public.—Brooklyn Eagle.

Fed Ten Sheep Or One Steer.

G. M. Wilbarger of Wyoming implies that ten sheep can be carried on the same which one steer consumes which has always been the rule in the range country. "By actual experience however," says Mr. Wilbarger, "we have a profit of \$20 more on the feed required by a steer. Now this means \$400 on each car of cattle wintered. How many of us have made an average net profit of \$400 a car on cattle full fed the last few years. Suppose we start into winter with a band of good breeding ewes, say 200 head, which would fairly represent the same weight of twenty cattle. The steers on the same amount of feed would come through to spring a very little heavier than in the fall, but say would be worth one-half cent more a pound; this would make \$5 a head for wintering the steer, or \$100 a car. If the

twenty steers cost \$8 in the fall and weighed 1,000 pounds they would represent an investment of \$1,600 or \$1,700 in the spring, a profit of \$100. Now, I may have figured the advance and gain of cattle too low, but if I have I want some one to set me right. A fair average of 200 ewes would represent an outlay of say, \$2,000; wool cut off in the spring \$800. Allowing for a depreciation in value of ewes of \$1 a head, they would be worth in the spring \$1,400 making a net value of \$2,200. There is likely to be an interest charge of \$320 which is not figured in because it would apply equally in both instances."—Field and Farm.

You'll Want This Combination

It is the Case 10-18 kerosene tractor and a two-bottom Grand Detour plow. It is an ideal plowing outfit for either small or large farms.

The tractor weighs about 3,500 lbs., just a trifle more than a big team of horses. It burns kerosene economically, developing full power on the same.

The tractor has a four-cylinder valve-in-head motor, mounted crosswise on a one-piece frame. A Case Siphon Thermostat controls the cooling system and insures complete combustion. The all-spur gears, with teeth cut and hardened, are enclosed and run in oil.

The Grand Detour 2-bottom Automatic Lift Rigid Beam Plow will fill the plowing requirements of the most particular farmer. Grand Detour plows are strictly quality plows. They are light in draft, yet so well constructed that they will give years of faithful service at a low cost of upkeep.

We would greatly appreciate the opportunity of telling you more about Case tractors. Drop in and let's talk it over.

**Census Proclamation.**  
 Whereas, by the Act of Congress approved March 3, 1919, the Fourteenth Decennial Census of the United States is to be taken beginning on the second day of January, 1920; and Whereas, a correct enumeration of the population every ten years is required by the Constitution of the United States for the purpose of determining the representation of the several States in the House of Representatives; and Whereas, it is of the utmost importance to the interests of all the people of the United States that this Census should be a complete and accurate report of the population and resources of the Nation;

Now, therefore, I, Woodrow Wilson, President of the United States of America, do hereby declare and make known that, under the law aforesaid, it is the duty of every person to answer all questions on the census schedules applying to him and the family to which he belongs, and to the farm occupied by him or his family, and that any person refusing to do so is subject to penalty.

The sole purpose of the Census is to secure general statistical information regarding the population and resources of the country and replies are required from individuals only to permit the compilation of such general statistics. No person can be harmed in any way by furnishing the information required. The Census has nothing to do with taxation, with military or jury service, with the compulsion of school attendance, with the regulation of immigration or with the enforcement of any national, state or local law or ordinance. There need be no fear that any disclosure will be made regarding any individual person or his affairs. For the due protection of the rights and interests of the persons furnishing information every employee of the Census Bureau is prohibited, under heavy penalty, from disclosing any information which may thus come to his knowledge.

I therefore earnestly urge upon all persons to answer promptly, completely and accurately all inquiries addressed to them by the enumerators or other employees of the Census Bureau and thereby to contribute their share toward making this great and necessary public undertaking a success.

In Witness Whereof I have hereunto set my hand and caused the seal of the United States to be affixed.  
 Done in the District of Columbia this tenth day of November, in the year of our Lord one thousand nine hundred and nineteen, and of the independence of the United States the one hundred and forty-fourth.

**ORGY OF SPECULATION DECLARED TO PREVAIL**

New York, Nov. 25.—"America's most vital enterprises, such as railroads and traction companies," are starving in the midst of "financial plenty," because of "an orgy of speculation," which has disturbed not only bankers, but the Federal Reserve Board, according to A. C. Bedford, chairman of the international trade conference held last month in Atlantic City.

Unable to speak because of a severe cold, Mr. Bedford's speech was read at a conference and luncheon here today under the auspices of the Chamber of Commerce of the United States on the eve of the departure for home of foreign delegates attending the Atlantic City sessions. Reading of his speech followed pleas from the guests for extension of long-time credit by the United States.

"I do not want you to think I am an alarmist," said Mr. Bedford, "but I say, as emphatically as I can, that we must get away from our present national extravagance and get back to the building of solid foundations. Let us listen, for a change, to the dictates of our common sense. We did not wash our hands of the European situation on Nov. 11, 1918. We are not quitters as individuals and we won't quit as a Nation. We must make good our promises of practical, immediate help."

**Quail Season Is Open.**  
 The open season for killing quail has arrived and the elusive birds may be killed until the last day of February, 1920. Although there are very few of the birds around Plainview, they are said to be plentiful in the Sand Hills west of here and in the Tule Canyon near Silverton. Many of the places where the quail are plentiful are posted but most of them are open to hunters. Although the quail are known to be the best bug and worm killer among birds, the farmers are divided as to whether they eat more insects or grain. — Plainview Herald.

**Book Club Meeting.**

The following was the program for the Woman's Book Club held yesterday:  
 Steps toward Independence in American History.  
 Roll Call—Items of interest pertaining to the lesson.  
 Papers: The King's Struggle with Parliament; Expulsion of the French in America; England's Tyrannical Rule; The Revolution as Reflected in our Poetry.  
 Leaders—Mesdames R. A. Terrill, I. C. Jenkins, L. T. Lester.  
 The next meeting of the club will be on January 14.

**Farmers Urged to Plant Spring Wheat**

According to a statement made by H. B. Dorsey, secretary of the State Grain Dealers Association the wheat crop of the state and nation will be very much under normal next year. The continued rains and bad weather have cut the average of fall wheat nearly in half and even the spring wheat that will be planted will not bring the states crop to the normal point. The Texas Grain Dealers Association is making efforts to place the seed for the spring wheat wherever it is most needed.

**Letters to Santa Coming.**

The News is receiving letters addressed to Santa Claus. Every little chap who wants to send word to Old Santa regarding his wishes for Christmas should write a letter at once, as we shall print them next week.

**Work Begun on Boiler-House.**

Messrs. Enquist and Bradshaw of the Johnson Construction Company were here last week making preliminary arrangements for the construction of the new buildings. Mr. Enquist stated that most of the material for the boiler-house has been purchased and is now in transit. Mr. Bradshaw, who is director of construction, will remain here for some time. His tools have arrived and he laid off the ground for the foundation last Monday. It is expected that the work will go forward with as much rapidity as conditions will permit.

This building will add much to the attractiveness of the campus. It will be one story in height, 113 feet and 8 inches in length and 46 feet in depth. It will be so constructed as to house three large boilers, four pumps, a hot water heater for the swimming pool and shower baths, a 75 horse-power engine, and a large coal room. The west end of the building will be occupied by the metal shops of the Manual Training Department. The building will not only better the heating situation but will give more room for other departments in the main building.

**Pean Shipments Large.**

The students from Collingsworth county met December 3, and organized the Collingsworth County Club. The following officers were elected: Allen L. Harper, pres.; Deskins Wells, vice pres.; Bessie Prichard sec'y-treas.; Rose Couch, Chairman of publicity committee. Following are the members: Dodson Blevins, Allen L. Harper, Keener Dodson, Luther Sullivan, Deskins Wells, Cale Wesley, Rose Couch, Velda Ketchum, Bessie Prichard, Effie Rankin, Carrie Rankin, Ruth Rankin.

Miss Thelma McLain, a graduate of this institution, spent the week-end in Canyon visiting friends.

The following were visitors in chapel Saturday: Rev. Shaw, Rev. Fronabarger and Messrs. Brumley, Sone and McIntyre.

Miss On Lewis, a former student, now teaching near Happy, spent the week-end in Canyon visiting friends.

Messrs. Paul Callihan and Lee Fulton, who are students in the Normal were in Amarillo on business Saturday night.

Following is the Antler program for Friday, Dec. 12:

France and French Life—Homer Cowan.  
Reading—Arthur Carlson.  
Music—Society Orchestra.  
Oration—Dhuplains Younger.

Debate—Resolved, That all immigration of the industrial and commercial classes into the United States should be prohibited for a period of five years. Affirmative—Ersie Fort and Cale Worley. Negative—A. E. Hunt and Lee Fulton.

Mr. James Bledsoe of Abernathy visited his sister, Mrs. A. W. Jones, Saturday and Sunday.

Miss Dessie May Steele spent Monday in Amarillo.

Boone Moreland of Amarillo visited in Canyon Sunday.

Leam and Law Sone and Forrest Stradley visited relatives at Fly, Texas, Sunday and Monday.

Miss Edith Sachse spent the week-end with home folks near Leslie.

Miss Fairy Gassaway was visited by her father and mother last Thursday.

The different expression classes were delightfully entertained last Saturday afternoon by a program given by Miss Brown's private pupils in expression. The following appeared on the program: Mr. Deskin Wells, Misses Joy Mills, Ruth Harrison, Vada Murphy, and Grady Hazlewood. Neal Lane of Clovis spent the week-end with a few friends in Canyon. James Bloxham was called home Dec. 8th, on account of the illness of his father.

Dick Weatherly, a former student spent Sunday in Canyon with friends.

It's a habit of the Gatewood girls not to allow any girl's birthday to be forgotten. This time it was Miss Velva Oliver who had a birthday. Each of the girls marched into her room singing, dropped an attractively wrapped package into her lap and disappeared.

At chapel last Saturday morning Mrs. Simean Shaw, our new Methodist pastor's wife, assisted in the Red Cross Stamp sale by giving an illustrated lecture in chapel. After chap-

el she did some excellent work at the booth where the stamps were being sold.

The following is the Cousins Literary Society program for Friday:

Group II—Democrat—floor leader—J. C. Hays.

Group III—Socialist—floor leader—K. Burns.

The committee of investigation of Faculty Affairs, will report on Mr. Sneffy's bottle—Chairman, Thomas Brahan.

The members of the society will be divided into political parties at the meeting. All members came full of the subject and prepared in parliamentary usage.

The girls from Huntleigh Hall challenged any of the other boarding houses to a chicken catching contest up town Monday. The challenge appeared in the corridors early Saturday morning. A little later a play card hearing this reply made its appearance. "The Jenkins Girls accept the challenge from Huntleigh Hall." Monday came and after a long, cold wait up town, the Huntleigh Hall aggregation disappeared. Finally the chickens to be caught by girls over 18 were tossed up and immediately that red-headed girl from the Jenkins House pounced upon a hen and thus won for "The Happy Family", the Jenkins Girls.

Plainview Charter Invalid.

The case of the State of Texas ex rel J. H. Wayland, et al vs. Chas. Vincent et al, from the County of Hale was reversed and remanded in the Court of Civil Appeals for the Seventh District, at Amarillo Wednesday. This is the case involving the validity of the charter recently granted to the City of Plainview. The same case was recently heard here before Judge

Spencer, of Lubbock, and was declared valid at the time. An appeal was taken and the result is the decision given at Amarillo Wednesday. This simply puts the case back to the point where the suit was filed and leaves the charter in effect.

A great amount of interest as been manifest in the case in Plainview and from all parts of the state. The case was brought to court by citizens in the territory taken into the city by the new charter. The charter was obtained by the city government to get taxes to defray the increasing cost of the city administration and to take the thickly settled portions of the sections surrounding the city into the city limits. The merits and demerits of the action was soon a current issue and the citizens brought into the city limits raised a fund to pay an attorney's fee to fight the charter.—Plainview Herald.

### "Giving."

A recent editorial in one of our papers spoke of the numerous drives, and the appeals that are being made for money for different causes. It is true that there are many calls and most of them are for good causes, and if we would all respond according to our means the world would be a better and happier place in which to live. During the war, under the stress of excitement, we gave as we had never given before, and we doubt if there is one person any poorer for it. The country is richer than it has ever been.

During normal times, if we would sit down and count what we give to the church, to charity, and to the numerous drives that are made, we would find that it was very likely less than we had spent on clothes, on amusements, tobacco, or whatever particular fad or folly we are in the habit of indulging ourselves.

What we need to do is to give more not less. A truth of what we have is the Lord's, and how many give it?

He has said that if we are faithful and give Him what is His our harvest shall never fail. There is a big business man in Dallas who says he will give \$500 to any one who can prove to him that he tithed and did not prosper. We cannot all give large amounts, we can give as we are able.

Last Saturday two planes were here from Ft. Worth carrying five men enroute for Paladuro for an outing. At the ranch the bird men were interested in the lore of the chaps but declined to steer a broncho through the cedars.

Mrs. C. Adair, owner of the J A ranch was taken for a ride to an altitude of 5,000 feet. This demonstrates that age as well as youth enjoys the thrill. Mrs. Adair is more than an octogenarian, and has one of the few large ranches left in the Panhandle.—Silverton Star.

WHEREIN THE HAPPY SPIRIT OF CHRISTMAS TRULY ABIDES

### The Street Frock, a Gift Enchanting

Most of us rack our brains hopelessly in our conscientious endeavor to find an ideal gift. We all agree that it must bear the hall mark of quality, that it should convey our deep regard satisfactorily. After searching everywhere we find it, just as we find the blue bird of happiness, at most right at our own door-step. A Dress from the wealth of pleasing styles in this Store's display is the answer—and to ourselves we say—"Why didn't we think of that before."

Priced Very Reasonably.

### Dainty Gift, Silk Underwear

A gift of dainty undergarments express that fine degree of thoughtfulness which is the true spirit of Christmas giving. A wonderful collection from which to choose.

### Suits Are So Giveable

The Fountain of Youth and these Suits have the same aim in life, but since one cannot hang the former even on the sturdiness of Christmas trees, it behooves Shoppers to carefully inspect these wonderful values in Suits.

### Georgette and Crepe de Chine Blouses

We invite every woman, who wishes to give a fine blouse for Christmas, to see our wonderful display. There is a great variety to choose from. Tailored and dressy models; black, white, flesh and suit shades.

### Phoenix Hosiery

Nothing will please her more than a pair of Phoenix Hose. With every pair goes a guarantee of satisfaction.

### Furs, Most Appreciated Gift

# CLEAN UP SALE

Next Saturday, December 13th, will start the biggest Sale the people of Canyon and Randall County have ever witnessed. We realize that we can't buy these goods back for the regular marked prices. But regardless, the fact that it takes twice the Capital now to carry a stock, that it did a few years ago, forces us to turn this winter Stock into CASH, to buy spring Merchandise. Hardly an item in our House that will not cost us 25 per cent more to replace for next fall, but we must have the room and the Cash. We expect to cut out stock down at least \$20,000.00 by January 1st invoicing time. Plan an early visit, don't put it off—first come, first served—the stock will move rapidly at these prices. Remember it takes CASH to get the discount.

## Sale Starts Saturday, December 13 and Closes Saturday, December 20

Don't miss the Auction Sale the first day, Saturday, December 13th, at 3 p. m., and again at 6:30 p. m. Merchandise at your own price. Two Talking Machine Tickets will be given with each \$1 cash purchase during the Sale. The Machine will be given away Saturday, Dec. 20th, at 3 p. m. Tickets must be present.

## NEW ARMY BRANCH FOR WELFARE WORK

"SERVICE CLUBS" HAVE TAKEN OVER ALL EDUCATIONAL AND RECREATION ACTIVITIES.

WAR DEPARTMENT WILL PAY

In Each Post, Camp and Station the Duties of Organization Workers Will Be Performed by Soldiers and a Few Civilians.

By JAMES P. HORNADAY.  
Washington.—An educational and recreation branch of the army has been established. On November 1 the war department took over the activities of the seven religious and recreational organizations that were so helpful during the war. In the future all the religious work in the army will be done by the regularly commissioned chaplains. It is proposed to give every denomination a fair representation. Recreation will be an army activity.

All club features, for both officers and enlisted men, heretofore supplied by the affiliated organizations become the responsibility of the "service clubs." Duties of the various secretaries and their assistants will now—under direction of the post, camp or station commander—be done by officers, enlisted men and such civilian personnel as is deemed necessary and funds available will provide. In posts, camps and stations and working with the service clubs (taking the place of the hostess houses) there will be a certain number of women, who will act as hostesses for such clubs. A further responsibility is theirs in that they must create and carry out welfare work for all women personnel in the camp.

**War Department Will Pay.**  
The expenses of the clubs, upkeep, personnel, repair, etc., will be met from funds which will be provided by the war department, and allotted by the war department to commanding officers for that purpose, apportioned according to the needs in each case. Cafeterias that were operated by the various welfare organizations within each post, camp or station will now be run by the exchange. Certain of the Red Cross activities will be maintained. This will include "home service, recreational and entertainment program for sick, wounded and convalescent in army hospitals, and communication service in army hospitals," the last two being for patients only. Of the buildings taken over, post, camp and station commanders are to reserve an adequate number to meet the needs of service clubs within their command. Their number, size, suitability and location are left to the discretion of the various commanding officers.

A good many men and women who were with the welfare organizations have been retained, and will be attached to the army as civilian employees. The following decision as to salaries to be paid to representatives will govern:

Men of little or no experience, but who have potential ability will be employed on the basis of a second lieutenant's pay.

Men who have demonstrated their ability but need further training to make them expert will be employed on the basis of a first lieutenant's pay.

Men who are expert in their work will be employed on the basis of a captain's pay.

Two or three men having extraordinary qualifications, will be employed on the basis of a major's pay.

**Quarters May Be Provided.**  
If quarters are available, and it is possible for post, camp or station commanders to give employees quarters on the reservation, this will be done, otherwise they will receive commutation for quarters, light and heat in accordance with amount given to officers of corresponding pay.

Women of little experience, but who give promise of future ability, will be employed at the rate of \$1,200 per year with an allowance, if commuted, of quarters, heat and light, equal to that of a second lieutenant.

Women with some experience will be employed at the rate of \$1,300 per year with an allowance, if commuted, of quarters, heat and light equal to that of a first lieutenant.

Women with exceptional ability will be employed at the rate of \$1,400 per year with an allowance, if commuted, of quarters, heat and light equal to that of a captain.

Comparatively few women of extraordinary ability will be hired at the rate of \$1,500 per annum and an allowance of quarters, heat and light, if commuted, equal to that of a major.

It is particularly desired, the war department says, that the women personnel be quartered at the various hostess houses, or in such other quarters as are available in the camp or post. Whether or not this is possible rests with commanding officers. Civilian representatives working within each post, camp or station will be employed by the war department, on the recommendation of the post, camp or station commanders.

The secretary of war has directed commanding officers of all camps, posts and stations to use their discretion as to the necessity of all civilian representatives authorized. Substituting male for female representatives and vice versa is not authorized without the approval of the war department.

### Appreciate Marvin Jones.

Panhandle Herald: The citizenship of Carson county are very appreciative of the earnest and effective service rendered by our Congressman Marvin Jones in Washington during the strenuous efforts put forth by the wheat farmers, bankers and others of the Panhandle country in recent efforts to convince the railroad authorities in Washington that because of their failure to furnish grain cars for shipping the distressed wheat in this section, farmers were losing heavily on their wheat. Congressman Jones, backed up by F. R. Jamison, of Amarillo, J. C. Paul, of Panhandle, L. C. McMurtry, of Pampa, and others of this section, labored hard and earnestly day after day until finally the scales fell from the eyes of those Washington railroad authorities; and since November 4, cars have come to the Panhandle by the hundreds to relieve the distressed wheat situation of

this country.

Judge J. C. Paul made more than one trip to Washington, paying his expenses out of his own pocket, in the effort to bring this relief to Panhandle, is in a position to know intimately the hard work and difficult task it required to get this relief, and in speaking of the matter said to the Herald editor one day this week:

"The farmers of Carson and Gray counties have put in three busy weeks hauling distressed wheat. On Tuesday, November 4th, the cars began to come and have continued to come in such numbers as to enable a partial clean-up of what was on the ground and in exposed places. This has brought relief to our farmers, merchants and bankers, in a most substantial way, and at a time when it was much needed.

"And it is most fitting at this time to call special attention to the valuable services rendered at Washington by our Congressman Hon. Marvin Jones.

He knew just what to do and bent every energy to arouse the interest of the railroad officials who alone could furnish the cars.

"For some weeks earlier in the season it seemed hard to convince the Washington authorities that a real emergency existed here; but Mr. Jones kept on the job and brought every force to bear on them to get relief. On November 14th he went before the House of Representatives and in an able way presented data to show how former systems of allotting cars had failed. He used our car shortage as an example. It was a timely effort.

"It is not too much to say that his services in this crisis saved the farmers of West Texas Hundreds of thousands of dollars, for which interest, the citizens of Carson county unanimously express to him their sincere thanks."

SUBSCRIPTION, \$1.50 PER YEAR

The coal situation in Canyon is getting serious. It will be well for the people to learn a lesson from the situation. This will not relieve the situation right now, but our people should resolve right here and now to never be caught with a coal shortage again. It looks foolish to some people to buy their coal in June, July and August, but really one can have little sympathy for people who have the money and are now out of coal when they refused to buy their winter's supply last summer. The government warned the people to buy early as there would no doubt be a shortage this winter, even without the strike. All coal dealers did their very best to sell a winter supply to all their customers, and at much less prices than are ordinarily paid throughout the winter. Practically every winter finds Canyon and every other town short of coal at times. If all of the people would refuse to buy in advance the condition would have been just as serious at times every winter as it is now. If a big percent had not bought the winter supply last summer, there would have been great suffering in Canyon now. If America will learn a lesson from this strike and buy their supply in the summer, the miners will not have grounds for kick, as they now have in being laid

### IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

### The Wonders of America

By T. T. MAXEY

YOSEMITE VALLEY, CALIFORNIA.

THIS beautiful valley—now a part of Yosemite National park, by the way—is one of nature's most wonderful works of art. The valley is only eight miles long and less than two miles wide. The park embraces a domain about 38 by 48 miles. Here the supreme artist has chiseled and etched and painted an outdoor gallery of masterpieces unlike any other in the world. The Indians termed the place the Heart of the Sky Mountains and called it "The Vale of the Ahwaneech," and themselves Ahwaneeches, or "Children of Light."

The excellent features of the Yosemite are its waterfalls and sheer, bold cliffs. Snow-waters from high mountains have found a wonderful variety and beauty of courses down the mountain walls to the Merced river in the valley below. These peculiar peaks strikingly resemble huge domes and range in height all the way from 1,200 to 6,000 feet. The falls which descend their rugged sides range in height from 350 feet—Vernal falls, which is only 35 feet wide at the top—to beautiful Yosemite falls, which, in three leaps, plunges half a mile and is said to be the highest waterfall in the world with anything like the same volume of water.

Standing on the summit of Sentinel Dome, the magnificence of the vista of the valley that bursts upon the eye compels silence. Perhaps no valley in the world combines so much that is so sublimely beautiful. It is "a bite of Paradise," sure enough.

off so much during the summer month, and the condition can be met during the winter months. Don't forget next summer about your experience now, and buy your coal supply when it can be had.

There is a movement on foot in various parts of the country for the open shop. It will not succeed, but it is gaining strength enough that the union heads should awaken to the fact that by unwarranted strikes they are making the union idea extremely unpopular. The union should and will live when properly conducted. The union will die if it pursues the same policies as it has during the past few months.

Although the coal strike has again been called off by acting president Lewis, a big percent of the miners are still out. Now where are the writers who made such a great fuss over the patriotic (?) utterance of Lewis, "we cannot fight our government."

Every man or woman who believes that the world is going to blow up on Dec. 17 should see to it that his subscription to the News is paid in advance. Only subscribers of good standing with the News has any chance of going to heaven.

The postmaster general says that the postal system should not be conducted for profit as this would make it a form of taxation; true, the present system is a great tax upon human patience.

In Fort Worth the movement has started to eat in the kitchen to save fuel. We know some Canyon homes where "eat in the kitchen" goes on coal or no coal.

Bill Carlisle is some highwayman, but there seem to be others who are free to go and do as they please, judging from the way prices along all lines are advancing.

### EASES A COLD WITH ONE DOSE

"Pape's Cold Compound" then breaks up a cold in a few hours

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the gripe misery.

The very first dose opens your clogged-up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffing! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no quinine—Insist upon Pape's!

Say bunkie, the best thing you can do is to join the Palo Duro Camp of the American Legion. Nearly all of the fellows in Randall County are joining. They want you too.

Buy those Red Cross Christmas Seals today. Randall County must sell \$225 or more of these Seals this week. The money from this sale goes to fight tuberculosis.

The trouble with last summer's wages is that they won't buy much of this winter's goods.

### NEWS PRINT SCARCE

In common with every other newspaper in the United States, The Plainsman is endeavoring to conserve on news print. This is made necessary by the great shortage in print paper—a shortage that seems to be getting no better very fast.

Many of the small town papers have had to suspend publication and others are quite likely to be compelled to do so when the news print they have in stock is exhausted. The wholesale houses say that many of the paper manufacturers are selling their entire output to the big city papers because it is more convenient to sell it in big rolls than to have to cut it to sizes required by the smaller presses.

We are quite aware that The Plainsman contains less reading matter just at present than we should like to have but at that we are obliged to omit advertising every week and there have been many times in the past when there was more reading matter than was profitable for us. We are making as much of our space as we can by having the reading matter set solid and hope that the situation may improve soon so that we shall not need to be so saving of paper. At present we are doing the best we can and trust that our readers will be patient.

It strikes us, and probably some other folks as well, that there might be a considerable saving of paper, if the big dailies would cut out their comic supplements and a lot of their feature stuff, especially in the Sunday editions. Thousands of sheets of paper are consumed in printing a lot of "bunk" that few people ever read. Let the big dailies confine their editions to legitimate news and advertising and the paper shortage would not become so acute.

—Southwest Plainsman

### WHY NOT?

For several years Kansas has been famous as a state without a public debt, but will soon have nothing on Wyoming which in three or four years will be the first state without taxation. In Wyoming the state receives oil royalties. In three years it is believed there will be enough of this revenue to meet all the expense of the state and pile up a good road fund. Wyoming gets it because the oil leases are on public land but the idea has more than that behind it, why shouldn't all the people share in the benefits of natural resources?—Capper's Weekly.

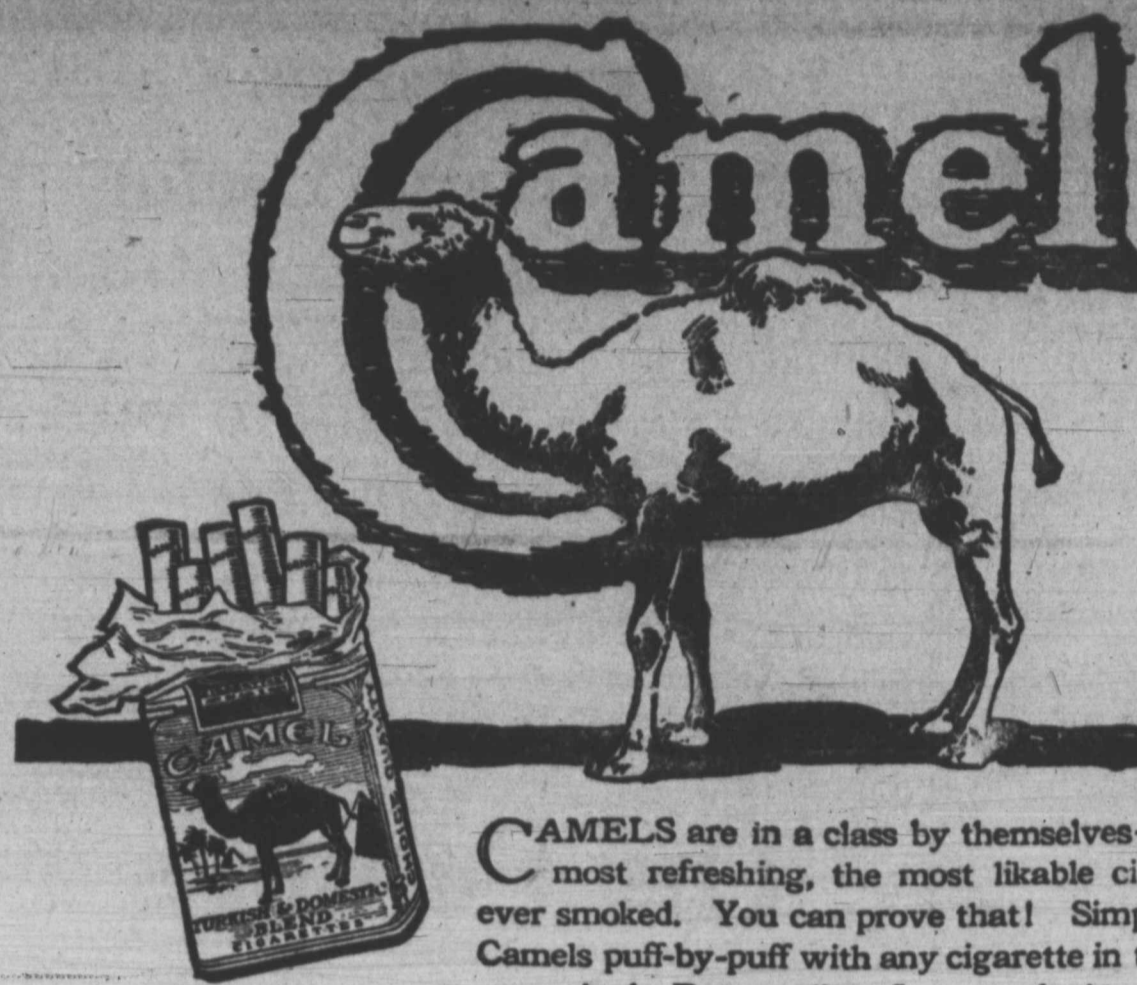

Do not let it go over your head. "Why shouldn't all the people share?" Capper's Weekly is one of the chain of newspapers owned by Arthur Capper. He is a United States senator. Before his elevation to the senate he was the progressive governor of Kansas for two terms. He is not an old man and he began life a printer's devil. Kansas is a petroleum producing state. Wyoming is a petroleum producing state.

Wyoming is rich in livestock wealth, Kansas is rich in the golden grains of life and commerce. Texas is a petroleum producing state. Texas ranks second and there are Texans who expect this state to rank first in production of oil before the coming of the year 1920.

"Why shouldn't all the people share?"—Ft. Worth Record.

**Jenkins Case in Hands of Court.**  
Washington, Dec. 9.—The Mexican supreme court has assumed jurisdiction over the case of American consul agent W. O. Jenkins, the state department was advised today by the American embassy at Mexico City.

The message gave no details other than that the transfer of the case from the Puebla state courts had been made on motion of Jenkins' personal counsel and officials indicated that developments thus far had not been such as to cause any change in the American government's attitude, as outlined in the recent sharp note to Mexico renewing the request for Jenkins' release. No reply to that note has been received and administration officials make no effort to conceal their impatience. George Summerlin, the American charge at Mexico City, cabled the state department yesterday that the reply from Carranza was expected during the day, but so far it has not been delivered.

In its reply the United States took the position that under the new Mexican constitution, the federal supreme court alone had jurisdiction over the cases of foreign diplomatic and consular representatives in Mexico. This also was the policy of Jenkins' counsel in arguing the motion that his case be transferred to the supreme court.

Jenkins was released from the Puebla penitentiary last Thursday, on \$1,000 bond furnished by J. Walter Hansen, and the state department was informed today that he had arrived in Mexico City from Puebla in conference with Charge Summerlin relative to his case. Jenkins' investigation and that of the department into the circumstances surrounding his release are still under way. Meantime officials withhold comment on Hansen's statement that in furnishing the bond he acted on his own initiative.

**Men Arrested For Killing Boys.**  
Cold Springs, Texas, Dec. 8.—Six prominent white men of Walker County and three San Jacinto negroes are in jail today as the result of a confession the negroes are said to have made in connection with the killing of two boys and firing of a barn on the Joe Winfrey farm, near here, last June.

The white men taken into custody are Claude Templeton, Gus Gray, Tom Wilson, D. T. Cheehire, Seth Dorrell and O. H. Miller. A seventh white man is said to have been implicated in the negroes' alleged confession, but he has not been arrested. The men are in jail here.

Dawson Kelley, George Harrison and Ned Harrison are the negroes said to have confessed. They are in the Polk County jail at Livingston. Kelley is said to have confessed first and his statements are declared to have been corroborated by the other negroes.

Prominence of the men involved has attracted widespread interest to the case. On the night of June 7, last, Joe Winfrey's barn was set on fire and the boys, Frank Winfrey and Henry Currey, went out to extinguish the flames. They were shot at from ambush and killed.

About six months prior to the killing of the two boys, Frank Winfrey shot and seriously wounded the negro Ned Harrison, who had been a witness against Winfrey's father in a minor case.

**Leprosy Cure Found At Last.**  
Honolulu, Dec. 9.—For the first time in history, the complete cure of lepers is announced. Twenty patients have been discharged from the Kahili hospital and, after several months of observation, no recurrence of symptoms is noted.

Dr. A. L. Dean, president of the University of Hawaii, and a distinguished chemist, has succeeded in isolating the active principle in chaulmoogra oil, made from the seeds of a plant, which for some time has been recognized as beneficial in the treatment of leprosy. The medicine is enclosed in capsules and injected into the muscles. Scars of the disease remain, but its ravages are at once checked.

Treatment is carried on exclusively by the United States Public Health Service.

**WHEN A COUNTRY BOY MOVES TO TOWN**

It is an easy matter for a country boy to become a city boy but for a country boy to become a small town boy is a different proposition. When a boy moves with his parents from the country to a big city, the boys in the neighborhood think he is from some other neighborhood only a dozen or so blocks away, and when a boy moves from the country to a small town the boys of the town know he doesn't belong there and he has got to fight. At least this was the case in Jaggerville when Henry Nimble moved there. For a week Henry didn't leave his yard. Every day a small bunch of boys passed the house. One of the bunch had his hat pulled down over his eyes just enough to convince Henry that he was a fighter and poor Henry wished he was back with his country friends. One day he tried to make friends with some of the town boys through a crack in the fence, but they dared him to come outside. That same afternoon he said he had a thorn in his foot when his mama wanted him to go to town for her, but she reminded him that he had been running and jumping in the yard and she didn't think it would hurt him to walk a short distance. On the way home he met his enemies. One of the boys walked up to him and knocked off his hat, which Henry immediately picked up. The boy knocked it off again and poor Henry cried. Right then the town boy should have walked away, but he made the mistake that the town boys always have made. It positively is not safe to touch a country boy after he has been crying. The tear means that he is getting mad all over, and when a fellow cries and fights at the same time there is simply no limit to the number of boys he can lick. The third time the boy knocked off the hat Henry let the hat go and went after the boy. When the fight was over Henry was no longer a country boy. He was a real town boy and was ready to fight any country boy who dared move to Jaggerville. — Claude Callan in Kansas City Star.

**Given Fair Warning.**

Little Eleanor vehemently announced her intention of giving up her French lessons with her governess. Her father, however, was very anxious that the children should learn French and did not intend to humor her.

"She hugs and kisses me to make me do my lessons!" cried the little girl. "See here, my dear," returned her father in a reasoning, diplomatic way, "I have read French with your governess ever since she has been here and she has never tried to hug and kiss me."

"Father", observed the child gravely, "you'd better knock on wood". — Pittsburg Chronicle-Telegraph.

After the King had passed on the officials turned to George and asked him what he thought of his majesty. "Man alive," George said, "dat am the first King I ever saw outside of a deck." — Washington Star.

**Swindled Out of \$45,000.**  
Swindled out of \$45,000 cash, his life's wealth, in one of the cleverest wire-trap frauds in the history of the oil game here, the thieves escaping even after he had cornered them at pistol point in a room at the Westbrook hotel, John Feek, for years sheriff of a West Texas county, is today penniless.

Mesmerized by tales of wondrous wealth in "playing the stock board", hardly a week ago, he went to West Texas to borrow \$45,000 on his 2,000-acre farm, returned and placed it in the hands of the three crooks. They disappeared. The scheme then dawned upon him, he caught them in the Westbrook hotel here Tuesday. But they virtually slid through his hands again. Police and detectives are now scouring the principal cities of the state in search of the swindlers.

Feek, middle-aged and a prosperous farmer in another part of the state, came to this section about ten days ago, bent upon selling outright his 2,000 acres of land and buying other property. Having served more than ten years as a sheriff with a record for capturing many dangerous criminals and breaking up bands of swindlers, he felt himself immune from petty panhandling games and especially indifferent to the magnetism of the oil game, he told Captain Gaines Davis and Emergency Officer Bert Eastman Wednesday night.

He went to Dallas to market his soil and in enjoying the gaiety of the Adolphus hotel there he made the acquaintance of an attractive, well-dressed young man. The young man could talk farms and farming and that just suited Feek. The man, however, was "Speck"—known to police as a dangerous swindler.

Seated in the lobby one of "Speck's" friends appeared. The man was politely introduced to Feek. But with slight of hand the newcomer slipped into a seat nearby a wallet containing \$200 in cash, a Masonic pin and a \$10,000 oil bond. Feek happened to be a Mason. The plot was well laid. The three espied the wallet at the same moment.

Feek opened it, referred the name on the inside to the room clerk and found the owner was occupying a room. Feek and the two others went to the room and gave the wallet to the "owner"—No. 3 in the scheme. The man offered Feek the \$200 as a reward, but he refused to accept it. The man then said he would play the money on the "oil board" and give Feek the proceeds. Returning to the man's room next day Feek was given \$800. Shown another opportunity then looming on the market where much could be made, Feek went back to West Texas, drew his \$20,000 returned to the city and placed it with No. 3.

The following day Feek was presented his money with several thousand dollars "made on the deal." However, the crook needed \$65,000 again for another deal. "Speck" thought it was a good thing and gave the man \$30,000. The second crook gave No. 3 \$10,000. Feek again went home and returned once more with \$25,000 more he had been able to scrape up by borrowing on his farm. The next day when he went back to the hotel the room was unoccupied, the guest had "checked out."

It dawned on Feek his entire \$45,000 had been stolen and the "deals" were fakes and the money he had seen No. 3 handle, was piles of stage money with only real bills on top of the stout piles.

With but a few dollars in his pocket he came to Fort Worth in search of the men. He found them and cornered them in a room at the Westbrook. He leveled his revolver at them, he told the police, and was prompted to shoot them but they got on their knees, cried piteously, pleaded with him and even made prayers.

Feek had not yet searched them for the money but in some way he cannot explain they got hold of his six-shooter and escaped again, leaving him in the room. He then sought police aid and told his story. He was given shelter Wednesday night and yesterday detectives were put on the case.

The fleecing of Feek is probably the first time the famous old wire-tapping stunt has been applied to the oil stock market. This particular phase of wire-tapping is known as the "Wallace game" having been worked flagrantly by the Wallace wire-tapping gang in Chicago in the days of the old bucket-shops, and which resulted in fleecing honest victims of more than \$5,000,000 before the gang was broken up.—Ft. Worth Record.

Necessity causes people to often resort to primitive methods. Pioneers of the Plains often tell of the times when the early settlers depended upon buffalo chips for their fuel, and how in the early days of Plainview buffa-

Since the coal shortage has come on, we are told that people on some of the largest ranches on the Plains, where large numbers of cattle have or are being kept, are gathering cow chips and putting them under shelter to be used for fuel when the coal supply is exhausted.—Plainview News.
