Kitty's Korner

By
Kitty Montgomery

"Power corrupts." We have so often heard this said in so many situations, and it comes to my mind everytime the Washington Press Corps takes aim at anyone or anything. The power the Eastern Press has over American thought is truly an awesome thing to behold. After their recent success with Bert Lance, they will no doubt zero in on someone else.

They have become so heady with power they can call the shots and get away unscathed, truth or lie. With a flick of the pen or a television mike and camera, they can tear down the work of a lifetime. They have no qualms when it comes to besmirching someone's good name. It doesn't really matter about innocence or guilt. Sensationalism reigns supreme. They are accountable to no one and act accordingly.

Legislators tremble in their boots and none have the tenacity to face up to the press. Why? Because they may be the next victim, and there isn't anyone living on this earth, much less any politician, who has not made mistakes or has skeletons in his closet he had rather not air.

Jack Anderson has been the head muckracker in the past, but now they have all jumped on his bandwagon and in many instances make him look like a piker. It doesn't matter if they issue an apology after they have destroyed someone with false accusations, the damage is done.

Everybody should be concerned about the abuse of power by the Eastern Press. The irresponsibility of it all is going to bring "Freedom of the Press" crashing down around all our heads, and we will all suffer the consequences.

The tragedy of the "Lance Affair," (so named by the Eastern Press) is the fact that American fair play was ignored. The fact that a man is innocent until proven guilty had absolutely nothing to do with the outcome. Although acquitting himself admirably in the hearings, no ill-doing being proved, the man's credibility was completely destroyed, to the point he could no longer function in office. This is a sad state of affairs. When the power of the press reaches the point they can dispose of any high official by innuendo, they are indeed running the country, and the republic as such ceases to exist. In its place, you have a benign dictatorship, but a dictatorship all the same.

CHEERING THE CUBS this year are this bevy of beauties. Girls are bottom row, l. to r., Debra DeHoyos, Annette

Cervantez, and Kim Bebee. Back row, l. to r., are Connie Badillo, Leanna Kramer and Sue Ellen Black.

Lions Roar Over McCamey Badgers To Tune Of 27-2

Ozona's Lions roared over the McCamey Badgers to the tune of 27-2 here Friday night. The Lions used a strong defense and two big plays on offense to defeat the Badgers.

Friday the Lions travel to Seagraves to play the tough and undefeated Eagles. The Lions will leave about 1:30 p.m. from Ozona or as soon as the pep rally is over. Ozona football fans are urged to follow the Lions to a good game with the number one rated Class A team in the state.

The rough, aggressive, defense game was filled with penalties as Ozona was flagged 12 times for 120 yards and McCamey several times for 70 yards.

The Lions jumped on top 14-0 in the first quarter when Blake Moody took a pitch out and circled end for 25 yards and the touchdown. Moody kicked the point after to put the Lions in front to stay. Ozona's second scare came moments later as defensive end Joey Borrego picked off a Badger lateral and raced 46 yards for the touchdown. Moody converted.

The game settled down to a defensive struggle until midway in the second quarter, then lightning struck the

Badgers again, as Dan Sewell threw a swing pass to Cruz Garza with 12 tackles and Randy Allen with 12 tackles. Joey Borrego recovered the three fumbles and intercepted a lateral for a touchdown. Jim Sosa recovered a fumble.

The offense was led by Moody with 57 yards on 14 carries, one touchdown and three PAT's. Moody also punted 7 times for a 31.5 yard average. Joey Borrego had 20 yards on 6 carries, Cruz Garza had only 3 yards rushing, but caught a pass for 56 yards and a touchdown. Dan Sewell completed one out of five passes for 56 yards and a touchdown.

The Lion defensive chart was impressive, as the Badgers ran 69 offensive plays to Ozona's 40, forcing the Lion defense to do most of the work for the mighty. The defense was led by Joe Rebelez with 15 tackles and 2 fumble recoveries, Doug Bean with 15 tackles and a fumble recovery, plus a pass

interception for a touchdown; Blake Moody with 14 tackles, Cruz Garza with 12 tackles and Randy Allen with 12 tackles. Joey Borrego recovered the three fumbles and intercepted a lateral for a touchdown. Jim Sosa recovered a fumble.

The offense was led by Moody with 57 yards on 14 carries, one touchdown and three PAT's. Moody also punted 7 times for a 31.5 yard average. Joey Borrego had 20 yards on 6 carries, Cruz Garza had only 3 yards rushing, but caught a pass for 56 yards and a touchdown. Dan Sewell completed one out of five passes for 56 yards and a touchdown.

Mr. Jones Services In Fort Worth

Funeral services for Marion T. Jones, father of a former Ozonan, were held Friday morning at 11 o'clock in Greenwood Mausoleum in Fort Worth with burial there.

Mr. Jones died Thursday in a Fort Worth hospital. Survivors include his wife, Rose, of Fort Worth; a daughter, Charlotte Montgomery, of San Angelo formerly of Ozona, and two grandchildren.

Ozona Girl Dies Of Suffocation

An autopsy is being performed on an 18-year-old Ozona woman who died at her apartment on Ave. J here early Saturday morning. Cause of death was given as suffocation, but results of the autopsy should reveal the cause.

Dead is Kathleen Dunlap Wood. Funeral services were held at 2 p.m. Tuesday in Junction. She was born Nov. 10, 1958 in Odessa and had lived in Ozona about a year.

According to an overnight visitor, Joanna Daniels, Ms. Wood was in her bathroom about 6 a.m. when she began calling for help. Miss Daniels ran next door to call the ambulance and when attendants arrived they found Ms. Wood dead. Miss Daniels said the dead woman had smoked a marijuana cigarette and sniffed a spray cooking oil the night before, according to Deputy Sheriff Grady Campbell.

Survivors include her parents, Mr. and Mrs. John D. Dunlap of Junction; one sister, Jane Woodall of Odessa, and two brothers, David Dunlap and Paul Dunlap.

Multi-Million Dollar I-10 Bids To Open

Bids for the construction of an 8.9 mile segment of Interstate 10, including a new bridge across the Pecos River, are expected to be opened at the October 12-13 letting of the State Department of Highways and Public Transportation.

The multi-million dollar project, which extends from the Pecos River to a point 0.15 miles east of Live Oak Creek, is the most costly project ever contracted in the department's San Angelo District.

It includes construction of the Pecos River Bridge, as well as grading and structures of a section of I-10, all on new location. The project is the first stage of several stages of construction on this section.

More than 2½ million cubic yards of excavation are involved in the project. The terrain varies as much as 400 feet in elevation within the project limits and the depth of excavation extends to 150 feet in some places.

W.F. Dixon of Ozona, the department's engineer in charge of the work, estimates that about 550 working days will be required to complete the project.

Overall project supervision will be supplied by San Angelo District Engineer D.R. Watson.

New Election Set For Dec. 10-----

Federal Court Orders New Election In Prec. 1 & 3

Final judgment has been entered by the United States District Court for the Northern District of Texas in the civil action brought against Crockett County, county judge and commissioners and others by Hector DeHoyos, Robert Flores, Jessie Fierro, Jesus Castro as a class action contesting the elections of 1976, and declaring the elections illegal and the offices of county commissioner for Precinct 1 and 3 vacant and ordering an election to fill the vacancies on December 10, 1977.

In a lengthy preamble declaring itself as having jurisdiction, the U.S. as an intervenor as plaintiff, that the defendants are county officials, that the voting changes of 1972 and 1974, (redistricting) are subject to the preclearance requirements of the 1965 U.S. voting rights act and that the county did not comply with the preclearance requirements of the act and held:

1. That the reapportionment plan of Crockett county adopted on August 12, 1974, is legally unenforceable since it has not received Section 5 (of the Voting Rights Act) preclearance.

2. That notwithstanding the fact that the voting change occasioned by the reapportionment has not met the preclearance requirements of Section 5, the defendants implemented the plan in primary elections May 1, 1976 and June 5, 1976, and in the general election November 2, 1976 for the offices of members of the Commissioners Court from Precinct 1 and 3.

3. That because the offices of members of the Commissioners Court for Precinct 1 and 3 were elected pursuant to a legally unenforceable reapportionment plan, they are declared vacant and new elections are ordered to be held under the plan of apportionment in effect as of Nov. 1, 1972, according to the following schedule marked Exhibit A. (attached) The precinct lines of 1972 apply to this election only.

4. That the defendants are enjoined from implementing Ray Borrego Injured In Auto Wreck

Ray Borrego, 20, of Ozona suffered facial lacerations Saturday night around 9:30, when he missed the curve just north of Ozona on highway 163, and skidded off the road into rocks and trees in a pasture.

The accident was investigated by Trooper Joe Miles, DPS.

Dr. Carlisle Elected Pres. MH Group

At a meeting of the Federal Health Planning Agency in Sonora Monday, Dr. Don Carlisle was elected chairman of the Concho Valley Mental Health and Retardation task force.

The purpose of the task force is to help establish better health care and health care facilities for the treatment of drug abuse, alcoholism, and other problems affecting mental health and retardation.

The next meeting of the Federal Health Planning group is scheduled for October 20, at 7 p.m. at the Hotel Cactus in San Angelo. The meeting is open and persons interested in improvement of health care in general or specific problems are urged to attend or contact Dr. Carlisle.

any reapportionment plan or other voting changes unless and until the voting change has satisfied the preclearance requirements of Sect. 5. Schedule A outlines the provisions for the absentee voting by mail and in person and sets the date of the first election for December 10, 1977, from 7 a.m. to 7 p.m. The county judge is required to issue a writ of election on or before Nov. 21, 1977 and notices of the election posted at the courthouse on or before Nov. 18, 1977. Candidates may qualify from the day following date of the order until 6 o'clock p.m. on the 8th day of Nov. 1977.

The schedule orders that the Commissioners Court shall canvass the returns and declare the election results not later than Dec. 12. "If one person has received a majority of the votes cast at the election, the County Judge shall immediately make out, sign and deliver a certificate of election to him for the unexpired term of the office for which he was a

candidate. If no candidate receives a majority of votes cast, there shall be a second election on the 7th day of January 1978, and the Commissioners Court shall immediately after the canvass of Dec. 10 election certify to the county clerk the names of two candidates who are eligible to participate in the second election. Detailed specifications for absentee voting etc. are contained in the section and declares that any person who shall receive a certificate of election from the county judge shall take and assume office immediately upon receipt of such certificate.

The order concludes with a provision that the defendants shall publish a map of Crockett county in the county newspaper not less than 40 days prior to the election, setting out clearly the boundaries of the plan of apportionment for the election provided in this order, along with a notice setting out the provisions of this order in full.

Scorches In Heat Crockett County

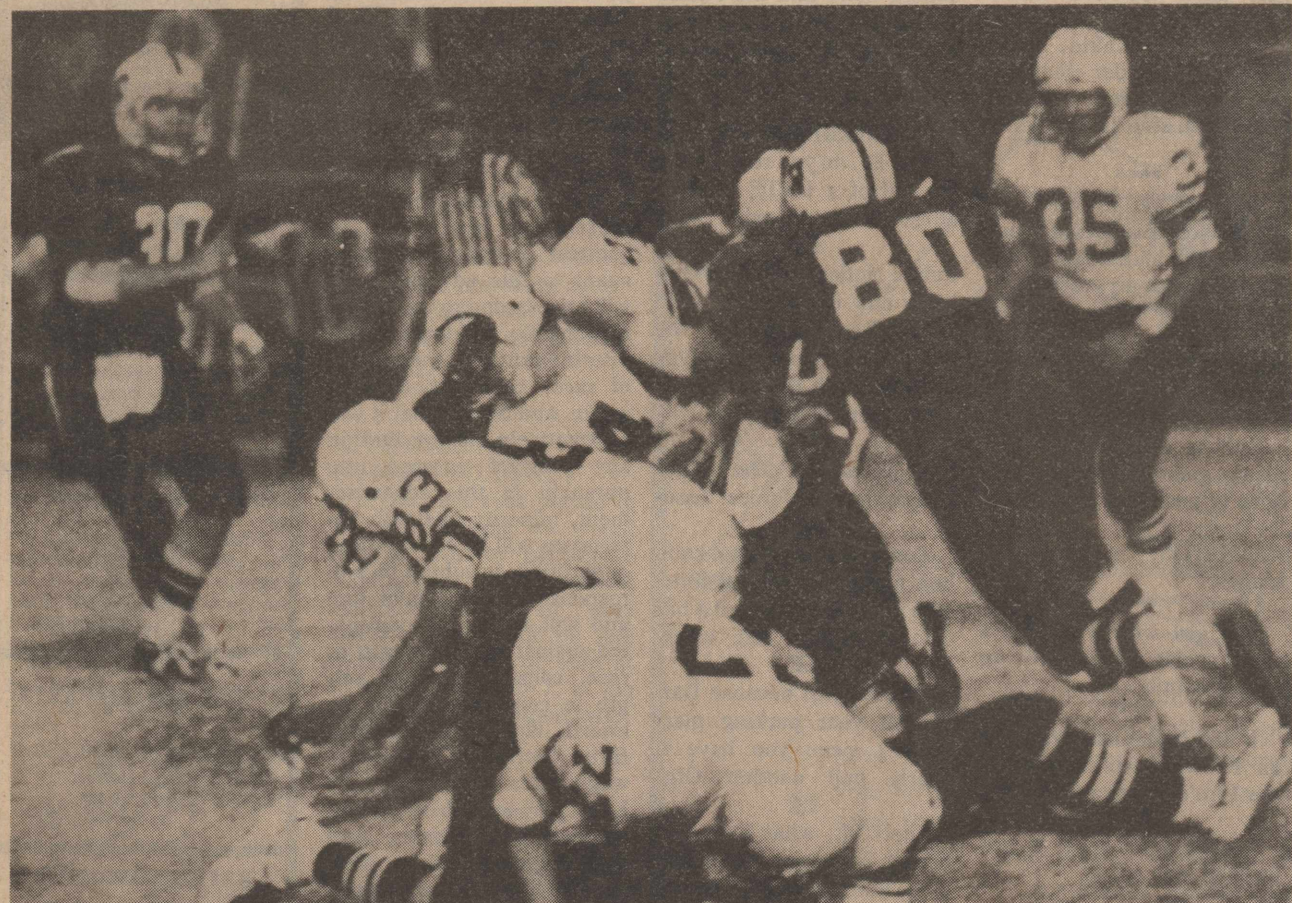

Of most concern to Crockett County residents this week is the fierce heat and complete lack of even cloud cover to blunt the discomfort. However, Crockett County is not alone in it's misery. The unseasonably hot weather covers West Texas in it's entirety and with the exception of the Panhandle takes in most of the state.

Heat records have been broken all over the place with Junction reporting in as the hottest spot in the nation Monday with 108 degrees. Temperatures of above 100 degrees were common in the state over the weekend and Monday the temperature in Ozona had topped the 100-degree mark by 4 p.m. Sunday's high temperature here was 103. Records for the season were broken in San Angelo and Midland. Monday was the hottest day for Sept. 26, in San Angelo and Midland. Monday was the hottest day for Sept. 26, in San Angelo since the same date in 1953. Heat records have been broken all over the state the past few days and although fall officially arriv-

ed last Friday, there was no indication that the weather was going to get cooler. Weather Bureau spokesman predicted the heat would continue at least through Saturday.

While Texans scorched in the heat, most of the rest of the nation enjoyed cooler than normal temperatures and some moisture reported in all but the southwestern tier of states. So far this month isolated thundershowers have brought a total of .30 of an inch of rain to parched Ozona. Some areas of the county have tallied a little more rain, but not enough to begin to blunt the range fires which have plagued the county this hot, dry summer. The lack of rainfall has contributed to the record heat.

Firemen had a brief respite from fire fighting over the weekend, but were called to the Rocker B ranch near Big Lake Monday at mid-afternoon to assist with a grass fire, at the time the temperature was 100 degrees in the shade in Ozona. The heat has set new records for the season in Ozona every day since Friday.

THE OZONA LIONS RAN INTO SOME of the toughest defense they have faced while hosting McCamey here Friday night. However, with the help of their own tough defense, they took a 27-2 victory over the Badgers. Two

Ozona touchdowns were contributed by the defensive unit, both on pass interceptions. The Lions will play Seagraves, the #1 state rated Class A team, Friday night in Seagraves. (Photo by Joel Sanchez)

FIGURES DON'T LIE-Fall came to Ozona Friday in official capacity only. Temperatures of over 100 degrees appeared regularly on the bank sign through Tuesday. It was almost like clock-work, as the sign flashed 4 P.M., the temperature rolled over to the 3-digit mark.

LETTERS TO THE EDITOR

Dear Editor:

Let it be known that the following statement is of my own (Alfred S. Garza) Personal views and opinion and does not in any way or form involve, perpetrate, obligate or bind the Government of the United States, the United States Government Printing Office or it's field offices throughout the Nation or any part thereof, with whom I have the pleasure of being associated.

First, I want to compliment Ms. Kitty Montgomery for her news articles and especially for her news column "Kitty's Korner". Ms. Montgomery, I think your column is frank, independent, and a good healthy dispatch for Ozona citizens. I often wondered after working 15 years with the Ozona Stockman what would become of the newspaper without the old pro W.E. White around. Well, if I may say so, you've carried the ball very well. Permit me to wish you a successful future.

On my 28th year I left my place of birth, Ozona, Texas, for Washington, D.C., on a Federal Government opportunity. It was not an easy decision to make, no indeed, but I cannot say that I am sorry either.

Since 1959, I have kept a close surveillance of my home town, not just because I wanted to, but because it is my home and I remain with deep interest for the Big "O". I shall return.

In recent years, I think all of us have read, seen or experienced the confused changes throughout the world. The complexity of present laws most certainly are not in unison with what we would like the world to be. It is certain that if we try to honestly comprehend and recognize the ungovernable changes happening elsewhere where we would be better equipped to deal with our own situations.

On reading the last two issues, September 1st and September 8th, of the Ozona Stockman, the Kitty's Korner column, and the guest editorial by W.E. White, I see that the dogmatic political analogy of other towns and cities have spread to our home town. Like Mr. White says in his editorial, I too did not expect this to infect my home town. But it is here and must be dealt with.

Being an Ozonan, it is inconceivable to me that the good people of Ozona, whom I know, would permit such actions to be taken by elected county officials. I kept telling myself that perhaps this was an oversight and the citizens would come to their senses before some county official got out of hand. But when some of the same officials were re-elected, that surely put a serious thought in my mind and I could no longer efficiently analyze the situation.

Re-election of these county officials empowered them with the trust of the county, perhaps they thought. Saying nothing of the inequitable expense imposed on county citizens from their past actions, we are now

dealing with an ill-fated circumstance.

For 15 years Evart White and I worked jointly to supply the town's people with news through the good old Ozona Stockman. During this time we would frequently discuss politics. In our discussion it was not frequent that we agreed on issues. But we never came to blows or raised our voices at each other. Whether we agreed or not it was personal opinion at play. Never did we suggest issues that would abase the people, county officials or the county itself.

I respect Mr. White's opinions, on local, national and world-wide issues regardless of his party affiliations. For the first time that I can remember, I am in total agreement with his views and opinions stated in his guest editorial in the local paper on September 8, 1977.

Mr. Al Fields, whom I have known almost all my life, should be a very proud man. It is not everyday that so many good people will fully place their trust on an individual. That the commissioner's court failed to honor the will of the people is not in anyway something for him to be ashamed of. Abbreviation of their political ambitions is sure. When elections come, I'm sure the county voters would not have forgotten.

It is clear that all political posts are to serve their electors, town, cities, etc., why then does the commissioners court without any reasonable and justifiable explanation knowing about the town's wishes willfully acted to the contrary.

The county does not pay taxpayers money to any of it's servants to become the boss of it, but to serve it, and it is the will of the people. The county judge being the advisor to the commissioners court, should allow no vacillating nor permit abasement of the local political statute. Mr. Jones now has the responsibility. Let's hope that he will not be timid to the alien ways of the commissioners court.

In conclusion, it is my opinion that the commissioners who willfully voted against the will of the voters or collaborated to accomplish same in the recent appointment for Crockett County Judge, should resign from their elected post.

There will be no place in all Crockett County they can go that they won't meet with one of the disappointed 695 Orphan voters.

PHONE NEWS TO THE STOCKMAN.

VILLAGE SQUARE

PICKED IT UP ON THE WAY - GONNA DO SOME HOME REPAIRS TONIGHT... NOW WHERE'S THAT SICK HUSBAND OF YOURS..?

AUSTIN—Angry farmers marched—or drove—on the state capitol last week, protesting low prices for their products.

Their trucks and tractors roared up Austin's broad Congress Ave. More than 300 attended a rally on the state capitol steps to hear the farmers complain of a price squeeze which is driving many off the farm.

They got a sympathetic ear from Gov. Dolph Briscoe, House Speaker Bill Clayton and Agriculture Commissioner Reagan V. Brown.

"American agriculture is one of the greatest success stories of the world," Briscoe told the unhappy farmers. "Unfortunately, it is not a success story for the individual farmers and ranchers."

Ron Butler of the rally-sponsoring Texas Farmers Union said farm prices are worse than they have been since the great depression of the mid-30's.

Butler said the demonstrating farmers are trying to make people aware that their sources of food may be in jeopardy.

Brown called for a new national food policy that "does not change with each change in administration."

Briscoe, Brown and Clayton met privately with Farmers Union leaders to plan a push for food policy.

Farmers Union President Jay Naman said a nationwide farmers' demonstration is planned in Washington—where it may do more good.

Democrats to Meet

Key state and national Democratic party groups will hold meetings in Texas next month.

The Commission on Presidential Nomination and Party Structure will convene here October 5 for a hearing on its proposals for Democratic delegate selection.

October 22, the State Democratic Executive Committee will meet in Amarillo to review a dozen state party rules change recommendations.

Recommendations before the national group (known as the Winograd Commission) may prove controversial. Critics claim they tend to move back toward the winner-take-all system for presidential preference primary delegate elections.

PUC Collects \$9 Million

The Texas Public Utility Commission collected more than \$9 million in gross receipts assessments for fiscal 1977—a 38.75 per cent increase over 1976.

Largest amounts paid were Southwestern Bell Telephone Company, \$2.8 million; Houston Lighting and Power, \$1.4 million; Texas Utilities Company, \$1.8 million; Central and Southwest Corporation, \$888,854 and City Public Service Board of San Antonio, \$371,711.

PUC is authorized to collect one-sixth of one per cent of gross receipts for all utilities within its jurisdiction. The commission budget for utility regulation is \$3.8 million for fiscal 1978 and \$3 million fiscal 1979.

Courts, Attorney General Speak

Top state appellate courts refused to stop Lo-Vaca Gathering Company from shutting off Crystal City's gas supply due to non-payment.

The Court of Criminal Appeals upheld a 10-year prison sentence of a Fort Worth man for rape of a mentally-retarded 49-year-old woman who could not speak.

A 50-year sentence for murder in Sinton was reversed and sent back for new trial on grounds the indictment failed to specify the weapon used.

An Ellis County man got a new trial on a pistol packing charge because the trial judge accepted his relinquishment of the right to have a lawyer.

A new trial was granted a Jefferson County man for striking an officer because the trial judge did not hold a hearing on his competency.

County commissioner can force real estate developers to comply with county road standards even if they do not file plats and even if they disclose roads are not maintained by the county, Atty. Gen. Hill said.

In other recent opinions, Hill concluded:

A city council can establish the office of city fire marshal with full subpoena powers to carry out duties. The state fire marshal also may delegate his subpoena powers to the city marshals on a case-by-case basis if he is unable to conduct required investigations in person.

A sheriff or constable may not recover the costs of postage in addition to fees when service of citation is sent by mail.

If under established policy prior to Sept. 1, 1975, faculty members did not accrue sick leave, a university is not required to compensate a separated employee for such leave on termination. Whether such policy was in effect is a question of fact.

Circulation of a "known shoplifters" list by retail merchants would not violate penal law but might give rise to civil damage suits for libel or invasion of privacy if false.

Assorted Short Snorts

Jerome D. Chapman is new Human Resources Commissioner heading welfare operations.

Austin businessman Lowell Lebermann announced he has decided against running for state treasurer in 1978.

Secretary of State Mark White Jr., due back from a Puerto Rico convention trip this week, is expected to announce for attorney general soon.

After counting more than 220 ballots Thursday, Chesta Stuart was the winner of the first "Teacher of the Month" contest.

Mrs. Stuart teaches English III and IV, English Communications, and is also a Junior sponsor and Year-book Advisor. She graduated Cum Laude from Ozona High School in 1970. She was active in band and was chosen sweetheart in 1970. She was also on the annual staff and in student council. She attended ASU and graduated in 1973. In 1974, she taught sophomore English at Lakeview and was "Teacher of the Year".

Chesta is married to Greg Stuart and they have a 20-month old daughter, Shelby, who attends every pep rally. The Stuarts' have a dog named BJ and a cat Diz. When asked what her favorite food was she answered, "Anything to eat."

Mrs. Stuart presented a red rose (which is her favorite flower) Friday during the pep rally by the Lions Roar Staff. She also received a Teacher of the Month certificate for September.

4-H Adult Training Workshop

Have you heard about the "4-H Home Economics Extravaganza" which will be held at the Texas 4-H Center near Brownwood on October 11-13? County Extension Agent Debra Price says "This 4-H leader training workshop will give 4-H adult volunteers a unique opportunity to gain new knowledge and skills in areas related to all 4-H home economics projects."

Concurrent subject-matter sessions will be offered by Extension Specialists including: Clothing's optical illusion, personality development, energy mysteries, metric's in the kitchen, and creative home decoration. General sessions will include a fashion show, cooking with a wok, a Rodeo Omelet Rodeo dinner, and special awards.

For further information and application forms, contact Debra Price at the Crockett County Extension Office located top floor of the courthouse annex or call 392-2721.

Public Notice

CONTRACTORS' NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 8.887 miles of Grading - Structures from Pecos River to 0.15 miles E. of Live Oak Creek on Highway No. IH 10, covered by I 10-3(39)328 in Crockett County, will be received at the State Department of Highways and Public Transportation, Austin, until 9:00 A.M., October 13, 1977, and then publicly opened and read. THIS CONTRACT IS SUBJECT TO THE WORK HOURS ACT OF 1962, PL-87-581 AND IMPLEMENTING REGULATIONS.

The State Department of Highways and Public Transportation, in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252) and the Regulations of the U.S. Department of Transportation (15 C.F.R., Part 8), issued pursuant to such Act, hereby notifies all bidders that it will affirmatively insure that it will affirmatively insure that in any contract entered into pursuant to this advertisement, minority business enterprises will be afforded full opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds or race, color or national origin in consideration for an award. Plans and specifications including minimum wage rates as provided by Law are available at the office of W.F. Dixon, resident engineer, Ozona, Texas, and State Department of Highways and Public Transportation, Austin.

Energy Efficient Appliances

To produce more energy efficient appliances—that's industry's top priority, according to Dr. Carolyn McKinney, family resource management specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Industry constantly is being challenged to produce appliances with performance, dependability and features to meet consumers' changing needs, Dr. McKinney says.

The Energy Policy and Conservation Act of 1975 requires that by 1980, appliance efficiency be improved by 20 per cent. The Commerce Department proposes that manufacturers sharply reduce energy consumption on some appliances.

For example, they ask a cutback of energy consumption on freezers by 25 per cent; on refrigerators by 30 per cent; on room air conditioners by 22 per cent; on gas water heaters by 25 per cent; on black and white televisions by 48 per cent and on color televisions by 42 per cent.

However, industry's new designs in energy savers will carry higher price tags, and consumers will be wise to base decisions on purchase price, operating costs, and the overall lifetime cost of appliances, the specialist says.

PERSONALS
Mr. and Mrs. Kip Nicholas and son, Cliff, have been here visiting her parents, Mr. and Mrs. Charles Applewhite. They are in the process of moving to Houston from Sumatra, where he is being transferred by an oil company.

ALL NEW ELECTRIC MACHINES greeted high school typing students this year. Before school started all the manual typewriters were replaced with modern IBM Selectric models. This will enable the good student typist to go immediately into a typing job without having to train on an electric machine before getting a job. This is Mrs. Tallaferra's Typing II Class.

Help Minimize Stress By Career Planning

Help minimize stress by career planning, urges Debby Johnson, family life education specialist with the Texas Agricultural Extension Service, the Texas A&M University System. "Not all stress is bad, of course," says the specialist, "but prolonged periods of distress can be harmful."

Plan to like the work that will occupy you from eight to five for the next forty to fifty years, the specialist says, and that alone will alleviate distress. To avoid work-related stress, which often leads to illnesses, Miss Johnson recommends that you try to find the kind of work that is "play" for you.

The ideal job is one the worker is proficient and skilled in, but of equal importance is that the work be enjoyable. Another consideration is the importance of the job. People need to be recognized for accomplishment. Belittling and negative

response can make any work situation a source of stress. A job which engenders unhappiness causes wear and tear on the body that is often mistaken for signs of aging.

Workers sometimes continue in a job year after year, unhappy all the while, even though financial security may not be the reason. It may be the worker's dedication to the Protestant "work ethic," which holds that:

--work is good, idleness is bad.
--too many holidays mean that nothing gets done; only by steady work can we build a great nation.

--work remedies loneliness, grief and disappointment.

--non-workers are misfits. This work ethic is at least partially responsible for locking many Americans into stressful jobs year after year. Stress cannot always be

eliminated, nor should it be, necessarily. However, by choosing the right job at first, or by changing jobs to find the right one, many can alleviate damaging work-related stress.

Salmon Romanoff Is Quick And Easy Supper Dish

Salmon Romanoff is a supper dish that can be ready to serve in a matter of minutes. Best of all, it stretches one (7-3/4 oz.) can of salmon to serve four.

Salmon Romanoff is a quick and easy supper dish to serve the family or feature when guests drop by unexpectedly.

The secret to the ease of preparation is found in the ingredients. Tender flakes of convenient canned salmon and sliced canned mushrooms are folded into a prepared package of noodles with cheese and sour cream sauce. Chopped green onion and dill add their subtle flavor and cottage cheese provides creaminess and extra nutrients.

Salmon Romanoff may be prepared ahead and refrigerated, ready to bake just before serving.

With a supply of Pacific coast canned salmon on hand, any number of tempting dishes can be prepared in a minimum of time. Highly nutritious canned salmon is an excellent source of protein and contributes numerous vitamins and minerals vital to the daily diet. These include vitamins A and D as well as niacin and riboflavin from the beneficial B group.

To meet your family's needs, canned salmon is available in a variety of can sizes, including 3-3/4 oz., 7-3/4 oz. and 15-1/2 oz. The entire contents are edible, including the liquid, skin and tiny bones.

SALMON ROMANOFF

- 1 can (7-3/4 oz.) salmon
- 1 package (6 oz.) egg noodles with Cheddar cheese and sour cream sauce
- 1 can (4 oz.) sliced mushrooms, drained
- 1 cup cream style cottage cheese
- 3 tablespoons chopped green onion
- 1/4 teaspoon dill weed

Flake salmon. Prepare noodles according to package directions. Combine prepared noodles with salmon, mushrooms, cottage cheese, green onion and dill. Spoon into buttered 1-1/2 quart casserole. Bake in a 350-degree oven 20 to 25 minutes. Makes 4 servings.

Divorcees Seldom See Ex-In-Laws

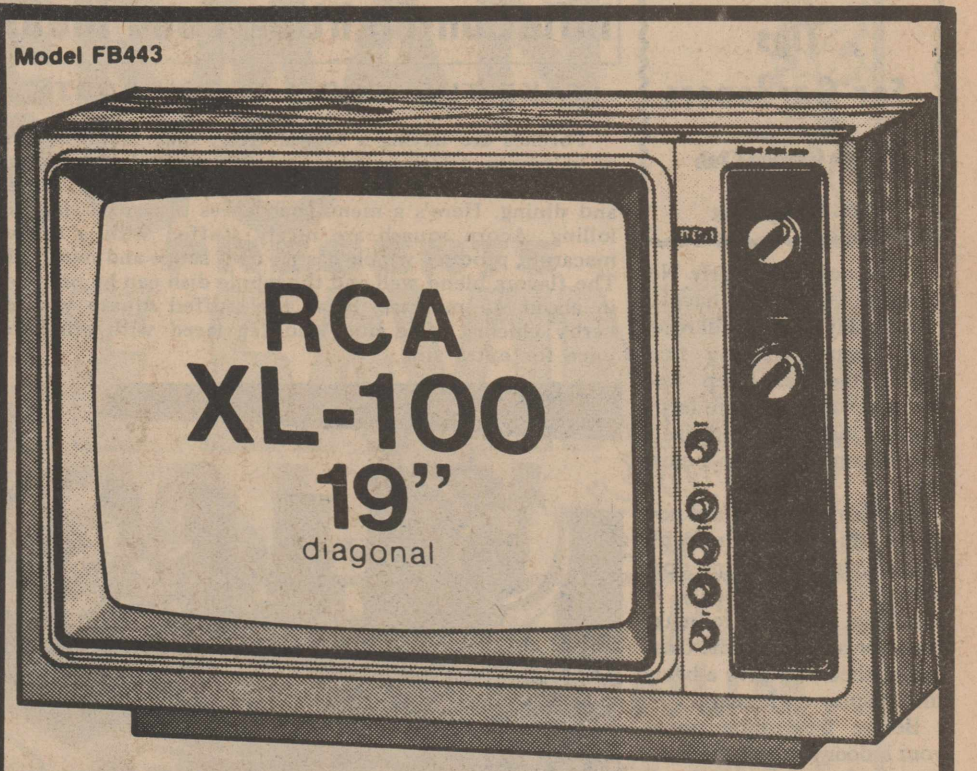

Divorced and remarried women see little of their ex-in-laws, reports Debby Johnson, family life education specialist, Texas Agricultural Extension Service, The Texas A&M University System.

Eighty per cent of divorced and remarried women rarely see their former spouse's family, according to a recent study, even when children are involved.

The study further indicates that the majority of remarried divorcees do not contact their former husband's family even though they may live in the same metropolitan area.

On the other hand, these same women tend to increase the number of contacts with their own family. This interaction is apparently an important source of support after a divorce.

In regard to providing help and support, divorced and remarried women rarely seek help from former kin. Remarried women, although accepted into their new spouse's family, are more likely to seek help from their own family, rather than from step-kin.

RCA 19" diagonal XL-100 color TV with new 100% solid state XtendedLife chassis

This value-priced XL-100 features RCA's new XtendedLife chassis—designed to perform better and last longer than any previous 19" diagonal XL-100 chassis. Check these important features:

- The XtendedLife chassis runs significantly cooler than the chassis it replaces—which means greater inherent reliability.
- Low power consumption—actually costs less to operate on average than a 100-watt bulb!
- Automatic Color Control keeps colors consistent from program to program, channel to channel.
- Automatic Flesh-tone Correction gives you natural flesh-tones and natural background colors side by side.
- Super AccuColor black matrix picture tube gives you brilliant color with sharp contrast.
- Automatic Fine Tuning (AFT) pinpoints and holds the correct broadcast signal on all UHF channels.
- Contemporary-styled, durable plastic cabinet with a wood-grain or brown finish.

Tips For Gardeners

From the Ozona Garden Club by Mrs. Bailey Post

From now until early November we should have a fine display of beautiful roses with deeper coloring than spring blooms. Keep well watered while buds are forming and maturing. Fertilize if you haven't done so before this.

Another colorful plant now in bloom is the queen's wreath vine. This vine does better if it has plenty of sunshine, so plan to make room for one next year. Once established they give a beautiful display each year.

Before frost time, move your indoor plants outside for two or three weeks. Apply liquid fertilizer and water to encourage growth. Place where the hot sunshine won't burn the foliage. A choice place would be beneath trees or large shrubs. Be sure to bring them in when frost is in the forecast. You may remember how very early it was last year.

Plants that have been outside all summer but need to be brought inside for the winter, should be pruned and sprayed with insecticide to avoid bringing in worms or bugs on plants. Flowering house plants bloom profusely if their roots are slightly crowded. Repot in larger pots only the plants that were pot bound last winter.

If no rain comes soon your shrubs and trees should be watered deeply every two weeks to help fill the cracked soil around them and retain energy for winter.

Now is the time to fertilize your lawn if this has not already been attended to. This will give the roots a new boost before the cold weather starts in. Do water well and deep until a good soaking rain falls. Use 10-10-5 or 16-8-8 fertilizer.

Inflation-Fighting Food Ideas

TAKE TIME FOR A PORCH PARTY

Porches are having a revival. They may take the form of balconies, patios or terraces, but more and more people are taking to their own out-of-doors for reading, resting and dining. Here's a menu that leaves plenty of time for lolling. Acorn squash are nicely stuffed with a canned macaroni product which has its own sauce and meatballs. The flavors blend well and the whole dish can be prepared in about 45 minutes. Serve the stuffed squash with an herby chicory salad and iced tea laced with cranberry juice for extra zing.

STUFFED SQUASH

- 2 acorn squash
- 1/2 cup chopped onions
- 1/2 cup chopped green peppers
- 3 tablespoons butter or margarine
- 1 can (15 oz.) Chef Boy-Ar-dee® Meatball-A-Roni® (macaroni with meatballs in tomato sauce)
- 1/4 cup crushed pineapple

Cut acorn squash in half, lengthwise. Remove seeds. Blanch in boiling water for 10 to 15 minutes. Remove most of pulp leaving about 1/4" to 1/2" of shell. Dice pulp. Sauté onion, green pepper in butter. Add Meatball-A-Roni and pineapple. Stuff each squash with Meatball-A-Roni mixture. Cover with aluminum foil. Bake in preheated oven, 375° F. for 25 minutes. Serves four.

Others present were Mrs. Hugh Childress, Mrs. George Bunker, Mrs. Fred Hagelstein, Mrs. Madye Jo Humphreys, Mrs. Huey Ingram, Mrs. Ralph Jones, Mrs. Vernon Jones, Mrs. L.D. Kirby, Mrs. Arthur Kyle, Mrs. R.M. Owensby, Mrs. Arthur Phillips, Mrs. C.O. Spencer, Mrs. W.T. Stokes and Mrs. Bonnie Warth.

Woman's Forum Meets
The setting for the Ozona Woman's Forum was the gracious home of Mrs. Lowell Littleton, where a distinguished guest and members of the Forum met Tuesday afternoon.

Local president, Mrs. Kirby Moore, introduced and welcomed the Heart of Texas District President Mrs. John P. Ward of San Angelo, who after the social hour and refreshments served by Mrs. P.L. Childress and Mrs. Marshall Montgomery, spoke on Federation at State and National level, and brought new ideas, especially in aiding the handicapped, and safety news.

Members brought wigs and a wide variety of books to be used at the M.D. Anderson Hospital in Houston. The wigs to be for those receiving chemotherapy.

Debra Says

by Debra Price

"CHEESE" MAKES YOU SMILE

Smiles should be plentiful this fall if demand for cheese matches the heavy output of supplies. The U.S. Department of Agriculture (USDA) is encouraging consumers to make good use of abundance of milk and dairy products.

Cheese accounts for the use of almost one fourth of U.S. milk production. American and Italian varieties summon the greatest demand. USDA's Agricultural Marketing Service expects commercial stocks of cheese to increase as excess milk supplies are converted into dairy products.

You can keep your "stocks" of cheese at their best by following these hints. Keep all natural cheeses refrigerated. Soft unripened cheeses, such as cottage, cream or Neufchatel, are perishable and should be used within a few days after purchase.

You can hold ripened or cured cheese for several weeks if it is stored in a refrigerator and is protected from mold contamination and drying out. Leave the original wrapper or covering on the cheese if possible. Cover the cut surface with wax paper, foil or plastic wrap.

Oct. Social Security Visit Set

Peter Gonzales, social security representative for the San Angelo Social Security Office, has scheduled his October visit to Ozona. He will be at the County Courthouse on Wednesday, October 19 from 2:00 p.m. to 3:00 p.m.

Anyone who wants to file a claim for benefits, get information, or transact other business with the Social Security Administration may contact him at this time. Persons who are unable to meet with him are encouraged to call the office in San Angelo.

SOUTH TEXAS LUMBER

If you wish to store large pieces for an extended time, dip them in hot paraffin. Rewrap small pieces.

Don't let the mold that sometimes develops on natural cheese worry you. It is not harmful and is easily scraped or cut from the surface of the cheese. Some cheeses, such as Blue, Gorgonzola, Roquefort, or Stilton contain a carefully distinctive flavor. That mold is consumed as part of the cheese.

You can even use ends or pieces of cheese that have become dried out and hard as a garnish or accent. Simply grate and keep refrigerated in a clean, tightly covered glass jar until you are ready to use them.

Normally freezing cheese damages its characteristic body and texture and causes it to become crumbly and mealy. However certain varieties, when properly prepared, may be frozen up to 6 months. Small pieces, 1 pound or less, not over 1 inch thick, carefully wrapped in foil or moisture proof freezer wrapping can be frozen.

Press wrapping paper tightly against surfaces to eliminate the air and to prevent evaporation. Then place quickly in freezer at temperature of 0 degrees. Thaw frozen cheeses in refrigerator before serving.

When properly stored and handled, these varieties can be successfully frozen: Brick, Cheddar, Edam, Gouda, Muenster, Port du Salut, Swiss, Provolone, Mozzarella, and Camembert.

- CHEESE LASAGNE**
8 ounces Lasagne Noodles, or any wide noodles
1 8-ounce can tomato sauce
1 1/2 cups cottage cheese
1/2 teaspoon basil
1 teaspoon salt

- 1/4 teaspoon Worcestershire sauce
1/4 cup finely chopped onion
1/4 pound processed American cheese, thinly sliced
2 tablespoons grated Parmesan or Romano cheese
1/2 cup buttered bread crumbs

Cook noodles in boiling salted water until tender; drain and rinse. Mix tomato sauce with the cottage cheese, basil, salt, Worcestershire sauce, and onion. Arrange alternate layers of noodles, American cheese and sauce mixture in greased 2 1/2 quart casserole. Top with crumbs mixed with grated cheese. Bake in 375 degree oven about 25 minutes. Makes 4 servings.

"The Word and Music"

A UNIQUE WAY TO CHALLENGE YOU WITH SOME REALLY GOOD NEWS. A RADIO PROGRAM THAT IS TIMELY, THOUGHT PROVOKING EACH SUNDAY.

STARTS SUNDAY, OCT. 9

8:30 A.M.

"The Ability To Love"

Produced by Ozona UMC, in cooperation with KRCT- 94.3 F.M.

BELLS AROUND THE WORLD

The Indians could send a rallying call many, many miles by drums. Each drummer, stationed on a lonely ridge, would listen for the sound of distant drums, and relay the message to others waiting across the valley. Overnight a dozen tribes could be rallied to a common cause.

We don't need such crude methods of communication today. Men with a common purpose can join forces around the world at a pre-arranged time.

World Wide Communion Sunday is such an expression of unity. In every Christian land the church bells will summon men and women to the Lord's Supper on this Sunday.

And the universality of this great religious event will not depend on bells relaying the message from town to town. It will depend on folks like yourself coming to their Church to receive this Holy Sacrament.

Concho Valley Home For Girls Offers Assistance

In any community there are young people who suffer from abuse, neglect, or lack of supervision. There are children who are under unbearable emotional pressures from problems in their families over which they have little control. Several facilities are available for boys and young men in the area; there has never been a place in the Concho Valley offering to help girls. The need was so great that it had to happen.

Concho Valley Home for Girls became a reality in July 1973. Research revealed that some 200 girls a year from Tom Green County alone were referred to a social agency. Many of these girls possess the potential to remain or to become responsible members of society...if given the opportunity to develop normally, with proper supervision and encouragement. Most girls can remain in their own home, but some need another place to live, away from their home.

The Concho Valley Home for Girls, created to meet that need, can accept up to seven girls between the ages of 10 and 18 years. The Home is located in San Angelo, but it is not simply a place for San Angelo girls. It is for the Concho Valley area—all fourteen counties. At all times since it first opened its doors, several of the girls have been from one or more of the counties other than Tom Green.

As the name implies, it is a home. The girls are not crowded into dormitories where a harassed couple must care for from 12 to 24 girls screaming in their own agonies. Meals aren't served down a cafeteria line. Each girl is one among seven with a caring couple for house-parents who have the time and energy for her needs—a quick shopping trip, play practice after school, a ride to the ballgame. She has a bedroom that she shares with one and can decorate to her own tastes. She does her own laundry. She has a trained

staff on standby to help her resolve her problems. She is in the same geographic area where her friends and relatives can visit. She has a new home—and a new chance on a life that was headed for a dead end.

The existing home is full and stays full, except for an occasional interim vacancy. Many requests are turned down for lack of space. What's happening to those girls?

After careful consideration, the Board of Directors of the Home has decided to expand, to open another home. Not to make the existing home larger, which would defeat its purpose, but to create another home to help another seven girls.

Support for the current home is through the Tom Green County United Way and volunteer contributions. It is not funded through any federal grants.

Your help is badly needed. It's going to take a great deal of money to get another home going—probably \$100,000. That's astonishing, isn't it? But it must be done.

The Home must rely on the generosity and good will of the communities if they are to continue to provide an alternative to undesirable family situations. The Home can continue and grow only if private citizens take an interest in the effort, contributing time and money for the benefit of the girls.

Won't you be a part? If you or your organization wishes to help or needs more information, please write: Sammie Ruppeck, Concho Valley Home for Girls, Box 3772, San Angelo, Texas 76902, or call 915-896-2467 or 915-655-3821.

Charles Blondin crossed Niagara Falls on a tightrope several times, including blindfolded, on stilts, in a sack, pushing a wheelbarrow, carrying a man and even stopping to cook and eat an omelet.

Working Girls Influence Shopping

Working women are influencing the clothing industry reports Marlene Odle-Kemp, clothing specialist.

Shopping habits—and therefore merchandising methods—are influenced by the fact that more women have gone to work outside the home. Families with less time for leisure may spend less time in comparison shopping.

Busy families are buying their clothes at large department stores that offer variety. One-stop shopping is growing more popular, the specialist says.

Merchandising that caters to men now focuses on the new pattern: men may be doing the family shopping now that working women have less leisure time.

Generally, a woman's wardrobe needs change when she goes to work outside the home. She concentrates on quality in clothing. She wants durability, easy care and inexpensive maintenance, and good looks in the family's clothing.

She looks for name brands she can identify with and rely on, the specialist says.

LETTERS TO THE EDITOR

To The Editor:

Concerning the state of affairs, in Crockett Co. Govt., as expressed, in recent articles and "Letters to the Editor" appearing in the Stockman, one would be led to believe that Ozona was within the city limits of Sodom or Gomorrah.

I have never written a letter to an editor, nor have I ever expressed my opinion in print, however, after the past few weeks of reading only one side of the page, I think it's time to look at the other side. The flipside is not necessarily a direct contradiction, but an appeal to the "other writers" to consider some plain common sense.

I consider Al Fields a past, present, and I hope a future friend. This is written entirely without a hint of discrediting Al's personal character or professional ability. However, more to the point; that is considering the 'Principle' of the whole controversy.

The simple fact is: Johnny Jones was appointed, instead of Al Fields, to fill the unexpired term of County Judge, vacated by Troy Williams. This action, by the Commissioners Court, placed quite a sand burr under certain people and they lost no time in whining and crying about it publicly and in print. Their emphasis is that approx. 700 citizens signed a petition favoring Mr. Fields and that our commissioners (elected by majority vote in the Nov. election) completely disregarded the, so called, majority and wishes of county citizens. The commissioners, according to them, ran roughshod over the county, while saying, "Well, I guess they know who's running things up here now."

Let's get back to the 700 petitioners, who seem to be the main hub of their dissatisfaction. I wonder if it ever occurred to them that another 700 might have had the opportunity of signing,

but declined? What if 1400 had access to the petition, but refused to sign? Not because of apathy or refusal of being "involved," but simply by not signing the petition, their voices rang just as loud "against" as those "for."

Mr. Victor Pierce, in his letter to the editor, (which was somewhat confusing, inasmuch as the reader had to read the entire middle half, concerning his old "axe grinding affair" with tax people), is apparently unaware of what a petition really is. It isn't very hard to understand. If you're for it, then sign it. If you're against it, don't sign it. Either way the non-signer is just as loud as the signer. I suspect Mr. Pierce knows this, even if he did publicly insult the non-signers as people afraid of being involved, and people that "do nothing." To me, it is quite evident, after reading his letter, that Mr. Pierce considers those, who do not share his opinion, as worthless "nothings." He stresses that signers of petitions are the real backbone of the community and are to be commended and praised. I wonder if he just might change his way of thinking if someone presented him with a petition of 700 names, within Crockett Co., requesting or demanding that Mr. Victor Pierce contribute every last dime he has to the "Restoration of Richard Nixon Dignity". I can only imagine what he would do with the petition.

This last bit of nonsense is an attempt to prove a point. There are good as well as bad petitions, but just because your name doesn't appear, doesn't mean you haven't seen it, nor care. It is what you decide about it-Apathy? I think not.

There have also appeared references, by previous writers, especially Mr. Evert

White, as well as Pierce, concerning poor, irrational, and unresponsive county governmental practices, by our Commissioners.

The word, unresponsive, is relative. It could mean to a friend, enemy, majority, minority, communist, Republican, one eyed dogs, or bad breath. Therefore, when Mr. White referred to our court, using this "word", I assume, he was referring to the "700" (Majority wish). Perhaps Mr. White considers himself clairvoyant, but I would like to present a rational question, Is it not conceivable possible that this might be the minority? Is the court supposed to knuckle under to every scrap of paper given them? I think the answer is obvious. As far as other controversial matters that have arisen over the past few years, involving our same commissioners and county problems, Mr. White, above all, should know that certain conditions within the county were non-existent, with the court years ago. Mr. White unfavorably compared the court of today with a court of another era. The unfairness of Mr. White's statement is ridiculous and absurd, lacking in knowledge, tact, and common decency.

Our motto: "Out in the west where the air is pure, the climate agreeable, and the people friendly, the best place on Earth to call Home."

A few people, in the county, are making a mockery of this, by prejudice and spite, perhaps downright viciousness, simply because things don't go their way. We have a new County Judge and some people are crucifying him in print. He was proven guilty, even before he took oath. Will these people give Johnny Jones a chance to accomplish what is well within his capabilities, or are they to continue throwing dirt, keeping the county in turmoil and chaos?

I think it's high time for the trouble makers, rabble rousers and such to give it some long hard thought and pull together for the good of all, or simply make the best of it and vote the way they please in the next election.

I, for one, believe we have one of the best Commissioners Courts in Texas. They are enthusiastic, active, and are genuinely concerned about Crockett Co. Above all, I am proud of them in as much as they have taken this abuse in silence. Not one retort or excuse did they publish in retaliation to their "Journalistic Bloodhounds."

Signed,
Armond Hoover, Jr.

(Ed. note: The foregoing is the first opinion we have had of its kind, written or spoken. We are glad to express everyone's views in our Letters to the Editor column. However, it must be noted that the 695 persons who signed the petition did so of their own free will and the vast majority vote in every election. The petition was not against anyone, it simply stated the wishes of those who signed. It is an undisputable fact that the commissioners did not so much as look at the second petition nor acknowledge the existence of the entire petition in any manner and this has angered the signers of the petition, not the appointment of Mr. Jones. Perhaps Mr. Hoover has found the court responsive to his needs, however, those who signed the petition found themselves completely ignored and there is little doubt that they will remember on election day.)

Dear Kitty and Willa,

You know better than I do that some days newspaper people feel so unappreciated and unread it's hard to ignore those little devil voices inside you chanting "Give it up. Give it up. Give it up..." (We do ignore them, though. You also know why.)

Well, occasionally something less than earth-shaking but incredibly heart-lifting happens to stir us back on our tracks. One of those somethings happened to you last week and you don't know it yet. Since I witnessed and have also heard those little devil voices, I'm here to tell you about it.

I had just come from the Post Office, where I was delighted to find a copy of the week's STOCKMAN. I was walking toward the dorm

when two of my classmates from home passed me.

When they asked me what I was doing, I told them I was going to read my STOCKMAN.

"Must be nice. Wish I had one," they answered back. I offered to let them read mine, and they were thrilled to go to the extra trouble of making a trip to pick it up after I finished it!

So, the point of this letter is this: When you're feeling unappreciated and you're hearing those little voices whispering temptations, remember...without you, we'd be lost, and what is more, we know it!

Sincerely,
Jan Naron
ASU Station
San Angelo, Texas

P.S. Thanks so much for the subscription! The STOCKMAN fills up the 80 mile space between home and me!

"Success makes us intolerant of failure, and failure makes us intolerant of success."
William Feather

4-H Livestock Projects To Begin

Crockett County 4-H Club members will weigh and shear lambs on Saturday, October 1 at the show barn beginning at 8:30 a.m. It is most important that all feeders have their lambs at the barn so they can be ear-tagged, weighed, sheared, and vaccinated in order to be eligible for the show in January.

Any boy or girl between the ages of 9-19 that has been thinking about feeding should contact Mr. Reagor before Saturday so he can help line up some lambs. The office phone is 392-2721 and residence phone is 392-2564.

The Crockett County 4-H Livestock show will be held on Saturday, January 7, 1978 and John Menzies, County Agent from Fort Stockton will be the judge.

Crockett County Care Center News

by Joan Nicholas
Activities Program Director

The residents and staff of the Care Center thank the Davidsons for sharing the beautiful floral tributes to "Happy", and we extend our sympathy to the family.

On Tuesday I went to a meeting and workshop for Activity Directors for this region held at West Coke County Nursing Home in Robert Lee. The attendance was excellent and social worker, Ms. Peggy Vinson of Abilene was the keynote speaker. Many ideas were exchanged and a tasty lunch was served.

The program under which we work will be switched over to the Public Health Department and there will be a requirement that Activity Directors take a certain number of hours of schooling—we will know more about this, probably at the next meeting, to be hosted by nursing homes in Brady on November 8.

Tommy Womack organized table games, and dominoes and jigsaw puzzles were the main activities during my absence. Thank you, Tommy.

I understand a good time was had by all at the Tuesday evening Bingo session with many prize winners. Gordon Smith won prizes both on Tuesday and Friday morning, electing to take bead necklaces (for his grandchildren); Gordon amused everyone by modeling them! He is a pretty good sport and is always pleasant to have around. Frances Tolson won twice as did Early Baggett (assisted by Mrs. Lovell) on Friday. Mike Pena was also lucky.

On Wednesday morning it was music time and I concentrated on playing popular tunes from the thirties. We then used the stereo and had a dance and exercise session. In addition to our regular dancers, Gordon Smith decided to take a few turns, and believe now the ice is broken, he is ready for our next session.

New resident, John Baker from Menard, a polio victim since childhood and now with added problems, is trying hard to adjust to a new lifestyle. He tells me he used to do a lot of leather work such as making and tooling

belts. He is Polly Eppler's brother.

Mrs. Tomlinson, a new volunteer and a beauty school graduate, assisted in the Beauty Shop Thursday. She and Mildred Fields worked very hard to turn out a large number of hairdos. We also thank June Reeves (expert corn-popper) and Joyce Keilers for helping at Bingo, along with Casiana Fierro and her Tuesday night volunteers.

We still miss Camille Montgomery and hope she will return to Ozona soon.

Monday morning I went in prepared to show off my Spanish to my "instructor" Mike Pena, and very carefully announced that it was Monday, September 25. He just shook his head and said "No, No, No!" I was slightly taken aback since I had practiced all the way to the Center; but I was evidently suffering from the Monday Blahs as I was a day behind and it was the 26th! Oh well, can't be right all the time, but Mike was very much on the ball!

Then, Monday handicrafts sort of boomeranged when we (or I) discovered that even with faithful old Elmer, two synthetics do not glue together! So we decided to plant Golden Rain and Flamboyant tree seeds from Marfa and Acapulco respectively, in the planters we had made in previous weeks. Should they come up, they will be transplanted outside...time will tell!

Evelyn Bryant took a short walk outdoors with me Monday morning. We try to keep everyone exercising as much as possible. Regular walkers are Josefa Perez and Juanita DePriest.

CARPET-For style and performance, we have the answer, over 1,500 colors and samples to choose from. CARPET-The world's best installation man-CARPET-bath, area rugs, serging and fringe available. CARPET-Why go out of town when you can shop BROWN FURNITURE.

Band Boosters Elect New Officers

Ozona Band Boosters had their first meeting of the new year Monday evening and elected officers and discussed projects for the year.

Mrs. Jess Marley will head up the slate of officers as president, Mrs. Dick Webster was elected vice president, Mrs. Raul DeLaRosa, secretary; Mrs. Kenneth Kramer, treasurer and Mrs. Pat Wester, reporter.

Several projects were mentioned. The annual Poor Man's Supper was set for November 4.

The boosters will meet the first Monday of each month at the band hall at 7:30 p.m. Parents who have children in the band are urged to join and participate in the club. The next meeting will be October 3, and brief meetings are planned for this year.

Jr. High Cubs Win One And Lose One With Big Lake

The Ozona Jr. High Cubs 7th and 8th grade football teams played their first game before the hometown crowd and came up with a win and a loss. The seventh graders were on the short end of an 8-6 score with the Big Lake seventh graders, however, the eighth grade Cubs were victorious by a score of 19-0.

In the seventh grade game Big Lake scored early and they were successful on their two point conversion try. After the Owls first score the Cubs settled down and played tough defense for the remainder of the ballgame.

Meat Industry Update

An update on research work relating to the meat industry along with discussions on employee management and consumerism will highlight a Meat Industry Seminar, Oct. 7-8, at the Aggieldand Inn, College Station.

Registration is set for 10 a.m. to noon the first day, with the seminar getting under way at 1 p.m., announces Dr. Frank Orts, meats specialist with the Texas Agricultural Extension Service.

The first session will feature keynote addresses by Cal Lifson, an industry management consultant, and Mrs. Katy Smith of Common Cause, who will discuss the consumers' view of the meat processing industry.

A discussion on plant sanitation and a tour of the Kleberg Center and its quality assurance lab on Texas A&M University's new West Campus will complete the afternoon's program.

Texas A&M University President, Dr. Jarvis E. Miller will be the featured speaker at a banquet that evening.

Discussions the next day will deal with air and water quality control, energy and water usage, processed meats, and meat tenderness.

Orts invites all meat packers and meat industry representatives in Texas and the Southwest to participate in the upcoming seminar.

The Cubs offensive game was directed by Allen Dews and Harvey Huerreca supplied the running power. The seventh grade linemen led by Dan Bean and Randy DeHoyos provided good running room for Huerreca. The Cub's touchdown came on a strong run by Huerreca. The two point conversion try failed.

Defense was again the name of the game for the eighth grade Cubs. The Owls had very little offensive playing time thanks to a stout defense led by Ken Stokes, Ernie Borrego, Thomas Gries, Felix Flores, Hector Leal, and Darren Warren. All 23 eighth graders played in the ballgame and made their presence felt. Stokes blocked the first Big Lake punt which set up the second eighth grade touchdown.

The eighth graders won the coin toss and elected to receive. With the wind in their faces the Cubs marched the length of the field using almost all of the first quarter to get their first touchdown on a six yard run by Leal over right tackle, Stokes. A poor snap from center ruined the conversion attempt.

The Cubs defense forced the Owls to punt on their first offensive possession and the Cub's Ken Stokes blocked the punt and the Cubs took over on the Owls 25 yard line. Again the Cubs reached paydirt on a touchdown run by Leal over right guard, Gries. The PAT was kicked by Leal. The last Cub score came on a 35 yard pass and run from Varlyn Aldridge to Ernest Badillo, wide to right.

With about four minutes gone in the second quarter the Cubs led 19-0. The Cubs missed on a 25 yard field goal effort into the wind when Leal's kick sailed wide to right by about a yard.

The seventh and eighth graders will play in Sonora next Thursday, September 29 at 4:30 p.m. and 5:45 p.m.

The Cubs extend a hearty thanks to their fans and to the Junior High Cheerleaders for their great support at pep rallies and the games. The Cheerleaders are Connie Badillo, Kim Bebee, Sue Ellen Black, Annette Cervantez, Debra DeHoyos, and

Cut Water To Trees Off Now

You can help your backyard fruit, nut and shade trees withstand winter cold if you will "cut their water off" now in September, points out Billy H. Reagor, County agent.

The principle involved is the hardening off process which hothouse grown plants are subjected to before transplanting. Hardening is done by gradually subjecting a plant to more harsh growing conditions so that it "toughens up" and will withstand adverse conditions better, such as cold and drought.

A backyard tree you have been pampering with plenty of water and perhaps fertilizer tends to be soft and succulent and susceptible to cold injury, explains the agent. As autumn approaches, days grow shorter and temperatures get lower and lower. This starts to harden the tree. To help this process, give your trees a good

deep soaking as deep as the roots go (usually 4-5 feet) from the middle to the last of September, then cut off the watering (except shallow watering for lawns; until about Christmas. The root zone of a tree rooting 3 feet deep will store plenty of water to last until the first killing frost.

From mid-September until frost the tree continues to withdraw water from the soil. As it does so, the available water supply in the root zone shrinks lower and lower and becomes harder and harder for the roots to absorb. This gradually puts the tree under stress which slows down its growth and hardens its cells. All the tree needs now to trigger it into dormancy is a gentle nudge—the first killing frost. Your tree is now ready for winter, says Mr. Reagor.

Vermont got its name from the French for "green mountain"—*vert mont*

Jottings From Jan

By: Jan Naron

High School football games are great when you're in high school.

The feelings of anxiety and excitement build up inside you like air in a balloon, and you feel like you could burst at any second.

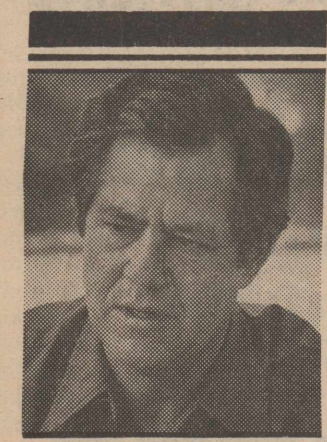

Touchdowns, field goals, and first downs seem to change you from the demure pacifist you thought you were to a high-strung, almost barbarian monster. The term "head-hunter" seems elementary to you. You throw things. Like fits and programs.

Somehow, "your team" is always in the right. Penalties against your guys are bad calls due to blind referees on coffee breaks on the 20 yard line, and "their" touchdowns are usually results of only slightly legal, sometimes highly illegal, and always terribly sinister maneuvers.

All the time you're in high school, you honestly believe that after you're in college you'll feel the same way when watching "your guys" play.

And take it from one who knows-you're absolutely right...you do!

Coming home and watching the Lions play was a re-enactment of not-so-long-ago old days. It was a promise that I would indeed always feel the same way about the

"I have announced my candidacy for Governor of Texas. I'm confident I can and will win."

"According to a statewide poll, 6 out of 10 people are ready for a new governor. The poll only confirmed what I've been hearing all over Texas this year. People are against the idea of anyone holding the state's highest office for 10 years. No governor has asked for 10. No governor has been given 10. It goes against a tradition that's as old as Texas itself."

"There are other reasons folks are ready for a new governor. State spending has jumped from \$3 billion to \$8 billion the last 6 years. The Dallas Morning News reported, 'during Briscoe's years in office, nearly all state government will have gone on a spending spree.' And the Governor has done nothing to discourage it. He's vetoed less than two-tenths of one percent of the two previous budgets and not one penny's worth of the current appropriations; it's the first time that's happened in twenty years. In a related story, the News pointed to the fact that during the Briscoe years the number of employees paid by the state has risen by 50,000."

"And, while we've heard the boast of 'no new taxes,' we've seen our property taxes increase by \$1 billion along with substantial hikes in state licensing fees."

"I've traveled the state this year, visiting with folks. Whatever their overall assessment, most Texans lacked confidence in the present governor's persuasiveness and vision. They felt he had failed to measure up to their expectations and to live up to his promises."

"Texans are hungry for an effective gubernatorial spokesman on energy policy. They are frustrated that our governor hasn't been able to get the Texas viewpoint across in Washington. They are wondering, too, why our governor hasn't been speaking out forcefully for a farm policy that would help our beleaguered farms and ranches."

"I fully agree with the people's assessment; that's why I'm seeking the office of Governor."

"I'm proud of my record as Attorney General and Secretary of State. It shows that I'm not afraid to roll up my sleeves and work hard. It indicates that I have the ability to assemble a capable staff, that I prefer to work closely with people, and that I'm not reluctant to make changes when they can benefit the state. I'll be this kind of governor, given the job."

Jim Montgomery spent a few days here with his parents, Mr. and Mrs. Tom Montgomery, this week. He returned to Dallas Wednesday where he is a first year student in Baylor Dental School.

Political advertising paid by Hill Campaign Committee, John Hill, Chairman, 1035 Brown Building, Austin.

John Hill

Lions--they're "my guys". I screamed and yelled and clapped more than I ever did before because I recognized that promise.

I can hardly wait till Homecoming. Get my mum ready, seniors.

Heaven help the people that sit around me in the stands October 7.

MH Assn. Praised

The Mental Health Association praised most of the recommendations made in a preliminary report by the President's Commission on Mental Health.

Mary Chase Pell, MHA National President, said in a telegram to Rosalynn Carter, honorary chair of the President's Commission: "We are particularly pleased with the Commissions' recommendation for an increase in funding for mental health research."

Citizens of Ozona supported the Mental Health Association in May, by contributing to a Bellingrider drive organized by Mrs. Thelma Janes.

The Commission urged President Carter to support a federal mental health research budget increase "in the range of 20 per cent" over the current appropriation. If realized, research sponsored by the National Institute of Mental Health would receive \$140 million in fiscal year 1979.

The President of the Texas Association of Mental Health, Shirley K. Camfield, said: "This increase is urgently needed. Even though the National Institute of Mental Health's research budget has lagged since 1969, major opportunities for expanding our base of knowledge still exist."

President Carter established the Commission last February to identify the mental health needs of the nation and to recommend ways to meet those needs. The preliminary report is the first from the Commission, with its final report due April 1.

The only reservation expressed by the citizens' group was that it is not clear whether the Commission's recommendation on funding for mental health services would enable the establishment of new community mental health centers in fiscal year 1979. The Mental Health Association pledged to continue working with the First Lady, the Administration, and the Congress to assure that sufficient funds are appropriated for that purpose.

In reporting from the meeting Thursday morning with the President and First Lady, Dr. Thomas E. Bryant, Commission chair, said that Mr. Carter favored increases in research. "He said that we were persuasive and that he would try to accommodate us," Bryant said.

Mrs. Carter said earlier at a news luncheon that "...our commission has found that the discrimination that persists against mental illness is a national disgrace. And we need the press to help dispel the myths and to create a climate that eliminates this appalling discrimination."

The First Lady indicated that vast amounts of work has yet to be done to "help bring mental illness out of the closet."

Mrs. Pell said in her telegram to Mrs. Carter that "Mental Health Association officers and members send you, especially, our appreciation for an outstanding beginning."

ATTENTION ALL EX-BAND STUDENTS

If you have ever played in a band program, we would like for you to participate during our Homecoming Halftime Show in an "exes Band". There will be one rehearsal. It will be held at 5:30 p.m., October 7, at the football field. "Move over, John Philip Sousa!"

YARN BARN MAKES DEBUT-Sherry Holt's new enterprise on Ave. I, features yarns and crafts and is aptly named as it makes headquarters in a clever metal barn. One of the many new businesses to open doors recently in Ozona.

Cattlemen's Association To Form In Crockett Co.

Efforts are under way in Crockett County to form a county Independent Cattlemen's Association to affiliate with the Texas Independent Cattlemen's Association. An organizational meeting will be held at the Civic Center Tuesday, Oct. 11, for this purpose. Ranchers and other interested parties

Confirmer Completed In County Field

Confirmers were completed in Crockett and Reeves Counties and one was indicated in Menard. Also Sterling gained two extenders and tests continued at a Pecos project.

The Live Oak Drawn (Strawn gas) field of Crockett County gained its eighth producer and a 1/2 mile Southeast and 5/8 mile north-northeast extension with completion of Dan J. Harrison, Jr., Houston, No. 2 Joe Wylie McMullan, 10 miles Southeast of Ozona, for a calculated, absolute open flow of 6,200,000 cubic feet of gas daily.

Production was through perforations at 9,117-252 feet, which had been acidized with 7,500 gallons.

Location is 660 feet from the north and 990 feet from the west lines of 15-F-GC&SF.

ties are urged to attend and be introduced to the organization. A barbecue supper will be served at 7 p.m. prior to the meeting.

T.A. Cunningham, president of the Independent Cattlemen's Assn. of Texas will be speaker for the evening. Cunningham joined cattlemen across the country last week in asking the U.S. International Trade Commission to find relief for the failing domestic cattle industry. Cunningham testified before a Commission hearing in Washington, D.C. Tuesday that one obstacle to a profitable cattle market is a 1964 law that sets quotas on the amount of beef imports allowed to enter the United States. He told the commission that provisions of the 1964 Meat Import Act have driven many ranchers to financial ruin and have prevented many young ranchers from entering the cow business. Cunningham called for revision of the 1964 law to meet economic realities of the domestic cattle industry. In his speech to the local people October 11, he is expected to enlarge on this issue and possibly have some encouraging news for domestic producers.

A group of local ranchers met with an Independent Cattlemen's Assn. director September 13, in a preliminary planning meeting and made plans to have the organizational meeting open to the citizens of this county. Most counties in Texas are forming their own associations.

Present for the first meeting were Joe Couch, Joe Tom Davidson, Pancho McMullan, Tony Allen, George Cox, Mark Tillman, Dr. Gary Vannoy, Billy Reager, and Bill Dyer, director of ICA from San Saba.

The Independent Cattlemen's Association was organized in 1974 to seek a solution to the problem of a depressed domestic cattle industry. The association probes into areas of production, marketing and legislation pertaining to the cattleman. Their aim is to work to remove all obstacles between the cattleman and a profitable cattle market.

Minority students

AUSTIN, Texas (Spl.) — Students from minority groups are doing well in engineering studies at The University of Texas, says the director of the Equal Opportunity in Engineering program in UT's College of Engineering. John S. Robottom reports that 87 per cent of the minority students who have entered UT engineering programs "have either graduate or are still in school, a much higher percentage than the student body as a whole."

He notes that since engineering is demanding and has one of the highest dropout rates at the college level, "retention is the acid test." He estimates about 14 per cent of UT's freshman engineers this fall will be from minority groups.

State Archeologist Tunnell Gives Historical Program

"The only way to learn about the habits and life style of the prehistoric men and animals that roamed the earth is to study what they left behind," declared Dr. Curtis Tunnell, Texas State Archeologist, in a talk to members of the Crockett County Historical Society and guests Monday night at the Civic Center.

"And that is the object of archeological studies being made in our state. By careful studies of the signs left by ancient man, we can learn a lot about the changes that have come about through each succeeding generation." Dr. Tunnell urged his hearers to help preserve the many archeological sites available in this state.

"Much of our heritage is being thoughtlessly destroyed in the careless exploitation of valued historic sites," Dr. Tunnell declared. "A lot of this is necessary. For instance, in pipeline construction, dam construction, urban development, etc. For the most part, we of the Texas Historical Commission favor leaving the evidences of prehistoric man in place, but in the instances where such sites are to be destroyed, we do our best to remove and preserve such artifacts and evidences as are contained in the site."

Dr. Tunnell urged landowners among his listeners to guard their property from wanton destruction of valued historic sites and to notify the state agency in cases where developments threaten their destruction or damage.

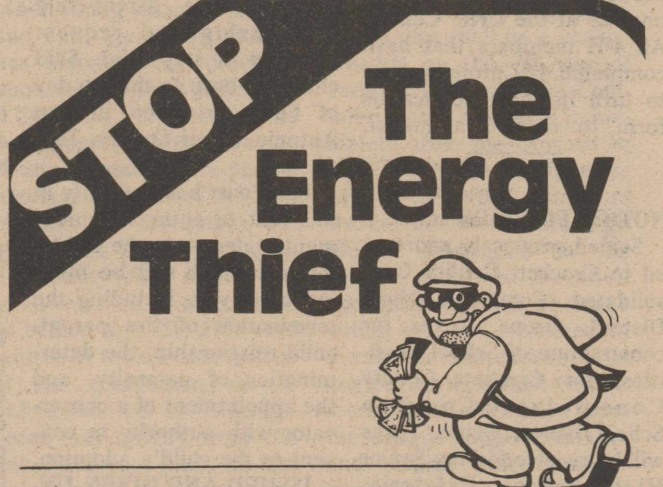

A series of fascinating

slides picturing archeological digs over this and other areas of the state were shown by Dr. Tunnell. Of particular interest to his audience were pictures of the underwater salvage along the Texas coast of ancient Spanish ships that were sunk, perhaps in a gulf storm, several hundred years ago. Silver and gold ingots and coins, ancient Spanish cannons, ships' anchors and other items of incalculable value have been raised for a statewide tour of displays beginning in late October. The collection of Spanish treasures will be displayed for the first time on Octo-

ber 30 in Raymondville, Texas, and later in other cities over the state.

Mr. and Mrs. Pleas Childress were hosts at a covered dish supper honoring Dr. Tunnell Sunday evening in the backyard garden at their home.

Mrs. Clay Adams, Historical Society president, presided at the Monday night meeting. Preliminary to the program, Mrs. Adams appointed a nominating committee composed of Mrs. Brock Jones, Mrs. Earle Chandler and Mrs. Dempster Jones. The committee will select a slate of officer nominees for the coming year.

Sealed proposals addressed to Crockett County Consolidated Common School District, Ozona, Texas for construction of School Facilities, for Crockett County Consolidated Common School District, Ozona, Texas will be received in the Senior High School, Cafeteria, Ozona, Texas until 2:30 P.M. DST* Tuesday, October 11, 1977, at which time and place proposals will be publicly opened and read aloud. Any bid received after closing time will be returned unopened.

Bidders may obtain plans, specifications and related documents in the office of Atkinson, Atkinson and Associates, Architects and Planners, 1214 14th Street, Suite 106, Lubbock, Texas 79401.

The Owner reserves the right to reject any or all bids and to waive any or all formalities.

Each bidder must deposit with his bid security in the amount, form and subject to the conditions provided in Instructions to Bidders.

No bidder may withdraw his bid within thirty (30) days after the date of the opening thereof.

Joe Bean, President Board of Trustees Crockett County Consolidated Common School District Ozona, Texas 29-2TC

Mrs. George Montgomery is in Shannon Hospital in San Angelo undergoing medical tests and therapy. Barring complications she will return home by the end of the week.

STATE OF TEXAS

TO: James Loman Bailey, Respondent, and to all whom it may concern.

GREETINGS: YOU ARE HEREBY COMMANDED to appear and answer before the Honorable District Court, 112th Judicial District, Crockett County, Texas at the Court-house of said county in Ozona, Texas, at or before 10:00 o'clock a.m. of the Monday next after the expiration of 20 days from the date of service of this citation, then and there to answer the Petition of JAY MILLER, Petitioner, filed in said Court on the 21 day of September, 1977, against JAMES LOMAN BAILEY and PATRICIA ANN MILLER, Respondents, and said suit being number 3900 on the docket of said Court, and entitled "In the Interest of Kevin Jay Miller, A Child", the nature of which suit is a request to terminate the parent-child relationship and request adoption of step-child. Said child was born on the 4th day of February, 1966 in San Antonio, Bexar County, Texas.

The Court has authority in this suit to enter any judgment or decree in the child's interest which will be binding upon you, including the termination of the parent-child relationship, the determination of paternity, and the appointment of a conservator with authority to consent to the child's adoption. ISSUED AND GIVEN UNDER MY HAND AND SEAL OF SAID COURT, at Ozona, Texas, this the 21 day of September, 1977.
