### ELECTRICITY SUPPORTS THE NATION—THE NATION IS SUPPORTING ELECTRICITY—

The tremendous value of electricity to the nation has long been a proven factor.

Man at one time used horses, oxen, and hand power to turn wheels in order that he might grind grain or pump water.

Now, in this age of highly developed skill and speed, industry demands efficiency and dependability. Electricity supplies that. Light, power, and warmth, is available with the pushing of a button or the throwing of a switch.

But, as essential as electricity is to the nation as a whole, so is it just as important to the smallest community and home. See to it that your business or your family receives that most essential of all modern improvements . . . . LIGHT.

### Thousands have **Ended** their Bowel Worries

by taking this advice!

Can constipation actually be over-come? "Yes!" say medical men. "Yes!" say the many thousands who have followed their advice

You are not likely to cure your constipation with salts, pills, tablets, or any of the habit-forming cathartics. But you can correct this condition by gentle regulation with a suitable liquid laxative.

### THE LIQUID TEST:

This is the way many men and women have made their bowels as regular as clockwork in a very

First: select a properly prepared liquid laxative. Second: take the dose you find suited to your system.
Third: gradually reduce the dose
until bowels are moving of their

own accord.

Simple, isn't it? And it works!

The right liquid laxative brings thorough bowel action without

using force. An approved liquid laxative (one which is most widely used for both adults and children) is syrup pepsin. Dr. Caldwell's Syrup Pepsin is a prescription, and is perfectly safe. Its laxative action is based on senna—a natural laxative. The bowels will not become dependent on this form of help as dependent on this form of help, as

in the case of mineral drugs.

Hospitals and doctors have always used liquid laxatives. The dose can be measured, and the action controlled. Pills and tablets containing drugs of violent action are hard on the bowels.

If there are children in your household, don't give them any fad form of laxative, but use a health-ful, helpful preparation like syrup pepsin. Its very taste will tell you it is wholesome, and agreeable to the stomach. Delightful taste, and delightful action; there is no discomfort at the time, or after.
