## New Set-Up For Dispensation C. W. A. Funds Explained to County Administrator

A new set-up for the dispensation of Civil Works Administration Funds which is different from the National Re-employment service and Relief plan, was explained in a conference of administrators and county relief chairmen held in Austin last week.

Under the CWA plan, instead of the funds or appropriations being transferred directly to the counties relief bodies, the checks for work will be drawn directly on the United States treasury department. In most cases the county administrator or relief funds will be county dispensing officer for funds.

In case a county or city wished to secure funds for the building or financing of a project it is necessary that application be made to the state head through the local administrator. All projects, to be of value under C. W. A. requirements, will be created by a government sub-division that is a city or county government.

Burl Bedford, county relief administrator, was issued 500 checks which he brought with him when he returned from the conference. Judge Jeff D. Ayres, chairman of the county rehabilitation committee, attended with Mr. Bedford. Both were delegates from county relief organization. W. C. Hanna, mayor, and J. W. Howard, county judge, also were present.

General sessions were held Tuesday morning, Tuesday night, Wednesday morning, afternoon and night a separate meeting for administrators, county chairman, judges and other county officials was held. Generally speaking, the meeting was a school on instructions on the new set-up on C. W. A.

Approximately 200 men in this county will be eligible to receive work under the C. W. A. plan. The number of men eligible to receive work is determined by the population of that county.

All work projects must be completed on or by February 15, 1934. The deadline date on applications for appropriations for projects is December 15. Work was scheduled to commence about November 15 this year.

### "HERE'S TWO BUCKS, APPLY IT ON MY SUBSCRIPTION TO THE PLAINSMAN"

"Here's two dollars, apply it on my subscription to the Plainsman," said Mark Martin, of Lubbock and Company, as he handed the money to one of the Plainsman force. And that amount paid up his subscription for four years.

And again, on the same day, Judge Jeff D. Ayres presented us with a dollar and a half to pay for three years subscription to the Plainsman. Not much money but look what you get in return. Under the present bargain offer you can get the Plainsman for a year for only fifty cents.

C'mon, c'mon, ante up, that four bits and renew your Plainsman subscription. This offer is for only a short time you had better act now!

Who'll be the next to place two bucks or a buck and a half to the cause of the Plainsman? We will be having a birthday next week and our creditors will be getting more anxious for a little on account. And these pieces of silver will go a long way toward helping to satisfy a long-past due note.

Mr. and Mrs. Jay Mitchell and family and Mrs. J. E. Mitchell spent the last week end visiting in Hale Center with Mr. and Mrs. Ural Bernard and family.

## Roosevelt Calls Upon Americans to Observe Annual Day of Thanks

Warm Springs, Georgia.—In a proclamation expressing his gratefulness for "the passing of the dark days," President Roosevelt called on the Nation to observe Thanksgiving, November 30.

The document, free of the usual "whereases" and "be it resolved," cited the courage of the pioneers of the land, pointed to a new spirit of dependence on one another, friendship between capital and labor and asked "for a clear knowledge by all nations that we seek no conquests."

### THE PROCLAMATION READS:

"I, Franklin D. Roosevelt, President of the United States of America, do set aside and appoint Thursday, the 30th day of November, 1933, to be a day of Thanksgiving for all our people.

"May we on this day in our churches and in our homes give humble thanks for the blessings bestowed upon us during the year past by Almighty God.

"May we recall the courage of those who settled a wilderness, the vision of those who founded the Nation, the steadfastness of those who in every succeeding generation, have fought to keep pure the ideal of equality of opportunity and hold clear the goal of mutual help in time of prosperity as in time of adversity.

"May we ask guidance in more surly learning the ancient truth that greed and selfishness and striving for undue riches can never bring lasting happiness or good to the individual or to his neighbors.

"May we be grateful for the passing of dark days; for the new spirit of dependence on one another; for the closer unity of all parts of our wide land; for the greater friendship between employers and those who toil; for a clearer knowledge by all nations that we seek no conquests and ask only honorable engagements by all peoples to respect the lands and rights of their neighbors; for the brighter day to which we can win through by seeking the help of God in a more unselfish striving for the common bettering of mankind.

"In witness whereof, have hereunto set my hand and caused the seal of the United States to be affixed.

"FRANKLIN D. ROOSEVELT."

### Wheat Contracts Being Mailed to Washington This Week for Approval

Wheat contracts of Floyd County wheat farmers were mailed Wednesday of this week for final action in Washington D. C., Glen A. Lindsey, county agent, said.

The contracts were carried to Amarillo Saturday and approved with the provision that the total acreage be cut to conform with the 175,000 acre-allotment of the state. Contracts were approved by the state allotment committee.

In order to conform with the acreage set by the state it was necessary to make a flat reduction of 1 percent on every contract in the county. Members of the county allotment committee were busy the first of the week completing this arrangement. The reduction of one percent will not effect the pay to any extent it was explained.

A total of 667 contracts were made but in the county and practically all have been signed by wheat farmers and returned.

Mark Duncan, of Lubbock, was a business visitor in Floydada Tuesday of this week.

### Is Your Plainsman Yellow, Blue, Red, Orange, Green or Purple

It makes very little difference as long as you read the news and advertising included therein. After all we had a reason for printing this issue on assorted colors.

In the fall and early winter the leaves begin to fall. They are colored with a multitude of hues, some yellow, some red, some orange, some purple. Thanksgiving Day, a day on which we offer up thanks for our many blessings, comes amidst all this. Hence the colors, our Thanksgiving issue is representative of the season in which it comes.

Now who could give a better excuse?

FARM CREDIT ADMINISTRATION OF HOUSTON ELECTS OFFICERS TO SERVE

Houston, November 27.—Election of officers to head the four units of the Farm Credit Administration of Houston, serving the State of Texas, was announced here Thursday following a meeting of the board of directors of the Federal Land Bank of Houston.

Albert C. Williams, president of the Federal Land Bank was elected General Agent, chief executive officer of the regional office of the Farm Credit Administration. Mr. Williams will continue to serve as president of the land bank. Heretofore, officers of the Federal Land Bank have served as ex-officio officers of the Federal Intermediate Credit Bank. The increase in volume of business and the organization of the Houston Bank for Cooperatives and the Production Credit Corporation made it necessary to elect separate officers.

Election of the following officers was announced: Federal Intermediate Credit Bank: Dwight P. Beard, president; T. P. Priddle, Jr., treasurer; C. M. Welch of Fort Worth, secretary; Rufus H. Robertson, Kossie, assistant treasurer. Production Credit Corporation: Tully Garner, Uvalde, vice president and treasurer; Owen W. Sherrill, Dallas, secretary; John H. Rugel, Dallas, assistant secretary. Bank for Cooperatives: James A. Smith of Paris, treasurer; John B. Jones of El Paso, secretary.

—The Federal Land Bank of Houston has been in operation since 1917 and the Federal Intermediate Credit Bank since 1923. The Production Credit Corporation and the Bank for Cooperatives were organized a few weeks ago when Governor W. I. Myers, Commissioners G. M. Brennan, S. M. Garwood and F. W. Peck, and W. Forbes Morgan of the Farm Credit Administration, Washington, D. C., visited Houston. The election of officers of the Intermediate Credit Bank, the Production Credit Corporation and the Bank for Cooperatives will further speed-up the machinery to make available to farmers and ranchmen of Texas a complete and coordinated credit system under the Farm Credit Administration," said Mr. Williams. "The new officers will take up their work immediately."

There were no changes in the official staff of the Federal Land Bank. Under the new set-up, the Federal Land Bank of Houston will continue to make long-time first mortgages amortized loans on farms and ranches of not to exceed 50 per cent of the appraised value of the land and 20 per cent of the permanent insured improvements. Such loans are made through local National Farm Loan Associations and each borrower takes stock in the association in the amount of 5 per cent of his loan. The Federal Land Bank is also acting as agent of the Land Bank Commissioner in making supplemental loans.

The Federal Intermediate Credit Bank of Houston extends credit to financing institutions, which make loans for agricultural and livestock purposes but does not make loans directly to individual farmers and stockmen. Under the new set-up the Federal Intermediate Credit Bank will continue to provide agricultural credit by discounts of notes from livestock loan companies, agricultural credit corporations and state and national banks. This bank will also discount agricultural paper for Production Credit Associations.

The Production Credit Corporation of Houston has \$7,500,000 capital which will be used to provide the initial capital for production credit associations to be formed throughout the state. Officers of the Production Credit Corporation will carefully consider the needs for Production Credit Associations in various sections of the district, and the territory to be served by such associations before taking steps to bring about the formation of associations. Where it is feasible to do so, Production Credit Associations will probably be affiliated with National Farm Loan Associations. Ten or more farmers of a district may apply for a charter for a Production Credit Association. Such applications should be made through the Production Credit Corporation of Houston. Borrowers are required to own stock in a Production Credit Association in an amount equal to 5 per cent of their loans. Such stock may be paid for out of the proceeds of the loan. Production Credit Associations will make loans for periods from 1 to 12 months for the purchase and refinancing of livestock, for the growing and harvesting of crops and for general agricultural purposes. The interest rate on such loans will be 3 per cent above the discount rate of the Federal Intermediate Credit Bank of Houston. At the present time, the production loans will bear 6 per cent interest.

The Houston Bank for Cooperatives, capitalized at \$5,000,000, will make loans to local and regional farmers cooperative associations in Texas to provide working capital for their business operations and provide capital to finance or refinance the purchase or lease of necessary buildings and equipment. The interest rate will not be less than 3 per cent nor more than 6 per cent, the Governor of the Farm Credit Administration being empowered to fix the rate within those limits. On long-term loans—not to exceed 20 years—for buildings and equipment owned or leased by cooperatives, the interest rate will be 4 1/2 per cent at this time, while short-term loans—usually not to exceed 12 months—on working capital for merchandising of agricultural commodities and food

"Hydraulic Brakes COST MORE

all engineers know they are BETTER"

IN THE LAST TEN YEARS there have been built over one million cars and taxicabs with Hydraulic Brakes. They are the simplest and most effective type of brakes used for automobiles. They are the safest.

It is common knowledge among engineers that mechanical brakes, with all of the mechanical units involved, do not lend themselves to permanent adjustment. And it is poor equalization of brakes at the four wheels more than any other one mechanical factor which causes accidents. Plymouth Hydraulic Brakes are self-equalizing, quick and positive.

Hydraulic brakes cost more to put on a car but they save money for the owner in upkeep. They require the least imaginable attention. They give longer life to the brake facings and tires.

Get these modern brakes on the next car you buy. You will prefer them to any other. Plymouth is the only low price car that is equipped with Hydraulic Brakes.

Find Out!

There are many exclusive features which make Plymouth the

greatest value in low priced cars. It's a big story. An advertisement can't give it to you. It's worth investigating personally. Call us for a demonstration.

## LIKE GOOD HEALTH

## Beyond Price

Dependable Gas Service, like good health, is seldom considered while we enjoy it, but is appreciated keenly after it disappears.

Your gas service is regarded as a good gas service only if it meets your needs 365 days in the year, every minute of the warmest day of Summer or coldest day in Winter.

Day and night, the members of the West Texas Gas Company work diligently at their task to insure such a service.

### "Beware of the Common Cold" Warns State Health Officer John W. Brown

Austin, Texas, November 27.—"Beware of the common cold," Dr. John W. Brown, state health officer, in a statement issued here today, cautioned the people of the State of Texas. "This is the season of the year when colds are most prevalent, and their consequences more far reaching. The organism causing the disease is not known, but every individual is acquainted with its effects."

Not a little of the susceptibility of catching colds can be overcome by a gradual acclimating to lowering temperatures and inclement outdoor weather. This hardening should begin now, and consist of regular exercise—walking is good—to be continued throughout the winter, in weather of every kind. Some things to avoid are wet stockings, drying on one's feet; over-heavy clothing; over-heated rooms.

There are two broad principles to observe in the treatment and prevention of colds. The first says: "Let the patient keep to himself and keep his oral and nasal discharges to himself." This includes indiscriminate spitting, kissing, and other forms of contact.

The second principle requires doing away with coddling and over-protection of the body against the elements.

"The cold is a common disease," Dr. Brown said. "But every cold is important enough to justify careful attention and treatment for its immediate cure. Death-dealing pneumonia and tuberculosis may begin with colds that did not receive care and attention."

"Over-indulgence of devitalizing stimulants, such as alcohol, tobacco, tea, and coffee do much to lower the resistance to colds."

Insurance Men Close Session; Plainview Men Is Selected District Director

Lubbock, November 25.—R. Q. Silverthorne, Plainview insurance man and president of the recently organized Plainview Insurance Exchange, was chosen as 12th district director of the Texas Association of Insurance Agents for the coming year. He succeeds D. K. Bondurant of Lubbock and was named yesterday afternoon at the closing session.

The new district director will take office at the next state convention to be in Dallas next May or June. He will serve for a year.

Session Closes

The session closed yesterday afternoon at 4:30. Resolutions endorsing the work of the state and national associations in advancing the work in the state; the administration of State President Boyce and the work of Secretary D. G. Forman and the local chamber of commerce and the Lubbock exchange for entertainment features, were unanimously adopted.

Nearly fifty persons, half of whom were from out of the city, registered for the gathering. The morning session was held in the assembly room of the Hotel Lubbock, with the president and secretary discussing problems and then answering many questions of agents present.

Welcome Extended

Dr. I. E. Barr as president of the board of city development, welcomed the visitors for the city and Wesley Read for the local agents. Just before the noon recess Director Bondurant named two committees: Resolutions, L. Wesley Read, Lubbock; A. R. Hendricks, Littlefield; W. H. Henderson, Floydada and W. P. Fullingim, Lorenzo; nominations, Guy McAfee, Lubbock; M. A. Pember, Slaton, and Frank Perkins, Lockney.

The afternoon session was given over largely to a discussion of problems and the answering of questions. S. J. McFarland presided as toastmaster at the luncheon in the ball room of the Hotel Lubbock at noon. Dr. I. E. Barr, president of the board of city development and Garnet O. Reeves, assistant secretary, were introduced.

Mullican Speaks

Judge Clark M. Mullican, who gave the principal address, characterized insurance as "property." "It is property, just like any other property," he explained. "It represents wealth or value of some kind, which is unusually good in this dry and time."

Mr. and Mrs. L. G. Mathews Entertained With '42' Thursday Evening

Mr. and Mrs. L. G. Mathews concluded a series of three socials with a "42" party at their home Thursday evening.

A Thanksgiving motif was carried out effectively in the decorations, tallies and refreshments.

The guest list included: Mr. and Mrs. S. J. Latta, Mr. and Mrs. John Maxwell, Mr. and Mrs. John Reagan, Mr. and Mrs. Y. Onstott, Mr. and Mrs. T. C. Russell, Mr. and Mrs. Paul Jacobsen, Mr. and Mrs. S. W. Ross, Dr. and Mrs. C. M. Thacker, Mr. and Mrs. J. V. Jones, Mr. and Mrs. Edd Bond, Mr. and Mrs. R. A. Garrett, Mr. and Mrs. C. E. Thomas, Mr. and Mrs. O. P. Rutledge, Mr. and Mrs. Jack Henry, Mr. and Mrs. J. G. Martin, and Mrs. Bess Cantwell.

Judge Mullican said he had observed that jurors in many courts had never been sold on insurance of any kind and that when a case involving insurance policies came before the jury, members of that body were inclined to consider insurance a matter of only the company and its agent and would "soak" the company. He urged the agents present to wage a campaign of education to make the general public acquainted with the facts.

President Speaks

President John K. Boyce of Amarillo, spoke briefly about the state association and the operation of the state insurance department laws affecting rates. He urged agents to co-operate with the local officials in a campaign of education in holding fire prevention programs. Through these methods, insurance rates can be reduced for all policy holders.

Persons registered from other cities were:

R. Q. Silverthorne, Plainview; Frank Perkins, Lockney; A. R. Hendricks, Littlefield; John Boyce, Amarillo; D. G. Foreman, Fort Worth; E. P. Nelson, Floydada; B. F. Rupe, Seymour; Leon Noel, Ralls; W. H. Henderson, Floydada; J. H. Brewer, Slaton; W. A. Cox, Seminole; Miss Ohera Forrester, Tahoka; R. E. Key, Tahoka; J. P. Flake, Plainview; S. S. Stoner, Plainview; Mr. and Mrs. W. P. Fullingim, Lorenzo; R. W. Fenton, Jr., Tahoka; J. P. Nystel, Abernathy; Hugh Boren, Snyder; T. A. Boren, Snyder; H. E. Resher, Abernathy; Sam Clemons, Spur; R. B. Hannah, Lorenzo.

**Wake Up Your Liver Bile —Without Calomel!**

**And You'll Jump Out of Bed in the Morning Rarin' to Go**

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just dumps in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blotches. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. See at drug stores. ©1931 C. M. Co.

**Thanksgiving...**

We again pause for a day and give thanks to the Almighty liken unto those words as uttered by our forefathers in days of long ago, when they acknowledged with grateful hearts for the many signal favors that they enjoyed.

It is still a privilege of ours to be thankful for the Peace and Happiness that still prevails and we can still be reminded that we are more fortunate than many of the people of this great universe.

Conditions locally are very similar to the conditions in that Pilgrim colony in the year when Thanksgiving was first offered up for the bountiful crops which came following the panic and drouth and we believe it is in keeping, as never before since that eventful time to offer thanks for the many blessings which we have had bestowed upon us just so recently.

## Why Children Need a Liquid Laxative

The temporary relief children get from some synthetic, habit-forming cathartic may cause bowel strain, and even set-up irritation in the kidneys. A properly prepared liquid laxative brings a perfect movement. There is no discomfort at the time and no weakness after. You don't have to give the child "a double dose" a day or two later.

Can constipation be corrected in children? "Yes!" say medical men. "Yes!" say many mothers who have allowed this sensible medical advice: 1. Select a good liquid laxative. 2. Give the dose you find suited to the system. 3. Gradually reduce the dose until the bowels are moving regularly without aid.

An approved liquid laxative (one that is widely used for children) is Caldwell's Syrup Pepsin. The laxative action of this excellent preparation is the best form of help for children—and grown-ups, too. The dose can be regulated for any age or need.

Your druggist has Dr. Caldwell's Syrup Pepsin. Member N. R. A.

# As Advertised

Here is a phrase with which shoppers are becoming more and more familiar. "As advertised"—these words are full of meaning. Placed with stacks or heaps of merchandise, they announce plainly for all to see—"Here are the goods we promised you, exactly as they were described in our advertisement". Its quality is fully vouched for by the manufacturer who made it and by the store or the dealer who is offering it to you.

As it is advertised—so it is. Experience proves this to be true. The advertisements in this newspaper are sincere messages to you from the most progressive merchants who affix their signatures to attest to the correctness of every statement made. In his advertisements, the advertiser expresses the soundness of his entire business policy.

Read the advertisements in every issue of this newspaper. They are interesting. They will keep you informed of all the newest and best offerings to be found in the shops and stores. The advertisements are a record of business progress. They will save you time and money and assure fullest value for every purchase you make.
