the fellows aren't yet in the Plan—or, being in, haven't yet hit their 10%. If you aren't yet in on the Payroll Savings Plan—and you should be—sign up tomorrow.

The fellows who aren't yet in the Plan—or, being in, haven't yet hit their 10% —aren't unimportant, or 25 Columbusmen, or anything like that. They're just human. They just haven't realized their Country's bitter, crying need—not yet. They haven't realized that Americans have been licked in battle for lack of planes, ships, tanks and bullets—tools that the money we'd save in the Payroll Savings Plan could buy. Over 30 million Americans are waiting for planes, ships, tanks and bullets now.

Uncle Sam needs a lot of these things. And we aren't saying our total job is too big, nor are we saying we want to raise your sights. Not to 6%, or 7% or 8%—but at least 10%. If you aren't yet in on the Payroll Savings Plan—sign up tomorrow!
We have modern type and equipment to handle the work in an efficient manner, which results in most moderate cost to the buyer.
