Mishap Hurts Hereford Man

THIS WEEK HAS BEEN a virtual three-ring circus from a news standpoint, what with the Olympic Games going on in Montreal and the landing by the American Viking space probe on Mars.

What a fantastic age we live in. Not too many Olympic Games back, you had to be content with reading about the game results in tomorrow's newspaper—or perhaps get an account of the winners on the late sports cast.

But today, due to the advanced technology, we are able to sit in our living room or den and watch all of the action—right while it is taking place. The same thing was true in 1972, even though the games were taking place in Germany. We were able to watch live TV coverage of the events.

This ability to see news events as they take place anywhere on the globe goes right back to the space program, which scored another big triumph with the Viking landing.

Whether or not the space probe finds any kind of life on our neighbor planet, we will all gain in the long run for the technological advances that come from such a program.

Carl White, manager of Friona Cablevision, told us the other day that we had "only scratched the surface" as to what will be accomplished on television.

With the continuing improvements in electronics, and the growing use of satellites for the beaming of programs, it is expected that someday the sky will be the limit as to what you will be able to see on your home TV, and apparently the cable systems may be able to offer all sorts of additional programs and services.

WE COULD NOT HELP but be amazed at the striking pictures that were beamed back to earth by the Viking I robot and its sophisticated camera equipment.

Since we are sort of in the picture business, we know to what lengths we go to get a good picture, and we realize that you have to take everything just right when you take the picture, when you develop the film, when you make your print, and then later, you hope the production people get a good halftone negative when the picture is printed in the paper.

It's just amazing to us that the Viking cameras are able to send back such startling photos from 213 million miles out in space. As one person said, "It's mind boggling."

The achievement also has allowed us to challenge Hal Blackburn and Rick Luther, the Star's camera crew. After all, we told them this week, they should be able to outperform a robot.

THE OLYMPIC GAMES have held a lot of interest to TV viewers this week. Even though the games have been affected somewhat this year by politics, we think they still do a lot for worldwide understanding.

Where else would you see American people cheering a small 14-year-old girl from Rumania, who has become the darling of these particular Olympic Games.

The last time, it was Olga Korbut who held the limelight, and Americans everywhere cheered the little Russian girl.

In many other areas you see sportsmanship across national borders. Frank Truitt remarked "I like to see the Australians and New Zealand athletes do well. They were well able to work with during World War II."

And perhaps you heard that one of the East German girl swimmers (who had done right well) has a grandmother who lives in Salina, Kansas, who has been able to watch her swim during the Olympic Games.

In many cases, when you just go by the names, or the looks of the athletes, it is hard to tell what country they are representing.

America, the great melting pot, produces athletes with German names, Spanish names, Italian names, Japanese names, caucasian and blacks alike. This is an intriguing aspect of the games.

All in all, American athletes are giving a good account of themselves, and from what we have seen, the US seems to be winning its share of the medals. Especially in the men's (Continued On Page 8)

Carl Orbison of Hereford was injured Tuesday, July 20 as he fell 25 feet down a grain dryer shaft he was working on.

The accident occurred two miles north of Highway 60, just east of Friona, at approximately 11 a.m.

Orbison was being raised out of the shaft, when the cable release on the back of the winch truck lifting him gave way, dropping the platform he was on to the bottom of the shaft.

D.K. Greeson and Charlie Keyse climbed down into the shaft and assisted the rescuers in lifting Orbison out of the hole. Both men were members of the crew working on the dryer.

Orbison was taken to Parmer County Community Hospital in

Friona by Parsons-Ellis Ambulance Service.

He was in good condition Tuesday evening with a fractured back.

Orbison is a crew foreman for Tagco Industries of Hereford.

Corn Is 'King' In Parmer Co.

Parmer County has been designated the number one corn-producing county in Texas, according to Texas Agriculture Commissioner John C. White in a report released last week.

Corn production for 1975 in Parmer county totaled 29,448,000 bushels harvested on 225,400 acres for an average yield of 130.6 bushels per acre.

During recent years there has been a substantial shift in acreage from grain sorghum to corn on the High Plains where most of the crop is under irrigation. With this shift, both total acreage and yields have shown sharp increases as record yields have been recorded during

five of the past six years, according to White.

Texas farmers harvested a near-record corn crop last year of 113.3 million bushels with value of production set at over \$300 millions.

Parmer County has long been noted as the number one milo

producing county in the state, however, with more and more farmers turning to corn the county has been the leader in corn production the past several years. This year is expected to be no exception with more acreage planted in corn this year than ever before and what appears to be an excellent corn crop in the making.

Productions Slated Locally Saturday

Friona Fine Arts Drama Workshop will present its finale Saturday, July 24 at the Friona High School Auditorium.

The workshop personnel will star in two plays, "A Funny Thing Happened On the Way to the Forum" and "Tricks."

A double feature matinee will be performed at 2 p.m. with "Tricks" as the first feature, followed by "A Funny Thing Happened On the Way To the Forum." An evening performance will be held at 8 p.m. for both shows.

Tickets are 50 cents for adults and 25 cents for children.

The cast for "Tricks" consists of: Scapin, Cris Beck; Sylvestre, Kirby Keese; Octave, Mark Edelman;

Leandre, John Carson; Argante, Larry Gore; Geronte, Mark Bavousett; Hyacinthe, Sheri Noah; Prop Mistress, Sharla Bengé; Zerbinette, Leesa Mercer; and handmaidens, Sonya Gore and Doris Hough.

"A Funny Thing Happened on the Way to the Forum" stars: Pseudolus, Bryan Johnston; Hysterium, Kirby Keese; Hero, Keith Pryor; Domina, Jerri Bengé; Philia, Laura Ellis; Senex, John Carson; Erronius, Gigi Spring; Miles Gloriosus, Philip Hand; Lycus, Mack Bush; Proteans, Stanley Fithen and Stanley Ellis; Citizens, Doris Hough, Shannon Taylor, Sonya Gore; Courtesans, Kim Bryant, Joy Neill, Karen Edelman, Holly White and Shannon Taylor.

Pace, Cook Named To Head UF Drive

Appointment of the chairman for the 1976 fund drive highlighted the recent meeting of the board of directors of the Friona United Way.

Patrick Pace and Gary Cook were named co-chairmen for the 1976 fund drive.

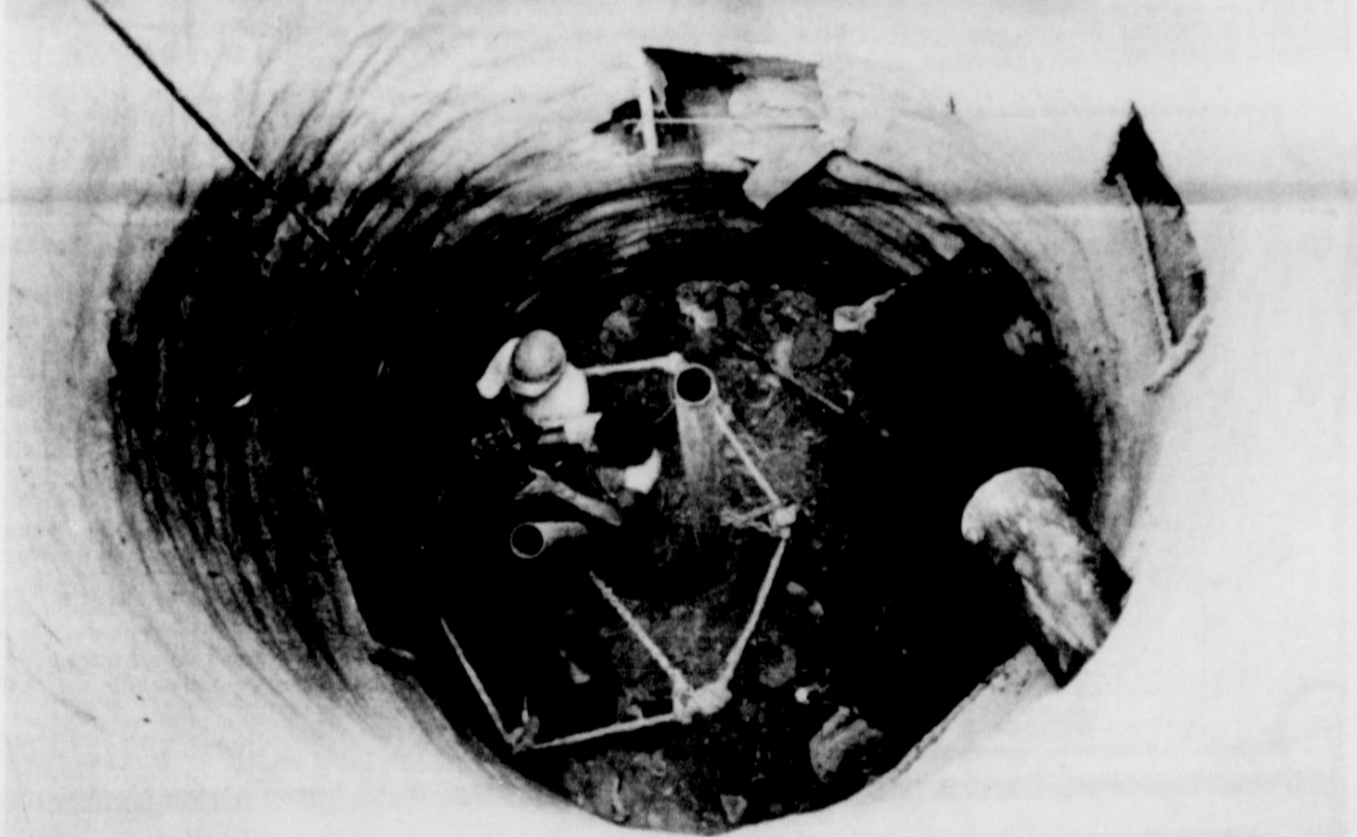

Officers elected for 1976-77 were A.L. (Jake) Outland, president; Hollis Horton, vice president and B.K. Buske, secretary.

Any fund drive wishing to be considered for addition to the local United Fund drive should contact Outland.

Next meeting of the board was set for September 15. At that time, the board will hear requests from the various United Fund agencies, and set the budget and goal for the 1976 drive.

In 1975, with an increased goal of \$8,500, the Friona UF drive raised

\$13,095, or 154 per cent of its goal, under the chairmanship of Buske. The percentage raised ranked Friona third in the state among cities exceeding their goal. "I hope the community will continue to support the United Fund like it did last year. We had a lot of support, and this was a big factor in the drive exceeding its goal," Buske said.

Photos by Hal Blackburn

HEREFORD MAN FALLS....Carl Orbison, a crew foreman for Tagco Industries of Hereford, was injured last Tuesday as the platform he was on fell 25 feet down a grain dryer shaft on the David Grimsley farm. These photos were taken on the scene as various people assisted Parsons-Ellis Ambulance Service with the rescue. In the top left and right photos D.K. Greeson, a fellow worker, is lowered into the pit to aid Mr. Orbison. The middle photo shows Greeson and Charlie Keyse

securing the platform to the cable with chains in order to assure a safe lift out of the grain dryer shaft. The fall had resulted from a slip of the winch truck cable. Percy Parsons (right) along with other helpers prepare to transfer Orbison to the ambulance in the bottom photo. Orbison was taken to Parmer County Community Hospital and X-rays showed that his back was fractured; however he was reported as being in satisfactory condition Friday morning.

Friona Flashbacks

.....from the files of The Friona Star

40 YEARS AGO—JULY 31, 1936
The primary election held here last Saturday passed off very quietly, although a good turnout was evident. In the vote for county attorney, Judge Lokey received a total vote of 645, and Judge Smith received 832 votes, giving him a majority of 187.

Mrs. Carl Maurer and daughter June departed Monday for Dallas, where June will undergo treatments for a back disorder. They were driven as far as Amarillo by Mr. Maurer, where they took the train for Dallas.

35 YEARS AGO—AUGUST 1, 1941

The Friona Stars won a slugfest from the fast, hard-hitting Amarillo Dalby team by a score of 16-10 in a game played on the local diamond last Sunday. Price Brookfield, Floyd Brookfield, Lewis, Carson and E. Williams were hitting stars for Friona.

Leo Pottishman, head of the Transit Grain and Commission Co., of Fort Worth, and chief stockholder of the Santa Fe Grain Company, was a business visitor here last week.

30 YEARS AGO—JULY 26, 1946

Mr. and Mrs. J.V. (Smiley) Fulks and son and daughter of Chula Vista, Calif., arrived here on Thursday of last week and are spending several days visiting their Friona friends. Mr. and Mrs. Fulks established the Friona Cafe here several years ago, and have been operating a cafe at Chula Vista during the war and since, but have sold their business

here. Mr. and Mrs. Sloan Osborn and Roy Clements and family left Sunday to spend their vacation in the mountains of New Mexico.

25 YEARS AGO—JULY 26, 1951

Directors of Parmer County Fair Assn. met in Bovina this week to make plans for the September 13-14-15 show. Wendol Christian is president of the association, Virgil Teague is vice president, and John Blackburn is acting secretary.

Added entertainment in Friona has been provided with the opening last Thursday evening of the miniature golf course. This is the second year for the miniature course, operated by Dillie Kelley.

20 YEARS AGO—JULY 26, 1956

Considerable cash will be deposited to an account earmarked for a swimming pool in Friona this week. This was a result of a good-natured session at Bi-Wize Drug, which became serious and a container for contributions was arranged.

The grand opening of Marcum & Claborn Furniture Company will be Saturday of this week, announce J.L. Marcum and J.C. Claborn, owners.

15 YEARS AGO—JULY 27, 1961

A budget calling for the expenditure of \$413,914.75 has been set for the Friona Independent School District for the 1961-62 school year, according to Superintendent Alton Farr. This is an increase of \$14,000 over last year's budget.

10 YEARS AGO—JULY 28, 1966

Rains of up to four inches fell in the Friona area this week. Some farmers in the Black Community said the rain "overflowed the rain gauges" in some instances.

5 YEARS AGO—JULY 29, 1971

All 60 units of the Friona Apartments, 1300 N. Walnut are full. The apartments, which began renting March 1 of this year, were filled up last Wednesday, less than five months after they were first opened to the public.

IN AUSTIN

Pioneer Co. Seeks Review Of Gas Price

Pioneer Natural Gas Company has received notification from the Railroad Commission of Texas that the hearing requested by Pioneer will be held in Austin September 14.

On May 21, Pioneer Natural Gas Company, a division of Pioneer Corporation, filed its application with the Railroad Commission of Texas seeking a review of its cost of gas for its West Texas System, and a finding of the correctness of the cost of gas, as well as determining the appropriateness of the policies of Pioneer in maintaining its gas supply.

The Commission order setting the

hearing gives the date and time of the meeting as September 14, 1976, at 9 a.m. in Room 812 of the Ernest O. Thompson building, 10th and Colorado Streets in Austin. The order further states that any interested person may appear at the hearing and present evidence on the matters to be considered.

Subsequent to Pioneer's application for this review of its practices by the Railroad Commission, the Commission has called for a hearing on August 2, in Austin, to review cost-of-gas adjustment clauses for gas companies throughout the state.

City Of Friona Receives Check

Comptroller Bob Bullock mailed checks totaling \$13.4 million to 535 Texas cities and towns Thursday as their July rebate of the one-cent city sales tax they collect.

Bullock also released a computer analysis of gross retail sales in each Texas county during the first quarter of this year that he said "shows the Texas retail economy is growing as fast as a Waller County watermelon."

The analysis shows there was a total \$28.3 billion in gross retail sales in Texas during the first quarter of

1976, the Comptroller said. "That is 13.8 per cent higher than the \$24.9 billion in gross sales during the same period in 1975 and a whopping 28.2 per cent higher than the \$22.1 billion gross sales in the first quarter of 1974," he said.

Bullock said city sales tax rebates are also running well ahead of 1975.

The \$158.8 million rebated so far in 1976 is nearly 13 per cent ahead of the \$140.6 million rebated during the same period in 1975, he said.

The Comptroller added that the computer analysis also shows a total \$30.6 billion in gross sales in Texas by out-of-state firms during the first quarter of 1976, up from the \$26.9 billion reported during the first quarter of 1975.

The City of Friona received a check for \$2,162.72.

To The EDITOR

Friona, Texas July 20, 1976

Dear Editor,
I recently needed a house painted in the country, so looking around, I found a group of our school students, the Foreign Language group, sponsored by Mr. and Mrs. Jack Hamil. This group is trying to make enough money for a trip to Mexico City a year from now.

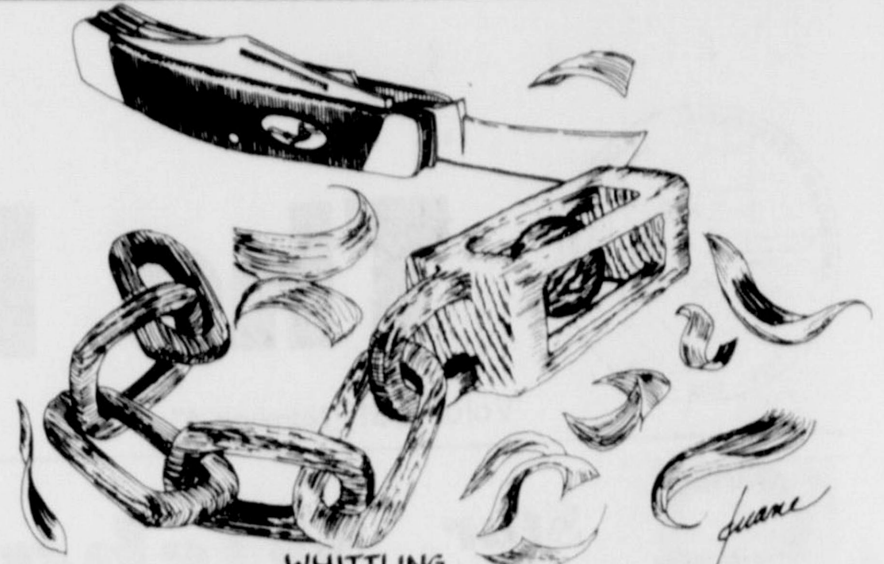

Several of this number took the opportunity to make some money and themselves some points toward this trip.

I want to thank the Hamils and these students for a job well done and I highly recommend them to you if you need a job done that they can do.

Sincerely,
Steve L. Struve

In some places salt is so scarce it is considered a treat as children regard sugar in our own culture.

WHITTLING REMEMBERING...

Whittling

If you walked by a certain spot in our little town, your feet would shuffle and rustle through a carpeting of curly wood shavings. Some would be clean, white, smelling good new ones but others had been there long enough to turn silver gray. It was the favorite spot of the unofficial "Spit 'n Whittle Club" and on any pretty day you could find some of the members there. They were mostly older fellows who gathered there to tell stories, pass the time and of course, whittle. There were two old, rusted chairs and a few dilapidated soda water boxes but late comers had to bunker down or lean against a post or wall of the building because the seats would be taken early in the day.

The favorite pocketknife would be opened, a piece of soft wood produced from the pocket, ground or wherever one could be found, then shavings would begin to fall. The wood was mostly just whittled down to nothing with no definite idea in mind but there were some tried-'n-true projects that all "real" whittlers attempted at least once.

For projects, whittlers selected woods like sugar pine or bass, both of which are soft and even-grained. The most popular projects were the "ball in a cage," a

chain of several links, swivels, pliers that worked — all out of a single piece of wood. Things like replicas of guns, swords and boats were favorites with some. Others produced caricatures of animals or people in humorous positions or garb.

None of the whittling was ever done in a hurry but slowly, deliberately, as though it didn't matter if it was ever finished. The pride of the owner. They were hardly ever loaned out but were just about always sharpened to perfection with an Arkansas whetstone most whittlers owned.

At the whittling spot they talked about things like politics, crops, weather and prices. In fact, about the only thing not discussed was whittling. You could brag about your knife, say it was better 'n anybody else's, but you never criticized another person's whittling, no matter how had it was because whittling was for relaxing and enjoying, not for making a living.

"Ain't you fellers got nothin' better to do than jest set around here makin' shavin's?"
"Nope, 'cause there ain't a thing on this earth better fer a man to do than whittle or fish, an' I hear tell the fish ain't bitin' jest now."

Deadline Extended For Farm Safety

Farmers now have until October 25 to comply with certain safety standards under the Occupational Safety and Health Act (OSHA) that were to become effective June 7.

The safety practices concern guarding tractor power take-offs (PTO), displaying safety signs and providing initial employee training for machinery operations.

"Even though the deadline has been extended, farmers should continue with preparations to meet these safety standards," advises Dr. Gary Nelson, agricultural safety engineer for the Texas Agricultural Extension Service.

Particular emphasis is on guarding the PTO drive line. "The tractor shield on the rear PTO shaft must be kept in place," notes Nelson. However, the master shield may be removed when necessary to operate PTO driven equipment, provided the guards on such equipment cover the tractor PTO shafts.

"Regarding safety training, a farmer must instruct every employee in the operation and servicing of all equipment with which that employee is involved," emphasizes the Texas A&M University System engineer.

Among the safe operating practices in which the employee must be instructed are the following:

-Keep all guards in place when the machine is in operation.

-Permit no riders on farm equipment other than persons required for instruction or assistance.

-Stop the engine, disconnect the power source and wait for all machine movement to stop before servicing, adjusting, cleaning or unclogging equipment, except when the machine must be running to be properly serviced.

-Make sure everyone is clear of machinery before starting the engine, engaging power or operating the machine.

-Lock out electrical power before performing maintenance or servicing equipment.

The requirement for safety signs calls for such signs to be placed at prominent locations on tractors and PTO driven equipment indicating that power drive system safety shields must be kept in place.

Furthermore, when removal of a guard or access door might expose an employee to any equipment that continues to rotate after the power is disengaged, the employer must provide warnings to look and listen for evidence of rotation and not to remove the guard or access door until all component movement has stopped.

"Complying with these safety standards will make the farm a safer workplace, so they should become a part of the farm operation as soon as possible," advises Nelson.

Emblems Are Safety Factor

Slow Moving Vehicle emblems have been an important factor in highway safety for the past 10 years. The SMV emblem is an orange and red triangle which you see on the back of slow moving farm or construction machinery on roads and highways.

These emblems are required by law on vehicles moving at less than 25 miles per hour on roads and highways in all states in the United States and most Canadian Provinces. In the first two years after Nebraska adopted a law requiring use of the emblem on farm equipment, deaths resulting from rear-end collisions decreased 40 per cent. Michigan experienced a 47 per cent reduction in rear-end collisions following adoption of an SMV emblem law.

Now, due to the American Society of Agricultural Engineers, (ASAE) which sets performance requirements for the emblems, an improved new emblem is available. It is a better emblem than any ever made before.

The ASAE Standard (S276.3) says that "The manufacturer shall place his name and address on the emblem, and may state that the emblem meets the requirements of this standard." Buyers should be aware of this certification and insist on certified Slow Moving Vehicle Emblems.

The National Safety Council strongly recommends the use of emblems which meet the new ASAE standard. These emblems are visible day or night.

They are a vivid reminder to drivers to "slow down." When you see one it means there is a piece of equipment traveling at less than 25 m.p.h. ahead of you.

To be sure of getting the longest-lasting, safest emblem ever, buyers are urged to insist on "Certified" emblems. Absence of an emblem on a slow moving vehicle, use of worn out emblem or a non-certified emblem could create a liability question.

Tax Reports Due July 31

Saturday, July 31, is the last day for employers to report and pay Social Security and withheld federal income taxes for the third quarter of 1976.

According to the IRS, employers have until August 10 to file Form 941, "Employer's Quarterly Federal Tax Return," if they have deposited the entire quarterly tax liability on time in a Federal Reserve Bank or authorized commercial bank.

Employers who received the preaddressed Form 941 in the mail should use it to file their report. Those who did not receive the preaddressed forms can obtain forms from their local IRS offices.

IRS Publication 15, "Circular E-Employer's Tax Guide," is available free from local IRS offices to provide more information for employers.

521 MAIN FRIONA, TEXAS PH. 247-3035

Dr. Cecil Mackey Named TT President

Dr. Cecil Mackey was named the ninth president of the Texas Tech University and the Texas Tech University School of Medicine.

Clint Formby of Hereford, chairman of the Texas Tech Board of Regents, said that the 47 year old Dr. Mackey would assume his presidency on September 1.

He has been president of the University of South Florida in Tampa since 1971. Dr. Mackey received the Bachelor of Arts degree in 1949 and the Master of Arts degree in 1953 from the University of Alabama. In 1955 he completed the doctorate of philosophy at the University of Illinois. Three years later he was awarded the Bachelor of Laws degree from the University of Alabama and then did a year of graduate study at the Harvard Law School in 1958-'59.

The newly designated Texas Tech president has previously been vice president for administration and professor of law and later executive vice president of Florida State University (1969-'71).

A frequent speaker, writer and consultant in the fields of economics, law and transportation, Dr. Mackey has taught at the Universities of Alabama, Maryland and Illinois. While on active duty with the U.S. Air Force in 1956-'57, he was one of four officers making up the original economics department at the Air Force Academy. His primary task was the planning and organization of the economics curriculum for the newly founded institution.

His government service has also been distinguished. Chairman Formby pointed out Dr. Mackey served as Assistant Secretary for Policy Development and Director of the Office of Transportation Policy of the U.S. Department of Com-

merce in 1965-'69. He was also Director of the Office of Policy Development of the Federal Aviation Agency from 1963-'65. In 1962-'63 he served as Assistant Counsel to the Subcommittee on Antitrust and Monopoly of the U.S. Senate.

In 1967 Dr. Mackey was presented the prestigious Arthur S. Flemming Award as one of the ten outstanding young men in the Federal Service.

Dr. Mackey has been active in community and civic service as a member of the National Boating Safety Advisory Council, of the Greater Tampa Chamber of Commerce Board of Governors and several committees, of the board of directors of United Fund of Tampa and of the Gulf Ridge Council of the Boy Scouts of America. During this past year he served as chairman of the Governor's Advisory Committee on Transportation in Florida.

"We are honored to appoint Dr. Mackey to the presidency of this university," Formby said in making the announcement. "His record as an administrator, lawyer, philosopher and practical contributor to the welfare of mankind through better government is remarkable. His promise for Texas Tech University is boundless."

"It is interesting to note that Dr. Mackey has had recent experience in helping to establish a new medical school at the University of South Florida, just as we have been doing at Texas Tech."

Dr. Mackey, his wife Clare and three children, Carol, 19, John, 9, Ann, 8, will soon move to Lubbock. Texas Tech University was established in 1923 and its School of Medicine in 1969.

DR. CECIL MACKAY

13 Accidents During June

The Texas Highway Patrol investigated 13 accidents on rural highways in Parmer County during the month of June, according to Sergeant W.E. Wells, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and two persons injured. The rural traffic accident summary for this county during the first six months of 1976 shows a total of 61 accidents resulting in no persons killed and 37 persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for June, 1976, shows a total of 549 accidents resulting in 10 persons killed and 336 injured, as compared to June, 1975, with 572 accidents resulting in 25 persons killed and 355 persons injured. This was 23 less accidents, 15 less killed, and 19 less injured in 1976 at the

AVOIDING SERVICE

You can save money and help avoid the frustration of sending your TV out to be serviced if you follow these simple maintenance tips suggested by experts at General Electric.

1. Do not cover airholes in the cabinet that allow air to circulate for cooling.
2. Turn set off when not in use.
3. Protect portables from falls by using a sturdy table or stand. A set can be damaged by physical shock.
4. When your set is installed, pay serious attention to the antenna. A cheap one might save you money, but if it is inadequate for the area you will be shortchanging yourself.

Farmers Warned To Watch For Swindle Operations

The Texas State Securities Board today warned farmers and others in the agriculture business to be on the lookout for a possible swindle in newly-formed farmers' cooperative associations. The Board asks that this warning be publicized in the hope Texas farmers may be spared the loss of sizeable amounts of money.

Beginning this Spring a pattern has emerged, and now farmers in about 20 states in the central United States are discovering that they have been duped. While details of the swindle vary somewhat from state to state, the main characteristics generally are the same. They are as follows:

+A new farmers' cooperative is formed, and one or more prominent local citizens are listed as officers or members. These local citizens usually are not aware a swindle is taking place, but their names are used to draw in other victims.

+The farmer is told that if he joins, he'll be able to buy equipment, seed, supplies etc., at reduced prices. In order to join, he must invest in a 20 year savings certificate or promissory

note of the co-op, for which he pays about \$350 per year. When the certificate matures in 20 years, he supposedly will get back all the money he's paid in plus a certain rate of interest compounded annually. He's led to believe that his price saving on any big ticket item (such as a tractor or combine) will more than offset the \$350 annual payment. He's also promised the use of grain elevators and other cooperative facilities.

+The promoters and their employees take at least the full first year payment (\$350) as their "commission" for selling the savings certificate to the farmer.

+Since the cooperative had no money or assets to begin with, it still has nothing, although \$350 has been paid in by hundreds of farmers. Even if a few farmers elect to pay the full purchase price of the savings certificate in a single payment, the assets of the co-op will still be negligible. The managers of the co-op simply don't have enough money to do anything for the farmers, even if they had intended to do anything in the first place.

+Just in case there is any money remaining after the first huge bite for commissions, the promoters usually will have signed, as representatives of the cooperative, a management or consultant contract for some other company to manage the business of the cooperative. The manager-consultant is usually a "sweetheart" company, i.e., it is run by cohorts of the promoters, and its fee is quite large.

+The promoters and the "manager" go through the motions (for awhile) of launching the new enterprise. They show a decided preference for buying things on credit, as opposed to paying cash. When they eventually, but inevitably, leave the scene, they try to avoid the appearance of having "skipped out" with the money. The hoped-for appearance is that things just didn't work out—they

tried but just couldn't quite put it all together. This makes it more difficult to prosecute them.

Farmers are urged to be very careful about turning over money to strangers proposing to organize a new cooperative. There are, of course, many honest and legitimate cooperative associations serving their members well, and other legitimate ones will be formed in the future. But questionable cooperatives have been set up recently in states adjacent to Texas, and the Texas Securities Commissioner is concerned that attempts to do the same here are quite likely.

Any farmer approached to invest money in a cooperative with the characteristics described above is asked to contact the State Securities Board office in Austin at P.O. Box 13167, Capitol Station, Austin 78711; telephone (512) 475-4561.

When driving, keep your head and torso upright, and don't bend in the direction in which you're turning. Only then can you be in the right balance to make sensitive driving judgments.

FCA WINNER...Renae Monroe, daughter of Mr. and Mrs. Clarence Monroe of Friona, was a member of the winning team at the first Fellowship of Christian Athletes Girl's Camp. Renae's team won the National League Championship and went on to win the Superbowl competition.

Friona Girls Attend FCA Summer Camp

Four Friona girls attended the first annual Fellowship of Christian Athletes Girl's camp July 5-9.

Attending the camp from Friona were Cindy Cleveland, Paige Osborn, Renae Monroe and Varla Welch. Mrs. Virginia Cleveland accompanied the girls as sponsor.

The speakers for the five day camp included Paul Anderson, the "world's strongest man," Randy Hughes of the Dallas Cowboys and Steve Davis, quarterback for Oklahoma University.

Also featured was painter Bill Leach. Leach is so famous for his

crucifixion drawings, that is booked

Also featured was painter Bill Leach. Leach is so famous for his crucifixion drawings, that he is booked to perform through the year 1981. His drawing is created on a six foot screen with chalk and lights and is done in a veritable kaleidoscope of colors.

Renae Monroe, daughter of Mr. and Mrs. Clarence Monroe brought back the first trophy awarded by the camp. Renae's team won the National League Championship and then went on to win the camp's Superbowl.

PLAYOFF BOUND...The Friona-Bovina Senior League All-Stars who were to play in Lovington, Friday, July 23 are, top row, left to right, coach Kenneth Cary, Mike Hutson,

Stephen Stevenson, Jeff Peak, Willie Bralliff, Ron Cary, Mike Read and coach Ron Cain. Pictured in the middle row are Phillip Veazey, Doug Roming, Chris Barnett, Harvey

Shepherd and Dan Cox. Seated are Roy Caballero, Chitto Caballero, Kyle Barnett and Leslie White.

FHS Coaches Attend Fete

Friona High School coaches will attend a five day coaching clinic July 25-26. The clinic is held each year by the Texas High School Coaches Association.

Among the speakers this year will be Jim Hess of San Angelo State, Grant Teaff of Baylor, Jim Shofner of Southern Methodist University, Eddie Sutton of Arkansas, C.M. Newton of Alabama and DeLows Dobbs of Kansas State.

On Wednesday, July 29, the coaches will attend the High School Boy's All-Star basketball game. The following Thursday, they will be treated to the Texas High School Boys All-Star football game.

Friona Coaches Phillips, Pope, Jones, Rambow, Giddens and Bradshaw will attend the five day clinic along with many other Texas high school coaches.

All-Stars Set Tourney Action

Friona's Senior and Major League All-Star teams have been preparing themselves over the past couple of weeks for their post-season play which will begin Friday, July 23 for the Senior stars and July 27 for the Major stars.

The Major League tournament will be held in Clovis, with winners advancing to a tournament in Las Vegas, Nevada, August 5, 6 and 7. The Senior Leaguers will compete

against Lovington at Lovington on the 23rd with the winner facing Tucumcari the following evening.

Coaches Patrick Pace and Ron Stevenson of the Major League, along with Ron Cain and Kenneth Cary of the Senior League are looking forward to some good baseball as they report that their teams should provide Friona and Bovina with strong tournament entries.

Coaches Attend Cage Clinic

Girl's basketball coaches Al Lemons and Theresa Buck recently attended the Texas High School Girl's Coaches Association Clinic July 14-17.

Featured speaker for the clinic was Burl Plunkett, head girl's basketball coach at Bying, Oklahoma. Coach Plunkett has led his

girls to Oklahoma State Championships for the last two years.

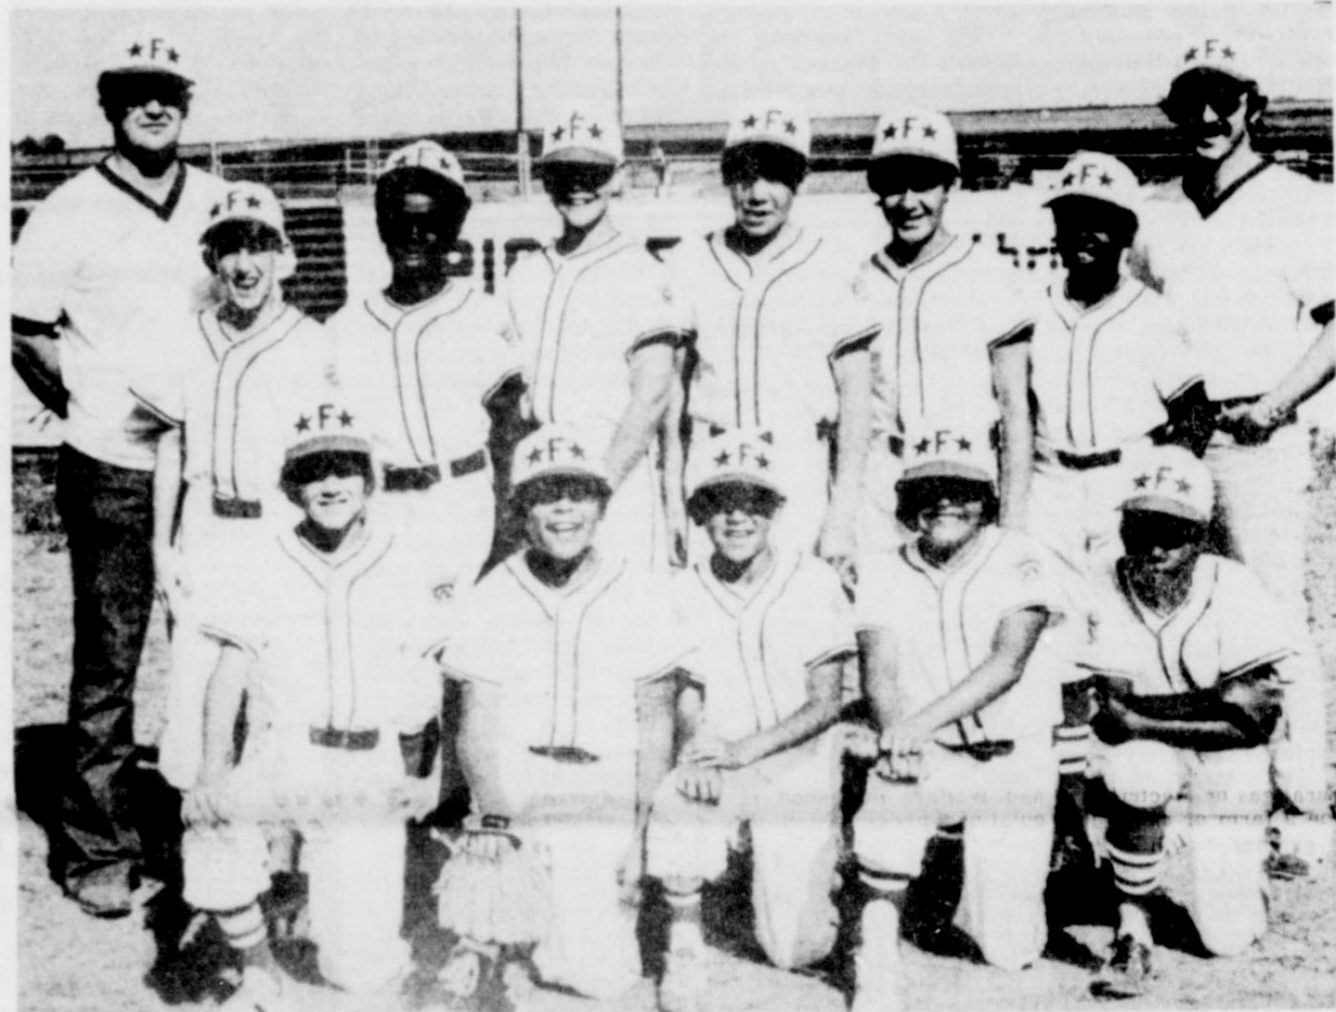

There were also lectures by other coaches and a panel discussion.

On Saturday, July 17, the coaches were invited to watch the Texas High School Girl's State All-Star basketball game.

DRAMA PRODUCTION...Four characters who were to be performing Saturday during the Summer Drama Workshop's pro-

duction of "Tricks" was left to right, Mark Edelman-Octave; John Carson-Leandre; Kirby Keese-Sylvestre; and Cris Beck-Scaplin.

READY FOR TOURNAMENT...The Major League All-Stars are pictured above with coaches Patrick Pace and Ron Stevenson. The team will play Texico-Farwell in Clovis

next Tuesday at 5:30. Players standing on the back row include Kirk Wright, Nelson Jackson, Mark Tucker, Jeff Landrum, Jamie Pena,

and Carl Jackson. Kneeling are Joey Howard, Max Perea, Eloy Caballero, Pilo Castillo and Anthony Brady.

On The Farm In Parmer County

Mack Heald
County Agent

TEXAS FARMERS and ranchers no longer have to pay sales taxes on certain purchases to be used in the production of food and fiber.

Effective July 20, the Texas sales tax law will exempt agricultural producers from sales taxes on such items as baling wire, fencing supplies and machinery and equipment.

However, a farmer or rancher does not automatically qualify for exemption from the sales tax. Producers must file an exemption certificate with each firm or business with which they deal. These certificates are available from the Comptroller of Public Accounts in Austin or from local branch offices of the Comptroller.

To qualify for an exemption, the item purchased must be used exclusively on a farm or ranch. A farm or ranch is defined as land used entirely or partially in the production of crops, livestock or other agricultural products. Home gardens are not considered a farm.

Certain items are exempt without the use of an exemption certificate. These include feed for farm and ranch animals, fertilizer, seeds and annual plants, and animals.

Items requiring the use of an exemption certificate include fungicides, insecticides, herbicides, defoliant, desiccants, all medications for farm and ranch animals, and machinery and equipment used in food, grass and feed production, including such expendable supplies as handtools, baling wire, fence wire and posts, gates and storage facilities for bulk commodities.

Natural gas or electricity used on a farm or ranch is also exempt with the appropriate certificate if used for pumps for livestock or irrigation water, dairy barn operations, welding machines, electric fences, and lights for barns, pens and poultry houses.

To request exemption certificates, producers may write or call the Sales Tax Division, Comptroller of Public Accounts, 111 East 7th St., Austin, Texas 78774 (800-252-5555).

SPIDER MITES, or red spiders as they are sometimes called, spell bad news for a garden.

There's no way to keep spider mites out of your garden, but it's a good idea to be able to recognize the pests and what type of

damage they do.

Spider mites are quite small, about 1-60 of an inch long, and can be white, red or green in color. They lay eggs on the undersides of leaves and the eggs hatch in about five days. The life cycle of a spider mite lasts three weeks. Hot dry weather is particularly favorable for their development.

Spider mites prefer beans, tomatoes, and peas, but will attack almost any plant.

The bugs feed by sticking their mouthparts into leaf tissue and sucking out the juice while injecting a toxic substance into the leaf at the same time.

When a plant is infested with mites, it shows up as tiny spots on the undersides of leaves. Heavy infestations of mites cause bleaching and yellowing along the main leaf veins at first and later the whole leaf is affected.

After awhile, the leaf's edges curl up, turn brown and eventually drop off the plant. If not controlled, spider mites can completely defoliate a plant.

A homeowner can use pesticide compounds specifically intended to control mites. These may have to be applied from two to four times and used once every five days.

Some good insecticides to use include diazinon, kelthane, malathion, ethion and sulfur.

SS Offices Change Policies

"On July 2 the Department of Health, Education and Welfare published regulations under which the Social Security Administration will no longer disclose the location of an absent parent to courts and State welfare agencies," Emily Hunter, social security field representative, announced today.

"Such information will now be disclosed only to the Federal Parent Locator Service for enforcement of child-support obligations. On request from this service, SSA will supply the name and the most recent address of the absent parent, his social security number, and the address of his last employer. This information may then be given to Sates and other authorized persons under Title IV, part D of the Social Security Act.

Farwell JC's Set

Tennis Tournament

A tennis tournament, sponsored by the Farwell Jaycees, has been set Thursday, Friday and Saturday, August 5-7, according to Larry Jones, spokesman for the organization.

Age divisions in the men's and women's singles and doubles will be 17 and under and 18 and over, Jones said. There will be no age division in the mixed doubles event.

Entry fees will be \$5 in the singles and \$10 per team in the doubles.

Trophies will be awarded first and second place winners in each event. Awards, to be named later, will be

presented consolation winners.

Deadline for entering the tournament is Sunday, August 1. Entries will be accepted after that date on a first-come-first-served basis until the brackets are filled, Jones stated.

Persons desiring to enter the tournament may phone Jones at 825-2152 or mail entries to the Farwell Jaycees, Box 737 in Farwell.

Brackets will be posted no later than Aug. 4 at the tennis courts. Contestants may also contact Jones to find out the time schedule.

AT UMBARGER

Local Youths Attend Conservation Camp

A Youth Conservation Camp (YCC), being held this year at the Buffalo Lake Wildlife Refuge near Umbarger is entering its eighth week with some thirty young people from the Tri-State area taking part in the program.

Nell Fulks, a 1976 graduate of Friona High School and Roy Don Smith, an upcoming senior at FHS, are two Friona young people who are attending the Youth Conservation Camp which began on June 6. Out of the thirty young people attending, Fulks was chosen as one of five group leaders who counsel over the various other campers.

The main project of the summer Youth Conservation Camp is to clean up the Buffalo Lakebed and refinish the old Buffalo Lake Lodge, where the campers are staying. The

young people are fed at West Texas State University and enjoy one night each week at the Activities Center there at the University.

A typical week at the camp consists of ten classroom hours and thirty work hours. In the classroom, the students enjoy lectures concerning Indian artifacts, silversmithing, preserving wildlife, and geology. Work includes planting, building fences, painting, along with many other outdoor activities which are really shaping up the old resort south of Umbarger which was once a favorite spot for vacationers.

Several camps dealing with the preservation of wildlife are being held this summer across the area, and the campers at Buffalo had the pleasure of visiting one of these camps near Las Vegas, New Mexico, a few weeks back. The group at Buffalo will be hosting campers from Roswell in the near future. Young people from Amarillo, Dallas, El Paso, Monahans, Friona, Lubbock, Muleshoe, Farwell, and Fritch are attending the eight-week camp.

Still Need

Softballers

Rick Luther says that initial response for men who would be interested in forming a softball team and-or league has been good.

"We have enough prospective players for a team, but could still use more volunteers. We will try to hold an organizational meeting in the near future, and will contact everyone that has indicated an interest," Luther said.

It is hoped to form a team to enter some area tournaments, and perhaps have a local league for next summer.

Those interested are asked to call Luther at 247-2211 or 247-2116.

Star Lites ...

(Continued from Page 1)

swimming events and in boxing. Our athletes have been fantastic in those sports.

The Olympic Games are a refreshing change from the old re-runs on television. Maybe they should promote the Olympics for an every year affair instead of every four years.

MILLS PRESENTED...Pictured above (left) C. Wayne Mayfield, District Director of ASCS in this area, is shown presenting Prentice

L. Mills, County Executive Director for the Parmer County ASCS, with a 20 year Certificate of Service Award.

Mills Honored For 20 Years Of Service

Prentice L. Mills, County Executive Director for the Parmer County ASCS was presented a 20 year Certificate of Service Award recently.

Mills started his career with the Agricultural Stabilization and Conservation Service (ASCS) early in 1956. He spent a short time both in Hale and Briscoe counties before coming to Parmer County on July 1, 1956 where he has been charged with the responsibility of administering

the various farm programs for a little over 20 years.

Mills says, "My family and I moved around quite a bit before coming to this county, but, we knew after we had been here a short time that we had really found a home. We (my wife LaVon, and I) enjoy living here and it has been a real pleasure to have had the opportunity to serve, and do business with, the people of this county. I hope to be privileged to continue in this endeavor for the remainder of my working life."

Lutherans Schedule Installation Rites

The Reverend William Rumpel will be installed as pastor of Immanuel and Redeemer Lutheran churches on Sunday, August 1 at 7 p.m.

The installation service will be held at Immanuel Lutheran Church in the Rhea Community. The public is invited.

Guest speaker for the special service will be the Rev. James Restvedt of Littlefield.

Rev. Rumpel was born in the state of Washington, but spent his boyhood in Nampa, Idaho on his parents' farm. He has six brothers, two of whom are deceased, and two sisters.

The new pastor graduated from Concordia Seminary in Springfield, Illinois in 1957. He was ordained at St. Peter Lutheran Church in Bowie, Texas. He has served parishes at Bowie-Bridgeport; Marion, Kansas, Crete, Nebraska and Lincoln, Missouri.

Pastor Rumpel is married to the

REV. WILLIAM RUMPEL

former Louise Harder, and they have two children, Mrs. Phil (Mary Lou) Graves of Wichita, Kansas and David Rumpel, who is in the U.S. Navy stationed at Norfolk, Virginia. Rev. and Mrs. Rumpel will be at home at the church parsonage at 1301 Maple.

Farm Safety Week Slated July 25-31

National Farm Safety Week is set July 25-31 according to Dr. Gary Nelson, Safety Engineer for the Texas Agriculture Extension Service. National Farm Safety Week is designed to affect the thinking and work habits of those involved in agriculture.

The safety engineer suggests that farmers and ranchers look at the observance in a positive sense with the realization that accidents can happen to anyone and that something can be done to reduce their occurrence.

"Nothing in life is completely safe or unsafe; there are only 'levels of risk.' Accidents are more likely to occur under high risk than low risk conditions," says Nelson.

"Every individual has some degree of control over the kinds of risk to which he exposes himself," points out Dr. Nelson. "By practicing risk control, an individual will tend to expose himself to only those circumstances that involve 'reasonable risk'."

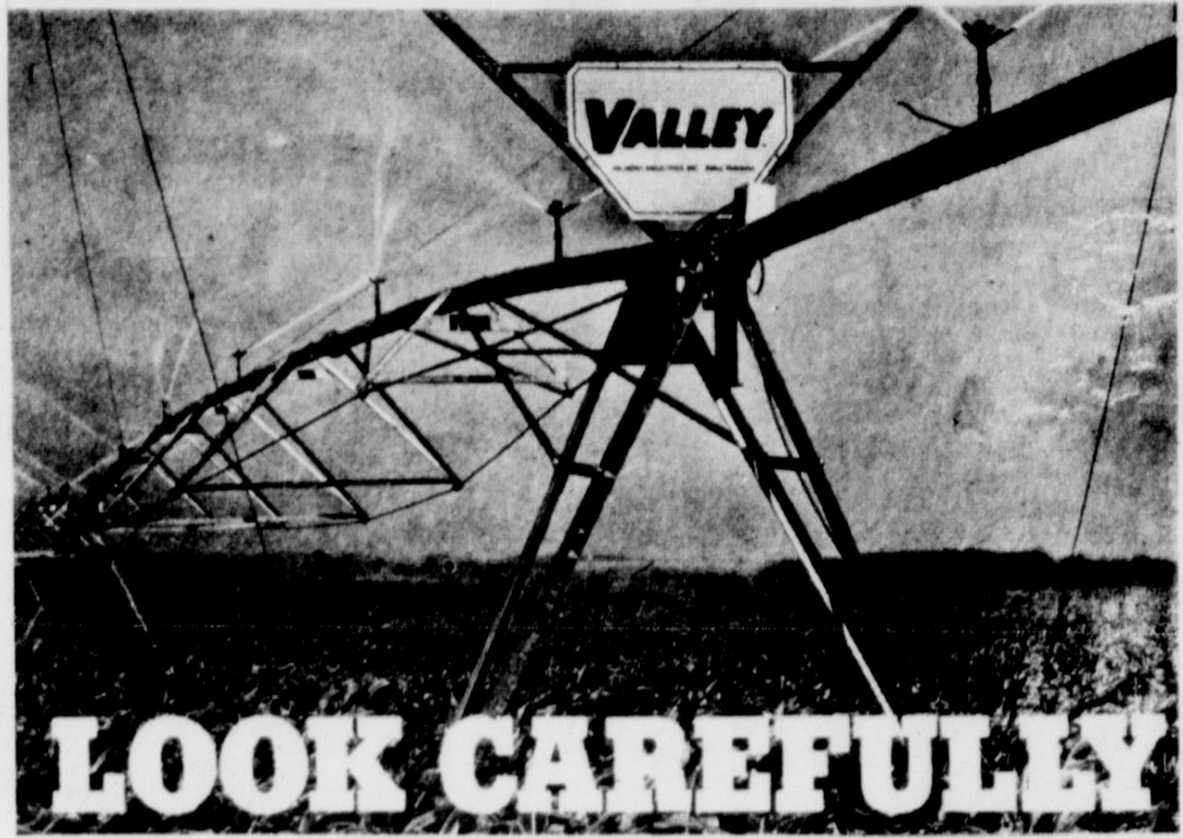

Nelson defines 'reasonable risk' as risks taken to realize a benefit greater than the potential loss associated with the risk. A reasonable risk is usually associated with activity where there is not only a low probability of injury or property damage, but the severity of possible injury or damage is also low should an accident occur. "Practicing 'risk control' involves a continual evaluation of the risks around us and then choosing to avoid those hazards associated with a high risk—those with a high damage potential and a high probability of occurrence. By playing the odds in our favor, we will all gain increased freedom from accidents," contends Nelson.

Sets Revival Meet

Friona's United Pentecostal Church has a revival meeting scheduled for next week. Dates will be Wednesday through Friday, July 28-30, and then Sunday, August 1.

Rev. Bill Treece of Beaumont will be the evangelist. Services will be at 7:30 p.m. nightly. There will be special music at each service.

The public is invited to attend, says Rev. Gaylon Chapman, pastor.

"Texas" Production Has Surprise Guests

Paul Green, the author of the spectacular musical drama, "TEXAS," attended performances in the theatre of Friday and Saturday of last week. He encountered two surprises. One was the largest attendance at any performance last Saturday, 2095 people.

The second was the unexpected entry of a deer and a faun on the stage. During the Dugout scene, a deer suddenly appeared, stood calmly in front of Quannah's rock and looked steadily at the audience for several seconds, standing in the light. Soon, she was joined by her faun. They stood awhile, looking at the audience, then slowly moved out of sight.

This has been a year of celebration and recognition for Green. When several communities planned their Bicentennial activities, they realized that Green's work had been developing faith in America for over fifty years, and so they turned to him.

Fayetteville, North Carolina, revived "The Highland Call," a story of the Highland Scots in North Carolina during the Revolutionary period, which had played there in 1939. The drama played in an indoor memorial theatre from February 26 through March 14.

The season opened with a tribute

to Paul Green from the Governor of North Carolina and with a party in his honor attended by representatives of his shows from all over the nation. Ten are in production this year.

In Ohio, he was presented with a doctoral degree for his work in presenting the history of the Moravian people in "The Trumpet and the Land."

Two new Paul Green musical dramas are opening this summer. The first is "The Louisiana Cavalier," in Nachitoches which opened on June 20. This is the story of Luis Juchereau St. Denis, a strong and magnetic character who lived and explored in and around the earliest city in Louisiana and across the border into Texas during the early 1700s.

The second new show, "We The People," the story of George Washington and the events leading to the adoption of the United States Constitution will play in the Merriweather Post Pavilion in Columbia, Maryland from August 6 through September 5.

There are still many seats available for the production, "TEXAS," especially during the week. To make reservations, call 806-655-2182 or write "TEXAS," Box 268, Canyon, Texas, 79015. Barbecue dinner is served at the theatre before each performance.

SCS Report

Family farming in the United States is holding its own as the most permanent and dominant influence in America's agriculture.

This view of modern agriculture expressed by Secretary of Agriculture Earl L. Butz, was recounted by Soil Conservation Service Administrator R.M. Davis in an editorial in the July issue of Soil Conservation magazine.

According to Davis, Butz reports that about 95 per cent of all U.S. farms are still family farms and produce about 60 per cent of all farm produce sold. More than 90 per cent of the farms are closely held family operations rather than large agribusiness firms.

"The ability of the family farm to survive is good news for conservation because the family farmer is also the mainstay of soil and water conservation," Davis said. "Family farms have been first in conservation since the beginning of the Soil Conservation Service."

It was the family farmers who offered their farms and demonstration sites for new conservation practices. They organized conserva-

tion districts, tried out new agricultural practices and products, installed conservation measures, and developed and supported soil stewardship in local churches.

"Almost always, it is the family farmer or rancher—frequently encouraged by sons and daughters—who is the first to try out new parallel terrace systems or no-till farming, then invites the neighbors over for a look," Davis said.

"As we mark the 200th anniversary of our country's birth in freedom, we should remember that it was the yeoman farmer, the family farmer, who 'fired the shot heard around the world,' and eventually won our independence.

"Now it is the family farmer—and rancher—who keeps alive our voluntary program of soil and water conservation...who conserves and improves our basic resource," Davis concluded.

Temple, Texas—The 1776th upstream flood prevention dam to be built in Texas was the site of a ground breaking ceremony in Coleman July 12.

Congressman Bob Poage and Omar Burleson were the featured speakers for the 2 p.m. event to be held off Farm Road 53 about one mile west of Coleman. Other speakers will include George C. Marks, state conservationist for the U.S. Soil Conservation Service; Temple, J. Hugh Stemple, Mayor, Coleman; W.W. "Pete" Skelton, County Judge, Coleman County Commissioners Court; and Ben Wilson, chairman, Central Colorado Soil and Water Conservation District.

Memory Lake '76 will be

the name of the new flood prevention dam. It will be built at the site of Old City Lake, built at the edge of Coleman in 1904. The old dam has deteriorated so badly that it will be removed and replaced during construction of Memory Lake '76.

The new lake will provide both flood prevention and recreation storage. The City of Coleman will pay the cost of the added recreation storage.

The dam is the last of 38 floodwater retarding structures to be built in the Jim Ned watershed project, which was started in 1960. Sponsors of the project are the Brown-Mills, Central Colorado, Runnels, and Middle Clear Fork Soil and Water Conservation Districts; Taylor and Coleman County Commissioners Courts; Taylor County Water Control and Improvement District No. 1; and the City of Coleman.

Sponsors secure all needed land, easements, and rights-of-way for watershed projects; they also operate and maintain completed structures.

Planning and construction funds are appropriated by Congress and administered by the Soil Conservation Service. SCS personnel also perform design, layout, and inspection services.

A key feature of most upstream watershed projects is a network of floodwater retarding dams. The dams catch runoff water during heavy rains, then release it slowly to prevent downstream flooding to cities, farmland, roads, bridges, and other properties.

The first upstream watershed dam in Texas was built near Jacksboro.

WORK CONCLUDED...A piece of heavy equipment is shown on the Cemetery Road, as work on that paving project was completed this week.

County Ranks High In Cattle Numbers

Parmer County ranchers placed number three in the state in the total number of cattle and calves, with some 170,000 head on hand at the beginning of 1976. Agriculture Commissioner John C. White has announced.

Texas as a whole placed first in two categories, with 15,600,000 cattle and calves reported on Jan. 1, 1976, 6,480,000 of which represent beef cows that have calved.

"Cattle ranchers in Texas managed to shave a million cattle from throughout the state between Jan. 1, 1975, to 127,976,000 at the first of 1976.

Add flavor to hamburgers by putting in one grated raw potato for each pound of ground meat.

Annual Jr. Rodeo Slated In Amarillo

When the chute gates open on the Second Annual Junior Rodeo Championship Friday and Saturday, July 30-31, in Amarillo's Will Rogers Range Riders Arena, contestants will be vying for 13 \$500 belt buckles. A first for any rodeo organization, Pro Rodeo Production Company of Amarillo has had the buckles especially designed by Gary Gist.

Action begins nightly at 7:30 with only 20 entrants—ages 15-19—competing in each event.

On the program are bull riding, bareback bronc riding, girl's steer riding, goat tying, barrel racing, pole bending, ribbon roping, breakaway roping, steer wrestling, team roping and calf roping.

First place winners in each event will receive the \$500 belt buckle. Another rarity of this particular rodeo will be the two head-go, presenting a better opportunity for winners seeking top money.

Interested rodeo contestants may contact the rodeo headquarters at 112 East Cactus in Amarillo or phone 383-6590.

Stock for the event will be furnished by the Double D Rodeo Company of Raton, N.M.

Tickets are available at Roden Brothers Auto Supply, 4809 River Road; Stockman's Saddle Shop in Amarillo; or write P.O. Box 4143 in Amarillo.

With Your News Item

Our recent damp weather with measurable rainfall in several places, combined with a lot of work and irrigation has made Friona and the surrounding territory look like it is dressed up in its "Sunday Best."

For a long time the V.R. Jordans, who live the second house south of the overpass on the east side of Highway 214 have grown gladioli in their flower beds, but this spring they put all of them in several rows north of their drive and such beautiful blossoms are a rarity indeed.

If you haven't driven out that way recently, all by means take time to go as far as the Jordan home just to see the beautifully colored glads that are blooming now.

Corn is tasselling just about any direction you want to go and other crops are growing rapidly. Then, there are a number of pretty gardens growing in town as well as on the farms around.

Real soon homemakers will be canning, freezing and pickling fruits and vegetables. Manufacturers of flats for canning jars have promised us that there will be no shortage of this season. I'm hoping they keep their promises.

We bought several dozen flats from Rodney and Oleta Hinkle, both formerly of Friona, in Panhandle Monday afternoon. The Hinkles own and operate Andy Schulze's store there. It looks like an old fashioned general mercantile store.

The Hinkles also mix and distribute a superb doughnut mix under the label "Andy Schulze's Dream home mix Doughnuts." They also sell doughnuts ready to eat and they're delicious.

Rodney and Oleta's oldest son, Delwin, attends Baylor University, Waco, but is home this summer and is helping with the store, which is a family project. Visiting with the Hinkles was a pleasure.

We went to Panhandle to pick up two of our grandchildren. Joel and Heather Osborn of Garland are visiting us. Only grandparents can fully realize how much fun grandchildren really are.

Little Renea Terry, the six year old granddaughter of Ross and Ruth Terry, has been visiting her grandparents for the past three

weeks. During this time she has been enrolled in swimming lessons and admired her teacher Philip Duggins, very much.

Thursday of last week her parents, George and Linda, became parents of another daughter and Renea was very anxious to go to Amarillo to see the new baby.

However, she told her grandmother, "I want to go to see the baby, but I want to come back to Friona and take some more swimming lessons from Philip."

By the time Ross and Ruth were ready to return home, Renea changed her mind and decided to postpone further swimming lessons with Phillip so she could stay home with her baby sister.

Johnny and Gay Bingham of Houston have been visiting Friona relatives and friends.

They were guests in the homes of Mr. and Mrs. John Bingham and Mr. and Mrs. Louis Welch and Lynn. The Bingham and some Houston friends had spent some time at the Welch cabin near Cowles, New Mexico.

Jean Murphree of Tucumcari came over recently. Then she, June Spring and Edwina Davenport took off for the Alamo City. Jean and June visited their daughters, Ginger and Susie, and Edwina visited an aunt.

They had a fun weekend in addition to visiting relatives.

Sandy and Monte Sue Welch Bailey and children, Shawn and Heather, have spent the summer in Friona, but are moving to San Antonio, where Sandy will enter dental school.

Farming was a new experience for Sandy, but he enjoyed most of it. Just before he was ready to leave, something slipped and hit him in the mouth and damaged his front teeth to the extent that he had to have dental work done.

It is good to see Wanda White walking in the afternoon. She is making satisfactory recovery from surgery and is taking the exercise she needs to make her stronger.

Since Wanda has been home from Lubbock, Larry Frank and Shirley

White Truitt have been here. They also visited Larry Frank's parents, Mr. and Mrs. Frank Truitt.

Thelma Johnson was home last weekend, but had to return to Houston for further treatment. She was accompanied back to Houston by a niece, Mrs. Eugene Bandy.

The Darrell Simpsons from Las Cruces were here last weekend for the wedding of their son, Danny, and Hope Mays. They both looked good and seem to like being New Mexicans.

Tommie Parker had a very special friend a long long time ago when she was in grade school. The friend moved from the Leonard area, where the two attended a rural school, and Tommie lost track of Eppie Mae Jones.

Later the Jones family moved back to the community, but by that time Tommie's family had moved to West Texas.

Recently, Eppie Mae Elder visited her old home town and ran onto one of Tommie's brothers. During their conversation, Eppie Mae, who has lived in Portales a long time, learned that Tommie lived here, so wrote to her.

Then, last weekend Tommie went over and visited her grade school friend, whom she had not seen in more than half a century.

Joe Carlisle of Anton, whose wife is the former Carolyn Parker, recently had skin grafts on one hand as a result of burn injuries he received several months ago.

He has been dismissed from the hospital and was able to return to work a week or so ago.

Mr. and Mrs. Clarence Ashcraft spent last weekend with Mr. and Mrs. Frank Reed and children, Ronnie and Zonya, in Borger. Mrs. Reed is the former Betty Zon Ashcraft.

Dick and Lucille Rockey and Henry and Tom Lewis are home after an extended trip, which took them all the way to Madison, Wisconsin.

They visited in the home of Mr. and Mrs. Del Lewis and children, Amy and Tyler Edwin. Most of those who are older remember him as Don

Edwin, who sang and danced his way to fame in Friona High School about 20 years ago.

However, to those who are younger, he is Del Lewis, the drama workshop conductor. He has conducted drama workshops here several consecutive summers, but this summer he's teaching in a college at Spring Green, Wisconsin.

The Frionans returned home through Indiana, Illinois, Kentucky, Tennessee, Arkansas and Oklahoma. Think it took them four days to cover less than 1200 miles, but they had a lot of looking to do enroute.

Incidentally, Tom and Henry have a sweet pea tree growing in their backyard. They have had it several years. Another sweet pea tree is growing in the yard of Mrs. Iva Petty Hibdon. The Troy Sharrocks live in Ms. Hibdon's house.

Weekend visitors in the home of Mr. and Mrs. Larry Martin and sons were Carolyn Martin, who lives in Big Spring, and Mrs. Jeff Harkey of San Angelo.

Carolyn and Susan are daughters of the Martins and are enjoying living in neighboring towns.

Tom Bill Shelton, son of Mr. and Mrs. Luther Shelton of Friona, has recently been appointed Assistant Director of the School of Diesel Mechanics at Amarillo College.

Mrs. Lena Steinbock of the Lazbuddie Community has been entertained the past couple of weeks by her two granddaughters from Houston.

Mr. and Mrs. Bert Williams, Mrs. Steinbock's daughter, brought the girls, Sheryl and Susan, to Lazbuddie and left them for two weeks with their grandmother.

Mrs. Bobby Broyles of the Lazbuddie Community, another daughter of Mrs. Steinbocks, took the girls to Abilene last Wednesday to meet their mother and return to Houston.

TO ATTEND CAMP...Seven Parmer County 4-Hers left Monday for Camp Scott Able near Cloudercroft. Attending the camp are, from left, Tom Mesman of Farwell, Joan

Carson of Bovina, Kelly Mitchell of Farwell, Linda Gohlke of Farwell, Kenny Guest of Bovina, Cheryl Gohlke of Farwell and Ted Mesman of Farwell.

4-Hers Attend Camp Scott Able

Seven 4-H Club members from Parmer County left Monday on a five-day trip to New Mexico's Camp Scott Able near Cloudercroft for training in leadership and electrical projects, according to County Extension Agent Jana Pronger.

Each year three boys and three girls, accompanied by an adult, are selected from each of the 20 counties in Texas Agricultural Extension Service District 2 to attend electrical camp.

This year's delegation from Parmer County include Kelly Mitchell, Cheryl and Linda Gohlke, and Ted and Tom Mesman of Farwell and Kenny Guest and Joan Carson of Bovina.

They left Monday by bus, returning Friday, July 23. In all, some 125 youths and 18 adults are going.

The event, Miss Pronger says, provides leadership training and

teaches 4-H members, leaders and County Extension Agents how to conduct 4-H electrical projects and method demonstrations, and how to conduct recreation.

First Child Born

To Lindemans

Lisa Dawn is the name given to the first child of Mr. and Mrs. Freddie Lindeman of Abilene, Texas.

Born July 10 at 3:30 a.m., she weighed seven pounds, five ounces and was twenty and one-half inches long at birth.

Her grandparents are Mrs. Patti Grand of Dimmitt, Jimmy B. Hughes of Houston and Mr. and Mrs. Jim Lindeman of Plainview.

Great-grandparents are Mrs. Vivian Hughes and Mr. and Mrs. L.D. Gosner, all of Friona.

Mrs. Lindeman is the former Pauletta Hughes of Friona.

CATTLE MANURE

Great for this year's crop ... and the next and the next and the next.

Unlike raw manure, Tilleez nutrients are available for plant uptake for this year's crop. And, it builds the soil and moisture-retaining capacity for future crops.

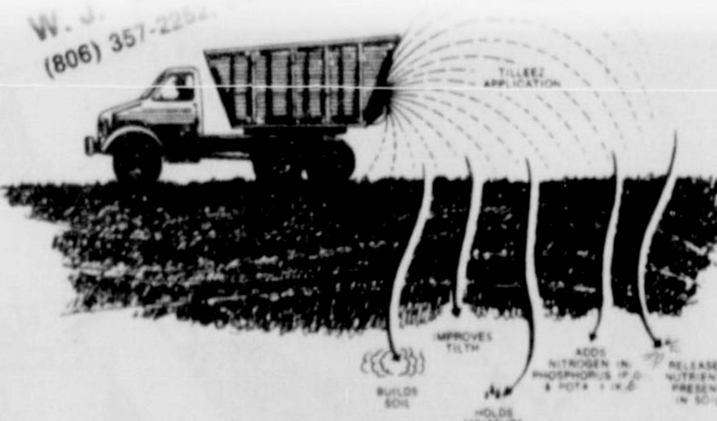

Tilleez benefits your soil and gives it improved tilth. The bacterial mass developed in the Tilleez process makes use of the locked-up nutrients, already in your soil, by converting them to readily usable plant food.

And, with all of these advantages, you still get a good supply of nitrogen... usable nitrogen!

Tilleez is the result of a unique process of aerobic bacterial digestion that converts raw manure into a valuable soil conditioner and fertilizer. In the big million-dollar plant at Summerfield, aerobic microorganisms create the heat that kills weed seeds and changes the manure into a form that makes its natural nutrients readily available to plants.

Tilleez is a product of the BioCon Division of Searle Agriculture.

For more information call, collect, W. J. "Mop" Lueb, BioCon Division (806) 357-2255, Summerfield, Texas

SPECIAL INTRODUCTORY PRICE!

For the next 90 days (until October 1), Tilleez is available at a special low price... competitive with commercial fertilizers.

Hope Mays, Danny Simpson United In Church Ceremony

Lin Hope Mays of Friona became the bride of Danny Mark Simpson of Canyon, at 8 p.m. on Saturday, July 17.

The ceremony was performed by Edwin L. Bridges of Hereford in Friona's Calvary Baptist Church.

The bride is the daughter of Mr. and Mrs. Walter Harrell Mays of Friona. The groom is the son of Mr. and Mrs. Darrell D. Simpson of Las Cruces, New Mexico.

The church was decorated with an arch of greenery with blue bows, two candelabras with blue tapers; two baskets with arrangements of spring flowers in pastel colors and blue bows marking the family pews.

Musical selections were presented by Carol Bavousett, Jeanine Jarboe and Pam Veazey, vocalists, accompanied by Gayla Self, organist. They presented "Precious and Few" and "There Is Love."

The officiating minister sang "The Lord's Prayer."

Mrs. Kim Parr of Friona was matron of honor. Faith Mays of Friona served her sister as bridesmaid.

Terry Thompson of Nacogdoches was best man. Rickey Johnson of Friona was groomsman. Ushers were Harrell Mays, Jr. of Friona, brother of the bride, and Kim Parr, also of Friona.

Candlelighters were Charity Mays, sister of the bride and Tera Simpson, sister of the groom.

The feminine attendants wore dresses designed and made by Faith Mays. The dresses featured full sleeves of white eyelet with skirts of white eyelet and blue and white checked gingham squares. They carried nosegays of spring flowers with white streamers.

The candlelighters' dresses were blue and white checked gingham with full sleeves and white eyelet trim.

As the bride was presented in

marriage by her father, she wore a formal length gown of chiffon over faille taffeta, featuring a mandarin neckline of re-embroidered lace and a circular florence extending around the yoke centered with satin bows, both front and back. The sleeves, ending at the wrist, were of the same trim.

Her fingertip veil of bridal illusion was attached to her picture hat with silk, blue and white roses and satin ribbon.

The bride carried a bouquet of white sweetheart roses, baby's breath and blue streamers.

Following bridal tradition, she wore a pearl and gold necklace, a gift from the bridegroom, and her gown for something new. Something old was her Grandmother Morrison's wedding ring. Something borrowed was a garter worn by Mrs. Edwin Morrison Jr. in her wedding and she wore blue flowers in her hat.

A reception in the Fellowship Hall of the church followed the ceremony.

Mrs. Valerie Rutherford of Hereford presided at the guest register.

The serving table was covered with a white lace cloth over blue underlining. An arrangement of spring flowers accented the table setting. Punch, cake, nuts and mints were served from crystal appointments.

The three tiered wedding cake was separated by white pillars on a base of four round cakes. The cake was iced with white, trimmed with blue and white wedding bells. The cake was topped by a trio of flower filled satin wedding bells.

The cake was made by Mrs. Larry Moyer.

Mrs. Gary Duke of Fallbrook, California, served cake. Punch was served by Janice Hayes of Plainview.

Other members of the houseparty were Mrs. Max Self, Mrs. C.H. Veazey, Mrs. Larry Moyer and Mrs. Edwin Bridges of Hereford.

Following a wedding trip to New Mexico, the couple will reside in Chaparral Villa in Canyon, Texas.

Out-of-town guests were: Mr. and Mrs. Edwin Morrison Sr., Mr. and Mrs. Edwin Morrison Jr., Scott, Kathy and Wendy, Mr. and Mrs. Floyd Dunavan, Mr. and Mrs. Ira Scott and Mr. and Mrs. Mike

Bridges, all of Hereford; Mr. and Mrs. Johnnie Mays, Mr. and Mrs. Chester McMillan, Mr. and Mrs. James D. Mays and Brad and Jolekay Stanford, all of Amarillo.

Also, Mrs. J.C. Mays, Mr. and Mrs. Andy R. Mays, Mr. and Mrs. Anthony D. Mays, Sabrina and Cory, all of Dimmitt; Mr. and Mrs. Gene Simpson and Peggy of Denver, Colorado; Mr. and Mrs. Robert Simpson of Cheyenne, Wyoming; Mr. and Mrs. G.A. Haws of Bethany, Oklahoma; Raynette Evatt and Joe Cox of Ralls, Texas.

Also, Janet Lehman and Tip Nunn of Greeley, Colorado; Mrs. Dean Peters, Cinda and Kenten of Ulysses, Kansas; Jan McKenzie of Canyon; Mrs. Charles Springer, Kristi, Colby, Jolby and Charleine, all of Hereford; Julie Cooke of Landrum, South Carolina; Mr. and Mrs. Johnnie Messenger, Diane and Dewayne of Throckmorton, Texas; and Mr. and Mrs. Joe Thrasher of Clovis, New Mexico.

The bride is a graduate of Friona High School and is a student at West Texas State University at Canyon. She is currently employed at the University News Service.

The bridegroom is a graduate of Friona High School and attended South Plains Junior College at Levelland and will be a student at West Texas State University this fall. He is employed at Irwin Greenhouse at Canyon.

Mrs. Danny Simpson

Jan Turner's Photos Tabbed For Exhibition

Two photos by Jan Turner of Friona have been selected for exhibition by the Jury Panel for Focus 76, an annual photography exhibition sponsored by the TOP of Texas Branch of the National League of American Penwomen, Inc.

The photos, entitled "Remembered Place in Stone" and "From A Mouse's Point of View," will be shown July 23, 24 and 25 along with other photographer's work at the Amarillo Civic Center.

Mrs. Turner, a freelance writer from Friona, received her B.S. Degree in photojournalism from East Texas State University.

While attending ETSU, she worked as a writer-photographer for the Commerce Journal, Commerce's weekly newspaper.

In 1971, Mrs. Turner was the editor of "Items," a trade magazine for the Federal Reserve System of Dallas.

As editor, she was the "Judge's Choice" winner in the Dallas Chapter of the Industrial Association of Business Communicators for photography, and for accomplishment as a rookie in industrial editing.

In 1972, she served as interim editor for the Commerce Journal and was an award winner in the Northwest Texas Press Association annual contest for news photography.

Mrs. Turner is married to Jay Turner, who farms in the Friona area. She writes feature stories for the Friona Star, and was recently awarded a first place plaque for news features in the 1976 Texas Press Association Contest held in San Antonio. The Star was the only newspaper in the Texas Panhandle to receive a first place award in any category.

Local Man Installed

Carl Mason of Friona was installed July 14 as Grand Fraternal Affairs Director of the International Secretary-Treasurers' Association (ISTA) of the Order of United Commercial Travelers of America (UCT).

ISTA is a UCT auxiliary comprised of approximately 700 secretary-treasurers of the organization's local and regional offices.

The election of the officers was held at the 72nd annual meeting of the association at the Statler Hilton Hotel, Boston, Mass.

The UCT is a fraternal benefit society, founded in 1888. Its members are organized to provide civic service through programs such as aid to the mentally retarded, safety, cancer education youth and enrichment.

Since 1959, UCT has helped prepare more than 3,500 teachers in the education of the mentally retarded, by awarding scholarships to students interested in special education.

In their own communities, members have contributed more than one million dollars in man-hours and cash developing programs for the mentally retarded. They have funded sheltered workshops and purchased materials and equipment to be used in the promotion of educating and training the retarded to be useful and, often, self-supporting citizens.

With a total membership of approximately 250,000, UCT has 681 local councils in 47 states, the District of Columbia and all the provinces of Canada.

Approximately 1,400 persons assembled at the Boston Statler Hilton, July 12-15, for UCT's 89th international convention.

Second Daughter

Born To Terrys

Mr. and Mrs. George Wayne Terry of 311 West 28th Street, Amarillo, became parents of a baby girl at 4:50 p.m. Thursday, July 15 at Southwest Osteopathic Hospital.

She was named Dawna June and weighed seven pounds.

Dawna June has one sister, Renea, who is six. Mr. and Mrs. Ross Terry are her Friona grandparents.

Society

Bridal Courtesies Honor Local Bride

Hope Mays was honored with a miscellaneous bridal shower on Saturday, June 26 at Friona State Bank's Community Room.

Gayla Self registered guests. Jeanine Jarboe and Diane Hamilton served punch and cookies.

Special guests attending the shower were Mrs. Darrell Simpson, mother of the prospective bridegroom; Mrs. Harrell Mays, mother of the honoree; and Mrs. Edwin Morrison, Sr. of Hereford, grandmother of the bride-elect.

Hostesses were Mrs. Max Self, Mrs. Nelson Lewis, Mrs. Kim Parr, Mrs. Ira Holt, Mrs. Elroy Wilson, Mrs. Milburn Bennett, Mrs. Lee Spring, Mrs. Tom Jarboe, Mrs. C.H. Veazey, Mrs. Steve Bavousett, Mrs. Estis Bass, Mrs. Billy Joe Mercer, Mrs. Lewis Gore, Mrs. Tom Shelton, Mrs. Herb Evans, Mrs. Glyn Hamilton and Mrs. Charles Spring.

Two Bridal Showers Fete D'Aun Wilson

D'Aun Wilson was the recipient of two bridal showers prior to her marriage to Harry Watkins on July 10.

A miscellaneous shower, given in the home of Mrs. Marion Fite, was held on Friday, June 25.

Hostesses, in addition to Mrs. Fite were Zelma Thorn, Christine Shirley, Beth Thompson, Lavon Renner, Joyce Wells, Betty Phipps, Billie Homer, Eula Bradshaw, Odie Claborn, Billie Vaughn, Sondra Nichols and Dena Fite.

The honoree's chosen colors of blue and white were carried out in the table decorations with an ecru hand embroidered lace tablecloth over blue linen. The floral centerpiece consisted of blue and

white carnations and white flocks in a candelabra vase. Refreshments of cookies and punch were served to those in attendance.

Mrs. Glenn Rebber of Lubbock, sister of the honoree was a special guest.

A bath shower honored D'Aun Wilson on Monday, June 28 in the Community Room of Friona State Bank.

Hostesses were Sherri Thorn, Earlene Graham and Paula London. The honoree's colors of blue and white were carried out in the table and floral arrangements. Punch and cookies were served to those attending.

AT OLTON

Three Former Friona Residents In Drama

Three former Frionans, Tammy and Shelli Williams, daughters of Mr. and Mrs. Dale Williams, and Patti Cary, daughter of Mr. and Mrs. Dale Cary, all of Olton, will be among cast members in a musical outdoor drama, "Giants of the Great Plateau" to be presented July 30 and 31 at 8:30 p.m. in Olton. Also appearing in the play is Tammy Green, niece of Mr. and Mrs. V.R. Wilcox. Tammy and Shelli are granddaughters of Mr. and Mrs. Glenn Williams.

The musical drama, written by Bettye Givens of Olton, depicts life on the Texas Plains in the early 1900's. It is the story of the cowboy, the nesters from the north and the

foreigners who settle the area and their triumph over the frontier.

The story concerns Tappie, played by Tammy Williams, who comes as a young bride and immediately wants to go home again and her husband, Abe, who loves the land and wants to stay. There is music, dancing, romance, sadness and history. The story of the West Texas pioneer couple is typical of those coming to this country about the turn of the century.

The music is composed by Ron Lange of the University of Texas at El Paso and Ken Lange, professor of music at the University of Hawaii. Director of the pageant is Olton speech and theater teacher, Marilyn

Miller. Choreographer and dance instructor is Suzanne Aker of Lubbock.

The amphi-theater is located on the banks of the headwaters of the Brazos River, F.M. 148, 6 miles north of Olton. Seating will be provided by the audience which will be asked to bring its own blanket to sit on slopes while picnicking and taking in the historical pageant.

Tickets are priced at \$3 for adults and \$1 for children. A chuck-wagon supper will be served from 6:30 to 8 and tickets for the meal and-or pageant can be purchased at the site.

El Monterrey Longtime Dining Favorite

(Editor's Note: Star feature writer Jan Turner has written the following article and taken accompanying pictures for an upcoming issue of "New Mexico" Magazine. She decided to allow Friona readers to preview the article.)

BY JAN U. TURNER

"Most people eating here now started out in high chairs," commented restaurant co-owner Jim Smith, adding with a wink, "We like folks to bring their young-uns in before they sit in high chairs so they can smell the food and get used to it!"

One of Clovis' oldest restaurants, El Monterrey's Mexican food is a favorite with Frionans. Its popularity is not limited to our area: word of mouth praise has attracted people from coast to coast.

"Over the years maybe 15 people have come up and said, 'We came all the way from California to eat here because we heard of you,'" Smith told.

He added, "People at Cannon Air Force Base give us good business, and when they leave they generally spread the word about us."

"The thing that makes our food different from anyone else's is our sauce...that's our own recipe by

Mary 'Sis' Reed, who started the restaurant," Smith said of his maternal great-aunt.

"Really, everyone makes their enchiladas the same way, but we use tortillas made here in Clovis by a man named Martinez, who has his own tortilla business, and we know how he makes his tortillas."

"We use Kraft Wisconsin cheddar cheese because it melts without burning and tastes good," said Smith. As for the sauce, Smith told that it sells for 60 cents a can and makes a quart of sauce when water is added to it.

A closely-guarded secret, the true ingredient that sets El Monterrey's cuisine apart is its sauce. Known only to family members and passed on to succeeding generations, Smith usually spends Sunday afternoons in the kitchen when no one is about to mix up a dry ingredient batch of the famous El Monterrey Sauce for canning and serving in the restaurant.

"The enchilada sauce recipe originated from home trial-and-error by 'Sis' Reed, and was changed in the early days to fit the milder taste demands as more and more people ate there," Smith explained. "It evolved into its present form in 1935 or 1936."

"We began canning the dry powder ingredients in 1946 because ex-Clovis Army Air Field and Camp Reid people would write and ask for the enchilada sauce," Smith said.

The sauce is sold in the restaurant and locally at Clovis' grocery stores. Eventually Smith hopes to expand the sauce-canning business.

Gilbert Anaya, head cook who started work at El Monterrey in 1940 at the age of nine standing on a Coca-Cola box washing dishes after school, commented, "What I'd call a 'Hungry Man Specialty' is one enchilada, a tamale, and a taco...with a pepper on it," he laughed. "And we make the best chile rellenos anywhere...we must, because we have a hard time keeping up with the orders."

And for a plateful that is hard to beat, Anaya recommends three meat enchiladas with eggs. You can bet he knows how to satisfy an appetite with that dish.

El Monterrey restaurant had a humble beginning in the 11' by 22' living room of the original family home at 118 Mitchell Street, where it is still located, although now expanded from a seating capacity in the beginning of about 18 to today's four dining areas which can accommodate over 100 people.

The restaurant was opened in 1934 by 'Sis' Reed, and the living area of the building was occupied by a woman who was an American citizen but had been living in Old Mexico, and whom 'Sis' brought back to the U.S. to help her get it started. As El Monterrey gained popularity, it quickly became obvious that more seating would need to be made available, and eventually the entire house was converted into the restaurant, with the original kitchen still intact, although also expanded.

Only a couple of blocks walk from the Santa Fe railroad station, El Monterrey, in the early days, shared its clientele with the Harvey House, located next to the depot and one among a string of restaurant-hotels established by the Santa Fe during its heyday.

"During that time," Smith said, "the Underwoods of today's 'Underwoods Bar-B-Q Cafeterias' of Lubbock and Amarillo used a private railroad car, and Mrs. Underwood would bring her bridge

club and play bridge on their way over to Clovis, eat at El Monterrey, then play bridge the rest of the day until the Lubbock-bound evening train would come along and pick them up. That private car is still in Lubbock today," he commented.

Nothing plush, El Monterrey's atmosphere strongly suggests a kitchen-table flavor, with its wooden slatback chairs, red-painted wooden tables, black and white linoleum tile floors, soft blue plaster walls, and inexpensive blue cafe curtains.

One unusual feature in the restaurant's north room...the original "living-room-turned-restaurant"...is a built-in hutch which was part of the original 1920-built home. It displays among other items a round handpainted tray, one of the restaurant's early serving trays.

Canvas "sidewalk artist" Mexican paintings are displayed throughout, framed by cedar slats. Polished cedar posts adorn arched doorways, adding a "Mexican-primitive" touch.

It is a comfortable kind of place where "regulars" usually run into friends and acquaintances, and where folks from towns 40 and 50 miles away drive their friends to lunch or dinner as a treat.

El Monterrey's history as a restaurant is closely linked to the history of Clovis itself, which in turn is closely tied to the history of the Santa Fe Railroad and World War

COSTUMED COUPLE...Taken in the mid 1940s, Gilbert Anaya, head cook, and another employee are

pictured on the original porch of El Monterrey before it was remodeled.

JIM AND CASS SMITH...Relaxing over a morning cup of coffee before the restaurant opens at 11 a.m., Jim

(left) and Cass Smith, co-managers, exchange light conversation.

Senior Citizens Plan Party

On Friday, July 30, the Friona Senior Citizens will meet for their regular monthly meeting at the Congregational Church.

Emphasis will be placed on the country's Bicentennial. The group will gather at 10:30 a.m. The 12 noon luncheon will be followed by a program of patriotic music presented by Mrs. Janet Lloyd and daughters.

Following the program, the group will spend the rest of the evening visiting and playing games.

The Hereford Senior Citizens organization has been invited to be special guests at the meeting. Everyone is invited to bring a covered dish and join the group for food, fun and fellowship.

II. Cannon Air Force Base, once called Clovis Army Air Field, is located there.

Formerly Riley Switch, Clovis was founded in 1907 by the railroad and is a major division plant.

"Back in those days they had steam engines and had a huge roundhouse, and nearly everyone in Clovis worked for the railroad," said Colonel Charles R. Smith, one of the owners and father of the restaurant's two owner-managers, Cass and Jim Smith.

"During World War II, practically all the ammo and troops ran through there," Col. Smith said. "This is the line where they could make speed hauling freight because it doesn't go through the mountains between here and California."

Col. Smith nodded toward his wife, "Sis' Reed's niece, and said, "Myrna spent summers working here when she was a girl. I remember in 1941 the Santa Fe train would stop here at odd hours and people would either

eat at the Harvey House or walk up here. They were on a schedule and we had to hustle and bustle to get them out."

A four dollar meal is about as high as an order will generally get; a filling dinner which includes a portion of all their specialties...chile relleno, enchilada, taco, guacamole, and a side order of the tastiest sopapillas this side of anywhere.

Said co-owner Jim Smith, "Our hours are in shifts from 11 a.m. to 2 p.m. and from 4:30 p.m. to 8:30 p.m., and we are open Monday through Saturday. Eleven o'clock is early to open for lunch here, but that's 12 o'clock Texas time, and we have a lot of Texans come over for lunch."

"We've been around so long people just know about us," Smith said, glancing at the clock as the room began filling up for lunch with several Frionans, including Calvin Talley and Porter Roberts, some Clovis "regulars," and an Amarillo attorney.

Increase corn grain yields up to 10% with SPARK.™

Your Helena dealer has an exciting new way to help you increase corn yields up to 10% with SPARK GROWTH STIMULANT for corn, a combination of dinoseb plus surfactant, used as an over-all post-emergence spray on corn has the UNIVERSITY PROVEN POTENTIAL OF INCREASING GRAIN PRODUCTION BY 5% - 10%. Here is how SPARK helps promote bigger yields: -Enhances corn growth -Silks emerge about 2 days sooner -Tassels

Indiana. "We returned \$19 per acre on a \$5 investment...at least a 7-bushel increase. SPARK could mean the difference between a new piece of machinery this year and next year. I'll spray ALL my corn in 1976." Otto Werner, Hanna, Indiana. TIMING... IT'S ESSENTIAL: The most important factor in SPARK application is timing. Look to apply SPARK when corn is in the 6-leaf stage, about 2-4 weeks before tassel emergence when corn is about knee-high. Get into the field, split some stalks, and find the unemerged tassel in length. The best time to apply is when the unemerged tassel elongates from 1/2" to about 7/8" in length. SPARK. PRODUCED WITH THE

means a longer pollination period and a tendency to get away from corn that does not fill all the way out to the end. Enhanced growth, longer pollination, fewer barren stalks, more complete ear-filling. They all add up to big potential production increases and profit.

...AND PROVEN IN THE FIELD. Farmers who have tried SPARK say: "I'll never plant another acre without SPARK." Ralph Russell-Michigan "I got 8 bushels per acre increase...didn't have as many barren stalks, ears were filled out better." Everett Curtner, farmer and bank president, Union City,

Every can of SPARK is lab-tested for consistency and produced under the most careful quality control. When you buy SPARK, you buy the best. Ask your Helena dealer about SPARK, the corn growth stimulant that is leading the way to bigger yields and bigger profits for you.

For more information, contact Helena Chemical Company, South 385, Hereford, Texas, Phone 364-3733. Spark has been registered for use in Texas, Kansas, Nebraska and Oklahoma.
