

Star Lites By Bill Ellis

IN A RECENT STORY we ran, generated by American Agriculture Leaders, concern was expressed by the spiraling incidences of sales of agricultural installations, particularly at the marketing level.

The latest issue of U.S. News & World Report contains an article, entitled "Foreign Investors Go on a Spree in the U.S."

The magazine article points out that overseas interests are buying everything from skyscrapers to farms, mansions and factories, in their quest for safe and profitable investments.

While Americans complain about the high prices of property in this country, especially in areas such as Dallas-Houston and California, foreign investors don't seem to think prices are too high.

One of the most noted of the current foreign investors is Gaith Pharon, the Saudi Arabian businessman who recently bought controlling interest in the National Bank of Georgia, which was once headed by Bert Lance.

Pharon has lent 10 million dollars to a New Orleans group to buy 32,600 acres of Louisiana land with potentially valuable mineral rights. He is also a general partner in the development of the 100 million dollar Plaza of the Americas in Dallas.

During 1978, purchases of farmland alone by overseas investors are expected to total \$1 billion. As far as industrial property, statistics show that a record number of 81 purchases were made by foreigners during the first quarter.

The impetus behind the "spending spree" by foreign investors seems to be the apparent misgivings of many foreigners about political stability at home, and the deflated value of the dollar in relation to other currencies, which makes deals in the U.S. even more attractive.

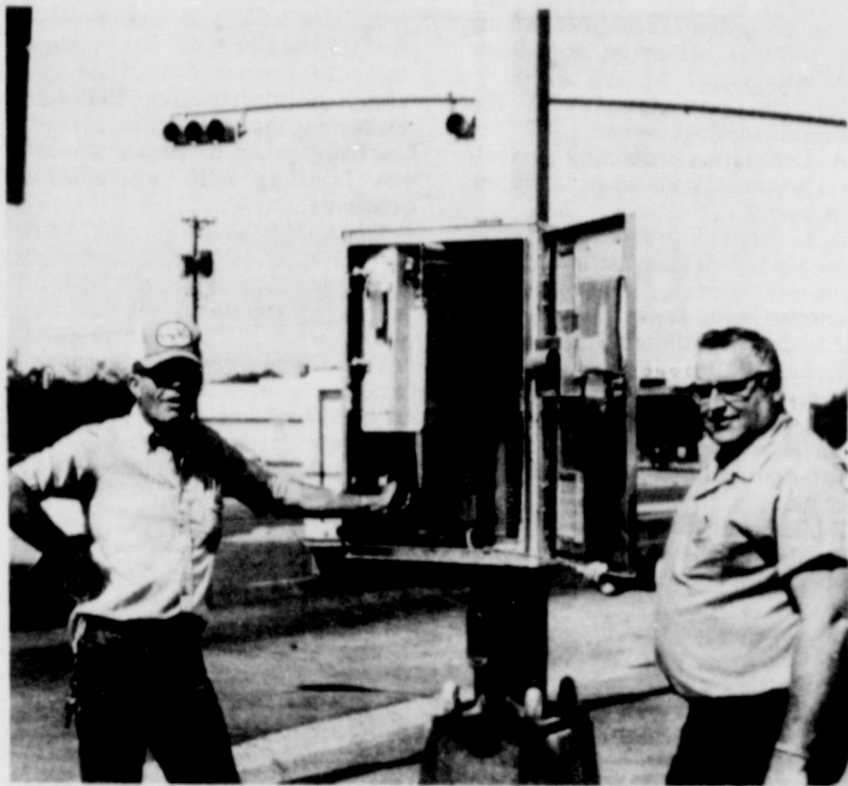

But while many Americans look on this influx of foreign investors with concern, some of our businessmen say they aren't afraid of it.

"Foreign capital built a lot of our ranches and railroads, so we're not afraid of it. We need capital to fuel our machine," says Charles Baldwin of the Houston Chamber of Commerce.

Recent deals in Houston saw the sale of the Saks Shopping Center to the British Airways Pension Fund for more than \$125 million, and the sale of the One Shell Plaza, the city's tallest building, by a group that includes the Deutsche Bank of West Germany.

In Arkansas, 9,000 acres of farmland were bought by Crown Prince Franz Josef II of Lichtenstein, and in Louisiana, 417 million dollars were invested last year by

(Continued on Page 5)

SIGNAL STARTED....The stop and go light at the corner of U.S. Highway 80 and Main Street was put into operation this past Monday morning, and local motorists have been trying to adjust to the change.

Hubert Lindsey, left, of the TDHT's signal department, and Weldon Moody, county foreman for the TDHT are shown at the control box shortly after the signal was activated.

Poarch Is Chairman For Maize Days

Jerry Poarch has been selected as the Maize Days chairman. He reports that all plans are getting underway.

The celebrations are planned for Sept. 12-16. Letters have been sent to clubs and groups that might be interested in participating in the parade.

The Board of Directors of the Chamber has agreed to keep the prices the same this year for the Queen's Contest and the barbecue lunch.

Linda Straw, secretary at the Chamber, said the entry forms for the Queen's Contest are available at the Chamber offices.

The theme has not yet been decided and Poarch would like Friona residents to offer suggestions.

Local political dignitaries have been invited to participate in the celebrations. State Senator Kent Hance has at this time agreed to lead the parade, Poarch said.

At the last Chamber of Commerce and Agriculture meeting, a special thank you was extended to those who worked on the Fourth of July activities.

A discussion was held on ways to improve the celebration and to involve a larger segment of the community in the activities.

One suggestion was to arrange a program of entertainment and presentation of awards to contest winners to be held just prior to the

JERRY POARCH

fireworks display. Any suggestions from the citizens are welcomed.

A new "Welcome to Friona" sign will be constructed on the Bill Loanman farm on Highway 214 South.

The board also voted to sponsor Debbie Menefee, Maize Days Queen, in the Wheatheart of the Nation 1978, if she chooses to enter.

The next board meeting will be held August 8 at 6:30 a.m. at Carl's Farmer House. All members are encouraged to attend the meeting.

Business Celebrates Anniversary

White's Home and Auto in Friona is observing an anniversary with a big sales promotion on Saturday and Monday, July 22 and 24.

In the special event, shoppers will be given an opportunity to win merchandise worth approximately \$400.00 retail.

Grand prize will be a 13-inch Midland color television set. Other prizes will include a Cataline clock radio, a Ranger weed whip, and a \$15.00 gift certificate.

Customers shopping the special two days will receive a ticket with each \$20 purchase, which will be put into the drawing hopper. Tickets will be given in multiples, so that purchases of \$100 will receive five tickets, and so on.

In addition, each shopper 18 years of age and older visiting the store between the hours of 3 and 5 p.m. Monday will receive a bonus ticket for the drawing, which will be held at 5 p.m. Monday.

It will be necessary for shoppers to be present for the drawing in order to win, Hutson says, since the tickets will be numbered.

The sale is marking the 14th anniversary of the ownership of the store by the Leland Hutson family. "We sincerely appreciate the patronage we have received from the residents of the Friona area since we have been in business here," Hutson says.

For the special two-day period, virtually everything in the White's store has been marked down, with price reductions from 10 per cent to 50 per cent on items in stock.

Further information about the sale is included on the advertisement on Page 7 of this issue.

HOW HOT WAS IT????...Well, it was SO hot, that Gale Warren decided to check out the time-honored custom of frying an egg on the sidewalk, and from all

appearances, the egg cooked. Was it really that hot? Well, you might borrow one of Mom's eggs from the refrigerator and try it yourself.

Touch-Tone Dial Coming To Friona

Friona General Telephone customers will be extended the touch tone calling system later this year, according to O.D. Hearne, district general manager.

The estimated date of the conversion of equipment is December, 1978, Hearne said. The converter equipment will convert touch tones at the station into normal dial pulses.

Customers will have a choice of keeping the rotary dial phones or taking the new system. The touch tone system will not be available to party line customers, Hearne said.

There will be additional charges for the service. The cost is \$1.25 for a residence phone for the line and 35 cents for a desk-type phone.

A compact phone will cost 85 cents and a dialing handset phone will cost an additional \$1.60. Business phones will be \$2 per line, with the cost of the phone varying according to the types of phones chosen, Hearne said.

An installation charge would also be added for the new service, he said.

General Telephone will notify the customers in advertising and news

releases when the service becomes available. Installation will begin after the system is converted, Hearne said.

Krueger To Visit

Bob Krueger, candidate for U.S. Senate, will visit Friona June 28. A reception will be held at the Friona State Bank from 1 to 2 p.m.

County Democratic Chairman Hollis Horton said the Congressman wants to meet the people of the area. This will be Krueger's only stop in Parmer County.

He will also visit Plainview, Dimmitt, Tulla and Amarillo the same day. Krueger will leave Friona by helicopter for the trip to Amarillo.

Krueger is running for the Senate seat now held by Republican John Tower. Krueger defeated Rep. Joe Christie for the Democratic nomination.

Program Slated By Workshop

The students of the Friona Summer Drama Workshop will present two musicals July 29 at the High School Auditorium.

The younger group will present a musical version of "Winnie the Pooh," at 2 p.m. Eighteen are participating in this group.

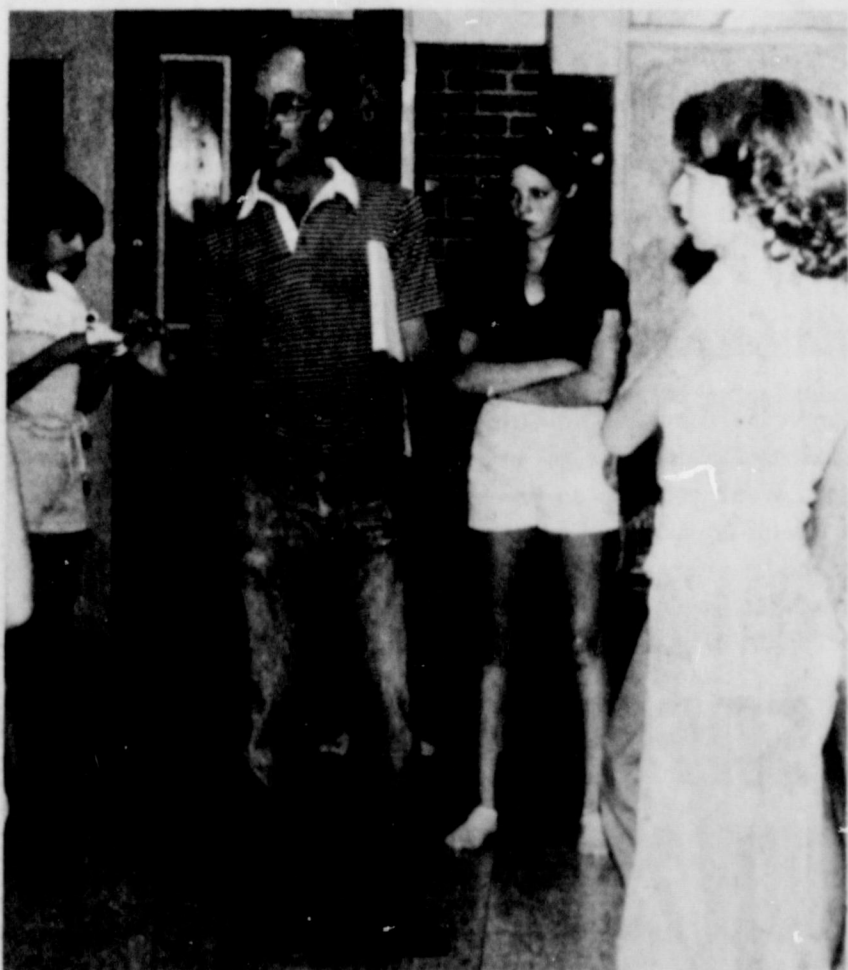

The older students will be presenting a musical review of Cole Porter at 8 p.m. The 28 students-group is the largest ever.

Among the songs on the program are "Blow, Gabriel, Blow," "Night and Day," "Let's Do It," "Why Can't You Behave?" and "From This Moment On."

The younger group meets in the morning and the older students meet in the afternoon and evening.

Jo Witten is the pianist for the older group. Del Lewis is directing the workshop.

Cost for the performances is \$1 for adults and 50 cents for children.

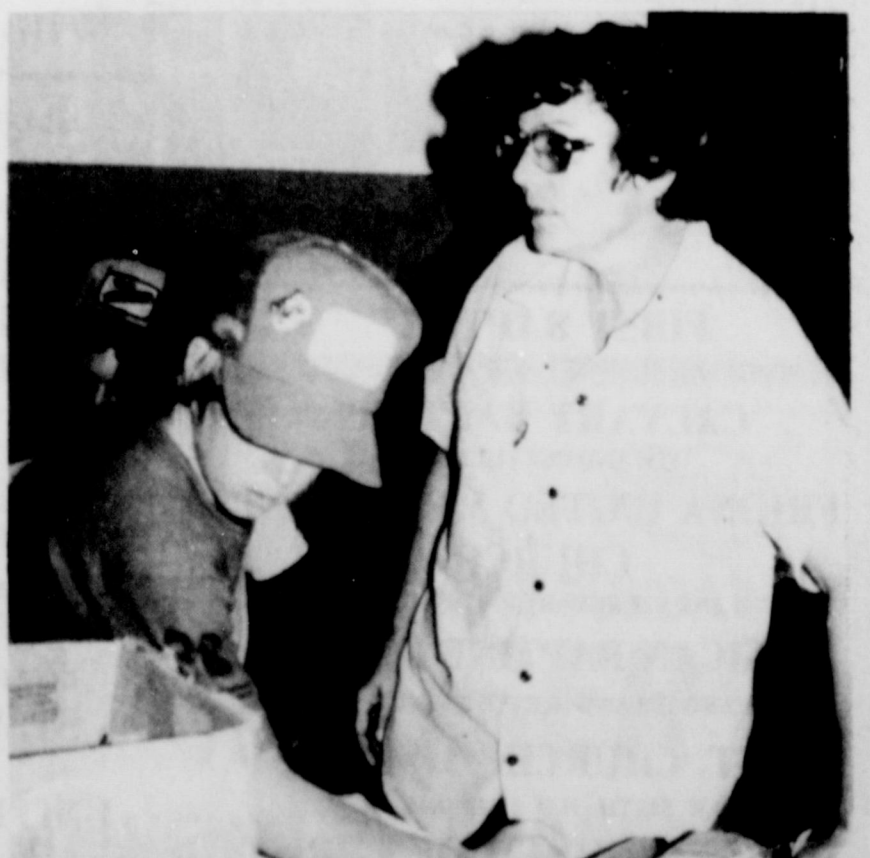

DIRECTOR DIRECTS....Del Lewis is shown giving directions to a group of young people attending the two week session of Summer Drama Workshop. This week the group is

busy working on several song and dance routines, limbering-up exercises and getting to know new friends.

ALL TOGETHER NOW....Mrs. Jo Witten is shown as she helps the youngsters to memorize their songs at Summer Drama Workshop. Mrs.

Witten is also assisting at the piano for this summer's session of the annual workshop.

BUILDING SCENERY....Joy Morton is shown here giving some assistance in the building of scenery for the children's production of Winnie-The-Pooh. Eighteen young-

sters aged 8 to 13 are working on the Summer Drama Workshop production, which will be seen next Saturday at the High School.

Friona Flashbacks

.....from the files of The Friona Star

50 YEARS AGO—JULY 13, 1928
On Sunday, July 8, Mrs. Nina Newman was given a birthday dinner at her home six miles southwest of Friona.

County Commissioner Nat Jones is our authority for announcing that on Monday, July 23, the entire population of Parmer County will unite in a county-wide rabbit drive. Dill Larkin, the young man who was scalded at the Santa Fe Grain Company elevator last week, is reported as getting along nicely. The attending physician states he could not expect better progress in healing.

During the past few weeks a deal has been pending, which was finally consummated Wednesday. When J.M. and M.C. Osborn assumed ownership of the one half interest in the City Drug Store, formerly owned by LeGrand Brothers of Hereford.

40 YEARS AGO—JULY 15, 1938
This is a "believe it or not" story, as was stated by Mrs. George Stowers, who brought to the Star office on Friday afternoon of last week what was, perhaps, the largest hen egg we have ever seen.

The egg measured at its greatest longitudinal circumference, exactly seven and five-eighths inches, and its latitudinal circumference, eight and one-fourth inches and weighed four and one-half ounces.

Final plans are being made by the ladies of the Methodist Church for

the great county-wide political rally to be held at the local football field next Thursday, July 21 at 8 p.m.

30 YEARS AGO—JULY 16, 1948
Clyde Goodwine was very painfully ill Tuesday night. Clyde has been periodically afflicted with some mysterious ailment in one of his feet, which has been causing him much pain and trouble for the past year or more. His recent illness was a recurrence of the malady. He is reported as much better.

Mr. and Mrs. Charles Reeve and small son, who have been spending the past 10 days here with his parents, Mr. and Mrs. F.W. Reeve, departed Wednesday morning to return to their home in the east.

Two sisters met for the first time in 35 years this week when Mrs. A.E. Edwards clasped Mrs. Frank Stanton of Greenville, S.C., who came here to visit relatives.

25 YEARS AGO—JULY 16, 1953
Mrs. C.M. Fields spent Monday and Tuesday at the Baptist Assembly Camp at Floydada. She returned Tuesday night.

Visiting in the home of Rev. and Mrs. C.M. Fields this week is his mother, Mrs. B.B. Fields of Comanche. Also visiting them Sunday were his brother and wife from Farwell, Mr. and Mrs. Kenneth Fields.

Mrs. Ted Rutherford and twin boys of Clayton, New Mexico are

visiting her parents, Mr. and Mrs. Roy Slagle.

20 YEARS AGO—JULY 10, 1958
Albert Lee Allen, 34 of Friona, died instantly in a crushing head-on crash of two loaded trucks on a rain swept highway 19 miles east of Tulia about 12:20 a.m. Saturday.

Several farmers had heavy hail damage to their crops from the storm which hit Friday afternoon. They included Carl Schlenker, Paul Hall and Joe Brown. Hail damage was less severe to the farms of Cordie Potts, Franklin Bauer, Gilbert Schueler, Mrs. Floyd Schlenker and the Johnston farm.

Mr. and Mrs. Glenn Reeve, Jr. and daughter, Glenda, left Sunday afternoon for a week in Oklahoma. The first of the week Reeve attended an air conditioning school in Oklahoma City then the rest of the week was spent visiting relatives at Carnegie, Clinton and Hobart.

10 YEARS AGO—JULY 11, 1968
Mr. and Mrs. E.L. Fairchild were weekend guests in the home of Mr. and Mrs. J.W. Sherrin, Tokio, Texas.

Mr. and Mrs. Dwight O'Brian, Route 1, Friona, became parents of a baby girl at 9:50 a.m. Sunday at Plains Memorial Hospital, Dimmitt. She was named Teresa Gaye and weighed six pounds.

Pete Gipson is one of the 425 staff members at Glorietta Baptist Assembly in New Mexico this summer. He is the son of Mr. and Mrs. Glenn Gipson of Friona and is a junior at Texas Tech where he is majoring in Agricultural Engineering.

5 YEARS AGO—JULY 8, 1973
E.H. Tank Harrison of Memphis, Tenn. will be in Friona at the United Methodist Church on Saturday, July 21 and Sunday, July 22.

When he arrived to open White's Supermarket Saturday morning, Edward White found that a burglar or burglars had entered the store during the night through a back fan vent.

An accident around 9:30 p.m. Thursday at the C.E. Nichols home sent a 17 year old nephew, Jim Bob Edwards of Olton, to Parmer County Community Hospital for emergency treatment prior to being transferred to High Plains Baptist Hospital in Amarillo.

FRIONA, TEXAS 79035

News And Views From American Agriculture

Representatives of the American Agriculture Movement met with John Hill, Democratic candidate for governor, this past weekend. The group presented recommendations for political action at the State conventions.

On the national level, the recommendations were:

A. Legislation protecting agricultural prices at levels equal to 100 per cent parity.

B. Legislation protecting agricultural producers from unfair competition of cheap imports from countries with lower living standards than the United States.

C. Legislation establishing producer representation within the Department of Agriculture.

D. Legislation limiting government expenditures to government income.

E. Legislation to abolish national income tax and set up a more fair system of taxation on luxuries, sales, etc.

Concerning the first proposal, the AAM believes that 100 per cent parity prices are no more, no less than a fair price. We believe this price should be received in the market place just as all other industries receive payment for their products. We believe that supporting agriculture prices with tax dollars only adds burdens upon the taxpayers without generating the economic advantages which can be generated by fair prices at the market.

Statistics prove that during periods of highest parity prices, unemployment and inflationary rates drop. This adds emphasis to the need for parity prices in order that the nation's economy will benefit.

On the second proposal, the AAM believes tariffs similar to those used by other industrialized nations be imposed on cheap agricultural imports to protect our domestic industry.

The Constitution delegates this responsibility to Congress, yet Congress has failed to act. Imported agriculture commodities, as well as manufactured items, reflects in unemployment increases in the U.S.

Dollars leaving this nation to pay for imports will never be used in the United States to benefit our national

economy. This will reflect in additional inflationary rises.

In proposing the third recommendation, the AAM believes that producers have lost confidence in the USDA and this board would serve to restore confidence. Too many administrative decisions concerning the agricultural industry are being made by people who are not familiar with agricultural problems.

The AAM believes the chief cause for inflation is deficit spending. Deficit spending in one year can only add tax increases for the following year.

The present system of income taxes is causing unbearable burdens on middle-income Americans, since the lower income families pay no taxes, and the higher income recipients use tax loopholes to pay little or no taxes.

The representatives also presented four recommendations concerning state legislation.

A. Legislation which will prohibit any foreign agricultural products from entering Texas which does not have the same inspection standards, both sanitation and grade, as Texas-grown products.

B. Legislation which will place a state sales tax on any oil and gas products moving into interstate commerce equal to the difference of interstate regulated prices and intrastate prices paid by Texas consumers.

C. Legislation placing limits on state spending equal to state income, limits on tax increases, and protection of unfair taxation on agricultural land used in the production of agricultural commodities.

D. Legislation making it illegal for non-resident aliens to purchase agricultural land plus a law stating that all lands which have already been purchased by non-resident aliens must be reported as to who owns said land and in which country they reside and how much land they own.

Legislation has been introduced in both houses of Congress concerning proposal D. In the Senate, Kent Hance introduced the bill and Joe Hubenack in the House.

The AAM has discovered that foreign countries, including Mexico,

do not have the same high quality standards of sanitation as does the U.S.

The AAM has also discovered that many nations now importing agriculture commodities into the United States continue to use chemicals which have been banned in the United States.

Testimony by Secretary of Agriculture Bob Bergland confirms that there are approximately 1000 foreign slaughter plants which export meats to the U.S., yet only 20 USDA inspectors to police the sanitation of these facilities, as well as to maintain grade in contrast every Texas grown carcass is inspected immediately before and after it is killed and each plant is inspected daily for sanitation.

Consumers in other states should not be allowed to purchase Texas oil and gas at prices less than Texans are required to pay, which is now the case.

An equalization tax would alleviate this situation and could be used to lower state taxes needed to run Texas state government.

Deficit spending can only end in eventual additional taxes that will result in less efficient state government.

Agricultural land should be taxed on its productive value based on prices received for production and not on commercial speculative values.

Inflation and devaluation of the dollar has caused a major influx of foreign investors in agricultural land, which eventually could lead to too much influence by foreign nations over our domestic affairs.

Much land has already been purchased by foreign investors, under disguised ownership, holding companies, etc.

STRIKE NEWS: There will be a national meeting of the American Agriculture Movement Friday and Saturday at the Red Carpet Inn in St. Louis, Mo. Plans for the future will be discussed.

A local meeting is being planned for the near future. This meeting will be very important to all AAM members who are delegates and alternates to the Democratic and Republican State Conventions.

FRIONA STATE BANK

WHERE PEOPLE COME FIRST

LETTERS

To The Editor

Dear Editor:
It is very rewarding for me to realize that other people in our community are becoming aware of the fact that the working American, thru government give-away programs, is supporting people who know they don't have to work to feed their families.

I hope that Ray Landrum's letter last week only becomes the tip of the iceberg. I become more annoyed each year when the schools are required to send out "blanket" forms to everyone for free lunches. If someone is hungry I certainly want them to be able to eat, but let an adult have to make the effort to go to school and personally ask for the privilege.

My children have to get on the bus at 7 a.m. now. I wonder how much earlier that bus will have to come if the "free breakfast" kid are going to get to school before breakfast is served? I think I'll sign my kids up too! I am really tired of paying more and more taxes and not getting anything in return.

Sincerely,
Rose Mabry

Man Admits To Burglary

A Friona man turned himself in for the burglary of the Forrest Osborn residence.

Zenon Gutierrez of 909 Maple brought in the articles that had been stolen from the residence, according to Chief Bill Denney.

Gutierrez was charged with burglary and unauthorized use of a motor vehicle. He had also taken the pickup truck from the Osborn's that was later found at the east end of Eighth Street.

He gave a signed statement and was taken to Farwell and charged at the Sheriff's office.

Officer Graduates

The newest Friona policeman received his Basic Law Enforcement Certificate last Friday.

Ted Appman completed the course at Amarillo College that is required by the state to be an officer. District Judge George Dollen presented the certificate to him at the banquet at the Amarillo Civic Center. Attorney General John Hill was the speaker.

Appman began working for Friona June 13. He and his wife moved to Friona last Wednesday. They live at 911 Columbia.

Also attending the banquet were City Manager Jake Outland and Police Chief Bill Denney.

LEGAL NOTICES
NOTICE OF PUBLIC HEARING
City of Friona, Texas has filed Application No. 1075 with the Texas Department of Health for a permit to operate an existing Type IV municipal solid waste disposal site for brush and construction demolition waste located north of Friona, 900 feet west of State Highway 214 and 1.0 mile north of U.S. Highway 60 in Parmer County, Texas.
The site consists of approximately 4 acres of land, and is to daily receive approximately 1 ton of solid wastes under the regulatory jurisdiction of the Texas Department of Health when disposed of or otherwise processed in accordance with the said Department's Municipal Solid Waste Management Regulations.
Pursuant to the provisions of the Texas Solid Waste Disposal Act (Article 4477-7, Vernon's Texas Civil Statutes; and the Texas Department of Health Municipal Solid Waste Management Regulations, and the Administrative Procedure and Texas Register Act, a public hearing on the aforesaid application will be held at:
Commission Room
City Hall
Hereford, Texas
on Friday

Star Lites ...

(Continued from Page 1)

foreigners in grain elevators, salt mines, oil and gas production, hotels and offices.

One of the biggest projects in the South at the present is the ethylene plant now being constructed along the Mississippi River by the Dutch-controlled Shell Oil Company, which will cost a half billion dollars.

All of this foreign investment brings the question, however, about stripping America's coffers of needed tax dollars.

Earlier this year, a bill was before the Senate that would exempt foreign investors from paying U.S. taxes. And, while such a suggestion would have been laughed out of Washington just a few years ago, you never know what our lawmakers are going to pass in this day and time.

If they should pass such a law, and the rate of foreign investment

continues, then woe be to the poor over-taxed middle class citizens. They will simply have to pick up the tab for what could be billions of dollars lost from "non taxable" foreigners.

If you are concerned, it might pay you to write a letter to your senators and representative.

TRIVIA DEPARTMENT: We would bet that a lot of folks while growing up heard their parents or grandparents refer to "Coxey's Army."

Did you know that it referred to Jacob S. Coxey, credited with leading one of the earliest marches on Washington, asking for government assistance during the depression of 1894, when over two million Americans were out of work.

His "march" resulted in his arrest, and his demands were unmet, but it started a trend for future marches.

NEW OFFICERS.....The Friona Noon Lions Club installed officers for the new year Thursday, July 20, at Parmer House Restaurant. Installing the officers was Charles

Allen. New officers were C.H. Murphy, Joe Tongate, Ron Bost, Royce Keck, Danny Black, Gale Warren, Joe Wilhelm and Mike Smith.

Lions Install New Officers

The Friona Noon Lions Club held the installation of officers at their regular meeting Thursday.

Elected to office were Joe Tongate, Boss Lion; Jay Beene, first vice president; JeDon Gallman, second vice president; Gale Warren, third vice president and Joe Wilhelm, recording secretary.

Also elected were C.H. Murphy, corresponding secretary; Ron Bost, treasurer; Danny Black, Lion Tamer; Mike Smith, Tail Twister; Geary Brogden, assistant twister and directors Royce Keck and Mack Maulding.

Vickey Smiley and Julie Owen are the club's sweethearts.

Proceeds raised from the Fourth of July barbeque were approximately \$1000, according to outgoing president B.K. Buske. He will serve as Deputy District Governor for the 16-club region.

The club was also honored as the District Contest winner for the outstanding club for the past year.

WT Launches Fund Campaign

West Texas State University administration, and alumni officials have launched a "Labor of Love" unified fund-raising campaign to seek gifts in support of University operations and its athletic program.

University President Max Sherman announced the

first annual alumni campaign July 19. It is scheduled to end Labor Day, September 4, and will be headed by WTSU Alumni Association board members, with assistance from the WTSU Buffalo Club, University personnel and athletic officials.

West Texas State University is stepping into a new era in its dedication to the education of the Panhandle region's greatest resource—its people," Sherman said. "From my visits with individuals throughout the area, I know that West Texas State University is loved and appreciated for this work.

"We are asking everyone in the Texas Panhandle to share dedication to West Texas State University," Sherman said. "We are asking everyone to give a gift of love to West Texas State University and share in the academic and athletic excellence of the University."

"Labor of Love" is not a ticket selling campaign. Contributors may designate their gifts to any aspect of the University operations, according to Jordan Mills, campaign chairman. With undesignated funds, 50 percent will go to athletics

and 50 percent to University operations such as student, faculty or curriculum development.

"We believe that people of our region will positively give to their only four year institution which educates the majority of college bound high school seniors from our region," Mills said. "The University's Placement Office figures indicate that a large percent of the University's graduates remain in the area helping it to grow and prosper. We are promoting a fresh, new pride for West Texas State University."

Alumni officials are now contacting individuals in communities throughout the Texas Panhandle to find volunteers to help seek gifts of love for WTSU.

For more information, telephone the WTSU Alumni Association at 806-656-3421.

Little Leaguers Win In Playoffs

Friona's Major League all-stars swept a pair of lop-sided wins in the playoffs at Borger this week, to qualify for the district tournament this coming Monday and Tuesday.

The team downed Canadian, 16-3 in their opening game Monday evening, and then came back for a 17-6 win over Carson County to qualify for the district meet.

It is the first time for this age group to advance to the third round playoffs.

The Friona stars slugged out 17 hits in beating Canadian in their tournament opener. Rudy Bermea was the hitting star for the local team with four hits in four times at bat, including a home run, two doubles and a triple that hit the top of the fence.

Bermea got the ball rolling for Friona in the first inning, hitting the first pitch over the fence, for a 1-0 lead. Eloy Caballero, the next batter, duplicated the feat and Friona had a 2-0 advantage.

In the second inning, following a pair of walks, Michael Granado doubled home two runs, Reese Fleming plated him with another double, and Fleming scored on a double by Rudy Bermea. This chased in four runs, and Friona had a 6-0 lead.

Friona duplicated the feat in the third inning, batting around. Granado, Fleming and Matt Loftis had RBI hits, as the all-stars stretched their margin to 10-1.

Just for good measure, the Friona team added six more runs in the fifth inning, with Bermea getting his triple, Caballero a double and Scott Straw a triple to pace the hitting attack. That made it 16-2 and a complete rout.

Straw was the winning pitcher, going the distance. He struck out 13, and gave up only three hits and three walks.

Friona was nursing leads of 2-1 and 5-3 in their second round game, when a big seven-run fourth inning propelled the team into another big win, and they coasted in from there. Bermea's three-run home run was the big blow for Friona.

The Canadian team used five pitchers, but Friona batters seemed to like them all. The local stars added five more runs in the fifth, with Lundy's two-run triple the key hit.

Friona will battle Phillips, 10-9 winners over Bovina, in further action on Monday at 6 p.m. District finals are Tuesday at 7 p.m.

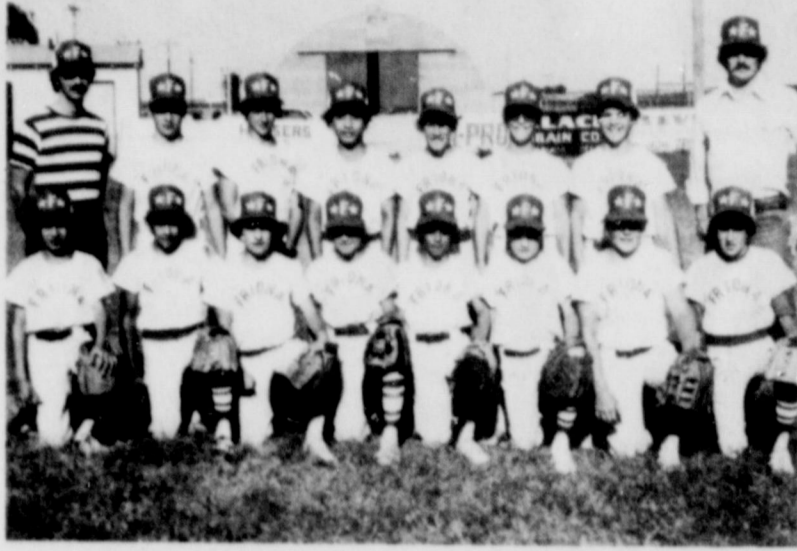

Larry Fallwell and Larry Johnston are coaching the all-stars.

WIN TOURNNEY....The Friona Major League all-stars won the pre-district tournament earlier this week in Borger, scoring two impressive wins. The team continues in the playoffs this coming week, vying for the district title. Team members are (front row, left

to right) Michael Granado, Eloy Caballero, Rudy Bermea, Charlie Veazey, Ross Roden, Cody Scott, Mitchell Reeve and Paul Melton. Back: Larry Johnston (coach), Reese Fleming, Charlie Morgan, Rene Bermea, Scott Straw, Matt Loftis, Jeff Lundy, and Larry Fallwell, coach.

TALL CORN....The corn in Parmer County is definitely as "high as an elephant's eye," as evidenced by this photograph. However, if the crop doesn't receive some rain to assist the farmers, the yield may be affected.

Lazbuddie Man To Be Honored

Scott E. Windham, Vocational Agriculture Teacher, Lazbuddie Independent School District, will be honored by the Vocational Agriculture Teachers Association of Texas in Fort Worth, August 1, according to U.D. Adams, Austin, President of the organization.

Windham is being recognized for his 20 years of service to the Vocational Agriculture program in Texas. He attended Tarleton State College, Stephenville, and received his B.S. Degree in Agricultural Education from Texas Tech University, Lubbock.

The award will be presented at the Annual Awards Program of the Association.

The program is held during the State In-Service Education Workshop for Vocational Agriculture teachers and the 1977 Workshop will emphasize staying up with the changes in today's modern Agriculture. Leaders in Agriculture and Education from throughout the state and nation will participate in the

four-day In-Service Education meeting. Education features of the meeting will be under the direction of Mr. J.A. Marshall, Director of Agriculture Education, Texas Education Agency, Austin. Marshall will be assisted by G.G. Scroggins, Assistant Director, Agriculture Education, TEA.

Windham has led and directed the Lazbuddie FFA Chapter Members in leadership contests, judging contests, and livestock shows. They have earned their share of the honors and awards presented. Twenty-nine members have worked for and earned the Lone Star Farmer Degree in the Texas FFA. Ten of the judging teams have made it to the State Contest.

The Windham family are members of the Baptist Church.

Approximately 1600 Vocational Agriculture Teachers and friends are expected to attend the Fort Worth meeting, with headquarters in the Sheraton-Fort Worth Hotel. General sessions will be held in the Tarrant County Convention Center.

Parmer Co. TEXAS corn farmers get low-cost summer insect control with **THIMET**

This summer be ready to control insects on your corn crop. THIMET[®] 15-G soil and systemic insecticide applied over the plant gives you an economical way to protect your crop from yield cutting first brood European corn borers, corn leaf aphids and mites.

Applied by air or ground equipment THIMET 15-G means dependable insect control for corn. Call us for long-lasting, effective corn insect control at the right price. Use pesticides effectively. Read and follow label directions carefully.

AMERICA'S HERITAGE

Some historians say that one of the reasons for the American Revolution was the desire to assure free trade, that is, trade carried on without government regulations.

In 1776, as the American colonies were freeing themselves from England, a British economist named Adam Smith was advocating an economic freedom.

He showed the logic of allowing supply and demand to set the price of goods—and the price of goods to determine the supply and demand.

Many people today still favor the natural workings of a free market. They say that natural gas, for example, should be priced at its commodity value—at what it is worth in a free market, competing against other energy fuels.

That way, economists point out, America can make better use of her heritage of precious resources and keep up her advocacy of free trade.

SIX INJURED IN CRASH...Two Bovina residents and four Clovis residents were treated at the hospital and released as a result of an auto accident that occurred 1.8

miles east of Bovina last Thursday. The driver of the car, Beverly J. Olguin, was cited for failure to control speed by the Dept. of Public Safety. Ralph Ramone and Richard

Morris were the two Bovina residents involved in the wreck. Both are Highway Dept. employees.

Bovina Residents Injured In Crash

Two Bovina residents and four Clovis residents were injured in a wreck last Thursday, according to City Marshal Jerry Atchley.

Ralph Ramone of 704 Third Street was driving a state highway truck and Richard Morris of 401 Fourth Street was on the back platform operating the controls when a car ran into the back.

The driver of the 1968 Chevrolet Impala, Beverly J. Olguin of 117 June Ave. in Clovis, was issued a ticket for failure to control her speed, according to Trooper Jim Bishop.

Passengers Annett Crisp of 904 Mora, Bonnie Olando of 1625 Hanamitt and Buddy Adrian of 200 Manaan were going home from work at MBPXL about 4 p.m.

All six were taken to the Parmer County Community Hospital. Crisp

was transferred to the hospital in Clovis. All have now been released.

Bishop said the car left skid marks of over 300 feet before impact and 70 feet after impact, at the scene about two miles east of Bovina city limits.

The truck was pouring loose gravel onto the highway, Atchley said and the signs warning of men

working were every half mile.

Reports said Morris was flipped in the air, coming down on the car's windshield, and then skidding along the pavement.

The marshal said the car was totaled. Traffic was slowed at the scene.

United Fund Board To Meet

The Board of Directors of the United Fund have named their co-chairmen for the upcoming drive, according to President Hollis Horton.

Bill Wilshire, manager of Southwestern Public Service Co. and Ronald Smiley of Friona Wheat

Growers will serve as co-chairmen.

The United Fund will hold a meeting Aug. 1 at 10 a.m. in the Community Room of Friona State Bank. All those who will represent groups seeking funds from the drive are urged to attend.

Brenda Robison, Kent Patterson United In Church Ceremony

Brenda Fay Robison of Route 5, Hereford and Kent Patterson of 1000 West Fifth Street, Friona exchanged wedding vows Friday, July 21 at 7:30 p.m.

The ceremony was performed in the Westway Baptist Church by Rev. Larry Levick, of the church.

The bride is the daughter of Mr. and Mrs. Jimmie Robison of Route 5, Hereford.

The bridegroom is the son of Mr. and Mrs. George Patterson of 1000 West Fifth Street, Friona.

The church was decorated with a candelabra adorned with honeysuckle and a unity candle. The pews were marked with silk roses made by Mrs. Harold Robison of Littlefield, grandmother of the bride.

Musical selections were presented by Miss Mary Lee Simon, vocalist. She was accompanied by Kenny Shore as she sang "A Time For Us" and "I Take Thee, Dear."

As the bride was presented in marriage by her father she wore a slipper length gown of organza over taffeta, fashioned with a scooped neckline, short bell sleeves, empire waistline, wide lace ruffle sprinkled with seed pearls trimming the neckline. The waistline was accented by large chantilly lace decorated with clusters of seed pearls. An inverted v-shaped medallion of chantilly lace and seed pearls accented the skirt front. The

full skirt had a deep flounce edged with a small band of chantilly lace at the hemline with a wide scalloped band of lace encircling the top of the flounce. The skirt fell softly from the empire waistline to a chapel length train in the back.

The two-tiered veil of bridal illusion was edged in the same wide scalloped lace as that of the flounce. Pearl sprinkled chantilly lace medallions scattered the veil which was attached to a lace covered and pearl encrusted headpiece.

Her veil belonged to Mrs. Bobby Jones, cousin of the bride.

She carried a cascade of white miniature carnations with blue baby's breath on a white Bible.

Her only jewelry was a pearl necklace belonging to her sister-in-law.

Miss Karen Lindeman of Hereford was the maid of honor. Miss Lee Kindsfather of Hereford was the bridesmaid.

Larry Deen of Hereford served as best man. Paul Wily of Friona was the groomsmen.

Serving as ushers were Steve Robison of Hereford, brother of the bride, and Bruce Robison of Amarillo, brother of the bride.

The candlelighters were Chris Carter of Hereford and Bruce Patterson, brother of the groom.

The feminine attendants wore long sundresses of baby blue. They carried nosegays of blue carnations with baby's breath.

The reception was held in the Westway Baptist Church.

Miss Charlotte Carter presided at the guest register.

The table was decorated with a silk arrangement made by Mrs. Harold Robison. The three tiered cake was decorated in white with bells, flowers and doves.

Cake was served by Mrs. Steve Robison, sister-in-law of the bride. Mrs. Ted Giddens, sister of the groom, served punch.

Others in the houseparty were Miss Denise DeHast and Miss Cindy Duckworth.

For her wedding trip the bride chose a baby blue dress sprinkled

with white flowers. She lifted the corsage from her bouquet.

The couple will reside at 1305 Maple, Friona.

Out-of-town guests attending the ceremony were Mr. and Mrs. Fred Rutherford of Virginia, Mrs. Fred Couper and Jeanette of New York, Mr. and Mrs. W.A. Kirk of Canyon

and Mr. and Mrs. Harold Robison of Littlefield.

The bride is a 1978 graduate of Hereford High School.

The bridegroom is a 1974 graduate of Friona High School. He is employed by Lewellen Construction Co., Friona.

Hospital Report

ADMISSIONS—

W.Q. Duggan, Friona; Rosa Maria Cruz, Friona; A.G. White, Bovina; Orlando Bonney, Clovis; Higinio Guerra, Friona; Maxine Small, Clovis; Beverly Olguin, Clovis; Ina Mae Thomas, Friona; Aubrey Brock, Bovina; Diane Beavers and baby girl, Hereford; Ollie Carpenter, Farwell; Rubel Gonzales,

Texico; Julia Alegria, Hereford; Rebecca Deleon, Bovina; Gilbert Herrera, Sr., Hereford; Vera High, Hereford; Augustine Olivarez, Bovina; Howell Simmons, Friona; Missy Barker and baby girl, Friona; Buell Sanders, Friona; C.L. Lillard, Friona; Clemencia Ozuna, Hereford; Eva Jones, Friona; Rhonda Smelser, Cloudcroft, N.M.; Mike Ellis, Friona; Monique Osborn, Friona; Minnie Aguirre and baby girl, Friona; and Priscilla Tijerina, Hereford.

DISMISSALS—

Beverly Olguin, Orlando Bonney, W.Q. Duggan, Rosa Marie Cruz, Higinio Guerra, Maxine Small, Aubrey Brock, Ina Mae Thomas, Andy Forehand, Cecilia Garza and baby girl, Rubel Gonzales, Manuel Segovia, Diane Beavers and baby girl, Fred Wilkins, A.G. White, Julia Alegria, Rebecca Deleon, Augustine Olivarez, Ollie Carpenter, Eva Jones and Howell Simmons.

PATIENTS IN HOSPITAL—

Art Dettman, Gilbert Herrera, Sr., Vera High, C.L. Lillard, Missie Barker and baby boy, Buell Sanders, Clemencia Ozuna, Priscilla Tijerina, Rhonda Smelser, Mike Ellis, Monique Osborn and Minnie Aguirre and baby girl.

Lazbuddie Grad Wins Scholarship

Michael Scott Windham, son of Mr. and Mrs. Scott E. Windham of Lazbuddie, is recipient of a four-year, \$6,000 college scholarship from the Houston Livestock Show and Rodeo Association.

He is a 1978 graduate of Lazbuddie High School, where he was a member of the Future Farmers of America.

Mike won the district Star Chapter Farmer Award, Star Greenhand Award, area breed champion award for barrows and lambs and a local first place award for Hereford showmanship.

He also was a member of the National Honor Society.

Assemblies Of God

Show Steady Growth

The latest "Yearbook of American and Canadian Churches," states that the Assemblies of God is the fastest growing religious body in the United States.

Out of 223 religious bodies reporting, the greatest growth rate was the Assemblies of God with 5.1 per cent; followed by the Christian and Missionary Alliance with 3.2 per cent. Only 7 religious bodies reported a growth above 2 per cent;

with most major religious bodies showing a loss.

Stressing spiritual growth being the key to physical growth of the church; the Assemblies of God has seen phenomenal growth in the last 7 years with the beginning of the Charismatic Movement.

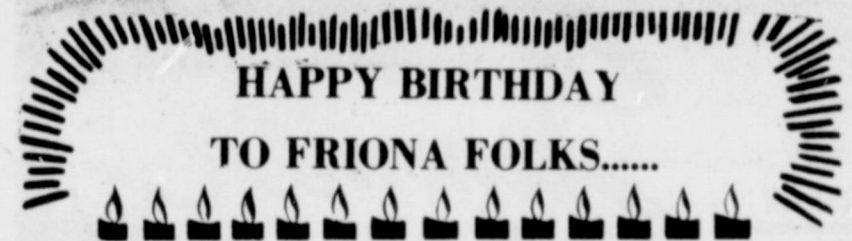

People today want a God who is alive to them in a personal way. One that loves, cares, heals, and delivers them from the problems and perplexities of life.

Group To Meet Friday

The Friona Senior Citizens will meet Friday, July 28, at the Union Congregational Church at 10 a.m. for their regular monthly meeting.

At noon there will be a covered dish luncheon and games will be played.

Mrs. Jo Witten will present the program and everyone is invited to attend.

WEEK OF JULY 22-28

Friona residents having birthdays next week are:

- Gay Cranfill, July 22
- Pat Widner, July 23
- Jeremy Lee Barabee, July 23
- Susie Perez, July 23
- C.C. Noland, July 23
- Jay Jarboe, July 23
- Franklin Bauer, July 24
- Phila Mae Weatherly, July 24
- Lila Buske Vars, July 24
- Doris White, July 25
- Dan Ethridge, July 26

- Jo Ridley, July 26
- Alton Peak, July 27
- Bill Caudill, July 27
- Viola Treider, July 27
- Kelly Cash, July 27
- Holly Hudson, July 27
- Nance Trotter, July 27
- Ann Trotter, July 27
- Roscoe Chandler, July 27
- Teresa Ready, July 28
- Ruby Gonsler, July 28

If you or someone in your family has a birthday coming up soon, call the Friona Star at 247-2211 and report it.

BETTY LUERA and RUDY JOHN AGUIRRE...Mr. and Mrs. Israel Garcia of San Angelo announce the engagement and approaching marriage of their daughter, Betty Luera, to Rudy John Aguirre, son of Mr. and Mrs. Shaun Aguirre of Friona. They plan to be married July 29 at the groom's home. He is employed at MBPXL and graduated from Friona High School in 1973 and Angelo State University in 1978. She is a former J.C. Penny salesclerk in San Angelo. The couple plans to live in Friona.

Town Talk

By June Floyd Phone 247-3681 With Your News Item

The residence of Judge and Mrs. Paul Fortenberry was brightened several days this month by the presence of a very special "Okie." Beau Sturm and his parents, Jay and Paula, who are now living in Oklahoma City, were here several days--first for the Fourth of July--then for the wedding of Phyllis Blau and Don Fortenberry.

Libby Procter and children, Jeff and Jenny, and Ann Faver took off a few days and went to Vernon for a visit in the home of Mr. and Mrs. Barney Castleberry. The Castleberrys are Libby's and Ann's parents. Ann came directly home from Vernon and Ronnie Procter went down for a weekend. Then he and Libby and the children did some visiting in Central Texas before returning home.

In Wichita Falls they visited Mr. and Mrs. Tom Armstrong and children, Steve and Jana. The Armstrongs and Procters were Navy friends.

Then they went down to Goldwithe, where they were guests in the home of Mr. and Mrs. R.W. House. They went sightseeing and fished some. Incidentally, Libby hooked her very first bass, which weighed between three and four pounds.

Other stops for visits were made at Brownwood, where they were guests of Mrs. Kate McMullen; in Lamesa they visited Ronnie's grandparents, Mr. and Mrs. J.O. Peterson and in Shallowater they were guests of Mr. and Mrs. Dewayne Procter and children, Darren, Wade and Darla Sue.

Angie Peterson of Dallas, who is Ronnie's cousin, came home with them from Lamesa for a visit with local kin.

Rev. and Mrs. Gaylon Chapman, Mrs. Joe Johnson and Mrs. Frank Griffith were in Muleshoe Wednesday morning. Rev. Chapman is conducting a revival at the United Pentecostal Church there.

Pastor of Muleshoe's United Pentecostal Church is George Green, a former Friona resident and father of Don Green, who still lives here.

George and Jewell and their youngest daughter, Rita, moved from Friona to a ranch near Pampa about sixteen or seventeen years ago. The Greens have one other daughter, Gwen. She and her husband, O'Neil Greeson and sons live near Ulysses, Kansas.

Another "Okie" who is adding joy to the home of his Friona grandparents is Drew Jarrell. He is the son of Newman Jr. and Juanda and they live in Oklahoma City, too.

Mr. and Mrs. Bill Snelson of Fort Worth have been visiting in the home of Mr. and Mrs. Gary Sneed, Holly, Charley and Josh.

Friona visitors Wednesday were Mr. and Mrs. Wayne Edwards and

daughters, Michelle and Holly of Amarillo. They visited in the homes of Mrs. Vivian Hughes and Mr. and Mrs. John Terry.

Mrs. Edwards is the former Karen Hughes.

Steve Rhodes of Canyon, a former Friona Junior High School band director, who more recently has been employed by the Abilene, Texas public school system, visited in Friona one day last week.

Beginning with the fall school term, Steve will be teaching music at Freed-Hardeman College in Nashville, Tennessee.

Tommy Long, who has been hospitalized in Wichita Falls for about two weeks is reported to be improving. Plans are being made for him to have surgery in the near future.

Mrs. Kenneth O'Brian is home after having had surgery in Central Plains Memorial Hospital in Plainview.

Most grandmothers don't really need excuses for going to see a grandchild. If we classified our explanations, we'd probably label them "superior reasons."

Recently it was necessary for Floyd Brookfield to be gone from home several days on a business trip.

Who would have expected Lauretta to stay home while Floyd was gone? Anyone who did was disappointed.

By the time Floyd reached his destination, Lauretta was in Tucson, Arizona, visiting in the home of Mr. and Mrs. Ronnie Brookfield and daughter, Shannon.

Jessie Douglas explained her early departure from Friendship House Monday afternoon by saying, "I must go. We're going down to

Plainview to see one of the grandsons play ball."

Attendance at the regular weekly Monday and Tuesday afternoon meetings at Friendship House has been good, but there's room for more. Currently the projects are quilting and needlepointing, but if you're interested in some other kind of craft, just let your wishes be known.

Also, if you want some delicious home baked goodies, just go to Saturday's Bake Sales. There will be one at Houser's and one at Piggly-Wiggly's.

Do remember the regular weekly game nights at Friendship House. They are held each Thursday night beginning at 8 and are open to anyone who enjoys playing games.

Mrs. Alma Riney of Grand Prairie, Texas, is a houseguest in the home of her sister, Mrs. Theilma Hutson.

Blanche Boyle had a couple of fun visitors last week. Her granddaughter Peggy Warren, who is employed by the U.S. Forestry Service in Portland, Oregon, was here.

With her was her roommate, Juanita Fenn, an employee of Oregon State Medical Center.

Blanche and her guests were accompanied to Palo Duro Park for an outing, which included attending "Texas," by Inez Wheeler and Roxie Phipps. The group rode the Sad Monkey Railroad and had a most interesting day.

Miss Finn is blind, but was able to participate in the activities of the day. Blanche said, "This was my first experience with a blind person and I was so impressed with Juanita's keen sense of hearing and quick mind that I could hardly believe she was sight-less."

Hap Fairchild had surgery at an

Amarillo hospital recently. He's up and around again now. Had he wanted many of his friends to have known he was hospitalized, he should have registered in as "Hap."

"Eugene Fairchild" just doesn't bring Hap to the minds of many local residents.

Joe and Pearl Johnson are home to stay for awhile after a long visit, which took them all the way to Umpire, Arkansas and another, which took them to the West Coast.

The Johnsons first went to Oklahoma City, where they were guests in the home of Mr. and Mrs. S.M. Sanders. Mrs. Sanders is Joe's sister.

Then they went to Umpire to visit Mr. and Mrs. Glen Green. Glen is Pearl's brother and a former Friona resident. Presently he and his wife are raising chickens and cows in Central Arkansas.

Enroute home Joe and Pearl visited an assortment of relatives in Duncan, Oklahoma.

After a brief rest stop in Friona, the couple went to Cortez and spent one week visiting in the home of Mr. and Mrs. E.L. Elliott.

Their next stop was in El Cajon, California, where they visited Mr. and Mrs. Nolen Johnson and children, Mark and Kathy.

Blayne, Stassia and Rance Ivie, children of Mr. and Mrs. Calvin Ivie of Irving, Texas, returned home Saturday.

They flew from Lubbock to Dallas after a visit in the home of their paternal grandparents, Mr. and Mrs. Rosco Ivie.

Arlie Green of Borger, a former Friona resident and brother of Pearl Johnson, is seriously ill in St. Anthony's Hospital in Amarillo.

If there is any sin more deadly than envy, it must be getting pleasure from being envied.

Bogges: Life Begins At 80

By ROBIN H. RINGTON

How many men do you know who at age 82 would go to a foreign country, and invest thousands of dollars in real estate, starting a second or third career? Not many, we'd guess.

It would take a different type of man to launch out in such a venture when he had already passed the fourscore mark. Well, Ranza Bogges is that type of man.

In 1973, he bought 1,000 acres of land in Belize.

Belize is a country in Central America that formerly was called British Honduras. Bogges became interested in the country because of an article in the San Angelo Livestock Weekly.

A former Texan, who Bogges said didn't have a dollar, but did have a great imagination, called the land a cattleman's paradise.

The writer said the land could be cleared of the thick timber for only \$15 an acre. Bogges said he only miscalculated by \$85 per acre.

On the eighth trip to this country that seemed almost on the edge of the world, Bogges went to see what he thought would be "the last tract of land before going back to Friona to forget Belize."

He saw enough potential in this tract to buy the land. On the main highway between Mexico and the capital of Belize, Bogges decided that the basics of civilization would

not be that far away. It was a little while in coming.

"It took us three years to get electricity and four for a telephone," Bogges said.

The Friona farmer said many people asked him why he would risk investing in a country where the government might take his land away. He said his land could be taken away here by other means, so what's the difference.

His daughter Mary Ann is the owner and manager of the property now.

"She's quite a worker," Bogges said. Using the land to raise cattle is their main objective. That means the land had to be cleared of thick forests. Bogges said he hired five workers clearing brush in a coconut grove for \$2.50 each for one day.

Things have changed in the five years the Boggeses have been involved in Belize. Where one plane a day used to fly out of the country, now four planes come and go each day.

Bogges said the English colony was settled 300 years ago by pirates and adventurers. English parliament appoints a governor, but the head of government, the premier, is elected by the people.

"I was talking to some taxi drivers in the capital of Belize about independence for the colony," Bogges said. "They said that a broke man is not independent."

The county of approximately 150,000 persons was hit by a hurricane in 1965. Bogges said the people thought the storm was over when the eye passed over the city.

A tidal wave came over the barrier reef that protects the coast, he said, and 200 people were killed. The British government built a new capital city inland.

Bogges said the greatest difference between the U.S. and Belize is the terrain. Much of the land is swampy and covered with timber.

Although he bought the land for approximately \$25 per acre, Bogges said clearing the land is very expensive and takes a long time. After five years, almost all of the 1,000 acres is cleared.

Bogges said the climate is very mild. The average temperature in the winter is in the mid 70's and in the summer about 85 degrees.

"It's a lot cooler down there than it is here," he said.

He said there is no trouble between the races in Belize. The black, Indian, white and Spanish go to school and work together.

English is the official language, although Spanish, Maya and Carob are spoken. Carob is the broken English dialect spoken by the blacks, Bogges said.

Very near his land, two Mayan pyramids are being uncovered. Bogges said his workers often find broken crockery that could be over 1,000 years old.

Bogges expects the country to keep developing and property prices to increase. Not very far away in Mexico, a new oil reserve has been discovered that is estimated to have between 14 billion and 140 billion barrels of oil.

"Even at 14 billion barrels, that makes it bigger than the Alaskan oil find," he said. "I expect the wealth to rub off on Belize."

Bogges was also a pioneer in Friona. He came here in 1940, brought by the level land. During the first year, he farmed the area received about six inches of rain. In the second year farmers suffered the other extreme with approximately 50 inches of rain.

"Irrigation made the biggest difference in Friona by bringing many new businesses in the early 50's," he said.

The early wells are going dry, he said, and he believes that someday there will be a return to dryland farming.

Although he was raised on a farm and later again became a farmer, Bogges tried several other vocations in between.

He ran a motion picture show, peddled Watkins pills and patent medicine, ran a grocery store and farm machinery business.

"The first year I peddled medicine, I drove a team of horses all over Oklahoma," he said.

Parmer Co. sorghum
TEXAS
farmers get low-cost greenbug control with THIMET

This summer be ready to control greenbugs on your sorghum crop. THIMET-15-G soil and systemic insecticide applied over the plant gives you an economical way to protect your crop from yield cutting greenbugs.

GENERAL MOTORS PARTS DIVISION

What... heats, broils, roasts; simmers, sizzles, broasts; grills, bakes, stews; panfries, and even barbecues?

GAS COOKING OUTDOORS

Gas cooking outdoors sure makes sense in the summertime. It keeps the heat out so your house stays cool. You save on air conditioning. Plus there's no charcoal or lighter fluid to buy, and no wait. Gas reaches cooking temperature fast and cooks full family dinners, everything your inside range and oven can cook, with that great outdoor flavor.

Take the heat out of the kitchen. Install a gas grill on the patio. It sure makes sense in the summertime, or anytime!

Charmglow 2000
With 351 square inches of cooking surface and deep hood design, this popular grill has the capacity to cook a big turkey or whole ham. Heat sets with the turn of a knob, and the special H-shaped burner and permanent briquettes heat the entire cooking area evenly.
Only \$7.11 budget priced on your monthly statement.

List Price	\$231.50
YOU SAVE	30.00

Farm Safety Week Proclaimed

President Carter has proclaimed July 25-31 as the 35th annual National Farm Safety Week. This year's theme is "Manage to Prevent Farm and Ranch Accidents."

The National Safety Council estimates that 5,400 farm and ranch residents were killed and 480,000 disabled from work, home, recreation, and traffic mishaps during the past year. Agricultural work-related mishaps claimed some 1,800 lives with 180,000 more suffering disabling injuries. Of these work casualties, about 1,600 and 160,000, respectively, were farm or ranch residents. The cost of these accidents approach \$4 billion, including fire losses and property damage.

Success in farming requires good management. To help assure continuing success, make accident prevention a management goal:

- 1) Keep informed about safety.
 - 2) Read and follow all product labels.
 - 3) Inspect all equipment, correcting hazards when possible.
 - 4) Take needed precautions before starting work. See that equipment is O.K., shields are in place, and that needed personal protective equipment is worn.
 - 5) Train helpers; see that they do things right.
 - 6) Keep children off and away from machinery.
 - 7) Respect your physical and mental limitations each work day.
- Please follow these few guidelines to help prevent you or someone you know from becoming a farm casualty.

TOUCH TONE SERVICE....General Telephone customers in Friona will be extended touch tone service in December, according to District Manager G.D. Hearne.

Cotton Farms Hit With 2,4-D Damage

CHECKS DAMAGE....Stanley Bishop, who has some 480 acres of cotton northwest of Friona, is shown checking the crop for 2,4-D damage.

He says approximately 75 per cent of his crop has suffered some damage from herbicide drift.

Parmer County farmers—especially cotton farmers—are facing serious, if not critical, losses, from the chemical 2,4-D which has inadvertently invaded their fields, producing elongated leaves and prognoses of deformed bolls if the blight continues.

Area farmers are concerned, County Agent Seth Ralston is concerned, and apparently the Texas Department of Agriculture is also concerned as representatives of that office were reported to be investigating county crop damage last week.

However, Ralston said he did not talk personally with the TDA representatives, therefore he has no real knowledge of their activities or findings.

Wednesday morning, Raymond Houtchens, supervisor of the Lubbock TDA office, said that investigators were still in the county and would "probably be there for some time." He said they are looking at all the crops in the county, trying to assess the damage.

According to Houtchens, preliminary reports indicate that the severest 2,4-D damage is located in the Oklahoma Lane area. He added that the TDA investigators are contacting all the farmers who have chemical damage complaints.

Houtchens also said that detecting 2,4-D in Parmer County is particularly difficult because not all the chemical damage is caused by blowing winds. A certain type of 2,4-D used does not drift, but rather settles on the area until the heat of the day causes it to volatilize and get into the atmosphere, causing crop and produce damage through "fall-out."

He reported that effects of 2,4-D damage are being found throughout the county with some areas receiving heavier damage than others. Besides cotton, any type of produce is also susceptible to the adverse affects of the chemical.

Houtchens explained that the TDA investigators usually do all their investigations through observing the crops rather than testing samples because "2,4-D doesn't stay within the plant's system too long."

"There is no mistaking, 2,4-D damage," Houtchens said. "It is like no other sight on earth."

Stanley Bishop, who farms 10 miles northwest of Friona, has 484 acres of cotton, and said that he had experienced 2,4-D damage on about 75 per cent of his cotton.

"Some of the fields are worse than others. We really don't know at this point how bad the damage will be," Bishop says.

Other areas receiving 2,4-D damage include south of Farwell and south and east of Bovina. Ralston said he has also seen damaged fields near Lazbuddie, Clay's Corner and Lariat.

The county agent explained that every year farmers usually have a little 2,4-D damage, but that this year's problem is the "worst in several years." Ralston noted that he has also seen some Atrazine damaged fields.

Ralston said that even if the cotton fields recover they will probably produce a lower grade of cotton. Sometimes, though, he said that favorable factors such as a late fall might help 2,4-D damaged cotton fields to produce a slightly better yield than if the plants had had less time to mature.

Other crops such as vegetables could also be affected, Ralston noted, but he reported that he had not seen any vegetable damage thus far. It is possible for the chemical to produce deformed peppers, thereby ruining the value of the crop, he said.

According to Ralston, the spraying probably took place several weeks ago, but the damage has only become visible within the past two to three weeks.

The Texas Department of Agriculture oversees the laws and regulations which govern the use of herbicides in the state of Texas. According to a TDA booklet: "Any persons violating any provision of the Texas Herbicide Law is guilty of a misdemeanor and subject to a fine of not less than \$100 nor more than \$2,000 or confined to jail not more

than 30 days or given both such fine, and jail sentence."

It is possible for the sprayer of 2,4-D or its derivatives and the owner of the fields being sprayed to be jointly prosecuted according to the law if they are found to be responsible for the chemical damage.

Attempting to trace the source of the chemical damage is difficult, Houtchens said, adding that they use various procedures depending on the area and conditions existing at the time.

"We try to establish a pattern and we check the sales reports of herbicide dealers," Houtchens said. "We try to correlate our information to pinpoint where the spraying took place, but it is difficult sometimes."

He said they now believe the chemical damage to be from within the county as well as possibly from Deaf Smith County and New Mexico. According to Houtchens the TDA might have cases to file in the future pertaining to violations of Texas herbicide laws and regulations;

however, he said that would not preclude private individuals from suing or being sued.

Billy Dictson, Curry County extension agent, said that New Mexico does not have regulations against the use of 2,4-D and its derivatives. But he added that "we do not have the same type of problem as Parmer County as usually only gardens, trees and occasionally sugar beets or soybeans show 2,4-D damage."

The chemical 2,4-D and its derivatives are usually used as a weed controlling agent, Ralston said, adding that it was normally sprayed from airplanes, ground rigs, or in some cases, sprinkler systems.

Winds approximately 15-20 mph are capable of causing the chemical to drift onto other crops and fields, Ralston said. He also pointed out that 2,4-D may not be sprayed in the county between the dates of April 1 and November 1, except by special permission from the TDA.

According to Ralston, farmers in

the county have planted 60,000 acres of cotton of which approximately 15,000 acres have received some damage from the chemical. He explained that the chemical produces elongated leaves on the cotton plants and if the problem continues the bolls may also become deformed.

Ralston explained that the damage varies from field to field and farm to farm, but that the county overall is generally affected to some degree or another. He said he personally surveyed approximately 1,000 acres which had been damaged by the 2,4-D.

"The worst damage I saw was north of Friona where the chemical had literally burned the cotton crops," Ralston said. "It looked like it might have taken a direct hit," he added.

Ralston said that 2,4-D damage is evident once the crops are examined, adding that the effect of the chemical on cotton is different from drought because during a drought the cotton plants become wilted, rather than elongated or deformed.
