## People Face Acid Test in Treasury's 2nd War Loan To Raise 13 Billion Dollars in Three Weeks

### Nation Dare Not Fail in This Greatest Financing Task in History—"They Give Their Lives—You Lend Your Money."

Washington, D. C.—Coming as it does upon the heels of tax payments, the people of America will face an acid test this month when the Treasury's Second War Loan opens April 12 with an objective of thirteen billion dollars raised through sale of Government securities.

Government officials have said that the nation must not fail in this month when the Treasury's Second War Loan opens April 12 with an objective of thirteen billion dollars raised through sale of Government securities.

Government officials have said that the nation must not fail in this month when the Treasury's Second War Loan opens April 12 with an objective of thirteen billion dollars raised through sale of Government securities.

### Are Wild Dollars

Every dollar of these forty billions of dollars available, which is not invested in Government securities during this War Loan Drive is a "wild" dollar which, together with its mates, will tend to increase inflation.

Invested in Government securities, your dollar will work for you. It will hold down inflation because it is harnessed in war work; it will help buy food, transportation, munitions for our boys on the front lines and it will be earning interest that, together with your original loan, will come back to you later to help you buy the things you cannot buy today.

Remember those boys out there in Tunisia . . . in the South Pacific . . . They give their lives—You lend your money.

Remember those boys out there in Tunisia . . . in the South Pacific . . . They give their lives—You lend your money.

## E. Duncan Elected; Smith Elected Marshal

When the polls were closed in Tuesday's election, Silas E. Duncan was elected city secretary, and Bob Smith was elected City Marshal.

When the polls were closed in Tuesday's election, Silas E. Duncan was elected city secretary, and Bob Smith was elected City Marshal.

## Stock Producers May Feed Wheat to Cattle

Stock producers are being urged to use feed wheat to alleviate the protein shortage. Again it is possible to obtain wheat for feed purposes.

## 1 Inches of Rain Fell Wednesday

Floydada received .21 inches of rain shortly after noon Wednesday. While this moisture will assist the wheat a great deal, most farmers are of the opinion that we need a deep season at this time to insure the crop.

## Pressure Cookers To Be Rationed Shortly

College Station, April 8.—Because the supply of pressure cookers is so far short of meeting the demand, all pressure cookers produced in 1943 will be rationed.

The U. S. Department of Agriculture will allocate pressures to the states, but no other details of this phase of the rationing program have been announced, according to Winifred Jones, specialist in food preservation for the A. and M. College Extension Service.

Miss Jones says the war-time cookers will be made of steel rather than aluminum, and will be equipped with a flat rack but no basket or pans.

## Former Floydada Man Dies in Lubbock

Calton F. Moore, 39, of Hereford, died of a malignant ailment at 6:20 o'clock Monday morning in Lubbock General Hospital.

## Floyd County Pioneer, Plains and N. M. Editor and Publisher Dies

J. E. Wimberly, age 68, of Roswell, New Mexico, died late Monday in Roswell, after a long illness.

## Mr and Mrs. Grady Parker Home from Dallas Market

Grady Parker, manager of H. G. Parker Furniture Company, accompanied by his wife returned home Wednesday from Dallas and Fort Worth where he spent from Sunday until Wednesday buying merchandise.

## Richard I. Tubbs Is Stationed at Independence

Independence, Pansas, March 8.—Aviation Cadet Richard I. Tubbs, son of Mr. and Mrs. G. C. Tubbs, 701 South Wall Street, Floydada, Texas, was among the class of cadets who arrived at the Independence Army Air Basic Flying School recently for the third—or basic stage of the aviation cadet flying training program.

## Miss Elizabeth Shorten Becomes Bride of Lavon Odis Rainer

Miss Elizabeth Shorten, daughter of Mr. and Mrs. M. E. Shorten, 7616 Calfax Avenue, Chicago, Illinois, and Lavon Odis Rainer, of San Diego, California, son of Mr. and Mrs. Earl Rainer, Floydada, were united in marriage March 12, 1943, at San Diego, by Rev. Rooth, pastor of the First Methodist Church.

## Second Sunday Singing Will Meet At Two O'clock

The regular meeting of the Second Sunday Singing will meet promptly at 2 o'clock Sunday at the South Side Baptist Church. All interested in good singing are invited to attend.

## Pressure Cookers To Be Rationed Shortly

College Station, April 8.—Because the supply of pressure cookers is so far short of meeting the demand, all pressure cookers produced in 1943 will be rationed.

The U. S. Department of Agriculture will allocate pressures to the states, but no other details of this phase of the rationing program have been announced, according to Winifred Jones, specialist in food preservation for the A. and M. College Extension Service.

The regular meeting of the Second Sunday Singing will meet promptly at 2 o'clock Sunday at the South Side Baptist Church. All interested in good singing are invited to attend.

## People on Home Front Face Greatest Personal Challenge of War to Date; Are We Willing to Meet the Test?

We on the home front face one of the most personal challenges of this war to date. That challenge is whether or not we are willing to sacrifice to a sufficient extent to land our government thirteen billion dollars within the next few weeks.

To do the job, you and I, and everyone we know, are going to have to dig down in our sock—to dig out some of those dollars we have salted away for a rainy day—as well as to take a good hunk out of this month's pay check.

This is a job that has to be done. Sure, we on the home front are feeling the pinch of war. We have gasoline rationing, food rationing, higher taxes and a lot of other little discomforts. But they are nothing compared with the agonies faced daily by our men—men from this community among them—out there on the fighting fronts of the world.

Yes, we know that this constant demand for more money out of our pockets and out of our paychecks—an increasing amount each month—is monotonous. But so is sitting in a fox-hole or lying in a slit-trench day after day, slogging through the hell of a humid jungle or that of Sahara sand.

Our sons, friends, brothers, husbands and others we know are doing that for us. They are facing something more terrible than cutting down on a few things that we once thought were essentials to the American standard of living in order to do it, too. As Secretary Morgenthau has said: "Shall we be more tender with our dollars than with the lives of our sons?"

The Second War Loan is an order to the home front to go on a new offensive. Your dollars are the weapons in this attack. They will make possible the passing of the ammunition to those boys up there in the front lines. To win this war is going to cost more and more money—and more and more lives. But the price of freedom is high. We can not; we dare not let our fighting men down.

You can't let George do this for you. You must pitch in with your dollars. Just keep in mind those boys in the front lines. They give their lives—you lend your money! Don't wait for someone to come around and ask you to do it. Do it today—and do it until you feel worthy of them.

## Burial For Dr. J. H. Guthrie Held Last Thursday

Burial rites were held Thursday afternoon at 3 o'clock at the First Methodist Church for Dr. J. H. Guthrie, who had been ill in his son's hospital for several months. Rev. P. H. Gates, officiated. Dr. Guthrie died early Wednesday.

## Lubbock to Have Nation's Only Flying School

South Plains Army Flying School, known over the entire country as the "Home of the Winged Commandos," has been designated to continue the training of men in Uncle Sam's giant cargo and troop-carrying gliders. Already the program is being geared up to meet the extra demands brought about by the change.

## Miss Elizabeth Shorten Becomes Bride of Lavon Odis Rainer

Miss Elizabeth Shorten, daughter of Mr. and Mrs. M. E. Shorten, 7616 Calfax Avenue, Chicago, Illinois, and Lavon Odis Rainer, of San Diego, California, son of Mr. and Mrs. Earl Rainer, Floydada, were united in marriage March 12, 1943, at San Diego, by Rev. Rooth, pastor of the First Methodist Church.

### CONTROLLING VEGETABLE INSECTS NOT SO DIFFICULT

Control of vegetable insects is not as difficult as many persons seem to think, says Dr. H. G. Johnston, entomologist for the A. and M. College Extension Service.

The ideal strategy is to wage an offensive battle, beginning as soon as the first invaders appear in the garden and never giving them a chance to become established. This battle should continue at intervals of four or five days until the enemy is mopped up.

Insecticides necessary for the job include cryolite and calcium arsenate to control flea beetles, cucumber beetles, cabbage worms and other insects which feed upon the fruit and foliage of the plants; nicotine sulfate or pyrocyde for plant lice, stink bugs, squash bugs and others which suck the juices from leaves and stems; and paris green to make baits for cutworms, sow bugs and mole crickets.

Generally, it is easier to control garden insects with a duster, but good results also can be obtained with a sprayer if done thoroughly. Information on constructing a simple home made duster from a tin can, broomhandle and cheese-

cloth may be obtained from the county extension agents.

Plant lice, Dr. Johnston says, are probably the most common and destructive vegetable pests. They attack almost all crops, especially turnips, radishes, mustard, cabbage and other similar plants. They may be controlled by using a five per cent rotenone-sulphur mixture, or nicotine sulfate, as a spray or dust. Begin as soon as the pests appear and thoroughly cover the lower surface of the leaves. These insects are killed only when actually hit by the insecticide. In addition, destroy stalks as soon as the crop is harvested in order to eliminate breeding places for lice and bugs.

A complete clean up of fire hazards in the home, at the factory, and on the farm will mean greater safety.

"Were it left to me to decide whether we should have a government without newspapers or newspapers without a government, I should not hesitate a moment to prefer the latter."—Thomas Jefferson in a letter written in 1787.

Throw your scrap into the fight.

## Three Trustees Chosen in Election Saturday

Three Trustees were elected Saturday for Floydada Independent School District. Two re-elected whose terms expired April 1. W. G. Collins and Robert Medlen, and Mrs. Alton B. Chapman was elected to serve in Mal Jarboe's place.

### OLIN W. MILLER IN AUSTIN

Olin W. Miller left Sunday for Austin where he will attend school for a month, before being assigned a job as district supervisor of Old Age Pension Assistance. It is thought that he will be sent to Clarendon or Paducah following the completion of his school work.

## Mr and Mrs. Grady Parker Home from Dallas Market

Grady Parker, manager of H. G. Parker Furniture Company, accompanied by his wife returned home Wednesday from Dallas and Fort Worth where he spent from Sunday until Wednesday buying merchandise.

Mrs. F. C. Harmon, Sr., made the trip with Mr. and Mrs. Parker and visited with her son, Dr. F. C. Harmon, Jr. and family, in Dallas.

Throw your scrap into the fight.

## Judge Tubbs Makes Trip to Austin

Judge G. C. Tubbs went to Austin Saturday afternoon where he appeared before the Legislature on business matters. Judge Tubbs returned home Tuesday night.

# The 2<sup>nd</sup> War Loan Starts April 12

## 13 billion dollars must be raised!

**T**HE GOVERNMENT of the United States is asking us to lend it 13 billion dollars in the next few weeks. We can do it. And we *must* do it. Every American must realize the truth:

In this, our toughest war, we've made a good start. We've trained a lot of men—made a lot of weapons—built a lot of ships.

But it's only a start. No man or woman among us would contend for a single instant that we're doing enough *now* to win this war!

### We've Got to Build More!

We broke all records building 8 million tons of shipping last year. But grim-faced Army and Navy men will tell you that the 18 MILLION tons we're building this year *still* won't be enough!

### We've Got to Fight More!

From now till this war is won, America must be on the offensive. In ever-increasing numbers, your sons, brothers, husbands must go into actual battle. Our losses have already begun to mount—and they will not grow less.

### And We've Got to Buy More War Bonds!

Sure we're all buying War Bonds now. But we've got to help pay for our increased fighting and building . . . We've got to match, as best we can, the sacrifice of those Americans who are toiling and sweating on a dozen battle-fronts—with the bloodiest yet to come. The blunt fact is this: to keep our war machine going, we've got to dig up 13 billion *extra* dollars this month. 13 billion dollars over and above our regular War Bond buying!

In the next few weeks you may be visited by one of the thousands of volunteers who are contributing their time and effort to this Drive. But don't wait for him. Make up your mind now that before this drive is over, you're going to march right down to your nearest bank, Post Office, or place where they sell War Bonds, and do your duty. And don't ever for-

get this: in doing your duty, you're doing yourself one of the biggest favors of your life!

For United States War Bonds are the greatest investment in the world—bar none. They're investments tailored to fit your particular situation. And they give you the chance of a lifetime to order and get the kind of world you want to live in after this war. Every cent you put in War Bonds now will help to guarantee plenty of peacetime jobs making peace-living for every one of us.

For your Country's sake—for your *own* sake—invest *all* you can!

### There Are 7 Different Types of U. S. Government Securities— Choose The Ones Best Suited For You.

**United States War Savings Bonds—Series E:** The perfect investment for individual and family savings. Gives you 1 k \$4 for every \$3 when the Bond matures. Designed especially for the smaller investor. Dated 1st day of month in which payment is received. Interest: 2.9% a year if held to maturity. Denominations: \$25, \$50, \$100, 500, \$1000. Redemption: any time 60 days after issue date. Price: 75% of maturity value.

**2½% Treasury Bonds of 1964-1969:** Readily marketable, acceptable as bank collateral, these Bonds are ideal investments for trust funds, estates and individuals. A special feature provides that they may be redeemed at par and accrued interest for the purpose of satisfying Federal estate taxes. Dated April 15, 1943; due June 15, 1969. Denominations: \$500, \$1000, \$5000, \$10,000, \$100,000—also \$1,000,000 if registered. Redemption: Not callable till June 15, 1964; thereafter at par and accrued interest on any interest date at 4 months' notice. Subject to Federal taxes only. Price: par and accrued interest.

**Other Securities:** Series "C" Tax Notes; 7/8% Certificates of Indebtedness; 2% Treasury Bonds of 1950-1952; United States Savings Bonds Series "F"; United States Savings Bonds Series "G."

### Conserve Protein Supplement Upon Feeders

College Station, April 8.—Current and prospective shortages have imposed conservation of supplies of protein supplements upon feeders. Normally, says A. L. Smith, animal husbandman for the A. and M. College Extension Service, in fattening lambs with carbonaceous roughages and grain, as much as 20 per cent of the full ration may consist of cottonseed meal.

"Under necessity," he continues, "we can get by very well with 10 per cent of cottonseed meal when the roughages are palatable and of good quality. If alfalfa hay is used as roughage about five per cent of cottonseed meal in the total ration would be sufficient."

In feeding cattle extremes also are found in the uses which can be made of cottonseed meal. In feeding steers cottonseed cake on grass; cottonseed meal and hulls, cottonseed meal and ground bundles, or cottonseed meal and silage in dry lot, six to seven pounds daily per head of cottonseed meal can be used. On the other hand, Smith explains these cattle can be fed 2 1/2 pounds of cotton seed meal per head daily, provided sufficient amounts of grain are used along with the basic roughage feeds, and have a well-balanced, efficient fattening ration.

It is Smith's opinion that this ration will be much better for steers than one containing the largest amount of cottonseed meal and no grain.

Furthermore, the allowance of cottonseed meal or cake can be reduced when alfalfa is used as all or part of the roughage, but it can not replace cottonseed meal entirely and give efficient gains or fattening. The rule is to feed not more than six pounds of alfalfa per head daily, considering four pounds as equal to one pound of cottonseed meal in protein value. On the basis of 2 1/2 pounds of cottonseed meal as furnishing the minimum protein necessary to a steer's fattening ration, six pounds of alfalfa conceivably can be used to replace 1 1/2 pounds of cotton

seed meal, leaving one pound of meal as the least amount which should be fed.

### You Should Know What China Is Doing

If the next peace is to be just and lasting the American public at large should know what China is doing to help win the war and the kind of country China is becoming, an American woman who worked in rural China for 12 years told staff members of the Texas A. and M. College Extension Service during a recent conference.

The speaker was Miss Josephine A. Brown of New York, farm-reared native of Nebraska, who in recent years has done educational and social welfare work in China.

Eighty-five per cent of China is agricultural, Miss Brown said, and prior to the 'China Incident' which began in 1937, China's industrial wealth was concentrated around Shanghai and along the coast. When factories were bombed out of existence, the nation's economic life became disorganized. Despite the mass evacuation of 50 million people and the penetration of one-fifth the country by the Japanese, China is carrying on.

Throw your scrap into the fight.

nobly in the sixth year of war, she said.

One movement which has made this possible has been the organization of small rural industrial cooperatives in the interior which provide employment for evacuees, dispose of huge quantities of raw materials formerly exported, manufacture goods needed by military forces and civilians, and help ward off inflation. Keeping the cooperatives small has cut down cost of transportation of the processed products and has prevented these minute factories from becoming targets for bombs.

Miss Brown's story of China at

### ANNUAL REPORT TO TELEPHONE USERS

A Summary of the Southwestern Bell Telephone Company's 1942 Annual Report, Recently Issued

"PEARL HARBOR" was only three weeks old as 1942 started, but already the telephone system had felt the first of war's pressing demands.

Most metals vital to war are also vital to telephone service. During the year we were able to get, for example, only a tenth of the copper normally needed.

Telephone people somehow had to make this bare trickle of materials meet demands for entire telephone systems at Army camps and Navy bases, for service to new war industries, for new telephones in thousands upon thousands of homes.

#### Service held up rather well

The skill and "know how" of these people were in most cases equal to the job. During the year the company gained 123,689 telephones. It ended the year with 1,867,751 telephones in service. But in many cities, lines and equipment simply could not serve all who wanted telephones.

The quality and speed of telephone service held up rather well during the year. There were exceptions, of course. On many crowded long distance lines delays were unavoidable.

It was inevitable, in such a year, that

SOUTHWESTERN BELL

some new high marks as well as some low marks should be set.

For example, the money taken in by the company for its services was 120 million dollars—11 per cent above 1941. That seems a lot of money.

#### Expenses mount faster than revenue

But expenses climbed even faster. They jumped from a little over 88 million dollars in 1941 to more than 101 million dollars—an increase of 15 per cent. Most of this increase was a result of sharply higher payrolls and taxes. Taxes grew from slightly less than 20 million dollars in 1941 to more than 24 million dollars.

The result was that the company matched its high record with a low.

#### Earning rate lower than in depression

The company's earnings for the year were at the rate of 4.4 per cent on the money it has put into the buildings, wires, and equipment needed to furnish telephone service—a lower rate of return than was earned at the lowest point of the depression.

On the whole, telephone service was better in 1942 than telephone people had dared hope it would be. This was due in large part to the competence and fine spirit of service of the telephone men and women in the Southwest. It was due also to the understanding and sympathetic co-operation of the people who use the service.
