STRETCHING SUGAR IN FOOD CONSERVING

Corn syrup may be substituted for part or all of the sugar used in home canning or freezing of fruits, according to Mrs. Winifred J. Leverenz, specialist in food preservation for the A. and M. College Extension Service. Corn sugar may be used for the same purposes, but brown sugar or syrups, such as sorghum, which have a strong flavor are not desirable.

Honey may be used as a substitute for a small part of the sugar, but it affects the flavor of the fruit more than corn syrup. However, it is satisfactory for canning figs and for making fruit pickles, the specialist says. It is not recommended for use with frozen foods.

"Never use saccharin in canning," Mrs. Leverenz warns, "for it makes it bitter." Saccharin can only be used when the fruit is served, but a doctor should be consulted regarding its use for too much saccharin may be harmful.

In substituting corn syrup for part of the sugar in canning, use one cup of sugar and two cups of corn syrup to six cups of water. This makes a thin syrup which is desirable from a nutritional standpoint. If the syrup is used to replace all the sugar, the proportion should be one-half to three-fourths cups of syrup to one cup of water.

One syrup which is said to be excellent for use in canning is "invert sugar" which can be made at home and is sweeter than natural sugar or syrup. To make it, mix two cups of sugar and one cup of water. Add one-fourth teaspoon of tartaric acid, obtainable at any drug store. Cover this sugar, water, and tartaric acid mixture and simmer gently for 30 minutes. Allow it to cool. The invert sugar made this way is nearly twice as sweet as plain syrup of the same weight. For a thin syrup, use one-fourth cup of invert sugar to one cup of water. This is also good for sweetening fruits, cereals, ice cream, and beverages.

STRETCHING SUGAR IN FOOD CONSERVING

SIX FLOYD COUNTY MEN FORWARDED BY LOCAL BOARD FOR JUNE

The following Selectees were forwarded to Fort Bliss, for induction, filling call for June:

Carl Pearson Jarrett, Lockney, R. L. Blackshear, Lockney, Garland H. Sams, Lockney, John Arthur Welch, Quitaque, Macyl Keith Orman, Floydada, and Arthur W. Ferguson, Floydada.

Jarrett was accepted into the Navy, all other Selectees were inducted into the Army.

Service Men Will Be Allowed More Gas

COTTON INDUSTRY TO WORK FOR POST-WAR MARKETS

Dallas, June 28.—The cotton industry's campaign for a two million dollar "fighting fund" with which to protect and expand its post-war markets was making rapid headway in the nation's No. 1 cotton state this week as Texas ginnermen signed up in blocks at district meetings being held under the auspices of the Texas Cotton Ginners Association.

Delegates chosen by the ginnermen to represent them on the voting body of the industry-wide National Cotton Council reported that response by mail was likewise on the increase, and that all major gin machinery manufacturers operating in the state were rendering active assistance in the campaign. Operation of the ginner drive is under the leadership of John C. Thompson of Dallas, R. A. Graham of Greenville, and Aubrey L. Lockett of Vernon.

Meanwhile, parallel campaigns are getting under way among Texas cottonseed crushers, spinners, warehousemen, and cotton merchants.

Scientific research, sales promotion, increased efficiency of production, and the recovery of export markets are the major activities to which cotton's new fund will be devoted. Oscar Johnston, National Cotton Council president, points out that "more than 70 per cent of today's peak consumption of cotton is going directly into military goods and into other materials with high wartime priorities. The replacement of this

Cotton Industry to Work for Post-War Markets

SIDELIGHTS FROM WASHINGTON

BY GEORGE MAHON

The President last week, prior to leaving for the Pacific coast by plane, made a recommendation to Congress that the law be changed so as to provide that in the event of his death or inability to act, the Speaker of the House should succeed him as President. Under existing law, the Secretary of State would be next in line. President Truman explained that this made it possible for him to name his own successor, the Secretary of State being an appointee of the President. The Speaker is an elected official. He is first elected by his Congressional District and later by the representatives of the people as Speaker.

The President's recommendation was apparently prompted by the fact that in the near future he plans to make many trips by plane, somewhat hazardous in nature, including a flight over the Atlantic to the Big Three Conference.

The presidential plane is a four engine C-54. We have many of them in the Air Transport Command. In fact, every thirteen minutes of the day, a C-54 takes off on a hop across the Atlantic. Only two of them have ever been lost on the Atlantic flight. The British by mistake shot one down in the vicinity of the Azores. Another one disappeared with sixteen litter patients aboard, and no trace has ever been found of the plane or passengers.

The ATC planes fly on schedule in fair weather or foul, but the presidential plane would only fly in good weather, thus, fortunately, reducing the hazards to the very lowest minimum.

The C-54s of the Air Transport Command will have a big part in flying home from Europe 50,000 men per month. Loved ones of these men can be thankful that the trips will not only be speedy but also relatively safe.

Bringing 50,000 men home by plane from Europe per month will require a half million barrels of gasoline. The big planes require an average of one gallon per mile.

Our men who return home by boat will cross the Atlantic in five days if they are lucky enough to be aboard the Queen Mary or Queen Elizabeth. But the Victory cargo ships which are being converted into troop carriers will make only fifteen knots and will require fourteen days.

The shifting of the war in Europe to the all-out effort in the Pacific will not only tax to the limit our transcontinental railroads, but will also give the Panama Canal its biggest war job. I had a talk not long ago with General Joseph Meahaffey, Governor of the Canal Zone, and he said he was ready for the task.

Your quota is bigger bonds.

Sidelights from Washington

THE TEXAN'S SHARE IN THE WAR

Almost every Texan knows that General Dwight D. Eisenhower is a native of the Lone Star State. Few, however, know where "Ike" first looked into the clear Texas skies, for his birthplace has been variously reported as Tyler, Paris, Denison and Commerce.

Now comes the general, himself, to solve the mystery, with an explanation that proves even War Department records to be incorrect.

In a speech delivered in London just before the supreme allied commander returned home, General Eisenhower stated flatly that he was born in—Denison!

His parents once lived in Commerce. But it was in Denison that the famed commander says he was born—and he should know.

So that's that!

Another famed military leader born in Texas is Lt. Gen. William H. Simpson, commander of the American Ninth Army. He was born in Weatherford.

General Simpson recently was awarded the insignia of "knight commander of the most excellent order of the British Empire." The investiture was made by King George, in person.

And, since this seems to be a column on generals (the enlisted GIs usually get all the kudos here), still another Texan wears the stars—Lt. Gen. Ira. C. Eaker, deputy commander of the Army Air Forces.

General Eaker, who used to thrill San Antonians and others with his daring upside down flying, was born in Eden, near San Angelo. Last week he was back in the West Texas homeland, visiting his father, Y. Y. Eaker, and passing the time of day with old friends.

While he talked with tanned-faced cowboys amid scenery that has not changed in 50 years, a modern touch was given the event by scores of planes that roared overhead.

And the general was as happy as the gougst GI to be back home in Texas!

A lot of Texans, of course, aren't so lucky. Many are coming back these days with wounds, and go to army hospitals instead of to their homes. But they aren't forgotten!

The USO Hospital Circuit is operating overtime to keep the lads happy. Full troupes of entertainers visit army hospitals each week to give performances for wounded men. When the boys are unable to leave their beds to attend the show, the troupers perform in the wards, giving just as complete a show for a dozen as for thousands.

USO shows are financed by the National War Fund through local campaigns in each county. In addition, war fund money supports War Prisoners Aid, United Seamen's Service, China Relief, Philippine Relief and 17 other war-related agencies.

When you give to your county war chest, you are helping all!

The Texan's Share in the War

JURISDICTION FIXED ON OPA INJUNCTION

Galveston, Tex.—District court OPA injunction cases, the court civil appeals here ruled Thursday in an opinion written by Associate Justice T. H. Cody in a suit styled Chester Bowles, OPA administrator, vs. Mary C. Angelo, Houston district court at Houston held the suit seeking a permanent injunction restraining defendant Angelo from violating restaurant ceiling prices. Judge W. W. Moore district court at Houston held the district courts have no jurisdiction to try such OPA cases. The decision Thursday reverses this ruling.

Jurisdiction Fixed on OPA Injunction

Capt. Ulyssis S. Marshall Gets More Honors

With the 321st Bomb Group Italy—At a V-E Day ceremony the 321st B-25 Mitchell Bomb Group of the 12th Air Force was presented its second War Department citation, highest honor attainable in a combat unit, and among those sharing the honor is Capt. Ulyssis S. Marshall who has served as flight surgeon with the twice-cited group.

His parents, Mr. and Mrs. L. Marshall, live at Rt. 4, Floydada, Texas, and his wife, Jewelle, lives at 606 N. Ohio St., Roswell, New Mexico.

The official citation published in Washington lauds the B-25 unit for an attack against shipping in Toulon harbor three days following the invasion of southern France. The giant battleship "Strasbourg," cruiser "La Galissonne" and a submarine had been moved into position to use the heavy guns against the Allied invading forces. In one smashing attack Mitchell bombers of the 321st sent all three warships to the bottom, an unprecedented feat in medium bombing annals.

One of the oldest bomb groups overseas, the 321st began combat in March, 1943, and played a major role in bringing about the final defeat of the German armies in Italy. In 897 missions the 321st sent out more than 18,000 Mitchell bombers to attack the enemy in Tunisia, the Mediterranean island Italy, the Balkans, France and Austria.

Before entering the service Capt. Marshall was a student at Hardin-Simmons University, Abilene, and Baylor University College of Medicine, Dallas, Texas.

PVT. FIRST CLASS ADRIN L. WEST AWARDED COMBAT INFANTRYMAN BADGE

With the 32nd Infantry Division in Northern Luzon, P. I.—Private First Class Adrin L. West, son of Mr. David West, who lives on Route 5, Floydada, Texas, has been awarded the Combat Infantryman Badge for exemplary conduct in combat.

In the service since October 1944, West trained at Camp Wolters, Texas, before beginning overseas duty in the early part of '44. In addition to the Combat Infantryman and the Philippine Liberation Medal.

A QUICK WAY TO "HEALTH"

The Navajo Indian "red at cure" for certain diseases, consists of gulping down a basketful of squirming red ants.

BUY WAR BONDS

No more cracked eggs for Lester Green, poultryman. Instead of feeding his hens oyster shells to provide lime, he feeds them plastic pills. The hens lay eggs with cellophane shells. See Lester. "With everythin' comin' wrapped in cellophane I got to thinkin' it would save the poultryman a lot of money if eggs came that way, too. So plastic pills was the answer. No broken eggs means money for more and bigger War Bonds."

Lester Green hit on an ingenious way to cut his electric bills. He plants sunflower seeds in a mixture of sulphur and loam and raises them in the house. See Lester. "Four sunflowers in each room will give enough glow to read the smallest print, and save money for more and bigger War Bonds."

FLOYD COUNTY TO VOTE TO ESTABLISH COLLEGE

An election has been called for July 14 to submit to the voters a proposition for the establishment of a Tompkins Junior College. The bond issue is for \$400,000 in bonds at a rate of 2 1/2% on the \$100 million.

The new college will be located on the present site and the present college likely will be used for a department of the new college. The new college is to be started by a gift of \$250,000 from Mrs. Robert G. Tompkins.

MEXICO TO INCREASE WORKERS SENT TO U. S.

Thirty-five thousand more workers will be sent to the United States this year, the labor department reported Thursday.

The 1945 agreement called for 75,000 farm and 75,000 rail workers, and to date 48,000 of the former and 67,000 of the latter have left for the United States, a Mexico City dispatch says.

INCREASED GAS RATION 'A' STAMPS VALID LAST THURSDAY

"A" gasoline coupons, increasing the allotment two gallons, became valid at midnight last Thursday.

The coupons, good for six gallons instead of the previous four gallon allotment, are valid from June 21 to September 21.

WRITE GILES PURCHASING LAND

Bascom Giles, of the general land office, this week he has written letters from veterans' purchase of state land.

come from "widely scattered military centers" Mr. Giles indicated to him that the constitutional amendment to be voted on November 6 providing for purchase of state land which veterans buy or small down (40 years to pay) is a "far corner."

Common Stomach Worms Cause Serious Losses

In view of the losses from common stomach worms in cattle which are being reported over many parts of Texas, the A. and M. College Extension Service has published a new circular, "Control of Stomach Worms in Cattle," by George W. Barnes and A. L. Smith, Extension Animal Husbandmen, and R. D. Turk, Head of the Department of Veterinary Parasitology.

"An understanding of the life cycle and treatment of stomach worms is of dollars and cents value to cattle producers," A. L. Smith co-author of the circular, remarked, "and since the trouble is wide-spread at this time, a few pointers on symptoms and treatment of the trouble might now be of interest."

POSSUM FLATS... WEDDING BELLS

The common stomach worm lays an enormous number of eggs, microscopic in size, which hatch and develop into infective larvae within a few days. These are picked up by grazing cattle, and developed to maturity within 15 to 21 days. Animals most seriously affected are calves and yearlings, and symptoms include loss of weight, general weakness, and anemia. The skin and mucous membranes are pale, and the hair coat often becomes rough. In later stages swelling often may appear under the jaw.

While it is reasonable to suspect poor, unthrifty calves and yearlings of parasitism, poor feed or other conditions may also be responsible; for that reason, it is advisable to obtain veterinary diagnosis before resorting to treatment. Caution should be used in the various treatments, as all drugs which will kill internal parasites are dangerous and should be given in doses based on the age and condition of the animal. Directions are included in the circular for administering the three treatments commonly used in the control of parasites, phenothiazine, copper sulphate and tetrachlorethylene.

Showers for the bride originated in Holland.

There are 130 bridges across the Mississippi River.

185 NEW INDUSTRIES REPORTED IN MEXICO

Mexico City.—One hundred eighty-five industries with capital totaling \$42,200,000, have been established in Mexico under a law granting five-year tax exemption to "necessary" plants.

Industries making mechanical devices comprise 32 per cent of the total capital. Next in order are paper, construction materials and chemical products plants.

Two-thirds of the new companies are in Mexico City or its environs.

ARIZONIANS WITNESS BALL OF FIRE PARADE

Phoenix, Arizona.—A ball of fire, believed to be a meteor, flashed across the Arizona sky last Tuesday night and was soon from the Mexican border to the Navajo Indian country.

The object appeared to be nearest the earth at Tuba City, north-east of Flagstaff, where Dorothy Eubank, clerk in the Indian hospital, said she could hear it "hiss and pop, like a blow torch." She, like others, saw it disappear in the distance and thought it might have fallen.

Placing flowers on the graves of the dead originated with the ancients, who believed the deceased enjoyed the fragrance of the flowers.

The first oil produced in Texas came from "petroleum springs", covering an area of about fifty square yards in Hardin County.

Lightning striking sand hills near Odessa, Texas, shapes the sand into long, jagged chains and transforms it into glass.

NAVY CHANGES NAME OF OFFICE OF PUBLIC RELATIONS

Effective immediately the Navy Department has changed the name of its former Office of Public Relations to the Office of Public Information. This change will affect former Public Relations Offices throughout the Navy both in the Fleet and ashore. There will be no shifting or changing of personnel or general policies, however, the Navy added.

Since its inception the old Office of Public Relations actually functioned for the purpose of bringing to the U. S. public news of the Navy and Navy personnel. The change of name was made to more accurately describe the duties of the office.

SENATE CONFIRMS WICKARD FOR REA

It was announced last Thursday that the nomination of Secretary of Agriculture Claude Wickard was confirmed to a ten-year term as Rural Electrification Administrator.

The senate already had confirmed President Truman's choice of Representative Clinton Anderson, Democrat, New Mexico, to succeed Wickard in the cabinet post.

unveiled by the motor firm some-
time this summer, is designed to
overcome objectionable features
of the military jeep for farm use.

16 YEAR OLD STUDENTS ARE NAMED EDITOR AND ASSOCIATE EDITOR

Denton, Texas, June 28.—Two
16-year-old college students this
week took over their duties on one
of the six "Pacemaker" college
newspapers in the nation, the Cam-
pus Chat at North Texas State
College.

Bob Stanley and Lavon Buster,
both of Denton, were named editor
and associate editor, respectively,
of the college weekly newspaper
to serve for the summer semesters.
The two youthful journalists will
attempt to keep the college's
"Pacemaker" rating, which was set
last year by another 16-year-old,
Burl Stiff of Denton, who edited
the paper when it was judged an
All-American paper by the Asso-
ciated Collegiate Press for 1943.

CORPORAL LEONARD M. ASHLEY IS AUTOMOTIVE MECHANIC

An Eighth Air Force Service
Command Station, England.—Cor-
poral Leonard M. Ashley, whose
wife, Mrs. Beulah Mae Ashley,
now lives at 2413 6th Street Lub-
bock, Texas, is an automotive me-
chanic in the administrative divi-
sion at this strategic air depot
bomber repair base where battle-
damaged B-17 Flying Fortresses
of the Eighth Air Force are re-
paired.

Prior to his entry into the mili-
tary service October 24, 1942 at
Fort Sill, Oklahoma he was em-
ployed by the U. S. Civil Service
at Lubbock Army Flying School,
Lubbock, Texas. He has been sta-
tioned in the European Theater of
Operations since September, 1943.

Corporal Ashley's brothers,
Robert, and Floyd, are also mem-
bers of the armed forces. His par-
ents, Mr. and Mrs. Rab Ashley,
live at Route 1, Ralls, Texas.

NORTH TEXAS STATE COLLEGE ENROLLMENT INCREASES

Denton, June 28.—Surpassing
last summer's first week of regis-
tration at North Texas State col-
lege, student enrollment has reach-
ed the 1,417 mark including 25
students enrolled in the college's
Mexico field school at Guanajua-
to, Mexico. Figures for last sum-
mer were 1,240, including the
Mexico school enrollment.

Registration totals show approx-
imately 1,173 girls and 244 boys
according to an incomplete tabu-
lation. Names of 43 ex-service
personnel are listed on the summer
term roster, two of them former
members of the WACs and
WAVEs. Miss Elizabeth Ann Mil-
ler of Spearman, ex-WAVE, and
Miss Edith Faye McKinley of Dal-
las, ex-WAC, are listed as the first
two ex-servicewomen to enroll in
the college. Many of the return-
ing veterans are returning to the

campus under the provisions of
the GI Bill of Rights.

Sweet Potatoes From State Popular Item

Sweet potatoes from Texas will
play an important part in the diets
of Pacific GI's this year.

Approximately 2,400,000 bush-
els of sweet potatoes will be dehy-
drated in 1945 to produce 20 mil-
lion pounds for overseas shipment,
according to the War Department.

One of the most popular items
on menus for the military forces,
the potatoes are served about every
tenth day in baked, candied or
glazed form, according to the
Quartermaster Department.

First tests on dehydrated sweet
potatoes were made early in 1942,
scientists being asked to work with
the Quartermaster Department on
various problems of packaging.
The potatoes are packed in five-
gallon cans specially coated for
overseas shipment.

Indicative of the space saving
accomplished by dehydration, of-
ficials of the Quartermaster De-

partment say that seven and a
half pounds of dehydrated sweet
potatoes will serve 100 men, while
about one bushel of the fresh po-
tatoes would be required for the
same number.

The mayor of Goose Creek,
S. C., is 7 feet tall without hat and
and ten-gallon hat. Perhaps the
tallest mayor in the nation.
