Hundreds Here Pay Roosevelt Tribute

Death of President Franklin D. Roosevelt last Thursday afternoon shocked Floyd county people. And the announcements which followed indicating the funeral rites would be held in Washington on Saturday afternoon were met with a spontaneous desire to follow suit in Floyd county. Representatives from all walks of life, the heads of business establishments for an hour, and a formal memorial service in the district court room. The weather prevented an outdoor ceremony planned to be held at the court house lawn.

Flags At Half Mast
It required no special prompting for the business community of the town to blossom out in flags at half mast, the early morning breeze rippling scores of flags in the business district and in residence areas as well. Flags also were in place during Saturday afternoon.

Mayor F. C. Harmon presided at the large gathering of citizens who gathered in the tribute to the departed president and prayers for his successor.

Rev. L. A. Doyle gave the invocation opening the tribute, following which singing led by Otto F. Marshall, pastor of the First Christian church. After giving thanks that the people of America had been privileged to have such a great leader in the early period of the new days as well as hear his climax, Mr. Doyle likened the situation to that of the days of the Children of Israel when the great man Moses led his people from the Wilderness of Arabia, "a lesser man," led them into the Promised Land.

Mrs. Barbara H. Smith spoke of the departed president as a man of whom "a man who had suffered to prepare for the work ahead"—a man who would live in the hearts of the American people and the people all (See ROOSEVELT, page four)

Mrs. Hale Confident That Small Collection Used Clothing Will Grow Into Huge Proportions

Although only 1,500 to 2,000 pounds of good, used clothing has been delivered to date at the depot in the court house for shipment to war victims, Mrs. Walton Hale, county chairman yesterday expressed confidence that the people of the county are going to come through splendidly. "A lot of people are interested and will do something about it before the month is over," was her confident reply to the question of the doubtful reporter. Thousands of pounds of clothing still will have to come in if the county meets the expectations of Henry J. Kaiser and the United Nations Relief and Rehabilitation administration. Shipments will begin to go out next week in bales of 100 pounds,

consigned to concentration points. At present a house to house canvass is not in the plans of the county committee. Churches, schools, civic organizations, clubs are expected to take a lead in pushing the collection in their respective communities, Mrs. Hale said. Mrs. Billie Stanforth at South Plains, Mrs. W. S. Poole at Dougherty and Mrs. C. J. McCollum at Lockney are area chairmen assisting in the campaign.

Two New Chairmen
Announcement of the appointment of two additional aides in handling the used clothing from Floyd county to the UNRRA pool for shipment to war areas, was made this week by Mrs. Walton Hale, county chairman of the campaign.

To handle the considerable detail incident to the clothes drive Mrs. A. E. Guthrie has been named reports chairman, and Mrs. Jack Henry will be shipping chairman.

Refugees Are In Rags
Mr. Lehman described a recent trip to France where he saw camps for Yugoslavs, Poles, Russians, Belgians, Dutch, and other nationalities. "I can assure you," he said, "that most of the people I saw there were in rags. There was nothing else that they could get." "I could multiply these instances many fold, but I don't think that is necessary," added Mr. Lehman. He gave assurance that the United Nations Clothing collection would save many lives, and that no work is greater than that of supplying serviceable used clothing to destitute people overseas.

REPEAT MEETING CALLED ON TWILIGHT SOFTBALL

Not enough prospective interest was shown in the twilight softball meeting at Andrews Ward gymnasium last Friday night and Jake Watson, who called the meeting, says the boys want to try another one. "There sure ought to be enough business people interested to have some outdoor recreation playing softball in the long evenings this summer," he said. The meeting is set for Friday night, 8:30, and the place the Andrews Ward gym.

Don't Wait For a Proclamation, Just Begin Clean Up, Says Mayor

Are you waiting for a proclamation by the mayor to begin spring clean up of your premises? If so, the suggestion and plea of the mayor and the council is that you wait no longer but begin the job now. Clean-up campaigns of recent years haven't been getting the work done and

Old Timers Set May 29 Re-Union Date This Year

Floyd County Pioneers will hold their annual re-union this year on Tuesday, May 29, it was decided by a representative number of the officers and members in a meeting at the district courtroom Saturday afternoon.

Jno. A. Hollums, president, presided at the meeting which was scheduled as a planning get-together. Fifteen or more officers, committee members and others sat in on the proceedings.

Committee chairmen will report back on progress at a session of the executive committee on May 5. Pattern of previous year's formalities will be followed in large measure. It appears from the discussions. Dinner will be served by Home Demonstration ladies again this year to qualifying old-timers will eat together as guests of the association. Horse events as last year, probably better organized and having more entries in the various events, will be held again.

They plan to have early-day curio and old time pictures on display in windows about town will be followed. Effort to have all these in one location with single responsibility for assembly and re-distribution as well as for display has been found to be impractical for a one-day get-together it was agreed in the meeting.

Following are the committees named by association President Jno. A. Hollums, after discussion:

Parade Committee: Chairman, Oscar Stansell, Calvin Steen, Roy Curry, A. T. Swebston, C. L. Anderson, Conde Davis, Mrs. G. L. Snodgrass, Mrs. Bob Smith, Mrs. Ham Smith, Lee Rushing, Buck Sams, Less Floyd, Charlie Merrick, Irvin Bennett, Jess Sanducky, Tate Jones, John Lackey, Roy Childress, Bill Poole, John Shipley.

Seating Committee: Chairman Lee Howard, Bob Willis, George Fawcett. (See OLD TIMERS, page four)

Fry Is Cited In Red Cross Drive Record

Notice that recognition has been taken of the outstanding record of Fry county in the 1945 War Fund drive of the American Red Cross has been received by Chapter Chairman Clarence Guffee.

Transmitted with a letter of commendation from H. F. Kelsker, manager of the Midwestern Area, St. Louis, was a certificate of honor in recognition of the chapter's distinguished achievement in attaining its goal in the first two days of the drive, and a citation for County War Fund Chairman R. E. Fry in acknowledgment of his services in organizing and carrying through a most successful fund effort.

"The speed with which your plan was attained reflects careful planning as well as many hours of hard work by your loyal volunteers," the area manager's letter recites. "The final report from the county showed total subscriptions above \$11,000 on a quota of \$7,700 for the War fund of the Red Cross."

Johnson Grass Meeting Monday in Court House

The Johnson grass meeting which was scheduled to be held in the county court room last Saturday but which was postponed, will be held on Monday of next week, April 23, in the county court room at 2:30 p. m. It was announced this week by County Agent Leon C. Ranson. Members of the Commissioners court will be present, Mr. Ranson said. They are anxious to talk with the farm operators and land owners about control of Johnson grass in bar ditches and land adjacent, he said, and would like to have a large, representative crowd. In addition to Johnson grass discussion there will also be talk on predatory animal control. At this time there is no government trapping in the county and there is considerable complaint from some areas particularly around the caprock and below.

Arrangements Completed For Junior Boys Stock Show

East Ward School Building Sold to Baptist Church

Sale of the East Ward school building by trustees of Floydada Independent School district to the First Baptist church of Floydada for \$1,753, was reported the first of the week.

The building, a two-story structure with basement, has a great deal of valuable building material. It was indicated the church plans to use the salvaged material in the construction of a long planned main auditorium on their South Main street church site.

Built in 1912 the school house served the district as a high school until the late twenties and after that time until 1932 was used as a ward school.

USED FATS BUYERS

There are at least six convenient locations in Floydada where the housewife can dispose of used fats, now so gravely needed by the armed forces. A check-up this week revealed the following:

- Felton-Collins Grocery & Market;
- Figgly-Wiggly;
- Jones Market;
- Looper Grocery & Market;
- Plains Coop, Inc.;
- Hull & McBrien.

offered a sum only slightly less than the offer of the local church.

Faculty Is Re-Named

Action on the sale of the school was taken in the meeting of the school board last week. At the same time the entire faculty of the school was re-elected for the ensuing year as follows:

- I. T. Graves, superintendent; W. B. Harris, principal high school; H. G. Barber, vocational agriculture; Floyd Murry, coach and mathem-

118 Applications For All-Risk Cotton Insurance in County As Deadline Date, April 25 Nears

Midnight, Wednesday, April 25, is the deadline for acceptance of all-risk cotton crop insurance contracts, was the announcement made by Ray S. McEntire, Administrative officer of the Floyd County ACA.

He said, "Farmers in Floyd county have until midnight, Wednesday, April 25, 1945 to take much of the gamble out of growing cotton this year by guaranteeing an income from the cotton through cotton crop insurance."

McEntire emphasized, "Farming is a business. A farmer's income from that business may depend on several products or only one product—cotton. If there is only one source of income—cotton—or a cotton crop is needed for the cash, income of the farm, it is good business to safeguard that source of income with crop insurance."

Security is the first goal of everyone, he said. "A man pinches pennies to buy a home for security. His wife stocks the pantry for food security for the family. Both save so the children can be educated and achieve security for themselves in later life. The Federal government has spent billions for national security."

"Crop Insurance is the cotton farmer's unemployment insurance. The city worker contributes a part of his salary each year to a State-Federal fund for unemployment reserves so when he loses his source of income—his job—he can draw on this fund for an income."

McEntire continued, "Crop Insurance does the same thing for the farmer. He pays into a Federal fund so that when he loses the source of his income—his cotton (See COTTON RISK, page four)

Smitherman Is President Lockney Bank

P. M. Smitherman of South Plains was elected president of the First National Bank of Lockney in a meeting of the directors of the bank Tuesday of last week. Mr. Smitherman succeeds Dorsey Baker who recently resigned from that position. Other officers elected were Floyd Huff, cashier; Mrs. Clara Copeland, assistant cashier; Lee Rushing, P. M. Smitherman, Frank Probasco and Artie Baker, directors. Mr. Huff will have executive authority at the bank for the present and will transact all business for the bank. Mrs. Wanda Baker has also recently resigned as cashier with the bank. She and Mr. Baker plan to remain in Lockney.

MEMORIAL DAY

Memorial day will be observed this year on Sunday, May 27, nearest Sunday to the national holiday, it was announced this week by Frank C. Harmon, mayor, after conference with officials of the Floydada Cemetery association and others.

Plans for an appropriate observance are being made, the mayor said, and flowers and decorations will be placed on graves in the cemetery.

If Old Man Weather will be kind to the 4-H and FFA club boys of Floyd county Friday night and Saturday, they promise to put on one of the best exhibitions of fat cattle, fat and breeding swine and sheep, and dairy cattle it has been the privilege of people of this area to see in many a day.

Spring Training Football Squad In Third Week

Third week of spring football training at Floydada High school Monday found Coach Floyd Murry and some 30 boys hard at work on fundamentals of the game—blocking and tackling, passing and kicking—with a considerable bit of skill practice thrown in for good measure on days when wind or mud made outdoor practice impractical.

His line prospects are good or better than last year the coach has been bearing down a bit harder on the backfield than on the line. Present outlook is that Johnnie Collins and Billy Morrison from last year's first string may or may not be back. Both have been working out and are eligible. It they do come back the coach will have two good ball toters and blockers. If they don't he has at present as principal prospects Royce McNeill, Don Jones, Glen Carmack, and Melvin Robertson for backfield places. O. L. Cox also is a promising prospect for backfield duty and others include Tom Ballard, Travis Jones, Bill Hale and Sammie Hale, all of whom are comers, but mostly freshmen and soph and on the light side.

Berry Line Captain

Prospective linemen who are in spring training include C. L. Berry, Jr., line captain, who will repeat at tackle. Other prospects for right now at tackle are Dean Walls, Kenneth (See FOOTBALL, page four)

Rotary Club Names Barber As President

H. G. Barber, teacher of Vocational agriculture in Floydada High school, was elected president of the Floyd Rotary club in the annual election held last week. He will succeed Len M. Davis in July. Other officials elected for the club year beginning in July are O. P. Rutledge vice-president, R. E. Fry, Ray McEntire and A. H. Kreis, directors.

Brother of Mrs. Dora Reagan Dies

H. W. Childress, 79, of Abilene, died Tuesday of last week in a hospital there and the remains were interred in Gainesville, Texas, his former home late Wednesday evening after funeral rites held the same morning.

The deceased was a brother of Mrs. Dora Reagan of this city, and an uncle of J. H. Reagan and Mrs. W. U. White. The last two named attended the funeral at Abilene. Mrs. Reagan was unable to attend. Of seven brothers and sisters of the family, Mrs. Dora Reagan, are now the sole survivors. Dr. R. A. Childers, who died here in pioneer days, was a brother.

County Herd from Floyd Places Second, Panhandle-Plains Show

Floyd county Jersey and Milking Shorthorn breeders had good entries in the annual Panhandle-Plains Dairy Show in Plainview last week, and breeders of both types of cattle had consignments in the two sales.

The Floyd county Jersey herd, in competition with seven other counties, placed second. Swisher county Jerseys captured the first county herd place and the major trophies for individual animals entered.

Production Contest Entries
In the production contest three cows two and under three years old, from Floyd county placed in the first seven. Combination Dutch lady, entered by Earl Edwards, Jr., was second with 27.1 pounds milk testing 7.33 per cent. Bonny Mary Anne and Bravo Bonny Buttercup, entered by J. A. Jameson, placed fourth and seventh respectively, with 31.9 and 29.9 pounds milk, testing 4.98 and 4.61 respectively. A Jameson entry also won eighth place in class of cows under two years old. She was Bonita You'll

Do Rose, with 24.3 pounds milk testing 4.48 per cent.

Bulls Place High

W. L. Stangel, who judged the Jerseys beginning Tuesday morning awarded second place to Clyde Farrish's (Lockney) Premier Nice Jolly Boy in the aged bull class and fourth place to C. B. Carmack's (Floydada) Muriel Wondrum Aim.

Senior and grand champion of the show was Dairylike Blonde Rose Boy, belonging to I. C. Sprague & Sons of Tulla. The junior champion was Oakland's Royal Bill, owned by E. R. Srawls and S. P. Atchley, Tulla. A senior bull calf belonging to Clyde Farrish placed fifth.

In the judging of female Jerseys Clyde Farrish's China Cup Fancy Darling placed second in senior cows entered, and Fancy Premier Darling shown by Donald Douglas Farrish placed 6th and China Cup Darling 10th. In the four-year-old class Elmo Hall's Fancy Fay Cowship drew eighth place. In the (See County Herd, page four)

Judging will begin Saturday morning at 11 o'clock when all animals must be in place.

General Superintendent H. G. Barber, with his class of FFA boys are improving the pass for the many animals to be shown using panels borrowed from the Fairview show by E. L. Angus, president of Floydada Chamber of Commerce.

So marked has been the growth of interest among the boys of the county both in 4-H and FFA circles, that entries are likely to draw a total of \$25 in prizes. Superintendents of the various departments who will be on hand are: Kenneth Thornton, sheep; Henry Neil Schacht, beef cattle; Billy Joe Hambrick, dairy cattle, Glen Carmack, swine.

Dairy cattle will be judged by Chester Eliff, outstanding Jersey breeder of Tulla, and M. U. May, county agent of Dimmitt county, will judge beef cattle, sheep and hogs. The competition is open to all regularly enrolled 4-H club boys or FFA member who attend a Floyd county school.

In addition to the regular prizes and ribbons, a new feature this year will be an award in showmanship.

Sales Options Offered

An inducement that will be of interest in the fat animal divisions is the standing offer of the First National bank of Floydada to buy the grand champion beef calf at 25 cents per pound. The owner of the grand champion pig has a standing offer from D. W. Pyffe Seed company to buy his animal at 25 cents, and the grand champion sheep will sell at 25 cents per pound to E. L. Angus, if the owner desires to sell at that figure.

Every animal shown will automatically qualify for a prize of \$1. E. L. Angus, president of the Chamber of Commerce announces. Vacant lots south of the Armour creameries will be used for the show.

Leon C. Ranson, County agent, has been one of the live stock-minded citizens largely instrumental in getting the stock show plans formulated and whipped together.

Carl Rodgers Again Chief of Fire Boys

Carl Rodgers was re-elected chief of Floydada Fire department in the annual election held at the fire hall recently, with Jack Burleson as his first assistant and A. L. Sparks second assistant.

Captain of Company 1 will be Floyd Johnston. J. D. Herndon is captain of Company No. 2.

Other members of Company No. 1 are Joe Browning, E. T. Williams, Leonard Matisler and Aaron Calvin. In Company No. 2 are Melvin Henry, J. D. Hart, Charles Presley, Buster Boothe, Fred Lambert and John R. Tinnin.

Two to Short Course

The department, in spite of wartime hazards and handicaps, has maintained an efficient organization, and its efforts, with the cooperation of the citizens, have been rewarded with the announcement of the lowest key rate for fire risks in the history of the community.

Continuing their efforts to maintain esprit de corps and efficiency in fire fighting, Chief Rodgers said the boys would send two men to the Fireman's Short course at A & M College this year, beginning in the latter part of May.

Riot and Mob Study Sunday By Company G

Members of Company G, Texas State Guard, will join the other six companies of the 39th battalion at Lubbock Sunday for an all day study course. Subject of the course will be riot and mob control, taught by the Provost Marshall, Major George H. Shackelford, and his staff of the Lubbock Army Air field.

Capt. Travis P. Collins has requested that the Floydada company meet at the armory in the Court House at 6:30 Sunday morning. All members are urged to be present in uniform. As this is the most important course given the guard, all Headquarters and local officers expect a full turn out of the entire battalion.

VETERANS AND FARM LOANS

There are a good many reasons why veterans of World War II are not making loans to buy farms. One reason is that a good many of them haven't got back from the war as yet. Of those who have returned to Texas, mighty few have taken advantage of what has been hailed as the most liberal arrangement made by Congress. Some of these reasons:

County committees won't approve loans for farm buying at prices as at present which are out of line with the average earning power of the land. Most farm land can't be bought now at its long-range value. Banks are prohibited from making loans longer than 10 years. The guarantee of the government is for 20 years. The government doesn't finance the loan.

The Veterans' administration is in on the deal to the extent that it must approve the loan, and that federal agency has served notice it will not approve a loan for a veteran to buy a farm unless he has farm knowledge and ability.

Veterans by the thousand now across the seas are said to be dreaming of the day when they can return home and get help to finance themselves in a start on the farm. They have heard of this bill of rights thing and hope that by the time they get here it will be in good working order. Just why so many of them are planning to go the farm route when all the logic calls for a decreased number of farmers, or at least decreased production after the war, is one of those imponderables you read about.

BOYS ARE THINKING A LOT

One must not assume that because our boys have gone to war they have quit thinking. On the contrary they are doing more thinking than they ever did before. Many a bull session in barracks and camp includes the soldier angle on matters, they read in the papers from home and hear from new men in their outfits just out of civil life.

The boys are not fooled about what they may expect when they get back home. We are doing a deal of great talking about how to take care of the soldier, how to get him re-placed in civil life and back at a useful and productive job. Some will be in position to carry this talk out for their former associates now in the service. Many others will not be.

The soldiers think, as we do, that when they all get back into civil life competition is going to be keen, business most likely will get dull, wages go down, living hard to make, money hard to get, taxes terrific. All wishfully hope that this will not be the case, but none really think so.

They know the so-called G. I. Bill of rights will have to be worked over somewhat before it becomes a workable instrument to help them out really. Most of them are not going to depend too heavily on it much as they appreciate the help it may be to them later on. Most of them know, too, that after the first few heroes get back from the war that, as in all wars before, a returned soldier will be just a returned soldier, whom the people will expect to take up again where he left off, making a good citizen in private life. A few of them won't be able to make it. The very great

As A Farm Woman Thinks

(By Nellie Witt Spikes)

As suddenly as the sun is hidden and the air chilled on a warm spring day, the news came to me as I stood in a little country store about the slipping away of the President. Stunned, my daughter looked at me and I at her. "Only a mistake," whispered Wilma, but somehow I knew it to be the truth. We came on home, but there seemed to be death in our own homes for we had loved and admired the great man who had fallen at his post of duty.

All over the world there have been white crosses at the heads of the fallen brave boys who have been so loyal to their country. Now another white cross, that of their beloved commander-in-chief was being erected. No words of mine could possibly add to the glory of the words, both spoken and sung, about Franklin Delano Roosevelt, but as many voices swell the mighty anthems of praise, I will add mine to do the best I can.

majority will, just as their forebears have done before them.

GOOD OLD CAROTENE

The Indians and the old settlers knew about it. The didn't call it by its right name but it hope them a lot. It was carotene and carotene is what you need in the springtime that you haven't had enough of during the winter time. Also you need some ascorbic acid.

And where will you find them? Out in the bar ditch and around its good old lambs quarter.

Since the poke berries haven't come out big enough to do any good lambs quarter is what to go out and find. You don't have to worry about the freight from the valley nor any carrying charges, except the effort it will call for to carry these good old lambs quarter greens to the house and cook them. Cook them right, of course, so all the family will go for them, and immediately you'll note how much more vigorous the head of the house is and how the children get around spryer in spite of the cold, biting wind of a late and backward spring. Give them good old carotene and ascorbic acid—and save your money to buy war bonds—all at one and the same time.

Floyd County 14 Years Ago

(Issue of April 16, 1931)

E. S. Randerson and Jim Clonts are tied as medalists in the annual gold tournament being staged at the Floydada Country club with scores of 77 each in the qualifying rounds played last week-end. Three flights have been arranged and play has been going forward until this mid-week when local rains checked the tournament temporarily.

G. L. Snodgrass, in Precinct No. 1, and J. F. Dollar in Precinct No. 2, were elected to succeed themselves as members of the County School board, according to the results declared by the Commissioner's court this week, when the returns of the election on Saturday were canvassed by the court.

A special city election has been called for Saturday, April 25, to elect one new member to the Floydada board of city altermen, to fill a vacancy created Tuesday night by the resignation of W. H. Henderson, recently elected.

Fire which destroyed a small brooder house at the home of Gus deCordova in southwest Floydada at 7:45 o'clock Tuesday night snuffed out the lives of 400 baby White Leghorn chickens.

Mrs. Muriel Hanna, daughter of Mr. and Mrs. W. C. Hanna of this city, who has been attending school at Tyler since January has had her name placed on the honor roll every month, reports to relatives here state.

Floyd county's first Grade A dairy the Roy Patton Dairy, located immediately east of Floydada, received a Grade A test at Lubbock some three weeks ago. The Grade A test is the result of 18 months of testing and strenuous effort on the part of Roy Patton, proprietor of the dairy, to supply the Floyd county public with the very best of tested milk.

Letter sweaters were issued here recently to eight members of the Floydada High school 1931 basketball team, to Coach L. T. Barksdale, and to Robert Carter, business manager. This year is the first time in the history of this sport that sweaters have been issued the boys. Malcolm Bridges has been elected captain for the 1932 team.

Tip Kendrick has purchased the interest of G. A. Maddox in the F. F. Service station on South Main and has assumed charge of the business.

This is not the first time my heart has been sad over the passing of a president of my country I love. As the first words ever heard over a radio came to my ears, the earphones held tight to them, were the words, "The late President has just passed away." This was Woodrow Wilson. Then away back, it was the year of 1901, school had just started to Emma, some two weeks, when the words came that President McKinley was assassinated and a few days we learned he was dead.

Our teachers were very patriotic and we were told much about it. There was to be a day when all would go to church which was to be held in the big county courtroom. The teachers marched with us to the two story white clapboarded building and we solemnly took our seats.

The sermon was long, long to children and the President's funeral was far, far away. An old man and his son conducted the services, each preaching about an hour. I sat there and could see in my mind a man of a foreign-sounding name blowing away with a pistol held in a white wrapped hand at a man who held out his hand to be shaken by a passing crowd and later crumpling in the arms of some one near . . . my feet hurt in my new shoes after being unshod most of all summer . . . I wiggled sun burned toes . . . the murmur of the wind in the locust trees below was sad, autumn was on its way. . . .

Teacher looked sternly at wigglesome pupils . . . the creak of the windmill and the sound of water pouring in the big wooden tank was pleasant, but made one thirsty . . . the rattle of buggy wheels made me wonder if Uncle Tom Franklin was coming into town . . . the voice trembling of the old preacher stopped and he mopped his warm face with his handkerchief as he sat down and his son arose to take his place . . . For a few minutes his young firm voice fell on my ears, the words clear and strong only to die away in a murmur as I thought about all the presidents that had been, for we had to number in our spelling classes by their names in order . . . wonder if I would ever, ever see a president. . . .

Why did the capitol of the United States be tucked away in the northeast, anyway . . . wonder when the preaching would stop and we could go to dinner . . . he seemed to preach so high above the heads of children . . . wonder if teacher understood what they said . . . the dirt-dauber birds fly past the window going to their dry dirt nests under the high eaves . . . I count the windows and even the slats in

the green shutter that is closed over the window . . . count the buttons on the lady's dress in front of me—rich man—poor man—beggar man—their—doctor—lawyer . . . watch the ink spots on the long green baze-covered tables where the big lawyer that with their foolscap paper and long Spencerian pens when court was in session . . . some spots looked like faces, it was about as nice watching the pictures in the clouds . . .

The smell of dinner cooking came in and I knew mother was cooking dinner just across the street. Wonder if there would be something special for the holiday . . . A president was dead and far away from where he lay in state, a little in land town was showing respect, and most of all us were Democrats . . . the preacher stops, the old man gets on his feet, a song, a prayer, and children scooted down the stair way to liberty and the pursuit of happiness for the rest of the day. . . .

America has come to her knees, not for the victory that is near, but with the giving up of a friend and praying that the new leader will have courage, faith and understanding. . . .

The cold has been hard on us at the farm . . . the cows shiver and do not have much milk . . . we dread to leave the fire and get out in the cold wind, but the rain was fine and soon the clouds will go and it will be warm again. . . .

"I know it is old-fashioned" a high school boy said as he crumbled cornbread into a glass of milk at the long table of a cafe, looking all around as if he expected to get sneers from the other big boys, but he added, "It is so goo-ood."

My father came from Missouri which is the state now in the eyes of a nation. We have a new neighbor who also came from that state only a couple of weeks ago. He was only three days on the road. My father was some fourteen years making that trip, but then he came by ox team to Bel County, stopped there to finish growing up, came on to Weatherford and married, then to the Plains with a wife and three children. . . .

Good thought for the week:

HIS BARN BURNED, SIM REEVES APPRECIATES HELP OF FRIENDS AND NEIGHBORS

Sim Reeves of South Plains had a considerable loss by fire on a windy afternoon two weeks ago when a large barn constructed two years ago was destroyed and with it tractor, a combine canvass, a shop outfit and several other items of farming equipment and machinery. "The equipment and friends decided to help me bear the loss and they were more than liberal," Mr. Reeves said, requesting The Hesperian to express his appreciation to one and all.

FOOTBALL OUTLOOK BETTER AT TECH FOR THIS FALL

LUBBOCK, April 18.—The football situation at Tech looks better than it has for four years. Coach Del Morgan is expecting at least a dozen lettermen back for fall and a number of high school players are scheduled to report for fall

training. For the first time in the history of Texas Tech, two foreigners are candidates for a position on the Raider squad next year. They are Guido Rodriguez of Alajuela, Costa

Rica, and Francisco Cordero Chihuahua, Mexico.

If poverty is a blessing in disguise the disguise is perfect.

PROTECT VITAL FARM MACHINERY with CORRECT LUBRICANTS and FUELS

Correct Fuels and Lubricants for farm machinery are just as important as the right seed for your crops. Inferior seed produce small crop yield, and improperly lubricated machinery . . . or use of inferior fuels, oils and greases, result in costly breakdowns, inefficient service, and less farm income. For years Southwestern farmers and ranchers have used Magnolia Fuels and Lubricants, finding that they are economical and help cut down costly repair bills. Get added protection for your tractors, trucks, automobiles, and other farm machinery, with Magnolia Products.

... HELPING TO FILL UNCLE SAM'S BREAD BASKET

Electricity on the Farm has done wonders in helping to win the fight for vital food production. Farmers who depend on electric power know of its dependability—its efficiencies—its economy—particularly during these war times when an unprecedented demand has been made for their products.

When peace is ours, Electricity on the Farm will bring even greater efficiencies and comforts to those who have it.

Dub Trowbridge Crosses Equator

The following is a letter to Mr. and Mrs. Charlie Watson of the Harmony community from W. C. Trowbridge, Seaman first class of the U. S. navy, dated March 25. W. C. is the son of Mr. and Mrs. P. B. Trowbridge.

Had your Xmas card when I arrived in Brazil, and how glad I was to get it, even if it was a little past Xmas.

I spent thirty days on the way over, and I was never so glad to get my feet back on ground again. I didn't know the ocean could get so rough. We hit a storm immediately after we sailed, and you never see so many sick boys. I never did get sick but my head was like an air plane propeller, it was spinning so fast.

Not so bad in Brazil

It is not so bad down here, but I would a lot rather be back in the States if I had my way about it. But I know it could be lot worse than it really is.

It gets as hot as the place the Sunday school teacher tells us we will go if we are not good, and then it will come a little rain and cool things off. The nights are nice for sleeping, and the moon really is.

INSURANCE FIRE

One of the old line boys seems to be trying to leave the impression that I am a "cut-rater"? Even if I was, I'd rather be a "cut-rater" than a double-rater." The fact is, the rate we are charging (60c per \$100.00 per year) is standard for safe insurance, the Co-Op way. The Co-Op company that backs us up has piled up over \$4,000,000.00 surplus in the last 19 years, just charging the same low "cut-rate," if you please.

I don't say it is "just as good," it's "better." Actual records in Floyd County prove that we pay more than the Old Line boys when a loss occurs.

And you don't always get what you pay for either. I cite you to two instances as proof. 1st: I have a record in my possession where on Old Line salesman received more as commission for selling a policy, than the insurance records of Texas says it takes to pay several losses! Did the farmer who bought the Old Line policy get "LESS" than he paid for? 2nd: Last Fall, on the streets of Floydada, a group of fellows were discussing how to get the farmers cotton pulled? An Old Line Fire Insurance agent was in the bunch and someone asked him why he didn't go help? He said: "It wouldn't do any good for me to go, I haven't done a lick of work in over 40 years!" Has the Old Line agent got more than he has paid for?

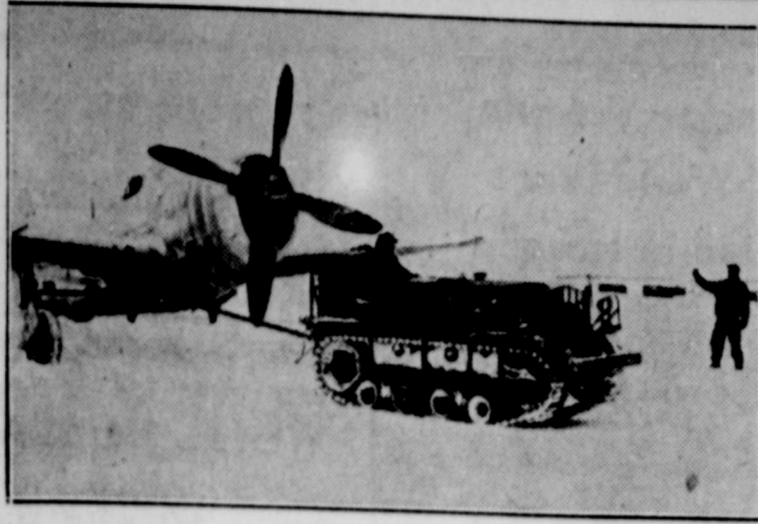

Old Line agents who live in town, own and take the profit from farms but when farmers band together in their own Farmers Union Co-Op Fire Insurance company,—boy, some of the Old Line Fire insurance agents (not all of them, mind you) get so hot that they wouldn't be a safe risk for the "cut-rate" company!

We've got the records of average fire losses. We know we're safe. If you can get Fire Insurance with the Farmers Union company, it will only cost you at the rate of \$30.00 per \$1,000.00 full protection for 5 years. Pay in 3 payments if you wish and no interest to pay.

Thank you boys, and continue to see —

THEIR'S IS THE PROSY SIDE OF AERIAL WARFARE—Despite heavy snowfalls ground crews of the Ninth Air Force kept the fields in operation and planes were ready for their missions as soon as the weather "broke". Brother of S. W. Ewing Died Friday At Eastland

S. W. Ewing received a message last Wednesday that his brother, J. W. Ewing of Eastland had died Tuesday night. He had been in ill health for the past two years. His death was from a heart attack.

S. W. Ewing, and son, B. L. left Friday morning for Eastland to attend the funeral which was held Saturday.

Mr. Ewing is survived by one other brother, S. M. Ewing of Dimmitt. He was the oldest child of five children.

CROSBYTON PARACHUTIST SUSPECTS JOKERS, FINDS PLENTY OF JSC CHUTES

U. S. NAVAL AIR STATION, Somewhere in the Hawaiian Islands—When one of this station's squadrons was first forming J. S. Cosper, parachutist first class, of Crosbyton, Texas, wanted to eliminate all possibility of having his chute confused with any other, so he stenciled his initials JSC in large letters on it hoping for ever after to be able to find the one parachute with those initials on it.

His plan would have succeeded except that the new material officer had the same idea about all the squadron's gear. But since he could not use the squadron's number for security reasons, he quickly assumed that the JSC was a good code marking for the outfit and promptly had every other silk marked the same way in the same place.

The dazed Cosper suspected a practical joker, until he saw the same identification marks being stenciled on every one of dozens of items issued to pilots. The diligent material officer has unintentionally honored the foresight of Cosper as a symbol for the squadron.

500 FOREST SEEDLINGS

Floyd county forest tree planters set out 500 seedlings during the 1944-45 planting season just ended, according to information released today by the Texas Forest Service, A. & M. college.

Distribution of 1,944,099 tree seedlings to 451 planters in 86 counties marked the widest scale reforestation season in the history of the Texas Forest service. Paul W. Schoen, forest management chief in charge of nursery stock distribution, said. The trees were grown and shipped from the state forest nursery near Alto.

The largest number of planters was in Anderson county.

Company Asks Bigger Sugar Beet Acreage

Horace E. Knapp, manager of the American Crystal Sugar company of Rocky Ford, Colorado and Edwin Pope of Plainview, field man for the same company were in Lockney last week contracting sugar beet growers and seeking to sign contracts with other farmers.

The are seeking to secure about 1000 or 1500 acres of sugar beets in this part of Texas so that a field man can be kept in Lockney the year round, says the Lockney Beacon reporting the visit of the officials.

The company plans to install equipment to facilitate the handling of beets if sufficient acreage can be secured.

Mr. Knapp pointed out that raising sugar beets wasn't just a wartime fad that would end when the war is over. He stated that sugar beets have always been and will continue to be a good money crop.

Hall Mark Member of Record-Breaking Port Company

CALCUTTA, India.—Sgt. William L. Hallmark, jr., of Floydada, Texas, a member of a Base Section No. 2, SOS, port company, recently took part in the record unloading of a Liberty ship at the army port of Calcutta.

The new all-time record of military installations throughout the world for the unloading of heavily-laden ships was 44 1/2 hours. The boat entered the docks, was unloaded and moved out of the docks in a "turnaround" time of 2 days, 5 1/2 hours.

The new record is approximately 90 minutes better than the previous one held by this port and was performed as a normal routine operation, without any special preparations or additional men, machinery or transportation. The men working on the ship did not know they were in the process of breaking a record until about 2 hours before completion.

Yes, You, Lady!

Out of Your Earnings Get Yourself An Income for Life...

Every business and professional woman—every woman who works—reaches the day when she no longer can or no longer cares to work. When that day comes to you, Lady, will your savings continue to bring you a paycheck for the graceful years of life, or have you been preparing for your retirement? Out of your earnings you can, you know, just as Miss R. B. did.

Miss R. B. was a teacher in the public school system of a Central Texas City. Through the years she set aside a nominal monthly sum out of her earnings to create a fund for her retirement. In the course of time she paid for two SOUTHWESTERN LIFE RETIREMENT INCOME contracts. Both contracts have matured. But Miss R. B. never missed the money she took periodically from her paycheck to create her savings fund—not as much as she would miss the \$92.51 she receives from SOUTHWESTERN LIFE INSURANCE COMPANY each month, and will continue to receive as long as she lives.

Out of your earnings you can get yourself an income for life. You can have \$50—\$75—\$100, or whatever you wish a month—every month, as your income for life, and you can have the checks begin at age 50, 55, 60, or whenever you wish them to begin. Now, while you are earning, is the time to start your program. Get an estimate of your needs today. Response to a request for full information regarding your requirements will not obligate you; that's a part of our service.

Matador Man Buys Cochran Co. Newspaper

MORTON, April 14—Sale of the Cochran County Headlight, owned and published approximately four years by Frank Hunsucker, to Douglas Meador, hunter and publisher of the Matador Tribune, was announced tonight.

Meador said his wife would be in charge of the Matador paper and that he would divide his time between the two enterprises.

The name of the Morton paper, a weekly, will be changed to "Morton Tribune," Meador said.

Hunsucker reportedly plans to move to Oregon.

Roosevelt—

(Continued from page 1) over the world who love liberty. Belongs to the Ages

District Judge Alton B. Chapman recalling many of the good things in the lives of the people for which the departed president had been responsible declared that his inimitable leadership for 12 years would make President Roosevelt belong to the ages.

A man of high ideals, a casualty of the war, who gave his life for America, Rev. Phil H. Gates characterized the fallen warrior, saying that of all his great attributes his greatest was an understanding heart.

The crowd, which heard the eulogies paid the departed soul, silently gave assent, the quietness of the packed court room and balcony being broken only by the sounds of the speakers.

Howard Howell brought the afternoon's tribute to a climax sounding taps. The nation's colors and colors of Company G, 39th battalion, TSG, were given first place in the large auditorium with the members of the company seated on the rostrum facing the audience.

Cotton Risk—

(Continued from first page) crop—he draws upon the Federal Crop Insurance corporation's fund for an income. Like unemployment insurance which pays the works in times of stress, so too are crop insurance indemnities paid in times of stress—when their crop fails.

Needs to Make Certain He concluded, "It is more necessary than ever from a dollars and cents standpoint that the farmer make certain of his income by insuring his crop, because crop insurance guarantees a crop every year."

Through Monday night 118 contracts covering 166 farms had been written. Applications to be eligible must be signed in the county office not later than Wednesday, April 25 or bear a post mark of not later than Wednesday midnight.

For detailed facts relative to the cotton crop insurance see your local AAA committeemen or office personnel.

Football—

(Continued from first page) neth Finley, and Delmar Hartley. For guards the coach has John Ray Tribble, dependable but not first stringer last year, Bruce Womack, switching from tackle last year, Oran Eubanks and Kenneth Hart.

Kelly Hagood is getting the call for the center tryout with Jimmie Price, Thomas Amburn and Van Collins also working out for the place.

For ends the coach has in mind Bill Womack from last year's team at the same position, D. F. Payne, a fast but inexperienced, Leonard Grigsby, Bob McGuire, Stanley Price, Eugene Mayfield is being used as a utility man in scrimmage.

Coach Murry said Monday he anticipated a probable 35-man squad when fall comes, with several new boys from around, enough to have three squads and a defensive team for each squad to work against.

"We'll have a pretty fair team that may turn out to be tops in the district and maybe not. They like the game and will be in there trying and we'll see what happens. Anyway, we will be a long ways ahead of last year when we spent a great deal of time learning to play football instead of perfecting plays."

Showers Help Some Areas Of the County

Showers Friday night and Sunday night helped somewhat with the shortage of moisture in Floyd county fields, although wheat that is trying to boot shows the need for additional rainfall. Farmers who have irrigation wells have them going on 24-hour basis.

At Floydada 48-hundredths of an inch fell Friday night and 18-hundredths Sunday night. About this same amount of rain fell in most other sections. However most of Lakeview had an inch of rain and some other communities also had had heavier fall than in the vicinity of Floydada.

Seventh War Loan Coasts

In most of Floyd county, community chairman have been sizing up the situation and doing their ground work quietly waiting for favorable weather to launch actual campaigns on Seventh War Loan E bond quotas.

At least one exception to this rule is C. V. Ford at Liberty, where work has begun in earnest. Fifteen hundred dollars of a \$5,000 quota there has been pledged.

Another exception is J. T. Poole at Antelope who has been at work on a \$2,500 quota and yesterday lacked only \$81 of having the job done.

County Chairman J. M. Willson is insisting that the work be started in every district as early as conditions will permit. The county's heaviest quota of the war will require every possible subscription from every district, he said.

County Herd—

(Continued from first page) class of cows calved July 1, 1941, to June 30, 1942, Earl Edwards' herd furnished the second place, J. A. Jameson's fourth, and Farrish's the sixth. Earl Edwards, jr.'s entry in the three-year-old class placed fourth, and Glen Carmack's senior heifer calf won fourth.

Farrish's graded herd placed second, his calf herd fifth, Carmack's calf herd sixth, and Edwards' calf herd seventh.

Floyd county's Jersey men won second place in the county herd contest, and Farrish won first with his three generations of females entry.

Earl Edwards, jr., had the sub-junior heifer that placed ninth and Donald Douglas Farrish's heifer placed 10th. Floyd county breeders placed second in the contest for best four heifers from one county.

McAllister Vice-President In the meeting of the Milking Shorthorn Breeders' association Thursday night George B. McAllister, of Floydada, was elected vice-president. He and Judge Alton B. Chapman were among the breeders of this type of cattle who had animals in the show and assigned to the milking shorthorn sale.

Competition in both Jersey and Milking Shorthorn cattle was keen, and the total number of cattle shown was in excess of 50 head.

PEC. DELVIN F. SMITH PRISONER OF GERMANS

Mrs. Delvin F. Smith has received word from her husband who has been missing in action since sometime in November. Pfc. Smith has written the family that he is a prisoner of the Germans. Two cards also have been received by his wife, but to date no information concerning Pfc. Smith has come from the War Department.

He had been across only a short time. From letters received here before his capture it was believed that he was on the front line. His two children and his wife reside here.

B. B. Gully returned the first of the week from Burleson, Texas, where he had been on a brief visit at his former home. He made the trip down-state with a former neighbor, Fletcher Wyne.

Cedar Veteran of World War I Died in Hospital

J. R. Langley, 49, for sometime a farmer in the Cedar Hill community and a World War No. I veteran, died in the Veterans Hospital in Amarillo Monday at 5 o'clock a. m. He had lived at Cedar for the past 26 years.

Funeral services were held Wednesday morning in the City Hall at Lockney with Father Hall Dornvorke officiating. He is survived by his wife and seven children. Names of the children were not available at this writing.

Interment was made in the Lockney cemetery under the direction of the Crager Funeral home.

Extension Agents Visit Floydada

To meet J. T. Rosborough, Extension horticulturist, Paul Gregg, assistant extension entomologist, and N. W. Williamson, District agent, several county and home demonstration agents of the section were in Floydada Monday morning, when a conference was held in the agriculture building.

At noon the party, numbering some 20 persons in all, were guests of Mrs. Edith Wilson at lunch in the kitchen of the agriculture building. In addition to Leon Ransom and Miss Wilson of this county those present for the conference and luncheon included:

County Agents Jason O. Gordon of Lubbock, W. R. Kimbrough of Crosby; Leo White of Brisco, C. C. Brookshire of Swisher, and their War food assistants; and Home Demonstration Agents Lucille Shultz of Hale county; Fannie B. Eaton of Hockley county, Carolyn Dixon of

Lynn county, Sybil Gidden of Swisher county and Leila Petty of Castro county.

Mr. and Mrs. W. N. Garrett spent Sunday in Amarillo where they were guests of relatives.

No two persons's finger prints are identical.

LET'S GO!

From now on is the time to clean your premises and keep them clean.

Our plan is not an annual cleanup but to continue the work through the year.

Here is what we plead for and suggest:

- Burn your rubbish
- Place your cans and all metal and glass in a container that can be lifted by two men
- Clean off all dead weeds and grass and burn them.

The City is operating a pickup daily and will make regular rounds but if you get more around than can wait call the city hall.

Report all dead animals at once to city hall.

Let us work together and do a real job of cleaning. Watch for a report soon on your light plant and in the meantime if you are not a customer of your own plant call the boys to hook you up. No trick at all.

Let us all work together—even the stock problem—and have a clean healthy town where folks will want to live, and where there is no friction among our good people.

Memorial Shrubs Will Be Available Says Garden Club

Floydada Garden Club met this morning April 13 in the home of Mrs. Loni Davis. Arrangements of memorial shrubs were placed in the garden. The subject of the program was "Memorial Shrubs." Mrs. G. V. Smith was the leader for the day. Due to the fact that some of the members had been unable to attend the memorial service for Floyd County, the club has decided to order 25 of these shrubs. Some of these are to be purchased for members of the club, but the majority of them will be available to anyone wishing a memorial shrub. These shrubs will be in the garden of Mrs. E. J. Moorehead and will be here by the last of this month.

VICTORY GARDEN LEADERS

Victory Garden headquarters at the U. S. Department of Agriculture is depending this year on a continuation of the good working relations between the less experienced gardeners and the "old timers" who as leaders and advisors have been so effective in making Victory Gardening really productive of the quantities of good food that are needed in wartime.

Rallying the food supply forces, President Roosevelt said: "I call upon the millions of Victory Gardeners who have done so much to swell the nation's food supply in these war years to continue their good work." He also remarked, "It is essential for every man and woman to do everything to help in this huge task of getting the food produced and seeing that it is conserved and shared."

Reports reveal some of the helpfulness of the garden leaders, but those most familiar with gardening activities of 1943 and 1944 know that records never can tell half of what these volunteers have actually accomplished in the garden campaigns. These leaders have encouraged the beginners and have headed off mistakes and waste of effort. They have taken on organization chores that needed doing; arranged permission for use of vacant lots; organized groups to finance plowing of tracts; topped dealers as to coming demands for seeds, fertilizers, and insecticides; coached garden planners; furnished practical advice based on experience; have encouraged opening of canning centers; and have rallied those whose spirit tended to flag. In many a community garden, production has been twice what it would have been, just because a tactful leader has kept the gardeners up to the mark and working for abundance.

There is urgent need for continuation of good leadership in local community gardening efforts. Experienced leaders are urged to "Carry on!" A suggestion from headquarters is for the less experienced gardeners to show their appreciation of the service by leaders, by asking the willing worker to continue to lead for the season of 1945.

The annual investment in advertising of all kinds, in the United States totals over \$1,500,000.

Washington's second inaugural address was the shortest on record—134 words. Lincoln's second address contained 588 words; Johnson's 362; and Arthur's 431.

PLEASANT VALLEY CLUB

Col. McMurray Judge Advocate In Middle East

HEADQUARTERS, Africa-Middle East Theater (AMET), Cairo, Egypt, 6 April—Supervision of the administration of military justice in the largest overseas theater of operations is the current assignment of Colonel Paul H. McMurray, judge advocate general of the Africa-Middle East Theater and former senior legal consultant of the United States Veterans administration.

Problems of discipline and punishment of both officer and enlisted personnel, however remotely stationed in the theater, must receive prompt and equitable handling. The organization of efficient legal machinery, always according to Army Regulations, is a most important phase of the work of a theater judge advocate general. To effect this organization, Colonel McMurray estimates he has traveled more than 10,000 miles on air trips over Africa and the Middle East area.

But the scope of a theater judge advocate general's interests is far wider than solely the administration of justice, however vital that may be to an Army's over-all efficiency. There are, in addition, myriad strictly legal and business matters connected with procurement of supplies, contracts, leases and business transactions.

Sound Legal Background
While engaged in Army legal work in Washington before coming overseas, Colonel McMurray had occasion to handle, as counsel for the United States, claims involving large sums of money. He is consequently acutely aware of the necessity for soundness in the initiation of contracts, leases and business transactions if future claims are to be kept to a minimum.

A Bachelor of law of George Washington University, Washington, D. C., Colonel McMurray is a member of the Federal Bar association and the American Judge Advocates association. He is a veteran of World War I and was recalled to active duty in the present war in January, 1941. He has been overseas in this theater for 24 months.

Colonel McMurray's wife resides in Washington, D. C., at 4327 Reno Road, N. W. His parents, Mr. and Mrs. Joseph H. McMurray live in Canyon, Texas.

He is the brother of Mrs. Lee Allen of this city.

Family Re-Union, And Dinner Honor J. W. Grigsby

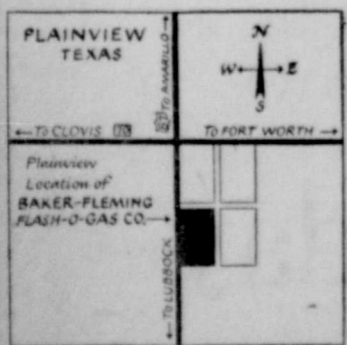

A family reunion and luncheon was given Sunday in the home of Mr. and Mrs. E. A. Grigsby in honor of their son, J. W. S. M. L. c USNR, of San Francisco, California. Those present were J. W., his brothers, Leonard, and Don, his grandmothers, Mrs. J. A. Grigsby and Mrs. M. B. Holmes, Mr. and Mrs. Lloyd Allen and children, Lloyd Edgar, Frances Naomi, and Patricia, Mr. and Mrs. Carlton Crabb and son, Leon, of Amarillo, Mr. and Mrs. John Holmes and family, Mr. and Mrs. James Holmes and daughter, Gale, and son, Jay Riley, Charles, Dorothy, and Euma Mae, children of Mr. and Mrs. Edd Holmes.

J. W., once a member of Floydada High school Whirlwind squad, has one of the many very interesting stories of the war on the high seas that can be told after the war is won. Training only a few weeks he went into service on the seas within a few weeks after he finished high school. He hopes to have an assignment for a time on the states side of the sea.

J. W. left for California Sunday afternoon by way of Farmington, New Mexico, where he will visit another sister, Mrs. Woodrow Williams. Mr. and Mrs. Grigsby accompanied him to Farmington where they will visit.

NEWELL PARKER IN NEW GUINEA: USING NATIVES OF THE AREA AS HELPERS

Although his outfit has shipped out to a new area, Newell Parker, who has been in New Guinea practically ever since he went over seas two years ago, is still located there. At least he was on March 31.

On that date, according to new his parents Mr. and Mrs. H. G. Parker had, he was trying to make use of 33 natives as helpers. He has been in the "parts business" practically all the time since shipping out, a job in which he had gained considerable experience in civil life at home. He was parts department manager for Oden Chevrolet company before going into the army.

Elmore Kelley, of Meridian, Bosque county, was in Floydada on business hie first of the week.

So the city folks have done it! Well, WATCH OUR SPEED!

WORD comes from Washington that the fat-salvage problem has got to be licked in the small cities, the towns and on the farms.

We women have to save enough used fats in our kitchens to help make munitions, medicines, fabrics, soap for military and civilian use, and many other essentials.

The job, to date, has been done largely by city people, because arrangements for collecting the fats were made in the cities first. And these city folks are turning in more than twelve million pounds a month!

Now we're called on. And will the women on the farms and in the towns and small cities break that record?

Don't worry—just watch our speed!

HOW TO DO IT: Save all used fats in a tin can. Keep it handy to the stove. Scrape your broilers and roasting pans, skim soups and gravies, for every drop counts. Keep solid pieces of fat, as meat trimmings and table scraps, in a bowl.

Melt down once a week when your oven's going, add the liquid fat to the salvage can.

Take the can to your butcher as soon as it's full. He will give you two red points and up to four cents for every pound. If you have any difficulty, call your County Agent or Home Demonstration Agent. This message is approved by WFA and OPA, and paid for by Industry.

Liberated School Tutor Describes Philippine Ordeal

The following story printed in the Phoenix Gazette, was received here by Mrs. A. J. Jetton from her daughter, Mrs. Myrtle Yearby of Globe, Arizona, about a former Floyd county girl, rescued at Santa Tomas, P. I.

"I've always been happy to be an American, but it is thrilling to be proud with Americans."

That was how the former Miss Donnie Taylor, a school teacher, described her feelings upon being liberated from the Los Banos internment camp in the Philippines, in a letter to Mrs. Mable Gross, 310 North Fourth Avenue, Phoenix, Arizona.

Miss Taylor, who has been married since Mrs. Gross last saw her, was taken prisoner along with her husband, Roll, when the Philippines fell to the Japs early in the war. Mrs. Gross never had learned Miss Taylor's married name, so she will be referred to by her maiden name.

The letter follows: "We're okay. Do hope some of you heard my radio message. I was the first Los Banos internnee on the air—hoping to rush word of our escape and safety. We've been through a portion of the war, but we've weathered it like veterans."

"The last time I was on the scales I tipped them at 125—from then on I kept off. Roll looks worse than I do, but you should see him eat. Our stomachs are bottomless, so bear with us if we arrive at your house starved. We have been living on eight ounces of rice a day; greens from our own little garden; roots and edible weeds since last September.

"No seasonings, no fats, no sweets—so the Japs really thinned us down!

"Our rescue was timely, for we are told we were to have been executed en masse. But if I should choose between slow starvation, I would select the quicker way, wouldn't you?"

"Our troops came into enemy territory just to get us (at 1 A. M. February 23). They arrived three ways and right together. Parachute troops dropped from planes, big tanks drove over camp walls, and Filipino guerrillas came down the mountains.

"The battle was brief—the Japs were taken by surprise—the 2,000 people were cleared out of the camp in two hours time. I looked back to see the whole camp in flames. Our troops burned it so the Japs couldn't use it.

"We came across that big lake south of Manila in those big tanks. The Japs fired on us twice, but no one was wounded in our tank. A few of the internnees got slight wounds and one American soldier and four Filipinos were lost in battle. I'm sure it was one of the smallest losses of the war.

"Our soldiers were so wonderful, so patient, so understanding and so kind. I've always been happy to be an American, but it's thrilling to be proud with Americans. The men that rescued us were made up of an entire volunteer group. Among them was a good friend of ours, a mining man from Masboto who has been in service since December, 1941, and a lieutenant colonel attached to the army. Even he, with his rank of importance, felt he wanted to take part in our rescue."

"We don't know our future plans. Our company advises us to take home leave and rest a bit. We are in so much better health than our fellow internnees. x x x Our first mail came from home March 10, 1943. The Japs managed pretty well in keeping us isolated."

Miss Taylor, a former resident of Lockney, Tex., had taught school in Alaska, prior to going to the Philippines.

Proper preparation and care by homemakers and locker managers can eliminate the five most common troubles in frozen poultry products — discoloration, off-flavors, drying out, excess "drip" or "ooze", and rancidity, according to Winifred J. Leverenz, specialist in food preservation for the A. & M. College Extension Service.

Discoloration, or dark color in frozen poultry meat, usually is a result of insufficient bleeding, she says. Off-flavors usually are caused by not chilling the meat quickly enough. She attributes drying out of the meat to a poor wrap. Poor

wrapping also will cause discoloration. Tests by many research workers have shown that celophane currently is the most ideal wrapping material for meat, and poultry especially.

Mrs. Leverenz says many homemakers have found that in frying chicken previously frozen, often the crust will flake off the pieces. This is the result of a drip or some sharp

freezing at 20° F. below zero and keeping the product at zero without fluctuation in temperatures will prevent this difficulty. Too high temperatures or fluctuation in storage will cause crystals in the product to enlarge, break down more quickly and release juices, she explains. Constant low temperatures also will

prevent the fifth common difficulty — rancidity. The specialist also recommends that poultry meats be thawed almost completely at room temperature or in a refrigerator so that the meat will retain most of this moisture during the cooking process. With these various factors controlled, frozen poultry products have been kept in locker boxes for a year and a half without loss of quality. However, most homemakers will find it more economical and practical to use frozen poultry meats within a year, adding new supplies to their locker as another crop of fryers is available.

How to win a tough scrap before it starts

NEXT MONTH, YOU'RE FACING a scrap with a pretty rugged opponent.

This baby is the biggest character of his kind you've ever had to tangle with. (You'll find his weight listed in the tables below.)

But 26 million other Americans can tell you how to tip the scales in your favor.

It's simple. Just start swinging now—before he takes a poke at you.

This 7th War Loan doesn't really get started until next month. But you can get started now. Like the 26 million patriotic Americans on the Payroll Savings Plan, you can start putting an extra part of your pay check—over and above your regular bond purchases—into War Bonds right now.

Then, when that 7th War Loan starts, you'll have a big part of your share of extra Bonds already bought and paid for.

The reason your quota is so big this time is simple.

1st, whether we're fighting Germans and Japs, or Japs alone, there'll be no easing up in this fight till every last enemy is on his knees—or dead.

2nd, to save time and work, there will be fewer War Loans this year. Only 2 instead of 3. That means

we must tackle a bigger loan both times.

So don't give that quota a chance to buffalo you. Start licking it right now. Sock away an extra slice of your pay into War Bonds this week and every week till your quota's licked.

It's a tough customer to beat. But not one millionth as tough as the opponents some of your friends and relatives are facing over their bayonets.

And every punch at your opponent helps lick too.

Start swinging!

FIND YOUR QUOTA . . . AND MAKE IT!

Gold Star Girls Outstanding Club Work

STATE STATION, April 12—Representatives in Extension Service counties in the South have selected Gold Star 4-H girls for the past year, and awards now are being presented at local ceremonies, according to local reports.

Miss Kate Adele Hill, district agent in charge of home demonstration work.

Star pins are presented to Gold Star girls in each county every year. The girl who is selected as 4-H Club girl may be considered for the award when she is in her third year of club membership. She must have previously received the Gold Star pin. Candidates are selected from the 4-H Clubs, and the winner is determined by a vote of home demonstration agents and 4-H Club girls, Miss Hill said.

Two Gold Star girls for the county are: Elsie Woodruff, Shalby county; and Mattie Bennett, Ira, Scurry county; Mason, Olton, for Lamb county; Gwyn, Progress, Bailey county; Karleen Schwallier, Nazareth, Castro county; Vita Jo Lorenzo, for Crosby county; Kirk, Floydada, for Floyd county; Anna Ann Tilson, Plainview, Hale county; and Naomi Happy, for Swisher county.

Results of the girls' club activities are extremely varied, and they show the highest type of ingenuity and patriotism, Miss Hill says. Improvement in gardening, canning, and home improvement, they have made for field work during the year.

DISCHARGE BUTTON—Representatives of the Army, Navy and Veterans Administration have decided to retain the discharge button which is given to all honorably discharged veterans of the present war. It is available either as a lapel button or with a pin-back.

The veteran is issued his button free of charge upon his discharge. If the button is lost or destroyed, another may be obtained at cost (seven cents) by the veteran on presentation of his discharge papers to the Quartermaster Supply Officer at the nearest post, camp or station.

war years. For example, during a drive to rid Lubbock county of Johnson grass, that county's Gold Star girl drove the tractor while others have done outstanding work in making their own clothing and preparation of meals for the family. Castro county's Gold Star girl helped raise 340 chickens and five pigs, while Scurry county's winner is the mainstay of the home laundry. Bailey county's representative was hired for 30 days' work in irrigated truck patches during the summer but at home she helped paper three rooms and rearrange the family cellar.

NORTH SIDE 4-H CLUB

North Side Colored school had their monthly 4-H club meeting Thursday, April 12.

All members were present. The club set up their objectives for the coming year. They are as follows: Have a clean-up campaign, have a scrap drive and also have a picnic.

Jackie Brock led a short discussion on parliamentary procedure.

PRODUCTION OF AMPHIBIOUS CARGO CARRIERS SOON

DEARBORN, Mich.—Ford Motor Company will start production of nearly 10,000 amphibious cargo carriers for the army, and manufacture is expected to begin July 1.

The cargo carrier is a fully-tracked vehicle, capable of traversing all kinds of terrain and water.

The vehicle is about 189 inches long, 67 inches wide, 71 inches high and its weight, less crew, is approximately 5,640 pounds.

Mr. and Mrs. W. A. Lovell and family and Mr. and Mrs. Clyde Smith, who have been making their homes in Wilmington, California, have returned to the Texas plains and will make their home at Plainview temporarily. Mr. Lovell, who was in Floydada Saturday said his son Clyde will be leaving soon for the armed forces, as will also Clyde Smith, his son-in-law.

Mr. and Mrs. Ben Morgan and daughter of Odessa were week-end guests of Mr. and Mrs. J. W. Fowler and daughter. Mrs. Morgan is the sister of Mrs. Fowler.

Injured Floydada Soldier Recovers In British Isles

THE 192ND GENERAL HOSPITAL, England—Wounded in the left shoulder by an enemy wooden bullet while on a reconnaissance patrol through enemy lines near St. Hubert, Belgium, Corporal David C. Kirk, 22, of 504 South Wall, Floydada, Texas, is now recovering at this United States Army general hospital in England. He has been awarded the Purple Heart.

"Cpl. Kirk is making excellent progress and will leave soon to complete his recovery at a convalescent hospital before returning to duty," said his ward surgeon, Captain John Mott of San Francisco, California.

"I was on a patrol over the enemy line to find a spot to set up our command post," said Cpl. Kirk. "We planned to make another advance, but a sniper shot me as I was riding in a jeep."

He was taken by jeep to an aid station and after treatment was evacuated to England on a hospital ship.

Mr. and Mrs. Ohmer W. Kirk, Cpl. Kirk's parents, live at the South Wall street address. His brother, Lieutenant (junior grade) James T. Kirk, is with the Sea-bees. Before entering the Army in February 1943, Cpl. Kirk was a student at West Texas State Teachers college.

"I've been hearing a lot about farm telephones lately"

It's a live subject with telephone people. They're doing a lot of research and planning right now.

What does the telephone company have in mind?

Two main points. One is to improve the service over existing lines. The other is to extend telephone service to families not reached by existing lines.

What are some of the new ideas for farm telephone service?

One that has a lot of promise is to send telephone conversations over electric power lines. Another is a new,

stronger telephone wire that requires fewer poles and has greater resistance to storms. A third is a radiotelephone system to reach people in remote spots.

Is telephone service over power lines now practical?

Yes. Bell telephone scientists began working on it in 1938 and started field tests with the REA in 1940. Before the war interrupted, it was clear that a suitable system could be produced.

The postwar farm telephone job will be big. But the combination of telephone research and the know-how of practical telephone men is the best key to progress.

Consumers Meet Third Monday of Month Next Year

Stockholders of Consumers Fuel association in their meeting here last week decided to hold their annual business and election meeting on the third Monday in the month of April next year instead of on the second Monday. The change was made to give the auditor an additional week in which to make up the final report. Second Monday this year, for instance, gave the office force only six working days in which to make all closing records and the auditor to compile his report.

Business of the concern, it was revealed in the report made by Manager C. C. Huckabee, showed an increase in volume of nearly \$10,000 over the previous fiscal year in spite of restrictions and shortages incident to the war.

Roe Jones was elected a member

of the board of directors to take the place of A. S. Cummins, who has retired from the firm. G. C. Collins and M. L. Probasco were re-elected members of the board. J. A. Lloyd and P. J. Wilkes are hold-over members.

E. L. Norman, Jr. Now a Sergeant

With his promotion at the close of last year to corporal and his promotion last week to sergeant at Fitzsimmons General hospital, U. S. Army, raise in rank had begun to come faster to E. L. (Leeman) Norman, Jr. of Floydada, who is in the medical corps and has been stationed 19 months at Denver.

Leeman is head of the blood chemistry section of the School of Medicine detachment of Enlisted Technicians.

His engagement to be married to Miss Mary Ann Mell, of Augusta, Georgia, was announced last week by Mr. and Mrs. Charles Irwin Mell, Jr. parents of the betrothed Georgia girl.

Three Tubbs Boys See Service in The Far Places

The three Tubbs boys, sons of Mr. and Mrs. A. A. Tubbs, have seen a lot of service since the days when the family lived in Floydada and Arthur, Jr., answered the call of the Marines.

Arthur Jr., was on Iwo, the family here learns, with the Third Marine division. He has been in numerous campaigns.

Harold, seriously injured when the Hornet was mortally wounded in the early days of Southwest Pacific battles of the army and navy for a foothold in New Guinea, is now stationed in San Diego at the Naval Air station.

George is in the army. He was in Germany at last report. The Tubbs home is at 8315 Towne avenue, Los Angeles, California.

Sister Is Buried At Wichita Falls

Mr. and Mrs. J. H. Poore returned Wednesday night of last week from Wichita Falls where they attended the last rites of Mrs. J. P. Jones, 77, sister of Mr. Poore.

Mrs. Jones had been making her home here with her brother for the past six months until three weeks ago when she became ill and was taken to Wichita Falls General hospital for treatment. She died Sunday, April 8, of heart trouble.

Funeral services were held at the Church of Christ in Wichita Falls and interment made in the Rose Hill cemetery. Besides the brother here the deceased was survived by four brothers and one sister.

FOOD SALE

Women of the Fairview-Campbell Home Demonstration club have announced they will have a food sale in Floydada Saturday in the kitchen at the agricultural building.

Billy Smith, F. 1/c USNR of Long Beach, California, is back in the states after several months of overseas service. He is in a hospital in San Francisco. His wife, the former Maudene Moore, is in California with her husband. Billy is formerly of Floydada and is a brother of Mrs. Roy Nabors also formerly of Floydada.
