MRS. GOLIGHTLY HOSTESS AT CENTER CLUB MEETING

Mrs. Lee Golightly was hostess to the Center Home Demonstration club Friday at its regular meeting, with the hostess presiding at the business session. Roll call was answered with a first aid hint. Mrs. Rude, mother of Mrs. Golightly, gave one that was given her by a doctor. It was to keep a clean feather handy to use in case of a child getting choked. Just tickle the child's throat with the feather and the desired effect will follow.

The clothing leaders, Mrs. Clyde Burton and Mrs. W. B. Jordan, were unable to be present so we missed our demonstration on sewing machine attachments. We hope to have the demonstration later.

The hostess served a delicious refreshment plate to the following members Mesdames Oliver Allen, Woodrow Wilson, J. E. Green and O. C. Vinson and Mrs. Tom Noland and the guest, Mrs. Rude.

The next meeting will be May 23 and it is hoped that all the members will be present. The hostess will be Mrs. J. A. Hartsell and Miss Leila Petty will give a demonstration.

'Originals' Shown In Millinery at Garden Club Meet

Our Home Garden club met Tuesday, May 13, for a luncheon at 1 p. m. in the home of Mrs. Kinder Farris. Everyone present wore an original hat one concocted by the person with whatever materials she had on hand.

The prize for the most original hat was won by Mrs. Jim Potts. Her hat featured tiny toy cars and a skeleton and was called "Death on the Highway."

Following the luncheon, an auction was held to raise funds for the club, with Mrs. Potts acting as auctioneer. Each member had brought a "lady like gift," wrapped for the sale.

Present for the meeting were Mesdames J. M. Willson, Jr., John Reue, Jim Potts, Bill Norman, Tate Jones, Lon Davis, Jr., J. S. Hale, Jr., Mmes. Earl Crawford, M. J. McNeill, Aubrey Stewart, E. E. Joiner and W. E. Garrett, and guests Mrs. Jimmy King and Mrs. A. Galloway.

A brief business meeting was held after the social at which time the club voted to disband for the month of July and August.

The next club meeting will be June 12 with Mr. E. E. Joiner as hostess.

P-T-A VOICES THANKS

The Andrews Ward Parent-Teachers association wishes to express thanks to Doctors G. V. Smith, A. E. Guthrie and H. A. Bess for their cooperation in making the pre-school clinic a success.

They would also like to thank and Mrs. C. M. Fulton of the McCoy announcements and to the Hesperian for cooperation in the paper.

Sixty-five children were given check-ups. The P.T.A. want you to know that your service and time were greatly appreciated.

Mrs. W. E. Carr, School Nurse and the P.T.A. Committee.

Armintha Berry, Floydada student in West Texas State college, was costume director and had a part in the opera, "H.M.S. Pinafore," presented by the Opera Work shop Tuesday night.

It was a most enjoyable event for a large audience, said Mr. and Mrs. Charley Berry, parents of Armintha, who attended the presentation, accompanied by Mrs. Berry's sister, Mrs. Louette Chiddix, of Plainview.

Father, 4 Sons In Ceremonial at Khiva on Saturday

Of the 91 candidates for the Mystic Shrine spring ceremonies held in Amarillo last Saturday at the Khiva Temple, Floyd county was well represented. Twelve nobles, including a father and four sons, were in the class.

The father was T. B. Mitchell, and his four sons, Chester W., Robert C., Rhea and Glenn, all of Lockney. Others from Lockney who took the shrine were A. O. Foster, Oliver Savage, W. F. Anderson, Arch Craiger, F. C. Baccus, Roy Baccus and Raymond Rugger.

Two from Silverton were E. E. Minter and G. A. Elrode.

The picture of the father and four sons appeared in the Sunday addition of the Amarillo News-Globe.

Mrs. T. B. Mitchell, mother of the sons, came in for some of the honor also as her picture appeared on the front page as a "Salute to Mothers" in the Mothers day edition of the Amarillo newspaper.

Tune Up, Check Up Vacationists Should Heed This

Tune up, check up, shine up, summarize. The automobile, that is, you plan to have carry you on that vacation this spring or summer.

GAS AGAIN!

The car stopped in a dark country lane. "Out of gas," our hero said. The girl friend pulled a flask out of her handbag. "Wow," said he, "What's that? Bourbon?" No, she retorted, "gasoline."

A well known violinist and his beautiful wife who frequently acted as his accompanist were whisked off by the hostess to meet the guest of honor.

"Mr. Baker, I would like to have you meet Mr. Verdini, the famous violinist. And this is Mrs. Verdini who has quite a reputation too!"

NEW SILHOUETTE AND NEW FABRICS DRAMATIZE THE "ROMANTIC" IN SPRING FASHIONS

Fabrics with surface interest—such as fleeces, ribbed wools, tweeds, flannels—tailored with conscious romantic styling, inspire a "big spark of something different" in coats and suits for spring. The three garments shown here, styled by Betty Rose, typify the new silhouette and the new spring fabrics. Colors, too, are exciting. Neutrals and bright pastels in coats are favorites. They harmonize with the browns, navies and golds of suits. The little coat on the left, popular in peach, shrimp, gold, pink and lilac, with deep-cuffed sleeves and pockets and square-buttoned, notched tuxedo front, portrays the graceful lines of the new spring tailoring. The soft-to-the-touch fleece adds feminine warmth. The same basic features—romantic styling and fabrics with surface interest—are especially prominent in the full-length coat. They are dramatized in the coat on the right. Here is sweeping contour which complements, with its tingle-button closure, bold worsted in gay spring colors. And the tailoring of the new spring suits is in harmony with coat stylings. Feminine lines of the Betty Rose suit in the center, accented by notched collar, turn-up pockets, arched hip line and full skirt, bespeak all that isuring and romantically sophisticated. Rich texture of the yarn-dyed flannel again complements the styling.

New Kitchen Beauty

Tired looking kitchens can be given an inexpensive face lifting by such economical tricks as fresh paint or wallpaper, and clever new curtains. Add to these a sparkling new dining table with comfy chairs, and family breakfasts and guest snacks become perkier affairs, to say nothing of your own happier hours in such a cheerful room.

Just right as the focal point for such a simple kitchen face lifting scheme is a kidney shaped Daystrom chrome table with plastic top that resists heat, stains and scars. The table, which extends to seat six to eight comfortably, is available in a wide variety of ray top colors in pearl or woodgrain finish. Chairs, available in a choice of six styles, are upholstered in attractive, washable plastic in mix or match colors.

This table, one of a group of gracefully designed chrome tables, will be available in stores by spring.

Yarborough Takes Issues to People in Radio Address

AUSTIN, Texas. — (Special) — Gubernatorial candidate Ralph Yarborough will make a statewide broadcast to the people of Texas on Monday night, May 19. "I'm going to take the issues in this governor's race direct to the people," the Austin attorney said. Yarborough's talk will be heard over station KGNC at 9:00 p. m.

Since announcing his candidacy two weeks ago, Yarborough said the mail response from every part of the state had been overwhelming.

BILLY FULTON HOSPITALIZED FOLLOWING AUTO ACCIDENT

Billy Fulton, age 15, son of Mr. and Mrs. C. W. Fulton of the McCoy community, is a patient of the Peoples hospital, where he is recovering from an accident he had following a ball game at the McCoy school house several days ago. Billy is a sophomore in Floydada High school.

Following the game, he was accidentally run over by Bobby Smith. Billy suffered a broken pelvis bone on the right side. He is in a cast and will have to remain there from four to eight weeks, so his mother stated. Mrs. Fulton is in attendance of Billy at the hospital.

Out of town guests in the Claud Ring home Mother's day were Mr. and Mrs. J. W. Womack and children of Dallas and Mr. and Mrs. Edward Barber, Jr., and children of Lubbock.

WATER MAID!

The new maid had been instructed to bring her mistress a glass of water every morning. She delivered the glass in her hand, carrying the drink in her hand. The mistress exploded "Don't ever do that again. After this put it on a tray." The next morning the maid appeared with a worried look on her face, and asked: "Excuse me, ma'am, but do I give you a spoon with this or do you just lap it up?"

Oxygen Makes A Jolly Jaunt Thru the Nose

Since the intake of oxygen to feed the body, the tour that the oxygen takes in its feeding job makes up a jolly jaunt that keeps the body healthy and happy.

From the throat (pharynx) to the bronchial tubes the oxygen seems to have little to do except stay on the right track. Somehow these little balls of oxygen seem to know that they are destined for the forward track (the larynx) out of the throat, leading into the trachea (windpipe), instead of the backward track that is the esophagus (gullet). If too much oxygen is pulled in to the throat, however, the excess seems to slip into the gullet track and ends up in the stomach. It evidently isn't wanted there in any great amount and it gets tossed back up the throat in the form of a belch. Or it may go on into the intestinal tract where it causes flatulence, gas in the intestines.

Oxygen is a gas, one of the gases in the air that is constantly exchanged in the body for its life-sustaining substance. It is the most essential of all the gases in the process of breathing. Actually, oxygen is only about one-fifth of the air you take in when you breathe; the rest of the air is made up largely of nitrogen with smidgens of other substances, including some carbon dioxide.

When you breathe out, you exhale some oxygen, more carbon dioxide and practically the same amount of nitrogen that you took in.

On the way in, oxygen slips into the windpipe, an elastic tube that has a slippery, wet lining with lots of little hairs sticking out of it. At the center of the body, halfway between the shoulder and the armpit, three tubes curve down into two branches, the bronchi, which form a sort of stem for the lungs. Each branch (bronchus) has many subdivisions like the veins in a leaf and the lungs balloon out upon that framework.

The oxygen gets into the lungs from those vein-like stems that form the framework, and once inside it looks for a way out. There are thousands of ways out because the inside of the lung is a mass of holes that look like a honeycomb.

There are more holes on the right side lung than on the left side because the right side is bigger. The heart shoves up there where part of the left lung might be if the two lungs were the same size.

When the oxygen gets into the lungs, the lungs are big because they expand when you breathe in. Then when you breathe out, the lungs contract and that oxygen gets shoved into one of those honeycomb holes which turns into a blood vessel. And thus the oxygen gets started on the way to the heart.

There are four main streams of blood vessels which carry this oxygen-laden blood to the heart, streams which are called pulmonary veins. Two come from the right lung and two from the left, but each one represents thousands of smaller streams which have come together.

They all lead to the top of the left side of the heart, entering what is called the left atrium. Here they all come together again with a great deal of force and the stream is stopped short by a dam which is called the mitral valve (sometimes also called the bicuspid valve). In due time that dam opens and the oxygen-laden blood flows on deeper into the left ventricle. The only outlet from that basin is at the top where there is a stopper known as the aortic valve. In due time this stopper also opens and the blood flows upward out of the heart to start feeding that oxygen to all the body.

All that action takes place on the left side of the heart. When the oxygen has been fed out of the blood-stream and waste from all the organs has been picked up by the blood-stream, the blood comes back to the top of the right side of the heart. There it enters the right atrium, hits the dam known as the tricuspid valve flows into the basin known as the right ventricle, hits the stopper as known as the pulmonary valve, and then flows upstream to the lungs to dump the waste product which you breathe out.

So the respiratory system also includes the heart and blood vessels, known as the cardiovascular system, since there is no other way for the oxygen to get those internal recesses with its food for life.

MRS. H. C. RANDOLPH ILL.
Mrs. H. C. Randolph, age 90, who suffered a stroke last week is a patient in the Pitts hospital. Wednesday afternoon her daughter, Mrs. W. B. Wilson said there was very little improvement in her condition. The daughter remains with her mother during the day and a special nurse is on duty at night with Mrs. Randolph.

Mrs. Randolph is one of the early day pioneers of Floyd County.

THE STORY OF INSURANCE

Mystified, the horsemen rode on.

When the sun rose, they reached into their pockets and found a miracle had happened. The pebbles had transformed into diamonds, rubies, and other precious stones. They remembered the warning. They were glad and sorry—glad they had taken some, sorry they had not taken more.

Official Memorandum

BY
ALLAN SHIVERS
Governor of Texas

AUSTIN, TEXAS

GREETINGS:

The period of May 24-31, 1952, has been designated by the Veterans of Foreign Wars of the United States and its Auxiliary for the annual Buddy Poppy Sale.

All proceeds from the Sale will be used for the benefit of the men now serving in the Armed Forces and needy war veterans and the orphans and widows of deceased veterans.

The annual Sale of the V.F.W. "Buddy" Poppy will enable all citizens to show their gratitude to servicemen and have a part in continuing the assistance rendered to needy disabled war veterans and their families.

THEREFORE, I, as Governor of Texas, do hereby proclaim the period of May 24-31, 1952, as

V.F.W. "BUDDY" POPPY WEEK

and urge every person to procure and wear the Buddy Poppy during this period.

In official recognition whereof, I hereby affix my signature this 25th day of May, 1952

Lawyers' Duty In Defending A Guilty Man

People often misunderstand the reason a lawyer puts up the fight he does for a client who is accused of a crime. "It might be all right," they say, "if the man were innocent, but why put out so much effort defending him when everyone knows he is guilty?"

The obvious answer is that not everyone knows all the material facts. The accused is not a criminal in any legal sense until, by due process of law and under rules of the court and jury arrives at the conclusion that he has committed a crime.

The Canons of Ethics governing the lawyers of Texas say: "It is the right of a member of the State Bar of Texas) to undertake the defense of a person accused of crime, regardless of his personal opinion as to the guilt of the accused; having undertaken such defense, the member is bound by all fair and honorable means, to present every defense that the law of the land permits, to the end that no person may be deprived of life or liberty but by due process of law."

If this were not the case, innocent persons, victims only of suspicious circumstances, might be denied proper defense. Such legal defence is a basic principal of American justice. The rights of the accused to defend himself are nowhere as well guarded as in the British Commonwealth and the United States where government is based on the common law.

In France and other European countries a person accused of a crime is presumed to be guilty. If he is to escape the penalties of the law, he is obliged to prove that he is innocent. But in common law countries an accused person is presumed to be innocent until the state presents enough properly admissible evidence to convince an impartial jury that he is guilty beyond a reasonable doubt.

In serious cases, if the accused cannot afford to hire his own attorney, the court is required to appoint a lawyer to defend him without charge. The Canons of Ethics require the lawyer to defend such a man with the same vigor and skill as he would an ordinary client.

Corresponding to the Canon governing lawyers who defend the accused, there is one for the prosecuting attorney — the attorney retained by the government to present his case against the accused. The Canons of Ethics on this point say: "It should be the primary duty of a member engaged in public prosecution not to convict, but to see that justice is done."

How seriously the public, as well as lawyers, considers the rights of defendants accused of crime is found not only in indignation against government officers who violate these rights, but also against mobs which try to take the law into their own hands. If either officers or mobs can take over the law, then no one is safe and the basis of our type of civilization is gone. The law pertaining to criminal trials were made, not only to protect the rights of the accused, but to protect the rights of all persons.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law with out the aid of an attorney who knows the facts, because the facts may change the application of the law.)

Charles Darwin is credited with the theory of "the survival of the fittest."

Nature Exacts Terrific Toll From Moderns

AUSTIN, Texas — Mental disorders today represent a real problem and it is estimated that almost fifty percent of all hospital beds are filled by persons suffering from mental or nervous diseases, declares Dr. Geo. W. Cox, State Health Officer.

It thus appears that modern civilization is exacting a terrific toll. High speed living with its cruel excursions upon nature, is responsible for a large part of the trouble. But improper personal conduct must also shoulder much of the blame. The fact that nearly fifty percent of the patients entering hospitals for mental disorders are there because of organic or toxic causes.

For example, general paralysis is the direct cause of many mental troubles in males entering hospitals. This condition is an organic disease of the brain due to the germ responsible for syphilis. It is a preventable disease. Early and effective treatment of acquired syphilis will block the end results of general paralysis in the insane.

The excessive use of alcohol is responsible for a number of mental disorders. Alcohol and syphilis combined are responsible for approximately one-fifth of the hospitalized insanities. Nevertheless, improper living habits continue to impair many brains. Insufficient sleep, neglect of bodily care and a consistent overworking of nervous energy are the pitfalls to avoid in this condition.

Nature demands that her fundamental laws be at least reasonably observed. A constant outraging of the physiological economy takes its toll not only in bodies but in minds also. Insanities and lesser nervous disorders could be spectacularly reduced if this fact was more generally respected. Training for mental health must be started in childhood as that is the time when corrections can be made to the best advantage.

Cheating in Exams

(From the Zu Tavern's Bulletin) So ninety cadets were caught cheating at exams at West Point and the public roused itself to look astounded and slightly pleased as if it had long resented the perfect appearance of those cadets and their excellent reputation. They're no better then we are, seemed to be the main thought of the general public. Congress even considered to investigating the whole thing.

Well, maybe a Congressional Committee could have found the answer as to what to do about cheating in exams. The educational world has been working on the problem for a long time and hasn't found the complete answer yet.

Anyone connected with a college can tell you that college students cheat in examinations; high school people can tell you that high school students cheat in examinations and even elementary school teachers can report that Johnny sometimes copies from Jimmy's paper with the resultant problem in discipline.

We have also heard of grocers who fix their scales to give short weight, of advertisers who claim to be able to cure any common cold, of medical quacks who peddle cancer cures, of lawyers who betray their clients, of men and women who break their marriage vows, even of officers of the state who disregard their oaths of office. It seems pretty certain that cheating under stress is a com-

The Floyd County Hesperian, Floydada, Texas, Thursday, May 15, 1952

mon form of human behavior. A lot of cheats have graduated from school and are now operating in adult life.

We are getting along with cheats every day; maybe we even forget a promise once or twice ourselves. Is this then so great a sin as some people want to make out?

There are young men to whom cheating is impossible. Sometimes they flunk, but they take their poor grades with best possible grace and study harder next time. They are men, usually, to whom the giving of a special oath to observe a code of honor is quite unnecessary. They ARE honorable. They do not need to take an oath to be so.

Would not our national security be better served if the officers of our army and navy were selected from this group? Can we afford to put people in positions of great trust if their moral code condones cheating in order to get ahead?

The most dreadful thing about this West Point scandal is not that it occurred, but that so many people, including the culprits themselves, do not think they have done anything wrong.

What shall we do about this situation—for it does need to have something done about it. Distribute the blame to some prominent scapegoats which have little to do with the case? Football? Athletics? Or sun spots? Or the atomic bomb?

Or shall we look squarely at our records and ask: have I condoned or admitted cheating? Do I listen and happily believe everything the politicians say about the opposing party? Do I enjoy the stink and smear campaigns which precede our elections? Do I take part in the baseless vilification of any public officials? Do I admire the "smart business man" who accumulates a million by selling colored water to the ailing public as a cure-all? Do I cheat the law a little, absurd, as the law may be, say, in making out my tax return?

If you can say no to these questions, sleep easily. You have not contributed to that social state of mind which condones your children's cheating in examinations. But if you are compelled to say yes to any of these questions, you should turn restlessly at night. For you have helped to open the gate to the enemy. And you may now belabor your brain in the darkness, trying to figure out how you may undo the harm you have done. You helped to make the kind of a world in which keeping one's word can be regarded as a foolish thing when advancement is at stake. You helped to set the standards by which ninety young men in West Point proved that they were not officer material for an army. How can you make the world better now?

A marmoset is a small monkey.

Senators Spend \$35,325.00

ing in Touch with the Folks

Thirty-one state senators spent \$35,325 in state money through Aug. 6 of this year on supplies, stamps, tele-

grams and other office supplies at a total cost of \$35,325.00.

His telephone and telegraph bills added \$1,031, and stamps, \$1,059.

A check of public records showed that Phillips secured 10,000 sheets of social size (7x10) stationery with engraved letterheads and 10,000 social size and 5,000 business size letterheads and envelopes June 5, three days before the legislative session ended, costing \$444.

Sam Cook, chief of the printing division, State Board of Control, said his records also showed that Phillips secured 20,000 more engraved letterheads and 15,000 envelopes on Aug. 16, a date later than that covered by the audit report. Cost of this stationery was \$472.

Expends of other senators during the audit period:

A. Aikin, jr., Paris, \$580; Carlos Ashley, Llano, \$412; John J. Bell, Cuero, \$1,206; Searcy Bracewell, Houston, \$689; Pat Bullock, \$562; Howard A. Carney, Atlanta, \$1,229; Joe D. Carter, Sherman, \$909; Mrs. Nevelle H. Colson, Navasota, \$837; Kilmer B. Corbin, Lubbock, \$1,733.

Adopt Austria For Two Years

For Two Years

WORTHAM — Texas clubwomen have adopted Austria for the coming two years. So Mrs. Van Hook Stubbs of Wortham, president of the Texas Federation of Women's Clubs, announced today. This new "Austrian Aid" project will receive major emphasis during the two years of her administration.

Plans are for Texas' 1300 clubs to focus all their international relatives work on this one country that is saying "No" to neighboring Russia.

"Despite being half occupied by the Communists, Austria today is 95% democratic in its leanings," Mrs. Stubbs pointed out in stressing the value of help to this particular people at this time. The big Texas project seeks to further the announced U. S. policy of restoring normal conditions in Austria as soon as possible.

Texas' plans to funnel a whole state's aid into one objective is something new in club work, and is being watched with interest by the rest of the General Federation.

District conventions held over the state are endorsing the Austrian Aid project, and choosing which part of the over-all plan will be their own responsibility. Projects already taken on by districts range from aid to displaced persons camps, sending clothing for the needy, providing scholarships for exchange students, and aid to Austria's growing 4-H club movement. Each district will have a separate project.

Texas' junior clubs will all support a "Children's Friendship Fund" to help fifteen orphanages and a needy crippled children's hospital in war-ravaged Austria.

Action adopting the Austrian Aid project was voted by the federation's

executive committee of elective officers in a recent meeting in Austin. Their hope is that other federation departments—such as fine arts, education, welfare—will co-ordinate their work projects with this major international relations undertaking.

Clubs are urged to arrange an early fall study of Austria to lay a background of understanding for this big TFOWC undertaking.

Mrs. Roy Rountree of Houston is TFOWC international relations head. Under her, the district chairmen leading their respective district projects are Mrs. Herman Dawson of Ft. Worth, Mrs. Ann G. Hunter of Dallas, Miss Irene Westmoreland of Mexia, Mrs. Clay Elliott of New Gulf, Mrs. John D. Cochran of San Antonio, Mrs. James Bennett of San Angelo, Mrs. W. N. Stokes of Amarillo, and Mrs. J. T. Dameron of Van Horn.

COPIES IN A HURRY

WOODBRIDGE, CONN. — Modern research has given the answer to one of the thorniest problems of research and similar work. It is a portable photo-copier that can copy everything, anywhere.

Contoura, which copies fast, exactly, cheaply and quietly, is used above on a section of a newspaper page by the librarian of a prominent eastern research library. The little 5-pound device, developed by Frederic G. Ludwig, even solves the problem caused by curved pages in a tightly bound book. It gives permanent copies, operates in a lighted room and may be carried about in a briefcase. It is manufactured by Ludwig Associates here.

South Plains News

(By Mrs. M. M. Julian)

SOUTH PLAINS, May 13. — Mothers day was a beautiful calm day on the Plains, and many people came from near and far to be with loved ones on this special day. Family gatherings were enjoyed by many in our community. Church was full to overflowing on Sunday morning with about 125 in attendance. The Mothers Day program produced by Mrs. J. H. Allen and the children of the church was a commendable one, and the visitors as well as the members enjoyed it.

Mr. and Mrs. Chas. Beedy, from Amarillo, and Mr. and Mrs. Bradford Beedy, from Lubbock, were among those who attended church on Sunday and spent the day with their parents. Mr. and Mrs. Bill Beedy and Eugene. Those who attended the library meeting from here at 2:30 Monday afternoon, May 12, which was held in the court house, were Mrs. Billy Stanforth, Jr., J. K. West, L. T. Wood, M. M. Julian, J. B. Smitherman, and B. Higginbotham. From Cedar Community, Mrs. Gerald Lackey was present, and she and Mrs. Gene Gilly will help out in the campaign to get a new county library in Floydada. These ladies will be calling on homes in the county asking your cooperation in the planning of this new library.

Mary Louise Childress, who is teaching in Portales, New Mexico, was home for Mother's day weekend, and she and her parents, Mr. and Mrs. Roy Childress were at church on Sunday. Mary Louise will soon be home for the summer vacation.

Mr. and Mrs. Ray S. Daniel and family, from Amarillo, and Mr. and Mrs. J. H. Hartman, from Lockney, spent Mother's day with Mr. and Mrs. Harry Hartman and children. Mrs. J. H. Hartman suffered a severe sick spell recently, and we are glad she is able to be up and is feeling fine again.

Mr. and Mrs. J. H. Barnard and Barbara Barnard, from Barwise, were Sunday afternoon visitors at the W. M. Stanforth home, and were pleasant supper guests there.

Hill Friday Night
A group of older girls from the South Plains school planned an outing down in Turkey Creek Canyon Friday and they planned to spend the night. Patsy Vanek from Lockney, came to go with the girls and their sponsors, Mrs. J. B. Thames, J. L. Pearson, and E. P. Pritchett. They were all enjoying their camping trip when the storm came up, and they started home arriving just in time to escape the worst part of the wind. They stayed the remainder of the night with Mrs. Pearson. During this storm Bill Beedy received quite a bit of hail damage, and the J. P. Taylor farm received some, doing a great deal of damage to the garden.

Billy Stanforth, attended a birthday party Saturday afternoon in Floydada for Beth Word, who was five years old. Sara Stanforth is

celebrating her birthday too, on this Thursday, May 15, with a big decorated cake, and pictures for her to enjoy in later years.

Mr. and Mrs. Will Franklin, who are residents of Wayside, Texas, were guests last Sunday at the home of Mr. and Mrs. Ernest Smitherman and boys.

Mother's Day Reunion

On Mother's day Mr. and Mrs. John Wilson were hosts to a gathering of their folks, honoring their mothers, Mrs. B. P. Sewell, and Mrs. Menard Field, of Floydada. Most of the group came in time for Sunday school and church at South Plains, though they did come from afar. Mrs. Minnie Cypert, of Amarillo; her daughter, Mrs. John Daugherty, husband and baby, from Artesia, New Mexico; Mrs. Ralph Wilson of Canyon; her daughter and husband, Mr. and Mrs. Carl Arends, from Amarillo; Wilbur Wilson and son, from Plainview; Mr. and Mrs. C. L. Wilson and son, from Silverton; and the mothers, Mrs. Sewell and Mrs. Field were all present, besides Mr. and Mrs. Wilson, Sue, Gary and Johnny. The delicious dinner was served buffet style from the snack bar, and everybody helped. It was a day of great enjoyment for them all.

George Weast Much Improved

Mr. and Mrs. George Weast visited at the home of Mr. and Mrs. John Smitherman Thursday night, and we are very glad to know Mr. Weast is able to be out and around again.

Mac Smitherman spent last Saturday night visiting in Hart with his cousin, Tony Smitherman.

Mrs. Austin spent Mother's day with her daughter, Mrs. Sim Reeves and Mr. Reeves. She was out at church with them on Sunday.

Rev. and Mrs. Allen and Arlene, and Mr. and Mrs. Murray Julian, Terry and Bruce, went down to Quitaque to the Garvel Pit picnic grounds after church last Sunday and they enjoyed their dinner which they cooked after they got there.

Mrs. Montague, Mrs. Garrett and granddaughter, Frances, from Floydada, were guests at the home of Mrs. John Smitherman Wednesday afternoon.

Mr. and Mrs. P. M. Smitherman returned last Sunday from a pleasant visit down to Arlington and Rhome where they visited friends and relatives for a few days.

Mrs. Roscoe Lackey, from Lockney, and two grandchildren, Rickey and Waverley Ann Craft, were luncheon guests Tuesday at the home of Mr. and Mrs. Murray Julian.

Mr. and Mrs. Walter Wood went to Sweetwater Friday and spent the week-end visiting with friends and relatives there. Mrs. Wood has recovered from the second attack of the throat infection, and we hope these is no recurrence of it.

On Mother's day Mr. and Mrs. Jack Smitherman and Rue, Mr. and Mrs. Ernest Smitherman, Phillip and Larry, and Mr. and Mrs. John Smitherman honored their parents, and they all gathered at their home for the day, with Mr. and Mrs. P. M. Smitherman.

Mother's Day Dinner
Mr. and Mrs. George Robertson entertained Mrs. Robertson's family, most of them from Hereford, on Mother's day. The family came in time for church, with the exception of Mr. and Mrs. Early Joiner, who

live in Floydada. They attended church before they came. Mrs. Robertson and the ladies served dinner buffet style, and they were all there for supper, before leaving for their respective homes. Present at the gathering were Mr. and Mrs. O. W. Brumby, Mrs. Louis Olson, Mr. and Mrs. Liburn Hamilton, Patty and Charlotte, Mr. and Mrs. Elvin Willson, Mickey, Darlene and Diane all from Hereford, and the later family came Saturday night and spent that night with their parents here, and Mr. and Mrs. Early Joiner, their son, Gordon and his guest, Bobby Carmack, from Floydada.

MOTHERS DAY GATHERING AT MRS. WATSON'S HOME

The children of Mrs. R. C. Watson spent Mother's day with her at her home 211 West Crockett street and enjoyed a family get-together and dinner.

Present were Mr. and Mrs. W. C. Watson of San Angelo, Mr. and Mrs. Fred Battey, Mr. and Mrs. O. M. Watson, Mr. and Mrs. Charlie Battey, all of Floydada, Mrs. Joe Evers of Crosbyton, and Mrs. C. E. Neil of Amarillo.

One granddaughter, Mrs. Thomas Warren, Mr. Warren and children were also present.

Miss Floy Vick and mother, Mrs. John Vick, were dinner guests at the home.

CARD OF THANKS

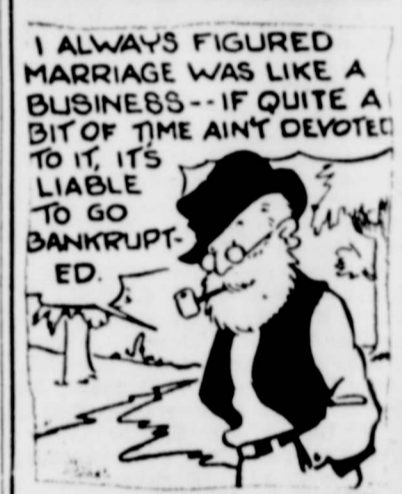

To those who expressed their sympathy in so many beautiful and practical ways during the illness and at the death of our mother, Mrs. Sarah Jane Nelson, we express our heartfelt thanks.

Mr. and Mrs. Tom P. Nelson and family

Mr. and Mrs. Eddie Brown and children of Lamesa attended the funeral of his grandfather, J. R. Brown Tuesday. While here they were guests of Mrs. Brown's parents, Mr. and Mrs. Zollie Burgett.

BEVILLE RELATIVES PAY VISIT TO COUSINS HERE

Mr. and Mrs. Glad Snodgrass had as their guests for a few hours on Sunday two cousins of Mr. Snodgrass, Mrs. Frona Edwards and Miss Minta Snodgrass, both of Beville, Texas. The ladies are daughters of the late Judge Henry Snodgrass, a brother of the late C. Snodgrass and former residents of Floydada. Mr. and Mrs. G. L. Snodgrass also had the pleasure of visiting with the kin, whom they had not seen in a number of years. The Henry Snodgrass family left Floyd County in 1895.

THE RECORD SHOWS THAT

By ignoring laws, and in many cases their own better judgment, motor vehicle operators manage to kill 37,100 of themselves, their friends and their relatives, and mangle or in some way injure nearly two million others.

Thanks to this sobering record, automobile rates have reached new highs. Over two million men, women and children had it brought home to them that it costs more money than ever before to repair smashed property, smashed bodies — and to die.

Assembly of God Revival Under Way

(H. E. Smithe, pastor)

Rev. Charles J. Eastes, of Amarillo, began a revival Sunday night May 11, at the Assembly of God church, corner Third and Virginia streets, in Floydada. He is an able preacher of the Word of God, having been in evangelistic work for a number of years, also pastoring several churches.

During his ministry Rev. Eastes, was associated for two years with the district Sunday school work, having been the district Sunday school representative of the West Texas district of the Assemblies of God.

Rev. Eastes' messages will be both inspiring and helpful to those who come and hear him. We wish to extend an invitation to the general public to come and attend this old-fashioned revival meeting. There will be good singing, preaching, and the blessing of God will be evidenced in the midst of the people.

Mrs. John Herd of Post spent Sunday with her mother Mrs. E. A. Hopkins and other relatives.

Boyce House Says Give You Texas

The campaign-drinking, night-clubbing, flitting from place to place, joining the Mohammedan faith and romancing with an Egyptian belly-dancer while still a married man—in short, the pattern of conduct of that rich, pampered Houstonian is an argument in favor of a 100 per cent tax on inheritances. Fortunately, he is an exception.

Two Harvard professors have completed a long and no doubt expensive study and they have come up with breath-taking announcement that there is a definite relationship between a man's physique and his occupation.

Amazing, isn't it? But, come to think of it, I never knew of a deaf-mute becoming a pulp orator or of a midget who was a heavyweight prize-fighter.

So, if you are six feet and weigh only 120 pounds, you probably will not become a blacksmith. And if you don't have any practical sense at all, if you don't watch out you will likely become a college professor—probably at Harvard.

When I was a young fellow, two of the handsomest movie stars were J. Warren Kerrigan and Elliott Dexter. The latter was suave, distinguished and noble, but could never win the girl, who always loved Dexter's best friend. Wonder what ever happened to Kerrigan and Dexter?

Just as I parked in Ballinger, I caught sight of my friend, Editor Troy Simpson and jumped out of the car, overlooking putting a nickel in the parking meter. When I returned, there was a notice which said if I would mail the nickel within 24 hours, that would be the end of it. That's what I call a friendly spirit.

If you don't think there's euphony in words, why does everybody say "ham and eggs" instead of "eggs and ham"?

4-H Teams Contest For Dist. Honors

Alice Latta and Marcelita Green, members of the County-wide 4-H club, came out second best in the district 4-H vegetable growers contest held at Lubbock last Saturday. They placed two points below the boys' 4-H team from Lamb county.

The Floyd County Hesperian, Floydada, Texas, Thursday, May 15, 1932

Alice and Marcelita gave a team demonstration on vegetable salad plate.

Truman Dunavant, Bob Ham-bright and Troy McNeill entered the livestock judging contest and placed 5th in District 2. Wilton Green and Stanley Vickers entered the crop judging contest and placed 4th. Wilton was high point man of the contest with 790 points out of a possible 800 points.

Lindley Beckworth Starts Campaign

Lindley Beckworth, the Glade-water, Upshur county congressman, who announced last week for the U. S. Senate, is losing no time getting out on the hustings. He announced an itinerary of speechmaking that will carry him more than a thousand miles through west Texas, to seven towns a day.

The itinerary calls for him to be in Floydada on Thursday of next week at 4 o'clock p.m. Before reaching Floydada he will speak at Post and Ralls and will speak at night in Plainview.

Strike Cancels All Flying Formations Armed Services Day

REESE AIR FORCE BASE, Tex.—Due to the oil strike and the resultant gasoline shortage, Headquarters USAF today announced that all formation fly-overs scheduled for Armed Forces Day have been cancelled. Therefore, the planes from Reese Air Force Base will not make the tour of near-by cities as previously stated.

Other events scheduled for the Reese Open House, Saturday, will be as announced, including static (on-the-ground) displays of aircraft from other bases. These will include some of the latest types of Air Force and Navy aircraft.

Headache Sign Body Fails in Some Function

A headache is often the first signal that some part of the body is not functioning at par. It may be considered a stop sign, a warning that either excesses or deficiencies are working a hardship someplace in the body.

Since "par" in the body is the balance between constructive and destructive forces, the constant blooming and fading of all parts of the body, any change in that balance is most likely to be referred to the head in the form of an ache.

The head is the message-sender and message-receiver of the body. Certainly pains may originate in the head, but they also may originate someplace else in the body and not be "registered" until they get back to the "switchboard" in the head. The nerves are the "wires" that carry the brain's messages; some nerves have small "switchboards" located in different regions of the body, and when a deviation from normal arises in that region, it is registered on the "switchboard" there, not sent back to the brain. Other parts of the body have only the central switchboard in the brain to handle their "calls" and the message goes out as a headache.

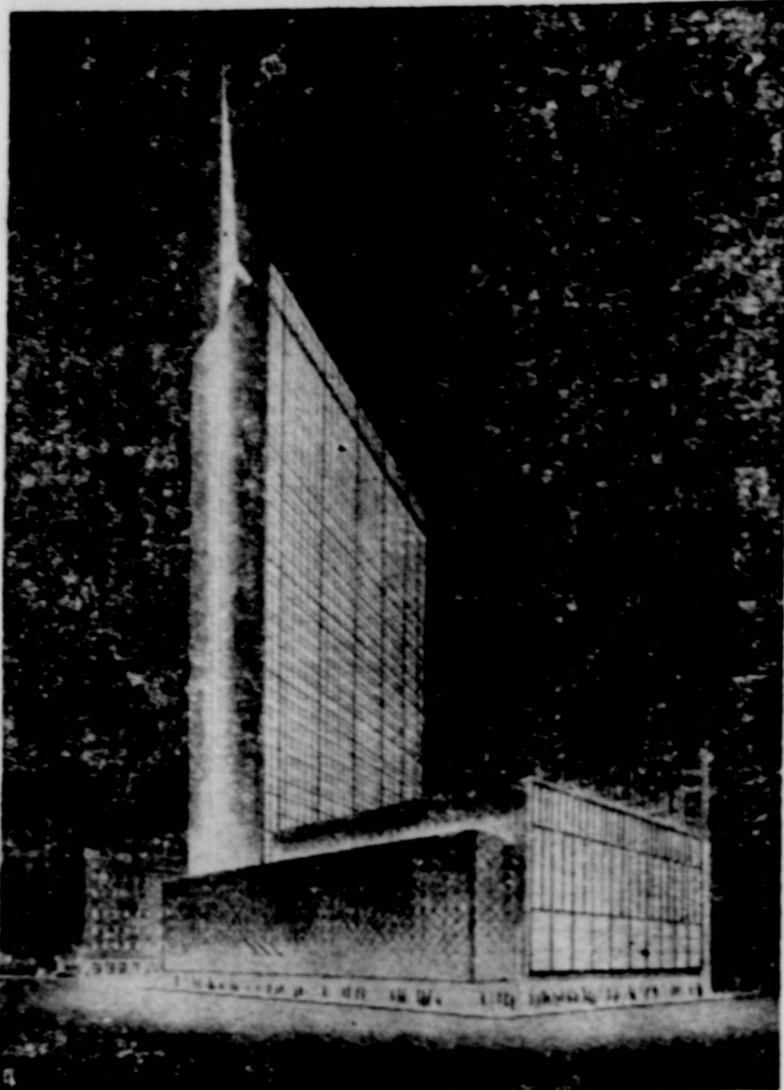

Pains in the head arising from causes near the surface of the skin are usually sharp and burning, pretty well localized over the area affected. Pains in the head arising from causes deep under the skin are usually dull and aching and may be quite widespread, not localized in one area.

Since different people have different sensitivities to pain, a minor ailment may cause terrific anguish in one person, whereas another less sensitive person may feel only a slight headache when he should be feeling great pain. So the degree of pain with a headache is not as important in itself as the change of pain reaction. The person who never flinches when he cuts his finger or gets soaked in the eye would attach more importance to a severe headache than the person who hurts all over with every minor affliction.

One phase of a headache which often helps in locating the source of the pain is the time of onset of the headache. The headache that breaks into sleep, awakening you with its pain, is often caused by some organ of the body; the headache that keeps you from going to sleep also may be of organic origin. Cold weather headaches may be from some sort of congestion within the channels of the body, when they draw up tighter as a reaction to the cold.

A headache on arising in the morning often is traced to high blood pressure, getting better as the day goes by. Those morning headaches are often the result of the "night before," too, from such causes as over-

SOUTHWEST'S TALLEST BUILDING INCREASED IN SIZE

Two additional floors have been added to the Republic National Bank Building, now being erected in Dallas. The floors have increased the section facing Pacific and Ervay Streets to seven stories and have resulted in the floor space of the building being increased to 822,000 square feet. Certain other changes have been made in the exterior of the building base, all of which adds materially to the appearance of the building and further enhances its place in the already impressive Dallas skyline. This 40-floor building — tallest in the Southwest — will rise 598 feet above the ground and will incorporate every modern convenience.

indulgence in liquors, the well-known hangover.

Sinus headaches may often be timed by the clock. They have a way of recurring at the same time every day, lasting for the same length of time.

Mental and emotional headaches often occur towards the end of the day, a result of fatigue and stress. Though they may interfere with going to sleep, it is more often the problem behind the ache that actually creates sleeplessness, and the ache is cleared with the relaxation of a sound sleep — sleeping often helps the problem, too.

Eyestrain headaches are most often an end-of-the-day headache, too, thought to result from the weariness of the eye muscles that

have been focusing so intently. Since some defect in the focusing of the eyes is also present a lot of the time, the muscles that have been working strenuously at a disadvantage lose no time in sending the message to the brain in the form of a headache.

A. & M. Alumni In Korea Hold Aggie Muster

With the 2D Infantry Div. in Korea, April 23 — Alumni of Texas A. and M. College serving in Korea gathered recently in the 2D Infantry Division sector on the Korean front.

The men met for the traditional Texas Aggie muster to pay tribute to fellow alumni of the school who have passed away.

Among those participating in the ceremonies were:

Major, Warner M. Brundrett, whose wife, Jo Ann, lives in Bryan, Texas; Captain Lamar Haines, whose wife, Floy Jean, lives in Floydada, Texas; and

Second Lt. Lloyd Manjeot, son of Mr. and Mrs. Manjeot of Hereford, Texas.

Maj. Gen Robert N. Young, commander of the 2D Division, and Brig. Gen. Haydon Boatner, his assistant, also were present. General Boatner is the former commandant of cadets at the Texas College.

Major Brundrett led the ceremonies.

Captain Haines gave the traditional "Roll Call for the Absent" to a background of muted "taps" played by members of the Indianhead Division band.

Lieutenant Manjeot dismissed the muster in a speech that has been a feature of Aggie musters since they were originated in 1903.

The muster pays tribute to the Texans who won the freedom of the state at the Battle of San Jacinto near Houston nearly 116 years ago.

J. R. Brown Died Monday; Funeral Here on Tuesday

Funeral services for James Robert Brown, 79, of the Sandhill community, was held from the First Methodist church here Tuesday afternoon with Rev. N. E. Daniel, pastor of the First Methodist church of Lockney officiating.

Burial was in the Flomot cemetery, with Masonic service.

Pallbearers were B. A. Robertson, G. E. Mayo, Jess Patterson, Bryan Collins, Ted Rutherford and J. T. Huckabay.

J. R. Brown was born July 9, 1872, in Van Buren, Arkansas, and was married to Miss Lula May Franz on August 5, 1894, in Graham, Okla-

homa. Mr. Brown moved with his family in 1908 to Afton, Texas, then to Turkey in 1910. He moved to Floyd county in 1939, first 4½ miles west of town for three years then to the Sandhill community, north of Sandhill in 1942, where he had since lived.

He joined the Methodist church in his youth and was a member of the Masonic order.

Among the survivors are his widow, Mrs. Lula May Brown, one daughter, Miss Nellie Brown, a teacher in the Lockney schools, and one son, Vert Brown of Brownwood. Two grandsons, Eddie Brown of Lamesa, and Dale Brown, of Brownwood, also survive as do two great grandchildren.

Mr. Brown died of a stroke of apoplexy, dying in the yard of his home at 3 o'clock Monday afternoon.

HYBRID CORN

Indians who helped them prepare for the hard winter ahead. Perhaps one of the most valuable acts of friendship by the Redman was to teach the newcomers how to cultivate a corn crop. The fruits of this act were served at the First Thanksgiving meal.

We have come a long way in the development of corn since those early days. The Pilgrims merely dug a hole in the ground and dropped in a kernel of corn fertilized with a small sliver of fish. Today, through a progress of scientific research, improved fertilization, and careful certification, we are developing better strains of corn which will assure the farmer of maximum yields.

Your State Department of Agriculture each year studies results of extensive tests conducted by the Texas Agricultural Experiment station of principal corn production areas. These tests prove the superiority of one strain of corn over another. Yield and stalk lodging, shelling qualities, disease resistance, and good shuck coverage are factors in rating merits of the strain. These merits determine the certification number which the Department of Agriculture requires on every bag of grain sold in Texas. As newer and better strains are developed, certification is extended to include the improvements and the old strains are dropped.

To bring history up to date, the Division of Field Seed Certification has announced that Texas Yellow Hybrid Corn Numbers 8, 12 and 20 are being replaced by numbers 26, 28, and 30 which show inconclusive tests to be superior. Considering both yields and vegetative characters, Texas 30, 28, and 24, are recommended for the East Texas farmer:

Released by
Texas Department of Agriculture

Texas 30, 28 and 26 for the Blackland region, and Texas 30, 28, 26 and 24 for the "drier" acres.

Texas Certified Hybrid Seed Corn producers are expanding production of the newer hybrids in 1952 and sufficient quantities of the better strains should be available for farmers next year.

(from Floyd County Rural Electric Cooperative, Inc. by

Nancy Morckel and Claude Weathersbee)

Melvin Henry, manager, Dona Covington, office manager, and Thomas E. Walters, bookkeeper at Gates City Rural Electric Cooperative, Childress, Texas, returned Thursday night from the managers and bookkeeper's conference they attended in El Paso May 6-9.

Orval Couch, manager of the Greenbelt Electric Cooperative, Inc., Mrs. Orval Couch, Miss Bessie Rainier, office manager, and Miss Johnson, all of Wellington, Texas, were office visitors on last Friday morning as they were enroute home from El Paso.

Irrigation wells were connected during the week for Glad Snodgrass, Floydada; J. S. Leach, Plainview; Jake Jones, Aiken; and Albert Sammann of Prairie View community, Plainview.

Bob Nelson of Nelson Electric Supply Company of Dallas and Lubbock was an office visitor last week.

J. R. Gattons, assistant head management division, REA, who lived in Clovis, N. Mexico, has been replaced in this section by J. C. Hunter. Mr. Hunter made his first visit to this office on Monday, May 12. The Hunters will live at 1918-13th Street, Lubbock. Mr. Gattons was transferred into the Telephone division, REA.

John Nay, Bookkeeper, attended the bookkeeper's conference in El Paso, May 6-9. Enroute he visited his son, John Nay, Jr., in Deming

New Mexico, and a daughter and her family in Phoenix, Arizona. Although stranded in the desert overnight with a broken down car, he reports a wonderful trip. However he did seem glad to be back in the Co-op office a day late and he said "dollars short" due to car repair.

Mr. and Mrs. D. M. Moore are in Paris, Texas, visiting Mrs. Moore's parents. Her father is in very poor health. W. A. Shaw is working at the Co-op office while Mr. Moore is away.

A. M. Faucette, R. F. Smith, F. J. Seastrunk, and Senator Ollis D. Johnston of Columbia, South Carolina, were office visitors during the week.

Judge Paul Moss of Odessa, Texas, was in the office during the week.

D. R. Boise, manager of Allischalmers, Amarillo, in company with J. C. Lovelace and John Rayburn of the same company were visitors during the week.

John Ragland, Lubbock, Engineer with H. H. Roberts Co., Lubbock was here one day last week.

Mrs. W. R. Daniels, Route 1, Floydada, was an office visitor on Tuesday afternoon.

Mrs. J. H. Barnard and Mrs. Howard Drysdale were office visitors on Monday, May 12.

Strawberry Preserves Recipe

Now that strawberry time is here again don't forget to put some in your food freezer. What is better than a good strawberry shortcake? It is a top dessert whether it is May or December.

If you like strawberry preserves you might like to try this recipe: 1 pint sugar; ½ cup water — let boil down good. Add 1 pint strawberries and cook for 10 minutes. Add another pint of sugar and another pint of strawberries and cook for 10 minutes more. Let cool and seal with paraffin.

This recipe was given to me several years ago by Mrs. Arthur Barker of Lockney and it makes delicious preserves.

Jack Johnson was the last Negro Heavyweight Boxing Champion before Joe Louis.

At Commencement at 8 o'clock tomorrow night, 75 seniors will receive their diplomas at Floydada High school and end their careers as students of the school. The high average student is Mary Wilson Hicks with Reid Strickland as high honor boy. O. K. Davis, principal, will give the awards and superintendent A. D. Cummings will present the diplomas.

Reverend Gordon Voight, pastor of the First Christian church, left Friday for Longview to visit with his sister, Miss Thelma Voight who is seriously ill at the hospital there.

Mrs. O. G. Glassmoyer is improving after a mastoid operation performed six weeks ago at the Lubbock hospital.

A five-day rain period leaves the whole county with good season, and in hundreds of fields this morning planters are only waiting dry ground to start planting thousands of acres of row crops.

Floyd County has been given cotton allotments of 51,842 acres for the planting season of 1938. A meeting has been called for Saturday afternoon to give the details of plan to the producers.

Inspection of rural routes out of the Floydada post office was made last week by Barbara Smith, postmaster, who noted much improvement during the past twelve months in the mail boxes and their care.

Stockholders of the Farmers Cooperative Gin company in Floydada were heartened by the annual report of the Manager of J. W. Lanier at the annual meeting held Monday afternoon.

Bruce Burrows and Miss Viola Rogers were married Sunday in Plainview by Dr. J. Pat Horton, pastor of the First Baptist church there. The couple were accompanied by Mr. and Mrs. Clark Harris being a sister of Mr. Burrows.

Mrs. R. H. Hale of Plainview and Mrs. D. W. Fyffe entertained with a tea Tuesday afternoon, when the announcement of the approaching marriage of Mrs. Hale's daughter, Jerry to F. C. Harmon, Jr., was made. The couple will be married in Plainview on June 3, in the home of her grandmother.

A Floyd county delegation of 22 Home Demonstration club members were in Canyon last Thursday to attend a short course. They were accompanied by Miss Ruth Grimes, Floyd County home Demonstration agent.

Rev. Clifford Potts, of Wayland college in Plainview, visited friends here Sunday.

Miss Hester West, a returned missionary from China was the main speaker at a luncheon given by the Womans missionary society of the First Methodist church in Lubbock Monday. Mrs. A. N. Gamble was in charge of the program.

Floydada and eight other plains and panhandle cities and towns are on the eligible list to get post office buildings, according to a dispatch from Washington last week-end which indicated that a \$75,000 structure is being contemplated for this point. Plans for the buildings in this area are tentative.

Mr. and Mrs. J. O. Johnson, of Amarillo, spent Saturday night and Sunday here, the guests of her father, W. H. Hilton. The Johnsons are moving to Raton, New Mexico, where they have recently purchased the scenic courts.

Views and Comment

Floyd county and Floydada taxpayers have a just complaint on heavy taxes. It is a real burden. But the complaint we refer to as justified is not on the local level. So many people for so many years have had such low local taxes (compared with other taxing entities) that they ought to feel proud of this fact. How long the taxing bodies are going to be able to keep the tax bills within the present limits is conjectural. We imagine not too long, though, especially in the instance of the county. Doubtless when re-valuation begins, as it inevitably must, there'll be hair in the butter, as the elderly woman said. Meanwhile let's enjoy something that is cheap while we can. The lowest bill you pay, with the possible exception of your light bill, is the tax bill. That is, if you live in Floyd county.

So far as we know the only taxpayers who have had their taxes raised in Floyd county in many moons, except for taxes we voted on ourselves such as bonds to raise money to build roads—the only people who have had their taxes raised are those who have been put into adjacent school districts which had higher tax rates and which higher rates automatically applied to the new taxable area. To illustrate what we mean land in a school district which had a rate of 50 cents for school purposes before it became part of a district with a rate of a dollar did not have a raise in valuations but it definitely did have a raise in taxes, just a 100 per cent raise. Values have not been tampered with on a county-wide basis for years and years. Not since that time, now beginning to be only history, when the people realized they couldn't pay their tax bills and prevailed on their commissioners, school boards and municipal authorities to cut values to the quick. In the year before that happened taxable valuations in Floyd county were quite close to \$19 million. The cut was down to \$9 or \$10 million. And with all the millions of betterments and improvements, all the advancement of the 20 years or so, taxable values in the county are now only somewhere

in the neighborhood of \$12 million. That is going some. Everybody would like for it to go the same way some more. However, we are beginning to demand things of our counties and cities and school districts. When you start that you start the spiral of tax bills upward. Either we will have to quit demanding or get set for higher taxable values.

We'll have to be classified as capitalists, enemies of the people, subversive, sold out to big business, unworthy of the high calling, any way you want to express it. We do not know how the high court of the land is going to find it, but we go right down the line with the National Chamber of Commerce, that awful organization, mouth piece of entrenched wealth, which declares the president's steel mills seizure violated the bill of rights. The seizure violated Article 5, which forbids seizure of property without due process of law. It violated Article 6, which prohibits taking of property without just compensation. And, of course, Article 10 was violated. This article reserves to the people all rights not specifically delegated by the constitution. The president possibly got off on the wrong foot because of muddled thinking, though we suspect it was by design. The president, it is true, is "commander in chief," but his command is of the armed forces, a vast difference to being in command of the people of the United States of America. So argues the National Chamber of Commerce. So do we. The poor folks ought to be the ones up in arms over this high-handed way of doing. A poor man can't fight back in court. When he gets into federal court he's already lost.

It is better to understand a little than to misunderstand a lot.—Anatole France

The invocation was given by J. C. Odam of Floydada.

Attending from Floydada were Maintenance foreman Sanford Webber and Mrs. Webber, Resident engineer Jim Potts and Mrs. Potts and children, Mr. and Mrs. J. C. Odam and daughter Mary Ann, Mr. and Mrs. J. A. King and sons, Kenneth and Glenn, Mr. and Mrs. Ralph Lemons, Henry Millican, Mr. and Mrs. W. S. Simmons and Mrs. Johnny Reber.

to the driving public, and that it falls in its purpose of saving life and property on the highways.

"Actually it is the drivers of cars and not the cars themselves that cause accidents. I would favor any effective measure to curb reckless and irresponsible drivers. Our greatest need is for judges and juries to get tough with anyone and everyone guilty of driving while intoxicated.

"If I go to the legislature for this district I have only one promise to make. I will do what I think is right, and I will do it to the best of my ability.

Wright and his wife are Methodists and they have lived in Plainview two years. They have six children ranging in age from three months to 22 years. Their oldest son is a naval cadet receiving pilot training at Pensacola, Florida. Their youngest son is 4-year old Tommy. Two daughters are in college. Marylin in McMurry at Abilene and Annette at Wayland. Martha is in high school and Linda is 3 months old.

T. L. Wright last year was active

in opposing the creation of the High Plains Water Conservation district, contending that it was unnecessary and undesirable and an abridgement of the right of the individual to the management of his own property. Ultimately Hale, Swisher and Briscoe counties voted to remain out of the district.

MR. A. P. FRED ENOCHS, TEXAS

Reasonable initial cost, fast delivery and erection, rodent and weather resistance, extended durability and versatility put Quonset in a class by themselves.

"I'll take the Quonset 'Steel Route' from now on"

"When you see an erection job done smoothly, quickly and (apparently) easily, you can be sure that it was well planned and engineered. I am well pleased with the 40' x 80' Quonset that was recently erected on my farm, southeast of Enochs," states Mr. A. P. Fred, cotton and grain farmer.

"I feel that I have a permanent barn that will take care of all my implement and grain storage needs, with good lighting and easy access."

"My son will probably find this Quonset just as valuable to him when he grows up and takes over the management of this farm. I consider the Quonset Steel Building a valuable asset to any farm."

ORTHO SOTOX SEED TREATER

CONTAINING LINDANE

FULLY DEVELOPED FORMULATION FOR APPLICATION TO COTTON, AND OTHER SMALL SEEDS AT PLANTING TIME

Check these facts—

HOW ISOTOX SEED TREATER WILL GIVE YOU Bigger CROPS—BIGGER PROFITS:

PENNIES PER ACRE

Seed Treater costs from 1¢ to 2¢ per acre (depending on seed quantity). This treatment may be used on wheat, cotton, corn, sugar beets, and potatoes. See label.

POSITIVE RESULTS

During the past year many farmers used ISOTOX Seed Treater when planting corn and beans, and unanimously reported better stands. In check strips plant population averaged a 25% increase.

APPLY WHEN PLANTING

ISOTOX Seed Treater is easy to apply. Simply add it to the seed to be treated and thoroughly mix either in wash tubs, in planter boxes or any other seed treating device or method which will give an even distribution of the material to the seed.

COMPATIBLE WITH FUNGICIDES

ISOTOX Seed Treater may be used in combination with all generally used seed protectant fungicides.

EXPENSE AND TIME RE-PLANTING

In case of replanting due to insect damage, ISOTOX Seed Treater is the best insurance for a high yield crop.

DAYS CONTROL

Seed Treater remains as effective for roughly 30 days after planting, enabling the plant to establish a healthy root system.

EDITORIAL NEAR THE END OF SCHOOL

Every year teachers and students alike look forward to the end of another school term because they are anxious to begin their delightful summer vacations and free from the responsibilities of the school year. As the end of school draws nearer, pupils lessen their efforts, and before they are cognizant of the fact, their grades reach an all-time low for the year. Then the pupils become discouraged and lose all interests in their studies.

The students have a change in their attitude, blame the teachers, and do nothing. They also have a tendency to skip classes and to resort to mischief in order to relieve self-inflicted monotony of the long, sultry days. Becoming unruly and irritable, the students try the patience of their teachers to the utmost. They resort to sleeping in the study halls, carving on the desks, and gazing out the windows, completely unaware of the efforts of the teacher to give them some information. The long, stifling days stretch into endless hours of idleness and the entire student body is longing for that blessed last day.

School is unbearable, they say, anticipating the pleasant summer vacations, the pupils should look forward to new victories and should be more diligent and ambitious. Students try to start the school year with a good record, and they should try to end it in the same manner.

What Are Your Plans for the Summer Vacation?

Curtis Meredith — Go swimming every day.
 Robert Day — Work, I guess.
 Winona Hatley — Anything besides go to school.
 Frank Stovall — Catch up on my good times.
 Bert Grimes — Just going to have a good time.
 Lavada Griggs — Eat, sleep, run around, and have a good time.
 Donna Pierce — Go to Colorado and camp out for two weeks.
 Ima Jean Noland — Eat, sleep, and work.
 Wanda Fox — Go to Roaring Springs and run around. (Why there, Wanda?)
 Mr. Weatherhead — Go to school for six weeks and go to Kentucky the other six weeks.
 Glenda Meek — Run around and go swimming with Bobbie Joy.
 Alice Latta — Eat, sleep, go places, and go swimming.
 Glynis Sparks — Keep house.
 Dorothy Pierce — Sleep as late as I want to and run around.
 Jo Richard Noland — Eat, sleep, and work.
 Darlynn Warren — Eat, sleep, and be merry.
 Clint Turner — Work and go swimming.
 Jo Day — Run around and take it easy.
 Connie Bearden — Run around, eat, sleep, and dig post holes.
 Ruth Stewart — Work, eat, sleep, and be merry. (What a life!)

Junior Class Officers Named

A tall, athletic type of boy known as Bert Grimes is the junior class president. Bert's likes are football, dancing, and swimming. Heading

his list of dislikes is Lockney, and his other dislikes are snooty girls and English peas. His favorite foods are fried chicken, coconut pie, and iced tea. Across the Wide Missouri is Bert's idea of a good movie. He enjoys seeing the acting of Clark Gable and Liz Taylor. If you have blond hair, blue eyes, weigh 110 lbs. and are about five feet and two inches tall, then you have a slight chance of becoming Bert's ideal girl. You are a great fellow, Bert, and we all know that you will go places.

We are proud of our class reporter who is Jean Porter. Jean likes friendly people, running around, music, and eating. Cherry pie, ice cream, and Mrs. Robert's graham cracker pies are Jean's idea of good things to eat. Her favorite movie is The Blue Veil. Jane Wyman and Jeff Chandler are first on her list of enjoyable actors. If you are two-faced or a show-off, watch out, because those are some of Jean's dislikes. Jean's "dream boy" must be (or shall I say is?) tall, dark, and handsome, likes to do the same thing she does, such as acting, by understanding and trust Jean. We hope you have lots of happiness, Jean, because we think you deserve it.

Another outstanding member of our junior class is our secretary, Anne Self. Anne likes picnics, slumber parties, and Junior-Senior Banquets. Her ideal boy should have dark hair, blue eyes, a good personality, and a sense of humor. (Now Anne, would that be Raymond?) Some of her favorite foods are fried chicken, ice cream, olives, and hamburgers. Anne doesn't like muddy weather, reading, Lockney, or snooty people. Gool luck to you Anne! We all think you deserve it.

Everyone knows our treasurer, Bill Carmack, by his friendly smile. Bill's favorite movie is A Place in the Sun. Montgomery Clift and Liz Taylor are his idea of good actors. Bill wants, most of all, to beat Lockney next year in football. He also wants to take a trip. (Where to, Bill?) When he is hungry, Bill likes to have fried chicken, mashed potatoes, chocolate pie, and iced tea. Bill's kind of woman would be about five feet and two inches tall, have dark hair and brown eyes, be sweet, and not double-cross Bill. (That description just could fit Beverly.)

Grover Smith (better known as Smitty) is our junior vice-president. Smitty's favorite movie is Red River. He likes the acting of Kirk Douglas and Ann Blyth best. Some of Smitty's likes are good movies, play practice, traveling, good food, and friendly people. Muddy streets, unfriendly people, misunderstanding teachers, and bad grades are among his dislikes. Favorite foods of Smitty's are fried chicken, salads, iced tea, ham and eggs, milk, and hot rolls. Smitty's ideal girl should be a little shorter than he, have black wavy hair, and be able to wear the right clothes nicely. She should like to do the same things as Smitty, such as dancing, be nice to other people, and not too independent. You are a swell guy, Smitty, and the junior class is proud of you.

Jr.-Senior Banquet Highlights Year's School Activities

On Saturday night, May 10, came the highlight of this year's school activities when the juniors were hosts to the senior class at the annual Jr.-Sr. banquet. The cafeteria was a place of enchantment, and the theme (We can now tell you) was the Maypole. Harmonious and delicate spring hues of yellow, blue, lavender, green, and pink were carried out throughout the decorations. A ceiling of dark blue sky paper, dotted with silver stars, furnished the effect of a spring night in a garden with rock walls where beautiful spring flowers were peeping over the wall.

The tables were blended colorfully with the other surroundings. The plate favors were miniature Maybaskets. The centerpieces, which were Maypoles made of ribbon and flowers, were matched with candies of different spring colors. The centerpiece for the head table consisted of a lovely arrangement of sweetpeas. The programs were artistically arranged with the menu of spring names designating the different foods.

Mr. Graves gave the invocation which was followed by the welcome to the seniors by the junior class president, Bert Grimes. The response was given by the senior president, Gary Oden. Next came Jean Porter with some very lovely songs, "No Other Love" and "That's for Me!" An inspiring haritone solo was given by Clint Turner. The Blue Notes, directed by Miss Bevil, gave an enjoyable group of numbers consisting of "A Melody of Blues," "Tip Toe Through the Tulips," and "For You," (dedicated to the seniors). The guest speaker, Bro. Earl Allen, gave a very appropriate speech with the theme, "Looking Ahead." The wonderful banquet closed with the school song which is very close to all our hearts.

And so came the end of the grand banquet that everyone, I'm sure, will agree was wonderful. Thanks to our energetic sponsors and some hard working juniors! The prom held at the legion hall afterwards marked the end of a perfect night and truly a memorable occasion that we shall never forget.

HAVE you, by any chance, been casting eyes at a Buick, and promising yourself that someday you will take the Big Step and have one all your own?

Let us whisper something to you. The "big step" isn't big at all.

We know that's true, because such a high percentage of present Buick owners traded in a car tagged as belonging in "the low-priced field."

So why not set your sights on this star performer?

Why not enjoy big-car comfort — big-car power — big-car prestige for your money?

There's one of these lively lovelies waiting for you to come in and try it.

Get the feel of its mighty Fireball 8 Engine, that's a gas-saving high-compression valve-in-head. You could pay \$300 to \$400 more for a car that doesn't match its horsepower.

Get the feel of Dynaflo Drive*, that lets you ride relaxed—feeds a silken flow of power — and at the same time cuts down on upkeep costs, by protecting the engine, the rear end, and even the tires, from driving strains.

Get the feel of a ride that cost a million dollars and more for

controls of end-sway and side-roll and vertical "throw"—for X-bracing the frame and V-bracing the torque-tube keel—for a total of 15 ride-engineering features.

One thing you'll know for sure when you've tried it. This car wasn't "built to a price." It's a Buick through and through.

But the fact remains that — when you check the price of a Buick SPECIAL against the price tags on so-called "low-priced cars" — you'll find out you can swing it if you really want to.

And brother, will that make your family happy!

Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series. †Optional at extra cost on Roadmaster only.

ONLY BUICK PROVIDES THEM ALL
 DYNAFLO DRIVE* — great boost to driving, proved on more than a million miles.
 FIREBALL 8 ENGINE — valve-in-head design makes high compression count for more power.
 NEW WIDE-BAND BRAKES — for smoother, positive control.
 MILLION DOLLAR RIDE — with dulcet springing and road-steady torque-tube.
 TOP-CAPACITY TRUNKS — — no luggage more than ever in most models.
 NEW TWO-TONE INTERIORS — in most models grace Buick's body by Fisher.
 SWEEPSPEAR STYLING — adds gleaming newness to all models.
 Plus These, Too, On ROADMASTER:
 AIRPOWER CARBURATION — with highest power in Buick history. MORE MILES PER GALLON... POWER STEERING — eases parking and turning, without losing firm feel... SILENCE — so complete you speak in whispers under way.

Billy Marquis asked Betty Hall for a date! My eyes must have deceived me.

Anne and Raymond are together a lot. Hope they don't get any thing serious into their heads????

Who's this little girl that is so cute? In the freshman class maybe? Could be Mozell Smith.

Beth and Bill seem to be doing fine, still. Best of luck to ya kids! Who is it that surely would like to go with Alyne R? Ronnie E. maybe. Well, cute couple!

I hear Gladys went with James F. Saturday night. New romance maybe?

New Deal? Well who is this Norman from Texas Tech we hear so much about from Jean Owens. What about Pro, Jean?

Everything seems to be going smoothly between Jean and Dale. They surely were having a good time Sunday night. Good Luck to you two!

Jo is really walking on air this week. The reason of course is because Jack is here on furlough. Well, we don't blame you, Jo.

Lorraine and Lewis seem to be doing o.k. here lately. Come on, kids, and let's make a go of it.

Who's this girl from Plainview in the eighth grade that interests B. M. so much? Aren't you rather bored?

Donice and Roy are still on the go I see. Pretty good!!

What about this boy wanting to go with Aurie Belle?? What does Pete say???

With whom was Bill H. going Sunday? Petersburg surely does have a lot of business in Floydada, it seems. What about this, Faye and Bill???

Well, well, Kenneth H. and Allan G. to whom were you talking Saturday night???

Who is this that wants to go with Mozell S.? Could it be Billy F? Could be!

Say, Donnie H, what about these girls in Lockney? Why up there- (He can't seem to stay in his own territory.)

A new ring is seen on the left hand of Natha Burleson. Natha, we want to wish you and yours the best of luck always.

Well, so much for this much from the junior class. See you next year—only in the senior class. (Maybe).

Victims of Wreck Are Convalescing

The Hesperette staff picnic was spoiled Tuesday night when Wayne Carpenter, Grover Smith, and Miss Vi Jones were injured in an automobile accident. Miss Jones received serious head and facial injuries, and Grover and Wayne received several cuts and bruises.

Miss Jones has been taken to the Lubbock Memorial hospital, but Grover and Wayne are back in school this week.

We all miss Miss Jones and hope that she is back with us soon.

Junior Scoreboard

The juniors this year have collected many honors and awards. The school year started with a zip when the class officers were selected. Officers elected were: Bert Grimes, president; Grover Smith, vice-president; Anne Self, secretary; Billy Carmack, treasurer; and Jean Porter, reporter.

The juniors also had a fine representation of talent on the gridiron. Members of the junior class, lettering in football were: Billy Carmack, Adrain Helms, Connie Bearden, Dane Clark, Brooks Chapman, Frank Stovall, Charles Hartman, Dan Evans, Kerwin Baxter, Bert Grimes, Lewis Reddy, and Deuny Smalley.

Adrain Helms, Bert Grimes and Frank Stovall were selected as captains for next year. Juniors being selected on the All-District squad were: Billy Carmack, Adrain Helms, Bert Grimes, and Frank Stovall. Frank Stovall gained second team all-regional honors, also.

Ann Welborn was selected as the football queen. Her attendants were Beverly Thomas and Jo Day. The juniors added to their honors by electing their queen, Shirley Womack, who was escorted by Adrain Helms. Shirley was attended by Beverly Thomas and Billy Carmack. Jeanie Hines and Dane Clark.

Near Christmas the juniors voted Jo Day and Bert Grimes as their most all-around students.

As winter snow began to fall, the juniors found Billy Carmack, Adrain Helms, Connie Bearden, Frank Stovall lettering in basketball. Frank Stovall was elected on the all-district squad.

In January the juniors saw Ann Welborn star in the play "Junior Miss." Other juniors having leading parts were Myrna Wilson, Lonnie Jarrett, Carell Handley, Lorraine Fisher, and Grover Smith.

We cannot forget the wonderful junior band participants, either. Clint Turner was elected as vice-president, Jo Day, secretary, and Ann Welborn, treasurer. Clint Turner was also featured in many programs as a baritone soloist.

In the spring the juniors won many honors in the Interscholastic League.

Bert Grimes won recognition as the best actor in the District and Area one act plays. At Regional he was elected on the all-star cast. Jean Porter also gained honors by being selected as the best actress in District and Regional. Myrna Wilson was also cast in the winning play, "Mooncalf Mugford."

Members of the junior class who won places in the District track meet were: Bert Grimes, Adrain Helms, Dane Clark, Frank Stovall, and Connie Bearden. Frank Stovall

Fads and Fashions

The skirt, made of metallic cloth, and sleeveless blouses, sum up the latest fashion among the girls. The shoes which are all the go are either the plain white ballerinas or those made of linen and tinted many different colors.

As I was walking down the hall the other day, I met Ray Nell Irby, who looked very attractive in a tan chambray dress, trimmed in white waffle plique.

I noticed Lorraine Fisher wearing a pink and blue pastel, metallic dress to the show Wednesday night. It was sleeveless and trimmed in rhinestone buttons.

I saw Beth Walker, Sunday afternoon, wearing a gold brocade sun dress with a design of cat and rat on the pockets and trimmed in white waffle plique.

Jean Porter, coming into history class, Monday, looking very pretty in a gray sun dress with designs of white daisies on the pockets.

Over by the sophomore lockers, I noticed that LaFaun Hanna had on a tan sleeveless blouse with a multi-colored circular skirt.

Loene Williams was wearing a lavender skirt and white sleeveless blouse, trimmed in white daisies, Monday. This was made of embossed cotton.

I noticed Jean Hollums wearing a green and white sleeveless dotted dress, Thursday. The yellow roses, pinned at the neck, and yellow shoes looked especially attractive with this ensemble.

Among the boys, the fads sum up to be nylon shirts, or those made of silk and rayon with various figures. Lewis Reddy had on a brightly-colored seersucker sport shirt, Wednesday. Don Barber had on a green, silk shirt with white polka dots; whereas Connie Bearden chose a pretty, blue, nylon shirt. I noticed Kerwin Baxter had one made of white nylon that looked nice.

These are just a few of the fads and fashions which one would see on the grounds, in the classes, or in the halls of F. H. S.

JUST HOPING

We, the seniors of next year are "just hoping." That's right! We're just hoping for lots of things.

We're just hoping that when that graduation day rolls around, we'll have those sixteen credits. We're just hoping that we have the period before noon in the room closest to the cafeteria. We're also hoping that we have two assemblies a week and that we miss just the right classes when we do have one. We're hoping the teachers use demerits most sparingly, and we hope our play cast wins state too!

We hope that we beat Lockney in football. We'd also like to come out on top in all our basketball games and have another winning track team. We hope to have a high-stepping band in new uniforms to cheer on those Whirlwinds next year,

We're just hoping that every member of the senior class goes to some far away place for about a week on the senior trip. We're just hoping for another Junior-Senior banquet and a beautiful new annual in

which to record all those autographs. We're hoping our class rings come the very first week of school. Yes, truly we are just hoping and hoping! Next year will be the high spot in our school life. So— we can dream, can't we?

Stack up what you get for what you pay... and join the nation's largest group of truck users by choosing Chevrolet

By far the biggest number of truck users today are Chevrolet owners... and for good hard-headed reasons. Because what they get is this:

Low Cost-in purchase price and in upkeep. A truck that gets the job

done. A truck that's rugged, long lasting.

Take a look at the four facts below... and see why you, too, will be money ahead with a Chevrolet truck. Come in and see us about it!

first in the world in value in sales

MORE CHEVROLET TRUCKS IN USE THAN ANY OTHER MAKE!

FACT NO. 1
Save money on purchase price
Stack up a Chevrolet truck against any other truck with comparable specifications. You'll find the Chevrolet truck lists for less.

FACT NO. 2
Save money on operating costs
Hundreds of thousands of truck users have proved to their own satisfaction that Chevrolet costs the least of all to own and maintain.

FACT NO. 3
Save money on job efficiency
Chevrolet trucks are factory-matched to your payload requirements. You don't buy "too much or too little truck."

FACT NO. 4
Save money on low depreciation
Records show that Chevrolet trucks traditionally bring more money at resale than any other make which costs about the same new.

Garden Club Plans Wesley Girls Hear For Flower Show Missionary Talk May Twenty-Third of Chinese Work

The Floydada Garden club met with Mrs. L. J. Welborn last Friday morning and Mrs. E. L. Norman gave a very interesting discussion of floral arrangements for the church. Mrs. O. M. Watson was program leader for the meeting.

During the business session with Mrs. Guy Ginn presiding, two new members were elected to membership in the club. They were Mrs. W. H. Simpson, sr., and Mrs. J. C. Keeling. Discussion of plans was had on the coming spring flower show which will be on May 23.

Mrs. Welborn had two beautiful flower arrangements.

Miss Maggie J. Rodgers was a guest at the club.

Roll call was answered by Mesdames Hollis Bond, Guy Ginn, R. C. Henry, Wilson Kimble, J. G. Martin, O. M. Watson, D. T. Mayo, E. L. Norman, G. V. Smith, J. N. Scrivner, E. P. Stovall, J. M. Willson, sr., and Mrs. E. C. Henry.

The next meeting will be the spring flower show.

The Wesley Girls class of the First Methodist church held their monthly luncheon and business meeting in the fellowship hall of the church on last Thursday at 12:15 o'clock. Mrs. S. J. Latta gave the devotional and special music was given by Miss Ruby Lee Bevil.

After the lovely lunch, Miss Maggie J. Rogers of Marlin, a returned Methodist missionary from China gave an interesting talk on her work in China. Miss Rogers spent many years in China as a missionary.

The hostesses for the occasion were Mesdames L. C. McDonald, G. R. May, G. L. Bryant, R. M. Stovall, Sam Thurman, Walter Collins and Mrs. L. P. Lawlis.

Members and guests present were Mesdames Scott King, Leora O'Bannon, J. H. Green, D. D. Shipley, Addie Thaggard, Tilden B. Armstrong, H. C. Love, C. E. Bartlett, Mmes. D. W. Burke, V. H. Boteler, V. The events lead-

marily the result of
several suc-
cessive years of
below average
rainfall. With the
low water table
prevailing for
years over the area,
the soil became
repeatedly failed
and covered with
dust. The soil
became more sus-
ceptible to erosion
and the erosion
action in 1935 and
1936 great
amounts of soil
were blown out
of the fields into
the sand piled into
drifts several feet
high. This drift

June, when the heavy
rainfall normally
occurs. And in
crop can make suffi-
cient growth, even on
limited water, to
prevent serious erosion
during the winter
and spring.

Plains and in the northern part of
the Rolling Plains of Texas should
consider the possibilities of what
may follow late in 1952 and early
1953 if they fail to get sufficient
vegetative cover to stabilize their
soils during the 1952 growing season.
If the 1950 and 1951 rainfall pattern
is repeated over much of this area
for 1952, only the sorghum crops can
be expected to provide enough cover
for the soil to prevent even more
severe erosion during the spring of
1953.

The Financial End of It

Financially, a farmer might be
farther ahead ten years from now if
he grows a grain sorghum in 1952,
than if he attempts to grow cotton
and fails to make a crop. The fol-
lowing points should be considered:

1. A sorghum crop requires a smaller
number of pounds of water to
produce a pound of dry matter than
is required by a cotton crop. Thus a
sorghum crop will produce more
crop residue than cotton on the
same amount of rainfall.

2. Grain sorghum are more efficient
users of soil water than cotton
because of the fibrous and more in-
tensive root system. This same root
system on the sorghum plant does a
better job of holding the soil than
is done by cotton plant roots.

3. If insufficient rain falls to ma-
ture a crop, the grain sorghum can
still be counted upon to produce a
vegetative cover to aid in holding
the soil from wind erosion.

4. If sufficient rain falls to ma-
ture a 1/4 bale cotton crop which
might gross about \$40.00 per acre
income in lint, and about \$14.00
worth of cotton seed at oil mill prices
for the past year, the same amount
will be expected to produce about
1000 pounds of sorghum grain per
acre, which at the 1952 support
price of \$2.38 per hundred pound
will provide a gross return of \$23.80
per acre. The cost of cotton produc-
tion per acre is normally much higher
than the cost of production for

grain sorghums. Cotton, in addition
to costing three to four dollars per
acre for seed, several dollars per acre
for hoeing with one or more spray or
dust applications for insect control
at three to four dollars per acre, is
more expensive to harvest and gin
than is the harvesting of the sorghum
crop. Thus the net return per
acre on grain sorghums may be
nearly as great as for the cotton
crop, and a profitable yield of grain
sorghums is more certain than a
profitable yield of cotton when
moisture conditions are question-
able.

Wind Erosion Problem

5. If the farmer plants cotton and
misses a crop in 1952, because of
lack of moisture, the acre value of
his land will be further reduced be-
cause of the continued wind erosion
which will occur in the absence of
adequate vegetative cover on the
lighter textured soils.

6. Land once eroded by severe
wind action requires several years
to rebuild to its original productivity
in severely eroded acres where larger
quantities of top soil have been
blown away, or where deep accumu-
lations of the sand have come to
rest, it may require a quarter of a
century to get the land back to
where it has its original prematu-
rity for water, stability against ero-
sion, and a fertility condition which
will support a high production of
of crops. In some instances, the ero-
sion is already so severe that the
land cannot be returned to its origi-
nal productive condition during the
lifetime of the present owner.

7. If the farmers in wind eroded
areas of the Southern High Plains
and the Northern part of the Rolling
Plains do not have good soil mois-
ture to a depth of about three feet
at planting time for cotton, they
should not take a chance on this
crop. The probability of their mak-
ing a successful cotton crop is too

As A Farm Woman Thinks

(By Nellie Witt Spikes)
In Mother's Shoes

In their mother's high heeled shoes. Little girls go walking. Trailing colored scarves and jewels. Pretend they're grown-ups talking. Doing just what mother does. Remembering all they see. Little girls pretending. That they are you and me. Wark straightly then, O mothers. And guard each word you say. Let little daughters in your shoes. Should come to grief some day.
—Le Moyne Holste in Christian Herald.

As yet we are not in our new home but hope it will be finished in about ten days. Finishing up a house is slow work and the time drags until one moves in. Last night in the storm our little garden was wiped out but it is not too late to plant another and we will plant over and forget the loss. Thankful we were that the storm was not any worse than it was. The clouds looked angry and the hail fell for a short while. Just before sunset two clouds in the west mushroomed up and spread out like the picture of atom bomb after an explosion according to the pictures. I have long noticed that clouds from the north in the spring and summer mean hail and high winds.

I had such a very nice thank-you letter signed by each member of the third grade in Falls. I treasure each name and this will be filed away in my scrap book in memory of a bunch of boys and girls that made my talk about my early school days on the plains a pleasure. Thank you again and again third-graders and may you some day have many happy remembrances to tell school boys and girls.

My grandson, Billy, complained this morning that Joe, his older brother had "delivered in" some mud in the house on the rug. Billy

must have recalled his year's stay in the store when he heard the word "delivered" so many times a day.

Margaret Nell and Dale have a rabbit they have had over a month. It is not often children raise a wild rabbit although many a mother has been irritated by their trying.

Maude and Walter Powell were our friends and neighbors out on the farm for many years. Now we are neighbors again. We have been friends through the years. They had such a fine garden coming on that the hail did not spare, but they will plant over and wait for the harvest of a good garden.

As I began this column on training of children so I will end with these lines by an unknown author: I must not interfere with any child, I have been told; to bend his will to mine, or to shape him through some mold of thought. Naturally as a flower he must unfold. Yet flowers have the discipline of wind and rain, and though I know it gives the gardener much pain, I've seen him use pruning shears to gain more strength and beauty for some blossom bright. And he would do whatever he thought right. I do not know—yet it does seem to me that only weeds unfold just naturally.

News of Harmony

(By Mrs. Mather Carr)

HARMONY, May 12 — The Woman's Society of Christian Service met Tuesday of last week in the home of Mrs. R. B. Gary with Mrs. Gary as hostess. This was a regular monthly business and program day. The president, Mrs. Sherwood Ramsey conducted the business and Mrs. M. D. Ramsey had charge of the program, with several having a part. Sherry Ramsey sang a solo. There were seven ladies and two children present. Lovely refreshments were served to all. The next meeting will be at the church Tuesday, when we will begin our next study "Missions at Home". Everyone is urged to attend these lessons.

There were only 25 out for the mid-week services last week. Mrs. Marvin Smith brought the devotional. Men were busy trying to get some seed in the ground.

Mrs. Everett Miller and Mrs. Carrick Snodgrass attended the district Home Demonstration meeting Wednesday of last week at Dimmitt.

Club met Thursday in the club room with Mrs. R. B. Gary as hostess. The house was called to order by Mrs. Carrick Snodgrass in the

Mr. and Mrs. M. D. Ramsey and Mr. and Mrs. Sherwood Ramsey and children attended the funeral of Clarence Goins Sunday afternoon at the First Baptist Church at Floydada at 3:30 o'clock.

Conservation District News

A small crowd attended the afternoon spring tour sponsored by the Floyd County Soil Conservation District on Thursday, May 8.

Such practices as cattle grazing on newly seeded irrigated pasture, underground concrete pipelines, banded control, grassed waterways a combination of field and bench leveling, use of deep rooted legumes in small grain production, vetch or soil improving crops, and anhydrous ammonia on wheat were shown.

The first stop was on the S. J. Latta farm, where a new planting of perennial rye and sweet clover was being grazed by three cattle per acre, and an underground concrete pipeline were observed and discussed.

The grassed waterway on Raymond William's farm caused considerable comment. Western Wheatgrass was up to a stand on a shaped channel. The equipment used in irrigation land preparation was in operation on the J. P. Moss farm where a bench leveling and a com-

bination of field leveling and bench leveling job is under construction. The plan is for watering by open ditch temporarily, and underground concrete pipe later on. The difference between field and bench leveling was discussed.

The next point of interest was the Arlon Miller farm, where a demonstration of the use of a deep rooted legume (hubam clover), was used in small grain production.

H. R. Patterson's farm had a pasture of mixed grasses and legumes on bench levelled land.

The tour ended on Frank Probasco's farm at Irick, where anhydrous ammonia had been applied on

wheat, which was checked plot that did not have fertilizer, and a large amount planted for soil samples.

Mr. and Mrs. Bill and Mrs. Edna spent Mothers Day in Prairie visiting with their mother Mrs. W. H. Blum. Blum has been in the hospital for the past several weeks. Grundy reports her mother is improving, but will remain in hospital.
