Cancer Funds Near \$4,000

On a per centage basis Floyd County stood third in the state Tuesday in total donations to the cancer crusade. Mrs. Bill Hodel, county crusade chairman, announced.

With donations still coming in for the fund the county has a good chance of placing second in the state before final figures are announced, Mrs. Hodel said.

Figures as of Tuesday put the donations, county-wide at \$3,891.64. In addition to working for the fund the county is also working for the state fund for the same purpose.

Mrs. Hodel's north side committees had deposited \$2,494.72 the first of this week, the donations from Floydada and adjacent communities standing at \$1,396.92.

WASHINGTON'S ANCESTRAL HOME

Extensively re-built home of the ancestors of George Washington, in the village of Washington, Durham County, England, is now a community center and museum.

Every year, thousands visit Mount Vernon, home of George Washington, to honor the first president and imagine how he lived. Only recently has the ancestral home of the Washington family in England, dating back to 1183, been restored and opened to the public.

Washington Hall is located near Sunderland in Durham County, England. Here a certain William de Harburn settled in the year 1183, taking for his family the name of the locale, variously referred to in documents as Wasyngtana (in 1183), Waissanton (1190), Wessinton (1196) and Wassinton (1211). When the family name finally changed is not known, but the simplified spelling of Washington gradually evolved.

The family flourished at Washington Hall for several centuries, while a branch went south to settle at Sulgrave Manor in Northamptonshire, from which George's immediate ancestors came.

The original Washington Hall has passed through various hands in the course of time, undergoing architectural revisions and extensions. The restoration bringing it to its present excellent state began in 1951.

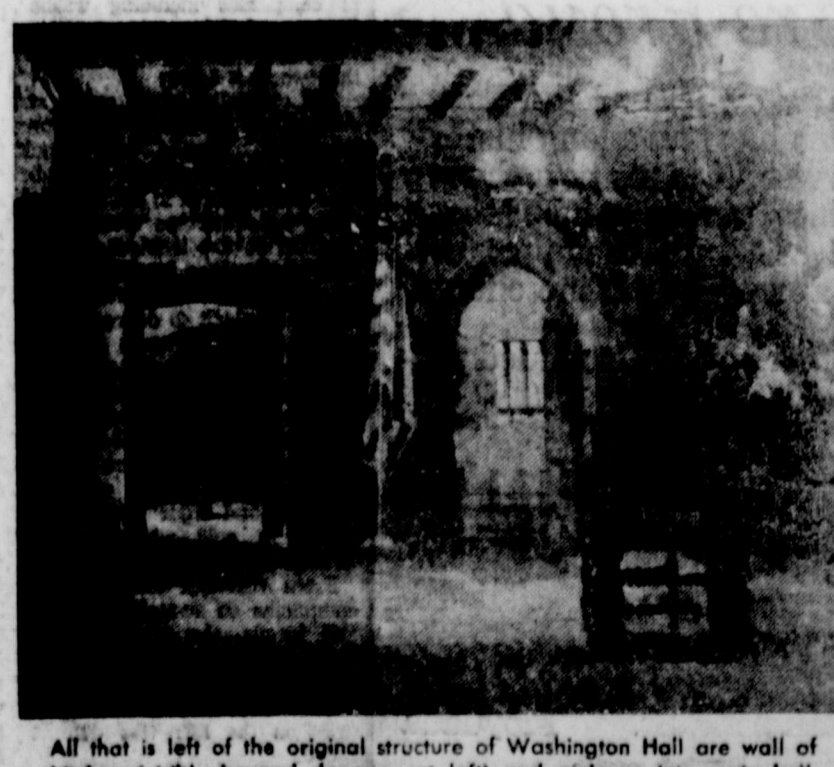

Entry to Washington Hall is shown as it looks today.

Large open fireplace with cooking equipment looked like this when Washington's ancestors prepared their meals.

Bust of George Washington surveys England's Washington Hall.

All that is left of the original structure of Washington Hall are wall of kitchen (visible beyond doorway at left) and archway into main hall.

On Saturday night last, Col.
Haynes, of this city, discovered
one of these animals of enormous
size gradually making its way up
on the floor towards the bed in
which reposed two of his little
children. The Colonel, of course,
had been in ill health for the past
year. He was the father of Mrs.
R. L. Lackey of Lockney, and
Mrs. F. E. Cook of Lubbock. He
leaves three sons also survive as
do 18 children, and was the largest
of 19 great grand-children.

Faster, Cleaner Start for Your Crops
with a **WINPOWER** ROTARY CULTIVATOR

Better Cultivation Pays Off in Yields

The WINPOWER Rotary Cultivator is the best insurance
toward a bigger safer harvest. The flexible sections, with off-
set, cross-cut action knocks out weeds, breaks up crust and
clods, and saves the moisture for growing crops.

End sections fold up. Coupling is adjustable for close turns.
Hitches can be reversed for transport and crust breaking only.
Construction is rugged, for years of trouble-free service.

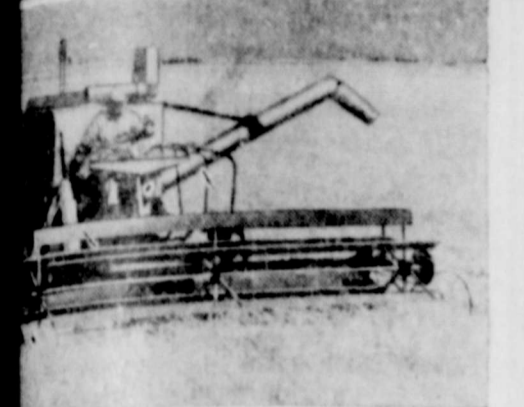

Come in and see for yourself how this WINPOWER Rotary
Cultivator will make money for you. It's the cultivating tool
that gives your crops a faster, cleaner start to the biggest
yields ever.

Since the lawmakers failed, during their 120-day regular session, to erase the \$65,000,000 deficit and balance the budget for 1960-61, that chore will be number one on their agenda. And most observers think it will take at least two, and maybe more, 30-day special sessions to iron things out.

Only matters specifically offered by the Governor may be considered during a special session of the Legislature, and all legislation must start over, practically from scratch. Revenue-raising proposals will have to be introduced again in the House, heard in committee, etc., before they can go to the Senate.

"OPEN SHOP" TEACHING — Any college graduate could teach school in Texas — at least for a year or two — under a House-passed bill.

Bill would grant a teacher's certificate good for one year to any bachelor's degree holder, whether he had had teacher training or not. Certificates could be renewed twice. After that, the ap-

proposed bill would allow the State Highway Department to zone state highways and farm roads for lighter truck loads and give same authority to County Commissioners for county roads.

INSURANCE QUESTION MARK — Whether the State Board of Insurance should operate full-time or part-time was an issue expected to carry over into the special session.

House made its preference clear by putting full-time salaries in the House appropriations bill and by passing a bill specifically providing for a full-time Board.

Senate version of the appropriation bill provided for what would amount to about one-third time salaries (\$5,000 a year) for Insurance Board members. Many senators opposed a full-time Board in addition to a full-time Commissioner when the Department was re-organized two years ago. Since then, they have been angered because the Board retained William A. Harrison as Commissioner after the Senate had disapproved him.

Since no conference committee was appointed to adjust differences between the two houses' appropriation bills, it was obvious the insurance hassle could not be resolved in the regular session.

TOURIST BILL PASSES — The much discussed and battered bill to permit the state of Texas to advertise its tourist advantages finally was approved by both houses of the Legislature before adjournment of the regular session.

As passed, the bill puts into effect the constitutional amendment approved by a close margin by the voters at the election last November. It differs in one important respect, however. It does not provide that industries shall match state funds— which was the sales pitch that was used to effect passage of the amendment by Texas voters.

Designated to handle the program is the Governor, the Chairman of the State Highway Commission, and the Chairman of the Texas Industrial Commission.

SHORT SNORTS — House passed a resolution opposing federal regulation of wages to imported farm labor. It was sent to the U. S. Dept. of Labor and to Congress.

Some called it the "get your cotton-picking hands" measure — Senate approved the House-passed bill to allow for abolishing the office of county school superintendent in counties not needing one. But it was amended so it applied to only two counties, Young and Parker — Number of persons receiving unemployment payments in Texas is one-third fewer this month than in the recession spring of a year ago. Texas Employment Commission reported 58,410 jobless now compared to 90,946 in May, 1958 — It was a rough session for a presiding officer, but House Speaker Waggoner Carr had "his day." Many colleagues paid tribute to Carr, Speaker's Day, and Carr and his family received numerous gifts.

D. D. JETER COMPLETES Radar Repair Course

FORT MONMOUTH, N. J. (AP-TNC) — PFC Doile D. Jeter, whose wife, Patsy, lives at 513 Monroe, Borger, Tex., completed the 33-week radar repair course April 30 at the Army Signal School, Fort Monmouth, N. J.

Jeter was trained to test, repair and maintain ground radar equipment.

The 23-year-old soldier entered the Army in May 1958 and received basic combat training at Fort Carson, Colo.

A 1955 graduate of Shamrock High School, Jeter attended the University of Texas. He was employed by the Phillips Chemical Company, Borger, before entering the Army. His parents, Mr. and Mrs. John M. Jeter, live in Petersburg.

STANLEY PARTY HOSTESS

Mrs. Charlie Warren was hostess Friday afternoon from 2:30 until 4 o'clock for a Stanley Party in her home with products demonstrated by Mrs. Lucille Duncan. Mrs. Levis Gilliland was chosen Lucky Lady and received a nice gift.

Refreshments of coffee, punch, cookies, and cheese snacks were served to Mrs. Foster Amburn, Mrs. Bill Sanders, Mrs. S. D. Medley, Mrs. Glen Amburn, Mrs. Allen Watts, Mrs. Clyde Hinkle, Mrs. Winfred Payne, Mrs. Levis Gilliland, Mrs. Duncan, and the hostess, Mrs. Warren.

History of The 'Lost Battalion' Being Written

Area men, especially those who survived the "Lost Battalion" are awaiting with interest publication of a book telling the story of capture of the battalion by the Japanese at the outset of World War II and the incredible survival of many of the men under perhaps the worst prison conditions ever recorded.

There were approximately 20 men in this area and Hale County in the Battalion. Most of them survive, and some of the Plain-

BROADENING THE COMMON PURCHASER OIL LAW by Sen. Hazlewood. Senate refused to take up the bill which would require pipelines to provide connections to new fields or transport the oil to market by truck.

BAN ON SUNDAY AUTO SALES by Sen. George Parkhouse of Dallas. It passed Senate, but House refused twice to take it up.

BAN ON NESTED CAMPS by Rep. James Turman of Gober. Senate passed, but House refused to call it out of committee. Committee had referred it to the Attorney General who said it would be legal.

HIGHWAY ZONING — Both houses moved quickly toward passage of a bill to protect smaller roads from heavier truck loads.

Governor Daniel asked for such regulation when he signed the bill to increase permitted truck loads from 58,420 to 72,000 pounds.

Proposed bill would allow the State Highway Department to zone state highways and farm roads for lighter truck loads and give same authority to County Commissioners for county roads.

ARMED FORCES DAY

An impressive display of Army weapons, including the Honest John rocket, will be brought to Lubbock next week from the U. S. Army Artillery and Missile Center, Fort Sill, Okla. The weapons will be displayed at Reese Air Force Base as part of military exhibits in observance of Armed Forces Day, May 16.

The two Wilson brothers for whom the Plainview VFW post is named, Tom and Ed, didn't survive, and J. W. Harrison of Floydada, for whom the local Post is named, also was killed. Harrison lost his life on a Jap prison ship torpedoed by Americans.

The book containing the story of Texas' "Lost Battalion", survivors of the USS Houston, and the 131st Field Artillery after the fall of Java early in World War II, is now being written by a military historian.

A grant from Guggenheim Foundation was awarded Air Force Historian Samuel Milner, to write the story, according to news sources.

Gates Nylons took it! Other tires wrecked on same course

JEEP DERBY

Jeep Driver Guy Martin, Guy Martin, previous winner of the famous Jeep Derby, held annually at Truth or Consequences, N. M., equipped his jeep with regular Gates Air-Float Deluxe passenger tires and gave them a spectacular endurance test over the rough Derby course.

Tires Tougher Than Steel To the right is an actual photo of a Gates Tire taken off Guy Martin's Jeep after a bruising run over the course. Says Guy: "In all my years of Jeep racing I've never used a tire that could take the punishment I have given Gates Nylons."

For the first time, regular passenger car tires were tried on this unbelievably rugged course at Truth or Consequences, New Mexico, where Jeeps leap, bound, and swerve over jagged rock and steep inclines at top speeds. "Even after impacts that badly dented the wheels of my jeep, my Gates Nylon Tires were absolutely unharmed," says Guy Martin.

NOW! You get this Extra Tough Tire at DOUBLE SAVINGS

Altogether the biggest saving we've ever offered on 1st Quality Nylon Tires.

1st Saving: Nylon at Rayon price... yes, it's genuine 1st quality nylon at price of new-car rayon tire!

COTTON GROWERS

OF THE FLOYDCOUNTY AREA

WE GROW IT! --

WE'LL WEAR IT

May 18 through 23 is National Cotton Week. It is time to think of more uses for cotton and means of producing it more efficiently while taking care of the productivity of our land.

There are many wonderful materials being made of cotton today, beautiful beyond the imagination of the housewives of twenty years ago. Since cotton is so important in our economy it might be well for us to keep in

mind the cool comfort and stylish charms of the modern cotton fabrics

When we are told of the hot, dry, synthetics, why not remember how cool and comfortable cotton is — whether it be a clean cotton dress, shirt, blouse, or cotton under garments. After all cotton is what we produce: It is an indispensable raw product. Let us support it with our purchasing power: for that is one way of keeping the price at a higher level!

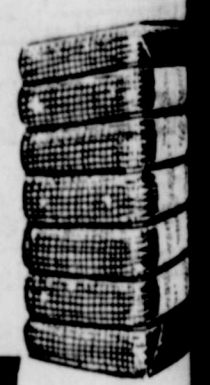

Back the Cotton Growers of Our Area . . .

shown than on last year's map, making a total of 1,021. The increased mileage in U. S. state, and farm-to-market roads, is much in evidence. The map reflects some 1,000 miles of multilane divided highway now completed in Texas, including the completed sections of the National System of Interstate and Defense highways located in the state.

The map now shows approximately 61 major lakes and reservoirs, and includes countless rivers, creeks, and streams. Roadside parks, long cherished as rest stops and picnic areas by Texans and tourists alike, now number 1,046 as compared to the 1,026 shown on last year's map.

City route maps are provided of the state's 12 largest cities — Amarillo, Austin, Beaumont, Corpus Christi, Dallas, El Paso, Fort Worth, Houston, Lubbock, San Antonio, Waco, and Wichita Falls.

The reverse side of the map, with a theme of "Texas, Land of Contrasts," reflects, in 20 full-color pictures, some of the outstanding scenic, historical, and recreational attractions in Texas. A section entitled "Facts About Texas" gives facts and figures on Texas' natural resources, recreational opportunities, state and national parks, historic points of interest, flora, farming and ranching, terrain features, and climate.

The Official Highway Travel Map is used by all state and governmental agencies in state in determining highway distances, mileages, zones, and like information useful to tourists seeking roads leading to good times in Texas.

The new 1959 Official Travel Map is distributed by the Department of Transportation. Travel encyclopedias as it has been obtained by the Highway Department. At the highway and travel information cards available in the County Tax Office of the State of Texas. For more information, contact the Texas Department of Transportation, Austin, Texas.

Hi,

"Mayan Dude Ranch or Bust" will be the cry of around 38 happy seniors Friday night at 8 o'clock. Just think all those wonderful days with nothing to do but have fun dancing, swimming and riding horses. We will head for home on Monday.

The FHA and the FFA had a hay ride Monday afternoon after school. They went to the Baptist Encampment.

Miss Judy Jackson needs to be congratulated on two honors. She was crowned Band Sweetheart and Miss Maid of Cotton.

Jane Tye was given one of the most beautiful engagement rings ever by Weldon Pruitt. Congratulations and best of luck.

The book "How To Write Love Letters" was the center of attraction, the other day. So — if any boys receive some odd sounding letters, you'll know where the ideas came from.

Some have you noticed — Ann Word was real disappointed because Charles couldn't come to the Band Banquet. He is pledging a fraternity. Why didn't Johnny and Mae Bell make it to the banquet—was it a matter of Kay, the senior boy that has the "tuffy" on Edwina; Leora is the Champion Puddle Jumper; Linda Hammonds is the aunt of twin boy and girl, where Marisue was Saturday night; the Roe household in an up-

Dougherty News

(By Mrs. W. J. Ross)

DOUGHERTY, May 11 — This area has received several rains the past few days. Reports vary over the community but are from 2 to 3 inches. A considerable amount of cotton acreage had been planted it is reported this will have to be replanted. However, the farming outlook is much brighter since the rains came.

The "turn-out" for the work in the cemetery was most encouraging. Twenty or more people were present. Although the group worked only about an hour and a half before the rain began, a considerable amount of work was accomplished. Plans are to meet again in the near future and complete the job. The date will be announced on the local news broadcast over KFLL.

BAPTIST CHURCH

BELIEVE (No. 9) that the true Church (The Bible) is identified only by two ways. The most important spiritual inspiration and literal interpretation of the scriptures, which teach that there is one body (Church) with one faith and one baptism. (Eph. 4:4, 5; Jude 1:2, John 9: as we have shown in these, This We wish to identify the true Church is by history. If it was Jesus as the founder, then it is the true Church. If men or women as the founder (Organizer) then it is not the true Church.

The true Church can be identified by its name. It will wear the name Church of Christ, but not because there are over 25 different churches with names in belief that are tagged by the name, Church of Christ. It is the divine marriage of the Bride and the Groom. It is yet in the future, (Rev. 19:7) which will be the marriage ceremony, and expects to have none, already Christ's wife even before the Marriage ceremony. (Matt. 22:1, 14; Rev. 19:7, 9) It is not only the name of the church, but it is taking the tactics of a common law wife, the marriage ceremony, and expects to have none, already Christ's wife even before the Marriage ceremony. (Matt. 22:1, 13; Rev. 19:7) Therefore, they are false.

It does not always mean that she is already married. Check the dictionary which says, "A Bride, is a woman who is about to be married. The Church is joined to Christ as the present bride and prospective wife. (See Eph. 5:23, 27; Matt. 1:18; Matt. 25:1, 13; Matt. 25:1, 13) But not yet come together as man and wife. The Church (singular) is not found in the Bible. (Plural) of Christ is found only as showing that they belong to the Lord. I can say Cecil Taylor's only, that he owned the car. But Cecil Taylor's name. The car's name is Ford.

Names of Christ mentioned in the Bible shows that it is not the name. (If you doubt check the scriptures we gave very close and you, too, will see.)

Inquire Before You Retire, SS Director Advises

One of the goals of the Social Security Administration is to pay benefits as promptly as possible to those persons entitled to payments. John G. Hutton, manager of the Lubbock office stated today.

To do this, Hutton said, it is necessary for the person claiming benefits to make inquiry for payments before he retires if he knows he will be retiring on a certain date. This will give the Social Security Administration and the person claiming benefits time to get the information and evidence together to establish his rights to the payment before the time his first check is due.

Generally, evidence will be required to prove the age of the retiree person and the age of his wife. This may be a birth certificate or other record of age that is old and reliable. Also, evidence of the worker's earnings in the taxable year that ended before he plans to retire is necessary. This may be a copy of the income tax return for self-employed persons or the W-2 forms for wage earners.

Mr. Hutton again stressed that for prompt payment of your first social security check "inquire before you retire" at your Lubbock Social Security office.

A representative of the Lubbock Social Security Office will be in Floydada on May 11, at 9:30 a. m. at the Courthouse, Rm. 106 and will be glad to assist in all matters pertaining to Social Security.

NEW GREEK LETTER SOCIAL CLUB INSTALLED AT WTC

CANYON — Alton Higginbotham and Johnnie Tinnin were among members of the Tau Tau Tau, men's social club at West Texas State College, which recently was installed as a chapter of Alpha Tau Omega, national social fraternity.

Installation of WTC's Zeta Kappa Chapter was directed by Wiloughby, C. Williams of Houston, district officer for the fraternity. Tinnin, son of Mr. and Mrs. John R. Tinnin of 312 Ollie, Floydada, is a business major.

Higginbotham, agriculture major, is the son of Mr. and Mrs. Bryant Higginbotham of Route Q, Lockney.

Both boys are graduates of Floydada High School.

RETURNS TO POST

PFC. Glen Dale Baker, son of Mrs. Will Taylor, left Floydada last week, and flew from Fort Worth on to New Jersey, where he left by plane for his base in Iceland. Baker had been in Floydada on an emergency leave to spend some time with his stepfather, Will Taylor.

Baker has been stationed at Iceland since last December. His address is U. S. 54199991, Co. C, Second 2ND. BCT, APO 81, New York, N. Y. for Floydada friends who wish to write.

Charlie Warren and sons, and Lewis Gilliland and sons enjoyed an overnight stay and fishing trip Saturday at Lake Diversion, returning home Saturday night.

THE ELECTRIC RANGE

ANOTHER WAY TO LIVE BETTER ELECTRICALLY

The hot summer months just ahead it is wise to think of comfort in home and especially in the kitchen. Of course air conditioning is a helpful thing and we would not want to be without it. But there is another electric appliance that can add much to the modern kitchen and keep it clean and cool.

Now we are thinking of the automatic electric range. The electric range heats only where you want it. No need to cook the entire house with an excess of heat spilling over the house as you prepare meals. Electric cooking is economical, it is concentrated on the utensil and food being cooked and does not add to the load on your air conditioner. . . . Besides all these advantages it is safe, dependable, and care free as electricity can be.

Are you cooking the old fashioned way then see your appliance dealer in Floydada soon and see how easily you can live better electrically.

Air Condition Now

WHEREVER YOU WANT TO BE COOL. Westinghouse Mobileair Conditioners are easy to roll from room to room.

A NEW DIMENSION IN AIR CONDITIONING. Move it to any room in the house . . . get virtually "whole house" cooling at lowest possible cost.

Thanks to the adjustable window mounting frame, it's the easiest of all air conditioners to move and install. You can do it yourself in just minutes.

ARE YOU A TENDERFOOT IN YOUR KITCHEN

In the golden days of the Old Wild West, when men were men and cooks were cooks, the Indian could always tell a tenderfoot from a real woodsman by the size of his campfire.

From a distance of 10 to 15 miles they could spot a tenderfoot by the gigantic flames licking up from the bonfire. A real hand at camp cooking would know better; his fire would be small and concentrated, barely visible, almost smokeless and with the heat coming from a few white hot coals instead of an inferno of flames.

If old Sitting Bull walked into a suburban kitchen today he could tell a tenderfoot housewife from a real cook by the size of her "indoor campfire." Top notch cooking still comes from carefully controlled heat. The small area of concentrated heat that the experienced woodsman sought to obtain by nursing a few white coals is available at the flick of a switch in a matter of seconds for today's housewife cooking over an electric range.

And just as the oldtime pioneer had to know the right wood and the proper wind direction in order to build his campfire, so the modern housewife who yearns to be a good cook can profit by a knowledge of the control switches and timing devices on her range. Thermostatic oven control, for instance, is more than a time and energy saver. Knowing how and when to use this wonderfully simple cooking tool can mean the difference between a genuine culinary creation and a pot luck batch of something. Nearly foolproof as today's electric ranges are, they perform best for the homemaker who knows and understands the various types of controls and uses them properly.

New cooks, especially, quickly and confidentially can attempt complicated dishes that mother never would have dared on her old coal range, once they realize the marvels that are at their fingertips.

Old cooks, too, can learn plenty of new wrinkles that science has introduced into the ancient art of cookery.

So, for best results, get an electric range right away — Live better electrically.
