Chiefs Play Return Grid **Engagement With Hereford**

A big Thanksgiving Day program to be climaxed with the Friona-Hereford football game, will get under way with a parade to begin at the high school at one o'clock, it was announced today by school officials, who state that game starting time has been set for 2:30.

The Friona Band and pep squad and the Hereford Band and pep squad will be in the parade which will march east from the high school building toward Main Street. Also invited to take part in the parade is the Clovis Army Air Field Band, and the Tulia band and pep squad, as the representatives of the co-champion Tulia Hornet football

From Main the Parade will move south to Sixth Street and across to Fifth, from there across to Highway 60 and to the stadium, which has been undergoing a thorough remodeling and cleaning job in preparation for the big game, which is expected to draw a crowd of 2,000.

Tickets will go on sale Saturday, Nov. 25, at a downtown booth, the school officials announce, stating that all fans are urged to buy tickets early.

Maybe It's a Jap Secret Weapon

After bombing the Japs in Burma and escaping ack-ack and monsoon weather, these 10th AAF crewmen were in danger of losing their medium bomber to a vulture which "blasted" into the B-25 (note the holes). Co-pilot Capt. Harford J. Thierry, Jr., of Hartford, Conn., injured in the "attack," is shown receiving first aid from flight surgeon Capt. Pete Cummings of Washington. Lt. Edward P. Schug, left, holding the "kill," is also a bit scratched (USAAF photo.)

and leafy and is very good for bundles and grain is a cross between a kaffir with Sumac cane, These grain sorghums tested for early maturity, drouth and disease resistance were found to be well adapted to the High Plains area and seasons.

The best time for planting these sorghums is around the first of June however, the actual date depends on moisture conditions. By planting about the first of June the pants are strong enough to endure the July dry period and are mature before frost.

Not only are Deaf Smith county farmers interested in the production of better varieties of grain sorghum as a feed and cash crop but they are also interested in producing grain sorghum to prevent soil blowing. Sorghum is usually planted on wheat stubble land in the spring. The stubble furnishes a cover for the land during the blow season and many times is not disturbed until plant grain sorghum.

Farmers and ranchmen who visited the Conservation Experiment Station were Leo Forrest, Frank Bezner, Wirt Phillips, George Muse, N. E. Gass and Fred W. Baird.

Seed for the new variety grain rghums may be obtained from Conservation Experiment Station at Bushland. Soil Conervation Service personnel will be glad to furnish detailed inormation concerning the farming and ranching experiments carried on by the Conservation Experiment Station.

Jim Hays, Manager

This is the house that War Bonds will build in 1954

It belongs to Mr. and Mrs. George Jones who are working and saving in 1944.

Today, the Joneses are buying all the bonds they can afford. Today, they are adding a modest sum to the family bank account to have ready cash for emergencies. They hardly realize it now but they are not only helping their country by working and saving-they're building a home of their own, bond by bond.

Mrs. Jones says, "When we started buying bonds, we called them Defense Bonds, then War Bonds. Now we call them Home Bonds. We know about how much our new house will cost and we worked out in black and white a plan of saving which will provide the money at the right time."

The architect's plans are yet to be drawn, but their plan of saving is well under way. And any home owner will tell you that a blueprint is just so much paper without money to make the hammers sing.

Help the nation's efforts to keep your living costs

Wonder what houses will be like in 1954? Air conditioned, of course. Deep-freeze facilities. Heating by means of pipes in the floor or walls, perhaps. Dish washing and waste disposal units, refrigerators and ovens with glass doors. It may be too early to plan your home, but it is not too early to plan saving for it. Buy all the War Bonds you can afford, put them in your safe deposit vault, and let them work for you. Put something in your bank account regularly so that you will have ready cash for emergencies. And sit back and watch your house being built, bond by bond ... dollar by dollar.

Let Us Give Thanks

Thanksgiving, 1944—many of us cannot pause to give our thanks, but must offer them as we go. For this is a war year, and no time for relaxing our efforts.

We do, however, have much to be thankful for, if we look beyond today. Every day of war brings us nearer Victory, provided we do our part and not falter. We still have our country and our homes, unmarred by any invader's hand. We still have more of comfort and prosperity than any other nation on earth.

To many, it is true, the war has brought

sacrifice and bereavement. In these we must be upheld by the conviction that they are the steps to peace and a better world. We must resolve to make sure that they have not been in vain.

Let us be thankful for our own great area, for its favorable climate, immense resources, varied agriculture and industrious people. When peace returns it will bring us an opportunity as broad as our landscape. So while we look forward, let us give thanks, with a hope that another year will bring the blessings of Peace all over the world.
