SHOOTING MAN.

A. E. Steinmetz, special agent for the T. & N. O., who lives in this city, encountered a couple of men in an empty box car in the railroad yards at Alpine last Saturday night and ordered the men to leave. One did so, but the other, who gave his name as Paul Jones, refused to do so and opened fire on Mr. Steinmetz. The agent began firing as the fellow was running and shooting back.

In the gun battle that followed Jones was shot in the foot. His wound is not thought to be serious but it will probably be the cause of his being in bed for several days.

Three guns and a knife were found on the man and a search of the car revealed eight more pistols, all of which were practically new. The weapons have been identified as the property

RUTLEDGE CASE BEING TRIED IN DEL RIO

The George O. (Tinker) Rutledge case is being tried in Del Rio this week and advice reaching here Tuesday morning from that city stated that a jury was selected Monday, it taking all day to get the jury. Rutledge is charged with the murder of Max Luckie, who was shot and killed in this county in the spring of 1926. Taking of testimony in the case was started Tuesday morning.

About seventy-five witnesses were summoned from this county to be there. A verdict of not guilty was returned about 5 o'clock Wednesday afternoon.

Send your cleaning and pressing to us. We will give you the best of service and return your garments the same day. The

OGLE-STIRMAN

Dave Ogle and Miss Bernice Stirman sprang a surprise on their many friends here Monday morning when they motored to Alpine and were united in the holy bonds of matrimony by Judge Burk of that city.

The bride is the granddaughter of W. E. Stirman and has made a large circle of friends here through her pleasant disposition and gracious manner.

The groom is the second son of Mr. and Mrs. J. D. Ogle. He is a young ranchman of this county; industrious and of exemplary habits.

The Times joins their friends in extending congratulations and best wishes for a long and happy union.

BAZAAR.

The Ladies' Auxiliary to the Presbyterian Church will hold their annual bazaar on Saturday, November 19, at the Masonic Hall. From 12 noon until 2 o'clock, pies, cakes, salad, sandwiches and coffee will be on sale.

At 3 p. m. the bazaar will be held at which time the ladies will have on display many useful articles in the line of needle work which will make not only useful gifts for Christmas but are practical and will be things worth while. Don't forget the bazaar and come out and help these ladies.

The Delphian Society

The Delphian Society met at 2:30 Wednesday, Nov. 9, in the ladies parlor of the Kerr Hotel.

A resume of the past program was given by Mrs. Will Savage, which covered about 8,600 years of Egyptian civilization. Mrs. Joe Brown was leader of the program for the afternoon, the general theme being "Egyptian Civilization as Modified by Time and Contact with Asia," approximate dates 2400 B. C. to 1520 B. C. Interesting reports were given by Mesdames Ed Downie, Jim Kerr, Luella Lemons, D. A. Pollard, Will Savage, J. H. Loehausen and G. Mussey.

SANDERSON MERCANTILE BLDG. BEING REMODELED

Work was begun the latter part of last week on the building that is occupied by the Sanderson Mercantile Co. The building is being re-inforced and a new roof will be added. The building will be ceiled on the inside and partitioned off, and according to the plans, when all is completed an up-to-date store will be the results. A new front with plate glass windows will be put in which will greatly add to the appearance of the building.

A. D. Brown is the owner of the building. F. R. Young is the contractor in charge.

Wednesday Bridge Club.

Mrs. H. R. Laurence was hostess to the Wednesday Bridge Club at her home last week. Baskets of autumn flowers were placed throughout the living room.

The high score prize for the afternoon, a white linen luncheon set, was won by Mrs. Clyde Griffith, while a hand painted bridge table cover was the second prize that was won by Mrs. B. P. Franklin.

OZONA TO HOLD MID-WINTER RODEO MEET

Ozona, our neighboring town on the north, is to hold a big Mid-Winter rodeo and races on Monday, December 26, according to announcements received by The Times this week. There will be staged several of the usual rodeo events as well as several good horse races. Purses totaling \$1,200 have been raised as prizes for the various events. The day's events will close with a big dance that night.

FOR SALE—An ice box and Singer sewing machine. May be seen at the C. W. Wilson home.

Mesdames L. H. Lemons and M. A. Boling motored to San Antonio Wednesday where they visited Mrs. E. D. Pipes.

SANDERSON WINS BY NARROW MARGIN OVER FORT DAVIS BADGERS

Coach White and 11 of his Eagle basketeers went to Fort Davis Friday for the first basketball game of the year. Notwithstanding the fact that neither team had been training but a week or so, a fast game of basketball ensued, and the spectators given many thrills as first one team and then the other would forge ahead for a narrow lead over its opponent. Sanderson footers drew a sigh of relief when the final whistle blew, and the Eagles were announced to be holding the one-point advantage of the 18 to 17 score.

The first quarter opened with a rush with the Eagles scoring a goal from the field by Qualtrough. The Davis lads almost immediately followed with a goal from the field to tie the score, and soon afterwards with another to take the lead. Landers tied the score by a goal from the field and the quarter ended Davis opened up with a fierce attack in the second quarter and gained a three-point lead. Ogle went in for Qualtrough. Cavender shot a foul goal. Ogle shot two foul goals out of the same number of attempts and cut the Badger margin to one point as the first half ended Fort Davis 8, Sanderson 7.

As the second half opened Landers made a goal from the field but Davis almost immediately followed his example and maintained their one-point lead. The Eagles began to show signs of strain, and were not covering their man except when they were right under the goal. A goal by Johnson of Davis from a point right outside the foul line gave the Badgers a three-point lead. Coach White then sent in Kercheville, Henshaw, Lambert and Mitchell for Landers, Cavender, Miller and Hall. The Davis coach also sent in a number of new men and the game was renewed. Neither side gained much of an advantage over the other. The Davis seconds scored one field goal and Carl Lambert shot a foul just as the third quarter ended.

The second string of the Eagles and Davis were both playing a highly defensive game, and neither side could work the ball within good shooting distance. Early in the fourth quarter the Sanderson first string went back in with Davis in possession of a four-point lead. The game became very furious as each side attempted to snatch victory from the other in the few remaining minutes of play. Landers and Cavender each made a goal from the field, and Davis made two points from the field and one by the foul route. With only two minutes to play the Sanderson boys opened up an attack that netted them two goals, one by Cavender and one by Landers. These goals made in the last minute of play won the game for the Eagles.

Cavender and Landers started on the offensive for the Eagles and Hall and Captain Miller bore the brunt of the defensive. Ogle, who divided the time with Qualtrough at center was the most consistent player in the game, although not leading either the defense or the offense. The Eagle forwards found it hard to cover their men on the defense, and the Eagle guards were too slow in covering Davis men with the ball. Consequently, most of the 17 points made by Davis were made within good shooting distance of the goal, but just outside the "crip-shot" zone. The scoring for Sanderson was: Landers, 8; Cavender, 5; Qualtrough, 2; Ogle, 2; Lambert, 1. For Davis: Johnson, 6; Dumas, 2; McCutcheon, 1; Barnett, 2; Espy, 4; Barnett, 2.

Coach Prude called a good game and showed no partiality. The Davis boys exhibited good sportsmanship, and the Sanderson team and fans enjoyed the trip to Davis immensely.

Kills Huge Panther.

Tom Parsons, who is ranching on the Joe F. Brown ranch in the north part of the county, came in Monday with the hide of a big panther, which he had trapped and killed that day. The hide measured eight feet and six inches from tip to tip. Mr. Parsons stated that the animal was very fat and had evidently fared pretty well.

Husbands may have better halves but bachelors have better quarters

Save Money as You Spend

Pay by check!

A CHECKING account will stop a hundred little leaks that are costing you money today.

It gives you a new and more intelligent command of your expenditures and your budget. It cuts down small losses—small and unnecessary expenditures.

You will find—as other good managers have found—that it saves you money while you spend.

Today this bank offers an important feature of service to everyone who has, or plans to have, a checking account.

For we give depositors positive protection against check raisers. Protection that does not depend upon mechanical or chemical contrivances. Protection that operates automatically, effectively without care, trouble or expense on your part. It includes \$1,000 insurance against raised-check loss for each depositor.

Come in and find out about it.

Waste of Elders Factor in Stirring Feeling of Poverty in Child

By DR. W. F. SCHRADER, Fort Wayne, Ind.

ONLY in the new sense of being comparative rather than actual can the word poverty be emphasized in any discussion of juvenile delinquency. We can ignore poverty in the sense that the child characters of Dickens knew it, for the simple reason that it is practically non-existent in any civilized land today and never existed in the United States.

But the inability of the poor boy in high school to take his girl to the school dance because of his empty pockets is as truly poverty as is the empty stomach of the young Chinese in devastated and war-torn China. The high-school girl unable to buy a pair of three-inch spike-heel shoes that cost \$11 suffers poverty as real to her as does her Russian cousin who has to go barefoot.

See Possibility of Tapping Earth's Heat

The possibility of putting down boreholes four or five miles apart over most of the land areas of the globe to utilize the earth's internal heat for man's purposes was discussed in a paper read to the engineering section of the British association by J. L. Hodgson, a civil engineer. Mr. Hodgson said the heat stored in the hot rocks of the earth's interior was immense—at least 30,000,000 times the heat reserves in the world's coal supply. Only the heat available down to a depth of, say, 30 miles under the land areas was likely to be of interest to engineers during the next few hundred years, but even this was ten times the heat contained in the world's coal reserves, and, if it could be tapped, would provide the heat required by mankind for many thousands of years. He declared that extension of this heat seemed to be a border line of practicality.

Flapper's Clock

Have all heard of the old-fashioned woman who sang one or more of 'Nearer, My God to Thee,' to time the exact moment when the eggs were properly done. Pansy of Urisana, "but it is a real for a modern flapper to give a new and practical idea on the subject. Recently married, she was being 'fussed' about her inability to cook, her brother remarked: 'Why, it's even boll eggs?' 'Oh, yes,' she said, 'I smoke one for soft two for medium three for hard-boiled!'"—Cleveland Dealer.

Home Runs

A strange fighting that has been in Nicaragua led Gen. Hugh to say at a Washington tea: 'I don't battle down there. The method is more like a street fight. It reminds me of a story, a year ago, in a war between Peru and Chile, a young war correspondent said to an old one: 'Your army goes in for unkind in consequence I can't tell in which.' 'That's easy,' said the old correspondent. 'If you see an army running towards Chile it's Chilean, and running towards Peru it's Peruvian.'—Kansas City Star.

Those who complain of jealousy, sure they haven't given cause.

side One's Occupation

By MRS. BARBARA WOTTON, London University.

Work is objectionable. For most of those engaged in industrial labor today their main job should be their use of leisure. We must find our life's interest outside our work, which is something we ought to get done as quickly as possible. We ought to run civilization on the theory that our main interest in life is not the thing by which we earn our daily bread, but how to get the earning over and done with quickly.

ATWATER KENT RADIO

has come!

Increasing demand for Kent radio brings prices. Kent radio, because of its oblong superiority, won't. When America's avalanche of demand for radio has expanded to cover fifteen million homes, the world's largest radio factory has expanded to cover fifteen million homes.

Atwater Kent radio scientists have perfected one startling improvement after another, keeping Atwater Kent Radio always ahead in supremely satisfactory performance, the price-reducing power of mass production kept pace.

Now, Atwater Kent Radio, recognized the world over as the highest development of radio, is offered at prices which pass on to the public savings achieved by scientific manufacture on a gigantic scale.

RED CROSS VOLUNTEER WORKERS BIG FACTOR

Broader Industry in Home Chapter and in Field Development of Disaster Service.

Volunteer industry in the American Red Cross is on an upward trend, due to the broader demand for assistance in meeting disaster relief requirements. Men and women from Red Cross chapters in the last year exemplified their work for disaster victims a greater activity than in any year since the end of the World War.

This service was given without stint and with the finest of spirit, according to Red Cross officials. Volunteer Red Cross workers have served by the thousands with the local chapters in garment production, printing raised-type reading matter for the blind, in hospital service, as canteen workers and motor corps aids. Nearly all active chapter workers are volunteers.

More than 90 per cent of the available reading material for the blind is produced by volunteer Red Cross workers. Volunteers produced 175,481 garments, 2,057,912 surgical dressings for hospital use, and 6,338 articles for emergency closets maintained by Red Cross chapters in various communities for disaster and other emergencies. The garment production, large as it was, did not include the thousands of garments made for the Mississippi flood sufferers by volunteers. Another important volunteer service is the preparation and sending of 20,000 Christmas bags to soldiers and bluejackets on duty in foreign stations.

Approximately 250 chapters participate in Motor Corps service, while the growing interest of volunteers in health work constitutes an additional community safeguard in emergencies when the services of regular nurses might be overstressed.

Volunteer service will be an important factor in the forthcoming eleventh Annual Roll Call, from November 11 to 14, in enrolling the 5,000,000 membership to be sought.

Washing is a Pleasure
IF YOU DO IT BY PHONE
And you can—Phone 37 and we will call, get your washing, launder it thoroughly and return it to you ready for ironing, or if you wish, all ironed ready to put away. Our charge for this service is very reasonable.

O'BRYANT HOME LAUNDRY

**High in Quality---
Low in Price**

Motorists are beginning to learn that there's a big difference in tires, although they all look pretty much alike.

Some are made with skimpy, short staple cotton. Some have an overdose of "filler" in the rubber of the tread. Some are long on looks and short on quality.

But you won't need a microscope to be sure that the Goodyear Tire you get from me is a real buy. Goodyear mileages tell the story.

Goodyears are performing so satisfactorily for my customers that they invariably come back—not with a kick but with a boost, and for another Goodyear when they need tire equipment.

I have your size—in fresh, new stocks.

P. T. A. Meets.

A most interesting and helpful monthly meeting of the Parent-Teachers' Association was held last Thursday at the high school auditorium with Mrs. J. W. McKee, the president, presiding.

The following instructive program was given by the various school children and association members:

A playlet on health was well given by the pupils of the third grade under the direction of their teacher, Miss Delma Harper.

Piano solo, Bess McAdams. Article, "Some Things Teachers and Parents Can Do to Aid Children in School," Mrs. John Stovell.

Following the program a business meeting was held. The pupils of the Mexican school had on display interesting health posters which were neatly gotten up and showed excellent work on their part as well as training by their teacher, Miss Myrtle Harrell and Mrs. J. A. McMillan.

Mrs. Clyde Griffith is visiting in San Antonio this week.

If we clean it it's clean.

MOUNTAINEERS AND LOBOS PREPARING FOR THEIR ANNUAL CLASH
By W. Van Fleet.
Special Correspondent for the Schreiner Institute.
Kerrville, Tex., Nov. 2.—Having won the first six games this season, and with another undefeated season as their goal, the Schreiner Institute Mountaineers are getting ready for the annual clash with their ancient rivals, the Sul Ross Lobos, at Del Rio, on the 11th of November. Coach Bully Gilstrap considers this game the greatest obstacle in the way of a repetition of last year's unusual record.

In contrast with the large number of Del Rio boys who were on the Mountaineer squad last year, Joe Martinez, 140-pound halfback, is the only man from the Border City who has found a berth this year. However, there are three others from the territory surrounding Del Rio, and a large number of rooters are expected to attend from the towns of Hondo and Sanderson. Chancey King, 155-pound back, and William Mask, 210-pound tackle, were members of last year's Hondo High School squad, and have made the Schreiner squad. Jansa, 221-pound tackle from Sanderson, is the other man from the country near Del Rio. He lettered on the undefeated Schreiner team last year, and this year is alternating at tackle and guard.

Dispatches from Alpine say that the Lobos are after revenge for the defeats handed them by Schreiner in their two previous games, and are more than anxious to break the Mountaineer string of victories that dates back to the Texas Fish-Schreiner game of 1925. The Sul Ross team has made impressive showings against some of the strongest teams in the State this year. Practically the same men that played against Schreiner last year, are back on the team this year, including the brilliant

Alford, who ran 76 yards for a touchdown last year, only to be called back on account of one of his men clipping a Mountaineer back.

Schreiner has seven letter men back, five from last year and two from the year before. Mueller, 150-pound back, who scored all of the points in the Sul Ross-Schreiner game last year, and his teammates, Askey, 175-pound back from Corpus Christi, are back this year. In the line, letter men who are back are: Duke, 165-pound tackle; Ramsey, 135-pound tackle, and Jansa, 221-pound tackle, and Coolidge, 192-pound guard.

Cleaning is our hobby.—**THE MODEL TAILORS.**

RATTLE OF THE RAIL.
A new time table went into effect Thursday, November 10, the only changes in passenger trains being No. 8, arriving at 9:15 a. m., and departing at 9:35 a. m., with 20 minutes at Sanderson for breakfast. Train No. 7, from the east, will arrive at 6:35 p. m., departing at 6:55 p. m., 20 minutes for supper. No. 8 formerly arrived at 9:35 a. m. and No. 7 at 8:01 p. m. Train No. 7 and No. 102 will meet here.

Engineer A. J. Kelley went to Del Rio Tuesday. Engineer H. B. Slocomb and Fireman T. H. Butler returned from El Paso Sunday, where they attended the Scottish Rite Reunion.

Fireman Fred H. Talbot and wife returned from El Paso Saturday, where he attended the Scottish Rite Reunion.

Engineer T. B. Moseley of Del Rio has been assigned to a switch engine at El Paso.

Fireman H. Bochat who has been on passenger, El Paso to Sanderson, has returned to a freight run in the Del Rio division.
