## Column Right

"Our government survive,"  
Mr. Borah, candidate for  
Republican nomination for  
senator. He answers he own  
question by saying "Only with  
vigilance can it be pre-  
served" and in a lengthy blab-  
ber holds himself up as the out-  
standing vigilante. He says we  
are faced with war, communism,  
socialism, and the Lord knows  
what else. He might add we're also  
faced with measles, mumps,  
cough, rickets and pip.  
The time Borah stacked up as  
number for the presidency  
is long past. Senility has  
taken its toll. It is just in  
time that we want to do is just in  
time—and that's why a lot of  
people would be knocked in the head.

Smelling landed in the U.  
S. this week for a go with Joe  
the Brown Bomber from  
Spain. The Dutchman states  
will "take" the nigger boy  
by his style of fighting  
made to order for the ex-  
p. Schmelling's "rep" has  
come up since he was push-  
ing for the throne, but his ego  
is so big it's optimism has. In all  
of Lewis' fights with  
time" pugs, he hasn't been  
out once—by Baer, when he  
his backed turned. Afraid  
Schmelling's flat nose is going  
to be a little flatter after June  
How ya bettin'.

White man held this week on  
charge of two Mexicans, who  
lained the road was blocked  
to lights showing. Whatever  
the merits of the case, it is report-  
ed that the white man paid off,  
or wrong we would hate to  
into a Mexican's car in hear  
and then try to get dam-  
ned. Why in Juearez New Year's  
to be in time we decided to  
shine. "How much?" we  
the little devil. "Ten cents,"  
said. We stuck out one foot  
the other. Give him a dime,  
a squawk! Walking off we  
overtaken by an officer, who  
we pay two-bits. "Why,  
did adime." The urchin then  
up and said "No, no; me no  
English." We paid.

mine cave-in in Nova Scotia  
killed three men. It was a week  
before rescuers found  
they were still alive. One died  
after communication to the  
side. If rescued or not there  
will be an investigation by  
men who will spend good tax-  
y, and in the end know not  
more than they know now  
they do in the good of U.  
after a ship or plane tra-  
vel. Everyone knows that the  
able thing to do is to make  
white collared officials do  
work in advance—that of a  
program of inspection and a  
rigid enforcement of the  
and regulations relating to  
safety. There will still be acci-  
dents, but they will be kept at a  
minimum.

Widow can't get the  
out of her system. Maybe  
can't blame her. On the eve  
of her trip to Europe she promises  
to go back to "haunt people in  
Jersey until the crime of the  
Bergh child is solved." May-  
be. The frau, by signed arti-  
cles in thrill papers, has evidently  
found a tidy sum together, and  
chances are that she will find  
an ideal in the Fatherland and  
won't be long before Richard  
will be but a memory—if  
you know.

Photograph got a godawful  
the other day—they may or  
may not recover. Jean Harlow  
entering a car, slipped and  
kicked her toe, skinned her  
toe.

Everyone who keep up with  
current doings, will admit that the  
"time" crime wave is on the  
de, and due largely to the ef-  
ficiency of J. Edgar Hoover, head of  
department of justice. His G-  
men are feared in every nook,  
and seldom a week passes but  
the jassack senator, just lets  
at Hoover ooze from his  
mouth. He's been called, Hitler,  
Lin, and Mussolini, on account  
of his "despotic" tactics. Which  
goes to prove the old saying:  
"Hell if you do, and it's more  
hell if you don't."

War in Ethiopia is our  
of taking candy away from  
baby.

## Texas History

WEEK OF APRIL 19  
1835—The legislature of Coahuila and Texas closed forever on April 21.

1836—The decisive battle of San Jacinto was fought on April 21, and Santa Anna was taken prisoner. April 22 was the first real free day in Texas. Before that time her people had merely declared their independence.

1844—Former President Van Buren states in a letter that he regarded the annexation of Texas without the consent of Mexico dishonorable. The letter was published and cost his re-nomination for the presidency.

1882—An act was passed April 22 repealing all laws granting lands to persons for the construction of railroads, canals and ditches, and the policy of extending public aid to railroads came to an end.—Texas State College for Women (CIA).

The Southern Pacific bridge across the Nueces river at Hacienda, 8 miles west of Uvalde, was virtually completed last week. Construction crews, which have been at work on the huge structure since early last fall, are now repairing and rebuilding bridges between Hacienda and Cline.

The new bridge, which is one of the longest on the S. P. between San Antonio and El Paso, replaces a temporary structure erected shortly after several spans of the old bridge and other parts of the structure were badly damaged by record flood in the Nueces last June 14th, the Uvalde Leader-News states.

"ANYTHING GOES" STARS CROONER BING CROSBY

"Anything Goes" might best be described as a musical comedy of errors. Because of a lovely girl seemingly in distress Crosby finds himself on an ocean-going liner. Friendly overtures from a would-be bad man result in his possession of a passport belonging to a public enemy. The singing star dashes madly about the boat, in a variety of disguises, eluding ship officers, romantically making love and taking time out to sing parodies with Ethel Merman, who has an unrequited crush on him.

A whirlwind chase at the dock winds up in a fervid romantic confession when a dazed mob hears Bing's whispered words of affection boom through the air through the agency of a loud speaker.

There's fun and sparkling entertainment in "Anything Goes." Bing Crosby heads the cast of "Anything Goes" which includes such popular players as Ethel Merman, Charlie Ruggles, Ida Lupino and Grace Bradford.

"SKY PARADE"

Jimmie Allen, hero of "The Air Adventures of Jimmie Allen" popular radio serial on the air, has been brought to the screen, and in his first picture, "Sky Parade," which comes to the Princess Theatre next Monday night, April 27, Jimmie adds new laurels to the fame of his radio performances.

"Sky Parade" is full of thrilling episodes of man's conquest of the air; of the transformation of flying from the early stages of dare-devil stunts, to the safe, sure and dependable force which it has now become.

The film goes back to days immediately following the World War. It carries on through historic moments in aviation, leading through the development of every improvement in aircraft, to arrive at the safe dependability of today. Every epochal flight is brought to the screen, with all its exciting thrills, as an understandable part of the story.

The supporting cast in this flying thriller includes a large number of film favorites.

"SMALL TOWN GIRL"—OK'S BIG ROAD SHOW

Janet Gaynor and Robert Taylor form a striking new screen team coming to the Princess Theatre in "Small Town Girl," next Tuesday and Wednesday, April 28 and 29. It is a picturization of the novel by Ben Ames Williams.

"Small Town Girl" presents Miss Gaynor as a New England girl who rebels at the humdrum existence of life in a little town and impetuously elopes with Taylor, a sophisticated young city doctor. The elopement precipitates a social and domestic crisis, since Taylor is engaged to a Boston society girl, and Miss Gaynor finds herself ostracized by her husband's smart friends. The story concerns her determined fight to overcome this obstacle and to win the cooling love of her bridegroom.

The picture boasts of a superb supporting cast headed by Binnie Barnes and includes Lewis Stone, Andy Devine, Elizabeth Patterson, Frank Craven, and others.

The picture is delightful entertainment and was selected by the management of the O. K. Theatres as a road attraction, the main feature in a program of 4 Units, which will provide two nights of real entertainment.

Miss Mattie Newton left last Thursday night for El Paso where she visited with friends this week.

Miss Mata Wheeler returned to her ranch home in the Rock-springs country after a visit here with Mrs. Grace Wheeler and son, Edward William.

### Current Comment

A few moments were taken on Thursday morning to present the home economics play. Maybe we aren't glad that we don't have to worry about leather hats and constantly fear slaughter of foreign governments.

The style show was a complete success, and we again wish them luck in San Angelo.

Have you noticed those three freshmen (freshwomen) talking outside the library? Maybe Mary Jane is lamenting about her featherbed or Grandma's leg might be troubling her?

Students who have been loafing and having a good time all year are just now beginning to work as this is the last six weeks they will have to prove themselves capable of being promoted to the next class.

We hear the seventh grade is putting on a play the night before the seniors' commencement exercises. We know one thing, they better vanish right afterwards because the upper classes will be looking for new freshmen.

### Sanderson Schools Given Holiday

Today has been declared a holiday for the Sanderson school because of the Trans-Prince division meeting of the Texas State Teachers' association, being held in Alpine today and tomorrow. This holiday is the fifth of the maximum number state schools observe during the year. Others have been Nov. 11, Nov. 30, Dec. 1, and April 19.

The teachers of the Sanderson schools will attend the 2-day sessions of the teachers' meeting. The regional interscholastic League contests are being held at the same time, also in Alpine.

All phases of the program for the teachers' meeting will be held on the grounds of Sul Ross college, with the exception of a barbecue which is being given this afternoon, at the Kokernot lodge, compliments of Mr. J. D. Jackson and Sul Ross college.

Dr. Alonzo F. Myers, New York University, will be the main guest speaker of the meeting. He will discuss "Education for Social Reconstruction" this afternoon.

#### GRAMMAR SCHOOL ASSEMBLY

**Vaucell Henderson**  
The rhythm band is doing nicely Miss Chaffin reports. She has been training them to play with the phonograph and under the direction of one pupil.

The fourth grade continued their nature study project and it was a great disappointment when their cocoon died. They also have a dead moth. Lately they have been studying butterflies and collecting pictures of them.

Since they have been studying Texas, the third grade have a sand table filled with cacti which the children brought from the mountains.

The second grade is making bird books. Miss Wade reports that they do well, most of them being only seven year of age.

The girls will participate in the state club meeting during this rally, most of the expenses being paid by the home economics club.

#### DAYS OF THE WEEK

Every Texan knows, or should know, that Tuesday, April was the day on which Texas won its independence from Mexico. One hundred years ago on this day, on the battleground of San Jacinto, near Houston, Gen. Sam Houston defeated the army of Santa Anna in one of the twelve decisive battles of the world. Over 1300 of the 4000 Mexican army were killed, captured or wounded while the Texans had around 30 killed or wounded.

On this day in all towns and communities of Texas all people celebrated in one way or another. It was a holiday for the banks and for most of the schools.

### MY PETS

BILLY JO CORDER

Among all the pets I have I think my dog and horse are the most interesting.

Bonus, my dog, is the most mischievous creature I have ever seen. His favorite throne for repose is in a little wagon. In the evening after I have my lesson, I play with Bonus. An old, good for nothing rag is our chief object to romp with. We go down into a former mud tank and get ready. First Bonus must have a firm hold on one end of the rag, and I must have a firm hold on the other end. Then we romp. And what a romp! We go around and around having a great time.

Bonus has a cute way of grabbing my ankle. He tries this on me when we romp. And do I get beaten!

Bud, my horse, is the other pet I'm particularly interested in. When I want to catch him it's as easy as pie. All I have to do is get a can of soda, hide a bridle behind my back and go forth. Bud sees the soda and hurries to me. Then I give him the soda, slip the bridle over his nose and presto! Bud is captured.

One day mother was out in the pasture and she came on the horse. She saw Bud and went up to pet him. While she was rubbing his nose he suddenly ripped her in the side, kicked up his heels and galloped off. I'll have to admit Bud is a terrible rascal.

My other pets are cats, but I'm not particularly fond of them. I have, all together, seven cats. They make such hideous noises. I can't stand them. When Aunt Ethel was here she said, "Oh, aren't they sweet!" Could you?

### Four From H. E. Class Attend Rally

Four students, two from the first and two from the second H. E. class will represent Sanderson at the meeting of the state Home Making Rally that is being held in San Angelo now. The rally began yesterday and continues thru tomorrow night. The students are Maxine Claitfelter and Emma Fay Harris, first year; Bessie Muesey and Helen Turner, second year.

This statewide rally is an annual event and representatives from all schools in the state that have a H. E. department will be present.

Maxine, Emma Fay, Helen and Bessie were winners of the first and second places of the study show held here last Friday night and were selected also on their scholastic standing. They left Wednesday afternoon and will return tomorrow night.

Emma Fay Harris, selected by the state supervisor, will give the toast "Response to San Angelo," at the banquet tomorrow night which concludes the meeting. Helen Turner will also give a report of the work done in this section at a meeting of the state club.

Miss Nell Kruger, instructor of the department accompanied the four girls on this trip.

### First Lady Replies Thru Secretary

Adair Edmiston, member of the first year typing class recently received an answer to a letter she had written Mrs. Franklin D. Roosevelt. Writing letter to famous people in the United States was a project recently taken up by the class. Adair received the following reply from her request:

My dear Miss Edmiston:  
Mrs. Roosevelt asks me to acknowledge your letter and to express her regret that she cannot comply with your wishes. Because of the great number of requests received from students for information and opinions on various subjects, Mrs. Roosevelt is unable to respond to them, much as she would like to do so.

Very sincerely yours,  
Malvina T. Scheider,  
Secretary to Mrs. Roosevelt.

The class wrote to Vice President John Garner, Gov. James V. Allred, Billie Burke, actress, Helen Wills Moody, tennis champion; Eddie Cantor, radio and screen comedian; Robert "Believe It or Not" Ripley, and Admiral Richard E. Byrd. The reply from Mrs. Roosevelt was the first received.

Why did Zoo and Bashful get expelled from the college? Senior play May 2.

How did Red lose his \$20 bill? Senior play, May 2.

### Senior Play Next Saturday Night

"College Cut-ups," senior play, will be staged in the high school auditorium next Saturday night, May 2. This annual play begins the commencement season at the Sanderson high school.

"College Cut-ups," a three-act comedy, is the story of two well-liked college boys who have been writing letters to a popular movie star and she comes to the college town of one of them to see Zoo Short, popular football player. From that point on the play is packed full of laughs and exciting moments that make it a lively story. There is the character of the college tailor who is always so dear to the hearts of college boys. Also the town constable, and the society woman who is patroness of the dance, and other characters that lend color to the play.

All the members of this year's graduating class have roles in the play. The play will be staged at 8 o'clock, and the proceeds will go to defray the graduating expenses of the class.

#### 6TH GRADE GEOGRAPHY

Mildred Hurst

On display in the trophy case in Sanderson high school are dolls dressed as Mexican peons, charros, matadors, china poblanas and Mexican señoritas made by the 6th grade geography class as a project in their study of Mexico.

Some of the figures are dressed dolls but the greater part are made of pipe cleaners twisted together and covered with suitable costumes. Those having dolls on display are Helen Ruth Harrell, Doris Cochran, John Hardgrave, Bernice Harris, Roberta Louchausen, Lois Lewellen, Jimmy Ware, Margaret Reed Arrington, Mack Mims, Pauline Bell, and Earline Stirman. The pupils now are working on Mexican huts.
