

Elections Set Saturday, Tuesday

mack's
tracks
-by dave

Phew! After the weekend of reviewing the recent happenings at Amarillo, we almost hate to mention the fact that we are going to have a couple of elections down here--this Saturday, and again Tuesday.

We hope this announcement doesn't cause an investigation, but, sure 'nuff, try to remember to cast your ballots in our local school board and city council elections this week.

We hate not to put our two cents worth down as to what we think of the situation in Amarillo. Since we have listened to about 124 cups of coffee worth of the situation and even sat through a Sunday school lesson which ended up on that subject--well, that's about all we know that has happened since last week.

But--Roy Joe really had things going his way there for a while and one thing we overheard concerning this blotch upon the public record really got us.

Two women were talking about the TV "entertainment" and one of the pair remarked--"... and that Knox woman! You know I wouldn't have gotten up there before those men and said what she said for anything in the world."

Have you ever thought that this type of reasoning and logic is just why such men as Roy Joe and his cohorts can get where they do?

In the first place who elects them to office?

You and me--probably because more than likely you were too busy to go to the polls and vote, and I had business out of town that day.

But--Roy Joe's "friends" didn't forget to vote--the "boys" saw to that, for they had too much at stake not to get Roy Joe or someone like him elected to office.

This one thing is why I wonder every night when I go to bed if my boys and my girl will live in a "free" nation.

I hope that they don't take things for granted like you and I.

For--mark my words--if we continue to sleep with this apathetic snore we may wake up to find ourselves in the chains of bondage, or more likely, just not wake up at all due to "fatal illness" of a cut throat.

Despite what you may think, it could happen here. It can happen anywhere where honest law-abiding citizens fail to keep their end of the bargain and cooperate with law enforcement, fail to see that law enforcement officers are paid living wages and fail to respect the law itself.

Deed Throws Kink Into Sewer Plans

A deed was the culprit that sent City Manager Albert Field to the phone Friday night to call a special city council meeting. Field discovered the city was about to trade off a piece of land that it didn't have title for a site for a new sewer plant. Present sewer plant site was purchased from Santa Fe Grain

Company for \$5.00. This was a bargain, but Santa Fe Grain Company reserved the right in the deed to take back the land if, for a period of a year, City of Friona didn't use the land in question for a

sewer plant. So--the city informed the Santa Fe Railroad, with whom they have been dickering for a land purchase east of town, and offered them \$100 per acre for the site which the city's engineer has determined best suited for the new sewage plant.

This action was discussed and approved by the council in the special session.

An answer to the query is expected from Santa Fe headquarters in Chicago within a week to 10 days.

If the deal goes through, then according to the deed, the land on which the present sewage plant is located will revert to original owners, Santa Fe Grain Company.

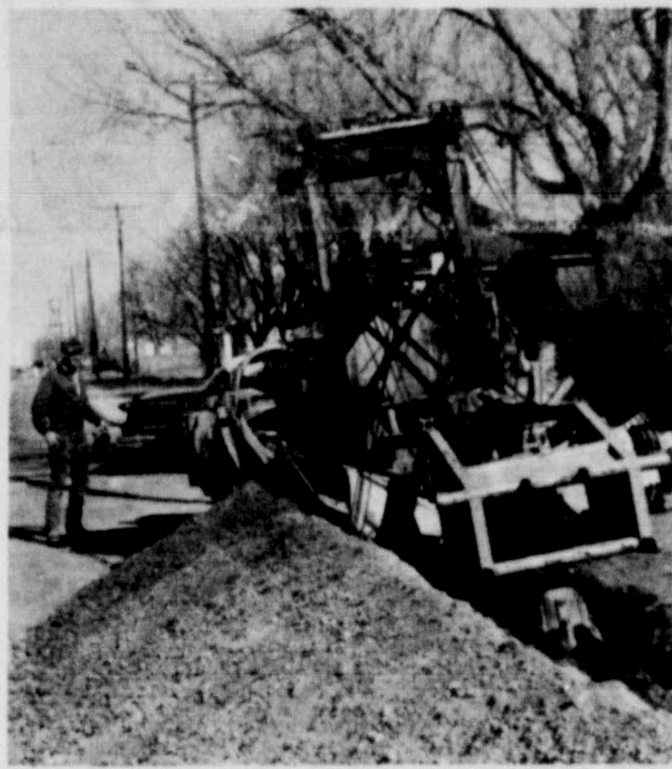

Rhea HD To Sponsor Supper

Arrangements have been completed for a barbecue supper at the Rhea parish hall at 8 p. m. Friday. Club members have planned to serve barbecue beef, hot potato salad, slaw, baked beans, onions, pickles, rolls, fruit cobbler, coffee and tea. Cotton John's film "An Arctic Adventure" will be shown. This film was made in Alaska last summer on a KGNC farm department sponsored tour of the forty-ninth state.

There will be no admission charge. Serving of the supper will begin at 8 p. m. and plates will be \$1 for adults and 75 cents for children.

ATTENTION VOLLEY BALL PLAYERS

Organizational meeting for a volley ball league for men or women has been planned for 8 p. m. Monday in the junior high school gym. Sponsors of the movement invite anyone interested in the game to attend the meeting.

DIGGING DITCHES A SPECIALTY--Workmen are shown completing one of the new ditches in Friona to serve for utility lines before the new paving program gets underway. This scene was taken in the western part of town Tuesday.

TO ENTER SANDIE RELAYS--

Chiefs Win Over Hereford, Dimmitt

Friona's track team entered a meet of 14 track and field events in Dimmitt Monday and came out on top with nine firsts and seven seconds against teams from Dimmitt and Hereford. Taking first in the 440 yard relay was the Chief's team

consisting of Floyd Reeve, Tommy Barker, Gary Bradley and Connie Ray.

In the 880 yard run, the Chiefs also took first place honors as E. C. Wilson came in first followed by Friona's Lee Gibson who took second place honors.

The high hurdles team consisting of Tommy Barker and Tom Sanders matched the 880 yard run team as they won first and second place honors with Barker winning top position and Sanders winning second.

The low hurdles didn't break the pattern as Connie Ray won first and Floyd Reeve won second to continue the winning streak for the Chiefs.

In the 100 yard dash track event Friona's Reeve won first for the locals and Connie Ray came in third.

Robert Houlette, speedy Friona freshman took second place in the 220 yard run and the mile relay teams, consisting of John Miller, Tommy Barker, Gary Bradley and Connie Ray for one team which won second, and Jackie Hight, Floyd Reeve, James Perkins and Billy Scales who won third place honors in this event.

The Chiefs copped first place honors in the mile run with Charles Ray taking first place.

The Friona team also took fourth place in this event with Robert Houlette coming in in this position.

In the broad jump event Gary Bradley took second place for the Chiefs and in the high jump event, the same Chief took first place to add another winner to the list.

In the pole vault event, Gary Bradley won another first for the Chiefs with Gary Sneed coming in third.

In the shot-put field event, Bradley again placed as he took third place honors followed by Friona's Tommy Massey who captured fourth place honors.

The Chiefs snared first place honors in the discus event as Kenneth Harrington won first with Tommy Massey coming in second.

Friday morning, the Chiefs will leave Friona early for Amarillo where they will participate in the annual Sandie Relays. These relays are sponsored by the Amarillo Globe News and will consist of over 60 teams from the Panhandle area and from cities in New Mexico.

Some of the schools that will send teams to these relays, to begin at 1 p. m. Friday, with the semi-finals and finals to be held Saturday, are the

Trustee Race Poses Hottest Local Voting

With six men running for two offices on the board of trustees for the Friona Independent School District this election may overshadow the city elections which have four men running for three positions in elections to be held April 2 (school board) and April 5 (city election).

In the trustee elections two vacancies exist, with only one

of the two men running for reelection.

D. C. Herring, who has served as president of the board during his past term of office, is seeking reelection and Hoyt Smith, the other vacancy, is not seeking reelection.

However, five other men are running for these offices and they include Noyle Wood, a farmer who lives in Friona; Herring, seeking reelection and owner of Herring Implement Co. in Friona; A. S. Grubbs, farmer from south of Friona; Wayne Garth, who farms both south and north of town; Ellis Tatum, farmer from the Black Community and Meryle Massie, farmer from south of Friona.

In the city race, Mayor R. L. Fleming and Aldermen Glenn Reeve Sr., and Eddie Meil are seeking reelection.

Mayor Fleming is running unopposed for his office while Meil and Reeve have a running mate for their two offices in Charles Scales.

Scales is manager of Kendrick Oil Co., here in Friona.

Looking at other school elections over the county Bovina has possibly the "hottest" election going with four candidates seeking two positions and two more conducting a heated write-in campaign.

The four men on the ballot at Bovina are D. R. Bushnell, Grady Sorley, J. B. Barrett and M. R. Broadman.

The two write-in candidates seeking office in the Bovina school district are Billy Marshall and Marion Carson. Bob Wilson and Wendol Christian are retiring from the two offices up for election at Bovina.

Down at Lazbuddie there are four men seeking two vacancies. These are C. W. Bradshaw, Alton Morris, E. T. Ford and T. Mayfield.

Ford and Mayfield are incumbents seeking reelection. At the county seat in Farwell five men are seeking two

positions on the trustee board there.

Bob Hart, Glenn Phillips, Clarence Johnson, Walter Kaltwasser and Clay Henson are seeking election in that district.

Kaltwasser and Henson are seeking reelections there.

In the county trustee at large election W. M. Sherley

Ken's Drive Now Open For Business

Ken's Drive In, located on East Highway 60 in Friona, is now open for business announces Kenneth Williams, proprietor.

The drive in is located in the building formerly housing Ed's Drive In which has been closed for almost a year.

Williams is no stranger to the drive in and short order business since he has owned and operated the Tasty Cream Drive In on Main Street in Friona for the past few years.

Williams says the new location is now ready to serve the cold drink and short order wishes of the public.

In addition to his Drive In business, Williams is active in local civic organizations and will be the Boss Lion of the Friona Lions Club during the coming year.

He has served that organization as vice president and tall twister in the past. In addition he is a member of the Friona Volunteer Fire Department.

Williams says he invites all his friends to drop by and visit the new location on the highway.

Warren Brooks of Friona and his wife will manage the Tasty Cream Drive In for Williams in the future.

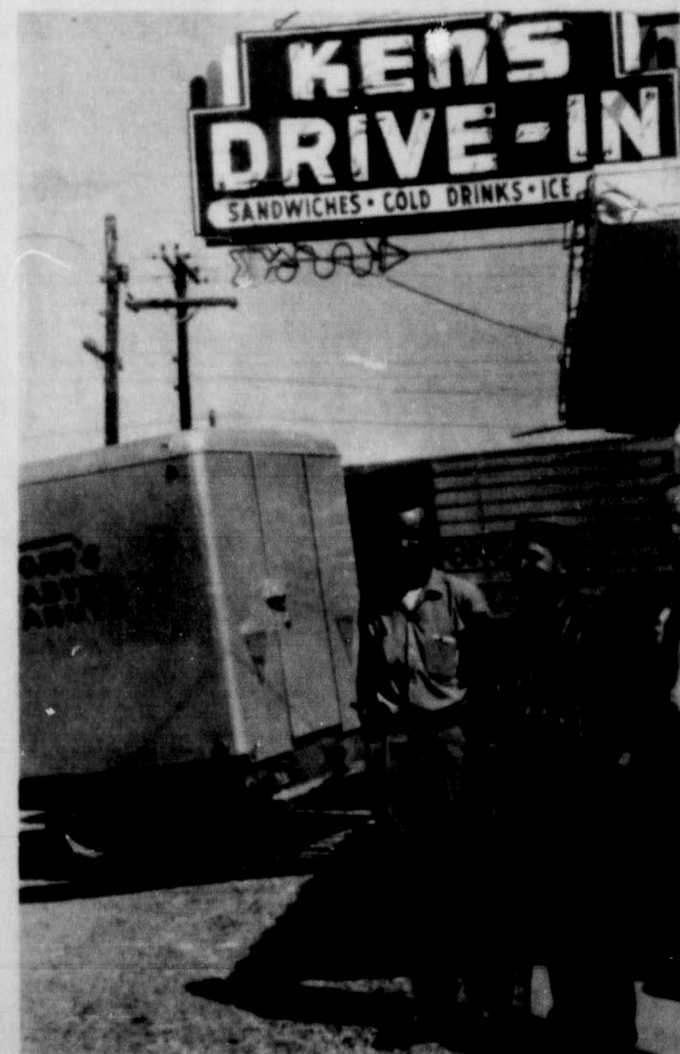

He Didn't Show Up

If you went to the city hall Saturday with the expectation of finding Lee Thompson there, ready to sell license plates, you were disappointed.

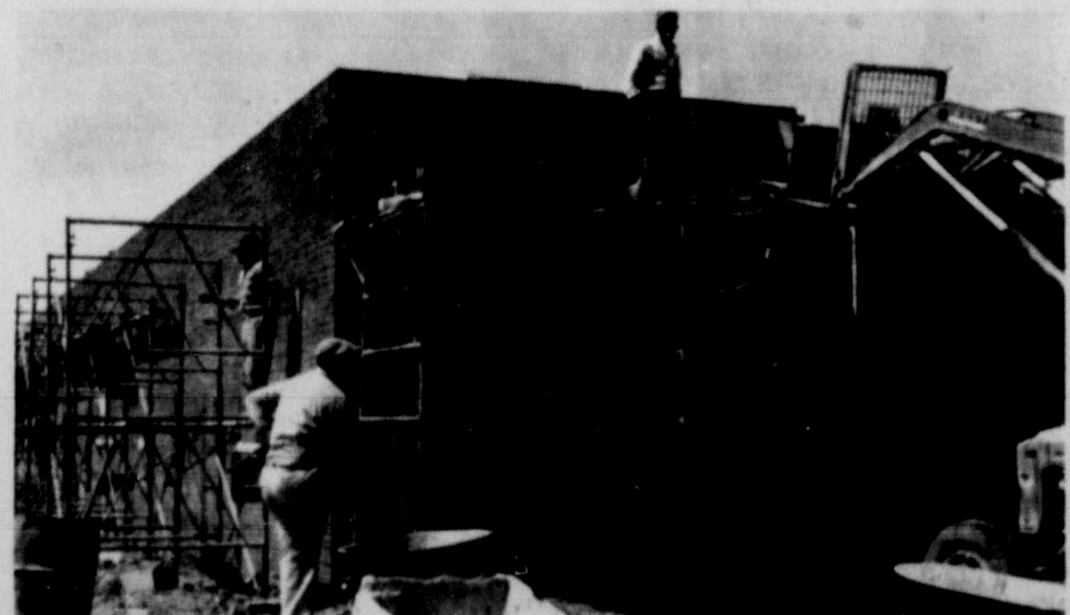

But don't get mad at the county tax man, he didn't intend to be in Friona Saturday.

A story in The Star last week said he would be on hand for this purpose, but that was a mixup. Actually, the story was written for the previous week, and did not get "killed" when it failed to appear as scheduled.

The Star is sorry for any inconvenience that may have resulted.

NEW DRIVE-IN OPEN--Kenneth Williams, center, smiles as he gets his new drive-in open on Highway 60. Shown with Williams is Leroy Dwyer, cigar salesman from Plainview, right, and Earl Evans, left, salesman for Tom's products. They were on hand to service the new drive-in in the first of the week.

BOWLING ALLEY BEGINS TAKING SHAPE--The new home of Friona Lanes is rapidly assuming shape just north of the Golden Spread Restaurant on Highway 60 in Friona. A 150x75 brick and concrete building has been erected in record time and owners Dean Bingham, Doyle Elliott and Ed Hicks say the contractors have promised to have the building ready by April 15. A meeting will be held Tuesday night in the school cafeteria to organize a City Bowling Association in connection with the new bowling alley. All enthusiasts are urged to attend.

EDITORIAL COMMENT

Prepared And Paid For By Friona Voters.

"Worst roads in the world, but this new Chevy takes all the roughness out!"

Out near Wathena, Kansas, farmer Milt Roundy tends 800 acres with only one helper—his 1960 Chevrolet pickup. The truck almost never runs on Kansas's fine state highways—in- stead it averages about 2,500 miles a month on unimproved back- country trails or on hauls into the fields, off the road. "In my book, these are the worst roads in the world," Mr. Roundy says, "but this new Chevy takes all the roughness out. It doesn't fishtail or whip around like other trucks — I can steer it with one finger!"

They're speaking right up, these owners of '60 Chevrolets. Everywhere you go, they're giving out glowing reports on a revolutionary new truck ride that leads to a bigger day's work at less expense, praising truck power that knows the most about saving money. It's Chevy's total newness they're talking about. And you'll be talking, too, once you turn a new Chevrolet loose on your money runs. Your dealer can get you started, right away!

It takes Chevy's new Torsion-Spring Ride to smooth out a road like this!

FIVE GENERATIONS OF GRIFFITHS--Ray Len McMahan, two month old son of Mr. and Mrs. Don McMahan of the Oklahoma Lane Community, is the only member of the fifth generation in the family of Mrs. Ethel J. Griffith. Pictured here with Ray Len are Neoma Rector Oldham, Mrs. Griffith, Carol Oldham McMahan and Olive Griffith Rector.

FEEDERS TOO--

Birds Are Coming; Cover Is Waiting

First shipment of quail has been ordered by Parmer County Game Management Assn. and members are busily preparing cover and shelter for the birds when they arrive, according to Al Kerby.

Kerby is president of the young organization.

County Agent Joe Jones placed

the first order. Price will be 50 cents per bird. Kerby says this is about half the price charged by quail farms.

Norvel Strawn already has some brush shelters provided for quail on his farm northeast of Bovina. Between 20 and 30 native Blue Quail inhabit the shelters.

"They are doing real well," Strawn says.

He has a feeder filled with rolled milo. Tall grass around the dry-lake bed also provides natural cover.

Kerby says many members of the organization have plans to haul brush to their pasture land for the birds.

"People who have pruned trees or cut them down around their place can get them hauled away and put to good use by calling me," Kerby said.

Kerby will assign them to a member for use as shelter.

Date of arrival for the first state-hatched birds is indefinite. Kerby says that state game warden Pat Donnelly, of Littlefield, will inspect facilities provided by members who want the birds on their place.

Strawn placed his six gallon bird feeder in one of the brush piles more than a month ago. It is now about half empty. He uses rolled milo for feed so the cost is very low, he says.

Kerby reports signs designating members' farms as part of the association have been ordered and should arrive soon.

Continue Work On Road ROW

Parmer County commissioners trudged ahead in the detailed acquisition of right-of-way for the four-lane widening of Highway 70-84 during their meeting Monday.

They approved appraised values of two tracts of land near Lariat which will be purchased to make room for the new public improvements. The county had previously employed a professional appraiser from Plainview to arrive at a value for the land. Both they and the

property owners are agreeable to the figures.

Involved is a 11-acre tract in section 18 and an 18-acre tract in section 17. They are valued at \$5070 and \$8300, respectively. Both parcels of land are parts of the Ada Middleton estate.

Precinct 1 (Friona) repaid \$4000 to the county permanent school fund which it had out on a machinery warrant. The money was borrowed to help finance purchase of a motor grader in 1957.

The court authorized Judge Loyde Brewer to advertise for bids for asphalt tile floor covering for offices on the ground floor of the courthouse. The bids will be opened April 25 when the commissioners meet.

News From RHEA

MRS. FRANKLIN BAUER

MEN'S CLUB MEETS

Rhea Mens Club met Thursday night at the Parish Hall for the regular business session and topic discussion.

The meeting was opened by Rev. Stroebel with a Scripture reading and prayer.

Walter Schueler, president, was in charge of the business session. Plans were made for family night to be held in April. The film "Parade of Roses" is being ordered for that occasion.

The topic "Your Book of Facts" was lead by Pastor Stroebel.

Franklin Bauer served refreshments of cinnamon rolls

and coffee to the group. The remainder of the evening was spent in playing 42 and cards.

Members present were Ray Martensen, Chris Goetz, Raymond Schueler, Herman Schuler, Christ Drager, Herbert Schueler, Franklin Bauer, Walter Schueler, Gilbert Schueler, and Pastor Stroebel.

Don't forget to see the film "Arctic Adventures" and eat a barbeque supper Friday night, 8 p. m. at the Parish Hall. The supper is sponsored by

The Bible Teaches ...

that the church is not a place but a people. Likewise it is never a fold but a flock. This may sound strange to you at first, but, when you consider that Jesus purchased the church with His blood (Acts 20:28) it is clearly not a building in which he is interested. It is the people who have an eternal spirit.

The Church is never a sacred building but the assembly of born-again children of God. It is the Christians who pray not the place where prayer is made.

In Biblical usage the building can no more be the church than your clothing can be you. "For ye were bought with a price: glorify God therefore in your body." (1 Corinthians 6:20)

Sixth Street Church of Christ

Friona Texas

Chief Warns Throwing Water Is Dangerous

Throwing water-filled balloon bombs resulted in one broken windshield and one cut arm Sunday afternoon of last week according to reports from the Friona Police Department.

"I hope that this has taught a lesson already, but if it hasn't we'll file on anyone caught throwing water bombs at cars in the future," warned Police Chief Ben Moorman this week.

It was all done in fun, but the balloons filled with water cracked several windshields and one girl was treated for a cut forearm following a series of balloon fights Sunday, Moorman says.

No damage was reported to building or property other than several cars.

Collum Gets 2 Years

E. J. Collum, 29-year-old Gainesville man, was sentenced to two years in the state penitentiary by District Judge E. A. Bills Monday.

Collum has previously pled guilty to a charge of removing mortgaged property, but his sentence was deferred until this week. He took the car from Friona Motors last July.

Sheriff Charles Lovelace will probably take Collum to Huntsville one day this week. Other charges await the man at Sherman when he finishes his stay at the pen.

Ben Finch, 53, Bovina, was fined \$23.50 by Judge J. Roy Thornton Monday. The Bovina man was arrested at his home Saturday night on the complaint of his wife, and was charged with drunken disturbance. He pled guilty.

Donald W. Armstrong, 23, Muleshoe, was cited for driving with defective brakes and expired vehicle registration by state highway patrolman John Bentley Friday.

This was after a minor collision near the intersection of Third Street and Avenue A in Farwell. His pickup truck struck the rear of a car driven by Mrs. Loyd Routon.

Judge Roy Thornton will likely hear the case in his JP court next week.

the Rhea H. D. club. On the menu is barbeque beef, hot potato salad, slaw, baked beans, pickles, onions, bread, cobbler and all the tea or coffee you want. No one will leave hungry. Charges are adults \$1.00, children under 12 seventy-five cents. We will begin serving at 8:00 and serve as you come.

Mrs. Walter Schueler attended the "Drapery Workshop" held at Friona Legion Hall Thursday. The workshop was sponsored by the H. D. Clubs.

Mrs. Raymond Schueler, Mrs. Ray Martensen, Mrs. Walter Schueler and Mrs. Herbert Schueler attended services at Amarillo Christ Lutheran Church Sunday morning. In the

afternoon they attended the Workshop at Pampa sponsored by the Lutheran Women's Missionary League.

Guests in the Jack Patterson home Saturday night for a quail supper were Mr. and Mrs. Ben Moorman and daughters and Mr. and Mrs. Dave McReynolds and family all of Friona.

Sunday dinner guests in the Patterson home were Mr. and Mrs. Cordie Potts and Jay, also Gretta Mears. Mr. and Mrs. Claud Mears visited later in the day.

Linda Estep, daughter of Mr. and Mrs. Ben Estep, returned to school Tuesday. Linda has been absent with infectious hepatitis.

Mrs. Northcutt of Hereford

visited Sunday in the Richard Vaughn home.

Sunday guests in the home of Mr. and Mrs. E. H. Cummings were Mr. and Mrs. E. T. Cummings of Canyon, Mr. and Mrs. M. M. Smitherman of Hart and Mr. and Mrs. J. D. Cates and daughters, Deann and Garma, of Lubbock. Mrs. Smitherman, Mrs. Cates, E. H. Cummings and E. T. Cummings are brothers and sisters.

Hear about the beatnik girl who is engaged to be married? Instead of just getting a shower, she's taking one.

THOUGHT FOR THE WEEK

LENT OR NO LENT

There is nothing in scripture that commands Christians to observe times of special observances or emphasis except with reference to the keeping the Sabbath (or Lord's Day) as holy.

Some churches or religious sects do not even observe Christmas or Easter as special religious days. This is really a matter of personal interpretation or desire.

The season of Lent (40 days preceding Easter) was set aside by some of the very early churches as a time of self-denial, self-examination and self-dedication. Regardless of a Christian's beliefs, LENT OR NO LENT, the approach of spring with its renewal of life and the nearness of the anniversary of our Lord's death and resurrection affords us a good atmosphere for self-examination. Am I deserving of Christ who died for me and now lives for me?

NOTICE

Notice to all owners, claimants, or parties interested in any property abutting on portions of streets and avenues hereinafter mentioned in City of Friona, Texas.

The City Council of the City of Friona has ordered the improvements by grading, placing curb and gutter, caliche base and triple asphalt surface on the following portions of streets or avenues in Friona and has entered into a contract with J. R. Fanning for construction of such improvements. The portions of said streets and avenues to be improved together with the cost amounts per front foot proposed to be assessed against the abutting property and the owners are as follows:

Unit No. 1-60 consists of streets to be paved 31 feet in width and is divided into 9 sub-units, the amounts proposed to be assessed against front abutting property and the owners thereof is \$4.00 per front foot for all improvements including curb and gutter, and against side abutting property and the owners thereof \$3.60 per front foot for all improvements including curb and gutter. The total property owners cost in this unit is \$8,052.00; the total City's cost is \$1,157.39; total cost of this unit \$9,209.39. The street comprising Unit No. 4-60 is as follows:

- Washington Ave.--From N. P. L. 5th St., To S. P. L. 7th St. The City Council has ordered a hearing on 2nd April, 1960, at 2:30 (P. M.) at the City Hall in Friona, Texas, concerning the above improvements and all interested parties are invited to appear and express their approval or objection to the proposed improvements and the assessments therefor.

/s/ R. L. Fleming Attest /s/ Albert L. Field

CITATION BY PUBLICATION

THE STATE OF TEXAS

TO: R. L. Browning and her husband, J. T. Browning, George G. Wright, Sarah Fallwell, a widow, Beulah Booker and her husband, Jeff Booker, Glenn Ray Fallwell, La Nora McElroy and her husband, O. T. McElroy, Jimmie Sue Brooks and her husband, Warren Brooks, Thoma Lou Boeckman and her husband, Joe Boeckman, Edna Lunsford and her husband, Nelson Lunsford, and should any of the above named defendants be deceased, then their unknown heirs, assigns and legal representatives, Defendants, GREETING:

You are hereby commanded to appear by filing a written answer to the Plaintiff's Petition at or before ten o'clock A. M. of the first Monday after the expiration of forty-two days from the date of issuance of this citation, same being Monday the 2nd day of May, 1960, at or before ten o'clock A. M. before the Honorable District Court of Parmer County, Texas, at the Court House of said County in Farwell, Texas.

Said Plaintiff's Petition was filed in said court, on the 23rd day of July, A. D. 1959, in this cause, numbered 2059 on the docket of said court, and styled, FRIONA WHEAT GROWERS, Inc., Plaintiff, vs R. L. BROWNING, ET AL, Defendants.

The names of the parties to the cause are as follows: Friona Wheat Growers, Inc., a corporation, is Plaintiff, and R. L. Browning and her husband, J. T. Browning, George G. Wright, Sarah Fallwell, a widow, Beulah Booker and her husband, Jeff Booker, Buddy Fallwell, Joe Fallwell, Glenn Ray Fallwell, La Nora McElroy and her husband O. T. McElroy, Jimmie Sue Brooks and her husband, Warren Brooks, Thoma Lou Boeckman and her husband, Joe Boeckman, Edna Lunsford and her husband, Nelson Lunsford, and should any of the above named defendants be deceased, then their unknown heirs, assigns and legal representatives, and R. B. George Investments, Inc., a corporation, are Defendants. A brief statement of the nature of this suit is as follows, to-wit:

Suit in trespass to try title, Plaintiff alleging that on or about July 1, 1959, it was and still is the owner in fee simple of Lot 4, of Block 79; Lots 1, 2, 3, 4, 5, 6, and 7, of Block 29; and Lots 1, 2, 3, and 4, of Block 98, all of the Original Town of Friona, Parmer County, Texas, and that the Defendants entered thereon and dispossessed Plaintiff thereof and withhold possession from Plaintiff; and Plaintiff further pleads and invokes the 10-year statute of limitations as same applies to land titles in the State of Texas, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved. The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issue and given under my hand and Seal of said Court, at office in Farwell, Texas, this 18th day of March, A. D. 1960.

Attest: Hugh Moseley, Clerk, District Court, Parmer County, Texas (SEAL)

25-4tc CITY OF FRIONA Friona, Texas March 8, 1960

NOTICE OF PUBLIC HEARING

Notice is hereby given all property owners within the City limits of the City of Friona, Texas, and to all other interested persons as provided by law and Section 24 of Ordinance No. 118 of the City of Friona, Texas, that the City Council of the City of Friona, Texas, will hold a public hearing on the 4th day of April, 1960 at 7:30 p. m. in the City Hall in Friona, Texas to consider amending Zoning Ordinance No. 118, presented to the City Council by and approved by the Planning and Zoning Commission of the City of Friona, Texas, and said proposed amendment proposes that all of Lots 3, 4, 5, 6, 7, and 8 in Block 86; Lots 7, 8, 9, and 10 in Block 85; Lots 7 through 12, inclusive in Block 94; and All of Block 93, Original Town Addition to the City of Friona, Parmer County, Texas, be changed from a "C" to an "F" Zone, and that this notice is particularly to all owners of the property described above and to all owners of property within 200 feet of said property in all directions and that all property owners in the City of Friona, and all interested persons will be given an opportunity to be heard.

Pupils Admire Adhesiveness

Have you ever heard of stick-to-itiveness? If you think there's no such word in the English language then look it up. It means that which sticks resolutely or unswervingly as to a task, purpose, etc.

O. K. now you know what it is, do you have it? Do you have the habit of saying, "Oh, these are too hard, I don't know how to do this kind of problem," when you come to some problem or question you don't know the answer to right away? Don't give up, think about it a little while, then if you don't see the answer, experiment a little you might find an easy solution to your problem that way.

This not only applies to school work, but everything you do. If you start to do something and run into difficulty, keep trying. Remember nothing is impossible, don't go by the modern version of an old saying, or this: if at first you don't succeed--give up, but go by the old version of the saying: if at first you don't succeed--try, try again. When you reach the point where something seems impossible, stop and forget about it and for a little while, not permanently but just a little while--then start all over again. Whatever you were trying to do will probably seem easier.

One thing to remember when doing anything that requires hard work, either mentally or physically, don't try to finish in five minutes something that normally takes half an hour. Take your time and do the best you can, even if it's not perfect. Another thing to remember is that nobody can do two things at once, no matter how intelligent he or she is.--Central High School Scout, Muskogee, Okla.

Batons To Whirl Students View One-Act Play

BY BRENDA DEATON

Which of these pretty misses will be the new 1961 twirler for the Friona High School Band? Mikie Welch, Linda Castleberry, Iva Parr and Patricia Fallwell are the four girls trying out for majorette.

Tryouts will be held April 5 in the high school gymnasium. Judges are to be chosen by Frank Smith, band director. The girls will be judged on smile, poise, grace and fundamentals in their routines.

Friona's entry in the one-act play will be presented in Canyon at 11:10 on April 9th. The play, DUST OF THE ROAD, is about a man who has a struggle with his conscience. The play was presented Wednesday to the students of Friona High School. They enjoyed it immensely. Tonight at P. T. A. the one-act play cast will again present their play to the P. T. A. ers.

Juniors Present Variety Show

REPRESENTING FRIONA--These students will travel to Amarillo next week. They are delegates to the S. F. C. They are Bob Sanders, Robert Houlette, Beth Akens, Kay Struve, and their sponsor Mr. Cook.

Catastrophe Strikes FHS

Bulletin! The students of Friona High School are sorry to hear the news concerning the recent draft notices received by Mr. James Van Wilson and Mr. Frank Smith. The draft notices stated both men were to report for basic training at Fort Bliss, Texas, May 23, 1960.

Wilson has taught history in Friona High School this past year. Wilson, after receiving his BA degree at West Texas State College, came to Friona in August 1959.

Smith is director of the music department in the Friona Public Schools. Smith is greatly disturbed by the news of his being drafted. He had made previous plans to attend a university in the north in order to obtain his DM degree.

Plans are being made by Mr. Cook and Mr. Farr to acquire

SFC Discusses Platter Player

BY BRENDA DEATON

Let's have jive with our vitamins! The question of having a juke box in the school cafeteria was discussed during the last SFC meeting Wednesday, March 23.

Max Reeve, who has been working on getting a juke box, gave a report on what he has done and what could be done. The topics of prices and getting good records were also discussed by the members. It was decided that as four representatives from FHS are going to the state SFC meeting they could possibly get some information on juke boxes at that

substitute teachers to give final examinations for the recent draftees.

APRIL FOOL

To Feature Local Talent

BY JANETTE JOHNSON

Fairy tales and local talent! The annual Junior Variety Show is scheduled for the night of April Fools, Friday, April 1, at 8:00 p. m. in the high school auditorium. Although the night may be buzzing with tricks, the quality of the talent is no joke.

The talent has been assembled (as the story goes) to cheer a very sad boy and raise his thoughts from the low level of his own troubles to the glorious realm of living song and dance. As a result, not only the sad-eyed boy, but also the audience will be thoroughly entertained.

The program committee, headed by Suzanne Taylor under the direction of the junior class sponsors--Jay Wilson, Jo Eddy Scott, and Billy Bob Adams--have worked endlessly in selecting excellent local talent as entertainers on the program. Other members of the committee and Neida Douglas, Celia Weatherly, Dean Nazworth, and

time. Come on students and back the SFC all the way!

FTA To Raise Money

Money is the good word! In the next meeting of the FTA the main topic of discussion will be a way to raise money. This meeting will be held Friday, April 1. A candy sale has been suggested as a means of raising money.

Mrs. Rowlett, sponsor of the FTA, says that the organization is in desperate need of money, but she feels certain that the members will meet their needs and goals.

Winette Beaton. ADDED ATTRACTION! After the last curtain, signifying the end of the variety show, a pie auction will be held, adding funds to the junior treasury for their many projects. Tickets for the show may be obtained from any junior or upon entering the auditorium the night of the program at the following rates: Adults--75¢, Students--50¢. Don't miss seeing and hearing the excellent talent performing on the show!

Longhorns Roll Up Easy Track Win

Lazbuddie triumphed over 20 South Plains teams in all class B invitational track meet at Levelland Saturday. The Lazbuddie Longhorns, led by Derrell Jennings romped to victory over 20 other teams in the first annual South Plains Track and Field Meet at Levelland Saturday afternoon. All times and distances for the meet, which is the only all class B meet in the area, were marked up as records.

Jennings was nosed out for high point honors by Wellman's Jimmy Goza. Goza racked up 30 2/3 points. 2/3 more points than Jennings had.

Lazbuddie walked away with the meet in easy style, scoring 106 2/3 points while runner-up Ropesville was a distant second with 75 3-7. Wellman, with the aid of Goza, came in third with 61 points.

Jennings captured first places in all three of his events. He won the 120-yard high hurdles

Chiefs Win-

(Continued from page 1) Amarillo schools, Littlefield, Hereford, Muleshoe, White Deer, Floydada, and all the Chief's district schools, including Dimmitt, Tulia, Dalhart and Canyon.

There will be two divisions entered in the meet, one for the larger schools and one for the schools the size of Friona.

Head Coach Earl Smith, in an interview with the Star, said the Chiefs had plenty of want to but that they were not too fast.

"I feel like we will qualify in some of the events, and that we are strongest in our pole vaulting and high hurdles.

"However, we are going mostly for experience, and the Sandie Relays is the place to get this experience."

The track and fields events are to be held in the Amarillo High School stadium. The Chiefs will return to Friona Friday after the days events and will return to Amarillo early Saturday morning to complete the meet.

in 15.9, the 180-yard lows in 21.1, and the high jump with a 6.0 leap.

It was a perfect day for track and coaches of the area Class B schools plan to make this meet an annual affair with the meet scheduled every year on the fourth weekend in March.

The meet is sponsored by the South Plains Junior College at Levelland.

Trax-

(Continued from page 1) at Rhea Community are going to have a feed and show Cotton John's film on Alaska.

So Friday night is full of things to go to for entertainment.

Pore Joe Jones! We know you are acquainted with our county agent who we are referring to.

Well, somehow, through carelessness or sumpin' we referred to young Bobby Redwine, who had the Grand Champion steer at the Parmer County Junior Livestock Show as an FFA boy, and Joe has informed us that Bobby is a 4-H Club boy.

We hope that we haven't placed Joe in too much ridicule by this misstatement, for no harm or malice was meant. But for the record, Bobby is a member of Lazbuddie 4-H Club, and we hope he and Joe will accept our apologies.

Elections-

(Continued from page 1) of Lazbuddie is seeking reelection to that office. He is unopposed and his is the only vacancy on the county board this year.

Other members of the board are J. L. Shaffer of Friona; Joe Wilson of Bovina; Clyde Magness of Farwell and Matt Jesko of Lazbuddie.

Office Manager: "You're late. You should have been here at 8:30."

New Steno: "Why, what happened?"

Farwell Lions Guests Of Locals

Nine members of the Texico-Farwell Lions Club were guests of the Friona Lions at their regular meeting last Thursday. The visitors included Cary Joe Magness, J. H. McDonald, Otis Huggins, Woodrow Lovelace, Lenton Pool, Joe Helton, Elmer Teel, John Getz and their Boss Lion Hershel Harding.

"We hated that our program was cut short for our visitors," says Friona Boss Lion George Jones, "but as the ladies serving the meal had to attend the style show immediately following the meeting we had to cut our program down."

A total of 48 Lions and guests were present.

Students To Attend Convention

Four students of Friona High School, representing the Student-Faculty Congress and accompanied by Raymond Cook, high school principal, will attend a two-day state convention at Palo Duro High School in Amarillo this weekend.

Students making the trip include Bob Sanders and Kay Struve, next year's student body president and vice president, respectively, and Robert Houlette and Adabeth Akens, elected from the student body.

This group will lead two discussion groups at the convention, one Friday morning and another Friday afternoon.

Outstanding speakers from over the state will be on hand for the two-day convention.

Nothing will ruin the country if the people themselves will undertake its safety; and nothing can save it if they leave that safety in any hands but their own.--Daniel Webster

Personal liberty is the right to act without interference within the limits of the law.--J. Oerter.

Lions Musical Plans Enter Last Week

Final plans and preparations face members of the Friona Lions Club with only a week to go before the club's annual Spring presentation. Date of the show is Friday, April 8, 8 p. m. in the high school auditorium.

This year will be a deviation from the minstrels and Judge Roy Bean productions of the past few years, says Danny Bainum, co-chairman of the

direction committee. This year's presentation will be built around local talent with brief comedy skits between the main billings, he says.

Several fine local entertainment groups and individuals have been secured for the Lions extravaganza this year including the Trebelaires, Betty Hawkins from Bovina, Earl Smith and his pantomime, and many others in addition to a

chorus line of the famed Boopie Daisy Girls.

As many local residents will recall the Boopie Daisy girls is a group composed of several local businessmen and individuals.

Tickets are now on sale at most of the downtown stores in Friona and from individual Lions. Prices of the duets are \$1 for adults and 50 cents for the students.

Frionans Attend Funeral

Funeral services for Mrs. Orilla Douthit, 65, of Briscoe, who died at Northwest Texas Hospital in Amarillo at 7:15 p. m. Thursday after a long illness, were conducted at the Briscoe Methodist Church at 3 p. m. Sunday.

Mrs. Douthit assisted Clifford Hogue in the operation of a grocery store at Hub a few years ago. She was the aunt of Mrs. Kenneth O'Brian, Mrs. Russel O'Brian and Mrs. James W. Cunningham.

Those from Friona attending the services were Mr. and Mrs. Kenneth O'Brian, Mr. and Mrs. Russell O'Brian, Mr. and Mrs. James W. Cunningham and Mrs. Burke Hand.

Burial was in the Wheeler cemetery.

PUBLIC NOTICE

Notice is hereby given that the partnership between Roy Wilson and H. Freeman Blaylock, under the firm name of Wilson Appliance Service, was dissolved on the 29th day of February, 1960. All debts due to the said partnership are to be paid and those due from the same discharged, at 512 Main Street, P. O. Box 614, Friona, Parmer County, Texas, where a business will be operated by H. Freeman Blaylock under the firm name of Friona T. V. Lab.

Roy Wilson has opened and is operating a business under the firm name of Wilson Electric Service whose address is 302 East Seventh Street, Friona, Parmer County, Texas. The Wilson Electric Service and the Friona T. V. Lab. are two separate distinct businesses, and are in no way connected with each other.

A Tribute To Our Neighbors!

Storekeepers, we think, are entirely too modest. They serve you and your family faithfully every day. Yet how often do you remember their importance in your life? The merchant is a businessman. He must carry a heavy investment. He must own his building or pay rent for it. There are clerks and salespeople to pay. And a constantly-changing display of food or merchandise of some kind. The merchant must always make you think that "the customer is always right." Which isn't always true. So remember the trials and tribulations of your grocer, cleaner, department store merchant, etc. And give them the fairness they deserve!

PROGRESSIVE STUDY CLUB COMMUNITY SERVICE COMMITTEE--Work of this committee was in evidence at club meetings and in the community, as well as the convention. Pictured here are Phyllis Anderson, Joy Lindeman, chairman, Pat Nichols and Sarah Barber. One member of the committee, Winifred Hurst, was not present when the picture was made.

MAKING YEARBOOKS RUNS INTO WORK--Covers of the Progressive Study Club yearbooks were decorated with multi-colored silk screening. In addition to preparing the material for the books, these committee members, Ann Osborn, chairman, Juanez Green, Mary Bayousett, Gloria LeVeque and Martha Mae Pruett, not pictured, made the covers.

SWEEPSTAKES WON BY FRIONANS--In the club ethics essay contest only two places are given. These were won by two Frionans. Lucille Latta of the Modern Study Club, left, won second place. First place went to Shirley McReynolds of the Progressive Study Club, right.

Of Interest To THE WOMEN

THURSDAY, MARCH 31, 1960 THE FRIONA STAR SECTION II

Friona's Federated Women's Clubs Make Enviably Record at Lubbock

In formal ceremonies at the Seventh District Federated Clubs convention in Lubbock representatives of federated clubs in Friona received a number of awards.

In the American Home Department the Modern Study Club won second in the over all division and first in the religious division. The report, which was read by Rhea Foster, won first in the club activities department.

Second place winner in the Vogue pattern contest was Ethel Ruth Spring, who modeled an ensemble she made that won first in the local contest.

Convention delegate was Vera Bainum. Doris Hall was the alternate. Other members attending were Ilene Osborn, Gerry Taylor, Lucille Latta,

Eufaula Ethridge, Willard Stewart, Ethel Ruth Spring and Rhea Foster.

Topping the awards won by the Progressive Study Club were two places in the conservation of natural resources department. The first place award was in the water and soils division. These awards were based on a report of the activities of A. L. Black as a soil and water conservationist.

In the American Home Department this club won a second place in family life and a second place in consumers. Four awards were won in public and community affairs. The first place award in community affairs was in the community improvement division and the second place award was in the mental health division.

In the public affairs department

this group brought home a second place award in the safety division and a special award in the citizenship division.

The only individual award was a first place to Shirley McReynolds in the club ethics essay contest. Second place in this contest went to Lucille Latta, president of the Modern Study Club.

Lunell Horton, president and poet laureate of the club, prepared the club report in the form of a poem. This report won first place in this department.

The yearbook won a third place. Theme of the yearbook was "A Challenging Kaleidoscope." Mrs. Horton summed up the year's work of the club in the concluding verse of the poem, which follows: "We want you to know we're

proud as can be Of our club year and hope you agree

We have lots of fun, companionship, too And we work hard and enjoy all that we do."

Progressive Study Club members who attended the convention were Ann Spring, Shirley McReynolds, Geneva Riehmeyer, Pat Nichols, Sarah Barber, delegate, and Beegie Ginsburg, alternate delegate.

Friona Woman's Club delegates attending were Mrs. Roy Slagle and Mrs. Wesley Hardesty. Others attending were Mesdames Carl Maurer, Leo McLellan, A. H. Boatman and Pearl Kinsley;

Also Mrs. C. W. Dixon and Mrs. Gage Knox, members of the board of directors of the Seventh District.

FIRST IN FRIONA, SECOND IN DISTRICT--This gray plaid silk costume, made and modeled by Ethel Ruth Spring, placed first in the Vogue pattern contest in Friona and second in district competition.

MODERN STUDY CLUB PROGRAM COMMITTEE--Presentation of programs on a religious theme was planned and executed by this committee. As a result of this planning the club received the first place award in the religious division of the American home department. Pictured here are (Standing) Valoris Osborn, Mary Kate Zeman, Decimae Beene and Gerry Taylor. Seated: Lucille Latta, president, and Rhea Foster, program chairman.

READS PRIZE WINNING REPORT--A report read by Rhea Foster at the Seventh District Federated Clubs convention at Lubbock placed first in the club activities division of the American home department.

MISS ALICE GORDON

Alice Gordon Plans April 15 Wedding

Mr. and Mrs. Bert Gordon of Route 3, Muleshoe, have announced the engagement and approaching marriage of their daughter, Alice, to Jimmy Laux, son of Mr. and Mrs. Leo Laux, also of Muleshoe.

Wedding vows for the couple will be read in the Gordon home April 15 by Rev. Bill Curry, pastor of the First Baptist Church at Lazbuddie.

The Gordons were residents of the Hub community several years before moving to the Lazbuddie community.

Ann Osborn Presents "A Search For Safety"

Highlighting the regular business and social meeting of the Fidelis Sunday School class of the First Baptist Church at the church Thursday evening was a devotional entitled, "A Search For Safety." She enlarged upon the idea, "Train up a child in the way he should go; and when he is old, he will not depart from it." (Proverbs 22:6)

Ann Osborn, Betty Castleberry, Glenda Adkins, Peggy Monroe and Katy Osborn, teacher.

Floyd Crumes Visit Here

Mr. and Mrs. Floyd Crume Jr. of Pampa, former Friona residents, were weekend visitors in the homes of Mr. and Mrs. Jim Cocannouer, Mayor and Mrs. Raymond Fleming and other friends.

Sunday dinner guests in the Cocannouer home were the Crumes, Flemings and O. D. Fleming of Monte Vista, Colo., father of the mayor. Mrs. Crume is the daughter of the Cocannouers.

Party Honors Terry Carroll

Mrs. Velden Carroll honored her son, Terry, with a birthday party in the family home west of town Saturday in observance of his first birthday. Refreshments of cake and ice cream were served to Mrs. Richard Adkins and Glenn, Mrs. Jimmy Maynard and Son, Mrs. Dale Williams and Tammy, Mrs. Dale Hart, Kareen and Holly, Mrs. Ira Holt, Reba and Glenna, Mrs. J. T. Carroll and Mrs. John Wright.

Mr. and Mrs. G. E. Shackelford and children of Perryton were weekend guests in the home of Mr. and Mrs. Bert Shackelford.

Mrs. Rosa Anderson has been dismissed from the Parmer County Community Hospital where she had been a patient after being moved from St. Anthony's Hospital in Amarillo, where she underwent surgery following a fall.

Sunday guests in the home of Mr. and Mrs. Doyle Cummings and children were Mr. and Mrs. C. A. Cassidy and Beverly of Farwell. The Cassidys are parents of Mrs. Cummings.

Mrs. A. H. Gentry of Dallas, mother of Mrs. Flake Barber, plans to return home late this week after spending two weeks visiting in the Barber home.

LLL Class Meets In Charles Allen Home

The regular monthly business and social meeting of the LLL Sunday School Class of the First Baptist Church was held in the new home of Mr. and Mrs. Charles Allen Friday evening. Mrs. Allen is the teacher of the class.

Following a tour of the house and presentation of a gift to the couple the evening was spent playing games. Host couples were the Allens and Mr. and Mrs. David Smith.

Special guests were Mr. and Mrs. Claude Osborn and Mr. and Mrs. Glynn Don Hughes. Others present were Mr. and Mrs. James Stevens, Mr. and Mrs. Ronny Ferguson, Mr. and Mrs. Charles Sanders, and Mr. and Mrs. Jerry Maynard.

Also Mr. and Mrs. Doyle Barnett, Mr. and Mrs. Kenneth Strickland, Mr. and Mrs. Merritt Brooks and Mr. and Mrs. Joe Lewellen.

Refreshments of pie, coffee, hot chocolate, nuts and mints were served.

ing the neighbors will not be a part of their move.

Does anyone want a cocker spaniel dog? Friends of ours have some they would like to give to someone who would give them a good home.

Friona residents will have the opportunity to see a lot of home grown talent in the very near future. The Junior class is sponsoring a Variety Show to be presented Friday evening.

Then on April 8 local Lions will present another Variety Show. Everyone who has ever seen Red McFarland, Wes Long, Dr. Paul Spring and other members of the Boopsie Daisie Girls chorus line perform should be on hand to see the 1960 show.

Friona homemakers who are busy with spring housecleaning should keep in mind the fact that often discarded items can be turned into ready cash. Instead of storing no longer used pieces of furniture, call 2291 and list them in our classified column. Chances are someone else would be glad to take them off your hands.

Anyone having a used playpen for sale is asked to call the Star office.

Besides being able to bowl at home soon, Friona residents interested in playing volley ball will have no trouble finding opponents if they will attend the organizational meeting in the junior high gymnasium Monday evening.

Listening to reports made by club members who attended the convention at Lubbock Tuesday and Wednesday of last week was informative as well as interesting. Everyone with whom we talked agreed that Mrs. Ivy Baker Priest was a very charming person in addition to being a good speaker.

One delegate expressed her impression of Mrs. Priest in these words, "Just use an adjective you know and it will aptly describe her."

Another person that attracted the attention of many convention goers was Mrs. Frank A. Spring of Friona. In the line up at the reception for Mrs. Priest much favorable comment on Mrs. Spring's attractive appearance was heard by other Frionans.

Mr. and Mrs. Ray Dean Fleming were Sunday guests in the home of Mr. and Mrs. Don Reeve of Amarillo.

Octogenarian To Be Honored

Mrs. Rosa Anderson, who will observe her 80th birthday Saturday, will be honored with open house in her home Sunday from 2 to 5 p. m. Hosts will be her children and members of the family.

Mrs. Anderson moved to Parmer County from Wheeler County in 1929 and lived on a farm northwest of town several years before moving to Friona.

No formal invitations are being mailed, but all friends of Mrs. Anderson are invited to attend the birthday party.

Cordelia Parr Has Party

Mrs. R. W. Parr honored her daughter, Cordelia, with a party in observance of her fifteenth birthday Saturday afternoon. She was assisted by Mrs. W. E. Smith.

After a game session, refreshments of ice cream, punch and cake were served. Those present and sending gifts were Sharon Reeve, Karyl Williams, Wilene Baxter, Patsy Skaggs, Brenda Deaton, Mary and Martha Knight and Carla Turner.

Two Frionans Seek Degrees

Included in the 300 students seeking degrees from West Texas State College at commencement exercises May 22 according to an announcement made recently by Dr. Walter H. Juniper, dean of the college, are two Frionans.

Gerald Gene Neel, son of Mr. and Mrs. Otis Neel of the Hub community, is seeking a bachelor of science degree in math. He is a member of the student education association and vice-president of the student senate. He was also president of his junior class.

Melba Williams Neel, wife of DeWayne Neel and a graduate of Plainview High School, is seeking a bachelor of science degree in home economics. She completed requirements for her degree at mid term.

The DeWayne Neels are presently living in Lubbock where he is teaching and she is doing substitute teaching.

in and around FRIONA

WITH JUNE

All of us should have had out-of-state visitors the past weekend. It has been a long time since we've had so many pretty sunny days with almost no wind.

Panhandle weather in the spring would have been talked far and wide if everyone could have had guests from other places.

Sure signs of spring in And Around Friona Monday morning were: J. H. Wise working in his flower garden; Glenda Reeve riding her tricycle with a doll in her arms and a red purse hanging on the handle bar; and pansies blooming in the front flower bed at the Frank Truitt home.

Also yellow jonquils blooming in the yards of the Ed Boggess and Dan Lacey homes; irrigation motors humming; farm-

ers rushing around getting spring plowing started; and small sunburned faces just about anywhere you saw children.

In the very near future the Andy Hurst is moving into their newly constructed home on West Fifth Street. Moving should become second nature with Andy. At the present time new fixtures are being installed in the store and it seems as if every time a new fixture is added numerous items must be moved.

Tom, Betty and Jeanine Jarboe plan to move into the house being vacated by Andy, Winifred and children. Since the Hurst's new home is near the house they now occupy, meet-

THE HIGH PLAINS FARM AND HOME

Farmers Must Decide On Pre-Irrigation

After a wet winter, Farmer County area farmers are again faced with the problem of what course to take on pre-watering this spring.

County Agent Joe Jones points out that this year as before, "It will pay to start the crop off with the entire soil reservoir filled with water. This insures a reserve supply of moisture for hot, dry months ahead," he says.

The big question facing farmers now is to decide whether they have enough stored moisture to risk not pre-irrigating. This question cannot be answered for all, says Jones,

but one of the things that must be taken into consideration is what will additional moisture from rain do to pre-watered land?

"This is a real problem on the tight land. Rain on top of pre-watered land can delay planting and of course early planting is essential for best production.

"One solution might be to have pre-watered cotton land and an equal amount of land so you could move to that which is not pre-watered if you need to."

Jones advises that if farmers are planning to pre-irrigate, it

would be a good idea to go ahead and get it done so the soil can be warming up. He says, "I think in deciding what you should do, you must keep in mind a soil reservoir full of moisture is always good. You must also keep in mind early cotton pays off best and pre-irrigation on tight land coupled with April rains might prevent early planting."

Also in planning for the coming year, the county agent says farmers are again wondering about the various merits and demerits of various kinds of fertilizer.

He says that experiment station results still indicate that both nitrogen and phosphate should be purchased on a "cost of pounds" basis.

"Liquid or dry in either nitrogen or phosphate fertilizers give equal results when properly applied," he emphasizes. "Keep in mind phosphate should be banded below the seed level about three to four inches, or about that distance from the side."

THESE ARE SOME of the crossbred Brahma cows on Joe Wilson's farm five miles north of Bovina. Wilson has 142 head of these cattle. He is utilizing feed lots capable of holding 300 cattle on full feed to fatten 100 of the cows. The Bovina farmer has been in his present location since 1938. Before that time he had feed lots in Bovina.

Bovina Farmer Feeds Brahmas

Joe Wilson of Bovina may be the only Farmer county area farmer who feeds Brahma cattle on a large scale.

Wilson, who farms and feeds stock about five miles north of Bovina, has 142 head of crossbred Brahma cows. He runs 42 of them on wheat and has the other 100 in feed lots.

He has over 250 head of other cattle, 150 Hereford calves on wheat, 75 cows on wheat and feed and 50 cows on grass.

"They will gain a little more than white faces but they don't sell as good," Wilson says of the Brahma cattle. The carcasses of these cattle will rate only as good, he says. Because of occasional discoloration of the carcass they won't sell as choice," he says.

"They are really hardy. They don't have much sickness," Wilson says the Brahmas seldom suffer from diseases that other stock often die from.

The Bovina farmer is feeding the 100 cattle in his feed lots ground bundles, 12 pounds of

grain a day and a protein supplement. He is feeding the cows on wheat cottonseed hulls.

Wilson's feedlot set-up is equipped to handle about 300 cattle on full feed.

"I feed all the maize I grow and then buy some," Wilson farms 600 acres of wheat, maize and seed.

Two laborers are employed year-round by Wilson in his operation. He uses manure from his lots to fertilize farm land.

Wilson moved to his present location in 1938. Prior to that time, he had a feed lot set-up in Bovina.

While no sharp break is likely in 1960 cattle prices, John G. McHane, extension economist, says we are entering a period which calls for alertness on the part of producers. The small increase expected in cattle slaughter during this year, together with large hog slaughter, will take the bloom off cattle prices, says the economist.

COUNTY 4 H NEWS

County-Wide 4-H club met in the home of Mr. and Mrs. J. B. Young March 23, for a regular meeting. Steve Young led the 4-H pledge, and roll call was answered with each member telling a joke.

Judy Billingsley reported on National 4-H week exhibits, and Pat Chitwood, Bruce Billingsley and Steve Young gave a report on the fat stock show.

During the business meeting, members discussed the membership drive and also voted to answer roll call at the next meeting with their favorite song.

Joe Jones reported on the various demonstrations that can be entered in the district contest.

Those attending were Judy Billingsley, Janis Billingsley, Pat Chitwood, Bruce Billingsley, Steve Young, Cooper Young, Roy Donaldson, Gary Foster, Richard Chitwood, Mr. and Mrs. Leon Billingsley, Mr. and Mrs. J. B. Young, and Mr. and Mrs. Joe Jones and sons.

Safflower Meetings Due Next Month

Farmers Union has announced plans for their 1960 safflower program for the South Plains and Panhandle area of Texas. A series of one or more meetings will be held in each of the following counties: Yoakum, Terry, Lynn, Cochran, Hockley, Lubbock, Crosby, Floyd, Hale, Lamb, Bailey, Farmer, Castro, Swisher, Briscoe, Armstrong, Randall, Deaf Smith, Potter, Carson, Hartley, Moore, Hemphill, Gray, Lipscomb, Ochiltree, Hansford, Sherman, and Dallam Counties.

The meetings will begin early in April in the South Plains area. Seed and contracts will be available to interested growers at these meetings.

The 1960 program will differ from last year's Safflower program in that the growers will not be required to purchase stock to participate. The growers may or may not purchase stock in the Farmers Union Marketing Co-op Association, which is sponsoring the program. Former Secretary of Agriculture, Charles F. Brannan, is secretary and general counsel of this Farmers Union Co-op project.

Acres last year was limited to not more than 10 acres per grower. There will be no limit to the growers this year; as long as planting seed is available.

Farmers interested in planting safflower this year should contact their local Farmers Union officials.

"Tips for Beginners in Vegetable Marketing" is the title of a new extension leaflet which is available from local Extension Service offices.

Many wide variances exist between commonly held ideas or beliefs about egg quality and facts established by research. F. Z. Beanblossom, poultry marketing specialist for the Texas Agricultural Extension Service, urges consumers to get the facts as they relate to quality and nutritive value before purchasing eggs or other food products.

County Has 6 Wrecks

Property damage of \$3,075 resulted from six rural automobile accidents in Farmer county last month, according to Highway Patrol Sergeant D. W. Duggan.

Only one injury was recorded and no fatalities occurred from rural wrecks during February.

Law requires Texas motorists to have their vehicles registered, displaying a valid inspection sticker by midnight April 15, and all vehicles must have 1960 license tags by midnight April 1.

According to statistics released by the Highway Patrol Service of the Texas Department of Public Safety, the inspection program has accounted for a 10 per cent drop in accidents throughout the state. Before the program was started, 13 per cent of the state's accidents were caused by mechanical defects, but only four per cent result from mechanical defects now.

Duggan says only 15 per cent of Farmer county vehicles have been registered.

Castro and Deaf Smith were also included in the rural accidents report. Castro experienced 5 accidents, two resulted in injuries and three in property damage. Six persons received injuries.

In Deaf Smith, there were four accidents in February, and two included injuries of one each, while the other two were property damage accidents.

Whoops! Wrong Outfits

Farm and Home last week incorrectly identified two of the winners in the spring Junior Fat Stock Show held in Friona.

Bobby Redwine, who had the grand champion steer, is a member of the Lazbuddie 4-H Club not FFA as we reported.

What's more, Craig Coon, who showed the reserve champion barrow, is a Friona FFA member—not a 4-H Clubber as we said.

We're sorry we got the outfits switched, boys. And we also say excuse us to both FFA and 4-H leaders.

POLITICAL CALENDAR

The Parmer County newspapers have been authorized to announce the candidacies of the following persons, subject to the action of the first Democratic Primary May 7, 1960.

FOR STATE REPRESENTATIVE, 96th Legislative Dist.:
 Jesse Osborn (Re-Election)
 Bill Shelby

FOR CHIEF JUSTICE, Court of Civil Appeals
 James G. Denton
 Jesse Owens

FOR DISTRICT ATTORNEY of the 154th Judicial Dist.:
 Bill Sheehan (Re-Election)
 Jack Young

FOR SHERIFF of Parmer County:
 Chas. Lovelace (Re-Election)

FOR ASSESSOR - COLLECTOR of Parmer County:
 Lee Thompson (Re-Election)

FOR COUNTY ATTORNEY of Parmer County:
 Hurshei Harding (Re-Election)

FOR COMMISSIONER of Precinct No. 1:
 Wesley Hardesty
 E. G. Phipps (Re-Election)
 Tom Lewellen

FOR COMMISSIONER of Precinct No. 3:
 Guy Cox
 J. H. McDonald (Re-Election)
 Duane Curtis

Here's The Dope On Fertilizer Tests

Fertilizer tests on grain sorghum at the High Plains Research Foundation at Halfway in 1959 included different rates and ratios of nitrogen and phosphate, and comparisons of preplant with sidedressed applications of nitrogen. Also reported with the fertilizer test is a comparison of seeding rates and row spacing of grain sorghum.

These tests were conducted on Pullman clay loam soil which was planted in cotton in 1958. Land preparation consisted of deep breaking to a depth of 10 inches, disking, leveling, and bedding on 40-inch centers.

Soil tests in the area where these tests were conducted showed a pH of 7.4, 1.2% organic matter, 15 ppm P2O5, over 240 ppm K2O, and over 2800 ppm CaO.

A pre-plant irrigation was made in March. Rainfall of 4.3 inches during April and May would have eliminated the need for preplant irrigation. Rainfall totaled 12.85 inches from June 1 to October 1 with 7.3 inches in June. A large part of this rainfall was of little value, since it ran off instead of soaking in.

Four additional irrigations of three inches each were made on July 31, August 11, August 26, and September 9. A total of 29.15 inches of water was available from April 1 to October 1 with 17.15 inches from rainfall and 12 inches from irrigation.

All plots were four rows wide and 100 feet long, and each treatment was replicated four times. The two interior rows of each plot were harvested to determine yields, and the yield data shown in the tables are the averages of the four replications.

Texas hybrid 610 was used in all tests.

Fertilizer for these tests was donated by Phillips Chemical Company and Plainsman Fertilizer Company. Seed was donated by the Paymaster Farm.

Both materials were applied at the same time (just before planting) at a depth of five inches on both sides of each bed with the applicators spaced 20 inches apart.

Grain sorghum hybrid Texas 610 was planted on June 15 at the rate of seven pounds of seed per acre. The crop was harvested on October 9 and adjusted to 13% moisture to determine yields.

The yield data show significant yield increases from all treatments except the 80 pounds phosphate rate. This is the first time that phosphate alone has produced a significant response with grain sorghum at the Foundation. The 40 pound nitrogen application increased yields by 1,744 pounds. When 40, 80, or 120 pounds of phosphate were applied along with the 40 pound nitrogen rate, yields were reduced significantly.

The yield data were also erratic with respect to phosphate when combined with the higher rates of nitrogen. Thus it is not possible to conclude from these results whether phosphate alone or in combination with nitrogen increased yields of grain sorghum.

From a net return basis, 40 pounds of nitrogen produced the greatest net return of \$23.20 with 80-40-0 second (\$16.51), 80-0-0 third (\$15.17), and 120-0-0 fourth (\$14.98). Considering 1957 and 1958 results along with 1959, the 120-0-0 is still recommended for grain sorghum on Pullman clay loam.

pounds per acre as green phosphoric acid (52% P2O5) with each of the above rates of nitrogen.

Both materials were applied at the same time (just before planting) at a depth of five inches on both sides of each bed with the applicators spaced 20 inches apart.

Considering 1957 and 1958 results along with 1959, the 120-0-0 is still recommended for grain sorghum on Pullman clay loam.

pounds of nitrogen per acre from anhydrous ammonia was applied to all plots on May 19 with the applicators spaced 20 inches apart. The grain sorghum was planted on June 16, but a hail and rain storm on June 22 damaged those plots planted two rows per bed, so that it was replanted on June 30.

The yield data show no significant differences in yield due to either rate of seeding or number of rows per bed, although the yield with 10 pounds of seed and two rows per bed was very close to being significant over 8.5 pounds of seed.

A serious problem in planting two rows per bed results from not having moisture conditions as favorable for germination in the sides of the bed, as in the bed center where one row is planted. This has caused poorer germination wherever two rows are planted, and plant populations are not the same with one and two rows per bed at the same rate of seeding.

It is believed that this may have been responsible for no increased yield with two rows per bed. Flat planting may help in eliminating this condition.

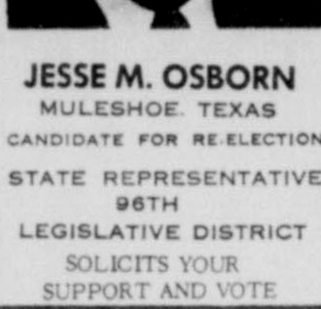

High Plains To Test Safflower

Safflower will be tested at the High Plains Research Foundation this year in cooperation with the U. S. Department of Agriculture, as a part of the Foundation's program to develop new crops for the area.

Five varieties were used in the 1959 tests at Halfway. Heavy hail on June 22, 1959, damaged the crop so severely that the tests had to be abandoned. There is still a possibility that a variety can be found that will be adapted to the area. Dr. Earl Collister, Chief Agronomist, said in announcing the acceptance of the request of the U. S. D. A. and farmers in the area for further research on the crop.

The Foundation has been selected by the U. S. D. A. to conduct the regional test. This will be the only safflower test of its kind to be made in the area. The varieties to be tested are being supplied by Dr. Lester N. Leininger, Research Agronomist, of the Agricultural Research Service at Utah State University.

The eight varieties to be included in the test are U. S. 10, N-6, N-10, N-4051, N-4054, N-4055, Gila, and A 5731. Three of these varieties were included in the 1959 test program at Halfway.

plant AMAK hybrids produced by Asgrow Supplied By Oklahoma Lane Farm Supply

Check these "plus" values, found in every bag of Asgrow hybrid sorghum seed. They make Asgrow your soundest crop investment.

- Genetically pure parent seed stocks, originating from Asgrow's own breeding stations and reproduced under strictest isolation.
- Careful selection of growing areas to secure maximum isolation and freedom from undesirable outcrosses.
- Constant crop inspection by Asgrow agronomists with years of know-how in hybrid seed production.
- Careful selection of top farmer-growers and constant Asgrow supervision of the crop, from planting through harvest.
- Timely harvest of seed by Asgrow, to ensure maximum germination and vigor.
- Rigid sample test plantings at Asgrow breeding station to determine acceptability of each crop for uniformity and freedom from outcrosses.
- Quality control analysis prior to cleaning and processing.
- Cleaning with modern machinery at Asgrow's own processing plant.
- Accurately size-graded for precision planting.
- Fungicide and insecticide treatment to ensure maximum protection at planting time.
- Packaging in easy-to-handle, water and pest repellent containers.

THE HAPPY HOMEMAKER

BY JUNE FLOYD

Are you getting the most out of your automatic fry-pan? If it isn't one of the most used pieces of equipment in the house, chances are you are missing a lot of good eating. For the next few weeks we plan to give our readers helpful hints and recipes designed especially for automatic skillets.

Use the direction book that came with your pan as a guide to correct temperatures for baking, stewing, simmering and frying. Sizes vary and with careful experimentation you can develop recipes that exactly fit the size of your pan and the size of your family.

One home service advisor suggests that an automatic skillet should never be stored. Instead it should be kept in a place so that it will be convenient to use morning, noon and night.

There are so many things it can be used for that it would be impossible to enumerate all of them. Some of the jobs it can do are: warm breakfast rolls and muffins; re-heat frozen pancakes and waffles; bake a frozen meat pie; make soggy crackers, potato chips or corn chips crisp again

and re-heat any left over food. One dish meals are very popular for family meals or guest meals. They are especially good when it is necessary for the meal to be prepared several hours before serving time.

Next time you begin preparation of a meal, plan to include at least one dish that has been cooked in your electric skillet.

WHOLE-MEAL STEW

1 slice ready cooked ham
 1 tablespoon butter
 2 medium onions, sliced
 1 can green beans
 3 medium size potatoes
 Salt and pepper
 3 tablespoons chili sauce

Preheat your pan to 300 degrees. Cut ham slice into narrow stripes and brown lightly in butter. Add onion slices and cook 2 or 3 minutes. Add undrained beans, quartered potatoes and seasonings. Reduce heat to simmer and cook, covered, for 25 to 30 minutes or until vegetables are done. Serves 6.

LIMA PORK CHOP STEW

6 medium-thick pork chops
 2 tablespoons shortening
 3/4 cup water
 1 cup thinly sliced celery
 1/2 cup diced onion
 2 packages (10 oz. size) Frozen lima beans, partially defrosted
 Salt and pepper
 1 can cream of mushroom soup

Preheat skillet to 350 degrees and add shortening. Lightly brown chops on both sides. Sprinkle lightly with salt and pepper. Reduce heat to 250 degrees and add water, celery, onion, limas and additional salt and pepper, if needed. Cover and let simmer 25 to 30 minutes, until vegetables are tender. Gently stir in the soup and heat through. (If very tender chops are desired, let chops simmer in water a few minutes

longer before adding the vegetables.) Makes 6 servings.

CHERRY NUT COBBLER

1 can (1 lb.) cherries
 1 cup sugar
 1/4 cup butter
 1 egg
 1/4 cup brown sugar
 3/4 cup milk
 Few drops almond extract
 2 cups biscuit mix
 1/4 cup chopped nuts

Set control at 300 degrees. Add cherries, sugar and butter. While sugar dissolves and butter melts, prepare cobbler batter. Beat egg with brown sugar. Stir in milk and almond extract. Combine the biscuit mix with the brown sugar. Stir in milk and almond extract. Combine biscuit mix and nuts. Blend in liquid mixture and beat 20 to 30 strokes. Spoon over hot cherries. Cover and bake for 40 to 45 minutes. Batter should test "cake" done. Open vent last 5 minutes of baking time to allow top to dry. Serve warm with cream. Makes 6 servings.

See DUTCH QUICKEL with MUTUAL of NEW YORK

Boys: We're giving you a raise, Green, because we want your last week here to be a happy one.

If you owned the goose which laid the golden egg, which would you insure?

Cotton Production in Texas is the title of a new publication just released jointly by the Texas Agricultural Experiment Station and the Texas Agricultural Information Office, College Station. Ask for B-938.

Two additional publications have been released in the series on Vertical Integration in Texas Agriculture. The new ones are L-474, Rice and L-463, Lamb and Wool. Copies are available from the offices of local county agents or from the Agricultural Information Office, College Station, Texas.

RATES AND RATIOS

In this experiment with different rates and proportions of nitrogen and phosphate, nitrogen was applied at the rates of 40, 80, 120, and 160 pounds per acre in the form of anhydrous ammonia (82% N). Phosphate was applied at the rates of 0, 40, 80, and 120

in all tests. Fertilizer for these tests was donated by Phillips Chemical Company and Plainsman Fertilizer Company. Seed was donated by the Paymaster Farm.

TIME OF NITROGEN APPLICATION

This test was conducted to compare preplant and sidedressed applications of nitrogen on grain sorghum. The preplant applications were made on May 20, using anhydrous ammonia (82% N). The seed was planted June 15 at 7 pounds per acre. On July 21, just before the first irrigation, the sidedressed applications were made, using ammonium nitrate (33% N). The fertilizer material was dropped on the soil surface at a distance of six inches from the row, using one application per row.

The yield of grain sorghum with no fertilizer applied (5,951 pounds per acre) was unusually high and would constitute a good yield even with fertilizer. Even with this high yield with no fertilizer, all fertilizer applications increased yields. The 40 pound nitrogen application did not increase yields significantly, but all other rates did. The greatest increase in yield, 1,557 pounds, was produced with 120 pounds preplant plus 40 pounds sidedressed.

The greatest net return, \$12.90, was with 120 pounds preplant, but the net return from 80 preplant plus 40 sidedressed was almost as high with \$11.26 per acre. Net return per acre declined as total applications of nitrogen went above 120 pounds per acre.

RATE OF SEEDING AND ROWS PER BED

In this test one and two rows per bed at four different seeding rates were compared for yield effect.

Fertilizer at the rate of 120

SOIL CONSERVATION DISTRICT NEWS

The soil conservation district is a central source of help and information about soil and water conservation in nearly every community in the United States. U. S. Soil Conservation Service channels most of its on-the-land assistance to farmers and ranchers through soil conservation districts.

Legally constituted units of state government, soil conservation districts were created to administer soil and water conservation work within their boundaries. THEY ARE NOT BRANCHES OR AGENCIES OF ANY FEDERAL DEPARTMENT.

Each district is created by legal procedures under authority of state law. Laws differ from state to state, but they have much in common. All are based on the principle that local land owners and operators should take the initiative and responsibility in directing conservation programs aimed at solving local problems.

In Texas, each district is created after petition, public hearings and a referendum show that land owners and operators want such a local agency to deal with their conservation problems.

Each soil conservation district is directed by a board of local people, usually resident land owners or operators elected or locally designated. This board of supervisors decides upon a district-wide program and plan of action. It then arranges for assistance from public or private sources to put its program into effect. The board directs use of these facilities to help cooperating farmers and ranchers further their individual conservation plans.

A Lot To Consider In Skip-Row Cotton

The value of cotton skip-row planting is still questionable in the minds of many farmers because of the fact that very little research has been done on what to base recommendations.

For two years the High Plains Research Foundation has conducted tests on various systems of skip-row planting. The 1958 test indicated that yield of cotton per acre of allotment can be increased as much as 32% with the skip-row system of 4 rows cotton and 4 fallow, and up to 58% with 2 rows cotton and 4 fallow.

The 1959 test indicated that along with this increase in cotton yield, the gross return per acre of land could be increased by interplanting soybeans in the rows skipped. However, more testing is required before definite conclusions can be reached concerning the value of this practice.

In this experiment six different skip-row systems were compared with solid cotton for their effect on yield, quality and gross return per acre.

The Lockett 88 variety of cotton was planted April 28 with 20 pounds of acid delinted cottonseed per acre in 40 inch rows.

On June 15 all cotton plots were sidedressed with 50 pounds of nitrogen in the form of anhydrous ammonia (82% N). The soybeans in the skipped rows were planted June 20 just

State laws authorize soil conservation districts to own property, to accept materials and services, and to use and manage them to further conservation objectives. Then, through cooperative agreements with individual land owners and operators, facilities are made available to accomplish soil and water conservation on their land.

prior to the severe hail on June 22. This hail damaged the cotton to the extent of setting it back in growth and maturity an estimated six weeks and completely killing some plants, thereby decreasing stand. This hail damage can be best illustrated by comparing the yield on the solid planted cotton of only 303 pounds lint per acre, and the 1958 yield of this same variety of 975 pounds lint per acre.

All the land in this test was irrigated in April before planting. The cotton was then irrigated during the growing season on August 11 and August 25. On the first irrigation, water was applied to every furrow next to a cotton row, including the furrows on the outside of the plot. On the second irrigation only the furrows between cotton rows received water, except where soybeans were planted next to the cotton, in which case they also received water.

The soybeans in the test received these two irrigations plus an additional one in September. In no case did the furrow between soybeans and cotton receive the September watering.

The soybeans were harvested with a ten foot self-propelled combine on October 20. At that time a very small percent of the cotton was open so that the soybean trash did not lower the grade of the cotton.

An application of Milo-Mag defoliant was made to all cotton plots on October 10 to speed up opening. Still only a small per cent of the bolls were open at the first killing freeze on October 28. All plots were harvested in December with a two-row mechanical cotton stripper. A 100 foot section of each plot was measured and the cotton from this portion was caught in a cotton sack and weighed to determine cotton yield in each system.

A small sample was then taken from this cotton for ginning per cent and quality determinations. These samples were

ginned on a small gin with an attached lint cleaner at the Texas Agricultural Experiment Station Sub-Station No. 8 in Lubbock. The lint from these samples was then divided into two separate samples; one was sent to the Textile Research Laboratories at Texas Tech for determinations of Pressley strength index and micronaire, and the other was sent to the USDA cotton classing laboratory in Lubbock for grade and staple determinations.

Two systems in this test produced higher gross returns per total acreage involved than did the solid cotton. These were the skip-row plantings of four rows soybeans with two and four rows cotton. The gross return was influenced greatly by the high yield of soybeans which averaged 40 bushels per acre. Even though the system of four rows fallow and two cotton produced 91% more cotton per acre allotment than the solid cotton, the income was only \$47.03 per acre of land involved compared to \$70.11 for solid cotton.

It appears that the four rows of soybeans interplanted between two or four rows of cotton helped the cotton to mature faster by competing with it for moisture during the latter part of the growing season. This is indicated not only by the yields, but also by the ginning per cent, grade, micronaire, and Pressley.

It is believed that due to hail damage delaying maturity, cotton yield could have been increased and cost of production decreased by using at least one irrigation and no fertilizer. A higher seeding rate would possibly have been more desirable from the standpoint of limiting height of the cotton and encouraging maturity.

The following advantages and disadvantages to cotton skip-row and interplanting systems have been observed:

Possible Advantages

1. Increased yield of cotton per acre of allotment.
2. Decreased cost of production (a.) By using less irrigation water, (b.) By using less fertilizer, (c.) By leaving fallow areas for production the following year.

3. Increased land use efficiency by planting all or part of the skipped rows to soybeans or other late planted crops. (By planting soybeans as much as 40 days later than cotton, they would not be in great competition with the cotton for water and nutrients and will provide additional income from the land.)

4. In seasons where maturity of the cotton is delayed by hail or other factors, soybeans may speed maturity of the cotton by competing with it for moisture.

Possible Disadvantages

1. In seasons where planting of cotton is delayed past May 10 or hail damage delays maturity, the increase in yield per acre of allotted cotton may be so small it would not justify skip-row planting without the interplanted crop. (In 1959 the gross income from the skip-row system of two rows cotton and four fallow was \$47.03 per acre compared with \$70.11 for solid cotton; but with four rows soybeans and two cotton the gross income was \$91.40).

2. Some farmers have reported that leaves from the interplanted crop lowered grades of the cotton. This has not been a problem in the tests here at the Foundation.

3. On level land it is difficult to water the interplanted crop.

THE PARMER FARMER

By W. H. Graham, Jr.

Farmers continue to get a black eye in the nation's larger newspapers and magazines. Although the agricultural industry admittedly has many glaring faults, the majority of the time the complete story is not furnished to the reader and he draws conclusions based on half truths.

American housewives have been so-bombarded with reading material uncomplimentary toward agriculture and the nation's farm program that they have assumed the inaccurate position that America's grocery bills are high.

They also think the reason that these grocery bills are high is because of farm subsidies.

Such is not the case, of course. We have pointed out many times previously that the biggest part of the food dollar is added by persons who handle food products after they leave the farm.

So often, one point that the housewife misses completely is that she is paying for "maid service" in many of the products which she takes from the shelves of her neighborhood supermarket. Thus, today her potatoes are already peeled and whipped, her cakes are already mixed, her pies are ready to go except for actual baking, her soups are already blended, her yeast rolls need only be browned, her steaks have been tenderized and are ready to cook, therefore, the grocery bill when seen by the housewife at the check out counter of the supermarket is not only a bill for food, but in many instances is a bill for a good part of the preparation of the meal.

One thing further needs to be mentioned. That is the modern tendency of "one-stop" shopping which has resulted in the broadening of lines which supermarkets have had to offer housewives. Not only do grocery stores now sell groceries, but today they also sell mops, kitchen hardware, gloves, socks, toiletries, magazines, gifts and garden fertilizer.

It is only natural that when Mrs. John Doe writes out a check for \$25 payable to her corner grocery store, she is prone to think of this as an expenditure for food alone. However, if she will but go over a list of the items which she has purchased with that \$25, chances are that she would be surprised to see how many non-edible entries have gone into her lunch basket.

This is all well and good. Dressing up farm products and taking the drudgery out of the housewife's work is a worthwhile goal for the processors of food products. And, we have no complaint with grocery stores selling these sideline items. After all, it's a free country.

However, here are two good reasons, besides the others that we have mentioned previously why the consuming public is not

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

We didn't know about this in time to get it in last week's column. PCFB President Herman Gerles was summoned to a meeting of District I FB presidents in Amarillo on Saturday morning, March 19, about seven o'clock.

The purpose of the breakfast meeting was to discuss with Congressman Walter Rogers Farm Bureau policies relating to the labor situation in general, and farm labor in particular.

If you don't know, Farm Bureau is, and always has been, opposed to inclusion of agricultural labor under the minimum wage and hours regulations, and is opposed to any increase in the minimum hourly wage presently existing for any area of employment.

The reason for this is that any industrial increase in labor costs is always reflected in commodities farmers must buy to operate their farms. Also, Farm Bureau favors indefinite extension of the Bracero Act, which everyone in this area is familiar with.

We are sure you appreciate your president's getting up early and going to this meeting, and that you appreciate Congressman Rogers' interest in getting the farmers' views on this very important subject. Right-to-Work legislation, on the national scale, is also an objective of Farm Bureau.

Sugar has been in the news lately, particularly locally, regarding beets, which producers would like to have more of, and which they feel the Cuban situation might help them get. American Farm Bureau has

getting an accurate picture of how much money they are paying farmers to keep them fed and clothed.

A Rough Winter . . . How Is Your Feeding?

made recommendations regarding this situation, which of course came from the national convention in December.

AFBF's recommendations include an increase in basic quotas for mainland areas of 150,000 tons for beet sugar, and 50,000 for cane sugar; Farm Bureau also recommended a revision in the growth formula to permit greater participation in future market growth by domestic areas.

Rhea Farm Bureau will have their regular meeting Friday night. "Arctic Adventure," (Cotton John's) will be shown, and the home demonstration women will serve a delicious meal to the public for \$1 for adults and seventy-five cents for children.

CONSIDER THIS: An unjust man is an abomination to the just; and he that is upright in the way is abomination to the wicked. Proverbs 29:27

It's been a rough winter on beef cattle. And the continued cold weather, advises Uel D. Thompson, extension animal husbandman, could cause losses of both cows and calves.

Shortages of adequate and quality roughages and protein supplement have caused excessive weight losses and cows in such condition generally have calving and after calving troubles, says Thompson. Calves may be born weak—even too weak to nurse. Too, the cow may not produce enough milk for the calf and it may be low in some of the essential nutrients. Thus, adds the specialist, calves become unthrifty and some may die.

Cows in very poor physical condition are likely to have a vitamin A deficiency, Thompson says. This can be corrected by feeding a block of leafy green alfalfa hay or one-fourth pound of alfalfa pellets daily and could save the cow and calf.

"My ELECTRIC clothes dryer erased all my doubts!"

says Mrs. John Krimm, 1002 Fannin, Amarillo, Texas

"Sure, I had doubts before I got my electric clothes dryer. I wasn't really sure that the dryer would keep my white clothes really white—that they might be 'grayed,' after drying. There are no doubts in my mind now, after using my dryer week in and week out—clothes stay white after electric clothes drying—thanks to gentle, safe electric heat that dries clothes perfectly."

You can have your white clothes stay white, too. Get an electric clothes dryer now while your dealer is giving free wiring and guaranteed satisfaction.

Flake Barber New Partner In Firm

Flake Barber, who moved to Friona a little over a year ago from Amarillo, was announced as a partner in Ethridge-Spring Agency in Friona this week by

Dan Ethridge. Ethridge-Spring Agency, which has served insurance needs of Friona and the surrounding area for over 25 years, is the oldest insurance firm in the city.

Barber has been active in many civic affairs since moving to Friona.

He is a member of Friona Lions club and will be secretary treasurer of that organization during the coming year. He has served as co-chairman of the Annual Maize Days Celebration, superintendent during the Parmer County Junior Livestock Show and fund raising committee of the local community chest drive.

Barber is married and the father of four children. He and his family reside in the west part of Friona.

Lazbuddie FFA Wins Fourth

Members of Lazbuddie FFA team won a fourth place ribbon in a judging contest at Abilene Christian College last weekend.

A total of 62 teams competed. Boys making the trip included Jimmy Broadhurst, Joe Tarter, Paul Wilbanks, Don Watson and Scotty Windham, vocational agricultural instructor.

These boys will compete in the Plainview Invitational Contests Thursday (today).

Friona FFA Teams To Enter Meet

Two judging teams representing Friona Future Farmers of America will journey to Plainview Thursday (today) to compete in the Plainview Invitational Livestock judging contests.

This meet, which serves as a district contest for the local boys will see most of the judging teams from all over the Panhandle area competing.

Senior team members from Friona making the trip include Craig Coon, E. C. Wilson, Tom Gee and Tommy Tatum.

Junior team members include Dan Carmichael, Max Reeve, Jim Shilling and Duane Phipps.

J. C. Lane, vocational agriculture instructor, will accompany the boys to Plainview.

Wolf Sells Shorthorn Calf

Larry W. Askew of Los Lunas, N. M., has purchased Rose's Roan Beauty 274818, a heifer calf, from Leona Wolf of Friona.

The animal is a purebred Milking Shorthorn and record of transfer of ownership has been made by the American Milking Shorthorn Society at Springfield, Mo.

Don Green Graduates

Don Green, airman apprentice, USN, son of Mr. and Mrs. George E. Green of Friona, graduated from Aviation Familiarization School at the Naval Air Technical Training Center at Memphis, Tenn.

The two-week course prepares students for further training in one of aviation's technical fields.

Instruction in the course included aircraft familiarization, math, physics and aircraft fire fighting.
