

EMPTY CLASSROOMS such as this one will soon be centers of activity, as youngsters return to the books after a three month summer vacation. Yep, that's right, school bells will again be chiming a week from Monday, signaling the start of another year at Friona Public Schools.

## Students Register Next Week

Alton Farr, superintendent of schools, this week released the schedule for school registration.

Registration for grades 7 through 12 is slated for Friday, August 25, and classes will start the following Monday, August 28.

Grades 1 through 6 will report to school on Monday, August 28, at 8:45 a.m. for registration. The superintendent asks that all parents of first graders, who have not yet turned in birth certificates of the youngsters, do so by the first day of school.

The registration schedule for junior high and high school students is as follows:

Friday, August 25, 9 a.m.-- All high school students are to report for registration and checking out textbooks. Seniors will report to Room 12, juniors to room 5, sophomores to band hall, and freshmen to library.

Friday, August 25, 10 a.m.-- Seventh grade students are to report to the junior high gym. At 1 p.m. eighth grade students are to report at the gym.

Each seventh and eighth grade student is to bring a pencil for registration.

The superintendent also announces that there will be a general faculty meeting on Thursday, August 24, at 7:30 p.m.

A meal will be served in the cafeteria to all teachers and their husbands or wives. "This is to be a get-acquainted meeting at which time general instructions for the ensuing year will be issued," Farr says.

Then, on Saturday morning, August 26, all elementary teachers for grades 1 through 6 will have a meeting pertaining to the keeping of daily registers.

The first full day of school will be Monday, August 28. Buses will run their regular routes and the cafeteria will serve meals for the first time.

Prices of meals are 30 cents for elementary students and 35 cents for high school students. Meal tickets may be purchased by the month or week. Students are being urged to purchase their tickets by the month because less bookkeeping is involved when meal tickets are purchased this way.

Friona's Junior Chamber of Commerce, having recently completed a successful junior rodeo and a quarterhorse show, is now making plans for another event.

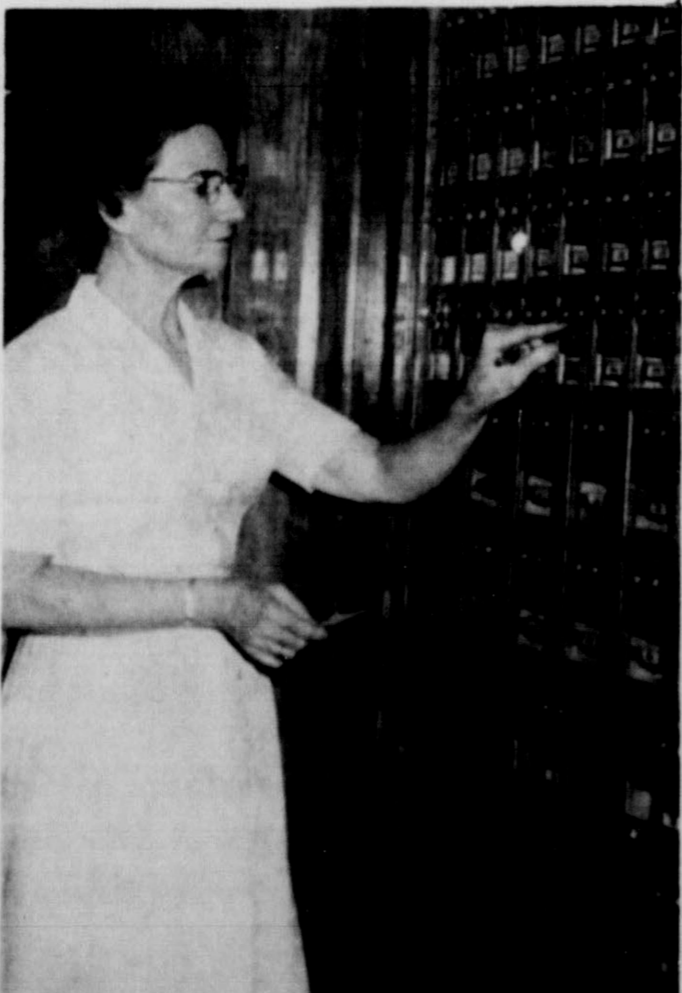

This time it will be an amateur rodeo, which is being scheduled for September 7-8-9 at the Jaycee Rodeo Arena southwest of town.

The Rodeo will be called the Friona Cowboy's Reunion and there will be one show each day at 8 p. m.

Events in which cowboys throughout this part of the country will be participating include calf roping, bare back bronc riding, saddle bronc riding, bull riding, bulldogging, barrel racing, and a wild mare race.

All entry fees will be paid back in the form of prize money to the winners, and a saddle will be given to the all-around cowboy.

Stock for the show will be provided by Ratjen Bros. of Happy. Also scheduled along with the rodeo will be a dance on both

CHECKING A COMBINATION one of the 90 new boxes installed in the Friona post office is Mrs. John Burrow, postal clerk. The boxes, installed last Friday, increase the number of boxes in the post office to 768.

# Maize Days Celebration Set For September 15-16

Friona's annual Maize Days celebration has been scheduled for the week end of May 15-16. J. C. Claborn and Wes Long have been named chairmen of the event this year, which is expected to be about the biggest one yet.

This year's celebration will have most of the events of previous years, but some new ones have been added to replace others which have been done away with.

Fourteen committees have been appointed to work out details and schedules for all of the events. Chairmen of all of the committees were scheduled to meet this morning (Thursday) at 6:30 a. m. in Golden Spread Cafe for getting the celebration under way.

Main events of the celebration this year will be a parade, barbecue, tractor rodeo, queen's contest, commercial exhibits, beard growing contest, antique parade, kids contest, and livestock show and contests.

Also, the Lions Club will again sponsor rides for the kiddoes in cooperation with the One Star Amusement Company of Amarillo. Friona Lanes and Dive-Inn swimming pool are going to

schedule special events, and on Friday night, September 15, the Friona Chiefs will play the Morton Indians in a football game at Chieftain Stadium.

Deadline for entering the queen's contest has not been set yet, but all businesses who plan to enter contestants are urged to submit names as soon as possible.

Chairman of the queen's contest is Eva Miller, and entries may be submitted to her.

Members of the shave permit committee and the Lions Club are now selling the permits for \$5. Every man must have a permit if he is not going to grow a beard.

One of the new events this year will be a livestock show contest, sponsored by the Friona Jaycees. Gaylon Rhodes is chairman of this event.

Committees which have been appointed and charged with carrying out the various activities of this year's Maize Days are as follows:

Parade--Flake Barber, chairman; and George Jones. Barbecue--A. L. Black, chairman; Wes Long, Wright Williams, Ralph Taylor, and Ralph Shirley. Tractor Rodeo--J. T. Gee,

chairman; D. C. Herring, and Doug Connelly.

Commercial Exhibits--Wesley Foster, chairman; Juanda Jarrell and Ruthie Fite.

Queen's Contest--Eva Miller, chairman; Mamie Lou Welch and Fern Awtry.

Beard Growing Contest--Granville McFarland, chairman; and Lions Club.

Decoration Committee--J. C.

Blacksheep, chairman; and Eufaula Ethridge.

Entertainment--Deke Kendrick and Dan Ethridge.

(Continued on Page 2)

A SHAVE PERMIT will be the order of the day during the next several weeks as Friona residents get ready for the annual Maize Day celebration. All persons who aren't going to grow beards will have to buy a shave permit for \$5. Getting members of the shave permit committee fixed up with their merchandise is Martell LeVeque, left, president of the Friona Chamber of Commerce. Here, he pins one on Danny Mac Batnum, chairman of the committee, while Porter Roberts and Bill Nichols look on. The committee and members of the Lions Club will be selling the permits to all fellows who would rather keep a smooth face than take part in the beard-growing contest.

## Chiefs Begin Practice

Kenneth Miller, Friona's new head football coach, greeted only 13 boys Monday morning at the first practice session of the 1961 season.

The number of Chief hopefuls had increased to 19 by Tuesday, but the number of boys out for practice was considerably fewer than had been expected.

Miller says that he is hopeful that by the last of this week quite a few more boys will have reported for practice.

Monday and Tuesday were devoted to issuing equipment, and light workouts and conditioning in T-shirts and trunks.

The footballers put on the pads Wednesday morning and are now getting down to serious business in the two daily sessions, at 7 a. m. and 6 p. m.

These twice-a-day sessions will continue until school starts, August 28.

Grade school football practice also started Monday at 10 a. m. and there were 26 boys on hand. Equipment was issued the first day and the boys will continue to work out daily at 10 o'clock until the first day of school.

Freshmen workouts will start next Monday night, Coach Miller says.

## First Amateur Rodeo To Be September 7-9

Friday and Saturday nights, beginning at 10 p. m.

The Jaycees first built the new rodeo arena last spring, and it was completed in time for the first annual junior rodeo.

Since that time, lights have been installed at the arena and the upcoming rodeo will be the first one with night performances. Installation of the lights was just recently completed.

Entries for the rodeo are now being accepted by Robert Zetsche in Friona.

Entry fees will be: roping, \$30; bare back bronc riding, saddle bronc riding, bull riding and bulldogging, \$20 each; barrel racing \$15; and wild mare race, \$5.

## New Post Office Boxes Installed

In order to meet the needs of a waiting list, 90 new boxes were installed at the Friona Post Office last week.

There were three different sizes of boxes installed, and the new boxes should be sufficient for serving the needs of Friona citizens several years, says Mrs. Martha Clements, acting postmaster.

Persons who have been on the waiting list may now rent a box, Mrs. Clements says. When the boxes were installed, there were about 30 on the waiting list.

Installation of the new boxes boosts the total number of boxes in the post office to 767.

## Sheriff Makes Three Arrests

Four arrests were made last week by the Parmer County Sheriff's Department.

Bill Stone was picked up in Mulshoe after borrowing a car from a Farwell man and failing to return it. Stone was returned to Farwell where his bond was set at \$1,000 by Justice of Peace J. R. Thornton and he was bound over to the grand jury.

Jim Waters was arrested in Bovina last Sunday to face a hot check charge in Jim Hogg County. He was picked up by Jim Hogg authorities Monday.

T. P. Jackson of Friona was picked up last week and charged with passing a hot check. He was tried for a misdemeanor by County Judge Loyde Brewer and was fined \$10 and court costs. Amount of the check was \$5.

Also, a man was picked up in Clovis and returned to Farwell to face charges of non-support of his family.

His bond was set at \$1,000 and the case was bound over for grand jury action.

## Sixty Entries For City Swim Meet

Sixty entries have been received for the first annual Friona City Swimming Meet, which is scheduled Saturday at the Dive-Inn swimming pool.

A practice session for all competitors is scheduled for Friday morning at 10 o'clock, and preliminaries will start at 10 a.m. Saturday. Finals will be Saturday at 7 p.m.

All persons entered in the meet should be present for the practice session Friday, says Baker Duggins, director of the event, and any contestant who is not present for the preliminaries Saturday morning will be dropped from the event.

The swimming meet will be an annual affair, Duggins says, and records will be kept.

Races will range from 25 to 100 feet for eight different age groups in both boys and girls divisions. In all, there will be trophies presented to the first and second place winners in each event.

Entries as of Tuesday morning were as follows:

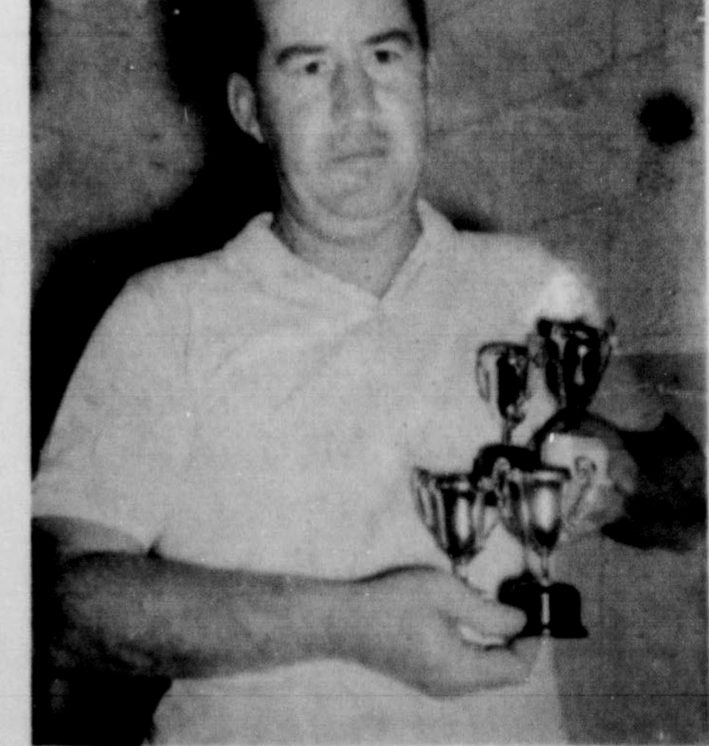

GIRLS--Brenda Hall, Jill Riethmayer, Jan Massie, Vickie Knight, Kay Riethmayer, Jenisa Rhonda Ragsdale, Melva Rule, Shirley Johnson, Linda Carson, Becky Coffey, Donna Shackelford, Susie Carmichael, Kathy Jones, Judy Edelman, Glenda Mingus, Merlene Massie, Jeanne Taylor, Linda Davis, Gail Varner, Kay Coffey, Carolyn Herring, Marcia Lynn Massie and Carol Coffey.

BOYS--Johnny Hoover, Gary Phipps, Kirk Cummings, Mike Taylor, Billy Ross Proctor, Joe

Bogges, Danny Kendrick, Scott Wooley, Jody Fallwell, Don Hoover, Jackie Claborn, Mike Wooley, Terry Fite, Jerry Stevens, Danny Parker, Gilbert Davis;

Also Rickie Hurst, Dwayne Proctor, Randy Ellis, Mervin Wilson, Freddy Williams,

Wayne Davies, Tommy Crump, Gary Shackelford, Steven Thornton, Dickie Lee Renner, Jimmy Snead, Larry Johnson, Lonnie Ellis, Billy Thomas, Larry Moorman, Jerry Parker, Dwight O'Brian, Leon Hartman, and Darrell Anthony.

DISPLAYING FOUR TROPHIES to be awarded to Friona's top swimmers is Baker Duggins, director of the city swimming meet, scheduled for Saturday at Dive-Inn swimming pool. In all, there will be 62 trophies presented to first and second place winners in various events.

## Letters to the Editor

To Editor, Friona Star  
Dear Sir,

On behalf of the Oddfellow and Rebekah Lodges of Friona, we would like to say "Thank you" to all who have helped make our new lodge hall possible.

Many persons donated labor, money and materials for the building, all of which was greatly appreciated.

Our special thanks to Leroy Widener, who did all of the stripping and textoning in the building.

Without all of your help we would not now be in our new building.

The Building Committee  
Bud Reed  
Joe Moyer  
Henry White

Mr. Richard Hapke  
Friona Star  
Friona, Texas  
Dear Editor:

As secretary of the Little League Mother's Club, I would like to take this means of thanking everyone who helped make this season a very successful one.

We want to thank the City of Friona for the utilities; Mr. Vernon Scott for his time; all of the sponsors, all of the mothers who helped at the concession stand; our chairman, Sue Proctor; our co-chairman, Fadine Wooley; our general committee members, Ruby Don Nunn, Wanda Brewer, Gertrude Murphree, Betty Renner, Naomi Stephens and Ouida Jones; Also Charles Short for the

### MAIZE DAYS---

(Continued from Page 1)

Antique Parade--Tommy Jones, chairman; Bill Flippin, Dick Habbinga, George Looper, and Howard Ford.

Kids Contest--Tom Jarboe, chairman; Baker Duggins and Sam Green.

Finance--Charles Allen, chairman; Pudge Kendrick, Hank Outland and Andy Hurst.

Publicity--Dick Hapke and Travis Harrell.

Shave Permits--Danny MacBainum, chairman; Porter Roberts and Bill Nichols.

Livestock Show and Contests--Gaylon Rhodes, chairman; and Friona Jaycees.

coffee maker; John Terry for painting the bleachers; the Lions Club; Chamber of Commerce and American Legion for their assistance and all individuals for all donations and services.

At the beginning of the season the balance in our treasury was \$1120.17. \$560.08 was contributed to Reeve Field, \$972.13 was spent for rest rooms and a snow cone machine was purchased for \$137.50.

At this time all transactions have not been completed, but we will have money left over to start the new season next summer. A final meeting will be held at the ball park at 4 p.m. September 7. All interested persons are invited to meet with us.

Natalie Williams,  
Secretary of  
Little League  
Mothers.

A man who was a very poor golfer once decided to go golfing. When he placed his tee he happened to put it on an anthill. Then he placed his ball and took one mighty swing. He missed the ball but hit one side of the ant hill killing all the ants on that side. He then swung again but hit the other side of the hill killing all the ants on that side. In all this time he had not touched the ball. Only two ants were left alive who had been in the middle under the ball.

One ant said to the other, "Brother if you want to stay alive around here, you'd better get on the ball."

More than 50,000 boys each year get leadership experience by serving as an officer of a local FFA chapter.

The best cheese doesn't al-

ways mean the most expensive. Although the cost of cheese influences the shopper's choice, most consumers buy cheese according to taste. Long storage adds to the cost of the cheese and helps to develop a stronger flavor. The stronger-flavored cheese usually costs more than mild-flavored ones.

## Editorial Comment:

### Tax Creates Problems

Texas finally has a sales tax, and along with it will come some problems.

Just how many problems, and what will be the widespread effects of the new tax bill, which the state legislature had such a hard time passing, will not be immediately known.

But, as the state collecting agencies, consumers, and businessmen all will no doubt find out, things aren't going to be quite like the "good old days" when the sales tax goes into effect.

The new tax has many rough edges which will have to be planed down, before it can be administered smoothly throughout the state. Many of these "rough edges" are apparent even before the tax goes into effect, and action by the state comptroller will be required to define just which items are taxable and which pieces of merchandise aren't.

As has been graphically illustrated by various news sources during the past week, this isn't going to be an easy task. The new tax law specifically states that outer wearing apparel costing less than \$10 will not be subject to the two per cent levy.

Probably this is because the legislators felt that outer garments were a necessity, needed by both the rich and poor alike, while under garments apparently are not.

This stipulation might be logical enough, but the question arises as to what constitutes outer wearing apparel. Naturally, overalls, shirts, blouses and dresses will be included, but what about diapers and T-shirts?

Then comes food products, something else that must definitely be labeled as a "necessity of life," and subsequently will not be taxed. However, this doesn't mean that every time a person goes into a grocery store he will not be paying a sales tax.

Whether or not the present one will work remains to be seen, but we'd venture to guess that it won't be long before most of the exemptions are done away with, and Texas will have a general sales tax.

If there's going to be a sales tax, we're convinced that it will have to eventually be that way.

the tax. This is probably due to the fact that farmers need machinery if they are going to continue to produce foodstuffs for the nation, besides the fact that farm income is out of proportion with the cost of equipment, any way.

Also, if the farmer is going to be subsidized, why should payments be made to him with one hand, and taken away with the other?

Beer and liquors will also be exempt from the sales tax, because a high percentage of the cost of these beverages is tax anyway.

However, even though beer and food aren't taxed when purchased by the package, they both will be subject to a tax when consumed together in a restaurant. The sales tax on food consumed in a restaurant probably came about because eating anywhere other than at home isn't considered necessary.

Just why beer will be taxed when consumed with a meal, and not at other times, is not immediately apparent to us, but maybe there is a logical reason.

These are just a few of the situations that will exist when the sales tax goes into effect on September 1.

One's first inclination when trying to decipher every aspect of the sales tax, is that surely there must be an easier way to acquire needed money for carrying on the activities of government.

And, there may be other ways, some of them less painful than the sales tax, but really there is no "easy way" when it comes to administering and collecting taxes.

The sales tax is probably one of the most "equitable and fair" ways that could be devised. Naturally, the present one passed by the legislature has its inequities and inconsistencies, but a sales tax was needed and it is something that everyone is going to have to live with.

Whether or not the present one will work remains to be seen, but we'd venture to guess that it won't be long before most of the exemptions are done away with, and Texas will have a general sales tax.

If there's going to be a sales tax, we're convinced that it will have to eventually be that way.

Mr. and Mrs. Steve Stubbs

have moved to the Watson Whaley farm and Mr. and Mrs. Wayne Mills have moved into their home they bought from the Stubbs located at 510 E. 10th.

### Farmer's Union Summer Camp Slated Friday

Jay Naman, executive vice president, Texas Farmers Union, says that representatives from counties all over the state of Texas will convene this Friday, August 18th, at Methodist Camp, Butman Canyon, Southwest of Merkel, Texas, for the annual Texas Farmers Union 1961 two day Summer Camp.

The annual Family Summer Camp is one of the highlights of Texas Farmers Union activities each year.

Not only the youthful members, but their seniors, are eagerly anticipating this event since it gives them an opportunity to not only learn more about their organization's educational program but also affords them an opportunity to relax and enjoy good fellowship in the midst of a fine recreational atmosphere.

Under the direction and guidance of qualified instructors, matters of great interest to those attending will be offered both the junior and senior members.

Assisting Naman in the camp's program and activities will be Miss Pat Berg of Panhandle, and Mrs. Donald Wooten, of Crosbyton, Texas. Miss Berg and Mrs. Wooten have just returned from the National Farmers Union Educational Camp in Bailey, Colorado where they sponsored for Texas, the largest group attending from any state. A large group is also expected to attend the Summer Camp at Merkel this Friday.

Merle Kepler and Earl Reynolds from the National Farmers Union Insurance Staff in Denver, Colorado, will also be present and will bring messages from the Insurance Department.

Mr. and Mrs. C. W. Dixon and Mr. and Mrs. Claude Osborn attended the wedding of Linda King and Charles Baxter at Clovis Sunday afternoon. Baxter is the grandson of F. S. Truitt of Friona.

### Local Group Attends Camp

A number of seventh and eighth grade boys and girls spent five days at Crista Del Monte near Cowles attending a camp sponsored by several parents last week.

Making the trip were Sharon Houston, Phyllis Holcomb, Nan Lillard, Darlene Wilson, Frieda Floyd, Monte Sue Welch, Darlene Evans, Janet Stevick, Jill Blackburn of Albuquerque and Janie Leonardo from California.

Also Jimmy Snead, John Taylor, Larry Johnson, Mr. and Mrs. Paul Smith, Mr. and Mrs. Rene Snead, Truett Johnson, Mrs. Nettie Rogers and Mrs. Lucy Welch.

The group returned to Friona Friday evening.

### The John Bengers Return From Trip

Mr. and Mrs. John Benger and Mr. and Mrs. Loyd Benger of Fargo, Okla. returned to Friona recently after spending a week in Colorado visiting relatives and sight seeing. While in Colorado Springs the couples went trout fishing and picnicking. Other points of interest they visited before returning home were Red River and Eagle Nest.

Sunday the John Bengers accompanied the Loyd Bengers to Amarillo to attend a family picnic dinner in Thompson Park. Others present were Mr. and Mrs. Loyde Brewer and sons and Mrs. Lucy Vestal of Friona, Mrs. Hagry Green of Canyon and Mr. and Mrs. H. R. Clarke and Mr. and Mrs. Doyle Green and family of Amarillo.

### Relatives Visit In Treider Home

Relatives visiting in the home of Mr. and Mrs. George Treider last week were Mr. and Mrs. Rueben Gischler, Eugene, Ore.; Rev. and Mrs. Robert L. Cleveland, Anamosa, Iowa and Mr. and Mrs. H. G. Donnelly and family from Artesia, N. Mex.

### Locals

Mr. and Mrs. John King of Dimmitt were supper guests in the Johnnie Benger home Monday evening. Mr. King is an uncle of Mrs. Benger.

Mr. and Mrs. Loyd Benger of Fargo, Okla. have been visiting his brother, John Benger and Mrs. Benger and other relatives. They returned to Fargo Sunday.

Mr. and Mrs. Clifton McMillan and sons from Pasadena, Texas were guests in the home of Mr. and Mrs. Johnnie Benger several days last week. They were on their way to Monument Lake in Colo. Mr. McMillan is Mrs. Benger's brother.

Mr. and Mrs. Jim Dixon and daughter, Melodi, are new residents of the Rhea Community. The Dixons returned from Landshut, Germany recently after spending 2 1/2 years overseas. Dixon received his discharge at McGuire Air Force Base in New Jersey after serving three years.

Charlotte Nettles, daughter of Mr. and Mrs. Leonard Nettles, and Sandra Hoover, daughter of Mr. and Mrs. Bill Num, are in Dallas this week. They are on the SMU campus where Charlotte is attending twirling school and Sandra is attending a cheer leading class.

David McVeys Visit Senators

Mr. and Mrs. David T. McVey were in Austin last week attending the annual convention of the Vocational Agriculture Teachers.

While there, they spent some time observing a special session of the Senate, and they visited with Culp Krueger, senator from El Campo, who is Mrs. McVey's cousin, and Senator Andy Rogers of Childress.

The McVeys were in the Senate chamber last Thursday night when the teacher pay raise bill was passed, "a very opportune time to be on hand," says McVey, who is a vocational ag teacher at Friona Schools.

Also attending the state ag teacher's convention from Friona were Mr. and Mrs. J. C. Lane. Both the McVeys and Lanes returned home from the week-long convention Friday.

Mrs. Joel Landrum and son, Brian, returned recently after spending several days visiting Mrs. Landrum's parents at Texhoma.

a kitchen shower in the home of Mr. and Mrs. Ralph McBroom.

High school classmates of Miss Anthony met at the Blake home Tuesday afternoon. After gifts were opened by the honoree, the afternoon was spent visiting.

Others present were Loretta O'Brian Hand and Danny, Doris McFarland Barnett and Chris, Maldean Stowers Houston, Debbie and Eddie, Geraldine Phipps Ferguson, Jerrine and Sherrie and Phyllis Hinds Blake, Ricky and Cindy.

Nephews and nieces of the bride elect surprised her with a family ice cream party in the McBroom home Friday evening. Gifts were assorted kitchen supplies.

Those present were Mr. and Mrs. A. W. Anthony Sr. and Patsy; Mr. and Mrs. Ernest Anthony, James and Beverly; Linda Peek; Mr. and Mrs. A. W. Anthony Jr., Larry, Dennis and Linda; Mr. and Mrs. Jean K. Anthony and Darrell;

Also Mr. and Mrs. Estis Bass, Charles, Bertie, Troy and Sue; Mr. and Mrs. Jack Sanders and Mr. and Mrs. Ralph McBroom and Kay. Refreshments of ice cream and cake were served.

**Senior Girls Have Picnic**

The backyard of the Jim McLeans was the scene of a picnic supper for the senior girls Thursday evening, August 10. Hostesses were Karen O'Brian, Debbie Hawkins, Beth Akens and Jimette McLean.

Attending were Jo Ann Altman, Mary Ann Boggess, Jere Buske, Linda Castleberry, Jerre Cochran, Carol Coffey, Brenda Collier, Donna Fields, Clarissa Floyd, Mary Hadley, Peggy Holcomb, Peggy Howell, Pam Roden, Linda Schilling, Karen Turner, Martha Wages and Janice Wright.

**Winette Beaton Shower Honoree**

Miss Winette Beaton was honored with a kitchen shower in the home of Mrs. Steve Struve Thursday, August 10, from 9:30 to 11.

Assisting with hostess duties were Kitty Black and Kay Struve. They presented the honoree with a bride's book and Corning Ware.

The serving table was laid with a cream lace cloth over brown and centered with an arrangement of golden brown asters flanked by tapered cream and brown candles.

Guest list included Mrs. Bruce Parr, Mrs. Estis Beaton, Mrs. Melvin Miller, Gayle Knight, Cynthia Caffey, Neida Douglas, Mrs. Jim Roy Clements, Darla Bingham and Donna Blackburn.

**Mrs. J.C. Claborn Hosts Ruth Class**

Ruth Class of the First Baptist Church met in the home of Mrs. J. C. Claborn Monday night, August 14. Assisting hostesses were Mrs. Luther Shelton and Mrs. T. A. Williams. Class officers were elected for the coming year at the business session.

During the social hour sandwiches, cookies and punch were served to Mesdames Joe Talley, Ralph Smith, Raymond Euler, Fred Thomas, Noyle Wood, J. L. Witten, Wilburn Carlton and George W. Jones.

**Bridal Shower Courtesy For Mrs. Wilbur Moore**

A bridal shower was a courtesy to Mrs. Wilbur Moore, the former Lawana Houlette, given Saturday, August 12, in the Friona Club House.

Hostesses for the occasion were Mesdames Bill Baxter, J. B. Buske, D. L. Carmichael, Larry Fairchild, Raymond Fleming, Glenn Floyd, Chris Goetz, George Green, Frank Griffith, Joe Johnson, Mae Magness, Cordie Potts, Hoyt Smith and Rene Snead.

A white eyelet cloth covered the serving table and the honoree's chosen color of blue and white were featured in floral arrangements and refreshments.

Guests calling from three to five p.m. were registered by Geneva Floyd. A miniature bride decorated the table holding the guest book.

Attending and sending gifts were Mesdames C. S. Bainum, Cecil Bass, Dorothy Hough, George Taylor, Neal Fulks, Steve Struve, Frank Barber, Joe Douglas, Dwayne Ridley, Taylor Green, L. B. McClain, Rosa Anderson, Ross Terry, John Terry, Gary Goetz, Leonard Nettles, Eugene Ellis, Jack Fulgham, Leonard Coffey, Bert Shackelford and Ella Faye Holcomb.

Also Mesdames Ed White, Mack Bainum, R. N. Gore, Sam Green, Tom Jarboe, Russel O'Brian, Lloyd Chesher, Frank Truitt, U. S. Akens, J. W. Baxter II, James B. Collier, Mayo Phipps, N. E. Wood, Hop Lewis, Bill Wooley, Elaine Massey, Wilbert Varner, C. W. Dixon, Carl Schenker, Nelson Coon, L. R. Hand, G. B. Buske and Philip Weatherly.

Also Mesdames Bill Filippin, Paul Daniel, Eugene Boggess, Ralph Taylor, Thomas Gibson, Johnny Hand, A. S. Grubbs, Tom Lewellen, Jackie Hight, P. W. Hughes, John Bengner, B. E. Duggins, Onell Greason, C. C. Scales, Leo McLellan, Kenneth McLellan, Florence Buske, Zaydene Brown, Kenneth Houlette, Dumas, Jerry White, Amarillo and Hugh Blaylock, Dimmitt.

Also Misses Sally Hough, Jean Wilson, Suzanne Taylor,

Mr. and Mrs. C. W. Dixon were guests at the Old Settlers Reunion at Dimmitt last weekend. Featured speakers were Mrs. Dixon and Mayor Ray Cowsert of Hereford.

The party line golden rule

People on telephone party lines have a daily opportunity to practice the principle of the golden rule.

Sometimes, when you pick up the receiver, you expect the party line to be in use. But your call is delayed only when the party line is tied up for an excessive length of time.

So the best rule for party line users is the golden rule. To put it simply "Do unto your party line neighbor as you would have your party line neighbor do unto you."

# Of Interest To THE WOMEN

MRS. GAYLORD MAURER

## Wedding Vows Read For Ojeda-Maurer

Union Congregational Church was the scene of the wedding of Carmen Teresa Ojeda and Gaylord Maurer at 7:30 p.m. Saturday, August 5, 1961. Vows were read by Rev. Robert Cleveland, pastor of First Congregational Church at Anamosa, Iowa and brother-in-law of the bridegroom, before an altar banked by Woodwardia, candelabra and baskets of white gladioli.

Mr. and Mrs. Abelardo Ojeda of Maracay, Venezuela are parents of the bride and Mr. and Mrs. Carl Maurer of Friona are the bridegroom's parents. For the double ring ceremony the bride chose a gown of hand embroidered Venezuelan silk with seed pearls, silver thread and sequins over satin with cathedral train, high victorian neckline and long sleeves tapering to the wrists. Her veil of silk illusion fell from a crown of seed pearls. She carried a bouquet of stephanotis centered with a white orchid and tied with white satin streamers.

A prelude of nuptial selections were presented by Mr. Roy V. Miller, organist. Glenn Cunningham of Roswell, sang "Ava Maria" by Schubert, "Beloved, 'Tis Morn," and "The Lord's Prayer" accompanied by Mrs. Glenn Cunningham at the piano.

Attending the bride as matron of honor was Mrs. Robert Cleveland, sister of the groom. Her other attendants were Mrs. Henry Donnelly, Artesia, N. Mex. and Miss Karen Treider of Amarillo. They wore gowns of deep turquoise tucked chiffon with matching headpieces and accessories and carried bouquets of Princess Anne gladioli. Dr. Lee Cranfill served as best man and serving as groomsmen and ushers were Jack McCracken, Bovina and Keith Brock, Friona.

Cynthia Donnelly, Artesia, N. Mex. and niece of the bridegroom, was flower girl and she wore a blue and white silk organza dress and carried a basket of rose petals.

Mrs. Carl Maurer, mother of the bridegroom, chose a dress of blue lace with matching shoes and white accessories. Her corsage was pink life preserver.

A reception was held at the Friona Club House following the ceremony. The serving table

was covered with a white embroidered linen cloth and centered with a floral arrangement flanked by candles. The bride's chosen colors of blue and white were also used in the decorated three tiered wedding cake.

Presiding at the refreshment table were Mrs. Charles Allen and Mrs. H. K. Kendrick of Friona, Mrs. J. C. McCracken of Hereford and Mrs. Jack McCracken, Bovina. Miss Melanie Cleveland registered guests. Other members of the house party were Mesdames L. F. Lillard, George Treider, Dean Blackburn and S. T. Thornton.

Mrs. Maurer is a graduate of a secretarial college in Maracay, Venezuela.

Mr. Maurer received his B.A. degree from University of Arizona and American Institute of Foreign Trade in Phoenix, Ariz. and is now employed by Alimentos Heinz in Maracay.

The couple will return to Maracay to make their home following a month visiting relatives and friends in Texas and New Mexico.

Out of town guests attending the wedding were Mr. and Mrs. John Aldridge, Farwell; Mr. and Mrs. E. C. Armstrong, Clovis; Rev. and Mrs. Robert Cleveland, Melanie and Christopher, Anamosa, Iowa; Mr. and Mrs. Glenn Cunningham, Roswell; Mr. and Mrs. Henry Donnelly, Cynthia, Pat and Clay, Artesia; Mr. and Mrs. Tom Donnelly, Artesia; Mr. and Mrs. Rueben Gischler, Eugene, Oregon; Mr. and Mrs. Pete Lawton, Gainesville, Ark.; Mr. and Mrs. J. C. McCracken, Hereford; Mr. and Mrs. Jack McCracken, Bovina; Mr. and Mrs. John Dave Raymond, Albuquerque; Mrs. Ted Rutherford, Canyon and Miss Karen Treider, Amarillo.

MRS. WILBUR MOORE

## Lawana Houlette And Wilbur D. Moore Wed

In a candlelight service at the home of Mr. and Mrs. Bill Woodson in Muleshoe recently, Lawana Ann Houlette, daughter of Mr. and Mrs. Kenneth Houlette of Dumas, became the bride of Wilbur Dean Moore, son of Mr. and Mrs. C. H. Moore of Stinnett.

An improvised altar with an arrangement of white gladioli and phlox entwined with ivy was flanked by candelabra holding fourteen white candles. Rev. J. Frank Perry, minister of the First Methodist Church at Muleshoe, read the double ring ceremony.

The bride was given in marriage by her brother, Robert

Houlette, after being escorted to the altar on a white aisle cloth, which had been drawn by Wayne Houlette of Dumas and Bill Woodson, uncle of the bride.

She wore a formal wedding gown of white slipper satin and lace. The fitted lace bodice was highlighted by sleeves which terminated in points. The satin skirt was enhanced by wide lace insets and flowed into a cathedral train.

Her finger tip length veil of illusion with brocade lace flowers was attached to a white hat decorated with seed pearls. She wore a strand of pearls and carried a cascade arrangement of

white gardenias and stephanotis with white satin streamers tied in love knots atop a white Bible.

The maid of honor, Geneva Floyd of Friona, wore a blue sheath dress with matching jacket, white accessories and a white over the face veil of illusion and a white carnation corsage.

Candlelighters were Bobby and Melissa Pruitt, cousins of the bride. The wedding march was played by Peggy Sudderth, who also accompanied Joy Lee Chatwell, vocalist, as she sang "Walk Hand in Hand" and "Indian Love Call."

Marlon McWilliams of Dumas served as best man.

Mrs. Harold Pruitt and Mrs. Elma Pruitt presided at the serving table during the reception. The table was covered with a white lace cloth over blue satin and centered with a three tiered wedding cake.

Mrs. Moore, a 1950 graduate of Friona High School, is presently employed in the Moore County Farm Bureau office at Dumas. Moore, a graduate of Dumas High School attended Panhandle A & M College at Goodwell, Okla. and Southwestern State College at Weatherford, Okla. before enlisting in the U. S. Armed Forces. He is an employee of Woody's Furniture Store in Dumas.

For a wedding trip to Oklahoma City and other points of interest in the Sooner State, the bride wore a pink suit, white accessories and a corsage from her wedding bouquet.

Mr. and Mrs. Moore are at home at 116 Klein Street in Dumas.

## Pre-Nuptial Shower Honors Patsy Anthony

Miss Patsy Anthony, bride-elect of Don W. Copley, was guest of honor at a miscellaneous shower Friday, August 11 at 10 a.m. in the Fellowship Hall at Friona Methodist Church.

Arrangements of garden flowers in silver containers and candelabra decorated the entertaining room.

Guests were greeted by Mrs. Guy Latta and Mrs. Deon Awtry presided at the register.

A white linen cloth covered the serving table featuring a centerpiece of pink carnations, garnet roses, amaryllis and plastic rain arranged in a silver compote. Crystal and silver appointments completed the setting. Assorted coffee cakes, nuts and coffee were served by Mrs. J. G. McFarland and Mrs. Henry Lewis.

White carnation corsages were presented to the mothers and the bride-elect's corsage was pink carnations with tiny wedding bells. Hostess gift to the honoree was a card table and chair set.

Hostesses were Mesdames Deon Awtry, Guy Latta, Arthur Drake, Kenyth Cass, H. C. Kendrick, J. G. McFarland, R. W. Ginsburg, R. N. Ginsburg, E. S. White, Dalton Caffey, Oscar Baxter, Otey Hinds, Henry Lewis, Dorothy Hough and M. E. Buchanan.

One hundred and forty-three attended and sent gifts.

Guests in the home of Mr. and Mrs. Johnnie Denger Sunday evening were Mr. and Mrs. Ray Landrum.

## Birthday Party For Becky Bails

For More Society News See Pages 3 & 6 Section 1

Becky Bails observed her birthday Tuesday, August 8, with a party in the home of her parents, Mr. and Mrs. Leo Bails.

Following a backyard picnic supper guests were served birthday cake and ice cream.

The honoree was presented gifts preceding a game session.

Those attending and remaining for a slumber party were Rose Ann Greeson, Mary Hadley, Colleen Harper, Gay Wyly, Martha Ann Martin and Patricia Baxter.

## Charlotte Bock Shower Honoree

Miss Charlotte Bock, bride-elect of Hal Ratcliff, was honored with a lingerie shower in the home of Mrs. Mae Magness Friday, August 11, at 3 p.m.

Hostesses were Mrs. Jackie Hight and Misses Sue Baxter, Levada Hand, Cynthia Caffey and Janet Buckley.

Decorating the serving table was a cake shaped into three hearts and inscribed with the names "Charlotte," "Hal" and the wedding date "August 26, 1961" featuring the bride-elect's chosen colors, green and yellow.

Attending and sending gifts were Mesdames Thomas Gibson, Gary Goetz, Dwayne Ridley and Jo, Phillip Weatherly and Park, J. W. Baxter, Jack Fulgham, Oneil Greeson, Lloyd Chesher, Jerry London, Mae Magness and Jackie Hight.

Also Misses Sue Baxter, Adelle Smith, Geneva Floyd, Cella Weatherly, Lila Gaye Buske, Linda Castleberry, Levada Hand, Janet Buckley, Cynthia Caffey and Janet Sneed.

Out of town guests included Mesdames Gary Brooks, Hereford; Wilbur Moore, Dumas; Hugh Blaylock, and A. J. Ratcliff of Dimmitt and Miss Judy Hock, Dimmitt.

FRIONA**

WITH JUNE

Socially things have really been happening in And Around Friona recently. There have been several August brides and a few more weddings have been scheduled, so we've had an epidemic of showers and parties the past few weeks.

It was real refreshing to learn Saturday that I was not the only one caught in the merry mix up. One Frionan could surely win a contest for "The Most Efficient Party Goer." She got so carried away with all the parties to which she had been invited that she went to one she wasn't even invited to.

After stumbling through her apology and realizing that the hostesses and guests had really enjoyed her presence, she felt better about the mix up, but probably will never forget it.

Perhaps we should call this "No Names Mentioned Week" as far as this column goes. You see, it is like this: I make so many blunders that I hesitate to use names, but the incidents are amusing any way.

One of my favorite young Frionans really got wrapped up in reading a letter she received recently. Since her fiancé lives here, one would hardly expect her to get so excited over a letter, but actions speak louder than words.

Upon leaving the car her sister was driving in front of the post office, this young lady went inside the building and col-

lected the family mail. On her way out she became so engrossed in reading a letter that she opened the door of a car she had never seen before and got in and sat down.

Nothing short of a strange voice and the words, "Are you going home with me?" detracted her attention from her letter reading. Of course, she was speechless and couldn't get out of the car fast enough. It was difficult to tell which emotion was stronger--her embarrassment at getting in the wrong car or her aggravation at her sister for sitting idly by while she made the blunder.

Who has lost a chicken? Freddie Williams, who lives out on West Sixth Street, brought one to the Star office late Tuesday and reported he had been unable to locate the owner. If you have lost a chicken, or know someone who has, call 2291, 4811 or Parmer 3418.

In the meantime, Henrietta, the only chicken on the Floyd farm, has a visitor.

Star office visitors during the past week included some real "Old Timers." Mr. and Mrs. Reuben Gischler of Eugene, Oregon have been visiting in the homes of Mr. and Mrs. Carl Maurer and Mr. and Mrs. George Treider, and came in to visit with our publisher, W. H. Graham.

Mrs. Gischler first came to Friona about 40 years ago as a teacher. At that time her name was Clements and her family lived in the vicinity of Lubbock. Gischler lived here a number of years ago and remembers a lot about the early history of the town.

Those of us who were privileged to visit with this couple enjoyed hearing about the Star's forerunner, The Friona Sentinel, and a number of interesting facts concerning our town a long time ago.

We regret that this couple couldn't stay longer. Having them here for a Maize Days celebration would be a grand experience.

Plans are being made for this year's Maize Days program and the success of it will depend largely upon the time, thought and effort you and I put into the project. Committees have been selected and every person on every committee will do his or her part. Let's do our part!

This week Mr. and Mrs. Eddie Meil and their two children joined the group of Frionans who have moved farther north during the past few years. Chatted with Pat in the post office a few minutes one morning and she was on her way to Stinnett. It seems that the furniture had gone ahead of the family, so maybe by now they are established in their new home.

Dr. and Mrs. Lee Cranfill have purchased the Meil's home in the west part of town.

Looking at the backyard of the home of Mr. and Mrs. A. W. An-

**First Annual Meet For  
Bowling Association**

The Friona Women's Bowling Association will hold their first official annual meeting tonight (Thursday) at 7:30 p.m. at Friona Lanes in Friona.

Committees for the coming year will be named at this time and the organizing of winter leagues will be discussed. (Both ladies and couples leagues). Chris Ivy, president, urges all members of the Association to be present if at all possible. The local alleys cooperating in holding a Special Sweeper (either moonlight or blind

bowling) immediately following the meeting.

All officers of the Association hope that the members will try to attend this important meeting.

Mr. and Mrs. John Burrow and LaVoyce and Patty Fallwell spent last weekend vacationing at Red River.

Mr. and Mrs. Preach Collier and family were in Lubbock Sunday attending a family reunion at Mackenzie Park.

Brenda Blume from Oklahoma City is visiting this week with her grandparents, Mr. and Mrs. Paul Smith.

Mr. and Mrs. V. F. Wilcox and Roger from Fort Smith, Ark. visited several days last week in the home of their son and family, Mr. and Mrs. V. R. Wilcox. The Wilcoxs are former residents of Friona.

**New SS Law  
Now In Effect**

The new social security law has lowered the retirement age for men from 65 to 62 effective with August 1961, according to Hal Geldon, Manager of the Amarillo Social Security Office.

The law also provides for monthly benefits to the eligible dependents of these retired workers. These dependents include children under age 18, and children over 18 who have been totally disabled since before that age.

The worker's wife can also qualify for monthly insurance benefits if she is age 62 or older, or if she has children in her care who are entitled to receive benefits, Geldon said.

Although the male worker who retires before age 65 receives a reduced benefit, his eligible wife and children get the same monthly insurance benefit that they would receive if he waited until age 65 to file.

**Something To Think About**

6th. Street Church of Christ  
Box 515 -- Friona, Texas

God does not open paths to us in advance of our coming. He has never promised help before we need it. He does not remove obstacles out of our way before we reach them. Yet when we come to that hour of need, God's hand is there to help. Many people forget this, and are forever "borrowing trouble" insofar as the future is concerned. They expect God to reveal the road that lies ahead, mile after mile; whereas he has promised to do this only step by step as we have need.

This introduces a major problem in the process of conversion to New Testament Christianity. There are so many people in the world today who want the blessings of Christianity. They have learned that "becoming a Christian" necessitates much more than a verbal statement of acceptance of Christ as one's personal Savior. They know that the word "obedience" must be associated with FAITH rather than the word "only." They know that to declare any part of the Lord's plan of salvation non-essential is folly. But even so, they hesitate to render this obedience that they know to be necessary, because they have doubt as to their ability to live the Christian life. Dear friend, God has not promised that your faith will not be tried, but he has promised that he will help live faithfully. If he has power to forgive us our sins, why should we question His power to help us remain faithful??? Think about it.

**come to church sunday**

In anguish because He was shortly to be betrayed, persecuted, and put to death, Jesus was still positive of God's love. His surrender to the Father's will made the way clear for the resurrection and eternal life.

Because God loves us, we know we can trust Him. However, it is not easy to pray. "Thy will be done." Submission to God's will is difficult. We may revere divine will in theory, but too often we steadfastly hold on to our own will in reality.

Because we know that the will of God is always best, we need to dedicate ourselves in self-surrender to reap the rewards of sincere faith.

We prove our faith when we ask for God's will to be done. We open the way for greater good to pass into our lives as God wills it for us. In Him we have growth, fulfillment, perfection.

## Vote On Wheat Quotas Set For August 24

Farmer County wheat farmers will go to the polls next Thursday, August 24, along with other wheat growers throughout the nation, to vote on whether or not marketing quotas will be in effect for another year.

If the marketing quotas are approved by at least two-thirds of the voters, a new wheat stabilization program, recently passed by congress, will be in effect for the 1962 crop.

The new program calls for a mandatory 10 per cent reduction in acreage, below that of 1961, and a higher price support.

Farmer County will have the option of laying idle an additional 30 per cent of their acreage, on which they will receive payment in cash or kind, equal to 60 per cent of their average yield over the past three years.

If marketing quotas are not approved, there will be no wheat stabilization program for 1962.

Polling places in Farmer County will be as follows:

- Farwell--ASC office
- Bovina--Sherley Grain Company
- Rhea--Carl Schlenker Elevator
- Frona--City Hall
- Oklahoma Lane--Oklahoma Lane Farm Supply
- Lazbuddie ---School auditorium

In announcing the referendum date of August 24, Secretary of Agriculture Orville Freeman said, "The decision that farmers make is extremely important to them and to the rest of the Nation, not only for 1962 but also for many years to come." He urged "widest possible participation in the referendum processes."

Producers will vote "yes" or "no" on marketing quotas for the 1962 crop. Quotas will be in effect only if at least two-thirds of the producers voting in the referendum vote "yes".

If farmers vote "yes," those who later sign up and participate in the wheat stabilization program will be eligible for price support at a level ranging from 75 to 90 percent of parity, the minimum level of support

depending upon the relationship of the supply of wheat to the normal supply.

Secretary Freeman, is submitting his legislative proposals to the Congress, advised the House Committee on Agriculture that "under such a program it would be our judgment that the support price for wheat should be fixed at a national average of \$2 a bushel." This would be 83 1/2 percent of parity. The 1961 support price is \$1.79 or 75 percent of parity.

If farmers should vote "no" on wheat marketing quotas for the 1962 crop, there will be no limit on marketings. Price support would be at the rate of 50 percent of parity, and would be available to those producers in commercial wheat states planting within acreage allotments. In addition, production would exceed market outlets and supplies would continue to accumulate in Government inventory.

**WHO CAN VOTE**  
All farmers who have produced more than 13.5 acres of wheat in at least one of the last three years are eligible to vote in the wheat marketing quota

### Hay Quality Influenced By Time Of Harvest

The haying season is in full swing in Texas. The quality of the crop harvested may well depend, says Geo. McBee, extension pasture specialist, on the stage of growth of the plants when cut and the length of the drying period.

McBee suggests early cutting when nutrients in the plants are near the peak but with adjustment for management practices to maintain stands and fast drying to conserve the feeding value of the crop.

From the standpoint of total digestible nutrients, plants accumulate most nutrients during vegetative stages of growth, points out the specialist. Some plants may lose up to 60 per-

cent or more of their crude protein when harvest is delayed until they reach maturity.

Generally, McBee likes to time the harvest to catch the plant in the boot stage or in early bloom. Quality is best in the Sudan group at the boot stage. Coastal Bermuda should be harvested when it reaches 16-18 inches in height; native grasses in the boot to early bloom stage; alfalfa when a tenth to a fourth of the plants are blooming and lespedeza at the first bloom. As plants get older, continues McBee, the quality declines and the undigestible fibers increase.

After the hay is cut, the moisture content should be reduced to safe storage level as soon as possible. Protein and other nutrients lost after the hay is cut often amount to 30 percent or more in some plants depending upon the length of the drying period. And finally, points out McBee, poor quality hay makes poor livestock feed. He suggests a visit with the local county agent for more information on improving the quality of your hay crop.

Office Boy: "Boss, sometimes I think I'm wandering in my mind."  
Boss: "Don't worry, you can't get lost in such a small place."

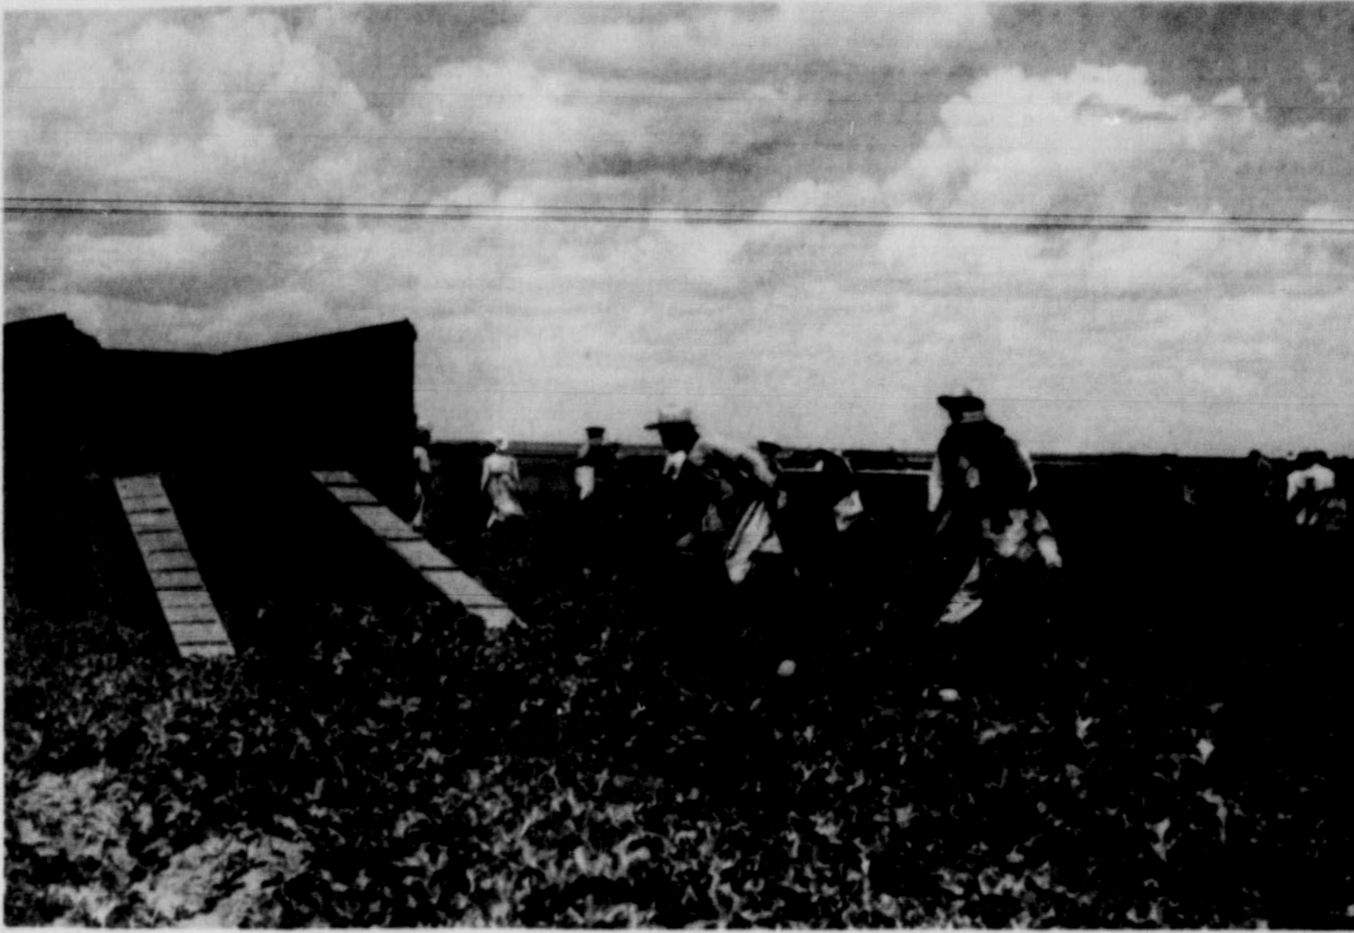

Yes, legumes can be fitted into your farming system and made to pay. Sweet clover-like madrid or Huban will do you a good job. Alfalfa would also do a good job. Now don't run backwards at the thought of alfalfa because it will not be for hay and the land preparation, mowing, baling, and most of the water will be eliminated from this type operation. The seed bed should be firm for these crops. The legumes should be seeded by the middle of September.

August 15 has just passed and irrigation of cotton should soon be out of the way. Research shows you will be ahead most years if water is taken off cotton August 15 to August 20.

I see a lot of wheat land being prepared for wheat. If you want to have a soil test run on the land before applying fertilizer come by and pick up your cartons and instructions or see your fertilizer dealers. Don't

CANTALOUPE HARVEST is beginning to pick up momentum in the Bovina area this week. Here, a group of pickers on the Bob Wilson farm west of Bovina pick the ripe melons

and load them on a truck. The melons are then hauled to Gateway Produce Company for grading, packing and shipping.

## Cantaloupe Harvest Begins In Earnest

After a slow start, cantaloupe harvest in the Bovina area is beginning to move along at an increased tempo.

If the weather, which has been responsible for the harvest getting off to a late start, continues favorable, by next week the packing shed at Bovina should be moving cantaloupes at a faster pace than ever before.

Cool nights have been the reason for the slow start, according to Mario Trevino, office manager for Gateway Produce Company, and the melons just haven't ripened as soon as it was thought they would.

### WITH THE COUNTY AGENT

JOE JONES

Every now and then you hear the old saying alcohol and gasoline don't mix. I'm sure that must be right and just as sure a soil building legume and the retired acreage will mix well to some extent on most every farm in Farmer County.

In 1962 we will in all likelihood have around seventy to one hundred thousand acres of diverted land of which some could be planted to legumes this fall and made to pay in years ahead. Sweet clovers or alfalfa would seem to offer the best soil building and soil improving potential. Where one of these legumes grow well the roots penetrate the soil opening it up so it will take water at a more rapid rate, the soil has a better tilth, nitrogen is taken from the air and stored in the roots to be used by growing crops when the roots decay.

Yes, legumes can be fitted into your farming system and made to pay. Sweet clover-like madrid or Huban will do you a good job. Alfalfa would also do a good job. Now don't run backwards at the thought of alfalfa because it will not be for hay and the land preparation, mowing, baling, and most of the water will be eliminated from this type operation. The seed bed should be firm for these crops. The legumes should be seeded by the middle of September.

August 15 has just passed and irrigation of cotton should soon be out of the way. Research shows you will be ahead most years if water is taken off cotton August 15 to August 20.

I see a lot of wheat land being prepared for wheat. If you want to have a soil test run on the land before applying fertilizer come by and pick up your cartons and instructions or see your fertilizer dealers. Don't

and through the early part of this week shed operations were moving slowly.

This situation is expected to change shortly, however, and by the middle of next week the 350 workers on hand for this year's harvest will quite likely be hard-pressed to handle all of the golden melons, which this year have been described as the "best ever."

"All the weather has done is delay us," Trevino says. "The cantaloupes are averaging about 14 per cent in sugar content and are the best we've ever had."

The market has been holding its own, ranging from \$4.00 to \$4.50 per crate, and if it remains this good, farmers

who have produced the 800-plus acres of cantaloupes will have a good year.

The acreage this year is considerably more than it has been in past years, and despite the fact that the facilities have been doubled at the Gateway shed, when the harvest reaches its peak there may be more cantaloupes than the workers know what to do with.

Because of the slow start, all of the melons will probably hit at about the same time.

Six of the 25 fields in the area were being picked this week, three more were scheduled to be "broken" by the middle of this week, and by late next week it is quite likely that all of the fields will be ready for the first picking.

The harvest will probably continue for five or six weeks.

Cucumbers are also being packed daily at the shed, and about 250 bushels are being moved each day. Market price is about \$2.50 per bushel.

Even though there are only 60 acres of cucumbers, picking will continue until the first freeze.

Harvest of other mixed vegetables will begin in the near future. Other vegetable acreage is tomatoes, 130; peppers, 60; and cabbage, 60.

### SOIL CONSERVATION DISTRICT NEWS

The Farmer County Soil Conservation District supervisors held their monthly meeting Thursday, August 10.

There were several things of importance discussed at this meeting. One of these was the nominations for the Conservation Farmer of the Year. The Conservation farmer will be chosen by the board of supervisor's and revealed at the annual banquet which will be held September 23 in Bovina.

Instead of the usual one tour that the district holds each year there will be four tours. These tours will show conservation practices being used by farmers in Farmer County. The first of these tours will be held in the Lazbuddie area on September 5 at 2 p. m. This tour will be led by T. O. Lesly.

The second tour will be September 7 at 2 p. m. in the Farwell area and Robert Calloway is in charge of this tour. Dean McCallum of the Bovina area will begin his tour at 2 p. m. on September 19. The last tour headed by Bruce Parr will begin at 2 p. m. September 21. A. L. Black, chairman of the board, will assist each of the other four supervisors with his tour.

### NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Next Wednesday, August 23, at ten o'clock in the morning, the District II Farm Bureau leaders will meet in the new Swisher County Farm Bureau Office for policy development discussions. The office is located in Tulla. Those expected to attend from Farmer County are: Roy V. Miller, Chmn., Commodities Committee, and Carl Schlenker and T. L. Kent, members; H. P. Hamilton, Chmn. Legislative Committee, and M. T. Glasscock, Charles Howell and Clarence Johnson, members; Gilbert Kaltwasser, Chmn. Resolutions Committee, and Edmond Kitten and Claude Osborn, members. Also attending will be Herman Gertes, County President and Vernon Symcox, County Secretary. The purpose of the meeting is to assist these leaders in getting membership participation in the development of Farm Bureau Policies.

The Agricultural Act of 1961 takes up eight pages of fine print on standard size paper. For most of us, the reading of this act results in confusion, but it can be summed up by those familiar with legal writings in many fewer words. We are all thankful for those with the ability to sum it up briefly.

At the next directors meeting, the time and place for the Annual County Farm Bureau Convention will be set. We are hopeful that a good, interested attendance will be had. The time will be sometime in October. All members are urged to be giving thought to promote ideas they may have to improve Farmer Bureau's service to farmers. Your officers and directors will appreciate any suggestions you may have at any time.

If you have not filed for state gas tax refund recently, you should do so now. It will not be necessary to file again for a year if you file now or have filed within the last few weeks.

# Soil Conservation Tours Scheduled

At a meeting of the Farmer County Soil Conservation District last Thursday afternoon, plans were made for four September tours.

Conservation practices in the county will be viewed on each of the tours.

In the past, the SCD has sponsored one annual tour, but committeemen this year decided to have one in each of the four county districts.

Different conservation practices will be observed on each of the four tours, and the committee is in hopes that this year's plan will be more beneficial and of interest to more farmers.

The schedule of the four tours is as follows:

September 5--T. O. Lesly district, 2 p.m.

September 7--Robert Calay district, 2 p.m.

September 19--Dean McCallum district, 2 p.m.

September 21--Bruce Parr district, 2 p.m.

Conservation practices to be observed on the tours are now being planned, and they will be announced later.

In addition to planning the tours, the county SCD men also made plans for the annual banquet, which this year will be on September 23 at Bovina.

Four men have been nominated for the honor of being conservation farmer of the year, and the winner will be named at the banquet.

Present for the meeting last Thursday were A. L. Black, T. O. Lesly, Dean McCallum, and Bruce Parr, SCD com-

mitteemen; Steve Messenger, SCD clerk; Bill Liston and J. Sanders, of the Farmer County Soil Conservation Service; A. W. Dalrymple and Carl Spencer, of the state SCD board; and Joe Jones, Farmer County Agent.

# HD Agent's Notes

BY MISS ETTIE MUSIL

Money. Money! Want to make some easy money? Here's how. You homemakers can get you some extra spending money if you remind your farm husbands that they are eligible for a refund of a 4-cent per gallon

## Federal gasoline tax.

That is if the gasoline was used for farming purposes. The claim should include all eligible gasoline gallonage purchased between July 1, 1960 and June 30, 1961.

The claim for refund should be filled on Form 2240 and not later than September 30. We have these forms and instructions in our office. Write us or call us if you did not receive the form from the Internal Revenue office.

The gasoline on which a refund may be claimed covers that used for farming purposes and includes most normal production operations. Three exceptions, however, should be noted. They are gasoline used on the highway, even though for transporting farm products. Another exception is that used for processing, packaging, freezing or canning operations. And of course, that gasoline used for non-farming or personal purposes.

We are reminded that records of fuel purchases should be kept to verify the refund request and care should be used to avoid inaccurate or excessive claims. Form 2240 does not apply to diesel and special motor fuels. If you have any special questions regarding taxes on these fuels, you can contact an Internal Revenue Service director. We just have the forms and instructions for you.

This thought just occurred to me. So many homemakers come by the office for help in kitchen plans or extra storage space, after they have the carpenter at the house finishing up the job. We have several bulletins that may help you include all the storage space you will need if you come by before the plans are complete.

Such bulletins that are free for your asking are "Planning The Kitchen And Workroom," "The Beltsville Kitchen-Workroom with Energy-Saving Features," Kitchen Storage Devices You Can Make," "Arrange Your Kitchen For Convenience and Comfort," "Easy Steps to Farmhouse Planning," "Farm and Ranch Homes In Texas," and even "Using Consumer Credit -- A Tool or A Trap."

Careful, thoughtful planning often avoids mistakes which are costly from the standpoint of money as well as convenience. The "Farm and Ranch Homes In Texas" gives pointers in planning for present and future needs. It lists building material suitable for Texas farm and ranch homes, and gives suggestions for planning wiring and other utility outlets.

Plans for two, three and four-bedroom homes are given in the bulletin. Also included are plans for expandable houses -- with living, dining, kitchen and bath areas incorporated in basic houses from 600 to 862 square feet. These can be expanded to completed houses from 1,032 to 1,628 square feet as the family and income grows.

Now for your present home. Does your shower and bathroom tile have a grimy look after hard summer wear? That dirty grey color may come from soap scum. You can remove it by rubbing a paste of baking soda and water over the dirty areas. Some types of water softeners work well, too. After cleaning, rinse the walls thoroughly and wipe dry. Never use harsh abrasives or strong acid solutions on bathroom tiles, for you may scratch the surface.

One nervous second grader, making a brief speech at the dedication of the grammar school, introduced the "artichoke" who designed it.

According to Fred Gardner of the Poultry Science Department at Texas A&M College, the egg is becoming modernized. Research workers, with the housewife in mind, have and are developing new packaging ideas and uses for eggs. Scrambled eggs for the family in 30 seconds and instant French toast for the heating should be on grocery shelves in the near future. Pressurized cans of egg yolk, egg white or whole egg may be available soon.

In 1960, the farmer received only 39 cents out of each dollar consumers spent for good food in the United States. The remaining 61 cents went for marketing charges.

# The HAPPY HOMEMAKER

BY JUNE FLOYD

Breakfast, which has long been the neglected meal of the day, is one of the most important meals. The best beginning for any day is a good wholesome breakfast for grown-ups as well as children.

With the beginning of school just around the corner, much thought should be given to the preparation of this meal. Leading nutritionists and medical authorities agree that a basic breakfast should include fruit, cereal, milk, bread and butter.

Persons who require higher energy needs may supplement this menu with meat, eggs and other foods. Since a good breakfast should provide one fourth of the daily nutrition quota, needs of the day should be taken into consideration when breakfast is planned.

Properly cooked bacon brightens meals and is especially good for breakfast. Sausage links or cakes make any breakfast tempting and is available in the seasoning which suits your family.

The following recipes are suggestions for varying your breakfast menu.

**Fluffy Scrambled Eggs:**  
Beat 12 eggs slightly with 3/4 cup milk or light cream, 3/4 teaspoon salt, a dash of pepper and add to greased skillet. Cook at low heat until eggs are light and fluffy, lifting mixture from bottom of pan with spatula as eggs cook. Makes 6 servings.

**Breakfast Hash Browns:**  
3 cups diced potatoes, browned  
4 slightly beaten eggs  
1/4 cup milk  
Add eggs and milk to browned potatoes. Stir over low heat to scramble. Serve at once with Canadian bacon or sausage.

**Peachy Maple-Nut Waffles:**  
1 cup milk  
1 egg  
3 tablespoons liquid or melted shortening  
1 cup pancake mix  
1/3 cup chopped nutmeats  
Place milk, egg and shortening in a shaker or glass jar. (If melted shortening is used, add after pancake mix.) Add pancake mix and nutmeats; shake vigorously 10 times or until batter is fairly smooth. Bake in hot waffle iron until steaming stops. Makes 4 to 6 servings.

**Topping:**  
3/4 cup sugar  
2 tablespoons cornstarch  
2 cups sliced fresh peaches  
2 cups water  
Combine sugar and cornstarch. Place sugar mixture, peaches and water in saucepan. Cook over low heat, stirring constantly until thickened.  
**Maple Butter**  
1/4 cup butter, soft  
1/4 teaspoon maple flavoring  
Serve each waffle section with peach topping and maple butter.

**Pineapple Glazed Breakfast Ring:**  
1/4 cup butter or margarine  
1/2 cup sugar

# Rural Areas Development Program Underway In Texas

In line with Secretary of Agriculture Orville L. Freeman's recent announcement that the Rural Areas Development program had reached the operational stage, the Texas Agricultural Extension Service has held orientation meetings on the program in east and north-east districts of the state.

It is in this section of Texas,

said Frank Sheppard, extension resource development specialist, that most of the announced eligible counties are located. He pointed out that some 40 of these counties were listed because they had either been participating since 1956 in the rural development program or had indicated a desire to do so. Other counties were added to that state list on the basis of farm income figures. He said other counties may be added to the eligible list and some of those now on the list may not be able to qualify for federal grants and loans under the program.

Sheppard said the new program as outlined under Public Law 87-27 is not a giveaway deal and that it was hoped that local and private funds would be used extensively to supplement

any loans or grants. He emphasized that the program is strictly volunteer and that participation is up to local leaders and interest. It is, he said, the responsibility of the State Agricultural Extension Services to provide the organizational and educational leadership in setting up development committees to handle the program from the local to the state level. Also to provide educational assistance to local leaders and private groups with regards to total economic development programs within counties or areas.

Much progress, he concluded, has been made under the rural development program and projects now ready for operation may be able to qualify for loans or grants.

# VIP's At PCG-PGA Meeting In Lubbock

Two nationally prominent speakers representing the American cotton textile industry and the USDA have accepted invitations to address the joint annual meeting of the Plains Cotton Growers and the Plains Ginner's Association.

The two big cotton organizations this year will hold a combined meeting rather than the two separate meetings which have been held in the past. The joint meeting will begin at 9:30 a.m., August 26, in Fair Park Coliseum, Lubbock.

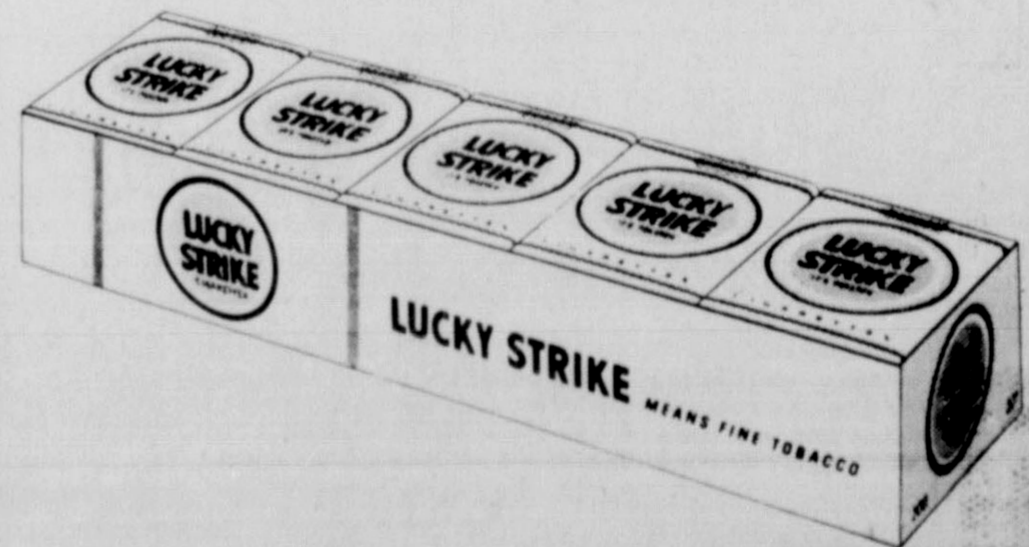

Program will be S.R. Fifield, of Fieldcrest Mills, Inc., Spray, North Carolina, and Robert C. Sherman, of the Foreign Agricultural Service, Washington, D.C.

Fifield will discuss domestic market potentials and problems, and Sherman will talk on the cotton export market situation. "We are indeed fortunate to have such highly qualified men to discuss these subjects which are of vital interest to our area," says W.O. Fortenberry, president of the Plains Cotton Growers.

# FOOTSAVING EDUCATION

by James E. Edwards

**Will Exercise Help The Feet Of Adults?**  
Yes, an astounding demonstration of the effectiveness of exercise was made during World War II.

Reporting in THE MILITARY SURGEON in May 1943, a doctor discusses the feet of flatfooted soldiers who volunteered for an experiment which consisted of marching barefooted on the hot sand of a California desert. The "before and after" pictures showed incredible results. In the "before" pictures the subjects were literally standing on their ankles. After the exercises the feet appeared perfectly normal. Lacking a desert of the desired temperature we could use a button sewed under the arch of an old pair of sox. The game is to walk without stepping on the button.

It really works but one must be careful not to continue the exercise too long because it is quite easy to overcorrect a weak foot.

# Nematodes Serious Cotton Pest

Nematodes damage cotton, more or less, in all areas of Texas. The small microscopic worms are more damaging in sandy or loam type soils where water is a limiting factor. Nematode injury is often overlooked or mistakenly diagnosed as drought damage and poor soil. Damage may vary from slight to as much as 30 percent of the crop.

The root knot nematodes are the most damaging and most easily recognized. Damage by these nematodes result in knots or galls being formed on the roots. Young cotton seedlings can be attacked by the parasites causing them to die or be weakened.

damage the roots and provide a gateway for the fusarium wilt fungus to enter. The fusarium wilt disease once thought of as only an East Texas disease has been moving west in recent years. Specimens have been received at College Station from Wichita Falls, O'Brien and Muleshoe areas.

Other nematodes that cause damage are the dagger, stubby root and stilet nematodes. The root lesion, lance and true spiral nematodes are suspected as causing damage. Special soil and root samples can be checked in the Plant Disease Diagnostic Laboratory at College Station in order to determine kind and number of nematodes.

# Check Grain Storage Before Harvest

Texans have always said there's nothing lower than a cattle thief, and Texas cattle raisers have always led the nation in their fight against these parasitic criminals who brutally steal and butcher from another man's herds.

But cattle theft is still a big problem in Texas and elsewhere. Modern transportation methods, tranquilizer pellets thrust into the victimized animals, and shade tree butchering places have updated rustlers' techniques and often make them more difficult to apprehend.

The Texas and Southwestern Cattle Raisers Association, one of the finest industry-sponsored self-policing organizations in the world, works against these modern odds to throw fear into would-be thieves and to catch and convict a high percentage of actual offenders.

The TSCRA has 31 well-trained and coordinated field inspectors located in Texas and Oklahoma who have not only a thorough knowledge of cattle but also a working knowledge of modern crime detecting techniques.

The association offers a high level of protection for the individual cattleman. Not only do they have men to help local law enforcement agencies to catch thieves but also they have a legal department and an attorney who is available at all times to help local prosecutors in working up cattle theft cases.

This makes cattle theft—which might otherwise be appealing to the criminal mind—one of the least defensible crimes in our state.

Cattle branding, as always, is crucially important for owner protection against thievery. This offers positive identification of ownership which will stand up in court.

Even with modern detection methods and updated ranching techniques, the age-old menace of pioneer days is still with us, however. And it's good to know that the cattle thief is being watched for, sought after, and, if caught, prosecuted to the fullest for his unsavory crime.

# Sheep Industry Important To Texas

Sheep and lamb slaughter is becoming a more important item in Texas each year. In 1950, only 4 per cent of the U. S. commercial slaughter could be accounted for by Texas, but by 1960 this figure had increased to 8 per cent of the total, says Ed Uvacek, extension livestock marketing specialist.

Continuing this trend, federally inspected slaughter of sheep and lamb during the first half of 1961 has far exceeded slaughter for the same period of 1960. The principal gain occurred in the South Central region, which includes Texas.

During the first quarter of 1961 the South Central region showed a 33 per cent increase over the first quarter of 1960, while the U. S. as a whole showed only a 10 per cent increase. Heavy slaughter during these months was also evident in the Mountain and West North Central areas of the country, continues Uvacek. Forecasts indicate slaughter will continue close to last year's levels for the rest of the year. South Central slaughter, however,

will probably drop lower during the July-September quarter. Since 1957, January 1 inventories of sheep and lambs on Texas farms have increased 37 per cent and now total 6.2 million head. This increase represents a reversal of the trend started in the mid 1940's when there was a nationwide shift out of the sheep business.

This year, Texas sheep received the highest conditioning ever for a July 1. The Western Range states showed sheep conditions averaging the same as last year's level, and slightly better than last month.

With a reasonably strong slaughter yet to come and an already depressed market, the outlook is for seasonally lower prices into the fall with some possible improvement late in the year, says Uvacek. Live lamb prices will probably be slightly below the corresponding year's levels in the fall and feeder prices are also expected to be forced down by these low slaughter lamb prices.

# Cattle Theft Is Still A Problem

Advanced planning in checking "on-farm" grain storage may save valuable time during harvest, says W.S. Allen, extension agricultural engineer. Leaky, run down, and unclean storage buildings will increase hazards from insect and rodent damage, the two factors usually responsible for the loss of quality in farm storage.

A good storage unit should meet certain standards. The roof should be weather tight, the walls should be strong, sound, and rain proof. Any potential water leaks should be patched and caulked to prevent the entry of moisture from the outside. Cover the openings in

the walls and gable ends of the buildings with screen wire to keep rats from gnawing holes at the corners. Check the foundations of wooden buildings to be sure they are not decayed, and repair any foundation deterioration, Allen says.

Be sure all trash, weeds, and grass are clear from around the bins to help reduce rat population and insect infestation. A poisoning program to control rats and a fumigation program to control insects can be recommended by your county agricultural agent.

Store dry grain or provide equipment for drying the grain in storage. The maximum mois-

ture content for safe storage in Texas is 12 percent in most areas. Establish a checking program and check the grain periodically to insure that it is dry, free of insects and that quality is being maintained. A little advanced planning and proper supervision will insure a quality stored product for later sale or feeding, concludes Allen.

## The Old Timer

"All men may be born equal, but it's what they are equal to later on that counts."

Three out of every four dollars of tax revenues raised by the Federal government are paid or collected by business firms—in the form of excises, old-age pension, and employment taxes, and withholding taxes. . . . Gondoliers in Venice, Italy, belong to a guild: only sons of gondoliers are eligible. . . . Some people think it's odd that Peculiar is in Missouri and Strang is in Oklahoma. . . .

# Mushroom Root Rot Kills Trees And Shrubs

Mushroom root rot is one of the most common root rot diseases of shade trees and shrubs. Peach and plum orchards are frequently destroyed by the disease which occurs in all areas of Texas. Infected trees or shrubs usually die from April through July. The disease is very often confused with cotton root rot.

Wilted leaves are the first symptom. Next, one or two limbs may die. In a few days or weeks the entire tree or shrub dies. Dead areas are produced in the bark on the main trunk and larger roots just beneath the soil surface. When the dead bark is peeled back, the white mold growth of the fungus over the wood surface is seen.

The fungus occurs most frequently in wooded areas or in recently cleared oak land. Arborvitae, chinaberry, cultivated junipers, rose and pyracantha appear to be very susceptible. Fruiting bodies of the fungus consist of honey-colored or light-brown "toadstools" or mushrooms. These mushrooms cluster near the base of infected trees or shrubs, generally in the fall. Whether they develop depends on the weather and the extent of decay.

All tree stumps and large roots should be removed as thoroughly as possible before orchards are set in infested soil. Planting of newly-cleared land to an annual crop for several years helps to kill the fungus.

Native yaupon and cedar are resistant. Photinia, gardenia, wax-leaf ligustrum, Japanese privet and crape myrtle have been known to escape the disease in infested areas. Lawn grass sod growing too close to a tree or shrub may encourage attack by the mushroom root rot fungus.

For additional information ask county agents for a copy of the publication MP-283, "Peach and Plum Diseases."

Quality milk concerns the entire dairy industry, says A. M. Meekma, extension dairy specialist. It cannot be overlooked at any point as the milk moves from the producer to the consumer. That, he says, is a primary reason that sanitary standards for the production of Grade A are so high.

# Effects Of St. Lawrence Seaway On Grain Exports Reviewed

Texans associated directly or indirectly with grain storage, inland transportation or exports are advised to keep a close watch on changes which the Improved Great Lakes - St. Lawrence Seaway could have on the flow of grain to ports.

John G. McHaney, economist for the Texas Agricultural Extension Service, said the Seaway in its first year of operation, 1959, carried 87 million bushels of U.S. grain in direct overseas trade as contrasted with only 4 million bushels in 1958. Too, an additional 27 million bushels of U.S. grain were handled by Canadian Seaway ports for export.

This increase, McHaney said, came at the expense of Atlantic ports and not those on the Gulf Coast. Western Europe increased their imports of six grains from the U.S. in 1959

by 43 percent over the year before. Atlantic ports showed a decline in exports of 31 percent while Gulf and Pacific ports increased their shipments by some 40 percent.

The economist added that the seaway has some very formidable limitations. The season of navigation is limited to about 8 months; the Welland Canal is a bottleneck for the entire system; other cargoes such as iron ore and coal may offer stiff competition to grain for the limited capacity of the Welland Canal and many harbors on the lakes do not have facilities and water depth to handle large ocean-going vessels. Further improvements, he continued, may change the situation.

McHaney concluded that further increases in grain exports through the Seaway can be expected but the favorable position of the Gulf Coast as contrasted to most Atlantic ports in grain export trade appears to be secure. The Seaway so far has had little effect on grain exports from Gulf ports. In fact, he said, export shipments of grain from these ports in 1959 were nearly double their 1955-57 annual averages.

Favorable inland transportation rates to the Gulf plus the fact that many Gulf facilities have been modernized and others constructed during recent years makes their position favorable.

## Expand Soybean Research At Halfway Station

The soybean breeding program at the High Plains Research Foundation has been expanded by the receipt of 51 varieties from 13 countries. Dr. Earl H. Collister, chief agronomist, announced this week that these varieties came from the following countries: Afghanistan 1, Argentina 2, Brazil 1, Burma 2, China 5, Formosa 2, Hawaii 1, Indonesia 2, India 1, Japan 20, Korea 9, Pakistan 1, and South Africa 2.

Seven-hundred and forty-six soybean plants were selected from a plant population of 226,000 in the 1960 breeding program for further evaluation. Hand pollinations will be made between selected plant types in the plant breeding this year.

Another feature of the soybean program is the use of atomic energy to produce improved types through genetic mutations. They were irradiated with three different applications of cobalt 60. These plants will be closely observed during the growing season for possible high yielding plant types that can be used in developing new varieties for the High Plains.

## Plastics On Market For Paint And Patch Jobs

Epoxies are a fairly new group of plastics with a wide range of farm uses. A report from the fall Farm Quarterly magazine sums them up as excellent but expensive.

A pure epoxy resin is very brittle and for normal use compounds are added to make it more pliable. Sometimes a substance like limestone or mica may also be added as a cheap filler, so an epoxy should be bought from a reputable dealer and for a specific purpose in order to insure desired results.

As adhesives they are unexcelled. They will bond metals, wood, Masonite, stone, ceramics, or any combinations of these. The only things they won't cement are some plastics. Of-

ten the repaired crack or a new joint is stronger than the original material.

A word of warning -- beware of epoxies sold under labels which claim they will glue anything to anything. They may do a good job; on the other hand, they may be weaker than an epoxy designed especially for the material being glued.

As protective coats, epoxies make durable coatings or paints for roofs, floors, walls and liners for containers -- metal, concrete or wood. They have a high resistance to chemical attack.

Epoxies can be used on dairy walls, or perhaps farrowing pens, and other places where sanitation is important. Though there is considerable controversy as to the economy and practicality of their use in silos, it is being done. Epoxy lining makes the walls of a silo practically gas-tight.

Epoxies have been used to repair cracks in trees,

# Extension Releases Publication On Insects

Are insects eating up your farm profits? If they are, or if they are only nibbling at them, you should read two recent publications of the Texas

Agriculture Extension Service. One, B-975, deals with insects that attack forage crops, and the other, L-217, tells how to prevent insect damage to farm-stored grain.

For many years cultural practices were the main methods used to prevent infestations of forage crops. Insecticides were impractical for many years because the low market value of forage crops did not warrant a cash outlay for them. Price changes and improved production methods, however, have changed all this. Unfortunately, this increased use of insecticides has brought about some problems.

Too many people see some insects on their forage crops and grab the nearest "bug killer." Sometimes this practice gets rid of undesirable insects, but in many cases it either fails to kill the unwanted insects or does kill beneficial ones. If the farmer would take time to identify the insects on his crops, this would not happen. True, he does know many of the more common ones, but there are usually some he is not familiar with. This is where B-975 "Insects Attacking Forage Crops" comes in. The farmer can use this bulletin to properly identify the insects and he can then look in Extension Service publication MP-339 for the proper control measures.

Even after the farmer has harvested his crops and has his grain stored, he is not safe from insect-caused losses. There are many insects that can reduce farm stored grain to so much useless trash. These losses can be prevented, however. Leaflet L-217 "Control of Insects in Farm-Stored Grain" outlines the proper methods for preventing these unnecessary losses.

Both of these publications can be obtained from your local county agent or from the Agricultural Information Office, College Station, Texas. Ask for them by name and number.

Question:

**Whose**

**Opportunity Tree**

gets your tender care?

As a matter of fact, opportunities do not grow on trees. Most likely this truth has been brought to your attention before.

Opportunities are, rather, the products of hard work, good management...and good neighbors. They flourish especially where the paraphrased golden rule... "trade with others as you would have them trade with you"... is practiced by one and all.

Trade volume...created by the circulation of money among good neighbors within our own home area instead of away from it... is one of the absolutely essential ingredients of growth and prosperity...from which opportunity springs.

Wise selfishness lies not in buying "where we please" but in buying where our real interests are best served...where our trade enriches the economic soil which nourishes our personal opportunity harvest.
