Candidate Carries Campaign To El Paso and Valley

Charting his plans to swing to the tip of West Texas under the gathering impetus of his 'round the clock' political drive, District Judge Paul Moss of Odessa today was preparing to carry his campaign into El Paso next week.

Judge Moss continued to set a torrid pace in the race for Congress in District 16 last week by hewing to a fast political tempo by appearances before voters at Rankin, Monahans, Pecos and Van Horn.

His activities during the week were climaxed by his delivery of a commencement address Friday night at the Van Horn High School.

Moss is tentatively expected to arrive in El Paso on Wednesday after completion of the District Court docket in Fort Stockton.

While in El Paso, Judge Moss will make tours of the Upper and Lower Valley areas in addition to visiting voters within the city.

Judge Moss, long a prominent member of the Democratic Party, presides over the 70th Judicial District of Texas. He has been engaged in various business and civic enterprises in West Texas for almost 25 years.

"In all sections of the district," Judge Moss said, "I have been building up my lead in the congressional race in recent weeks." He is carrying his campaign directly to the people in each of the cities he visits.

Field Training For Army ORC Starts May 26

Austin, May 24—An estimated 2,900 officers and enlisted men of the Army's Organized Reserve Corps throughout the state of Texas, will take 15 days of intensive training at field camps between May 28 and August 26, 1950.

Organized Reserve Corps units will train near home stations whenever possible, except for certain highly technical groups, according to Colonel Oscar B. Abbott, Chief of Texas Military District. Current status of units will determine the type of field training offered.

The training objectives at the encampments will have four major objectives: (1) to afford maximum practical training of units on subjects which cannot be covered adequately in reserve duty training assemblies; (2) to provide practical staff experience to all echelons; (3) to offer planning and supervisory training for all echelons; and (4) to familiarize reserve components with new techniques, developments, doctrines and organization.

Organized Reserve Corps commanders and their staffs will have a part in preparing training programs for their own units. All plans will be coordinated with the commanders of installations where training is taking place. These commanders will assist the Reservists with demonstrations, technical advice and logistical support.

HADACOL HELPS SUFFERERS OF VITAMIN B1, B2, NIACIN AND IRON DEFICIENCIES

Mrs. Wallace tells her granddaughter, Maynell Wallace, over the phone how HADACOL brought relief to her.

Mrs. Belle Wallace, 449 Formwalt St., S. W., Atlanta, Ga., is so grateful to HADACOL for the blessings it has brought her that she has recommended HADACOL to a number of her friends. She told them she would pay for their bottles of HADACOL if it didn't help them. She explains with a smile that she hasn't had to pay any of her friends, because HADACOL has helped them. Mrs. Wallace, who is 74 years old, has five children, seven grandchildren and two great-grandchildren. She was suffering from a deficiency of Vitamins B1, B2, Niacin and Iron, which HADACOL contains.

Mrs. Wallace said: "I couldn't sleep or eat until I started taking HADACOL. I'd lie awake and toss and turn until the small hours of the morning. I was highly nervous. I couldn't even thread a needle. But, since I've been taking HADACOL, my nerves are as steady as can be. I couldn't eat because when I did my stomach would puff and bloat and fill with gas. I am on the 7th bottle of HADACOL and my stomach is so much better."

Appetite Good "I have a good appetite and my stomach does not bloat or fill with gas. I sleep like a log. I have recommended HADACOL to a number of friends and have told them that if it didn't help them, too, I'd pay for it, but I didn't have to because HADACOL did help them. HADACOL has done me more good than anything I have ever taken."

### Why "Moose" Changed His Mind

Last week, parents were calling Moose Jackson on the phone—and kids were hooting at him in the streets. All because Moose fenced in his field near the depot, where the kids like to play ball.

Moose got sore the way folks acted—refused to budge. Then Doc Sherman, who likes to play center-field himself sometimes, decided to "use a little psychology."

Over a friendly glass of beer at Andy's Garden Tavern, Doc says, "Sorry this came up, Moose. We were thinking of asking you to umpire—what with your professional

experience and all." (Moose used to play a little semi-pro ball.)

That did it! Next day Moose put up a stile over his fence. In return, the kids promised not to cause any damage. From where I sit, when you try to understand the other fellow's point of view—like his personal preference for beer or coffee—and then take into consideration the will of the majority, why, things seem to go better all around.

Del Rio - Sanderson

**RELATIVE OF LOCAL RESIDENTS DIES**

Mr. and Mrs. J. W. Caruthers, Jr., attended funeral services in Del Rio Sunday afternoon for her brother-in-law, Chris Hutto, who died in a hospital in that city Saturday evening. He was a pioneer ranchman of Carta Valley.

Mr. and Mrs. L. E. Arledge also attended the funeral services. Mr. Hutto was an uncle of Mrs. Arledge.

**DO YOU SAY,** or did you think that the crash of guns, the rattle and crackle of small arms, the steady thudding of grenades, the splash of iridescent water against the sides of blacked out ships, the screams of dive bombers, the shrill insistence of boatwain's whistles, the rattling whirr of rockets, the blunt crash of bombs, the shrieks of dying men, are all in the past?

Most folks think that those days are forever over with the press of current events and the pressure of day to day living in peace and what goes for security these days.

Yes, most folks think the hell and horror of war is over. Most people are glad that the stink and the mud and the terror is all part of history now.

But it isn't—not at all.

**THOSE THINGS** live today almost as fresh and as terribly terrifying as they were five, six or seven years ago. Those things happen again every night and tear the soul with as cruel slashes as they did on the beaches of a thousand islands, in the badonnes, mountain passes and deserts of the fronts all around the globe.

The hurt and the memory of the hurt still lingers. In the minds of the men whose bodies and minds were torn in the holocaust the recollection never grows dim.

Those thousands who have spent every day since then in hospitals have had to live close to it. They have not had the grace and goodness of civilian life to spread a thin veneer of insulation over scars and burns of those days.

**OH, I KNOW HOW** easy it is to forget things which are painful to remember—unless such have been branded so deeply that conscious thought is never free from the ugly recollection.

Thus it comes as a shock, a hurting shock to hear that more than fifty two thousand disabled American veterans have been in the hospitals for an entire year without a single visitor.

The gray walls, the gray corridors, the gray latrines, the gray ceilings and the gray faces of the patients in the veterans' hospitals are so easy to forget. So easy to put out of mind in the rush and color and goodness of life in these United States.

But we must not forget. We must not forget so soon. We promised a lot of times that we wouldn't forget them. Now it is time to pay the debt—and it is a real debt.

**IT IS THE TIME NOW** when the veteran who has been awarded a compensation payment under the law is looked upon as a tax liability and moves are under way in both houses of congress to effect some economies in this part of governmental expense.

This, too, is further evidence that we are forgetting. Good to relate is the fact that the Disabled American Veterans (the DAV) are organized in order to help each other. No other program or project is on their agenda. The mission of the organization is not left to walk on clouds. It is practical and hard headed in its approach to the problems of the disabled veteran. Of course there are some mistakes made, but they are few and hundreds of worthy, needy and honest veterans are honestly helped.

So it behooves us who are fortunate to remember—to remember that the war isn't over—that it won't be over—that it comes back again and again and again, into the lives of those it hurt in body and mind.

Fifty two thousand completely forgotten disabled American veterans is a national disgrace. Add to that figure those other hundreds of thousands who still bear the burden of war with a tiny money payment as compensation.

**THAT'S ALL FOR TODAY.**—Don't forget those who can't forget.

—J. H. Harlan, "Sounding Off", Park Valley Democrat, Park Valley, Oklahoma, member of Disabled American Veterans (national newspaper column).

Do We Remember?

SENATOR DUDLEY J. LEBLANC

HADACOL sales or shipments have reached the amazing total of 5,000,000 bottles since January 1, more of any one tonic than has ever been sold in so small an area in so short a time.

Senator Dudley J. LeBlanc, Founder and President of The LeBlanc Corporation, Lafayette, Louisiana, makers of HADACOL, said the sales and shipments would have been far greater if his company could have obtained enough material to meet the demands.

"We have been several hundred thousand bottles behind in shipments since January 1," said Senator LeBlanc. "It looks like we just cannot catch up because every time we increase production the demand increases."

Senator LeBlanc credited the South's heaviest newspaper schedule with much of the success of HADACOL.

### Bountiful Game In 1800s Told Of In Game Magazine

Austin, May 11 — The dark era for Texas wildlife back in the 1870s and 1880s is described by A. S. Jackson, wildlife biologist for the Game, Fish and Oyster Commission, in the May issue of the "Texas Game and Fish," soon to be distributed. His article, headed, "When Game Was Plentiful", emphasizes that the doom of the once mighty herds was sealed by the advent of repeating rifles, models of 1873 and 1876.

Jackson's research yielded a Henrietta Journal item about a man "living near the Red River who killed 278 head of deer in a circumference of ten miles from his house." The San Antonio Evening News on August 31, 1877, told about two brothers in two weeks time, shooting 67 deer, 219 turkeys, 3 bears, 46 ducks and 30 quail and that they also bagged 275 pounds of wild honey. A Hardin County newspaper, on July 21, 1878, quoted venison hams at 25c each. A Mason County news item carried in the Galveston News on August 24, 1879, reported a man killed more than 100 deer in one year. The article continued: "Our woods are alive with deer and other game. We hear of a number of men in this section who are following no other pursuit this year but that of killing deer (because) the skins when dressed bring a fancy price." One month later, a news report stated that a Mason man "made \$112 this year from deer pelts."

The Brownsville Cosmopolite on December 26, 1880, quoted the current price of mallard and teal ducks in the local markets at "a little over four cents each." The same month, the Henrietta Shield stated that "a load of wild turkeys was brought to town last Sunday and sold at fifty cents each." But, about the same time, another quotation for turkeys was 25c each.

Jackson, in his graphic account of the wanton destruction, continued: "Throughout the newspaper record of game slaughters was found no note sounding the word conservation. Indeed, public opinion seems to have been asleep to what was happening."

Then Jackson concludes: "If one is sickened after reading the entire collection of notes at one sitting, he must be at the same time heartened by the changes which have followed, changes which reflect by contrast, an awareness on the part of news editors to wildlife, values and needs, and an awakened public consciousness."

### NOTICE

Parents are requested to advise their children not to play on nor trespass on the piece of property upon which the band building is being constructed. There will exist a danger to children during the construction, and children who play on the lot can materially hamper construction work. The stacks of lumber on the construction site were used this past summer and fall by neighborhood children as a place to play, and as a result, the material was considerably disarranged. The school board asks your cooperation in keeping children off the building site.
