

# Beet Meeting Raises \$1,100

Over \$1,100 was raised Monday night by farmers and businessmen interested in producing sugar beets in this area at a meeting held in the community room of Friona State Bank.

The meeting was called to explain the sugar beet situation and seek ways to raise about \$1,200 needed to send representatives from Friona to Washington to work in behalf of a sugar beet bill being backed by prospective beet producers throughout Texas and the United States.

A similar meeting had been conducted by Friona Lions at a Thursday night meeting. At that time, it was decided that

the Chamber of Commerce and Agriculture would be coordinator of the fund raising program and would handle the money.

Other civic clubs including Friona Jaycees and Friona Women's Clubs had agreed to help get together the necessary funds to send representatives to the capitol to contact senators, congressmen and lobbyists in an effort to gain support for a bill that would allegedly bring significant acreage to this and other areas of Texas.

"Only wool and sugar are deficit commodities in this country and if United States

growers were given permission to produce the sugar now being imported from Cuba, they would have all the acreage they want," said Bill Nichols, who is a member of the Texas Sugar Beet Growers Association.

Nichols, agricultural representative for Friona State Bank, met with the association recently at Hereford.

He was asked to gain enough support here for work being done by the group in the capitol that representatives could be sent from here.

The Sugar Act, which has had few revisions since 1933 when it was adopted, will ex-

pire during this session of Congress. A new bill will be written and the Texas Sugar Beet Growers Assn. wants larger allotments in this country.

One major sugar producing company has already indicated it will construct a sugar refinery in this general area if enough acreage is allotted here to justify such a move.

Each sugar refinery costs 15 million dollars to build and takes three years.

Eddie Neel, an area farmer who has produced beets for over a decade, also spoke at the meeting. He said farmers shouldn't go into the sugar beet business expecting to "get rich quick," but that sugar beet

acreage is about equal to cotton acreage income-wise.

Location of a plant, if one is to be constructed, has not been determined and will not be until a law is passed that will mean significant beet production in this area.

The bill the TSBGA is pushing, would give new areas such as this a larger amount of the production now allotted to Cuba than the "five per cent bill." The "five per cent bill" would give new areas such as this five per cent of the normal consumer increase each year, which would amount to about 80,000 acres requiring two sugar plants.

BIG THANK YOU--Mrs. Pearl Kinsley, center, holds the thank you note she received from over 100 girl scouts and brownies after donating lots where the scouts hope to construct a meeting place. Flanking Mrs. Kinsley are Mrs. Watson Whaley, left, and Mrs. Vernon Roberts, scout leaders.

**Vern's Views**

Mistakes . . . yeah we make 'em.

Round ones, square ones, big ones, little ones, embarrassing ones, and stupid ones; we can make about any kind one can imagine.

Take last week's Star for instance. In a story about the fire department electing officers, we called the new fire chief Ralph Taylor in the story and Ralph Shirley in the headline.

Ralph Shirley is the new fire chief. His picture was on page one. He works for Pioneer Natural Gas Co. He is short and stocky.

Ralph Taylor cuts my hair. He is a fireman but not the chief. He is not so short and not so stocky. Apologies . . . apologies.

Also in last week's issue, Earl and Audrey Graham, owners of Earl's Cafe, inserted an ad announcing their anniversary celebration. The ad said "first anniversary" and should have read "second anniversary."

The Graham's were very understanding about the whole thing, but were anxious for us to explain this mix-up.

-jvs-

Actually, our proofreaders cover up for a lot of mistakes made by this department.

Week before last for instance, I hurriedly wrote a story about the diphtheria situation here spelling the word d-i-p-t-h-e-r-i-a. (That's incorrect. In case you are as dumb as I was).

June Floyd, who likes to read most of the news before it is printed in the paper, told me it was spelled wrong.

It was too late to correct anything except the headline. I did correct it. Those on-the-ball proofreaders changed it in the story, making the Friona Star look real sharp. I noticed that about 75 per cent of the weeklies and at least one daily newspaper misspelled it the same way I started to.

(Hope those fellows don't hear about this and try to hire away our proofreaders. Ruth Schwab, Estelle Jones and Lillah Gaye Gee are our error-eliminators).

-jvs-

Don't forget there are two important local elections coming up this year in addition to the special senate election.

City commissioners and school trustees will be chosen in April. About that time of year, lots of people will be wishing they had paid their poll tax. Deadline is Jan. 31.

-jvs-

Speaking of the senatorial election, Texas voters will be in for a real rare treat when they start choosing the man they want to vote for.

Already in the race is a "new frontier Democrat," "pay as you go Democrat," "middle of the road conservative" and last but not least a Republican.

This is surely a contrast to recent similar elections when there was only one or two men in the race, and neither of them offered much to voters.

Best I can tell none of these men is running for two offices. Some of them hold another office but all of them indicate they will give it up if they are elected to the senate post.

That surely is nice of these candidates to run for only one office per election. It makes it a lot easier on the state, which can conduct only one election to someone to take the job.

Remember it wasn't too long

FRIONA, TEXAS THURSDAY, JANUARY 19, 1961 TEN CENTS

THE FRIONA  STAR

12 PAGES VOLUME 38, NUMBER 16 SECTION 1

SCHOOL, CITY, STATE--

## April Elections Loom

The first four days of April will be busy ones for Frionans and area voters.

Three elections--two local and one state-wide--will be unreeled before the month is a week old.

In local politics, three school trustees and three city aldermen will see their term expire and an election to fill the city offices will be held on April 4, while the school elections will come on April 1.

Aldermen whose terms expire are Bill Nichols, Danny Balnum, and Deon Atwey. Trustees that will have the chance to retire or run again are Arthur Drake, Cordie Potts and Clyde Weatherly.

The city election will be held on the same Tuesday when elections on the same day to cut down on expense of holding the special senate election.

Since the election date is still over two months away, none of the trustees or alderman was asked whether he would seek reelection.

Information for filing for a spot on the ballot in either election may be obtained from the superintendent's office or at City Hall for trustee or alderman positions respectively.

City Manager Albert Field said he did not know whether the city and state election would be conducted in the same building under the same officials.

The date set to pick the senator is the one set up in civil statutes for electing city of-

## Hereford Show Attracts Friona FFA Entries

Several Friona FFA students have entered animals in the Hereford Rotary Club Junior Livestock show which will be conducted Thursday, Friday and Saturday of this week.

Judging will begin Friday morning at 8 o'clock, with barrows, lamb judging will begin at 11 a.m. and steers will be judged at 2 p.m.

The Livestock Judging Contest for FFA and 4-H Club students will be held at 9 o'clock Saturday.

Honored will be a champion lamb in each class, grand and reserve grand champion barrow, thirty top steers in the show, which will sell at 40 cents per pound or above.

Twenty-one top lambs will sell at 35 cents per pound and over and 48 barrows will bring their owners 25 cents per pound and up.

Entries from Friona in the calf competition will be shown by Gregg Jarrell, Tommy Tatum, Larry Potts, Joe Dutton, Gary Sneed, Maynard Greeson, Tommy Scales, Russell Scales, Charles Myers, Craig Coon, Aaron Dragger, and Rex Nelson.

Exhibiting swine will be Larry Hough, Lee Gibson, Craig Coon, Tom Tatum, Charles Ray, Danny Carmichael, Keith Blackburn, Max Reeve, Eric Rushing, Gary Sneed and Larry Potts.

Showing lambs will be Fred Ferguson, Dwight O'Brian, Maynard Greeson, Jim Roy Wells, Charles Ray, Cleatus Rhodes and Earl Crow.

## Lions Hear Governor

Lions Club heard District Governor Ralph Thomas speak at their regular meeting Thursday night.

Thomas, who is governor of District 2T-1, praised the Friona club members for their active participation and their community contributions to such projects as the baseball

(Continued on page 6.)

## Hub Sale Is Today

Over 160 listings had been called in for the Hub Community Sale by last Friday when the sale bills were turned over to the printer and many more were expected by sale officials before the sale begins today.

The event, which marks the fifth year in a row the community has staged such a sale, will feature farm equipment of all kinds in addition to some household good and at least one automobile.

Members of the Hub Ladies Clubs will serve lunch in the community center at noon.

The sale is expected to last all day.

## Mrs. Kinsley Gives Land To Scouts

The Girl Scouts of Friona received land on which to build a Girl Scout house from Mrs. Pearl Kinsley, Monday.

Over 100 Girl Scouts and Brownies assembled at the lots to receive the deed that Mrs. Kinsley presented to the present and future Girl Scouts of Friona.

The Girl Scouts of Troop 144 directed the Flag Ceremony as Mrs. Kinsley, mother of scouting in Friona, gave them the deed to the land. The scouts presented Mrs. Kinsley with a large thank you card which expressed their appreciation and desire to live by the scout laws. The card was signed by the Brownies and Girl Scouts.

Mrs. Kinsley's words were "If by giving this land for your Girl Scout Home, it will keep one girl from going astray, I shall be richly repaid."

THE THANK YOU NOTE!

We, the Girl Scouts of Friona, past, present and future, wish to take this means of thanking you for the wonderful gift of your "orchard" of the past, and may the fruits of our labor and love bring forth the kind of fruits that our Country so desperately needs. May God bless you.

Friona Girl Scouts

## Group Launches First Work On Bringing Exchange Student

Officers chosen were Alton Farr, president; Wesley Foster, finance chairman, Rev. Wallace Kirby, publicity chairman; Raymond Cook, liaison chairman, Mrs. George A. Jones, home placement chairman. Other council members are Mrs. Joe Talley, Baker Duggins and Mrs. Floyd Schlenker.

Student council of Friona High School has accepted responsibility for raising \$650, which will cover transportation expense and give the student an allowance of \$14 per month spending money while he or she is here.

Raising the funds will be a community project and each group will be given an opportunity to contribute.

The student will live in a foster home during his stay here. Several individuals have expressed interest in keeping the student. Requirements for the home where the exchange student will live include: parents must be over 37 and have two or more children. Mother must not work and family should preferably have teenage children.

Persons interested in keeping the student must contact Mrs. Talley or Mrs. Jones by Monday. The complete application for a student to be placed here must be filed in New York by Feb. 15 and money for transportation etc. must be available by April.

The student will probably be a junior in high school.

## Ethridge Named Fund Chairman

Dan Ethridge has been appointed Friona chairman to assist the Llano Estacado Council Boy Scouts of America raise \$150,000 to expand the facilities at Camp Don Harrington according to John K. Boyce, Jr., Amarillo, General Chairman.

Serving with Ethridge will be H. K. Kendrick, and Frank A. Spring. Purpose of the campaign expanding facilities, has resulted from a greatly increased boy population. In the past ten years attendance at Camp Don Harrington has increased from 154 boys to 812 this past summer.

In 1958 Council President, R. Earl O'Keefe, appointed a special committee to study the Council's needs. From this came the need for new office facilities, realignment of districts in the council, additional professional and office help and the expansion at Camp Don Harrington.

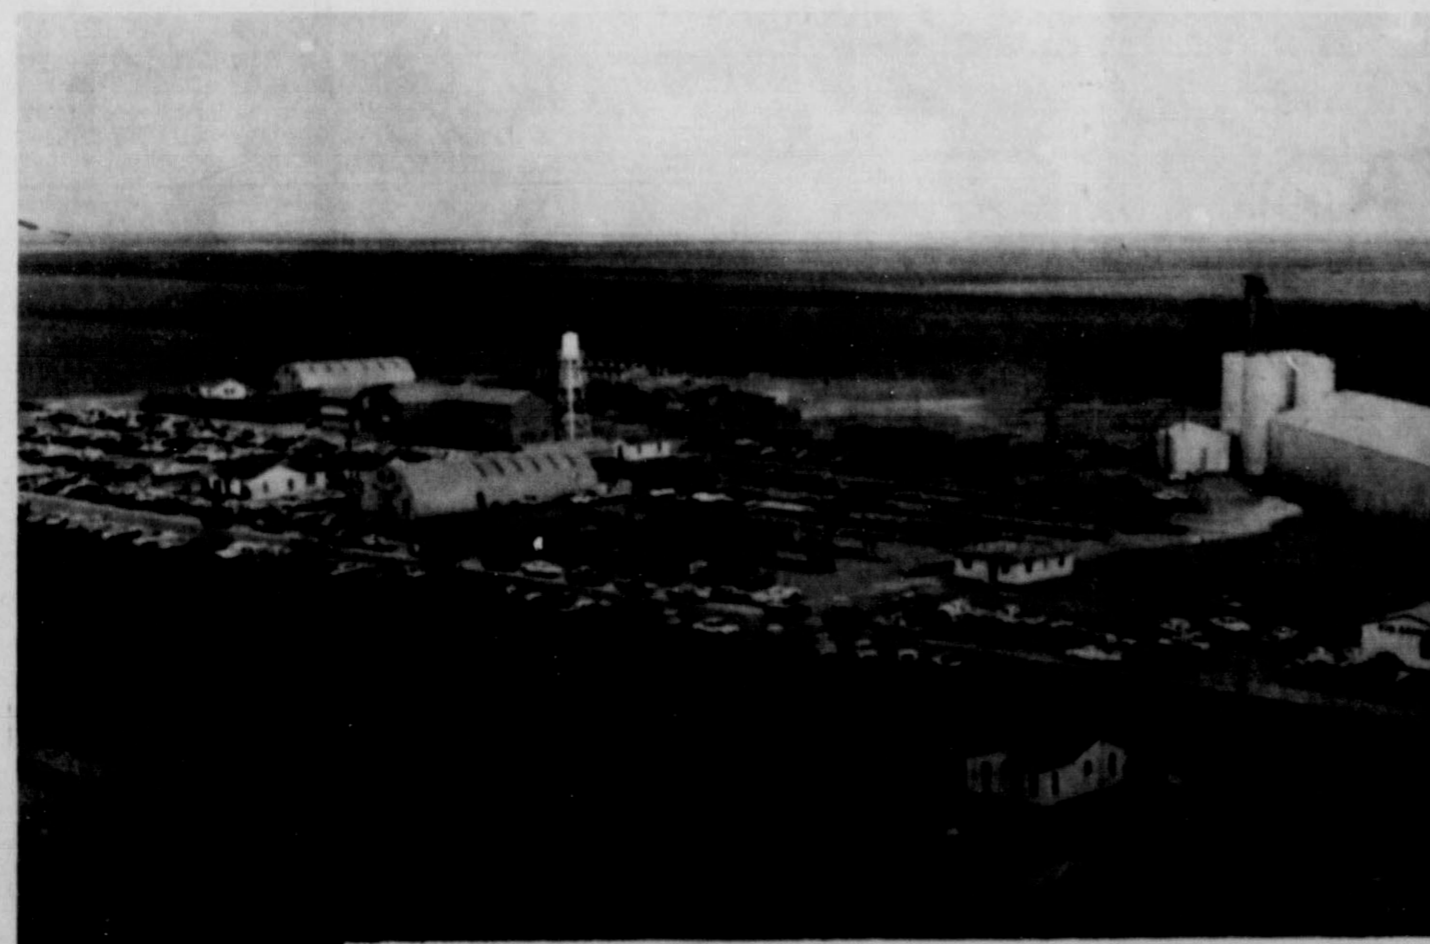

Specific items listed for improvement at camp include: ten new camp sites, two new Troop Lodges, remodeling the present kitchen, a new combination office, trading post and storage

## P-TA Will Hear Refugee

Geza Krepelka, a Hungarian refugee, who now lives in Amarillo, will be principal speaker for P-TA program tonight in the high school auditorium. Meeting time is 7:30.

Krepelka, who was educated an engineer in Hungary before joining his fellow students in the anti-communist revolt in 1956, spoke last November to Friona Lions Club and impressed as a good speaker.

Also on the program will be Dr. Hale, a Korean War veteran, who will also speak, and General Jerry Lee, who was commanding officer of Amarillo Air Force Base. He is now devoting his time to fighting communism.

LAST YEAR'S SALE--This aerial view shows last year's Hub Community sale and some of the equipment sold. Sale officials expect an even larger amount of sale items this year.

## in and around FRIONA

WITH JUNE

This weekend we will see a lot of Friona students home from college. Seeing these young people is always a pleasure and the Star staff reports the activities of those we know about. No doubt there are Frionans attending institutions of higher learning that are never mentioned in our news stories. Anyone reading this column is urged to report the names of students with whom you are acquainted that visit here this weekend or any other activity these students have a part in. This same rule holds true for men in the service.

Many times reports of some of the young men from Friona are sent from the various information offices from time to time from induction to discharge. Then there are other men that we never receive a news release about.

Reports of activities of service men from friends or family members will be greatly appreciated. Persons in any newspaper office can only report the events they know about.

McReynolds is currently as-

sociated with a daily newspaper in the Dallas-Fort Worth area. His home is in the city of Hurst, which is located in the vicinity of Arlington, Irving and a few other towns that go together to make up a large industrial area.

His family was in the process of getting settled in a new home, so Shirley and the children did not accompany him to Friona.

Our biggest surprise last week came about 4:30 p. m. Thursday. Everything that had been done that day had been timed so that the Floyds could make it to P-TA on time.

A few minutes after school was out June Rhodes very casually mentioned the forthcoming program concerning communism. Several minutes later she informed me that the program wasn't that evening. Hope no one read this column last week then decided to go to P-TA Thursday evening.

Do hope to see you at P-TA Thursday evening of this week.

Friona's population is shifting again. In the near future Clyde and Geraldine Sherrieb will be moving to Hereford and Floyd and Eva Lou Rector and their children will be moving into the house the Sherriebs will vacate.

Vernon and Karen Stewart moved again early this week. Don't know for sure whether Karen plans to make curtains yet or not. Seems that the Stewarts have averaged moving one time each month since their marriage last summer.

The Stewarts moved into the Frank Spring rent house on Ashland Avenue from the Oscar Pope house on the corner of eighth and Prospect. Now the Gerald Wrights are moving from Fred Carson's rent house on Euclid to the house the Stewarts vacated.

January's balmy weather seems to be inspiring some yard and garden work. Those of us who have lived here a long time aren't being fooled by these pretty days. We've learned to expect our most severe weather in February and March.

Who ever heard of a blizzard and snow storm in any month except February and March? Old timers generally begin their blizzard stories with "It was either in February or March of . . ."

Think Farmer County escaped the diphtheria wave that was in the area a few weeks ago. Many preventative measures were taken and it is wonderful that such things can be prevented.

Reading our exchange papers indicate that there was much interest in this subject. It would have proved interesting if an account had been kept of the number of times the word "diphtheria" appeared and the number of times it was misspelled.

Baby chicks were heard in the local post office early this

week. Think that is supposed to be a sure sign of spring.

Proud papas of baby boys up and down the street Monday included Raymond Euler and Sonny Graham. Saw several Euler cigars and no Graham cigars. Maybe it isn't customary for men to pass out cigars when the fourth son is born.

In final desperation the coach decided to send Pringle into the game. "Get in there and run with the ball, boy. Maybe a good laugh is what the team needs."

OUR DAY AND NIGHT DEPOSIT SERVICE

provides a quick, convenient means of depositing your cash receipts for bank protection at any hour of any day or night throughout the year in our ultra-modern Mosler Depository System.

OUR BANK IS NEVER CLOSED TO ITS DEPOSITORS

Phantom view through entrance head, chutes and money safe.

Your deposit, with deposit slip, is placed in a special bag, furnished by us, which you lock with your key. At the bank you unlock outer entrance door to the deposit system with your special key. Pulling door forward exposes an opening into which your deposit bag is placed, as illustrated above. Closing door causes bag to automatically travel downward through a heavy metal chute into the burglary-resistant money safe inside our bank, as shown at left. Special baffles in the chute are designed to prevent withdrawal of bags from the outside.

Sealed envelopes containing endorsed checks, currency and similar items can be deposited in the keyless slot (under the flap) for transmission through a separate metal chute into the same money safe . . . just as easy as mailing a letter.

We will be glad to explain and demonstrate this special deposit facility, installed for your protection.

### Five Die In Auto Mishaps During 1960

The chimes at midnight December 31, 1960 dealt the death blow to "Old Father Time." But the echoes and visions of his destruction, grinding metal bodies, crashing glass, broken limbs and smashed lives still haunt us. His record in Farmer County has been an impressive one.

In December the Texas Highway Patrol investigated five rural traffic accidents in this county. These wrecks accounted for property damage of \$2,930.00. No persons were killed or injured.

For the entire year of 1960 in this county there were 85 accidents accounting for 5 per-

sons killed, 43 injured and a property damage of \$83,115.00. In comparison of the year 1959 there were 93 accidents accounting for 3 persons killed, 37 injured and a property damage of \$48,561.00.

"The Texas Department of Public Safety closed its Operation Death-Watch period of ten days at midnight January 1, 1961 with 83 traffic deaths as compared to 97 during the holidays the year before. With late deaths of those critically injured, the figure is expected to come close to the predicted 90 motorcides," stated Highway Patrol Sergeant R. W. Sosebee.

The DPS has vacancies for qualified young men in the Department's uniformed services. The Sergeant advised that applications may be obtained at any Highway Patrol office and the deadline for receipt of the complete forms is February 10, 1961.

### Hospital Notes

PATIENTS ADMITTED JANUARY 10th thru 16th.

Rita Green, Friona, medical; Gertrude Foster, Farwell, medical; George Salas, Friona, surgery; Miles Standish, Oxnard, Calif., medical; Beulah Whaley, Friona, medical; Dollie Barker, Texico, medical; Mrs. Water Schueler, Friona, O.B. Mrs. Loyd Messenger, Friona, O.B. and M.R. Ricks, Bovina, medical.

Lois McCutchan, Bovina, medical; John Pipes, Friona, medical; C.H. Whitener, Texico, surgery; L.C. Moore, Bovina, medical; Letha Gammon, Friona, medical; Melba Floyd, Friona, surgery; Brenda Dyer, Bovina, medical and E.H. Moody, Bovina, medical.

Melba Allen, Friona, medical; Betty Zon Reed, Friona, medical; Jo Buchanan, Friona, medical; Opal Buchanan, Friona, medical; Mrs. Raymond Euler, Friona, O. B., Cindy Villa, Muleshoe, medical; Eugener Hester, Clovis, medical; Stella Dickerson, Friona, medical; Ascencion Acosta, Friona, medical and Donald Lee Gustin, Friona, T & A.

DISMISSED:

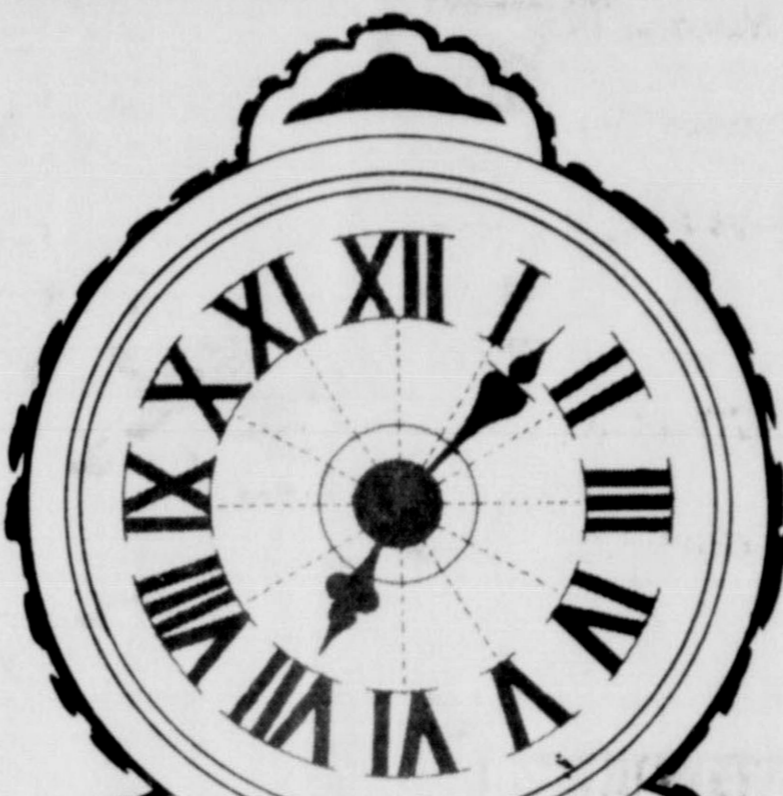

Dollie Barker, Melba Allen, Marilyn Blackburn, J.M. Cadle, Mary Bavousett, Miles Standish, J. H. Steelman, Sid Killough, Gertrude Foster, Mrs. Santos Esquivel and baby girl, L. C. Moore, Letha Gammon, Mrs. Loyd Messenger and baby girl, Melba Floyd, M.R. Ricks, Beulah Whaley, Leroy Spears, Lois McCutchan, Brenda Dyer and John Pipes.

Mr. and Mrs. John Davis of Spearman spent the weekend in the home of Mr. and Mrs. Bud Reed.

### New Educational Building

The Calvary Baptist Church has set an attendance goal of 200 for its first Sunday when it occupies the new educational building. Since organizing into a church last July the church has acquired property in excess of \$50,000 and presently has 148 members with a Sunday School enrollment of 206. Formal dedication services are being planned for Sunday, February 19th.

MRS. HENRY THEODORE FANGMAN

**Schulte-Fangman United In Candlelight Ceremony**

Miss Shirley Ann Schulte and Henry Theodore Fangman were united in marriage in a candlelight ceremony held at St. Anthony's Catholic Church Tuesday, Jan. 10. Father Herbert Byrnes read the Nuptial Mass.

The bride is the daughter of Mr. and Mrs. George W. Schulte of Hereford and the bridegroom is the son of Mrs. Helen Fangman and the late Walter Fangman, Route 3, Friona.

Double ring vows were exchanged as the bride, groom and attendants knelt on white satin covered kneeling benches. The church was decorated in traditional bridal white. Spiral candelabra holding white tapers and tall basket arrangements of white gladioli flanked the main altar.

Mrs. Morris Hacker of Hereford was organist and played the traditional wedding marches. She accompanied Miss Mar'Gwen Lackey as she sang "On This Day Oh Beautiful Mother" and "Panis Angelicus." Kenneth Betzen sang "Mother At Your Feet Is Kneeling" as the wedding couple offered a portion of the bridal bouquet at the altar of Mary.

Escorted to the altar and given in marriage by her father, the bride wore a formal gown of white French lace lined with matching taffata. Designed with princess lines the dress featured a high molded bodice and a portrait neckline. Long tapering sleeves extended to dainty petal points and were enhanced by a row of tiny lace covered buttons at the wrists. The floor length lace skirt ballooned over hoops. Her lace-edged veil of white silk illusion cascaded gracefully from a regal tiara of tiny seed pearls. The bride wore a double strand of heirloom pearls belonging to a great-aunt and carried a single orchid surrounded by white carnations intermixed with white stephanotis.

Miss Judy Marie Schulte, sister of the bride was maid of honor. Miss Sylvia Fangman, and Mrs. Duane Albracht, cousins of the groom, were bridesmaids.

The bride's attendants wore identical dresses of cotton blue lace lined with matching taffata. Each dress was fashioned with a molded midriff enhanced by a scoop neckline and short sleeves. They wore

matching slippers and white opera gloves and head pieces fashioned of ruffled blue net centered with white roses. They carried bouquets of white mums trailing blue satin streamers.

Arnold Fangman served as his brother's best man. Groomsman were Lee Britting of Amarillo and Wayne Jesko of Muleshoe. Danny Paetzold of Hereford was ring bearer. Jean Paetzold was flower girl. Her blue dress was fashioned with puff sleeves and a white organza overskirt, edged with a border of blue embroidery. Her head-wear was a ruffle of blue net centered with white rosebuds.

Mrs. Schulte, mother of the bride, wore a melon pink sheath dress of nylon and wool with white accessories. Mrs. Fangman, mother of the groom, was dressed in a green silk sheath accented with pink accessories. Each wore a corsage of carnations.

A reception held in the Hall of St. Anthony's Church followed the ceremony. Attending at the serving table were Mrs. Jimmy Jesko and Miss Carolyn Kuper, Linda Sue Parker and Paula Wright presided at the guest book.

Other members of the house party were Mesdames Ed Dzuik Sr., Mable Wagner, Arhart Reinart, Eugene Loerwald, Henry Kuper, Leon Vinton and Joe Paetzold.

The bride graduated from Hereford High School in 1958 and worked as a secretary at the Hereford State Bank. Fangman is a 1954 graduate of Friona High School. The couple will live at Black, where Fangman is engaged in farming.

**Gary Sherrieb Is Honored At CSU**

Gary Sherrieb, sophomore at Colo. State University, Fort Collins, Colo., rode in the grand entry of the National Western Livestock Show and Rodeo at Denver this week.

An animal husbandry major, Sherrieb was chosen 1961 sweetheart of the CSU Girls Quadrille team and was formally presented before their rodeo performance.

A '59 Friona graduate, Gary is the son of Mr. and Mrs. Clyde Sherrieb of Friona.

**Of Interest To THE WOMEN**

**Kolvvvia Circle Met With Mrs. Kendrick**

Ten members of the Kolvvvia Circle met in the home of Mrs. H. K. Kendrick Wednesday, Jan. 11, at 9 a.m. to begin the study of "Basic Christian Beliefs"

Mrs. J. G. McFarland conducted the study. Mrs. Kendrick, Mrs. W. M. Stewart, Mrs. Newman Jarrell Jr. and Mrs. R. W. Ginsburg, discussed the religions preceding Christianity and the moral codes upon which these various religions and Christianity are based.

The circle chairman, Mrs. Eugene Ellis, conducted a short business meeting. Mrs. George Jones told of the community effort being made toward securing a foreign exchange student to attend Friona High School next year.

Guests present were Mesdames Clyde Fields, Newman Jarrell Jr., R. W. Ginsburg, Eugene Ellis, W. M. Stewart, Coy Patton, J. G. McFarland, George Jones and U. S. Akens.

**Banquet Held At Assembly Of God Church**

A Gold Crown Workers banquet was held at the Assembly of God Church Friday night for the teachers and officers.

This is the third consecutive year that the church has given a Gold Crown award. To earn this award the local church must have a yearly grade of 90 to 100.

The menu consisted of baked chicken, dressing, noodles, green beans, cranberry salad, giblet gravy, hot rolls pie and coffee.

The pastor, M. Alvin Askins, gave a short talk about Sunday School work and concluded with a devotional. The meeting was dismissed with a prayer. 27 members attended.

**Frionans Attend Meeting At Pampa**

A Region One meeting of the Texas Association of Assessing Officers was held in Pampa, Texas on January 13, 1961, at the Cornado Inn Hotel.

There were 85 assessors present from various cities of the High Plains. Those attending from Friona were: Albert Field, City Manager; Dan Ethridge, Tax Assessor-Collector for the Friona Independent School District; Lois Norwood, Deputy Tax Assessor-Collector for the Friona Independent School District; and Mrs. Dan Ethridge.

The morning session was spent on appraisal of property, then luncheon was served in the Starlight Room. The afternoon session was spent discussing questions of the assessors present. The final act of the day was organization of a North Plains Chapter to be affiliated with the state association.

Dave McReynolds of Hurst, Texas was a visitor in Friona Monday.

**Mekka Circle Met With Mrs. Bainum**

The Mekka Circle met Monday, Jan. 16 in the home of Mrs. Mack Bainum for the regular meeting.

A new study was started entitled "Into All the World Together" with Mrs. Howard Ford presiding.

Mrs. Ernest Anthony read the prayer calendar. The meditation was given by Mrs. Wallace Kirby followed by silent prayer.

Mrs. Arthur Drake presented "A Trip Through Europe" written by Mrs. Betty Thomas.

The hostess served sweetrolls and coffee to Mesdames Anthony, Ross Ayers, Mack Bainum, Bill Baxter, Joe Collier, A. A. Crow, Arthur Drake, Howard Ford, Newt Gore, Guy Latta, Wes Long, Billy Sides and a guest, Mrs. Wallace Kirby.

**Assembly Of God Church Recalls Pastor**

Members of the Assembly of God Church met Monday night to conduct their annual business meeting.

Rev. M. Askins, who has been the pastor of the church since October of 1957, was given a recall vote for two and one-half more years.

The church secretary gave the annual report after which minor changes were made in the church by-laws.

The pastor gave his report and a short devotional. The meeting was closed with prayer.

**Claborns Honored With Farewell Party**

Mr. and Mrs. J. C. Claborn, who have recently moved to Hobbs, were honored with a farewell party in the home of Mr. and Mrs. Wesley Foster Thursday evening, Jan. 12. Mrs. Marion Fite assisted Mrs. Foster with hospitalities.

The Claborns were given a surprise handkerchief shower. Hostesses served refreshments to about 25 guests.

Also, Mrs. Claborn was guest of honor at a neighborhood coffee in the home of Mrs. J. T. Gee before the Claborns moved.

**Party Honors Jill Blackburn**

Jill Blackburn was honoree at a farewell party in the home of Mr. and Mrs. Doyle Cummings, Saturday evening, Jan. 14. Jill is moving to Albuquerque this week to be with her parents Mr. and Mrs. Keith Blackburn.

After participating in a game session, cookies and cold drinks were served to the guests.

Others attending were Frieda Floyd, Monte Sue Welch, Janet Stevick, Sharon Houston, Darlene Wilson, Phyllis Holcomb, Scott Cummings, Larry Johnson, Gary Shackelford, Teddy Renner, Mr. and Mrs. Paul Smith and Mrs. Pearl McClain.

**TEL Class Met Monday**

The TEL Sunday School Class of the First Baptist Church met Monday evening in the home of Mrs. Glenn Williams. Assisting with hospitalities was Mrs. Sam Williams.

Mrs. Frank Truitt presented the devotional.

Sandwiches, mints and punch were served to Mesdames Bill Sims, Jay Sanders, Ralph Taylor, Roy Miller, Ross Terry, Vernon Roberts, James Chandler, Leonard Haws, G. H. Gogins, John Wright, J. T. Carroll, Joe Douglas, Ed Hicks and Frank Truitt.

Visitors in the home of Mr. and Mrs. Karl Bender last weekend were Mr. and Mrs. Vialo Weis and family of Amarillo, Viddan Weis from Perryton and Donnie Ray Renner, Friona.

**Dorcas Class Met Friday**

The Dorcas Sunday School class of the Calvary Baptist Church met Friday, Jan. 13, in the home of Mrs. A. S. Curry.

Mrs. J. M. Bradley gave the opening prayer. Mrs. Elmer Euler presented the lesson taken from the book of Matthew.

Closing prayer was said by Mrs. H. A. Hyde and the group repeated The Lord's Prayer.

Mrs. Curry served sandwiches, sweet rolls, hot spiced tea and coffee to members Mrs. Euler, Mrs. Jim Allen, Mrs. H. A. Hyde, Mrs. V. M. Ferguson, Mrs. J. M. Bradley and three guests Mrs. Thelma Jones, Miss Mattie Hodgson and Mrs. Dan Laceywell.

**Mrs. Awtrey Hosts Circle**

The Maggie Hamlin Circle of the Woman's Society of Christian Service of the Methodist Church met Wednesday, Jan. 11 at 9 a.m. in the home of Mrs. Deon Awtrey.

Mrs. James Boyle, chairman, presided over the meeting. Mrs. Kenyth Cass led the opening prayer.

The topic of the study "One World One Mission" was presented by Mrs. Boyle assisted by Mrs. Jake Lamb and Mrs. I. T. Graves.

**Loyd Messengers Have Baby Girl**

Christine Kay, baby girl of Mr. and Mrs. Loyd Messenger, was born Thursday, Jan. 12 at 10:15 a.m. in the Parmer County Community Hospital. Her weight was 7 lbs. and 2 1/2 ozs.

She has two sisters Cynthia Ann, 4, and Caroline Sue, 3. Grandparents are Mr. and Mrs. W. J. LaFavers, Friona, and Mrs. Beula Messenger, Hereford. Mrs. Eva Emerson, Friona, is a great grandparent.

Mr. and Mrs. Alvie Pope and Mr. and Mrs. Forrest Strate were recent guests of Mr. and Mrs. Everett Talbot.

**Mrs. Claude Osborn Honored On Birthday**

Mrs. Claude Osborn was the honoree at a surprise birthday party in her home Monday, Jan. 16.

After a covered dish luncheon was served the group played games.

Those attending were Mesdames Bill Burton, J. B. McFarland, J. G. McFarland, Sloan Osborn, Roy Clements, Dan Ethridge, J. T. Gee, Frank Spring and George Taylor and Lisa.

**Club Entertained Monday Evening**

The Couples Bridge Club was entertained Monday evening Jan. 16 at the club house by hosts Mr. and Mrs. Bob Ginsburg, Mr. and Mrs. J. T. Gee and Mr. and Mrs. Andy Hurst. Refreshments were served to 28 members.

**Grahams Add Another Son**

James Andrew is the name chosen for the new son of Mr. and Mrs. W. H. Graham Jr. The little boy was born early Monday morning at Clovis Memorial Hospital and weighed 7 pounds 5 ounces.

Maternal grandparents are Mr. and Mrs. O. M. Dudley of Silverton and maternal great grandparents are Mr. and Mrs. H. R. Brown, Silverton, and Mrs. J. B. Dudley of League City.

**Mrs. Shackelford Hosts Bridge Club**

Mrs. Bert Shackelford was hostess to a bridge party in her home Saturday afternoon at 2 p.m. High score honors went to Mrs. Jimmy Briggs.

The hostess served refreshments to Mesdames J. T. Gee, Bill Stewart, Jimmy Briggs, O. F. Lange, Pearl Kinsley, Bert Chitwood and Carl Maurer.

L. P. Cantrell of White Deer and Mrs. Viola Bandy were guests in the home of Mr. and Mrs. E. R. Day Sunday. Mrs. Bandy also visited with her sons Billy and Eugene.

Mr. and Mrs. D. H. Nelson are vacationing several weeks in Arizona. Their address will be 102 E. El Camino Dr., Phoenix.

**FREE BARBECUE--**  
**Lazbuddie FU Sets Fun Night**

Plans are complete for a free barbecue and fun night to be staged at Lazbuddie Thursday night, January 19. All citizens in Farmer County are invited to the festivities. Wyle Bullock, member of committee in charge of plans, announces.

**Vern's Views--**

ago that one L. B. Johnson was afraid he wouldn't get the office he wanted so he put his name in the senate race so he would have a second choice. Unfortunately he got the spot he wanted and the spot he didn't want both so now we get to vote again.

A newspaper publisher in the north has come up with a pretty clever idea for illustrating how unreasonable modern day taxes are.

He would pay his employees all their salary each week, until the last week of the month. Then he would withhold all the month's deductions from the final check of the month.

The way he figures it, an average employee with a wife and no kids would get only \$23.60 the final week if he makes \$100 per week.

No wonder we have so many people riding on the government's shirttail, grabbing all the unemployment compensation possible. If they can, escape paying taxes on a

monthly welfare check, they will have about the same amount of take-home pay as we poor slob who slave all week, mostly for the government's benefit.

Personal initiative is not rewarded much now in this country. Working people pay Uncle Sam 20 per cent of what they make. If a working man works extra hard and is extra smart, he may climb up the ranks high enough where he can contribute 90 per cent of his income to support foreign countries, bureaucrats and bums.

That certainly is something to work for isn't it?

**NOTICE OF PUBLIC HEARING**

Notice is hereby given to all property owners within the city limits of the City of Friona, Texas, and to all other interested persons as provided by law and Section 24 of Ordinance No. 118 of the City of Friona, Texas, that the City Council of the City of Friona, Texas, will hold a public hearing on the 6th day of February, 1961 at 8 p.m. in the City Hall in Friona, Texas, to consider amending zoning ordinance No. 118, presented to the City Council by and approved by the Planning and Zoning Commission of the City of Friona, Texas, and said amendment proposes that all of Blocks Eight (8) Nine (9), and Ten (10) of the Drake Revised Subdivision to the City of Friona, Farmer County, Texas, be changed from an "E" Zone to a "B" Zone, and that All of Block 1, of the Drake's Revised Subdivision to the city of Friona, Farmer County, Texas, be changed from a "C" Zone to a "B" Zone, and that this notice is particularly to all owners of the property described above and to

**News From RHEA**

MRS. FRANKLIN BAUER

**IT'S A BOY FOR WALTER SCHUELER'S**

Gary Don Schueler arrived at Parmer County Community Hospital on January 12th. He is the new son of Mr. and Mrs. Walter Schueler of the Rhea Community. Gary Don weighed 6 lb. and 3 oz.

Other children at home are Vickie age 7 and Wayne Allen age 8. Grandparents are Mr. and Mrs. Herman Schueler of the Rhea Community and Mr. and Mrs. E.O. Woolever of Sudan. Great-grandparents are Mrs. E.H. Woolever of Leveland, and Mrs. J.B. Mitchell of Idalou.

**COMMUNITY TO ORGANIZE 4-H CLUBS**

The county agents will meet with all boys and girls interested in 4-H work Friday night at 7:30 p.m. at the Parish Hall.

It will be decided Friday night whether to organize separate boys and girls clubs or a combined club.

Carl Schlenker is organization chairman for the boys and Mrs. Jack Patterson for the girls.

**LADIES AID MEETS**

Rhea Lutheran Ladies Aid held their regular meeting at the Parish Hall Thursday night.

The meeting was opened with a prayer and the singing of a hymn.

A short business session was held after which Mrs. Carl Schlenker led the topic discussion "Woman on Missions." Mrs. Robert Schueler served refreshments to the group.

**FARM BUREAU MEETS**

Rhea Farm Bureau recently met at the Parish Hall for their regular meeting. Herbert Schueler, Vice-President, presided at the business session. It was decided to let the Home Demonstration club plan the program for the "March of Dimes" collection.

The county agents were in charge of the program on 4-H organization.

Hostesses for the evening were Mr. and Mrs. Herbert Schueler and Mr. and Mrs. Herman Schueler.

Mr. and Mrs. Elmer Deyke recently moved from the Cordie Potts farm to a farm at Parmer-ton switch.

Mr. and Mrs. Dwayne Ridley have moved from Friona to the house vacated by the Deykes. Mrs. Ridley is the daughter of Cordie Potts.

Mr. and Mrs. Ben Estep are moving to the house vacated by Dwayne Estep's, which had been the O.B. Moyer farm. The Dwayne Estep's have moved to Colorado.

Mrs. E.O. Woolever of Sudan is staying at the Walter Schueler home to help with her new grand-child.

**Friona Teachers Have Varied Interests**

Jack O. Roberts graduated from Hardin-Simmons University with a B. S. degree, and is teaching for the first time in the Friona High School. He teaches History and Civics. Jack is single and his hobbies are reading, hunting, fishing and photography.

JACK O. ROBERTS

Mr. and Mrs. Floyd Schueler made a business trip to Oregon the past week.

Mrs. Amelia Rankin of California has been visiting with her mother, Mrs. Floyd Schlenker. While here, Amelia and her brother, Carl Schlenker, flew to Lexington, Mo., to attend the funeral services of her mother-in-law.

Arvin Martensen spent the week-end visiting in the home of his brother and family, the Ray Martensen's. Arvin is in the service and arrived here from overseas duty.

Ray Martensen, Franklin Bauer, and Leland Gustin attended the practice target shoot in Friona Sunday.

Norman Taylor and Jack Patterson were quail hunting at Childress Saturday.

Franklin Bauer, Melvin Sachs, and Raymond Schueler attended the L.L.L. executive board meeting at Amarillo Trinity Lutheran Church the past week.

Miss Melba Rule of Friona visited with Shirley Lynn Smith over the weekend.

Serving her third year as high school librarian is Mrs. Helen Smith, wife of Coach Smith. Her favorite hobby is sewing. She is the mother of two pre-school age children.

MRS. HELEN SMITH

A small boy returned home from school and told his father that he was second in his class. Top place was held by a girl. "Surely John," said the father, "you're not going to be beaten by a mere girl!" Explained John, "girls are not nearly as 'mere' as they used to be."

**Lions Hear--**

help, help for needy, etc. Deputy District Governor Ralph Ireland was also a guest of the club.

Following the governor's speech, the Lions heard a request for aid in raising funds to help with the push being given certain sugar beet legislation now before Congress, Bill Nichols, who is representative here for the Texas Sugar Beet Growers Assn., explained that Friona will be expected to send representatives to Washington in the near future to work in behalf of the measure which would increase beet acreage in this area.

Eddie Neel, who has grown beets here for about 12 years, also spoke.

Teacher asked the pupils to list the nine greatest Americans and all but Johnny submitted their lists.

"Have you finished yet, Johnny?" she asked. "Not yet," he replied, "I can't decide on the catcher."

GUY LEMMOND

**Something To Think About**

6th. Street Church of Christ  
Box 515 -- Friona, Texas

Many of our friends ask us: "Don't you think that all denominations teach some truth?" Yes, we certainly do. The tragedy is that no denomination teaches ALL the truth. If it did, it would cease to be a denomination. The "Truth" does not uphold division, and that's exactly what the word denomination, or sect, means: "A body of persons distinguished by peculiarities of faith and practice from other bodies adhering to the same general system; a body of dissenters from an established or older form of faith." The great need of the world today is to lay aside all denominational and partisan ideas and philosophies, and teach and practice, not a part of the truth but all the truth. This would, for example, eliminate all the denominational differences as concerns baptism. Some teach that baptism is not essential to salvation. Others teach that baptism is administered by either immersion, sprinkling or pouring. Still others teach that baptism must be by immersion but is not for the forgiveness of sins. It is for admission into that church. These conflicting ideas are a result of teaching "some of the truth." To teach ALL of the truth is to teach that there is "one" baptism (Eph. 4:5) That baptism is an immersion (Acts 8:36-39) and that it is "for" the remission of sins, not because sin has already been forgiven (Mark 16:15-16)

**The Church - Man's Link With His God**

To her students of drama and speech, Agnes Futterer used to say again and again, "Think your part." It was good advice then. It is good advice now. To make of life a drama of delight and usefulness it is necessary to saturate ourselves with thought of fulfillment rather than with thoughts of failure. God overarches our highest aspirations and undergirds our lowliest talent. Sometimes His plan and purpose cannot comprehend, but this we know - He is always near. God gave to Joshua the divine reassurance: "As I was with Moses, so I will be with thee: I will not fail thee, nor forsake thee." God is always near; however, it is only as we acknowledge Him and commune with Him that He can give to our lives personal, positive direction. "In all thy ways acknowledge him, and he shall direct thy paths."

An all day Dresden Painting Party will be held on Friday, January 20th. Bring your lunch and a friend and spend the day. Mrs. Louis Jurack will be here from Plainview with all her beautiful things to paint.

**MARCH OF DIMES DRIVE**

Let's all remember "The March of Dimes" and please send your contributions to Mr. and Mrs. John Bengler. It was decided not to have a party or special meeting to raise the money so everyone please help this great cause.

**BLACK HOME DEMONSTRATION CLUB**

The Black Home Demonstration Club will meet Thursday in the home of Mrs. J. R. Braxton. Everyone is urged to attend.

Mrs. Bill Carthel and boys were in Hereford on Sunday visiting her mother, Mrs. McCabe.

Mrs. Bill Carthel was in Panhandle on Friday attending a funeral.

Mrs. Harland Frye and Mrs. Travis Stone enjoyed bowling on Friday evening.

Mrs. George Frye and Kimberly visited her parents, Mr. and Mrs. Truitt Booth, in Dimmitt a few days this last week.

Mr. and Mrs. Allen Bridges and daughter of Amarillo came by Mr. and Mrs. John Bengler's

on Sunday, then they all enjoyed a trip to Roswell, New Mexico where they visited in the home of Mr. and Mrs. Alan Bridges Jr.

Mr. and Mrs. Johnny Bengler Jr. enjoyed supper in Dimmitt with relatives on Monday night.

Mr. and Mrs. T. A. Kelley and girls of Plainview visited in the home of Mr. and Mrs. Tom Lewellen this last weekend.

Ellis Tatum, Fern Barnett, Dick Rocky and J. R. Nazworth were fishing in Devils Lake near Del Rio, Texas this last week. We didn't hear what kind of luck they had but bet they had a good time.

Mrs. Coy Patton and Virginia were visiting and shopping in Amarillo on Saturday. They visited with Mr. and Mrs. Jimmy Patton and Charles.

Mr. and Mrs. Cosco Ivie

visited Mrs. Carrie Wilhite in Muleshoe on Sunday.

Mrs. J. B. Hankin of Lubbock is visiting in the home of Mr. and Mrs. C. H. Hammock. Mrs. Hankin is Mrs. Hammock's sister.

L. L. Deaton and Gene Welch traveled to El Paso and Jaurez, Mexico this last week on business and pleasure.

Mr. and Mrs. Otey Hinds were dinner guests of Mr. and Mrs. Edgar Turner on Sunday.

Mr. and Mrs. Ralph Price and Jeffrey visited Mr. and Mrs. C. E. Hanna in Skellytown over the weekend.

Ann Prewett spent the night Sunday with Miss Pat Burton in Friona.

Miss Debbie Burton was guest of the Bruce Parrs last week while her parents, Rev. and Mrs. Bill Burton, attended convention in Ft. Worth, Texas. Mr. and Mrs. Noyle Wood were guests of the Bruce Parrs on Sunday afternoon.

Miss Linda Baldwin was Sunday guest of Miss Donna Parr.

Mrs. Ellis Tatum was in Muleshoe visiting Mrs. Laura Gilbreath one day last week. Mr. and Mrs. Weldon Tatum and Pamela were Sunday dinner guests in the Ellis Tatum home. Pamela is spending this week with her grandparents.

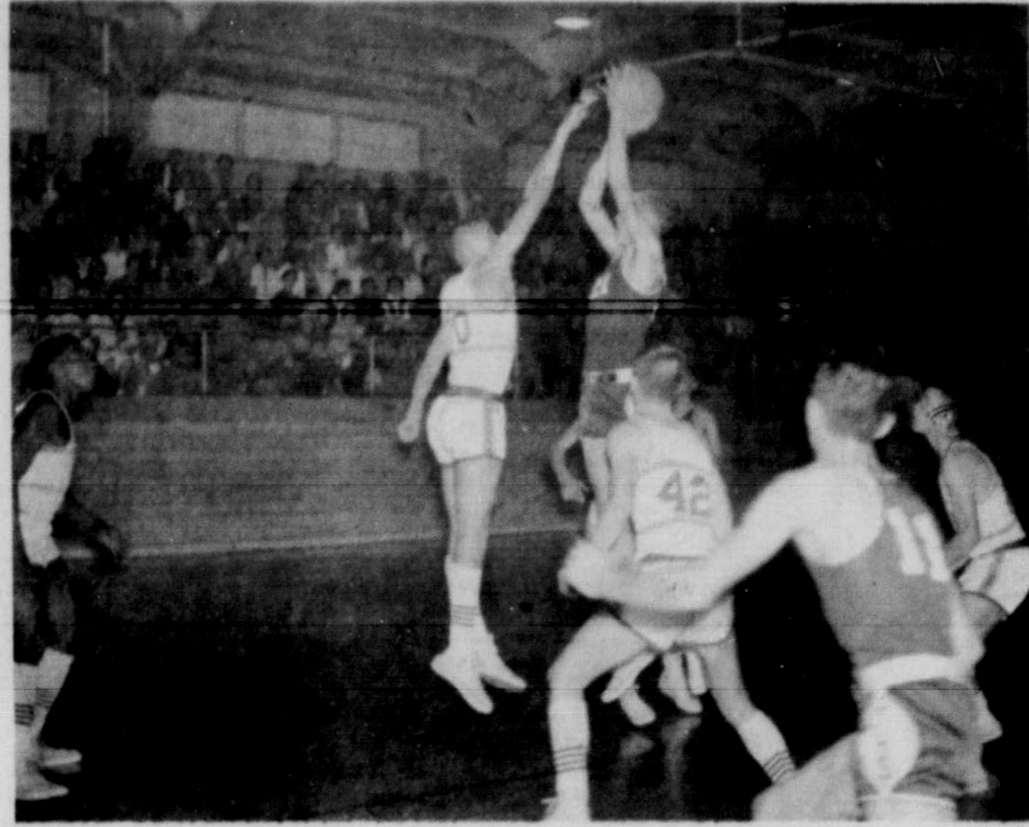

Bill Carthel, Pete Braxton, Travis Stone, George Frye and Charles Meyers have all been to Pecos, Texas this week quail hunting but they didn't report too much luck, just a good time.

Miss Betty Barnett was home from college this last weekend and she brought a couple of her friends with her, Judy Lane of Sunray and Alice Maldonado of Rotan, Texas.

Mr. and Mrs. Fern Barnett spent Sunday night with Mr. and Mrs. R. E. Barnett.

Mrs. J. F. Miller and Mrs. Lucy Welch visited Mr. and Mrs. R. E. Barnett one day last week.

We of the Black Community wish to send our sincere sympathy to Mrs. Helen Fangman, Arnold, Charles and Mr. and Mrs. Teddy Fangman on the passing of a loved one, Mrs. Minnie Fangman of Hereford.

UP AND OVER goes Jim Lillard to get off a jump shot against the Bobcats at Dimmitt Friday night. An unidentified Dimmitt player has gone up almost as high as Lillard, but the tall Chief managed to get the shot away.

Guests in the home of Mr. and Mrs. J. V. Houser Sunday were Mrs. Rose Babcock and Mrs. Joe Nelms of Plainview.

News From RHEA

MRS. FRANKLIN BAUER

IT'S A BOY FOR WALTER SCHUELER'S

Gary Don Schueler arrived at Parmer County Community Hospital on January 12th. He is the new son of Mr. and Mrs. Walter Schueler of the Rhea Community. Gary Don weighed 6 lb. and 3 oz.

Other children at home are Vickie age 7 and Wayne Allen age 8. Grandparents are Mr. and Mrs. Herman Schueler of the Rhea Community and Mr. and Mrs. E.O. Woolever of Sudan. Great-grandparents are Mrs. E.H. Woolever of Level-land, and Mrs. J.B. Mitchell of Idalou.

COMMUNITY TO ORGANIZE 4-H CLUBS

The county agents will meet with all boys and girls interested in 4-H work Friday night at 7:30 p.m. at the Parish Hall.

It will be decided Friday night whether to organize separate boys and girls clubs or a combined club.

Carl Schlenker is organization chairman for the boys and Mrs. Jack Patterson for the girls.

LADIES AID MEETS

Rhea Lutheran Ladies Aid held their regular meeting at the Parish Hall Thursday night.

The meeting was opened with a prayer and the singing of a hymn.

A short business session was held after which Mrs. Carl Schlenker led the topic discussion on "Woman on Missions." Mrs. Robert Schueler served refreshments to the group.

FARM BUREAU MEETS

Rhea Farm Bureau recently met at the Parish Hall for their regular meeting. Herbert Schueler, Vice-President, presided at the business session. It was decided to let the Home Demonstration club plan the program for the "March of Dimes" collection.

The county agents were in charge of the program on 4-H organization.

Hostesses for the evening were Mr. and Mrs. Herbert Schueler and Mr. and Mrs. Herman Schueler.

Mr. and Mrs. Elmer Deyke recently moved from the Cordie Potts farm to a farm at Parmer-ton switch.

Mr. and Mrs. Dwayne Ridley have moved from Friona to the house vacated by the Deyke's. Mrs. Ridley is the daughter of Cordie Potts.

Mr. and Mrs. Ben Estep are moving to the house vacated by Dwayne Estep's, which had been the O.B. Moyer farm. The Dwayne Estep's have moved to Colorado.

Mrs. E.O. Woolever of Sudan is staying at the Walter Schueler home to help with her new grand-child.

Friona Teachers Have Varied Interests

Jack O. Roberts graduated from Hardin-Simmons University with a B. S. degree, and is teaching for the first time in the Friona High School. He teaches History and Civics. Jack is single and his hobbies are reading, hunting, fishing and photography.

JACK O. ROBERTS

Mr. and Mrs. Floyd Schueler made a business trip to Oregon the past week.

Mrs. Amelia Rankin of California has been visiting with her mother, Mrs. Floyd Schlenker. While here, Amelia and her brother, Carl Schlenker, flew to Lexington, Mo., to attend the funeral services of her mother-in-law.

Arvin Martensen spent the week-end visiting in the home of his brother and family, the Ray Martensen's. Arvin is in the service and arrived here from overseas duty.

Ray Martensen, Franklin Bauer, and Leland Gustin attended the practice target shoot in Friona Sunday.

Norman Taylor and Jack Patterson were quail hunting at Childress Saturday.

Franklin Bauer, Melvin Sachs, and Raymond Schueler attended the L.L.L. executive board meeting at Amarillo Trinity Lutheran Church the past week.

Miss Melba Rule of Friona visited with Shirley Lynn Smith over the weekend.

Serving her third year as high school librarian is Mrs. Helen Smith, wife of Coach Smith. Her favorite hobby is sewing. She is the mother of two pre-school age children.

MRS. HELEN SMITH

Teacher asked the pupils to list the nine greatest Americans and all but Johnny submitted their lists.

"Have you finished yet, Johnny?" she asked.

"Not yet," he replied, "I can't decide on the catcher."

Lions Hear--

park, help for needy, etc.

Deputy District Governor Ralph Ireland was also a guest of the club.

Following the governor's speech, the Lions heard a request for aid in raising funds to help with the push being given certain sugar beet legislation now before Congress, Bill Nichols, who is representative here for the Texas Sugar Beet Growers Assn., explained that Friona will be expected to send representatives to Washington in the near future to work in behalf of the measure which would increase beet acreage in this area.

Eddie Neel, who has grown beets here for about 12 years, also spoke.

Something To Think About

6th. Street Church of Christ Box 515 -- Friona, Texas

Many of our friends ask us: "Don't you think that all denominations teach some truth?" Yes, we certainly do. The tragedy is that no denomination teaches ALL the truth. If it did, it would cease to be a denomination. The "Truth" does not uphold division, and that's exactly what the word denomination, or sect, means; "A body of persons distinguished by peculiarities of faith and practice from other bodies adhering to the same general system; a body of dissenters from an established or older form of faith." The great need of the world today is to lay aside all denominational and partisan ideas and philosophies, and teach and practice, not a part of the truth but all the truth. This would, for example, eliminate all the denominational differences as concerns baptism. Some teach that baptism is not essential to salvation. Others teach that baptism is administered by either immersion, sprinkling or pouring. Still others teach that baptism must be by immersion but is not for the forgiveness of sins. It is for admission into that church. These conflicting ideas are a result of teaching "some of the truth." To teach ALL of the truth is to teach that there is "one" baptism (Eph. 4:5) That baptism is an immersion (Acts 8:36-39) and that it is "for" the remission of sins, not because sin has already been forgiven (Mark 16:15-16)

GUY LEMMOND

The Church - Man's Link With His God

To her students of drama and speech, Agnes Futterer used to say again and again, "Think your part." It was good advice then. It is good advice now. To make of life a drama of delight and usefulness it is necessary to saturate ourselves with thought of fulfillment rather than with thoughts of failure. God overarches our highest aspirations and undergirds our lowliest talent. Sometimes His plan and purpose cannot comprehend, but this we know - He is always near. God gave to Joshua the divine reassurance: "As I was with Moses, so I will be with thee: I will not fail thee, nor forsake thee." God is always near; however, it is only as we acknowledge Him and commune with Him that He can give to our lives personal, positive direction. "In all thy ways acknowledge him, and he shall direct thy paths."

HARPER HOOKS—Su-Zan Harper get off one of her specialties, a hook shot, during action against Dimmitt Friday night. Tommy Lewellen, second from left, and Pamela Roden, extreme right move in to control the rebound.

# Dimmitt Floors Friona In All Three Contests

Dimmitt sent a stalling team of seige troops in the first game and overpowering shock forces in the second game to take two district 1-AA basketball games from Friona at Dimmitt Friday night.

The Bobbies stalled throughout the entire final period to beat back a desperate attempt by the Squaws that almost snatched away the victory. Final score was 45-43.

The Bobcats didn't wait so long to erase any doubt about the outcome of the boys game, whipping the Chiefs 59-28.

Dimmitt's B team completely spoiled the night for Friona by taking a 45-24 win in the opener of the three-game card.

The girls game was a thrilling see-saw affair that saw the Squaws grab a lead in the third

period that appeared for a moment to be the turning point, after the Bobbies had led most of the way.

Tommy Lewellen's three-point play put the Squaws ahead for a short time. She drove for a crisp shot and was fouled. The basket counted and she made the free shot. It looked like a Friona victory in the making.

But the Bobbies came battling back and had the lead back before Friona's forwards could get another basket. Dimmitt never trailed from that point.

Pamela Roden, apparently not affected by the pressure, coolly sank two long field goals and three free shots in the closing rush, but the Squaws couldn't break the stall.

In the final game, the Bobcats took the lead after Fri-

ona had scored the first basket. The visitors found themselves trailing by as much as 20 points throughout most of the third and fourth periods.

# New Loop Organized

A new league has been organized at Friona Lanes.

The circuit is for young people and is called the Junior League. It has groups for bowlers from 18 years old down to those who are "barely large enough to roll a ball."

The youngsters bowl at 9 o'clock each Saturday morning. They are broken down into three groups. Bantam includes bowlers 12 and under. Junior division is for bowlers from 13-15 and the senior division includes 16-18 year-old bowlers.

The senior group may change its bowling time to Saturday afternoon since some of the older bowlers have difficulty making a Saturday morning league date.

School children bowl for 35 cents per line each day until 5 p.m. except on Wednesday.

# Friona Star Sports Page

TOP GAME--Esther Ferguson holds the 200 trophy she earned Monday night when she bowled a sparkling 229 in Late Owl League action at Friona Lanes. Her score is the highest in her league so far this year. She is a member of The Friona Star team.

# Over 100 Beginners Expected Next Year

Deadline for completing the school census is less than two weeks away and less than 70 names of children who will be first graders next year have been reported so far.

Superintendent Alton Farr expects over 100 beginners next year and is trying to include as many of them on the census as possible.

Those children that have filled out census forms and will be in first grade next year are: William Bailey, Jackie Bainum,

Cynthia Barnett, Barbara Bass, Debbie Bengé, James Bynum, Jodelle Cole, John Cole, Sherry Deyke, Emerald Floyd, Robert Ginsburg, Rafael Gonzales, Jayson Grimsley, Linda Gutierrez, Katherine Horton.

Rolana Houston, Dwight Hughes, Michael Hughes, Paul-etta Hughes, Pammy Jarecki, Marlene Kearns, Patricia Kirby, Larry Kirk, Byron Lemmond, Katie Lewellen, Donna Kay Lewellen, Michael Martin, Susan Martin, Nancy Martinez,

Benita McAlister, Darrell McMurtrey, Gary Mingus, Delbert Morris, Carolyn Murphree, Niki Nichols, Larry Parr, Weldon Peace, Rene Perez, Patricia Phipps.

Herlinda Ramos, Charles Rector, Domingo Rios, Forestela Ruiz, John Lee Rule, James Russom, Betty Sachs, Nickie Saiz, David Sanders, Kevin Schilling, Sharon Smith, Sharron Stowers, Larry Sutterfield, Renee Taylor, Thania Taylor, Don Terry, Norma Villarreal, Lesia Walker, Debra West.

Holly Welch, Gary White, Garall Wyly, Alan Zeman, Barry Maynard, Danny Joe Parson and Carol Reeve.

# "We Still Have Chance"-Duggins

"If we beat Tullia at Tullia, we still have a chance."

That was the way Squaw coach Baker Duggins summed up his squad's chances for a district championship after they had dropped a heart stopping 45-43 decision to Dimmitt Friday night.

"If we lose at Tullia, it will take some breaks for us to win," he said. "I think we can do it."

The coach, who guided the Squaws to the runner-up spot in the state playoffs last year, said his players weren't "crushed" by the defeat although they were naturally disappointed.

"The other time when we lost to Dimmitt, I think the players

were a little ashamed, because they felt they hadn't played as well as they might have. But they put out everything they had Friday night and aside from normal disappointment, I don't think we will have any lingering after effects," the coach continued.

Duggins says that so far this season his players have convinced him they may have a little less natural talent than last year's squad but that their desire to win is second to no team he has ever coached.

To date, the Squaws have compiled a 14-3 mark and the all-important game with Tullia will be played this Friday night.

The "car of the year"

# & CORVAIR!

Overwhelming acceptance of the new 1961 models introduced last fall—together with the tremendous success of the '60 Chevrolets—has sent Chevrolet passenger car sales to an all-time yearly high. More new Chevrolets and new Corvaairs were delivered to more people during the past year than ever bought any make of car in a single year before. We and your Chevrolet dealer

thank you for your continuing confidence in, and preference for, Chevrolet. Your record-breaking purchases of Chevrolets have significance to everyone thinking of buying a new car this year, and—since sales of new 1961 Chevrolets and Corvaairs continue at record-breaking levels—are a healthy indication of the inherent strength and vigor of our national economy.

See the new Chevrolet cars, Chevy Corvaairs and the new Corvette at your local authorized Chevrolet dealer's

# Gross Farm Income Up, Profits Down Slightly

As Farmer County area farmers get ready for a new crop year, the amount of money "in their pockets" should be about the same as it was last year at this time.

During 1960, gross farm income continued its yearly climb, but only slightly, while on the other hand, profits were down some, due to a steady rise in costs of production.

There are several aspects of last year's farming program which vary some from the year 1959, but everything combined, the overall farming picture varies very little, according to a report released by Farmer County Agent Joe Jones.

Estimated income on grain sorghum, cotton and wheat was \$29,949,000. This does not include other less important crops or receipts on livestock.

Overall, the county agent estimates the county farm income at \$40,000,000. Last year the gross income was \$39,000,000.

Fertilizer costs were down this last year, but considering that most farmers applied more of it to their crops, the savings was probably very small, if any at all.

And, aside from fertilizer, costs of production in most every other phase of farming continued to spiral, once again forcing tighter margins of profit.

Of the three basic crops in the county, wheat fared better, in comparison to the previous year, than did the other two. On 105,000 acres, there were 3,660,000 bushels produced and the income was \$6,405,000.

This was an increase over 1959's 3 million-plus bushels, which made a gross income of \$5,277,000.

And, 1959 was a good wheat year too, compared with the '58 crop on which the gross income was only \$3,600,000.

There was some hail damage to the wheat in 1960, but it wasn't nearly as great as it was on milo and cotton. The severest of the hail storms arrived in the fall, long after the wheat had been harvested.

The 1960 cotton crop was about the same as it was in 1959, with the gross income estimated at \$5,680,000 from a little more than 40,000 bales.

These past two years have been poor ones for the cotton farmer, in comparison to 1958, when this high-income-per-acre crop put about \$9 million dollars into the pockets of county growers.

Biggest chunk of the county's gross farm income came from the milo crop, which once again was a record crop as far as production was concerned. The sorghum was hurt considerably by a late-season hail, but favorable weather prior to the storm, and improved varieties and better farming methods pushed production to a record 22 million bushels.

While income per acre is low compared to other crops, grain sorghum grossed approximately \$17,864,000 for county farmers. Of the county's 450,000 acres of cultivated land, 260,000 acres were planted to grain sorghum.

While there are no complete figures available on vegetables, the acreage planted in cantaloupes, potatoes, carrots and the like, did gross more than it did in 1959. Not all vegetable growers had a better year, but generally there were greater profits from these crops.

Cattle prices declined somewhat, but again, there are no estimated figures on just how much.

Castor beans, a minor cash crop which was grown in this area for the first time in several years, grossed farmers approximately \$2,000,000. There were about 20,000 acres of castor beans grown in the area.

In the gross farm income figures is reflected the general economy picture for Farmer County. Since agriculture is the predominant factor of the local economy, the success of the farmer also determines whether or not business as a whole is successful.

Considering that it was a relative poor year for some of the crops, due largely to the weather, the gross farm income reveals continued success for most Farmer County farmers.

In spite of the many things against them, the men who till the soil continued to make progress.

## Castro-American Troubles Figure Big In Sugar Future

### Friona Man Elected To Association Post

Frank Moore, of Plainview, President of the Grain Sorghum Producers Assn, left Sunday for Washington, D. C., where he will meet with congressional and administrative officials on strengthening the position of grain sorghum in Price and in world markets.

Thirty-five directors from the eleven county area were present to elect officials for 1961. Besides Moore as Pres., three new vice-presidents were elected. They are R. G. Peeler of Hereford, vice-president in charge of legislation, Sam Gilbreath of Dimmitt, vice-president in charge of market development and A. W. Anthony Jr., of Friona, vice-president in charge of research and education. Elected secretary-

treasurer was Elbert Harp of Abertney.

The three new Vice-Presidents were named that the association might more efficiently carry out its program of grain sorghum, research, education and service.

Bill Nelson executive-vice-president of the Feed Grain Council told of his recent market development tour of Japan. He said the Japanese feed industry has a vital interest in grain sorghum for livestock feeding, as the Japanese people are steadily changing their diet habits from rice to meat. Though the efforts of the G. S. P. A. a team of Japanese feed industrialists were brought to this area last fall and as a result of that tour Japan has purchased nearly 200,000 tons of Milo with more orders forthcoming.

R. G. Peeler reported on his recent tour of Europe. He said that the use of grain sorghum in livestock feeding in Europe is increasing and that through

### HD Agent's Gossip

BY MISS ETTIE MUSIL

Welcome again to another week's chatter. Wish you could have been with us last week in Amarillo. We saw and learned so much. A special training meeting was conducted for all home demonstration agents and agricultural agents of the 22 counties in District 1.

During these two days we were trained in writing better news stories for the newspapers and radio. So many people that we are responsible to never come by the office or ever see us. Of course, they are always welcome.

Since it may be impossible to meet everyone in the county we try to reach most of the people through the newspaper or on the radio. Can you imagine a newspaper visit? We try to guess the questions you would want to ask us. Seems strange to be writing the answers before the questions are asked. We, also, want to share news with you.

Another training session we had at the District meeting made us very concerned about all of our survival. In case of a hydrogen bomb attack where would you hide for two weeks? What would you eat? Where would you sleep? What would happen to your livestock? Have you seriously thought about the protection of your family from radioactive fallout radiation.

Yes, you've probably heard people say, "Oh, it won't happen here!" or "We've had these scares before and nothing ever

happened." Even if we were not attacked, could you protect your family from an accidental bomb explosion?

You know, a nuclear laboratory exploded by accident in Idaho about two weeks ago. There was so much fallout radiation that the bodies could not be rescued for days and over a week. People could not get out of their homes or shelter during this dangerous time. Wonder if they had enough food and water to stay indoors for two weeks? Could you, if you had to stay indoors for two weeks? Even for snow and ice storms we need a good supply of food on hand, for a week or two.

Any mass of material between you and the fallout will cut down the amount of radiation that reaches you. Concrete or bricks, earth or sand, are some of the materials heavy enough to afford protection by absorbing radiation.

There is about the same amount of shielding in 8 inches of concrete, for instance as in 12 inches of earth, 16 inches of books, or 30 inches of wood. For more information about fallout shelters and food supplies let us -- Joe W. Jones and me -- try to help you.

On our way home from Amarillo we stopped by to see Mrs. William Wimberly, 2 1/2 miles northwest of Dawn. The windbreak around their home was truly a treat to see. Even though it was a little windy Wednesday afternoon it was calm and so pleasant around their home.

Mrs. Wimberly told us that they were one of the demonstrators in this area to plant and care for a windbreak. They planted the red cedars, ponderosa pine and Austrian pine in 1945 on the west side of the house. The main windbreak was planted in red cedars placed about ten feet apart in each of the two rows. Ponderosa pine and Austrian pine were planted closer to the house and in the slight arch at the ends of the approximate 300 foot windbreak rows. Now the trees are about 20-25 feet high.

The Great Plains Field Station of Woodward, Oklahoma sponsored this result demonstration. This experiment station has done much research on trees adapted to this Great Plains area. From this demonstration, still in action over 17 years, is proof of the red cedar, ponderosa pine, and Austrian pine adapted for our county.

Let us know if you would like to make a visit in a group to see this windbreak. Maybe if enough of you are interested we can make the trip to see the trees. Mrs. Wimberly extended an invitation to us to bring a group.

The U. S. sugar program is at "a crossroads" because of the Cuban-American crisis and Congress this year probably will extend the Sugar Act for only a short, temporary term, a high-ranking government sugar expert has predicted.

Tom O. Murphy, Deputy Director of the Sugar Division of the U. S. Department of Agriculture, Washington, told the 15th annual meeting of the National Beet Growers Federation that "there now can be no question whatsoever concerning Communist domination of the present Cuban government or its extreme anti-American bias."

And this problem Murphy said, has raised "the most serious kind of question about continuing, under the present Cuban government, the traditionally preferred position which Cuba has had in our sugar market."

The present Sugar Act, which sets marketing quotas for both domestic and foreign sugar pro-

ducers, is due to expire next March 31. Murphy said he thought Congress will vote a short-term extension so that legislators will have time to study the long-range sugar policy of the nation.

The Sugar Act was built on the three principles of preserving a domestic sugar industry, promoting our export trade (especially with Cuba) and providing a dependable, inexpensive supply of sugar for consumers, Murphy said.

All three objectives have been achieved with remarkable success, he said, but Congress now may want to re-examine the U.S. position vis-a-vis Cuba.

Under the U. S. sugar program, Murphy said, "the value of the Cuban sugar crop on a per capita basis has risen to ninety-one dollars, or six and one-half times what it had been in 1933" before the Sugar Act.

"In addition, while Cuba remained essentially a one-crop economy, the national in-

come had been enhanced by the production of services in an amount far beyond anything that could have been foreseen a generation earlier," he said.

Murphy pointed out that Cuba, in return for the favored treatment she received as the largest sugar supplier (3 million tons annually) to the U. S. market, reciprocated by always making available her enormous sugar resources during wartime and period of international crisis.

He said, however, that "we can all agree that this is no time to take a chance on a beet sugar shortage" and that lifting of acreage controls by the Department of Agriculture earlier this year will stimulate beet sugar production to the maximum capacity of processing factories.

A second speaker at the three-day meeting of 350 officers and directors of 18 state and regional sugar beet grower associations from 11 western states was Phillip E. Jones of the U. S. Beet Sugar Association, Washington, D. C.

Jones analyzed the production and marketing future of the beet sugar industry, predicting a 2.4 million-ton production of sugar this year and 2.65 million tons next year. And for 1962, the sugar economist said, production could reach 2.7 million tons.

The question is, however, how much of this sugar can be marketed, he said. In recent

years, he said, beet sugar marketings have increased at a rate of about 100,000 tons a year which means that in 1961 the industry should market a record-breaking 2.4 million tons of sugar.

The tremendous boost in per-acre yields is increasing annual production by about 50,000 tons of sugar, he said. And technological advances in processing have more than doubled factory efficiency in the last 28 years.

Jones pointed out that long-range expansion of the industry cannot be effected without long-term sugar legislation.

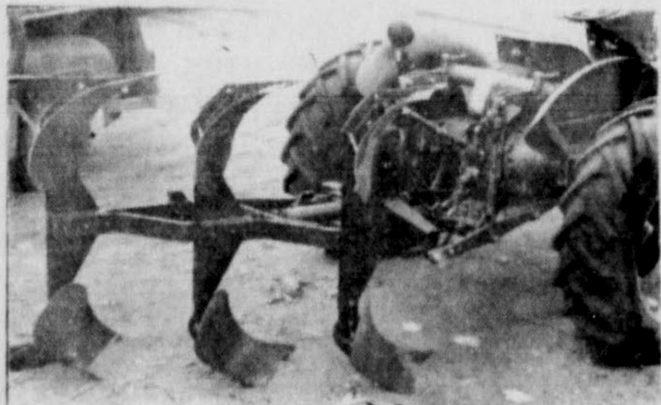

"No Board of Directors is going to approve major investments for expanding existing plants, or for constructing new plants, unless there is some reasonable assurance that they are going to have a market for their product," he said.

Other speakers today included Gordon Lyons, Executive Manager of the California Beet Growers Association, Stockton, Calif.; H. O. Belknap, General Manager, Western Beet Sugar Producers, San Francisco; Dr. John S. McFarlane, U. S. Department of Agriculture, Salinas, Calif.; and Dr. Jay Hadcock, U.S.D.A., Logan, Utah.

The meeting closes Friday with action on resolutions and elections of officers. The Federation is expected to ask Congress for an immediate short-term extension of the Sugar Act.

the continued efforts of the Assn. the potential of increasing the use of grain sorghum in their feeding operations is great.

B. M. McGinley, association field representative, said there is tremendous potential for the development of small and medium sized feed lots in the Plains area. He said by creating smaller units the added income derived from the projects would be spread over a larger geographical area resulting in an overall improved economy.

In February 1960, the G. S. P. A. was successful, through its efforts in Washington in preventing the support price on Milo being set for the 1960 crop at \$1.22 per hundred pounds. This action alone meant three quarters of a million dollars to the sorghum growers of Farmer County.

An objective of the G. S. P. A. for 1961 is to get grain sorghum supports tied to corn. At the present support on corn with grain sorghum 95% the feed value of corn and in instances as in Poultry feeding 105% the value of corn grain sorghum should be supported at \$1.90 per hundred pounds. This would give the grower a fair return of his investment and labor. In short we as grain sorghum growers could keep on keeping on.

### HD Council Holds Series Of Meetings

A series of committee meetings of the Farmer County Home Demonstration Council were conducted January 12 and 13 in the courthouse at Farwell in the office of the county home demonstration agent.

Twelve committee members of the citizenship education, finance, health safety and civil defense, recreation, and yearbook committees attended the one hour trainings under the leadership of Miss Ettie Musil.

Recommendations of these committees will be presented by the committee chairmen in the Home Demonstration Council in a meeting Monday, January 23, at 2:00 p.m. in the extension service office at the courthouse.

During the committee trainings the recommendations were made, duties of committee members were reviewed, and ways of carrying out these programs were discussed.

Serving on the citizenship committee this year are Mrs. Fern Barnett, chairman; Mrs. Earl Drake, and Mrs. John Hand. On the education committee are Mrs. Grady King, chairman; Mrs. Gilbert Kaltwasser, Mrs. T. J. Hopingardner, Mrs. Flake Thurman, and Mrs. Claude Watkins.

Chairman Mrs. Ellis Tatum, Mrs. R. H. Cocanougher, and Mrs. R. L. Foerster are on the finance committee. Mrs. Bob McMeans is chairman of the health, safety, and civil de-

# Not Perfect Year, But Sesame Yielded Well Anyhow

## Ex-Parmer Man Had Top Yield

Veteran Sesame grower Fred Carthel, who farms three miles north of Lockney, was the Nation's No. 1 grower this year. Carthel's 35-acre field of Margo sesame, which he described as "Chin high and mighty pretty," yielded 1,220 pounds of clean seed per acre. At the expected price of \$10.25 per hundred pounds, his gross income from Sesame will be a pleasing \$125, per acre.

Carthel, who commented "I wish I had grown a half section of Sesame" can make his wish come true next year, according to Robert L. Parker, executive vice-president of Texas Sesame Growers, Inc. "The market for Sesame seed continues to expand," said Parker, "and High Plains farmers are in the best position to supply this increased demand."

Texas Sesame Growers, Inc., the growers' marketing organization with headquarters at Paris and Muleshoe, Texas, forecasts that the available world supply of No. 1 quality sesame seed will remain relatively tight all next year and that present good prices can be maintained. In fact, 1961 is already shaping up to be a very excellent market year for sesame seed.

This is Carthel's fourth consecutive sesame crop. He made three good crops on his farm north of Farwell in previous years but admits this year's crop near Lockney is his best. Carthel attributes his good yield to a few key farming practices that any good farmer can duplicate. First among these is to plant early, just after cotton is planted in May; second, plant about 1 1/2 to 2 pounds of seed per acre; third, plant up on a little bed, like vegetables are planted, to help keep a stand in the spring; fourth, irrigate as needed, but not too much during a wet cool summer like the one just past; and fifth, harvest sesame when it's ready.

"That's all there is to it," says Carthel, "you farm sesame just like cotton."

Parker points out the last two cool, wetter than normal summers on the Plains place extra emphasis on early

plantings, in order to give the crop maximum length of time for maturity and harvest. "Early planted sesame that missed severe hail damage did exceptionally well all over the Plains this year," reports Parker. "In fact yields are best since the record breaking sesame year, 1958."

In the Plainview area, Carthel's neighbor, first year grower James Taylor, produced just over 1,000 pounds of seed per acre. Twelve miles north of Lockney, veteran grower M. R. Moran grew 90 acres that produced 1,104 pounds of clean seed per acre. Buyers reported Taylor's and Moran's seed, combined before the big October rains, was the finest quality ever received by them.

Wayne Miller who farms 14 miles south and 3 east of Plainview made about 1,100 pounds per acre from his field of Oro.

In the Halfway area, third year grower Clyde Harrell harvested 62,142 pounds of clean seed from 60 acres, for an average of 1,036 pounds per acre. In the same area, Weldon Craig who started growing sesame in 1954 and was one of the original half dozen High Plains Sesame Growers, combined 45,783 pounds of clean seed per acre on his first 44 acres, for an average yield of 1,041 pounds per acre. Fifty eight acres of Craig's Dulce sesame still being harvested at the time of this report looks just as good.

The Olton areas top Sesame producer is Don Spain, owner and manager of Olton Farm Supply Store. Spain, whose field had enough skips in the row that he considered re-planting it last June, made 1,091 pounds of re-cleaned sesame per acre. His field located 2 miles west of Olton on Highway 70 attracted much attention from passers-by during the summer.

Parmer County, which over the years has produced more top sesame yields than any other county, was led this year by father and son team Levi and Billy Johnson. The Johnsons farmed 238 acres of sesame in the Oklahoma Lane community and produced yields ranging from 1,013 pounds to 1,213 pounds per acre on their early May planted sesame.

In the Muleshoe area, top yield honors went to Rudolf Jesko for a field of double row sesame planted June 13-15. His 44 acres, located 3 miles west and 4 north of Muleshoe averaged 1,098 pounds per acre. Jesko's yield is very outstanding considering the late planting date. Rain and hail damage at harvest time probably prevented this field from producing 1,400 pounds per acre, or more.

South of Muleshoe in the semi-dryland area near Goodland, Baker Johnson's early sesame turned in another out-

Fred Carthel, A Former Parmer County Man

## Lotsa Beef On Hoof

The estimated 1961 meat production will provide consumers of the U. S. with the largest supply of meat in history, both in total and per person. If the estimates prove correct, Lloyd Bergsma, extension livestock marketing specialist, says consumption of red and poultry meats would exceed 200 pounds per person for the first time in history.

Bergsma says livestock producers will be faced with a generally downward trending market during 1961. Prices during the first half of the year will not feel the effect of increasing supplies as strongly as those for the last half.

He expects slaughter cattle to average near 1960 levels standing performance. It produced 895 pounds per acre with only one light irrigation. The seed quality was excellent. There were many other good yields in the Muleshoe area.

In the Lubbock area, Powell Adams who farms just south of the old Texas Agricultural Experiment Station, produced 939 pounds of clean Margo sesame per acre. Adam's best field of sesame was irrigated only once every other row, and yielded higher than his second field which received 2 irrigations during the summer.

Across the state line in New Mexico, opposite the Higginbotham Community in Gaines County, three farmers were pleased with the performance of their Oro sesame. Oro is the new white seed branching variety released by the Department of Agriculture in 1960. W.H. Wise, L.E. Sims, and L.L. Coats report yields of 850 pounds per acre or more with Oro. Everything considered, 1960 was a little wet and cool for perfect sesame production, but good Plains farmers harvested some mighty fine yields anyway.

during the earlier months of 1961, but increasing supplies of grass cattle and more competition from expanded hog production are expected to have their effect by late summer. The greatest price drops are forecast in the lower grades of cattle.

The specialist expects a continuation of the herd build-up which started in 1958. But, he adds, weather conditions can play a mighty important role. Cattlemen can be expected to react quickly to changes in crop and pasture conditions, since cattle numbers on the farms and ranches of the nation are now at an all time high.

On the brighter side, Bergsma says consumers have, partially at the expense of other meats, increased their consumption of beef and he sees a continuation of this strong demand. This trend should help ease the downward pressure on prices resulting from the expanded supplies. The increased domestic supplies of stocker and feeder cattle will continue to reduce the level of cattle and beef imports, says Bergsma.

Lower cattle prices do not necessarily mean that profits will be absent in cattle enterprises. But, Bergsma suggests to producers they study the price indicators when planning their operations.

## WITH THE COUNTY AGENT

JOE JONES

Soil test recommendations are being returned to farmers who have sent in samples. I received copies of 15 test in this morning mail. Don't wait too long to send those samples off. Several of these samples were sent off on Jan. 5.

To date, Melvin Sachs, Rhea community; A.R. Reznik, north of Friona; and Dee Chitwood, Jr., Lazbuddie, have volunteered to serve as fertilizer demonstrators in 1961. Demonstrators will compare soil test recommendations on cotton and grain sorghum with fertilizer program followed in 1960 or the one planned for 1961 before the soil analysis was made.

We need 20 demonstrators each for cotton, grain sorghum in 1960, and 20 for wheat to be seeded in the fall of 1961. I believe a lot of you would be interested in helping the committee on soil fertility get information of this type on at least one crop.

If so, see A.L. Black, chairman of the committee or members: Bob Wilson, Jack Patterson, James Mabry, Bill Nichols, Bob Anderson, A.W. Anthony, Jr., A.L. Hartzog, Warren Embree, or come by and discuss this with me. We need enough good records kept to determine just what results were obtained when soil test recommendations were followed and compared to previous fertilizer programs.

Three tours to visit 4-H club members projects before show time have already been held. Several more have been planned for the next few weeks. A total of 61 people attended the three tours. Leaders, parents, and members all were very enthusiastic at the chance of observing what others are doing.

Several people were by to pick up windbreak tree order blanks. Better not wait much longer as orders must be received at College Station by Feb. 10. Check the Home Demonstrations Agents column for interesting information on windbreaks.

Don't wait too long to get your wheat top-dressing on. Usually February is considered the month to apply a top-dressing of nitrogen. The wheat head forms very early in the spring. To be certain, the head has not formed, apply the top-dressing before March 1. The soil test will tell you how much to apply.

If you need the 1961 Farmers Tax Guide, drop by our office, second floor of the courthouse, and pick one up.

### Effect Of Planting Date On Yield And Lodging Of Corn

Even though high yields of corn can easily be grown on the irrigated High Plains, there is still a lack of interest in corn as a cash crop due primarily to one problem.

That problem is lodging or falling down, which ordinarily occurs after physiologic maturity but before the moisture content of the grain is low enough to harvest.

Therefore, if a mechanical harvester is used before lodging occurs, the corn must be dried; or if the corn is left in the field until it is dry enough to harvest, a larger percent of it is often down and must be picked by hand.

These facts, plus the fact that very few grain elevators in the area are equipped for drying and handling corn, decrease the desirability of corn as a cash crop.

Lodging can generally be attributed to two factors: (1) a lack of moisture during the growing season, and (2) the Southwestern corn borer which weakens the plant by boring into the base of the stalk.

There is no known practical method of controlling this pest with insecticides, but previous tests in Oklahoma have shown that by planting early, damage by the corn borer can be reduced greatly. This test was designed to determine the most desirable planting date for corn in this area from the standpoint of high yields with a minimum of lodging.

Two hybrids, Northrup King KT 6 and Texas 30, representing early and late maturing varieties respectively, were planted on three dates: April 21, May 5, May 20.

Forty-four seed were counted out for each plot in order to average one plant every six inches. The plots were two rows wide and 22 feet long, arranged in a split-plot design

though the yield was much lower. The lower drying cost and lodging percent accounted for this.

Lodging is definitely affected by planting date, with early (April) plantings having the least amount and increasing with each later planting.

For highest yields, early maturing hybrids should be planted about May 1-15 and late maturing hybrids from April 15 - May 1.

It appears that much of the lodging could also be prevented by harvesting corn at about 25 percent moisture. Early harvesting should eliminate any serious lodging, making it possible to get nearly 100% of the crop with a combine.

Corn production on the irrigated High Plains can be very profitable by planting high yielding hybrids at the optimum time and harvesting before lodging occurs.

### 1960 Corn Variety Test

Sixteen varieties of corn were evaluated at the High Plains Research Foundation during 1960. Grain yields ranged from 138.09 to 172.01 bushels per acre. The average yield of all sixteen varieties was 155.15 bushels per acre.

The sixteen varieties were planted in four-row plots 50 feet long on April 21. There was a spacing of 40 inches between rows. In order to provide a uniform stand, 100 grains of corn were planted throughout each 50-foot row. The experimental design consisted of a randomized block with four replications.

All plots were thinned by hand to a stand of one plant every 10 inches during the period from June 9 through June 14. Due to frequent rainfall, the plots were only cultivated one time during the growing season. It was necessary to hand hoe all plots two times from planting to harvest. All plots were fertilized with 120 pounds of nitrogen per acre from Uran on May 23. The experimental area was planted to cotton in 1959.

A preplant irrigation of approximately 4 inches was applied on April 4. During the growing season all plots received three additional irrigations of approximately 3 1/2 inches each on July 26, August 10, and August 23. Rainfall received during the growing season amounted to 21.60 inches. During July, 12.46 inches of this amount was received, and water stood in all plots for four days. A light hail on May 17 caused slight damage to the leaves of all varieties in the experiment.

Agronomic data on plant characteristics and performance were taken for each plot. Early vigor was rated as follows: 1 - very good; 2 - good; 3 - fair; 4 - poor; and 5 - very poor. Percent stalk breakage was determined by counting the number of stalks that were broken below the ear. Ear pendancy was rated visually as follows: 1.0 for ears hanging

## Three Directors Elected In Water District Voting

Residents of the High Plains Underground Water Conservation District elected three district directors and 26 county committeemen in a district-wide election last Tuesday.

John Gammon of Lazbuddie was re-elected a director from Precinct 3, Bailey, Castro and Farmer Counties. He ran unopposed and received 53 votes.

Other district directors elected were Elmer Blankenship, Precinct 1 (Lubbock and Lynn counties), and T. L. Sparkman Jr., Precinct 4 (Armstrong, Deaf Smith, Potter and Randall Counties).

Two committeemen in each of the thirteen counties comprising the water conservation district were also elected.

Re-elected committeeman-at-large from Farmer County was Walter Kaltwasser with 17 votes. He won over A. B. Wilkinson who had 16 votes. Other candidates on the ballot and their votes included Raymond Schueler 7, Wayne Garth 7, and Gene Smith 5.

Elected committeeman from Precinct 4 was Joe B. Jennings

with 6 votes. D. B. Ivy received 3 votes.

The district directors were elected for two-year terms of office while the committeemen were elected for three-year terms.

The board of directors is a policy-making body which outlines the work program of the tax-supported water district.

The county committees issue well-drilling permits and serve in an advisory capacity to the district's board and staff.

### Number Families Receiving Extension Aid Sets Record

The number of farm and urban families, homemakers, and youth receiving assistance from the Cooperative Extension Service of the U. S. Department and Land-Grant Colleges and Universities last year set a record.

As 1960 nears its close, the Extension Service said that nationally more than 13 million people took advantage of the agency's "out-of-school" educational program to help solve farm, home and community problems. This was an increase of 7 percent, over a million people, over the previous year.

County agents estimated they answered over 8 million requests for assistance on problems related to agricultural production and marketing. Home economics workers helped almost 8.5 million families solve home and family living problems involving home management, foods, nutrition, housing, clothing and financial planning. Enrollment in 4-H Clubs reached 2,301,722. All are records, the Service said.

Demands from nonfarm families for assistance in gardening, landscaping, consumer buying and related subjects continued to grow. Extension workers also assisted large numbers of farm cooperatives, agricultural supply and marketing firms and county and community groups.

### NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

The March of Dimes is underway throughout the nation, and we hope our people here at home will not forget to contribute liberally to it. The National Foundation is still doing much for the alleviation of juvenile illnesses, in fact, more than it has ever done before, since it has adopted birth defects and rheumatoid arthritis and other diseases. Cary Joe Magness, chapter chairman, and his workers are doing a lot of work individually and collectively in this interest and are due your financial support for their efforts, we believe.

\*\*\*\*

We wish to compliment American Legion Posts who have made available to the public the showing of "Operation Abolition," the film depicting actual scenes of the San Francisco Communist-inspired youth movement against hearings of the un-American activities committee last year.

\*\*\*\*

There is a bill to be presented in the Texas legislature to change the handling of state fuel tax refunds. It would make them fileable annually on the same dates as the federal refund dates. Farm Bureau favors this bill.

Nine of the nineteen congressmen who endorsed the 1960 version of the Poage farm bill were defeated and will not be meeting this year. Farm Bureau opposed this bill.

\*\*\*\*

We are not expecting any miraculous improvement in the farm program this year, or any other year. We do believe that Farm Bureau will have an important part in correcting some of the mistakes of the past. We also believe that if you have constructive ideas the best place to see them put into action is through your Farm Bureau, the largest general farm organization in the world.

For those who may be confused, Farm Bureau membership consists only of those who have paid dues of \$10 or more within the current calendar year. Farmer County Farm Bureau sent to Waco five hundred memberships from the date of 1-1-60 to 10-31-60. Present paid membership is 540.

\*\*\*\*

Consider this: "He that saith unto the wicked, Thou art righteous; him shall the people curse, nations shall abhor him." Prov. 24:24

## Texas Corn Acreage Down

The decline in Texas corn acreage continues from year to year while the upsurge in grain sorghum production goes on apace.

In 1959, the latest year for which full figures are available, corn was cultivated on 1,526,000 Texas acres, yielding about 42,728,000 bushels with a value of \$47,438,000. This compared with more than 7,500,000 acres in grain sorghum.

But back in 1903, 5,816,146 acres in Texas produced 140,750,733 bushels of corn with a value of \$67,560,352. The average corn crop for the period from 1937 to 1946 was 70,422,000 bushels from 4,392,000 acres.

The decline in corn acreage is largely a result of greatly expanded grain sorghum production, which has been found to be more adaptable generally to Texas soil and climate conditions. Besides this, many small East Texas farms are being placed in pasture. It used to be that corn acreage was second only to that of cotton. Now it ranks fourth in Texas, being exceeded by grain sorghum, cotton and wheat, in that order.

Most Texas corn production is in Central and East Texas, or east of the 30-inch rainfall belt. Some corn is grown in certain areas of West Texas, but low rainfall and heat there during the growing season make

corn production somewhat hazardous.

At the same time, the average yield of corn in Texas is on the increase. Where Texas farmers harvested an average of 15 to 22 bushels per acre for many years prior to the 1950's, their average yield in 1959 was about 28 bushels, highest on record.

The average Texas yield is well below the national average of about 40 bushels per acre because of insufficient moisture during the growing season over the great part of the producing area. Then, too, there are the high temperatures and hot, dry winds usually encountered in Texas from the middle of July through the remainder of the summer.

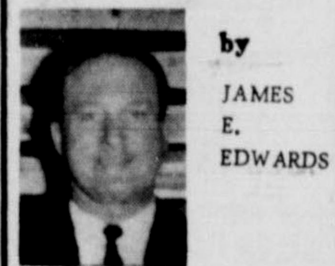

Some 25 insects have been found to be especially troublesome in corn production. Among the more serious are earworms, chinch bugs, cutworms, army worms, grasshoppers, corn borers, white grubs, rootworms, wireworms, root aphids, leaf aphids, webworms, flea beetles and weevils that attack stored corn. Among the more important factors in reducing insect damage to corn is the choice of well-adapted hybrids for planting.

On most types of soil, corn generally is planted in some kind of rotation with other crops.

Consumers continued to benefit from Extension work. Their educational work on the proper use of agricultural chemicals to insure supplies of food and fiber required to feed and clothe the growing population was cited as one example. Extension workers last year received about 10 million calls for assistance in insect control.

### FOOTSAVING EDUCATION

by JAMES E. EDWARDS

THIS WEEK a doctor reported that three out of every four develops foot trouble in the first twenty years.

He said, "Since most foot trouble is caused by ill-fitting shoes, parents should learn how to select the right shoes for their children as they grow up."

To help interested parents, this writer will answer questions in a weekly column. Mail your question to

## Farm Agent Says Soil Testing Is Practical Tool

It's good business to anticipate the fertilizer needs of your crops before deficiency symptoms can be seen on the crop itself, according to County Agent Joe Jones. Waiting for a deficiency to develop is a poor practice, for by then crop losses already have taken place.

In present-day farming, the real problem is to know how well a particular fertilizer is meeting the needs of a crop.

Jones pointed out that once a farmer has embarked on a fertilizer program, its value in meeting the needs of the crop from year to year can be estimated by soil tests. Soil testing is a practical tool that tells you what you want to know about your soil before the trouble appears and before it's too late to correct it.

By following a regular program of soil testing, you can

avoid loss in yield and low profits resulting from hidden hunger of your crops. Soil testing is the modern way to determine your fertilizer and lime needs. Soil test - don't guess, suggests the county agent. And, he adds, assistance and information on this important subject are available from his office.
